Temple Bulletins 2015-2016

The Bulletin provides enrolled students with the information they need regarding their chosen academic path and helps prospective students make important enrollment decisions.

The information in this bulletin is subject to change by Temple University at any time. Neither this bulletin nor any parts of it may be relied upon as a contract between Temple University and any student, applicant, or other user of this site. All prospective and current students should consult with appropriate University Offices to verify current information and the status of policies, programs, descriptions of curricula, or other information in this bulletin.

Undergraduate Bulletin

The current Undergraduate Bulletin is for students who began school in Fall 2015.

For students who began prior to Fall 2015, see the Archives.

- 2015-2016 Undergraduate Bulletin (p. 13)
- Archived Undergraduate Bulletins (http://bulletin.temple.edu/archives)

Graduate Bulletin

The current Graduate Bulletin is for students who began school in Fall 2015.

For students who began prior to Fall 2015, see the Archives.

- 2015-2016 Graduate Bulletin (http://bulletin.temple.edu/graduate)
- Archived Graduate Bulletins (http://bulletin.temple.edu/archives)

Class Schedule (http://www.temple.edu/apply/common/cdcheck.asp)
Welcome from the President

Welcome to the 2015-2016 Temple University Undergraduate Bulletin. Inside, you will find tools to help you map your academic plan and complete your college degree.

There are numerous resources in this bulletin, including:

• A searchable database of more than 4,000 undergraduate courses.
• Overviews of degree programs and requirements for 149 undergraduate majors, as well as minors, concentrations and certificates.
• Information on study abroad and research opportunities.
• Academic policies and procedures.
• A directory of student support services.

As Temple’s president, I strongly encourage you to take advantage of the opportunities described in this bulletin. You should make it a point to meet with your advisor regularly, participate in rewarding learning experiences, and commit to graduating on time. And if you’re an incoming freshman or transfer student, visit fly.temple.edu to learn about Fly in 4, Temple’s innovative plan to fast-track your future and limit your debt.

Our first priority is providing you with a well-rounded education that prepares you to be “real world ready.” With the tools available in this bulletin, you are well on your way to personal and professional success.

Sincerely,

Neil D. Theobald
President
About This Bulletin

The Undergraduate Bulletin is produced by the Office of the Provost to present general information about Temple University and specific information about undergraduate academic programs. The information in this bulletin is subject to change by Temple University at any time. Neither this bulletin nor any part of it may be relied upon as a contract between Temple University and any student, applicant, or other user of this site. All prospective and current students should consult with appropriate University Offices to verify current information and the status of policies, programs, descriptions of curricula, or other information in this bulletin.

If you are a new undergraduate student at Temple this year, this Bulletin contains the requirements of programs into which you will be enrolling. For that reason, your advisors may refer to Fall 2015 as "your Bulletin year."

Current students who started at Temple before Fall 2015 should visit the Archives (http://bulletin.temple.edu/archives) to find the requirements of their program of study for their Bulletin year.

All new undergraduate students are required to complete the university's General Education (GenEd (p. 143)) curriculum.

New freshmen starting in the 2015-2016 academic year are required to complete the GenEd (p. 143) curriculum. Students who have fewer than 15 transferable credits are considered freshmen. Additionally, students whose transfer credits were earned while in high school, regardless of the number of transfer credits, are considered freshmen.

New transfer students starting in the 2015-2016 academic year are required to complete the GenEd (p. 143) curriculum. Students who attempted 15 or more transferable credits after high school and prior to being admitted to Temple University are considered transfer students.

In addition to this Bulletin, you will also find several other resources that provide important information for Temple University undergraduate students. These resources include, but are not limited to, the Course Descriptions (http://bulletin.temple.edu/courses), Class Schedule (https://www.temple.edu/apply/common/cdcheck.asp), Campus Safety Services (http://www.temple.edu/safety), Disability Resources and Services (http://www.temple.edu/studentaffairs/disability), Military and Veteran Services (http://www.temple.edu/veterans), Transfer Student Information (http://www.temple.edu/vpus/transfer), and University Housing and Residential Life (http://housing.temple.edu).

We hope this Undergraduate Bulletin will prove informative and useful to you as a Temple student. Questions or suggestions regarding the content of the Undergraduate Bulletin may be directed to the Office of the Senior Vice Provost for Undergraduate Studies (phone: 215-204-2044; e-mail: ug-bulletin@temple.edu).

About Temple University

Our 17 schools and colleges, nine campuses, hundreds of degree programs and nearly 38,000 students combine to create one of the nation's most comprehensive and diverse learning environments. In neighborhoods, across disciplines and on a global stage, members of the Temple community are making things happen.

Mission Statement

Temple University is a national center of excellence in teaching and research with an international presence.

Temple's talented faculty and its broad curriculum of over 300 academic programs provide superior educational opportunities for academically talented and highly motivated students, without regard to their status or station in life. Temple's richly diverse student population and the dramatic growth of Temple's residential campus community of student scholars enrich the educational and extracurricular life of all Temple's people.

While the University especially serves students from Greater Philadelphia, it is enlivened by a rapidly increasing number of students from across Pennsylvania, throughout the nation, and around the world. Temple maintains an international presence with campuses in Tokyo and Rome and prestigious programs in London, Beijing, and six other locations worldwide.

A long-time leader in professional education, Temple prepares the largest body of practitioners in Pennsylvania and is among the nation's largest educators in the combined fields of medicine, dentistry, pharmacy, podiatry and law. In addition, Temple offers more than four dozen doctoral and more than 100 master's degree programs that contribute to research and scholarship. Temple seeks to create new knowledge that improves the human condition and uplifts the human spirit. To achieve this goal, Temple maintains its commitment to recruiting, retaining, and supporting outstanding faculty that prize diversity of thought, excel in scholarly endeavors, and support the aspirations of capable students.

Temple University's Aspirations for a New Century

Striving to fulfill its mission in this new century, Temple will continue to provide access to superior education for committed and capable students of all backgrounds and to develop its main campus as a residential community of student scholars. A new generation of exceptionally qualified and talented faculty will be recruited to join the University's current roster of fine teacher-scholars.

Temple will enhance existing centers of academic excellence, advance additional targeted programs to national leadership, broaden knowledge through research and creative endeavors for the benefit of society, and expand the Honors program and other special learning opportunities for undergraduates.

The creation and renovation of facilities will support research and creative work, advance instruction and marshal knowledge to enhance the quality of life for Temple's fellow citizens in North Philadelphia. The University will develop stronger bonds with its alumni, whose success embodies the transformational power of a Temple education.

Accreditation

Temple University is accredited by the Middle States Commission on Higher Education, an institutional accrediting agency recognized by the U.S. Secretary of Education and the Council for Higher Education Accreditation. Additionally, Temple has numerous academic programs accredited or reviewed by external professional organizations, as noted in each school and college's section of this Bulletin as well as in the Temple University Fact Book (http://temple.edu/about/public-information/facts-about-temple).

President

Temple's president is the public face of the University and is responsible for supporting and managing all of its academic, administrative and financial operations. The President works closely with faculty, administrators, trustees and students to set the university's goals and uphold its mission.

Neil D. Theobald is Temple's 10th president. He began his tenure at Temple on Jan. 1, 2013.

President Theobald is a nationally recognized leader in the field of educational finance. As with so many Temple students, he was the first member of his family to attend college. Both his professional and personal experiences helped shape his primary goal for Temple: ensuring that students have access to an education that is both affordable and excellent. Learn more about Neil D. Theobald (http://president.temple.edu).

Trustees

The 36-member Board of Trustees is Temple's governing body, responsible for the educational mission and fiscal policies of the university. The trustees also are responsible for electing the university president, adopting an annual plan of financial operation and establishing degrees to be awarded. Learn more about the Board of Trustees (http://temple.edu/about/trustees).
History

In 1884, Reverend Russell Conwell began tutoring a young man who could only study at night because of his job. It wasn’t long before Conwell was teaching dozens of students in similar circumstances. He soon convinced the members of his congregation and others in the community to start “an Educational Institution intended primarily for the benefit of Working Men.” In 1888, “The Temple College” received a charter of incorporation. The university has since evolved into one of the nation’s premier institutions for higher education. Learn more about Temple’s history (http://temple.edu/about/history).

Community

Temple’s ties to its community are strong and deep, dating back to its founding in 1888 as an institution that served working people in the local community. Today, the university has not strayed from its original mission and remains a beacon of public service, social activism and community engagement. Learn more about Temple’s community (http://temple.edu/about/temple-community).

Momentum

Temple’s academic rankings ascent, top faculty recruitment and progressive enrollment paths have made the university one of the fastest up-and-coming institutions in the country. With growing research expenditures and a booming entrepreneurial culture, Temple’s surge is only beginning. Learn more about Temple’s momentum (http://temple.edu/about/temple-momentum).

Temple Health

Temple Health encompasses all of the health, education and research activities carried out by the affiliates of the nationally ranked Temple University Health System and Lewis Katz School of Medicine. Learn more about Temple Health (http://temple.edu/about/temple-health).

News and Media

Temple believes in communicating openly and often with its students, faculty, staff and community. The university offers a number of different ways to stay up to date with news and advancement from the Temple community. Learn more about Temple news and media (http://temple.edu/about/news-and-media).

Offices

Operating a large, complex institution like Temple involves many people in many fields working together. The university’s many offices and departments stand ready to help you. Learn more about Temple’s offices (http://temple.edu/about/offices).

Public Information

It is Temple’s policy to provide convenient and timely access to all public information about the university and its policies, budget, faculty and students. Through voluntary participation, you can also view our College Portrait (http://www.collegeportraits.org/PA/TU), which presents information about Temple in a standard, easy-to-read format. Find out more about Temple’s public information (http://temple.edu/about/public-information).
General Admissions Information

Temple University
Office of Undergraduate Admissions
Conwell Hall, First Floor
1801 N. Broad Street
Philadelphia, PA, 19122
phone: 215-204-7200
toll free: 888-340-2222
fax: 215-204-5694
askanow@temple.edu
admissions.temple.edu

The Office of Undergraduate Admissions processes all undergraduate applications for admission to all campuses of Temple University. Freshman applicants can opt to apply Early Action through our application or the Common Application and must have a completed application on file before November 1st to receive a decision by January 10th. All other applicants (freshman or transfer) are reviewed on a rolling basis, and candidates are usually notified of decisions four to six weeks after receipt of a completed application.

The web site to apply is admissions.temple.edu/apply.

Students must submit all application materials to the Office of Undergraduate Admissions by the stated deadlines on the undergraduate application (http://admissions.temple.edu) web site. Applications received after these dates will be considered on a space-available basis. The admissions application fee is $55.00.

Special Requirements for Admission

The following programs have additional requirements for admission: the College of Public Health (Nursing, freshmen and transfers, and Health Information Management, transfers only), Dance, Music, and the Tyler School of Art. Refer to the individual program description for the details on these special requirements. Adult applicants, those who are 22 years and older and have not attempted 15 or more college-level credits at an accredited institution, are not required to submit standardized test scores.

Tuition & Residence Hall Deposits

All students admitted to the university must pay a non-refundable tuition deposit of $200 in order to reserve a place in the incoming class. In addition, students who wish to live in the residence halls must pay a housing deposit of $250.

Applying for Re-enrollment

For further information, see Academic Policy 02.10.16 (http://policies.temple.edu/getdoc.asp?policy_no=02.10.16).

Also see the Leave of Absence, Academic Forgiveness, and Academic Standing policies in the Academic Policies (p. 81) section of this Bulletin and the Academic Policies and Regulations section of each school or college. An application for re-enrollment is submitted to the school or college of the intended major.

Freshmen

Diploma & Required High School Credits

The university requires that students hold a diploma from an accredited high school with the following recommended distribution of courses:

<table>
<thead>
<tr>
<th>Subject field</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>
<td>4</td>
</tr>
<tr>
<td>Mathematics, college preparatory</td>
<td>4</td>
</tr>
<tr>
<td>Foreign language (same language/culture)</td>
<td>2</td>
</tr>
<tr>
<td>History/Social Studies</td>
<td>3</td>
</tr>
<tr>
<td>Science (2 years lab)</td>
<td>3</td>
</tr>
<tr>
<td>The Arts</td>
<td>1</td>
</tr>
<tr>
<td>Other college preparatory courses</td>
<td>3</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>20</strong></td>
</tr>
</tbody>
</table>

Students are required to have earned a minimum of 16 units in academic subjects from the above chart. Students 18 years of age and older may submit a high school equivalency diploma earned through the General Education Development Test and the high school transcript for all grades completed.
Temple Option

Temple University offers the Temple Option for talented students whose potential for academic success is not accurately captured by standardized test scores. This change enables applicants to decide how best to present their academic strengths and potential. If submitted, standardized test results will be considered holistically along with the high-school transcript and other applications materials. Those applicants not submitting test scores will complete short-answer questions in substitution for standardized tests. All candidates will be considered for merit scholarships and our Honors Program. We recommend applicants with an 1150 SAT (on a 1600-point scale), or 25 ACT, submit their test scores as part of the application. For more information, see http://admissions.temple.edu/apply/first-year-applicant/temple-option.

College Entrance Examinations

For those applicants who submit test scores, Temple accepts either of the following tests for college entrance:

- Scholastic Aptitude Test (SAT) of the College Entrance Examination Board, Box 592, Princeton, NJ 08540
- American College Test (ACT) of the American College Testing Program, Box 168, Iowa City, IA 52250

Temple suggests that students take either test in the spring of their junior year, as well as in the fall of their senior year. Results should be forwarded directly to the Office of Undergraduate Admissions. SAT or ACT scores are recommended but not required of applicants 22 years of age or older.

Placement Testing

Most newly admitted students are required to take Placement Tests upon admission to Temple University. These tests are designed to help assess mastery of certain basic skills, to point out particular strengths and weaknesses, and to assist in designing a program of study for the student. Placement Tests are offered in English, Mathematics, and Foreign Languages. All incoming students also complete the New Student Questionnaire, a personal data collection survey used by Temple to develop programs and procedures to serve the needs and interests of its students.

Placement Testing

For incoming students, all placement tests are taken online. After students have been formally admitted and have paid their tuition deposit, incoming students will see the link to online Placement Testing in their “Next Steps” channel on TUportal. (Incoming transfer students will not see the link in their “Next Steps” channel until after they additionally complete online Transfer Orientation training, also available on the “Next Steps” channel.)

The Office of Institutional Research and Assessment (IRA) website (http://www.temple.edu/ira) includes detailed information about the Placement Tests and how to determine which tests are required (based on a student’s college, curriculum, and transfer credits), and also has sample test items. The Office of Orientation website (http://www.temple.edu/studentaffairs/orientation) also contains placement testing information, helpful hints for the test day, and sample items.

New Student Questionnaire (NSQ)

The NSQ is a personal data collection survey that must be completed by all students. Temple uses the results of this questionnaire to develop programs and procedures to serve the needs and interests of its students. All information is kept confidential.

English Placement Examination (60 minutes)

All students are required to take the English Placement Examination unless they transfer a direct equivalent of Temple’s ENG 0802 or ENG 0812. For the English Placement Examination, students write an essay and their essay score is considered along with the student’s SAT verbal score, high school GPA and other available measures to determine the appropriate English course placement.

Transfer students who completed an English placement test at their previous institution and tested out of their previous institution’s English Composition or comparable requirement can be waived from the English 0802 requirement if they have documentation of their placement and have successfully completed a higher level English/Writing course. Acceptable documentation includes an official letter from the university’s Registrar, advising unit, a faculty member, or other appropriate university official. In these instances advisors should complete a “Requirement Complete” DARS exception.

Mathematics Placement Examination

All freshmen and transfer students who are not transferring a credit-bearing QA, QB, or GQ designated Mathematics course are required to take the Mathematics Placement Examination. However, the following students, regardless of transfer credits, are required to take the Mathematics Placement Examination:

- all students within the Division of University Studies (DUS);
- all students in a major within the Colleges of Science and Technology, Engineering, Education, or the Fox School of Business and Management;
- all students considering or required to take MATH 1021 or higher;
- all students considering or required to take a Science course with a MATH 1021 or higher prerequisite.

Students can consult with their advisor concerning conditions under which they may retest.
Math scores are considered along with the student's SAT quantitative score, high school GPA and other available measures to determine the appropriate Math course placement.

**Foreign Language Placement Examination (60 minutes)**

Freshmen and transfer students who previously studied a foreign language and are not transferring a credit-bearing, college-level foreign language course are required to take the Foreign Language Placement Test if they:

- are in a B.A. program in the College of Liberal Arts, College of Science and Technology, or Tyler School of Art;
- are a Communication Sciences major within the College of Public Health;
- are an International Business Administration major within the Fox School of Business and Management;

OR

- are interested in taking a foreign language course at Temple.

Online Foreign Language Placement Tests are offered in French, German, Italian, and Spanish; a paper-and-pencil Modern Greek Test is also available. Each is a multiple choice test and consists of 62 – 97 items, depending on the test. If a student has previously studied another foreign language (other than French, German, Modern Greek, Italian, or Spanish) and wishes to be tested in that language, it may be possible to arrange testing. The Senior Vice Provost for Undergraduate Studies web site ([http://www.temple.edu/vpus/forms](http://www.temple.edu/vpus/forms)) has a Foreign Language Waiver Form and Procedures for Applying for a Foreign Language Waiver (Group 2 or Group 3 Languages).

For more information about placement testing, sample questions, and news about changes in placement tests, visit the Office of Institutional Research and Assessment's placement testing page ([http://www.temple.edu/ira/exam-services/placement-assessments.html](http://www.temple.edu/ira/exam-services/placement-assessments.html)).

**Orientation for New Students**

Following admission to the university and payment of the tuition deposit, students will receive information regarding their orientation requirements. For further information, refer to the Office of Orientation ([http://www.temple.edu/studentaffairs/orientation](http://www.temple.edu/studentaffairs/orientation)).

**Immunizations**

See Student Health and Wellness (p. 69) under Student Services for required immunizations.

**International Students**

Students come to Temple from all over the world. In fact, we have students from more than 100 countries. You're considered an international student if you hold, or will need to obtain, a non-immigrant visa, including a student visa (F-1), or an exchange visitor visa (J-1).

The best way to apply is by using Temple's online application ([http://admissions.temple.edu/apply/international-applicant](http://admissions.temple.edu/apply/international-applicant)). If you prefer, you may also submit the Common Application ([https://www.commonapp.org](https://www.commonapp.org)).

If you require a student visa, please log-in to the TPortal ([https://tuportal4.temple.edu/cp/home/displaylogin](https://tuportal4.temple.edu/cp/home/displaylogin)) to submit the I-20 application, financial documents, and passport photo page online so that we can process an I-20 for you as quickly as possible.

Questions can be directed to:

E-mail: international.admissions@temple.edu

Phone: 215-204-4900

**Orientation and Immunizations**

For requirements see International Student Services (p. 72) under Student Services.

**Special Admissions Programs**

**Dual Admissions Programs**

See Transfer Students (p. 23).

**Pre-Professional Admissions Programs**

**Pre-Medical Health Scholar Program and Accelerated Option Programs: Dentistry, Pharmacy, Podiatry, Physical Therapy**

1810 Liacouras Walk, Suite 100
Pre-Med Health Scholar Program

The Pre-Med Health Scholar Program is offered to highly talented High School Seniors interested in pursuing a career as a physician. It is designed to recruit exceptional students to Temple University by offering a Linkage Agreement with the Lewis Katz School of Medicine at Temple University. **Students entering Temple University as Pre-Med Health Scholars may consider an Accelerated BA/MD (3+4) Degree option.**

Dentistry, Pharmacy, Physical Therapy, and Podiatry Accelerated Programs

Accelerated Programs allow Pre: Dentistry, Pharmacy, and Podiatry (3+4 Tracks) as well as Physical Therapy (3+3 Track) students the option of earning both their Bachelor of Arts and Graduate Degrees in a shorter period of time after successfully passing all courses in the first year of professional school.

**Accelerated program Applications for interested entering freshman are available on the health advising web site. Completed applications are due by the end of the first semester at Temple University.** The Accelerated BA/DMD, BA/PharmD, BA/DPM, or DPT Programs are designed for high-achieving students who have distinguished themselves with impressive high school and first semester of college academic records and a demonstrated interest in their respective field.

Applying to Temple for the entering class of 2016 and beyond

**NOTE: Beginning with the Temple University entering class of 2016, applications to the Accelerated Programs for Dentistry, Pharmacy, and Podiatry (3+4 Tracks) as well as Physical Therapy (3+3 Track) will be available online and will be due before a student enters Temple University. (Due Date: 1/19/2016 for the entering class of 2016) Applicants will therefore know their accelerated option status before entering Temple University.**

Temple Law Scholars Program

[www.temple.edu/vpus/opportunities/LawScholars.htm](http://www.temple.edu/vpus/opportunities/LawScholars.htm)

Paul Crowe  
Associate Professor of Philosophy  
College of Liberal Arts  
215-204-8591  
pcrowe@temple.edu

Leora Eisenstadt  
Assistant Professor, Legal Studies Department  
Fox School of Business and Management  
215-204-6672  
leora.eisenstadt@temple.edu

The Temple Law Scholars program provides an opportunity for outstanding students in the College of Liberal Arts and the Fox School of Business and Management to gain provisional admission to Temple University School of Law at the same time they are accepted into an undergraduate program. As Temple Law Scholars, students are expected to complete the University Honors Certificate Program in conjunction with their undergraduate degree, after which they enroll in the Temple University School of Law, leading to the degree of Juris Doctor. While most Law Scholars complete their undergraduate degree before entering Beasley School of Law, Law Scholars can choose the Accelerated Option and enter Beasley School of Law after their third year of undergraduate study. This 3+3 option is currently available only to students in the College of Liberal Arts and the Fox School of Business and Management. A Law Scholar who chooses the Accelerated Option applies the first year of law school coursework toward undergraduate degree requirements and receives a Bachelor’s Degree in his or her chosen major(s) after the first year of Law School. Law Scholars interested in pursuing the 3+3 option must indicate their interest in doing so during the first semester of their first year of undergraduate study. For more information or an application, please visit the Temple Law Scholars Program ([http://www.temple.edu/vpus/opportunities/LawScholars.htm](http://www.temple.edu/vpus/opportunities/LawScholars.htm) web site.

University Honors Program

The University Honors Program is open to students enrolled in every undergraduate school and college. No special application is required for incoming first-year students. Current Temple students or transfer students who would like to be considered for the program must apply through the Honors web site ([http://honors.temple.edu/admissions](http://honors.temple.edu/admissions)). Applications are reviewed at the end of each semester after grades have been posted.

For more information on the Honors program, please visit the Honors web site ([http://honors.temple.edu](http://honors.temple.edu)).
Also see University Honors Program (p. 51) in the Academic Opportunities section of this Bulletin.
Transfer Students

Transfer Admissions

Applicants who wish to be considered for transfer admission must have maintained at least a 2.50 grade point average in 15 or more transferable credits completed after high school at an accredited two- or four-year institution of higher education, although this is no guarantee of admission. The average GPA for entering transfer students is a 3.00+. Temple requires the same high school units of transfer students as of freshmen.

Applicants must submit official transcripts from high schools and each college previously attended. The university defines “official transcript” as that which is sent directly from a high school or college to Temple’s Office of Undergraduate Admissions. Ordinarily, SAT or ACT scores are not required unless specifically requested by the Admissions Office.

An evaluation showing accepted transfer credits and a list of Temple course equivalencies are sent to students who are admitted. Evaluations are based on the majors students indicate on their applications. The Temple school/college in which they enroll will make the final determination of which transfer credits are applicable to the degree.

Transfer Credit Policy

Generally, Temple accepts academic, college-level courses beyond the developmental level completed with a grade “C” or better from schools with regional accreditation. Exceptions to any of these criteria may be considered on appeal. College-level coursework completed at colleges and universities that are not members of one of the six regional accrediting associations may be eligible for credit by validation after matriculation. Temple also awards limited academic credit for previous academic, employment, military, and/or other learning experiences not earned in a traditional college/university classroom setting. Grades are not assigned to transfer credits and therefore credit awarded will not affect a student’s grade point average at Temple.

All transcripts, including dual enrollment in high school, military transcripts and official score reports for standardized exams, such as Advanced Placement, International Baccalaureate, CLEP, etc., should be sent directly to the Office of Undergraduate Admissions (http://admissions.temple.edu/). There is an expectation that final transcripts are received prior to the beginning of registration for the next semester after initial matriculation.

Evaluation of transfer credits is based on a student’s major. Undergraduate Admissions determines which credits will transfer to the University; the student’s school/college at Temple makes the final determination of which transfer credits are applicable to the student’s degree program. Transfer evaluations may change for students who change majors or if additional transcripts or scores are received.

In any instance, credit is only awarded:

• when credit is useful in a student’s program of study;

• in academic subjects with a corresponding Temple University department;

• when the official score information or official transcript is received by the Office of Undergraduate Admissions;

• when possible, for courses completed more than 10 years prior to the date of admission. (Individual schools and colleges may have additional limitations, e.g. FSBM and CST. See individual school/college policy page.)

and credit is not awarded

• for the same course twice;

• for a course(s) in which a student is currently enrolled and/or has previously received a letter grade for the course, including, but not limited to F, W, AU, or I.

To earn a degree from Temple, students must complete at least 45 hours of the last 60 semester hours as a matriculated student at Temple, fulfill all university requirements (the General Education Program) and fulfill all degree requirements of the Temple school or college in which they are enrolled. (See Academic Residency (p. 83.).)

• Transfer credits do not count towards academic residency.

To graduate from Temple with Honors, students must complete at least 60 hours toward their degrees in residence as matriculated students at Temple University. (See Honors for Academic Achievement (p. 95.).)

• Transfer credits do not apply to the minimum number of credits (60) required to earn Latin Honors at graduation.

Non-University/College Credit including Military Credit

Students may earn credits through Advanced Placement Tests, International Baccalaureate Exams, College Level Examination Program (CLEP), DANTES Subject Standardized Tests (DSST), transcripted military experience and Portfolio Review for work or life experience (CLEX).
• Individual Schools and Colleges may have additional limitations regarding the type and the total number of semester hours granted through non-traditional means. (For an individual School/College policy, refer to https://www.temple.edu/vpus/documents/Prior_Learning_Credit.pdf.)

• Credits may be awarded for:

  • Advanced Placement and International Baccalaureate equivalencies are subject to change. Students will receive the equivalency that is in effect at Temple at the time of their matriculation.
    • For listing of Advanced Placement equivalencies and required scores refer to https://www.temple.edu/vpus/transfer/equivalencies.htm#AP
      • Although the AP credits do not transfer as direct equivalents to Temple GenEd courses, Temple University will allow students to satisfy the designated GenEd area with AP Credits.
    • For a listing of International Baccalaureate (IB) equivalencies refer to https://www.temple.edu/vpus/transfer/equivalencies.htm#IB.
      • Students who have earned the International Baccalaureate Diploma and meet minimum eligibility requirements complete the IB GenEd Program in place of the full GenEd Program. For more information refer to https://www.temple.edu/vpus/transfer/TransferGenEd.htm#ibgened.
      • Students may be able to satisfy Gen Ed areas with the IB equivalencies.

  • Credits earned through Dual Enrollment while in high school will be evaluated according to the guidelines established for transfer credits.
    • When students submit dual enrollment credit for an AP course on a university or college transcript and also submit scores for the corresponding AP exam, Temple will only award credit based on the evaluation of the dual enrollment credit presented on the university or college transcript. Duplicate credit will not be awarded for both the university/college credit and the AP score(s), since according to Temple University policy, students cannot receive credit for the same course twice.

  • International Credits
    • British A-Levels - Successful GCE A-Level results are recognized for credit by Temple University and may be awarded 6 to 8 semester hours per course. AS Levels may be awarded 3 to 4 credits.

  • College Level Examination Program (CLEP) provides a recognized assessment for students to meet requirements of a class through examination.
    • Temple will only award credit as indicated on the chart provided at http://www.temple.edu/vpus/transfer/equivalencies.htm#CLEP. Exams that are not listed are not accepted for credit at Temple University, even if the student received credit for the exam at a previous institution.
    • Credit for CLEP examinations posted on transcripts from other institutions will not be used to update a student’s academic record at Temple. It is the responsibility of the student to request a copy of the scores be sent directly to the Office of Undergraduate Admissions, Temple University, 1801 N. Broad Street, Philadelphia, PA 19122.
    • Currently, all literature, history, and political science CLEP exams require an additional Temple essay in order to receive credit for these tests at Temple. For the CLEP credits to be posted to the student’s academic record, the student must have both the minimum score on the CLEP test and a a grade of "pass" on the essay.
    • CLEP credits completed prior to matriculation at Temple will count towards the 45+ GenEd designation and will apply to the General Education program according to the course attribute.
    • Credits brought in through College Level Examination Program (CLEP) exams are considered the same as transfer credits and if completed after matriculation are subject to Policy 02.10.18.

  • Credit is awarded for DANTES Subject Standardized Tests (DSST) completed prior to matriculation according to the American Council on Education (ACE) recommendations.

  • Temple awards college credit for documented military experience according to the ACE guide recommendations. Examples of acceptable documentation include, but are not limited to:
    • AARTS (Army/ACE Registry Transcript System)
    • SMART (Sailor/Marine/ACE Registry Transcript)
    • Community College of the Air Force Transcript.
• Decisions to process a Portfolio Review for Prior Work or Life Experience (CLEX) are made in the individual schools and colleges by a faculty committee. The evaluation may be based on the submission of papers, presentation of a portfolio of completed work, and/or a demonstration of acquired skills.
  • If a student changes his/her program of study after the awarding of CLEX credits, the CLEX credits may not be usable in the new major.
  • CLEX credits will be posted only after the completion of a minimum of 30 credits of formal coursework at the university.
• College-level coursework completed at colleges and universities that are not members of one of the six regional accrediting associations may be eligible for Credit by Validation after matriculation.
  • Students will need to provide the syllabus used in each class to be evaluated along with the qualifications of the instructor of the course.
• Temple University accepts for transfer credit most college-level, liberal arts courses taught at institutions participating in Pennsylvania’s College Transfer System (PA TRAC). To assist students as they prepare to transfer, Temple has identified thirty credit hours of equivalent course content accepted as meeting general education requirements for most majors.
  • View Temple’s PA TRAC Transfer Credit Information at https://www.temple.edu/vpus/documents/temple_pa_trac_transfer_credit_framework.pdf.

**Different Credit Systems**

Quarter hours are converted to semester hours using the ration of 3:2:
  • 2 quarter hour credits are equivalent to 1.5 semester hour credits;
  • 3 quarter hour credits are equivalent to 2.0 semester hour credits;
  • 4 quarter hour credits are equivalent to 2.5 semester hour credits.

**International Credits**

• European Credit Transfer and Accumulation System (ECTS) units are converted using 5 ECTS credit to 3 US semester hour credits.
  • 1.667 ECTS credits = 1 Temple credit
    • 5 ECTS credits = 3 semester hour credits
    • 10 ECTS credits = 6 semester hour credits
    • 20 ECTS credits = 12 semester hour credits
    • 25 ECTS credits = 15 semester hour credits
  • Different US institutions have different conversion ratios for ECTS credits.

**Transfer Credit Appeals Process**

Initial evaluation of transfer credits is made in the Office of Undergraduate Admissions. Re-evaluation of credits will be done first by Undergraduate Admissions and when necessary with the assistance of advisors and faculty, in accordance with Temple policies and procedures.

Re-evaluation of credits will be facilitated by academic advisors in the student’s school/college according to standard Temple policies and procedures. Office of the Senior Vice Provost for Undergraduate Studies will assist with evaluation when necessary.

Credit (re)evaluation/appeals process continues if:
1. additional transcript(s) are received with additional coursework;
2. course(s) needs to be (re)evaluated for General Education (GenEd) Curriculum equivalency;
3. course(s) needs to be (re)evaluated for College/School/Department credit;
4. student changes major, declaration of minor or a second major;
5. credits need to be validated.
Students may have to complete one or more of these processes. The entire process can take as little as a few days to as much as the entire semester, depending on the complexity of each student’s situation, e.g. student’s major, student changing major, addition of certificate or minor, missing information or incomplete student record. Students initiate the appeals process in their respective advising office. For more information, refer to the Office of the Senior Vice Provost for Undergraduate Studies.

Transfer Agreements

To encourage and facilitate transfer for students from other colleges to Temple University, Temple has established the transfer agreements with other institutions:

- **Dual Admissions agreements** conditionally admit students to Temple at the same time they are admitted to a community college, and provide the opportunity for merit scholarships to Temple for eligible students. For a list of Dual Admissions agreements, go to www.temple.edu/vpus/transfer/agreements.htm.

- **GenEd-to-GenEd and Core-to-GenEd Transfer agreements** accept the general education requirements of associate degrees in lieu of Temple's GenEd Program requirements. For a list of these agreements, go to www.temple.edu/vpus/transfer/agreements.htm. (All students complete two Writing Intensive courses at Temple.)

- **Program-to-program agreements** are between Temple's academic schools and/or departments and other two-year and four-year institutions. These agreements align the degree requirements, so students know what they need to complete prior to transferring to Temple in order to be prepared to finish their degree. For more information on Program-to-Program agreements, go to www.temple.edu/vpus/transfer/agreements.htm.

Transfer Students and the University General Education Curriculum

Every Temple students fulfills the 35-36 credit General Education Program (GenEd) in some way. Transfer students may be able to use their transfer credits to satisfy General Education requirements. The following GenEd policies for transfer students apply only to University GenEd requirements.

Basic GenEd Transfer Policies (for additional information on program details, refer to http://gened.temple.edu/):

- Initial evaluation of transfer credits will be made in the Temple Office of Undergraduate Admissions. Re-evaluation of credits will be done by the academic advisor in the schools and colleges, in consultation with the General Education Program when necessary, according to standard Temple policies and procedures.

- Transfer courses will be applied to major and minor requirements first and then to GenEd.

- Students cannot use the same course to fulfill a General Education and a major or minor requirement.

- The Analytical Reading and Writing requirement may be met by placing out of Temple's Analytical Reading and Writing through a placement test or by transferring in the equivalent of Temple's Analytical Reading and Writing course.

  - Transfer students who completed an English placement test at their previous institution and tested out of their previous institution's English Composition or comparable requirement can be waived from the Analytical Reading and Writing requirement if they have documentation of their placement and have successfully completed a higher-level English/Writing course. Acceptable documentation includes an official letter from the university's registrar, advising unit, a faculty member, or other appropriate university official. If approved, the student's advisor will post a DARS exception.

  - The Global/World Society requirement (GG) also may be met by participating in an approved Study Abroad program. Transfer students who completed a study abroad at their previous institution should check with their advisor for additional information.

- All students are required to take two Writing Intensive courses at Temple University in addition to completing the GenEd requirements. Writing Intensive courses in transfer cannot be used to fulfill this school/college requirement. The two Writing Intensive courses will be designated by the student's major.

- Credit for Prior Learning (completed prior to matriculation at Temple) such as Advanced Placement (AP), International Baccalaureate (IB) and College Level Examination Program (CLEP) will satisfy General Education requirements according to current practice, i.e. using course attributes/core equivalents.

- All requirements of Temple’s schools and colleges and major programs of study remain in force. Students should consult the appropriate sections of the Bulletin and their academic advisors about school/college major requirements.

Core-to-GenEd, GenEd-to-GenEd, 45+ GenEd, and IB GenEd students must still complete the required number of credits for their baccalaureate degree, using courses in transfer as well as credits completed at Temple.

- A Core-to-GenEd or GenEd-to-GenEd student has completed the GenEd Program as stipulated in the agreement. For a list of agreements by institution go to www.temple.edu/vpus/transfer/agreements.htm.
• Students must meet the academic residency requirement that requires students to complete 45 of the last 60 credits be taken at Temple University.

• Students with fewer than 45 transfer credits and have not completed an approved degree at a Core-to-GenEd or a GenEd-to-GenEd partner institution, complete the full GenEd Program. Refer to https://www.temple.edu/vpus/transfer/TransferGenEd.htm.

• Students with 45 or more transferable credits and have not completed an approved degree at a Core-to-GenEd or a GenEd-to-GenEd partner institution, complete the 45+ GenEd Program. Refer to https://www.temple.edu/vpus/transfer/TransferGenEd.htm.

  • For students new to Temple: The courses have been taken elsewhere before the student matriculates at Temple.

  • For reenrolled students: 45 or more transferable credits have been taken elsewhere since the student’s last date of enrollment at Temple and before the date of the student’s return to Temple.

  • Courses taken at Temple as a non-matriculated student are not counted toward eligibility for 45+ GenEd.

  • Courses taken elsewhere by students once they are matriculated at Temple are not counted toward eligibility for 45+ GenEd.

  • Credits for prior learning (e.g., AP, IB, CLEP, etc.) are not counted towards eligibility for 45+ GenEd, if completed after matriculation to Temple.

  • Students who have earned the International Baccalaureate (IB) Diploma and meet minimum eligibility requirements, complete the IB GenEd Program. For more information go to www.temple.edu/vpus/transfer/TransferGenEd.htm

  • This program still requires students to complete up to 18-19 credits of the GenEd Program.

**Dual Admissions**

To better encourage and facilitate transfer admission from other colleges to Temple University, Temple and these colleges have established articulation agreements.

Dual Admissions agreements conditionally admit students to Temple at the same time they are admitted to a community college, and provide merit scholarships towards Temple tuition for eligible students. Students may enroll in the Dual Admissions program before completing 30 credits, including any colleges previously attended. Students are then admitted to Temple upon attaining their associate’s degrees at the community college. Go to www.temple.edu/vpus/transfer/agreements.htm for the list of dual admission agreements.
Special Programs

Temple University offers credit-bearing certificate programs (p. 29), non-credit programs (p. 30), off-campus/corporate programs (p. 31) and programs with academic credit (p. 31) that are available for all students intending to study at Temple University without having to be enrolled in a degree program.

The academic policies and regulations generally apply to all students and provide a framework within which schools and colleges may specify further conditions or variations appropriate to students in their courses or programs. Statements of academic policies and regulations apply to both degree and non-degree undergraduates unless explicitly noted otherwise. In addition to the description below, please refer to the Responsibilities (p. 36), Rights (p. 39) and Academic Policies (p. 81) sections of this Bulletin for further information on particular policies that relate to students in these programs.

Temple University provides a broad administrative framework to present and support a wide range of university offerings not falling within the province of typical undergraduate and graduate degree work on Temple campuses. Registration for credit-bearing courses is administered through the Office of Continuing Studies on the various campuses. Registration for non-credit courses is handled through Temple University Fort Washington (TUFW). Students taking non-credit courses at Temple University Ambler, TUFW and Temple University Center City (TUCC) may register and pay online for non-credit courses through the Temple University Fort Washington (http://fortwashington.temple.edu/noncredit-programs/registration-and-payment) web site. The online system links non-credit course payments into the TUPay system, already in use for credit course payment.

Course offerings under special programs respond to the differing needs of adults seeking additional education. Some offerings are of common interest to all, such as writing and general computer skills. Other courses, tailored for those adults who wish to change their work situation, focus on new skill and knowledge development. Coursework is also designed for adults who wish to maintain their current work position in a profession that requires recertification to maintain appropriate licenses. Course offerings are also geared to those adults seeking personal enrichment as their primary goal.

The form of programming includes credit certificates, non-credit professional certificates, and non-credit personal enrichment courses. The courses are offered at Temple University Ambler, Temple University Fort Washington, Temple University Center City, Temple University Harrisburg, and a variety of public and private off-campus sites through the auspices of Office of Off-campus Programs.

Information about the services offered at each campus is presented below.

Main Campus

The Main Campus Office of Continuing Studies (http://www.temple.edu/vpus/arc/continuingstudies/continuingstudies.html) is the university's central office for serving non-degree students. Non-degree students are those who have not been formally admitted to a degree program. The office serves a variety of students, including adults returning to school for undergraduate or graduate courses, professionals updating their skills, qualified students seeking undergraduate admission, students taking courses for personal enrichment, and visiting students. There is no formal application to enroll as a Continuing Studies student; however, first-time enrollees are required to provide documentation of education completed (high school transcript, GED certificate, college transcripts [minimum 2.00 GPA required], or college diploma). Prior to their enrollment, degree-seeking students may be required to take one or more university placement tests.

Services include:

• individual academic advising
• informal evaluation of academic transcripts
• registration and schedule revisions
• referrals to other university services and programs

First-year, non-degree students may register for a maximum of 11 credits per semester. Second-year, non-degree student registrations are based upon academic progress. However, non-degree seeking students are prohibited from registering via Self Service Banner (SSB) and must register through their Continuing Studies office. All non-degree students must maintain satisfactory academic progress in order to continue taking courses through Continuing Studies. Continuing Studies students must apply for admission by the completion of 30 s.h. Pre-admission counseling, academic advising, registration, and other support services are provided for non-degree students.

Refer to the Academic Policies section of this Bulletin for more information on non-degree students (p. 97).

Ambler/Fort Washington

Temple University's Ambler (http://ambler.temple.edu) and Fort Washington (http://fortwashington.temple.edu) campuses offer extensive undergraduate, graduate, and non-credit courses and programs that are available during days, evenings, and weekends. The listing of all offerings is available at http://ambler.temple.edu/. Students interested in credit courses or programs should contact the Office of Academic Advising and Career Development at Ambler Campus by phone (267-468-8200) or go to the web site at http://ambler.temple.edu/academics/advising-and-support. This office coordinates the services for students, as described under Main Campus above. For more information on non-credit offerings and registration, see Non-Credit Programs/Temple University Fort Washington (p. 30) or go to http://fortwashington.temple.edu/.
Center City

In addition to undergraduate and graduate-level programs and courses, Temple University Center City (TUCC) offers a rich selection of non-credit programs and classes. These include courses for your personal enrichment from Music Prep, courses leading to state licensure in the real estate field from the Real Estate Institute, lively classes on every conceivable subject for retirees provided by members of the Osher Lifelong Learning Institute at Temple University (OLLI), and career development seminars and professional certificate programs which are administered through Temple University Ambler campus. For more information on non-credit programs, refer to Non-Credit Programs (p. 30) and/or visit www.temple.edu/tucc/.

Health Sciences Center (HSC)

The Lewis Katz School of Medicine (www.temple.edu/medicine/), the Maurice H. Kornberg School of Dentistry (http://dentistry.temple.edu/), the School of Pharmacy (http://pharmacy.temple.edu/), and the College of Public Health (http://cph.temple.edu) sponsor continuing education activities for their graduates as well as for graduates of other institutions. Many programs meet the requirements of professional accrediting agencies to take refresher courses or seminars in order to keep abreast of changes in the field.

Credit-Bearing Certificate Programs

At Temple University, a certificate is a credit-bearing program of courses leading to a credential that recognizes the student’s work in a specialized area of knowledge. An undergraduate certificate may be part of a degree program, or it may stand alone. It is distinct from an academic major or minor and should not be confused with the process of professional certification for teaching and other fields. Certificate programs often focus on the acquisition of specific skills recognized in the job market. They are open to undergraduates in all Temple schools and colleges and majors and are particularly useful to students seeking to document their exposure to fields and disciplines outside of their academic major and minor. Some majors recommend particular certificate programs to their students. Non-degree students should contact the school or college offering a certificate, as some certificates are restricted to degree students. Below is a list of undergraduate certificate programs. For detailed information, contact the school or college.

Non-Credit Programs

For further information on the following non-credit programs, you can visit the web sites of Temple University Ambler (http://ambler.temple.edu), Temple University Center City (http://www.temple.edu/tucc), and Temple University Alumni (http://www.alumni.temple.edu/s/705/alumni).

Non-Credit Programs at Temple University Ambler, Fort Washington, and Center City

The Office of Non-Credit and Continuing Education, located at the Ambler campus, provides training and seminars in professional development and personal enrichment topics, as well as computer applications. Courses and programs are offered at the Ambler, Fort Washington and Center City campuses.

Non-credit certificates can be completed in:

- Accounting
- Project Management
- Leadership and Management
- Editing and Writing
- Interior Design
- Meeting Planning
- Wedding Planning and Consulting
- Database Management
- Web Site Design

Personal enrichment courses are offered in:

- Digital Photography
- Arts, Literature and History
- Languages
- Food and Entertainment
- Horticulture
- Healthy Lifestyles and Exercise
- College Prep (SAT Review Workshop)

For more information about non-credit courses and programs, or to receive catalogs, call the Office of Non-Credit and Continuing Education at 267-468-8500, send an e-mail to ncrestab@temple.edu, or visit the Non-Credit Programs (http://ambler.temple.edu/academics/non-credit-programs) web site.
LifeLong Learning Society at Temple University Fort Washington

The Lifelong Learning Society provides stimulating classes with great teachers, topics, and students. Classes are designed for learners 50 and up, but adult learners of all ages are welcome. After paying an annual fee, or semi-annual fee (fall or spring), students may enroll in as many of the LifeLong Learning Society courses as they like. Call 267-468-8500 for details or visit the LifeLong Learning Society web site for a listing of courses.

Real Estate Institute

The Real Estate Institute is the largest professional consumer education program in the tri-state area offering pre-licensure or basic real estate courses as well as a broad spectrum of elective courses, all taught by state-certified real estate instructors. The Real Estate Institute's courses are fully-accredited by the Pennsylvania Real Estate Commission and are intended for those seeking state licensure and/or professional advancement but not an academic degree. The courses allow you to qualify for the Pennsylvania Salesperson Licensing examination and, together with a three-year apprenticeship and additional courses, for the Pennsylvania Real Estate Brokers examination. All students who successfully complete each course of study are awarded Real Estate educational credits and a Temple Real Estate Institute transcript. For more information, call 215-204-1539 and/or visit the Real Estate Institute web site.

Music Prep

Music Prep offers continuing opportunities for musical growth and enrichment for people of all ages and abilities, from the beginner to the experienced musician. There are programs designed for preschool through high school age students who are considering music as a future career or serious avocation and for adults who wish to develop their musical skills and interests. For more information, call 215-204-1512 and/or visit the Music Prep web site.

Osher Lifelong Learning Institute at Temple University

The Osher Lifelong Learning Institute at Temple University (OLLI) is an educational program for people who are retired, near retirement, or adults with discretionary time to take daytime classes. There are no age limitations. The organization brings a lively, no-pressure atmosphere and offers a variety of courses.

OLLI instructors are also OLLI members, representing many professions, vocations, and life experiences. Classes are held Monday to Friday. OLLI also presents the Friday Forum, featuring speakers with diverse and interesting backgrounds. Members may sit-in on one undergraduate course each semester, subject to university policy and instructor approval. All classes are held at Temple's Center City campus - convenient to public transportation. For more information, call 215-204-1505, e-mail olli@temple.edu, or visit the OLLI web site.

Off-Campus/Corporate Programs

Temple University has been bringing its rich educational resources to off-campus sites for over 60 years. Through its Office of Off-campus Programs, Temple University provides both off-campus and customized corporate programs throughout the Philadelphia five-county area and beyond. The Office of Off-campus Programs offers a wide array of credit courses, certificate and full degree programs.

The staff of Off-campus Programs serves as the liaison between the university faculty/trainers and its external customers. They have developed strong affiliations with businesses, school districts, units of government, and non-profit associations. The Office of Off-campus Programs delivers, on site, the most effective credit programs in the Delaware Valley. This office develops and customizes training programs designed to be taught on site at the client's workplace while assuring the utmost quality in instruction and customer service. For more information, view the Off-campus Programs web site or e-mail extserv@temple.edu.

Programs with Academic Credit

Temple University offers a variety of special programs with academic credit. For more details, contact the school, college, or campus where the program is offered.

Visiting Students

Temple University welcomes students from other colleges and universities who wish to enroll in courses on any of our campuses. All students must provide a transcript of their previous academic work and must have earned at least a 2.00 cumulative GPA. Students must bring or fax a permission form from their home institution, listing the specific Temple courses that have been approved for transfer. If the courses have prerequisites, students must provide proof of having taken and passed them. Some courses may also require special authorization from instructors or departments at Temple (e.g. business courses numbered 2000 and above).

Students may use the Visiting Student Registration Form available on the Temple University Summer Programs web site at www.temple.edu/summer. This form must be faxed or sent via postal mail to the Temple University campus you are planning to attend. The full listing of the campus contact
information and registration information for all campuses is available by visiting Summer Programs Registration (http://www.temple.edu/summer/register/visiting-students.html).

Credit Transfer to Your Home Institution

In order to facilitate the transfer of credits, students should request that an academic transcript be sent from Temple to their home institution. The transcript request form (http://www.temple.edu/registrar/alumnifamily/verification/transcripts) is available by visiting Temple’s Office of the University Registrar web site. It will not be sent out automatically. For further information, please contact the Office of the University Registrar at 215-204-1131 or visit in person on the second floor, Conwell Hall, Broad Street and Montgomery Avenue, on the Main Campus. You may also visit the registration office at your campus of choice or go to their web site at www.temple.edu/registrar for more information.

Undergraduate Non-Degree Students

Students who are not currently enrolled at another institution may be permitted to register for some courses as non-degree students. To enroll in undergraduate courses they must have earned a high school diploma or a G.E.D. certificate. Students who have attended another college or university must provide a transcript of their previous academic work and must have earned at least a 2.00 cumulative GPA. With some exceptions, these students are required to take the university placement test before they can register. However, meeting these minimum requirements does not guarantee enrollment as a non-degree student. For more information, and to speak with an academic advisor, please contact the Main Campus Office of Continuing Studies (http://www.temple.edu/vpus/arc/continuingstudies/continuingstudies.html#about) or the office of the campus you wish to attend.

High School Students

High school students who will be entering their senior year may be eligible to register for college-level courses. Before they can register, they must secure and provide written authorization from their guidance counselor or high school principal, specifying the course(s) the student is authorized to take.

Summer Sessions

Temple University welcomes students from other colleges and universities, international students, as well as our own students, to enroll in a summer course at any one of our several campuses. We offer credit, non-credit, day and evening courses at our campuses. We also have several Study Abroad Programs in France, Germany, Italy, Spain and the United Kingdom.

www.temple.edu/registrar

General Information

Students planning to register for classes should visit the Office of the University Registrar's web site, www.temple.edu/registrar, and click on the “Registration Information” link for information about and links to advising, registration, courses offered, and more.

Detailed information regarding courses offered (day, time, location, instructor) is on the Class Schedule (https://www.temple.edu/apply/common/cdcheck.asp).

Advising is required for students registering at Temple for the first time and is strongly recommended for all students before registering through Self-Service Banner (SSB) at http://tuportal.temple.edu. Students should contact their school, college, or department advisors for appointments or information. Generally, advisors and students review options and requirements, select courses, and complete and sign a registration form when necessary. For further information on academic advising, please see Advising (p. 61) under the Academic Support section of the Bulletin.

Registration Policies

Registration for courses is not optional, and students must not attend courses for which they are not registered. Once a student registers for a course—or is registered by an advisor at the student's request—the student remains financially obligated for the course unless and until he or she drops the course by the prescribed deadlines for dropping and adding courses. Prior to registering for the first time each semester, students are required to accept Temple University's Financial Responsibility Agreement (http://bursar.temple.edu/billing/financial-responsibility-agreement), which outlines the financial terms and conditions associated with course registration.

Students may drop courses and otherwise modify their registrations in Self-Service Banner (SSB) or by working with an academic advisor. Please see www.temple.edu/registrar/documents/calendars/ for add/drop and withdrawal deadlines for each semester and summer session.

Once registered, students must pay tuition and fees according to the Bursar's Office billing schedule. Failure to satisfy billing and financial obligations may result in withholding of official transcripts and diplomas; denial of the right to register for future sessions; and the assessment of late fees and collection costs.

Students who are not planning to attend the semester must drop their course registration. Students who do not drop classes by the end of the official drop/add period (see Academic Calendar [http://www.temple.edu/registrar/documents/calendars] for specific dates) remain financially obligated for the amount due. Instructors are advised to issue letter grades for students who have not been attending but are on their roster of registered students.

Students who drop classes by the end of the published drop period of a semester or summer session will have their courses deleted. This will relieve the student of academic and financial responsibilities associated with the course.

Students who withdraw from classes after the published drop period are responsible for full payment of all tuition and fees, along with any payment plan fees, and late payment charges. These courses will be recorded on the transcript with the notation of “W,” indicating that the student withdrew. Unpaid tuition balances may be referred for collection, and students may be held liable for paying all associated collection costs and/or legal fees.

Continuing Student Registration

Continuing (or priority) student registration is the period in which all currently enrolled, degree-seeking students can register. Each semester, currently enrolled students are sent an e-mail containing the registration schedule. This schedule is also available on the Office of the University Registrar (http://www.temple.edu/registrar) web site under Registration Information.

An installment tuition payment plan is available for students who register for the fall or spring semesters during these periods. See the Tuition and Fees section of the Bulletin for payment information.

Please note the following important information with respect to continuing registration for degree-seeking students (graduates and undergraduates) enrolled in the current semester:

• For fall semester, held in March, with initial fall semester E-bills sent beginning in late July and due mid-August.
• For spring semester, held in October, with initial spring semester E-bills sent beginning in December and due in January.
• Continuing, degree-seeking students (graduates and undergraduates) may continue to register beyond these dates but must register for their next semester by stated deadlines or risk a late registration penalty. Generally, they must be registered by the first day of the term. Visit the Office of the University Registrar (http://www.temple.edu/registrar) web site for specific registration dates and deadlines.

Open registration is available:
• For new students, readmitted students, and continuing students who could not register during continuing student registration
• For fall semester, held in April to late August
• For spring semester, held in November to mid-January

An installment tuition payment plan is available for most students who register during this period. See Tuition and Fees (p. 125) for payment information and registration dates.

Late Registration

Temple conducts late registration at the beginning of each semester or summer session. Registration appointments may be required.

All students will be assessed a $100.00 late registration fee beginning the first day of the term.

Schedule Revision (Drop/Add)

Students may revise their schedules at any time after they have registered, through the add and drop deadlines. Students who cannot register online but wish to make changes in their course schedules must do so with the assistance of their academic advisor. Approvals required vary according to the time the transaction is completed. Visit the Office of the University Registrar (http://www.temple.edu/registrar) web site for more information.

Students may not add or drop courses after the published deadline. Dropping the course results in the deletion of the class from the student’s roster. It also relieves the student of the financial liability associated with the deleted course. If a refund is due, the provisions of the refund policy will apply.

Student Identification Cards

OWL Cards (student IDs) are produced on the Main Campus by the Office of Orientation (http://www.temple.edu/studentaffairs/orientation) during New Student Orientation. At other times throughout the semester, ID cards are produced by the Diamond Dollars Office at 1910 Liacouras Walk. The cost of a replacement ID card is $20.00.

An OWL Card is needed for entry into buildings, library privileges, and many university services.

ID cards also are issued on the Ambler Campus, Health Sciences Center, and on scheduled days and times at the Center City Campus.

Additional Registration Information

Veterans

Veterans may enroll as full-time or part-time students; however, benefits are based on enrollment status. For information on services offered at the university for veteran and service members, please review the Military and Veteran Services Center web site at www.temple.edu/veterans.

PA Act 46

Pennsylvania Act 46 of 2014 requires public institutions of higher education in Pennsylvania to provide veteran students, as defined in the Act, with preference in course scheduling. Non-compliance may be reported to the Pennsylvania Department of Education by submitting the Higher Education Student Complaint form found at: www.education.state.pa.us (http://www.education.state.pa.us).

PA Act 11

Pennsylvania Act 11, which became law July 1, 2015, mandates Temple University to charge the in-state tuition rate to out-of-state students living in Pennsylvania and using their GI Bill benefits under chapters 30, 31, 33, 35 and sections 1606 and 1607. Eligible students will have their student account adjusted to reflect the in-state tuition rate. Temple will also review the financial aid package and make any necessary adjustments based on the in-state tuition rate.

Veterans Certification Process

Veterans may enroll as full-time or part-time students; however, benefits are based on enrollment status. In order to begin the process to use your benefits, it is imperative that you complete the steps that follow before the beginning of the first semester that you are enrolled at the university so that you can receive your benefits in a timely and accurate manner:

• Write your TUID on the front of your Certificate of Eligibility.
• Upload the Certificate of Eligibility and/or other documents in the Veteran Benefit Declaration page in TUPortal.
• If you are receiving Chapter 35 DEA benefits, you must also write the social security number of the parent who transferred benefits.

*NOTE - If you do not submit your Certificate of Eligibility in advance, it can negatively affect the timely and accurate processing of your program benefit payments.

If you do not have a Certificate of Eligibility, you can obtain a copy by contacting the Veterans Administration at http://www.gibill.va.gov (http://www.gibill.va.gov), click on “Ask a Question” or call 1-888-GI-Bill1.

International Students
If a student is on a non-immigrant visa, enrollment for a minimum of 12 credits each semester is required to meet immigration regulations. Non-resident tuition charges are assessed.

Continuing Studies Students
(Non-degree-seeking students attending Temple prior to formal admission into a degree program)

There is no formal application to enroll as a Continuing Studies student; however, first-time enrollers are asked to provide documentation of education completed (high school transcript, GED certificate, college transcripts [minimum 2.00 GPA required], or college diploma). First-year, non-degree-seeking students may register for a maximum of 11 credits per semester. Second-year, non-degree-seeking student registrations are based upon academic progress. However, undergraduate non-degree-seeking students are prohibited from registering via Self-Service Banner and must register through their Continuing Studies office. Continuing Studies students must apply for admission by the completion of 30 s.h. Preadmission counseling, academic advising, registration, and other support services are provided for non-degree-seeking students. Also see the Continuing Studies web site for more information.
Student Responsibilities

Every registered student agrees to abide by an overall set of values, principles and regulations mandated by the university. In order for a student to remain in good standing, it is imperative that each student assumes responsibilities throughout his/her enrollment at Temple. Students also have a number of rights which protect their interests. This section details these important responsibilities and rights.

Academic Honesty

Temple University believes strongly in academic honesty and integrity. Plagiarism and academic cheating are, therefore, prohibited. Essential to intellectual growth is the development of independent thought and a respect for the thoughts of others. The prohibition against plagiarism and cheating is intended to foster this independence and respect.

Plagiarism is the unacknowledged use of another person's labor, another person's ideas, another person's words, another person's assistance. Normally, all work done for courses -- papers, examinations, homework exercises, laboratory reports, oral presentations -- is expected to be the individual effort of the student presenting the work. Any assistance must be reported to the instructor. If the work has entailed consulting other resources -- journals, books, or other media -- these resources must be cited in a manner appropriate to the course. It is the instructor's responsibility to indicate the appropriate manner of citation. Everything used from other sources -- suggestions for organization of ideas, ideas themselves, or actual language -- must be cited. Failure to cite borrowed material constitutes plagiarism. Undocumented use of materials from the World Wide Web is plagiarism.

Academic cheating is, generally, the thwarting or breaking of the general rules of academic work or the specific rules of the individual courses. It includes falsifying data; submitting, without the instructor's approval, work in one course which was done for another; helping others to plagiarize or cheat from one's own or another's work; or actually doing the work of another person.

The penalty for academic dishonesty can vary from receiving a reprimand and a failing grade for a particular assignment, to a failing grade in the course, to suspension or expulsion from the university. The penalty varies with the nature of the offense, the individual instructor, the department, and the school or college.

Students who believe that they have been unfairly accused may appeal through the school or college's academic grievance procedure. For more information see Grievances (p. 41).

Attendance

Enrollment in a course presupposes intention to attend regularly. Attendance requirements should be announced by the instructor at the beginning of the course. The student who is absent for any reason is responsible for work missed. If a pattern of excessive absences develops, the instructor may report this fact to the student's advisor through the department in which the student is enrolled.

The student should understand that excessive absences may, at the option of the instructor, jeopardize the grade and/or continuance in the course. Although attendance is basically a matter between the student and the instructor, either may request the counsel of the advisor or the Office of the Dean in special cases.

Students should consult the policies and regulations of their own school or college for any further specifications of attendance policy.

Clearing Holds

A hold is an action placed on a student's record. Holds may affect a student's ability to register for courses, to apply for graduation, or to receive transcript services or degree audit reports.

Students may receive holds on their records for financial, academic, or disciplinary reasons. Students are obligated to resolve holds as quickly as possible, working with their academic advising office, student financial services, or other offices, as appropriate. Academic holds may be caused by failure to declare a major by the appropriate time, low GPA, or failure to make academic progress. Students receiving a "See College Dean" hold should meet with their academic advisor as soon as possible.

Code of Conduct

The Temple University Student Code of Conduct can be viewed at http://policies.temple.edu/getdoc.asp?policy_no=03.70.12. Printed copies are available at the Office of the Dean of Students.

Temple University has the responsibility to formulate and enforce rules of conduct which are necessary for the furtherance of its educational goals and essential activities. In particular, the university has an obligation to protect itself from any acts which tend to impede, obstruct, or threaten its normal operations. While this authority is inherent, the university attempts to delineate its expectations as clearly as possible and publish its regulations. Students, both as individuals and as members of student organizations, are responsible for apprising themselves of, and complying with, all applicable, existing regulations in the Undergraduate Bulletin and any regulations that may be subsequently promulgated through appropriate publications of the university community. Copies of Student Rights, the Code of Conduct, and the Disciplinary Procedure may be obtained from the Office of the Dean of Students (http://www.temple.edu/studentaffairs/deanofstudents).
The University Disciplinary Committee is responsible for administering the Student Code of Conduct. Violations of the university's Code of Conduct, including, among other things, theft, underage consumption of alcohol, disorderly conduct, plagiarism, and possession of a weapon, can result in a student being brought before the University Disciplinary Committee. A finding of responsibility may result in a fine, suspension, and/or permanent expulsion from the university. A disciplinary hold is placed on the student's record until sanctions are fulfilled. The hold prevents students from registering for courses, receiving their transcript or graduating.

**Financial Obligation to the University**

Being a Temple student means incurring a financial obligation to the university. An important part of taking responsibility for your education is to be aware of tuition and fee charges, payment and financial aid procedures, and all relevant deadlines, and to make sure that forms are submitted and bills paid on time. Even if someone else is paying the bills, you are responsible for remaining in good financial standing with the university. Failure to satisfy financial obligations, when due, can result in cancellation of your current registration, denial of the right to register for future sessions, delay in graduation, and withholding of official transcripts and diplomas after graduation. Unpaid balances are subject to referral to outside collection agencies or law firms.

Prior to registering for the first time each semester, students are required to accept Temple University's Financial Responsibility Agreement (http://bursar.temple.edu/billing/financial-responsibility-agreement), which outlines the financial terms and conditions associated with course registration.

Your registration for courses is not final until all applicable tuition and fees are paid through the Office of the Bursar. For information on registration, its financial aspects, and the impact of registration changes on your financial obligation to the university, please see Registration (p. 33).

For current tuition rates and fees, see Tuition and Fees (p. 125) and the Bursar's Office (http://bursar.temple.edu) web site. For information and instructions concerning the electronic bill, online tuition payments and answers to frequently asked billing questions, please visit the Bursar's Office (http://bursar.temple.edu) web site.

For information about Financial Aid, Financial Aid requirements for satisfactory academic progress, and the impact of registration changes on your eligibility for aid, see Student Financial Aid (p. 137) and the Student Financial Services (http://sfs.temple.edu) web site.

For information on campus housing and meal plans, see Student Support and Services (p. 69) and the Office of University Housing and Residential Life (http://housing.temple.edu) web site.

See your school’s or college’s policies on graduation procedures for information on the impact of unmet financial obligations on clearance for graduation.

**Health and Safety Issues**

**Alcohol Policy**

In accordance with Pennsylvania law, no individual under the age of 21 may possess or consume alcohol on university property. Student organizations may not serve alcohol at campus events. The use of alcohol in the residence halls and university-owned housing is covered in the Proprietary Policies developed by the Office of University Housing and in the Student Code of Conduct. Please also see the university’s Student Drug and Alcohol Policy (http://policies.temple.edu/getdoc.asp?policy_no=03.70.01), Student Code of Conduct (http://policies.temple.edu/getdoc.asp?policy_no=03.70.12) and the Resources, Rights & Responsibilities Guide (http://housing.temple.edu/resources-and-services/rights-and-responsibilities).

**Drug Policy**

The unlawful manufacture, distribution, dispensation, possession or use of controlled substances in any facility or work site of Temple University is strictly prohibited. Please see the university’s Student Drug and Alcohol Policy (http://policies.temple.edu/getdoc.asp?policy_no=03.70.01).

**Immunizations**

Under Pennsylvania state law, all students living in university-owned or -operated housing are required to submit proof of a one-time meningococcal vaccination, or submit a signed waiver. In addition, entering students are strongly advised to submit to Student Health Services proof of two measles immunizations (usually given as MMR), or serologic proof of measles immunity. Other immunizations that are routinely recommended for college students are rubella, mumps, diphtheria-tetanus, varicella (chickenpox) for those who have not had the disease, and Hepatitis B. Some students may also need Hepatitis A, IPV (polio booster), pneumococcal, or influenza vaccines; check with your doctor.

Students from countries with a high rate of tuberculosis must be screened for the disease. These students will be informed of how to complete this screening. Prior BCG vaccination does not exempt students from this evaluation.

**Medical Fees and Insurance**

Students are responsible for any medical fees incurred outside of Student Health Services, including those incurred at Temple University Hospital. Group medical insurance is offered at the beginning of each semester through the Benefits Office. Full-time students may enroll for health coverage in the months of September (effective September 1) or February (effective March 1). Students are urged to carry this insurance or a comparable policy. Students who are insured should keep in their possession the receipt of the above group policies or identification cards for other policies. All new and continuing international students in both J-1 and F-1 status are required to carry health insurance that meets certain minimum standards determined by the United States Information Agency (USIA). These students will be enrolled in the Low Option of Blue Cross/Blue Shield Plan, as well
as the International Group Services Plan. More information is available on the Benefits (http://www.temple.edu/hr/students) web site and by calling 215-204-1321.

**International Students**

Temple University requires all new and continuing international students in Nonimmigrant Student (both F-1 and J-1) status to carry health insurance that meets certain minimum standards determined by the United States Department of State. More information is available on the Benefits (http://www.temple.edu/hr/students/healthinsurance/international.htm) web site.

All international students in Nonimmigrant Student (F-1 and J-1) status must maintain their nonimmigrant status insofar as regulations of the United States Citizenship and Immigration Services (USCIS) and the United States Department of State (DOS) are concerned. In general, students in this status must complete a full-time course load each academic term while they remain in the United States and must not accept unauthorized on-campus or off-campus employment. More information is available on the Current Students (http://www.temple.edu/isss/current-students/status.html) page of the International Student and Scholar Services web site.

Eligibility for employment for individuals in Nonimmigrant Student (F-1 and J-1) status is based on regulations of the USCIS and the DOS. More information is available on the Employment Information (http://www.temple.edu/isss/employment) page of the International Student and Scholar Services web site.

Major medical health insurance is required for all international students in Nonimmigrant Student (F-1 and J-1) status. International students are required to submit to the university's Benefits Office evidence of coverage by a health insurance policy that meets the minimum coverage required by Temple University (consistent with standards established by the United States Department of State): maximum deductible of $500 per accident or illness; payment of at least 75% of covered medical expenses; maximum benefit of $50,000 per accident or illness; repatriation benefits of no less than $7,500; and medical evacuation benefits of no less than $10,000. Students may also purchase such health insurance upon arrival at Temple University. For further information, please contact the university's Benefits Office at 215-926-2270 or e-mail StudentInsurance@temple.edu. For detailed information please see www.temple.edu/hr/students/index.html.

In addition, international students must demonstrate that they are free of active tuberculosis by submitting to Student Health Services a Tuberculosis Screening Record which has been certified by a licensed physician. International students may meet this requirement upon arrival at Temple University by taking a PPD test at Student Health Services (http://www.temple.edu/studenthealth).

A mandatory orientation session is held for new international students at the beginning of each academic term. For more information, please see the International Student and Scholar Services (http://www.temple.edu/isss/future-students/orientation-international.html) web site and the Office of Orientation (http://www.temple.edu/studentaffairs/orientation) web site.

For more information about maintaining Nonimmigrant Student (F-1 and J-1) status, please see www.temple.edu/isss/index.html.

**Registration**

Students must be appropriately registered for courses to receive credits and grades. Students not registered will not receive a grade or credit for a course. Go to Self-Service Banner in the TUPortal (https://tuportal3.temple.edu/cp/home/displaylogin) to confirm your billing and registration status. If you add or drop a course, or revise your class schedule, check Self-Service Banner to make sure that your registration record is accurate. Be warned, if you are registered for a course but don’t attend, you will be held financially responsible and receive a grade.

**Temple E-mail Accounts**

All students are required to obtain a Temple e-mail address and follow guidelines for university use of e-mail; the policy establishes your Temple e-mail account as an approved channel of communication for sending you official university notifications and important information. Visit https://accounts.temple.edu/ in order to activate your account.
Student Rights

Academic Rights and Responsibilities

Temple University students who believe that instructors are introducing extraneous material into class discussions or that their grades are being affected by their opinions or views that are unrelated to a course's subject matter can file a complaint under the university's policy on academic rights and responsibilities (Temple Policy 03.70.02 [http://policies.temple.edu/getdoc.asp?policy_no=03.70.02]).

The policy encourages students to first discuss their concerns with their instructor. If a student is uncomfortable doing so, or if discussions with the instructor do not resolve the student's concerns, an informal complaint can be made to the Student Ombudsperson for the student's school or college. Unresolved complaints may be referred to the dean for handling in accordance with the school or college's established grievance procedure. Final appeals will be determined by the Provost.

Course Syllabus

Instructors are required to supply a detailed syllabus explaining course rules and expectations for courses in which you are enrolled. The content requirements for course syllabi are enumerated on the Temple Policies & Procedures web site in Temple Policy 02.78.13 [http://policies.temple.edu/getdoc.asp?policy_no=02.78.13].

Student Feedback Form (SFF)

Each course (with few exceptions) is required to employ a standard form for student evaluation of courses and teaching. Please fill out the SFF forms thoughtfully at the end of your course. (Temple Policy 02.78.14 [http://policies.temple.edu/getdoc.asp?policy_no=02.78.14])

FERPA/Privacy Guidelines

As is required by the Family Educational Rights and Privacy Act (FERPA) of 1974, with certain exceptions, generally Temple University cannot disclose a student's education records without the written consent of a student or without proof by a parent that the student is dependent on his/her parents for federal income tax purposes.

FERPA provides the following rights for students and for the parents of dependent students, as described above, attending Temple University:

- The right of a student, with minor limitations, to inspect and review his or her education records;
- The right to request amendment of a student's education records to ensure that they are not inaccurate, misleading, or otherwise in violation of the student's privacy or other rights;
- The right, with certain exceptions, to consent to disclosures of personally identifiable information contained in the student's education records;
- The right to withhold public disclosure of any or all items of so-called "Directory Information" by written notification to the Office of the Dean of Students within two weeks after publication of this notice. Under current university policy, the item "Directory Information" includes a student's name, street address, e-mail address, confirmation of enrollment status (full-time/part-time), dates of attendance, degree received, awards received (e.g., Dean's List), major field of study, participation in officially-recognized activities and sports, and weight and height of members of athletic teams.
- The right to file a complaint with the United States Department of Education concerning the alleged failure of Temple University to comply with the requirements of FERPA and of the implementing regulations.

The procedures for exercising the above rights are explained in the Policy Regarding Confidentiality of Student Records [http://policies.temple.edu/ferpa], copies of which are available in the Office of the Dean of Students [http://www.temple.edu/studentaffairs/deanofstudents/parent-resources/ferpa] and on the Temple Policies & Procedures web site in Temple Policy 03.20.11 [http://policies.temple.edu/getdoc.asp?policy_no=03.20.11]. Included in this policy is a description of the types and locations of educational records maintained by the university.

If you or your parents' primary or home language is not English, upon your request, reasonable efforts will be made to provide you with a translated copy of this "Annual Notice," as well as with "Temple University's Guidelines Pertaining to Confidentiality of Student Records."

Please note that, in compliance with a 1997 federal statute designed to advance military recruiting, Temple may release dates of birth to the military unless the student notifies Temple that he or she wishes this information withheld.

FERPA Waiver

A student may consent to the release of information from education records to parents, guardians or other appropriate persons. The students may provide the university with their consent by completing the FERPA waiver online via TUportal [http://tuportal.temple.edu]. Once logged into TUportal, click on the "Self-Service Banner" link, then click the "Student" link, and then the "FERPA Contacts" link. After reading the informational text, click the "New Contact" link and enter the requested information before clicking the "Submit Changes" link.

Americans with Disabilities Act (ADA)

Under the Americans with Disabilities Act (ADA), Section 504 of The Rehabilitation Act of 1973, and Section 508 of the Rehabilitation Act of 1998, Temple University strives to make programs, activities and services accessible for persons with disabilities. Disability Resources and Services (DRS) is
the department that facilitates access for students with disabilities at the university. Please see the Student Services (p. 69) section of the Bulletin for information on Disability Resources and Services.

**Protection from Discrimination and Harassment**

**Office of Equal Opportunity Compliance**

Sandra A. Foehl, Director, Title IX Coordinator and ADA Coordinator
sandra.foehl@temple.edu
215-204-6772

Tracey Hamilton, Assistant Director
tracey.hamilton@temple.edu
215-204-7438

Sullivan Hall, 2nd Floor Mezzanine
Fax: 215-204-8897
www.temple.edu/eoc

**Equal Opportunity**

Temple University is committed to a policy of equal opportunity for all in every aspect of its operations. The university has pledged not to discriminate on the basis of individuals' protected characteristics or statuses: age, color, disability, marital status, national or ethnic origin, race, religion, sex (including pregnancy), sexual orientation and gender identity, veteran status and genetic information.

Temple University's equal opportunity/affirmative action program has these inclusive objectives: To support the admission and successful participation of disadvantaged students, students with disabilities, and those for whom English is a second language; and to employ and advance in employment qualified women, minorities, individuals with disabilities, Armed Forces service medal veterans, disabled veterans, recently-separated veterans, and other protected veterans.

Temple University's equal opportunity/affirmative action program complies with federal regulations. For more information or to review Temple's Affirmative Action Program, contact the Office of Equal Opportunity Compliance.

**Discrimination**

A student or employee who thinks he or she is being discriminated against or harassed because of a protected characteristic or status should contact the Office of Equal Opportunity Compliance. It is this office's responsibility to help the student or employee file a complaint through the appropriate grievance procedures and to investigate complaints of discrimination and harassment.

**Sexual Harassment**

Temple University is committed to providing a learning, working, and teaching environment that emphasizes the dignity and worth of every member of its community, free from discriminatory conduct. Sexual harassment in any form or context, including all forms of sexual violence (sexual assault, domestic violence, dating violence, stalking), is inimical to this and will not be tolerated. Sexual harassment subverts the mission and the work of the university and can threaten the career, educational experience, and well-being of students, faculty, and staff.

The university recognizes that sexual harassment may occur regardless of the formal position or status of each person involved. Sexual harassment is especially offensive, however, when it occurs in relationships between teacher and student or between supervisor and subordinate. In those situations, sexual harassment exploits unfairly the power inherent in the position of the faculty member or supervisor.

Sexual harassment also constitutes a form of sex discrimination that is illegal under Title VII of the Civil Rights Act of 1964, Title IX of the Education Amendments Act of 1972, as amended, and state law. The university recognizes that sexual assault may also be considered sexual harassment.

**Complaint Resolution Procedures**

Persons who feel they have been victims of discrimination or harassment may make an informal complaint to any Equal Opportunity (EO) Ombudsperson or to the Office of Equal Opportunity Compliance. For a list of the names of the EO Ombudspersons designated in a specific school, college, or administrative unit, contact the Dean's Office or visit the EO Ombudspersons (http://www.temple.edu/eoc/AppDev/ombuds.asp) web page, which includes photographs of the current EO Ombudspersons.

Students, faculty members, and staff members may bring a formal administrative complaint of discrimination or harassment by filing a complaint directly with the university's Office of Equal Opportunity Compliance.

Procedures for reporting a complaint of sexual assault are set out in the university policy Preventing and Addressing Sexual Assault, Domestic Violence, Dating Violence, and Stalking (http://policies.temple.edu/getdoc.asp?policy_no=04.82.02). This policy and university policies on preventing and
addressing discrimination and harassment and sexual harassment can be reviewed at the Equal Opportunity Compliance (http://www.temple.edu/eoc) web site.

**Grievances**

Title IX of the Education Amendments Act of 1972 requires that each college or university establish due process for the resolution of academic grievances. Undergraduate students enrolled at Temple University have the right to appeal any academic or non-academic matter in which they feel they have been treated unfairly.

While each school and college at Temple University has established and adheres to its own grievance procedure, all have in common the following steps:

1. Students attempt resolution through discussion with the instructor.
2. Failing agreement, students present appeals to the chair of the department, specifying the nature of the grievance, the result of the previous discussion, and the resolution sought.
3. Failing agreement at the department chair level, students may appeal to the Office of the Dean of the College.
4. When appeals warrant review beyond the school or college, students, faculty members, or the dean’s office may appeal to the Senior Vice Provost for Undergraduate Studies.

Details that may vary from school to school include the involvement of a student-ombudsperson; the constitution of grievance hearing committees, which may be a part of either step two or three; and time limits, both for students’ filing and for the administrative response.

Students should be advised that filing a formal grievance, that is, beyond the level of the instructor, is serious and should be avoided until all informal methods of adjudication have been used.

For further information on academic grievance procedures, students should inquire in their dean's office or with an advisor or the student-ombudsperson in the relevant school. For non-academic grievances, further information is available in the Dean of Students' Office, 215-204-7188 or the Dean of Students (http://www.temple.edu/studentaffairs/deanofstudents) web site. (Temple Policy 03.70.12 (http://policies.temple.edu/getdoc.asp?policy_no=03.70.12))

**Instructor Office Hours**

Full-time faculty are required to hold a minimum of three office hours per week and should schedule one hour immediately before or after one of the scheduled class meeting times for each course. Adjunct instructors are required to schedule one office hour per week for each class they teach and should schedule that hour either immediately before or after one of the scheduled class meeting times for that course. Make it a point to talk with your instructors about your academic work and progress. (Temple Policy 02.78.12 (http://policies.temple.edu/getdoc.asp?policy_no=02.78.12))

**Non-Smoking Policy**

Temple University is committed to providing a smoke-free environment for everyone at Temple. All university facilities are designated as non-smoking. In addition, all indoor Temple University-sponsored activities that take place in facilities not owned or operated by Temple University are smoke-free in those areas under Temple’s control. This policy will be enforced according to established university policies and procedures. (Temple Policy 04.62.11 (http://policies.temple.edu/getdoc.asp?policy_no=04.62.11))

**Student Services Office Hours**

All Temple University offices directly serving students will maintain uniform business hours (8:30 a.m. to 5:00 p.m.). (Temple Policy 04.31.11 (http://policies.temple.edu/getdoc.asp?policy_no=04.31.11))
Academic Opportunities

Experiential Learning

Internships

Internships give students the opportunity to capitalize on what they are learning in the classroom and apply it in a work setting. Internships help students to build and enhance their skills, provide practical experience so often sought by employers, and offer excellent opportunities to establish contacts in their career field. Professional internships are available both on- and off-campus, and may be paid, unpaid and completed for academic credit in many majors. Internships for all academic majors are posted in the OwlNetwork, the university-wide internship posting system managed by the Career Center. To access the OwlNetwork, go to www.temple.edu/provost/careercenter. To obtain information about receiving academic credit for an internship, students should contact their respective school or college.

Temple Volunteers, the university's Office of Community Service, is dedicated to providing students with the resources and guidance necessary to immerse themselves in action for positive social change. As a team of administration, staff, and student leaders, we work to establish strong relationships within and beyond the Temple campus through community service. Temple Volunteers offers everything from one-day service activities to long-term opportunities and alternative break programs. For more information, visit www.temple.edu/community.

University Seminar Series

First-Year (Freshman) Student Seminars

First-Year (Freshman) Student Seminars (http://www.temple.edu/vpus/opportunities/FirstYearSem.htm) are academic courses designed to support student learning and development in the critical first semester of college. UNVS 1001 can be taken as part of a Learning Community or as a stand-alone course. College-specific seminars are offered by the College of Liberal Arts, College of Science and Technology, the School of Media and Communication, and the Center for the Performing and Cinematic Arts.

UNVS 1001 is a 1-credit course that introduces first-year students to the opportunities and rigors of higher education, as well as to the skills needed to use academic resources successfully in college. The topics covered in the seminar help first year students articulate and reach their academic goals.

UNVS 1002 is a 1-credit course that introduces first-year students to the opportunities to discover major interests through applied learning and other career-oriented experiences. The course exposes students to career paths and encourages major exploration through discussions with faculty, informational interviews, readings, and opportunities to practice skills needed to be a more effective student.

UNVS 1003 is a 3-credit course that includes instruction in all four language skills (reading, writing, and listening). It also focuses on additional academic skills and strategies necessary for students to succeed in undergraduate courses. Emphasis will be on critical thinking and independent research along with the introduction to technologies that support course requirements.

UNVS 1006 is a 1-credit course that provides students instruction in critical thinking skills. Through the study of historical and contemporary learning theories and research-based cognitive strategies, students will be able to meaningfully reflect upon their learning and have an opportunity to develop and implement techniques to improve their success.

Sophomore Seminar

UNVS 2001 is a 1-credit academic course that provides sophomores opportunities to work on professional planning and development. Topics will include individual strengths exploration, academic majors, potential career paths, internship preparation, research opportunities, campus involvement, graduate school preparation, and career transition preparation.

Transfer Seminar

UNVS 2002 is a 1-credit academic course that introduces new transfer students to the opportunities and resources at Temple University. The course is designed to assist students in their transition as well as assist in preparing them for their future career/educational plans.

Global Citizenship Seminar

UNVS 2003 is a 1-credit academic course that assists students in their development of global perspectives and competencies that are important for successful navigation of the world. This course explores topics and themes related to helping students prepare to move forward as global citizens.
Junior Seminar
UNVS 3001 is a 1-credit academic course that provides junior-level students with an opportunity to work on pre-professional planning and development. It will focus specifically on preparation for post-graduate educational opportunities and entrance exams for graduate and professional programs.

Peer Mentor Development Seminar
UNVS 3002 is a variable credit course (0 to 1 credit) that introduces students to content and communication skills identified as integral to serving as a peer mentor in the college setting. Through this course, students become proficient guides to Temple and community resources, well-versed in college and academic success strategies, and equipped with effective interpersonal communication skills.

Resident Assistant Development Seminar
UNVS 3003 is a 1-credit course that introduces students to topics and issues pertaining to the Resident Assistant (RA) position. Students in this course will be exposed to leadership and student development theories, practical strategies related to community building, crisis management and conflict resolution, and inclusivity concepts. This class examines a theoretical exploration of residential life and will not encompass the entire resident assistant role. Course material will be grounded in student development theory as well as experiential learning. Students will discuss experiences using their first few months as a Resident Assistant to learn from each other and develop best practices.

Learning Communities
A Learning Community consists of two or more linked courses designed to provide students with a more integrated and meaningful learning experience. Learning Communities foster an intellectual environment where learning can flourish and help smooth the transition to college by providing an opportunity for students to form bonds with fellow first-semester students who are in these same classes.

Many learning communities include a section of UNVS 1001. Learning Communities meet General Education, foundational, or academic requirements.

Learning Communities are designed primarily for the special student populations. During New Student Orientation, an academic advisor will help students select the learning communities which best meet their academic interests and needs.

Living Learning Communities (LLCs)
LLCs enhance students’ academic, personal, and professional growth by offering dedicated residential communities ranging from thematic to academic interests. LLCs bring together a challenging curriculum with co-curricular experiences that expand learning beyond the classroom and integrate it with daily campus life. For more information go to http://housing.temple.edu/.

Online Learning
Daniel L. White, Ph.D., Director
Office of Digital Education
Suite 403 - TECH Center
215-204-7701

Temple University’s Online Learning Program is designed to give students a rigorous, high-quality education that provides more flexibility in when and how they attend classes. Courses are offered at both the undergraduate and graduate levels and also for continuing education students.

Continuing degree-seeking (matriculated) students can register online via Self-Service Banner in the TUportal (https://tuportal4.temple.edu/cp/home/displaylogin). Non-degree seeking students must register through the Office of Continuing Studies at 1810 Liacouras Walk, First Floor, Room 101 (215-204-2500). Non-degree seeking students can obtain their registration forms online (www.temple.edu/vpus/arc/) and submit them by fax to 215-204-2516.

How online learning works: Each week, a student will access Blackboard to view assignments and reading materials, and may even participate in virtual classes (when scheduled). The Online Learning Program offers virtual and on campus sessions to help students familiarize themselves with the university's online interactive audio and video online tools and with the library's online databases before enrolling in an online course.

The Online Learning Program provides access to over 300 course titles via online, blended, virtual, and videoconferencing formats. In addition, the following programs can be completed entirely online:

1. Bachelor of Business Administration (Fox School of Business and Management)
2. Master of Business Administration (Fox School of Business and Management)
3. Doctor of Physical Therapy Program (College of Public Health)
4. Doctor of Occupational Therapy (College of Public Health)
5. Master of Science in Regulatory Affairs and Quality Assurance (School of Pharmacy)
6. Master of Science in Digital Innovation in Marketing (Fox School of Business and Management)
For successful completion of an online course, students are recommended to have daily access to a computer with a fast internet connection (DSL or cable type of connections are recommended). Visit the Online Learning Program's web site (http://online.temple.edu) for more information.

**Pre-Professional and Pre-Graduate Programs**

**Pre-Law Program**

Temple offers undergraduates a wide range of courses, programs of study, and majors that will contribute to their preparation for law school and for a career in the legal or a related profession. Temple undergraduates will find numerous opportunities to sharpen their critical thinking, reading and writing skills, both in and out of the classroom. Interested students can participate in the Mock Trial Team, get involved in the pre-law organizations (Phi Alpha Delta and the Pre-Law Society), or undertake an internship in the Philadelphia area. Speakers on legal issues, on careers in law, and on preparing for the LSAT provide additional opportunities for the Temple student to learn more about the study of law and prepare for the intellectual challenges ahead.

Entering first-year students in the College of Liberal Arts and the Fox School of Business and Management can apply for the Temple Law Scholars Program, an early assurance program offered by Temple University's Beasley School of Law. See the Special Admissions Programs section of the Bulletin for details.

**Pre-Professional Health Studies**

Neida Perez, Ed.M., Director  
Pre-Professional Health Studies  
1810 Liacouras Walk, Suite 100  
215-204-2513  
healthadvising@temple.edu  
www.temple.edu/healthadvising

Advising offered by the office of Pre-Professional Health Studies supplements the academic advising (course registration, major requirements and graduation review) provided by the Academic Advisors in the student's primary college which is based on their Major program of study. The office assists students in their academic and experiential preparation for programs in dentistry, medicine, optometry, pharmacy, podiatry, and veterinary medicine or for graduate study in Physical Therapy, Occupational Therapy and Physician Assistant Programs.

Beginning with our electronic (ePortfolio) system as well as special sections of the First-Year Seminar designed specifically for students interested in preparing for a career as a health care professional, advising through Pre-Professional Health Studies will help students stay organized as they identify tracks / programs best suited to their interests in the health care professions. Temple undergraduates will find numerous opportunities both in and out of the classroom to develop the knowledge, skills, and experiences to prepare them for their future endeavors. Temple also offers research opportunities in a wide range of academic disciplines of interest to pre-professional health studies students, and funding is available to support undergraduate research and travel to present at conferences.

**Health Scholar Programs**

**Pre-Med Health Scholars**

The Pre-Med Health Scholar Program is offered to highly talented High School Seniors interested in pursuing a career as a physician. It is designed to recruit exceptional students to Temple University by offering a Linkage Agreement with Lewis Katz School of Medicine at Temple University. Students entering Temple University as Pre-Med Health Scholars may consider an Accelerated BA/MD (3+4) Degree option.

**Dentistry, Pharmacy, Physical Therapy, and Podiatry Accelerated Programs**

Accelerated Programs allow Pre: Dentistry, Pharmacy, and Podiatry (3+4 Tracks) as well as Physical Therapy (3+3 Track) students the option of earning both their Bachelor of Arts and Graduate degrees in a shorter period of time after successfully passing all courses in the first year of professional school.

*Accelerated program Applications for interested entering freshman are available on the health advising web site. Completed applications are due by the end of the first semester at Temple University.* The Accelerated BA/DMD, BA/PharmD, BA/DPM, or DPT Programs are designed for high-achieving students who have distinguished themselves with impressive high school and first semester of college academic records and a demonstrated interest in their respective field.

**Applying to Temple for the entering class of 2016 and beyond**

*NOTE: Beginning with the Temple University entering class of 2016, applications to the Accelerated Programs for Dentistry, Pharmacy, and Podiatry (3+4 Tracks) as well as Physical Therapy (3+3 Track) will be available online and will be due before a student enters Temple University. (Due Date: 1/19/2016 for the entering class of 2016.) Applicants will therefore know their accelerated option status before entering Temple University.*

**Military Science (ROTC) Credits Applicable for Graduation**

Undergraduate students whose degree programs allow for free electives (those beyond required course credits needed to satisfy university General Education or Core, school or college, and major requirements) may be able to apply up to 12 credits of upper-division military science courses toward
the total number of credits required for graduation. The allowable military science credits applicable toward graduation requirements include four upper-

For more information about the applicability of ROTC, NROTC and AFROTC courses for graduation credit, please call the Office of the Senior Vice Provost for Undergraduate Studies (215-204-2044).

**Military Science - Army Reserve Officers' Training Corps (Army ROTC)**

Gregory J. Nardi, Lieutenant Colonel
Ritter Hall, Lower Level
215-204-7480 or 215-204-2482
Fax: 215-204-7481
http://www.goarmy.com/rotc/schools/temple-university.html

Through a curriculum offered by the Temple Department of Military Science, qualified full-time students can earn a commission as an Active Duty, Reserve, or National Guard Officer, while concurrently satisfying academic requirements for a baccalaureate or graduate degree. Interested students not convinced that a career in the military is right for them can also learn more about how The Army of the United States selects and trains its future leaders and conducts operations on a day-to-day basis.

Military Science courses are open to all Temple students. There is no requirement for students taking Military Science courses to enroll in the commissioning program. Students taking Military Science courses are under no military service obligation of any kind if not enrolled in the commissioning program.

Students enrolled in the commissioning program incur either an active duty or reserve forces duty commitment commencing upon successful completion of the ROTC Advanced Course program and graduation from college. Temple's Department of Military Science offers both two-year and four-year curricula leading to a commission in the United States Army.

**Army Reserve Officers' Training Corps (AROTC) Four-Year Commissioning Program**

The Four-Year Program consists of two phases: the Basic Course and the Advanced Course.

In the Basic Course, the student takes one Military Science course each semester during the freshman and sophomore years. This instruction orients the student to activities frequently encountered during military service. Though students may voluntarily participate in weekend exercises and ROTC-sponsored events, they are under no obligation to do so. Additionally, students enrolled in the Basic Course are under no obligation for present or future military duty.
During the Advanced Course (normally the junior and senior years), the student receives instruction designed to enhance leadership abilities; reinforce managerial, supervisory, and accountability skills; and further develop the individual's foundation of military knowledge. The highlight of this instruction is the student's attendance at the five-week Cadet Summer Training Course, usually during the summer between the junior and senior years. The camp is a series of rigorous leadership challenges in which the Temple student competes against students from 272 other colleges and universities. Advanced Course students (enrolled in the commissioning program) receive a tax-free stipend (juniors - $450.00 per month and seniors - $500 per month) each year of the Advanced Course. When students complete the Advanced Course, they are obligated to accept a commission as a Second Lieutenant and upon graduation from college, incur either an active duty or reserve forces duty service commitment in the United States Army.

Two-Year Commissioning Program
The Two-Year Program consists of the Advanced Course and is open to any qualified full-time graduate or undergraduate student who has at least two years of academic study remaining at Temple University and has completed the Basic Course or its equivalent. Basic Course equivalency can be granted for prior active or reserve military service. Additionally, Temple students can receive this equivalency by attending a five-week Cadet Summer Training Program at Fort Knox, Kentucky. Following successful completion of this challenging program, the student is eligible to enter the ROTC Advanced Course. Students attending the Cadet Summer Training can incur a military obligation, and they are required to enroll in the ROTC Advanced Course. Students of exceptional academic accomplishment may qualify for Basic Course Placement Credit without being required to attend Cadet Summer Training. If you are a sophomore or junior with between 54-65 credit hours completed, please contact us for additional information at 215-204-7480/4453/2482.

Scholarships
The Military Science Department administers the Army Scholarship Program, which includes numerous options. The scholarships are awarded based on local and national competitions and are for four, three, and two years. The scholarships pay tuition or room and board, a $1200 annual allowance for books and lab fees, and a monthly stipend that varies between $300 to $500 a month. The scholarships are awarded based on academic merit, and a student need not be enrolled in Army ROTC to apply. Inquiries should be directed to:

Mrs. Jackie Hankins-Kent
Administrative Officer
Department of Military Science/ROTC

Enrollment is open to all students, but full participation in some of the military training is limited to students enrolled in the commissioning program. Contact the Military Science Department for details.

Military Science Faculty
Gregory J. Nardi, Lieutenant Colonel, Armor, Professor of Military Science, B.S. - United States Military Academy, MBA - Touro University International, M.S. - U.S. Army Command and General Staff College.

Jaan E. Sarapuu, Captain, Engineer, Assistant Professor of Military Science/Battalion Executive Officer, M.S.-Temple University.

Scott M. McLaughlin, Master Sergeant, Commandant of Cadets and Senior Military Instructor.

Mr. Marco Young, Recruitment Officer, B.S. - Drexel University (e-mail: myoung01@temple.edu).

Aerospace Studies - Air Force Reserve Officer Training Corps (AFROTC)
Department of Aerospace Studies
Saint Joseph's University
5600 City Avenue
Students are eligible to participate in the Air Force Reserve Officer Training Corps (AFROTC) through an agreement with Saint Joseph's University. All aerospace studies courses will be held on the Saint Joseph's University campus, although students can register through Temple's Self Service Banner system for their AFROTC courses. The AFROTC program enables highly qualified college students to earn a commission as an Air Force officer while concurrently satisfying requirements for his or her baccalaureate degree.

AFROTC offers a three- or four-year curriculum leading to a commission as a Second Lieutenant in the United States Air Force (USAF). In the four-year curriculum, a student (cadet) takes General Military Course (GMC) classes during the freshman and sophomore years, attends a four-week summer training program between the sophomore and junior years, and then takes Professional Officer Course (POC) classes during the junior and senior years. Cadets in the three-year curriculum will be dual-enrolled in both GMC classes during the sophomore year, attend a summer training program, and take POC classes during the junior and senior years. A cadet is under no contractual obligation with the USAF until entering the POC or accepting an AFROTC scholarship. The GMC curriculum focuses on the scope, structure, organization and history of the USAF with an emphasis on the development of airpower and its relationship to current events. The POC curriculum concentrates on the concepts and practices of leadership and management, and the role of national security forces in American society.

In addition to the academic portion of the curricula, each cadet participates in a two-hour Leadership Laboratory each week. Leadership Laboratory utilizes the cadet organization designed for the practice of leadership and management techniques.

