College of Public Health

The College of Public Health was formerly the College of Health Professions and Social Work.

Laura A. Siminoff, Ph.D., Dean
1938 Liacouras Walk, Room 202
215-204-5200
http://cph.temple.edu

Since its inception in 1966, the College has prepared well-rounded practitioners who are sensitive to patient/client needs and whose professional competence is built on a solid foundation of theory, laboratory practice, and clinical fieldwork/internships. The college offers undergraduate programs that include Athletic Training, Health Information Management, Kinesiology, Linguistics, Nursing, Public Health, Speech, Language & Hearing Science, Therapeutic Recreation, and Social Work. Students graduating with a B.S. degree from Health Information Management, Kinesiology, Nursing, Public Health, or Therapeutic Recreation meet the entry-level requirements of their professions and are qualified to take state and/or national examinations leading to certification or licensure in their fields.

Vision Statement
The College of Public Health aspires to be a global leader in the discovery, dissemination, and integration of health and social welfare related research, practice, and teaching. Our diverse population of students and highly recognized faculty seek to enhance the quality of life for all.

Mission Statement
The College of Public Health prepares future generations of professionals through discovery, ethical practice, and lifelong learning.

Admissions
Those seeking undergraduate admission to the programs in the College of Public Health must apply through Temple's Undergraduate Admissions office at admissions.temple.edu. Prospective students who wish to obtain additional information about our programs are encouraged to visit the College's website at http://cph.temple.edu or send an e-mail to the Office of Enrollment and Student Services at OESS1@temple.edu.

Entering undergraduates, whether freshmen or transfers from other institutions, are admitted to these programs by submitting an application to Temple's Undergraduate Admissions office. Decisions are based on a review of the applicant's academic credentials. Current Temple students may also enter these programs by applying for a change of program within the university. Interested students should direct admission questions to the Office of Enrollment and Student Services by e-mail to OESS1@temple.edu or to the specific department of interest to them. Current Temple University students interested in transferring to one of these majors should review the relevant section below, which describes the required change of program sessions.

Admission to the Nursing Program
Temple's BSN program is a four-year program enabling students to begin fieldwork experience during their first year. The BSN program provides three entry options depending on students' background and education. There is a freshman option for highly qualified high school graduates. Space permitting, the BSN program accepts a limited number of transfer students from current Temple students or from external applicants enrolled in another college or university. Internal transfer admission decisions are highly competitive and made on a space-available basis. This transfer option requires students to begin the nursing program as first-year nursing students. Students admitted via this option will spend eight semesters in Temple's BSN program, entering the program in the fall semester. This option is recommended for Temple students with fewer than 30 college credits. More information about admission to Temple's BSN program is available at BSN Admissions (http://cph.temple.edu/nursing/academic-programs/bsn-program/admissions).

Admission to the Health Information Management Program
Prospective first-year students can declare the Pre-Health Information Management major within the College of Public Health. Students following this path should pay careful attention to the requirements and meet with their academic advisor.

During the fall of the sophomore year, students interested in admission to Health Information Management (HIM) must apply to the program. Students may apply prior to completing all of the prerequisites and General Education courses. However, prior to starting the Health Information Management major, a student must successfully complete all pre-professional college work, which includes the University General Education (GenEd) Curriculum and all program prerequisites, at Temple University or another university or college. In order to be considered, applicants must achieve transferable grades in all prerequisites as well as a competitive grade point average (GPA). For more information, prospective students should visit HIM's Degrees Offered (http://cph.temple.edu/him/degrees-offered).

Current Temple students interested in transferring into Athletic Training, Kinesiology, Linguistics, Public Health, Social Work, Speech, Language & Hearing Science, or Therapeutic Recreation must attend a change of program session. These are listed on the College of Public Health web site under Student Advising (http://cph.temple.edu/cph/about-current-students/academic-advising). Applications will not be processed until the student attends the required change of program session. A minimum GPA of 2.0 is required for admission to any of these programs. Students should review the curriculum and be aware of the quantitative and scientific skills required to successfully complete the courses. In some cases, students will be asked to meet with the advising director to discuss their change of program request.