Further information on the AFROTC program at Saint Joseph's University can be found at https://sites.sju.edu/afrotc/, or students can contact detachment personnel directly at:

**Naval Science - Naval Reserve Officers’ Training Corps (NROTC)**

Director, Naval Science Department
University of Pennsylvania
NROTC Unit
417 Hollenback Building
3000 South Street
Philadelphia, PA 19104-6399
215-898-7436
Fax: 215-573-2067
nrotc@pobox.upenn.edu
www.vpul.upenn.edu/nrotc (http://www.vpul.upenn.edu/nrotc)

The Naval Reserve Officer’s Training Corps (NROTC) Program enables a college student to earn a commission in the Navy or the Marine Corps while concurrently satisfying requirements for a baccalaureate degree. Temple students are eligible to participate in NROTC through an agreement with the
University of Pennsylvania. Scholarship and non-scholarship programs are available and can be tailored to support students who join NROTC after the start of their freshman year or by the beginning of their sophomore year.

All NROTC students are required to enroll in NAVS 1003 during every semester they attend.

Navy-Option scholarship and College Program (non-scholarship) students must enroll in NAVS 1001 and NAVS 1002 during their freshman year, NAVS 2001 and NAVS 2002 during their sophomore year, NAVS 3001 and NAVS 3002 in their junior year, and NAVS 4001 and NAVS 4002 in their senior year.

Those seeking commissions in the Marine Corps will enroll in NAVS 1001 and NAVS 1002 during their freshman year, NAVS 2001 during their sophomore year, NAVS 3003 and NAVS 4003 during either their junior or senior year, and NAVS 4002 during their senior year only.

Temple students register for NROTC classes through the Temple Self Service Banner system and all naval science courses are held on the University of Pennsylvania campus.

Navy scholarship students must complete:

- 6 semester hours of calculus (not required for Nurse Corps candidates)
- 6 semester hours of calculus-based physics (not required for Nurse Corps candidates)
- 3 semester hours of American military history or national security policy (not required for Nurse Corps candidates)
- 3 semester hours of World Culture and Regional Studies (case-by-case waivers for Nurse Corps candidates)
- 6 semester hours of English

Marine-Option scholarship students must complete:

- 3 semester hours of American military history or national security policy
- 6 semester hours of English

College Program students must complete:

- 6 semester hours of college-level algebra or advanced trigonometry (one year of calculus is recommended)
- 6 semester hours of physical science courses (one year of calculus-based physics is recommended)
- 3 semester hours of American military history or national security policy
- 3 semester hours of World Culture and Regional Studies
- 6 semester hours of English

Students must check with their naval science instructors to determine specific courses that fulfill the above requirements and to determine which Naval Science courses receive credit within their degree plan.

In addition to the above, all students are required to attend Naval Science Drill (NAVS 1003), a 2-hour professional laboratory period each week (no academic credit) that emphasizes military drill, physical fitness, professional performance, and leadership topics.

**International Education at Temple**

International education takes many forms at Temple: learning other languages; spending a summer, semester or year studying abroad; building an international concentration into a major; or enrolling in special programs such as the Latin American Studies Semester. Students are encouraged to consult their school/college and course descriptions for further information on international and language studies at Temple's Philadelphia campuses.
Education Abroad and Overseas Campuses

Denise A. Connerty, Assistant Vice President of International Affairs
200 Tuttleman Learning Center
215-204-0720
http://studyabroad.temple.edu

Study abroad is one of the most rewarding and beneficial experiences available to Temple students. The opportunity to gain firsthand understanding of other cultures and languages through study abroad is personally enriching, and adding an international dimension to one's education enables students to better understand and contextualize global issues and international events. Temple students have almost limitless options when it comes to studying abroad. Students may spend a semester, academic year or summer participating on one of Temple's numerous programs abroad, or they may choose to participate on an accredited external program through another university or study abroad provider. Students receiving financial aid can usually apply most, if not all, sources of aid to their study abroad fees. Education Abroad can provide students with further information about study abroad, as well as resources and guidance on choosing a program that is best suited to their academic needs and interests.

Scholarships for semester, academic year, and summer study abroad are available for qualified Temple students. A number of external scholarships, such as Fulbright, Gilman and Vira Heinz, are also administered by Temple University, and more details about these are available on the Education Abroad website. In addition, advising is available concerning a variety of other options for financing study abroad.

Students interested in receiving more information about study abroad should visit the Education Abroad web site (http://studyabroad.temple.edu) or contact the office at 215-204-0720 or study.abroad@temple.edu.

Semester and Academic Year Programs

Temple University, Japan Campus (TUJ)

Bruce Stronach, Dean

TUJ is the Tokyo campus of Temple University. Founded in 1982, TUJ is the oldest and largest foreign university in Japan and has developed into a nationally-recognized institution offering an extensive range of educational programs. With an enrollment of 3,500 students and a faculty of 181, TUJ offers undergraduate degrees with majors in art, Asian studies, communications, economics, general studies, international affairs, international business studies, Japanese language, political science, and psychological studies. At the graduate level, TUJ offers an M.B.A., a Master of Science in Education and a Doctor of Education in TESOL (Teaching English to Speakers of Other Languages), and a Master of Laws. TUJ is also home to the Institute of Contemporary Asian Studies, which sponsors special programs devoted to Asian contemporary culture and language, a lecture series, and an academic journal.

American undergraduate students may study at Temple Japan for a semester, year and/or summer, choosing from a broad range of courses in Japanese language at all levels, for native and non-native speakers, and upper-level courses in American Studies, anthropology, art, art history, Asian Studies, communications studies, economics, film and media arts, history, international business studies, journalism, media studies and production, political science and psychology. Internships and internship scholarships are also available. All coursework, with the exception of Japanese language courses, is conducted in English.

To enrich the students' exposure to Tokyo and enhance their understanding of Japanese culture, TUJ organizes several optional field trips and excursions each semester. These include half-day excursions to sites in and around Tokyo, as well as day and overnight excursions to various locations throughout Japan.

TUJ is ideally located in central Tokyo in Minato-ku. Just 20 minutes walking distance from Roppongi, one of Tokyo's major entertainment districts, Minato-ku is home to several embassies, shops, and restaurants. Students have the option of securing their own housing or of taking advantage of housing offered by TUJ. A limited number of homestays with Japanese families are also available for students interested in complete linguistic and cultural immersion.

Information on application, costs, and financial aid can be obtained from Education Abroad. Temple charges regular tuition rates for the Japan program; additional costs include airfare, living expenses, medical insurance, and program expenses.

Temple University Rome

Hilary L. Link, Dean

Temple's campus in Rome offers upper-level courses in anthropology, architecture, art history, drawing, economics, English, geography and urban studies, Greek and Roman classics, history, international business, Italian language and literature, Latin, marketing, painting, photography, political science, printmaking, psychology, sculpture, and sociology; General Education courses; and internship opportunities. Each semester, students from Temple and other universities around the U.S. study in Rome and take courses designed to take advantage of the city's rich resources. American undergraduate students may study at Temple Rome for a semester, year and/or summer.

The Temple University Rome Dean oversees the academic program and arranges for student support services. A distinguished teaching faculty, both European and American, provides a first-rate educational experience. All courses are part of Temple's undergraduate and graduate curricula and carry
full academic credit. Students who have not studied Italian previously must enroll in an elementary Italian language course while in the program in order to take best advantage of their stay in Italy.

An extensive field study program complements the traditional classroom and studio curricula. Classes make regular trips to museums, architectural sites, and other points of interest in Rome, and many courses include field trips to other parts of Italy and Europe. The Villa Caproni, located in the heart of Rome on the Tiber River, houses the Temple Rome program. The facilities at the Villa Caproni include a library with 15,000 volumes, classrooms, art and architecture studios, an art gallery, and complete technical facilities. Students have the option of securing their own housing or choosing Temple-arranged accommodations in the residence. The residence is a convenient 30-minute walk to the Villa Caproni and 5 minutes from one of the major outdoor markets in Rome. A limited number of homestays with Italian families are also available for students interested in complete linguistic and cultural immersion.

Information on application, costs, and financial aid can be obtained from Education Abroad. Temple charges regular tuition rates for the Rome program; additional costs include airfare, living expenses, medical insurance, and program expenses.

Temple University in Spain

Dr. Jamie Durán, Program Director

Temple University's spring semester program in Spain is based at the University of Oviedo, and is designed for students with at least four semesters of college level Spanish, or the equivalent, who are committed to furthering their Spanish language skills.

Spain program participants are enrolled in the Cursos de Lengua y Cultura Españolas para Extranjeros program at the University of Oviedo's humanities campus, El Milán. All students enroll in one of two tracks, Intermediate or Advanced, depending on their Spanish language background, and choose from coursework in Spanish language, literature, translation, history and art. Courses are taught by native Spanish-speaking professors of the University of Oviedo, and by Temple University faculty member, Dr. Jaime Durán.

As a complement to academic courses, cultural programming opportunities and organized leisure activities are arranged throughout the semester to help students acquire in-depth knowledge of various aspects of Spanish and Asturian culture, as well as to strengthen students' Spanish language proficiency outside of a formal classroom setting. Additionally, for one week during the program, students participate in a non-credit enrichment workshop which, in the past, has included themes such as dance, short story, photography, cartoons and journalism. The university also hosts cultural activities, including film series, short story and photography competitions, and organized visits to sites of interest studied in class. Programs which facilitate connections between international and Spanish students, including a language partner conversation exchange, are also offered and organized by the university.

Accommodations are arranged with a local Spanish host family. Students are provided with three meals a day and laundry service. This living arrangement offers the best opportunity to practice the language in a natural setting and have direct access to local lifestyle, gastronomy and social life.

Information on application, costs, and financial aid can be obtained from Education Abroad. Temple charges regular tuition rates for the Spain program; additional costs include airfare, living expenses, medical insurance, and program expenses.

Temple in Spain is also offered as a 4.5 week summer program, during which students enroll in 2 courses (6 credits). The Temple in Spain summer program is comprised of coursework in Spanish language, literature, cultural studies and marketing. Spanish language, literature, cultural studies courses are taught in Spanish. The marketing course is taught in English.

In order to be eligible for the program, students taking Spanish 2002 or 3221 as their afternoon session course are required to have successfully completed at least two semesters of university-level Spanish (Spanish 1002: Basic II at Temple, or the equivalent.) Students who are taking Marketing 2101 as their afternoon course are required to have successfully completed at least one semester of university-level Spanish (Spanish 1001: Basic I at Temple, or the equivalent.)

Exchange Programs

Temple University students may participate in any of Temple's university-wide exchange programs. Currently, exchange partnerships exist with universities in Germany, England, China, Taiwan, and Korea. Students selected for these programs must qualify academically and be fluent in German for study in Germany. College of Science and Technology students may also explore science exchange opportunities in Ireland, Scotland, Northern Ireland, Denmark, Sweden, France, Italy and Spain through Temple's membership in TASSEP, the Trans-Atlantic Science Student Exchange Program.

Applications to participate in these programs are due in the early spring for the following academic year. For further information, contact Education Abroad. Each exchange program can accommodate only a small number of students annually. Specialized exchange programs are also available through some schools and colleges. Check with your school or college advising office for a list of these programs.

Summer Programs Abroad

Each year, a number of Temple faculty members direct summer programs abroad for academic credit. Some programs change on an annual basis; others have been part of Temple's summer curriculum for many years. The programs generally last four to six weeks, admit qualified students from Temple as well as other universities, and charge Temple's regular tuition rates for summer programs abroad. In recent years, summer programs have been conducted in Brazil, Costa Rica, France, Germany, Ghana, India, Italy, Jamaica, Japan, Spain and the UK.
School of Media and Communication, Study Away
Katie Ryan, Assistant Director
School of Media and Communication
6 Annenberg Hall
215-204-2677

Temple University London
The School of Media and Communication (SMC) offers a faculty-led semester and summer program in London. These programs are open to all Temple students, no matter what their major, as well as those from other universities. Recent semester course offerings have included British Mass Media, The Collaborative Art, Creative Thinking for Advertising, British Cinema, Political Communication, British Life and Cultures, and Travel Writing. Internships are also available.

Accommodation in shared, self-contained flats is arranged by the program.

Summer Programs
SMC Study Away also offers faculty led summer programs in Dublin, Barcelona, Hong Kong, London and South Africa for academic credit. The specific topics change each summer but generally focus on intercultural communication, journalism, strategic communication, film, theater, advertising, media and more and all integrate their host city as the classroom. Internships are also available in select locations.

Other Education Abroad programs
Several other schools and colleges at Temple offer options specifically designed for their students, including:

- Boyer College of Music and Dance
- College of Liberal Arts
- School of Theater, Film and Media Arts
- Fox School of Business and Management
- School of Tourism and Hospitality Management

Contact the schools and colleges to learn more about the education abroad opportunities they offer.

University Honors Program
Ruth Ost, Senior Director
204 Tuttleman Learning Center
215-204-0710
honors@temple.edu
http://honors.temple.edu/

University Honors is a comprehensive, four-year program designed to challenge boundaries, expand possibilities and prepare high-achieving students for the world ahead. At the core of the program are classes taught by faculty highly regarded for their scholarship and well-loved for their teaching. Honors classes are typically small seminars in which students and faculty have a chance to engage deeply with each other on the topics at hand.

Supporting the program is a dedicated staff that provides holistic support services. They advise students on major choices, graduate and professional school applications, scholarship and fellowship opportunities, and career decisions.

The University Honors Program is open to students enrolled in every undergraduate school and college. No special application is required for incoming first-year students. Current Temple students or transfer students who would like to be considered for the program must apply through the Honors website. Applications are reviewed at the end of each semester after grades have been posted.

Benefits of the program include:

- exclusive access to Honors courses;
- the option to live in the Honors Living-Learning Community in 1300;
- graduate student library privileges;
- community service and leadership opportunities;
- priority registration;
- Honors transcript notation.

Those admitted to Honors as incoming first-year students will be eligible for merit scholarships and stipend(s). (These scholarships and stipends do not apply to Temple University Japan Campus or students admitted to University Honors as transfers.) More details can be found in the Honors Handbook on the Honors website.
To earn the Honors transcript notation upon graduation:

- All incoming first-year students and transfer students with fewer than 45 credits must complete ten Honors courses (four of the ten must be at or above the 2000 level).
- Students admitted to Honors who have accrued between 45 and 59 credits must complete eight Honors courses (four of which must be at or above the 2000 level).
- Students admitted to Honors with 60 or more credits need to complete only six Honors courses (four of which must be at or above the 2000 level).

All Honors students are required to take the Honors versions of Analytical Reading and Writing, Mosaic I and Mosaic II unless one or more of these requirements are met through placement testing or previously earned credit. Students must show evidence of continued progress in completing course requirements or will be subject to dismissal from the program.

To be in Honors good standing, students must maintain a 3.25 cumulative GPA. Students whose cumulative GPA falls below 3.25 are subject to dismissal from the Honors Program. As a condition of completing the Honors Program, students must graduate with at least a 3.25 cumulative GPA.

Students are strongly encouraged to complete an Honors Scholar Project during their senior year. Project proposals (which can be a research thesis, creative work, or other appropriate project in the major or a related field) are submitted to the Honors Program, preferably during or immediately after junior year. When the project is finished, it must be approved by the Honors Program and two faculty members in the appropriate field(s) of study (a project mentor and a second reader). Further, students are required to present their work (or work-in-progress) in a Temple, regional or national venue. This achievement will be indicated by an additional transcript notation, reading: Honors Scholar Thesis, followed by the title.

Students may visit the Honors Program Office in Tuttleman Learning Center, Room 204, to meet with an advisor if they have any questions. Further information can be found on the Honors website (http://honors.temple.edu).

Undergraduate Research and Peer Teaching

Emily A. Moerer, Assistant Vice Provost
500 Conwell Hall
215-204-4991
emoerer@temple.edu

Creative Arts, Research and Scholarship Program

The Creative Arts, Research And Scholarship (CARAS) Program provides funding to encourage and support undergraduate and professional students engaged in scholarly, creative, and research projects that contribute to advancing their field of study. Two types of grants are made through the CARAS Program: Research/Creative Project Grants provide undergraduate and professional students support for scholarly, research or creative arts projects undertaken with the supervision of a faculty mentor. Travel Grants provide funds for undergraduate travel to present research or creative work at professional conferences. For more information, go to www.temple.edu/vpus/opportunities/CARAS.htm.

Diamond Peer Teachers Program

The Diamond Peer Teachers Program provides upper-level undergraduates at Temple University the opportunity to experience the challenges and rewards of college-level teaching, to work with faculty mentors to develop their own pedagogical skills, and to provide supplemental instruction in lower-level courses. Peer Teachers earn a stipend and one (1) internship credit. For more information, go to www.temple.edu/vpus/opportunities/peerteacher.htm.

Diamond Research Scholars Program

The Diamond Research Scholars Program offers a seven-month long funded research experience under the direction of a faculty mentor. Participants receive a summer stipend and register for a research or independent study course in the fall for their research or creative arts project. Scholars are expected to participate in the annual undergraduate research conference, TURF-CreWS. For more information on the Diamond Research Scholars Program, go to www.temple.edu/vpus/opportunities/ResearchScholars.htm.

Temple Undergraduate Research Forum - Creative Works Symposium

The Temple Undergraduate Research Forum - Creative Works Symposium (TURF-CreWS) provides ambitious, intellectually-motivated undergraduate students the opportunity to present and defend their original research or creative work among colleagues, faculty, family, and friends. TURF-CreWS is open to all departments and all colleges. Through its emphasis on original research or creative work, from theory-driven critical analysis of significant social issues to the development of unique individual artistic talents, TURF-CreWS seeks to inspire undergraduate students to engage, analyze, critique, and advise the world around them, beginning with their own social, ideological or cultural communities, so that they may contribute ideas that make for a better society and world. For more information on TURF-CreWS, go to www.temple.edu/vpus/opportunities/TURF.htm.
Accelerated Degree Programs

Temple University offers several Accelerated Degree Programs arranged between undergraduate and graduate or professional schools and colleges. These programs enable academically qualified students to earn a bachelor's and an advance degree - graduating sooner than they would have completing two distinct programs.

4+1 Undergraduate/Graduate Accelerated Programs

Eligible undergraduate students use up to 12 specified graduate credits approved by the school/college to fulfill requirements for their undergraduate degree. Upon graduation from their undergraduate program, students move seamlessly into their graduate program, which they complete, in most cases, in one additional year. Students should meet with their advisor as soon as possible to discuss requirements for eligibility and the application process.

Fox School of Business and Management

- B.A.-B.S./M.S. in Actuarial Science
- B.A.-B.S./M.S. in Human Resource Management

3+2, 3+3, 3+4 Undergraduate/Professional Accelerated Programs
Eligible undergraduate students complete their undergraduate degree with coursework required in the first year of a professional school, such as Temple University’s School of Medicine, Dentistry, Pharmacy, Physical Therapy, and Podiatry. To be eligible the student must be accepted into the professional school program. Students selected to participate finish their professional studies more quickly.

Students interested in this type of accelerated program should contact Neida Perez in the Office of Pre-Professional Health Studies as early in their undergraduate academic career as possible to discuss eligibility, as well as the professional school application process.

Honor Societies

**Phi Beta Kappa**

Phi Beta Kappa is an honor society open to juniors and seniors in the College of Liberal Arts, the College of Science and Technology, and the Department of Art History. To qualify for Phi Beta Kappa, a student must maintain a high grade point average in a broad, rigorous program of study in the liberal arts, including mathematics and foreign language. For a complete and detailed description of Phi Beta Kappa's requirements, visit www.temple.edu/pbk.

For more information, please contact Chris Wolfgang, Secretary and Membership Chair (cwolfgan@temple.edu).

**Golden Key**

Golden Key is a national academic honors organization dedicated to excellence. Golden Key is interdisciplinary and unites the talents of the brightest undergraduate students in America. Golden Key also provides service opportunities for all university students.

Membership is by invitation only, and no more than the top 15% percent of the juniors and seniors enrolled may be eligible. The Golden Key mailbox is in The Student Center where the Student Organization Offices are located.

**Alpha Lambda Delta**

Alpha Lambda Delta is a national society that honors academic excellence during a student's first year at college. For further information, visit their web site at www.nationalald.org/ (http://www.nationalald.org).
Student Leadership & Development Opportunities

Office of Leadership Development

Howard Gittis Student Center
1755 N. 13th Street, Room 219M
Philadelphia, PA 19122
215-204-7145
www.temple.edu/studentaffairs/leadership/

The Office of Leadership Development works to create future generations of leaders who live and lead with integrity and meaning. We encourage the development of honesty, character and self-awareness by providing avenues for students to impact their own lives as well as create an environment to change communities on local and global levels.

The department's three initiatives are:

• **Academic Connections** - education and development are most transformational when in and out of classroom learning is intricately linked. Therefore, the office works to create and instruct leadership courses and build connections amongst the various schools, colleges, and faculty that offer existing leadership-related curricular content.

• **Diamond Leaders** - Diamond Leaders prepare to become impactful leaders in their community through their active roles on campus and their participation on Lead Teams dedicated to programming, service, and peer facilitation.

• **Student Leadership Challenge** - Service as Temple's signature leadership development program for all students, the Student Leadership Challenge provides dynamic and comprehensive programs that give students access to a rich variety of interactive leadership development opportunities. Students may earn their way to becoming a Diamond Leader by participating in these programs throughout the year and earning Leadership Diamond Points.

In addition to the events in the Student Leadership Challenge, the office sponsors the LeaderShape Institute and hosts the Leadership Living Learning Community through University Housing and Residential Life.

Student Activities

Howard Gittis Student Center
1755 N. 13th Street, Room 219M
Philadelphia, PA 19122
215-204-7131
http://studentactivities.temple.edu/@tuactivities

Looking for something to do on campus? You are in the right place! Student Activities enhances the student experience by developing and empowering students, creating opportunities for meaningful interpersonal relationships, supporting student organizations, and providing fun, engaging programs for the diverse campus community.

One of the best ways to get involved is to become a member of our registered organizations!

Student Organizations

Student Activities works to support and empower student organizations as they enhance campus culture with their events, ideas and leadership. The staff aims to serve as a resource, and provide a path of development for students outside the classroom. With groups devoted to everything from cultural groups to competitive dance to community involvement, chances are we have a registered organization for you. Our office provides these organizations with meeting spaces, financial management, programming assistance, and anything else they need to contribute to student life at Temple University.

Fraternity and Sorority Life

Student Activities supports fraternities and sororities as they provide a focus on leadership, scholarship, service and brotherhood/sisterhood. These groups foster lifetime relationships both between members and to the University and contribute to the diversity of campus. Each chapter falls under the umbrella of the Interfraternity Council, the Multicultural Greek Council, the National Pan-Hellenic Council, and the Panhellenic Association. The groups all come together for community events planned by the Temple University Greek Association.

Main Campus Program Board (MCPB)

MCPB is a student-led organization that plans the largest events on campus. From road trips to Broadway shows to campus concerts, you can help us plan any event you would like to see on campus. Follow us on Twitter @TempleMCPB (https://twitter.com/templemcpb) or go to www.templemcpb.com (http://www.templemcpb.com) to learn more about the events that will become the highlight of every Temple student's college experience! Along with Student Activities, we help plan and implement the following University events:
About Temple University

• Welcome Week: The entire campus joins together to welcome all new and returning students to campus. A FREE concert, hypnotist and a 100-foot banana split have been highlights from past years!
• Homecoming: Enjoy pep rallies, pageants, and great sporting events.

Temple Student Government (TSG)

TSG serves the student body by advocating and representing their voice for the benefit of the university community while providing access to resources. All students are welcome to explore their interests through TSG and are asked to create a progressive environment by participating in university life. For more information, visit the TSG web site (http://templestudentgovernment.org) or follow TSG on Twitter @TempleTSG (http://twitter.com/TempleTSG).

Temple University Ambler Student Government Association (ASGA) is an active student government association that oversees student concerns, policies, interests and activities. The officers of ASGA serve as a liaison between students at Ambler and the administration. Elections are held in the spring for various offices, giving students the opportunity to participate in election campaigns and promotions. For more information about ASGA, visit the Student Activities Office in Bright Hall Lounge, visit http://ambler.temple.edu/campus-life/clubs-and-organizations or call 267-468-8429.

Interested in learning more about Student Activities' events? We've listed a few of our best programs right here!

Philly Connections

Philly Connections presents students with the opportunity to experience the many cultural aspects of a major U.S. city within the budget of a college student. Encompassing every fun event in and around the area, students are given a rare chance to experience Philadelphia at fantastic discount prices! Check out our web site for deals on sporting events and theater tickets.

Free Food and Fun Fridays

Check out the Student Center Atrium every Friday from 10 p.m. to 1 a.m. for your weekly dose of FREE Food and Fun. The events on tap for the evening are different each week, but you are guaranteed a chance to win prizes, listen to your favorite music, and eat a fulfilling snack!

Memorable Moments

Memorable Moments offers students the opportunity to meet others and explore a new country through a cultural exhibition and food at a Philadelphia restaurant. Visit one of three countries each semester, and go on a memorable mini-tour of that country's offerings in or near Philadelphia.

Service Immersion

The vision of the immersion program is to actively engage Temple University students in meaningful experiences that foster cultural awareness, global understanding, and social responsibility through learning, service and reflection. Students are encouraged to apply in the fall semester for our three programs in the spring semester: Philadelphia, South Dakota and El Paso, Texas.

Additional Student Activities

In addition to the Main Campus activities listed above, the Temple University Ambler campus offers a variety of student activities. Please visit http://ambler.temple.edu/campus-life/clubs-and-organizations, or contact the Office of Student Life (267-468-8425) in Bright Hall, Room 101, for further information.

Office of Student Media

Howard Gittis Student Center
1755 N. 13th Street, Room 304
Philadelphia, PA 19122

Students on the Main Campus produce their own editorially-independent newspaper, The Temple News, during the academic year and distribute it to all campuses. The Temple News is published weekly in print (each Tuesday during the fall and spring semesters) and provides daily updated content, which also includes photo slide shows and video pieces, online at www.temple-news.com (http://www.temple-news.com) and on its blog, Broad&Cecil, at http://broadandcecil.temple-news.com. The Temple News was one of 10 non-daily newspapers to win the prestigious Pacemaker Award from the Associated Collegiate Press in 2006 and was named a finalist for the award in 2007 for its print and online product. In 2008, The Temple News won an Online Pacemaker award for its web site and followed that up by winning the prestigious EPPY award from Editor&Publisher in 2009 for having the nation's best college newspaper web site. In 2012, the paper won four Keystone Press awards from the Pennsylvania Newspaper Association. Readers can follow The Temple News on Twitter @TheTempleNews (http://twitter.com/TheTempleNews).

Students also produce and publish Templar, Temple's undergraduate annual yearbook. Templar is a three-time winner of the American Scholastic Press Association's first place award as one of the top college yearbooks in the country, having won the award in 2006, 2007 and 2008. Readers can follow Templar on Twitter @TemplarYearbook (http://twitter.com/TemplarYearbook).

The Office of Student Media now advises WHIP, Temple's student-run internet radio station that broadcasts out of its studio in room 108 of the TECH Center. WHIP is an acronym that stands for "We Have Infinite Potential." The station broadcasts a wide array of programming, from news to sports to
a diverse musical format, and is now one of just 14 stations nationally to be featured through Clear Channel's iHeart Radio College Radio category. Listeners can follow WHIP on Twitter @WhipRadio (http://twitter.com/WhipRadio).

Students at Temple University Ambler campus produce The Parable, a literary magazine each spring, as well as The Temple Column newspaper. Students at Temple University Ambler campus also manage and operate their own radio station, WRFT 1610 AM, which broadcasts a variety of music formats. Visit http://ambler.temple.edu/campus-life/clubs-and-organizations for more information.
Academic Support

Academic Computer Services

Students can take advantage of a number of first-class technology resources available at Temple University, including the TECH (Teaching, Education, Collaboration, Help) Center, a 75,000-square-foot, state-of-the-art facility with resources that cater to current learning styles. The TECH Center, located on Main Campus at 12th Street and Montgomery Avenue, is designed with a variety of workspaces to enable students to work collaboratively or individually.

The TECH Center provides the following resources:

- 700 computers available for student use;
- 13 breakout rooms and 2 MediaScape tables for collaboration and group study;
- specialized labs, including specialty printing, video editing, recording booths, multimedia studio, graphic design, music composition, advanced technology lab, and “quiet” zones;
- social space with lounge areas and plasma televisions;
- a 24-hour Help Desk for students, faculty, and staff; and,
- a Starbucks café.

In addition, for the convenience of students, there is 24-hour access to the center. More information is available at the TECH Center (https://computerservices.temple.edu/lab/tech-center).

At the 24-hour Help Desk, professional consultants offer technical assistance on a wide range of computer topics. To obtain assistance, students can stop by the Help Desk on the first floor of the TECH Center, call 215-204-8000, submit a help request (https://computerservices.temple.edu/#request-help), utilize the live Help Chat (https://computerservices.temple.edu), or send an e-mail to help@temple.edu.

In order to use the computer resources at the TECH Center as well as Temple's numerous applications and systems available online, you will need your AccessNet username and password. With this login information, you can gain entry to the TUportal web site (http://tuportal.temple.edu), a single gateway to the university's most popular services, including TUmail, Blackboard, Self Service Banner, Diamond Dollars, My Backpack, and My Housing.

The Ambler Learning Center (https://computerservices.temple.edu/ambler-learning-center) on Ambler Campus is a state-of-the-art computer facility incorporating smart classrooms, wireless technology, computer labs/classrooms, breakout room, study lounges and a Help Desk/PC Clinic.

TUmail is an integrated e-mail system accessible anywhere on the internet to students using a web browser or software such as Microsoft Outlook or Google Mail.

The Blackboard system enables faculty and students to share coursework materials and discuss topics online.

Self Service Banner allows students to view course prerequisites and register for classes, view rosters, check grades, view account balances and financial aid information, and pay bills, all on the web.

For up-to-date information on the rapidly-changing nature of technology at Temple, including wireless access and security awareness initiatives, go to the Computer Services web site (https://computerservices.temple.edu).

Academic Resource Center

The Academic Resource Center was created to serve the needs of Temple University students who have not yet decided on a school/college or major. The team of professionally trained and dedicated academic advisors will assist students in navigating the transition to campus life as well as provide academic and career exploration assistance to our students. Services include individual and group advising appointments, academic success workshops, and major exploration programs all tailored to support personal growth and to promote scholastic achievement.

Academic advisors are available 9:00 a.m. - 4:30 p.m. Monday through Friday by appointment, and on a walk-in basis during specific hours listed on the Academic Resource Center web site. For assistance, please call 215-204-2500, visit the Academic Resource Center web site (http://www.temple.edu/vpus/arc), or stop by the office at 1810 Liacouras Walk, Suite 101.

Advising

Each school, college, and campus of the university offers a range of academic advising services for students. Professional advisors help students choose majors, plan curriculum, make vocational and post-graduate plans, connect students to university resources, and help resolve a variety of academic issues. Many schools and colleges offer the services of faculty advisors and peer advisors as well. Students should consult the specific advising unit in their school or college section of this Bulletin for locations and specific information about these units.
Students who are active in the Fly in 4 (http://fly.temple.edu) program agree to consult with an academic advisor in their school or college at least once per semester for academic planning. Advisors review proposed coursework and refer students to appropriate information regarding graduation requirements. In addition, advisors help students achieve breadth in the curriculum and provide other assistance as needed.

Students are required to meet with an advisor when they do not meet the academic standards set by the University. See the Academic Policies section of the Bulletin, called Academic Standing (p. 83), for detailed information.

Academic advisors strive to teach students how to make the most informed decisions when planning their academic program, while satisfying all university, college, and major requirements. Students assume primary responsibility for knowing the requirements for their degree and for acquiring current information about their academic status.

Some of the services offered by the advising centers are listed below:

- **New Student Orientation**: for freshmen and first semester transfer students.
- **Registration Assistance**: This includes online processing of original registrations, schedule revisions, and course withdrawals, in accordance with deadlines published on the University Registrar (http://www.temple.edu/registrar) web site.
- **Academic counseling**: Students work with advisors to develop a meaningful education plan compatible with life goals and current needs. Through contact with departmental faculty, students gain an in-depth appreciation of a specific discipline and discover opportunities associated with their field of interest.
- **Problem solving**: Students can meet with advisors to discuss a variety of academic concerns and develop some possible solutions. Students experiencing academic difficulty work with advisors to learn strategies for overcoming the obstacles to success.
- **Policy clarification**: The advising centers help students understand the policies and procedures integral to achieving a successful and fluid transition through university life. This includes such things as academic progress, academic standing, grievance procedures, and registration policies, including add/drop/withdrawal policies.
- **Honors advising**: In addition to receiving advising from their college, students enrolled in the University Honors Program may also be advised in the Honors Office in Tuttleman Learning Center until they have completed 60 semester hours, with the exception of the Fox School of Business and Management students, whose Honors program advising is conducted within the school.
- **Change of Program (CoP) advising**: Students changing programs or campuses at Temple meet in groups or individual sessions, by appointment. (Formerly referred to as Intra-University Transfer, or IUT).
- **Re-enrollment interviews**: Students may meet with advisors if they have taken time away from Temple University and wish to return.
- **Graduation Reviews**: Students meet with advisors prior to the start of their senior year to plan for graduation and beyond.
- **Petition processing**: Advisors facilitate processing of petition requests including leave of absence, completing a course at another institution, third registration for a course, withdrawal with approved excuse, registering for an academic overload, evaluating life experience credit and credit by examination, reviewing of transfer credit evaluation, considering DARS exceptions, academic forgiveness for re-enrolling students, and receiving approval for an exception to policy.
- **Referrals**: Advisors make referrals to such services as financial aid, career development, study abroad advising, counseling, tutoring, disability services, and testing.
- **Pre-registration advising**: Advisors work with students prior to fall and spring registration periods to review outstanding requirements and develop a registration plan. Prior to their pre-registration advising, students should review their DARS and course selections for the upcoming semester. DARS for all students are available on the web through dars.temple.edu.
- **Student retention initiatives**: Each school and college provides focused support for students to enhance their level of engagement with the school or college, and with the university. Advising units reach out to students to increase their awareness of the support services and resources available to all Temple students.
- **Critical Paths advising**: Schools and colleges have identified benchmarks for progress through each academic major. These key courses should be completed according to the timeline laid out by the schools and colleges to ensure timely graduation. Academic advising units help students navigate these critical paths, incorporating individualized needs and goals such as adding a minor or studying abroad into students’ academic plans.

**Academic Advising Mission**

In support of the mission of Temple University, academic advisors work collaboratively with students, faculty, staff, and community partners to meet the diverse, evolving needs of all students within our university community. It is our purpose to provide quality advising programs and services that support students in achieving their personal, academic, and career goals. By helping students interpret university policy, providing referrals to appropriate resources, and assisting students in creating individual plans for academic success, Temple advisors encourage our students to engage in and to take ownership of their education.

**Nancy & Donald Resnick Academic Support Center for Student-Athletes**

Justin Miller, Senior Director
1800 N. Broad Street
Pearson Hall 150
215-204-9002
Hours of Operation
Center Hours:
Monday-Friday 8:30 a.m. - 10:00 p.m.

The Nancy & Donald Resnick Academic Support Center for Student-Athletes monitors the academic progress of all student-athletes. From the admissions stage through graduation, the center provides coordination of academic services, academic counseling and advising, and tutoring services. The center has a strong commitment to the education and graduation of all student-athletes.

The Nancy and Donald Resnick Academic Support Center for Student-Athletes provides superior academic, personal and professional guidance to support all Temple University student-athletes. Through core values of diversity, integrity and collaboration across the University, the Center strives to inspire student-athletes to learn and succeed to their greatest academic and professional potential.

Student-Athlete Tutoring
Tutoring is a service offered to student-athletes by the Resnick Academic Support Center for Student-Athletes. The tutorial program is a supplement to classroom instruction, individual study, and preparation.

Tutorial services are available on an individual, small group, and walk-in basis during scheduled study sessions. Review sessions for courses with high student-athlete enrollment are also offered throughout each semester.

Tutor Program Contact:
Sarah Pergine, Tutor Coordinator
spergine@temple.edu

Degree Audit Reporting System (DARS)
Debbie Bennett-Kenney, DARS and Transfer Systems Coordinator
Sheila Brogden, DARS Sr. Encoder
dars@temple.edu
www.temple.edu/vpus/resources/dars.htm

DARS stands for the Degree Audit Reporting System. Students and advisors can use DARS both to track and plan students' academic progress toward completion of an undergraduate degree in their declared or proposed major. DARS shows students how their Temple University courses, transfer courses, and courses in progress apply toward degree requirements. It enables a student to explore alternative academic programs and gives detailed and accurate information about the student's academic record.

The information on the audit comes from the Banner Student information system. This is the same system students use to register for classes and to check their grades at the end of the term. Since DARS accesses the actual database where student's information is stored, it is current as of the moment an audit is processed.

The Degree Audit system is currently being upgraded to increase the functionality using the latest technology and includes a Self-Service application. Students and Advisors are currently using the Self-Service site to request audits of degree requirements, view course history and review transfer credit evaluations. Coming soon – students will be able to make Academic Plans which will be a personal road map to graduation. These Plans work as a powerful advising and planning tool to provide a clear and individually customized path to meet graduation goals.

Students can request a degree audit by clicking on the Student Tools tab in TUportal and then, in the Records channel, clicking on Degree Audit. The direct link is dars.temple.edu.

Students can learn more about DARS on our web site (http://www.temple.edu/vpus/resources/dars.htm), including information about how to interpret the degree audit, documentation about the new Self-Service site, general resources available in the DARS office, and information about the system.

Fly in 4
Fly in 4 is Temple University's innovative plan to fast-track students' futures and limit student loan debt. The Fly in 4 partnership ensures that students complete their degrees on time—or Temple will pay for their remaining course work. To limit students' obligation to work for pay, Temple will award a limited number of Fly in 4 grants per entering class to students with high financial need. Eligibility is based on the Free Application for Federal Student Aid (FAFSA). To learn more about Fly in 4, visit fly.temple.edu.

Pre-Professional Health Studies: Advising & Programs
Neida Pérez, Ed.M., Director
Pre-Professional Health Studies
1810 Liacouras Walk, Suite 100
215-204-2513
The office of Pre-Professional Health Studies at Temple University provides advising, counseling, and application support for students interested in preparing for specific careers in health care. Advising offered by the office supplements the academic advising (course registration, major requirements and graduation review) provided by the Academic Advisors in the student's primary college which is based on their Major program of study.

Specifically, the office of Pre-Professional Health Studies advises students preparing for the following health professions or graduate programs:

Health Professional schools for:
- Dentistry
- Medicine
- Optometry
- Pharmacy
- Podiatry
- Veterinary Medicine

-or-

Graduate Program options in:
- Physical Therapy
- Occupational Therapy
- Physician Assistant

The office of Pre-Professional Health Studies provides advising support for students to help them identify their academic strengths and interests and the paths that will best prepare them to fulfill their career aspirations within the health professions. Specifically, the office provides:

- individual, group, and electronic (ePortfolio) advising to help students stay organized as they identify tracks / programs best suited to their interests in the health care professions;
- seminars, colloquia, and speakers on issues and concerns central to understanding the complexities of the health care profession in the twenty-first century;
- information on student organizations focused on health care issues and concerns that students can get involved in early and stay involved in throughout their undergraduate career;
- information on opportunities for internships, service learning, and other experiential learning activities key to the professional development of the individual interested in a career in the health-care professions; and
- Pre-Health Evaluation Committee Process for letters of recommendation in support of applications.

Special Admissions Programs

The Pre-Med Health Scholar Program

The Pre-Med Health Scholar Program is offered to highly talented High School Seniors interested in pursuing a career as a physician. It is designed to recruit exceptional students to Temple University by offering a Linkage Agreement with Lewis Katz School of Medicine at Temple University. Students entering Temple University as Pre-Med Health Scholars have the option to consider an Accelerated BA/MD (3+4) Degree.

Accelerated Programs for Dentistry, Pharmacy, Podiatry, or Physical Therapy

Accelerated Programs allow Pre: Dentistry, Pharmacy, and Podiatry (3+4 Tracks) as well as Physical Therapy (3+3 Track) students the option of earning both their Bachelor of Arts and Graduate degrees in a shorter period of time after successfully passing all courses in the first year of professional school. Each program offers a Linkage Agreement with the corresponding Temple University professional school or graduate program.

Applications for interested entering freshman are available on the health advising web site. Completed applications are due by the end of the first semester at Temple University. The Accelerated BA/DMD, BA/PharmD, BA/DPM, or BA/DPT Programs are designed for high-achieving students who have distinguished themselves with impressive high school and first semester of college academic records and a demonstrated interest in their respective field.

Applying to Temple for the entering class of 2016 and beyond

NOTE: Beginning with the Temple University entering class of 2016, applications to the Accelerated Programs for Dentistry, Pharmacy, and Podiatry (3+4 Tracks) as well as Physical Therapy (3+3 Track) will be available online and will be due before a student enters Temple University. (Due Date: 1/19/2016 for the entering class of 2016.) Applicants will therefore know their accelerated option status before entering Temple University.
Scholar Development and Fellowships Advising

Tuttleman Learning Center, Suite 201
215-204-0708
215-204-0704 (fax)
www.temple.edu/vpus/fellowships/

Temple University students are eligible to apply to a variety of funded opportunities, including scholarships, fellowships, funded summer research opportunities and funded internships. Fellowships Advising will help any Temple student identify awards and opportunities that are well suited to their aspirations and accomplishments, and will provide guidance and support throughout the application process.

The University Libraries

http://library.temple.edu/

The Temple University Libraries form an extensive network of services and resources to support the educational and research needs of the university's students and faculty.

The combined collections include more than 3 million volumes and 27,000 current serial subscriptions, and over 600 research databases, as well as extensive collections of microforms, maps, photographs, and audiovisual materials.

The Special Collections Research Center includes the Urban Archives and the Philadelphia Jewish Archives collections, which document the social, economic, and physical development of the greater Philadelphia region since the mid-19th century; rare books, artists books, and manuscripts collections; the Contemporary Culture Collection; the Science Fiction and Fantasy collections; the Philadelphia Dance Collection; and the University Archives. The Charles L. Blockson Afro-American Collection documents the history and culture of people of African descent. The Libraries serve as a depository for both Pennsylvania and federal documents.

Information retrieval

Research databases, full-text resources, the online catalog, electronic references, and other information and services are at http://library.temple.edu/. The online catalog (diamond.temple.edu) lists library holdings and course reserves and their circulation status, and links directly to selected electronic course reserve materials. The Paley Library offers a computing commons and hundreds of seats for study. A media services center provides access to audio-visual resources, and offers specialized viewing/listening stations and study rooms.

Expert assistance in using the library resources is provided by reference staff. Students are introduced to basic information literacy skills through the University General Education (p. 143) program. Librarians collaborate with faculty to integrate research skills development into general education courses, such as the freshman Analytical Reading and Writing course. Librarians also provide user education classes tailored to individual courses. Individual questions are answered in person, as well as by phone, e-mail, text message, online chat, and IM. Go to the Ask A Librarian web site at http://library.temple.edu/asktulibraries to ask questions and retrieve information.

When local resources do not supply needed material, Temple students and faculty may directly request books from other universities and colleges through the E-Z Borrow Program, or request article copies and books through the Temple Libraries' interlibrary loan service.

Locations

The resources of the University Libraries are housed in Paley Library (the main library) and in a number of separate facilities serving specific disciplines and campus locations. Hours and information for the following are on the libraries' web site.

- Ambler Library, 580 Meetinghouse Road, Ambler, PA 19002, 267-468-8640
- Charles L. Blockson Afro-American Historical Collection, Sullivan Hall, Main Campus, 215-204-6632
- Harrisburg Library, 234 Strawberry Square, Harrisburg, PA 17101, 717-232-6400
- Health Sciences Library, 3500 N. Broad Street, Health Science Campus, 215-707-2665
- Charles E. Krause Library of Podiatric Medicine, School of Podiatric Medicine, 8th and Race Streets, Philadelphia, PA, 215-629-0300
- Law Library, Charles Klein Law Building, Main Campus, 215-204-7981
- Paley Library, 1210 W. Berks Street, Main Campus, 215-204-0744
- The Science and Engineering Library, College of Engineering Building, Second Floor, Main Campus, 215-204-7828

Reading rooms and libraries are also maintained by several academic programs. The following facilities are located on the Main Campus:

- College of Liberal Arts Educational Technology Center, AL-21 Anderson Hall, 215-204-8265
- Esther Boyer College of Music Alice Tully Library, Rock Hall, 215-204-5531
- Esther Boyer College of Music Listening Library, 100 Presser Hall, 215-204-8338
- Social Science Data Library, 863 Gladfelter Hall, 215-204-5001
Math & Science Resource Center (MSRC)

Mona Zaoudeh, Director
1810 Liacouras Walk, Room 201
215-204-8466
www.temple.edu/msrc

Hours of Operation for Fall and Spring Semesters on Main Campus:
Monday-Thursday, 8:30 a.m. - 8:30 p.m.
Friday, 8:30 a.m. - 3:30 p.m.
Saturday, 10:30 a.m. - 2:30 p.m.
(Summer I and II hours of operation can be found on the MSRC web site)

Ambler Campus
102 Learning Center
For hours of operation, visit the MSRC web site (http://www.temple.edu/msrc/tutoring/schedules).

The Math & Science Resource Center creates an environment that fosters a balance of intellectual stimulation with productive and engaging academic support for our students. The academic support center is a welcoming atmosphere for all students enrolled in math, science, statistics, and many other quantitative courses. The student-centered learning and enrichment facility, led by an undergraduate peer assistance model, centers around both content support & learning and study strategies that can be utilized anytime during a student's academic career. The Center is designed to help all students achieve their highest potential as they aim to reach their academic goals.

To help students learn and master math and science course content and the approaches to effective learning, the MSRC offers individual/group drop-in tutoring in its Main and Ambler locations, as well as online tutoring for Ambler and TUCC students. Furthermore, main campus Peer-Assisted Study Sessions (PASS) are offered to students in certain courses by providing weekly guided study sessions that support students not only in content but with learning and study strategies. MSRC tutors are Temple students majoring in Biology, Chemistry, Mathematics, Physics, Statistics and related fields. Comprehensive training prepares the peer staff to help students, especially those new to university-level courses, overcome their difficulties.

In addition to tutoring services, the MSRC provides an array of resources to help Temple students achieve their academic goals. Academic coaching is provided to those students referred to the MSRC by an advisor or a faculty member, and the graduate assistants and tutors can provide students with student success strategies while in the tutoring lab. Tutors also use sample problem sets coordinated and provided by academic departments to conduct exam review sessions that emphasize fundamental principles introduced in the classroom, and at the end of each semester, final exam review sessions are provided for these coordinated classes with high enrollments. During these sessions, tutors reinforce material presented during the course and address specific questions students may have.

At the front desk students can reserve break out rooms for distraction-free study group meetings; borrow a wide variety of relevant textbooks; and access our quiet computer lab with up-to-date workstations and onsite printing. In addition to tutoring, the tutoring lab houses a Laptop Loaner Program as well as a study space for those seeking an academic setting to focus on their work.

A valid Temple student ID is all that is needed to use any of the MSRC's resources or services. For up-to-date announcements and resources, visit the MSRC office or web site (http://www.temple.edu/msrc).

Other Tutoring Sources

• Instructors may be able to recommend tutors, often graduate students working toward master's or doctoral degrees in the department.
• Departmental offices generally have lists of qualified tutors available to work with undergraduates.
• The Student Assistance Center, first floor, Student Center, Main Campus, maintains a list of students available to tutor in a variety of subjects. These tutoring services often are available for a nominal hourly fee, arranged with the tutor.
• At the Ambler campus, the Office of Academic Advising and Career Development, 109 West Hall (267-468-8200), maintains information about tutoring services.

215-204-0702

Ambler Campus
Call 215-204-0702 for hours
102 Learning Center

The University Writing Center provides services to students and faculty across the university. These services include tutoring, workshops, and seminars, as well as a computer classroom. Many of these services, including tutoring, are accessible online through the center’s web site. All services are free-of-charge to Temple students and faculty. Tutoring services are offered on a drop-in basis or by appointment.

Center staff include graduate students and advanced undergraduates from a variety of fields and disciplines, including history, English, political science, and education. All are selected based on their demonstrated writing ability and teaching aptitude. Staff participate in regular professional development sessions.

Services for Students

Students can work one-on-one or in small groups with center staff on writing being done for any course. They may also bring writing being done outside of course work. Tutors work with students at any stage of a writing project, from planning and drafting to revising and editing. They encourage students to focus on specific aspects of their writing, such as organization, sentence clarity, or paragraph structure. Tutoring sessions are a collaborative process in which the tutor works with and supports the student through the revision process.

Non-native English speaking students (including IELP) can work one-on-one with Conversation Partners on any language-related issue, including but not limited to listening, speaking, grammar, pronunciation, presentations, and test prep. Workshops are also provided on specific language topics. Students can also practice English in group settings with staff and alumni in our monthly events, which can be found on our web site.

Students who come to the center for tutoring or conversation partners can also make use of the center’s computer lab. They can use desktop publishing software to write and print papers; plan, outline, revise, edit, and proofread; and format and generate bibliographies and citations. The lab is connected to the internet; students may access the web and all library research facilities. Help is available for using these technologies. The lab also includes hardware and software designed to assist students with disabilities.

The center maintains an interactive web site (http://www.temple.edu/writingctr). Students can access and download resources and handouts, and they can also access online tutoring. Students can submit papers or questions to the e-mail tutoring service, and they will receive a reply from a tutor within 12-24 hours.

Services for Faculty

Faculty teaching a writing or writing-intensive course can request an in-class writing workshop on a wide variety of topics. The writing workshops are interactive, and they are tailored to specific courses and assignments. To request a workshop, faculty can call the center or access the center’s web site (http://www.temple.edu/writingctr).

Faculty teaching writing-intensive courses are invited to request use of the center’s state of the art computer classroom. This 27-station classroom is organized in a seminar style, with access to projection and to the internet. Technical support for faculty using this facility is also available.
Student Services

Temple University Career Center

220 Mitten Hall 1913 N. Broad Street
215-204-7981
215-204-4462 (Fax)
www.temple.edu/provost/careercenter/

The Temple University Career Center is a central resource that builds collaborative relationships among the Temple community, and empowers students and alumni through comprehensive career development services, driving successful careers.

Career services are offered online and at the Career Center. Visitors can explore major, careers, and graduate school options; learn how to brand themselves by receiving advice on resumes, cover letters, interviewing, networking, and job search skills; and connect with employers for internships, part-time, and full-time positions.

Visit the Temple University Career Center online at www.temple.edu/provost/careercenter/ or in person at 1913 N. Broad Street, Mitten Hall 220, Philadelphia, PA 19122.

Meet with a Career Coach by dropping-in for a 15-minute appointment Monday through Friday between 11:00 a.m. and 3:00 p.m., by scheduling a 30-minute appointment, or virtually Monday – Friday from 2:00 p.m. to 3:00 p.m.

Contact the Career Center at 215-204-7981 or careercenter@temple.edu.

Disability Resources & Services

100 Ritter Annex
1301 Cecil B. Moore Avenue
215-204-1280
215-204-1786 (TTY)
215-204-6794 (Fax)
drs@temple.edu
www.temple.edu/disability

Temple University is committed to the full inclusion of students with a disability in all programs and services. Disability Resources and Services (DRS) facilitates access and accommodations on an individualized basis and provides opportunities for students with a disability to grow and develop. We work to build a learning community where people with diverse abilities are valued and included in all facets of life at the university.

Our dedicated, knowledgeable staff meets with students to determine eligibility for accommodations and discuss strategies for college success. DRS develops programs and workshops to support student retention and provides training and awareness about access and inclusion to the entire university community.

Students who connect with DRS include those with physical, visual, hearing and speech disabilities, health, mental health, and autism spectrum conditions, attention deficits, brain injuries, and learning disabilities. We value students of all backgrounds. Many student veterans, student athletes, honors students, and international students who have a disability connect with DRS. DRS is a free, confidential service.

Services are available at all Temple University campuses. All students, regardless of their home campus, should contact DRS on Main Campus to register. Each campus has an identified DRS liaison.

Disability Resources and Services provides the following services:

• Pre-College Information
• Intake Assessment
• Accessible housing
• Orientation and placement test accommodations
• Classroom and testing accommodations, including:
  • Note-taking support
  • Testing accommodations
  • Alternate format materials
  • Sign language interpreters and CART services
• Assistive Technology
  • Assessment, training, and short-term equipment loans
• Scholarships
• Career Development
• Mentoring and leadership development opportunities

Visit www.temple.edu/disability to explore our programs and services.

Military and Veteran Services Center

215-204-6130 or 267-468-8102
tu vets@temple.edu
www.temple.edu/veterans

Making the transition from military to college life can be challenging. To assist with this transition, Temple University Military and Veteran Services Center works with the various university departments to plan and implement educational and social programs to help veteran students succeed at Temple University.

Temple is recognized for its support of U.S. military veterans and active duty servicemembers in their pursuit of a college education. Designated by U.S. News & World Report as one of the nation’s “Best Colleges for Veterans” and ranked in the top 20% of Military Friendly® Schools by G.I. Jobs Magazine since 2010, Temple University, a proud participant of the Yellow Ribbon Program, provides access to excellence and opportunities for success for military service members and veterans who are admitted to and/or enrolled at Temple. Each school and college at the university, as well as all the key student services departments that provide direct service to veterans, has a designated veteran point of contact person to help assist students. Each school and college also has a veteran academic advisor. More information can be found on the website at www.temple.edu/veterans. The University is committed to assisting our veterans, military students and their dependents with making a smooth transition from the military to student life.

For more information, please contact the Associate Director for Adult and Veteran Student Recruitment at 215-204-6130 or 267-468-8102 or e-mail tu vets@temple.edu. Questions regarding the certification process and VA benefits can be directed to the University’s Certifying Officer in the Office of the University Registrar at 215-204-7378 or vastudentbenefits@temple.edu.

Veterans Certification Process

Veterans may enroll as full-time or part-time students; however, benefits are based on enrollment status. To begin the process to use your benefits, it is imperative that you complete the steps that follow before the beginning of the first semester in which you are enrolled at the university, in order to receive your benefits in a timely and accurate manner:

• Submit a copy of your certificate of eligibility
• Write your TUID on the front of the certificate
• If you are receiving Chapter 35 DEA benefits, you must also write the social security number of the parent who transferred benefit
• Scan/e-mail your certificate to loriann@temple.edu or hand-deliver a copy to the Office of the University Registrar, 1801 N. Broad Street, Conwell Hall, Room 200.

*NOTE - If you do not submit your certificate of eligibility in advance, it can negatively affect the timely and accurate processing of your program benefit payments.

If you do not have a Certificate of Eligibility, you can obtain a copy by contacting the VA at www.benefits.va.gov/gibill/ (http://www.benefits.va.gov/gibill), click on “Submit a Question” or call 1-888-GI-Bill1.

Once your certificate of eligibility has been processed you will receive a veteran declaration tab on your TUportal. If you would like to use your GI Bill® benefits for a term, you must be registered for classes. Go to the Veteran Benefit Declaration page by clicking on the Veterans Declaration link in the Registrar Channel on TUportal.

• On the Veteran Benefit Declaration page, select the term, select "yes" under process benefits, provide your credit hours and click "save declaration."
• This process notifies the certifying official that you are ready to have your benefits processed for that term.
• You must submit a declaration to use your benefits!

If you do not want to use your GI Bill® benefits for the term, go to the Veteran Benefit Declaration page, select the term, select "no" under process benefits and click "save declaration."

The Veterans Coordinator in the Office of the University Registrar is available to answer questions concerning VA benefits at 215-204-7358 or vastudentbenefits@temple.edu.

College Scorecard (College Affordability and Transparency Center)
Temple University Campus Recreation is the coordinating office for recreational sports programs at Main Campus. More than 4,000 students, faculty, and staff participate daily in one or more of the various activities offered by our office. These activities include intramurals (men's, women's, co-rec), sports clubs and organizations, informal recreation, special events and programs, group fitness, adapted recreation, aquatics, and student staff development.

**Facilities**

**Independence Blue Cross Student Center (IBC) - 1701 N. 15th Street**
The 59,000 square foot Independence Blue Cross Student Center (IBC) provides participants with a first-class environment for fitness conditioning, group fitness, martial arts, and racquetball. The IBC also has an indoor jogging track and an outdoor multi-purpose court.

**Pearson McGonigle Halls - 1800 N. Broad Street, 3rd Floor Rec Court Area**
This newly constructed space provides opportunities for activities such as basketball, volleyball, badminton, table tennis, as well as an indoor golf driving range. The courts are divided by three and a half mechanical curtains that can section off specific court areas or be raised to allow for full area events.

**Pearson McGonigle Halls - 1800 N. Broad Street, 2nd Floor Fitness Mezzanine Area**
The Fitness Mezzanine is a new informal recreation area located on the second floor of the Pearson McGonigle Halls. The 2,200 square foot Fitness Mezzanine features the following equipment: 14 cardio machines, 8 selectorized pieces, interactive Xbox Kinect and Nintendo Wii gaming stations and 3 speed bag workout stations. Boxing workout and gaming stations are available during designated hours; please check the Campus Recreation web site for more information. General Campus Recreation access policies and equipment use policies apply. Access to the Fitness Mezzanine Area must be through the second floor - Room PH-200.

**Pearson McGonigle Halls - 1800 N. Broad Street, Climbing Wall, Atrium**
Recreational climbing is available in the Pearson McGonigle Halls Atrium, featuring a 26 foot climbing wall, a 26 foot free standing tower and a 12 foot bouldering wall. Hours of operation will be listed on the Campus Recreation web site each semester. Equipment available for recreational use will include harnesses, carabiners, and climbing shoes. Orientations, belay certifications and climbing clinics will be offered at specified times throughout the semester. ID with valid recreation access is required to enter the climbing wall area. Limited space is available in the climbing wall area for patron access. Please Note: Due to the nature of climbing wall activities and the safety orientations required to use the wall, guest pass holders are not permitted entry into the climbing wall area. Special event activities are offered throughout the semester as well. Alterations to the normal schedule will be posted in the facilities and on the web site in advance.

**Pearson McGonigle Halls Pools (30/31) - 1800 N. Broad Street, Ground Level**
Aquatics programs are held in Pearson Hall Pools 30 & 31. Pool 30 is available for scheduled recreational swimming hours with some specific hours identified for lap swimming. Other aquatics events throughout the semester include: Swim into Shape, Water Aerobics, and Learn to Swim/Guard Classes.

**Temple University Fitness Center (TUF) - 1600 N. Broad Street, 2nd Floor**
The TUF center is a 16,000 square foot fitness facility that includes cardiovascular machines and selectorized weight training equipment. It also has significant space dedicated to circuit training, light weight, strength and core workout areas. TUF has backpack locker and sport towel services as well as a lounge area available for use by students, employees and alumni rec patrons.

**Temple Administrative Services Building Fitness Center - 2450 W. Hunting Park Avenue**
Campus Recreation manages the employee-only 4,300 square foot corporate fitness center at Temple's Administrative Services Building (TASB). The center offers a full line of strength equipment, numerous cardiovascular exercise machines and stretching/abdominal areas. Access is available through payroll deduction.

**Informal Recreation**
Informal Recreation provides the opportunity to pursue recreational activities on an unstructured and voluntary basis. Run, swim, lift weights, or participate in other recreational activities at designated times. With fitness as the overriding theme, informal recreation is a very popular amenity available to the campus community.

**Group Fitness**
Group Fitness programs provide participants with a variety of choices ranging from aerobics and yoga to body toning and spinning. More than 55 sessions per week are offered by certified leaders. Campus Recreation provides participants with a dynamic array of sessions in a first-class aerobic facility.

**Adapted Recreation**
Extracurricular opportunities exist for students with physical disabilities. The goals of the Adapted Recreation program are: to introduce students to lifelong leisure skills and to promote total participation in college life. The main focus of the program is a workout buddy program that matches students with disabilities with an able-bodied assistant to help them in their selected workout. Tennis, hand cycling, rowing and fitness conditioning are some of the available activities. If you seek advisement on recreational concerns in this area, contact our office to make an appointment.

**Intramural Sports**
The Intramural Program provides students with a flexible, yet structured, environment in which to participate in sport activities. Sport activities include basketball, dodgeball, flag football, floor hockey, handball, indoor and outdoor soccer, softball, and volleyball. The sports are administered in league format with various divisions servicing men's, women's, and co-recreational teams. Teams and individuals must formally register for activities.

**Sport Clubs & Sport Organizations**
Sport Clubs and Sport Organizations are groups of individuals who share a common interest in a sport activity and have gained university recognition via registration procedures governed by Campus Recreation. Sport Clubs and Sport Organizations differ in scope and purpose and are classified as highly-competitive, instructional, and/or recreational. The key element to the program is that it is student-initiated and organized with an emphasis placed on participation and interest in the same activity. There are currently 36 active clubs: Badminton, Baseball, Bowling, Crossfit, Cycling, Equestrian, Fencing, Field Hockey, Gymnastics, Men's Gymnastics Elite, Handball, Ice Hockey, Indoor Rock Climbing, Karate, Lacrosse (Men's & Women's), Paintball, Powerlifting, Racquetball, Roller Hockey, Rugby (Men's & Women's, Sevens (M & W)), Snowboarding, Softball, Soccer (Men's & Women's), Swimming, Taekwondo, Tennis, Track (M), Ultimate Frisbee (Men's and Women's), Volleyball (Men's & Women's) and Wrestling. Additional clubs and organizations are not being added at this present time. Sport Club Interest Forms and Club Contact Lists may be obtained by visiting the Campus Recreation web site or the main office in Suite 303 of Pearson McGonigle Halls.

For further information, call Campus Recreation at 215-204-1267, or visit the department web site at www.temple.edu/studentaffairs/campusrec.

**Ambler Campus**
Ambler Campus offers a variety of recreational and intramural activities. The campus includes the Red Barn Gym, basketball courts, a fitness center, outdoor pool, sand volleyball pit, a multipurpose field and tennis courts. For information about Ambler Campus recreational activities and facilities, visit the web site at http://ambler.temple.edu/athletics-and-wellness/recreation. For gymnasiuim information, call 267-468-8151. For pool information, call 267-468-8152.

**International Student Services**
Martyn J. Miller, Ph.D., Director
1700 N. Broad Street, Office 203B
215-204-7708 (Phone)
215-204-6166 (Fax)
www.temple.edu/isss and www.temple.edu/provost/international/ielp/

International Student and Scholar Services (http://www.temple.edu/isss) (ISSS) provides services and support to Temple University’s international students, scholars and researchers. Contributing to Temple’s intellectual and cultural diversity, the international student and scholar community represents more than 120 countries and offers a unique opportunity to expand one’s cultural and academic horizons. To accomplish its mission, International Student and Scholar Services generates all legal documents required for nonimmigrant students and scholars; provides advisory and
counseling services; serves as a liaison to university departments, U.S. and foreign government agencies, and the greater community; facilitates the assimilation of international students and scholars into the larger Temple community; and contributes to the international community’s cross-cultural understanding and appreciation. Detailed information on programs and services offered by ISSS is available from the office in 1700 N. Broad St. or the office’s web site at www.temple.edu/isss.

The Intensive English Language Program (http://www.temple.edu/provost/international/ielp) provides English-language training to individuals seeking to improve their English language skills to prepare for admission to Temple University or other universities or colleges whose primary language of instruction is English. Detailed information on programs offered by IELP is available from the office in 1700 N. Broad St. or the office’s web site at www.temple.edu/provost/international/ielp.

Temple University requires all new and continuing international students in Nonimmigrant Student (both F-1 and J-1) status to carry health insurance that meets certain minimum standards determined by the United States Department of State. For detailed information, please see www.temple.edu/hr/students/healthinsurance/international.htm.

All international students in Nonimmigrant Student (F-1 and J-1) status must maintain their nonimmigrant status insofar as regulations of the United States Citizenship and Immigration Services (USCIS) and the United States Department of State (DOS) are concerned. In general, students in this status must complete a full-time course load each academic term while they remain in the United States and must not accept unauthorized on-campus or off-campus employment. For detailed information, please see www.temple.edu/isss/current-students/status.html.

Eligibility for employment for individuals in Nonimmigrant Student (F-1 and J-1) status is based on regulations of the USCIS and the DOS. For detailed information, please see www.temple.edu/isss/employment/index.html.

Major medical health insurance is required for all international students in Nonimmigrant Student (F-1 and J-1) status. International students are required to submit to the university’s Benefits Office evidence of coverage by a health insurance policy that meets the minimum coverage required by Temple University (consistent with standards established by the United States Department of State): maximum deductible of $500 per accident or illness; payment of at least 75% of covered medical expenses; maximum benefit of $50,000 per accident or illness; repatriation benefits of no less than $7,500; and medical evacuation benefits of no less than $10,000. Students may also purchase such health insurance upon arrival at Temple University. For further information, please contact the university’s Benefits Office at 215-926-2270 or e-mail StudentInsurance@temple.edu. For detailed information, please see www.temple.edu/hr/students/index.html.

In addition, international students must demonstrate that they are free of active tuberculosis by submitting to Student Health Services a Tuberculosis Screening Record which has been certified by a licensed physician. International students may meet this requirement upon arrival at Temple University by taking a PPD test at Student Health Services (http://www.temple.edu/studenthealth).

A mandatory orientation session is held for new international students at the beginning of each academic term. For more information, please see the International Student and Scholar Services web site at www.temple.edu/isss/future-students/orientation-international.html and the Office of Orientation web site at www.temple.edu/studentaffairs/orientation.

For more information about maintaining Nonimmigrant Student (F-1 and J-1) status, please see www.temple.edu/isss.

**Department of Intercollegiate Athletics**

www.owlsports.com (http://www.owlsports.com)

The Department of Intercollegiate Athletics is committed to pursuing excellence at the Division I Football Bowl Subdivision (FBS) level and providing opportunities for its diverse student-athletes to maximize their athletic, academic and life-skill potential. The department sponsors 19 sports and provides high-level coaches and administrators, whose goal is to instill a winning attitude on and off the field of play through core values such as teamwork, leadership and service to others. As one of the most visible messengers of the Temple story, the Department of Intercollegiate Athletics strives to be a unifying force for the university with the city of Philadelphia, The Commonwealth of Pennsylvania, as well as the nation. Temple University is a proud member of the National Collegiate Athletic Association, the American Athletic Conference, the Big East Conference and the ECAC.

**Office of the Dean of Students**

Howard Gittis Student Center, Room 304
215-204-7188
215-204-1663 (Fax)

www.temple.edu/studentaffairs/deanofstudents/

The mission of the Office of the Dean of Students is to engage, develop, and retain Temple students by providing them with supportive services, advocacy, and education. The Dean of Students office provides assistance to students and their parents/families in an effort to ensure co-curricular learning and overall collegiate success. The Dean's office also leads the University's CARE (Crisis Assessment Response and Education) Team and serves as a resource to faculty and staff who have concerns about a student. The areas which report through the Dean of Students are: CARE Team, Disability Resources and Services, HEART Wellness Resource Center, Leadership Development, Orientation, Student Activities (including Greek Life and student government), Student Conduct and Community Standards, Student Media, and Tuttleman Counseling Services.
Student Center Operations

Main Campus
Second Floor Mezzanine, Howard Gittis Student Center
215-204-7131
www.temple.edu/studentaffairs/studentcenters/

Health Sciences Center
Second Floor, Student Faculty Center
215-707-4017
www.temple.edu/studentaffairs/studentcenters/

Student Center Operations is responsible for the management of the Main Campus Student Center, the Student Faculty Center on the Health Science Campus and a variety of other student-focused spaces on Temple's Main Campus. Our role is to serve the living, dining, meeting and recreation needs for the greater campus community. To foster excellent interactions, we offer flexible student focused spaces, opportunities for student leadership and employment, and areas for student organizations to host events, programs and meetings.

On the Main Campus in the Howard Gittis Student Center our areas include the Game Room, the "Reel" Cinema, the Information Desk, the Graphics Media Center, and the Student Organizations Village. Additionally, just off the Atrium you will find the Book Store (Barnes & Noble), Philadelphia Federal Credit Union (PFCU), a UPS Store, Parking Services and the Walker Food Court. We also manage the Owl Cove and the Great Court in Mitten Hall, and a variety of outdoor spaces including the Bell Tower and Liacouras Walk for Student Organization use. All use of Student Center meeting and conference room spaces, lounges, and special event areas are managed by the Operations team, and we support over 7000 events each year.

On the Health Sciences Campus, just north on Broad Street, in the Student Faculty Center (SFC), you will find another wonderful student center facility. The SFC includes both activities and operations with a primary focus on Health Science students - but all are welcome to attend events or programs. Our office manages the Recreation Center and all conference services needs for the Health Science Campus. All Student Center facilities are designed and managed with a strong student focus, to provide avenues for leadership through employment, and facilities which foster both formal and informal involvement.

The Main Campus Student Center offers a three-story atrium as a grand entrance to a variety of Student Affairs offices within the building. The Dean of Students; Student Activities; Orientation; Student Conduct; Temple Student Government; Temple News (student newspaper); and the Templar (student yearbook) all "live" in the Student Center.

The Student Faculty Center also offers a bookstore location, study and informal lounges, conference rooms, game spaces, a television lounge, dance studio, gymnasium, and fitness center. Your Temple identification card allows you access to the facility.

If you are interested in getting involved, finding a great place to meet and relax, or using space for your event, program or meeting, please visit us on the web at www.temple.edu/studentaffairs/studentcenters/ or in our offices for more information - and please make sure to visit your Student Centers often!

Student Health & Wellness

Student Health Services

1810 Liacouras Walk, Fourth Floor
215-204-7500
215-204-4660 (Fax)
www.temple.edu/studenthealth

Student Health Services strives to promote a high standard of health among Temple University students through programs in preventive medicine and health education, in addition to diagnosis and treatment of injury and illness. Care providers include doctors, nurse practitioners, and nurses. Services offered at the Main, Ambler, and Health Sciences Center campuses include basic medical care, an immunization/allergy injection clinic, family planning services, and a self-care center. Other services offered at Main Campus include nutritional consultation and HIV testing.

Student Health Fee

As part of the University Services Fee, students are charged each semester during the academic year to help subsidize the basic diagnostic and treatment services provided by health care providers at all four campus locations. There are charges for services not covered by the Student Health Fee such as dispensed medications, orthopedic supplies, and immunizations. Office laboratory tests can be performed at Ambler and Health Sciences Center offices, while more extensive laboratory testing is available at the Main Campus office. Please check the Student Responsibilities (p. 36) section for further information on health fee and insurance.

Tuttleman Counseling Services

John DiMino, Ph.D., Director
1810 Liacouras Walk
215-204-7276
Tuttleman Counseling Services (TCS) is a comprehensive provider of mental health services to Temple’s student population. Our mission is to support and enhance the psychological functioning of our students and thereby support the academic mission of the university. It is recognized that our students are dealing with a variety of major life issues as they pursue their education. These include separation and individuation, identity formation, relationships, affiliation, and career choices. In addition, some students come to us with prior mental health histories and medication needs.

TCS is first and foremost a provider of individual and group counseling services. Couple and occasionally family counseling is available as well at the student’s request. This foundation provides students with support and guidance for a wide variety of problems, from adjustment issues and transitory difficulties to more serious psychological problems and even severe mental illness. Whenever possible, we seek to help students avoid or reduce self-harm that may stem from making poor choices. TCS provides services in the following areas:

**Psychological Services:** Psychological Services is staffed by licensed psychologists who provide brief individual, couple, and group counseling, as well as referral, consultation, and educational workshops. Some common issues that are addressed, either individually or in groups, include:

- relationship problems
- stress, depression, anxiety
- eating disorders
- loss and/or grief
- procrastination
- shyness
- academic performance
- career decisions
- family problems
- sexuality and sexually-transmitted diseases
- gay, lesbian, bisexual, and transgender issues
- racism
- sexism
- vocational counseling

The Psychological Services staff will also assist students in locating resources and other services available on campus or in the city that are specific to their needs.

**Psychiatric Services:** Psychiatric Services is committed to caring for the mental health needs of Temple University students by providing psychiatric evaluations, medication consultations, and short-term individual psychotherapy. The psychiatrist also responds to referrals from other TCS units and serves as a liaison to the Health Sciences Center. Students are seen by appointment, except in emergency situations when immediate care is required.

**CASA (Campus Alcohol and Substance Awareness):** The Campus Alcohol and Substance Awareness (CASA) program is a comprehensive program focusing on all aspects of alcohol and other drug use and abuse. The CASA program is staffed by counselors who work with students individually and in groups.

**SACE (Sexual Assault Counseling and Education):** The SACE staff provides crisis intervention, survivor advocacy, individual counseling, and groups for survivors of assault, child sexual abuse, domestic violence, and sexual harassment.

Hours are 8:30 a.m. to 5:00 p.m., Monday - Friday. Walk-in Clinic hours for accessing services are 10:00 a.m. to 1:30 p.m. on Monday, Tuesday, Thursday, and Friday, and 9:00 a.m. to 12 noon on Wednesday. The staff also provides on-site services at the Ambler campus. Students are seen by appointment except in emergency situations when immediate care is required. Services are free and confidential for all registered students. Please call 215-204-7276 for more information.

**Wellness Resource Center**

Kimberly Chestnut, Ph.D., Director

Mitten Hall - Lower Level

215-204-8436
215-204-9710 (Fax)
tuheart@temple.edu

The Wellness Resource Center is the on-campus health education and prevention department. The center is staffed by masters and doctorate level health professionals and supported by peer health educators. We are committed to providing comprehensive wellness resources and services that empower Temple University students in making informed, healthier choices, and achieving academic success. We also work with faculty, staff, and departments in training and consultation capacities to support them in addressing student health needs and concerns.
multifaceted model helps to create a collective consciousness of wellness on Temple’s campus—with the hope of producing students who are not only well-educated but also healthy.

Wellness Resource Center provides training, consultation, and programs on a variety of topics, including:

• LGBTQ
• Alcohol and Substance Abuse
• Sexual Assault, Rape and Dating Violence
• Healthy Relationships
• Safer Sex
• Diversity
• Alcohol and Sex
• Sexually Transmitted Infections
• Stress/Time Management
• Self-Esteem
• Body Image and Nutrition
• HIV
• Sexuality: Orientation, Gender, Identity
• Mental Health

Wellness Resource Center provides a safe space for students to receive free, anonymous or confidential health information in a supportive environment. We engage with students in a variety of ways:

• Individual Health Education sessions
• Health Programming
• Peer Education
• Health-Related Referrals
• Condom Sales
• Promotion of a healthier campus environment
• Course instruction
• HIV Testing
• Campus-wide wellness events

Wellness Resource Center offers students opportunities to get involved as peer educators and interns. These students receive comprehensive wellness training, preparing them to support campus-wide health and wellness initiatives. Students can receive academic credit for their work with the Wellness Resource Center and there are a limited number of paid positions for students who have successfully completed our peer education class (PBHL 2304).

Hours are 8:30 a.m. to 5:00 p.m., Monday - Friday. Please call 215-204-8436 for more information or visit our web site (http://www.temple.edu/studentaffairs/heart).
University Housing & Dining Services

University Housing & Residential Life

Michael D. Scales
Associate Vice President for Student Affairs
Director of University Housing & Residential Life
1910 Liacouras Walk
(P) 215-204-7184, option #5
(F) 215-204-3261
housing.temple.edu

Residence halls at the Main campus, as well as one leased, off-campus housing option, provide an opportunity for students to extend their learning experiences beyond the classroom, library, and laboratory.

University Housing & Residential Life works to create group-living environments in which each student is encouraged to develop as an individual in an atmosphere that promotes emotional, social, and intellectual growth. In addition, University Housing & Residential Life is committed to creating community-living environments that value and promote an appreciation for diversity of cultures, lifestyles, and people.

Please check the Office of University Housing & Residential Life web site listed above for additional information on residential services available. The Office of University Housing & Residential Life web site also provides online resources to assist Temple University students in locating off-campus housing.

Dining Services

Temple University Dining Services offers a variety of meal plans and dining locations to accommodate every student’s unique schedule and dining needs. So if variety is what you are looking for, we have it! From hot entrees, cold sandwiches, sushi, vegetarian, vegan, gluten-free and Kosher options, you can find whatever you’re craving conveniently located throughout campus. Meals are provided during breakfast, lunch, dinner and “Fourth Meal” throughout the week.

Temple Dining Services Meal Plan Packages

Meal plans are offered to fit every lifestyle. With no restrictions on when you can use your meals, Premium meal plans provide students with the ultimate flexibility, allowing students to use their meal plan numerous times during any period. Premium meal plans offer a set number of meals per week, with many options from 5 meals per week to 25 meals per week. Other meal plans include:

- J&H Unlimited Plan - Ideal for students who want to eat small meals throughout the day, or athletes requiring high caloric intake. It allows you to have unlimited meals at the Louis J. Esposito Dining Center (commonly referred to as “J&H”) and once during each meal period at any other dining location.
- Basic Meal Plans - Allow students to use their meal plan once during each meal period (breakfast, lunch, dinner and 4th meal).
- Meal Passes - Can be used at any dining location, just like our other plans. They are purchased on a “per semester basis” with all of the perks of a premium plan.

To find more information about our meal plans, visit www.tudining.com.

Diamond Dollars are built into the price of each meal plan, which provides students with ultimate flexibility around campus. Diamond Dollars are just like having a bank account with Temple. Your OwlCard acts as a debit card at many locations on and around campus. Diamond Dollars are tax-free and able to be used at all Temple Dining Services locations.

Dining on the Ambler Campus

Temple Dining Services operates Café a la Carte, located in the Ambler Learning Center, where you can get beverages, salads, sandwiches, fresh fruit cups, yogurts, desserts, snacks, and much more!
University Services

Temple University Alumni Association

Sullivan Hall, Suite 100
Main Campus
215-204-7521
alumrel@temple.edu
alumni.temple.edu

As a current Temple student, embrace your role as an alumnus/a-in-residence and plug into the Temple University Alumni Association's (TUAA) global network of more than 285,000 living alumni now - before you don a cap and gown!

Here's what it means for you:

• Opportunities to connect with alumni at an upcoming event (http://www.alumni.temple.edu/s/705/alumni/2col.aspx?sid=705&gid=1&pgid=3955), including Homecoming (http://www.alumni.temple.edu/homecoming) (October 8-11, 2015) and Alumni Weekend (http://www.alumni.temple.edu/alumniweekend)

Stop by the Alumni Center in Sullivan Hall—the historic building dedicated by President Franklin Roosevelt in 1936—to learn more about how the Student Alumni Association and TUAA can enhance your on-campus experience. The Alumni Center is open Monday through Friday from 8:30 a.m. to 5:00 p.m.

For more information on the student resources available through the TUAA, call 215-204-7521, e-mail alumrel@temple.edu, or visit alumni.temple.edu.

Bookstore

There are five Temple University Bookstore locations. Each store stocks the required books and supplies for the campus it serves. Course materials may be purchased through the bookstore's web site for home delivery or pick-up in store. A student's booklist is accessible via a link on the Student Roster in Self-Service Banner. Select textbooks may also be rented instead of purchased. Please contact the store for more details. In order to maximize the number of used books available to students, the bookstore buys back from students books at the highest possible prices throughout the year. In addition to housing required course materials, all stores feature clothing, souvenirs, and giftware imprinted with the Temple name. Graduation rings can be ordered at any time. Academic regalia are available in the months preceding graduation.

You will also find a large selection of snacks, soft drinks, greeting cards, gift-wrap, posters, and health and beauty items.

During the first weeks of classes, store hours are extended at all locations. See signs posted at each location for specific hours during rush periods and semester breaks.

During the summer and semester breaks, store hours may vary. Visit the bookstore (http://temple.bncollege.com) web site for more details.

Regular hours of operation are:

**Main Campus**
13th St. and Montgomery Ave.
The Gittis Student Center, lower level; 215-204-5578
Monday – Thursday: 9:00 a.m. – 6:00 p.m.
Friday: 9:00 a.m. – 5:00 p.m.
Saturday: 11:00 a.m. - 3:00 p.m.

**Law School**
Barnes & Noble @ Temple University Law School Bookstore
1700 N. Broad St., Ground Floor; 215-204-0514
Monday – Thursday: 7:30 a.m. – 7:00 p.m.
Friday: 7:30 a.m. – 5:00 p.m.
Saturday: 11:00 a.m. – 5:00 p.m.

**Ambler Campus**
Bright Hall, First Floor; 267-468-8460
Monday – Thursday: 9:00 a.m. – 5:30 p.m.
Friday: 9:00 a.m. – 4:00 p.m.

Health Sciences Center
Broad and Ontario Streets
Student Faculty Center, First Floor; 215-707-3157
Monday – Friday: 8:30 a.m. – 4:30 p.m.

Center City Campus
1515 Market St., First Floor; 215-204-1527
Monday – Thursday: 7:00 a.m. – 8:00 p.m.
Friday: 7:00 a.m. – 6:00 p.m.
Saturday: 8:30 a.m. - 3:00 p.m.

Emergency Phone Number for all campuses

On Campus: 1-1234
Off Campus: 215-204-1234
TTY: 215-204-2357

These phone numbers will reach the Department of Campus Safety Services from all campuses. You can also reach us through our web site at www.temple.edu/safety.

Campus Safety Services is a multi-faceted department that is committed to serving the students, faculty, employees, visitors, families and vendors, who work for, study at and visit our campuses. The department services a diverse community, 24 hours a day, 365 days a year. The Campus Police Division currently has over 130 campus police officers who patrol our area campuses by foot, by bike and in patrol cars. They are police professionals who receive state-mandated training at an accredited police academy. The Security Division officers are stationed in University residence halls and other University buildings, checking IDs and assisting students, staff and visitors.

During the academic year, members of the Temple Community are free to use the OWLoop shuttle and TuR Door service on the Main Campus from 5:30 p.m. to 6:00 a.m. All services are operated by Facilities Management and information is available on their web site at http://campusoperations.temple.edu/.

The Department of Campus Safety Services also offers a variety of Crime Prevention programs, including self-defense, street smarts, and big-city living programs. For further information call 215-204-5870.

The Annual Security and Fire Safety Report (http://www.temple.edu/safety/asfr) is available on our web site.

Parking Services

Office of Parking Services
Montgomery Garage (Main Campus)
1859 North 11th Street
Philadelphia, PA 19122
215-204-5301
parking@temple.edu
campusoperations.temple.edu/parking-transportation

Temple University has a variety of parking options (http://campusoperations.temple.edu/parking-transportation/garages-lots) at its Main, Health Sciences Center, and Ambler campuses. For its Center City campus, Temple has negotiated parking discounts with nearby garages.

Part-time parking is available for students who park infrequently.
• These parkers are assigned to the Liacouras Garage or the Montgomery Garage. The permit is complimentary and valid for one academic year (September through August).

• Part-time parkers pay $8/entry, which is automatically deducted from their Parking Services account when they enter the garage.

• There is no required minimum to fund a part-time parking account, but Parking Services recommends an initial balance of $80. Funds can be managed on the TU Parking Account (https://templeparking.12hosted.com/cmn/auth.aspx) site.

Semester parking is available for students who park frequently and/or need overnight parking.

• Students who purchase semester parking but do not need overnight access are called “commuters”, and the rate for these students is $240/semester. Commuters are assigned to the Diamond Street Lot, the Liacouras Garage, or the Montgomery Garage on Main Campus, or the Battersby Lot at the Health Sciences Center.

• Students who purchase semester parking and require overnight access are called “overnight parkers”, and the rate for these students is $400/semester. Overnight parkers have 24/7 access to the Tyler Lot, Liacouras Garage, or Montgomery Garage on Main Campus, or the Carlisle West Garage at the Health Sciences Center.

Ambler Campus parkers must purchase a permit.

• Ambler students have the option to pay $84 for the entire academic year (September through August) or $55/semester. There is no reciprocity between campuses, and Ambler students who need to park on Main Campus will need to register as part-time parkers or park in a visitor lot.

Visitors to Main Campus have hourly parking options in the Montgomery Garage or the Cecil B. Moore lot for $3/hour, or the Tuttleman Lot for $6/hour. Additionally, daily parking is available in the Montgomery Garage, Liacouras Garage, 15th Street Lot, and Diamond Street Lot for $17/visit.

Your Parking Services permit and Temple OWLcard are the mechanisms that control access to your assigned parking area. Failure to display your permit may result in a citation. Also, availability of areas and parking assignments are subject to change during summer, holidays, and some special events.

You can sign up for parking by visiting the Parking Services web site (https://campusoperations.temple.edu/parking-transportation/signing-parking/student) or one of our office locations (https://campusoperations.temple.edu/parking-transportation/parking-services/parking-services-office-locations).

We pride ourselves in providing affordable, convenient, and secure parking to the Temple community, and look forward to having you as a customer!

Inter/Intra Campus Shuttle Service

The University provides Evening Shuttle services for those students living on and around the Main Campus. The OwLoop or Main Campus Shuttle provides regular route service 7 days per week between the hours of 5:30 p.m. to 6:00 a.m. The TUr Door service, which also operates during the same hours as the OwLoop, transports students directly to their off-campus residences. The OwLoop bus will be at every stop, indicated on the route map, approximately every 30 minutes. Use this service to obtain secure, fast passage to all major Main Campus locations. The TUr Door service departs from the Transportation Hub at 12th & Berks Streets near the Paley library. TUr Door will transport students directly to their off campus residences via the fastest route possible. TUr Door shuttle operates within the area bordered by Cumberland Street to the North, Girard Avenue to the South, Fifth Street to the East and Twentieth Street to the West. The two routes are distinguished by the lettering and appearance of the buses.

A map of the OwLoop bus route and the TUr Door service area can be found at http://campusoperations.temple.edu/parking-transportation/shuttle-services.

Temple University provides daily shuttle transit services to and from the Ambler, Health Science and Main Campuses during the Fall and Spring semesters. The Monday through Friday service currently operates from 7:00 a.m. through 6:30 p.m. The service is offered at no charge to all students, faculty and staff of the University. All buses are equipped with Wi-Fi internet coverage via Verizon 4G service which is provided at no charge to the passengers. All scheduled departures, in addition to the Main and Ambler Campus, stop at the Health Science Campus on Broad Street. During the school year, there is a regular Monday through Friday service except for semester breaks. During the summer months, there is no service. In addition, there is free shuttle bus service on a regular schedule between the Ambler SEPTA station and the Ambler Campus during the fall and spring semesters. Please check the Office of Facilities Management’s Shuttle Services (http://campusoperations.temple.edu/parking-transportation/shuttle-services) web page for a schedule of shuttle services. Information on these schedules may also be obtained at the Office of Parking Services or Campus Safety Services.
Academic Policies

These academic policies and regulations generally apply to all undergraduate students and provide a framework within which schools and colleges may specify further conditions or variations appropriate to students in their courses or programs. Statements of academic policies and regulations apply to both degree-seeking and non-degree-seeking students unless explicitly noted otherwise.

The information in this bulletin is subject to change by Temple University at any time. Neither this bulletin nor any parts of it may be relied upon as a contract between Temple University and any student, applicant, or other user of this site. All prospective and current students should consult with appropriate University Offices to verify current information and the status of policies, programs, descriptions of curricula, or other information in this bulletin.

The texts of some of these policies are available on the Temple Policies & Procedures web site at http://policies.temple.edu/.

Students should consult their advisors and dean’s offices for any changes in policy that affect them.

Academic Course Load

The average semester load for full-time students is 15 to 17 semester (or credit) hours. Students must carry at least 12 semester hours to be classified as full time.

Academic overloads during fall and spring semesters (18 or more semester hours for students in the College of Liberal Arts and the College of Science and Technology; 19 or more semester hours in all other schools and colleges) need special approval of the dean or dean's designee of the school or college in which a student is matriculated. Tuition for full-time students covers 12 to 17 hours. Credits over 17 carry additional tuition charges. See Tuition and Fees (p. 125) in the Financial Information section of the Bulletin.

Summer Sessions

Undergraduates must get overload approval for 9 credits or more.

Academic Forgiveness

Scope of Policy & Rationale

Former undergraduate, baccalaureate degree-seeking students who have not taken any coursework at Temple University for a minimum of four consecutive years are eligible for Academic Forgiveness (policy # 02.10.17 (http://policies.temple.edu/getdoc.asp?policy_no=02.10.17)). Students electing Academic Forgiveness must choose the option before the end of the drop/add period of their first semester following their absence.

Definitions

1. Re-enrolled - Students are re-enrolled when they are approved to return to the university after leaving of their own accord.
2. Reinstated - Students are reinstated when they are approved to return to the university following dismissal.
3. Academic Forgiveness - Academic Forgiveness is a status that enables students to return to the university with a renewed cumulative grade point average (GPA).
4. Four Consecutive Years - A total of eight consecutive fall and spring semesters.

Policy Statement

Undergraduate, baccalaureate degree-seeking students who re-enroll or are reinstated following a four-year consecutive absence from the university may petition to have their cumulative GPA recalculated from the time of re-enrollment/reinstatement to the university.

Upon successful petition:

- Cumulative GPA will be reset to 0.00.
- All prior courses and grades will remain on the student's academic record and transcript.
- The notation of "Academic Forgiveness" will be recorded on the student's transcript.
- Courses previously earned at Temple University with grades of D+, D, D-, F and NC will not be used for credit. Credit will be considered for courses with grades of A, A-, B+, B, B-, C+, C, C- and CR. The student's department has final approval of credits that will count towards graduation. Schools/Colleges may disallow credits towards graduation for some older courses.

Re-enrolled or reinstated students electing the forgiveness option may repeat a course one additional time if they previously exhausted their repeat options for that course under the policy on Repeating a Course (policy # 02.10.12 (http://policies.temple.edu/getdoc.asp?policy_no=02.10.12)).

Once enacted, the reset GPA cannot be reversed.
Students are afforded one opportunity for Academic Forgiveness.

**Notes**

1. **Dates of official enactment and amendments.** Adopted by the president on February 8, 2011. Effective August 30, 2011 (Fall 2011).
2. **History.** Supersedes previous policies concerning Withdrawal; Repeat; and Academic Warning, Probation and Dismissal with effective dates prior to May 16, 2011.
3. **Cross References**
   - Policy #02.10.12, Repeating a Course (Undergraduate)
   - Policy #02.10.14, Withdrawal from Classes (Undergraduate and Graduate)
   - Policy #02.10.11, Academic Standing (Undergraduate)

[Note: Academic Forgiveness students wishing to qualify for Latin honors at Graduation must complete a minimum of 60 earned credit hours at Temple following their reinstatement (i.e., excluding their earned credit hours allowed at the time of academic forgiveness)]

**Academic Progress for Undergraduate Courses**

Students in undergraduate courses receive a mid-semester rating report indicating that their work to date is satisfactory or unsatisfactory or that they have not been attending the course. This report is available on Self Service Banner by the end of the sixth week of fall and spring semesters. For further information, see policy #02.10.15 (http://policies.temple.edu/getdoc.asp?policy_no=02.10.15).

**Academic Residency Requirements**

Temple University requires that all undergraduate degree candidates complete 45 hours of the last 60 hours of the degree or program as matriculated students at Temple University. If a matriculated student previously took Temple courses on a non-matriculated basis, those courses are counted towards this requirement. See the policy on Transfer Credits (p. 23).

Students admitted to the University with a large number of transfer credits who want to participate in a Temple Exchange or approved external study abroad program in their junior or senior year should meet with their academic advisors to discuss eligibility.

Students who were active undergraduate students in Spring 2014 or were on an approved Leave of Absence follow the residency requirement indicated in their bulletin when they first matriculated.

To graduate with Latin Honors, a student must complete at least 60 semester hours of the program matriculated at Temple. See Honors (p. 95). Students should consult their school or college for additional academic residency requirements.

**Academic Rights and Responsibilities**

See Academic Rights and Responsibilities (p. 39) in the Student Rights section of the Bulletin.

**Academic Standing**

**Scope of Policy & Rationale**

Undergraduate baccalaureate and associate degree-seeking students are subject to the academic standing rules addressed in this policy.¹ (Policy #02.10.11 (http://policies.temple.edu/getdoc.asp?policy_no=02.10.11))

**Definitions**

1. **Academic Good Standing** - A student is in Academic Good Standing if enrolled in an associate or baccalaureate degree-seeking program and not in the first term of Academic Recovery.
2. **Academic Warning** - A student is on Academic Warning status when:
   a. the student's most recent semester grade point average is less than 2.0 or
   b. prior to having earned 30 credit hours (or 20 credit hours for an associate degree program) the student's cumulative grade point average is below 2.0 or
   c. a transfer student in the first matriculated semester is registered for 18 or fewer credits and whose semester grade point average is less than 2.0.
3. **Academic Probation** - A student is on Academic Probation when the student's cumulative grade point average is below 2.0 after having accumulated 30 or more credit hours (or 20 or more credit hours for an associate degree program). However, transfer students in the first matriculated semester are subject to Academic Warning as specified in 2.c.
4. **Academic Dismissal** - A dismissed student is not in Academic Good Standing. The status of Academic Dismissal is applied to a student who:
   a. accumulates more than 30 credit hours (or more than 20 credit hours for an associate degree program); and
   b. had the status of Academic Probation in the most recent semester; and
   c. has a GPA equal to or below the Dismissal GPA (See Appendix 1: Dismissal GPA by Total Institutional GPA Hours + Total Transfer Earned Hours).

5. **Academic Recovery** - A student on Academic Dismissal status can apply to the applicable advising office for the status of Academic Recovery. The status of Academic Recovery is available, upon approved application, provided that the student:
   a. is on Academic Dismissal status for the first time;
   b. has a cumulative GPA equal to or below the Dismissal GPA (See Appendix 1: Dismissal GPA by Total Institutional GPA Hours + Total Transfer Earned Hours);
   c. has a cumulative GPA that can be raised above the Dismissal GPA (See Appendix 1) within two calendar years or 150 total attempted credit hours, whichever comes first.

6. **Institutional GPA Hours** - Include credit hours in all courses graded "A" through "F". Credit hours for repeated courses are calculated according to the policy on Repeating a Course (Undergraduate and Graduate) (Policy # 02.10.12).

---

**Policy Statement**

The university assesses academic standing and the statuses of Academic Warning, Academic Probation, Academic Dismissal and Academic Recovery based on academic performance following each of the fall and spring semesters. For students on Academic Recovery, academic standing is also assessed following summer sessions.

A student on Academic Warning or Academic Probation or a student who is granted Academic Recovery status must meet with an advisor to discuss his/her academic standing. An advisor will help in planning a schedule of courses to assist the student in achieving above the Dismissal GPA. A student on Academic Warning will be able to self-register after this meeting; a student on Academic Probation or Academic Recovery must be registered by his/her advisor.

If a student is on Academic Dismissal status for the first time, the student has two options:

1. **Apply for Reinstatement**
   A student on Academic Dismissal status for the first time may apply for reinstatement not less than four years from the date of last enrollment at Temple University. At the time of application, all credit hours will be evaluated. Final determination of the acceptability of such credit hours is the responsibility of the applicable academic unit.

   A student may also apply for Academic Forgiveness (Policy # 02.10.17) at this time.

2. **Reinstatement through Academic Recovery**
   A student on Academic Dismissal status for the first time may apply for Academic Recovery status through their respective advising unit. Academic Recovery would be applicable the next immediate semester or summer term unless the student is granted a Leave of Absence pursuant to university policy. Students granted Academic Recovery status will be required to meet with advisors, complete for a grade a minimum of six credit hours, and achieve a minimum semester GPA requirement.

   During the student's first semester or summer session of Academic Recovery status, the student will not be in Academic Good Standing and therefore will be ineligible for aid of any kind, including without limitation federal loans or grants, tuition remission and scholarships.

   Students who successfully complete the requirements of the first semester or summer session on Academic Recovery status will:

   a.) return to Academic Good Standing
   b.) be permitted to attend classes during the next summer session or semester.