Current Temple University Students Applying to Health Information Management

Temple students who want to learn more about the program can contact the Health Information Management Advisor at 215-204-2037. Those ready to apply to the program should contact the Health Information Management Department at 215-707-4811 or via e-mail at hlthinfo@temple.edu.

Students must send the application and a $15.00 application fee to the Health Information Management Department and must comply with all admission requirements of the program. Applicants are notified of a final decision by letter from the College of Public Health. An acceptance letter will include the required departmental courses. Admitted students are required to submit a $100.00 tuition deposit to confirm their acceptance of admission.

Student Contact Information

Undergraduate students with general questions are asked to contact the College’s Office of Enrollment and Student Services (OESS) at 215-204-2602 or OESS1@temple.edu.

For questions about academic requirements, students should contact the departmental academic advisor. A list of advisors is available at Student Advising (http://cph.temple.edu/cph/about-current-students/academic-advising).

Contact information for specific departments is available at the College (http://cph.temple.edu). Please select the academics tab at the top of the College page and follow the links for additional department and program information.

Academic Policies & Regulations

Students are responsible for complying with all university-wide academic policies that apply to their individual academic status (Please see the Undergraduate Academic Policies (http://bulletin.temple.edu/archives/2014-2015/undergraduate/academic-policies)). Additional and unique policies, or exceptions for the College of Public Health, appear below.

Attendance

The College of Public Health desires to promote professional responsibility among its students. It is therefore the policy of the College to place the responsibility for class attendance upon the students. Students are accountable for all work missed due to absence. Instructors are not required to make special arrangements or examinations for students who are absent. There are certain courses that require a minimum number of hours of student participation in laboratory or clinical experiences, as established by the professional accrediting agency and/or the academic department concerned. At the beginning of each such course, the department shall make the attendance requirement clearly known to the enrolled students. Excessive absences may, at the option of the department, jeopardize the student's grade and/or continuance in the course.

Dean's List

Each fall and spring semester, those undergraduates who have met the credit hour and academic criteria for their school or college are named to the Dean's List. See the Dean's List (http://bulletin.temple.edu/archives/2014-2015/undergraduate/academic-policies/deans-list) policy for specific GPA and credit-hour requirements.

Standards of Scholarship

The grading system is in accordance with the system adopted by Temple University. For students enrolled in this College, a grade of C is the lowest acceptable final grade in major courses. Students not achieving a grade of C or better are required to repeat those courses in which they have failed to demonstrate acceptable performance. Please note that for students enrolled in the School of Social Work a grade of C- is the lowest acceptable final grade.

Student Code of Ethics and Professional Conduct

Since students of the College of Public Health are enrolled in professional programs, they are expected to abide by standards of professional conduct and behavior at all times.

The College of Public Health prepares practitioners to fulfill their ideals of service in health or social service settings. In attaining these goals, practitioners must demonstrate exemplary professional behavior, as this is the keystone of the professional associations of the disciplines within this
College. The Code of Conduct of Temple University's College of Public Health is intended to contribute to an environment in which excellence in learning and conduct may be fostered.

All terms of the Students' Rights, Code of Conduct, and Disciplinary Procedures for Temple University apply to students within the College of Public Health. In addition to the major violations noted by the University code, another action has been identified by the faculty of the College as constituting a major infraction of the code: "Unethical conduct or intentional neglect of duty on clinical practice."

Additionally, most College of Public Health programs prepare students for careers that involve close examination of a person's background before being employed or even engaged in clinical training and field education. Thus, students are strongly encouraged to begin gathering required documentation and clearances immediately after admission into their program so that they have sufficient time to assemble their portfolio well before it's required for various field-based learning, including internships. Gathering required background information early also provides sufficient time to address any issues that might postpone or prevent fieldwork. Each program publishes more detailed information on health screenings and background clearances that are used for clinical training and field education.

College Graduation Requirements

Graduation requirements for the College of Public Health (CPH) are available on the individual program pages within this Bulletin as well as at CPH Academics [Link].

Military Science Courses

Undergraduate students in the College of Public Health whose degree programs allow for free electives may apply up to 12 credits of military science courses at the 3000 and 4000 levels in Aerospace Studies (Air Force ROTC), Military Science (Army ROTC), and Naval Science (Navy ROTC).