   Students may only continue on Academic Recovery if they meet the Target Semester GPA. (See Appendix 2.) The student must maintain a GPA at or above the Target Semester GPA in Appendix 2 for each semester or session they are on Academic Recovery. Students on Academic Recovery must register for a minimum of six (6) credit hours per term. Course overloads are not permitted while on Academic Recovery.

   Students may not remain on Academic Recovery status for more than two calendar years following their original dismissal or 150 attempted credits, whichever comes first.

   A student on Academic Recovery who achieves above the Dismissal GPA (as determined by Appendix 1) will be removed from Academic Recovery status.

   Students who do not meet requirements of their Academic Recovery status during any summer session or semester will be Academically Dismissed for a second time. Upon the second Academic Dismissal a student must wait and apply for reinstatement not less than four years from the date of the first Academic Dismissal in accordance with this policy. The student will also be eligible for Academic Forgiveness (Policy # 02.10.17).
In the event a student is removed from Academic Recovery status after achieving above the Dismissal GPA, but is subsequently Academically Dismissed for a second time, the student must wait and apply for reinstatement four years from the date of the second Academic Dismissal. The student will also be eligible for Academic Forgiveness.

1. Academic Standing is determined by calculating Total Earned Transfer Hours plus Total Institutional GPA Hours. For Academic Forgiveness Students calculation includes Forgiveness Institutional Earned Hours (grades A through C- preceded by an asterisk) + Total Institutional GPA Hours + Total Transfer Earned Hours. Not included in Total Institutional GPA Hours for all calculations: AU, CR, NC, HC, I, IC, IP, MG, M, NR, P, PI, R, S, W, WE, WF, WS. See your academic advisor for assistance.

2. A calendar year begins the date of dismissal and is equivalent to one fall, one spring, and two sequential summer sessions.

Notes

1. Dates of official enactment and amendments
   Adopted by the President on June 12, 2003.
   Amended by the President on September 7, 2006. Effective immediately.
   Amended by the President on September 26, 2007. Effective immediately.
   Amended by the President on August 1, 2011. Effective May 18, 2012. Beginning of Spring Semester 2012 and applying retroactively to end of Fall 2011 semester, admitted transfer students in first matriculated semester and who are registered for 18 or fewer credits and whose semester grade point average is less than 2.0 will be applied the status of warning.
   Amended by the President on June 1, 2015, effective immediately. Students on Academic Dismissal status at the end of the 2012 spring semester are eligible to apply for Academic Recovery status, if necessary, or return to such other academic status as permitted by university policy. (For example, a student placed on Academic Dismissal for failure to complete English 0701, but who had a cumulative GPA above 2.0 would be eligible to return to Academic Good Standing.)
   Students on Academic Dismissal status for the first time at the end of the 2012 spring semester may apply for Academic Recovery status through their respective advising unit for return to the university no later than the 2016 spring semester. The two calendar year limit for the Academic Recovery status for these students will apply from the date of their first registered term.

2. History
   September 7, 2006 amended the provisions regarding eligibility for institutional financial aid and university housing.
   September 26, 2007 amended the requirements for academic good standing and dismissal.
   August 1, 2011 amended language describing the method by which dismissal is determined and the requirements for reinstatement.
   May 18, 2012 amended the requirements for academic warning and probation for first-semester transfer students.
   June 2015 amended the dismissal requirements for certain courses and created Academic Recovery status.

Supersedes
   This policy supersedes all policies and procedures related to academic warning, dismissal and reinstatement for undergraduates, and specifically "Undergraduate Policy on Academic Warning, Probation, Dismissal and Reinstatement."

Appendix 2 - Target GPA Calculation

\[((\text{Max recovery hours available} + \text{Current GPA hours}) \times (\text{New Dismissal GPA} + 0.01)) - \text{[Current GPA hours} \times \text{Current GPA}] \] / \text{Max recovery hours available}

Where:

1. Max recovery hours available is the lesser of: hours remaining to the 150 attempted hours ceiling OR 68 (which represents 4 major semesters at 17 hours per semester)
2. Current GPA hours is the cumulative GPA hours after the most recent semester completed
3. New Dismissal GPA is the projected Dismissal GPA threshold at the end of the Academic Recovery period, when the 2-year period and/or available hours to the 150 attempted credit ceiling have been exhausted
4. Current GPA is the cumulative GPA after the most recent semester completed.

Assessment of Student Learning

Temple University is committed to providing superior educational opportunities to its students. To help us maintain quality academic offerings, the University and its programs regularly examine the effectiveness of the curricula, teaching, services, and programs the University provides. As Temple University sees appropriate, it may retain representative examples or copies of student work. This might include papers, exams, creative works, or portfolios developed and submitted in courses or to satisfy the requirements for degree program(s).

In addition to regularly collecting and reviewing student work, Temple University may summarize the results of this review, and use the information to improve programs and enhance student learning. Some of this assessment may also be necessary for Temple University or its programs to demonstrate it meets the standards of external review or accrediting bodies.

Typically, results will be reported in a general, summary format and students' names will not appear on the collected examples. Cohorts may be tracked for specific educational purposes, but the expectation is that assessment will be anonymous. Identifiers will only be used when there is a compelling reason and educational value.
Questions about the assessment of student learning at Temple University may be directed to the Office of Institutional Research and Assessment, 215-204-8611 or assessment@temple.edu.

**Athletic Policies**

**Academic Eligibility**

Initial and continuing academic eligibility requirements for student-athletes relative to NCAA guidelines are stated below. Student-athletes participating in the sport of football may have additional academic requirements regarding eligibility for competition. Please direct questions regarding academic/athletic eligibility to the Athletics Certifying Officer at 215-204-2507.

1. Temple University is a member of the NCAA Division I (FBS) level of competition. This division of the NCAA requires all student-athletes first entering college to enroll and be certified by the NCAA Eligibility Center.
2. Student-athletes must be registered and attending a minimum of 12 semester hours. They may not withdraw from courses that would put them below 12 semester hours without prior approval from the Student-Athlete Academic Advisor or Athletics Certifying Officer.
3. Student-athletes must pass 6 credits each semester, 18 credits each academic year, accumulate 24 credit hours, and maintain a 1.8 cumulative grade point average after their first two full-time semesters of collegiate enrollment.
4. Student-athletes must officially declare a degree program prior to the beginning of their fifth semester of full-time collegiate enrollment. In addition, the student-athlete must have completed at least 40% of the declared program and maintain a 1.9 cumulative grade point average before the first date of competition.
5. Student-athletes are required to complete 60% of their declared program and maintain a 2.0 cumulative grade point average before the first date of competition of their seventh semester of collegiate enrollment. Student-athletes entering their ninth semester of collegiate enrollment will need to meet 80% of a declared program and maintain a 2.0 cumulative grade point average.
6. Student-athletes must remain in “Good Standing” each semester as determined by Temple University.
7. Transfer student-athletes from two-year institutions may need to graduate with an Associate’s degree before entering Temple University for immediate consideration for practice/“try-out” opportunity.
8. Initial and Transfer student-athletes are also bound by a 5-year clock that begins at the time of first full-time enrollment at any institution of higher education.

**Athletic Eligibility**

The Department of Intercollegiate Athletics is committed to practices, procedures and policies that are designed to assure proper emphasis on educational objectives, to promote competitive equity among institutions and to prevent the exploitation of student-athletes.

Eligibility to represent Temple University in intercollegiate competition as a varsity athlete is a privilege and not a right. Additionally, Division I athletic eligibility standards are more rigorous than other divisions. Factors which constitute athletic eligibility include, but may not be limited to:

- Amateurism
- Medical Certification
- Behavior and Conduct

**Attendance**

See Attendance (p. 36) in the Student Responsibilities section of the *Bulletin*.

**Audit**

There may be circumstances under which a student will wish to audit a course, i.e., participate in the class without earning academic credit, credit hours, or grades.

The student must have written permission of the instructor and of the dean of the college on a special approval form. Full tuition is charged, and standard payment procedures apply.

Change of registration from credit to audit, or from audit to credit, may be processed only during the following periods:

- before the end of the second week of the fall or spring semesters.
- before the end of the third day of classes during summer sessions.
Code of Conduct

The Temple University Student Code of Conduct can be viewed at Policies & Procedures (http://policies.temple.edu/getdoc.asp?policy_no=03.70.12). Printed copies are available at the Dean of Students’ Office. Other information about the Student Code of Conduct may also be found in the Student Responsibilities (p. 36) section of this Bulletin.

Continuing Degree Seeking Students

Beginning in academic year 2011-2012, the term “matriculated student” was replaced by “continuing degree seeking student.”

Continuing degree seeking students are those who have applied, been accepted, and enrolled in a degree program of the university during the semester for which they were admitted.

Completion of course credits before becoming a continuing degree seeking student does not assure the acceptance of those credits into the program of study.

Course Numbering System

All courses have full four-digit numbers. The first digit of a course identifies its level.

- Courses numbered A000 - U000 are reserved for transferred elective and generic credits.
- Courses numbered 0700 - 0999 are reserved for preparatory courses, General Education courses and Honors General Education courses.
- Courses numbered 1000 - 1999 are appropriate for undergraduate students in their first year of study.
- Courses numbered 2000 - 5999 are considered “upper level” for undergraduates.

- Courses numbered 2000 - 2999 are appropriate for undergraduate students in their second year of study.
- Courses numbered 3000 - 3999 are appropriate for undergraduate students in their third year of study.
- Courses numbered 4000 - 4999 are appropriate for undergraduate students in their fourth year of study.
- Courses numbered 5000 - 5999 are primarily for graduate students, but undergraduate students in their third or fourth year may enroll with permission of their instructors and the dean’s designee.
- Courses numbered 8000 - 9999 are for graduate students.

Other classifications and definitions for undergraduate courses:

- **0700 - 0799 Preparatory Courses**: Courses numbered from 0700-0799 are appropriate for undergraduate, first-year math and writing courses. Students’ math and writing placement examination results determine these course-level selections.
- **0800 - 0899 General Education Courses**: Courses numbered from 0800-0899 are appropriate for any undergraduate General Education course requirements.
- **0900 - 0999 General Education Honors Courses**: Courses numbered 0900-0999 are appropriate for any undergraduate General Education Honors course requirements.
- **xxx0 Special Topics**: Regularly-scheduled courses (not individualized instruction) offered with variable content, and repeatable for credit.
- **x9xx Honors Courses**: Undergraduate Honors courses will be identified by a 9 as the second digit of the course number and will have “Honors” as the first word of the title. The 9 in the second position will not be used by any non-Honors undergraduate course. General Education Honors courses are designated 09xx.
- **xx81 Cooperative Assignment**: Increasingly complex, experiential learning with supervision external to the university. Usually these courses include learning experiences over more than one semester - as part of a defined program.
- **xx82 Independent Study**: Explorative study or research initiated by an undergraduate student with faculty sponsorship and an approved Independent Study contract.
- **xx83 Directed Reading/Study**: Mentored reading/study between a faculty member and an undergraduate student.
- **xx84 Performance**: Concert performance, juried art exhibition or other performance taken as a requirement for the degree.
- **xx85 Internship/Externship**: Pre-professional clinical or experiential traineeships contracted by the student's department, including experiences with a clinical, research, or other special concentration in a specific area. Students must have faculty sponsorship and an approved Internship/Externship contract.
- **xx86 Internship/Externship**: Reserved for a continuation of an internship/externship experience, following xx85.
- **xx87 Practicum**: Programs that are traineeships contracted by the student's department to meet the educational, geographic, and specific interests of the student. Settings generally have on-site clinical supervision.
- **xx88 Student Teaching**: Practical experiences in student teaching designed to support and lead to teacher certification.
• **xx89 Field Study**: On-site, observational study or data collection and analyses which deepen practical knowledge in the discipline. The purpose of the Field Study is to integrate and apply academic theories to on-site experiences.

• **xx91 Directed Research**: Mentored research between a faculty mentor and an undergraduate student.

• **xx92 Undefined**

• **xx93 Undefined**

• **xx94 Undefined**

• **xx95 Undefined**

• **xx96 Writing-Intensive Course**: Courses fulfilling the requirement of the General Education Program that each undergraduate major designates at least two courses as "writing-intensive." The designated courses shall require students to edit and rewrite papers to achieve a high level of clarity and cogency, use a variety of methods to find appropriate materials to support written work and to make proper attribution of those sources.

• **xx97 Writing-Intensive Course**

• **xx98 Writing-Intensive Course**

• **xx99 Undergraduate Thesis**: Sustained research, performance or artistic project resulting in a substantial, finished written report or other product in a format appropriate to the project. Assumes faculty sponsorship and mentorship.

For more specific policies, consult individual schools, colleges, or programs.

**Courses Inapplicable to Graduation**

Semester hours earned in some courses are excluded from the total minimum semester hours or earned credit hours required for graduation from some schools and colleges. While policies vary among schools and colleges, courses inapplicable to graduation requirements generally are ELECT, Mathematics 0015 (formerly Mathematics 0001), Russell Conwell Center courses, and lower-level Military Science (ROTC) courses.

For specific information, see Policies and Regulations: Courses Inapplicable to Graduation in each school and college's section in this Bulletin, or consult academic advisors.

**Courses Over Ten Years Old**

In admitting transfer or returning students, the university will, when possible, allow credit for courses taken ten or more years prior to the date of admission or re-enrollment.

However, academic units may choose not to accept courses regardless of age for credit in the major. Courses of a technical nature or courses in a particularly dynamic field may not be accepted for credit.

Final determination of the acceptability of such sources is the responsibility of academic units in the schools and colleges and generally occurs after the student has matriculated or been re-enrolled.

**Credit Hours**

**SCOPE OF POLICY & RATIONALE**

This policy (Policy # 02.10.19 (http://policies.temple.edu/getdoc.asp?policy_no=02.10.19)) applies to all credit-bearing academic programs and courses within the university.

**DEFINITIONS**

The semester credit hour is the basic unit of academic credit granted by Temple University. One semester credit is equivalent to one hour (50 minutes) of faculty instruction time per week for 15 weeks, which includes one week for exams; and a minimum of two hours of out of class student work each week per credit hour. An equivalent amount of work is required for other academic activities such as laboratory work, internships, practica, studio work, or other academic work leading to the award of credit hours.

Note: Temple University follows a semester system with the fall and spring semesters consisting of approximately 16 weeks, which includes one week for exams and one week per semester for a fall and spring break. Summer semesters vary in length and adhere to this policy.

**POLICY STATEMENT**

Temple University's credit hour policy is consistent with guidelines set by the Pennsylvania Department of Education for determining the amount and level of credit awarded for courses, regardless of instructional method or mode of delivery. These guidelines are in compliance with policies set forth by both the US Department of Education and the Middle States Commission on Higher Education.

1. Determination of amount and level of credit
The faculty is responsible for the curriculum. Credit values are determined at the department level based on course goals, learning outcomes, instructional needs and faculty expertise. Once a course is approved it is included in the University course catalog. It is then the responsibility of the school/college to verify that it is scheduled for the minimum number of minutes.

2. Credit hours by instructional method

**Lecture and seminar:** Courses with multiple students that meet to engage students in various forms of group instruction. A typical 3 hour course will meet 2100 minutes over 14 weeks (excluding the exam period and scheduled breaks).

<table>
<thead>
<tr>
<th>Credits awarded</th>
<th>Minimum contact time per week for 14 weeks</th>
<th>Minimum instructional time</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>50 contact minutes</td>
<td>700 contact minutes</td>
</tr>
<tr>
<td>2</td>
<td>100 contact minutes</td>
<td>1400 contact minutes</td>
</tr>
<tr>
<td>3</td>
<td>150 contact minutes</td>
<td>2100 contact minutes</td>
</tr>
<tr>
<td>4</td>
<td>200 contact minutes</td>
<td>2800 contact minutes</td>
</tr>
</tbody>
</table>

**Laboratory and studio:** Courses with a focus on experimental learning where in the student performs substantive work in a laboratory or studio setting. The minimum contact time per credit is twice that of a lecture (2:1 ratio).

<table>
<thead>
<tr>
<th>Credits awarded</th>
<th>Lab studio minimum instruction time per week for 14 weeks</th>
<th>Minimum instructional time</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>

<td>300 contact minutes</td>
<td>4200 contact minutes</td>
</tr>
<tr>
<td>4</td>
<td>400 contact minutes</td>
<td>5600 contact minutes</td>
</tr>
</tbody>
</table>

**Independent study:** Courses offered as directed studies with approval and supervision of faculty member. Student(s) meet periodically as agreed upon during the duration of the course. Semester hour credit awarded must be comparable in scope, content, academic rigor and student study time as courses offered in lecture format.

**Internships, Practicum/clinical/field experience, Externships:** Courses developed for independent learning or experience involving self-directed and often off-site learning. These courses are taught on a minimum 2:1 ratio (see laboratory / studio chart above).

**Accelerated Courses:** Courses offered in terms of length less than a traditional 15 week semester. These courses offer the same semester credit hours as traditional semester-length classes. Within the shortened time frame, accelerated courses must meet the minimum contact hour requirements of the lecture format.

**Online:** Courses offered entirely online without regard to face-to-face meetings. Students are expected to be academically engaged with comparable learning outcomes of a standard lecture course with alternate delivery methods. Contact time is satisfied through several means which can include but is not limited to the following: a) regular instruction or interaction with a faculty member once a week for each week the course runs; b) academic engagement through interactive tutorials, group discussions moderated by faculty, virtual study/group projects, engaging with class peers and computer tutorials graded and reviewed by faculty. Departments must document through scheduling of classes or syllabi that they are meeting the minimum credit hour requirement for the credit awarded.

**Hybrid:** Courses offered in a blended format with one or more required face-to-face class sessions and with one or more required online sessions. Departments must document through scheduling of classes or syllabi that they are meeting the minimum credit hour requirement for the credit awarded.

3. Courses evaluated for transfer from colleges and universities with different credit systems

Courses evaluated for transfer from colleges and universities with different credit systems (quarter hours, units) are converted to semester hours (i.e., 2 quarter hour credits are equivalent to 1.5 semester hour credits; 3 quarter hour credits are equivalent to 2.0 semester hour credits; 4 quarter hour credits are equivalent to 2.5 semester hour credits).

4. Review

The Banner Student Competency Center, in consultation with the appropriate administrative offices including the Office of the Registrar and the Office of Digital Education, regularly audits scheduled course offerings to ensure compliance with credit hour requirements through its processes for scheduling each semester, including compliance with the university's scheduling matrix. This review is conducted across all schools, disciplines, course levels and modes of instruction.

**NOTES**

1. **Dates of official enactment and amendments**

   Adopted by the President on February 16, 2015.

2. **History**

   Supersedes previous guidelines and protocols in the *Undergraduate Bulletin* for students.

3. **Cross References**

   Procedures related to this policy can be found in the Academic Policies section of the Undergraduate Bulletin.
Credit for Prior Learning

For information on credit for prior learning, refer to the Transfer Students (p. 23) section of this Bulletin.

Credit/No Credit Courses

Eligible students may want to take a course in an area in which they are not proficient or about which they are curious, while not risking their grade point average. Such students, with certain provisions, may be graded using the Credit/No Credit (CR/NC) grading option.

Students may select the CR/NC grading option or return to the traditional grading option only during the first two weeks of a fall or spring semester course and during the first three days of a first or second summer session course, with the written authorization of their advisor and dean.

Eligibility is limited to:

- matriculated, full-time students
- those in academic good standing
- juniors or seniors (60 or more semester hours)
  OR
- transfer students who are retaking a course at Temple for which they have already received transfer credit.\(^1\)

\(^1\) If the transfer student earns an NC in the Temple course, the transfer course would then satisfy the requirement according to the School/College transfer rules. Transfer students are limited to a maximum of four CR/NC courses with a limit of one instance per semester.

Courses are restricted to:

- any non-General Education course
- one CR/NC course per semester
- maximum of four CR/NC courses toward the degree

No grade points are assigned to either the CR or NC grade. CR is equivalent to grades of D- or higher. NC is equivalent to F. The semester hours earned are credited toward the total required for graduation. Because CR and NC yield no grade points, they are not included in divisor hours for calculating the grade point average. CR and NC are not included in calculating cumulative credits for determining academic actions specified in the Undergraduate Policy on Academic Standing.

Dean’s List

Dean’s List eligibility is determined by the semester grade point average (GPA) corresponding to cut-off points that will yield the top 16% of GPAs based on the five previous fall and spring semesters for each school or college. Students must have 12 graded credits (A to F grades) in order to be eligible for dean’s list for the fall or the spring semesters.

Students who begin in the fall as part-time (i.e., registered for fewer than 12 credits) and continue as part-time in the spring will be eligible for dean’s list in the spring if they accumulate at least 12 graded credits (A to F grades) over the fall and spring semesters and meet the GPA criteria listed on the chart for the school or college. If a student is enrolled part-time in the fall but full-time in the spring, eligibility for dean’s list will be based on spring semester grades.

For fall 2015 and spring 2016, the cut-offs for dean’s list eligibility are:

</table>
Declaration of Major

Students admitted to Temple for fall 2002 and after must be enrolled as a major in a degree-granting program in a school or college by the time they have completed 60 credits, including any credits transferred from another institution.

Students admitted to Temple with 60 or more transfer credits will be matriculated directly into a degree-granting program, rather than as “undeclared” in a school or college or the Division of University Studies.

Students declare a major either by completing their school’s or college’s declaration of major process (see specific school or college section in this Bulletin) or by completing a Change of Program form (may also be referred to as an Intra-University transfer or IUT) to transfer to another Temple school or college (see the policy on Transfer between Colleges within the University (p. 102)).

Individual schools and colleges may require students to declare a major earlier than 60 credits. Students should consult the policies and regulations of their own school/college for any additional guidelines regarding declaration of major.

Disciplinary Action

The Office of Student Conduct and Community Standards, located on the third floor of the Howard Gittis Student Center, is responsible for administering the Student Code of Conduct. Violations of the university’s Code of Conduct, including among other things, stealing, cheating, disorderly conduct, plagiarism, and illegal possession/use of alcohol and other drugs, may result in a student being brought before one of the Student Conduct Boards, as outlined in the Student Code of Conduct. Student Conduct and Community Standards facilitates the student conduct process striving to create a campus environment conducive to learning. The process is designed to help students realize their role in maintaining campus civility through educational programming and sanctioning as well as through the participants on the student conduct boards.

The Student Code of Conduct can be found online at the Temple University’s Policies web site as policy # 03.70.12 (http://policies.temple.edu/getdoc.asp?policy_no=03.70.12).

Double Major Across Colleges

A student who meets the major requirements of two departments may declare, and have recorded on his or her transcript, a double major. Students who graduate with a double major across two colleges are required to complete all university requirements (General Education) and the requirements of both majors (including two Writing Intensive courses for each major), but only one set of college graduation requirements. The student must obtain prior approval from both schools or colleges. One department must be declared the primary department for the purpose of registration and college graduation requirements. (Students considering a double major across colleges should ask academic advisors in both colleges about college policies related to choosing the primary department.)

Family Educational Rights & Privacy Act (FERPA)

For information on the Family Educational Rights and Privacy Act (FERPA) of 1974, see the FERPA (p. 39) text in the Student Rights section of this Bulletin.

Final Examinations

University policies require that final examinations be given only during the university-approved final examination days as noted on the academic calendar (http://www.temple.edu/registrar/documents/calendars) posted by the Office of the University Registrar.

For day classes on Main campus, a detailed examination schedule (http://www.temple.edu/registrar/students/courseinfo/exams.asp), by day and time, is available on the Office of the University Registrar’s web site; this information is also circulated at the beginning of each semester.

Final examinations for evening classes on Main and Ambler campuses, TUCC classes, and Health Sciences Center classes are given at the regular class time during final examination week.

For both day and evening Ambler classes, a detailed examination schedule, by day and time, is circulated to the faculty and posted to the Ambler (http://ambler.temple.edu/academics/courses-and-calendars) web site.

Some courses have common final examination times. (Consult the registrar’s final examination schedule for a complete list.)
Instructors are encouraged to make individual accommodations with students who have more than two (2) examinations scheduled on one day.

Grade Change

No change of final grade for a completed course will be made without the approval of the instructor's dean or designee. Deans will consider the grade change upon receipt of the instructor's written explanation. No grade will be changed after the baccalaureate degree is awarded.

Grade Point Average (GPA)

Each student's transcript indicates the credit hours completed and passed, grade points, and grade point average (GPA).

The GPA also appears on a student's DARS reports or the academic advising document as well as the Self-Service Banner (SSB) and official transcripts.

A student's GPA may be useful in assessing academic progress, in determining eligibility for specific programs, or in determining eligibility for Honors or other awards.

No change in a student's GPA is made after the baccalaureate degree is awarded.

To Compute Semester Grade Point Average:

1. Multiply the value of the grade (see the "Grades and Grading" section below) by the course's number of credit hours to get quality points (QPts).
2. Add the total quality points.
3. Divide total number of quality points by the total number of GPA hours completed in courses that yield quality points.

Note: Not included in GPA computations: AU, CR, NC, HC, I, IC, IP, MG, NR, P, PI, R, S, W, WE, WF, WS. Also see policy on Repeating a Course (p. 99).

To Compute Cumulative Grade Point Average:

Divide the total number of quality points by the total number of GPA hours completed in courses that yield quality points.

Note: Not included in GPA computations: I, IC, IP, MG, NR, CR, NC, R, P, AU, W, WE, WS, PI. Also see policy on Repeating a Course (p. 99).

For credit transferred from other institutions, no grade points are allowed. See also Repeating a Course (p. 99).

Grades and Grading

Semester Grades

The work of all undergraduate students is graded and reported at the end of each semester. Students may access their semester grades on Self Service Banner within 48 hours of the end of the examination period for that semester.

Three systems are in use for grading and reporting students' work:

Letter grades and points

<table>
<thead>
<tr>
<th>Grade</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.67</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
</tr>
<tr>
<td>B-</td>
<td>2.67</td>
</tr>
<tr>
<td>C+</td>
<td>2.33</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
</tr>
<tr>
<td>C-</td>
<td>1.67</td>
</tr>
<tr>
<td>D+</td>
<td>1.33</td>
</tr>
<tr>
<td>D</td>
<td>1.00</td>
</tr>
<tr>
<td>D-</td>
<td>.67</td>
</tr>
<tr>
<td>F</td>
<td>.00</td>
</tr>
</tbody>
</table>

Note: Although D- is a passing grade, a minimum grade of C- is required in General Education courses and, in many programs, courses required by the major.
Credit/No Credit

| CR | Equivalent to A, A−, B+, B, B−, C+, C, C#, D+, D or D− |
| NC | Equivalent to F |

Note: In the Credit/No Credit system, no grade points are assigned, but a limited number of credits in courses in which students earn the CR designation counts toward the total credit hours completed. See Credit/No Credit Courses (p. 92).

Other transcript notations

| AU | Audit |
| I | Incomplete |
| IC | Incomplete in a Credit/No Credit course |
| IP | Incomplete pass/fail course |
| MG | Grade temporarily missing |
| NR | Grade not reported |
| P | Passed grade |
| PI | Permanent incomplete |
| W | Withdrawal from course |
| WE | Withdrawal with approved excuse |
| WS | Withdrawal from the semester (historical) |

For more information, see the policies on Audit (p. 88), Credit/No Credit Courses (p. 92), Incomplete Coursework (p. 97), and Withdrawal Policies (p. 102) in this Bulletin.

Graduation Procedures

As students approach the end of their undergraduate careers, they must make sure that they are eligible for, and can participate in, graduation ceremonies.

In their junior year, or when 80 semester hours have been completed, students should begin an ongoing graduation check with their academic advisors in order to determine that they are meeting the university, college, departmental, and program requirements for their degree and for graduation.

Early in the semester in which graduation requirements will be completed, students complete an Application for Graduation.

Questions about this process or graduation status should be directed to the student’s Advising Office or Academic Dean’s Office.

Application deadlines are:

- February 1 for May graduation
- May 18 for July graduation
- October 1 for January graduation

Note: Earlier deadlines may be in effect in some academic units.

The Application for Graduation must be properly completed, particularly the areas relating to the resolution of incompletes and diploma instructions. Information concerning commencement activities (such as time, place, invitations, rental of academic regalia) is available to students once they have submitted their completed Application for Graduation. Students will not have their degree awarded or diploma or transcript released until all university tuition and fees have been paid.

Grievances

See Grievances (p. 41) in the Student Rights section of the Bulletin.

Honors for Academic Achievement

Temple University recognizes academic achievement in several ways.
Dean's Lists

Dean's Lists record the names of those full-time students in each school or college who completed a semester's work with 12 graded credits and meet the GPA criteria as outlined in the Dean's List (p. 92) policy. In addition, part-time students who have accumulated at least 12 graded credits across an academic year (fall and spring semesters) are eligible to be considered for Dean's List recognition in the spring.

For further information, see the Dean's List (p. 92) policy in the Academic Policies section of the Bulletin, check under your school or college listing in the Bulletin, or contact your school or college Advising Center.

Graduation (Latin) Honors

Latin Honors are awarded based on estimation procedures that are intended to yield 2% Summa, 5% Magna, and 9% Cum Laude awards for baccalaureate recipients from each Temple school and college. Graduates who have completed at least 60 credits at Temple are eligible for the appropriate honor if their cumulative grade point average (CGPA) is equal to or greater than the cut-off value established for the honor. (Students returning to the university following Academic Forgiveness may qualify for Latin Honors if they have a minimum of 60 earned hours in addition to the approved earned hours allowed at the time of Academic Forgiveness.)

Awards for August 2015, January 2016 and May 2016 graduates are based on cutoff scores computed from CGPAs earned by August 2010 through May 2015 graduates. In July of each year, the cut-off values are updated to include the most recent five-year cycle of CGPAs.

The cut-off values for calculating eligibility for Summa, Magna, and Cum Laude Honors for August 2015, January 2016, and May 2016 graduates are listed in the table below along with the schedule for updating the cut-off values.

| Latin Honors Minimum Cumulative Grade Point Averages by College (for August 2015, January 2016 and May 2016 Graduations) |
|---|---|---|
| College | Summa Cum Laude | Magna Cum Laude | Cum Laude |
| Boyer College of Music & Dance | 3.98 | 3.92 | 3.85 |
| Center for the Performing & Cinematic Arts (School of Theater, Film & Media Arts) | 3.91 | 3.80 | 3.68 |
| College of Education | 3.96 | 3.88 | 3.76 |
| College of Engineering | 3.84 | 3.66 | 3.46 |
| College of Liberal Arts | 3.95 | 3.84 | 3.68 |
| College of Public Health | 3.90 | 3.78 | 3.63 |
| College of Science & Technology | 3.93 | 3.79 | 3.62 |
| Fox School of Business & Management | 3.86 | 3.71 | 3.53 |
| School of Environmental Design | 3.97 | 3.85 | 3.69 |
| School of Media & Communication | 3.89 | 3.78 | 3.62 |
| School of Social Work | 3.91 | 3.83 | 3.69 |
| School of Tourism & Hospitality Management | 3.79 | 3.61 | 3.41 |
| Temple University Japan (BSIB program) | 3.92 | 3.80 | 3.64 |
| Tyler School of Art | 3.89 | 3.80 | 3.70 |

Award and Update Schedule for Latin Honors

<table>
<thead>
<tr>
<th>For Honors awarded in:</th>
<th>Cut-offs based on CGPAs for Graduates:</th>
</tr>
</thead>
</table>
**Incomplete Coursework**

An instructor will file an "I" (Incomplete) only if the student has completed the majority of the work of the course at a passing level, and only for reasons beyond the student's control.

An instructor may file an "I" when a student has not completed the work of a course by the time grades must be submitted, but has completed the majority of the work at a passing level and has a written agreement with the instructor and the department regarding completion of the work, including the nature of the work to be completed, the means by which the final grade will be determined, and the date by which the work must be completed. The completion date may be no later than one year from the end of the semester in which the student took the course. The agreement shall also specify a default grade to be received if the work is not completed by the date indicated. One copy of the agreement shall be retained by the instructor, one shall be given to the student, and one shall be filed with the department office or, in colleges or schools without departments, the Dean's office.

When reporting the grade of "I" for a student, the instructor shall also file a report of the default grade in the electronic grading system. If the instructor does not change the grade of "I", pursuant to the agreement with the student, by the end of one year from the time the grade of "I" was awarded, the appropriate University official shall automatically change the grade of "I" to the reported default grade, and the default grade shall appear on the transcript and be used for all other grading purposes as the actual grade received in the course.

Faculty advisors and staff advisors have the option of not permitting a student to register for an "overload" if the student is carrying one or more active incomplete courses, or for a "full load" if the student is carrying two or more active incompletes.

(policy # 02.10.13 (http://policies.temple.edu/getdoc.asp?policy_no=02.10.13))

**Leave of Absence**

Students may apply for a Leave of Absence (LOA) through the end of the drop/add period of any given semester. An LOA may be granted for one or two consecutive semesters, excluding summer sessions. Under special circumstances, an extension to an approved LOA may be considered, but some of the privileges listed below may not apply.

Students granted an LOA retain their admitted student status and remain eligible for the following privileges:

- Retain the university requirements in place for their academic programs at the time of their first semester at Temple and the requirements in place for their major, concentration, minor or certificate at the time they declared them.
- Temple e-mail access.
- Priority and self registration for the approved semester of return.
- Library access and borrowing privileges.

Students granted LOA are not considered registered students and as non-enrolled students are not eligible for:

- Financial aid disbursements during the semesters while on LOA. Students on an LOA are reported to lenders and loan service agencies as "not enrolled" and need to contact lenders for information on possible repayment requirements.
- Enrollment verification since they are reported as "not enrolled," which could affect eligibility for health insurance, etc.
- Use of Student Health Services during the semesters while on LOA or any other university services not listed in the previous section.
- Campus Housing during their LOA.

Students may return earlier than the original agreed return date by providing notice to their schools/colleges as soon as possible, keeping in mind applicable deadlines for registration, financial aid, etc.

Students who do not return following the approved term for their LOA, or those students who did not apply for LOA, need to apply for re-enrollment to their schools/colleges if they wish to continue their coursework. Re-enrolled students do not retain their original bulletin year nor major declaration requirements and must follow the most current requirements for their schools/colleges and majors.

Students taking an approved medical withdrawal (WE) in a current semester are not considered to be on LOA.

To obtain the Undergraduate Leave of Absence Petition (http://www.temple.edu/vpus/documents/Undergraduate_Leave_Of_Absence_Petition.pdf) form, visit the Senior Vice Provost for Undergraduate Studies web site (www.temple.edu/vpus) and click on "Advising Forms."

(policy # 02.10.16 (http://policies.temple.edu/getdoc.asp?policy_no=02.10.16))

**Non-Degree Seeking Students**

Non-degree seeking students are those who have not been admitted formally to a degree program. For information and academic advising for non-degree seeking students, see Programs with Academic Credit (p. 31) in the Special Programs section of the Bulletin and the Office of Continuing Studies (http://www.temple.edu/vpus/arc/continuingstudies/continuingstudies.html) web site.
Non-degree seeking undergraduate students who wish to pursue a degree are required to apply for admission to a degree program before they complete 30 credits in Continuing Studies. To enroll in undergraduate courses, students must have earned a high school diploma or a G.E.D. certificate. Students who have attended another college or university must have earned at least a 2.00 GPA and provide a transcript (official or unofficial) of their previous academic work.

Prior to their enrollment, non-degree seeking students who wish to pursue a degree are required to take one or more University placement tests. (Some transfer students may be exempt from this requirement. To find out if they are exempt or not, transfer students are strongly encouraged to seek guidance from a Continuing Studies academic advisor prior to taking this test.)

Non-degree seeking undergraduate students are not permitted to take more than 11 credits during their first semester.

Non-degree seeking undergraduate students who are accepted into an undergraduate degree program may count their Temple, non-degree credits toward their residency requirements.

Permission to Complete a Course at another Institution after Matriculation

The university expects that undergraduate students who are earning a Temple degree take all (or almost all) of their courses at Temple. However, once at Temple, students in good academic standing who meet all student and course eligibility criteria are allowed to transfer credit for two summer or special session courses (up to a maximum of 8 credits) taken elsewhere toward their Temple baccalaureate degree. Students will not receive credit for courses taken at another institution while matriculated at Temple, unless prior permission is received from their school or college through their advising center. (For information on the approval process for students studying abroad, go to: http://studyabroad.temple.edu/external-programs-approval-process).

To be eligible to complete the Petition to Complete a Course(s) at Another Institution After Matriculation the following criteria must be met:

- The student's cumulative grade point average must be 2.00 or above at the time of this petition.
- At the time of admission or reenrollment the student had fewer than 60 credits in transfer.
- The student has met the prerequisites for the course(s).
- The course cannot be available through Temple's distance learning program.
- The course cannot be a duplicate of a course for which the student has already received credit.
- The course cannot be a duplicate of a course previously attempted (earned a letter grade, failed, withdrawn or incomplete) at Temple.

Students must apply during the semester prior to the one in which they wish to take the course(s) elsewhere.

Students must complete a "Petition to Complete a Course(s) at Another Institution After Matriculation" form obtained either from their advising center or at www.temple.edu/vpus/forms/index.htm.

- If the course(s) equivalency is not listed in the Transfer Articulation system, the course must be evaluated by the relevant Department's designee/representative. The Department designee/representative must note the approved evaluation on the petition and return the form to the student so it can be filed in his/her advising records. (Transfer credits cannot be added without a completed form.)
- Students will not receive credit for courses taken at another institution while matriculated at Temple, unless prior permission is received from their school or college through their advising center.

Students should note that:

- Credits will be transferred to Temple only upon the completion of the course(s) with a grade of "C" or better. See Admissions: Transfer Credit (p. 23).
- Some Temple schools and colleges have additional limitations on the kind or number of transfer credits accepted.
- Once matriculated at Temple, it is expected that General Education courses be completed at Temple.
- Transfer credit is not awarded for internships, practicums, field studies or independent studies not supervised by Temple University faculty. Students should check with their School/College academic advisor for exceptions.
- Students may also receive transfer credit for courses taken through a pre-approved study abroad program. However, students planning to receive transfer credit for courses completed on a non-Temple program must complete the form "Request for Approval to Study Abroad on a non-Temple Program" for course equivalency approvals. For information about Temple study abroad programs, see Education Abroad (p. 49). For information about receiving permission to study abroad through another institution, see Study Abroad Approval Procedures for External Programs (p. 101).
- Transfer credits do not affect a student's Temple grade point average.
- A student cannot receive credit for the same course twice.
- Grades earned in transfer courses cannot be used to replace grades earned in the Temple equivalent courses.
- A student will not be approved to take a course(s) at another institution if it is the third time that the student will have taken the course(s).
- Forty-five (45) of a student’s last sixty (60) credits must be taken at Temple University. (Some majors have additional residency requirements.) See Academic Residency Requirements (p. 83).
• To be eligible for Latin Honors at graduation, a student must complete a minimum of 60 semester hours of the program while matriculated at Temple.

Once a student has received prior permission and taken a course elsewhere, the student must have an official transcript from that institution sent to the Admissions Office as soon the transcript is available.

Placement Testing

Go to the Institutional Research and Assessment web site at www.temple.edu/ira/exam-services/placement-assessments.html for details.

Also, see the Admissions: Placement Testing (p. 20) section of the Bulletin.

Plagiarism and Academic Cheating

See Academic Honesty (p. 36) in the Student Responsibilities section of the Bulletin.

Prerequisites and Co-requisites

A course prerequisite is any requirement an academic department identifies as essential for a student to complete before taking a course. The university is responsible for publishing prerequisite requirements. All prerequisites, whether they apply to an individual course or to all courses in a department, should be stated in the electronic version of the university's Course Catalog (https://prd-wlssb.temple.edu/prod8/bwckctlg.p_disp_dyn_ctlg). They should also be stated in the course syllabus.

Course prerequisites consist of one or more of the following: completion of placement or proficiency tests or other assessments; achievement of specified scores on placement or proficiency tests or other assessments; possession of specified knowledge or skills; approval after audition; approval of portfolio; declaration of major or admission to restricted program; completion of specific courses, sets of courses, and/or kinds of courses; completion of a specified number of semester hours or achievement of a specified class level; achievement of specified grades in prerequisite courses or sets of courses; achievement of a specified GPA; approval of an application or proposal; permission of the instructor, department, or other person or office; satisfaction of other specified requirements.

Students are responsible for knowing and completing all published prerequisite requirements for a course before taking that course. The university has the obligation to inform students of prerequisite requirements. It has the right to cancel a student's registration in a course if the student has not satisfied the published prerequisite requirements for that course.

A course co-requisite is a requirement that must be completed at the same time as the course for which it is required. The university is responsible for publishing co-requisite requirements. All co-requisites, whether they apply to an individual course or to all courses in a department, should be stated in the electronic version of the university's Course Catalog (https://prd-wlssb.temple.edu/prod8/bwckctlg.p_disp_dyn_ctlg). They should also be stated in the course syllabus. Co-requisites may be specified courses, permissions, admission to programs, and/or other requirements. Students are responsible for knowing and completing all published co-requisite requirements for a course. The university has the obligation to inform students of co-requisite requirements and the right to cancel a student's registration in a course if the student has not arranged to satisfy the co-requisite requirements for that course.

Probation and Dismissal

See Academic Standing (Undergraduate) (p. 83).

Registration

See the Registration (p. 33) section of the Bulletin.

Repeating a Course

Scope of Policy & Rationale

Undergraduate and graduate students may repeat a course to earn a higher grade; only the highest grade earned will be used in calculating the grade point average. Undergraduate and graduate students will not be permitted to repeat a course more than twice, except as permitted by this policy.

Definitions

The term "repeat" is applied when a student retakes a course. Except for courses designated to be taken multiple times, such as independent study, research, or other courses, credit for a given course will be granted only once.
Policy Statement

All students are permitted to repeat a course one time. Students who need to repeat a course a second time must obtain the approval of the dean/designee of their home school or college and be registered with assistance. Except as permitted by this policy, no students may repeat a course a third time.

If a course was taken previously with a standard grading option, it cannot be repeated with a credit/no credit grading option. Students are responsible for ensuring registration carries the appropriate grading option. All occurrences of a course where a grade is earned, including withdrawals (W) and withdrawals excused (WE), appear on the transcript, but only the highest grade earned is used in calculating the grade point average. Since credits are awarded only once for a course, repeats can affect athletic eligibility, academic standing and financial aid status.

All course withdrawals, with the exception of "withdrawal with approved excuse (WE)" are included in the course repeat count (see Policy # 02.10.14 (http://policies.temple.edu/getdoc.asp?policy_no=02.10.14), Withdrawal from Classes).

First repeat: Undergraduate students are strongly encouraged to meet with an academic advisor prior to registration to discuss academic and financial implications.

Graduate students seeking to repeat a course are required to meet with an academic advisor to register.

Second repeat: Undergraduate and graduate students must obtain the approval of the dean/designee of their home school or college and be registered with assistance.

If in the allotted number of repeats, undergraduate students are unable to successfully complete the following university requirements and/or courses required as a result of placement exams (including their course equivalencies), they will be required to meet with their advisor prior to registering for any further classes:

- English 0701, Introduction to Academic Discourse
- English 0802, Analytical Reading and Writing
- IH 0851, Mosaic: Humanities Seminar I
- IH 0852, Mosaic: Humanities Seminar II
- Math 0701, Elementary Algebra

Students unable to successfully complete courses that are required or prerequisites for their majors or school/college requirements in the allotted number of repeats must meet with their academic advisors to discuss alternate graduation plans. Students who have exhausted course attempts for course(s) required for their major will be required to change majors. If the selected new major does not require the course in question, it is possible that the new major may be in the same school or college. Students who have exhausted allowable course attempts in course(s) required for their degree program (school/college requirements) will be required to transfer internally (IUT) within the university from their current school or college to a school or college degree program that does not require the course in question.

Following the awarding of a degree, no changes in the grade point average will be made, even through the repeat process.

Notes

1. Dates of official enactment and amendments
   Adopted by the president on November 13, 2002. First effective on September 1, 2003.
   Amended by the president on February 8, 2011. Effective May 2011 (for Summer Session I) - GPA calculation with highest grade. Effective March 2012 (for Summer I, II and Fall 2012 registrations) - maximum number of course repeats including their course equivalencies.
   Amended by the president in June 2015. Effective as of May 2015.

2. History
   The February 8, 2011 amendment added the limit on the number of repeats.
   The May 18, 2012 amendment clarified that students who have exhausted allowable course attempts in courses required for the major or school/college degree requirements may be required to change majors or transfer internally within Temple to another school or college.
   The June 2015 amendment eliminated the university dismissal for failure to successfully complete certain courses.

3. Cross References
   Policy # 02.10.11 (http://policies.temple.edu/getdoc.asp?policy_no=02.10.11), Academic Standing (Undergraduate)
   Policy # 02.10.14 (http://policies.temple.edu/getdoc.asp?policy_no=02.10.14), Withdrawal from Classes (Undergraduate and Graduate Classes)
   Policy # 02.10.17 (http://policies.temple.edu/getdoc.asp?policy_no=02.10.17), Academic Forgiveness (Undergraduate)
Reverse Transfer

Students who are one or two courses short of completing the requirements for an Associate degree approved for GenEd/Core-to-GenEd from a partner community college are eligible for reverse transfer or Conditional GenEd. Students will need approval from their community college to complete their Associate degree using one or two courses from their first semester roster at Temple University.

For more information, see http://www.temple.edu/vpus/documents/ConditionalGenEdtoGenEd.pdf.

Satisfactory Academic Progress

Satisfactory academic progress is determined by a number of factors, including a student's semester grade point average, cumulative grade point average, and the number of semester hours attempted and completed. A student's progress is reviewed at the end of each semester by the student's Temple school or college and may affect the student's ability to continue in a program or major and eligibility for financial aid. Students should be advised that course withdrawals and incompletes will affect their progress and thus their academic standing. See Academic Standing (p. 83) and Grade Point Average (p. 94).

Schedule Revision (Drop/Add)

See Schedule Revision (Drop/Add) (p. 34) in the Registration section of the Bulletin.

Second Degrees

A second baccalaureate degree may not be the only option available to enhance academic credentials, to prepare for a change in career, or to obtain a professional certification. In some cases, all that may be needed are additional undergraduate courses. Professional schools and organizations, Temple’s Career Center, Graduate School, Continuing Studies, Pre-Professional Health Advising, as well as the advising units of the schools and colleges may have more information on alternative paths. In other cases, the student may be encouraged to begin graduate-level academic work in the new discipline.

If a second bachelor’s degree is sought, this is possible in some, but not all, schools and colleges of Temple University when the second degree is in a sufficiently different field of study. Students should consult with the Office of the Dean of the school or college offering the desired degree.

A student may earn a second baccalaureate degree provided the requirements for the second degree include a minimum of 45 new semester hours beyond those required for the first degree. Students approved for the second baccalaureate degree will be waived from University requirements (i.e., GenEd requirements). Students with a Temple baccalaureate degree will be waived from the 45 new semester hour requirement, since they will already have met the residency requirements. However, in all cases, students must fulfill all non-waived requirements for the second degree.

Students at the undergraduate level may not be enrolled in concurrent undergraduate degree programs, but may regularly have second majors (p. 93), or might consider an approved accelerated or joint program with a Temple graduate or professional school, if they meet admissions qualifications. For more information, refer to the list of accelerated programs (p. 53) and requirements.

Simultaneous Enrollment

Matriculated students at Temple University may not be enrolled simultaneously at another institution in the same semester or summer session and receive permission to transfer those credits to Temple. Certain exceptions are allowed, if permission is given in advance, for courses unavailable at Temple but needed to complete degree requirements for the next scheduled awarding of degrees; or for specialized study where alternatives are not available at Temple; or as part of established programs. Students taking a Temple online course during the summer and living well beyond commuting distance of a Temple campus may also be approved for simultaneous enrollment at another institution. See Permission to Complete a Course at Another Institution after Matriculation (p. 98).

Study Abroad Approval Procedures for External Programs

To receive credit for courses taken on an external study abroad program, students are required to complete Temple’s External Program Approval process, which includes seeking permission from Education Abroad, having any anticipated courses evaluated and approved by appropriate academic departments, and receiving academic approval from their Temple school/college academic advising office.

A list of approved External Programs (http://studyabroad.temple.edu/temple-external-programs) can be found on the Education Abroad website (http://studyabroad.temple.edu). Temple University strongly encourages students to consider these program options prior to exploring other possibilities. In addition to the suggested list, students also have the ability to enroll directly at any accredited foreign university or petition to participate in a program that is not on the approved list.

Students should discuss their study abroad plans with their academic advisor. Permission to study abroad is rescinded if the student is placed on academic warning or probation. As with all courses accepted in transfer, only a grade of C or higher is acceptable.
Transcripts

A student's academic history is contained in a transcript, which is maintained by the Office of the University Registrar.

Official transcripts are issued upon the written request of the student, carry the seal of the Office of the University Registrar, and are usually sent directly to another educational institution, a potential employer or other approved third party. For transcript request information, please go to the Office of the University Registrar's Transcript Services (http://www.temple.edu/registrar/alumnifamily/verification/transcripts) site.

Official transcripts may also be issued directly to the student but will be identified with information that will indicate to the reader (whether a potential employer or another educational institution) that it was so issued.

Transfer Between Schools/Colleges Within the University (Change of Program)

Transfer between academic units is not automatic. If students decide to earn their degrees in an academic unit other than the one in which they are matriculated, they must submit a Change of Program (may also be referred to as an Intra-University transfer or IUT).

To be eligible to complete a Change of Program (CoP), a student should be in academic good standing. Please consult the individual school or college policy in the Bulletin for specific school/college CoP requirements. In addition the Tyler School of Art requires a portfolio and Esther Boyer College of Music and Dance requires an audition.

Students who are compelled to change their program after exhausting the number of permitted attempts for a required course under the Repeating a Course policy may consult another school or college or the Division of University Studies, regardless of grade point average, academic standing, or the number of credits completed.

The CoP form can be downloaded from the Student Tab on the TUPortal or picked up at any of the school/college advising offices. Contact the school/college advising office to which you would like to transfer for more information.

Transfer Credit

See Admissions: Transfer Credit (p. 23).

Undergraduate Credit for Graduate Level Courses

Undergraduate students may take 5000-level graduate courses with the permission of the instructor and the dean’s designee for undergraduate degree credit. Undergraduates who wish to take higher level graduate courses must have the permission of the dean, the Graduate School and Undergraduate Studies.

Undergraduate students taking graduate level courses for partial fulfillment of undergraduate degree requirements may not use these credits to fulfill graduate-level degree requirements unless formally accepted into an accelerated, undergraduate/graduate/professional program.

Withdrawal Policies

WITHDRAWAL FROM CLASSES (policy 02.10.14 (http://policies.temple.edu/getdoc.asp?policy_no=02.10.14))

An undergraduate or graduate student who wishes to discontinue a course after the drop period has ended may withdraw during the time period specified below. Withdrawing from courses during the prescribed period may have serious consequences for academic progress to the degree, for financial aid eligibility, (for international students) visa requirements, and (for student-athletes) NCAA eligibility for competition. Students should consult with their instructors and academic advisors before withdrawing from a course.

- A student may “withdraw” from a class during weeks three through nine of the fall or spring semester, or during weeks three and four of summer sessions³.
- The course is recorded on the transcript with the notation of "W."
- Course withdrawals are included in the course repeat count (see the policy on Repeating a Course #02.10.12 (http://policies.temple.edu/getdoc.asp?policy_no=02.10.12)).
- A student is financially responsible for courses from which he/she has withdrawn.
A student may "drop" a class during the first two weeks of the fall or spring semester or summer sessions\(^1\) to remove a course from his/her transcript. A student is not financially responsible for dropped courses.

\(^1\) The dates apply to courses that meet the standard schedule. All other courses will have customized drop/add/withdrawal dates.

A student who must withdraw due to extenuating circumstances beyond the student’s control may petition for an "excused withdrawal" and/or "withdrawal with approved excuse." An excused withdrawal is generally only approved for all courses in a term. In exceptional cases, an excused withdrawal can be approved for a single course when the need to withdraw is directly related, or attributed, to requirements related to that course.

- The course is recorded on the transcript with the notation of "WE."
- Courses with WE grades will not be included in the course repeat count.
- A Petition for Excused Withdrawal must be filed within one (1) year from the end date of the semester in which the student is seeking an excused withdrawal. (For a list of extenuating circumstances, see the complete policy 02.10.14 [http://policies.temple.edu/getdoc.asp?policy_no=02.10.14].)
- A student who is granted an excused withdrawal (WE) for medical reasons will not be permitted to return to the University until he/she presents a statement from a medical provider showing that he/she is medically ready to return to the rigors of academic work.
- A student may be financially responsible for courses from which he/she has withdrawn with an approved excuse.

Drop and Withdrawal deadlines are published for each semester and summer session at [www.temple.edu/registrar/documents/calendars/](http://www.temple.edu/registrar/documents/calendars/).

**Refunds for Withdrawals**

Complete refund of tuition or cancellation of tuition charges will be made only if the drop form or student's SSB entry is processed by the end of the second week of classes of the fall and spring semesters or summer sessions.

Students withdrawing after these periods are responsible for payment of all charges incurred. No refund or adjustments of charges will be made for withdrawals after the second week unless specified under the university's refund policy. See the bottom of the Tuition and Fees (p. 125) section for the Refund Policy.
Campuses

University Campuses

Convenience and accessibility are two of the benefits that draw people to Temple University. Our nine distinct campuses offer an array of diverse learning environments - from urban to suburban and local to international - that are sure to fit your needs, schedule and personality.

Ambler Campus

Founded 1958

Vicki L. McGarvey, Ed.D.
Vice Provost for University College and Acting Director
Temple University Ambler
580 Meetinghouse Road
Ambler PA 19002
267-468-8020
ambler@temple.edu
http://ambler.temple.edu/

Temple University Ambler, a respected innovator in research and education in social, economic, and environmental studies, delivers high-quality undergraduate, graduate, and non-credit courses and programs to meet the needs of the region and provide a rewarding life experience for students of all ages. Ambler Campus faculty members and administrators promote responsible citizenship through curricular and extracurricular activities and applied research that demonstrate and promote concepts central to the creation of strong, sustainable communities: student-centered learning, community engagement, and respect for the environment.

The Ambler Campus, with an undergraduate student population of 1,500, is an ideal campus to pursue higher education, with a convenient location, courses in a variety of disciplines, and a friendly atmosphere. Located in suburban Montgomery County, just 18 miles north of the Main Campus (and minutes from Route 309 and the Pennsylvania Turnpike), Ambler offers the benefits of a small college campus with the excitement and vast resources of a large university. Ambler attracts students who live or work in the greater Philadelphia area, including those from Philadelphia, Bucks, Lehigh, Montgomery, and Northampton counties. The Blue Route (Route 476) also makes Temple University Ambler easily accessible to students from Chester and Delaware counties.

Students enjoy Ambler's beautiful grounds, student organizations and activities, and recreational facilities that include an exercise/weight room, outdoor pool, and tennis, basketball and volleyball courts. The campus is also home to Temple University’s men’s and women’s soccer NCAA Division I teams.

Ambler’s facilities include science laboratories, a library, top-quality computer labs, smart classrooms, Computer-Assisted Design (CAD) and Geographic Information Systems (GIS) labs/classrooms, video conferencing room and 300 seat auditorium. Additionally, there is a writing-mathematics-science resource center.

The Ambler Campus offers undergraduate courses during the day, evening, weekends, and online taught by the university’s distinguished faculty. Students may begin many undergraduate programs at Ambler. Majors that can be completed entirely at Ambler include:

- Accounting
- Adult and Organizational Development
- Business Management
- Community Development
- Horticulture
- Interdisciplinary /Liberal Arts
- Landscape Architecture
- Legal Studies
- Liberal Studies
- Marketing
- Psychology

Majors that can be completed with a majority of their coursework at Ambler Campus include:

- Criminal Justice
- History

For a complete list of undergraduate majors, minors, and certification programs (for degree and non-degree students) that can be completed at the Ambler Campus, go to: http://ambler.temple.edu/academics/degree-programs/undergraduate

Undergraduate courses also include offerings from Temple’s General Education curriculum (GenEd (p. 143)) and basic science courses in Biology, Chemistry, and Earth and Environmental Science. These enable Pre-Health Information Management students to complete many of the required first two years of prerequisite coursework. Students pursuing Pre-Professional Health Studies may take some initial courses at Ambler required for admission to a professional school. Pre-Law students may remain at Ambler for four years, pursuing degrees in Business, Community Development, or the Social Sciences.
The campus is home to Temple’s School of Environmental Design, which houses the Department of Landscape Architecture and Horticulture (A.S. and B.S. in Horticulture programs; B.S. and M.L.Arch. in Landscape Architecture programs; plus undergraduate minors and certificates), the Department of Community and Regional Planning (B.S. in Community Development and M.S. in Community and Regional Planning programs; undergraduate minors and certificates; plus graduate certificates), and the Center for Sustainable Communities at Temple University Ambler. (See the School of Environmental Design (p. 658) section of this Bulletin for more details.)

The landscaped grounds, also known as the Ambler Arboretum of Temple University, feature formal gardens, a sustainable wetland garden, a green roof garden, a healing garden, an herb garden, a winter garden, wooded areas, a native plant propagation center, and much more.

For a change of pace and scenery, Ambler students can also take courses at Main Campus, Center City, or the Health Sciences Center.

After graduating, Temple students can continue their graduate work at the Ambler Campus or at Temple University Fort Washington Graduate and Professional Center (p. 116).

For more information about Ambler programs, please call 267-468-8000 or visit the Temple University Ambler Campus (http://ambler.temple.edu) web site.

**Academic Awards and Scholarships, Standards and Honor Societies at Ambler**

For additional details and application procedures, go to http://ambler.temple.edu/admissions/costs-aid-and-scholarships/scholarships-ambler-campus

- **Elizabeth Clarke Award for Conservation Education:** presented to a graduating senior intending to study, teach, or work in the discipline of conservation education; based on the student’s positive attitude and financial need.
- **Criminal Justice Scholar's Award:** given to an Ambler graduating senior in Criminal Justice who exhibits a passion for learning and outstanding academic achievement.
- **Gold Key Awards for Academic Excellence:** given to Ambler students in the sophomore, junior, and senior classes who have taken the greatest number of credits at the Ambler Campus and have achieved the highest grade point average.
- **James W. Hilty Adult Student Award:** established in 2008 by campus administration, an award to a current degree-seeking graduate or undergraduate student 25 years of age or older (taking more than half of his/her classes at Ambler/Fort Washington) who has demonstrated academic excellence. Applicants must provide a two-paragraph personal statement outlining financial need, personal background, educational path from high school through college, and educational goals.
- **Norman J. Kaner Memorial Award:** established by the Temple University History Department and supported by family, faculty, and former students in honor of Norman J. Kaner, a member of the History Department from 1968 to 1993. This award is given to an Ambler graduating senior in history with the highest grade point average who best exemplifies the values of critical thought, social curiosity, and intellectual vigor that characterized Professor Kaner’s teaching and scholarship.
- **Kevin and Georgette Ruth Scholarship:** given to an undergraduate or graduate Ambler Campus of record student who demonstrates financial need. Preference is given to full time students working 40 hours a week outside of the university with additional preference be given to those who also support a family.
- **Ambler Campus Summer Student Scholarship:** given to an undergraduate or graduate Ambler Campus of record student who demonstrates financial need and will be taking summer classes on the Ambler Campus.
- **Patricia A. Woods Memorial Fund Award:** given to an undergraduate in the pre-health professions, who expresses the desire for advanced undergraduate study in allied health or post-graduate study in the health professions, with a cumulative grade point average of 3.5 or higher and a demonstrated commitment to the health professions through experience or service. The name of the recipient is added to the plaque hanging in West Hall.

**Dean’s List:** Letters are received by students from the dean of the school or college in which they are enrolled in accordance with the academic criteria for scholastic distinction established by their college or school. See Dean’s List (p. 92).

**Academic Standards:** Students may receive an academic warning, be placed on probation, or be dismissed from the university based on university standards. See Academic Standing (p. 83).

**Honor Society:** Alpha Sigma Lambda, Nu Omicron Xi Chapter, is an honor society for adult students who have completed at least 24 semester hours at Temple and achieved an excellent grade point average. The Temple University Ambler students who are invited to join this society are inducted at a ceremony held each spring.

**Support Services**

Ambler Campus is a full-service campus with an array of offices and services to assist students in achieving educational success. The services described below are tailored to the needs of Ambler Campus students. For further information about support services provided at Ambler, please visit the Ambler Campus (http://ambler.temple.edu) web site and/or the corresponding sections in this Bulletin describing these services.
Academic Support Services

Academic Advising
Dedicated professional and faculty advisors at the Ambler Campus help students choose a program of study that is suited to their educational and career goals. While the students are ultimately responsible for knowing their academic status and requirements for their degree programs, advisors assist with information about program requirements and university policies and procedures. For transfer students, advisors can answer questions about transfer credit evaluations and determine whether these credits meet Temple program requirements.

Office of Academic Advising and Career Development
West Hall 109
267-468-8200
tuaadvis@temple.edu
http://ambler.temple.edu/academics/advising-and-support

This office coordinates academic advising at the Ambler Campus.

Center for Undergraduate Advising-Ambler, Fox School of Business and Management
West Hall 109
267-468-8350
http://ambler.temple.edu/academics/advising-and-support

Students can make an appointment online or call the number above to schedule an appointment.

Visit www.fox.temple.edu/cms_academics/dept/advising/overview/overview/

Career Development Services
West Hall 109
267-468-8200
http://ambler.temple.edu/students/career-development

Deciding on a major or profession can be a challenge. This office provides resources and expertise to assist students. These include: coaching/advising, career materials, résumé critique, and workshops. Externships, internships, and cooperative work experiences provide students with valuable hands-on learning that can take them one step closer to their future careers. At Ambler, information about externships, department sponsored internships, and other career opportunities are available through the Career Development Services office. Also visit http://www.temple.edu/provost/careercenter/ to access Focus-2, a self assessment career tool, as well as the OwlNetwork, an online resource for applying for jobs and internships.

Center for Student Professional Development
West Hall Lower Level 1
267-468-8354 or 215-204-2371
foxcspd@temple.edu
www.fox.temple.edu/cspd/

The Center for Student Professional Development (CSPD), part of the Fox School of Business and Management, coordinates all activities that support the ultimate goal of business students — choosing a meaningful and rewarding career. This annex is linked with the CSPD located in Alter Hall 134, at Main Campus. The CSPD strongly urges students to become active members of student professional organizations.

Computer Center
Ambler Campus Technology (ACT) Center
Learning Center 106
Help Desk: 267-468-8323
http://ambler.temple.edu/students/computers-and-technology

The Ambler Campus Technology (ACT) Center is equipped with 80 PCs and 6 iMacs equipped with software for all Temple programs, color and black and white laser printing, two plotters, scanner applications, video editing equipment, and a wireless lounge area. A help desk area is located within the ACT Center. A break out room is available for students to reserve.

Disability Resources and Services
West Hall 109
267-468-8200
http://ambler.temple.edu/campus-life/disability-resources
The Office of Academic Advising and Career Development, in conjunction with Disability Resources and Services (http://www.temple.edu/studentaffairs/disability) (Division of Student Affairs), provides accommodations for students with disabilities at Temple University's Ambler and Fort Washington campuses.

**Library**
Library Building
267-468-8643 or 267-468-8648
http://ambler.temple.edu/library

The Ambler Library supports the students and faculty with a collection of more than 100,000 books including a Leisure Reading collection; a Children's and Young Adult collection; a New Book area for books recently processed; current periodicals; maps; and DVDs, including feature films and documentaries in various fields. The library is part of the Temple University Libraries and through Diamond, the online catalog, and daily deliveries of materials requested via intra-library loan, the Ambler academic community is provided with convenient access to the discipline-based collections of all of Temple's libraries. The Ambler Library is part of the network that provides online access via the home page, library.temple.edu, to the Diamond Online Catalog. This online catalog leads to collections of printed materials and a rich collection of electronic materials, including databases for research, other internet resources, electronic journals, and e-books.

**Re-enrollment**
West Hall 102
267-468-8248
Degree students who have not attended Temple for one semester or more must contact this office for re-enrollment procedures prior to registering.

**Writing-Math-Science Center**
Learning Center 102
267-468-8386
http://ambler.temple.edu/academics/advising-and-support
Math-Science: Main Campus: 215-204-8466
www.temple.edu/msrc/
Writing: Main Campus Hotline: 215-204-0700
www.temple.edu/writingctr

The Writing-Math-Science Center (with computer lab) helps with questions about all aspects of writing, mathematics, and the sciences. It assists with brainstorming and planning papers, reports, and projects, and offers tutoring. This free service is open to all students. Please refer to the web sites listed above for hours of operation each semester and for online tutoring options.

**Other Services**

**Admissions**
West Hall
267-468-8100
bler@temple.edu
http://ambler.temple.edu/admissions

**Bookstore**
Bright Hall
267-468-8460
http://temple.bncollege.com/

The bookstore provides textbooks and course materials required for classes. The Temple University Bookstore is an affiliate of Barnes & Noble College Bookstores, offering the services and conveniences of a great bookstore chain. The bookstore also carries stationery items, Temple apparel, health and beauty aids, snacks, and other useful items.

**Bursar (Student Financial Services)**
West Hall 101
267-468-8250
http://ambler.temple.edu/admissions/costs-aid-and-scholarships

The Bursar's Office is available for students to process tuition payments, resolve billing questions, and purchase parking hangtags.

**Bus Service**
Bright Hall 101
267-468-8425
Temple University provides a free bus shuttle service on a regular schedule between the SEPTA Regional Rail station in Ambler and the Ambler Campus during the fall and spring semesters. There is also a fall and spring shuttle bus service between Ambler, Health Science, and Main campuses for students. Copies of the schedule and bus regulations are available in the Office of Student Life. (Note: There is no bus service in the summer from the Ambler Campus.)

**Financial Aid (Student Financial Services)**
West Hall 103  
267-468-8443  
http://ambler.temple.edu/admissions/costs-aid-and-scholarships

**General Information**
Administration Building  
267-468-8000  
http://ambler.temple.edu

**Health Services**
West Hall  
267-468-8490  
http://ambler.temple.edu/athletics-and-wellness/wellness

The Ambler Health Services office, open Monday through Thursday, allows students to drop in as needed to discuss health concerns with the RNs, who are certified in college health, and with physicians. Brochures are available on a wide range of health topics. Services provided at Temple University Ambler include: General Medical Clinic; Allergy Clinic; Self-care Center; women's health/family planning; immunizations, physical examinations and travel assessments; referrals to outside specialist and facilities; dispensary; and confidential HIV testing. The psychological counselor is available by appointment; see Psychological Services below. Health services are available to all currently enrolled students with a valid University I.D. Many services are free; some have discount charges for medication and treatment.

**Off-Campus Housing**
Bright Hall 101  
267-468-8425  
http://ambler.temple.edu/campus-life/campus-housing

Each semester, the Office of Student Life provides an online listing of apartments and houses to rent or share for students seeking off-campus housing. Also, local apartment complex brochures are available.

**Parking**
West Hall 102  
267-468-8250  
http://ambler.temple.edu/about/maps-and-directions/parking

Temple students must purchase a hangtag/decal from the Bursar's Office for any vehicle they wish to park on campus lots. There is no daily charge to park at Ambler. Special accommodations are available for students with disabilities. (See the Bursar's Office above.)

**Psychological Services**
West Hall  
267-468-8200  
http://ambler.temple.edu/athletics-and-wellness/wellness

Main Campus: 215-204-7276 for appointments  
http://www.temple.edu/studentaffairs/counseling/

Free and confidential psychological services are available at Ambler by appointment only. Emergencies and/or "walk-ins" and psychiatric services are managed on the Main Campus at Tuttleman Counseling Services located at 1810 Liacouras Walk, 5th floor.

**Registration/ID Cards**
West Hall 102  
267-468-8248  
amblereg@temple.edu  
http://ambler.temple.edu/academics/registration-and-books
This office provides information and assistance regarding registration procedures, enrollment verifications, and photo identification cards. Information and requests for transcripts and applications for Pennsylvania residency qualification are available online at www.temple.edu/registrar.

**Student Financial Services**

(See Bursar and Financial Aid above.)

**Veteran Affairs**

West Hall Lower Level 10  
267-468-8102 or 215-204-6130  
tuvets@temple.edu  
www.temple.edu/veterans

Making the transition from military to college life can be challenging. To assist with this transition, Temple University Veteran Affairs works with the various university departments to plan and implement educational and social programs to help veteran students succeed at Temple University. The Ambler Campus has a Veterans’ Suite in Bright Hall for students to have a place to meet and study. For questions regarding the certification process and veterans benefits, contact the Temple University Certifying Officer (p. 33) in the Office of the University Registrar at 215-204-7378. For additional information on benefits, go to www.benefits.va.gov/gibill/ (http://www.benefits.va.gov/gibill)

**Special Facilities and Programs**

**Aquaponics Laboratory**

Michael Bavas, Advisor, Temple Ambler Aquaponics  
Thomas Bilotta, Faculty Liaison  
West Hall Lower Level  
267-468-8390  
mbavas@temple.edu

Aquaponics is the cultivation of plants and aquatic animals in a self-sustaining, symbiotic environment. Students in the Temple Ambler Aquaponics organization and staff members have created a fully-developed aquaponics garden, which has taken root in the lower level of West Hall. The lab is an interactive space for students to learn in conjunction with credit and non-credit classes. The facility also serves as a teaching model for community organizations, businesses, and schools to learn to aquaponically grow their own food. Tours are provided for the community. The Aquaponics Laboratory is regulated under AALAC (Association for Assessment and Accreditation of Laboratory Animal Care) guidelines ensuring the ethical treatment of aquaculture for education purposes.

**Ambler Arboretum of Temple University**

Anne Brennan, Horticulture and Ambler Arboretum Supervisor  
Baldev S. Lamba, M.L.A. Academic Director  
267-468-8400  
http://ambler.temple.edu/arboretum

The Temple University Ambler Campus has a long history and rich tradition of horticulture and landscape design. Established as the Pennsylvania School of Horticulture for Women in 1911, the 187-acre campus represents a unique mix of natural and designed landscapes. The gardens and campus serve as excellent outdoor teaching laboratories for numerous classes and as a source of inspiration for students, faculty, and visitors.

The Ambler Campus was officially designated an arboretum in March 2000. This historic, public garden, now known as the Ambler Arboretum of Temple University, continues to develop as a living laboratory. As the home of Temple University's Department of Landscape Architecture and Horticulture, the Ambler Campus has a myriad of learning gardens, including a ground cover garden, native plant garden, formal gardens, green roof garden, rock wall, woodland garden, sustainable wetland garden, trial garden, the Viola Anders Herb Garden, the Philip A. and Barbara F. Albright Winter Garden, the Ernesta Ballard Healing Garden with labyrinth, the Colibraro Conifer Garden, and large perennial borders. The arboretum's three areas of focus are sustainability, the health benefits of gardens, and the history of women in horticulture, agriculture, and design.

**Athletic Facilities**

http://ambler.temple.edu/athletics-and-wellness/athletics

Temple University Ambler is the full-time home for Temple's men's and women's soccer teams. The NCAA Division I teams practice and play all home games on fields located on the track bound by Meetinghouse Road, Butler Pike, and Woods Drive. All games and practices take place during the day. Admission is free to all home games. The Intercollegiate Athletics Field House, located near the fields, has “green roof” structures, developed by Temple University with the help of a $50,000 grant from PECO Energy. A green roof is a living biological community of plants that provides an environmentally-sound alternative to a traditional roof system. The green roof garden allows for educational and research opportunities for students and faculty.
**Auditorium**

The 300-seat Learning Center Auditorium, with smart technology and performance space, provides opportunities to offer cultural, educational, and entertaining events for our students and the surrounding community. In this venue, Ambler Campus, once home to the Temple University Music Festival and Institute, again can host music and dance performances as well as lectures.

**Center for Sustainable Communities (CSC) at Temple University Ambler**

Jeffrey Featherstone, Ph.D., Director  
Susan E. Spinella Sacks, M.S., Assistant Director  
Md. Mahbubur Meenar, Ph.D., Assistant Director, Geographic Information Systems Operations and Research  
West Hall, Second Floor  
www.temple.edu/ambler/csc

The Center for Sustainable Communities develops and promotes new approaches for protecting and preserving quality of life through sustainable development, balancing the relationship between environmental integrity, economic prosperity, and social equity. It was designed to build on Temple University Ambler's strengths in horticulture, landscape architecture, and planning and to draw upon the expertise of all Temple University faculty. A working resource for government agencies, community organizations, and developers, the center provides objective information and services to improve decision-making relative to land use and water resources planning, in addition to conducting interdisciplinary research and offering educational and community outreach programs.

**Criminal Justice Training Programs (CJTP)**

Anthony J. Luongo, Director-CJTP; Executive Director-Temple University Law Enforcement Academy  
215-204-7930  
anthony.luongo@temple.edu  
http://www.temple.edu/cjtp/

Criminal Justice Training Programs, a division of the Department of Criminal Justice, is an interdisciplinary unit that has conducted professional training for a variety of criminal justice agencies and occupations since 1968. Each year, more than 3,000 criminal justice employees attend programs offered by CJTP, including police personnel, sheriffs and deputy sheriffs, constables, school security officers, park rangers, and court staff. Other activities include the development of training curricula and the delivery of continuing education and non-credit classes including distance-learning. Most recently, CJTP has been involved in the development of "ProRanger Philadelphia," an academic and technical skills training and paid internship program that is cooperatively administered by the National Park Service and Temple University. The program was established to recruit, train, and employ law enforcement park rangers for the National Park Service. Upon graduation from Temple University and successfully completing the ProRanger program, which includes a federally-accredited law enforcement training component, participants are eligible for permanent career tenure law enforcement park ranger positions with the National Park Service. Current students in any major who are interested in federal law enforcement are encouraged to find out about the ProRanger program (http://www.temple.edu/provost/university-college/proranger), and students completing their degree programs are eligible to attend the Temple Police Academy (http://www.cla.temple.edu/cjtp) in preparation for a career in law enforcement.

**EarthFest**

Susan E. Spinella Sacks, Coordinator; Assistant Director, Center for Sustainable Communities  
James Duffy, Co-Coordinator; Public Relations and Web site Coordinator  
Rachel Berger, Co-Coordinator; Marketing and Special Events Coordinator  
267-468-8108  
duffyj@temple.edu  
http://ambler.temple.edu/about/earthfest

Hosted by the Center for Sustainable Communities in the School of Environmental Design, EarthFest is an outdoor educational celebration of Earth Day held each year at Temple University Ambler. The mission of EarthFest is to promote environmental awareness using sustainable concepts, methods, and practices to protect and preserve our environment. Organizations, businesses, colleges, high schools, middle schools, elementary schools, and individuals demonstrate sustainable concepts and technologies. Thousands of students from all over the region come together and spend time learning about the world in which we live and the interconnected systems on which the lives of people and animals depend. This event is central to Ambler's values of student-centered learning, respect for the environment, and community engagement.

**Greenhouse**

Anne Brennan, Horticulture and Ambler Arboretum Supervisor  
267-468-8191  
http://ambler.temple.edu/arboretum/gardens

The Greenhouse at Temple University Ambler provides students with a first-class facility to study plant and soil science. The energy-efficient greenhouse includes computerized climate controls and thermal blankets to protect the plants in the winter and shade them in the summer. Modern fertilizer injection systems water and fertilize plants simultaneously. In addition to being used for coursework, the greenhouse provides faculty and students with a facility to conduct horticulture research that is at the forefront of the industry.
School of Environmental Design
www.cla.temple.edu/sed

The Ambler Campus is the home of the School of Environmental Design which includes the Department of Community and Regional Planning, the Department of Landscape Architecture and Horticulture, and the Center for Sustainable Communities. Ambler Campus has been connected to sustainable concepts and environmental stewardship for over a century. The School of Environmental Design upholds the environmental traditions established by the Pennsylvania School of Horticulture for Women founded in 1911 and carried forward by its founding Department of Landscape Architecture and Horticulture. See the School of Environmental Design (p. 658) section of this Bulletin.

Temple Infant and Child Laboratory
Kathy Hirsh-Pasek, Ph.D., Co-Director
Nora Newcombe, Ph.D., Co-Director
Haines House
267-468-8610
infntlab@temple.edu
http://www.temple.edu/infantlab/

The Temple University Ambler Infant and Child Laboratory invites parents and their children to shape the future by participating in research at the frontiers of science. The lab is directed by nationally-recognized child development authorities and professors Dr. Kathy Hirsh-Pasek and Dr. Nora Newcombe. Faculty and staff provide fun-filled activities for children who become part of cutting-edge scientific discoveries. Parents learn more about their children's first words and ability to create mental maps. At the lab, infants, toddlers, and older children teach scientists new ways to optimize education and advance learning.

Student Life

Office of Student Life
Bright Hall 101
267-468-8425
http://ambler.temple.edu/campus-life/clubs-and-organizations

The Office of Student Life coordinates the New Student Orientation program, offering orientation sessions for incoming freshmen and an online orientation for new transfer students. As part of this orientation, academic advisors assist students with academic planning and registration.

For current students, this office supports and complements the university's academic mission by promoting social, cultural, educational, and developmental programs for the students at Ambler. The office provides opportunities through campus-wide programming and student organizations for students to develop special skills and interests, to interact regularly with other students, to plan and manage events, to participate in leadership training and self-governance, and to become involved in community-service projects.

Recreation Services

Gymnasium
267-468-8151
Pool
267-468-8152
http://ambler.temple.edu/athletics-and-wellness/recreation

Recreational sports opportunities include intramurals, open recreation, aquatic programs, aerobics, and special events. A wide variety of activities are offered, ranging from structured, competitive leagues to self-directed fitness avenues. Facilities include an outdoor pool, a fitness room with both cardiovascular and free weight equipment, and basketball, tennis, and volleyball courts. Students may also participate in Main Campus recreational activities.

Student Activities Office
Bright Hall Lounge
267-468-8427
http://ambler.temple.edu/campus-life/clubs-and-organizations

Students may obtain information about student activities including the campus activities calendar, ticket sales for athletic and entertainment events, bus schedules, off-campus housing, and general campus information.

Student Organizations
Bright Hall 101
267-468-8425
There are about 30 student organizations on campus. Students are encouraged to join a professional or social organization to gain valuable leadership experience, meet and network with other students, organize fundraisers, and participate in service learning opportunities and events. For a full list of organizations, refer to the web site above.

For information about student organizations in the Fox School of Business and Management, refer to that section of the *Bulletin*.

**Student Government Association**

Bright Hall, 1st Floor  
267-468-8429  
http://ambler.temple.edu/campus-life/clubs-and-organizations

The Ambler Student Government Association (A.S.G.A.) enables Ambler students to seek solutions to their concerns pertaining to all aspects of the campus by serving as a liaison between the student body and university administration.

**Student Leadership Awards**

Awards to outstanding students and student groups are presented annually at the end of the spring semester. The Office of Student Life has more information on leadership awards (http://ambler.temple.edu/admissions/costs-aid-and-scholarships/scholarships-ambler-campus/student-leadership-awards).

**Student Media**

Bright Hall, 1st Floor  
Newspaper  
267-468-8430  
Radio Station  
267-468-8416  
http://ambler.temple.edu/campus-life/clubs-and-organizations

The *Temple Column* (newspaper) and WRFT-AM 1610 AM (radio station) are managed and operated entirely by students as part of the Ambler Student Media Bureau. These organizations provide communications students with challenging opportunities to become involved in various aspects of mass media production such as marketing, advertising, and management for the *Temple Column*, WRFT, and TUTV, Temple University's cable television channel. Students in all majors are welcomed and encouraged to participate.

**Administration**

*For contact information or updates, go to ambler.temple.edu/about/directory*

(See the School of Environmental Design (p. 658) section of this *Bulletin* for a listing of faculty and administrators in the Departments of Community and Regional Planning and Landscape Architecture and Horticulture.)

Vicki L. McGarvey, Vice Provost for University College and Acting Director, Temple University Ambler, Ed.D., University of Pennsylvania  
Crisbel Baez, Manager of Administration, M.L.A., Temple University  
Bonnie Frumer, Assistant Dean for Curriculum, M.A., Temple University  
Rhonda E. Geyer, Director, Non-Credit Programs, B.A., Mansfield University  
Saul Katzman, Director of Finance and Operations, B.B.A., Temple University  
Kathleen Kelly, Assistant Director-Academic Services and Administration

The Temple University Fort Washington Graduate and Professional Education Center is the teaching site for some of Temple University Ambler’s graduate programs. Located in the Fort Washington Office Park, the center has about 350 attending students and features corporate-style classrooms, five (5) smart classrooms with wireless infrastructure, video-conference rooms, and a large 30-seat computer classroom. Students may complete master’s degrees in various graduate-level program areas.

The Office of Non-Credit and Continuing Education, located at Ambler campus, provides hundreds of non-credit courses throughout the year and offers them at the Fort Washington, Ambler, and Center City campuses of Temple. From certificates in meeting planning and digital photography to summer education camps for young learners, the non-credit courses are designed to enhance professional skills and enrich personal interests. Workshops are also available to prepare for the SAT.

Temple University Fort Washington's Lifelong Learning Society is comprised of a series of courses offered in the daytime during the fall and spring semesters for adults ages 50 and up with an interest in furthering their education. These personal enrichment courses range from explorations of classical music to discussions of current events.
Health Sciences Center

3307 N. Broad Street
Philadelphia, PA 19140-5101
Phone: 215-707-4800
Fax: 215-707-7819
e-mail: chp@temple.edu

Programs and services of the Lewis Katz School of Medicine, the Maurice H. Kornberg School of Dentistry, the School of Pharmacy, the College of Public Health, and Temple University Hospital are at the Health Sciences Center. Buildings and facilities, covering some 20 acres, extend to either side of North Broad Street from Allegheny Avenue to above Tioga Street. Public transportation to the campus includes SEPTA bus routes 4 and 16 on Broad Street, the Broad Street subway (Allegheny stop to the south, Erie stop to the north); the North Broad and the North Philadelphia stations of the Regional High-Speed transit lines are between the Health Sciences Center and Main Campus.

The Maurice H. Kornberg School of Dentistry is located at 3223 North Broad Street. The School of Pharmacy is located at 3307 North Broad Street. Many of the facilities of the Lewis Katz School of Medicine, including the Medical School Library and Temple University Hospital, are located on North Broad Street between Ontario and Tioga Streets. The Student Faculty Conference Center, on the southwest corner of Broad and Ontario Streets, provides a wide range of facilities, services, and educational programs. The Office of Student Activities provides educational, recreational, and auxiliary services, coordinates lounges and study areas, recreation classes, ping pong, pinball machines, basketball and volleyball intramurals, tennis, popular films, a cafeteria, art gallery, and seminars. The lower basement contains racquetball courts, weight rooms, and complete locker room facilities with saunas. The fourth floor houses a full continuing education and conference center. For more information, call 215-707-4017.

The School of Podiatric Medicine, part of the Health Sciences Center, is located at 8th and Race Streets.

Each of the schools and colleges located at the Health Sciences Center offers student and academic services. For a specific program or service of the undergraduate schools, refer to the appropriate section of this Bulletin, or inquire at the Office of the Dean. For information about the schools of Medicine and Dentistry, contact their respective dean's offices.

Housing and Dining Options

Residential housing is provided on the Main Campus and is accessible by a Temple University shuttle bus or convenient public transportation. Dining options are available at the Student Faculty Conference Center, the hospital cafeteria, and the Main Campus dining centers.

Main Campus

Founded 1884

Peter R. Jones
Senior Vice Provost for Undergraduate Studies
215-204-7000 (general number)
www.temple.edu

Located one mile north of Center City Philadelphia, Temple’s 115-acre Main Campus serves students from the Delaware Valley area, from throughout the United States, and from 103 foreign nations. There are approximately 27,100 undergraduates and 8,450 graduate and professional school students attending classes on the Main Campus.

The Main Campus can be reached easily by public transportation using SEPTA bus routes 4 or 16 on Broad Street, the Broad Street Subway (Cecil B. Moore Avenue stop), AMTRAK at North Broad Street Station, and SEPTA Commuter Rail Lines at the Temple/Cecil B. Moore Station, Ninth and Berks Streets.

The major facilities of the Main Campus are located between 10th and 16th Streets and between Oxford and Diamond Streets. Ten Temple schools and colleges with undergraduate programs have their central administrative offices at the Main Campus, as well as most of their classrooms. These include:

- The Fox School of Business and Management;
- The School of Media and Communication;
- The College of Education;
- The College of Liberal Arts;
- The College of Science and Technology;
- The College of Engineering;
- The School of Social Work;
- The School of Tourism and Hospitality Management
- The Tyler School of Art
- The Center for the Performing and Cinematic Arts, which consists of the Esther Boyer College of Music and Dance and the School of Theater, Film and Media Arts

The Graduate School and the James E. Beasley School of Law are also located on Main Campus. Many of these schools and colleges offer programs and courses on other campuses and at various extension centers. Those offerings are described in each individual college section and are listed on the Academic Programs chart (p. 2047).

Programs Offered

All of the programs listed in the Academic Programs chart (p. 2047) are offered on the Main Campus except those of the School of Environmental Design (Landscape Architecture, Horticulture, and Community Development); most of the programs of the College of Public Health, the Maurice H. Kornberg School of Dentistry, the Lewis Katz School of Medicine, and the School of Pharmacy, which are offered at the Health Sciences Center only; the programs of the School of Podiatric Medicine, which are offered at 8th and Race Streets; and those programs only offered in Temple University Japan.

Physical Facilities

In addition to housing the major classroom and administrative facilities of ten of the schools and colleges of Temple, the Main Campus is also the central location of the university's Library System (http://library.temple.edu) and Computer Center. Other facilities include two stages for theatrical productions (Tomlinson Theater and Randall Theater), two music recital halls (Klein Recital Hall and Rock Hall), a dance laboratory theater (Conwell Dance Lab), and the Temple Performing Arts Center (http://templeperformingartscenter.org).

The Main Campus is home to the Media Learning Center for the study of Critical Languages and other self-study courses and the Presser Learning Center, a nationally-known multimedia laboratory for teacher education in music. The university's 24-hour classical and jazz radio station, WRTI-FM (http://www.wrti.org), is located at the Entertainment and Community Education Center, behind the Liacouras Center at 1509 Cecil B. Moore Avenue, Third Floor, Philadelphia, PA 19121-3410.

The Liacouras Center (http://www.liacourascenter.com), a venue for sports, entertainment, cultural, and educational activities, consists of a 10,200-seat concert and convocation center and is home to the Temple Owls Basketball teams, the Esther Boyer Theater, the Independence Blue Cross Student Recreation Center, the Entertainment and Community Education Center, and a 1,200-car garage.
The world-class TECH Center (http://www.temple.edu/cs/techcenter), located on 12th and Montgomery, features many technology resources available to students. The facility includes hundreds of computers, a help desk, the university Welcome Center, faculty wing, specialty labs, an internet lounge, social spaces, and private breakout rooms for studying.

The Howard Gittis Student Center (http://www.temple.edu/studentaffairs/studentcenters/hgsc) includes the Valaida S. Walker Food Court, a Barnes & Noble Bookstore, The UPS Store, Philadelphia Federal Credit Union, an information center, the student newspaper, Temple Student Government Offices, Main Campus Program Board, the school yearbook, the Office of the Dean of Students, television lounge, quiet lounge and student organizational space.

Recreation (http://www.temple.edu/studentaffairs/campusrec) facilities include a student fitness complex in the Independence Blue Cross Student Recreation Center, with free weights and racquetball courts; two Olympic-size swimming pools, weight-training rooms, including a cardiovascular fitness center, in the newly renovated Pearson McGonigle Halls; an eight-lane, 400-meter outdoor track; an indoor track in the Independence Blue Cross Student Recreation Center; a lighted outdoor recreation and sports complex that includes four acres of artificial turf and a 4,500 seat arena. The Main Campus also has a student recreation facility consisting of a 39,000-square foot Student Pavilion with lighted tennis courts and an outdoor in-line skating surface. Main campus also houses TU Fitness (TUF), a fitness facility with over 16,000 square feet of space that includes cardio equipment, strength training equipment, an 11-piece selectorized equipment circuit, and a stretching area.

Tuttleman Learning Center is a hub for emerging learning technologies, with flexible classrooms, distance learning sites, student lounges, and personalized areas for small group activities, and is home to the University Writing Center, the University Honors Program, and International Programs.

Liacouras Walk, a major pedestrian way running through the center of campus, provides retail shops, food service, and the Conwell Inn. The Academic Resource Center, Math and Science Resources Center, and the Academic Advising Centers for the College of Liberal Arts and the College of Science and Technology are located at 1810 Liacouras Walk. The Academic Advising Center for the College of Public Health is located at 1938 Liacouras Walk.
Temple University Center City
1515 Market Street
215-204-TUCC
www.temple.edu/tucc/

Located just across the street from City Hall and surrounded by the home offices of major national corporations, Temple University Center City (TUCC) offers an outstanding selection of undergraduate and graduate courses and full degree programs in the evening, as well as stimulating non-credit workshops and seminars during the day, in the evening, and on weekends.

Administration
William E. Parshall, M.P.A., Director
William H. Schreiber, M.A., Associate Director

Credit Programs
Most of Temple University's schools and colleges offer courses at TUCC. It is possible to complete the following undergraduate degree programs at TUCC in the evening:

- Accounting
- English

Student Services

Hours of Operation
During the semester the TUCC administration office (suite 215) is open 8:30 a.m. to 8:00 p.m., Monday through Thursday, and 8:30 a.m. to 5:00 p.m. on Friday. When Temple University is not in session, please call 215-204-TUCC for hours.

Academic Advising and Registration
TUCC's Advising Coordinator can give you the information and support you need to succeed. Office hours are scheduled into the evening so that you can make an appointment during your lunch hour or after work. You can also discuss transfer options and career-related topics. Call 215-204-4358 for information or an appointment. If you are admitted to a degree program, you must be advised by a representative of your school or college. If you are a student in the College of Liberal Arts, send an e-mail message to prob@temple.edu and specify that you want an appointment at TUCC. If you are a student in the Fox School of Business & Management (FSBM), use the FSBM Online Appointment System, accessed through the FSBM Center for Undergraduate Advising (http://www.fox.temple.edu/cms_academics/dept/advising) web site. Specify that you want an appointment at TUCC.

The Bookstore
The Café/Bookstore offers Starbucks coffee, food items and a wide range of Temple branded merchandise. Textbooks are available each semester. Call 215-204-1527 for more information.

Hours of Operation:
Monday - Thursday, 7:00 a.m. - 8:00 p.m.
Friday, 7:00 a.m. - 6:00 p.m.
Saturday, 10:00 a.m. - 4:00 p.m.
Sunday, Closed.

Career Advising
TUCC's Advising Coordinator can help you with career-related information. You can obtain information regarding your options and help to get you going in the direction that is right for you. Call 215-204-4358 for an appointment.

Center City Technology Center
Using a computer or accessing library information is as easy as a trip to the Center City Technology Center located on the fourth floor. The staff will assist you in using personal computers or in conducting library research. It is also possible to establish an e-mail account, obtain language tapes, and reserve audio-visual materials through the center. Faculty can place books and articles on semester reserve. Call 215-204-1521 for more information about available resources or hours of operation.

Student Photo ID Cards
Students registering for the first time can have a photo ID card made in the TUCC administration office (suite 215). Call 215-204-TUCC for more information or hours of operation. Students who have lost their photo ID card can obtain a replacement card for a $20 fee.
Parking
As a service to our students, TUCC has negotiated parking discounts with participating garages at the listed locations. TUCC has no business relationship with these garages and does not play any role in making their policies. In order to receive the discount, students must have their parking ticket validated and show their Temple ID card. The validation and list of participating garages are available at the security desk in the ground floor lobby area. A list of participating garages is also available on the TUCC (http://www.temple.edu/tucc) web site in the “Services” section.

Facilities
The TUCC campus occupies six floors at 1515 Market Street. All together there are over 60 classrooms, conference rooms, and computer classrooms.

Meeting and Training Space
The next time your organization needs meeting or training space, consider Temple University Center City. We offer classrooms, conference rooms, and computer labs in a wide range of capacities and a variety of configurations. Every room is equipped with spacious white boards and a ceiling-mounted LCD projector, and a good selection of media equipment is available to enhance your event. All rooms have large windows that provide lots of natural light and beautiful views. Our clients value our convenient center city location and the professional quality of the space. Affordable rates make it an attractive option to non-profit organizations and government agencies, and you are free to choose your own caterer. Rooms can be rented for half or full days. Call 215-204-4357 for additional information or to meet with a representative and see the space.

Copy Machine
A copy machine for student use is available in the café area on the fourth floor. It accepts both Diamond Dollars and cash. Call 215-204-7271 if there is a problem with the machine.

Information Kiosks
An information kiosk, located in Suite 215, allows you to obtain information from Temple web sites. Currently enrolled degree seeking students can use the Self Service Banner (SSB) site to access records and process registration and payment transactions.

Lounges and Café areas
Lounges and café areas are located on all floors and provide a good place to relax or study.

Coffee and Refreshments
There is a coffee vending machine in the fifth floor café area.

TTY
A TTY (text telephone) machine (215-204-1900) is available on the second floor for staff and student use.

Vending Machines
Vending machines are located in the lounge areas on the second floor, and in the café areas on the third, fourth, and fifth floors. Call 215-204-7271 if there is a problem with the machines.

Internet Access
Wireless Internet access is available throughout the TUCC campus. In addition, Ethernet connections and power outlets are located around the perimeter of all lounge and café areas. For more information, contact Center City Technology Center, 215-204-1521.

Non-Credit Programs
The following constitute non-credit programs at TUCC. For detailed information on these programs, see the Special Programs (p. 28) section of this Bulletin.

Real Estate Institute
Non-credit real estate programs for professionals and consumers. Call 215-204-1539 for more information.

Music Prep
Dynamic non-credit music and dance programs for infants through adults. Call 215-204-1512 for more information.

Osher Lifelong Learning Institute at Temple University (OLLI)
OLLI is a membership organization that offers non-credit learning and enrichment programs for retirees. Call 215-204-1505 for more information.

At Temple Harrisburg, you will find an active community of adult learners interested in improving their professional knowledge and skills. Temple Harrisburg is engaged in improving the central Pennsylvania community through academic degrees, certificate programs, and professional development programs.

The mission of Temple University Harrisburg (TUH) is to serve as the leading academic and professional development center in the areas of social work, public education, public policy and public service in central Pennsylvania.

The campus location in the capital region allows the opportunity to share Temple’s commitment to social justice, innovative research and community service with legislative, governmental decision makers and the public. TUH strives to support the university’s role in the public discourse on social and policy issues through the provision of excellent graduate programs, professional development opportunities, public policy discussion and innovative research.

For further information regarding the programs highlighted below, please see the TUH web site at the following address: harrisburg.temple.edu/

Graduate Degree Programs

- Master of Science in Community and Regional Planning (CRP)
- Master of Public Health (MPH)
- Master of Social Work (MSW)
- Master of Public Policy

Certificate Programs

- CRP-Sustainable Community Planning & Transportation Planning
- Post Graduate Certificate in Play Therapy
- Certificate in Urban Education
- Certificate in Teaching in Higher Education
- Certificate in Military Counseling
- Clinical Supervision
- Strengths-based Leadership Certificate

Non-Credit Programs/Professional Development

- Credential for Strengths-based Family Workers
- Nonprofit Evaluation Services and Training (NEST) Program
- Non Profit Management Training Program & Enhancing Communities Lunch Series
- International Nonprofit Training and Leadership Training Program (INTL)
- Institute on Protective Services
- Certified Investigator Training Program
- Institute on Adolescent Sexual Health
- Teacher Professional Development
- Personal Care Home Administrator Training
- Medication Administration Training Program
• Community Health Worker Training Program
• Intensive English Language Program

Undergraduate Programs

Capital Semester
The Institute for Public Affairs sponsors an internship semester each fall in association with TUH. Students have the opportunity to explore government affairs, policymaking and implementation first-hand at the State Capital.