Academic Advising

The College of Public Health has an extensive system of academic advising provided by professional and faculty advisors. Professional advisors, coordinated by the Associate Director for Advisement, are available for each department, where they provide assistance with such topics as registration, course scheduling, and transfer credits, as well as referral to other resources. For a complete listing of our professional advising staff, visit Student Advising [Link].

In most departments, when students reach junior or senior standing, they are assigned to faculty advisors who assist with mentoring as students progress in their professional training.

Academic advisors strive to avoid errors when advising students about program requirements; however, the College cannot assume liability for errors in advising. Students must, therefore, assume primary responsibility for knowing the requirements for their degree and for acquiring current information about their academic status.

Faculty

Ann B. Addis, Instructor (Clinical), Department of Communication Sciences and Disorders, College of Public Health; M.A., Northwestern University.

Robin Aronow, Instructor (Teaching/Instructional), Department of Communication Sciences and Disorders, College of Public Health; M.A., University of Delaware.

Sarah Bauerle Bass, Associate Professor, Department of Public Health, College of Public Health; Ph.D., Temple University.

Katherine W. Bauer, Assistant Professor, Department of Public Health, College of Public Health; Ph.D., University of Minnesota.

Keesha Benson, Instructor (Teaching/Instructional), Department of Social Work, College of Public Health; Ph.D., University of North Carolina at Chapel Hill.
Kristin Berg, Assistant Professor, Department of Rehabilitation Sciences, College of Public Health; Ph.D., University of Chicago.

Algie Lakesa Bond, Assistant Professor (Teaching/Instructional), Department of Health Information Management, College of Public Health; M.H.A., St. Joseph’s University.

Jessica M. Boyer, Assistant Professor (Teaching/Instructional), Department of Public Health, College of Public Health; M.S.W.-M.P.H., Temple University.

Casey M. Breslin Murphy, Assistant Professor (Teaching/Instructional), Department of Kinesiology, College of Public Health; Ph.D., Auburn University.

Kathryn Brzozowski, Assistant Professor (Teaching/Instructional), Department of Social Work, College of Public Health.

Scott Burns, Assistant Professor (Clinical), Department of Physical Therapy, College of Public Health; D.P.T., University of Colorado Denver.

Lois A. Butcher, Assistant Professor (Teaching/Instructional), Department of Kinesiology, College of Public Health; Ph.D., Temple University.

Stephen J. Carp, Associate Professor (Teaching/Instructional), Department of Physical Therapy, College of Public Health; Ph.D., University of Delaware.

Cheri E. Carter, Assistant Professor (Teaching/Instructional), Department of Social Work, College of Public Health; Ph.D., University of Delaware.

Janet L. Coleman, Assistant Professor (Teaching/Instructional), Department of Nursing, College of Public Health; M.S.N., Western Carolina University.

Bradley N. Collins, Associate Professor, Department of Public Health, College of Public Health; Ph.D., State University of New York at Binghamton.

Israel Colón, Associate Professor, Department of Social Work, College of Public Health; Ph.D., Brandeis University.

James Corbin, Instructor (Teaching/Instructional), Department of Social Work, College of Public Health; M.S.W., Temple University.

Ronald W. Costen, Professor (Teaching/Instructional), Department of Social Work, College of Public Health; J.D.

Catherine Coyle, Professor, Department of Rehabilitation Sciences, College of Public Health; Ph.D., Temple University.

Adam Davey, Professor, Department of Public Health, College of Public Health; Ph.D., Pennsylvania State University.

Claudia J. Dewane, Associate Professor (Teaching/Instructional), Department of Social Work, College of Public Health; Ed.D., Pennsylvania State University.

Susan B. Dickey, Associate Professor, Department of Nursing, College of Public Health; Ph.D., University of Pennsylvania.

Elizabeth A. Dieckman, Assistant Professor (Teaching/Instructional), Department of Nursing, College of Public Health.

Patricia DiGiacomo, Assistant Professor (Teaching/Instructional), Department of Nursing, College of Public Health; M.S.N., Temple University.

Ann E. Dolloff, Instructor (Teaching/Instructional), Department of Rehabilitation Sciences, College of Public Health; M.Ed., Temple University.

Jeffrey N. Draine, Professor, Department of Social Work, College of Public Health; Ph.D., University of Pennsylvania.

Christopher Dubble, Instructor (Teaching/Instructional), Department of Social Work, College of Public Health; Ph.D.

William E. Egan, Assistant Professor (Teaching/Instructional), Department of Physical Therapy, College of Public Health; D.P.T., Regis University.

Elizabeth C. Elkind, Associate Professor (Teaching/Instructional), Department of Nursing, College of Public Health; Ph.D., Capella University.

Karin Eyrich-Garg, Associate Professor, Department of Social Work, College of Public Health; Ph.D., Washington University-St. Louis.

Jane Fagan, Assistant Professor (Teaching/Instructional), Department of Physical Therapy, College of Public Health; D.P.T., Simmons College.

Jay S. Fagan, Professor, Department of Social Work, College of Public Health; Ph.D., Columbia University.

Roya Fahmy, Instructor (Teaching/Instructional), Department of Social Work, College of Public Health.

Ruth Farber, Associate Professor Emerita, Department of Rehabilitation Sciences, College of Public Health; Ph.D., Temple University.

Jennifer Orlet Fisher, Associate Professor, Department of Public Health, College of Public Health; Ph.D., Pennsylvania State University.

Cathy A. Flite, Assistant Professor (Teaching/Instructional), Department of Health Information Management, College of Public Health; M.Ed., Widener University.

Margaret M. Foley, Associate Professor (Teaching/Instructional), Department of Health Information Management, College of Public Health; Ph.D., Temple University.
Nikki V. Franke, Associate Professor, Department of Public Health, College of Public Health; Ed.D., Temple University.

Anne Frankel, Assistant Professor (Teaching/Instructional), Department of Public Health, College of Public Health; Ph.D., Florida International University.

Laurie A. Friedman, Instructor (Teaching/Instructional), Department of Social Work, College of Public Health; M.S.W., University of Pennsylvania.

Anne K. Galgon, Assistant Professor (Teaching/Instructional), Department of Physical Therapy, College of Public Health; Ph.D., Drexel University.

Jeffrey Gehris, Associate Professor (Teaching/Instructional), Department of Kinesiology, College of Public Health; Ph.D., Temple University.

Letitia G. Gembala, Assistant Professor (Teaching/Instructional), Department of Nursing, College of Public Health.

Thomas F. Gordon, Professor Emeritus, Department of Public Health, College of Public Health; Ph.D., Michigan State University.

Ian A. Greaves, Professor, Department of Public Health, College of Public Health; M.D., Monash University.

Margo B. Greicar, Assistant Professor (Teaching/Instructional), Department of Kinesiology, College of Public Health; Ed.D., Bowling Green State University.

Susan Gresko, Assistant Professor (Teaching/Instructional), Department of Nursing, College of Public Health; M.S.N., University of Pennsylvania.

Clara S. Haigene, Associate Professor, Department of Public Health, College of Public Health; Ph.D., University of Denver.

Carol Schefner Hammer, Professor, Department of Communication Sciences and Disorders, College of Public Health; Ph.D., University of Iowa.

Christopher Harris, Instructor (Teaching/Instructional), Department of Social Work, College of Public Health.

Chantelle Hart, Associate Professor, Department of Public Health, College of Public Health; Ph.D., Case Western Reserve University.

Elaine Hatala, Assistant Professor (Teaching/Instructional), Department of Rehabilitation Sciences, College of Public Health; Ph.D., Temple University.

Alice J. Hausman, Professor, Department of Public Health, College of Public Health; Ph.D., State University of New York at Binghamton.

Pei-Chun Hsieh, Assistant Professor (Teaching/Instructional), Department of Rehabilitation Sciences, College of Public Health; Ph.D., Indiana University, Bloomington.

Cheryl A. Hyde, Associate Professor, Department of Social Work, College of Public Health; Ph.D., University of Michigan.

Jennifer K. Ibrahim, Associate Professor, Department of Public Health, College of Public Health; Ph.D., University of California Berkeley.

Larry D. Icard, Professor, Department of Social Work, College of Public Health; Ph.D., Columbia University.