The Freshman Year at Temple Harrisburg
The Freshman Year at Temple University Harrisburg (FYTH) is designed to offer Temple General Education courses to full-time admitted students at the Harrisburg campus. The purpose of the program is to allow students from the Central Pennsylvania area the opportunity to live and work near home while completing their initial year as full time Temple students. The first year will prepare students with skills necessary to be successful at the undergraduate level. Staying small in Harrisburg will allow students to establish relationships and connections with other students and main campus staff prior to arriving. The program is designed to give students a 4 day weekend and a 3 day intensive class schedule. The program will also incorporate various social and co-curricular activities that would allow students to experience the main campus and ease their transition.

Facilities
The Temple University Strawberry Square facility is 35,650 square feet located across from the capitol in an office/shopping complex and offers a wide range of classrooms, conference rooms and computer labs equipped with the latest technology for meeting, video conferencing and presentation needs.
Tuition and Fees

Payment of Tuition

David Glezerman, Assistant Vice President and Bursar
115 Carnell Hall
215-204-7269
david.glezerman@temple.edu
bursar.temple.edu

Registration for courses is not optional, and students must not attend courses for which they are not registered. Once a student registers for a course--or is registered by an advisor at the student's request--the student remains financially obligated for the course unless and until he or she drops the course by the prescribed deadlines for dropping and adding courses. Prior to registering for the first time each semester, students are required to accept Temple University's Financial Responsibility Agreement, which outlines the financial terms and conditions associated with course registration.

Students may drop courses and otherwise modify their registrations in Self-Service Banner (SSB) or by working with an academic advisor. Please see the Academic Calendars (http://www.temple.edu/registrar/documents/calendars) on the Office of the University Registrar's web site for add/drop and withdrawal deadlines for each semester and summer session.

Once registered, students must pay tuition and fees according to the Bursar's Office billing schedule (http://bursar.temple.edu/billing/billing-schedule). Failure to satisfy billing and financial obligations may result in withholding of official transcripts and diplomas; denial of the right to register for future sessions; and the assessment of late fees and collection costs.

Students who are not planning to attend the semester must drop their course registration. Students who do not drop classes by the end of the official drop/add period (See Academic Calendar for specific dates) remain financially obligated for the balance due. Instructors are advised to issue letter grades (typically "F") for students who have not been attending but are on their roster of registered students.

Students who drop classes by the end of the drop/add period of a semester or summer session will have their courses dropped. This will relieve them of academic responsibility and in most instances financial responsibility associated with the course.

Students who withdraw from classes after the drop/add period are responsible for full payment of all tuition and fee charges, along with any payment plan fees, and late payment charges. These courses will be recorded on the transcript with the notation of "W," indicating that the student withdrew. Unpaid tuition balances may be referred for collection, and students may be held liable for paying all associated collection costs and/or legal fees.

Students who do not withdraw by the published deadline are responsible for payment of all tuition and fee and/or collection costs. Temple University will first apply all payments received to the oldest outstanding balance, if applicable, then to the current semester charges.

Temple University notifies students via their TUmail account to view their electronic bills in TUpay. Students are required to pay at least the minimum amount due on their bills on or before the due date on their bill.

Acceptable forms of payment include: tuition remission forms, checks (paper and electronic), cash, credit cards, and money orders. Checks or money orders should be made payable to Temple University. Credit cards accepted for online payment only through TUpay include: MasterCard, American Express, Discover and Visa. Please note that credit card payments are subject to a 2.75% convenience fee by the university’s processor.

Payment must be received by the billing due date to assure proper crediting and to remain in good financial standing.

Payment Plans

Students are encouraged to pay the total account balance by the bill due date. In doing so, students avoid any payment plan fees and late payment fees. However, if students are unable to do so, Temple University offers two payment plans to assist students and their families.

Please note that payment plans are offered for the fall and spring semesters only. Payment plans are not offered in the summer semesters.

For the first bill of the fall and spring semester, students are billed with a minimum amount due that represents 50% of current term charges. Students who elect this payment option and do not pay the total account balance will be automatically enrolled in the University's Deferred Payment Plan and assessed a $25 non-refundable payment plan fee.

For the second bill of the fall and spring semester, students are billed for the remaining balance. Students who do not pay the total account balance in full by the due date are indicating that they wish to remain in the University's Deferred Payment Plan and will be assessed a $20 non-refundable payment plan fee.

The University also offers the Temple Installment Payment Plan (TIPP) for those students who need an extended payment option. The plan allows students to make up to ten regularly scheduled monthly payments starting in May towards their future charges (five payments for fall and five payments...
for spring). The application fee for this payment plan is $50 for the year. For more information about this plan, offered through Higher Education Services (HES), go to bursar.temple.edu.

Financial Counseling
Students who need assistance in financing their education should see a Financial Counselor in the Department of Student Financial Services (Ground Floor, Conwell/Carnell Hall) or call 215-204-2244 for an appointment. For more information on financing your education, visit the MONEY MATTERS (http://slmm.temple.edu) web site.

Student Loan Counseling
All students who receive federal student loans are required by federal regulations to receive loan counseling when first receiving a loan and prior to leaving the university.

The Credit and Collections unit in the Bursar’s Office is responsible for completing loan counseling for all students who are receiving federal student loans for the first time (entrance interviews). In addition, this staff can assist students with related financial planning that would help them in completing their education at Temple. Students can complete the online entrance interview (http://www.fc.campusoncall.com/cgi-bin/home.pl?FromAdmin=1&campus=temple) or call 215-204-5549 for additional information.

Students who are graduating must complete an online exit interview (http://www.fc.campusoncall.com/cgi-bin/home.pl?FromAdmin=1&campus=temple) or contact the Credit and Collections unit in the Bursar's Office, Second Floor, Carnell Hall, at 215-204-5549.

Assessing Tuition Charges
Tuition assessment at Temple University is based on full-time or part-time status; student college; student level status (undergraduate, graduate, or professional); student class level for undergraduates; and in-state/out-of-state residency status. The level of the courses is not a factor in how students are assessed.

All students are placed into one of the University’s schools or colleges, based on their major or program.

Full-Time Status
Undergraduate students are considered full-time students when carrying between 12-17 semester hours (s.h.). Credits in excess of 17 s.h. are additionally assessed at the per semester credit hour tuition rate.

International students, holders of non-immigrant visas, are required to pay out-of-state tuition fees and register as full-time students.

There is no distinction between full-time and part-time graduate tuition rates. All graduate students are assessed at a credit hour rate, regardless of the number of credit hours they are taking.

Part-Time Status
Undergraduates are considered part-time students when taking fewer than 12 s.h. per semester. Tuition is charged by the semester credit hour for part-time undergraduates.

In-State/Out-of-State Residency Status
A student is classified as a Pennsylvania resident for tuition purposes if his or her permanent, legal residence is in Pennsylvania. In-state residency is generally established within the context of the following overall guidelines:

• An individual who has not lived in Pennsylvania for a continuous 12-month period immediately prior to registration as a student at a Pennsylvania college or university is presumed not to be a Pennsylvania resident. A student may rebut this presumption with convincing evidence.

• A student under 22 years of age is presumed to have the residency of his or her parents or legal guardians. A student may rebut this presumption by presenting convincing evidence of emancipation and independent domicile.

• A student who receives financial aid based on residence in a state other than Pennsylvania will not be considered a resident of Pennsylvania.

• A student who is not a United States citizen or does not have an immigrant visa is presumed not to be a resident of Pennsylvania for tuition purposes; however, a student may rebut this presumption with clear and convincing evidence.

Visit the Office of the University Registrar’s web site for more information about residency (http://www.temple.edu/registrar/students/registration/residency) and a copy of the Resident Tuition Eligibility Guidelines. Specific questions pertaining to Pennsylvania residency status should be directed to the Office of the University Registrar at 215-204-1131 or resident.tuition@temple.edu.

Tuition Schedule
The Bursar’s Office’s web site contains the latest tuition schedule (http://bursar.temple.edu/tuition-and-fees). It also contains a tuition calculator (http://bursar.temple.edu/tuition-and-fees/tuition-rates), which provides an estimate of your tuition rate by selecting your specific student characteristics, such as school or college, student level, residency, etc.
University-Wide Fees

Please note that Tuition and Fees are subject to change by action of the university's Board of Trustees.

¹ Upper division is defined as undergraduate students with a minimum of 60 earned credits, regardless of how obtained.

² See below for the credit hour assessment of the University Services Fee

³ Additional fees apply - please consult the Fox School of Business & Management web site

### Description of Special Charges and Fees

Students may be required to pay some or all of the following (subject to change):

#### Application Fee

$50.00 for online or paper application for admission, $20.00 for students applying for readmission.

#### Matriculation Fee

A one-time charge is assessed of all first-year students who are degree-seeking candidates in their initial semester after admittance. This fee includes the student orientation program. The rate for undergraduate students is $185.00 and the rate for graduate students is $55.00. Professional students should check with their respective college as the rates vary per school.

#### University Services Fee

All students are assessed the non-refundable University Services Fee every semester. The University Services Fee is a single, comprehensive fee that helps fund a number of university services, including:

- Funding for state-of-the-art computer equipment and technologies to provide support for the students’ academic experiences, including e-mail access and modern lab facilities;
- Access to all student activities, events and recreational facilities;
- Expansion and maintenance of recreational and academic facilities to enhance and improve student life;
- Availability of basic student health and treatment services provided by nurses and physicians on campus.

The fee structure for the fall and spring semesters is:

- Enrolled for 9 or more credits: $395.00
- Enrolled for 5.0 to 8.9 credits: $287.00
- Enrolled for 1.0 to 4.9 credits: $140.00

The fee structure for each summer semester is:

- Enrolled for 9 or more credits: $204.00
- Enrolled for 5.0 to 8.9 credits: $155.00
- Enrolled for 1.0 to 4.9 credits: $91.00

Please direct all questions about the University Services Fee to the Office of Student Financial Services at 215-204-2244 or sfs@temple.edu.

#### Course Fees

Certain courses charge additional fees such as lab fees, etc. The charge is assessed at the time of registration for that particular course.
Late Registration Fee Policy
All students will be assessed a $100.00 late registration fee for initial registrations beginning the first day of the term. No new registrations or registration revisions will be processed after the end of the twelfth week of classes during the fall and spring semesters and after the end of the fourth week of summer sessions.

Late Payment Fee
Tuition payments not received by the final semester due date will be subject to a $100.00 late payment fee. Students who fail to pay their initial semester bills by the due date will automatically be enrolled in the University's Deferred Payment Plan and assessed the appropriate payment plan fees as noted above in the "Payment Plans" section.

Returned Check Penalty
If a paper or electronic check payment is returned by the bank because of insufficient funds, a closed account, an invalid account number or other reasons, a $25.00 returned check fee will be assessed. If an account indicates a history of returned checks, the University reserves the right to suspend a student's check payment privileges. Returned checks that remain unpaid and/or cases where there are multiple returned checks may be referred to the University Disciplinary Committee and/or Temple University Campus Safety Services for further action.

Transcript Fee
Consult the Office of the University Registrar's web site (http://www.temple.edu/registrar) for ordering instructions.

Health Insurance
Group medical insurance to defray certain medical expenses at hospitals is offered to full-time students during a limited period of time at the start of each semester. Students should consult the Human Resources Benefits Department (http://www.temple.edu/hr/students) or call Velda Fletcher-Jones at 215-926-2270 for details concerning costs and application procedures. International students are required to buy medical insurance or show proof of comparable coverage to the Human Resources Benefits Department.

Tuition and Fees Policy
I. Policy
A. Tuition charges and fees are based upon the student’s enrollment status in the respective schools or colleges. Refunds are made in accordance with the student's academic records.

B. Students will be charged 100% of their semester bill unless a course drop form is processed by a registration office of the university or the student successfully drops courses through Self Service Banner by the Drop/Add deadline date. See www.temple.edu/registrar/documents/calendars/ for add/drop and withdrawal deadlines for each semester and summer session. Students who process their course drops by the deadline date will be issued a 100% refund.

C. No complete financial credit will be made if a student does not process course drops for all registered classes.

D. Students who are still registered for classes after the Drop/Add deadline date are responsible for paying all related tuition and fees.

II. Exceptions
A. Failure to Process Withdrawal Form by Deadline
Under extreme, extenuating circumstances, an appeal may be made to the Office of the University Registrar and the Tuition Review Committee if the drop transaction is not completed by the deadline, and the student did not attend classes after the deadline date. All appeals must be accompanied by the following information:

1. A letter explaining the extenuating circumstances of the appeal.
2. A properly-signed schedule revision or official withdrawal form available from the Dean’s Office.
3. Supporting documentation that will establish that the student never attended the semester in question or that he/she did not attend beyond the official refund period.
4. Appeals for retroactive course deletions must be filed within one (1) year from the end date of the semester for refunds to be considered. If the above conditions are met, the Office of the University Registrar will direct the removal of the semester's records from the academic history. This automatically results in a 100% refund of tuition and fee charges for the semester.

B. Death of a Student
In the event of death during a semester, the student's account will be credited with a 100% refund of tuition and fee charges for the semester.

C. Serious Illness Which Prevents a Student from Attending All Classes
In the event of a serious personal or family member's illness, the following steps can be taken:
1. The student should provide the Office of the University Registrar with:
   a. A letter from the student listing the reason(s) for their refund request (i.e., personal or family illness, etc.).
   b. Certification from a licensed physician verifying that the student or family member was ill. In the case of the student's illness, the certification should indicate that the illness prevented the student from attending all classes, and
   c. Letter(s) from the student's instructor(s) or department chairperson(s) that, based on the actual or anticipated length of the student's leave, the course work cannot be completed within the current term and the last day of attendance.
   d. The student must withdraw from all registered courses. NOTE: For purposes of this policy, a family member is defined as the student's parents, spouse, child(ren), or any other family member noted under the federal Family Leave Act.

2. When the above criteria in C.1 are met, the student's bill will reflect an adjusted tuition charge in accordance with the attached schedule. A credit will be issued on a pro-rated basis after:
   a. Confirming that the student has no other outstanding balances, and
   b. Having the Department of Student Financial Services adjust any financial aid awards, where applicable, in accordance with state and federal regulations. NOTE: Student refunds will be issued as a credit towards tuition and fees for future registrations up to one (1) year after the end of the semester in which the withdrawal took place. Unused credits will be forfeited after that time.

3. The effective date for all medical credits will be based on the earlier of either:
   a. The official date of withdrawal, as established by the Office of the University Registrar, or
   b. The physician's date of certification, if the student is physically unable to complete a withdrawal by the end of the semester.

4. Refunds or credits resulting from the death or serious illness of the student will not require the deletion of courses from the student's academic records. The student's record will reflect excused withdrawals ('WE').

D. Employment Change/Relocation

1. If a student must withdraw from classes because of a job change or shift in work hours that prevents the student from attending classes, the student may request a pro-rata credit, based on the actual withdrawal date and in accordance with the Fee Schedule of Adjusted Tuition Charges, if documentation from the employer is provided showing that the individual is no longer able to take classes because of a change in job scheduling or relocation.

2. This provision applies solely for the student and only after the student has totally withdrawn from all registered courses.

III. Authority

A. The Office of the University Registrar will have authority for determining the student's academic records.

B. The Office of the University Registrar will have authority for approving financial exceptions to the policy.

C. Appeals of any decision outlined under this policy will be made to the Office of the University Registrar, whose decision is final.

Financial Aid

Student Financial Services
Craig Fennell, Director
Conwell Hall, Ground Floor
215-204-2244
http://sfs.temple.edu/
sfs@temple.edu

Application Procedures

Documents Needed to Apply

The Free Application for Federal Student Aid (FAFSA) is the only document required by Student Financial services and **MUST** be filed each year. Applications are available at all Student Financial Services (SFS) locations and also may be filed online at www.fafsa.ed.gov (http://www.fafsa.ed.gov). The federal code for Temple University is 003371. Locations and phone numbers for Temple University's SFS offices are listed at http://sfs.temple.edu/.

Application Deadline

March 1st

Priority consideration is given to new and renewal applications received by the federal processor by this date. Late applicants will be considered, but all funding sources may not be available.

Verification

Federal regulations require that the Office of Student Financial Services reviews all student financial aid applications (FAFSA information) for accuracy. The Office of Student Financial Services is required to resolve any conflicting information, inconsistencies or errors made on FAFSA applications to ensure the integrity of federal student financial aid programs.

Temple University operates as a Quality Assurance School in association with the U.S. Department of Education. As a result, please **do not** submit verification documents unless the University's Office of Student Financial Services contacts you.

Submission of requested verification documents is required within thirty days. If all documents are not received by the deadline, all federal and university need-based aid will be removed from the award.

Your financial package will be outlined in an award letter mailed to your home (freshman and transfer students only). Continuing students will receive an e-mail notification to view the award letter online on the Financial Aid Channel located on Temple's TPortal (https://tuportal4.temple.edu/cp/home/displaylogin).

International Students

Please contact the Office of International Student and Scholars Services for more information (www.temple.edu/isss/).

Academic Requirements

Applicants for Federal, State, and University financial aid programs administered by Temple University must be accepted for admission or currently enrolled as a matriculated student in a degree program.

A student may apply for a Direct Subsidized/Unsubsidized Loan, or a parent may apply for a PLUS Loan on behalf of a dependent student for coursework that is documented as a prerequisite for admission into a degree-seeking program. If enrolled at least half time in these prerequisite courses, the student is eligible for loans for one consecutive 12 month period.

Satisfactory Academic Progress

Financial aid funds are restricted to students who make satisfactory academic progress. The qualitative standard is defined as being in good academic standing as defined by the school or college in which the student is enrolled. The quantitative component of the satisfactory academic progress standard requires students to successfully complete 67% of all attempted credits. For more information, see http://sfs.temple.edu/apply/steps-financial-aid/eligibility-determination/academic-progress-standards.
Enrollment Status

Some financial aid programs are restricted to full-time students. Other aid programs are available to both full-time and part-time students. (NOTE: High school students accepted under the Early Admissions Program are not eligible for financial aid until they receive their high school diploma.)

Students should be aware that dropping and adding courses can affect financial aid eligibility, and they must notify the Office of Student Financial Services of any change in enrollment status.

Academic Dismissal/Reinstatement

Eligibility for financial aid, including federal work-study, ends if a student is academically dismissed or ceases to be enrolled.

Financial Aid Eligibility -- Need Analysis

Some financial aid is offered to students based on financial need. Need is determined by the following formula:

\[
(\text{Estimated cost of attendance}) - (\text{Expected Family Contribution}) - (\text{Expected Financial Aid}) = \text{Need}
\]

The Expected Family Contribution (EFC) is determined by a federal formula based on information reported on the student's FAFSA application. The EFC is the number that's used to determine a student's eligibility for federal student financial aid. This number results from the financial information a student and/or parent provided in the FAFSA application. The student's EFC is reported to the student on the Student Aid Report (SAR).

The result of a need determination is met by a combination of awards called a financial aid package.

Other sources exist that may be available to students for educational assistance. Some of these are private scholarship programs, Cooperative Education programs, Veterans Administration benefits, public assistance, and Social Security benefits. If outside assistance is received, financial aid awarded by the university may be adjusted.

Independent Student Definition

2015-2016 Financial Aid Applicants: Federal regulations define an independent student if he/she meets one of thirteen criteria listed in Step 3 of the student section of the FAFSA.

Federal regulations require that a student not meeting the definition of independent apply as a dependent. These students must provide income, asset, and household information for themselves and their parent(s), (including stepparent(s)).

Educational Budget

Financing a college education takes planning and budgeting. Students should try to plan ahead, anticipating costs and resources, and should request aid for the entire academic year. The basic budget for a year at Temple should include tuition and fees, books and supplies, living expenses, and transportation. Tuition shown in the following example is for undergraduates attending Main Campus. Financial aid awards will be adjusted accordingly for programs having different tuition rates. The figures in the table are based on estimates from the U.S. Bureau of Labor Statistics. The economy and one's style of living may make actual costs higher or lower.

Sample Budget for the 2015-2016 Academic Year

<table>

<td>$45,264</td>
</tr>
</tbody>
</table>

NOTE: Actual rates may vary depending on college, school, program, housing location and meal plan selected. Tuition rate is an estimate at time of publishing.

Financial Aid Notification and Refund Policy

Applicants are notified of aid eligibility by letter or electronic letter after applications have been reviewed. Financial aid may consist of a combination of grant, loan, and/or work assistance.
Recipients receiving aid in excess of institution charges will receive a refund. Checks are issued according to the university’s established schedule, starting just prior to the first week of classes each semester. Students are encouraged to sign up for direct deposit to expedite the receipt of refund payment. This can be done online via the TUportal (https://tuportal4.temple.edu/cp/home/displaylogin).

Student Employment

Academic Year
The Federal Work Study (FWS) program at Temple promotes part-time employment of college students with demonstrated financial need. FWS is awarded as part of the student’s financial aid package, but the award is not credited to the student’s tuition account.

Employment may be within the university or at other public and private non-profit organizations. All university work-study job openings are posted on StudentJobs@Temple. Students can reach StudentJobs@Temple via the TUPortal (https://tuportal4.temple.edu/cp/home/displaylogin).

FWS jobs which are available from Off Campus employers are listed on the Work Study Job Bank of the Student Financial Services (SFS) web site at http://sfs.temple.edu/.

Summer Sessions
Summer Federal Work-Study Program awards need-based funds to full-time students currently enrolled in degree or certificate programs who have a current FAFSA on file. Summer positions are posted in the same manner as the regular academic year. University employers list openings on StudentJobs@temple.edu. Off campus openings are posted on the “Work Study Job Bank” link on the SFS web site: http://sfs.temple.edu/. You must arrange your own employment. You must complete a separate Temple Summer Financial Aid application. Summer Financial Aid applications are available by selecting the “Forms” link from the SFS home page.

Grants, Scholarships and Loans

The following grants and scholarships have individual eligibility requirements and procedures. Be sure to read the requirements for each carefully.

Temple University Grants
Temple University Grants are institutional funds available to students as a way of supplementing other aid sources. These funds are awarded based on need, as determined by the Free Application for Federal Student Aid (FAFSA), with priority given to applicants whose FAFSA is received by the federal processor by March 1.

Fly in 4
Fly in 4 is a partnership between incoming students and the university to promote graduation in four years. Graduating in four years reduces student debt and helps control college costs.

The Fly in 4 $4,000 annual grants are provided to 500 incoming freshman and eligible transfer students with the greatest demonstrated financial need.

Temple University Scholarships
Entering freshmen with excellent high school grades and test scores are offered four-year academic merit scholarships. The award is made by the Office of Undergraduate Admissions at the time of acceptance based on the admission application.

New transfer students with strong grades earned at their transfer institutions are offered three-year academic merit scholarships. The award is made by the Office of Undergraduate Admissions at the time of acceptance based on the admission application.

Additional details are provided on the Undergraduate Admissions web site at http://admissions.temple.edu/cost-and-aid.

Athletic Scholarships
Athletic scholarships are available in all varsity sports. The number of scholarships, requirements, standards, and awards are controlled by Temple University and by the National Collegiate Athletic Association (NCAA). For further information, contact the Department of Intercollegiate Athletics, 215-204-2571.

ROTC Scholarships and Grants
See Military Science (p. 44) in the Academic Opportunities section of this Bulletin.

State and Federal Grant Programs
To be eligible for the following grants, students must complete the Free Application for Federal Student Aid (FAFSA).
Pennsylvania State Grant (PHEAA)
The Commonwealth of Pennsylvania funds a grant program for undergraduate Pennsylvania residents who will be matriculated students enrolled full-time (12 or more credit hours per semester) and part-time (6-11 credits) during the academic year. This program is administered by the Pennsylvania Higher Education Assistance Agency (PHEAA). Please see more information at www.pheaa.org/funding-opportunities/state-grant-program/index.shtml (http://www.pheaa.org/funding-opportunities/state-grant-program/index.shtml).

Non-Pennsylvania residents should check with their respective state agency for state grant information. The U.S. Department of Education provides a full list of higher education agencies by state at http://www2.ed.gov/about/contacts/state/index.html.

Students residing in states other than Pennsylvania can contact their state education department directly to inquire about scholarship and grant opportunities. A directory of state educational grant agencies can also be found online through the U.S. Department of Education (http://www2.ed.gov/about/contacts/state).

Not all state grant programs are transferable if a student is attending a school outside of their home state.

Federal Pell Grants
To be eligible for a Pell Grant, one must be a matriculated student enrolled in an undergraduate degree program who has not earned a bachelor's or professional degree. Notification of awards will be made in the student's award letter.

Federal Supplemental Educational Opportunity Grant (FSEOG)
FSEOG is a federal grant program administered by the university. Awards are based on exceptional need and availability of funds.

Student Loans
Federal Perkins Loans
Perkins Loans are made by the university from funds provided by the Federal government. These loans are included as part of the financial aid package. The amount of the loan is based on the student's need and availability of funds.

Federal Direct Student Loans
Direct Loans are available to undergraduate students enrolled for at least six (6) credits per semester.

Annual Subsidized Limits:
- 1st Year Undergraduates = $3,500
- 2nd Year Undergraduates = $4,500
- Remaining Undergraduate Years = $5,500
- Preparatory Coursework Needed to Enroll as Undergraduate = $2,625

Annual Unsubsidized Limits:
- Dependent undergraduates whose parents can borrow PLUS = $2,000
- 1st and 2nd year undergraduate dependent students whose parents cannot borrow PLUS and independent students = $6,000
- Remaining undergraduate years for dependent students whose parents cannot borrow PLUS and independent students = $7,000

Direct Parent Loans for Undergraduate Students (PLUS)
PLUS loans are available to the parents of undergraduate students. A credit check is required for eligibility for the Parent PLUS loan. Parents may borrow amounts not to exceed the cost of attendance.

Nursing Student Loans (NSL)
NSL are made by the university from funds provided by the federal government. These loans are included as part of the financial aid package. The amount of the loan is based on the student's need and availability of funds. Students may borrow up to $2,500 per academic year.

Pharmacy Health Profession Loans
Pharmacy Health Profession Loans are made by the university based on demonstrated financial need. Funds are provided by the federal government. Pharmacy students may borrow a maximum of $2,500 plus the cost of tuition.

Alternative Educational Loans
Student loans are available from private lenders. The majority of the lenders of these loans require the student borrower to have a credit worthy cosigner, and the interest rate is variable and determined by the credit score of the borrower and cosigner. These loans also require school certification,
and the student must be enrolled at least half time and making satisfactory academic progress. Consult with the lender for specific eligibility requirements.

**Entrance/Exit Interviews**

Federal law requires that every student borrowing from the programs listed above complete entrance counseling online at www.studentloans.gov (http://www.studentloans.gov) for first time borrowers at Temple University. An exit interview will be required just prior to graduation or if a student attends less than half time or takes a leave of absence.

Direct loan funds will not be released without the entrance counseling requirement. Any student withdrawing from the university before graduation must complete an exit interview.

More information is available on the Bursar's Office web site at http://bursar.temple.edu/loan-services/loan-counseling.

**Other Programs**

A number of Temple's schools and colleges have privately-sponsored scholarships available for students in their programs. Details may be found in the individual school or college descriptions.

In addition to the scholarships available through Temple University, a wide range of scholarships, fellowships, and internships are available on a competitive basis to students during and immediately after their undergraduate careers. The Office of the Senior Vice Provost for Undergraduate Studies provides information about these opportunities and support for students interested in preparing applications. For more information, go to www.temple.edu/vpus/opportunities/index.htm#scholarships.
Academic Programs

For a complete list of academic programs offered at Temple University, refer to the Academic Programs Chart (p. 2047).

Specific information on undergraduate academic programs is located within the individual schools, colleges and divisions (p. 179). Additional information is located in the following sections:

- University General Education Curriculum (p. 143)
- Writing Intensive Course Requirements (p. 142)
- Intercollegial Programs (p. 160)
- Temple University Japan Campus (p. 165).

Attention New Freshmen and Transfer Students

All new undergraduate students are required to complete the university's General Education (GenEd (p. 143)) curriculum.

New freshmen starting in the 2015-2016 academic year are required to complete the GenEd (p. 143) curriculum. Students who have fewer than 15 transferrable credits are considered freshmen. Additionally, students whose transfer credits were earned while in high school, regardless of the number of transfer credits, are considered freshmen.

New transfer students starting in the 2015-2016 academic year are required to complete the GenEd (p. 143) curriculum. Students who attempted 15 or more transferrable credits after high school and prior to being admitted to Temple University are considered transfer students.

Attention Current Students

Current students who started at Temple University before Fall 2015 should refer to the Archives (http://bulletin.temple.edu/archives) to find the requirements of their program of study for their Bulletin year.

Writing Intensive Courses

For most professionals - doctors, accountants, social workers, educators, policy-makers, performers, etc. - writing is an important part of work-life, and writing well often paves the way to professional success. But the kinds of writing that are valued in the professions are typically different from the kinds of writing that students use in school. The writing-intensive course program at Temple University is designed to provide students with a window into the types of writing they may be expected to produce after graduation. To this end, departments and programs have designated specific writing-intensive courses that are part of the major; in these writing courses, students study, write and revise texts that are similar to what they will encounter in their post-Temple careers.

All undergraduate students must complete at least two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits.

The specific courses that are required for particular majors can be found within this Undergraduate Bulletin. Writing-intensive courses are identified by the last two digits of the course number: courses numbered xx96, xx97, and xx98 are writing-intensive. These courses can also be identified by the Course Attribute of “WI.”

The writing-intensive courses must be completed at Temple University. Students may not transfer in credits to satisfy this requirement. Students who have problems completing their writing-intensive course requirements should contact their advisors.

A list of all approved writing-intensive courses appears on the web site of the Office of the Senior Vice Provost for Undergraduate Studies (http://www.temple.edu/vpus/resources/core/writingintensive.html). Not all courses are offered every semester. Students must complete the writing-intensive courses that are specified by their major. More information about the writing-intensive course program is available at the Writing Center (http://www.temple.edu/writingctr/writing-intensive-courses) web site.
The General Education (GenEd) Program serves as Temple University’s liberal education requirements for all undergraduate students and provides a foundation for learning and development practices that help students succeed academically and professionally.

A recent survey of more than 300 employers nationwide conducted by the Association of American Colleges and Universities indicated that the majority of employers seek graduates with 4-year degrees with a mix of deep disciplinary skills and knowledge and a broad base of skills and abilities. Skills and abilities which employers ranked most important for schools and colleges to develop included communication skills, critical thinking skills, the ability to apply abstract theories and ideas to concrete experiences and practices, and problem-solving skills.

Program Competencies
GenEd facilitates linkages by stressing the development of eight competencies rather than content knowledge. The Program in General Education provides opportunities for students to engage in:

Critical Thinking

*Think Critically*

Within GenEd, students who think critically recognize an object of investigation, frame questions about it, and interrogate assumptions—explicit or implicit. Critical thinking includes the evaluation of evidence, analysis and synthesis of multiple sources, and reflection on varied perspectives. Critical thinking generates a well-developed investigation that incorporates supporting and countering claims. A student engaged in critical thinking produces an informed account, a hypothesis for further study, or the solution to a problem.

Contextualized Learning

*Understand historical and contemporary issues in context*

Within GenEd, students who contextualize learning understand and integrate historical, contemporary, and cultural phenomena and their underlying principles in two broad applications. First, contextual learners recognize the interaction of complex forces that give rise to specific phenomena. Second, contextual learners understand and analyze related events, artifacts, practices and concepts across geographic, chronological and cultural boundaries.

Interdisciplinary Thinking

*Understand and apply knowledge in and across disciplines*

Within GenEd, students who use interdisciplinary thinking recognize the world presents problems, topics, or issues too complex to be satisfactorily addressed though a single lens. Thus, interdisciplinary thinkers apply multiple perspectives, paradigms, and frameworks to problems, topics, or issues.

Communication Skills

*Communicate effectively orally and in writing*

Within GenEd, students who communicate effectively use spoken and written language to construct a message that demonstrates the communicator has established clear goals and has considered her or his audience. Effective messages are organized and presented in a style appropriate to the context.

Scientific & Quantitative Reasoning

Within GenEd, students who exercise quantitative and scientific reasoning use and apply these reasoning processes to explain phenomena in the context of everyday life. Quantitative reasoning includes statistical and/or logical problem-solving, the relationships between quantities, and the use and misuse of quantitative data. Scientific reasoning introduces students to the evolution and interdependence of science and technology and includes problem identification, hypothesis evaluation, experimentation, interpretation of results and the use and misuse of scientific data.

Civic Engagement

*Function as an engaged citizen in a diverse and globalized world*

Within GenEd, students open to civic engagement view themselves as connected to local and global communities where they participate in activities that address issues of public concern. Critically engaged students define issues, pose, probe, and solve problems with an awareness of and an inclusion of the diverse values and interests.

Information Literacy

*Identify, access and evaluate sources of information*
Within GenEd, information literacy encompasses a broad spectrum of abilities, including the ability to recognize and articulate information needs; to locate, critically evaluate, and organize information for a specific purpose; and to recognize and reflect on the ethical use of information.

**Lifelong Learning**

*Promote a lasting curiosity*

GenEd cultivates these skills and abilities throughout the required undergraduate curriculum, and students will experience these ways of being through readings, discussions, activities, and classes throughout GenEd.

The GenEd program attempts to foster the development of such skills through its curriculum by providing students multiple opportunities to exercise, in multiple contexts and settings, their communication, critical thinking, and problem-solving skills and we attempt to do so by helping students make connections from academic knowledge to experience.

“The Philadelphia Experience” has become a hallmark of the new GenEd, with many courses taking students into the city for direct encounters connected to their studies. A science course takes students to the Waterworks to study 19th century sewage treatment. A course in educational policy takes students into schools and community centers. A course in sustainability challenges them to design a solution for storm-water run-off. A course in creativity assigns them to go to First Friday to interview an artist.

These and other modes of stretching and contextualizing traditional disciplinary content prepare students to deal with a rapidly globalizing world, in which the resolution of complicated issues increasingly calls upon the ability to see a problem from many angles and to synthesize divergent perspectives.

Ultimately, GenEd is about equipping our students to make connections between what they learn, their lives and their communities.

Find out more about General Education at [http://gened.temple.edu](http://gened.temple.edu)

### Program Framework

The General Education curriculum introduces students to nine areas of learning and a total of eleven courses, divided into Foundation courses and Breadth courses.

**Foundation Courses**

<table>
<thead>
<tr>
<th>General Education Attribute</th>
<th>Area</th>
<th>Requirement</th>
</tr>
</thead>
<tbody>
<tr>

</table>

**Course Sequencing**

Students are advised to take the three-semester sequence formed by *Analytical Reading & Writing, Mosaic I* and *Mosaic II* as soon as possible after entering Temple in order and in successive semesters.

GenEd also considers Quantitative Literacy a foundational course. Accordingly, students are advised to take a GenEd Quantitative Literacy course as soon as possible after entering Temple and before enrolling in Science & Technology courses.

**Breadth Courses**

<table>

**Finding GenEd Courses**

Each General Education area has a list of courses that satisfy the requirements for that area. Descriptions of the areas and their approved courses can be found by clicking on the links under the General Education heading on the right side of this web page, and at [http://gened.temple.edu](http://gened.temple.edu) (select “Students”, then “Courses”). Students may also download a 2015-2016 orientation booklet ([http://gened.temple.edu/students/requirements](http://gened.temple.edu/students/requirements)) with course descriptions.
To find GenEd courses offered in a given semester or term, students may locate the information in two primary ways:

- Go directly to the Class Schedule Search (https://www.temple.edu/apply/common/cdcheck.asp) page on the university's web site.
- Go to Self-Service Banner (SSB), which is available on the TUportal (https://tuportal3.temple.edu/cp/home/displaylogin). Students must log onto the TUportal with their username and password. Select the Student tab from the SSB page. Clicking the Registration button will allow users to select and Look Up Classes.

Select the relevant term or semester from the drop down box to begin a search. Students may select one or many criteria in searching for specific classes; however the more criteria selected, the fewer the number of courses returned.

To get all of the courses fulfilling a GenEd area, in the Subject box, select Accounting and hold the SHIFT key and select Women's Studies to highlight all subject areas. Scroll to the bottom of the page to the Course Attributes box to select the relevant GenEd area, and hit the Class Search button at the bottom of the page. The results will list all relevant courses in the selected GenEd area for the selected term.

General Education Policies and Requirements

In general, students should be aware of the following:

Every Temple undergraduate fulfills the requirements of the General Education Curriculum in some way.

- Students entering Temple with fewer than 45 transfer credits complete the full General Education Curriculum.
- Students with 45 or more transferable credits satisfy the 45+ GenEd Curriculum. (See Transfer Students and the University General Education Curriculum (p. 23))
- Students with an Associate degree approved for GenEd-to-GenEd, Core-to-GenEd, or Core-to-Core Transfer meet most GenEd requirements with the general education courses taken for the Associate degree. Associate degrees are approved for GenEd-to-GenEd, Core-to-GenEd, and Core-to-Core Transfer by two university-wide faculty committees. See Transfer Students and the University General Education Curriculum (p. 23) for information on the policy and a list of approved community college Associate degrees.

A GenEd course counts in one GenEd area only.

All GenEd courses must be completed with a grade of C- or higher to satisfy a GenEd requirement.

All GenEd course numbers begin with "08XX." GenEd Honors course numbers begin with "09XX." Students may use only Temple University courses at the 0800- and 0900-levels or specified waiver courses to satisfy General Education requirements. See the Transfer Students and the University General Education Curriculum (p. 23) section of this Bulletin for information on completing GenEd requirements with transfer credits.

In GenEd, courses may be offered in multiple departments. These courses, regardless of the sponsoring department, are the same course and will have the same number and course title.

Repeat & Withdraw Policy

Students should be aware that opportunities are limited for repeating a course to replace a failing grade under University policy. Repeating a Course (#0.2.10.12) (http://policies.temple.edu/getdoc.asp?policy_no=02.10.12) prohibits students from retaking a course more than twice unless the course is specifically designated as a course that may be taken for credit multiple times.

If in the allotted number of repeats, undergraduate students are unable to successfully complete the following university requirements (including their course equivalencies), they will be required to meet with their advisor prior to registering for any further classes:

- GW Analytical Reading & Writing
- GY Mosaic: Humanities Seminar I
- GZ Mosaic: Humanities Seminar II

If a student drops a class after the official drop/add period, a "W" will appear on the student's transcript to indicate the student withdrew from the course. A course withdrawal or a "W" is counted as an attempted repeat.

Departments, Majors, Minors and GenEd

GenEd courses may not be required introductions to a specific major or minor. A GenEd course may be accepted by a major or minor to fulfill elective requirements.

Departments and colleges may not single out a specific GenEd course as a requirement.

A curriculum or degree program may identify a GenEd course as part of an array for its majors or minors. (An array is defined as a set of options from which the student may choose. The array must present at least three options for any one course chosen.) Courses in an approved array may satisfy both the General Education requirement and the degree, minor or certificate requirement.
A student may use no more than two courses from a single department to satisfy GenEd requirements. (Foundation and transfer courses are excluded.)

**Early Progress Reports**

All GenEd course instructors will submit Academic Progress Reports.

**Credit/No Credit**

Students may not take GenEd courses for credit/no credit.

**General Education Waivers**

Select waivers have been adopted in recognition of repetitive and substantial exposure to key habits of mind, skills, and/or bodies of knowledge and for which programs have submitted requests.

Once a student fulfills a GenEd requirement with an approved waiver – a placement test, course or series of courses – the waiver follows the student. Advisors will need to process DARS exceptions for students who complete a waiver identified with a particular major/school/college but are not in the identified major/school/college.

If a waiver for a GenEd requirement is comprised of a series of courses, students must successfully complete all courses to receive the waiver. Courses must be completed with a C- or better to satisfy GenEd waiver requirements. Departments, schools and/or colleges may stipulate a higher grade to satisfy its own requirements.

**Quantitative Literacy (GQ)**

Students considering undergraduate degrees with advanced mathematical or statistical requirements may satisfy the GenEd Quantitative Literacy requirement through alternative coursework.

This requirement may be satisfied by successfully completing one of the following:

- Any General Education Quantitative Literacy (GQ) course.
- MATH 1031, MATH 1038, MATH 1041, MATH 1042, MATH 1941, MATH 1942, or MATH 2043.
- STAT 2101, STAT 2103, STAT 2901, STAT 2903 or an equivalent transfer course (primarily for FSBM and STHM majors and FSBM minors).
- Completion of a three-course sequence to include MATH 1015, MATH 1021 or EDUC 1017, and ECED 3107 (primarily for Early Childhood Education majors). All courses must be completed to receive waiver.
- Completion of a four-course sequence to include MATH 1015, MATH 1021, MATH 1022, and MAES 3145 or MGRE 3145 (primarily for Middle Grades Education majors concentrating in Language Arts, Science, Science and Language Arts, and Social Studies). All courses must be completed to receive waiver.

Courses must be completed with a C- or better to satisfy GenEd waiver requirements.

Department/schools/colleges may stipulate a higher grade to satisfy department/school/college requirements. Consult an academic advisor for more information.

**Arts (GA)**

Students pursuing undergraduate degrees in the Boyer College of Music and Dance and the Tyler School of Art may be exempted from the GenEd Arts requirement upon completion of collegiate requirements.

**Boyer College of Music and Dance**

Students may satisfy the GA requirement by completing one of the following four-course sequences:

- DANC 1811, DANC 2813, DANC 2814, and DANC 3812. All courses must be completed to receive waiver.
- MUST 1711, MUST 1712, MUST 2711, and MUST 2712. All courses must be completed to receive waiver.
- A transfer course or courses equivalent to the waivers described in the bullets above.

Courses must be completed with a C- or better to satisfy GenEd waiver requirements.

Department/schools/colleges may stipulate a higher grade to satisfy department/school/college requirements. Consult an academic advisor for more information.

**Tyler School of Art**

Students in the following degree programs at Tyler School of Art may satisfy the GA requirement by successfully completing a specified multi-course sequence:

- Bachelor of Arts Visual Studies
• Bachelor of Science Art Education
• Bachelor of Fine Arts

ARTH 1156, and FDPR 1511 or VS 1151. All courses must be completed with a C- or better to receive waiver.

TUJ students in the BA in Art degree program may satisfy the GA requirement by successfully completing the following set of courses:

ARTU 1101, ARTU 1201, ARTU 1401 and ARTU 1501. All courses must be completed with a C- or better to receive waiver. Note that this specific waiver is only for TUJ students in the BA in Art degree program.

Department/schools/colleges may stipulate a higher grade to satisfy department/school/college requirements. Consult an academic advisor for details.

School of Theater, Film and Media Arts
Students may satisfy the GA requirement by successfully completing the following three-course sequence:

THTR 1003, THTR 1096, and THTR 1231. All courses must be completed with a C- or better to receive the waiver.

Human Behavior (GB)
Students pursuing undergraduate and/or professional degrees in Education may be exempted from the GenEd Human Behavior requirement upon completion of collegiate and/or degree requirements.

A student successfully satisfies the GenEd Human Behavior requirement upon completion of one of the following multi-course sequences:

• EDUC 2109, SPED 2231, and ENES 3338. All courses must be completed with a C- or better to receive waiver.
• EDUC 2179; SCES 2189 or MAES 2189; SCES 4189 or MAES 4189; and SECE 3796. All courses must be completed with a C- or better to receive waiver.
• ECED 2101, ECED 3209, and SPED 2231. All courses must be completed with a C- or better to receive waiver.

Consult an academic advisor for more information.

Science & Technology (GS)
Many majors and programs of study require substantive studies of science to develop the expertise necessary in their fields. The sciences include studies of anatomy and physiology in human health, chemistry as the basis of human health, matter and motion, and natural phenomena. General Education would like to accommodate those students interested in pursuing such studies and have developed, in conjunction with the College of Science & Technology, a number of two-semester course sequences that would exempt students from the GenEd Science & Technology requirement.

Therefore, students considering undergraduate degrees with scientific, engineering or technical components may satisfy the GenEd Science & Technology requirement through alternative coursework. (See waiver information below.)

A student successfully satisfies the GenEd Science & Technology requirement upon completion with a C- or better any of the following two-course sequences:

• BOT 1111 — HORT 2114
• BIOL 1011 — BIOL 1012
• BIOL 1111 — BIOL 2112
• BIOL 1911 — BIOL 2912 (honors)
• CHEM 1021 & CHEM 1023 — CHEM 1022 & CHEM 1024
• CHEM 1031 & CHEM 1033 — CHEM 1032 & CHEM 1034
• CHEM 1951 & CHEM 1953 — CHEM 1952 & CHEM 1954 (honors)
• EES 1001 — EES 2011
• EES 1001 — EES 2021
• EES 1001 — EES 2022
• EES 1001 — EES 2061
• EES 2001 — EES 2011
• EES 2001 — EES 2021
• EES 2001 — EES 2022
• EES 2001 — EES 2061
• KINS 1221 — KINS 1222
• KINS 1223 — KINS 1224
• PHYS 1001 — PHYS 1004
- PHYS 1021 — PHYS 1022
- PHYS 1061 — PHYS 1062
- PHYS 2021 — PHYS 2022
- PHYS 2921 — PHYS 2922

Students who change their course of study prior to completing the second course of any of the specified two-course sequence, may complete their GenEd Science & Technology requirement by earning a C- or better with:

- One GenEd GS course and one course from either List I or List II, or
- One course from List I and one course from List II

### List I
- BOT 1111
- BIOL 1011
- BIOL 1111
- BIOL 1911 (honors)
- CHEM 1021 & CHEM 1023
- CHEM 1031 & CHEM 1033
- CHEM 1951 & CHEM 1953 (honors)
- EES 1001
- EES 2001
- KINS 1221
- KINS 1223
- PHYS 1001
- PHYS 1021
- PHYS 1061
- PHYS 2021
- PHYS 2921

### List II
- HORT 2114
- BIOL 1012
- BIOL 2112
- BIOL 2912 (honors)
- CHEM 1022 & CHEM 1024
- CHEM 1032 & CHEM 1034
- CHEM 1952 & CHEM 1954 (honors)
- EES 2011
- EES 2021
- EES 2022
- EES 2061
- KINS 1222
- KINS 1224
- PHYS 1004
- PHYS 1022
- PHYS 1062
- PHYS 2022
- PHYS 2922

Consult an academic advisor for more information.

**Global/World Society (GG)**

The Global/World Society requirement may be waived if:
- a student successfully completes (with a C- or better) credit-bearing coursework worth at least three semester hours in an approved summer or semester study abroad program with a minimum stay abroad of 28 days.
- a student provides a transcript with an international study abroad experience in which at least three semester hours of coursework transferred to Temple.
- a student is a Foreign National student and whose permanent residence is outside of US boundaries.

Consult an academic advisor for details.

**Analytical Reading & Writing (GW)**

**Requirement:** One 4-credit hour course.

**Writing Placement Exam.** The Writing Placement Exam is required for all first-year students, transfer and non-matriculating students who have not successfully completed a credit-bearing, college-level composition course with a grade of C- or better.

The placement exam will indicate if the student should register for ENG 0701, ENG 0802, or be exempted from the course. May also be ENG 0711 or ENG 0812, which are the ESL versions.

This course should be taken as soon as possible—ideally in the first semester, but certainly in the first year.

**Analytical Reading & Writing** is intended to teach students how to:

- Organize ideas in a coherent and logical manner;
- Connect multiple texts through an issue or an idea;
- Identify authors’ key arguments;
- Create and defend arguments of one’s own; and
- Demonstrate correct grammar, syntax and acknowledgment of sources.

**Analytical Reading & Writing Courses**

- Analytical Reading & Writing
- English as a Second Language (ESL) Analytical Reading & Writing
- Honors Analytical Reading & Writing

**Arts (GA)**

**Requirement:** One 3-credit or 4-credit hour course.

GenEd Arts courses develop artistic literacy. Courses may be centered on one of the arts (e.g. dance, fine arts, music), may be interdisciplinary in nature (e.g. creative writing and theater, film and dance), or may address larger themes (e.g. creativity, the arts and political statement, technology and the arts), but all Arts courses make some connection to other perspectives, disciplines, or subject areas.

GenEd Arts courses are intended to teach students how to:

- Experience and respond to a work of art or creative process;
- Recognize or interpret a work of art or creative process in its social, historical and cultural context;
- Describe or evaluate a work of art or creative process using appropriate terminology;
- Demonstrate an “appreciation” for the value of art in our lives and in society; and
- Function as a member of an audience.

**Arts Courses**

Below, you will find a list of GenEd courses in this area.

Please be advised that GenEd offerings vary from semester to semester and that all GenEd courses will not be offered every semester. For the most current list of GenEd offerings, please consult the Class Schedule.

In addition, a single GenEd course may be offered by more than one department. GenEd courses offered by more than one department will have the same course number and the same course title. A student may not take the same course from multiple departments and earn credit toward graduation. However, if a student wishes to replace her/his grade in a GenEd course, s/he may replace the grade with any course bearing the same course number and the same course title regardless of department.
• Arts of the Western World: The Visual Experience
• Arts in Cultural Context
• Creative Acts
• Dramatic Imagination: The Performing Arts in Society
• Exploring Music
• Greek Theater & Society
• Philadelphia Arts & Culture
• Shakespeare and Music
• Shakespeare in the Movies
• Shall We Dance? Dance as Narrative in American Film
• The Art of Acting
• The Art of Listening
• The Art of Sacred Space
• The Creative Spirit: A Multidisciplinary View
• The Future of Your TV
• The History of Art in Rome (Rome Campus only)
• The Jazz Century in America
• The Meaning of the Arts
• World Musics & Cultures
• Honors Art of Acting
• Honors Art of Sacred Space
• Honors Creative Acts
• Honors Greek Theater & Society
• Honors: Philadelphia Arts & Culture
• Honors Shakespeare in the Movies
• Honors Shall We Dance? Dance as Narrative in American Film
• Honors: The Art of Listening
• Honors The Creative Spirit: A Multidisciplinary View
• Honors The Meaning of the Arts
• Honors Transnational Cinema
• Honors World Musics & Cultures

Waiver

Students pursuing undergraduate degrees in the Boyer College of Music and Dance and the Tyler School of Art may be exempted from the GenEd Arts requirement upon completion of collegiate requirements.

Boyer College of Music

Students may satisfy the GA requirement by successfully completing one of the following four-course sequences:

• DANC 1811, DANC 2813, DANC 2814, and DANC 3812. All courses must be completed to receive waiver.
• MUST 1711, MUST 1712, MUST 2711, and MUST 2712. All courses must be completed to receive waiver.
• A transfer course or courses equivalent to the waivers described in the bullets above.

Courses must be completed with a C- or better to satisfy GenEd waiver requirements.

Department/schools/colleges may stipulate a higher grade to satisfy department/school/college requirements.

Tyler School of Art

Students in the following degree programs at Tyler School of Art may satisfy the GA requirement by successfully completing a specified multi-course sequence:

• Bachelor of Arts Visual Studies
• Bachelor of Science Art Education
• Bachelor of Fine Arts
ARTH 1156, and FDPR 1511 or VS 1151. All courses must be completed with a C- or better to receive waiver.

TUJ students in the BA in Art degree program may satisfy the GA requirement by successfully completing the following set of courses:

ARTU 1101, ARTU 1201, ARTU 1401 and ARTU 1501. All courses must be completed with a C- or better to receive waiver. Note that this specific waiver is only for TUJ students in the BA in Art degree program.

Department/schools/colleges may stipulate a higher grade to satisfy department/school/college requirements.

Consult an academic advisor for details.

School of Theater, Film and Media Arts

Students may satisfy the GA requirement by successfully completing the following three-course sequence:

THTR 1003, THTR 1096, and THTR 1231. All courses must be completed with a C- or better to receive the waiver.

Global/World Society (GG)

Requirement: One 3-credit hour course.

GenEd Global/World Society courses explore societies and cultures outside of the United States. These courses take one of two approaches. Some concentrate on a single nation or region, examining in depth its political, social, historical, cultural, artistic, literary, geographic, and/or economic landscape. Others investigate globalization and its effects across nations and regions.

Global/World Society courses are intended to teach students how to:

- Understand the influences (e.g. political, social, historical, cultural, artistic, literary, geographic, economic) on world societies or processes (e.g. globalization) linking world societies;
- Access and analyze materials related to world societies and cultures;
- Develop observations and conclusions about selected themes in world societies and cultures;
- Construct interpretations using evidence and critical analysis; and
- Communicate and defend interpretations.

Global/World Society Courses

Below, you will find a list of GenEd courses in this area.

Please be advised that GenEd offerings vary from semester to semester and that all GenEd courses will not be offered every semester. For the most current list of GenEd offerings, please consult the Class Schedule (https://www.temple.edu/apply/common/cdcheck.asp).

In addition, a single GenEd course may be offered by more than one department. GenEd courses offered by more than one department will have the same course number and the same course title. A student may not take the same course from multiple departments and earn credit toward graduation. However, if a student wishes to replace her/his grade in a GenEd course, s/he may replace the grade with any course bearing the same course number and the same course title regardless of department.

- Advertising and Globalization
- Border Crossings: Gendered Dimensions of Globalization
- Confronting Empire: Voices of Resistance
- Development and Globalization
- Education for Liberation Here and Abroad
- Evolution of Culture
- Gender and World Societies
- Global Cities
- Global Slavery
- Imaginary Cities
- Jewish Diaspora in Latin America
- Latin American Media
- Latino Immigration
- Law Beyond Borders
- Philadelphia Dance Experience
- Religion in the World
• The Detective Novel
• The Global Crisis: Power, Politics and the Making of Our Times
• Turning Points in Human History: The Ancient World
• Turning Points in Human History: The Modern World
• War and Peace
• World Affairs
• World Performances
• World Regions and Cultures: Diversity and Interconnections
• World Society in Literature & Film

• Honors Fate, Hope, and Action: Globalization Today
• Honors Imaginary Cities
• Honors Religion in the World
• Honors War and Peace
• Honors Women in Modern Bengali Film
• Honors World Affairs
• Honors World Performances
• Honors World Society in Literature & Film

Waiver: The Global/World Society requirement may be waived if:

• a student successfully completes (with a C- or better) credit-bearing coursework worth at least three semester hours in an approved summer or semester study abroad program with a minimum stay abroad of 28 days.
• a student provides a transcript with an international study abroad experience in which at least three semester hours of coursework transferred to Temple.
• a student is a Foreign National student and whose permanent residence is outside of US boundaries.

Consult an academic advisor for details.

**Human Behavior (GB)**

**Requirement:** One 3-credit hour course.

GenEd Human Behavior courses address the relationships between individuals and communities. Courses may focus on the relationship between individuals and communities in general or may engage those relationships from specific perspectives (such as art, music, education, religion, economics, politics or education), or look at them within specific themes (such as food & eating, crime, crisis, sexuality, or adolescence).

Human Behavior courses are intended to teach students how to:

• Understand relationships between individuals and communities;
• Understand theories or explanations of human behavior used to describe social phenomena;
• Examine the development of individuals' beliefs, behaviors, and assumptions and how these affect individuals and communities;
• Apply one disciplinary method to understand human behavior or explain social phenomena;
• Access and analyze materials related to individuals, communities or social phenomena; and
• Compare and contrast similar social phenomena across individuals or communities.

**Human Behavior Courses**

Below, you will find a list of GenEd courses in this area.

Please be advised that GenEd offerings vary from semester to semester and that all GenEd courses will not be offered every semester. For the most current list of GenEd offerings, please consult the Class Schedule (https://www.temple.edu/apply/common/cdcheck.asp).

In addition, a single GenEd course may be offered by more than one department. GenEd courses offered by more than one department will have the same course number and the same course title. A student may not take the same course from multiple departments and earn credit toward graduation. However, if a student wishes to replace her/his grade in a GenEd course, s/he may replace the grade with any course bearing the same course number and the same course title regardless of department.

• Ancient War Games: Sport and Spectacle in Greece and Rome

• Honors Guerrilla Altruism: A Mini-Manual of Subversive Activism
• Honors Human Sexuality
• Honors Language in Society
• Honors Meaning of Madness
• Honors Philosophy of the Human
• Honors: The Quest for Utopia
• Honors Sexual Orientation, Gender Identity and the Law
• Honors Tweens and Teens
• Honors Workings of the Mind
• Honors Youth Cultures

**Waiver:** Students pursuing undergraduate degrees in education, including art, middle or secondary certifications, may be exempted from the GenEd Human Behavior requirement upon completion of collegiate requirements.

A student will be waived from the GenEd Human Behavior requirement upon completion of one of the following multi-course sequences:

- EDUC 2109, SPED 2231, and ENES 3338. All courses must be completed with a C- or better to receive waiver.
- EDUC 2179; SCES 2189 or MAES 2189; SCES 4189 or MAES 4189; and SECE 3796. All courses must be completed with a C- or better to receive waiver.
- ECED 2101, ECED 3209, and SPED 2231. All courses must be completed with a C- or better to receive waiver.

Consult an academic advisor for more information.
**Mosaic (GY & GZ)**

**Requirement:** Mosaic: Humanities Seminar I (3 credits) and Mosaic: Humanities Seminar II (3 credits). Students normally should take Mosaic I in the semester immediately following the completion of Analytical Reading & Writing, and Mosaic II immediately after completing Mosaic I.

In these small discussion-based classes, students will be guided through a thematic approach to primary texts from great world cultural and intellectual traditions. Themes such as "journeys," or "faith" or "money" are the basis for reading and understanding a set of important texts from different time periods and different cultures. For example, as students explore the theme of "power," they will start with Homer's *Iliad* and the Declaration of Independence. Expanding on this theme, they will read 18th-century political philosopher John Locke and 20th-century American civil rights leader Martin Luther King Jr., while weaving in important texts from China and the Middle East. As students interrogate the theme of "power," they will be making connections across different time periods, cultures, and types of writing.

The Mosaic sequence will be enhanced by the addition of "texts" from great world musical, artistic and architectural traditions, allowing students to grapple with important themes in a richer multidisciplinary and multicultural fashion.

Mosaic courses build upon the communication and critical thinking skills students developed in the Analytical Reading & Writing course, particularly the ability to make connections and arguments across different texts. That is why it is so important to take the Analytical Reading & Writing course before taking Mosaic.

Upon completion of the Mosaic sequence, students will be able to:

- Read in its entirety an unfamiliar and problematic written text (theoretically, historically, or culturally challenging);
- Recognize abstractions, large ideas, and implications associated with difficult written texts;
- Make connections across disciplines, history and cultural boundaries;
- Construct positions, arguments, and interpretations through textual analysis and evaluation; and
- Produce thoughtful writing that reflects persuasive position and the conventions of academic discourse.

**Mosaic Courses**

- Mosaic: Humanities Seminar I
- Mosaic: Humanities Seminar II
- Honors Mosaic: Humanities Seminar I
- Honors Mosaic: Humanities Seminar II

**Quantitative Literacy (GQ)**

**Requirement:** One 4-credit hour course.

**Math Placement Exam.** The Mathematics Placement Exam is required for all first-year students, transfer and non-matriculating students who have not successfully completed a credit-bearing, college-level Math course with a grade of C- or better. The placement exam will indicate if the student may register for either a Quantitative Literacy course or a higher-level math course. The student may also be placed into a lower-level math course.

A student placed in MATH 0701 is required to complete successfully MATH 0701 before enrolling in a GenEd Quantitative Literacy course or GenEd Science & Technology courses, as these courses require students to understand and perform basic computational skills.

GenEd Quantitative Literacy courses present mathematical thinking as a tool for solving everyday problems and as a way of understanding how to represent aspects of a complex world. They are designed to prepare students as citizens and voters to have the ability to think critically about quantitative statements, to recognize when they are misleading or false, and to appreciate how they relate to significant social or political issues. While computation may be part of a Quantitative Literacy course, the primary focus is not computational skills.

Quantitative Literacy courses are intended to teach students how to:

- Understand quantitative models that describe real world phenomena and recognize limitations of those models;
- Perform simple mathematical computations associated with a quantitative model and make conclusions based on the results;
- Recognize, use, and appreciate mathematical thinking for solving problems that are part of everyday life;
- Understand the various sources of uncertainty and error in empirical data;
- Retrieve, organize, and analyze data associated with a quantitative model; and
- Communicate logical arguments and their conclusions.

**Quantitative Literacy Courses**

Below, you will find a list of GenEd courses in this area.
Please be advised that GenEd offerings vary from semester to semester and that all GenEd courses will not be offered every semester. For the most current list of GenEd offerings, please consult the Class Schedule (https://www.temple.edu/apply/common/cdcheck.asp).

In addition, a single GenEd course may be offered by more than one department. GenEd courses offered by more than one department will have the same course number and the same course title. A student may not take the same course from multiple departments and earn credit toward graduation. However, if a student wishes to replace her/his grade in a GenEd course, s/he may replace the grade with any course bearing the same course number and the same course title regardless of department.

- Critical Reasoning and Problem Solving

- Quantitative Methods in the Social Sciences
- Statistical Reasoning & Games of Chance
- Statistics in the News
- Honors Digital Mapping: From Mercator to Mashups
- Honors Investing for the Future
- Honors Math for a Digital World
- Honors Mathematical Patterns
- Honors Quantitative Methods in the Social Sciences

**Waiver:** Students considering undergraduate degrees with advanced mathematical or statistical requirements may satisfy the GenEd Quantitative Literacy requirement through alternative coursework.

A student will be waived from the GenEd Quantitative Literacy requirement upon completion of any of the following:

- MATH 1031, MATH 1038, MATH 1041, MATH 1042, MATH 1941, MATH 1942, or MATH 2043.
- STAT 2101, STAT 2103, STAT 2901, STAT 2903 or an equivalent transfer course (primarily for FSBM and STHM majors and FSBM minors).
- Completion of a three-course sequence to include MATH 1015, MATH 1021 or EDUC 1017, and ECED 3107 (primarily for Early Childhood Education majors). All courses must be completed to receive waiver.
- Completion of a four-course sequence to include MATH 1015, MATH 1021, MATH 1022, and MAES 3145 or MGRE 3145 (primarily for Middle Grades Education majors concentrating in Language Arts, Science, Science and Language Arts, and Social Studies). All courses must be completed to receive waiver.

Courses must be completed with a C- or better to satisfy GenEd waiver requirements.

Department/schools/colleges may stipulate a higher grade to satisfy department/school/college requirements.

Consult an academic advisor for details.

**Race & Diversity (GD)**

**Requirement:** One 3-credit hour course.

Race & Diversity courses develop a sophisticated understanding of race and racism as dynamic concepts, pointing to the ways in which race intersects with other group identifications such as gender, class, ethnicity, religion, age, sexual orientation or disability.

Race & Diversity courses are intended to teach students how to:

- Recognize the ways in which race intersects with other group identifications or ascriptions: gender, class, ethnicity, sexual orientation, religion, disability, age;
- Understand the relationships among diversity, justice and power;
- Explore what it means for individuals and institutions to exist in a multi-racial, multi-cultural world;
- Investigate the various forms race and racism has taken in different places and times; and
- Discuss race matters with diverse others in relation to personal experience.

**Race & Diversity Courses**

Below, you will find a list of GenEd courses in this area.
Please be advised that GenEd offerings vary from semester to semester and that all GenEd courses will not be offered every semester. For the most current list of GenEd offerings, please consult the Class Schedule (https://www.temple.edu/apply/common/cdcheck.asp).

In addition, a single GenEd course may be offered by more than one department. GenEd courses offered by more than one department will have the same course number and the same course title. A student may not take the same course from multiple departments and earn credit toward graduation. However, if a student wishes to replace her/his grade in a GenEd course, s/he may replace the grade with any course bearing the same course number and the same course title regardless of department.

- African Americans, Equality and the Law: Weapon or Tool?
- Classics of African American Theater
- Dimensions of Diversity: What's Brewing in the Melting Pot?
- Embodying Pluralism
- Ethnicity and the Immigrant Experience in the U.S.
- Immigration and the American Dream
- Politics of Identity in America
- Race & Ethnicity in American Cinema
- Race & Identity in Judaism
- Race & Poverty in the Americas
- Race, Identity and Experience in American Art
- Race in the Ancient Mediterranean
- Race on the Stage
- Representing Race
- The History & Significance of Race in America
- Honors African Americans, Equality and the Law: Weapon or Tool?
- Honors Ethnicity and the Immigrant Experience in the U.S.
- Honors Immigration and the American Dream
- Honors Politics of Identity in America
- Honors Race & Ethnicity in American Cinema
- Honors Race & Identity in Judaism
- Honors Race & Poverty in the Americas
- Honors Race, Identity and Experience in American Art
- Honors Race in the Ancient Mediterranean
- Honors Representing Race
- Honors: The History & Significance of Race in America

**Science & Technology (GS)**

**Requirement:** Two 3-credit hour courses.

GenEd Science & Technology courses present scientific process in context, helping students understand how scientific phenomena and/or technological change affects human life and the planet.

Science & Technology courses are intended to teach students how to:

- Understand and describe the scientific process;
- Understand the sequential nature of science and technology;
- Recognize, use and appreciate scientific or technological thinking for solving problems that are part of everyday life;
- Understand and communicate how technology encourages the process of discovery in science and related disciplines; and
- Retrieve, organize, and analyze data associated with a scientific or technological model.

**Science & Technology Courses**

Below, you will find a list of GenEd courses in this area.

Please be advised that GenEd offerings vary from semester to semester and that all GenEd courses will not be offered every semester. For the most current list of GenEd offerings, please consult the Class Schedule (https://www.temple.edu/apply/common/cdcheck.asp).

In addition, a single GenEd course may be offered by more than one department. GenEd courses offered by more than one department will have the same course number and the same course title. A student may not take the same course from multiple departments and earn credit toward
General Education

157

graduation. However, if a student wishes to replace her/his grade in a GenEd course, s/he may replace the grade with any course bearing the same course number and the same course title regardless of department.

• Brain Matters
• Chemistry of Wine
• Cyberspace & Society
• Data Science
• Digital World 2020
• Disasters: Geology vs. Hollywood
• DNA: Friend or Foe
• Ethical Issues in Biomedical Science, Engineering and Technology
• Evolution & Extinctions
• Exploring the Cosmos
• Geology of the National Parks
• Green vs. Gray: Improving and Sustaining Urban Ecosystems
• How Things Work: The Physics of Everyday Life
• Nature Has No Reverse
• Powering the Future
• Sustainable Design
• Sustainable Environments
• Technology Transformations
• The Bionic Human
• The Environment
• The Science of Sound
• Honors Bionic Human
• Honors Cyberspace & Society

• Honors Powering the Future
• Honors: The Environment

Waiver: Students considering undergraduate degrees with scientific, engineering or technical components may satisfy the GenEd Science & Technology requirement through alternative coursework identified below.

A student will be waived from the GenEd Science & Technology requirement upon completion of any of the following two-course sequences:

• BOT 1111 — HORT 2114
• BIOL 1011 — BIOL 1012
• BIOL 1111 — BIOL 2112
• BIOL 1911 — BIOL 2912 (honors)
• CHEM 1021 & CHEM 1023 — CHEM 1022 & CHEM 1024
• CHEM 1031 & CHEM 1033 — CHEM 1032 & CHEM 1034
• CHEM 1951 & CHEM 1953 — CHEM 1952 & CHEM 1954 (honors)
• EES 1001 — EES 2011
• EES 1001 — EES 2021
• EES 1001 — EES 2022
• EES 1001 — EES 2061
• EES 2001 — EES 2011
• EES 2001 — EES 2021
• EES 2001 — EES 2022
• EES 2001 — EES 2061
• KINS 1221 — KINS 1222
• KINS 1223 — KINS 1224
• PHYS 1001 — PHYS 1004
• PHYS 1021 — PHYS 1022
Students who change their course of study prior to completing the second course of any of the specified two-course sequence may complete their GenEd Science & Technology requirement in two ways:

- One GenEd GS course and one course from either List I or List II
- One course from List I and one course from List II

List I
- BOT 1111
- BIOL 1011
- BIOL 1111
- BIOL 1911 (honors)
- CHEM 1021 & CHEM 1023
- CHEM 1031 & CHEM 1033
- CHEM 1951 & CHEM 1953 (honors)
- EES 1001
- EES 2001
- KINS 1221
- KINS 1223
- PHYS 1001
- PHYS 1021
- PHYS 1061
- PHYS 2021
- PHYS 2921

List II
- HORT 2114
- BIOL 1012
- BIOL 2112
- BIOL 2912 (honors)
- CHEM 1022 & CHEM 1024
- CHEM 1032 & CHEM 1034
- CHEM 1952 & CHEM 1954 (honors)
- EES 2011
- EES 2021
- EES 2022
- EES 2061
- KINS 1222
- KINS 1224
- PHYS 1004
- PHYS 1022
- PHYS 1062
- PHYS 2022
- PHYS 2922

Consult an academic advisor for more information.

U.S. Society (GU)

Requirement: One 3-credit hour course.

GenEd U.S. Society courses strengthen students’ understanding of the history, society, culture and political systems of the United States.
They are intended to teach students how to:

- Access and analyze historical, analytical, and cultural materials;
- Develop observations and conclusions about selected themes in U.S. society and culture;
- Construct interpretations using evidence and critical analysis;
- Communicate and defend interpretations; and
- Analyze the ways difference and heterogeneity have shaped the culture and society of the U.S.

**U.S. Society Courses**

Below, you will find a list of GenEd courses in this area.

Please be advised that GenEd offerings vary from semester to semester and that all GenEd courses will not be offered every semester. For the most current list of GenEd offerings, please consult the Class Schedule (https://www.temple.edu/apply/common/cdcheck.asp).

In addition, a single GenEd course may be offered by more than one department. GenEd courses offered by more than one department will have the same course number and the same course title. A student may not take the same course from multiple departments and earn credit toward graduation. However, if a student wishes to replace her/his grade in a GenEd course, s/he may replace the grade with any course bearing the same course number and the same course title regardless of department.

- American Military Culture

Intercollegial Programs

Temple University offers intercollegial and interdisciplinary academic programs that involve students and departments in more than one of the university's schools, colleges and divisions. These programs provide students with opportunities to cross the boundaries of traditional academic disciplines, combine a variety of perspectives, and take advantage of faculty expertise in different departments throughout the University. The programs are designed to accommodate students' interests and prepare students for success in a variety of career fields. The schools, colleges and divisions collaborating in these programs are indicated in each description. Each college’s degree requirements are described in the Schools, Colleges, and Divisions section of this Bulletin. Students should consult the contact person of an intercollegial program for more information about both collegial policies and requirements, as well as the program itself.

- Digital Media Technologies (p. 160)
- Environmental Programs (p. 161)
- Mathematical Economics (p. 161)

Digital Media Technologies

Sally Kyvernitis, CIS Faculty Advisor
Science Education and Research Center, Room 330
215-204-2030
sallyk@temple.edu

Dr. Nancy Morris, MSP Chairperson, Contact for MSP Requirements
Annenberg Hall, Room 205
215-204-8394
nancy.morris@temple.edu

The Digital Media Technologies Minor is an interdisciplinary minor offered through the Department of Media Studies and Production (MSP) within the School of Media and Communication and the Computer and Information Sciences (CIS) Department within the College of Science and Technology. This minor is designed to expand students' knowledge of the information age and enable them to share communications over the internet using fast evolving, emerging technologies.

The minor is available to undergraduate students in Media Studies and Production, Computer & Information Science, as well as other departments and colleges. Upon completion of the minor, students should be able to demonstrate the following competencies:

- Use technology to integrate internet content with computers and mobile devices.
- Design and implement content for various digital media, utilizing database technologies.
- Critically analyze decisions made regarding the use of technology, specifically in the social and ethical domains.
- Understand the impact of current and emerging technologies on communications, both locally and globally.
- Create effective written communications make professional presentations.
- Analyze and solve problems efficiently.

Transfer credits are not accepted for credit for the minor.

Minor Requirements

- Students with a GPA of 2.00 or more may declare this major by contacting either CST advising (215-204-2890) or MSP advising (215-204-5273). See additional Grade Requirements below.
- Five (5) of the Digital Media Technologies minor courses must be distinct from the student’s major. Students should see their CST or MSP advisor for course substitutions.

Four Required Courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MSP 1701</td>
<td>Introduction to Media Technology</td>
<td>3</td>
</tr>
<tr>
<td>CIS 1052</td>
<td>Introduction to Web Technology and Programming</td>
<td>4</td>
</tr>
<tr>
<td>CIS 1056</td>
<td>Advanced Web Technology and Programming</td>
<td>4</td>
</tr>
<tr>
<td>MSP 2741</td>
<td>Introduction to Internet Studies and Web Authoring</td>
<td>3</td>
</tr>
</tbody>
</table>

Two Electives:

Select two courses from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MSP 4741</td>
<td>Emergent Media Production</td>
</tr>
<tr>
<td>MSP 4221</td>
<td>Information Technology Policy</td>
</tr>
</tbody>
</table>

<tr>
<td>MSP 4221</td>
<td>Information Technology Policy</td>
</tr>
</tbody>
</table>
MSP 4252  Law and Ethics of Digital Media
MSP 4541  Mobile Media
MSP 4614  Creating a Media Business

Total Credit Hours  21-23

1  MSP majors can take MSP 2701 or MSP 2751 instead of MSP 1701.
2  CST students cannot get credit for CIS 1052 Introduction to Web Technology and Programming if they have already completed CIS 2168 Data Structures, but they can substitute CIS 2308 Web Application Programming, CIS 3344 Advanced Web Application Design and Scripting or CIS 3515 Introduction to Mobile Application Development (as long as they meet the 5 distinct course rule mentioned above).
3  CST students cannot get credit for CIS 1056 if they have already completed CIS 2168 Data Structures. These students can substitute CIS 1068 - this can be the one course that is double-counted for the CIS major as well as the Digital Media Minor.

Elective Requirements:
• For MSP students, at least one (1) CIS elective is required.
  For CIS students, at least one (1) MSP elective is required.
  For students of other backgrounds, at least one (1) MSP and one (1) CIS elective are required.
• Total elective credits will vary between 7-9.
• Permitted Substitute Elective: BIOL 3333
• All prerequisites must be completed (or permission by instructor received) to enroll in minor courses.

Most students take CIS 2305 Mobile Computing Technologies for their CIS 2000+ course requirement because CIS 2305 accepts the CIS 1052 - CIS 1056 sequence as prerequisite.

Grade Requirements
• Minor credit is not given for grades below C.
• Students with averages under 2.00 for more than two semesters will be dropped from the program.
• Students must maintain at least a 2.00 grade point average in the program to successfully complete.

Environmental Programs

Christina Rosan
Director of Environmental Studies for B.A.
Gladfelter Hall, Room 320
215-204-9327
cdrosan@temple.edu

Dr. Laura Toran
Director of Environmental Sciences for B.S.
Beury Hall, Room 223
215-204-2352
ltoran@temple.edu

The University offers two degrees in the Environmental Program: a Bachelor of Science degree that emphasizes scientific courses needed to understand environmental problems, and a Bachelor of Arts degree that emphasizes policy and societal impacts. The College of Science and Technology offers the Bachelor of Science in Environmental Science and the College of Liberal Arts offers the Bachelor of Arts in Environmental Studies. A minor also is offered through the College of Liberal Arts.

Bachelor of Science Requirements for Environmental Science
Please see the College of Science and Technology Bulletin page for details on the requirements for the Bachelor of Science degree in Environmental Science (p. 1067).

Bachelor of Arts Requirements for Environmental Studies
Please see the College of Liberal Arts Bulletin page for details on the requirements for the Bachelor of Arts degree in Environmental Studies (p. 830).

Requirements for the Minor in Environmental Studies in CLA
Please see the College of Liberal Arts Bulletin page for details on the requirements for the minor in Environmental Studies (p. 835).

Mathematical Economics

Dr. Edward Letzter, Chair, Mathematics
Wachman Hall, Room 638
The Departments of Economics and Mathematics offer the Bachelor of Arts in Mathematical Economics program as a platform for systematic concentration in the mathematical approach to economics. Economics has progressed in the last several decades by making extensive use of mathematical techniques. As a result, students who wish to pursue graduate study in economics, finance, accounting and other disciplines that make an extensive use of economics need a thorough grounding in both economics and mathematics. The Mathematical Economics curriculum provides this grounding with a broad selection of courses that cover all important areas of economics and the mathematical tools required for a critical, deep mastery of these areas. This program is especially recommended for those students who intend to pursue graduate studies in Economics.

Bachelor of Arts

Summary of Requirements for the Degree

1. University Requirements (123 total s.h.)
   - MATH 0701 and/or ENG 0701, if required by placement testing.
   - All Temple students must take a minimum of two writing-intensive courses as part of their major. Following is a list of courses that can be used to satisfy the writing-intensive requirement:
     - ECON 3596 Energy, Ecology, and Economy 3
     - ECON 3597 Health Economics 3
     - ECON 3598 Economics Writing Seminar 3
     - MATH 3096 Introduction to Modern Algebra 3
     - MATH 3098 Modern Algebra 3
     - MATH 4096 Senior Problem Solving 3
   - Students must complete the General Education (GenEd) requirements.
     - The General Education Curriculum consists of approximately 31-32 s.h. See the General Education (p. 143) section of the Undergraduate Bulletin for the GenEd curriculum.
     - Students who complete this major typically receive a waiver for 1 Quantitative Literacy (GQ) GenEd course.

2. College Requirements
   - 90 credits within the College of Science & Technology (CST) or the College of Liberal Arts (CLA).
   - 45 Upper-Level (2000+) credits within the College of Science & Technology (CST) or the College of Liberal Arts (CLA).
   - Second (2nd) Level of a Foreign Language (1002).

3. Major Requirements for Bachelor of Arts (61-62 s.h.)

Computer & Information Science
Select one of the following:

<td>Economics of Risk and Uncertainty</td>
<td></td>
</tr>
</tbody>
</table>

### Total Credit Hours

61-62

1. Students who choose MATH 1038 must also take the linked course MATH 1039.
2. MATH 2111 can fulfill one of the Mathematics electives, but it must be taken prior to MATH 3098 and MATH 3141.

(F) - Fall only course.

### Distinction in Major

For distinction in Mathematical Economics a student must have an overall GPA of 3.25 or higher. A student must also have a GPA of 3.50 or higher in the 3000+ Mathematics courses, and a GPA of 3.60 or higher in the 3000+ Economics courses.

**Total Credit Hours:** 123

(F) - Fall only course

1. Students who choose MATH 1038 must also take the linked course MATH 1039.
2. MATH 2111 can fulfill one of the Mathematics electives, but it must be taken prior to MATH 3098 and MATH 3141.
3. One of the Mathematics electives must be a writing-intensive course in order to satisfy the University requirement that each student must fulfill two writing-intensive courses within the major.
Temple University, Japan Campus

The Temple University, Japan Campus (TUJ), located in Tokyo, offers the following programs, which are not offered at any other Temple campus:

- Associate in Arts in General Program (p. 165)
- Bachelor of Arts in General Program (p. 166)
- Bachelor of Arts in International Affairs (p. 168)
- Bachelor of Arts in Japanese (p. 171)
- Bachelor of Arts in Psychological Studies (p. 173)
- Bachelor of Science in International Business Studies (p. 175)

For more information about the TUJ programs, click on the links above.

For more information about TUJ, go to the TUJ web site (http://www.tuj.ac.jp/ug).

Associate in Arts in General Program

(College of Liberal Arts)

The Associate in Arts (A.A.) degree in General Program, which is only offered on the Temple University, Japan Campus, is awarded by the College of Liberal Arts.

Requirements

The Associate in Arts (A.A.) degree requires a minimum of 62 credits distributed according to University policy, with at least a 2.0 cumulative GPA. A minimum 2.0 GPA must also be maintained in all General Education and all College of Liberal Arts (CLA) courses.

Non-CLA Courses

A.A. candidates must complete a minimum of 45 credit hours within CLA disciplines. A.A. candidates may count a maximum of 17 non-CLA credits toward the A.A. degree.

Preparatory Courses

A maximum of 9 credit hours of the preparatory course works (numbered 0700 - 0799) may be applied to the A.A. degree.

Suggested Academic Plan

Please note that this is a suggested academic plan. Depending on your situation, your academic plan may look different.

1 One of these CLA Upper Level Courses must be Writing Intensive (WI).

**Bachelor of Arts in General Program**

*(College of Liberal Arts)*

Students at Temple University, Japan Campus may, in consultation with the Major Coordinator and the Academic Advising Center, design an interdisciplinary major in the humanities (art history, Chinese, English, Japanese, Korean, philosophy, religion) or the Social Sciences (American studies, Asian studies, economics, history, political science, psychology).

The successful completion of the approved sequence of courses will lead to a Bachelor of Arts in General Program. A General Program major allows students to benefit from all the academic fields available at the Japan campus and to create an area of study that embraces an intellectual theme, such as environmental and population control, human rights, war and peace, or moral and ethical responsibilities.

The Bachelor of Arts in General Program is awarded by the College of Liberal Arts.

**Summary of Requirements for the Degree**

1. **University and College of Liberal Arts (CLA) Requirements**
   - All Temple students must take a minimum of two writing-intensive courses as part of the major.
   - Students must complete the General Education (p. 143) curriculum.
   - Students must follow CLA requirements as specified in the CLA College Requirements (p. 755) section of the Undergraduate Bulletin.

2. **Major Concentration** (Social Science Division or Humanities Division) (15 credits)
   Select one discipline from either the Social Science or Humanities division within the College of Liberal Arts.
   - Five (5) courses must be taken from the selected liberal arts discipline.
   - At least three (3) of these five (5) courses must be upper level (2000+).

3. **Interdisciplinary Electives** within the Selected Study Division (21 credits)
   In consultation with an Academic Advisor and/or Major Coordinator, select seven (7) courses from either the Social Science or Humanities division.
   - These courses must be from either the Social Science or Humanities division to which the selected concentration belongs.
   - Courses selected for this requirement area must be from at least (3) different disciplines within the selected division.

4. **Opposite Division Electives** (9 credits)
   In consultation with an Academic Advisor and/or Major Coordinator, select three (3) courses from the study division opposite from the selected concentration.
   - All three (3) courses selected for this requirement area must be upper level (2000+).

1 Of the twelve (12) courses selected for the Major Concentration and Interdisciplinary Electives requirements, at least seven (7) courses must be upper level (2000+) including two (2) writing intensive courses.

Bachelor of Arts in International Affairs
(College of Liberal Arts)

The International Affairs (IA) major at Temple University, Japan Campus is an interdisciplinary major in the College of Liberal Arts. It is closely related to political science and emphasizes issues affecting relations between East Asia (Japan, China, Korea) and the United States. This major requires 10 courses (approximately 30 semester hours) divided into 5 core courses and 4 electives in the major, a capstone course, an internship of 3-6 semester hours, an East Asian area studies requirement, and an East Asian language requirement.

Summary of Requirements for the Degree

1. University and College of Liberal Arts (CLA) Requirements
   - All Temple students must take a minimum of two writing-intensive courses as part of the major.
   - Students must complete the General Education (p. 143) curriculum.
   - Students must follow CLA requirements as specified in the CLA College Requirements (p. 755) section of the Undergraduate Bulletin.

2. Major Requirements

   Major Core Courses
   - POLS 1201 Foreign Governments and Politics 3
   - POLS 1301 International Politics 3
   - Select one of the following: 3-6
     - ECON 1101 Macroeconomic Principles
     - & ECON 1102 and Microeconomic Principles
     - ECON 1103 Global Economics Issues
   - Select one of the following: 3
     - HIST 1702 World History Modern
     - GUS 1031 Geography of World Affairs
   - Select one of the following: 3
     - HIST 2804 Peace, Conflict, and Social Change
     - HIST 3228 America's Rise to Globalism
     - HIST 3229 Superpower America
     - HIST 3811 World Economy Since 1945

   Upper Level Political Science Requirements
   - Select 2 upper level (2000+) Political Science courses in consultation with the Academic Advisor and/or Major Coordinator 6
   - POLS 4000+ Writing Intensive Course (WI) 3

   Interdisciplinary Requirements
   - Select 2 courses in Social Science or other related disciplines in consultation with the Academic Advisor and/or Major Coordinator 6

   East Asian Studies Requirements
   - Select 3 courses that exclusively focus on East Asia in Social Science or other related disciplines in consultation with the Academic Advisor and/or Major Coordinator 9
   - Asian Studies 4000+ Writing Intensive course (WI) 3
### Non-USA / Non-East Asian Studies Requirements
Select 2 courses that focus on non-USA, non-East Asian regions in Social Science or other disciplines in consultation with the Academic Advisor and/or Major Coordinator

| Credit Hours | 6 |

### Internship
Complete at least one internship for at least 3 credits, upon approval by the Major Coordinator

| Credit Hours | 3 |

### East Asian Language Requirements

Bachelor of Arts in Japanese

(College of Liberal Arts)

The Japanese major program at Temple University, Japan Campus is a unique undergraduate degree program designed to offer a comprehensive four-year Japanese language curriculum in a JSL (Japanese as a Second Language) setting. It aims to achieve advanced and well-balanced proficiency in Japanese so that students will be well-equipped with linguistic skills and fully prepared to examine socio-cultural aspects of Japan and Japanese literature.

The Bachelor of Arts in Japanese will be conferred upon the student after the completion of 123 credits across the following requirements categories:

1. University requirements
   - All Temple students must take a minimum of two writing-intensive courses as part of the major.
   - Students must complete the General Education (p. 143) curriculum (36 s.h.).

2. General electives vary according to a student's individual program of study. Consult your academic advisor for more information.

3. Major requirements (minimum 43 credits)

Bachelor of Arts in Psychological Studies

(College of Liberal Arts)

The Bachelor of Arts in Psychological Studies, which is offered only on the Temple University, Japan Campus (TUJ), is awarded by the College of Liberal Arts.

The Psychological Studies major is designed to promote a broad understanding of human behavior and the affective and cognitive processes that underlie it from the perspective of psychology as a science and a profession. In addition to introductory courses, the study of statistics and research methodology will prepare students to deal with the wealth of research-based knowledge they will encounter as they develop a strong foundation in basic and applied areas of psychology. The research or internship option rounds out the Psychological Studies majors’ experiences as they complete advanced electives. Unique to TUJ’s Psychological Studies major is its focus on cross-cultural issues, with special emphasis on Asia and the U.S.

Summary of Requirements for the Degree

1. University and College of Liberal Arts (CLA) Requirements
   - All Temple students must take a minimum of two writing-intensive courses as part of the major. The writing-intensive courses required for this major are PSY 3096 and a Psychology course at the 4000 level.
   - Students must complete the General Education (p. 143) curriculum.
   - Students must follow CLA requirements as specified in the CLA College Requirements (p. 755) section of the Undergraduate Bulletin.

2. Major Requirements

   Introductory Courses
   - PSY 1001 Introduction to Psychology 3
   - PSY 1002 Careers in Psychology 1
   - PSY 1003 Statistics for Psychology 3
   - PSY 1004 Critical Thinking in Psychology 3

   Psychological Studies Science Requirement
   - Select one of the following: 3-4
     - BIOL 1001 Human Biology
     - BIOL 1011 General Biology I
     - CHEM 1031 General Chemistry I
     - PHYS 1021 Introduction to General Physics I

   Developmental/Clinical/Social Foundation Courses (Group 1)
   - Select one of the following: 3
     - PSY 2201 Foundations of Psychopathology
     - PSY 2301 Foundations of Developmental Psychology
     - PSY 2401 Foundations of Social Psychology
     - PSY 2402 Foundations of Industrial and Organizational Psychology

   Brain and Cognitive Sciences Foundation Courses (Group 2)
   - Select one of the following: 3
     - Select one of the following:

   Total Credit Hours: 123
PSY 2101  Foundations of Cognitive Psychology  
PSY 2103  Foundations of Learning and Behavior Analysis  
PSY 2104  Foundations of Sensation and Perception  
PSY 2501  Foundations of Behavioral Neuroscience  
PSY 2502  Foundations of Cognitive Neuroscience  

**Psychology Foundation Elective Course**  
Select an additional course from Group 1 or Group 2  

**Required Methods Course**  
PSY 3096  Conducting Psychological Research  

**Internship / Integrated Research / Clinical Practicum**  
Must complete at least one internship, integrated research or clinical practicum for at least 3 credits, with approval by the Major Coordinator.  

**Advanced Courses**  
In consultation with the Academic Advisor and/or Major Coordinator, select 2 psychology courses at the 3000 level or higher, one of which must focus on gender/culture.  

**Senior Writing Seminar**  
PSY 4000+ Writing Intensive Course  

**Total Credit Hours**  
37-38

Bachelor of Science in International Business Studies

(College of Liberal Arts)

Temple University, Japan Campus (TUJ), located in Tokyo, offers a Bachelor of Science in International Business Studies (IBS). TUJ offers a truly international experience - inside and outside the classroom, as well as among students and faculty. This program will prepare students for a challenging career anywhere in the world.

The IBS program challenges students to integrate international business with language studies, an understanding of world affairs and hands-on internship experience. Students develop the global mindset that multinational firms need in the 21st century.

IBS students work on teams with people of similar backgrounds and with those who are often quite different in how they approach life and their studies. TUJ encourages students not only to be multilingual, but also to understand how to navigate across cultures and borders. The IBS program teaches them to think critically, form a well-reasoned opinion, and then capably express that opinion. This is accomplished through class participation, visits to local businesses, and by bringing savvy international business people in the classroom. With those tools, TUJ graduates move confidently into the world of international business and launch productive, fulfilling and viable global careers.

The Bachelor of Science in International Business Studies will be conferred upon a student after the completion of 123 credits. The College of Liberal Arts awards this degree.
Summary of Requirements for the Degree

1. University and College of Liberal Arts (CLA) requirements
   - All Temple students must take a minimum of two writing-intensive courses as part of the major.
   - Students must complete the General Education (p. 143) curriculum.
   - Students must follow CLA requirements as specified in the CLA College Requirements (p. 755) section of the Undergraduate Bulletin.

2. Lower Division Business courses
   - HRM 1101 Leadership and Organizational Management 3
   - ACCT 2101 Financial Accounting 3
   - MKTG 2101 Marketing Management 3
   - ACCT 2102 Managerial Accounting 3
   - **Total Credit Hours**: 12

3. International Business Studies major requirements
   - Select two of the following: 6
     - JIBS 3101 Introduction to Global Finance
     - JIBS 3102 Global Operations and Supply Chain Management
     - JIBS 3501 Marketing in a Global Environment
   - Writing Intensive Requirements: 6
     - JIBS 4197 Global Business Overview
     - JIBS 4596 International Business Capstone
   - **Total Credit Hours**: 12

4. Other required general courses
   - MATH 1021 College Algebra 4
   - MATH 1031 Differential and Integral Calculus 4
   - MATH 2031 Probability and Statistics 3
   - ECON 1101 Macroeconomic Principles 3
   - ECON 1102 Microeconomic Principles 3
   - ECON 3563 International Trade 3
   - or ECON 3564 International Monetary Economics 3
   - ECON 3538 Managerial Economics 3
   - ECON 3581 Co-op Experience in Economics 3
   - ENG 2007 Writing for Business and Industry (former number ENG 2596) 3
   - ORGS 3000 3
   - POLS 2321 Politics of the Global Economy 3
   - Political Science 2000-Level Elective 3
   - ASST 2511 Introduction to Asian Business 3
   - CLA 2020 Special Topics in Liberal Arts II (Corporate Interdisciplinary Seminar) 2
   - **Total Credit Hours**: 43

5. Language Requirements
   - Foreign Language 1001 (first level) 4
   - Foreign Language 1002 (second level) 4
   - Foreign Language 2000+ (third level) 3-4
   - Foreign Language 2000+ (fourth level) 3-4
   - **Total Credit Hours**: 14-16

6. College of Liberal Arts (CLA) or College of Science and Technology (CST)
   - Select three of any CLA/CST courses at 2000+ level or higher 9
   - **Total Credit Hours**: 9

tyler.temple.edu

History

Stella Elkins Tyler donated her estate to Temple University in the early 1930s. With an interest in progressive education and a deep appreciation of her mentor, the sculptor Boris Blai, Mrs. Tyler offered her estate with the expressed wish that, through Boris Blai, it would become an environment for the advancement of the fine arts, scholarly study in the arts, and individual creativity.

As founding Dean of Tyler School of Art, Blai instilled within the School a commitment to progressive education, emphasizing the student's mastery of technique within the framework of a liberal arts curriculum. Dean Blai insisted upon individual attention to each student's needs as the basis of successful teaching. During his 25-year tenure Dean Blai shaped the school into one of the finest visual arts centers in the country, and his founding ideals still remain paramount to Tyler's educational philosophy.

In 1960 Dean Charles Le Clair succeeded Boris Blai. During this period the Tyler Campus was improved with construction of a residence hall and two studio/classroom buildings. In 1966 Dean Le Clair founded the Tyler Study Abroad program in Rome, Italy. Tyler's Rome Campus thrives today as one of the most respected fine arts study abroad programs in Europe. The program has expanded to include a full range of liberal arts, architecture, business, and law courses, with an emphasis on topics relating to Rome, Italy, and the European Common Market.

Throughout the 1960s and 1970s, Tyler's curriculum continued to grow in response to new definitions of art-making and the role of art in society. New programs and modern facilities in design, ceramics, glass, metals, and photography were added. During this time, Tyler developed the Art and Art Education department (changed in 2013 to Art Education and Community Arts Practices) and the Art History department on Temple's Main Campus. Today, the curriculum at Tyler continues to address contemporary needs by incorporating digital technology, video, installation, performance, community arts, and the newest degree program, the B.A. in Visual Studies, inaugurated in fall 2011.

Introduction

Goals and Objectives

The Tyler School of Art provides a comprehensive curriculum in fine arts, crafts, design, art education, art history, and architecture. The Bachelor of Fine Arts (B.F.A.) professional programs are offered in:

- Ceramics/Glass
- Fibers and Material Studies
- Graphic and Interactive Design
- Metals/Jewelry/CAD-CAM
- Painting/Drawing
- Photography
- Printmaking
- Sculpture
- B.F.A. Studio with an Art Education Concentration.

The Tyler School of Art also offers:

- B.A. in Art (Japan campus only)
- B.A. in Art History
- B.A. in Visual Studies
- B.S.Ed. in Art Education
- B.S. in Architecture
- B.S. in Facilities Management
- B.S. in Architectural Preservation

Summer classes, pre-college programs and weekend workshops are available. For information on graduate programs, please go to the Tyler web site at tyler.temple.edu or to the Graduate Bulletin (http://bulletin.temple.edu/graduate).
In January 2009, we opened our doors to the new Tyler facility on main campus. Award-winning architect Carlos Jimenez, designer of some of the country's premier art education facilities and exhibition spaces, designed Temple's new Tyler School of Art building. The new Tyler building is located adjacent to the Esther Boyer College of Music and Dance, the new Tyler Architecture Building (opened 2012) and the departments of Film and Media Arts and Theater to form a "mini arts campus" within Temple's main campus. In June 2012, the Temple University Board of Trustees voted to create the Temple University Center for the Arts, uniting the Boyer College of Music and Dance, Tyler School of Art, and the Division of Theater, Film and Media Arts under one administrative umbrella. In October 2015, the Board of Trustees voted to move the Tyler School of Art out of the Center for the Arts, thus allowing the school to become independent. The Board also voted to rename the Center for the Arts to the Center for the Performing and Cinematic Arts. For more information on the Arts at Temple, visit Center for the Performing and Cinematic Arts (http://arts.temple.edu).

Easy access to the wealth of academic courses in Temple's other schools and colleges, athletics, residence halls, student parking, student organizations, and the active campus life of Temple University adds cosmopolitan breadth to Tyler's studio and academic programs.

From its modest enrollment of 12 students in the first freshman class in 1935, Tyler now boasts a student body of over 1,400. Today, Tyler is a dynamic organization, serving students at Temple's Main Campus and the Temple University Rome and Tokyo campuses. For over 80 years, the foundation of Tyler's program has been a faculty of practicing artists and scholars teaching highly-talented and motivated students.

Accreditation
Tyler School of Art, Temple University is an accredited member of the National Association of Schools of Art and Design (NASAD) and the Middle States Association of Colleges and Schools.

The Architecture Program is accredited by the National Architectural Accrediting Board (NAAB), the sole agency authorized to accredit U.S. professional degree programs in architecture. The Facilities Management program is in the process of applying for accreditation by IFMA, the International Facility Management Association.

According to the NAAB, "In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted a 6-year, 3-year, or 2-year term of accreditation, depending on the extent of its conformance with established educational standards. Master's degree programs may consist of a preprofessional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited professional education. However, the preprofessional degree is not, by itself, recognized as an accredited degree."

General Information for Freshman and Transfer Applicants to All Programs (BA, BS, BFA, BSED)
Applicants to any Tyler program must meet the deadlines established by the Undergraduate Admissions Office. Please refer to Admission Process (http://tyler.temple.edu/admission-process) for updated undergraduate deadline information as well as information regarding the academic requirements for admission. After the priority deadline dates listed by Temple Undergraduate Admissions, applications are accepted on a rolling admissions basis.

General Information for Intra-University Transfer Students
Temple students who wish to transfer into a Tyler program or Tyler students who wish to transfer into a different Tyler program should contact the Tyler Admissions Office for policies and procedures.

Art, Art Education and Visual Studies
Bachelor of Arts in Visual Studies and Bachelor of Science Programs
Entering undergraduates are admitted to the Tyler programs by the Director of Admissions of Temple University based on a review of the applicant's academic credentials and the results of the portfolio review. This procedure requires the applicant to file all records and test scores in the Office of
Undergraduate Admissions of Temple University and to submit a portfolio. There is a specific format for the portfolio required; please review the information at the Tyler web site: tyler.temple.edu. Appointments for freshman portfolio reviews can be made by calling 215-777-9090.

Transfer Students to the B.A. in Visual Studies and the B.S.E.D. in Art Education Programs

Transfer applicants or freshmen with Advanced Placement or College-Level Studio Courses
All transferred applicants must complete the Temple online application and send their transcripts, etc., to the Temple University Undergraduate Admissions Office. All students are required to submit a portfolio of work for admission and evaluation.

Bachelor of Arts in Art

The B.A. in Art program on the Main campus of Temple University is no longer admitting new students. Those interested in a B.A. in Art may investigate the B.A. in Art offered through the Temple University-Japan campus or consider the B.A. in Visual Studies offered through Tyler on the Main campus of Temple University. Students who were previously enrolled in the B.A. in Art who wish to re-matriculate should review the re-enrollment policy listed on the Policies tab.

Transfer Portfolio Format

The portfolio should be uploaded to temple.slideroom.com (https://temple.slideroom.com). SlideRoom charges a fee for this service. Transfers are reviewed by a committee, so they are not eligible for in-person reviews. You are required to submit images that represent each studio art course completed. Descriptions of each image should be included, indicating size, medium, title, the course in which the work was completed, and date completed. Applicants to the B.A. in Visual Studies and the B.S.E.D. in Art Education are required to submit the writing exercise as outlined in the portfolio requirements for these programs. Most transfer applicants should include the drawing exercise as well unless they have completed a college drawing course. For more information, refer to the Tyler web site: tyler.temple.edu/admission-process.

Please note that the Department of Art Education and Community Arts Practices will only accept up to 24 credits of studio toward either the B.A. in Art or the B.S.E.D. in Art Education degree.

Tyler accepts transfer students from institutions of higher education, depending on accreditation. The transfer student will be required to complete a minimum of 30 studio credits as a student at the Tyler School of Art. In order to be considered for transfer credit to the B.A. or B.S. degree, studio credits must have been completed within the last 10 years, regardless of where those credits were completed.

B.S. in Architecture, B.S. in Architectural Preservation, B.S. in Facilities Management

The three Architecture department programs all begin with the same two-year Architecture Foundations curriculum, also called the Architecture Undeclared curriculum. All freshman applicants to any of the three programs must complete the Temple online application and select "Architecture Undeclared" as their program of study. Admission will be granted to those students with strong academic credentials. Admission to the university does not guarantee admission to the one of the three degrees offered by the Architecture department. Students who clearly meet the academic requirements for admission are not required to submit a portfolio. Students who are accepted into another program at Temple who do not meet the academic requirements for admissions may present a portfolio. For specific portfolio format guidelines, please go to tyler.temple.edu/admission-process.

All students are initially admitted into the Architecture Foundation Program (Architecture Undeclared) and, if desired, apply for admission to the pre-professional Bachelor of Science in Architecture (Pre-Professional Program), or the B.S. in Facilities Management or the B.S. in Architectural Preservation during the fourth studio semester. Requirements for entrance into these programs are outlined on the Architecture web site at tyler.temple.edu/programs/architecture.

The professional degree in architecture offered by Tyler is the Master of Architecture (M.Arch) degree. Students completing the pre-professional B.S. in Architecture may apply to the 4+1 BS in Arch + M.Arch professional track program during their junior year or two-year M.Arch Professional Program in their senior year. Students from other Bachelor’s programs can apply to the three-year Design Intensive Program.

All students admitted to the Architecture Department are guaranteed to graduate from one of the three undergraduate degree programs (the B.S. in Architecture, the B.S. in Facilities Management, or the B.S. in Architectural Preservation) as long as the academic requirements of the University are met, but admission into the B.S. in Architecture is limited and competitive.

Students who are not accepted into the B.S. in Architecture may select either the B.S. in Facilities Management or the B.S. in Architectural Preservation as long as they are in good academic standing and have completed the required coursework.

For additional information, please go to tyler.temple.edu/programs/architecture.

Transfer students seeking advanced placement in architecture design studio will be evaluated by portfolio and the review of the transcripts. Admitted students not presenting a portfolio of work will automatically be placed in first-year design studio, regardless of previous credits. Portfolios must be uploaded to temple.slideroom.com (https://temple.slideroom.com). SlideRoom charges a fee for this service.

Architecture Portfolio Format

Admission to the architecture program is selective, and based on a review of the academic credentials. A portfolio is not required for admission. If the student is not selected for architecture but meets the general requirements for admission to Temple University and wishes to be considered for admission to architecture, he/she must submit a portfolio of artistic or creative work, as per requirements, procedures and assessment criteria specified
by the Architecture Department. Portfolios must be uploaded at temple.slideroom.com (https://temple.slideroom.com). SlideRoom requires an additional fee for this service.

For complete portfolio format information for freshman and transfer applicants please go to tyler.temple.edu/admission-process.

**Intra-University Transfer Admission**

Temple University students who apply as Intra-university transfer students are reviewed for admission to Architecture Foundation Studies based on GPA and availability of space in the program. Admission is selective. Typically, students with a 3.0 or higher GPA are considered. While a portfolio is not required, students may wish to submit a portfolio or work to enhance their application. Transfer students with previous college credits in architecture should submit a portfolio of work that represents studio coursework taken for consideration for advanced standing. Portfolios are to be uploaded at temple.slideroom.com (https://temple.slideroom.com). Follow the instructions on the SlideRoom web site to do this. SlideRoom requires an additional fee for this service. All intra-university transfer students (regardless of the number of credit hours completed) must complete all architecture courses from Architecture Foundation Studies (or submit evidence of having completed equivalent courses elsewhere) before continuing into the 3rd and 4th year of the B.S. in Architecture, the B.S. in Facilities Management or the B.S. in Architectural Preservation.

**Other Transfer Admission**

All transfer students must submit the online Temple University application at admissions.temple.edu. Admission will be based on GPA and prior education. A portfolio is not required for consideration for admission, but may be submitted to enhance the application. Transfer students with previous credits in architecture from other institutions may be considered for admission to Tyler's Architecture program with advanced standing. Students who already hold a Bachelor's degree and certain other upper-level transfer students may be eligible for consideration for participation in various options for acceleration. Placement into the program is based upon prior architectural education and a review of a portfolio representing studio coursework completed, not merely the number of credits earned at another institution. In order to be considered for transfer credit to the B.S. in Architecture degree, studio credits must have been completed within the last 10 years. Students who do not submit a portfolio but are academically admissible will be accepted into first year studio only.

Portfolios are to be uploaded at temple.slideroom.com (https://temple.slideroom.com). SlideRoom requires an additional fee for this service.

**Bachelor of Fine Arts**

Entering undergraduates are admitted to Tyler by the Director of Undergraduate Admissions of Temple University after consultation with Tyler's Director of Admissions following the review of the student's academic record and art portfolio. This procedure requires the applicant to file all records and test scores in the Office of Undergraduate Admissions of Temple University. See Undergraduate Admissions (http://admissions.temple.edu) for more information.

Please refer to the university deadlines on the Undergraduate Application (http://admissions.temple.edu) or go to the Temple web site (http://www.temple.edu) for deadline information. After the priority deadline dates, applications are accepted on a rolling admissions basis.

Undergraduate applicants for the B.F.A. program apply for matriculation for either the Fall or Spring semester.

**Portfolio Review**

**Freshman Applicants**

In addition to satisfying academic requirements, all B.F.A. freshman applicants are required to present a portfolio of fifteen to twenty pieces of original artwork for evaluation. Regularly-scheduled portfolio reviews are held on campus. Applicants living at a considerable distance from Tyler may elect to upload a portfolio at temple.slideroom.com (https://temple.slideroom.com). SlideRoom charges a fee for this service. Those who live in or near the Philadelphia area are expected to present a portfolio of original work during a portfolio review day. This is an occasion when applicants and their families may see the campus and discuss Tyler's educational program with faculty, staff, and students. Tyler also participates in a number of National Portfolio Day (NPDA) events where students can meet with staff or faculty for a portfolio critique. For a complete list of NPDA events in which Tyler will participate, please contact the Tyler Admissions Office. While the application to Tyler is being processed by Temple University, an interview by a member of the Tyler faculty or by the Admissions Staff must be arranged. All work included in the portfolio should have been completed during the previous year and should represent as broad a selection as possible: drawings from life, work in both color and black and white media, design examples, photography, prints, crafts, or sculpture. Portfolios must include five strong examples of drawing from observation regardless of the major the applicant wishes to pursue. We discourage work that is copied directly from photographs or magazines. Original work, CDs, DVDs, binders, etc., must not be sent through the mail. These are unacceptable and will not be reviewed or returned.

The freshman applicant is advised to submit work done independently as well as under instruction.

In order for the application to be completed, an 8 ½” x 11” self-portrait, in pencil from a mirror reflection, must be sent to Tyler. The application is not considered complete without the self-portrait; it becomes a permanent part of the application and is not returned. This self-portrait should not be framed or matted. Please refer to the Tyler admissions web site for more information. Tyler also requires a statement of purpose that is separate from the undergraduate application essay as well as a completed B.F.A. information form. For more information on the statement and the self-portrait, contact the Tyler Admissions Office.

To make a portfolio review appointment, please call the Tyler Admissions Office 215-777-9090.
Transfer Students to the BFA program

To enroll with advanced standing, applicants must fulfill the admission requirements of Temple University as well as the special requirements of the Tyler School of Art. Applicants should demonstrate a level of art performance appropriate to the year for which they are applying. Usually this requires completion of a proportion of studio and academic courses comparable to that taken by Tyler students, as well as a comparable portfolio of at least twenty (20) images of work uploaded to temple.slideroom.com (https://temple.slideroom.com). SlideRoom charges a fee for this service. The images must represent all studio coursework taken, as well as work towards a specific major. The portfolio must also include five (5) strong examples of drawing from observation, regardless of the major the applicant wishes to pursue. Drawings should be complete, sustained works, not sketches. Please note: Students interested in the Graphic and Interactive Design major may be required to submit additional work if requested by the transfer committee.

A transfer committee comprised of Tyler faculty and the Admissions staff will review the portfolios and academic records of each application to determine the best placement level possible. We encourage all transfer applicants to schedule a campus tour.

Tyler accepts transfer students from accredited institutions of higher education. The transfer student will be required to complete a minimum of 30 studio credits as a full-time student at the Tyler School of Art. In order to be considered for transfer credit to the B.F.A. degree, studio credits must have been completed within the last 10 years.

If the transfer student has not completed the equivalent of Tyler’s Foundation Program, he or she must take the deficient courses, beginning with the first semester enrolled at Tyler.

Transfer students are admitted at a specific studio level (second semester sophomore, first semester junior, etc.), which is determined by transferable courses, academic performance, and the portfolio evaluation by Tyler faculty. Students who choose to enroll do so with the understanding that they are accepting the studio placement as determined by the transfer committee.

Readmission Policy (Re-Enrollment)

See Tyler’s Academic Policies and Regulations section.

Financial Aid & Scholarships

Student Financial Services
Conwell Hall, Ground Floor
1801 N. Broad Street
215-204-2244

Financial Aid

Please see the Student Financial Aid (p. 137) section of the Bulletin. Detailed information can also be found on the Student Financial Services (http://sfs.temple.edu) web site. Applications for financial aid (Free Application for Federal Student Aid) are available through the Student Financial Services office, 215-204-2244.

Scholarships

Tyler offers merit-based and merit/financial need-based scholarships dependent upon available funding. Generally, between 16 and 20 portfolio scholarships, ranging from $1000 to full tuition, are awarded to undergraduate students entering in the fall semester. Some of these scholarships may continue dependent upon available funds, cumulative grade point average, and/or demonstrated financial need. All scholarships and guidelines for consideration are posted on the Tyler web site at tyler.temple.edu/scholarships-grants.

Students who wish to compete for portfolio scholarships must follow the deadlines and application procedures indicated on the scholarship list form.

In addition to portfolio-based scholarships, a number of scholarships for entering students based on academic achievement are awarded through Temple University to Tyler School of Art. For more information about these awards, please contact the Temple University Office of Undergraduate Admissions or go to sfs.temple.edu.

Matriculated students also have the opportunity to compete for Tyler-specific scholarships. Information about merit scholarships for continuing students is posted annually on the Tyler Student Life web site: tyler.temple.edu/scholarships-grants.

Study Away Programs

Education Abroad & Overseas Campuses
200 Tuttleman Learning Center
1809 N. 13th Street
215-204-0720
http://studyabroad.temple.edu/
Study Abroad

Many Tyler students take advantage of the opportunity to study abroad. To determine the best time to go and to make sure that studying away from Main campus will not impede time to graduation, students need to meet with an academic advisor, and are strongly advised to do so prior to their sophomore year. B.F.A. students who plan to study abroad or away should ensure that all sophomore pre-requisites for their major are met in the fall semester of their sophomore year.

Rome

Housed in the Villa Caproni, facing the Tiber River just north of the Piazza del Popolo, the school offers courses in painting, drawing, photography, printmaking, sculpture, architecture, and art history. Facilities include a library, an art gallery, private work areas, a computer lab and full equipment in studio disciplines. Art history is taught through direct observation of original works and historic sites. The student also may elect to take courses in the liberal arts including Italian and limited GenEd options. For more information about Study Abroad options, see Education Abroad (p. 49). Depending on their major, students may elect to enroll in a summer program, spend a semester, or full academic year in Rome.

Japan

Students in the Architecture Department programs can apply to study at Temple University Japan for a semester of study abroad. The spring semester offerings include an urbanism elective course for all students and a design studio for B.S. Architecture students. Students in the B.S. Facilities Management program can take business and other course requirements in Japan.

Temple Japan offers a B.A. in Art degree (digital media concentration) exclusively taught in Tokyo. BA in Visual Studies, BSED in Art Education, or BFA students seeking to study in Japan should consult their Tyler academic advisor to select appropriate coursework.

Special Programs in the US

Special summer residency and program opportunities in the US are advertised in the weekly Tyler e-newsletter, the "WHAT", as well as posted in the studio areas in the Tyler building. Some programs are supported with full or partial scholarships from Tyler.

Career Center

Temple University Career Center
220 Mitten Hall, 1913 N. Broad Street
215-204-7981

The Career Center provides students and alumni with up-to-date material on career planning, résumé preparation, interviewing skills, and job search techniques. Students are encouraged to schedule appointments for career conversation and advisement. For more information, see the Career Center (p. 69) section of the Bulletin, or go to their web site at www.temple.edu/provost/careercenter/ or telephone the office at 215-204-7981.

The Tyler Student Life Blog posts networking and career events and advertises career events and employment and internship opportunities through the weekly e-newsletter, the WHAT (Week Here At Tyler). Review the WHAT archives on the Tyler web site: tyler.temple.edu.

Honor Societies/Awards

Annual cash, book, and gift certificate awards are given to graduating students who have excelled in art, demonstrated outstanding scholastic achievement, or distinguished themselves in a particular department. Among these awards are:

- Alec Abels Memorial Award in Painting
- Billikopf Awards
- Rudolf Staffel Award in Ceramics
- Boris Blai Memorial Award in Sculpture
- Jane D. Bonelli Art Education Award
- Kristin Huggins Memorial Award
- Jack Malis Glass Award
- Allen Koss Memorial Awards
- Ann and Jack Moskovitz Art Education Award
- Raphael Sabatini Memorial Award in Printmaking
- Carmela Corso Scholarship Prize
- Edith Weil Hecht Memorial Awards in Painting and Sculpture
- Lester and Violet Hecht Award in Printmaking
- Robert and Richard Hecht Awards
- Bertha Lowenburg Prize
- Nathan Margolis Award in Ceramics
Student Life

Kari Scott, Assistant Director, Tyler Student Life
Tyler Building 110F (in the Temple Contemporary Suite)
miss.kari@temple.edu
215-777-9141

Student Life information can be found at our Tyler Student Life (http://tyler.temple.edu/student-life) web site.

Student Life Office

The Assistant Director for Student Life acts as an ombudsperson for students and facilitates a number of events and activities at Tyler. These include career networking events, graduation and convocation, student organizations and student government, and extracurricular activities. The Assistant Director for Student Life mentors the Tyler Living Learning Community and serves as an advisor to the Dean's Student Advisory Committee. The Assistant Director for Student Life acts also facilitates the annual BFA lottery for exhibition slots in the Stella Elkins Tyler Galleries and lower atrium lounge as well as coordinates exhibitions and installations in the public spaces in and around Tyler. Student Life sends out a weekly e-newsletter, The Week Here At Tyler (The WHAT), to all Tyler students with events, artist talks, exhibitions, and other fun things to do at Tyler, at Temple and in Philadelphia. This includes scholarships, internships, jobs, gigs, and artist calls.

Student Health

Temple University's Student Health Services (http://www.temple.edu/studenthealth/About_SHS.html) provides the eligible student community with affordable, accessible and high quality primary health care. They are located on the fourth floor of the 1800 Liacouras Walk building on Main campus.

Tuttleman Counseling Services (http://www.temple.edu/studentaffairs/counseling) offers students support for emotional, educational or vocational concerns. Assistance is confidential and free of charge.

The Wellness Resource Center (HEART (http://www.temple.edu/studentaffairs/heart)) provides comprehensive wellness education, resources and prevention services that empower and support Temple University Students in making informed, healthier choices in order to achieve emotional and academic success.

Student Resources

Tyler's Student Resources (http://tyler.temple.edu/student-resources) web site hosts a number of resources and information invaluable to students, including the WHAT (Week Here At Tyler) newsletter, on-campus and off-campus lectures, events and activities, and information about Philadelphia. Links to Art Supply sources, Tyler's Digital Services, forms for installations, and even pages for academic advising information are all found on the Tyler Student Resources site.

Student Organizations and Appointed Positions

Student Government - Two elected Tyler representatives participate in the Temple Student Government. This organization provides an integral link between students on all campuses and assures an ongoing dialogue with the administration.

Dean's Student Advisory Committee (DSAC) - Students who seek leadership opportunities may join the Center for the Performing and Cinematic Arts Dean's Student Advisory Committee. Recent DSAC projects include the Philadelphia Art School Mixer reception for the Annual Student Exhibition, an all Philadelphia art school exhibition at the Comcast Center, and "Craft and Create", a community service event. For more information, contact Assistant Dean Carmina Cianciulli at carmina@temple.edu. The DSAC also serves as Tyler's GAF advisory committee to help determine how activity funds Tyler receives form the University are used for arts and cultural enrichment for the University.

Additional information on Student Life organizations and events can be found at our Tyler Student Life (http://tyler.temple.edu/student-life) web site.

Visiting Artists Program

The school and individual departments sponsor an active program of extracurricular events both on and off campus, including public lectures through critical dialogues and arranged introductions, exhibitions, and workshops. These offer students the opportunity to meet with the artists and discuss their
work. Visiting artist lectures are posted on the Tyler web site, on the plasma screens throughout the Tyler building, and in the WHAT (Week Here At Tyler) e-newsletter.

**Temple Contemporary - Exhibitions and Public Programs**

Robert Blackson, Director

Tyler Building, Suite 110  
robert.blackson@temple.edu  
tyler.temple.edu/temple-contemporary  
215-777-9139

Temple Contemporary provides a visual context to inform and inspire public discussion of contemporary social concern. These discussions are collaboratively developed to address issues with local purpose and international significance.

Public programs are the primary initiative of Temple Contemporary, with exhibitions as one component of this greater need. Temple Contemporary provides approximately two live events per week from September to February, which often include screenings, workshops, gallery tours, classes, student presentations, how-to-sessions, rallies, debates, symposiums, concerts, etc. The initiation and consideration of these live events result from the recommendations of members from the Department’s advisory councils, which represent a cross section of Temple University and cultural leaders of Philadelphia.

Through consistent collaborations with faculty members and departmental curricula, the programming of the Exhibitions and Public Programs will also provide a visual and dialogical resource to aid in the teaching of numerous disciplines.

Exhibitions of undergraduate student work are held in the Stella Elkins Tyler galleries and in the Tyler upper and lower atriums and Green hallway as well as in the Architecture building. Installations of student work may also be found throughout the campus. MFA exhibitions are held in the Temple Contemporary gallery space from March through May.

Academic Policies & Regulations
The university policies and regulations generally apply to all undergraduate students and provide a framework within which schools and colleges may specify further conditions or variations appropriate to students in their courses or programs. Policies specific to Tyler School of Art are as follows:

Academic Credit
A credit hour is a measure of the amount of work represented in intended learning outcomes and verified by evidence of student achievement. A credit hour is an institutionally established equivalency that reasonably approximates:

1. not less than one hour of classroom instruction or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately fifteen weeks for one semester of credit or the equivalent amount of work over a different amount of time; or
2. at least an equivalent amount of work for other academic activities such as studio work. For example, a three-credit studio course allows for not less than nine hours of work which can include five hours of in-class studio and at least four hours of out-of-class student work.

Additional academic credit policies may be found in the Academic Policies (p. 90) section of this Bulletin.
Courses Inapplicable to Graduation

Credits earned in Mathematics 0015 and lower-level courses in Military Science are not included in the minimum number of credits required for graduation. A maximum of 4 courses or up to 12 semester hours for upper-level Military Science (Army ROTC), Naval Science (Navy ROTC), or Aerospace Studies (Air Force ROTC) courses will be applicable toward graduation credits. Courses transferred from other institutions or taken at Temple University that do not satisfy studio, art history, College or General Education requirements are elective. Tyler programs vary in the number of elective credits applicable toward the degree. When selecting courses it is recommended students check with their advisor.

Dean's List

Each fall and spring semester, those undergraduates who have met the credit hour and academic criteria for their school or college are placed on the Dean's List. See the Dean's List (p. 92) policy for specific GPA and credit-hour requirements.

Double Major within Tyler

Some undergraduate students may be interested in pursuing a double major within Tyler. Students within Tyler need to fulfill all the major requirements for each major, and must complete two writing intensive courses for each major - students may not complete three WI courses for two majors even if the majors require the same WI course. There may be some overlap with elective courses. Please check with an academic advisor to discuss the course requirements for each major.

Grievances

Please refer to the University grievance policy (p. 41), located in the Responsibilities & Rights section of this Bulletin.

Student Academic Grievance Policy and Procedure

Title IX of the Education Amendments Act of 1972 requires that each college or university establish due process for the resolution of academic grievances. Students enrolled at Temple University have the right to appeal academic decisions that they dispute. Each school and college at Temple University has established and adheres to its own grievance procedure. The following procedures are specifically applicable to all degree programs of Tyler School of Art.

Students should be advised that filing a formal grievance beyond the level of the instructor is serious and should be avoided until all informal methods of adjudication have been employed.

Step 1 – Faculty Member: A student with an academic grievance must first attempt to discuss the problem with the faculty member. In most cases, the grievance can be settled in this manner.

Step 2 – Chairperson: If the grievance cannot be resolved in Step 1, the student may submit a letter of grievance to the chairperson of the faculty member’s department stating the following: course reference number, course number and section, faculty member teaching the course, and specific reason(s) for the grievance. The chairperson shall review with the student his/her reasons for the grievance. The chairperson, with letter of grievance, shall meet with the faculty member to discuss the problem. The chairperson shall transmit, in writing, the outcome of this meeting and his/her decision to the student and faculty member. Note: If the faculty member in the grievance is the department chairperson, the letter of grievance should be submitted directly to the Assistant Dean’s Office.

Step 3 - Assistant Dean: If the student remains dissatisfied, he/she may appeal to the Assistant Dean’s Office. The Assistant Dean shall schedule a meeting first with the faculty member and the chairperson to discuss the grievance. Following this discussion, the student is invited to join the meeting to discuss the matter further and hear the decision. A report regarding the outcome of the meeting is written by the Assistant Dean and forwarded to the Dean’s Office.

Step 4 - Student Appeal and Grievance Committee: If the student decides to pursue the matter further, he/she may appeal the case to the Student Appeal and Grievance Committee which consists of the four at-large members of the Tyler Executive Council. The Dean shall appoint one of these members as Chair without vote. The committee shall also consist of two undergraduate students and one graduate student provided by the Tyler Student Alliance (see Tyler School of Art By-Laws, Article III, Section B., No. 1). The Student Appeal and Grievance Committee shall make recommendations to the Dean on each appeal or grievance. All recommendations to the Dean shall reasonably summarize the student’s claim, provide the basis for the committee’s recommendation, and state clearly the committee’s recommended disposition of the student’s claim.

Step 5 - Dean of Tyler: The Dean of Tyler shall investigate the matter thoroughly and, if necessary, discuss the case with all those involved. The Dean's decision shall be forwarded, in writing, to the student and committee.

Step 6 - University Administration: Should the student decide to appeal further, he/ she will be directed to the appropriate University administrator: the Vice Provost for Undergraduate Students or the University Dean of the Graduate School. All materials will be forwarded to the appropriate office for further consideration.

Step 7 - Provost: Appeals for contesting a grade or any academic matter are directed from the Vice Provost for Undergraduate Students or the University Dean of the Graduate School to the Provost’s Office. This is the final step and highest level for student academic appeals.
Fall and Spring Semester Time Limit For Academic Appeals
The time limit within which a grade grievance can be entered is one (1) semester after the grade has been made a part of the student’s transcript.

Summer Session Time Limit For Academic Appeals
Due to the condensed schedule of the summer sessions, the limit within which summer grade grievances can be entered is two (2) weeks after the grade has been made a part of the student’s transcript.

For further information on academic grievance procedures, please inquire in the Assistant Dean’s Office.

Grievances Other Than Academic Appeals
• Students who believe they have been discriminated against because of gender, race, national origin, age or disability, should consult the Office of Equal Opportunity Compliance (http://www.temple.edu/eoc), Sandra A. Foehl, Director, Equal Opportunity Compliance 215-204-8890 or sandra.foehl@temple.edu. You may also contact one of the University Ombudspersons (http://www.temple.edu/eoc/AppDev/ombuds.asp); Tyler's designated Ombudsperson is Kari Scott (215.777.9141 or miss.kari@temple.edu). You may contact any Temple Ombudsperson regardless of department.

Students are welcome to contact Assistant Dean Carmina Cianciulli, at carmina@temple.edu or 215-777-9199 to discuss grievance policies and procedures.

Incomplete Coursework Policy
An instructor will file an "I" (Incomplete) only if the student has completed the majority (51% or more) of the work of the course at a passing level, and only for reasons beyond the student’s control. This may include severe illness, broken limbs, family situation, etc. An incomplete may not be used to give students extra time to improve their grades. There must be a compelling reason behind each incomplete grade assigned. An instructor may file an "I" when a student has not completed the work of a course by the time grades must be submitted but has completed the majority of the work at a passing level and has a written agreement with the instructor and the department regarding completion of the work, including the nature of the work to be completed. The completion date may be no later than one year from the end of the semester in which the student took the course. The agreement shall also specify a default grade to be received if the work is not completed by the date indicated. Four copies of the agreement must be made: One copy shall be retained by the instructor, one shall be given to the student, one shall be filed with the department office and one shall be filed in the Tyler Academic Advising office in the student's record file (note that the University form states that one copy goes to the Dean's office - Tyler holds those copies in the student's file in Advising).

When reporting the grade of "I" for a student, the instructor shall also file a report of the default grade. If the instructor does not change the grade of "I", pursuant to the agreement with the student, by the end of one year from the time the grade of "I" was awarded, the appropriate University official shall automatically change the grade of "I" to the reported default grade and the default grade shall appear on the transcript and be used for all other grading purposes as the actual grade received in the course. Faculty advisors and staff advisors have the option of not permitting a student to register for an "overload" if the student is carrying one or more active incomplete courses, or for a "full load" if the student is carrying two or more active incompletes.

Independent Study Policy
The following are the guidelines and standards for “Independent Study” Undergraduate credit in Studio, Art History and Art Education for students and faculty at Tyler School of Art:

• There will be a maximum of 1 student in Independent Study per full-time faculty per fall and spring semester.
• The intended area of study must supplement, not supplant, existing studio, art history and art education courses, and curriculum.
• An Independent Study course shall count for 1-3 credits, with a maximum of 6 credits applicable toward the degree. You may not take more than two Independent Study courses in your career.
• Independent Study courses shall carry upper level numbers. Students must be classified as Juniors or Seniors. Students should have prior experience with the faculty member teaching the Independent Study course.
• A written proposal must be developed and agreed upon in advance of the beginning of the semester, describing the intended area of the investigation. At the end of the Independent Study, a paper must be submitted describing the outcome of the learning experience.
• Only after the student receives written permission from the faculty member and the department chair may they register for the class.

Installation Policy
Students or faculty who wish to have art work or performances installed outside the studio must complete an Installation form, and have it approved by the appropriate University personnel. Students or faculty must also have an approved installation form to place work outside the building, anywhere on campus. The Student Life office requires 7 business days to ensure enough time to get the appropriate approvals. In many cases extra time is needed to revise a proposal due to safety issues or otherwise unavailable space. Forms filed less than seven (7) days will risk being denied. The Assistant
Director for Student Life will work with the student and faculty and University personnel to locate appropriate space for student installations. Please note that approvals are not automatic, and can be denied on the basis of non-compliance with University policies.

Students who place projects without approval, or who abandon or incompletely de-install projects, or who do not properly restore sites, buildings, or other university property will be subject to fine and, potentially, disciplinary action. Installation forms are available online at tyler.temple.edu/displaying-artwork. Please refer any questions or concerns to Kari Scott via e-mail (miss.kari@temple.edu).

Loss or Damage
Temple University is not responsible for loss of property of any student or other individual due to fire, theft, or other cause. The university may require residence hall students to present proof of insurance against loss by fire, theft, or other cause before assignment to any university housing.

Program Performance
Matriculated BA in Art History, BA in Art, BA in Visual Studies, BFA students (with the exception of those seeking the Art Education concentration), BS in Architectural Preservation, and BS in Facilities Management in the Tyler School of Art must maintain a minimum grade point average (GPA) of 2.0 or may be subject to academic action including academic warning, probation, and dismissal from the university. Higher minimum GPAs are required by the BS in Architecture and Bachelor of Architecture Program (2.5)\(^1\), the BFA with Art Education Concentration (3.0), and the BSED in Art Education program (3.0).

\(^{1}\) Please contact the Architecture program office for updates to this policy.

Re-Enrollment Policy
All students who have attended Tyler School of Art of Temple University and wish to be considered for readmission (re-enrollment) to Tyler must fill out the request to re-enroll form (http://www.temple.edu/vpus/documents/request_to_reenroll.pdf) available at Temple University's Office of the Senior Vice Provost for Undergraduate Studies. Students should contact the Tyler Admissions Office for more information at 215-777-9090.

For those students who have left Tyler in academic good standing and apply for re-enrollment into a semester within three years of the last completed semester, no portfolio review or interview is required. A portfolio uploaded to temple.slideroom.com (https://temple.slideroom.com) is required for those BFA (see additional information for BFA in Graphic & Interactive Design majors below), BA in Art, BA in Visual Studies, or BSED in Art Education students who have not attended Tyler for more than three years from the semester in which they intend to apply for re-enrollment. SlideRoom charges a fee for this service. Please note: We are no longer accepting students for re-enrollment into the BA in Art on the Main campus; the BA in Art will only be available at the Japan campus. Students previously enrolled in that program may seek admission into the BA in Visual Studies. Students who seek re-enrollment will be considered for matriculation into the current catalog year.

Students who are dismissed from Tyler or who left on academic probation must review the academic standing policy (p. 83) located in the Academic Policies section of this Bulletin.

A portfolio uploaded to temple.slideroom.com (https://temple.slideroom.com) is also required of all BFA, BA in Art, BA in Visual Studies, or BSED in Art Education students who were dismissed or who left Tyler on academic probation. It must include twenty (20) images of your studio work, ten (10) completed at Tyler, and ten (10) after leaving Tyler that demonstrate studio progress.

Any student who attends another college or university and has taken studio art credits must submit a portfolio uploaded to temple.slideroom.com (https://temple.slideroom.com) to represent completed studio coursework in order to have those credits considered for transfer credit into the Tyler BFA, BA in Visual Studies, or BSED in Art Education programs or one of the Architecture programs. Academic credits will be accepted into the Tyler degree programs as determined by Temple University policy for the semester in which the student is applying for readmission.

The final decision regarding readmission will depend both on the recommendation of the transfer committee as well as the review of academic credentials by the Tyler Admissions Office. Please note well: Any student applying for readmission must be aware that Tyler may not accept studio credits that are more than 10 years old into any Tyler curriculum from transfer or readmission applicants regardless of where those credits were completed.

Graphic & Interactive Design (GAID) Re-Enrollment Policy

Leave of Absence Policy: Graphic & Interactive Design (GAID) students can apply to take a Leave of Absence (LOA) from Temple University/Tyler School of Art for up to 2 consecutive semesters. At the end of the LOA, a GAID major can return to school and resume their progress through the design program.

- Although every effort will be made to get GAID majors into courses they need when they return to Temple/Tyler, seats in required Graphic and Interactive Design courses cannot be guaranteed to students who return after a LOA or an extended period when they are not enrolled at Temple/Tyler. Returning students will not be added to sections that have filled which may mean additional time at Tyler will be required in order to complete the BFA in Graphic & Interactive Design.
• GAID majors who remain out of school longer than 2 consecutive semesters are required to re-enroll in the school and the program. The re-enrollment process includes a portfolio requirement to determine if the student will be readmitted to the GAID major. **Re-enrollment into the GAID major is not guaranteed.**

**Portfolio Review:**

• Students re-applying to the GAID program must show a portfolio consisting of the work they originally submitted to get into the major through the Sophomore Portfolio Review as well as work from any additional GAID classes they took. Students who were admitted into the major prior to the implementation of the GAID portfolio review in fall 2014 will need to submit a portfolio of work representing work completed in GAD 2001 and GAD 2021. Students who are out of school for more than 3 years also need to include 10 design pieces that they produced during the time they were not enrolled at Temple/Tyler.

• Students who are not re-enrolled on the basis of the portfolio have the option to re-take the prerequisites for the major (GAD 2001 and GAD 2021) to develop a new portfolio for submission to the Sophomore Portfolio Review. These students will be reviewed as second-time applicants to the GAID program. Students who have completed sophomore prerequisites for other majors may also consider re-enrollment into those majors (after discussion with an academic advisor) or seek re-enrollment into the University into a different Tyler or Temple program.

**Student Art Work**

The school reserves the right to keep art work submitted for course credit. In practice, this privilege is exercised sparingly but, in certain studio areas, the selection of one piece by each graduating student contributes to an important instructional collection.

Tyler School of Art records images of student work for use in Tyler publications and web sites. Tyler reserves the right to reproduce without notification such images of any artwork produced by students while attending Tyler for promotional or other purposes, including in print publications, institutional web sites, e-communications, multimedia presentations, and documents about Tyler or Temple University for admission recruitment, fundraising, or institutional informational purposes.

When the student art work is reproduced in Tyler publications, either in print form or electronic form, every effort will be made to give credit to the student artist. No compensation is provided to students for such uses of images of student work.

Please see the **Installation Policy** above regarding placing student art work in the public spaces at Tyler and in any Temple building or on Temple grounds.

**General College Graduation Requirements**

Students in the Tyler School of Art must meet all degree requirements mandated by Temple University, as well as requirements from individual departments and programs.

**New students** will follow the General Education (GenEd (p. 143)) program requirements.

Students are responsible for following the course requirements and department policies as listed in the Undergraduate Bulletin and in departmental handbooks, curriculum and advising publications. Please note that Tyler has minimum grade requirements for required courses for the majors. Please refer to the DARS and academic advising sheets available from your advising staff.

**Academic Advising Information**

Please note: Non-Tyler students who are interested in learning more about the majors and/or admissions requirements should contact the Tyler Admissions staff at tyleral@temple.edu or by calling 215-777-9090.

**For BFA Students**

Advising is provided individually and in groups to degree-seeking students enrolled in Tyler School of Art.
Foundation courses are rostered by the advising staff but students will select their own academic classes. Midway through their second semester, freshmen are advised both individually and in groups by the advising staff on policies, methods, and procedures to assist them in self-registration for their first sophomore semester.

It is critical to note that all majors have either one or two sophomore prerequisites. Students who are thinking about overseas study should consult an advisor before the beginning of the sophomore year.

Sophomores should arrange to meet with the academic advisors who will help them register for their second sophomore semester. Faculty advisors are also available for sophomore students who have questions about the majors. When sophomores register for their junior year they are assigned to a major advisor, a faculty member from the major they enter, who will continue to advise the student during his/her junior and senior years on studio matters.

Juniors, seniors, and all transfer students should continue to consult with their academic advisor regarding General Education requirements and progression towards degree completion.

The Art Education staff provides additional advising for B.F.A. students seeking the Art Education concentration as there are a number of clearances and special requirements for that program, as required by the PA Department of Education.

**For Architecture, Art, Art Education, Art History and Visual Studies Students**

Advising is provided to degree-seeking students enrolled in the Architecture, Visual Studies, Art, Art Education, Arts in Community and Art History programs by the academic advising staff and the faculty advisors in the majors.

Faculty advisors in the student’s area provide advising to most juniors and seniors for their major and academic advising is provided by the academic advisors.

The Art Education staff provides additional advising for students in the B.S.ED. in Art Education and B.F.A. with Art Education Concentration, as there are a number of clearances and special requirements for that program, as required by the PA Department of Education.

**Additional Advising Services**

The academic advising office should be contacted if there are questions concerning courses that require placement testing. An academic advisor should be contacted if there are questions concerning ENG 0802, IH 0851 & IH 0852, and other General Education (GenEd (p. 143)) requirements, or developmental courses in English and Mathematics.

Professional academic advisors meet with all students on academic warning, academic probation or designated “at-risk” by virtue of multiple mid-term deficiency notices and work with students with disabilities to ensure appropriate accommodations are made. Students should use the online appointment system (https://apps.cst.temple.edu/advising) to schedule an advising appointment or call 215-777-9229.

**Faculty**

For additional faculty information, go to the Tyler School of Art web site: http://tyler.temple.edu/faculty-directory.

Stephen M. Anderson, Assistant Professor (Teaching/Instructional), Department of Architecture, Tyler School of Art; M.Arch., University of Pennsylvania.

Steven Berkowitz, Associate Professor, Department of Graphic Arts and Design, Tyler School of Art; M.F.A., Temple University.

Philip P. Betancourt, Professor, Department of Art History, Tyler School of Art; Ph.D., University of Pennsylvania.

Elizabeth S. Bolman, Professor, Department of Art History, Tyler School of Art; Ph.D., Bryn Mawr College.

Gerard F. Brown, Assistant Professor, Department of Foundations, Tyler School of Art; M.A., School of the Art Institute of Chicago.

Tracy E. Cooper, Professor, Department of Art History, Tyler School of Art; Ph.D., Princeton University.

Chad D. Curtis, Associate Professor, Department of Crafts, Tyler School of Art; M.F.A., Alfred University, New York State College of Ceramics.

Daniel V. Cutrone, Assistant Professor (Teaching/Instructional), Department of Crafts, Tyler School of Art; M.F.A., Temple University.

Therese A. Dolan, Professor, Department of Art History, Tyler School of Art; Ph.D., Bryn Mawr College.

Alice E. Drueing, Professor, Department of Graphic Arts and Design, Tyler School of Art; B.F.A., Temple University.

Amze J. Emmons, Associate Professor, Department of Graphic Arts and Design, Tyler School of Art; M.F.A., University of Washington.

Seher Erdogan Ford, Assistant Professor, Department of Architecture, Tyler School of Art; M.Arch., Yale University.

Jane DeRose Evans, Professor, Department of Art History, Tyler School of Art; Ph.D., University of Pennsylvania.
Clifton R. Fordham, Assistant Professor, Department of Architecture, Tyler School of Art; M.Arch., Yale University.

Samuel C. Fritch, Assistant Professor (Teaching/Instructional), Department of Foundations, Tyler School of Art; M.F.A., Temple University.

Philip Glahn, Associate Professor, Department of Painting, Drawing and Sculpture, Tyler School of Art; Ph.D., City University of New York.

Abby Ryan Guido, Assistant Professor (Teaching/Instructional), Department of Graphic Arts and Design, Tyler School of Art; B.F.A., Temple University.

Marcia B. Hall, Professor, Department of Art History, Tyler School of Art; Ph.D., Harvard University.

Sally W. Harrison, Associate Professor, Department of Architecture, Tyler School of Art; M.Arch., Massachusetts Institute of Technology.

Jesse Harrod, Assistant Professor, Department of Crafts, Tyler School of Art; M.F.A., School of the Art Institute of Chicago.

Kelly A. Holohan, Associate Professor, Department of Graphic Arts and Design, Tyler School of Art; M.F.A., Temple University.

Marilyn M. Holsing, Professor, Department of Painting, Drawing and Sculpture, Tyler School of Art; M.A., University of New Mexico.

Richard D. Hricko, Professor, Department of Graphic Arts and Design, Tyler School of Art; M.F.A., University of Iowa.

Alicia Imperiale, Assistant Professor, Department of Architecture, Tyler School of Art; M.A., Princeton University.

Simona M. Josan-Barkley, Assistant Professor (Teaching/Instructional), Department of Foundations, Tyler School of Art; M.F.A., Pennsylvania Academy of the Fine Arts.

Lisa Kay, Assistant Professor, Department of Art Education and Community Arts, Tyler School of Art; Ed.D., Northern Illinois University.

Nichola Kinch, Assistant Professor, Department of Foundations, Tyler School of Art; M.F.A., Temple University.

Jonathan Dunlap Kline, Assistant Professor (Teaching/Instructional), Department of Art History, Tyler School of Art; Ph.D., Temple University.

Stephanie A. Knopp, Professor, Department of Graphic Arts and Design, Tyler School of Art; M.F.A., Pennsylvania State University.

Nicholas W. Kripal, Professor, Department of Crafts, Tyler School of Art; M.F.A., Southern Illinois University.

Scott R. Laserow, Professor, Department of Graphic Arts and Design, Tyler School of Art; B.F.A., Temple University.

Stanley Lechtzin, Professor, Department of Crafts, Tyler School of Art; M.F.A., Cranbook Academy of Art.

Dermot MacCormack, Associate Professor, Department of Graphic Arts and Design, Tyler School of Art; B.F.A., National College of Art and Design, Dublin.

Martha Madigan, Professor, Department of Graphic Arts and Design, Tyler School of Art; M.F.A., School of the Art Institute of Chicago.

Margo S. Margolis, Professor, Department of Painting, Drawing and Sculpture, Tyler School of Art; M.F.A., Indiana University.

Timothy E. McDonald, Associate Professor (Teaching/Instructional), Department of Architecture, Tyler School of Art; M.Arch., McGill University.

Rebecca Michaels, Associate Professor (Teaching/Instructional), Department of Graphic Arts and Design, Tyler School of Art; M.F.A., Temple University.

Leah Modigliani, Assistant Professor, Department of Foundations, Tyler School of Art; Ph.D., Stony Brook University.

Jo-Anna J. Moore, Associate Professor Emeritus, Department of Art Education and Community Arts, Tyler School of Art; Ed. D., Harvard University.

Susan M. Moore, Professor, Department of Painting, Drawing and Sculpture, Tyler School of Art; M.F.A., University of California Davis.

Keith Morrison, Professor, Department of Painting, Drawing and Sculpture, Tyler School of Art; M.F.A., School of the Art Institute of Chicago.

Adele Nelson, Assistant Professor, Department of Art History, Tyler School of Art; Ph.D., New York University.

Dona R. Nelson, Professor, Department of Painting, Drawing and Sculpture, Tyler School of Art; B.F.A., Ohio State University.

Rashida Ng, Associate Professor, Department of Architecture, Tyler School of Art; M.Arch., University of Pennsylvania.

Sharyn A. O’Mara, Associate Professor, Department of Crafts, Tyler School of Art; M.F.A., Rhode Island School of Design.

Odilli Donald Odita, Associate Professor, Department of Painting, Drawing and Sculpture, Tyler School of Art; M.F.A., Bennington College.

Karyn Olivier, Associate Professor, Department of Painting, Drawing and Sculpture, Tyler School of Art; M.F.A., Cranbook Academy of Art.
Schools, Colleges, and Divisions

Eric Oskey, Assistant Professor (Teaching/Instructional), Department of Architecture, Tyler School of Art; M.Arch., Cornell University.

Pepón Osorio, Professor, Department of Art Education and Community Arts, Tyler School of Art; M.A., Columbia University.

Wendy B. Osterweil, Associate Professor (Teaching/Instructional), Department of Art Education and Community Arts, Tyler School of Art; M.F.A., University of Wisconsin.

Lisi Raskin, Associate Professor, Department of Painting, Drawing and Sculpture, Tyler School of Art; M.F.A., Columbia University.

Vojislav Ristic, Assistant Professor (Teaching/Instructional), Department of Architecture, Tyler School of Art; Dipl.lng.Arch., Belgrade University.

Bryan Martin Satalino, Assistant Professor (Teaching/Instructional), Department of Graphic Arts and Design, Tyler School of Art; M.F.A., Temple University.

Joseph S. Scorsone, Professor Emeritus, Department of Graphic Arts and Design, Tyler School of Art.

Vickie L. Sedman, Professor, Department of Crafts, Tyler School of Art; M.F.A., University of Wisconsin-Madison.

Mark Shaver, Assistant Professor (Teaching/Instructional), Department of Foundations, Tyler School of Art; M.F.A., University of Georgia.

Paul E. Sheriff, Professor, Department of Graphic Arts and Design, Tyler School of Art; B.F.A., Temple University.

Mark Shetabi, Associate Professor, Department of Painting, Drawing and Sculpture, Tyler School of Art; M.F.A., Pennsylvania Academy of the Fine Arts.

Robert Z. Shuman Jr., Associate Professor, Department of Architecture, Tyler School of Art; B.Arch., Temple University.

Gerald D. Silk, Professor, Department of Art History, Tyler School of Art; Ph.D., University of Virginia.

Samantha Simpson, Associate Professor, Department of Foundations, Tyler School of Art; M.F.A., San Francisco Art Institute.

Hester Stinnett, Professor, Department of Graphic Arts and Design, Tyler School of Art; M.F.A., Temple University.

Kim D. Strommen, Professor, Department of Graphic Arts and Design, Tyler School of Art; M.F.A., Washington University.

Jude E. Tallichet, Professor, Department of Painting, Drawing and Sculpture, Tyler School of Art; M.F.A., University of Montana.

Christian Tomaszewski, Assistant Professor (Teaching/Instructional), Department of Painting, Drawing and Sculpture, Tyler School of Art; M.F.A., Academy of Fine Arts in Poznan, Poland.

Ashley West, Assistant Professor, Department of Art History, Tyler School of Art; Ph.D., University of Pennsylvania.

M. Katherine Wingert-Playdon, Professor, Department of Architecture, Tyler School of Art; M.S., Pennsylvania State University.

Andrew Wit, Assistant Professor, Department of Architecture, Tyler School of Art; M.Arch., Massachusetts Institute of Technology.

Byron Wolfe, Associate Professor, Department of Graphic Arts and Design, Tyler School of Art; M.F.A., Arizona State University.

William Yalowitz, Associate Professor, Department of Art Education and Community Arts, Tyler School of Art; Ed.D., Temple University.

About the Architecture Department

Tyler Architecture focuses on design in the contexts of culture, technology, and stewardship of the built and natural environment. Its programs stress critical inquiry and innovation as part of the creative process, teaching students how to intervene in the physical world through carefully considered acts of making. The Department engages the city, exploring and addressing the ethical and social dimensions of architecture and the urban environment. Through this engagement, it seeks to develop an ethos of responsibility in the students, preparing them to become effective leaders in practices and discourses surrounding the complex global and local issues of our time.

The Department offers the following degrees:
• Bachelor of Science in Architecture pre-professional degree
• Bachelor of Science in Facilities Management
• Bachelor of Science in Architectural Preservation
• Bachelor of Architecture, National Architectural Accrediting Board (NAAB) accredited degree, five-year, for students who entered through the fall of 2009
• Bachelor of Science in Architecture and Master of Architecture, Professional Track 4+1 accelerated program
• Master of Architecture, National Architectural Accrediting Board (NAAB) accredited degree, two-year Professional track, for students who receive a 4-year pre-professional bachelor’s degree program in architecture, three year Design Intensive track for students who receive a bachelor’s program in other disciplines or in a non-pre-professional architecture program

The undergraduate architecture curricula share a common two-year Foundation Program. Upon successful completion of this preparatory program, students may continue in the Bachelor of Science in Architectural Preservation or the Bachelor of Science in Facilities Management, or can apply for acceptance into the Bachelor of Science in Architecture degree program. Since the four-year Bachelor of Science in Architecture degree program leads directly to the Master of Architecture degree program, admission is competitive. This is so that students are well prepared for graduate level professional program studies after obtaining the Bachelor of Science in Architecture degree. Typically, students accepted to the Bachelor of Science in Architecture program have a cumulative GPA of 3.0 or higher and an excellent portfolio. Completion of minimum entrance requirements does not guarantee admission.

The four-year Bachelor of Science in Architectural Preservation degree prepares students for a career in cultural and historic preservation focused on the built environment. Careers in the field of Architectural Preservation are those where leadership includes advocacy for places important to the underlying cultural and historical infrastructure of communities and environments.

The four-year Bachelor of Science in Facilities Management degree prepares students for a career in the profession of Facility Management. It is a profession that encompasses multiple disciplines to ensure functionality of the built environment by integrating people, place, process and technology. Students who choose this degree program can pursue facility management certification after entering into the profession.

The four-year Bachelor of Science in Architecture degree is a pre-professional program. Graduates are qualified for a variety of positions in architecture and related fields for which a professional degree and registration are not requirements for advancement. Additionally, students may utilize this degree toward the goal of architectural education at the graduate level.

In fall 2014, the Architecture department launched the new 4+1 BS in Arch + M.Arch. professional track program. The accelerated degree program will consist of a minimum of 111 semester hours of undergraduate coursework, a maximum of 12 (twelve) semester hours of graduate coursework to count towards both the undergraduate and the graduate degrees. Upon successful completion of the fourth year, students will receive a Bachelor of Science in Architecture. At the end of the contiguous fifth year (including two summers), students will receive a Master of Architecture, Professional Track. Students will complete the requirements for both degrees in five years including two summer semesters of graduate coursework. To be eligible for the program, students must be declared Architecture majors; have a minimum of 3.5 cumulative GPA in at least 45 credits of coursework taken at Temple; be able to complete their undergraduate degree in four full-time semesters (beginning with their first semester taking a graduate course as an undergraduate); and be able to complete the graduate degree in one additional year including two summer semesters of graduate coursework.

The NAAB accredited Master of Architecture (M.Arch.) professional degree program prepares students for the practice of architecture in entry-level positions. All undergraduate and graduate students in the department are eligible to register for and begin the NCARB Intern Development Program (IDP). Tyler Architecture Department offers two tracks in the M.Arch. degree program: a 2-year Professional Program track for students who have earned a pre-professional Bachelor’s degree in architecture and a 3-year Design Intensive track for students who have a non-pre-professional Bachelor’s degree in architecture or another discipline. This curriculum is designed to enable students to learn theories and methodologies of architectural design as well as to understand the social, economic, political, and technological forces that shape the built environment. The principal educational component of the program is a coordinated series of studio courses in which creative design talents and management skills are developed. Holders of this degree may, upon completion of postgraduate work experience, be admitted to the architectural licensing examinations offered in each state, through which they may become registered architects.

According to the NAAB, “In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted a 6-year, 3-year, or 2-year term of accreditation, depending on the extent of its conformance with established educational standards. Master's degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.”

(Note: The Bachelor of Architecture degree program is not available for students entering in Fall 2010 or after. Students who entered in 2009 and who have completed a substantial amount of the requirements of the Bachelor of Architecture degree program by Spring 2014 will have until Spring 2016 to finish all requirements for the Bachelor of Science in Architecture or the Bachelor of Architecture degrees offered on entry in 2009. For further information, consult the department’s web site at tyler.temple.edu/programs/architecture)
Study Abroad

All Architecture Department students have the opportunity to study abroad for a semester at Temple Rome or Temple Japan. Admission to these programs is competitive. Applications are made through the Temple Education Abroad Office.

Students who plan to study abroad should arrange to meet with an academic advisor as early as possible, preferably during the freshman year, in order to plan the sequence of courses that would be most appropriate. While students majoring in Architecture may study in Rome in the fall or spring semester, Japan is only an option for the spring. Because of program requirements in the fall semesters of junior and senior years, Architectural Preservation and Facilities Management majors should consider attending the Rome or Japan program only during the spring semester of the junior year.

Programs

- Bachelor of Science in Architectural Preservation (p. 203)
- Bachelor of Science in Architecture (p. 206)
- Bachelor of Science in Facilities Management (p. 209)

Bachelor of Science in Architectural Preservation

The four-year Bachelor of Science in Architectural Preservation degree prepares students for a career in cultural and historic preservation focused on the built environment. Careers in the field of Architectural Preservation are those where leadership includes advocacy for places important to the underlying cultural and historical infrastructure of communities and environments.

Summary of Degree Requirements

University Requirements

All students are required to complete the General Education requirements. Go to the General Education (p. 143) section for more information.

Summer or semester study abroad will satisfy the GenEd Global/World Society requirement.

All Temple students must take a minimum of two writing-intensive courses as part of the major. The specific writing-intensive courses required for this major are ARCH 3296 and ARCH 4596.

Program Requirements

A total of 122 s.h. is required for completion of the Bachelor of Science in Architectural Preservation.

---

1. Although not required, freshman students registered for ARCH 1011 should also take FDPR 1501 and FDPR 1502.
2. Option to take ARCH 2123 / ARCH 2153 instead of ARCH 2121 for B.S. in Facilities Management.
3. Option to take ARCH 2124 / ARCH 2154 instead of ARCH 2122 for B.S. in Facilities Management.
4. Students planning to study abroad should substitute the Free Elective for a required course available only on main campus. For more information, please see your advisor.

Note: The Architecture Foundation is common to all three undergraduate degrees. In the spring of the sophomore year, students declare a major in one of the degrees offered. A place in the B.S. in Facilities Management or the B.S. in Architectural Preservation is guaranteed for all students in good standing with the University. Admission to the Bachelor of Science in Architecture is competitive. Typically, students have a cumulative GPA of 3.0 or higher and an excellent portfolio. Completion of minimum entrance requirements does not guarantee admission.

#### Rome Option

Students who plan to study abroad are encouraged to meet with an advisor as early as the freshman year. While the grid below suggests appropriate coursework, a semester abroad would require using free electives that ordinarily would be taken in other semesters. It will take careful planning with an advisor to ensure that the degree is completed as efficiently as possible, and that courses normally taken in the spring of junior year on Main campus are completed before the semester abroad. ARCH 3241 counts as an Architecture elective.

**Bachelor of Science in Architecture**

The four-year Bachelor of Science in Architecture degree is a pre-professional program. Graduates are qualified for a variety of positions in architecture and related fields for which a professional degree and registration are not requirements for advancement. Additionally, students may utilize this degree toward the goal of architectural education at the graduate level.

**Summary of Degree Requirements**

The Bachelor of Science degree in Architecture may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 123 semester hours of credit with a minimum cumulative 2.00 GPA.

**University Requirements**

All students are required to complete the General Education requirements. Go to the General Education (p. 143) section for more information.

Summer or semester study abroad will satisfy the GenEd Global/World Society (GG) requirement.

All Temple students must take a minimum of two writing-intensive courses as part of the major. The specific writing-intensive courses required for this major are ARCH 3296 and ARCH 4596.

**Program Requirements**

All required Architecture courses, MATH 1031 and PHYS 1021 must be completed with a C- or better to fulfill major requirements.

Total Credit Hours:  61

Total Credits for the B.S. in Architecture:  123

**Rome Option**

Bachelor of Science in Architecture students who plan to study abroad are encouraged to meet with an advisor as early as the freshman year. While the grid below suggests appropriate coursework, a semester abroad would require using free electives that ordinarily would be taken in other semesters. It will take careful planning with an advisor to ensure that the degree is completed as efficiently as possible, and that courses normally taken in the spring of junior year or the fall of senior year on Main campus are completed before the semester abroad. ARCH 3234 can substitute for ARCH 4331; ARCH 3241 counts as an Architecture elective.

ARCH 3234  Architectural Design Studio in Rome  6
ARCH 3241  Seminar Analysis of Urban Structure in Rome  3
Free Elective  3
Free Elective  3

# Bachelor of Science in Facilities Management

The four-year Bachelor of Science in Facilities Management degree prepares students for a career in the profession of Facility Management. It is a profession that encompasses multiple disciplines to ensure functionality of the built environment by integrating people, place, process and technology. Students who choose this degree program can pursue facility management certification after entering into the profession.

## Summary of Requirements

### University Requirements

All students are required to complete the General Education requirements. Go to the General Education (p. 143) section for more information.

Summer or semester study abroad will satisfy the GenEd Global/World Society requirement.

All Temple students must take a minimum of two writing-intensive courses as part of the major. The specific writing-intensive courses required for this major are ARCH 3097 and ARCH 4296.

### Program Requirements

A total of 122 s.h. is required for completion of the Bachelor of Science in Facilities Management.

---

1. Although not required, freshman students registered for ARCH 1011 should also take FDPR 1501 and FDPR 1502.
2. Option to take ARCH 2123 / ARCH 2153 instead of ARCH 2121 for B.S. in Facilities Management.
3. Option to take ARCH 2124 / ARCH 2154 instead of ARCH 2122 for B.S. in Facilities Management.
4. Students planning to study abroad should substitute the Free Elective for a required course available only on main campus. For more information, please see your advisor.

Note: The Architecture Foundation is common to all three undergraduate degrees. In the spring of the sophomore year, students declare a major in one of the degrees offered. A place in the B.S. in Facilities Management or the B.S. in Architectural Preservation is guaranteed for all students in good standing with the University. Admission to the Bachelor of Science in Architecture is competitive. Typically, students have a cumulative GPA of 3.0 or higher and an excellent portfolio. Completion of minimum entrance requirements does not guarantee admission.

Temple University Japan’s Art Major is a NASAD-accredited program offered under the auspices of the Tyler School of Art, Temple University. The Bachelor of Arts in Art with a Digital Media concentration is a fine-art oriented course of study focusing on the use of the computer as a creative tool. The major helps to cultivate the artistic sense and skills that will help students develop as artists and to work in art-related careers.

A minor in Art is available on both the TUJ campus and the Main campus of Temple University. For more information regarding the Art Minor, please review the Art Minor page in this bulletin.

**Programs**

- Art Minor (p. 212)
- Bachelor of Arts in Art, Digital Media Concentration (p. 213)

**Art Minor**

Temple University students have the option of exploring the visual arts by choosing to take a minor in Art. The Art Minor is available on both the Main Campus of Temple University and at the Temple University Japan Campus.

While the studio courses within the minor are generally found listed under the ART department, Main Campus students may also take courses open to all Temple students from the Graphic Arts and Design, Crafts, and Painting/Drawing/Sculpture departments to help fulfill elective credits.

The Main Campus Faculty Advisor for the Art Minor is Professor Kim Strommen - kim.strommen@temple.edu

The Temple University Japan Faculty Advisor for the Art Minor is Professor Shinya Watanabe - shinyaw@tuj.temple.edu.

**Bachelor of Arts in Art, Digital Media Concentration**

**Exclusively offered at Temple's Japan campus**

The Bachelor of Arts in Art with a Digital Media concentration is a fine-art oriented course of study focusing on the use of the computer as a creative tool. This concentration helps students develop their artistic vision using new technology to focus on personal expression; it is not graphic design. Students in this concentration pursue a variety of projects designed to help them explore the boundaries between technology and studio art processes. Students interested in graphic design should investigate the B.F.A. in Graphic and Interactive Design on the Main Campus of Temple University.

All Temple students are required to complete the General Education (GenEd (p. 143)) curriculum.

- Study abroad for a summer or semester will satisfy the Global/World Society requirement.
- The GenEd Arts requirement is waived if all of the following courses are completed with a C- or better: ARTU 1101, ARTU 1201, ARTU 1401 and ARTU 1501. If the student changes majors before completing all four courses, s/he must complete a GenEd Arts course to satisfy the requirement for General Education.

Students must complete successfully the second semester of a foreign language.

Students must complete at least 15 semester hours in upper-level Liberal Arts courses.

There may be minimum grade requirements of C- or better in required courses - students should refer to the DARS and their advisor.

The Bachelor of Arts degree may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 123 semester hours of credit with a minimum cumulative GPA of 2.00.

Students who are seeking admission into the B.A. in Art degree program must review the requirements and procedures outlined on the TUJ web site: www.tuj.ac.jp/admissions/index.html (http://www.tuj.ac.jp/admissions).

2. Can substitute PHIL 1061 or ARTE 3011.
3. Social Science not required if pursuing a minor in Art History.
4. Choose between ARTH 2096, ARTH 2097 (3 s.h.), ARTH 2098, ARTH 2196, ARTH 2496, ARTH 2497, ARTH 3097.

### Art Education & Community Arts Practices

Pepon Osorio, Chair
The mission of the Department of Art Education and Community Arts Practices is to prepare students for the multiple roles where art, education and community intersect in the 21st century. We develop artists, educators, arts-based community leaders and teaching artists through thoughtful engagement with art making, contextual art study and partnerships, with emphasis on diverse populations in urban schools and neighborhoods. The departmental faculty promote creative research, leadership and responsive pedagogy. The faculty view art and artists as part of a network of social practices that foster self-reflective growth and group understanding.

Bachelor of Science in Education in Art Education

Dr. Lisa Kay, Art Education Program Head
Tyler Building, Room B090D
215-777-9259
lisakay@temple.edu

Tyler School of Art offers the Bachelor of Science in Education in Art Education, an accredited program leading to Pennsylvania Certification in Art, K-12. Newly-expanded offerings in the Community Arts have developed courses with outreach to the Philadelphia community. Graduates from our Art programs have gone on to graduate study, field work in art galleries, studios, and a wide variety of art-related occupations. We have a 92% placement rate for Art Education in K-12 schools and also in community sites.

The Art Education program ensures a fully-rounded preparation for the elementary and secondary school teacher. This program provides content study for art teacher preparation and teacher certification to teach art in kindergarten through twelfth grade. The requirements for the degree are 122 total credits:

The Art Education program requires students maintain a minimum cumulative GPA of 3.0 to enroll in Art Education courses and to graduate with the Bachelor of Science degree in Art Education.

A portfolio is required for admission into the B.S.ED. in Art Education degree program. If you have completed college-level studio courses and are seeking studio equivalency credit, you must complete a transfer portfolio review. The department will only accept up to 24 transfer credits of studio work toward the major. Students who are seeking admission into the B.S.ED. in Art Education degree program must contact the Tyler Admissions Office (215-777-9090) for portfolio requirements.

BS in Art Education students should routinely meet with an Art Education faculty advisor to discuss field placement, clearances, and requirements, as the state of Pennsylvania may change requirements after the Bulletin information has been posted. Application for ARTE 3096 and ARTE 4003/ARTE 4088 must be submitted by the deadline communicated to students by the Art Education department.

Degree Requirements for the B.S.ED. in Art Education

The Bachelor of Science in Education degree in Art Education may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 122 semester hours of credit with a minimum cumulative GPA of 3.0.

University Requirements

Completion of the university’s General Education (p. 143) curriculum.

- Successful completion (minimum grade of C-) in both VS 1151 and ARTH 1156 will waive the GenEd Arts (GA) requirement.
• Successful completion (minimum grade of C-) in EDUC 2109, SPED 2231, and ENES 3338 will waive the GenEd Human Behavior (GB) requirement.
• Summer or semester study abroad will satisfy the GenEd Global/World Society requirement.

**Major Requirements**

- A minimum 3.0 cumulative GPA is required for registration in all Art Education courses.
- ARTE 2001, ARTE 3096, ARTE 4003 and ARTE 4088 must be completed with a C or better to fulfill major requirements.
- Students must earn minimum grade of C- in required Studio courses, College of Education coursework and additional mathematics requirement.

Certificate in Arts in Community

Dr. Billy Yalowitz, Faculty Advisor
yalowitz@temple.edu
artedart@temple.edu

The Arts in Community Program (ACP) was started as a commitment to the many and varied communities in Philadelphia and to Tyler students' education as artists to combine artistic disciplines with skills and knowledge in community organizing, positioning them for an expanded civic role in the 21st century. ACP develops and delivers university courses, after-school workshops, intergenerational forums, inter-disciplinary performances and site-specific installations. At the heart of the program are community partnerships and internships that enable Tyler/Temple students to expand their art disciplines as community collaborators. During the last several years ACP has created a body of community-based arts works, establishing a network of relationships and ongoing presence in neighborhoods that translates into continued projects. During this time, we have worked with youth and adults, organizations and families, in North Philadelphia neighborhoods and beyond, building a broad range of community arts partnerships that stimulate dialogue and share history to create exhibitions and interdisciplinary performances based on community lives and stories and shared student experiences.

As part of this program, Tyler offers an undergraduate Certificate in Arts in Community on the Main Campus only. The undergraduate certificate consists of a four-course, 12-credit sequence. Both matriculated and non-matriculated students may register for these courses. The required courses for the undergraduate certificate are:

Art History

Dr. Elizabeth Bolman, Chairperson of Art History
Tyler School of Art Building
Administrative Suite Room 210M
215-777-9165
elizabeth.bolman@temple.edu
arthisto@temple.edu

Dr. Jonathan Kline, Undergraduate Advisor
Tyler School of Art Building
Art History Suite Room 211
The Department of Art History offers broad-ranging introductory surveys of art, from prehistoric times to the present, and more closely focused courses, treating limited segments of the vast historic panorama in both western and non-western art. Approximately sixty courses are offered over the span of a four-year period.

The Department of Art History is strongest in the Western tradition, with relatively equal distribution of focus on Ancient/Medieval, Renaissance/Baroque, and Modern/Contemporary. There are particular strengths in the study of art from the Mediterranean region, with specialists in Bronze Age Aegean, Ancient Roman, Medieval Byzantine and Coptic, Italian and Spanish Renaissance and Baroque, and Modern Italy and France, and in the study of modern and contemporary American art.

The Graduate Student Art History Association sponsors lectures and exhibition visits open to all students throughout the year.

Bachelor of Arts in Art History

Students majoring in art history graduate with a thorough knowledge of the art historical traditions of each major period from ancient through postmodern art and with an understanding of the methods practiced in the discipline of art history. Tyler’s Art History program has a unique point of view. From its position in a University setting and in one of the country’s top art schools, its students have access to outstanding research resources, studio work, and travel opportunities that create a multidimensional undergraduate experience.

In addition to taking courses at Temple’s Main Campus in Philadelphia, students are encouraged to study abroad, spending a semester or year at Temple’s campuses in either Tokyo or Rome. Several undergraduates are also often accepted into a summer excavation project in Italy. In addition to these opportunities, internships at the Philadelphia Museum of Art, the Fabric Workshop and Museum, the Print Center, and other local and regional cultural institutions provide hands-on learning experiences.

Our graduates are well prepared, whether they wish to pursue graduate work in the field, write professionally, launch careers in museums or auction houses, or embark on any other path that requires broad liberal arts experience and a strong background interpreting the visual world. They hold jobs as museum curators, gallery directors, corporate art employees, researchers, and work in a variety of capacities for cultural associations.
Degree Requirements

The degree of Bachelor of Arts in Art History may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 123 semester hours of credit with a minimum cumulative GPA of 2.0 overall and in the major.

Grades below a C- in Art History and General Education courses do not fulfill requirements for the degree.

University Requirements

Students must complete the requirements of the General Education (GenEd (p. 143)) program.

- Summer or semester study abroad will satisfy the GenEd Global/World Society (GG) requirement.

Program Requirements

- A minimum of 66 credits must be taken outside of Tyler departments to earn the degree
- A minimum of 45 semester hours in upper level courses must be completed with a passing grade: CLA 2000 to 4999; CST 2000 to 4999.
  a. Two 2000+ courses (minimum 6 credits) must be taken from Social or Natural Sciences.
  b. Upper-level Art History courses are categorized as upper-level Liberal Arts courses.
- Students must complete the second level of a foreign language:

### Total Credit Hours: 123

All upper-level Art History courses are categorized as upper-level Liberal Arts courses.

1. ARTH 2897 is strongly recommended.
2. ARTH 3097 Art History Capstone is a senior-level course in historiography and research methods, typically offered every semester. Students may take Capstone in either the third or fourth year, but should not enroll until after they have completed at least four upper-level art history courses.

### Bachelor of Fine Arts

Tyler School of Art  
2001 N. 13th Street  
Philadelphia, PA 19122  
215-777-9000  
tyler@temple.edu

Tyler's curriculum is designed to give sound preparation to the future artist while at the same time avoiding narrow vocational goals. The freshman foundation program and introductory courses in each studio area develop a thorough understanding of fundamental processes and information. Advanced courses in the majors stress the development of an individual idiom and preparation for the professional world. At Tyler, art students find an atmosphere of aesthetic freedom that encourages personal experimentation and the exploration of visual concepts.

Tyler’s BFA curriculum is designed to give sound preparation to the future artist through coursework that provides a variety of approaches, practices, skills and goals. The BFA foundation program and introductory courses in each studio area develop a thorough understanding of fundamental processes and information. Advanced courses in the major stress the development of an individual idiom and preparation for the professional world. At Tyler, art students find an atmosphere of aesthetic freedom that encourages personal experimentation and the exploration of visual concepts.
Freshman Year

The Foundation Program is highly structured and intensive; it forms the base that establishes the fundamental studio practice and principles for all visual art expression. In addition to presenting traditional vocabulary, theory, media, and technique, the Foundation Program develops creative thinking and problem solving, visual thinking, and perceptual and imaginative abilities. Faculty members from all areas of the school teach the Foundation courses, assuring a broad range of experience and diverse viewpoints.

Sophomore Year

Sophomore studio electives serve as prerequisites to enter the major, of which one or two specific courses are required in each major. During the sophomore year, students are offered the opportunity to explore a wide range of studio areas. This experience gives the necessary background with which to make an informed selection of a major and adds to the overall breadth of the educational experience. Requirements are six 2000-level studio courses (18 s.h.), not to exceed three courses from any one major area and to include at least one course from three different major areas; and additional credits in Art History electives and/or General Education.

Junior and Senior Years

The Bachelor of Fine Arts degree is completed after a final two-year concentration in a major studio area. Because expressive work is often achieved by synthesis of disparate media, studio work outside the major is allowed. Requirements are the specified major courses (21-24 s.h. depending on the major) and one major capstone course (3 s.h.), with a minimum grade of C- required in each course; a minimum of three studio electives which may be taken outside the major (9-12 s.h. depending on the major); and additional credits in Art History, General Education, and elective courses.

The B.F.A. with Art Education Concentration

The B.F.A. with the Art Education Concentration prepares students for the PA certification in teaching art, kindergarten through twelfth grade. Students must complete B.F.A. requirements along with a three-year sequence in Education and Art Education that begins in the sophomore year. Five years are necessary to fulfill all requirements. Students who take summer session courses may complete the degree in 4.5 years.

Programs

- B.F.A. Foundation Program (p. 225)
- Bachelor of Fine Arts (p. 226)
- Bachelor of Fine Arts with Art Education Concentration (p. 228)

B.F.A. Foundation Program

Gerard Brown, Chair
Tyler School of Art Building
Administrative Suite Room 210P
215-777-9170
gbrown@temple.edu

Studies for the B.F.A. degree at Tyler (including those who seek the Art Education Concentration) begin with a common freshman experience, the Foundation Year. During this year, students are enrolled in studio courses in Drawing, 2-D and 3-D Principles as well as two Foundation seminar courses. The Foundation Program Department is highly structured and intensive. It forms the fundamental basis for studio practice, critical thinking, and understanding and implementation of principles of visual expression. The program emphasizes creative and critical thinking, problem solving, visual thinking, perception and observation through the use of visual vocabulary, theory, media, and techniques of artistic practice. The Foundation faculty is comprised of artists from all the fields represented in the school’s majors, providing freshmen with a broad perspective and diverse points of view from which to build their experience as artists.

1. These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a grade of C- or better.
2. See academic advisor for details.
3. Students may elect to take a second writing intensive course within their majors (if available), but must still fulfill a total of 14 credits in Art History - see academic advisor for details.
4. In some majors, the Capstone is taken in the junior year.

### Bachelor of Fine Arts with Art Education Concentration

The B.F.A. with the Art Education Concentration prepares students for the PA certification in teaching art, kindergarten through twelfth grade. Students must complete B.F.A. requirements along with a three-year sequence in Education and Art Education that begins in the sophomore year. Five years are necessary to fulfill all requirements. Students who take summer session courses may complete the degree in 4.5 years.

The Bachelor of Fine Arts degree with the Art Education Concentration may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 155 semester hours of credit with a minimum cumulative GPA of 3.0.

### University Requirements

All Temple students are required to complete the General Education (GenEd p. 143)) curriculum.

- Successful completion (minimum C-) of FDPR 1511 and ARTH 1156 satisfies the GenEd Arts (GA) requirement.
- Successful completion (minimum C-) of EDUC 2109, SPED 2231, and ENES 3338 satisfies the GenEd Human Behavior (GB) requirement.
- Summer or semester study abroad will satisfy the GenEd Global/World Society (GG) requirement.

### Concentration Requirements

ARTE 2001, ARTE 3096, ARTE 4003 and ARTE 4088 must be completed with a C or better to fulfill concentration requirements.

Students must earn a minimum grade of C- in required College of Education coursework and additional mathematics requirement to fulfill concentration requirements.

Students in the B.F.A. degree with the Art Education Concentration are required to take a Ceramics studio course and an additional studio course in Crafts; a Painting studio course and an additional studio course from PDS; a Printmaking studio course and an additional studio course from the GAD department. These courses may include prerequisite, sophomore, and/or studio courses within the student's chosen B.F.A. major.
Any B.F.A. student who wishes to pursue the Art Education Concentration must arrange to meet with the Art Education faculty advisor to discuss field placement, clearances, and requirements, as the state of Pennsylvania may change requirements after the Bulletin information has been posted. It is strongly suggested that students do so during their freshman year.

2. These 3 courses constitute the waiver for the GenEd Human Behavior category if the courses are completed with a C- or better.

**Crafts**

Nicholas Kripal, Chairperson
Tyler School of Art Building
Administrative Suite Room 210N
215-777-9168
nkripal@temple.edu

The Crafts Department encompasses the media disciplines of Ceramics/Glass, Fibers and Material Studies, and Metals/Jewelry/CAD-CAM. These disciplines are rooted in a rich history, developed and refined within a contemporary context, and practiced and experienced through a series of formal presentations and evaluations. The Crafts Department faculty endeavor to refine and interpret Crafts traditions, techniques, and concepts while also pursuing the frontiers of their disciplines through their studio practice.

Students are challenged to explore the broad cultural and historical contexts in which their disciplines are made, exhibited, and experienced. They are encouraged to pursue their individual visions with an attitude of curiosity and imagination. The end goal of the curriculum is the education of a Crafts artist who will be creatively active throughout their lives, contributing to the enrichment of not only the communities in which they live and work, but the world community as well.

Upon graduation, students go on to careers in art education, design, the arena of not-for-profit and commercial galleries, and the professional practice of a studio artist. Many students go on to graduate school in order to receive further training and research for their eventual professional careers.

**Programs**

- Bachelor of Fine Arts in Ceramics (p. 231)
- Bachelor of Fine Arts in Fibers & Material Studies (p. 234)
- Bachelor of Fine Arts in Glass (p. 237)
- Bachelor of Fine of Arts in Metals/Jewelry/CAD-CAM (p. 240)

somara@temple.edu

Since its earliest days, craft traditions and media have been an intrinsic part of the Tyler curriculum, aesthetic, and vibe. The intertwined areas of ceramics and glass reflect this history, and continue to build on it by attracting students who are interested in challenging the definitions of these art forms.
Undergraduate students’ exploration of ceramics can take many forms. There is state of the art equipment available for wheelwork, mold making and slip casting, as well as large kilns for hand building and sculpture. Students are encouraged to investigate a wide range of processes, including the recent addition of 3-D modeling and printing, as they develop their own personal visions. Separate studio space is available for junior and senior majors, and students are encouraged to reach outside their own spheres for inspiration and ideas. Many of our students are interested in interdisciplinary work, such as integrating industrial design and pushing it into the fine arts perspective, resulting in new hybrids. A recent special project with an art conservation firm had students researching and recreating historical Rookwood tiles for a restoration project at a nearby architectural landmark. This provided firsthand experience collaborating with conservators and architects and ceramic technicians. The Ceramics program makes a point of drawing on the energy and resources of the city. Students attend lectures and exhibitions at museums, galleries and other cultural institutions all over town, and participate in community arts projects in the ongoing collaboration with Philadelphia’s Mural Arts Project.

Degree Requirements

The Bachelor of Fine Arts degree in Ceramics may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Ceramics majors must complete the BFA curriculum (p. 226) and General Education (p. 143) requirements.

- Students must earn a C- or better in CRFT 2151 and CRFT 2161 to enter the Ceramics major.
- The eight required Junior/Senior studio courses and CRFT 4496 (capstone) must be completed with a C- or better to fulfill major requirements.

Major Requirements for B.F.A. in Ceramics

Sophomore Prerequisites

| CRFT 2151 | Beginning Ceramics | 3 |
| CRFT 2161 | Intermediate Ceramics | 3 |

Junior Requirements

| CRFT 3162 | Advanced Ceramics (This course is repeatable and should be taken once in the fall and once in the spring) | 6 |

Two additional specialized Ceramics courses | 6 |

Senior Requirements

| CRFT 4162 | Advanced Ceramics (This course is repeatable and should be taken once in the fall and once in the spring) | 6 |

Two additional specialized Ceramics courses | 6 |

| CRFT 4496 | Business Practices in Crafts (Capstone) | 3 |

Total Credit Hours: 126

1 These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

Please Note: An approved study abroad program will waive the GenEd Global/World Society (GG) requirement. Ceramics majors interested in studying abroad should consult with an academic advisor to determine if a semester (generally spring semester of second year) or a summer program would be the best option to remain on track for graduation.

## Bachelor of Fine Arts in Fibers & Material Studies

**Fibers & Material Studies**

Jesse Harrod, Program Head  
Tyler School of Art Building  
Suite 250N  
215-777-9136  
jessica.harrod@temple.edu

The Fibers and Material Studies major includes equipment and classes in weaving, off-loom structures, fabric dyeing and surface processes, screen printing on fabric, digital printing, and the use of alternative materials. Once students acquire an understanding and proficiency of techniques and media, the program promotes experimentation and development of a personal direction.

## Degree Requirements

The Bachelor of Fine Arts degree in Fibers & Material Studies may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Fibers & Material Studies majors must complete the BFA curriculum (p. 226) and General Education (p. 143) requirements.

- Students must earn a C- or better in CRFT 2305 and CRFT 2317 to enter the Fibers & Material Studies major.
- The eight required Junior/Senior studio courses and CRFT 4496 (capstone) must be completed with a C- or better to fulfill major requirements.

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

1. Capstone may be taken in spring of third or fourth year.

Please Note: An approved study abroad program will waive the GenEd Global/World Society (GG) requirement. Fibers and Material Studies majors interested in studying abroad should plan to spend either spring semester of their second year, after completing the sophomore prerequisites for the major in the fall, or consider a summer semester to remain on track with required courses. Please see an academic advisor for more details.

**Bachelor of Fine Arts in Glass**

**Ceramics/Glass**

Chad Curtis, Program Head, Ceramics
Tyler School of Art Building
Rooms 150/160
215-777-9201
chad.curtis@temple.edu

Sharyn O'Mara, Program Head, Glass
Tyler School of Art Building
Room 120
215-777-9211
somara@temple.edu

Since its earliest days, craft traditions and media have been an intrinsic part of the Tyler curriculum, aesthetic, and vibe. The intertwined areas of ceramics and glass reflect this history, and continue to build on it by attracting students who are interested in challenging the definitions of these art forms.

The glass program combines a contemporary art context with coursework that emphasizes the history, chemistry, and technical aspects of glass production. In addition to learning glass blowing, glass fabrication, glass fusing, glass casting, and kiln work, students are responsible for running the hot and cold studios, and for learning to build the tools they need to articulate their concepts in glass and other media.

The program also emphasizes the development of a closely-knit artistic community. Having a cohesive group of students is a valued goal, and genuine teamwork is required to make work and run the studios. Tyler also prepares students by making sure they are part of the greater glass community. Through membership in a variety of professional associations, faculty members bring visiting artists, workshops, and guest lecturers to campus. Students tour Philadelphia studios and explore the city’s wealth of cultural institutions.

**Degree Requirements**

The Bachelor of Fine Arts degree in Glass may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Glass majors must complete the BFA curriculum (p. 226) and General Education (p. 143) requirements.

- Students must earn a C- or better in CRFT 2258 and CRFT 2261 to enter the Glass major.
- The eight required Junior/Senior studio courses and CRFT 4496 (capstone) must be completed with a C- or better to fulfill major requirements.

The faculty encourages taking Glass courses in excess of the minimum required. These additional courses count towards required studio electives.

**Total Credit Hours:** 126

¹ These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.
² Students need one Hot Glass course (CRFT 3231 or CRFT 3242) and one Cold Construction course (CRFT 3237 or CRFT 3238) at the Junior level.
³ Students need one Hot Glass course (CRFT 4241 or CRFT 4242) and one Cold Construction course (CRFT 4237 or CRFT 4238) at the Senior level.

Please Note: An approved study abroad program will waive the GenEd Global/World Society (GG) requirement. Glass majors interested in studying abroad should consult with an academic advisor to determine if a semester (generally spring semester of second year) or a summer program would be the best option to remain on track for graduation.

**Bachelor of Fine of Arts in Metals/Jewelry/CAD-CAM**

**Metals/Jewelry/CAD-CAM**

Stanley Lechtzin, Program Head
Tyler School of Art Building
Room 220
215-777-9129
stanlech@temple.edu

This program stresses the use of traditional techniques and materials in relation to their historical significance while encouraging the use of new technologies in the advanced courses. The assignments are focused on the design and creation of jewelry, functional forms, tableware, furniture, lighting, toys, and product design, to name a few. Along with teaching studio practices centered around the utilization of metal, plastics, and composite materials, the curriculum integrates the technologies of digital practices as they relate to three-dimensional form realization, and includes computer-aided-design, computer-aided manufacture and 3D printing technologies.

**Degree Requirements**

The Bachelor of Fine Arts degree in Metals/Jewelry/CAD-CAM may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Metals/Jewelry/CAD-CAM majors must complete the BFA curriculum (p. 226) and General Education (p. 143) requirements.

- Students must earn a C- or better in CRFT 2453, and CRFT 2433 or CRFT 3433 to enter the Metals/Jewelry/CAD-CAM major.
- The seven required Junior/Senior studio courses and CRFT 4496 (capstone) must be completed with a C- or better to fulfill major requirements.

**Major Requirements for B.F.A. in Metals/Jewelry/CAD-CAM**

**Sophomore Prerequisite**

**Graphic Arts & Design**

Stephanie Knopp, Department Chairperson  
Tyler School of Art Building  
Administrative Suite Room 210V  
215-777-9145  
stephanie.knopp@temple.edu

The Graphic Arts and Design Department encompasses three distinct areas of study -- Graphic and Interactive Design, Photography, and Printmaking. Our mission is to prepare students for the challenges of each discipline and to help them maximize their potential as artists.

The Graphic Arts and Design faculty is made up of practicing artists and designers who are professionally active and able to teach the fundamental principles of their disciplines while keeping abreast of innovations in their fields. During the student’s two-year program of coursework in the major, conceptual thinking aimed at the development of the student’s personal artistic vision is stressed; at the same time, technical skills using appropriate tools and techniques to solve creative problems are developed. Our majors are encouraged to integrate each discipline’s traditional image-making techniques with rapidly-evolving 21st-century digital technologies. Upon graduation, our students are prepared to enter their respective fields as professionals and to continue their growth as artists.

**Programs**

- Bachelor of Fine Arts in Graphic & Interactive Design (p. 243)
- Bachelor of Fine Arts in Photography (p. 248)
- Bachelor of Fine Arts in Printmaking (p. 250)

**Bachelor of Fine Arts in Graphic & Interactive Design**

Alice Drueding, Program Head  
Tyler School of Art Building  
Room 240  
215-777-9890  
drueding@temple.edu

Graphic Designers use creative combinations of ideas, art, and technology to inform and influence specific audiences. Graphic and Interactive Design (http://tyler.temple.edu/programs/graphic-interactive-design) at Tyler is a practice-based program that prepares students to work in both print and interactive media. From sophomore through senior year, students explore image making, typography, material, craft and technology--essential components of visual communication. Courses include assignments that represent different aspects of design practice such as identity and branding,
packaging, publishing, poster design, advertising, signage, environmental design, illustration, and design for the web, mobile media and motion graphics. The program trains students to work on client-driven projects and in design authorship.

Portfolio Review for Admission into the GAID Major

Because of the demand for a limited number of spaces in the Graphic and Interactive Design Major, all BFA students who are not yet declared majors in the Graphic & Interactive Design major will have to apply for the Sophomore Portfolio Review in GAID in order to get into the major, regardless of when that student started at Tyler or when they took Graphic Design (GAD 2001) and Computers for Design (GAD 2121).

The review process will be required for any Tyler student seeking to enter the major for fall 2015. Because the GAID program follows a strict fall/spring sequence, students may only begin as GAID majors in the fall semester. Students must complete the program in sequence as the capstone courses are offered only in the spring. Admitted students must begin taking required courses in the major at the junior (3xxx) level in the academic year immediately following official admission to the major or their admission to the major will be forfeited.

It is strongly recommended that potential applicants for admission to the GAID major attend one of the official sophomore advising meetings with the GAID Program Head where the application process will be explained. The process will also be explained by the instructors in each section of GAD 2001.

Degree Requirements

The Bachelor of Fine Arts degree in Graphic and Interactive Design may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Graphic and Interactive Design majors must complete the BFA curriculum (p. 226) and General Education (p. 143) requirements.

- The eight required Junior/Senior required courses must be completed with a C- or better to fulfill major requirements.

Requirements for B.F.A. in Graphic & Interactive Design

Sophomore Requirements

<table>
<thead>
<tr>
<th>Course</th>

<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GAD 2001</td>
<td>Graphic Design</td>
<td>3</td>
</tr>
<tr>
<td>GAD 2021</td>
<td>Computers for Design</td>
<td>3</td>
</tr>
</tbody>
</table>

Note 1: A final grade of C- minus or better is required in GAD 2001 and in GAD 2021 and approved portfolio review is required to enter the major.

Note 2: Graphic and Interactive Design majors who plan to study abroad should do so in the second semester of their sophomore year if they plan to graduate in four years. These students should see the Area Head for advising prior to leaving.

GAID Protocol for Portfolio Reviews

There will be two portfolio review cycles in Graphic & Interactive Design (GAID) each academic year: the end of the Fall semester (December) and the end of the Spring semester (May). The portfolio reviews will take place in the week after final studio course reviews. Specific dates for the reviews will be announced at the beginning of each semester in the GAD 2001 classes. They will also be posted on Blackboard and in the GAID suite. All full-time GAID faculty will serve on the GAID Portfolio Review Admissions Committee.

Applicants must have completed all Tyler Foundations courses (or had approved transfer courses as noted by the Tyler Admissions Office) and the 2 prerequisites for the major: GAD 2001 and GAD 2021 with a C-minus or better.

Application and Notification

The complete policy and application process is detailed on the Graphic and Interactive Design website: http://tyler.temple.edu/programs/graphic-interactive-design.

Application forms will be available for eligible students on Blackboard.

Students who have completed or who are currently enrolled in the two prerequisites for the GAID major (GAD 2001 and GAD 2021) and intend to submit an application for the Portfolio Review will be able to obtain an application form, portfolio template and detailed application instructions on Blackboard by mid-semester.

Students who fail to submit all of the required materials for the Portfolio Review will be disqualified, but may re-apply at the next review cycle as a first-time submitter. Late submissions will not be reviewed.

Applicants to the GAID major will receive one of the following decisions from the committee after the review is completed: (i) accepted (ii) not accepted (iii) revise and submit. Students who receive a (iii) revise and submit evaluation should re-apply in the next portfolio review cycle.

Students who pass the portfolio review for admission to the GAID major will be informed via TUMail. Within 2 weeks of receiving this email, admitted students must reply to the acceptance email to confirm that they definitively want to major in GAID. Students who do not confirm by that deadline will
forfeit their admission to the major and will need to re-apply in the next GAID portfolio review cycle as a second-time submitter. Students are limited to no more than two applications to the major.

</tbody>
</table>

**Note 1:** In the junior year, *Advanced Graphic Design* must be taken in sequence (GAD 3001 in Fall / GAD 3002 in Spring).

**Note 2:** The prerequisites for Senior level design courses are the four required courses at the junior level: GAD 3001 (Fall), GAD 3002 (Spring), GAD 3011 (Fall or Spring), and GAD 3021 (Fall or Spring). GAD 3023 or GAD 3025 is strongly recommended for students taking GAD 3027. GAD 3023 or GAD 3025 is required for GAD 4002 or GAD 4007.

**Note 3:** Students who plan to have an interactive portfolio only should take GAD 3023 or GAD 3025. GAD 3021 is the prerequisite for this course.

**Note 4:** GAD 3096 (Fall or Spring) is Writing Intensive and must be passed with a C- or better to be recognized as Writing Intensive credit. It can replace a Writing Intensive requirement in Art History. In that case the Art History requirement can be fulfilled with an Art History course that is not Writing Intensive.

---

1. These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

2. Courses offered in Fall only

3. Courses offered in Spring only

4. OR GAD 3096 to fulfill the Writing Intensive requirement. If taken, a non-Writing Intensive Art History course will fulfill the Art History requirement.

5. A minimum of 2 senior studios must be successfully completed before taking GAD 4196. Senior studios are GAD 3013 (if taken in the senior year), GAD 3015 (if taken in the senior year), GAD 3027 (if taken in the senior year), GAD 3041 (if taken in the senior year), GAD 4000, GAD 4001, GAD 4002, GAD 4003, GAD 4004, GAD 4005, GAD 4006, GAD 4007, GAD 4008, GAD 4009, GAD 4010, GAD 4011, GAD 4111 and GAD 4112.
Please Note: An approved study abroad program will waive the GenEd Global/World Society (GG) requirement. Graphic and Interactive Design majors interested in studying abroad should plan to spend either spring semester of their second year, after completing the sophomore prerequisites for the major in the fall, or consider a summer semester to remain on track with required courses. Please see an academic advisor for more details.

## Bachelor of Fine Arts in Photography

**Photography**

Byron Wolfe, Program Head  
Tyler School of Art Building Room 030Z  
215-777-9244  
byron.wolfe@temple.edu

In addition to traditional black and white and color photography, Tyler’s Photography Area ([http://tyler.temple.edu/programs/photography](http://tyler.temple.edu/programs/photography)) will introduce you to various other creative approaches to the medium. Some of these include digital imaging techniques, large-format professional digital printing in black and white and color, handmade cameras, large format photography, historical alternative processes, critical theory, and career options for artists who wish to enter the field of photography. The emphasis in the Photography Major is on the development of personal vision for the artist.

### Degree Requirements

The Bachelor of Fine Arts degree in Photography may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Photography majors must complete the BFA curriculum (p. 226) and General Education (p. 143) requirements.

- Students must earn a C- or better in GAD 2441 or GAD 2451, and GAD 2461 to enter the Photography major.
- The nine required Junior/Senior courses must be completed with a C- or better to fulfill major requirements.

**Total Credit Hours:** 126

1. These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.
2. Choose from GAD 3185, GAD 3186, GAD 3413, GAD 3421, GAD 3422, GAD 3432.

Please Note: An approved study abroad program will waive the GenEd Global/World Society (GG) requirement. Photography majors interested in studying abroad should consult with an academic advisor to determine if a semester (generally spring semester of second year) or a summer program would be the best option to remain on track for graduation.

**Bachelor of Fine Arts in Printmaking**

**Printmaking**

Richard Hricko, Program Head
Tyler School of Art Building
Room 260
215-777-9125
hricko@temple.edu

The Printmaking Area (http://tyler.temple.edu/programs/printmaking) is housed in large, fully-equipped modern studios where you first learn the fundamentals of the three printmaking disciplines (silkscreen, lithography, and etching) before exploring at least two of these disciplines in depth. After students master the basic technical aspects of printmaking, the faculty encourages the exploration of advanced subjects that include color and photo-etching, photo-lithography, metal engraving, mezzotint, woodcut, digital printmaking, large-scale printing, installation, and the full utilization of the computer as an image-creating tool.

**Degree Requirements**

The Bachelor of Fine Arts degree in Printmaking may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Printmaking majors must complete the BFA curriculum (p. 226) and General Education (p. 143) requirements.