Roger I. Ideishi, Associate Professor (Teaching/Instructional), Department of Rehabilitation Sciences, College of Public Health; J.D., Temple University.

Aquilis Iglesias, Professor, Department of Communication Sciences and Disorders, College of Public Health; Ph.D., University of Iowa.

John Jeka, Professor, Department of Kinesiology, College of Public Health; Ph.D., Florida Atlantic University.

Monika Jelic, Assistant Professor (Teaching/Instructional), Department of Nursing, College of Public Health; M.P.H., Boston University.

Zebulon V. Kendrick, Professor, Department of Kinesiology, College of Public Health; Ph.D., Temple University.

Emily Keshner, Professor, Department of Physical Therapy, College of Public Health; Ed.D., Columbia University.

Anne Marie Kienhe, Assistant Professor (Clinical), Department of Nursing, College of Public Health; Ph.D., Temple University.

Moya Kinnealey, Associate Professor Emerita, Department of Rehabilitation Sciences, College of Public Health; Ph.D., Temple University.

Francine P. Kohen, Instructor (Teaching/Instructional), Department of Communication Sciences and Disorders, College of Public Health; M.S., Pennsylvania State University.

Eugene Komaroff, Associate Professor (Research), Department of Public Health, College of Public Health; Ph.D., University of Miami.

Rena A. Krakow, Associate Professor, Department of Communication Sciences and Disorders, College of Public Health; Ph.D., Yale University.

Ann Kriebel-Gasparro, Assistant Professor (Teaching/Instructional), Department of Nursing, College of Public Health.

Joseph A. Kumi, Instructor (Teaching/Instructional), Department of Social Work, College of Public Health; M.S.W., Florida State University.
Jane M. Kurz, Associate Professor, Department of Nursing, College of Public Health; Ph.D., University of Delaware.

Richard Lauer, Assistant Professor, Department of Physical Therapy, College of Public Health; Ph.D., Case Western Reserve University.

Ivelisse Lazzarini, Assistant Professor (Teaching/Instructional), Department of Rehabilitation Sciences, College of Public Health; O.T.D., Creighton University.

Stephen J. Lepore, Professor, Department of Public Health, College of Public Health; Ph.D., University of California Irvine.

Susanne Lesnik-Emas, Assistant Professor (Teaching/Instructional), Department of Rehabilitation Sciences, College of Public Health; Ed.D., Temple University.

Beth A. Levine, Instructor (Teaching/Instructional), Department of Communication Sciences and Disorders, College of Public Health; M.S., Boston University.

Zuo Zon Cindy Liao, Instructor (Teaching/Instructional), Department of Public Health, College of Public Health; M.P.H., Drexel University.

Grace Xueqin Ma, Professor, Department of Public Health, College of Public Health; Ph.D., University of Oklahoma.

Bridget B. Mancano, Instructor (Teaching/Instructional), Department of Communication Sciences and Disorders, College of Public Health; M.A., Temple University.

Rhonda E. Maneval, Professor (Teaching/Instructional), Department of Nursing, College of Public Health; Ed.D., Pennsylvania State University.

Jamie Mansell, Assistant Professor (Teaching/Instructional), Department of Kinesiology, College of Public Health; Ph.D., Temple University.

Cindy Joy Marselis, Assistant Professor (Teaching/Instructional), Department of Health Information Management, College of Public Health; M.B.A., Temple University.

Nadine Martin, Professor, Department of Communication Sciences and Disorders, College of Public Health; Ph.D., Temple University.

Carlene A. McAleer, Assistant Professor (Teaching/Instructional), Department of Nursing, College of Public Health; M.S.N., Hahnemann University.

Karen McBride, Assistant Professor (Teaching/Instructional), Department of Health Information Management, College of Public Health; M.S., Philadelphia University.

Brian D. McHugh, Associate Professor, Department of Communication Sciences and Disorders, College of Public Health; Ph.D., University of California Los Angeles.

Michael McIntosh, Assistant Professor (Clinical), Department of Nursing, College of Public Health; Ph.D., Temple University.

Rochelle Mendonca, Assistant Professor (Teaching/Instructional), Department of Rehabilitation Sciences, College of Public Health; Ph.D., University of Wisconsin-Milwaukee.

Lois Miller, Associate Professor, Department of Social Work, College of Public Health; Ph.D., Bryn Mawr College.

Deborah L. Mills, Instructor (Teaching/Instructional), Department of Social Work, College of Public Health; M.S.W., Temple University.

C. Daniel Moser, Assistant Professor (Teaching/Instructional), Department of Kinesiology, College of Public Health; Ph.D., Temple University.

Miguel Muñoz-Laboy, Associate Professor, Department of Social Work, College of Public Health; Dr.P.H., Columbia University.

Deborah B. Nelson, Associate Professor, Department of Public Health, College of Public Health; Ph.D., University of Pittsburgh.

Rhonda Nelson, Associate Professor (Teaching/Instructional), Department of Rehabilitation Sciences, College of Public Health; Ph.D., Temple University.

Bernie Sue Newman, Associate Professor, Department of Social Work, College of Public Health; Ph.D., University of Pittsburgh.

Emeka Nwadiora, Associate Professor, Department of Social Work, College of Public Health; J.D., Hofstra University School of Law.

Heidi Ojha, Assistant Professor (Clinical), Department of Physical Therapy, College of Public Health; D.P.T., University of Southern California.

Joon Young Park, Assistant Professor, Department of Kinesiology, College of Public Health; Ph.D., University of Maryland College Park.

John Robert Patro, Assistant Professor (Teaching/Instructional), Department of Rehabilitation Sciences, College of Public Health.

Freda Patterson, Assistant Professor (Teaching/Instructional), Department of Public Health, College of Public Health; Ph.D., Temple University.
Alan Pfeffer, Instructor (Teaching/Instructional), Department of Social Work, College of Public Health; M.S.W., Temple University.

Elizabeth A. Pfeiffer, Associate Professor (Teaching/Instructional), Department of Rehabilitation Sciences, College of Public Health; Ph.D., Nova Southeastern University.

Jennifer Pomeranz, Assistant Professor, Department of Public Health, College of Public Health; J.D., Cornell Law School.

Heather Porter, Assistant Professor (Teaching/Instructional), Department of Rehabilitation Sciences, College of Public Health; Ph.D., Temple University.

Lori Prol, Assistant Professor (Teaching/Instructional), Department of Nursing, College of Public Health; M.S.N., Rutgers University.

John T. Raffin, Assistant Professor (Teaching/Instructional), Department of Kinesiology, College of Public Health; Ph.D., Temple University.

Jodi Reich, Assistant Professor (Teaching/Instructional), Department of Communication Sciences and Disorders, College of Public Health; Ph.D., Yale University.

James J. Reilly, Assistant Professor, Department of Communication Sciences and Disorders, College of Public Health; M.D., University of Pennsylvania.

Mary Anne Riopel, Assistant Professor (Teaching/Instructional), Department of Physical Therapy, College of Public Health; D.P.T., Regis University.

Thomas P. Rooney, Assistant Professor (Teaching/Instructional), Department of Kinesiology, College of Public Health; Ph.D., Temple University.

Nancy L. Rothman, Professor, Department of Nursing, College of Public Health; Ed.D., Temple University.

Anne C. Russ, Assistant Professor (Teaching/Instructional), Department of Kinesiology, College of Public Health; Ph.D., Temple University.

Scott E. Rutledge, Associate Professor, Department of Social Work, College of Public Health; Ph.D., University of Washington.

Kim Sabourin, Instructor (Clinical), Department of Communication Sciences and Disorders, College of Public Health; M.A., University of Maryland.

Michael L. Sachs, Professor, Department of Kinesiology, College of Public Health; Ph.D., Florida State University.

Mark Salzer, Professor, Department of Rehabilitation Sciences, College of Public Health; Ph.D., University of Illinois at Urbana-Champaign.

Mayra C. Santiago, Associate Professor, Department of Kinesiology, College of Public Health; Ph.D., University of Minnesota.

Shelley Scarpino, Assistant Professor (Teaching/Instructional), Department of Communication Sciences and Disorders, College of Public Health; Ph.D.