- Students must earn a C- or better in either GAD 2701 or GAD 2702 and one of the introductory printmaking courses (GAD 2711, GAD 2731/GAD 2741, GAD 2751/GAD 2761) to enter the Printmaking major.
Major Requirements for B.F.A. in Printmaking

Sophomore Prerequisites

Select one Survey of Printmaking course from the following:
- GAD 2701  Survey of Printmaking Techniques (Lithography and Serigraphy)
- GAD 2702  Survey of Printmaking Techniques (Relief Printing and Etching)

Select one introductory Printmaking course from the following:
- GAD 2711  Serigraphy
- GAD 2731  Etching
  or GAD 2741  Etching
- GAD 2751  Lithography
  or GAD 2761  Lithography

Junior and Senior Requirements

Select two of the following (not taken as sophomore prerequisite):
- GAD 2711  Serigraphy
- GAD 2731  Etching
  or GAD 2741  Etching
- GAD 2751  Lithography
  or GAD 2761  Lithography

Select two Advanced courses from the following:
- GAD 3711  Advanced Serigraphy (fall only)
- GAD 3731  Advanced Etching (fall only)
- GAD 3751  Advanced Lithography (spring only)

Select three Specialized Printmaking courses from the following:
- GAD 3811  Printmaking Workshop (Intermedia, fall only)
  or GAD 3821  Printmaking Workshop
- GAD 3831  Relief and Monoprint Workshop (spring only)
- GAD 3841  Color Print Workshop (Intermedia, spring only)
- GAD 4511  Senior Projects Workshop/Seminar (spring only)
- GAD 3896  Art Career Workshop (Capstone)

Prerequisite for GAD 3711.
Prerequisite for GAD 3731.
Prerequisite for GAD 3751.
Indicates Writing Capstone.

Suggested Academic Plan

Please note that this is a suggested academic plan. Depending on your situation, your academic plan may look different.

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

Prerequisite for GAD 3711.
Prerequisite for GAD 3731.
Prerequisite for GAD 3751.
Writing Intensive course.
Choose from GAD 3711 (fall only), GAD 3731 (fall only), and GAD 3751 (spring only). Two different advanced courses are required.
Choose from GAD 3811 or GAD 3821 (fall only), GAD 3831 (spring only), GAD 3841 (spring only) and GAD 4511 (spring only). Three distinct specialized courses are required.

Please Note: An approved study abroad program will waive the GenEd Global/World Society (GG) requirement. Printmaking majors interested in studying abroad should consult with an academic advisor to determine if a semester (generally spring semester of second year) or a summer program would be the best option to remain on track for graduation.

Painting/Drawing/Sculpture

Susan Moore, Interim Department Chair (Fall)
Tyler School of Art Building
Administrative Suite Room 210S
215-777-9176
msusan@temple.edu

Mark Shetabi, Department Chair (Spring)
Tyler School of Art Building
Administrative Suite Room 210S
215-777-9176
mark.shetabi@temple.edu

The Painting, Drawing, and Sculpture Department emphasizes art making as an ongoing discipline rooted in rich history. We provide our students with a rigorous experience of the disciplines of drawing, painting, and sculpture. This experience ranges through the aesthetic, the technical, and the well-formed idea. We are committed to providing our students with the understanding of the broad cultural and historical context in which art is made and experienced.

The Painting, Drawing, and Sculpture Department has a weekly schedule of visiting lectures. Our lectures include practicing studio artists, museum curators, and critics, all of national standing.

Bachelor of Fine Arts in Painting

Painting/Drawing

Professor Marilyn Holsing, Painting Program Head
Tyler School of Art Building
Room 300D
215-777-9106
marilyn.holsing@temple.edu

Tyler’s Painting and Drawing program provides the skills and concepts essential to artistic growth. The faculty has designed studio and seminar courses that foster the development of pictorial concepts realized in the tangible form of painting and drawing.

The courses offer a range of both genre-based courses and advanced level courses. Upper level courses cover technical, formal, topical, and theory based issues. An extensive range of approaches will be presented in the context of both historical precedent and contemporary practice. The faculty advises each student to participate in a variety of studio experiences to facilitate the integration of technique with personal vision.

Degree Requirements

The Bachelor of Fine Arts degree in Painting may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Painting majors must complete the BFA curriculum (p. 226) and General Education (p. 143) requirements.

- Students must earn a C- or better in Painting (PDS 2011 or PDS 2111) and Intermediate or Digital Drawing (PDS 2311, PDS 2321, PDS 2331, PDS 2341 or PDS 3341) to enter the Painting major.
- The eight required Junior/Senior courses and PDS 3596 must be completed with a C- or better to fulfill major requirements.

Major Requirements for B.F.A. in Painting

<td>Digital Drawing</td>
</tr>
</tbody>
</table>

Note: PDS 2051 is suggested, but not required, for those interested in becoming a Painting major.

Note: PDS 2511 is strongly recommended for students interested in Painting or Sculpture as a major.

Note: Students may only take 3 Painting/Drawing courses in the sophomore year; other 2000-level PDS courses may be used as electives for the junior/senior year.

Junior and Senior Requirements

Eight courses totaling 24 credit hours. These courses must satisfy the following grade level requirements:

- Four (4) courses in Painting numbered 3000, and above (can include PDS 2051);
- Two (2) courses in Drawing numbered 3000 and above; and
- Two (2) courses in either Painting or Drawing numbered 3000 and above (can include PDS 2051).
Any Painting or Drawing courses taken in excess of the required eight courses will count as studio electives. This is a common practice encouraged by the Painting Faculty.

Students must also take the Capstone course: PDS 3596 PDS Seminar.

---

1 PDS 3021 and PDS 4021 may be taken for Painting and/or Drawing Credit.
Students wishing to enroll in PDS 4072 or PDS 4172 must be jury-selected by the faculty and special approval is needed to register for these courses. Both courses are team-taught by two faculty members and must be taken in the same semester.

PDS 3596 counts as one of the two required writing intensive courses. The other writing intensive course must be an Art History course.

Note: Do not duplicate any courses previously taken for Drawing or Painting credit.

1. These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.
2. Art History WI Elective may be taken either fall or spring.
3. PDS 3596 PDS Seminar can be taken either fall or spring semester.

Please Note: An approved study abroad program will waive the GenEd Global/World Society (GG) requirement. Painting majors interested in studying abroad may elect to study abroad in a summer program, for a semester or an entire academic year. Please see an academic advisor for more details.

**Bachelor of Fine Arts in Sculpture**

**Sculpture**

Jude Tallichet, Program Head
Tyler School of Art Building
Room 130
215-777-9155
The Sculpture Program provides the skills and concepts essential to creative growth. Courses are designed to integrate the development of technical skills with critical discourse and theory, and knowledge of contemporary sculpture. Students are encouraged to explore a broad range of sculptural strategies through studio courses including installation, sound, video, robotics, public art, and wood and metal fabrication. All courses provide intensive studio experience and intense critical dialogue combined with exhibition opportunities and field trips. The sculpture area includes a metal shop, wood shop, plaster and mold making facilities, a small sound studio and individual studios for undergraduate majors and for graduate sculpture students.

**Degree Requirements**

The Bachelor of Fine Arts degree in Sculpture may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Sculpture majors must complete the BFA curriculum (p. 226) and General Education (p. 143) requirements.

- Students must earn a C- or better in Sculpture (PDS 2611 or PDS 2621) to enter the major.
- The eight required Junior/Senior courses and PDS 3596 must be completed with a C- or better to fulfill major requirements.

The faculty encourages taking sculpture courses in excess of the minimum required. These additional courses count towards required studio electives.

**Major Requirements for B.F.A. in Sculpture**

**Sophomore Prerequisite**

PDS 2611 Sculpture 3
or PDS 2621 Sculpture

Students are encouraged to take Installation or Mold Making in the second semester of the sophomore year after Sophomore Sculpture.

**Capstone**

PDS 3596 PDS Seminar 3

1 Advanced Sculpture courses include specials topics in: Sound, Performance, Metal Fabrication and Robotics. These vary from semester to semester. More than the two required Advanced Sculpture courses are recommended in order to intensify creative development of sculptural practice.

2 These courses have a sophomore level prerequisite. Check the course descriptions for more details.
Students are advised to take the capstone in their Junior Year.

1. These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.
2. Select two Drawing courses from the following: PDS 2311/PDS 2321, PDS 2341, PDS 2521, PDS 3351, PDS 3411/PDS 3421/PDS 4411, PDS 3431/PDS 3441/PDS 4431/PDS 4441, AND PDS 3451. Some courses have a sophomore level prerequisite. Check the course descriptions for more details.
Please Note: An approved study abroad program will waive the GenEd Global/World Society (GG) requirement. Sculpture majors interested in studying abroad may elect to study abroad for a semester or attend a summer program. Please see an academic advisor for more details.

Visual Studies

Dr. Leah Modigliani, Program Head
Tyler School of Art Building
lmodigliani@temple.edu
215-777-9170

The Bachelor of Arts in Visual Studies enables students to develop an interdisciplinary studio practice. The curriculum organizes multiple approaches to visual thinking that cut across various disciplines into a logical whole. Students in this major develop studio practices from a variety of aesthetic, theoretical, scientific, sociological, and historical viewpoints. Students learn to consider medium, its impact on the image and message of a piece, and the work’s social and cultural context. The major is comprised of a stimulating blend of studio and academic courses that provide students with a sound basis for pursuing graduate study in studio art, art history, art theory and criticism, or visual anthropology.

Degree Requirements for the B.A. in Visual Studies

The Bachelor of Arts degree may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 122 semester hours of credit with a minimum cumulative 2.00 GPA.

University Requirements

- Students must complete the university’s General Education (p. 143) curriculum.
  - Successful completion (minimum grade of C-) in both VS 1151 and ARTH 1156 will waive the GenEd Arts (GA) requirement.
  - Summer or semester study abroad will satisfy the Gen Ed Global/World Society requirement.

Major Requirements

- Required Visual Studies courses must be completed with a minimum grade of C- to apply towards degree requirements.
- All Temple students must take a minimum of two writing-intensive courses at Temple University as part of the major. The writing-intensive courses are identified with (WI) after the titles.

---

1. These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.
2. Select studio electives from Visual Studies, ARTE (Community Arts courses, but not ARTE 3011) or 2000 level CRFT, PDS or GAD
3. If language 1001 is not required as determined by placement test, these credits must be taken as academic elective.
4. If Language 1002 is not required as determined by placement testing, these credits must be taken as academic elective.

Please Note: An approved study abroad program will waive the GenEd Global/World Society (GG) requirement. Visual Studies majors interested in studying abroad should consult with an academic advisor to discuss how a semester or a summer program fits in the program to remain on track for graduation.
Center for the Performing and Cinematic Arts

The Center for the Performing and Cinematic Arts at Temple University is a comprehensive and unified academic unit consisting of the Boyer College of Music and Dance and the School of Theater, Film and Media Arts.

The Center for the Performing and Cinematic Arts offers the BA, BS, BM, BFA, MA, MM, MS, MFA, MMT, DMA and PhD degrees and a collaboratively oriented community of award-winning faculty and professionals within the context of an urban major research university located in one of the most culturally vital cities in the United States.

Sharing the Center's vision of growth and sustainability as a cultural leader in the 21st century, its donors and alumni serve as ambassadors to the mission and represent some of the most prolific and noted individuals in national and international cultural arenas.

The Center for the Performing and Cinematic Arts at Temple University serves its neighboring communities in addition to national and international audiences through more than 500 events, performances, lectures and exhibits annually.

The Center for the Performing and Cinematic Arts is overseen by its Dean and the Vice Provost for the Arts at Temple University, Dr. Robert T. Stroker.

Mission

The Boyer College of Music and Dance is committed to nurturing and advancing music as a form of human expression, as an art, and as a subject for intellectual inquiry. Recognizing that music possesses unique powers -- to move the spirit, to excite the mind, to reveal the past, to chart the future, to instruct, to heal, and to foster communication -- the college seeks to perpetuate music in its myriad forms through creative and scholarly work, teaching, and service, according to the highest artistic and academic standards.

As an integral part of Temple University, the Boyer College shares the ideals of Russell Conwell upon which Temple was founded: to recognize talent and personal potential wherever they may be found; to provide educational opportunities for meritorious students of limited financial means; and to serve as a constructive presence in the wider Philadelphia community.

In carrying out its mission, the Boyer College seeks both to continue the long tradition of artistry and scholarship that we have inherited and to develop new insights, perspectives, and practices. This dual objective -- to explore both past and future, old and new -- should be broadly reflected in the life of the college: in curricula and instruction; institutional policy; professional activities of faculty; advisement of students; and musical performances.

For the art of music to remain vital, our culture must develop both highly-trained, professional musicians and informed, perceptive listeners. Accordingly, the college recognizes its responsibility to administer professional education to the student seeking a career in music, provide opportunities for the general university student to study and experience music, and share its musical life with the public.

The Boyer College provides a distinctive union of the best conservatory-type training with intense academically-oriented classroom teaching. Coupled with the performance opportunities of the university and the culturally-rich Philadelphia area, the Boyer College offers students the competitive edge in complete, comprehensive musical preparation. Many programs throughout the university offer minors. Students who wish to pursue a minor outside of music should contact the appropriate department.

Accreditation

Music Admissions

The following requirements for admission to the college are to be considered minimal. Applicants who pass the following examinations may be recommended to the Director of Admissions as eligible for admission to the college. In addition, candidates must meet general requirements set by the Office of Undergraduate Admissions.

• An audition in the major performing medium must be completed before an applicant can be accepted into the Boyer College of Music and Dance.
• After submitting the completed application, the applicant is responsible for scheduling his/her audition. E-mail music@temple.edu to schedule your audition. Refer to Boyer College for audition dates (http://www.temple.edu/boyer/admissions/undergrad-admissions/auditions.asp), pre-screening requirements, and audition requirements.
• The freshman application deadline is March 1. Applications for admission to the spring semester must be received no later than November 1.
• If the applicant is unable to be present because of distance, applicants should upload a video audition to Decision Desk. Refer to Boyer College for specific video audition details (http://www.temple.edu/boyer/admissions/undergrad-admissions/auditions.asp#Recorded).
• Prescreening audition recordings are required for jazz guitar; prescreening portfolio submissions are required for the B.M. Composition program.
• B.S. Music applicants must submit a statement of goals to music@temple.edu, and take a theory test.

Dance Admissions

Admission into the dance program requires the submission of four items:

• A general university application submitted to the Office of Undergraduate Admissions.
• Official transcripts / standardized test scores submitted to the Office of Undergraduate Admissions.
• A dance application submitted to the Department of Dance.
• Attendance at an audition located on Temple University Main Campus in Philadelphia, or other arrangements to complete the audition requirements.

A dance audition cannot be scheduled until all other required application materials have been submitted. Please note that Temple University will not make an admission decision until applicants attend a dance audition.

The dance audition consists of technique classes divided into sections of ballet, modern, and African dance; a one minute solo of an applicant's own choreography; and an interview. The faculty attempts to choose students with physical, artistic, and intellectual potential to enter and complete the dance program and the university curriculum. The faculty is concerned that potential students' goals and aspirations are supported by the department philosophy, maximizing success in the program.

For additional information regarding dance admissions and for an application, please visit Boyer Admissions (http://www.temple.edu/boyer/admissions).

Transfer Credits

In addition to the university's statement regarding transfer credit (see Transfer Students (p. 23)), the Boyer College of Music and Dance will, during New Student Orientation, determine all transferred music credits through placement exams. Where deemed necessary, students may be tested in music theory, music history, and secondary piano. Tests in other music areas may be arranged through individual departments.

Financial Aid

See Financial Aid (p. 137) in the Bulletin.

Financial aid is available to full-time undergraduates in the form of music grants, academic scholarships, loans, grants, music grants-in-aid, and work-study programs. No separate application is necessary.

Music Grants are awarded based on merit. The Boyer College has application and audition deadlines for priority music scholarship consideration. No separate application is required.

Entering Student Scholarships are offered by the Dance Department following successful entrance auditions and are based on artistic talent and potential for success in the dance curriculum. No separate application is necessary.

Financial aid awards are made after the student has been admitted as a fully-matriculated student. Students are to be enrolled full-time, unless prior permission is granted to do otherwise by the Associate Dean.

Music and Dance scholarships and awards for currently enrolled and graduating undergraduate and graduate students include, but are not limited, to the following:

Voice/Opera
Florence Berggren Voice Scholarship
Philip Y. Cho Voice Scholarship Fund
John T. Douglas Award for Young Artists
Else Fink Memorial Scholarship
Professor Robert Grooters Memorial Scholarship
Klara Meyers Scholarship
Morton C. Meyers Memorial Scholarship
Sidney and Mindelle Weinberg Voice Scholarship

New School Scholarship
Presser Foundation Scholarships
Janet M. Yamron Scholarship

Dance
Terese Benzwie Dance in Education Award
Frances Bowden Scholarship
The Katherine Dunham Award for Creative Dance Research
Edrie Ferdun Award
Sarah Hilsendager Award
Rose Vernick Award

Special Programs

Music Technology Component
In addition to coursework leading to Bachelor's degrees in Music, the Boyer College of Music and Dance offers a 36-credit component in Music Technology to qualified music majors. This component, which is distributed over a student's freshman through senior years, normally results in a five-year program.

The music technology component provides a structured sequence of courses for those students who desire to use new technologies to enhance their skills as performers, composers, teachers, and scholars. Courses focus on the creative, performance, and pedagogical aspects of music technology.
Temple Music Prep provides lifelong, non-credit learning opportunities in music and dance to the Greater Philadelphia community and surrounding areas. As a division of Temple University’s Boyer College of Music and Dance, Music Prep is uniquely able to combine university expertise with Philadelphia’s outstanding cultural assets, assuring excellence in experience and results.

Programming includes Early Childhood Music Foundations beginning with newborns through 4 years of age, Movement and Dance Classes for children 3 years old through teens, individual instruction in all instruments and voice for children and adults, and classes specially designed for adults. Music Prep is also an authorized provider of Act 48 credits for Pennsylvania educators.

A major component is the Center for Gifted Young Musicians, which serves those students with exceptional ability and motivation. The Community Music Scholars Program serves students with need from over fifty public schools, allowing access to affordable quality instruction.

Temple Music Prep is a member of the National Guild for Community Arts Education and the Greater Philadelphia Cultural Alliance.

Key Program Components

- **Individual lessons** from an outstanding faculty in orchestral instruments, piano, guitar, voice, composition and jazz techniques are offered for children and adults.

- **Suzuki instruction** in violin, cello, guitar, and piano is also offered for young children. In the "talent education method" of Dr. Shinichi Suzuki, children learn to play music with the same enjoyment and fluency with which they learn language.

- **Early Childhood Music Foundations** is an innovative program in early childhood music education education (newborns through children 4 years of age) that has a national reputation for excellence. In a carefully planned sequence of music learning, the program uses the natural human inclination for chanting, singing and movement as the first steps in the musical understanding of melody and rhythm.

- **Movement and Dance** classes take children through a sequential, age-specific dance program. Offerings include: Creative Movement (3 & 4 yrs.), Music and Movement (5 yrs. in kindergarten through 7 yrs.), Modern Dance (8 yrs. through teens in three levels) and Ballet Technique (pre-teens & teens).

- **Basic Musicianship** classes are offered in three progressive levels. The goal of these classes is to develop musicianship by integrating aural, written, vocal, and tactile skills. By using movable "Do" solfege, students learn to make the connection between musical notation and sound. A one-week summer music theory intensive course is offered for those students preparing to enter a college music degree program.

- **Adult classes** are designed to provide opportunities for personal growth and professional development. Offerings include: classes in learning to play piano, learning to play guitar, learning to sing, jazz improvisation, or in Suzuki piano teacher training; participation in a community band or a community choir during the academic year or week-long music workshops offered at the Boyer College; as well as individual study in instruments and voice. Pennsylvania educators are eligible to receive Act 48 credit for most of these offerings.

- **The Center for Gifted Young Musicians** is the component of Music Prep that focuses on the training of exceptionally-gifted students who have the ability and willingness to make a serious commitment to music. By audition only.

### Instrumental Division (for strings)

The Center’s instrumental program provides a comprehensive package of music instruction and performance for young musicians who have demonstrated the greatest potential for musical achievement. Emphasis in this program is placed on the development of superior musical skills through large and small ensemble performance. The faculty is made up of the finest artist/teachers in the region, including members of The Philadelphia Orchestra and professors from Temple’s own Boyer College of Music and Dance.

#### Young Artists Harp Ensemble

The Young Artists Harp Ensemble offers pedal and lever harp students ages 10 through high school the opportunity to participate in a group ensemble experience with a conductor as well as in student-led chamber music settings. Participants are also eligible to attend monthly studio master classes by Philadelphia Orchestra principal harpist, Elizabeth Hainen at the Boyer College of Music and Dance. Students may also have the opportunity to collaborate with other Temple Music Prep ensemble groups.

#### The Festival of Young Musicians

The Festival of Young Musicians has long been the centerpiece of the Center for Gifted Young Musicians. Held annually in late April/early May, it consists of a series of concerts throughout the region that feature all the performers in the Center.

- **The Community Music Scholars Program: Upper Division** provides weekly individual instruction, music theory and ensemble experience at a nominal fee for young instrumentalists. These Philadelphia school students with need are nominated by their school music teachers and accepted by audition.
• The Philadelphia String Project at Temple University is aligned with the National String Project Consortium (NSPC) a coalition of String Project sites at universities across the United States that exchange ideas and learn from each other but operate completely independently. The NSPC is dedicated to increasing the number of children playing stringed instruments, addressing the critical shortage of string teachers in the US and supporting public school string programs. Participating students receive twice weekly instruction taught by a Master Teacher and supported by Temple University undergraduate music education and performance string interns.

The Boyer College of Music Preparatory and Extension Division is located at Temple University's Center City Campus, 1515 Market Street, in the heart of metropolitan Philadelphia at the hub of the Regional Transit System.

For further information concerning curricula and fees, write to:

Temple Music Preparatory Division
1515 Market Street, Suite 501

Facilities

Presser Hall, opened in 1967, is the center of musical activity at Temple University. This building houses practice rooms, classrooms, ensemble rehearsal rooms, teaching studios, faculty offices, a 16-station computer classroom, student and faculty lounges, a large listening and viewing library, and the Presser Learning Center. Presser Hall's performance facilities include Klein Recital Hall and Arronson Rehearsal Hall. Presser Hall houses the Music Studies Department, the Music Education Department, the wind, brass, and Percussion programs of the Instrumental Department, the Choral Activities Department, the Department of Voice and Opera, and the programs in Music Therapy and Jazz Studies. Presser Hall is fully Wi-Fi enabled.

The Presser Hall Listening Library houses a collection of more than 20,000 recordings and tapes, 10,000 compact discs, hundreds of video tapes and DVDs, reference books, and scores. Music listening and viewing assignments for courses in music history, theory, composition, jazz, education, and literature can be completed with this collection, which spans music history and performance from the earliest times to the present. This facility also contains general use computer stations, cell-phone and laptop charging stations, searchable databases of digital audio tracks, iPad stations, and multiple LP/CD/DVD media stations. A larger collection of music books and scores is found in Paley Library.

The Boyer College's Rock Hall was extensively renovated for music and dedicated in 1994 in recognition of the generous support of Dr. Milton Rock and the late Mrs. Shirley Rock. Located at Broad Street and Cecil B. Moore Avenue on Temple University's Main Campus, Rock Hall houses the Office of the Dean, the string and chamber music programs of the New School Institute, the programs in Music Composition, the Keyboard Department, the Early Music Program, the Alice Tully Library, three state-of-the-art computer/electronic laboratories for music and dance, practice rooms, classrooms, and a 325-seat chamber music recital hall. Rock Hall is fully wi-fi enabled.

The visual video/film scoring studio in Rock Hall features a variety of voice modules controlled by a computer workstation, a multi-channel mixer, 5:1 surround sound, and digital and analog recording facilities. Students are encouraged to design their own libraries of timbres for use in composition. The computer synthesis studio uses several computer workstations with expanded disk memory, digital and analog recording equipment, and a broad range of software for music synthesis. Most hardware and software titles in the Boyer College Computer Labs are identical to those in the new TECH Center's dedicated Music Lab, enabling students to work on projects in multiple venues.

The Boyer College added a 3-story addition to Presser Hall in 2009 which contains 21 additional practice rooms, three large classrooms, teaching studios, administrative offices, the Center for Arts and Quality of Life, and a 24-track ProTools recording studio.

The Boyer College's Department of Dance has its administrative, faculty, institute, and student offices housed in 1700 North Broad Street. Dance classes are held in three large dance studios in Pearson Hall where there are additional support spaces as well as two small teaching studios for smaller groups. Dance classes and performances are held in Conwell Dance Theater in Conwell Hall, a 125-seat black box theater. All Dance Department spaces are wi-fi enabled.

As of the 2011-2012 academic year, the College presents its largest ensembles in performance in the Temple Performing Arts Center. This iconic building — formerly the Baptist Temple of Philadelphia — was specifically converted into a performing arts complex capable of housing a full symphony orchestra and choir. Boyer's symphony orchestra, choirs, wind symphony, percussion ensemble and other large ensembles all perform in this venue. In addition, the Temple Performing Arts Center is also available to the College for recording sessions, rehearsals, faculty concerts and other significant events.

Also utilized by the Boyer College is the third floor of Mitten Hall where the Temple Opera Theater's rehearsal, administrative and faculty offices are housed along with the Opera Listening and Study Library, and the scene, costume, and prop shops. Tomlinson Theater, located across the street from
Presser Hall, is used for on-campus large ensemble performances and for the twice yearly staged opera productions. A 55-seat smart classroom for music and dance instruction is housed in the Tuttleman Learning Center.

The Boyer College is able to loan professional equipment to students in the form of instruments (violins, violas, celli, basses, all woodwinds, all brasses, all percussion), audio gear (JBL, Yamaha and Peavey), portable digital recording units, iPads, and video gear. Also available for use are unique vintage instruments: Hammond B3 Organ with Leslie Speaker, Fender Rhodes 73 synthesizer, Yamaha and Kurzweil synthesizers.

In July of 2012, the Boyer College of Music and Dance became part of Temple University’s Center for the Arts, a comprehensive administrative restructuring of all of the Arts programs on Temple’s campus. The combined programs included the Boyer College of Music and Dance, Tyler School of Art, and the Division of Theater, Film and Media Arts. With the oversight of all these areas by the Vice Provost for the Arts and Dean of the Center, Dr. Robert Stroker, the possibilities for collaborations among all of the arts programs on Temple’s campus have significantly increased.

In October 2015, the Center for the Arts was renamed the Center for the Performing and Cinematic Arts; the Division of Theater, Film and Media Arts was renamed the School of Theater, Film and Media Arts; and the Tyler School of Art became an independent school.

For university-wide academic policies, refer to Undergraduate Academic Policies (p. 81).

Note that the policies for music students and dance students are listed in separate sections below.
• Music policies (p. 273)
• Dance policies (p. 275)

Boyer College Policies for Music Students

Students are responsible for complying with all university-wide academic policies as well as those of the Boyer College of Music and Dance that appear below.

Dean's List

Each fall and spring semester, those undergraduates who have met the credit hour and academic criteria for their school or college are placed on the Dean's List. See the Dean's List (p. 92) policy for specific GPA and credit-hour requirements.

Band Camp and Choir Retreat Policy

Each fall, prior to the opening of school, the Temple University Marching Band holds its annual band camp. In addition to having a concentrated four-day work period to prepare for the coming season, students get to know each other in both a working and social relationship. They also become acquainted with the group directors at both the personal and professional levels. Attendance at band camp is mandatory for group participation.

The Temple University Concert Choir often meets a few days prior to fall classes or during the first weekend of fall classes for extensive rehearsals.

Ensemble Requirements

• Undergraduate students with a major or concentration in voice or keyboard are required to participate in a choral ensemble, as determined by the Director of Choral Activities, throughout the undergraduate degree program where indicated by the curriculum. Participation begins in the first semester and continues until a baccalaureate degree is obtained. The requirement is waived during the semester of senior recital, internship, or student teaching.
• Music Education/Jazz majors whose concentration is voice are required to participate in both classical and jazz vocal ensembles. After advisement to determine which kind of ensemble is appropriate, these students should go to the Director of Choral Activities to be placed in a classical ensemble and to the Director of Jazz Studies to be placed in a jazz ensemble.
• Undergraduate students with a major or concentration in strings are required to play in the Temple University Symphony Orchestra. Participation begins in the first semester and continues until a baccalaureate degree is obtained. Qualified jazz strings and upright bass students are required to audition. This requirement is waived during the semester of student teaching or internship.
• All woodwind, brass, and percussion performance majors and/or concentrations must audition for instrumental ensembles, large and small, at the beginning of the fall semester for placement during the academic year. Continuing students will audition for ensemble placement through juries at the end of each semester. New students will audition for ensemble placement at the beginning of the first semester of study.
• Music education majors whose principal instrument is woodwind, brass, or percussion are required to play in the marching band for one semester, normally during the fall semester of the freshman and sophomore years. Transfer students in this category must also register for Marching Band for one semester unless they can show evidence of equivalent undergraduate experience at another college or university as determined by the Director of Bands.
• All students taking private lessons (major or concentration) or Recital Extensions are required to participate in an ensemble each semester in attendance.
• Percussion majors are required to participate in Percussion Ensemble.
• Any instrumental student who does not play for a private lesson jury at the end of each semester must arrange for an audition for ensemble placement for the succeeding semester with the Department of Instrumental Studies.
• Students may perform in more than two ensembles only with permission of their advisor.
• All students must show evidence of ensemble experience in their performance medium.
• All students who are registered for applied and concentration lessons must arrange their schedules in order to attend regularly-scheduled master/studio classes. Failure to do so may result in the lowering of the applied lesson grade.

Independent Study Policy

Independent Study provides a special opportunity for juniors and seniors to work in a highly-individualized setting with one or more faculty members.

Those who wish to design an Independent Study project must prepare a written proposal six months in advance of the semester in which the study is to be accomplished. This proposal is then submitted for the approval of a special Honors subcommittee of the Academic Planning and Review Committee, which includes the dean and associate dean. Private lessons beyond those required in the curriculum are not an appropriate form of Independent Study.

Professional Development Policy

All students in the college, in addition to passing the required subjects toward their degrees, are obligated to serve in a number of capacities in order to enrich their academic and musical expertise. The Boyer College believes that such experiences give impetus to successful professional careers.

Among the duties that may be required are conducting laboratory classes, tutoring, teaching private lessons, coaching, participating in the distribution and inventory control of university-owned musical instruments and instructional materials, participating in ensembles, accompanying, supervising
performance classes, performing at admission and open house events, and other academically-related activities. The Boyer College performances must be given priority over non-college commitments.

Instrumental Jury Policy

All instrumental students, both performance majors and instrumental concentration students, must play a jury at the conclusion of each semester to show evidence of progress on their instrument. For string performance majors, the jury at the end of the sophomore year is the ‘Junior Standing Jury,’ which must be successfully passed in order for the student to continue in the performance program.

Recital and Concert Attendance Policy

The dean and faculty of the Boyer College of Music and Dance consider recital and concert attendance to be a significant educational activity in the training of a musician. It is largely through the process of active listening that the young musician develops powers of discrimination and critical judgment with relation to musical performance. Therefore, attendance at a minimum of sixteen college recitals or concerts throughout the course of an academic year is mandatory for full-time undergraduate students. A maximum of 56 recitals is needed to complete the requirement. Of the eight required recitals attended in each semester by full-time students, one must be an official Boyer College World Music Recital or Multicultural Music Lecture-Performance. Part-time, matriculated undergraduate students are also responsible for attending a specific number of concerts with the same World Music Recital or Multicultural Music Lecture-Performance requirement. For part-time students the number of required recitals in a semester will be in a direct ratio to the number of credits for which they are registered. During student teaching, therapy internship, or senior recital, this requirement is waived. The requirement for full-time transfer students will be based on the number of semesters they attended the Boyer College. Failure to comply with this ruling may result in delay of graduation from the college.

Senior Recital Policy

Students in the following curriculums are required to perform a senior recital:

- Piano Performance
- Piano Pedagogy
- Instrumental Performance
- Voice Performance
- Jazz Instrumental Performance
- Jazz Voice Performance
- Jazz Arranging/Composition

The senior recital provides the opportunity for the performance major to display his or her development and potential as a professional musician and should be considered the focal point for the semesters of private lessons which precede it. Before the senior recital is scheduled, the student must have successfully completed private lessons during each semester prior to the recital and must have achieved senior status academically. All grades of "incomplete" in private lessons must be cleared before the student may apply for the senior recital. Students should refer to the Boyer College of Music and Dance Undergraduate Handbook for further details and policies governing recitals.

After receiving approval from the jury and the major teacher in the applied area, a student should apply for the Senior Recital date and complete the necessary recital arrangements through the recital coordinator.

For students enrolled in the Instrumental Studies Department, the recital approval jury serves to demonstrate the student’s ability to perform the degree recital successfully. Normally, this occurs at the preceding semester’s jury. If by departmental approval this jury does not occur, then a jury must be scheduled at least four weeks prior to the recital. If the jury is not successfully completed by that time, the Instrumental Studies Department reserves the right to cancel the recital date. Most of the recital repertoire, with the exception of chamber ensemble works, should be available for performance at the jury and accompanied by the recital accompanist. Recital approval is dependent upon the time remaining between the approval jury and the actual recital date, as well as the degree of preparedness of the repertoire.

Except for non-sonata and complicated contemporary repertoire, string performance majors should perform from memory (and the recital program should include some portion that will be performed from memory). Students who wish an exception to this memorization policy must obtain prior approval from the department by indicating the request on the recital repertoire form when it is submitted to the department for approval of the program.

Senior Recitals are usually presented Monday through Friday at 5:15 PM or 7:30 PM. Performance time should be 45 to 50 minutes, exclusive of an optional intermission of no more than 10 minutes.

Recital Extension Policy

Some students may need to extend their applied study beyond the required number of semesters in order to complete the preparation for the Senior Recital. Students who do not present a recital during the recital semester will receive the grade of "Incomplete" and must register for MUSC 5000 for 2
semester hours of non-degree credit. Recital Extension must be taken each semester until the recital has been presented. The sole exceptions to this rule are as follows:

- Students who give their recitals during the first three weeks of the spring semester are not required to register for Recital Extension that semester.
- Students who register for Recital Extension or for private lessons during the summer may give their recitals during the first three weeks of the fall semester. However, if a student does not register for either Recital Extension or lessons during the summer, he or she may not present the recital in the fall semester -- regardless of the date -- without also registering for that semester of lessons or Recital Extension.
- Private applied lessons beyond the eight-semester requirement currently in effect for undergraduate performance majors may be taken by permission of the jury and/or the appropriate performance department chairman. MUSC 5000 carries a $500 fee (subject to change without notice). Tuition scholarships do not cover this private lesson fee.

Program Performance Policy

All music departments reserve the right to dismiss an undergraduate student at any time from a given undergraduate degree program, regardless of grade point average, if in the opinion of the major department, he or she is unable to meet departmental standards. The decision will receive automatic review by the Academic Review and Planning Committee. The student has the right to appeal the dismissal to the Academic Review and Planning Committee of the Boyer College of Music and Dance.

Undergraduate Private Lesson Policy

Weekly one-hour private lessons are arranged for full-time matriculated undergraduates in the Boyer College for as many semesters as required by the particular curriculum. (A full-time student must be registered for at least 12 credits each semester.) A per semester lesson fee of $250 (subject to change without notice) -- above and beyond the regular tuition -- will be automatically added to the tuition charge of each student for this study. Students who do not complete a minimum of 12 semester hours must pay a private lesson fee of $500 for the succeeding semester of private lessons. Students who are accepted for a double concentration or a double major in performance must be fully accepted by both departments by audition. A private lesson fee of $500 is assessed for the second instrument. Approval of the associate dean is required for all students desiring a double major or double concentration. Tuition scholarships granted by the Boyer College do not cover the private lesson fees.

Boyer College Policies for Dance Students

Students are responsible for complying with all university-wide academic policies that apply to their individual academic status. Additional and unique policies, or exceptions for the Boyer College of Music, Department of Dance, appear below.

Dean's List

Each fall and spring semester, those undergraduates who have met the credit hour and academic criteria for their school or college are placed on the Dean's List. See the Dean's List (p. 92) policy for specific GPA and credit-hour requirements.

Leave of Absence

Students must submit the Leave of Absence form to the Undergraduate Program Coordinator in advance of the semester in which the leave is to take place, stating the reason(s) why the leave is necessary. A Leave of Absence must be authorized by the Undergraduate Program Coordinator and Department Chairperson, who will process the leave in accordance with the university's leave of absence policy. (Policy # 02.10.16 (http://policies.temple.edu/getdoc.asp?policy_no=02.10.16))

Injury Policy

An injury may affect a student’s ability to successfully continue in a course. A student who is injured is expected to immediately contact their instructor and the Undergraduate Program Coordinator to discuss the possibility of continuance in the course. Injured students are responsible for seeking appropriate medical attention for their injuries. Students must provide an official doctor’s note recommending non-participation in class to their instructors. Failure to provide a doctor’s note verifying an injury may result in the student’s violation of applicable absence policies or may otherwise impact the student’s grade.

Any student who is advised by a doctor to refrain from dancing for three weeks or more may be required to withdraw from studio courses that focus on dance technique, composition, repertory and improvisation. For students who will miss fewer than three weeks of classes due to their injury, and who are physically able to do so, must attend all classes to observe and take notes. Instructors may assign additional written work if appropriate. If a student is unable to participate in midterm or final examinations due to an injury, the student is responsible for working with their instructor to develop alternate assignments at the discretion of the faculty member.

Persons subject to this policy may have the option for a medical withdrawal or an incomplete in their courses. Students should review Temple University's Withdrawal from Classes Policy (02.10.14 (http://policies.temple.edu/getdoc.asp?policy_no=02.10.14)) and Incomplete Coursework Policy (02.10.13 (http://policies.temple.edu/getdoc.asp?policy_no=02.10.13)).

Independent Study and Field Experience

Students who wish to register for Independent Study or Field Experience must submit a written proposal to the Undergraduate Program Coordinator no later than two months in advance of the semester in which the study is to be accomplished. A student who is on academic probation may not register
for Independent Study or Field Experience. Credits will not be granted retroactively, and no more than 4 credits will be awarded over the course of a student's undergraduate study.

Full-Time/Part-Time Status
The semester load for full-time undergraduate students is 17 credits. Undergraduate students must carry at least 12 credit hours to be classified as full-time. The Bachelor of Fine Arts (BFA) in Dance requires matriculated students to attend on a full-time basis each semester. Students who have been full-time for at least four semesters may petition the Undergraduate Program Coordinator no later than two months in advance for approval to enroll in the subsequent semester on a part-time basis. All requests for part-time status must be approved by the dance faculty. Part-time status is granted for one semester only. Students who are on academic probation are not eligible for part-time status. If a student is granted part-time status and is then placed on academic probation, part-time status will be revoked.

Academic Overloads (18 or more semester hours)
Academic overloads need special approval from the Associate Dean for Student Affairs. Students interested in pursuing an academic overload should contact their Faculty Advisor no later than 2 months prior to the start of the semester in which they desire to overload. Students who are on academic probation are not eligible for academic overloads.

Technique Standards
Temple University's Department of Dance recognizes the necessity of technical training in building professional quality performers, choreographers, and teachers. Our technique classes include a diverse range of dance forms, including ballet, modern, jazz, and African. Each of our technique teachers draws from an array of influences and styles, preparing students for the eclecticism found within the contemporary dance world today. Through four years of technical training, our students gain an understanding of and apply the following principles in reaching their expressive potential and minimizing injury:

- Alignment and Core Connection
- Physical Strength and Flexibility
- Upper and Lower Body Integration
- Clarity in Articulating Various Body Parts
- Sensitivity to Qualitative Range and Expressivity Inside Movement
- Rhythmic Awareness and Musicality
- Incorporation of Weight and Breath
- Spatial Awareness
- Critical Thinking
- Self Motivation and Discipline

Modern Technique represents the core of our students' technical training. Students in the Performance & Choreography Focus are required to advance to Modern Technique IV, while students in the Dance Education Focus are required to advance to at least Modern Technique III. In all technique classes, video evaluations occur at the mid-term and final periods of each semester. Following these evaluations, students receive verbal and written feedback from their instructors. This process provides a method of looking at a student's progress in developing the target competencies for each level of technique.

Technique Placement Class
All entering undergraduates are placed into modern and ballet technique levels based on their audition and supplemental dance application. Adjustments to level placement may be made during the first week of classes. Returning undergraduates should consult with their faculty advisor about level placement prior to registering for classes. Students may repeat a level up to two times, and are not allowed to regress in level.

First Semester Program Review
At the end of the first semester, each student's progress will be formally evaluated in the following categories to determine suitability for continued study within the dance program.

Academic Progress
Students must meet and maintain the minimum academic standards listed below:

- 2.50 grade point average (GPA) in dance courses each semester.
- 2.25 grade point average (GPA) overall each semester.
- No more than one grade below B- in a dance course is permitted.
- No withdrawals or incompletes are permitted in dance courses.
- Successful completion of the following dance courses:
DANC 1801 First Year Seminar in Dance 1
DANC 1811 Movement Improvisation I 2
DANC 1813 Dance Repertory I 2
or DANC 1819 Dance Production
DANC 1841 Music for Dancers 2
or DANC 1851 Global Dance Traditions
At least two modern technique classes
At least one ballet technique class

Technical Growth
Students must be able to demonstrate and articulate verbally a conceptual understanding of alignment, strength, and mobility. They must be able to assimilate sequential movement materials, and successfully perform basic movement phrases.

Improvisation
Students must demonstrate their ability to spontaneously create solo movement, and demonstrate their understanding of basic partnering techniques and improvising in groups. Students will be able to generate movement material that both explores and expands their expressive range as dancers.

Creative Engagement
Over the course of the first semester, students must:

- Participate in one performance or audition one finished work for the student concert.
- Demonstrate consistent attendance, focus, intellectual curiosity, and openness to new approaches, as reflected in faculty evaluations of student coursework.
- Demonstrate receptivity to feedback and in-class evaluation from instructors, and apply this information in subsequent work.
- Demonstrate healthy life practices as part of a disciplined approach towards one's work as a dancer.
- Maintain positive professional interactions with peers and faculty.

Second Semester Program Review
At the end of the second semester, each student's progress will be formally evaluated in the following categories to determine suitability for continued study within the dance program.

Academic Progress
Students must meet and maintain the minimum academic standards listed below:

- 2.50 grade point average (GPA) in dance courses each semester.
- 2.25 grade point average (GPA) overall each semester.
- No more than one grade below B- in a dance course is permitted.
- No withdrawals or incompletes are permitted in dance courses.
- Successful completion of the following dance courses:

DANC 1801 First Year Seminar in Dance 1
DANC 1811 Movement Improvisation I 2
DANC 1813 Dance Repertory I 2
DANC 1819 Dance Production 1
DANC 1841 Music for Dancers 2
DANC 1851 Global Dance Traditions 2
At least four modern technique classes
At least two ballet technique classes

Technical Growth
Students must be able to apply, demonstrate, and articulate verbally a conceptual understanding of alignment, strength, and mobility. They must be able to assimilate sequential movement materials, and successfully perform movement phrases that deal with the following elements:

- Movement efficiency and proper alignment
- Shifting off the vertical line of balance and returning to center
- Basic rhythmic structures and patterns
• Basic locomotor movement and some inverted movement
• Variable spatial planes, directions, and levels
• Assimilation of sequential movement material
• Concepts of body organization: such as breath support, core to distal/head to tail patterning, upper-lower/body half integration, and cross-lateral patterning
• Differing energy qualities: how energy is directed within the body and projected out into space

Creative Engagement
Over the course of the second semester, students must:
• Participate in one performance or audition one finished work for the student concert.
• Demonstrate consistent attendance, focus, intellectual curiosity, and openness to new approaches, as reflected in faculty evaluations of student coursework.
• Demonstrate receptivity to feedback and in-class evaluation from instructors, and apply this information in subsequent work.
• Demonstrate healthy life practices as part of a disciplined approach towards one's work as a dancer.
• Maintain positive professional interactions with peers and faculty.

Third Semester Program Review
At the end of the third semester, each student's progress will be formally evaluated in the following categories to determine suitability for continued study within the dance program. As part of this process, students apply for entrance into either the Dance Education Focus or the Performance & Choreography Focus.

Artistic Portfolio
By December 1st, students will submit to the Undergraduate Program Coordinator a portfolio containing the following:
• Concert Programs: copies for each production in which the student has participated as a performer or stage crew.
• DVD: videos of all choreography and performances in previous three semesters.
• Essay: a personal statement of 1-2 pages that identifies the track the student wishes to pursue, how that track will impact their professional goals and development, and assesses their artistic and professional development within the curriculum to date.

Academic Progress
Students must meet and maintain the minimum academic standards listed below:
• 2.50 grade point average (GPA) in dance courses each semester.
• 2.25 grade point average (GPA) overall each semester.
• No more than one grade below B- in a dance course is permitted.
• No withdrawals or incompletes are permitted in dance courses.
• Successful completion of the following dance courses, in addition to those listed for the first and second semester reviews:
  
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>DANC 2813</td>
<td>Dance Composition I</td>
<td>2</td>
</tr>
<tr>
<td>DANC 2814</td>
<td>Dance Composition II</td>
<td>2</td>
</tr>
<tr>
<td>DANC 2872</td>
<td>Foundations of Dance Education</td>
<td>3</td>
</tr>
</tbody>
</table>
  or DANC 3851 | Lighting Design for Dance            |         |
  | DANC 4874   | Dance Repertory III                  | 3       |
  or DANC 4811 | African Dance Repertory              |         |

At least six modern technique classes
At least three ballet technique classes

Technical Growth
Students must demonstrate awareness of alignment issues and articulate personal strategies for addressing them. They must be able to assimilate and retain movement material sequentially and qualitatively, and successfully perform movement phrases that deal with the following elements:
• Increased movement efficiency and proper alignment
• Basic kinesiological principles in technique and conditioning contexts
• Increased facility in shifting off the vertical line of balance and returning to center
• Incorporation of weight into on-balance and off-balance movement involving momentum and weight release
• Increased rhythmic acuity: ability to work with shifting accents, structures & patterns
• Embodiment of musicality and more complex phrasing
• Movement initiation and follow-through
• Ability to risk and expand one's spatial parameters: demonstration of an increased drive through space
• Modulation between different energy states with breath support inside metric and non-metric phrasing
• Developing confidence in one's creative engagement with movement material
• Ability to adapt when experiencing new teaching methods and styles

Choreography
Students must also be able to discuss their work and the process by which they created it. Students must be able to create and perform a dance that:

• Successfully communicates an idea of personal significance;
• Demonstrates the ability to develop thematic movement material;
• Investigates movement imaginatively;
• Explores a range of dynamic qualities; and,
• Reflects a basic understanding of choreographic structure.

Creative Engagement
By the end of the third semester, students must:

• Audition one piece of their choreography for a student concert and participate in three performances.
• Demonstrate consistent attendance, focus, intellectual curiosity, and openness to new approaches as reflected in faculty evaluations of student coursework.
• Demonstrate receptivity to feedback and in-class evaluations from instructors, and apply this information in subsequent work.
• Maintain positive, professional interactions with peers and faculty.
• Demonstrate healthy life practices as part of a disciplined approach towards one's work as a dancer.
• Participate in one audition or recruitment event.

Special Course Sequences
The courses listed below must be taken in the specified sequence, and cannot be taken out of order or during the same semester. All courses must be completed before students register for Senior Choreographic Project or Dance Education Project.

• Composition: Movement Improvisation I, Composition I, Composition II, Creative Process
• History: Dance Modernism, Dance Post-Modernism
• Repertory: Dance Repertory I, Dance Repertory II, Dance Repertory III
• Technical Theater: Dance Production, Lighting Design for Dance

Enrollment in Dance Repertory III is by audition, and only required in the Performance & Choreography Focus.

Note that the general college graduation requirements for music students and dance students are listed in separate sections below.

• Music graduation requirements (p. 279)
• Dance graduation requirements (p. 280)

University Requirements
• All new students are required to complete the university's General Education (GenEd (p. 143)) curriculum.
• All Temple students must take a minimum of two writing-intensive courses as part of the major.

General College Graduation Requirements - Music
• All music education students must maintain a 3.0 GPA to obtain permission to student teach and qualify for state teacher certification.
• All music therapy students must receive a grade of B- or better in all music therapy classes. Grades below B- in any music therapy course may not be applied toward degree requirements in music therapy. Students may retake such courses only once, only with faculty approval. If a grade below B- is earned upon retaking the course, the students will not be permitted to continue as a music therapy major, but may be eligible to change to a different curriculum.
• All Boyer College music students must attend a minimum number of College recitals each semester to qualify for graduation. Refer to the Recital and Concert Attendance Policy for more detailed information.
• All Boyer College music students are required to participate in specific ensembles as determined by their department and program. Refer to the Ensemble Requirement Policy for more detailed information.
• Students in the following curriculums are required to perform a senior recital prior to graduation: Piano Performance, Piano Pedagogy, Instrumental Performance, Voice Performance, Jazz Instrumental Performance, Jazz Voice Performance, and Jazz Arranging/Composition. Refer to the Senior Recital Policy for more detailed information.

• All undergraduate music students must be cleared by the Assistant Director of Advising for graduation by the end of their junior year. Please refer to the Boyer College Policy Section (p. 272) for a complete list of policies. Detailed requirements for each degree program are listed within the curriculum section of the Bulletin.

Descriptions

1. Certain courses fulfill multiple requirements. In consultation with an advisor, students will be able to plan their curriculum more effectively.
2. The total number of credit hours required for graduation may be greater for some students based on placement exams, transfer evaluations, individual curricular choices, and academic progress.
3. Students must fulfill the necessary prerequisites for any given course or course sequence. See the Prerequisite and Co-requisite Policy (p. 99) in the University-wide Academic Policies section of this Bulletin.

General College Graduation Requirements - Dance

See the Dance Major (p. 292) page for the specific courses that are required for dance majors.

1. Dance required GPA for graduation: 2.25 cumulative, 2.5 in dance major
2. Dance Contact Information:
   1700 N. Broad Street, Suite 309
   Main Office Phone: 215-204-8710
3. Dance Requirements & Special Course Sequences (see dance major page for details):
   a. Must be taken in the required sequence
   b. Cannot be taken out of order or during the same semester
   c. All must be completed before students register for Senior Choreographic Projects.

Academic Advising Center

All Bachelor of Music, Bachelor of Science in Music, Bachelor of Fine Arts in Dance students will be assigned a faculty advisor. Students are required to meet with their advisor prior to registering for classes for the following semester.

Academic advisors attempt to avoid errors when advising students about their program requirements. Temple University's Schools and Colleges cannot assume liability for errors in advising; therefore, students must assume primary responsibility for understanding the requirements for their degree, and acquiring current information about their academic status.

Change of Concentration within Music

Students wishing to change their concentration or major may need to contact Margo Jackson (margo@temple.edu), Assistant Director of Advising, Presser Hall, 215-204-2229. An interview with the Department Chairperson, along with written authorization from your Department and Faculty advisor, is required.

Change of Program Request form:

www.temple.edu/vpus/forms/index.htm#advising

If you are considering changing your major from music to another major within Temple University, please see Margo Jackson in Presser Hall. Many colleges require students to schedule Intra-University Transfer workshops.

Permission to Take a Course Outside of Temple University: See Academic Policies (p. 98)

University Academic Resources: www.temple.edu/vpus/resources/index.htm

New Student Orientation Information: www.temple.edu/studentaffairs/orientation/

Registration and Schedule Revision — Add/Drop: See Registration (p. 33).

Faculty

Charles Abramovic, Professor, Department of Keyboard Studies, Boyer College of Music and Dance; D.M.A., Temple University.

Mitos Andaya, Associate Professor, Department of Choral Activities, Boyer College of Music and Dance; D.M.A., University of Kansas.

Christine L. Anderson, Associate Professor, Department of Voice and Opera, Boyer College of Music and Dance; D.M.A., University of Cincinnati College-Conservatory of Music.

Luis O. Biava, Professor Emeritus, Department of Instrumental Studies, Boyer College of Music and Dance; M.M., Manhattan School of Music.

Beth Bolton, Associate Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; Ph.D., Temple University.

Karen E. Bond, Associate Professor, Department of Dance, Boyer College of Music and Dance; Ph.D., La Trobe University.

Darlene M. Brooks, Associate Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; Ph.D., Temple University.

Matthew Brunner, Assistant Professor (Teaching/Instructional), Department of Instrumental Studies, Boyer College of Music and Dance; D.M.A., Indiana University.

Nathan Buonviri, Assistant Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; Ph.D., Temple University.

David B. Cannata, Associate Professor, Department of Music Studies, Boyer College of Music and Dance; Ph.D., New York University.

Deborah A. Confredo, Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; Ph.D., Florida State University.

Andreas Delfs, Professor, Department of Instrumental Studies, Boyer College of Music and Dance; M.M., The Juilliard School.

Marcus DeLoach, Assistant Professor, Department of Voice and Opera, Boyer College of Music and Dance; D.M.A., Rice University.

Alexander deVaron, Assistant Professor (Teaching/Instructional), Department of Music Studies, Boyer College of Music and Dance; D.M.A., Temple University.

Cheryl L. Dileo, Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; Ph.D., Louisiana State University.
Rollo A. Dilworth, Associate Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; D.M.A., Northwestern University.

Sheril Dodds, Professor, Department of Dance, Boyer College of Music and Dance; Ph.D., University of Surrey.

Vladimir Dyo, Instructor (Teaching/Instructional), Department of Instrumental Studies, Boyer College of Music and Dance; D.M.A., Temple University.

Alexander E. Fiorillo, Professor, Department of Keyboard Studies, Boyer College of Music and Dance; M.M., Catholic University of America.

Edward Flanagan, Associate Professor, Department of Music Studies, Boyer College of Music and Dance; Ph.D., Temple University.

Cynthia J. Folio, Professor, Department of Music Studies, Boyer College of Music and Dance; Ph.D., Eastman School of Music.

Mark Franko, Professor, Department of Dance, Boyer College of Music and Dance; Ph.D., Columbia University.

Shana Goldin-Perschbacher, Assistant Professor, Department of Music Studies, Boyer College of Music and Dance; Ph.D., University of Virginia.

Lorie A. Gratis, Assistant Professor (Teaching/Instructional), Department of Voice and Opera, Boyer College of Music and Dance; D.M.A., Temple University.

Matthew J. Greenbaum, Professor, Department of Music Studies, Boyer College of Music and Dance; Ph.D., City University of New York.

Jillian Harris, Assistant Professor, Department of Dance, Boyer College of Music and Dance; M.F.A., New York University Tisch School of the Arts.

Andrea McGraw Hunt, Assistant Professor (Teaching/Instructional), Department of Music Education and Music Therapy, Boyer College of Music and Dance; Ph.D., Temple University.

Lawrence R. Indik, Associate Professor (Practice), Department of Voice and Opera, Boyer College of Music and Dance; D.M.A., Manhattan School of Music.

John F. Johnson, Professor, Department of Music Studies, Boyer College of Music and Dance; M.M., University of Texas.

Laura E. Katz Rizzo, Assistant Professor (Teaching/Instructional), Department of Dance, Boyer College of Music and Dance; Ph.D., Temple University.

Gregory S. Kettinger, Instructor (Teaching/Instructional), Department of Music Studies, Boyer College of Music and Dance; B.M., Temple University.

Joann M. Kirchner, Assistant Professor (Teaching/Instructional), Department of Keyboard Studies, Boyer College of Music and Dance; Ph.D., University of Oklahoma.

Michael Klein, Professor, Department of Music Studies, Boyer College of Music and Dance; Ph.D., State University of New York at Buffalo.

Allen M. Krantz, Instructor (Teaching/Instructional), Department of Instrumental Studies, Boyer College of Music and Dance; M.A., Stanford University.

Steven Kreinberg, Associate Professor, Department of Music Studies, Boyer College of Music and Dance; Ed.D., Temple University.

Jan L. Krzywicki, Professor, Department of Music Studies, Boyer College of Music and Dance; M.M., Philadelphia Musical Academy.

Edward D. Latham, Associate Professor, Department of Music Studies, Boyer College of Music and Dance; Ph.D., Yale University.

Kun-Yang Lin, Associate Professor, Department of Dance, Boyer College of Music and Dance; M.F.A., New York University Tisch School of the Arts.

Joyce Z. Lindorf, Professor, Department of Keyboard Studies, Boyer College of Music and Dance; D.M.A., The Juilliard School.

Wendy Magee, Associate Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; Ph.D., University of Sheffield.

Yukiko Mitsudome, Assistant Professor (Research), Department of Music Education and Music Therapy, Boyer College of Music and Dance; Ph.D., Temple University.

Phillip R. O'Banion, Assistant Professor, Department of Instrumental Studies, Boyer College of Music and Dance; M.M., University of Colorado.

Richard D. Oatts, Professor, Department of Music Studies, Boyer College of Music and Dance.

Lambert T. Orkis, Professor, Department of Keyboard Studies, Boyer College of Music and Dance; M.M., Temple University.

Elizabeth C. Parker, Assistant Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; Ph.D., University of Nebraska-Lincoln.
David Pasbrig, Assistant Professor (Teaching/Instructional), Department of Music Studies, Boyer College of Music and Dance; D.M.A., Temple University.

Paul Rardin, Associate Professor, Department of Choral Activities, Boyer College of Music and Dance; D.M.A., University of Michigan.

Alison M. Reynolds, Associate Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; Ph.D., Temple University.

Valery Ryvkin, Associate Professor, Department of Voice and Opera, Boyer College of Music and Dance; M.M., The Juilliard School.

Benjamin A. Schachter, Assistant Professor (Teaching/Instructional), Department of Music Studies, Boyer College of Music and Dance; M.M., New England Conservatory.

Eduard Schmieder, Professor, Department of Instrumental Studies, Boyer College of Music and Dance.

Helen Shoemark, Associate Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; Ph.D., University of Melbourne.

Jeffrey C. Solow, Professor, Department of Instrumental Studies, Boyer College of Music and Dance; B.A., University of California Los Angeles.

Merián Soto, Professor, Department of Dance, Boyer College of Music and Dance; M.A.

Terell L. Stafford, Professor, Department of Music Studies, Boyer College of Music and Dance; M.M., Rutgers University.

Robert T. Stroker, Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; Ph.D., Michigan State University.

Maria del Pico Taylor, Professor, Department of Keyboard Studies, Boyer College of Music and Dance; M.M., Northwestern University.

Emily C. Threinen, Associate Professor, Department of Instrumental Studies, Boyer College of Music and Dance; D.M.A., University of Michigan.

Adam Vidiksis, Instructor (Teaching/Instructional), Department of Music Studies, Boyer College of Music and Dance; Ph.D., Temple University.

Lindsay Weightman, Associate Professor (Teaching/Instructional), Department of Music Studies, Boyer College of Music and Dance; D.M.A., Manhattan School of Music.

Kariamu Welsh, Professor, Department of Dance, Boyer College of Music and Dance; D.A., New York University.

Stephen A. Willier, Associate Professor, Department of Music Studies, Boyer College of Music and Dance; Ph.D., University of Illinois.

Maurice W. Wright, Professor, Department of Music Studies, Boyer College of Music and Dance; D.M.A., Columbia University.

Steven D. Zohn, Professor, Department of Music Studies, Boyer College of Music and Dance; Ph.D., Cornell University.

Certificates

Undergraduate Certificate Programs in Performance (Performing Arts, Classical and Jazz, and Dance), Music Studies (Theory, History, Composition, and Jazz Studies), and Technology provide opportunities to experience the excitement of Center for the Performing and Cinematic Arts courses. Completing these certificate programs will culminate in significant music and dance knowledge and performance experience. Each of the proposed certificate programs offers a coherent disciplinary context beyond that which is possible in random course election. Graded experiences will be recognized on the final transcript.

Coursework may be completed in four semesters if the program permits. Most students should complete all requirements within six semesters. Accepted students may delay certain required coursework by one semester or take courses out of sequence only with Boyer College advisor approval.

There are no exit requirements, comprehensive exams, theses, or practica required. Grading will consist of standard letter grades awarded according to Boyer College and university policy for all coursework. The minimum grade for all coursework is C-. There will be no course auditing, pass/fail grades, or CR options. Evidence of student success will be indicated by courses completed and grades earned.

Admission

Applicants must complete an online application (http://www.temple.edu/boyer/academicprograms/certificates-application.asp). Admission requires students to be in good standing, and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

All application materials must be submitted by November 30 for Spring semester matriculation and May 15 for Fall semester matriculation.

Only one program may be selected. There will be no concurrent multiple program admission.

Advising and course selection will occur after admission. A grade of C- or higher must be earned in all required courses to receive the certificate.
No certificate program will be recognized as stand-alone.

No certificate program will be available to any applicant after completion of the bachelor's degree.

Certificate completion will be acknowledged on the official transcript only at the time of the awarding of the bachelor's degree.

Certificates

- Certificate in Chamber Music (p. 286)
- Certificate in Classical Piano (p. 286)
- Certificate in Classical Voice (p. 287)
- Certificate in Dance (p. 287)
- Certificate in Jazz Arranging (p. 287)
- Certificate in Jazz Improvisation (p. 288)
- Certificate in Jazz Piano (p. 288)
- Certificate in Jazz Studies Composition (p. 288)
- Certificate in Jazz Voice (p. 289)
- Certificate in Jazz Voice (p. 289)
- Certificate in Music (p. 289)
- Certificate in Music Composition (p. 290)
- Certificate in Music History (p. 290)
- Certificate in Music Technology (p. 290)
- Certificate in Music Theory (Jazz) (p. 290)
- Certificate in Music Theory (Traditional) (p. 291)
- Certificate in Orchestral Music (p. 291)
- Certificate in Performing Arts (p. 291)

Certificate in Chamber Music

Undergraduate students interested in the Certificate in Chamber Music must be in good standing and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

In addition to the online application (http://www.temple.edu/boyer/academicprograms/certificates-application.asp) and other requirements listed on the Certificates (p. 285) page, students must also submit a video recording (DVD) of one movement of a solo work from standard classical repertoire.

The Certificate in Chamber Music will be acknowledged on the official transcript at the time of the awarding of the bachelor's degree provided that the student successfully completes the following courses with a grade of C- or better in each course:

<table>
<thead>
<tr>

Mission

The Dance Department is committed to artistic and scholarly excellence through fostering a creative, reflective and inclusive learning environment. Through embodied practice, the Dance Faculty and students seek to honor traditions while exploring new ways of knowing dance. In recognition that we experience through the body, the programs encourage students to consider how bodies in motion contribute to knowledge, transform our social world and facilitate community engagement.

The Bachelor of Fine Arts in Dance emphasizes modern dance technique, performance, choreography, and dance theory. The Bachelor of Fine Arts in Dance at Temple is focused on building well-rounded, versatile artists who are not only technically proficient, but have a broad range and a deep understanding of their work. The B.F.A. program focuses on modern dance technique and choreography, but with a broad curriculum that includes requirements in ballet, which follows the AMERICAN BALLET THEATRE® National Training Curriculum, African dance and other technique electives. Other course requirements include composition, repertory, creative process, improvisation, and dance science, in addition to courses that explore cultural, historical and analytical approaches to the study of dance.

Full accredited Member of the National Association of Schools of Dance (NASD).

The degree program in dance aims to:

- Guide students toward a balance of cognitive, analytic, intuitive, and creative skills.
- Aid students in development of their creative potential through technique, choreography, performance, research, and other creative media.
- Educate students about the various forms and purposes of dance within their historical, social, and cultural contexts.
- Provide intensive training in a range of dance techniques and styles as represented by the faculty and selected guest artists.
- Prepare students for professional careers as performing artists, choreographers, teachers, scholars, and informed and responsible leaders in academic and other professional settings.

The Bachelor of Fine Arts degree in Dance is conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 123 semester hours of credit and completion of the required Dance and university requirements.

Dance Resources: The Dance Department, with its three studios, rehearsal room, Pilates room, black-box theater, video library, and assorted classrooms, embraces a broad array of activities. The Philadelphia Dance Collection at Temple University (PDCAT) provides access to the dance legacy of the region through a permanent collection of multi-format archival resources related to the history of Philadelphia dance.

Special Opportunities: The Conwell Dance Theater season provides many opportunities for students to perform and choreograph. A typical season features two student concerts, two Master of Fine Arts thesis concerts, two Bachelor of Fine Arts senior concerts, a faculty dance concert, and an alumni concert. Added to this are performances by guest artists, repertory showings, and informal student choreography performances. Recent guest artists have included Kyle Abraham; Rennie Harris Puremovement; Cornelius Carter; Ruth Andrien, former soloist with the Paul Taylor Dance Company; and Nina Watt, member of the José Limón Dance Company.

• Provide intensive training in a range of dance techniques and styles as represented by the faculty and selected guest artists.
• Prepare students for professional careers as performing artists, choreographers, teachers, scholars, and informed and responsible leaders in academic and other professional settings.

Summary of Requirements

The Bachelor of Fine Arts degree in Dance is conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 123 semester hours of credit and completion of the required Dance and university requirements.

University Requirements

• All students are required to complete the university's General Education (GenEd (p. 143)) curriculum.
• All students must take a minimum of two writing-intensive courses. The specific writing-intensive courses required for the major are identified with the code "WI".

Minor in Dance

The Minor in Dance is a 22 credit hour program available to undergraduate students in other departments and colleges. The minor provides a foundation in technique, followed by a small amount of specialization in dance theory. The course requirements consist of:

<table>
<thead>
<tr>
<th>Course Type</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Technique Courses</td>
<td>14</td>
</tr>
<tr>
<td>Dance Production Course</td>
<td>1</td>
</tr>
<tr>
<td>Theory Courses</td>
<td>7</td>
</tr>
</tbody>
</table>

Total Credit Hours: 22

A limited number of slots are available each semester, and an interview and audition are required to begin this program. Interested students are advised to contact the Dance Department via email at dance@temple.edu for further information.

Once accepted, students must follow the academic policies and procedures of the Dance Department for all dance courses. Minor credit will not be awarded for grades below a B- in Dance coursework. Upon graduation, a notation on the undergraduate transcript will indicate successful completion of the minor.

Course Limitations/Restrictions: All technique courses are repeatable two times only, which will allow a student to enroll in the same level of technique for two semesters thus ensuring opportunity to develop full competencies associated with that level. Theory courses are not repeatable, although students may enroll in courses other than those listed in the requirements with permission of the instructor.

Transfer Students: Students transferring large numbers of credits in dance who wish to complete the Dance Minor must secure an evaluation of these credits prior to beginning their course of study. All students in this category must complete a minimum of 9 credits of dance courses at Temple including one theory course and three technique courses.

Requirements

Bachelor of Music in Jazz Studies/Performance, Instrumental Concentration

Terell Stafford, Director
215-204-8036
tstaffor@temple.edu

Students of Temple's Jazz Studies program have the opportunity to participate in both large and small ensembles. Jazz Band, Lab Band, Brass Ensemble, Fusion Ensemble, Percussion Ensemble, Guitar Ensemble, Vocal Ensemble, and New Music by Temple Composers provide a comprehensive performance experience in solo as well as ensemble playing for both instrumentalists and vocalists. All of the performing groups are coached by an experienced faculty of musician-educators. Graduates are prepared to begin a career as professional performers.

- MUED 2665 Music Learning & Development | 3
- MUSC 3300 Choral Ensemble | 1
- MUST 4710 Early Music Ensemble ¹ | 1
- MUSC 1211 Voice Class ¹ | 1
This course can be repeated once for music elective credit.

Bass performance majors must enroll for 8 credit hours of orchestra and 4 additional credit hours of ensembles. It is suggested that Early Music Ensemble be one of these credit hours. The remaining 4 credit hours of ensemble may be taken as free music electives.

Saxophone performance majors may register for up to 4 credit hours of ensembles in reading jazz ensembles (Jazz Band or Jazz Lab Band) with prior approval of the Instrumental Department chair and coordinator of the Jazz program. The 2 semester hours of orchestral repertoire classes are to be replaced by elective(s).

Keyboard Instruction

Keyboard Instruction

Charles Abramovic, Chair
215-204-7388
charles.abramovic@temple.edu

The Department of Keyboard Instruction offers a variety of programs of study to meet the individual needs of potential solo artists, chamber musicians, accompanists, and teachers, and also provides a keyboard concentration for those majoring in music education, music therapy, music history, music theory, composition, and jazz studies. Weekly private lessons are reinforced by regular performance classes, and a series of master classes taught by faculty members and guests artists focuses on special topics essential to the keyboard performer.

Recent guest artists have included:

- Marc-André Hamelin
- Leon Bates
- Menahem Pressler
- Lydia Artymiw
- Claude Frank
- Arnaldo Cohen
- Marc Durand
- Anton Kuerti
- Chang Biao Liu
- Gaby Casadesus
- Dorothy Taubman

Programs

- Bachelor of Music in Performance, Harpsichord Concentration (p. 304)
- Bachelor of Music in Performance, Piano Concentration (p. 306)
- Bachelor of Music in Piano Pedagogy (p. 307)

Bachelor of Music in Performance, Harpsichord Concentration

Performance, Keyboard/Harpsichord Instruction

Charles Abramovic, Chair, Keyboard Studies
215-204-7388
charles.abramovic@temple.edu

The Keyboard Instruction Department emphasizes training for careers in performance, piano accompaniment and chamber music, piano pedagogy, and piano and opera coaching.

### Bachelor of Music in Piano Pedagogy

*The Bachelor of Music in Piano Pedagogy program will not be accepting admissions applications beyond the Spring 2013 semester.*

Charles Abramovic, Chair, Keyboard Studies  
215-204-7388  
charles.abramovic@temple.edu

The Keyboard Instruction Department emphasizes training for careers in performance, piano accompaniment and chamber music, piano pedagogy, and piano and opera coaching.

1 Piano major sequence requires a minimum of four (4) hours of daily practice.

## Music Education & Music Therapy

Rollo Dilworth
Chair, Music Education and Music Therapy Department
215-204-8310
rollo.dilworth@temple.edu

Darlene Brooks
Director of Music Therapy Program
215-204-8340
dmbrooks@temple.edu

Wendy Magee
Coordinator of Undergraduate Music Therapy Program
215-204-8314
wmagee@temple.edu

The Department of Music Education and Music Therapy offers Bachelor of Music degree programs in Music Education as well as Music Therapy.

### Music Education

The bachelor's degree program in Music Education concentrates on developing music educators at the undergraduate level who will be ready for successful entry into the teaching profession.

Faculty recommendations for student teaching are not automatic. They must be earned by the student through demonstrated potential in the field, a 3.0 GPA, and passing of Praxis exams I and II. Students not recommended for student teaching may be permitted to graduate after successful completion of additional coursework, but will not be recommended for Pennsylvania State Music Teacher Certification.

Upon successful completion of the four-year program of study, the five-year double major program of study, or the five-year program with Jazz Component, and upon achieving passing scores on the Praxis Series Assessments (Professional Assessments for Beginning Teachers), students qualify for Pennsylvania state certification for public school music teachers, K-12.

Concentrations for Bachelor of Music in Music Education:

- Voice Concentration
- Piano Concentration, Choral/General Emphasis
- Piano Concentration, Band/Orchestra Emphasis
- Instrumental Concentration
- Piano/Jazz Studies, Band/Orchestra Emphasis
- Piano/Jazz Studies, Choral/General Emphasis
- Instrumental Concentration with Jazz Studies
- Voice Concentration with Jazz Studies

### Music Therapy

Fully approved by the American Music Therapy Association, this bachelor's degree program is designed to prepare students for entry-level clinical positions in music therapy. Upon successful completion of the degree, graduates are eligible to take the national examination of the Certification Board for Music Therapists and thereby qualify for professional certification in the field.
The Music Therapy degree program is a four and a half year degree program, including post-academic clinical training. The Music Therapy clinical training continues one semester past the Second Semester of the Senior Year.

Concentrations for Bachelor of Music in Music Therapy:

- Traditional Concentration
- Jazz Concentration

**Programs**

- Bachelor of Music in Music Education (p. 310)
- Bachelor of Music in Music Education/Jazz (p. 316)
- Bachelor of Music in Music Therapy (p. 324)
- Bachelor of Music in Music Therapy/Jazz (p. 327)

**Bachelor of Music in Music Education**

Rollo Dilworth  
Chair, Music Education and Music Therapy Department  
215-204-8310  
rollo.dilworth@temple.edu

The bachelor's degree program in Music Education concentrates on developing music educators at the undergraduate level who will be ready for successful entry into the teaching profession.

Faculty recommendations for student teaching are not automatic. They must be earned by the student through demonstrated potential in the field, a 3.0 GPA, and passing of Praxis exams I and II. Students not recommended for student teaching may be permitted to graduate after successful completion of additional coursework, but will not be recommended for Pennsylvania State Music Teacher Certification.

Upon successful completion of the four-year program of study, the five-year double major program of study, or the five-year program with Jazz Component, and upon achieving passing scores on the Praxis Series Assessments (Professional Assessments for Beginning Teachers), students qualify for Pennsylvania state certification for public school music teachers, K-12.

The Bachelor of Music in Music Education consists of several concentrations. The academic plans for those concentrations follow.

- Instrumental Concentration (p. 310)
- Piano Concentration, Band/Orchestra Emphasis (p. 312)
- Piano Concentration, Choral/General Emphasis (p. 313)
- Voice Concentration (p. 315)

1. One semester of Marching Band is required for students whose principal instruments are woodwinds, brass, and percussion. Normally this requirement is fulfilled in the fall semester of freshman year. Although the requirement is only one semester, students may register for Marching Band as often as they would like.

---

\(^1\) One semester of Marching Band is required. Normally this requirement is fulfilled in the fall term of the freshman year. Although the requirement is only one semester, students may register for Marching Band as often as they would like. A total of 8 credit hours of instrumental ensembles are required: Traditional Ensembles – 4 semester hours, including Marching Band – 1 semester hour; Jazz Ensembles – 4 semester hours. A total of 1 credit hour of choral ensemble is required.

## Bachelor of Music in Music Therapy

Rollo Dilworth  
Chair, Music Education and Music Therapy Department  
215-204-8310  
rollo.dilworth@temple.edu

Darlene Brooks  
Director of Music Therapy Program  
215-204-8340  
dmbrooks@temple.edu

Wendy Magee  
Coordinator of Undergraduate Music Therapy Program  
215-204-8314  
wmagee@temple.edu

Fully approved by the American Music Therapy Association, this bachelor's degree program is designed to prepare students for entry-level clinical positions in music therapy. Upon successful completion of the degree, graduates are eligible to take the national examination of the Certification Board for Music Therapists and thereby qualify for professional certification in the field.
The Music Therapy degree program is a four and a half year degree program, including post-academic clinical training. The Music Therapy clinical training continues one semester past the Second Semester of the Senior Year.

Music Therapy Requirements

Clinical Training

A total of 1200 hours of supervised clinical training is required prior to graduation.

Students must be continually enrolled in MUED 4685 Music Therapy Clinical Internship for a total of 1000 hours. A student beginning an internship in Year 4 Spring will also need to register for this in the Year 4 Summer session and possibly Year 5 Fall; credits can be distributed across semesters differently but must total 6.

Music Therapy Grades

Grades below B- in any music therapy course may not be applied toward degree requirements in music therapy. Students may retake such courses only once, and only with faculty approval. If a grade below B- is earned upon retaking the course, the student will not be permitted to continue as a music therapy major but may be eligible to change to a different curriculum.

MUED 4685  Music Therapy Clinical Internship

Term Credit Hours

Total Credit Hours: 130

1  Voice Concentration
   - In lieu of MUSC 1211 and MUSC 1212, classical singers can take MUST 2112 or MUST 2114; jazz singers can take MUST 2112 or MUST 4112.
   - Classical and jazz singers must take MUED 3631 and MUED 3632, unless waived by examination.

2  Piano Concentration
   - In lieu of MUSC 1405, classical pianists can take MUST 2112 or MUST 2114; jazz pianists can take MUST 2112 or MUST 4112.
   - In lieu of MUSC 1405 and MUST 1106, classical pianists must take two credits of jazz piano; jazz pianists must take two credits of jazz electives.
   - Both classical and jazz pianists must take MUED 3633 and MUED 3634 unless waived upon examination by instructor.

   Guitar Concentration
   - In lieu of MUED 1658 and MUED 1659, classical guitarists can take MUST 2112 or MUST 2114; jazz guitarists can take MUST 2112 or MUST 4112.
   - Both classical and jazz guitarists must take MUED 3635 and MUED 3636, unless waived upon examination by the instructor.

2  Must be continually enrolled in MUED 4685 Music Therapy Clinical Internship for a total of 1000 hours. A student beginning an internship in Spring will also need to register for this in the Summer session and possibly Fall; credits can be distributed across semesters differently but must total 6.

Music Studies

Michael Klein, Chair, Music Studies
215-204-8322
mklein01@temple.edu

The Music Studies Department consists of three areas:

- Composition
- Music History
- Music Theory

The Composition area offers courses in composition for various media, including electronic music. Creativity, the development of personal expression through music, and the assessment of music's role in the 21st-century societal context are the focal points for composition majors.

The Music History area emphasizes a historic and analytical approach to the study of music and the development of scholarly research skills.

The Music Theory area prepares its majors to be well-rounded practical musicians able to apply skills and knowledge to performance, composition, analysis, research, and teaching.

Programs

- Bachelor of Music in Composition (p. 330)
- Bachelor of Music in Jazz Studies/Composition (p. 332)
- Bachelor of Music in Music History (p. 334)
- Bachelor of Music in Theory (p. 336)
- Bachelor of Science in Music (p. 338)
- Minor in Music (p. 339)

Bachelor of Music in Jazz Studies/Composition

Terell Stafford, Director
215-204-8036
tstaffor@temple.edu

Students of Temple’s Jazz Studies program have the opportunity to participate in both large and small ensembles. Jazz Band, Lab Band, Brass Ensemble, Fusion Ensemble, Percussion Ensemble, Guitar Ensemble, Vocal Ensemble, and New Music by Temple Composers provide a comprehensive performance experience in solo as well as ensemble playing for both instrumentalists and vocalists. All of the performing groups are coached by an experienced faculty of musician-educators. Graduates are prepared to begin a career as professional performers.

Bachelor of Science in Music

Michael Klein, Chair
215-204-8322
mklein01@temple.edu

This program is designed to prepare students for such fields as library science, the publishing industry, communications, the computer software industry, and other new and diverse areas of the music profession. Applicants must arrange to take examinations in the area of musicianship before qualifying for admission to the program. This may be done by contacting Mr. James Short (215-204-8598) at the Boyer College of Music.

Bachelor of Science in Music

### Year 1

#### Fall
- **MUSC 1405**: Secondary Piano for Music Majors (1)
- **Choral Ensemble** (1)
- **MUST 1711**: Theory I (4)
- **Elective** (3)
- **ENG 0802, 0812, or 0902**: Analytical Reading and Writing [GW] (4)
- **GenEd Breadth Course** (3)

**Term Credit Hours**: 16

#### Spring
- **MUSC 1406**: Secondary Piano for Music Majors (1)
- **Choral Ensemble** (1)
- **MUST 1712**: Theory II (4)
- **GenEd Quantitative Literacy Course [GQ]** (4)
- **GenEd Breadth Course** (3)
- **MUST 4715**: World Music (3)

**Term Credit Hours**: 16

### Year 2

#### Fall
- **MUSC 2405**: Secondary Piano for Music Majors (1)
- **Choral Ensemble** (1)
- **MUST 2711**: Theory III (4)
- **MUST 2703**: Music in History (3)
- **IH 0851 or 0951**: Mosaic: Humanities Seminar I [GY] (3)
- **GenEd Breadth Course** (3)

**Term Credit Hours**: 15

#### Spring
- **MUSC 2406**: Secondary Piano for Music Majors (1)
- **Choral Ensemble** (1)
- **MUST 2712**: Theory IV (4)
- **MUST 2704**: Music in History (3)
- **GenEd Breadth Course** (3)
- **IH 0852 or 0952**: Mosaic: Humanities Seminar II [GZ] (3)

**Term Credit Hours**: 15

### Year 3

#### Fall
Minor in Music

The Department of Music Studies offers an undergraduate Minor in Music. The minor may be earned upon the successful completion of 20 credits.

Requirements

Required Courses

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUST 1701</td>
<td>Music Theory for Non-Music Majors</td>
<td>2</td>
</tr>
<tr>
<td>MUST 1705</td>
<td>Music Theory for Non-Music Majors II</td>
<td>3</td>
</tr>
</tbody>
</table>

NOTE: Students MUST complete the required courses before taking electives in music.

Electives

A combination of courses in music theory, music history, and/or performance/ensembles. Course of study to be determined with a faculty advisor in the Music Studies Department. Possible courses include but are not limited to:

<table>
<thead>
<tr>

Voice & Opera

Christine Anderson, Chair
215-204-8375
cla@temple.edu

The training provided by the Voice and Opera Department emphasizes vocal technique and repertoire in a challenging program of vocal development. Performance progress is closely guided through private lessons, juries, and recital performances. The program of study prepares singers for careers in concert and recital performance, opera, and private teaching.

Programs

- Bachelor of Music in Jazz Studies/Performance, Jazz Voice Concentration (p. 340)
- Bachelor of Music in Performance, Voice Concentration (p. 342)

Bachelor of Music in Jazz Studies/Performance, Jazz Voice Concentration

Terell Stafford, Director
215-204-8036
tstaffor@temple.edu

Students of Temple’s Jazz Studies program have the opportunity to participate in both large and small ensembles. Jazz Band, Lab Band, Brass Ensemble, Fusion Ensemble, Percussion Ensemble, Guitar Ensemble, Vocal Ensemble, and New Music by Temple Composers provide a comprehensive performance experience in solo as well as ensemble playing for both instrumentalists and vocalists. All of the performing groups are coached by an experienced faculty of musician-educators. Graduates are prepared to begin a career as professional performers.

School of Theater, Film and Media Arts

Dr. Robert T. Stroker, Dean and Vice Provost for the Arts at Temple University

http://tfma.temple.edu/

The School of Theater, Film and Media Arts is part of the Center for the Performing and Cinematic Arts at Temple University.

The Department of Film and Media Arts is located in Annenberg Hall, which includes television and film production areas (studios and editing, graphics, and film labs) as well as extensive video and film editing areas, a 75-seat multimedia screening room, photographic labs, two news writing labs and smart classrooms.

The Department of Theater is located in Tomlinson Hall, which features two theaters, as well as rehearsal rooms, costume, and scene shops.

History

The School of Theater, Film and Media Arts, comprised of the Department of Theater and the Department of Film and Media Arts, was initially formed as the Division of Theater, Film and Media Arts (DTFMA) during the summer of 2012 as part of a university-wide academic realignment initiative. All of Temple’s distinguished fine and performing arts schools and programs were aligned under a new administrative consortium, the Center for the Arts, linking DTFMA with the distinguished Boyer College of Music and Dance and the renowned Tyler School of Art.

Theater was initially organized as an extracurricular activity at Temple until 1931, when formal courses in the discipline were developed and offered, gaining full status as the Department of Theater in 1967.

Radio-Television became an instructional division in 1947, and extensive film offerings were added in 1967. That year, both Radio-Television-Film and Theater became part of a new School of Communications and Theater which also included Journalism, Advertising and Strategic Communication. The school was restructured in 1995 and Radio-Television-Film became two departments, Broadcast, Television and Mass Media (BTMM) and the Department of Film and Media Arts.

On July 1, 2012, as a part of the realignment, the School of Communications and Theater was renamed the School of Media and Communication and the Division of Theater, Film and Media Arts was created.

In October 2015, the Center for the Arts was renamed the Center for the Performing and Cinematic Arts and DTFMA was renamed the School of Theater, Film and Media Arts.

The School of Theater, Film and Media Arts houses two outstanding departments with professional and undergraduate degree programs historically ranked in the top tier nationally and internationally.

Special Programs

Internship Program

Although the requirements may vary, internships are available to junior and senior students. Internships are for academic credit and must involve professional activity related to the student’s course of study. The internships must be approved by the administrator or faculty member charged with supervising internships.

Los Angeles Internship & Study Program

Offered by the Film and Media Arts Department, the Los Angeles Internship & Study Program is open to students from any major on both the upper-level undergraduate (63 credit hours completed) and graduate levels who have an interest in working within the Hollywood entertainment industry. This program is offered as an 8-credit summer program that runs from May through the end of July. It includes an on-site internship and ten weeks of concurrent coursework. Additionally, the program is offered in the fall and spring semesters as a full-time program of study combined with an internship component. For more information, please contact Alison Crouse at 215-204-5910.

Film & Media Arts

Prof. Jeff Rush
FMA Department Chair
Academic Policies & Regulations

Please see the Undergraduate Academic Policies (p. 81) section of this Bulletin. Students are responsible for complying with all university-wide academic policies as well as those of the School of Theater, Film and Media Arts in the Center for the Performing and Cinematic Arts that appear below.

Academic Standing

A matriculated undergraduate student in the university is in Academic Good Standing if enrolled in a baccalaureate degree-seeking program.

Please see the University's policy on Academic Standing (p. 83) for detailed information about Academic Warning, Academic Probation, and Academic Dismissal.

Credits Not Applied Toward the Degree

Credits earned in the following courses are not applied toward a degree in the Center for the Performing and Cinematic Arts' School of Theater, Film & Media Arts: lower-level courses in Military Science, Topical Studies, RCC, ELECT, and Mathematics 0015.

Dean's List

Each fall and spring semester, those undergraduates who have met the credit hour and academic criteria for their school or college are placed on the Dean's List. See the Dean's List (p. 92) policy for specific GPA and credit-hour requirements.
Re-enrollment

Students returning to Temple University after an absence of one semester (unless an approved Leave of Absence form was filed prior to the leave) must use the Undergraduate Bulletin in effect at the time of readmission or any subsequent Undergraduate Bulletin. Credits more than 10 years old may not be applied toward a degree. For application deadlines and the re-enrollment form, please visit: www.temple.edu/vpus/documents/request_to_reenroll.pdf.

Transfer Students

Refer to the Undergraduate Admissions (p. 23) section of this Bulletin for general information on transferring courses to Temple. In addition to these criteria, each department will evaluate any credit to be transferred into a major. This evaluation generally is done at the first meeting with a faculty advisor during the first semester. The maximum number of credit hours allowed to transfer in the major are: 21 hours in Film and Media Arts and 20 hours in Theater.

Requirements for Graduation

The School of Theater, Film and Media Arts requires 124 credits to graduate; completion of the university General Education (GenEd) (p. 143) requirements; completion of departmental requirements, including two writing-intensive courses in the major.

Minimum and maximum credit requirements within each major are listed with the departmental requirements.

Students who are planning to graduate must schedule an official graduation review with an academic advisor and complete the application for graduation one semester prior to the anticipated graduation date. Appointments may be made in the Center for the Performing and Cinematic Arts Academic Advising Office, Tyler building, Suite 212.

Program Descriptions

1. The total number of credit hours at graduation may be greater for some students based on initial placement exams, transfer evaluations, individual curricular choices, and academic progress.
2. Students must fulfill the necessary prerequisites for any given course or course sequence. See the Prerequisites and Co-requisites Policy (p. 99) in the university-wide Academic Policies section of this Bulletin.

Advising

Center for the Performing and Cinematic Arts Academic Advising
Tyler Building, Suite 212
2001 N. 13th Street
Philadelphia, PA 19122
215-777-9229

Advisors

Sherice Chevannes, Film and Media Arts
Tyler Building, Suite 212
sherice.chevannes@temple.edu
215-777-9229

Stephanie Shestakow, Film and Media Arts
Tyler Building, Suite 212
stephanie.shestakow@temple.edu
215-777-9229

Lesley Copans, Theater
Presser Hall 137
lcopans@temple.edu
215-204-8372

For appointments, please utilize the online appointment system: https://apps.cst.temple.edu/advising.pl

Students in Theater and Film and Media Arts are advised by professional academic advisors and faculty advisors. Students make advising appointments in the Center for the Performing and Cinematic Arts Academic Advising Office located on the second floor of the Tyler building, Suite 212. Consult your departmental office for assignment to the appropriate advisor.
Academic advisors attempt to avoid errors when advising students about their program requirements, but schools and colleges cannot assume liability for errors in advising. Therefore, students must assume primary responsibility for knowing the requirements for their degree and for acquiring current information about their academic status.

Most students will be eligible to register for classes online via Self Service Banner through the TU Portal (https://tuportal4.temple.edu/cp/home/displaylogin). However, all students should meet with an advisor prior to the eligible registration period.

Students preparing to graduate must file the necessary paperwork one semester prior to the graduation date. At that time, an appointment should be made with an academic advisor to complete a graduation review and application for graduation.

**Faculty**

*Nora Alter*, Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; Ph.D., University of Pennsylvania.

*Maggie Anderson*, Assistant Professor (Teaching/Instructional), Department of Theater, School of Theater, Film and Media Arts; M.F.A., University of Cincinnati College-Conservatory of Music.

*Allan S. Barber*, Assistant Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; M.F.A., Temple University.

*Warren F. Bass*, Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; M.F.A.

*Nancy Boykin*, Assistant Professor (Teaching/Instructional), Department of Theater, School of Theater, Film and Media Arts; M.F.A., University of North Carolina at Chapel Hill.

*Chris Cagle*, Assistant Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; Ph.D., Brown University.

*Marie Anne Chiment*, Professor, Department of Theater, School of Theater, Film and Media Arts; M.F.A., New York University Tisch School of the Arts.

*Roderick L. Coover*, Associate Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; Ph.D., University of Chicago.

*Peter P. d'Agostino*, Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; M.A.

*Sarah Drury*, Associate Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; M.A.

*Fred Duer*, Associate Professor, Department of Theater, School of Theater, Film and Media Arts; M.F.A., Ohio University.

*LeAnn Erickson*, Associate Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; M.F.A.

*Robert Hedley*, Professor, Department of Theater, School of Theater, Film and Media Arts; M.F.A.

*David Ingram*, Associate Professor (Practice), Department of Theater, School of Theater, Film and Media Arts; M.F.A.

*Lynne Innerst*, Associate Professor, Department of Theater, School of Theater, Film and Media Arts; M.F.A., University of Southern California.

*Melanie Julian*, Assistant Professor (Practice), Department of Theater, School of Theater, Film and Media Arts; M.F.A., Point Park University.

*Michael J. Kuetemeyer*, Assistant Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; M.F.A., Temple University.

*Andrew Laine*, Assistant Professor (Practice), Department of Theater, School of Theater, Film and Media Arts; M.F.A., University of Texas at Austin.

*Deirdre S. Maître*, Assistant Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; M.F.A., Temple University.

*Matthew Miller*, Assistant Professor (Practice), Department of Theater, School of Theater, Film and Media Arts; M.F.A., University of North Carolina at Chapel Hill.

*Moon Molson*, Assistant Professor (Teaching/Instructional), Department of Film and Media Arts, School of Theater, Film and Media Arts; M.F.A., Columbia University.

*Katherine J. Nigh*, Assistant Professor (Practice), Department of Theater, School of Theater, Film and Media Arts; Ph.D.

*Mary Catherine Pancake*, Assistant Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; M.F.A., School of the Art Institute of Chicago.

*David A. Parry*, Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; M.S.

*Eran Preis*, Associate Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; M.A., Ohio University.

*Peter R. Reynolds*, Associate Professor (Practice), Department of Theater, School of Theater, Film and Media Arts; M.F.A.
Lee Richardson, Associate Professor (Practice), Department of Theater, School of Theater, Film and Media Arts; M.F.A., Rutgers University.

Jeffrey S. Rush, Associate Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; M.F.A., American Film Institute.

Michael P. Ryan, Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; Ph.D., University of Iowa.

Donna Snow, Associate Professor, Department of Theater, School of Theater, Film and Media Arts; M.F.A., American Conservatory Theater.

Edward Sobel, Assistant Professor, Department of Theater, School of Theater, Film and Media Arts; M.F.A., Northwestern University.

Elisabeth Subrin, Assistant Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; M.F.A., School of the Art Institute of Chicago.

Paul Swann, Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; Ph.D.

Rea Tajiri, Assistant Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; M.F.A., California Institute of the Arts.

Douglas C. Wager, Professor, Department of Theater, School of Theater, Film and Media Arts; M.F.A.

Kimnika Williams-Witherspoon, Associate Professor, Department of Theater, School of Theater, Film and Media Arts; Ph.D., Temple University.

Lauren Wolkstein, Assistant Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; M.F.A., Columbia University.

**Film & Media Arts**

Jeff Rush, MFA., Chair
120 Annenberg Hall
2020 N. 13th Street
Philadelphia, PA 19122
215-204-4372
jrush@temple.edu
http://tfma.temple.edu/fma

The Film and Media Arts (FMA) Program focuses on the development of creative expression and technical skills in film, video, audio, digital media, and new technologies, and the theoretical understanding of media and culture. The program recognizes and explores the creative tension between individual expression and the social, political, and economic forces that shape culture at large through the creation and study of film, video, and new media.

Students are trained in developing meaningful content as well as craft, theory, and practice. In learning independent and mainstream approaches to production and theory, graduates will be prepared to develop their own independent productions and to assume a creative role in the motion picture, television and media industries.

FMA faculty have received the Oscar, Emmy, Guggenheim, Rockefeller, NEA, Fulbright, Sundance and international film awards and are authors of some of the important texts in the field. The department also brings in guest media makers and visiting professors from diverse backgrounds for special lectures and workshops. Students may select elective courses from throughout the university, including in such areas as creative writing, theater and fine arts. A highly-recognized graduate program offers undergraduates numerous opportunities to work on advanced productions and participate in advanced research, exhibition and creative work in the field.

**Faculty Mentoring**

FMA faculty strongly believe in the importance of close mentoring. This is particularly important in a department that focuses on individual and collaborative expression. Once each student who enters as a freshman has completed thirty credits or each transfer student has completed fifteen credits, he or she will be assigned a faculty mentor. The faculty mentor will guide each student through his or her remaining years at Temple. The faculty and external jurors review student work submitted to yearly screenings and as portfolios for capstone courses.

**Los Angeles and San Francisco Study-Away Programs**

The Film and Media Arts Department offers a department-run study-away academic and internship program in Los Angeles every semester and a similar program in San Francisco every summer.

Because it is a more structured curriculum than the other sequences, students in the BFA programs who wish to go to Los Angeles should plan to do so during the summer semester or, after careful planning ahead, to go during the fall semester of their junior year. A sample curriculum grid is included on the BFA page (p. 363) that demonstrates how a BFA student can go to Los Angeles during the fall of her/his junior year and still complete the BFA in four years.
Other Internships and Special Programs

Beyond that, FMA has an extensive internship program throughout the year in Philadelphia. Additionally, many organizations in New York, New Jersey, Delaware and Washington, D.C. provide regular opportunities for student professional internships. Temple University offers Temple-run special programs for study and research in Rome and Tokyo.

Degree Offerings

The Film and Media Arts department offers both the BFA and BA degrees, as well as a minor in Screen Studies.

Initially students declare either the Film and Media Arts Major or the Film and Media Arts Major with a Screen Studies Concentration. At the completion of their sophomore year (60 credits), students may apply to enter one of the upper-level BFA programs with Concentrations in Media Arts, Directing and Screenwriting or one of three upper level concentrations: Cinematography, Producing, or Post-Production (see below).

To Apply for a BFA in Film and Media Arts with Concentrations in Directing, Media Arts or Screenwriting

The BFA degree is an upper-level program with three distinct concentrations: Media Arts, Directing, and Screenwriting. Students interested in one of the BFA concentrations must submit a program request form to the department. To be considered students need to complete 60 credits by the end of their sophomore year, earn an average of 3.0 in six foundational and intermediate courses and provide a portfolio. The program request form must be submitted to the department no later than the deadline announced on the Film and Media Studies Undergraduate Listserv in the spring semester in which the student reaches sixty credits. Students with less than an average of 3.0 in the six courses may petition the department for admission to one of the BFA concentrations. (See department for details.) Students who were not admitted to one of the BFA concentrations can continue in the BA in Film and Media Arts or the BA in Film and Media Arts with a Concentration in Screen Studies or apply for one of the three BA production concentrations.