Michelle C. Scarpulla, Instructor (Teaching/Instructional), Department of Public Health, College of Public Health; M.P.H., Temple University.

Mark F. Schmitz, Associate Professor (Teaching/Instructional), Department of Social Work, College of Public Health; Ph.D., Iowa State University.

Rosalie Schofield, Associate Professor (Teaching/Instructional), Department of Social Work, College of Public Health; Ph.D., Brandeis University.

Jay S. Segal, Professor, Department of Public Health, College of Public Health; Ph.D., Ohio State University.

Eleana Shipman, Assistant Professor (Clinical), Department of Nursing, College of Public Health; M.S.N., Villanova University.

Laura Siminoff, Professor, Department of Public Health, College of Public Health; Ph.D., Johns Hopkins University.

Jonathan Singer, Assistant Professor, Department of Social Work, College of Public Health; Ph.D., University of Pittsburgh.

Mary C. Sinnott, Associate Professor (Teaching/Instructional), Department of Physical Therapy, College of Public Health; D.P.T., MGH Institute of Health Professions.

Michael R. Sitler, Professor, Department of Kinesiology, College of Public Health; Ed.D., New York University.

Gretchen A. Snethen, Assistant Professor, Department of Rehabilitation Sciences, College of Public Health; Ph.D., Indiana University.

Doris Fallon Snyder, Assistant Professor (Teaching/Instructional), Department of Communication Sciences and Disorders, College of Public Health; M.A., Temple University.

Gerry A. Stefanatos, Associate Professor, Department of Communication Sciences and Disorders, College of Public Health; D.Phil., Oxford University.

Barbara A. Stephens, Assistant Professor (Clinical), Department of Nursing, College of Public Health; M.S.N., Temple University.

John J. Susko, Assistant Professor (Teaching/Instructional), Department of Kinesiology, College of Public Health; Ph.D., Temple University.

Ricky L. Swalm, Associate Professor, Department of Kinesiology, College of Public Health; Ph.D., Temple University.
Elizabeth Diane Thompson, Assistant Professor (Teaching/Instructional), Department of Physical Therapy, College of Public Health; D.P.T., Temple University.

Ryan T. Tierney, Associate Professor (Teaching/Instructional), Department of Kinesiology, College of Public Health; Ph.D., Temple University.

Carole Tucker, Associate Professor, Department of Physical Therapy, College of Public Health; Ph.D., State University of New York at Buffalo.

Sylvia Twersky-Bumgardner, Instructor (Teaching/Instructional), Department of Public Health, College of Public Health; M.P.H., Tulane University.

Gena B. Vargas, Assistant Professor (Teaching/Instructional), Department of Rehabilitation Sciences, College of Public Health; Ph.D., Clemson University.

Sheldon O. Watts, Assistant Professor (Teaching/Instructional), Department of Public Health, College of Public Health; Ph.D., New York University.

Mark H. Weir, Assistant Professor, Department of Public Health, College of Public Health; Ph.D., Drexel University.

Donna Weiss, Associate Professor Emerita, Department of Rehabilitation Sciences, College of Public Health; Ph.D., Temple University.

Caroline E. Welch, Instructor (Teaching/Instructional), Department of Rehabilitation Sciences, College of Public Health; M.S., University of Scranton.

Robert C. Whitaker, Professor, Department of Public Health, College of Public Health; M.D., Johns Hopkins University School of Medicine.

Caitlin N. Wolak, Instructor (Teaching/Instructional), Department of Public Health, College of Public Health; M.P.H., Temple University.

W. Geoffrey Wright, Assistant Professor, Department of Physical Therapy, College of Public Health; Ph.D., Brandeis University.

Andrew Yannaccone, Assistant Professor (Teaching/Instructional), Department of Physical Therapy, College of Public Health; Ph.D., Virginia Commonwealth University School of Medicine.

Deborah Zenzal, Instructor (Teaching/Instructional), Department of Health Information Management, College of Public Health.

Marsha Zibalese Crawford, Associate Professor, Department of Social Work, College of Public Health; D.S.W., Howard University.

Dolores M. Zygmont, Associate Professor (Clinical), Department of Nursing, College of Public Health; Ph.D., Temple University.