Transfer students may apply for the BFA program. Preference will be given to transfer students who have transferred Film and Media courses with "B's" or better. Transfer students must also present a portfolio. Transfer students with an associate's degree in a related field who are accepted into the BFA program will most likely need additional semesters to complete their degree.

To Apply for a BA in Film and Media Arts with Concentrations in Cinematography, Producing or Post-Production

Students interested in a BA in one of the three concentrations must have completed five foundational and intermediate courses with an average of 3.0 and submit a concentration request form to the department. If a student has less than an average of 3.0 in these courses, the student may petition the department for admission into one of the three upper level concentrations or choose to remain in their initial program -- either the BA in Film and Media Arts or the BA in Film and Media Arts with a Concentration in Screen Studies.

Minor in Screen Studies

Students from across the university may enroll in the Film and Media Arts Minor in Screen Studies (p. 375).

Foundation Courses

Students will take Foundation Courses appropriate to the chosen concentration. However, students who choose to switch to another concentration will need to meet with the department chair to discuss how the foundation courses previously completed can apply to the student's new concentration.

Programs

- Bachelor of Arts in Film and Media Arts (p. 349)
- Bachelor of Arts in Film and Media Arts: Concentration in Cinematography (p. 352)

- Bachelor of Fine Arts in Film and Media Arts: Concentration in Screenwriting (p. 370)
- Certificate in Film (p. 373)
- Certificate in Media Arts (p. 373)
- Certificate in Screen Studies (p. 374)
- Screen Studies Minor (p. 375)

Bachelor of Arts in Film and Media Arts

Allan Barber, Sequence Director
215-204-8399
The Bachelor of Arts in Film and Media Arts is designed for students who wish to have a more general approach to the major or wish to conclude the degree with something other than a year-long capstone film, feature length screenplay or a supervised written thesis. After completing the FMA core, students must take one production or writing course in either Filmmaking, Videography, Experimental Video or Screenwriting, along with one 2000-level or higher studies course. Students then design their own program with approval of their advisors, choosing a range of middle- and upper-level courses that complete a balanced approach to media study and production or a self directed emphasis in camera, lighting, sound, animation, directing, writing, producing or new media studies or production. The program requires at least one middle-level writing-intensive course, one advanced writing-intensive course, one advanced studies course and one advanced course in studies or production.

**Bachelor of Arts in Film and Media Arts**

**Summary of Requirements for the Degree**

The Bachelor of Arts degree may be conferred upon a student majoring in Film and Media Arts by recommendation of the faculty and upon satisfactory completion of a minimum of 121 credit hours. Students must complete:

1. **University requirements**:
   - New students are required to complete the General Education (GenEd) curriculum.
   - All students must take a minimum of two writing-intensive courses. The specific writing-intensive courses required for this major are listed below and identified with the code "WI".

2. No more than 21 FMA credits can be transferred to the major.

3. Students must earn a grade of "C-" or better in all Film and Media Arts courses that count towards the degree.

4. Students may take up to 6 internship credits in Film and Media Arts.

5. Students may count at least 42 credits and a maximum of 66 credits toward the 121 credit hours required for the degree.

**Meeting 42 Credit Requirement**

The following represents requirements for completing the BA in Film and Media Arts. Because some of these courses are variable credits, they may not add up to the 42 credits required for the degree. In that case, students must take additional FMA electives at the 2000+ level to reach the required 42 credits.

**FMA Foundation Courses**

Film and Media Arts students will complete the following courses by the end of the sophomore year:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>FMA 1141</td>
<td>Media Arts I</td>
<td>4</td>
</tr>

Bachelor of Arts in Film and Media Arts: Concentration in Cinematography

Summary of Requirements for the Degree

The Bachelor of Arts degree may be conferred upon a student majoring in Film and Media Arts with a concentration in Cinematography by recommendation of the faculty and upon satisfactory completion of a minimum of 120 credit hours. Students must complete:

1. University requirements:
   • New students are required to complete the General Education (GenEd (p. 143)) curriculum.
   • All students must take a minimum of two writing-intensive courses. The specific writing-intensive courses required for this major are listed below and identified with the code "WI".

2. No more than 21 FMA credits can be transferred to the major.
3. A student must earn a grade of "C-" or better in all Film and Media Arts courses that count towards the degree.
4. Students may take up to 6 internship credits in Film and Media Arts.
5. Students may count a maximum of 66 FMA credit hours toward the 120 credit hours required for the degree.

FMA Foundation Courses

Film and Media Arts students will complete the following courses by the end of the sophomore year:

1 FMA 2396 Screenwriting I counts as a Writing Intensive course. FMA 2551 Editing Film and Video does not.
2 Students who have already completed their 2000-level Writing Intensive requirement by taking FMA 2396 Screenwriting I may take any 2000+ FMA course as an elective. Students who have not completed their 2000-level Writing Intensive requirement must take a 2000-level Writing Intensive course.
Bachelor of Arts in Film and Media Arts: Concentration in Post Production

The B.A. in Film and Media Arts with a Concentration in Post Production is a liberal arts degree that prepares students to enter graduate film programs or pursue professional careers in the film and television production with a focus on Post Production. Students will complete advanced work in Post Production in a two-semester master class capstone.

Bachelor of Arts in Film and Media Arts: Concentration in Post Production

Summary of Requirements for the Degree

The Bachelor of Arts degree may be conferred upon a student majoring in Film and Media Arts with a concentration in Post Production by recommendation of the faculty and upon satisfactory completion of a minimum of 121 credit hours. Students must complete:

1. University requirements:
   - New students are required to complete the General Education (GenEd (p. 143)) curriculum.
   - All students must take a minimum of two writing-intensive courses. The specific writing-intensive courses required for this major are listed below and identified with the code "WI".
2. No more than 21 FMA credits can be transferred to the major.
3. A student must earn a grade of "C-" or better in all Film and Media Arts courses that count towards the degree.
4. Students may take up to 6 internship credits in Film and Media Arts.
5. Students may count a maximum of 66 FMA credit hours toward the 121 credit hours required for the degree.

FMA Foundation Courses

Film and Media Arts students will complete the following courses by the end of the sophomore year:

<table>

Concentration Requirements

Courses required after completion of FMA Foundation Courses:

Select one of the following:

- FMA 2241 Filmmaking
- FMA 2242 Videography
- FMA 2000+ Writing Intensive Elective [WI] 1  3-4
- FMA 2551 Editing Film and Video
- FMA 3551 Advanced Editing
- FMA 2243 Audio: Production and Aesthetics

Select one of the following:

- FMA 4451 Digital Animation, Compositing and Modeling
- FMA 4243 Film and Video Sound
- Media Arts Elective

Select one of the following:

- FMA 1451 Survey of New Media
- FMA 2675 Film History I (1895-1950)
- FMA 2676 Film History II (1950-Present)
- FMA 2678 History of Experimental Film and Video Art
- FMA 3000+ Writing Intensive Elective [WI] 1  3-4
- FMA 3085 Internship

Select one of the following:

- FMA 3246 Making Documentaries
- FMA 3242 Experimental Media Workshop
FMA 3341  Scene Analysis for Writers and Directors
FMA 4341  Screen Directing
FMA 4253
FMA 4254

Total Credit Hours 45-48

1 The following are the Writing Intensive courses in Film and Media Arts: FMA 2396 Screenwriting I; FMA 3696 Writing Intensive Film Study; FMA 3896 Advanced Film Analysis; FMA 4697 Advanced Film History; and FMA 4698 History of Documentary.

Bachelor of Arts in Film and Media Arts: Concentration in Screen Studies

The B.A. in Film and Media Arts with a Concentration in Screen Studies is a liberal arts degree that allows students to study in depth the aesthetics, history, and cultural significance of moving-image media. It draws upon the fields of cinema studies and humanities-based disciplines of media studies and media arts theory, while also encouraging students to approach screen cultures from neighboring disciplines, such as cultural studies, area studies, art history, or visual studies.

Summary of Requirements for the Degree

The Bachelor of Arts degree may be conferred upon a student majoring in Film and Media Arts with a concentration in Screen Studies by recommendation of the faculty and upon satisfactory completion of a minimum of 121 credit hours. Students must complete:

1. University requirements:
   - New students are required to complete the General Education (GenEd) curriculum.
   - All students must take a minimum of two writing-intensive courses. The specific writing-intensive courses required for this major are listed below and identified with the code "WI".

2. No more than 21 FMA credits can be transferred to the major.

3. A student must earn a grade of "C-" or better in all Film and Media Arts courses that count towards the degree.

4. Students may take up to 6 internship credits in Film and Media Arts.

5. Students may count a maximum of 66 FMA credit hours toward the 121 credit hours required for the degree.

*Temple University Undergraduate Bulletin 2015-2016*
Bachelor of Fine Arts in Film and Media Arts: Concentration in Directing

The BFA in Media Arts with a Concentration in Directing is an intensive, professional degree that prepares students to enter graduate Film programs or pursue professional careers in screen directing. It focuses on both fictional and non-fictional directing. Studies will culminate in the direction of an advanced creative production in the BFA Directing Project Classes. Narrative and documentary students will take the same curriculum except as follows. Narrative students will choose two from a list of three courses: Screen Directing, Screen Performance, and Scene Analysis. Documentary students will choose two from a list of four courses: Making Documentaries, Experimental Media Workshop, Anthropological Film/Media or Researching and Developing Documentaries. The total FMA credits required is 71-73.

Students interested in the Directing concentration must submit a program request form to the department. To be considered students need to complete 60 credits by the end of their sophomore year, earn an average of 3.0 in six foundational and intermediate courses and provide a portfolio. The program request form must be submitted to the department no later than the deadline announced on the Film and Media Studies Undergraduate Listserv in the spring semester in which the student reaches sixty credits. Students with less than an average of 3.0 in the six courses may petition the department for admission to the BFA Directing concentration. (See department for details.) Students who were not admitted to the BFA Directing concentration can continue in the BA in Film and Media Arts or the BA in Film and Media Arts with a Concentration in Screen Studies or apply for one of the three BA production concentrations.

Transfer students who have transferred Film and Media Arts courses with a grade of B or better may apply to the BFA program. These students must also present a portfolio. Transfer students with an associate’s degree in a related field who are accepted into the BFA program will most likely need additional semesters to complete their degree.

Bachelor of Fine Arts in Film and Media Studies: Concentration in Directing

Summary of Requirements for the Degree

The Bachelor of Fine Arts degree may be conferred upon a student majoring in Film and Media Arts by recommendation of the faculty and upon satisfactory completion of a minimum of 122 credit hours. Students must complete:

1. University Requirements:
   - New students are required to complete the General Education (GenEd (p. 143)) curriculum.
   - All students must take a minimum of two writing-intensive courses specified by the major. The specific writing-intensive courses requirement for this major are listed below and identified with the code "WI".

2. No more than 21 FMA credits can be transferred to the major.
3. A student must earn a grade of "C-" or better in all Film and Media Arts courses that count towards the degree.
4. Students may take up to 6 internship credits in Film and Media Arts.
5. Students may count a maximum of 84 FMA credit hours toward the 122 credit hours required for the degree.

FMA Foundation Courses

Film and Media Arts students will complete the following courses by the end of the sophomore year:

Bachelor of Fine Arts in Film and Media Arts: Concentration in Media Arts

The BFA in Film and Media Arts with a Concentration in Media Arts is an intensive, professional degree that prepares students to enter graduate Media Arts programs or pursue artistic careers in the media arts including installations with one or more screens, arts with an element of performance (media projection design for Theater and Dance), narrative mapping, location-based virtual sculpture viewed through smartphones or tables, arts engaged by an interactive sensor, interactive narrative, video games, and/or other forms of experimental media. Studies will culminate in the completion and exhibition of an advanced creative project in the Media Arts Project Classes. The total FMA credits required is 71-73.

Students interested in the Media Arts concentration must submit a program request form to the department. To be considered students need to complete 60 credits by the end of their sophomore year, earn an average of 3.0 in six foundational and intermediate courses and provide a portfolio. The program request form must be submitted to the department no later than the deadline announced on the Film and Media Studies Undergraduate Listserv in the spring semester in which the student reaches sixty credits. Students with less than an average of 3.0 in the six courses may petition the department for admission to the BFA Media Arts concentration. (See department for details.) Students who were not admitted to the BFA Media Arts concentration can continue in the BA in Film and Media Arts or the BA in Film and Media Arts with a Concentration in Screen Studies or apply for one of the three BA production concentrations.

Transfer students who have transferred Film and Media Arts courses with a grade of B or better may apply to the BFA program. These students must also present a portfolio. Transfer students with an associate’s degree in a related field who are accepted into the BFA program will most likely need additional semesters to complete their degree.
Bachelor of Fine Arts in Film and Media Studies: Concentration in Media Arts

Summary of Requirements for the Degree

The Bachelor of Fine Arts degree may be conferred upon a student majoring in Film and Media Arts by recommendation of the faculty and upon satisfactory completion of a minimum of 120 credit hours. Students must complete:

1. University Requirements:
   • New students are required to complete the General Education (GenEd (p. 143)) curriculum.
   • All students must take a minimum of two writing-intensive courses specified by the major. The specific writing-intensive courses requirement for this major are listed below and identified with the code "WI".
2. No more than 21 FMA credits can be transferred to the major.
3. A student must earn a grade of "C-" or better in all Film and Media Arts courses that count towards the degree.
4. Students may take up to 6 internship credits in Film and Media Arts.
5. Students may count a maximum of 84 FMA credit hours toward the 120 credit hours required for the degree.

Bachelor of Fine Arts in Film and Media Arts: Concentration in Screenwriting

The BFA in Film and Media Arts with a Concentration in Screenwriting is an intensive, professional degree that prepares students to enter graduate Film programs or pursue professional careers in Film and Serial writing. It focuses on narrative feature-film and serial writing. Studies will culminate in the writing and polishing of a feature screenplay or long-form television serial bible in the BFA Screenwriting Final Project Classes. The total FMA credits required is 70-73.

Students interested in the Screenwriting concentration must submit a program request form to the department. To be considered students need to complete 60 credits by the end of their sophomore year, earn an average of 3.0 in six foundational and intermediate courses and provide a portfolio. The program request form must be submitted to the department no later than the deadline announced on the Film and Media Studies Undergraduate Listserv in the spring semester in which the student reaches sixty credits. Students with less than an average of 3.0 in the six courses may petition the department for admission to the BFA Screenwriting concentration. (See department for details.) Students who were not admitted to the BFA Screenwriting concentration can continue in the BA in Film and Media Arts or the BA in Film and Media Arts with a Concentration in Screen Studies or apply for one of the three BA production concentrations.

Transfer students who have transferred Film and Media Arts courses with a grade of B or better may apply to the BFA program. These students must also present a portfolio. Transfer students with an associate’s degree in a related field who are accepted into the BFA program will most likely need additional semesters to complete their degree.

Bachelor of Fine Arts in Film and Media Studies: Concentration in Screenwriting

Summary of Requirements for the Degree

The Bachelor of Fine Arts degree may be conferred upon a student majoring in Film and Media Arts by recommendation of the faculty and upon satisfactory completion of a minimum of 122 credit hours. Students must complete:

1. University Requirements:
   - New students are required to complete the General Education (GenEd (p. 143)) curriculum.
• All students must take a minimum of two writing-intensive courses specified by the major. The specific writing-intensive courses requirement for this major are listed below and identified with the code "WI".

2. No more than 21 FMA credits can be transferred to the major.
3. A student must earn a grade of "C-" or better in all Film and Media Arts courses that count towards the degree.
4. Students may take up to 6 internship credits in Film and Media Arts.
5. Students may count a maximum of 84 FMA credit hours toward the 122 credit hours required for the degree.

Certificate in Film

The Certificate in Film introduces students to both the study and production of film. It is open to all Temple University undergraduates. The certificate requires four courses:

- FMA 1141 Media Arts I, an introductory production course that emphasizes individual students' rigorous exploration of creative, personal visions, along with mainstream applications;
- FMA 1142 Media Arts II, a second-level production course that adds an increased emphasis on aesthetics, genres, writing, and project design;
- FMA 1171 Media & Culture, which concentrates on the cultural production, distribution, and reception of film and media arts; and,
- FMA 1172 Introduction to Film and Video Analysis, which introduces students to the conceptual and theoretical tools to analyze film, television, and video.

All four courses count toward the Film and Media Arts major if students decide they want to continue on.

Students who complete the certificate will achieve the following learning outcomes:

- Experience translating creative, personal vision into audio and video projects;
- Consideration of personal work in the context of larger aesthetic theories;
- Initial experience in writing for film as well as working from a script;
- An overview of the role of film, video and media arts in the larger American culture; and,
- Experience analyzing film, television and video from a number of critical perspectives.

Assessment is based on creative audio, video and media arts projects; written scripts; written papers and examinations.

1 Students must first receive at least a C- in FMA 1141 before enrolling in FMA 1142.

Certificate in Media Arts

The Certificate in Media Arts introduces students to both the study and production of media arts. It is open to all Temple University undergraduates. The certificate requires four courses:
• FMA 1141 Media Arts I, an introductory production course that emphasizes individual students' rigorous exploration of creative, personal visions, along with mainstream applications;
• FMA 1142 Media Arts II, a second-level production course that adds an increased emphasis on aesthetics, genres, writing, and project design;
• FMA 1171 Media & Culture, which concentrates on the cultural production, distribution, and reception of film and media arts; and,
• FMA 1451 Survey of New Media, which introduces students to the history, theory and aesthetics of digital and networked media arts.

All four courses count toward the Film and Media Arts major if students decide they want to continue on.

Students who complete the certificate will achieve the following learning outcomes:

• Experience translating creative, personal vision into audio, video and media arts projects;
• Consideration of personal work in the context of larger aesthetic theories;
• Initial experience in writing for film as well as working from a script;
• An overview of the role of film, video and media arts in the larger American culture; and,
• Critical perspectives on how new technologies have shaped our world, as well as aesthetic and interactional strategies for alternative ways of seeing, understanding and reconfiguring our world via digital media.

Assessment is based on creative audio, video and media arts projects; written scripts; written papers, blogs, and examinations.

Certificate in Screen Studies

The Certificate in Screen Studies introduces students to the study and the history of film, experimental film, video art and/or media arts. The certificate requires four courses:

• FMA 1141 Media Arts I, an introductory production course that emphasizes individual students' rigorous exploration of creative, personal visions, along with mainstream applications;
• FMA 1171 Media & Culture, which concentrates on the cultural production, distribution, and reception of film and media arts; and,
• FMA 1172 Introduction to Film and Video Analysis, which introduces students to the conceptual and theoretical tools to analyze film, television, and video
• A Film or Media Arts History course selected from a specific list.

Students who complete the certificate will achieve the following learning outcomes:

• Experience translating creative, personal vision into audio and video projects;
• Consideration of personal work in the context of larger aesthetic theories;
• An overview of the role of film, video and media arts in the larger American culture;
• Experience analyzing film, television and video from a number of critical perspectives; and,
• An historical awareness of the development of Film and Video, of New Media, or of Experimental Film and Video Art.

Assessment is based on creative audio, video and media arts projects; blogs; critical papers and/or examinations.

Screen Studies Minor

The Film and Media Arts Minor in Screen Studies provides students the opportunity to sample the aesthetics, history, and cultural significance of moving-image media. It draws upon the fields of cinema studies and humanities-based disciplines of media studies and media arts theory, while also encouraging students to approach screen cultures from neighboring disciplines, such as cultural studies, area studies, art history, or visual studies.

The Minor in Screen Studies requires a minimum of 19 credits.

robert.hedley@temple.edu

Peter Reynolds, MFA, Director of Theater Undergraduate Affairs/Assistant Chair
Tomlinson Theater 210B
215-204-8628
The Theater Department is accredited by the National Association of Schools of Theatre (NAST) and is a member of the University Resident Theater Association (U/RTA). These affiliations characterize it as amongst an elite group of highly-recognized Theater Programs. The Theater Department was recently ranked by *U.S. News & World Report* among the top 25 theater programs in the nation.

Temple Theaters has established itself as one of the finest theater training programs in the nation. The faculty are accomplished professionals and scholars, who generously offer their expertise and great passion for the craft and creation of theater. As a theater department in the heart of a culturally rich urban setting, Temple University's Theater Department is immersed in and among some of the most important regional and national theaters in the country.

With both graduate and undergraduate programs, the Department of Theater offers countless opportunities for creative and academic collaboration between all levels. The BA program features strong professional concentrations in Musical Theater, Acting, Directing, and Design. In addition, Masters of Fine Arts degrees are offered in Acting, Directing, Design, and Playwriting. The graduate program has distinguished itself as one of the foremost theater training and performance institutions in the nation, and as an important contributor to the Philadelphia theater landscape.

The production program is at the center of the pedagogy, serving as a creative laboratory for experiential learning across disciplines. Temple Theaters offers a full season of productions each year, bringing exciting, contemporary theater to a diverse audience. Temple Theaters has been noted for premiering many new works for Philadelphians as well as producing vital stagings of classic works. Past productions have included big musicals - *Hair*, *Oklahoma!*; *Spring Awakening*; classic dramas - *Macbeth*, *A View From The Bridge*, *Tartuffe*; new American plays - *The Brother/Sister Plays*, *Expecting Isabel*; and original devised works - *In Conflict* and *Odd Girl Out*.

The successful theater student graduates from our program with excellent communication and collaboration skills, a broad-based and substantive liberal arts background, developed abilities within the discipline of theater, a peerless commitment to achieving and appreciating artistic excellence, and a passion for life-long learning that will enable success in a wide variety of future endeavors. Our alumni are not only successful artists in theater and all of the entertainment industries, but they are also leaders in many other fields. We strive to graduate well-educated and enlightened "Citizen Artists" who possess the creative capacity and commitment to make a difference in the quality of community life regardless of their chosen field of endeavor.

**Faculty Advising and Mentoring**

Students in Theater and Film and Media Arts are advised by professional academic advisors and faculty advisors. Students make advising appointments in the Center for the Performing and Cinematic Arts Academic Advising Office located on the second floor of the Tyler building, Suite 212. Consult the Directors of Undergraduate Affairs in Film and Media Arts or Theater for assignment to the appropriate advisor.

Academic advisors attempt to avoid errors when advising students about their program requirements, but schools and colleges cannot assume liability for errors in advising. Therefore, students must assume primary responsibility for knowing the requirements for their degree and for acquiring current information about their academic status.

Most students will be eligible to register for classes online via Self Service Banner through the TUportal (https://tuportal4.temple.edu/cp/home/displaylogin). However, all students should meet with an advisor prior to the eligible registration period.

Students preparing to graduate must file the necessary paperwork one semester prior to the graduation date. At that time, an appointment should be made with an academic advisor to complete a graduation review and application for graduation.

**Programs**

- Bachelor of Arts in Theater (p. 376)
- Certificate in Acting (p. 388)
- Certificate in Stage Management (p. 389)
- Certificate in Theater Education (p. 389)
- Certificate in Theater and Community Engagement (p. 390)
- Certificate in Voice and Speech for the Actor (p. 390)
- Theater Minor (p. 391)

**Bachelor of Arts in Theater**

Theater majors are advised to select courses that will best prepare them to succeed in the future. Toward this end, students may select courses according to their particular interests through the Theater Studies Sequence or choose from four Theater Concentrations:
• Acting,
• Design,
• Directing, or
• Musical Theater

Theater Studies Sequence

The Theater Studies Sequence prepares students to enter graduate programs or pursue careers in theater, other entertainment industries, or other fields. It is within this sequence that entrepreneurial students, the student who wishes to explore future interdisciplinary linkages, or those most interested in playwriting, might best fit. The student who follows the Theater Studies Sequence may select any courses offered by the department as long as required prerequisites are completed with applicable proficiencies as indicated in some courses, by a grade of C or better.

Theater Studies Sequence students must complete the Theater Foundation Courses. However, they are encouraged to meet with a Theater Department faculty member to discuss their goals and what selection of courses might best prepare them to achieve their professional aspirations after graduation.

Acting Concentration

The Acting Concentration prepares students to enter graduate acting programs or pursue professional careers in theater, television and film. The coursework provides the highest caliber of training possible within the context of a liberal arts education, so students can thrive either in a graduate conservatory program or in the profession. Through intensive and varied classes in acting, combined with experiential work in minimalist to full-scale productions, students develop the skills needed for creative communication and artistic leadership, tools they will need to pursue their professional goals.

Notes:

1. In order for the student to progress to the next level of study, prerequisites for admission to some classes are required.
2. A student is not officially a part of the Acting Concentration until successfully auditioning before the Acting Faculty. These auditions are held every semester and are announced in advance by the Head of Undergraduate Acting.
3. Some Voice, Movement, Speech, and Acting classes may be repeated for credit.
4. Performance courses are available to those students electing the Acting Concentration and to other students in the department who meet the prerequisite requirements.
5. Certification officials from the Society of Fight Directors are invited to the final projects of *Swordplay for the Actor* classes, and some students receive certification in various combat specialties.

Design/Technology Concentration

The Design/Technology Concentration prepares students to enter graduate Design or Technology Programs or pursue professional careers in theater, television and film. The coursework provides the highest caliber of training possibilities within the context of a liberal arts education, so students can thrive either in a graduate conservatory program or in the profession. Through intensive and varied classes in design and technology, combined with experiential hands-on work with creative teams for full-scale and minimalist productions, students develop the skills needed for creative communication and artistic leadership - tools they will need to pursue their professional goals.

Note: In order for the student to progress to the next level of study, prerequisites for admission to some classes are required.

Directing Concentration

The Directing Concentration prepares students to enter graduate directing programs or pursue professional careers in theater, television and film. The coursework provides the highest caliber of training possible within the context of a liberal arts education, so students can thrive either in a graduate conservatory program or in the profession. Through intensive and varied classes combined with experiential work in minimalist to full-scale productions, students develop the skills needed for creative communication and artistic leadership, tools they will need to pursue their professional goals.

Notes:

1. In order for the student to progress to the next level of study, prerequisites for admission to some classes are required.
2. The Directing Concentration culminates with a Senior Research class production project to be proposed and approved in consultation with the Head of Directing.

Musical Theater Concentration

The Musical Theater Concentration prepares students to pursue professional careers in musical theater, theater, television and film, or to pursue graduate study. The coursework provides the highest caliber of training possible within the context of a liberal arts education, so students can thrive either in a graduate conservatory program or in the profession. Through intensive and varied classes combined with experiential work in minimalist
to full-scale productions, students develop the skills needed for creative communication and artistic leadership, tools they will need to pursue their professional goals.

Notes:

1. In order for the student to progress to the next level of study, prerequisites for admission to some classes are required.
2. The Head of Musical Theater, Dance and/or Movement Professors, and a representative from the Acting Program audition interested incoming theater students in the spring semester of the school year prior to the desired fall admission semester. Students must be selected through this audition process to gain entrance into the Musical Theater Concentration. Selection through this process does not guarantee admission to Temple University. The audition is rigorous and includes singing, dancing and acting.
3. The Musical Theater Concentration culminates in THTR 4133, an intensive audition and performance seminar specially designed to prepare students for the rigorous demands of auditioning for and performing in professional Musical Theater.
4. Throughout the Musical Theater Concentration student's four years of study, workshops and seminars are made available which feature Musical Theater professionals from New York City and Philadelphia.
5. To support the Musical Theater Concentration, Temple Theaters will produce an annual musical, either in the fall or spring semester. A small musical or cabaret featuring Musical Theater Concentration students will be produced in the alternate semester.

Bachelor of Arts in Theater

Summary of Requirements for the Degree

The Bachelor of Arts degree in Theater may be conferred upon a student by recommendation of the faculty and by satisfactory completion of a minimum of 124 credit hours. Students must complete:

- University requirements: All students are required to complete the university's General Education (GenEd (p. 143)) curriculum.
- There will be no requirement to take the GenEd Arts course if all of the following courses are completed with a C- or better: THTR 1003, THTR 1096 and THTR 1231. If the student changes majors before completing all four courses, s/he must complete a GenEd Arts course to satisfy the requirement for General Education.
- All students must take a minimum of two writing-intensive courses. The specific writing-intensive courses required for this major are listed below and identified with the code "WI".
- Theater Department foundation courses with a grade of C or better in each course
- No more than 20 credits of work in the major field may be transferred from another institution. Students must complete at least 16 semester hours in Theater courses at Temple University.
- All Theater majors must take placement tests in English and mathematics. If a student places into ENG 0701 or MATH 0701 or MATH 0702, these courses must be completed prior to taking the General Education requirement for English and Quantitative Literacy.

1. Musical Theater Concentration students complete THTR 3012 American Musical Theater and THTR 3001 History of the Theater I for their Theater history requirements. THTR 3002 History of the Theater II may be taken as an elective.
2. The 9 semester hours of the required elective concentration may be in any one department, preferably in the Arts or an interdisciplinary study approved by the Theater Department advisor or chair.
3. The concentration may include the required course in art history or the required course in non-dramatic literature. It may not include ENG 0802, ENG 0812, or ENG 0902.
### Acting Concentration

#### Required Courses in addition to the Foundation Courses

<table>
<thead>
<tr>

2. Students must select an Art History course. For questions or recommendations, students should see their advisor.
3. Either *The Detective Novel* or *World Society in Literature and Film* is suggested for GenEd Global/World Society (GG).

## Certificate in Acting

The Certificate in Acting allows undergraduates from other disciplines to pursue their interest in acting. For myriad reasons, interested undergraduates pursue a major outside of Theater and the performing arts, but their passion for acting remains from experiences in middle school and high school productions, clubs, camps and childhood. The Certificate in Acting allows a student to continue acting training with professional actors and faculty from the Department of Theater at Temple University and the rich theatrical community of Philadelphia. Skills acquired from the Certificate in Acting complement requisite expertise in most professions. Confidence in public speaking and presentation, creativity, collaboration, professionalism and empathy are just some of the qualities enhanced through the study of acting.

As part of this program, Theater offers the undergraduate Certificate in Acting on the Main Campus only. The certificate consists of a four-course, 12-credit sequence.

Students must be concurrently enrolled in a baccalaureate degree and the certificate to earn the certificate.

Students interested in declaring this certificate in the Department of Theater can do so by submitting a Change of Program Request form to Theater Advisor Lesley Copans (lcopans@temple.edu). If approved, the form will be submitted electronically to the Office of the University Registrar. In 3 to 5 business days, the request will be processed and then visible within Self-Service Banner (Student Information).

To seek assistance in monitoring their progress with the certificate declared, students are asked to meet with David Ingram (dingra@temple.edu, 215-204-6257). Meetings should take place regularly from the time of declaration to applying for graduation within their home school/college.
Requirements

A grade of C- or higher must be earned in all required courses.

Certificate in Stage Management

The Certificate in Stage Management allows undergraduates from other disciplines to pursue their interest in the backstage organization of live theater; adds to student's self-confidence, leadership, and presentation skills; and allows the student to participate in Department of Theater productions for academic credit.

While students may not be outright Theater majors, they may have a desire to be involved with productions. Skills acquired from the Certificate in Stage Management include confidence in public speaking and presentation, creativity, collaboration, professionalism and many more, enhanced through the study within the Department of Theater coursework.

As part of this program, Theater offers the undergraduate Certificate in Stage Management on the Main Campus only. The certificate consists of a four-course, 12-credit sequence.

Students must be concurrently enrolled in a baccalaureate degree and the certificate to earn the certificate.

Students interested in declaring this certificate in the Department of Theater can do so by submitting a Change of Program Request form to Theater Advisor Lesley Copans (lcopans@temple.edu). If approved, the form will be submitted electronically to the Office of the University Registrar. In 3 to 5 business days, the request will be processed and then visible within Self-Service Banner (Student Information).

To seek assistance in monitoring their progress with the certificate declared, students are asked to meet with Matthew Miller (mbmiller@temple.edu, 215-204-4263). Meetings should take place regularly from the time of declaration to applying for graduation within their home school/college.

Requirements

A grade of C or higher must be earned in THTR 1411 in order to register for THTR 2441. A grade of C- or higher must be earned in all other required courses.

Certificate in Theater Education

The Certificate in Theater Education allows undergraduates from other disciplines to pursue their interest in education combined with Theater courses, adds to student's self-confidence and presentation skills, and makes the student doubly marketable and employable because they have an extra skillset applicable to classes, after-school activities, and a better classroom presence. While students may not be outright Theater majors, they may have a desire to teach drama or lead drama after-school programs in a secondary setting. Their desire to one day enter the classroom - even teaching some other area such as math, science, social studies, or special education - is what drives them to also go for the Certificate in Theater Education. The Certificate in Theater Education allows a student to gain theater training which would enable them to take on additional responsibilities once attaining a job teaching another area. Skills acquired from the Certificate in Theater Education include confidence in public speaking and presentation, creativity, collaboration, professionalism and empathy, which are qualities enhanced through the study within the Department of Theater coursework.

As part of this program, Theater offers the undergraduate Certificate in Theater Education on the Main Campus only. The undergraduate certificate consists of a five-course, 15-credit sequence.

Students must be concurrently enrolled in a baccalaureate degree and the certificate to earn the certificate.
Students interested in declaring this certificate in the Department of Theater can do so by submitting a Change of Program Request form to Theater Advisor Lesley Copans (lcopans@temple.edu). If approved, the form will be submitted electronically to the Office of the University Registrar. In 3 to 5 business days, the request will be processed and then visible within Self-Service Banner (Student Information).

To seek assistance in monitoring their progress with the certificate declared, students are asked to meet with Matthew Miller (mbmiller@temple.edu, 215-204-4263). Meetings should take place regularly from the time of declaration to applying for graduation within their home school/college.

**Requirements**

A grade of C- or higher must be earned in all required courses, except where noted.

1 The prerequisite for this course is THTR 1411 with a grade of C or higher.

**Certificate in Theater and Community Engagement**

The Certificate in Theater and Community Engagement allows undergraduates from other disciplines to pursue their interest in theater and how it relates to the world at large. The required course for the Certificate, Community Engaged Theater, will give students the opportunity to explore how theater companies and individual artists from the United States and abroad have used performance to address local to global social issues. Students can then choose among a menu of courses that address more specific issues of identity, representation and oppression including gender, race and sexuality. This certificate will allow students to utilize art and creativity to address issues that impact their lives and the lives of those in their communities. This certificate will develop skills in creativity and community organization; will enhance students' experience at Temple University; will prepare them for graduate-level work and will increase their awareness of social issues that are relevant in the workplace, in the classroom and in our daily lives.

The Department of Theater offers this undergraduate Certificate in Theater and Community Engagement on the Main Campus only. The certificate consists of a four-course, 12-credit sequence.

Students must be concurrently enrolled in a baccalaureate degree and the certificate to earn the certificate.

Students interested in declaring this certificate in the Department of Theater can do so by submitting a Change of Program Request form to Theater Advisor Lesley Copans (lcopans@temple.edu). If approved, the form will be submitted electronically to the Office of the University Registrar. In 3 to 5 business days, the request will be processed and then visible within Self-Service Banner (Student Information).

To seek assistance in monitoring their progress with the certificate declared, students are asked to meet with David Ingram (dingra@temple.edu, 215-204-6257). Meetings should take place regularly from the time of declaration to applying for graduation within their home school/college.

**Requirements**

A grade of C- or higher must be earned in all required courses.

**Certificate in Voice and Speech for the Actor**

The Certificate in Voice and Speech for the Actor allows undergraduates from other disciplines to pursue their interest in voice and speech. The Department of Theater at Temple University boasts two master teachers and one associate teacher of the renowned Fitzmaurice voice method.
Participants in the Certificate in Voice and Speech for the Actor study with these teachers and with instructors trained by them. For myriad reasons, interested undergraduates pursue a major outside of Theater and the performing arts, but their passion for performance and hunger for training remains. The Certificate in Voice and Speech for the Actor allows a student to continue training with professional actors and faculty from the Department of Theater at Temple and the rich theatrical community of Philadelphia. Skills acquired from the Certificate in Voice and Speech for the Actor complement requisite expertise in most professions. Confidence in public speaking and presentation, creativity, collaboration, professionalism and communication are just some of the qualities enhanced through the study of voice and speech.

As part of this program, Theater offers the undergraduate Certificate in Voice and Speech for the Actor on the Main Campus only. The certificate consists of a four-course, 12-credit sequence.

Students must be concurrently enrolled in a baccalaureate degree and the certificate to earn the certificate.

Students interested in declaring this certificate in the Department of Theater can do so by submitting a Change of Program Request form to Theater Advisor Lesley Copans (lcopans@temple.edu). If approved, the form will be submitted electronically to the Office of the University Registrar. In 3 to 5 business days, the request will be processed and then visible within Self-Service Banner (Student Information).

To seek assistance in monitoring their progress with the certificate declared, students are asked to meet with Donna Snow (dsnow@temple.edu, 215-204-8414). Meetings should take place regularly from the time of declaration to applying for graduation within their home school/college.

Theater Minor

A 20 credit-hour minor is available to undergraduate students in other departments and colleges. The minor is intended to give some broad introduction in theater followed by a small amount of specialization. A notation on the transcript will indicate successful completion of the minor.

**STUDENTS ELECTING THE THEATER MINOR MAY APPLY UP TO SIX TRANSFER CREDITS TOWARD THE TWENTY CREDITS REQUIRED FOR THE MINOR. THTR 1087 IS NOT AVAILABLE AS AN EQUIVALENCY FOR ANY ARTICULATED CREDIT IN TRANSFER.** Students must receive the permission of their advisor before starting in this program. Once the minor has been approved, students must follow the academic rules of the Department of Theater for all Theater courses. Minor credit is not given for Theater grades below C. Students must maintain at least a 2.0 GPA in the minor. Students with theater averages under 2.0 GPA for more than two semesters will be dropped from the program. Students with averages under 2.0 GPA may not begin the program. Students minoring in Theater should collaborate with a Theater Department Advisor in the selection of course work.

Mission Statement

The College of Education at Temple University believes that education improves the lives of children and their families. By ensuring access to high-quality education and empowering all students with the tools they need to achieve, the education profession protects our democratic institutions and promotes social justice. The College of Education aims to play a critical role in promoting educational opportunity both locally and nationally.

As a result of its strategic location in North Philadelphia and its long-term history of collaboration with the School District of Philadelphia, the College of Education is uniquely situated to impact educational practice in city schools. The preparation of teachers, administrators and other school professionals to improve the quality of education, especially in urban settings, remains a core activity of the college.

College faculty conduct and promote research that addresses significant issues of national importance that have immediate practical applications. They investigate problems, evaluate strategic responses to those problems and provide evidence for new practice.

History

While the official date for the founding of the College of Education is usually given as 1919, the college has included teacher preparation as part of its curricula almost from its inception. It is clear from Temple’s history that the unofficial founder of the college was Laura Carnell, who began a program for the preparation of kindergarten teachers as early as 1895. This preparation program was expanded into elementary and then secondary areas largely in response to the Philadelphia School District’s decision that higher positions in the city’s school system would be open only to those with a college degree. In response to this need, the college began offering two, three, and four-year programs to teachers, as well as extension work, day and evening courses, five days a week and on Saturday mornings. This intimate relationship between the college and the School District of Philadelphia characterizes almost all of the college’s history. The college was one of the first institutions to schedule courses so that teachers could take them after school hours. Programs of graduate study at the master’s level were introduced in 1923, with the Doctor of Education being first awarded in 1931.

The first dean of the college was George Walk, who took over “Teachers College” in 1919 from Laura Carnell (the official name was changed to the “College of Education” in 1960). At present, there are three departments in the college: the Department of Teaching and Learning, the Department of Psychological Studies in Education, and the Department of Policy, Organizational, and Leadership Studies.

Historically, Temple’s College of Education has had a significant impact on local and regional practice. It has always been the largest college of education in the region and one of the largest in the country. The college continues to be the major provider of teachers for the Philadelphia School District and for many suburban districts. Many principals and superintendents of the neighboring regions have received their degrees from Temple. Many of the school psychologists, counselors, educational researchers, and other education professionals have been prepared at Temple. In a very real sense, the College of Education has helped to shape the educational direction of the region.

Accreditation

The College of Education is an accredited member of the Middle States Accreditation (http://www.msche.org).

The College offers programs approved by the Pennsylvania Department of Education (http://www.education.state.pa.us/portal/server.pt/community/pennsylvania_department_of_education/7237) (PDE) that are designed for students seeking certificates to teach in early childhood/elementary, middle-grades, secondary, special education and business education settings.

The undergraduate programs in the College of Education are designed to prepare students for careers in education, both in schools and in non-school settings. Secondary education programs require students to take extensive course work in a specific specialization area. The College also offers the Adult and Organizational Development and Human Development and Community Engagement programs (non-certification majors) designed for students who are interested in careers in non-profit advocacy organizations, childcare agencies, museum education, training or other education-related careers.
Academic Opportunities

4+1 Programs

Eligible undergraduate students begin graduate courses to fulfill requirements for their undergraduate degree. Upon graduation from their undergraduate program, students move seamlessly into their graduate program, which they complete in one additional year. Interested students should see an Academic Advisor for more information including GPA requirements, application process and deadlines (usually in spring each year), and overview of the programs. The College of Education offers its own 4+1 programs in Adult & Organizational Dynamics and Early Childhood Education/Special Education while also partnering with the College of Liberal Arts, the College of Science and Technology and the College of Engineering to offer students in these colleges opportunities to earn graduate degrees in education. Students can read more about available 4+1 programs on the College of Education web site and in this Bulletin (p. 53). Students wishing to apply to a College of Education 4+1 program can do so on the College of Education web site (http://education.temple.edu/admissions/accelerated).

Certificates

• ESL: Because of the dramatic increase in the number of English language learners in the K-12 population, it would be beneficial for prospective teachers to get ESL certification in addition to their content area certification. The ESL Certificate Program at Temple provides an excellent opportunity to get the add-on ESL certification. For more information and how to apply for this certificate as an undergraduate student, visit http://education.temple.edu/tesol/current-students.

• Instructional Technology Specialist Certification: Institutions across the nation require educators who understand and can effectively utilize technology in learning environments. This certificate program provides students with the expertise and competencies to implement learning strategies through the use of technology. All certification requirements can be met through online course work. The Instructional Technology Specialist Certification features an innovative curriculum designed for students to enhance careers in a variety of settings. For more information, visit http://education.temple.edu/ilt

Diamond Research Scholars Program

The Diamond Research Scholars Program provides Temple undergraduates the opportunity to engage in a focused, mentored research or creative arts project during the summer and fall. The program requires that students participate in the two-day Undergraduate Research Institute, devote ten weeks during the summer to develop a research project in their area of interest under the direction of their faculty mentor, and complete the project during the fall semester while registered for an independent study/research course. For eligibility and other information, please visit http://www.temple.edu/vpus/opportunities/researchscholars.htm; students can also visit the College of Education web site for research opportunities within the College.

Career and Student Development

The College of Education is committed to support and prepare students entering today’s competitive job market, while providing them with the tools to help them excel in their chosen fields. Career and Student Development is a vital link between students’ collegiate experience aligned to their career and professional outcomes. Career planning is an ongoing process that begins early. While partnering with the Career Center, the College of Education ensures all undergraduate and graduate students develop the requisite professional skills that will help them locate meaningful internships, externships and permanent jobs with regional and national employers. We guide students on comprehensive strategies to start on a successful career search, including: employment agencies, career fairs, networking, web sites, professional associations, chambers of commerce, job search clubs, informational interviewing, etc. We can also connect students to our active network of alumni. Being successful requires a balance of good academic performance, an understanding of the markets and industry expectations, and experience gained through active involvement in Student Organizations.

The College of Education Career and Student Development can assist with:

• Selecting or refining career goals and interests
• Developing resumes, cover letters and thank you letters
• Finding and applying for internships or full-time employment
• Mock Interviewing and networking guidance
• On campus recruitment & Career Fairs
• Professional Development workshops

Scholarships and Awards

Through the generous support of our loyal alumni, faculty, staff and friends of the College of Education, we are able to offer a limited number of scholarships to our incoming and current students based on merit and/or need. Scholarship amounts range from $500 to $6,000 and are only for students who are currently enrolled in the College of Education.

Current information regarding scholarships available can be found on the College of Education Scholarships web site (http://education.temple.edu/services/scholarships-graduation-awards) and on the College of Education Undergraduate Community on Blackboard.

Academic Policies & Regulations

Students are responsible for complying with all university and college policies and procedures. Additional and unique policies related to state requirements for teacher certification are aligned with the Pennsylvania Department of Education (P.D.E.) and College of Education requirements.

Academic Overload Requests

Students in the College of Education must petition through an Academic Advisor when requesting permission to take more than 18 credits in either the fall or spring semesters (12-17 credits is considered full time for financial aid purposes) or more than 8 credits in either summer session. Each petition is evaluated individually and a decision rendered; submission of a petition does not guarantee approval. The student will be alerted of the decision via e-mail. The following items are considered when reviewing an overload petition:

- Current cumulative GPA
- The number of credits completed
- Previous semesters, if any, in which a student took an overload and GPA earned in such semesters
- The amount of overload credits requested
- What courses the student will be taking in that semester.

Candidacy

All students enrolled in teacher certification programs must achieve Candidacy to progress to teaching methods courses and student teaching. Students should read more about Candidacy in the College Requirements (p. 399) section of this Bulletin.

Change of Program

Changing into a College of Education Program From Another Program at Temple

Students wishing to change their program to a teacher certification program: Early Childhood (with or without the Special Education Concentration), Middle Grades, Secondary Education or Career and Technical Education must register for and attend a Change of Program (COP) workshop at the College of Education. After attending this workshop, students are then eligible to schedule an individual appointment with an Academic Advisor; this is the final step in changing the program of study. Students seeking to transfer into a certification program in the College of Education must have a minimum cumulative GPA of 3.0, no exceptions are made to this GPA requirement. Students interested in a certification program who do not yet have a 3.0 or are still deciding if the program is right for them are eligible to take certain courses prior to officially changing their program; students interested in doing so must attend a COP workshop and meet with an Advisor to discuss which courses they are eligible to take that would apply to their prospective program. Students should call 215-204-8011 to schedule their COP workshop.

Students wishing to change their program to a non-certification program: Adult and Organizational Development (AOD) or Human Development and Community Engagement (HDCE) are not required to attend a Change of Program workshop. Instead, students should call 215-204-8011 to schedule an advising appointment, a required step in this change of program process. Students must identify themselves as a student changing his/her major to AOD or HDCE and must request a one hour appointment. Students wishing to change their program to AOD or HDCE must have a minimum cumulative GPA of 2.0. Students interested in AOD are also advised to contact Cynthia Belliveau, Ph.D. (cynthia.belliveau@temple.edu) to schedule a meeting during which the AOD program, goals and crafting a meaningful academic plan are discussed. Students wishing to change their program to AOD must have a minimum cumulative GPA of 2.0. Students should call 215-204-8011 to schedule their advising appointment, a required step in this process. Students must identify themselves as a student changing his/her major to AOD and should request a one hour appointment.

Students interested in HDCE are also advised to contact Shanta Hattikudur, Ph.D. (shanta.hattikudur@temple.edu) to schedule a meeting during which the HDCE program, goals and crafting a meaningful academic plan are discussed. Students wishing to change their program to HDCE must have a minimum cumulative GPA of 2.0. Students should call 215-204-8011 to schedule their advising appointment, a required step in this process. Students must identify themselves as a student changing his/her major to HDCE and should request a one hour appointment.

1 Students who are in their first semester at Temple University who have not yet established a GPA are eligible to begin the Change of Program process.
Changing Programs Within the College of Education

Students must be in good academic standing in their program to change their major into another program within the College of Education. To change majors within the College of Education, a student must schedule a one hour Change of Program appointment with an Academic Advisor. Call 215-204-8011 to schedule.

Clearances

The College of Education’s Clearances Policy requires that all undergraduate (and graduate) students enrolled in Temple teacher education courses which require fieldwork submit updated copies of the following clearances to the College annually, via its online platform, EdPortal:

1. Pennsylvania State Police Criminal History Record (Act 34)
2. Pennsylvania Department of Public Welfare Child Abuse History Clearance (Act 151)
3. Federal Criminal History Background Check (FBI/fingerprint check) (Act 114)
4. P.P.D. (TB) Test (School Health regulations, 28 PA Code, Section 23.44)

Students must renew clearances annually beginning in May and must upload those to Edportal on or before July 1st of each year to ensure the clearances are valid throughout both the Fall and Spring semesters; students must maintain valid and current clearances while enrolled in the College of Education.

Students should refer to the College of Education clearance web site (http://education.temple.edu/ofp/clearances) and to the College’s Undergraduate Community on Blackboard for current details about how to secure each clearance and for a list of courses which require clearances. Students with any questions about clearances should contact the Office of Field Placement in the Shimada Resource Center at edfield@temple.edu.

Co-requisites and Prerequisites

Students may be de-enrolled from courses for which they do not meet prerequisites and co-requisites. Students are responsible for reviewing and abiding by all course prerequisites and co-requisites. (Candidacy approval is considered a prerequisite to all teaching methods courses.)

Courses Over Five Years Old

Courses over five years old are subject to review to fulfill certification requirements. Courses over ten years old will not count toward a degree nor certification requirements in the College of Education.

Dean's List

Each fall and spring semester those undergraduates who have met the credit hour and academic criteria for their school or college are placed on the Dean’s List. For specific GPA and credit-hour requirements for each college, see the University's Dean's List policy (p. 92). Dean’s List letters are sent from the University Registrar.

Educators’ Code of Professional Conduct

The College of Education at Temple University promotes education as a primary mechanism for social mobility and social justice for all learners. Our mission is to prepare all of our students to be ethical and effective professionals who will employ leading-edge understandings and evidence-based practices in whatever setting they work. In order for us to achieve that mission, we have to have high expectations for our students from the onset of their studies. Our Code of Professional Conduct articulates those expectations and delineates the process the College employs when they are not met. This is a supplement, not a substitution, for the University’s Code of Conduct.

I. Expectations for ethical behaviors in Temple courses include the following:

1. Students must demonstrate professional responsibility through full participation in all course activities and compliance with academic and attendance policies as described in each course syllabus.
2. Students must not attend class under the influence of any non-prescribed drugs or medications or alcohol.
3. Students must manifest respect for others regardless of race, culture, gender, social class, sexual orientation, religion, disability or ability level.
4. Students must avoid classroom behaviors that interfere with the learning of others, including, but not limited to, irresponsible use of cell phones, laptops or Ipads, or regularly making negative or disruptive comments.
5. Students must exhibit a professional level of respect for both professors and classmates and shall not engage in physical intimidation or any other inappropriately aggressive behavior.
6. Students must submit only their original work.
7. Students must obtain permission to use and shall give appropriate citations for any work of another person used in her/his assignments, including classmates.
8. Students shall not submit work done for another class without the express approval of an instructor.
9. Students must comply with all fair use and copyright requirements when installing and using software on any computer.
10. Students must use electronic communication in a responsible and professional manner at all times and shall not display, send, or forward any sexually explicit or other inappropriate materials or any harassing or discriminatory communications.

11. Students must not falsify or misrepresent any information to faculty, supervising teachers, and university supervisors.

II. Expectations for ethical behavior in field placements include the following:

2. Students must comply with all policies, statutes, rules and procedures established by Temple University, state and local agencies, and any school or other institution in which the student is doing any field experience.

3. Students must treat supervising teachers; other school faculty, administrators, and staff; university supervisors; and their own students with respect at all times.

4. Student shall recognize, respect, and plan for the diversity that exists in the classroom and greater community.

5. The student shall develop and adhere to appropriate professional boundaries in all relationships. Developing a romantic and/or sexual relationship with a student, instructor, staff member, or supervisor is unacceptable.

6. Students must exhibit a professional commitment to their work in schools and must not demonstrate unprofessional behavior through poorly prepared lessons, unprofessional appearance, or low expectations for self and others.

7. Students must not attend field assignments under the influence of any non-prescribed drugs or medications or alcohol.

8. Students shall become knowledgeable about and abide by rules set forth by all schools in which they are doing field experience.

Graduation without Certification

Only students who have successfully completed all requirements other than those requirements indicated in the 8th semester of a student’s 8 semester academic plan are eligible to petition to graduate without certification.

- Students enrolled in a teacher certification program who have completed all academic requirements other than those listed in the 8th semester of their plan must meet with an Academic Advisor to 1) review reasons for petitioning to graduate without certification, 2) develop an alternate academic plan and, 3) complete the Graduation without Certification Petition; receipt of the Petition is documented by the Advisor and then forwarded to the Director of Undergraduate Academic and Student Affairs for review and the student is notified of the decision via email.

- Students enrolled in a teacher certification program who decide they no longer want to pursue teacher certification, but have not completed all requirements other than student teaching and senior seminar are not eligible to Graduate without Certification. Such students are advised to meet with an Academic Advisor to discuss non-certification programs within the College of Education or external options.

Students who have begun to student teach and decide not to (or cannot) continue:

- During the drop period must 1) drop their student teaching and senior seminar, 2) meet with the Office of Field Placement to review the reason(s) for ending the student teaching, and 3) must meet with an Academic Advisor to develop an alternate academic plan and either complete the Graduation without Certification Petition or change their major to a non-certification program. If petitioning, receipt of the Petition is documented by the Advisor and then forwarded to the Director of Undergraduate Academic and Student Affairs for review and the student is notified of the decision via email.

- During the Withdraw period, must 1) withdraw from their student teaching and senior seminar (students are financially responsible for all tuition and fees during the withdraw period), 2) meet with the Office of Field Placement to review the reason(s) for ending the student teaching, and 3) must meet with an Academic Advisor to develop an alternate academic plan and either complete the Graduation without Certification Petition or change their major to a non-certification program. If petitioning, receipt of the Petition is documented by the Advisor and then forwarded to the Director of Undergraduate Academic and Student Affairs for review and the student is notified of the decision via email.

- After the Withdraw period* must 1) meet with the Office of Field Placement to review the reason(s) for ending the student teaching, 2) must meet with Academic Advisor to develop an alternate academic plan, as needed, and complete the Graduation without Certification Petition or change their major to a non-certification program. If petitioning, receipt of the Petition is documented by the Advisor and then forwarded to the Director of Undergraduate Academic and Student Affairs for review and the student is notified of the decision via email. Students who do not continue student teaching and senior seminar after the Withdraw deadline will be graded based on work already completed. Students who do not earn passing grades may need to complete additional coursework to earn the minimum credits required for the degree program. Students are financially responsible for tuition and fees for courses for which they are registered after the Drop deadline, so students in this instance are obligated to pay for all credits in which they are enrolled.

* Discontinuing student teaching after the withdraw period is a serious matter and should only be considered in extenuating circumstances; such circumstances must be discussed with the Office of Field Placement prior to ending the placement.

Grievances

Whenever a student has a grievance, the College encourages the student to address his or her concern with the professor to seek an informal resolution without the assistance of outside parties. When that cannot be achieved, the student is encouraged to contact the Ombudsperson to begin the formal Appeal process. The Ombudsperson’s role is to mediate disputes arising over an academic issue within the College and to make sure the parties are
aware of the various policies that have bearing on the case. The goal is to bring the dispute to a quick resolution. The Ombudsperson can be contacted at education.ombudsperson@temple.edu.

College of Education students with grade grievances in courses outside of the College of Education must follow the process in the College/School who manages the course.

Letters of Completion
Any student in a teacher certification program who has successfully completed all requirements of the program and whose degree has been officially conferred by the University Registrar may request a Letter of Completion. As per the University Registrar, no Letter of Completion is provided until the University's graduation clearance and degree conferral process is completed. Students should refer to the College of Education's graduation web site for the Letter of Completion request form and for specific dates of degree conferral each semester.

Permission to Take Courses At Another Institution
Consistent with University policy, students will not receive transfer credit for courses taken at another institution while they are matriculated (Degree Seeking) at Temple University unless prior permission has been obtained. Permission forms are available on the Senior Vice Provost for Undergraduate Studies web site under Forms. Students should carefully review the criteria on the form and must make an appointment with an Academic Advisor to review and submit the form. Students should allow at least two weeks for review and processing of these forms.

Prerequisites
See Co-requisites and Prerequisites, above.

Re-enrollment
Students who have not been registered for one (or more) semesters are no longer an active student as per University policy and therefore must complete a Re-enrollment Request and submit that request to the school/college in which they wish to re-enroll. (Students do not submit the request to their former school/college if they wish to switch into a new school/college.) The College of Education reviews Re-enrollment Requests on a rolling basis and students are alerted of the decision via the e-mail address provided on their Re-enrollment Request form.

University policy dictates that if the student's original curriculum is no longer available, the student must follow the most current curriculum or choose a different current curriculum (major) upon his/her return; this applies to any student who has not registered for a single semester or more and it can have significant impact on degree progress. Upon Re-enrollment approval, students are directed to meet with an Advisor and topics such as remaining requirements and anticipated graduation date are discussed at this appointment.

University-established deadlines for Re-enrollment Requests are:
- For the fall semester: August 1*
- For the spring semester: December 1*
- For summer sessions I and II: April 1*

* Any Re-enrollment Requests received after these dates are reviewed at the discretion of the College of Education.

Important Note about Transcripts and Holds for Students wishing to Re-enroll:
- Students who have attended another institution since last enrolled at Temple are required to submit any and all transcripts with the Re-enrollment Request form; failure to submit all transcripts will result in a denial of the re-enrollment request. When transcripts are provided, a review of the request can be conducted. If transcripts are provided after the University-established deadlines noted above, review of the Re-enrollment Request will be at the discretion of the College of Education.
- Students with any type of hold on their record must clear the hold prior to submitting a Re-enrollment Request; failure to clear all holds will result in a denial of the re-enrollment request. When all holds are cleared, a review of the request will be conducted. If a hold is not cleared until after the University-established deadlines noted above, review of the Re-enrollment Request will be at the discretion of the College of Education.

Repeating a Course
As per University policy, students may attempt a course two times without restriction, but a third attempt of any course is not guaranteed and requires the student to petition; students must make this third attempt petition by bringing the completed petition form to a scheduled advising appointment. Petitions for a third attempt of a course are reviewed by the Director of Undergraduate Academic and Student Affairs and the student is notified of the decision via e-mail from the Advisor with whom they met to initiate the petition process. Each petition will be reviewed individually; submission of a petition does not guarantee approval. Approvals of third attempt petitions may come with stipulations for development an academic plan and/or required meetings with advising and/or referrals to university resources, etc. Please refer to the University policy on Repeating a Course (p. 99) for further information. Students in the College of Education are encouraged to meet with an Advisor prior to attempting a course for the second time.
Temple University Requirements

- All students must complete Temple University’s General Education (GenEd (p. 143)) curriculum.
- All students must take a minimum of two writing-intensive courses at Temple University (including transfer students).

College of Education Graduation and Certification Requirements

College of Education Stipulations

The College of Education does not award Bachelor of Arts or Bachelor of Science degrees to students who have already completed an accredited first Bachelor's, Master's, or Ph.D. degree, regardless of when the degree was completed.

Teacher Certification Education Programs: Bachelor of Science in Education Degree

Early Childhood Education (with or without the Special Education Concentration), Middle Grades Education, Secondary Education, and Career and Technical Education

Areas of Certification within the College of Education

All curricula leading to Pennsylvania certification are organized to meet the standards established by the Pennsylvania Department of Education. The following areas of certification have been approved by Temple University's Board of Trustees and the Pennsylvania Department of Education

- Career and Technical Education
  - Business, Computer, and Information Technology K-12 (Formerly Business Education)
  - Cooperative Education
  - Marketing Education K-12
  - Industrial (Career Technical) Education
- Early Childhood-Elementary Education (Pre K to 4)
  - Early Childhood-Elementary Education with Special Education Concentration (dual certification)
- Middle Grades Education (grades 4 to 8)
  - Mathematics
  - Science
  - Language Arts
  - Social Studies
  - Mathematics and Science
  - Mathematics and English/Language Arts
  - Science and English/Language Arts
- Secondary Education (grades 7-12)
  - English
  - Mathematics
  - Science
  - Social Studies
- K-12 Certification in World Languages
  - French
  - German
  - Italian
  - Latin
  - Spanish

Students receive a Bachelor of Science in Education degree by meeting the following minimum College requirements:

- Completion of program requirements as detailed on the 8-semester academic plan.\(^1\)
- Earn a "C-" or above in all required Education Courses.
- Earn a "C-" or above in all required University General Education Courses.
- Fulfill all University Requirements as noted above

\(^1\) The required total credit hours vary depending on the course of study. These credit hours are satisfied by taking courses in four categories:

1. University General Education requirements
2. Foundational Education courses
3. Teacher Education Certification Courses (i.e. methods and student teaching)
4. Elective courses, as noted in each program of study.

Courses Not Applicable to Certification/Degree Program:
Specific courses are required in order for students to be endorsed for Pennsylvania teacher certification and complete their program of study. Just because a student has reached the minimum credits required for a degree does not mean they have completed the degree as the student may have taken additional courses that are credits not applicable to the program.

Some credits from ROTC and preparatory courses do not count towards the total number of semester hours needed to graduate. Students should meet with an Academic Advisor once per semester to ensure they are on track for completing all degree requirements.

Courses Over Five or Ten Years Old
Courses over five years old are subject to review to fulfill certification requirements.
Courses over ten years old will not count toward a degree nor certification requirements in the College of Education.

Certification Requirements
All students seeking to graduate with the recommendation for Pennsylvania teacher certification must meet the following requirements:

• Must complete the minimum number of credits at Temple as specified by the University.
• Earn a "C-" or above in all required Education Courses. (Students must be aware, that the State of Pennsylvania requires a minimum cumulative GPA for teacher certification (see above); obtaining the minimum grade of "C-" in multiple courses will not create a cumulative GPA sufficient to obtain certification.)
• Earn a "C-" or above in all University General Education Courses.
• Pass Basic Skills Assessment using SAT or ACT scores or, when those scores do not meet minimum scores required, take and pass all three sections (reading, writing and math) of either the PAPA or Praxis Core for Educators tests.
• Pass either PECT PreK-4 (Early Childhood Education program and Special Education concentration) or Praxis II (Middle Grades, Secondary Education, and Career and Technical Education programs) exams.
• Complete six credits of college-level math as specified by your program. Developmental, pre-College and courses at the 0xxx level are not applicable to this requirement.
• Complete six credits of college-level English, specifically 3 credits of composition and 3 credits of literature. Developmental, pre-College and courses at the 0xxx level are not applicable to this requirement.
• Secondary Education students: earn a minimum cumulative 2.0 GPA in the content area. Students must earn a minimum of "C-" (or higher, where stipulated by the program) in all content area courses.
• Middle Grades students: earn a minimum cumulative 2.0 GPA in the concentration area. Students must earn a minimum of "C-" (or higher, where stipulated by the program) in all concentration area courses.
• Students not obtaining Pennsylvania State Teacher certification within five years of completing their programs must take additional coursework before the College of Education will consider recommending them for certification.

Candidacy
Students in teacher certification programs are admitted to Temple University and enrolled in the College of Education where they take foundational courses required; however PDE guidelines mandate that all students must be admitted into the Teacher Education Certification Program through an application process; this process is referred to as "Candidacy". Students complete and submit a Candidacy Application at the midway point of their education (for most programs this occurs in the fourth semester of courses) and must earn Candidacy approval before they are able to progress into teaching methods courses and ultimately, student teaching. Students cannot register for teaching methods courses or the student teaching experience without achieving Candidacy.

Candidacy requirements include:

• Pass Basic Skills Assessment using SAT or ACT scores or, when those scores do not meet minimum scores required, take and pass all three sections (reading, writing and math) of either the PAPA or Praxis Core for Educators tests. (See "Certification Testing" below for more details.)
• Complete all courses stipulated as pre-Candidacy courses, earning a C- or higher in each.
• Complete six credits of college-level math as specified by your program. Developmental, pre-College and courses at the 0xxx level are not applicable to this requirement.
• Complete six credits of college-level English, specifically 3 credits of composition and 3 credits of literature. Developmental, pre-College and courses at the 0xxx level are not applicable to this requirement.
• Earn a minimum cumulative GPA of 3.0*
  • Secondary Education students must also earn a minimum cumulative 2.0 GPA in the content area. Students must earn a minimum of "C-" (or higher, where stipulated by the program) in all content area courses.
Middle Grades students must also earn a minimum cumulative 2.0 GPA in the concentration area. Students must earn a minimum of "C-" (or higher, where stipulated by the program) in all concentration area courses.

* Students who meet other criteria, but do not have a 3.0 should schedule an advising appointment to discuss a possible GPA Appeal Petition.

More information can be found on the College of Education's Candidacy web site (http://education.temple.edu/ugrad/candidacy-application-review).

Certification Testing

Students enrolled in teacher certification programs must successfully complete the Pennsylvania Department of Education's certification exams in order to receive certification from PDE:

- Basic Skills Assessment: students must achieve the minimum scores required by PDE on one of the following Basic Skills Assessments to be approved for Candidacy prior to beginning teaching methods courses:
  - PAPA (Math, Writing and Reading minimum score in each = 220 or the composite score system which requires a total minimum composite score = 686 with minimum scores in each module of Reading: 193, Math: 197, Writing: 192)
  - Praxis Core for Educators (Math minimum score = 150, Reading minimum score = 156, Writing minimum score = 162)
  - SAT (1550 total with no section score below 500)
  - ACT (composite score of 23 along with a combined English/Writing score of 22 and a Math score of 21)
- Praxis II to be certified in Secondary Education, Middle Grades Education or Career and Technical Education
- PECT Prek-4 and/or Special Education to be certified in Early Childhood Education and Special Education

Students can find further details and updates about all certification exam information on the College of Education web site at http://education.temple.edu/services/basic-skills-assessment-options and on the College of Education Undergraduate Community on Blackboard.

Students should visit the PAPA web site (http://www.pa.nesinc.com/GetInfo.aspx?f=PA001_TestPage.html&c=Test%20Information&q=What%20is%20the%20cost%20of%20the%20test%3F&l=PA001&h=FindInfoTestFee), the PECT web site (http://www.pa.nesinc.com) or the Praxis II web site (http://www.ets.org/praxis) to acquire test dates, registration information, minimum score information, and suggestions for preparation.

GPA Information as it Relates to Certification

Graduation from the College of Education does not carry automatic endorsement for state certification. Students must complete all the requirements for their specific Teacher Education Certification Program, including: successfully complete student teaching, earn a minimum cumulative GPA of 3.0 or meet the Pennsylvania Department of Education's Certification Testing and Scores requirements (http://www.education.state.pa.us/portal/server.pt/community/testing_requirements/8638), and must pass all required certification tests.

Field Experience, Practicum and Student Teaching

The College of Education places a great deal of emphasis on students’ in-school experiences. All undergraduates are required to complete courses that place them in school settings for a specified duration.

Student teaching, completed in a student's final semester, constitutes the most important field experience for prospective teachers. Application for student teaching placement must be submitted by the deadline communicated to students by the student teaching placement office.

Any student going into the field must obtain clearances. See the College of Education's clearance web site (http://education.temple.edu/ofp/clearances) for all details.

Performance Assessments

In addition to the teacher certification tests (PAPA and PECT/Praxis II tests) required by the Pennsylvania Department of Education, students are required to complete three performance assessments in order to gauge the extent to which they:

1. Know the content they will teach,
2. Can teach the content, and
3. Embody the professional attributes required of professional educators.

The performance assessments occur at three points in the undergraduate program: initially when prospective students are being admitted to certification programs through Candidacy; in the junior year, prior to student teaching (intermediate assessment); and before graduation, while student teaching (senior assessment). In addition to assessing and informing candidates about their teaching, the performance assessments are intended for use by faculty as a tool for program evaluation.

All undergraduate Education majors seeking certification must successfully complete the Intermediate Performance Assessment (IPA), a Temple University and PA Department of Education requirement for teacher education majors before student teaching. Under state guidelines, a teacher education institution must:

1. Conduct performance assessments throughout the preparation program for all students admitted to a professional educator (certification) program
2. Use the assessment information to determine eligibility for student teaching.

The Intermediate Performance Assessment (IPA) was developed in response to a regulation of the Pennsylvania Department of Education and as part of the College of Education's interest in ensuring teacher candidates' continuous progress in the teacher education certification program. The Temple IPA, like College of Education courses, is aligned to the program's six standards of effective teaching. At the completion of the teacher education program, teacher candidates will have had instruction to help them meet all of these standards in their teaching practice. The IPA measures progress toward these standards part way through the program; students must complete and pass this formal assessment to be eligible to student teach.

The IPA is followed by the Senior Performance Assessment (SPA) in the final semester of the program. All candidates for certification must successfully complete the Intermediate and Senior Performance Assessments. This is both a Temple University and PA Department of Education requirement for teacher education majors. Candidates for certification will not be submitted to the state as having met all requirements if they fail either the IPA or SPA twice.

Professional Education Portfolio

As a culmination of the teacher education certification program, students will be required to develop a professional teaching portfolio. The specific requirements for the portfolio will be available from the Senior Seminar course instructor.

Teacher Certification Programs at Temple University

Temple University provides a variety of ways to obtain teacher certification. These include:

- Early Childhood (preK-4th) Education
- Early Childhood (preK-4th) with Special Education (K-8th)
- Middle Grades (includes 4-6th all elementary subjects combined with 7-8th grade concentrations in Math/Science; Math/Literacy or Science/Literacy)
- Secondary Education: Math, Science, English, Social Studies (7-12th) or World Languages (K-12th)
- Career and Technical Education (Business, Computer, and Information Technology Education or Marketing Education).

Students seeking Teacher Education Certification in other areas should contact the school/college listed below. Information about these teacher education certification programs can also be found within that school or college's section of this Undergraduate Bulletin:

- Art - Tyler School of Art (http://tyler.temple.edu)
- Health and Physical Education - College of Public Health (http://cph.temple.edu)
- Music - Boyer College of Music and Dance (http://www.temple.edu/boyer)
- Speech - College of Public Health (http://cph.temple.edu)
- In addition to the Secondary Math and Science Education programs offered in the College of Education, students can earn teacher certification through TUteach (http://cst.temple.edu/academics/accelerated-programs/tuteach), a joint program between the College of Science and Technology and the College of Education. This program is housed in the College of Science and Technology.

Non-certification Programs: Bachelor of Arts/Bachelor of Science

Non-Certification Programs:

Adult and Organizational Development (BA) and Human Development and Community Engagement (BS)

Students receive a Bachelor of Arts degree by meeting the following minimum College requirements:

- Completion of program requirements as detailed on the 8-semester matrix.
- Earn a "C-" or above in all required Education Courses.
- Earn a "C-" or above in all required University General Education Courses.
- Earn a minimum cumulative GPA of 2.0.
- Fulfill all University Requirements as noted above.

The required total credit hours vary depending on the course of study. These credit hours are satisfied by taking courses in four categories:

1. University General Education requirements
2. Courses required in the Program
3. Elective courses, as noted in each program of study
MINORS

Minor in Education

The 18-credit Minor in Education is designed for Temple University undergraduate students who have either a professional or personal interest in education, urban schools, or children but are majoring in another discipline. The minor in Education provides undergraduate students with broad, foundational knowledge about the state of education, adolescent development, and community and school relationships. Students whose research interests are content-based, such as political science, history, and geography and urban studies, but have connections to education will benefit from exposure to schools through field placements and education theory. This minor is also ideal for students who plan to enter occupations in fields such as policy, counseling, child psychology, which have connections to education. Finally, this minor is an opportunity for students to investigate careers in education. Through coursework and field experience students will be interacting with education majors and working in schools, thus providing them with a sample of some of the work that pre-service teachers do. This carefully designed sequence of courses includes field experiences such as tutoring, observations in after school programs, and work in community centers to support in-class learning.

Academic Advising Information

Undergraduate Academic and Student Affairs
http://education.temple.edu/services
215-204-8011

Overview of Services and the Undergraduate Academic and Student Affairs Unit

The Undergraduate Academic and Student Affairs staff in the College of Education works with and supports students in a variety of areas including orienting students (transfer and freshmen), understanding of curricular requirements, creation of academic plans to ensure progress in the major and timely degree completion, planning for study abroad opportunities, changing programs (majors), developing professionally, addressing academic standing and progress issues, and resolving academic challenges. Services are provided by a staff of the Director for Undergraduate Academic and Student Affairs, professional Academic Advisors, and an Undergraduate Coordinator. The department offers the following services:

- New Student and Transfer Orientations and advising.
- Academic advising and registration assistance for all students in the College of Education.
- Semesterly consultation with each student prior to registration to help students ensure they stay on course for their anticipated graduation date.
- Development of a meaningful education plan compatible with career and life goals.
- Developmental advising for students facing academic challenges, especially those at risk for any reason, students on Academic Warning or Academic Probation, students not achieving critical milestones/not completing critical courses, and students whose midterm reports indicate concerns.
- Change of Program workshops and individual advising for students interested in changing into a College program.
- Submission, review and processing of petitions and other requests including: Re-enrollment Requests, permission to take courses elsewhere; petitions for academic overloads, Third Attempt Petitions, medical/excused withdrawals, etc.
- Workshops on topics relevant to Education students (i.e.: PAPA exam preparedness and Clearances).
- Dissemination of information relevant to Education students.
- Candidacy application information, appointments and academic audits.
- Student Teaching academic audits to determine if students are cleared academically in order to student teach.
- Graduation clearances for all undergraduate students.
- Dean's List letters
- Assistance to the College with development of transfer articulation agreements with other institutions in consultation with the College of Education Faculty and Senior Vice Provost for Undergraduate Studies office.

Undergraduate Advising Appointments

- Same Day Appointments: offered only on Main Campus, Same Day Appointments are available on Mondays throughout fall and spring semesters as well as during peak advising periods (the first two weeks (drop/add period) of each fall and spring semester and during the entirety of the Priority Registration periods in fall and spring semesters). To schedule, students call 215-204-8011 or stop into the Shimada Resource Center at 8:45 a.m. on days Same Day Appointments are offered. (Same Day Appointments are not available in summer.)
- Appointments scheduled in advance: offered on Main Campus on Tuesdays through Fridays in fall and spring semesters and most days in summer. To schedule, students call 215-204-8011 or stop into the Shimada Resource Center to schedule an appointment in person. Appointments can be scheduled up to two weeks in advance. Ambler campus-based students should call 267-468-8200 to schedule an appointment.

All Academic Advisors are trained to evaluate information carefully to give students the best possible advice. However, primary responsibility for course selection and degree completion rests with the student. Every student must be aware of the requirements of his or her degree and should collaborate with an Advisor each semester to ensure timely completion of his or her program.
Faculty

For additional information on the College of Education’s faculty please visit the College’s faculty directory (http://education.temple.edu/coe/faculty).

**Gregory Anderson**, Professor, Department of Policy, Organizational, and Leadership Studies, College of Education; Ph.D., City University of New York.

**Janelle M. Bailey**, Associate Professor (Teaching/Instructional), Department of Teaching and Learning, College of Education; Ph.D., University of Arizona.

**Cynthia S. Belliveau**, Assistant Professor (Teaching/Instructional), Department of Policy, Organizational, and Leadership Studies, College of Education; Ph.D., Temple University.

**Julie L. Booth**, Assistant Professor, Department of Psychological Studies in Education, College of Education; Ph.D., Carnegie Mellon University.

**Jean A. Boyer**, Assistant Professor (Teaching/Instructional), Department of Psychological Studies in Education, College of Education; Ph.D., University of Cincinnati.

**Joseph Boyle**, Associate Professor, Department of Teaching and Learning, College of Education; Ph.D., University of Kansas.

**Carol B. Brandt**, Assistant Professor, Department of Teaching and Learning, College of Education; Ph.D., University of New Mexico.

**Wanda M. Brooks**, Associate Professor, Department of Teaching and Learning, College of Education; Ed.D., University of Pennsylvania.

**James P. Byrnes**, Professor, Department of Psychological Studies in Education, College of Education; Ph.D., Temple University.

**Corinne A. Caldwell**, Professor Emerita, Department of Policy, Organizational, and Leadership Studies, College of Education; Ph.D., University of Pennsylvania.

**Robert W. Clark**, Associate Professor (Teaching/Instructional), Department of Teaching and Learning, College of Education; Ph.D., Pennsylvania State University.

**Sarah A. Cordes**, Assistant Professor, Department of Policy, Organizational, and Leadership Studies, College of Education; Ph.D., New York University.

**Maia Bloomfield Cucchiara**, Assistant Professor, Department of Policy, Organizational, and Leadership Studies, College of Education; Ph.D., University of Pennsylvania.

**James Earl Davis**, Professor, Department of Policy, Organizational, and Leadership Studies, College of Education; Ph.D., Cornell University.

**Meixia Ding**, Assistant Professor, Department of Teaching and Learning, College of Education; Ph.D., Texas A and M University.

**Joseph P. DuCotte**, Professor, Department of Psychological Studies in Education, College of Education; Ph.D., Cornell University.

**Richard M. Englert**, Professor, Department of Policy, Organizational, and Leadership Studies, College of Education; Ed.D., University of California Los Angeles.

**Frank H. Farley**, Professor, Department of Psychological Studies in Education, College of Education; Ph.D., University of London.

**Catherine A. Fiorello**, Professor, Department of Psychological Studies in Education, College of Education; Ph.D., University of Kentucky.

**Amanda G. Fischer**, Assistant Professor, Department of Psychological Studies in Education, College of Education; Ph.D., Ohio State University.

**Joseph P. Folger**, Professor, Department of Policy, Organizational, and Leadership Studies, College of Education; Ph.D., University of Wisconsin-Madison.

**Timothy P. Fukawa-Connelly**, Assistant Professor, Department of Teaching and Learning, College of Education; Ph.D., University of Maryland.

**William Fullard Jr.**, Professor Emeritus, Department of Psychological Studies in Education, College of Education; Ph.D., University of Pennsylvania.

**Steven Jay Gross**, Professor, Department of Policy, Organizational, and Leadership Studies, College of Education; Ed.D., University of Pennsylvania.

**John Hall**, Assistant Professor, Department of Policy, Organizational, and Leadership Studies, College of Education; Ph.D., University of California Berkeley.

**Shanta Hattikudur**, Assistant Professor (Teaching/Instructional), Department of Psychological Studies in Education, College of Education; Ph.D., University of Wisconsin-Madison.

**Joseph Haviland**, Associate Professor (Teaching/Instructional), Department of Teaching and Learning, College of Education; Ed.D., Temple University.

**Annemarie H. Hindman**, Associate Professor, Department of Psychological Studies in Education, College of Education; Ph.D., University of Michigan.
Shana Hornstein, Assistant Professor (Teaching/Instructional), Department of Teaching and Learning, College of Education; Ph.D., Arizona State University.

Portia L. Hunt, Professor Emerita, Department of Psychological Studies in Education, College of Education; Ph.D., Indiana State University.

Vivian W. Ikpa, Associate Professor, Department of Policy, Organizational, and Leadership Studies, College of Education; Ph.D., University of Maryland College Park.

Will J. Jordan, Associate Professor, Department of Policy, Organizational, and Leadership Studies, College of Education; Ph.D., Columbia University, Teachers College.

Yasuko Kanno, Associate Professor, Department of Teaching and Learning, College of Education; Ph.D., University of Toronto.

Avshalom Kaplan, Associate Professor, Department of Psychological Studies in Education, College of Education; Ph.D., University of Michigan.

Novella E. Keith, Associate Professor Emerita, Department of Teaching and Learning, College of Education; Ph.D., Rutgers University.

Julie Beth Kessler, Assistant Professor (Teaching/Instructional), Department of Teaching and Learning, College of Education; Ph.D., Temple University.

Larry J. Kratt, Professor, Department of Policy, Organizational, and Leadership Studies, College of Education; Ph.D., Michigan State University.

Peshe C. Kuriloff, Professor (Teaching/Instructional), Department of Teaching and Learning, College of Education; Ph.D., Bryn Mawr College.

Janice C. Laurence, Associate Professor, Department of Policy, Organizational, and Leadership Studies, College of Education; Ph.D., George Mason University.

Yoon H. Lee, Assistant Professor (Teaching/Instructional), Department of Teaching and Learning, College of Education; Ed.D., Columbia University.

Doug Lombardi, Assistant Professor, Department of Teaching and Learning, College of Education; Ph.D., University of Nevada, Las Vegas.

Christopher W. McGinley, Associate Professor, Department of Policy, Organizational, and Leadership Studies, College of Education; Ed. D., University of Pennsylvania.

Kristina Najera, Assistant Professor (Teaching/Instructional), Department of Teaching and Learning, College of Education; Ph.D., University of Delaware.

Kristie Jones Newton, Associate Professor, Department of Teaching and Learning, College of Education; Ph.D., University of Maryland College Park.

Timothy J. Patterson, Assistant Professor, Department of Teaching and Learning, College of Education; Ph.D., Columbia University.

Aneta Pavlenko, Professor, Department of Teaching and Learning, College of Education; Ph.D., Cornell University.

Laura Pendergast, Assistant Professor, Department of Psychological Studies in Education, College of Education; Ph.D., Pennsylvania State University.

Ivan J. Quandt, Professor, Department of Teaching and Learning, College of Education; Ed.D., Indiana University.

Elizabeth Richard, Assistant Professor (Teaching/Instructional), Department of Teaching and Learning, College of Education; Ph.D., Pennsylvania State University.

Jaymunn S. Sanford-DeShields, Associate Professor, Department of Teaching and Learning, College of Education; Ed.D., Harvard University.

Kenneth G. Schaefer, Professor, Department of Teaching and Learning, College of Education; Ph.D., Columbia University.

Catherine C. Schifter, Associate Professor, Department of Psychological Studies in Education, College of Education; Ph.D., University of Pennsylvania.

Joan Poliner Shapiro, Professor, Department of Policy, Organizational, and Leadership Studies, College of Education; Ed.D., University of Pennsylvania.

Lauren Smith, Assistant Professor (Teaching/Instructional), Department of Psychological Studies in Education, College of Education; Ph.D., University of Miami.

Michael W. Smith, Professor, Department of Teaching and Learning, College of Education; Ph.D., University of Chicago.

Tamara Sniad, Assistant Professor (Teaching/Instructional), Department of Teaching and Learning, College of Education; Ph.D., University of Pennsylvania.

Cathleen S. Soundy, Associate Professor, Department of Teaching and Learning, College of Education; Ed.D., Rutgers University.

Sarah I. Springer, Assistant Professor (Teaching/Instructional), Department of Psychological Studies in Education, College of Education; Ph.D., Montclair State University.
Judith C. Stull, Assistant Professor (Teaching/Instructional), Department of Policy, Organizational, and Leadership Studies, College of Education; Ph.D., Boston College.

Francis J. Sullivan, Associate Professor, Department of Teaching and Learning, College of Education; Ph.D., University of Pennsylvania.

Jill May Swavely, Associate Professor (Teaching/Instructional), Department of Teaching and Learning, College of Education; Ed.D., Temple University.

Neil Theobald, Professor, Department of Policy, Organizational, and Leadership Studies, College of Education; Ph.D., University of Washington.

S. Kenneth Thurman, Professor, Department of Teaching and Learning, College of Education; Ph.D., Vanderbilt University.

Matthew J. Tincani, Associate Professor, Department of Psychological Studies in Education, College of Education; Ph.D., Ohio State University.

Gregory M. Tucker, Associate Professor (Teaching/Instructional), Department of Psychological Studies in Education, College of Education; Ph.D., Temple University.

Nathaniel von der Embse, Assistant Professor, Department of Psychological Studies in Education, College of Education; Ph.D., Michigan State University.

Matthew J. Elvis Wagner, Associate Professor, Department of Teaching and Learning, College of Education; Ed.D., Columbia University.

Barbara A. Wasik, Professor, Department of Psychological Studies in Education, College of Education; Ph.D., Temple University.

Meredith Weber, Assistant Professor (Teaching/Instructional), Department of Teaching and Learning, College of Education; Ph.D., Temple University.

Keith Witham, Assistant Professor, Department of Policy, Organizational, and Leadership Studies, College of Education; Ph.D., University of Southern California.

Christine A. Woyshner, Professor, Department of Teaching and Learning, College of Education; Ed.D., Harvard University.

**Adult & Organizational Development**

Dr. Cynthia Belliveau, Coordinator
215-204-4397
cynthia.belliveau@temple.edu

This program prepares students for careers in the field of adult and organizational development. Coursework in this academic major provides students with the communication skills and analytical abilities to: design adult training programs, conduct organizational interventions, develop change management processes, conduct effective team development programs, facilitate group decision-making, manage interpersonal conflict, and design dispute resolution systems. These skills support adults in reaching professional goals in a diverse range of settings including for-profit and non-profit organizations, educational institutions, governmental agencies, and community organizations. Graduates of the program are prepared to enter adult education professions as trainers, performance assessment specialists, managers, group and organizational consultants, mediators, negotiators, and learning and development specialists.

**Programs**

- Bachelor of Arts in Adult & Organizational Development (p. 407)
- Minor in Adult & Organizational Development (p. 409)

**Bachelor of Arts in Adult & Organizational Development**

**Summary of Requirements**

**University Requirements**

- All students must complete Temple University’s General Education (GenEd (p. 143)) curriculum.
- All students must take a minimum of two writing-intensive courses at Temple University (including transfer students). The specific writing-intensive courses required for this major are AOD 3396 and AOD 4396.

**College Requirements**

Refer to the College Requirements (p. 399) for specific information.

**Program Requirements**

- Students must complete 33 credit hours in the major.
• All courses in the major must be passed with a grade of "C-" or better; students must earn a 2.0 cumulative GPA.
• Complete the following course requirements in Adult and Organizational Development:

### Minor in Adult & Organizational Development
The minor in Adult and Organizational Development consists of 15 credit hours in Adult & Organizational Development coursework.

Students must complete the following courses:

- **AOD 1016**: Introduction to Adult Learning and Training
- **AOD 1166**: Interpersonal Communication through the Life Span
- **AOD 2176**: Team Process in Education
- **AOD 2214**: Conflict and Communication

Select one of the following:

- **AOD 2215**: Mediation: Principles and Practice
- **AOD 3316**: Negotiation Processes
- **AOD 3376**: Facilitating Group Decision-Making
AOD 3396  Organizational Communication

Total Credit Hours 15

All courses must be completed with a minimum grade of C-.

1 If students have taken the GenEd course AOD 0836 before declaring an Adult & Organizational Development minor, then AOD 1166 will be waived and students will be required to take two courses from the set of four optional courses. Students must discuss this with an Academic Advisor so their records can be properly updated.

Career & Technical Education

Dr. Robert W. Clark, Executive Director
Ritter Hall 338
215-204-8383
robert.clark@temple.edu

The Career and Technical Education Program serves individuals working in the field of workforce development, including secondary and/or post-secondary career and technical education and technical training in industry. The following teacher education degrees/certifications are offered at the undergraduate level:

- business, computer and information technology education;
- industrial education;
- marketing education.

Note: The undergraduate degree and certification programs in Career and Technical Education (Business, Computer, and Information Technology Education [BCITE] and Marketing Education) were revised in the 2013-2014 academic year to address new regulations from the Pennsylvania Department of Education (PDE). All students enrolling in either of these programs are strongly recommended to schedule appointments with an Academic Advisor in the Shimada Resource Center (SRC) in the College of Education each semester to affirm the requirements that pertain to their specific major, for progress checks and to assure they are current with certification requirements (i.e., testing). It is also recommended that students meet with an Advisor before enrolling in classes specific to these majors and leading to certification as a teacher.

Programs

- Business, Computer, & Information Technology Education (p. 410)
- Industrial Education (p. 413)
- Marketing Education (p. 416)
- Certification Programs (p. 418)

Business, Computer, & Information Technology Education

Shimada Resource Center (http://education.temple.edu/services)
College of Education

215-204-4383 (fax)

The Business, Computer, & Information Technology Education (BCITE) curriculum is designed to prepare students who expect to teach business subjects in K-12 and at the 2-year college level in public and private schools. Subject area content (academic specialization) and professional education content are combined with general education content (university curriculum) in order to provide the student with a general education, a field of specialization, and professional training. Moreover, the curriculum aims to combine these elements in such proportions as to give students the balanced perspective of the relation that business education bears to education as a whole.

Summary of Requirements

University Curriculum

1. All students are required to complete the university's General Education (GenEd (p. 143)) curriculum.
2. All students must take 6 credits of college level math and 6 credits of English (3 in composition and 3 in literature) and pass the required state tests to be certified.
3. All students must take a minimum of two writing-intensive courses at Temple. The writing-intensive courses required for this major are EDUC 2296 and SECE 3796.

The Bachelor of Science in Education in Career and Technical Education’s concentration in Industrial Education (B.S.ED in IE) is designed to prepare students who expect to teach career and technical education subjects in grades 7-12 and at the 2-year college level in public and private schools. Subject area content (occupational competency assessment credit for industry experience) and professional education content are combined with general education content (university curriculum) in order to provide the student with a general education, a field of specialization, and professional training. Moreover, the curriculum aims to combine these elements in such proportions as to give students the balanced perspective of the relation that industrial education bears to education as a whole.

For both the B.S.ED in IE degree as well as vocational certification, there is an occupational experience and an occupational competency testing requirement which must be met. The student must pass an occupational competency assessment (or the equivalent) and have completed or complete two years of occupational wage-earning experience (or 4,000 hours) beyond the time needed to learn the occupation.

The B.S.ED in IE program consists of a total of 126-127 credits, of which seventy-eight of those credits may be used to secure a Vocational Instructional I and Vocational Instructional II certification. In addition, the student can also be awarded 24 credits for passing an Occupational Competency Assessment.

1. The total number of credit hours at graduation may be greater for some students based on initial placement exams, transfer evaluations, individual curricular choices, and academic progress.
2. Certain courses fulfill multiple requirements. In consultation with the advisor, students will be able to plan their curriculum more effectively.
3. Students must fulfill the necessary prerequisites for any given course or course sequence. See the Prerequisite and Co-requisite Policy (p. 99) in the university-wide Academic Policies section in this Bulletin.

Summary of Requirements

University Curriculum
1. All students are required to complete the university’s General Education (GenEd (p. 143)) curriculum.
2. All students must take 6 s.h. of college level math and 6 s.h. of English composition and literature and pass the required state tests to be certified.
3. All students must take a minimum of two writing-intensive courses at Temple. The specific writing-intensive courses required for this major are EDUC 2296 and SECE 3796.

### Minimum Hours Required for Graduation

126

1. With the permission of the advisor, students may take CTE 3389 for 3 credits instead of CTE 4285. With permission of the advisor, students may also take CTE 3389 for 3 credits instead of CTE 4331.

Note: Matriculated students with work experience who have completed 90 s.h. of acceptable coursework may arrange through a credit by exam process for up to 24 s.h. to be recorded toward their degree. Candidates needing work experience may apply CTE 3389 Supervised Work Experience toward meeting this requirement with an advisor's permission.

**Total Credit Hours:**  126

1  Students may take CTE 3389 for up to 3 credits, with permission of the advisor.
2  Requirement for pre-service candidates only.

**Marketing Education**

Shimada Resource Center ([http://education.temple.edu/services](http://education.temple.edu/services))  
College of Education  
150 Ritter Annex  
1301 Cecil B. Moore Ave.  
Philadelphia, PA 19122  
215-204-8011 (phone)  
215-204-4383 (fax)

The Marketing Education curriculum is designed to prepare students who expect to teach marketing subjects in K-12 and at the 2-year college level in public and private schools. Subject area content (academic specialization) and professional education content are combined with general education content (university curriculum) in order to provide the student with a general education, a field of specialization, and professional training. Moreover, the curriculum aims to combine these elements in such proportions as to give students the balanced perspective of the relation that marketing education bears to education as a whole.

**Summary of Requirements**

**University Curriculum**

1. All students are required to complete the university’s General Education (GenEd (p. 143)) curriculum.

2. All students must take 6 credits of college level math and 6 credits of English (3 in composition and 3 in literature) and pass the required state tests to be certified.

3. All students must take a minimum of two writing-intensive courses at Temple. The specific courses that may satisfy the writing-intensive requirement for this major are EDUC 2296, SECE 3796 and MKTG 3596.

**Professional Education**

---

1. Course that must be successfully completed to be eligible for Candidacy approval.
2. Marketing Education majors are also eligible for the Cooperative Education Certificate provided they can document wage earning experience.

**Certification Programs**

**Cooperative Education**

Dr. Chester Wichowski, Certification Program Advisor  
Ritter Hall 340  
215-204-6249  
chet.w@temple.edu

School personnel interested in teaching and supervising students in work-based settings in Pennsylvania must be certified in Cooperative Education. This certification covers a variety of work-based settings for secondary students, including capstone programs, diversified occupations programs, shadowing experiences, work experience programs, internships, and job shadowing. The skill and knowledge included in this certification program also has application to post-secondary and adult settings.

Persons wishing to become teachers of cooperative education must apply to the program and provide information about their education and experiential backgrounds. Based on the information provided, a program of studies, which includes an internship, is prepared. Persons who enter this program
holding a valid teaching certificate will work toward earning an "add-on" certificate in Cooperative Education, while others will work toward a "stand-alone" certificate. Persons wishing to enroll in this program should contact an advisor.

**Career & Technical Certification Program**

Ms. Nancy Johnston, Certification Program Advisor  
Ritter Hall 346  
215-204-8376  
nancy.johnston@temple.edu

This curriculum, which is offered in cooperation with the Pennsylvania Department of Education, is designed to prepare in-service teachers of career and technical education (industrial) subjects at the secondary, post-secondary, and 2-year college levels in public and private schools. Career and Technical Teacher Education courses may be taken on three levels: certification, undergraduate, and graduate \(^1\). Persons who meet Pennsylvania Statutory requirements and who have at least two years of work experience beyond the learning period in a trade, technical, or other selected occupation may prepare for certification to teach occupational subjects or related classes in secondary level schools in Pennsylvania.

Certification students must apply and be admitted to the Industrial (Career and Technical) Education Certification Program. All certification students must meet the requirements for admission to the university. In addition, candidates must satisfy the departmental requirements for work experience and must have passed the required Occupational Competency Assessment, OCA. Upon passing the OCA, students are eligible to apply for Intern Level Certification. This program prepares students for Vocational Level I certification in Pennsylvania and, in general, is acceptable in other states. Work taken toward the certification objective may be applied to the undergraduate degree program. The courses are offered on a part-time basis for those who are employed as secondary level teachers in Pennsylvania. Completing 18 semester hours of approved coursework and passing the PRAXIS Core Academic Skills for Reading and Writing Test will permit the issuance of a Vocational Instructional I Certificate, which is valid for six years.

Upon receipt of the Vocational Instructional I Certificate, the student must complete an additional 60 s.h. of college work, earning a minimum of 6 semester hours of credit per year until the requirements for the permanent Vocational Instructional II Certificate (78 s.h. and three years successful teaching) and passing the PRAXIS Core Academic Skills for Mathematics Test are satisfied.

Persons wishing to enroll in this program should contact an advisor.

\(^1\) Persons seeking graduate level certification should refer to the Temple University Graduate Bulletin for further information.

**Early Childhood-Elementary Education (PreK-4)**

Shimada Resource Center (http://education.temple.edu/services)  
College of Education  
150 Ritter Annex  
1301 Cecil B. Moore Ave.  
Philadelphia, PA 19122  
215-204-8011 (phone)  
215-204-4383 (fax)

**Early Childhood-Elementary Education (PreK-4)*

The Early Childhood-Elementary Education (PreK-4) program is designed to prepare teachers to work in programs serving children in pre-kindergarten, kindergarten, primary, and early intermediate grades. The program aims to help students gain an appreciation and understanding of child development and learning, build conceptual and practical expertise about effective instruction, acquire a sound philosophy of education, and develop personally and professionally.

One hallmark of the program is the variety of exciting and diverse field experiences. By working directly with children several times prior to student teaching, students in the program gain hands-on experience with children of various ages and backgrounds, gaining insight into the creation of effective learning situations which meet the needs of all learners.

**Early Childhood-Elementary Education (PreK-4) with Special Education Concentration (Dual Certification)*

The Early Childhood-Elementary Education (PreK-4) with Concentration in Special Education (K-8) program is designed to prepare teachers to work in programs serving diverse learners in a variety of settings in grades pre-kindergarten through four. In addition to certification in early childhood-educational education, students in this concentration will learn to implement evidence-based instructional practices in classrooms with students of diverse abilities. Furthermore, students will apply their skills in a variety of field experiences including a practicum for diverse learners focused on addressing the needs of special education students and English language learners. (Students earn a B.S.Ed. in Early Childhood Education; the transcript reflects the Early Childhood Education major and the Special Education concentration.)
Early Childhood Education students interested in a Master's degree in Special Education should consider the Accelerated 4+1 Program:
Bachelor of Science in Education in Early Childhood Education (B.S.Ed.) and Master of Education in Special Education (PreK-8) (Ed.M.) (http://education.temple.edu/undergradteach/accelerated-earlychildhood-special-education)

Programs
- Bachelor of Science in Education in Early Childhood-Elementary Education (PreK-4) (p. 420)
- Bachelor of Science in Education in Early Childhood-Elementary Education (PreK-4): Special Education (p. 422)

Bachelor of Science in Education in Early Childhood-Elementary Education (PreK-4)

The Early Childhood-Elementary Education (PreK-4) program is designed to prepare teachers to work in programs serving children in pre-kindergarten, kindergarten, primary, and early intermediate grades. The program aims to help students gain an appreciation and understanding of child development and learning, build conceptual and practical expertise about effective instruction, acquire a sound philosophy of education, and develop personally and professionally.

One hallmark of the program is the variety of exciting and diverse field experiences. By working directly with children several times prior to student teaching, students in the program gain hands-on experience with children of various ages and backgrounds, gaining insight into the creation of effective learning situations which meet the needs of all learners.

Summary of Requirements

University Requirements
- All new students are required to complete the university's General Education (GenEd (p. 143)) curriculum (except where a waiver is noted)
- All students must take a minimum of two writing-intensive (WI) courses at Temple University.

College Requirements
- Students must be accepted into the certification program prior to taking methods courses; for further details, see "Candidacy" under College Requirements (p. 399).
- Additional University and College requirements are located on the College of Education's Academic Policies and Regulations (p. 396) page in this Bulletin.

Suggested Academic Plan

B.S.ED. in Early Childhood-Elementary Education (PreK-4)

Requirements for New Students starting in the 2015-2016 Academic Year
(Certain courses require that a student secure clearances as per the College of Education policy; students should check the current list of courses that require clearances found on the College of Education Blackboard Undergraduate Community.)

Total Credit Hours: 120

1. Course must be successfully completed to be eligible for Candidacy approval.
2. These three courses constitute the waiver for the GenEd Quantitative Literacy category when the GPA requirement is met.
3. These three courses constitute the waiver for the GenEd Human Behavior category when the GPA requirement is met.
Bachelor of Science in Education in Early Childhood-Elementary Education (PreK-4): Special Education

The Early Childhood-Elementary Education (PreK-4) with Concentration in Special Education (K-8) program is designed to prepare teachers to work in programs serving diverse learners in a variety of settings in grades pre-kindergarten through four. In addition to certification in early childhood-elementary education, students in this concentration will learn to implement evidence-based instructional practices in classrooms with students of diverse abilities. Furthermore, students will apply their skills in a variety of field experiences including a practicum for diverse learners focused on addressing the needs of special education students and English language learners.

Summary of Requirements

University Requirements

• All new students are required to complete the university's General Education (GenEd) curriculum (except where a waiver is noted).
• All students must take a minimum of two writing-intensive (WI) courses at Temple University.

College Requirements

• Students must be accepted into the certification program prior to taking methods courses; for further details, see "Candidacy" under College Requirements (p. 399).
• Additional University and College requirements are located on the College of Education's Academic Policies and Regulations page in this Bulletin.

Suggested Academic Plan

B.S.ED. in Early Childhood-Elementary Education (PreK-4): Optional Concentration in Special Education

Requirements for New Students starting in the 2015-2016 Academic Year

---

1. Course must be successfully completed to be eligible for Candidacy approval.
2. These three courses constitute the waiver for the GenEd Quantitative Literacy category when the GPA requirement is met.
3. These three courses constitute the waiver for the GenEd Human Behavior category when the GPA requirement is met.

### Human Development and Community Engagement

**Dr. Shanta Hattikudur**  
215-204-6101  
shanta@temple.edu

This degree prepares students for applied careers in the fields of Human Development and Community Engagement. Coursework in the academic major provides students with a solid foundation in child development, intercultural communication, research methods, urban education, and organization/leadership. The program culminates with a two semester practicum/internship, which will give students hands-on experience in their field of choice. Many students want to make a difference in children’s lives in other ways besides being a teacher; this program provides the training needed to understand the factors that impede or facilitate the cognitive, social, and physical development of children, particularly in urban communities. This knowledge prepares students to influence the programs, policies, and practices of agencies and governmental bodies with child-focused initiatives. Graduates with this major will also be well equipped to land jobs as workers in non-profit advocacy organizations, childcare directors, personal care aides, museum education coordinators, and the like, or to work in other fields that require application of developmental knowledge.
Programs

- Bachelor of Science in Human Development and Community Engagement (p. 424)

There are three optional concentrations within this program that students can choose:

- Childhood Mental Health
- Community-Based Education
- Non-Profit Organization and Advocacy

See the requirements for each concentration on the Academic Plan (p. 424).

Graduates with this major will also be well equipped to land jobs as workers in non-profit advocacy organizations, childcare directors, personal care aides, museum education coordinators, and the like, or to work in other fields that require application of developmental knowledge.

Summary Of Requirements

University Requirements

- All students must complete Temple University's General Education (GenEd (p. 143)) curriculum.
- All students must take a minimum of two writing-intensive courses at Temple University (including transfer students). Writing intensive courses are numbered xx96, xx97 or xx98.

College Requirements

- College requirements are located under Academic Policies and Regulations (p. 396) in the Bulletin.

Program Requirements

- Students must complete 32 credit hours in the major, plus a community internship of 3-12 credits.
- All courses in the major must be passed with a grade of "C-" or better and students must maintain a 2.0 cumulative GPA.

### Total Credit Hours: 120

---

1. Students planning to take a concentration should consult with a College of Education Advisor before registering for an elective in this semester as waiting to take this elective until first semester, Junior year when a student can opt for a concentration course, is the preferred path for such students.

2. A content course is a course that is part of any program/major offered in the University. All four content courses must come from the same program/major.

3. At least one semester of Professional Seminar (EDUC 3332 or EDUC 3333) must be completed before taking the Practicum in Applied Development (EDUC 4187).

4. Students are able to elect to take an Internship for 3/6/9/12 credits and Elective(s) for 11/8/5/2 credits, respectively. Total credits to earn the degree must equal the required minimum of 120.

### Optional Concentrations:

Middle Grades Education

Shimada Resource Center (http://education.temple.edu/services)
College of Education
150 Ritter Annex
1301 Cecil B. Moore Ave.
Philadelphia, PA 19122
215-204-8011 (phone)
215-204-4383 (fax)

The Bachelor of Science in Education in Middle Grades Education prepares undergraduate students for middle level teaching (fourth to eighth grades). Middle grades teachers, particularly in math and science education, are increasingly sought out and in high-demand in Pennsylvania as well as across the country.

The College of Education program in Middle Grades Education is designed to ensure not only that there are certified teachers to fill the growing vacancies, but that our students graduate highly knowledgeable about learning and teaching as well as committed to pre/adolescent learners from diverse ethnic, economic and geographic backgrounds. To that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of academic standards and the wide-ranging developmental needs of middle grades students. To develop a strong link between learning theories and actual pedagogical practice, we also require that our students engage in early, often and strategic field/clinical education experiences in middle grades settings.

Our program stands out as cutting-edge because we prepare undergraduate students to teach in both the upper elementary and middle grades classrooms.

In addition to becoming certified to teach all elementary subjects in 4-6th grades, all Middle Grades Education students will pursue either single or dual certification for 7-8th grades in one of the following concentrations:

1. Mathematics and Science
2. Mathematics and Language Arts
3. Science and Language Arts
4. Mathematics
5. Science
6. Language Arts
7. Social Studies

GPA Requirements:

- In order to maintain good standing in Middle Grades Education, students must maintain a 3.0 cumulative grade point average and a 2.0 grade point average in the course work in their concentration areas.

Programs

- Language Arts Concentration (p. 427)
- Mathematics Concentration (p. 430)
- Mathematics and Language Arts Concentration (p. 432)
- Mathematics and Science Concentration (p. 435)
- Science Concentration (p. 437)
- Science and Language Arts Concentration (p. 440)
- Social Studies Concentration (p. 442)

Language Arts Concentration

The Bachelor of Science in Education in Middle Grades Education prepares undergraduate students for middle level teaching (fourth to eighth grades). Middle grades teachers are increasingly sought out and in high-demand in Pennsylvania as well as across the country.

The College of Education program in Middle Grades Education is designed to ensure not only that there are certified teachers to fill the growing vacancies, but that our students graduate highly knowledgeable about learning and teaching as well as committed to pre/adolescent learners from diverse ethnic, economic and geographic backgrounds. To that end, our program focuses on building deep content-specific pedagogical knowledge...
aligned to the breadth of academic standards and the wide-ranging developmental needs of middle grades students. To develop a strong link between learning theories and actual pedagogical practice, we also require that our students engage in early, often and strategic field/clinical education experiences in middle grades settings.

Our program stands out as cutting-edge because we prepare undergraduate students to teach in both the upper elementary and middle grades classrooms.

In addition to becoming certified to teach all elementary subjects in 4-6th, all Middle Grades Education: Language Arts Concentration students will pursue certification for 7-8th grades in the area of Language Arts.

GPA Requirements:

- In order to maintain good standing in Middle Grades Education, students must maintain a 3.0 cumulative grade point average and a 2.0 grade point average in the course work in their concentration area.

**Summary of Requirements**

**University Requirements**

All students are required to complete the university's General Education (GenEd (p. 143)) curriculum.

All students must take a minimum of two writing-intensive (WI) courses at Temple University. Writing intensive course numbers end in 96, 97 and 98.

**College Requirements**

Students receive a Bachelor of Science in Education degree with a recommendation for Pennsylvania teacher certification upon the successful completion of their program requirements with a minimum cumulative GPA of 3.0 or must meet the Pennsylvania Department of Education's Bureau of School Leadership and Teacher Quality GPA Qualifying Praxis Score. All students seeking to graduate with the recommendation for certification must also meet the requirements for Candidacy.

The required total minimum credit hours for the Middle Grades Education concentration in Language Arts is 124. These credit hours are satisfied by taking courses in four categories:

1. University General Education requirements (General Education)
2. Education courses
3. Teacher Education Certification Courses (i.e. methods and student teaching)
4. Concentration courses

**Suggested Academic Plan**

**B.S.ED. in Middle Grades Education: Language Arts Concentration**

**Requirements for New Students starting in the 2015-2016 Academic Year**

To best prepare students in this major for the Praxis II exams, we strongly encourage taking the suggested GenEds listed.

(Certain courses require that a student secure clearances as per the College of Education policy; students should check the current list of courses that require clearances found on the College of Education Blackboard Undergraduate Community.)

MGRE 4801 Senior Seminar and Performance Assessment in Middle Grades Education 3
EDUC 4111 Classroom and Conflict Management in Grades 4 through 12 3

Term Credit Hours 15

Total Credit Hours: 124

1 These two courses constitute the waiver for the GenEd Science category when the GPA requirement is met.
2 These four courses constitute the waiver for the GenEd Quantitative Literacy category when the GPA requirement is met.
3 Course must be successfully completed to be eligible for Candidacy approval.
4 Suggested GenEd Global/World Society courses: ANTH 0867, GUS 0867 or SOC 0867.
5 Suggested GenEd Race & Diversity courses: AAS 0829, ANTH 0829, GUS 0829, HIST 0829, POLS 0829, SOC 0829 or SOC 0929.
6 Suggested GenEd U.S. Society courses: AMST 0848, ANTH 0848, GUS 0848, HIST 0848 or SOC 0848.
7 These three courses constitute the waiver for the GenEd Human Behavior category when the GPA requirement is met.

Mathematics Concentration

The Bachelor of Science in Education in Middle Grades Education prepares undergraduate students for middle level teaching (fourth to eighth grades). Middle grades teachers are increasingly sought out and in high-demand in Pennsylvania as well as across the country.

The College of Education program in Middle Grades Education is designed to ensure not only that there are certified teachers to fill the growing vacancies, but that our students graduate highly knowledgeable about learning and teaching as well as committed to pre/adolescent learners from diverse ethnic, economic and geographic backgrounds. To that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of academic standards and the wide-ranging developmental needs of middle grades students. To develop a strong link between learning theories and actual pedagogical practice, we also require that our students engage in early, often and strategic field/clinical education experiences in middle grades settings.

Our program stands out as cutting-edge because we prepare undergraduate students to teach in both the upper elementary and middle grades classrooms.

In addition to becoming certified to teach all elementary subjects in 4-6th, all Middle Grades Education: Mathematics Concentration students will pursue certification for 7-8th grades in the area of Mathematics.

GPA Requirements:

• In order to maintain good standing in Middle Grades Education, students must maintain a 3.0 cumulative grade point average and a 2.0 grade point average in the course work in their concentration area.

Summary of Requirements

University Requirements

All students are required to complete the university’s General Education (GenEd (p. 143)) curriculum.

All students must take a minimum of two writing-intensive (WI) courses at Temple University. Writing intensive course numbers end in 96, 97 and 98.

College Requirements

Students receive a Bachelor of Science in Education degree with a recommendation for Pennsylvania teacher certification upon the successful completion of their program requirements with a minimum cumulative GPA of 3.0 or must meet the Pennsylvania Department of Education’s Bureau of School Leadership and Teacher Quality GPA Qualifying Praxis Score. All students seeking to graduate with the recommendation for certification must also meet the requirements for Candidacy.

The required total minimum credit hours for the Middle Grades Education concentration in Mathematics is 125. These credit hours are satisfied by taking courses in four categories:

1. University General Education requirements (General Education)
2. Education courses
3. Teacher Education Certification Courses (i.e. methods and student teaching)
4. Concentration courses
# Suggested Academic Plan

## B.S.ED. in Middle Grades Education: Mathematics Concentration

### Requirements for New Students starting in the 2015-2016 Academic Year

To best prepare students in this major for the Praxis II exams, we strongly encourage taking the suggested GenEds listed.

(Certain courses require that a student secure clearances as per the College of Education policy; students should check the current list of courses that require clearances found on the College of Education Blackboard Undergraduate Community.)

7. These three courses constitute the waiver for the GenEd Human Behavior category when the GPA requirement is met.
8. Suggested GenEd Arts courses: ENG 0826 or ENG 0926.

**Mathematics and Science Concentration**

The Bachelor of Science in Education in Middle Grades Education prepares undergraduate students for middle level teaching (fourth to eighth grades). Middle grades teachers, particularly in math and science education, are increasingly sought out and in high-demand in Pennsylvania as well as across the country.

The College of Education program in Middle Grades Education is designed to ensure not only that there are certified teachers to fill the growing vacancies, but that our students graduate highly knowledgeable about learning and teaching as well as committed to pre/adolescent learners from diverse ethnic, economic and geographic backgrounds. To that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of academic standards and the wide-ranging developmental needs of middle grades students. To develop a strong link between learning theories and actual pedagogical practice, we also require that our students engage in early, often and strategic field/clinical education experiences in middle grades settings.

Our program stands out as cutting-edge because we prepare undergraduate students to teach in both the upper elementary and middle grades classrooms.

In addition to becoming certified to teach all elementary subjects in 4-6th, all Middle Grades Education: Mathematics and Science Concentration students will pursue dual certification for 7-8th grades in the areas of math and science; required number of credit hours is 127 credits for this concentration.

**GPA Requirements:**

- In order to maintain good standing in Middle Grades Education, students must maintain a 3.0 cumulative grade point average and a 2.0 grade point average in the course work in their concentration areas.

**Summary of Requirements**

**University Requirements**

All students are required to complete the university’s General Education (GenEd (p. 143)) curriculum.

All students must take a minimum of two writing-intensive (WI) courses at Temple University. Writing intensive course numbers end in 96, 97 and 98.

**College Requirements**

Students receive a Bachelor of Science in Education degree with a recommendation for Pennsylvania teacher certification upon the successful completion of their program requirements with a **minimum cumulative GPA of 3.0 or must meet the Pennsylvania Department of Education’s Bureau of School Leadership and Teacher Quality GPA Qualifying Praxis Score**.

The required total minimum credit hours for the Middle Grades Education concentration in Mathematics and Science is 127. These credit hours are satisfied by taking courses in four categories:

1. University General Education requirements (General Education)
2. Education courses
3. Teacher Education Certification Courses (i.e. methods and student teaching)
4. Concentration courses

All students seeking to graduate with the recommendation for Instructional I Certification from Pennsylvania (http://www.portal.state.pa.us/portal/server.pt/community/pa_certification/8635/level_i_to_level_ii/608790) must also meet the requirements for Candidacy.
## Suggested Academic Plan

Science Concentration

The Bachelor of Science in Education in Middle Grades Education prepares undergraduate students for middle level teaching (fourth to eighth grades). Middle grades teachers are increasingly sought out and in high-demand in Pennsylvania as well as across the country.

The College of Education program in Middle Grades Education is designed to ensure not only that there are certified teachers to fill the growing vacancies, but that our students graduate highly knowledgeable about learning and teaching as well as committed to pre/adolescent learners from diverse ethnic, economic and geographic backgrounds. To that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of academic standards and the wide-ranging developmental needs of middle grades students. To develop a strong link between learning theories and actual pedagogical practice, we also require that our students engage in early, often and strategic field/clinical education experiences in middle grades settings.

Our program stands out as cutting-edge because we prepare undergraduate students to teach in both the upper elementary and middle grades classrooms.

In addition to becoming certified to teach all elementary subjects in 4-6th, all Middle Grades Education: Science Concentration students will pursue certification for 7-8th grades in the area of Science.

GPA Requirements:

- In order to maintain good standing in Middle Grades Education, students must maintain a 3.0 cumulative grade point average and a 2.0 grade point average in the course work in their concentration area.
### Summary of Requirements

#### University Requirements

All students are required to complete the university’s General Education (GenEd (p. 143)) curriculum.

All students must take a minimum of two writing-intensive (WI) courses at Temple University. Writing intensive course numbers end in 96, 97 and 98.

#### College Requirements

Students receive a Bachelor of Science in Education degree with a recommendation for Pennsylvania teacher certification upon the successful completion of their program requirements with a minimum cumulative GPA of 3.0 or must meet the Pennsylvania Department of Education’s Bureau of School Leadership and Teacher Quality GPA Qualifying Praxis Score. All students seeking to graduate with the recommendation for certification must also meet the requirements for Candidacy.

The required total minimum credit hours for the Middle Grades Education concentration in Science is 125. These credit hours are satisfied by taking courses in four categories:

1. University General Education requirements (General Education)
2. Education courses
3. Teacher Education Certification Courses (i.e. methods and student teaching)
4. Concentration courses

### Suggested Academic Plan

#### B.S.ED. in Middle Grades Education: Science Concentration

##### Requirements for New Students starting in the 2015-2016 Academic Year

To best prepare students in this major for the Praxis II exams, we strongly encourage taking the suggested GenEds listed.

(Certain courses require that a student secure clearances as per the College of Education policy; students should check the current list of courses that require clearances found on the College of Education Blackboard Undergraduate Community.)

---

1. Course must be successfully completed to be eligible for Candidacy approval.
2. Suggested GenEd Global/World Society courses: ANTH 0867, GUS 0867 or SOC 0867.
3. These four courses constitute the waiver for the GenEd Quantitative Literacy category when the GPA requirement is met.
These two courses constitute the waiver for the GenEd Science category when the GPA requirement is met.

Suggested GenEd Race & Diversity courses: AAS 0829, ANTH 0829, GUS 0829, HIST 0829, POLS 0829, SOC 0829 or SOC 0929.

Suggested GenEd U.S. Society courses: AMST 0848, ANTH 0848, GUS 0848, HIST 0848 or SOC 0848.

These three courses constitute the waiver for the GenEd Human Behavior category when the GPA requirement is met.

Science and Language Arts Concentration

The Bachelor of Science in Education in Middle Grades Education prepares undergraduate students for middle level teaching (fourth to eighth grades).

The College of Education program in Middle Grades Education is designed to ensure not only that there are certified teachers to fill the growing vacancies, but that our students graduate highly knowledgeable about learning and teaching as well as committed to pre/adolescent learners from diverse ethnic, economic and geographic backgrounds. To that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of academic standards and the wide-ranging developmental needs of middle grades students. To develop a strong link between learning theories and actual pedagogical practice, we also require that our students engage in early, often and strategic field/clinical education experiences in middle grades settings.

Our program stands out as cutting-edge because we prepare undergraduate students to teach in both the upper elementary and middle grades classrooms.

In addition to becoming certified to teach all elementary subjects in 4-6th, all Middle Grades Education: Science and Language Arts Concentration students will pursue dual certification for 7-8th grades in the areas of Science and Language Arts; required number of credit hours is 126 credits for this concentration.

GPA Requirements:

- In order to maintain good standing in Middle Grades Education, students must maintain a 3.0 cumulative grade point average and a 2.0 grade point average in the course work in their concentration areas.

Summary of Requirements

University Requirements

All students are required to complete the university's General Education (GenEd (p. 143)) curriculum.

All students must take a minimum of two writing-intensive (WI) courses at Temple University. Writing intensive course numbers end in 96, 97 and 98.

College Requirements

Students receive a Bachelor of Science in Education degree with a recommendation for Pennsylvania teacher certification upon the successful completion of their program requirements with a minimum cumulative GPA of 3.0 or must meet the Pennsylvania Department of Education’s Bureau of School Leadership and Teacher Quality GPA Qualifying Praxis Score.

The required total minimum credit hours for Middle Grades Education concentration in Science and Language Arts is 126. These credit hours are satisfied by taking courses in four categories:

1. University General Education requirements (General Education)
2. Education courses
3. Teacher Education Certification Courses (i.e. methods and student teaching)
4. Concentration courses

All students seeking to graduate with the recommendation for Instructional I Certification from Pennsylvania (http://www.portal.state.pa.us/portal/server.pt/community/pa_certification/8635/level_i_to_level_ii/608790) must also meet the requirements for Candidacy.

Suggested Academic Plan

B.S.ED. in Middle Grades Education: Science and Language Arts Concentration

---

1. These two courses constitute the waiver for the GenEd Science category when the GPA requirement is met.
2. Suggested GenEd Global/World Society courses: ANTH 0867, GUS 0867 or SOC 0867.
Course must be successfully completed to be eligible for Candidacy approval.

These four courses constitute the waiver for the GenEd Quantitative Literacy category when the GPA requirement is met.

Suggested GenEd Race & Diversity courses: AAS 0829, ANTH 0829, GUS 0829, HIST 0829, POLS 0829, SOC 0829 or SOC 0929.

Suggested GenEd U.S. Society courses: AMST 0848, ANTH 0848, GUS 0848, HIST 0848 or SOC 0848.

These three courses constitute the waiver for the GenEd Human Behavior category when the GPA requirement is met.

**Minor in Education**

The 18-credit Minor in Education is designed for Temple University undergraduate students who have either a professional or personal interest in education, urban schools, or children but are majoring in another discipline. The minor in Education provides undergraduate students with broad, foundational knowledge about the state of education, adolescent development, and community and school relationships. Students whose research interests are content-based, such as political science, history, and geography and urban studies, but have connections to education will benefit from exposure to schools through field placements and education theory. This minor is also ideal for students who plan to enter occupations in fields such as policy, counseling, child psychology, which have connections to education. Finally, this minor is an opportunity for students to investigate careers in education. Through coursework and field experience students will be interacting with education majors and working in schools, thus providing them with a sample of some of the work that pre-service teachers do. This carefully designed sequence of courses includes field experiences such as tutoring, observations in after school programs, and work in community centers to support in-class learning.

**Requirements**

This minor consists of 18 credits. Students must take the following six courses:

<table>

**Secondary Education**

Shimada Resource Center (http://education.temple.edu/services)
College of Education
150 Ritter Annex
1301 Cecil B. Moore Ave.
Philadelphia, PA 19122
215-204-8011 (phone)
215-204-4383 (fax)

The Secondary Education program offers specializations that prepare students to earn an Instructional I Certificate that will authorize them to teach in one of the following content areas:

**Specializations offering grades 7-12 certification**

- English
- Mathematics
- Sciences
- Social Studies

**Specialization offering K-12 certification**

- World Languages
  - French
  - German
  - Italian
  - Latin
  - Spanish

Students in Secondary Education must complete course work in both education and in their content areas.
(Science and mathematics certifications are also available in the TUteach (p. 1162) program, a joint program offered through the College of Science and Technology and the College of Education.)

For specific details on each specialization, including suggested four-year academic plans, click on one the following links: English (p. 446), Mathematics (p. 448), Social Studies (p. 457), World Languages (p. 459), Science (p. 451)

GPA requirements:

- In order to maintain good standing in Secondary Education, students must maintain a 3.0 cumulative grade point average and a 2.0 grade point average in the course work in their content areas.

Programs

- Secondary Education/English Education (p. 446)
- Secondary Education/Mathematics Education (p. 448)
- Secondary Education/Science Education (p. 451)
- Secondary Education/Social Studies Education (p. 457)
- Secondary Education/World Languages Education (p. 459)

Secondary Education/English Education

Academic Content Area - English

Students seeking certification in Secondary Education: English must complete the requirements for both the major in Secondary Education: English AND for the English major as specified by the English Department. (For more information on the English department's major requirements, refer to the College of Liberal Art's English major (p. 822).)

In order to assure that students gain the content knowledge specified by the Pennsylvania Department of Education, we strongly recommend students to choose English electives that include the following areas: Linguistics, Shakespeare, and African American literature. Coursework in these areas prepare students for the state-mandated Praxis II examination (http://www.ets.org/praxis).

Summary of Requirements

University Requirements

All students are required to complete the university's General Education (GenEd (p. 143)) curriculum.

All students (including transfer students) must take a minimum of two writing-intensive (WI) courses at Temple University. Writing intensive course numbers end in 96, 97 and 98.

College Requirements

Students receive a Bachelor of Science in Education degree by meeting the following minimum College requirements:

- Completion of program requirements as detailed on the academic plan.
- Earn a "C-" or above in all required Education Courses.
- Earn a "C-" or above in all required University General Education Courses.
- Students in Secondary Education must maintain a 3.0 cumulative GPA and a 2.0 GPA in their content area courses.

For additional college and certification requirements, refer to the College Requirements page (p. 399).

1 Indicates courses and experiences enhanced with special education competencies.
2 These 3 courses constitute the waiver for the GenEd Human Behavior category when the GPA requirement is met.
3 In order to assure that students gain the content knowledge specified by the Pennsylvania Department of Education, we strongly urge students to choose English electives that include the following areas: Linguistics, Shakespeare, and African American literature. Without coursework in these areas, students risk failing the state-mandated Praxis II examination.

### Secondary Education/Mathematics Education

Students seeking certification in Secondary Education: Mathematics must complete the requirements for both the major in Secondary Education: Mathematics AND for the Mathematics (B.A.) major as specified by the College of Science and Technology. The eight semester plan that appears in the Academic Plan tab is inclusive of all requirements for both the Secondary Education: Mathematics major housed in the College of Education AND for the Mathematics B.A. housed in the College of Science and Technology (CST). Students entering this major must declare the second major of Mathematics through CST.

### Summary of Requirements

#### University Requirements

All students are required to complete the university’s General Education (GenEd (p. 143)) curriculum.
All students (including transfer students) must take a minimum of two writing-intensive (WI) courses at Temple University. Writing intensive course numbers end in 96, 97 and 98.

**College Requirements**

Students receive a Bachelor of Science in Education degree by meeting the following minimum College requirements:

- Completion of program requirements as detailed on the academic plan.
- Earn a "C-" or above in all required Education Courses.
- Earn a "C-" or above in all required University General Education Courses.
- Earn minimum grades required by CST in all Mathematics courses.
- Students in Secondary Education must maintain a 3.0 cumulative GPA and a 2.0 GPA in their content area courses.

For additional college and certification requirements, refer to the College Requirements page (p. 399).

---

1. Course must be successfully completed to be eligible for Candidacy approval.
2. These 3 courses constitute the waiver for the GenEd Human Behavior category when the GPA requirement is met.

### Secondary Education/Science Education

**Students seeking certification in Secondary Education Science: Biology** do not complete the requirements for both the major in Secondary Education: Science and for the content major as specified by the College of Science and Technology. The Secondary Education Science: Biology program requirements as delineated by the College of Education’s program meets Pennsylvania Department of Education criteria for competencies within the major; all students who successfully complete this program are eligible for certification. **Students wishing to complete the Biology major in addition to the Secondary Education Science: Biology major** must take additional course work to do so and must meet with College of Science and Technology (CST) advising office in their first semester at Temple to declare the second major.

**Students seeking certification in Secondary Education Science: Chemistry** complete the requirements for both the major in Secondary Education: Science and for the content major as specified by the College of Science and Technology. All students in this program must meet with College of Science and Technology (CST) advising office in their first semester at Temple to declare the second major.

**Students seeking certification in Secondary Education Science: Physics** complete the requirements for both the major in Secondary Education: Science and for the content major as specified by the College of Science and Technology. All students in this program must meet with College of Science and Technology (CST) advising office in their first semester at Temple to declare the second major.
## Summary of Requirements

### University Requirements
All students are required to complete the university's General Education (GenEd p. 143) curriculum.

All students (including transfer students) must take a minimum of two writing-intensive (WI) courses at Temple University. Writing intensive course numbers end in 96, 97 and 98.

### College Requirements
Students receive a Bachelor of Science in Education degree by meeting the following minimum College requirements:

- Completion of program requirements as detailed on the academic plan.
- Earn a "C-" or above in all required Education Courses.
- Earn a "C-" or above in all required University General Education Courses.
- Earn minimum grades required by CST in all science courses.
- Students in Secondary Education must maintain a 3.0 cumulative GPA and a 2.0 GPA in their content area courses.

For additional college and certification requirements, refer to the College Requirements page (p. 399).

### Major Requirements

#### EDUC 1255

Students seeking certification in Secondary Education: Social Studies must complete the requirements for both the major in Secondary Education: Social Studies AND for the content major1 as specified by the College of Liberal Arts.

1 Students may choose any of the following second majors (content areas): History, Political Science, Economics, Sociology or Geography and Urban Studies.

Summary of Requirements

University Requirements

All students are required to complete the university’s General Education (GenEd (p. 143)) curriculum.

All students (including transfer students) must take a minimum of two writing-intensive (WI) courses at Temple University. Writing intensive course numbers end in 96, 97 and 98.

College Requirements

Students receive a Bachelor of Science in Education degree by meeting the following minimum College requirements:

• Completion of program requirements as detailed on the academic plan.
• Earn a "C-" or above in all required Education Courses.
• Earn a "C-" or above in all required University General Education Courses.
• Students in Secondary Education must maintain a 3.0 cumulative GPA and a 2.0 GPA in their content area courses.

For additional college and certification requirements, refer to the College Requirements page (p. 399).

Major Requirements

EDUC 1255 Inclusive Education for a Diverse Society 3
EDUC 2103 Socio-cultural Foundations of Education in the United States 1 3
EDUC 2109 Adolescent Development for Educators 1 3
EDUC 2296 Effective Teaching: Theory and Practice 3
SPED 2231 Introduction to Inclusive Education 1 3
EDUC 2255 Effective Use of Instructional Technology in Classrooms 3
EDUC 2306 Assessment and Evaluation 3
ENES 3338 Foundations of Language Teaching: Teaching English Language Learners in Grades 4 to 12 3
SECE 3796 Differentiated Literacy Instruction in the Disciplines, 7-12 3
EDUC 4111 Classroom and Conflict Management in Grades 4 through 12 3
SECE 4801 Senior Seminar and Performance Assessment in Secondary Education 3
SECE 4688 Student Teaching in Secondary Education 9

Total Credit Hours 42

1 Course required for candidacy.

Program Requirements for Secondary Education / Social Studies Education

SSES 3278 Methods and Materials in Secondary Social Studies 3
SSES 4278 Teaching for Understanding in Secondary Social Studies 3
EDUC 4389 Field Experience 1
EDUC 4389  Field Experience  1

Total Credit Hours  8

**Academic Content Areas - History, Political Science, Economics, Geography, Sociology and Urban Studies**

Content (second major) courses should be chosen in accordance with major requirements outlined by the College of Liberal Arts' relevant Department; requirements can be found in this Undergraduate Bulletin.

**Suggested Academic Plan**

**B.S.Ed. in Secondary Education / Social Studies Education**

**Requirements for New Students starting in the 2015-2016 Academic Year**

1. Students opting for any content area (second major) other than History should consult a College of Education Advisor for specific requirements.
2. History (HIST) courses should be chosen in accordance with requirements outlined by the College of Liberal Arts (CLA) History department; students must complete courses at different levels and within geographical areas specified by the History department. Specific requirements can be found in CLA’s section of this Bulletin.
3. These 3 courses constitute the waiver for the GenEd Human Behavior category when the GPA requirement is met.
4. Indicates courses and experiences enhanced with special education competencies.

### Secondary Education/World Languages Education

In the state of Pennsylvania, certification in a world language is a K-12 certificate. World Language certification is offered in French, German, Italian, Latin, and Spanish.

Students seeking certification in Secondary Education, World Languages **must** complete the requirements for **both** the major in Secondary Education, World Languages **AND** for the language major as specified by the College of Liberal Arts (CLA); specific requirements for the language can be found in the CLA programs section of this Bulletin.

### Studying Abroad

Secondary Education World Language majors are encouraged to study overseas, when possible, in relevant foreign language speaking areas through Temple or external study abroad programs. Temple offers semester and year-long programs at Temple campuses in Rome and Oviedo, Spain, as well as exchange options at the University of Puerto Rico and Universities of Hamburg and Tübingen in Germany. Temple offers various summer language programs in Rome, Germany, Spain, and France. The Latin American Studies Semester program is an immersion experience available at Temple’s Main Campus to all Spanish majors during spring semesters. Students interested in study abroad should consult with the office of Education Abroad and Overseas Campuses (http://studyabroad.temple.edu) and College of Education Academic Advising to explore program options and develop a study abroad academic plan in advance.

### Summary of Requirements

#### University Requirements

All students are required to complete the university’s General Education (GenEd (p. 143)) curriculum.

All students (including transfer students) must take a minimum of two writing-intensive (WI) courses at Temple University. Writing intensive course numbers end in 96, 97 and 98.
College Requirements

Students receive a Bachelor of Science in Education degree by meeting the following minimum College requirements:

- Completion of program requirements as detailed on the academic plan.
- Earn a "C-" or above in all required Education Courses.
- Earn a "C-" or above in all required University General Education Courses.
- Students in Secondary Education must maintain a 3.0 cumulative GPA and a 2.0 GPA in their content area courses.

For additional college and certification requirements, refer to the College Requirements page (p. 399).

Total Credit Hours: 8

Academic Content Area - World Languages

Language courses should be chosen in accordance with major requirements outlined by the relevant department in the College of Liberal Arts.

Total Semester Hours for Certification in One Foreign Language: 122-124

Optional Certificate in English as a Second Language (ESL): It is recommended that certification in English as a Second Language (ESL or ESOL) or in an additional foreign language be pursued in order to enhance career opportunities. Courses may be taken during summer sessions to avoid heavy course loads during the academic year. Total Semester Hours for Certification in One Foreign Language and ESL: 131-133

Suggested Academic Plan

B.S.ED. in Secondary Education / World Languages Education

Requirements for New Students starting in the 2015-2016 Academic Year

(Certain courses require that a student secure clearances as per the College of Education policy; students should check the current list of courses that require clearances found on the College of Education Blackboard Undergraduate Community.)

2. These 3 courses constitute the waiver for the GenEd Human Behavior category when the GPA requirement is met.
3. Indicates courses and experiences enhanced with special education competencies.
College of Engineering

Keya Sadeghipour, Ph.D., Dean
Engineering Building, Room 331
1947 N. 12th Street
Philadelphia, PA 19122
215-204-7800
http://engineering.temple.edu/

Accreditation

ABET is a non-profit and non-governmental accrediting agency for academic programs in the disciplines of applied science, computing, engineering, and engineering technology. ABET is a recognized accreditor in the United States by the Council for Higher Education Accreditation.

Introduced in the Fall of 2013, the Bioengineering program will seek accreditation as soon as it is possible. Being introduced in the Fall of 2015, the Environmental Engineering program will seek accreditation as soon as it is possible.

Mission

The mission of the College of Engineering (COE) is to provide students with a high-quality, innovative, and globally-competitive learning experience in engineering, engineering technology, and the applied sciences. Engineering graduates are to be educated professionals with the technical, problem-solving, and communication skills required to succeed in the workplace and society.

The college is mindful of its obligation to be an environment for the creation of knowledge, and it encourages basic and cross-disciplinary applied research by faculty and students. We place great value on scholarship, practice, and service aimed at improving the quality of life and the economic viability of our society. This value system is reflected in how we assess faculty for promotion and tenure and how we grade student work.

We strive to pursue these objectives in a learning environment that celebrates ethnic and gender diversity, respects experience, and encourages problem solving through teamwork.

The college offers undergraduate curricula in engineering and engineering technology. Our engineering programs, leading to the Bachelor of Science in Engineering degree, prepare students for positions in engineering that require a broad preparation in mathematics and the engineering sciences at the entry level. They are recommended for those who expect to become registered professional engineers, pursue an advanced degree, or become involved in conceptual design, planning, research, and development in industry. The programs in engineering technology, which lead to the Bachelor of Science in Engineering Technology degree, educate students for careers as engineering technologists. They participate as members of the engineering team, translating concepts into functioning systems and supervising subsequent implementation by technicians and craftsmen.

Graduates of the COE find employment in manufacturing, construction management, sales engineering, inspection and quality control, production engineering and management, research and development, purchasing, technical field services, application engineering, computer systems and software manufacturing, and research or production involving computers. Following on-the-job experience, they can qualify for positions of a supervisory and managerial nature. Others may qualify as registered professional engineers.

Day and evening courses are offered at the Main Campus (p. 119) and at the Ambler Campus (p. 105). All programs can be completed at the Main Campus.

Admission

Admission to the university does not guarantee admission to particular programs in the College of Engineering. Because programs in the college have varying admissions requirements, students should contact the Office of Undergraduate Studies, Room 349, for further information (215-204-2998).

Honors Program

For current information on the College Honors Program, contact Dr. Vallorie Peridier, Coordinator, by phone (215-204-7143) or e-mail (vallorie.peridier@temple.edu).

Cooperative Education & Internship

Full-time matriculated College of Engineering students who have a GPA of 2.5 or greater and who have completed at least 30 semester hours (at least 12 at Temple) toward the baccalaureate degree may apply for paid cooperative work experience (full-time) during spring or fall semesters. Students work at least 35 hours per week and are considered full-time students at Temple University. It can take additional time to complete the degree when participating in this program, but at least one semester of relevant work experience is gained. College of Engineering students may register and receive
technical elective credits for their work experience with the Co-Op courses (ENGR 2181, ENGR 3181). These programs are managed by the Assistant Director of Industrial/External Relations and Co-Op Programs in the College of Engineering, Dean's Office, phone: 215-204-2537.

Students may also receive relevant work experience through internships, which are normally available during the summer terms. Because internships are offered over the summer, they allow students to finish in the traditional four years and still gain some on-the-job experience.

**Honor Societies, Awards, & Student Associations**

**Professional Societies & Organizations**

The following professional societies and organizations are located within the College of Engineering:

- American Concrete Institute (ACI)
- American Society of Civil Engineering (ASCE)
- American Society of Heating, Refrigeration, and Air Conditioning Engineering (ASHRAE)
- American Society of Mechanical Engineers (ASME)
- Biomedical Engineering Society (BMES)
- Construction Management Student Organization (CMSO)
- Engineers Without Borders (EWB)
- Institute of Electrical & Electronics Engineers (IEEE)
- Minority Engineering Students Association (MESA)
- National Society of Black Engineers (NSBE)
- National Society of Hispanic Engineers (SHPE)
- National Society of Professional Engineers (NSPE)
- Society of Automotive Engineers (SAE)
- Society of Manufacturing Engineers (SME)
- Society of Women Engineers (SWE)
- Temple University Amateur Radio Club (TUARC)
- ETA KAPPA NU (Electrical Engineering Honor Society)
- PI TAU SIGMA (Mechanical Engineering Honor Society)

**Program Information**

**Engineering**

The programs in Civil Engineering, Electrical Engineering and Mechanical Engineering are accredited by the Engineering Accreditation Commission (EAC) of ABET, http://www.abet.org.

All engineering programs lead to a Bachelor of Science degree in the following fields of study:

- Bioengineering (B.S. BioE.)
- Civil Engineering (B.S.C.E.)
- Electrical Engineering (B.S.E.E.)
- Engineering (B.S.E.)
- Environmental Engineering (B.S. Env.E.)
- Mechanical Engineering (B.S.M.E.)

These degree programs also offer concentrations in the following areas:

- Environmental Engineering in B.S.C.E.
- Computer Engineering in B.S.E.E.
- Bioelectrical in B.S.E.E.
- Biomechanics in B.S.M.E.

The program in Bioengineering will seek accreditation as soon as it is possible. Likewise the new program in Engineering will seek accreditation.

**Engineering Technology**

Engineering Technology programs are accredited by the Engineering Technology Accreditation Commission (ETAC) of ABET, http://www.abet.org.

These programs lead to a Bachelor of Science in Engineering Technology (B.S.E.T.) degree.
Two Engineering Technology programs are offered in the following areas:

- Construction Management Technology
- Engineering Technology

**Student Contact Information**

Office of Undergraduate Studies (Room 349)
College of Engineering
1947 N. 12th Street
Philadelphia, PA 19122
215-204-7800

**Academic Policies & Regulations**

Please see the full listing of university-wide Academic Policies (p. 81). The university policies and regulations generally apply to all undergraduate students and provide a framework within which schools and colleges may specify further conditions or variations appropriate to students in their courses or programs. Students are responsible for complying with all university-wide academic policies that apply to their individual academic status.

**Co-requisites and Prerequisites**

Students may be de-enrolled from courses for which they do not meet prerequisites and co-requisites. (Please see the Prerequisites and Co-requisites (p. 99) policy for more information.) Students are responsible for reviewing and abiding by all course prerequisites and co-requisites in the Course Catalog (http://www.temple.edu/apply/common/catcheck.asp). The requirements are designed to assure that students are appropriately prepared to be successful in their courses. Prerequisites provide an efficient manner for students to register for the next course in a sequence for which they are prepared. Students who appropriately satisfy prerequisites are permitted to register for a first and second attempt. Completion of a prerequisite does not permit a student to enroll in the third attempt of a repeated course. Students may attempt a course for the third time only if they have received permission from the College, which is not guaranteed and may require additional coursework (See the Repeating a Course Policy below).

**Dean's List**

Each fall and spring semester, those undergraduates who have met the credit hour and academic criteria for their school or college are placed on the Dean's List. See the Dean's List (p. 92) policy for specific GPA and credit-hour requirements.

**Fly in 4**

Fly in 4 is a partnership between incoming freshmen and the university. It limits the number of hours per week that students have to work for pay and guarantees that students can graduate in four years, potentially saving them thousands of dollars in debt. For more information on this program, see Undergraduate Admissions (http://admissions.temple.edu/cost-and-aid/fly-in-4).

**Graduation Procedures**

All College of Engineering students are required to complete a graduation review with an advisor in the Office of Undergraduate Studies prior to or at the start of their senior year. Students should schedule a review once they have completed 90 semester hours. The graduation review involves a detailing of the courses and credits completed and those that remain to be completed for graduation. Once the student and academic advisor complete the graduation plan (check sheet), the Office of Undergraduate Studies will forward the graduation check sheet to the student's department for the faculty advisor's approval. Final approval and clearance for graduation will be determined by the Director of Undergraduate Studies.

Students are expected to be active participants in the review and have equal responsibility for assuring the accuracy and completeness of the review.

Early in the semester in which students will complete their degree requirements, they must apply online via Self-Service Banner (SSB). For application deadlines, see the University's Undergraduate Graduation Procedures (p. 95).

**Permission to Take Courses at Another Institution**

Students in the College of Engineering who wish to take courses at another institution must petition the Office of Undergraduate Studies for approval prior to enrolling in such a course. Petition forms are available in the Office of Undergraduate Studies, College of Engineering, Room 349. The student is responsible for obtaining a course description from the other institution and attaching it to the petition form. The student takes the petition to the corresponding Temple department for faculty review and then submits the petition to the Office of Undergraduate Studies for final approval.

Courses taken without prior approval will not be transferable toward the Temple degree. In addition, students must have completed the prerequisites and have completed or be completing any listed co-requisites of both the Temple equivalent course and course at the host institution.

Please see the University policy on Permission to Complete a Course at Another Institution after Matriculation (p. 98) for more information.
Plagiarism and Academic Dishonesty

Plagiarism and academic dishonesty are prohibited by the College of Engineering. The development of independent thought and a respect for the thoughts of others is essential to intellectual growth. The prohibition of plagiarism and cheating is intended to foster this independence and respect. See the policy on Plagiarism (p. 99) in this Bulletin.

The penalty for plagiarism or cheating as a first offense is normally an F in the course in which the offense is committed. In such cases, the instructor can either write a report or complete the Settlement of a Charge of Academic Dishonesty form and send it to the Office of Undergraduate Studies. The Office of Undergraduate Studies will forward to the Office of Student Conduct and Community Standards. The Office of Student Conduct and Community Standards generally adjudicates all cases and student appeals.

Repeating a Course

Students may attempt a course two times without restriction. Students in the College of Engineering are encouraged to meet with an advisor prior to attempting a course for the second time. A third attempt of any course is not guaranteed and requires permission of the student's home college. Petitions for a third attempt may require additional coursework, remediation, and/or academic/personal planning. Please refer to the University policy on Repeating a Course (p. 99) for further information.

College Graduation Requirements

Anticipation of Graduation

All College of Engineering (COE) students who intend to graduate in May, August, or January must have a graduation review at the completion of 90 credits. At the beginning of the final semester, the student must complete a graduation application. To earn the baccalaureate degree in any curriculum of the COE, a student must submit a graduation plan (check sheet), consisting of all required courses in the chosen curriculum, which has been approved by the student's academic advisor, chairperson, and Director of Undergraduate Studies. Required courses are indicated in curriculum checklists available from the student's respective department of instruction.

College Requirements for all Majors

Engineering Program

- 31 minimum credits in Math and Science
- 25 minimum credits in University General Education
- 60-67 credits in major (varies with major), minimum 2.0 GPA in the major
- 124 minimum credits total

Engineering Technology (CMT & ET) programs

- 24 minimum credits in Math and Science
- 25 minimum credits in University General Education
- 50-60 credits in major (varies with major), minimum 2.0 GPA in the major
- 124 minimum credits total

Notes:

1. The total number of credit hours at graduation may be greater for some students based on initial placement exams, transfer evaluations, individual curricular choices, and academic progress.
2. Students must fulfill the necessary prerequisites for any given course or course sequence. See the Prerequisite and Co-requisite Policy (p. 99) in the university-wide Academic Policies section in this Bulletin.
3. The engineering programs are structured to prepare students for the professional practice of engineering and/or graduate study. The curricula emphasize a rigorous treatment of the mathematical and scientific approaches to the solution of engineering problems.
4. The final two years of study stress the synthesis of unique solutions rooted in the fundamental principles mastered during the first two years. These final years culminate in a design project.

Program Performance

A minimum cumulative GPA of 2.0 is required for graduation. Students majoring in engineering must attain a minimum GPA of 2.0 in their major courses in order to graduate. Students majoring in engineering technology and construction management technology must have a minimum GPA of 2.0 in their major courses.
Independent Research

Independent student work on a laboratory investigation or design project must be approved by the chairperson of the respective department and the assigned faculty supervisor. Work is graded on research methodology, research results, and a report. Only seniors with a minimum GPA of 3.0 may apply for independent research. Approved projects must be completed in one academic year.

Independent Study

A student is permitted to take no more than two independent study courses. Permission is granted only if a student needs the course to complete his/her studies. They can be taken only in the junior and senior years. The content of the independent study work must cover the material in one of the courses listed in the curriculum. Students must complete an independent study form in their department prior to registration for the independent study.

Transfer Credit

Transfer credit to the COE can be granted only from an accredited institution of higher learning. Co-op education, credit for life experience, and advanced placement credits are not transferable from other institutions. Transfer credits are not granted after a student has matriculated into a degree program. In only exceptional circumstances may students take courses at other institutions and have transfer credits awarded. The dean must approve permission for such arrangements in advance. Senior Design Projects or Capstone courses are not transferable to the college.

Courses Inapplicable to Graduation

Semester hours earned in MATH 0701 or MATH 0702, lower-level military science (ROTC), and RCC-enhanced courses are not credited toward the minimum semester hours required for graduation.

Students will not be awarded duplicate credit for courses that are repeated in transfer or at Temple.

Non-Traditional Credits

A maximum of 12 semester hours of credit will be allowed by the COE in cooperative education, relevant work experience, approved ROTC courses, and Advanced Placement or CLEP examinations. No other non-traditional credit will be granted.

Credit for Life Experience

Degree seeking students may be granted academic credits for work experience if it is judged to be an adequate substitute for all or part of particular courses required of the student. Experience must be related to a specific course in the curriculum offered by the college. Work experience must be acquired before entering Temple University. Credit will only be granted after completion of 30 semester hours of coursework. Application forms are available in the Office of Undergraduate Studies (Engineering Building, Room 349).

All students in the College of Engineering (COE) have the flexibility to meet with any of the academic advisors in the Office of Undergraduate Studies once they have officially matriculated in the College of Engineering. The student's academic advisor will confirm that the courses selected yield credits toward a degree and that the requirements of Temple University, COE, and the academic department are being met. Reference should be made to this Bulletin and to DARS in planning programs.

Academic advisors attempt to avoid errors when advising students about their program requirements, but schools and colleges cannot assume liability for errors in advising. Therefore, students must assume primary responsibility for knowing the requirements for their degrees and for acquiring current information about their academic status.

Faculty

Bechara E. Abboud, Associate Professor, Department of Civil and Environmental Engineering, College of Engineering; Ph.D., Drexel University.

Berk Ayranci, Instructor (Teaching/Instructional), Department of Civil and Environmental Engineering, College of Engineering; M.S.M.E., Temple University.

Li Bai, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., Drexel University.

George Baran, Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., University of Michigan.

Leonard K. Bernstein, Instructor (Teaching/Instructional), Department of Civil and Environmental Engineering, College of Engineering; M.S., University of Pennsylvania.

Saroj K. Biswas, Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., University of Ottawa.

Robert M. Brooks, Associate Professor, Department of Civil and Environmental Engineering, College of Engineering; Ph.D., Indian Institute of Technology.

David S. Brookstein, Professor, Department of Mechanical Engineering, College of Engineering; Sc.D., Massachusetts Institute of Technology.

Shih-Jiun Chen, Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., Drexel University.

Harsh Deep Chopra, Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., University of Maryland College Park.

Joseph Thomas Coe Jr., Assistant Professor, Department of Civil and Environmental Engineering, College of Engineering; Ph.D., University of California Los Angeles.

Richard S. Cohen, Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., Princeton University.

Kurosh Darvish, Associate Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., University of Virginia.

Zdenka J. Delalic, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., University of Pennsylvania.

Dmitriy A. Dikin, Associate Professor (Research), Department of Mechanical Engineering, College of Engineering; Ph.D., National Academy of Sciences of Ukraine, Institute for Low Temperature Physics and Engineering.

Oleksandr Dilogyan, Assistant Professor (Teaching/Instructional), Department of Mechanical Engineering, College of Engineering; Ph.D., Donetsk National Technical University.

Ahmed Faheem, Assistant Professor, Department of Civil and Environmental Engineering, College of Engineering; Ph.D., University of Wisconsin.

Omar Z. Fisher, Assistant Professor, Department of Bioengineering, College of Engineering; Ph.D., University of Texas at Austin.

Bojana Gligorijevic, Assistant Professor, Department of Bioengineering, College of Engineering; Ph.D., Georgetown University.

Yah-el Har-el, Assistant Professor (Research), Department of Bioengineering, College of Engineering; Ph.D., Johns Hopkins University.

John J. Helferty, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., Drexel University.

Robert Hughes, Assistant Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., McMaster University.

Parsaoran Hutapea, Associate Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., North Carolina State University.

Mohammad F. Kiani, Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., Louisiana Tech University.

Sanghun Kim, Assistant Professor (Teaching/Instructional), Department of Civil and Environmental Engineering, College of Engineering; Ph.D., Syracuse University.
Peter Lelkes, Professor, Department of Bioengineering, College of Engineering; Ph.D., RWTH Aachen University.

Michel Lemay, Professor, Department of Bioengineering, College of Engineering; Ph.D., Case Western Reserve University.

Haijun Liu, Assistant Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., University of Maryland College Park.

Muruganandham Manickavachagam, Assistant Professor (Research), Department of Civil and Environmental Engineering, College of Engineering; Ph.D., Annamalai University.

Erica R. McKenzie, Assistant Professor, Department of Civil and Environmental Engineering, College of Engineering; Ph.D., University of California at Davis.

William C. Miller, Associate Professor (Teaching/Instructional), Department of Civil and Environmental Engineering, College of Engineering; Ph.D., University of Pennsylvania.

Svetlana Neretina, Assistant Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., McMaster University.

Iyad Obeid, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., Duke University.

Ralph Oyini Mbouna, Assistant Professor (Teaching/Instructional), Department of Electrical and Computer Engineering, College of Engineering; Ph.D., Temple University.

Chetan A. Patil, Assistant Professor (Research), Department of Bioengineering, College of Engineering; Ph.D., Vanderbilt University.

Vallorie J. Peridier, Associate Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., Lehigh University.

Joseph Picone, Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., Illinois Institute of Technology.

Shriram Pillapakkam, Associate Professor (Teaching/Instructional), Department of Mechanical Engineering, College of Engineering; Ph.D., New Jersey Institute of Technology.

Nancy Pleshko, Professor, Department of Bioengineering, College of Engineering; Ph.D., Rutgers University.

Songgang Qiu, Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., University of Minnesota.

David Reiser, Assistant Professor (Teaching/Instructional), Department of Mechanical Engineering, College of Engineering.

Fei Ren, Assistant Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., Michigan State University.

Shenqiang Ren, Associate Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., University of Maryland College Park.

Steven M. Ridenour, Professor Emeritus, Department of Mechanical Engineering, College of Engineering; Ph.D., University of Miami.

Robert J. Ryan, Associate Professor (Teaching/Instructional), Department of Civil and Environmental Engineering, College of Engineering; Ph.D., Drexel University.

Keyanoush Sadeghipour, Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., University of Manchester Institute of Science and Technology.

Sergio E. Serrano, Professor, Department of Civil and Environmental Engineering, College of Engineering; Ph.D., University of Waterloo.

Dennis A. Silage, Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., University of Pennsylvania.

Andrew Spence, Associate Professor, Department of Bioengineering, College of Engineering; Ph.D., Cornell University.

Won Hyuk Suh, Assistant Professor, Department of Bioengineering, College of Engineering; Ph.D., University of Illinois at Urbana-Champaign.

Thomas E. Sullivan, Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., Pennsylvania State University.

Rominder Suri, Professor, Department of Civil and Environmental Engineering, College of Engineering; Ph.D., Michigan Technological University.

Rouzbeh Tehrani, Assistant Professor (Teaching/Instructional), Department of Civil and Environmental Engineering, College of Engineering; Ph.D., Temple University.

Philip D. Udo-Inyang, Associate Professor, Department of Civil and Environmental Engineering, College of Engineering; Ph.D., University of Missouri-Columbia.
Felix F. Udoeyo, Assistant Professor (Teaching/Instructional), Department of Civil and Environmental Engineering, College of Engineering; Ph.D., Abubakar Tafawa Balewa University.

Dmitri Vainchtein, Assistant Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., University of Illinois at Urbana-Champaign.

Benoit Van Aken, Assistant Professor, Department of Civil and Environmental Engineering, College of Engineering; Ph.D., Catholic University of Louvain.

Evelyn Walters, Assistant Professor (Teaching/Instructional), Department of Civil and Environmental Engineering, College of Engineering; Ph.D., Technische Universität München.

Wenhai Wang, Assistant Professor (Research), Department of Mechanical Engineering, College of Engineering.

Chang-Hee Won, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., University of Notre Dame.

Jie Yin, Assistant Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., Columbia University.

Hui Yu, Assistant Professor (Research), Department of Civil and Environmental Engineering, College of Engineering.

Huichun Judy Zhang, Assistant Professor, Department of Civil and Environmental Engineering, College of Engineering; Ph.D., Georgia Institute of Technology.

Yimin Daniel Zhang, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., University of Tsukuba.

Ying Julie Zhu, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., Princeton University.

Goals, Objectives & Design Integration

The Bioengineering program will be able to integrate engineering science, rigorous mathematical tools and a quantitative approach to the life sciences and apply this spectrum of knowledge in an interdisciplinary fashion to provide solutions to basic and applied biological and medical problems.

This goal will be accomplished by offering to the students an integrated set of courses aimed at providing a thorough introduction to the complex and interdisciplinary field of Bioengineering:

• Teach engineering science, analysis, and design in the context of quantitative approaches to solving life science and medicine-related problems.

• Integrate interdisciplinary aspects of biology, physiology, and engineering within courses and design projects.

• Emphasize the interdisciplinary nature of Bioengineering, in terms of problem solving, design, within the framework of interdisciplinary teams focusing on the dialogue between "biology-inspired engineering" and "biology as a specific arm of applied engineering principles."

• Immerse students in key life science and medical principles, while focusing on understanding cell/molecular-level events through quantitative analysis and modeling.

• Provide an exceptional learning environment with significant instruction by Bioengineering faculty and researchers in collaboration with experts from other fields, especially the Health Science Campus.

In this curriculum, incoming freshmen will first and foremost be trained as solid Temple engineers, focusing on applying engineering science, design, and analysis to real life problems specifically in the areas of biology and medicine. This firm engineering foundation will be further enhanced with newly developed Bioengineering courses in specific pathways, such as:

• Biomaterials: A focus on the design, development, and uses of biomaterials in biology and medicine. It also explores the host-biomaterial interface and interactions.

• Bioimaging: A focus on design, development, and uses of imaging modalities and techniques in biology.
• **Bioinstrumentation**: A focus on the design, development, and use of instruments used to record, process, and/or control biological functions.
• **Biomechanics**: A focus on the interaction between forces and motions in tissues, organisms, and biomedical materials.
• **Tissue Engineering**: A focus on building functional tissues using cells and scaffolds and repairing diseased tissues and organs at the cellular and molecular level.
• **Neuroengineering**: A focus on using engineering to understand and interact with neural tissues.
• **Pre-med**: A broad-based Bioengineering curriculum which fulfills current pre-med course requirements.

Hands-on engineering experience will be gained through intense laboratory coursework and by solving real-life biomedical problems.

### Summary of Requirements

#### University Requirements

All new students are required to complete the university's General Education (GenEd (p. 143)) curriculum.

All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

Rominder Suri, Ph.D., P.E., Chair
Room 514, Engineering Building
215-204-2378
rominder.suri@temple.edu

Benoit Van Aken, Ph.D., Undergraduate Coordinator
Room 521, Engineering Building
215-204-7087
bvanaken@temple.edu

http://engineering.temple.edu/department/civil-environmental-engineering

The Civil Engineering Program is accredited by the Engineering Accreditation Commission (EAC) of ABET, http://www.abet.org.

Goals, Objectives & Design Integration
Graduates will be employed in industries, academia or state and federal government agencies or enter into or complete graduate or professional degree programs. Graduates will use modern engineering techniques, skills, and tools to identify, formulate, and solve civil engineering problems; or design structures or systems considering functionality, safety and cost effectiveness; or evaluate the impact of civil engineering solutions in a global, societal, and environmental context consistent with the principles of sustainable development. Graduates will engage in the professional practice in civil engineering or closely related fields. Graduates will demonstrate an understanding of ethical, societal, and professional responsibility; engage in life-long learning opportunities; and demonstrate effective communication and interpersonal skills within multidisciplinary teams.

Programs
• Bachelor of Science in Civil Engineering (p. 475)
• Bachelor of Science in Civil Engineering - Environmental Engineering Concentration (p. 479)
• Bachelor of Science in Civil Engineering - Environmental Engineering Concentration with Co-op (p. 482)
• Bachelor of Science in Civil Engineering with Co-op (p. 486)
• Bachelor of Science in Environmental Engineering (p. 489)
• Minor in Environmental Engineering (p. 492)

Bachelor of Science in Civil Engineering
Goals, Objectives & Design Integration
Civil Engineering professionals plan, design, construct, and operate facilities which are essential to the quality of modern life. The Civil Engineering curriculum is based upon providing a fully-integrated design experience by beginning with introductory courses in the study of engineering history and economics, then progressing through a broad coverage of the primary areas of practice within Civil Engineering (surveying, structures, geotechnical engineering, construction engineering, water resources, transportation, and environmental engineering), and finishing with a year-long capstone Civil Engineering senior design project. The goal of the Civil Engineering program is to prepare students to pursue graduate education in their specific areas of interest, to pass the Fundamental of Engineering and Professional Engineer exams in the areas of practice within Civil Engineering, and become involved in design, project planning and research.

Summary of Requirements
University Requirements
All new students are required to complete the university’s General Education (GenEd (p. 143)) curriculum.

All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

ENGR 2196  Technical Communication  3
ENGR 4196  Senior Design Project I  1
ENGR 4296  Senior Design Project II  3

Bachelor of Science in Civil Engineering - Environmental Engineering Concentration

Goals, Objectives & Design Integration
The objective of the Concentration in Environmental Engineering within the Civil Engineering program at Temple University is to provide students with the skills needed to understand environmental problems and to design environmental systems to reduce and/or mitigate pollution. Environmental Engineering is a hybrid of Civil Engineering and Chemical Engineering, and it is thus natural for a civil engineer to broaden his/her knowledge in Environmental Engineering. Students in this concentration would be in a program that satisfies ABET accreditation for civil engineers, but they are more equipped to pass the Fundamental of Engineering and the Professional Engineer exams in the Environmental Engineering Category.

Summary of Requirements

University Requirements
All new students are required to complete the university's General Education (GenEd (p. 143)) curriculum.
All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

**Bachelor of Science in Civil Engineering - Environmental Engineering Concentration with Co-op**

**Cooperative Education Program**

A Cooperative Education (Co-Op) is an optional program available at the College of Engineering where you have the opportunity to gain professional work experience before graduation. It is designed to give you the chance to apply the knowledge learned in the classroom to real life problems. You will be exposed to the latest technology and new ideas at a work site helping you understand your field of work more extensively. During the Co-Op, you will make valuable connections with professionals in your field. A cooperative education can enhance and strengthen you academically, professionally and personally.

**Summary of Requirements**

**University Requirements**

All new students are required to complete the university's General Education (GenEd (p. 143)) curriculum.

All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

Courses must be passed with a C- or better.
Senior Design topic must be approved by the chair of the Department of Civil & Environmental Engineering.

**Suggested Academic Plan**

Below is the five-year academic plan for the Co-Op program leading to the Bachelor of Science in Civil Engineering with a concentration in Environmental Engineering. The minimum requirement for graduation is 130 semester hours.

Please note that this is a suggested academic plan. Depending on your situation, your academic plan may look different.

MEE 3506 Fluids and Energy Laboratory 1

Cooperative Education
ENGR 2181 Co-Op Work Experience I 3
ENGR 3181 Co-Op Work Experience II 3

Total Credit Hours 130-131

1 Course must be passed with a C- or better.
2 Senior Design topic must be approved by the chair of the Department of Civil & Environmental Engineering.

Suggested Academic Plan

Below is the five-year academic plan for the Co-Op program leading to the Bachelor of Science in Civil Engineering. The minimum requirement for graduation is 130 semester hours.

Please note that this is a suggested academic plan. Depending on your situation, your academic plan may look different.

Bachelor of Science in Environmental Engineering

Goals, Objectives & Design Integration

Environmental engineering professionals work at the interface of human society and the natural environment, aiming to find solutions to the world’s challenges of air, land, and water pollution and sustainability. The environmental engineering curriculum at Temple University provides a fully-integrated design experience within a multidisciplinary learning environment. Students begin their undergraduate studies with courses in advanced mathematics, chemistry, and physics, as well as engineering. As they progress, the coursework becomes more discipline specific and includes topics such as water and wastewater treatment, air pollution control, environmental hydrology, stormwater management, and others.

Through laboratory courses, students will gain hands-on experience in environmental chemistry and microbiology, as well as with the physical-chemical processes utilized in water and wastewater treatment. The program culminates with a year-long senior design project where students work in interdisciplinary teams to tackle an engineering design project. The goals of the environmental engineering program are to prepare students to pursue
an environmental engineering career in design, project planning or research, graduate education in their specific areas of interest, and to pass the required exams to obtain professional licensure.

### Summary of Requirements

#### University Requirements

All new students are required to complete the university's General Education (GenEd (p. 143)) curriculum.

All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

- **ENGR 2196** Technical Communication 3
- **ENGR 4196** Senior Design Project I 1
- **ENGR 4296** Senior Design Project II 3

**Minor in Environmental Engineering**

Room 514, Engineering Building  
1947 North 12th Street  
Philadelphia, PA 19122  
215-204-7814

The Department of Civil and Environmental Engineering (CEE) offers a five-course (15 s.h.) undergraduate Minor in Environmental Engineering. Undergraduates from the Physical Sciences, Mathematics, and Engineering are eligible to participate in this program.

The purpose of the Minor is to allow students from a wide range of undergraduate majors to obtain an introductory background in sustainability, pollution prevention, environmental modeling, and pollution control technologies most appropriate to their interests and major field. The Minor in Environmental Engineering will add considerably to students’ major program skills and make them more valuable to employers. Mathematics and Science majors will...
gain an understanding of engineering problem-solving processes and standard pollution control technologies. Engineering majors will understand the environmental effects of technologies in their major field and how to manage those effects. After the student completes the requirements for the minor, the minor will be recorded on the student’s official university transcript upon graduation.

**Declaration of Environmental Engineering Minor**

Students who are interested in pursuing an Environmental Engineering minor should speak to their advisor in the school or college in which they are pursuing their degree. Students should formally declare the Environmental Engineering minor upon completing no more than 6 credits toward the minor. There is no penalty if the minor is not completed. For more information and to declare the minor, please contact the Department of Civil and Environmental Engineering.

**Requirements**

Students pursuing the Minor in Environmental Engineering must meet the following requirements:

- A minimum of C- in each course
- An overall GPA of 2.0 for courses in the Environmental Engineering minor

**Required Courses**

**Total Credit Hours**

15

1 May be taken after completion of the two required courses

Students are required to complete prerequisite courses (shown in parentheses above) as indicated for the two required courses. These prerequisite courses do not count toward the minimum of 15 semester hours.

The Department of Civil and Environmental Engineering maintains an approved list of elective courses.

**Construction Management Technology**

Rominder Suri, Ph.D., P.E., Chair
Room 514, Engineering Building
215-204-2378
rominder.suri@temple.edu

Philip Udo-Inyang, Ph.D., P.E., Program Coordinator
Room 520, Engineering Building
215-204-7831

**Programs**

- Bachelor of Science in Engineering Technology in Construction Management Technology (p. 494)
- Bachelor of Science in Engineering Technology in Construction Management Technology with Co-op (p. 497)
Bachelor of Science in Engineering Technology in Construction Management Technology

Program Goals & Objectives

The baccalaureate curriculum in Construction Management Technology (CMT) prepares a student for a practitioner’s role in industry, government or institution in the area of construction management.

Graduates are qualified for jobs as construction field supervisors, estimators, expediters, construction cost analysts, schedulers, plan examiners for government agencies that control construction, and in safety. Graduates can communicate effectively and have the necessary teamwork and leadership skills to work and participate effectively in a team environment. Also, graduates will have professional growth and life-long learning skills that engineering technologists need to succeed in both the workplace and the society in general.

Day and evening courses are available; however, most technical courses are offered in the evening only. While the day program requires a minimum of four years, a completed evening program may extend up to eight years or more.

Summary of Requirements

University Requirements

All new students are required to complete the university's General Education (GenEd (p. 143)) curriculum.

All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

<table>
<thead>
<tr>
<th>Course</th>

**Bachelor of Science in Engineering Technology in Construction Management Technology with Co-op**

**Program Goals & Objectives**

The baccalaureate curriculum in Construction Management Technology (CMT) prepares a student for a practitioner’s role in industry, government or institution in the area of construction management.

Graduates are qualified for jobs as construction field supervisors, estimators, expediters, construction cost analysts, schedulers, plan examiners for government agencies that control construction, and in safety. Graduates can communicate effectively and have the necessary teamwork and leadership skills to work and participate effectively in a team environment. Also, graduates will have professional growth and life-long learning skills that engineering technologists need to succeed in both the workplace and the society in general.

Day and evening courses are available; however, most technical courses are offered in the evening only. While the day program requires a minimum of four years, a completed evening program may extend up to eight years or more.

**Cooperative Education Program**

A Cooperative Education (Co-Op) is an optional program available at the College of Engineering where you have the opportunity to gain professional work experience before graduation. It is designed to give you the chance to apply the knowledge learned in the classroom to real life problems. You will be exposed to the latest technology and new ideas at a worksite helping you understand your field of work more extensively. During the Co-op, you will
make valuable connections with professionals in your field. A cooperative education can enhance and strengthen you academically, professionally and personally.

### Summary of Requirements

#### University Requirements
All new students are required to complete the university's General Education (GenEd (p. 143)) curriculum.

All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

- CMT 3396 Environmental and Safety Aspects of Construction 2
- CMT 4396 Capstone in Construction 3
- ENG 2696 Technical Writing 3

Ralph Oyini Mbouna, Ph.D, Undergraduate Coordinator
Room 727a, Engineering Building
215-204-8737
oyin@temple.edu

http://engineering.temple.edu/department/electrical-computer-engineering

## Program Goals, Objectives & Design Integration

The objective of the Electrical Engineering program is to prepare students for careers as practicing engineers in areas such as digital systems, embedded processor applications, digital communications, control systems, sensor networks, biomedical signal processing, microelectronics, computer security, and power networks. These careers are in applications, development, research, and design of electric and electronic systems and devices. Electrical Engineers are involved in the design and development of telecommunications networks, cellular telephones, computer and other microprocessor-based devices, consumer electronics, control systems for space vehicles and robots, and in many aspects of the power and automotive industries.
The Department offers a concentration in Computer Engineering. The objective of the computer engineering concentration is to prepare students for a career in the area of Computer Engineering as it relates to the design of integrated software/hardware systems with both high- and low-level computer systems programming and applications to electrical systems. Computer engineers are responsible for the design, implementation, and application of computers and digital systems. The field covers hardware, software, and the interaction between them. The Computer Engineering concentration integrates courses on computer science fundamentals from the Department of Computer and Information Sciences of Temple University into the curriculum.

The Department also offers a concentration in Bioelectrical Engineering. The objective of the Bioelectrical Engineering concentration is to prepare students for careers in the emerging areas of biomedical signal and image processing, assistive devices for the impaired, and bioelectronics. The Bioelectrical Engineering concentration utilizes courses in Biology, and Mammalian Anatomy and Physiology from the Department of Kinesiology at Temple University as part of the curriculum.

The Electrical Engineering degree program is accredited by ABET. The curriculum features required courses in Mathematics, Chemistry, Physics, General Education, and the fundamentals of Electrical and Computer Engineering. The ABET minimum requirement for graduation is 124 semester hours, and students must satisfy the minimum requirement in each category as shown below. “Approved Elective” courses include elective electrical engineering courses, and a selection of math, science, engineering, and computer science courses as approved by the Department Chair. Students should consult the department chair or their academic advisor for any questions concerning the credit distribution.

Cooperative Education Program

A Cooperative Education (Co-op) is an optional program available at the College of Engineering where you have the opportunity to gain professional work experience before graduation. It is designed to give you the chance to apply the knowledge learned in the classroom to real life problems. You will be exposed to the latest technology and new ideas at a worksite helping you understand your field of work more extensively. During the Co-op, you will make valuable connections with professionals in your field. A cooperative education can enhance and strengthen you academically, professionally and personally.

Additional Courses in Electrical & Computer Engineering

With the approval of the Department Chair, students could take selected courses from another concentration area within the department, which are counted as approved electives. The following courses also serve as approved electives for all students.

ECE 4312 Microelectronics II 3
ECE 4322 VLSI Systems Design 3
ECE 4412 Modern Control Theory 3
ECE 4422 Digital Control Systems 3
ECE 4732 Electromechanical Energy Systems 3
ECE 4712 Modern Power Engineering and Electronics 3
ECE 3722 Electromagnetic Wave Propagation 3
ECE 4542 Telecommunications Engineering 3
ENGR 4116 Spacecraft Systems Engineering 3
ENGR 3033 Entrepreneurial Engineering 3
ENGR xx81 Co-op Experience 1-3
ENGR xx85 Internship Experience 1-3

Programs

• Bachelor of Science in Electrical Engineering (p. 502)
• Bachelor of Science in Electrical Engineering - Bioelectrical Engineering Concentration (p. 506)
• Bachelor of Science in Electrical Engineering - Bioelectrical Engineering Concentration with Co-op (p. 510)
• Bachelor of Science in Electrical Engineering - Computer Engineering Concentration (p. 514)
• Bachelor of Science in Electrical Engineering - Computer Engineering Concentration with Co-op (p. 518)
• Bachelor of Science in Electrical Engineering with Co-op (p. 522)

Bachelor of Science in Electrical Engineering

The objective of the Electrical Engineering program is to prepare students for careers as practicing engineers in areas such as digital systems, embedded processor applications, digital communications, control systems, sensor networks, biomedical signal processing, microelectronics, computer security, and power networks. These careers are in applications, development, research, and design of electric and electronic systems and devices. Electrical Engineers are involved in the design and development of telecommunications networks, cellular telephones, computer and other
microprocessor-based devices, consumer electronics, control systems for space vehicles and robots, and in many aspects of the power and automotive industries.

**Summary of Degree Requirements**

**University Requirements**

All new students are required to complete the university's General Education (GenEd) curriculum. Transfer students are advised by the Department Chair with regard to their transfer credit for courses in their major taken elsewhere. Students should contact the Department Chair for an appointment and advisement.

All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

- ENGR 2196 Technical Communication 3
- ENGR 4196 Senior Design Project I 1
- ENGR 4296 Senior Design Project II 3

**College Requirements**

The degree of Bachelor of Science in Electrical Engineering may be conferred upon satisfactory completion of a minimum of 124 semester hours of credit with a minimum GPA of 2.0 overall and in the major. Students must also score a minimum grade of C- in each of the following courses before they can take other junior and senior level courses:

- ECE 2332 Principles of Electric Circuits 4
- ECE 2612 Digital Circuit Design 3
- ECE 3512 Signals: Continuous and Discrete 4

Bachelor of Science in Electrical Engineering - Bioelectrical Engineering Concentration

The objective of the Bioelectrical Engineering concentration is to prepare students for careers in the emerging areas of biomedical signal and image processing, assistive devices for the impaired, and bioelectronics. The Bioelectrical Engineering concentration utilizes courses in Biology, and Mammalian Anatomy and Physiology from the Department of Kinesiology at Temple University as part of the curriculum.

Summary of Degree Requirements

University Requirements

All new students are required to complete the university's General Education (GenEd (p. 143)) curriculum. Transfer students are advised by the Department Chair with regard to their transfer credit for courses in their major taken elsewhere. Students should contact the Department Chair for an appointment and advisement.

All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

---

1. **CIS 1057** is a required course for all ECE students. If you completed **ENGR 1117** before declaring an ECE major, you must take **CIS 1057** in your third semester. **ENGR 1117** will be counted as a free elective. See your advisor for more information.

2. Students may satisfy no more than one Electrical Engineering Elective with 3 credits of Independent Study, Independent Research or Co-Op coursework. Students must be granted prior approval from the department.

### Electives

- **ECE 3312** Microelectronics I
- **ECE 3313** Microelectronics I Laboratory
- **ECE 3622** Embedded System Design
- **ECE 3623** Embedded System Design Laboratory
- **ECE 3722** Electromagnetic Wave Propagation
- **ECE 3723** Electromagnetic Wave Propagation Laboratory
- **ECE 3732** Electromechanical Energy Systems
- **ECE 3822** Software Tools for Engineers
- **ECE 4312** Microelectronics II
- **ECE 4322** VLSI Systems Design
- **ECE 4412** Modern Control Theory
ECE 4542  Telecommunications Engineering  3
ECE 4422  Digital Control Systems  3
ECE 4512  Digital Communication Systems  3
ECE 4513  Digital Communication Systems Laboratory  1
ECE 4612  Advanced Processor Systems  3
ECE 4712  Modern Power Engineering and Electronics  3
ENGR 2181  Co-Op Work Experience I  3
or ENGR 3181  Co-Op Work Experience II
ENGR 3033  Entrepreneurial Engineering  3
ENGR 4116  Spacecraft Systems Engineering  3
ECE 3082  Independent Study in Electrical Engineering  3
ECE 3091  Independent Research in Electrical Engineering  3

Bachelor of Science in Electrical Engineering - Bioelectrical Engineering Concentration with Co-op

Cooperative Education Program
A Cooperative Education (Co-Op) is an optional program available at the College of Engineering where you have the opportunity to gain professional work experience before graduation. It is designed to give you the chance to apply the knowledge learned in the classroom to real life problems. You will be exposed to the latest technology and new ideas at a worksite helping you understand your field of work more extensively. During the Co-Op, you will make valuable connections with professionals in your field. A cooperative education can enhance and strengthen you academically, professionally and personally.

Summary of Degree Requirements

University Requirements
All new students are required to complete the university's General Education (GenEd (p. 143)) curriculum. Transfer students are advised by the Department Chair with regard to their transfer credit for courses in their major taken elsewhere. Students should contact the Department Chair for an appointment and advisement.

All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

ENGR 2196  Technical Communication  3
ENGR 4196  Senior Design Project I  1
ENGR 4296  Senior Design Project II  3

College Requirements
The degree of Bachelor of Science in Electrical Engineering with a concentration in Bioelectrical Engineering and the optional Cooperative Education program may be conferred upon satisfactory completion of a minimum of 130 semester hours of credit with a minimum GPA of 2.0 overall and in the major. Students must also score a minimum grade of C- in each of the following courses before they can take other junior and senior level courses:

ECE 2332  Principles of Electric Circuits  4
ECE 2612  Digital Circuit Design  3
ECE 3512  Signals: Continuous and Discrete  4

The following table shows the minimum credit hour requirement in various areas for the Electrical Engineering degree program with a concentration in Bioelectrical Engineering:

---

1. CIS 1057 is a required course for all ECE students. If you completed ENGR 1117 before declaring an ECE major, you must take CIS 1057 in your third semester. ENGR 1117 will be counted as a free elective. See your advisor for more information.

2. Students may satisfy no more than one Electrical Engineering Technical Elective with 3 credits of Independent Study or Independent Research coursework. Students must be granted prior approval from the department.

Bachelor of Science in Electrical Engineering - Computer Engineering Concentration

The objective of the computer engineering concentration is to prepare students for a career in the area of Computer Engineering as it relates to the design of integrated software/hardware systems with both high- and low-level computer systems programming and applications to electrical systems. Computer engineers are responsible for the design, implementation, and application of computers and digital systems. The field covers hardware, software, and the interaction between them. The Computer Engineering concentration integrates courses on computer science fundamentals from the Department of Computer and Information Sciences of Temple University into the curriculum.

Summary of Degree Requirements

University Requirements

All new students are required to complete the university's General Education (GenEd (p. 143)) curriculum. Transfer students are advised by the Department Chair with regard to their transfer credit for courses in their major taken elsewhere. Students should contact the Department Chair for an appointment and advisement.

All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

ENGR 2196 Technical Communication 3
ENGR 4196 Senior Design Project I 1
ENGR 4296 Senior Design Project II 3

College Requirements

The degree of Bachelor of Science in Electrical Engineering with a concentration in Computer Engineering may be conferred upon satisfactory completion of a minimum of 124 semester hours of credit with a minimum GPA of 2.0 overall and in the major. Students must also score a minimum grade of C- in each of the following courses before they can take other junior and senior level courses:

ECE 2332 Principles of Electric Circuits 4
ECE 2612 Digital Circuit Design 3
ECE 3512 Signals: Continuous and Discrete 4

The following table shows the minimum credit hour requirement in various areas for the Electrical Engineering degree program with a concentration in Computer Engineering:

CIS: Approved Electives
Bachelor of Science in Electrical Engineering - Computer Engineering Concentration with Co-op

Cooperative Education Program

A Cooperative Education (Co-Op) is an optional program available at the College of Engineering where you have the opportunity to gain professional work experience before graduation. It is designed to give you the chance to apply the knowledge learned in the classroom to real life problems. You will be exposed to the latest technology and new ideas at a worksite helping you understand your field of work more extensively. During the Co-Op, you will make valuable connections with professionals in your field. A cooperative education can enhance and strengthen you academically, professionally and personally.

Summary of Degree Requirements

University Requirements

All new students are required to complete the university's General Education (GenEd) curriculum. Transfer students are advised by the Department Chair with regard to their transfer credit for courses in their major taken elsewhere. Students should contact the Department Chair for an appointment and advisement.

All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGR 2196</td>
<td>Technical Communication</td>
<td>3</td>
</tr>
<tr>
<td>ENGR 4196</td>
<td>Senior Design Project I</td>
<td>1</td>
</tr>
<tr>
<td>ENGR 4296</td>
<td>Senior Design Project II</td>
<td>3</td>
</tr>
</tbody>
</table>

College Requirements

The degree of Bachelor of Science in Electrical Engineering with a concentration in Computer Engineering and the optional Cooperative Education Program may be conferred upon satisfactory completion of a minimum of 130 semester hours of credit with a minimum GPA of 2.0 overall and in the major. Students must also score a minimum grade of C- in each of the following courses before they can take other junior and senior level courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECE 2332</td>
<td>Principles of Electric Circuits</td>
<td>4</td>
</tr>

130

### Suggested Academic Plan

Below is a suggested five-year plan for the Co-Op program leading to the Bachelor of Science in Electrical Engineering with a concentration in Computer Engineering. The minimum requirement for graduation is 130 semester hours.

Please note that this is a suggested academic plan. Depending on your situation, your academic plan may look different.

Suggested Academic Plan

Below is a suggested five-year plan for the Co-Op program leading to the Bachelor of Science in Electrical Engineering. The minimum requirement for graduation is 130 semester hours.

Please note that this is a suggested academic plan. Depending on your situation, your academic plan may look different.
# Bachelor of Science in Electrical Engineering with Cooperative Experience

## Requirements for New Students starting in the 2015-2016 Academic Year

---

1. CIS 1057 is a required course for all ECE students. If you completed ENGR 1117 before declaring an ECE major, you must take CIS 1057 in your third semester. ENGR 1117 will be counted as a free elective. See your advisor for more information.

2. Students may satisfy no more than one Electrical Engineering Technical Elective with 3 credits of Independent Study or Independent Research coursework. Students must be granted prior approval from the department.

Engineering Program

Goals, Objectives & Design Integration

The mission of the General Engineering Program at Temple University is to provide an excellent educational experience for its students. This experience includes an emphasis on the technical, communication, teamwork and life-long learning skills that graduate engineers need to succeed, in both the workplace and society in general. The General Engineering Program is structured to prepare the graduate for the practice of engineering and graduate school or professional programs in business, law and medicine. The curriculum emphasizes a rigorous treatment of the mathematical and scientific approach to the solution of engineering problems. The program has design across the curriculum and is capped with an integrated design experience in the form of a senior project.

The General Engineering Program shall produce graduates who:

• have the theoretical and practical ability to research, analyze, design and evaluate engineering systems for modern practice and/or graduate and professional programs;
• can communicate effectively in oral, written and electronic media and have the necessary teamwork and leadership skills to work and participate effectively in a team environment; and
• are committed to life-long learning and continuous improvement and who can contribute to the economic, technical, social and educational development of the Commonwealth of Pennsylvania, the country and the world.

The Bachelor of Science in Engineering may be conferred upon a student upon the satisfactory completion of a minimum of 124 semester hours of credit.

Summary of Requirements

University Requirements

All new students are required to complete the university's General Education (GenEd) curriculum.

All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

- ENGR 2196 Technical Communication 3
- ENGR 4196 Senior Design Project I 1
- ENGR 4296 Senior Design Project II 3

Department and Major Requirements

Foundation Science & Math Courses

- MATH 1041 Calculus I 4
- MATH 1042 Calculus II 4
- MATH 2043 Calculus III 4
- MATH 3041 Differential Equations I 3

Select one of the following: 6-7

- ENGR 2011 & ECE 3522 Engineering Analysis & Applications and Stochastic Processes in Signals and Systems
- STAT 2103 & ENGR 2011 Statistical Business Analytics and Engineering Analysis & Applications

- PHYS 1061 Elementary Classical Physics I 4
- PHYS 1062 Elementary Classical Physics II 4
- CHEM 1035 Chemistry for Engineers 3
- CHEM 1033 General Chemistry Laboratory I 1

Required General Education Courses

**Engineering (Undeclared)**
Shawn Fagan, Program Coordinator
Room 350, Engineering Building
215-204-7800
The College of Engineering has added an undeclared engineering program for those students interested in engineering but undecided on a particular field of study. Courses in this program have been determined for the first year only, since it is assumed that students will choose a curriculum following their first year of study.

Summary of Requirements

University Requirements

All new students are required to complete the university's General Education (GenEd (p. 143)) curriculum.

Engineering Technology

Berk Ayranci, Program Coordinator
Room 529A, Engineering Building
215-204-7514
berk.ayranci@temple.edu

http://engineering.temple.edu/department/engineering-technology

Programs

- Bachelor of Science in Engineering Technology (p. 533)
- Bachelor of Science in Engineering Technology with Co-op (p. 536)

Bachelor of Science in Engineering Technology

Program Objectives

This program is offered on the Main Campus. Students may complete most of the required coursework at night on the main campus. The curriculum in Engineering Technology provides a broad base of technological skills extending across the traditional fields of engineering technology with a concentration designed by the student and program coordinator to meet personal and career objectives. A plan of study can be developed with a focused track such as construction, energy, general engineering, or computer.

The Engineering Technology Program is accredited by the Engineering Technology Accreditation Commission (ETAC) of ABET, http://www.abet.org.

Summary of Requirements

University Requirements

All new students are required to complete the university’s General Education (GenEd (p. 143)) curriculum.
All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

- ENG 2696  Technical Writing  3
- ENGT 3396  Materials Technology  3
- ENGT 4196  Capstone Project  3

**Bachelor of Science in Engineering Technology with Co-op**

**Program Objectives**
This program is offered on the Main Campus. Students may complete most of the required coursework at night on the main campus. The curriculum in Engineering Technology provides a broad base of technological skills extending across the traditional fields of engineering technology with a concentration designed by the student and program coordinator to meet personal and career objectives. A plan of study can be developed with a focused track such as construction, computer, general engineering, or energy.

The Engineering Technology Program is accredited by the Engineering Technology Accreditation Commission (ETAC) of ABET, http://www.abet.org.

**Cooperative Education Program**
A Cooperative Education (Co-Op) is an optional program available at the College of Engineering where you have the opportunity to gain professional work experience before graduation. It is designed to give you the chance to apply the knowledge learned in the classroom to real life problems. You will be exposed to the latest technology and new ideas at a worksite helping you understand your field of work more extensively. During the Co-Op, you will make valuable connections with professionals in your field. A cooperative education can enhance and strengthen you academically, professionally and personally.

**Summary of Requirements**

**University Requirements**
All new students are required to complete the university's General Education (GenEd (p. 143)) curriculum.

All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. **Program Goals, Objectives & Design Integration**

The mission of the Mechanical Engineering Department is to provide an excellent educational experience for the students in its programs. This experience includes an emphasis on the technical, communication, and teamwork skills that graduate engineers need to succeed, in both the workplace and society in general. In order to achieve these goals, the department places great importance on teaching, research, scholarship, engineering practice, and service to the university community and the Engineering profession. The mechanical engineering program is structured to prepare the graduate for the professional practice of engineering and/or graduate school. The curriculum emphasizes a rigorous treatment of the mathematical and scientific approach to the solution of engineering problems. It provides a coherent set of courses in energy conversion and structures/motion in mechanical systems. The program has design across the curriculum and is capped with an integrated design experience in the form of a senior project.

Most technical courses in the program are offered during the day only.

**Programs**

- Bachelor of Science in Mechanical Engineering (p. 540)
- Bachelor of Science in Mechanical Engineering - Biomechanics Concentration (p. 543)
- Bachelor of Science in Mechanical Engineering - Biomechanics Concentration with Co-op (p. 546)
- Bachelor of Science in Mechanical Engineering with Co-op (p. 549)

**Bachelor of Science in Mechanical Engineering**

**Summary of Requirements**

**University Requirements**

All new students are required to complete the university's General Education (GenEd (p. 143)) curriculum.

All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

<table>
<thead>
<tr>
<th>Course</th>

Free Elective (minimum of 2 hours) 2

**Mechanical Engineering Technical Electives** 9

**Total Credit Hours** 124

---

1 Students in the Bachelor of Science in Mechanical Engineering Program must take either of the following sequences of courses (excludes Biomechanics concentration):
   - MEE 4422 (technical elective; offered every Fall semester) and MEE 4405 (lab elective)
   - MEE 4571 (technical elective; offered every Spring semester) and MEE 4506 (lab elective).

2 ENGR 3033 is highly recommended as the free elective. ENGR 3033 is offered every semester.

1. ENGR 3033 is highly recommended as the free elective. ENGR 3033 is offered every semester.

**Bachelor of Science in Mechanical Engineering - Biomechanics Concentration with Co-op**

**Cooperative Education Program**

A Cooperative Education (Co-Op) is an optional program available at the College of Engineering where you have the opportunity to gain professional work experience before graduation. It is designed to give you the chance to apply the knowledge learned in the classroom to real life problems. You will be exposed to the latest technology and new ideas at a worksite helping you understand your field of work more extensively. During the Co-Op, you will make valuable connections with professionals in your field. A cooperative education can enhance and strengthen you academically, professionally and personally.

**Summary of Requirements**

**University Requirements**

All new students are required to complete the university’s General Education (GenEd (p. 143)) curriculum.

All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

<table>

**Total Credit Hours**: 130

1. Students in the Bachelor of Science in Mechanical Engineering Program must take either of the following sequences of courses (excludes Biomechanics concentration):
   - MEE 4422 (technical elective; offered every Fall semester) and MEE 4405 (lab elective)
   - OR
   - MEE 4571 (technical elective; offered every Spring semester) and MEE 4506 (lab elective).

2. ENGR 3033 is highly recommended as the free elective. ENGR 3033 is offered every semester.

**Suggested Academic Plan**

Below is the five-year academic plan for the Co-Op program leading to the Bachelor of Science in Mechanical Engineering. The minimum requirement for graduation is 130 semester hours.

Please note that this is a *suggested* academic plan. Depending on your situation, your academic plan may look different.

**Bachelor of Science in Mechanical Engineering with Cooperative Education**

¹ Either MEE 4422 & MEE 4405 (in Fall) OR MEE 4571 & MEE 4506 (in Spring) are required in the Mechanical Engineering Program. When the choice is made, one credit of free elective replaces the lab in the other term.

² ENGR 3033 is highly recommended as the free elective. ENGR 3033 is offered every semester.
Fox School of Business & Management

Founded 1918

M. Moshe Porat, Dean
362 Alter Hall
1801 Liacouras Walk
215-204-7676
www.fox.temple.edu

Accreditation

Established in 1918, the Fox School of Business and Management at Temple University has a distinguished tradition of preparing business leaders, professionals and entrepreneurs for successful careers. Today, it is the largest, most comprehensive business school in the greater Philadelphia region, and among the largest in the world with 6,500 students, 175 full-time faculty and more than 59,000 alumni. Accredited by AACSB International — Association to Advance Collegiate Schools of Business — the Fox School offers BBA, MBA, Executive MBA, International MBA, Online MBA, MBA/MS, MS and PhD programs on campuses throughout the region and around the world.

Vision

With nearly a hundred years of history behind us, our vision is to be a top public urban business school in the country, and among the leading business schools in the world.

Values

We transform lives by creating and sharing knowledge, while instilling values that prepare leaders for tomorrow’s world. Our vision and values guide our teaching, research and school management.

• Excellence: We value excellence in teaching, research, and school management.
• Creativity: We value innovation and creative thinking.
• An entrepreneurial culture: We value effective decision-making and entrepreneurial implementation of ideas.
• Ethical behavior and respect for others: We value ethical practice and respect for diverse perspectives.
• Community Engagement: We value building partnerships with all stakeholders and the community we serve.

Mission Statement

Transform lives through education. Russell Conwell’s mission was to provide a gateway to opportunity for talented and determined students, including those with lesser financial means. We build on this mission, making sure our students acquire the skills they will need in the global marketplace.

We are committed to the following:

• Providing quality, student-centered business education.
• Engaging in relevant research and advanced doctoral training and expanding the frontiers of knowledge and business education.
• Extending our education, research and outreach efforts to be responsive to the driving forces of our economy including globalization, sustainability, ethics, entrepreneurship, innovation, and technology.
• Integrating leading-edge information technology into teaching, learning, research, and school management necessary for managing in an increasingly competitive, dynamic, global economy.
• Providing the best professional development and career management opportunities for our students, faculty, and staff with special efforts to facilitate development of ethical values, social networking skills, and leadership.
• Linking, through our curriculum, research and outreach to the dominant and growth industries in our region: financial services, healthcare, pharmaceuticals/biotechnology, information technology, and tourism.
• Engaging our diverse stakeholders to improve our school and serve our community.

Learning Goals and Assurance of Learning

The four main learning goals for the Bachelor of Business Administration Program seek to assure students will:

• Understand critical business concepts.
• Apply critical thinking to business problems.
• Demonstrate effective oral and written communication.
• Understand the ethical, legal, and social responsibilities of individuals and organizations.
Specific learning objectives include:

- **Understand critical business concepts**
  - Apply a core body of discipline-specific knowledge to business situations.
  - Recognize the competitive and operational role of organizational information systems.
  - Apply quantitative analysis and interpretation to business problems.

- **Apply critical thinking to business problems**
  - Interpret an enterprise-wide case study and recommend solutions.
  - Use cross-disciplinary knowledge to identify problems and their causes, generate alternative solutions, and arrive at reasoned conclusions.
  - Use information technology to analyze and implement business decisions.

- **Demonstrate effective oral and written communication**
  - Formulate reasoned arguments orally.
  - Formulate reasoned arguments in written communication.
  - Apply team-work and communication skills to present and support conclusions.

- **Understand the ethical, legal, and social responsibilities of individuals and organizations.**
  - Understand ethical issues.
  - Assess the impact of managers and employees as agents, including the impact of their decisions on the organization, its stockholders, its employees, its customers and the community-at-large.
  - Apply stakeholder analysis to social and business issues and consider and evaluate possible conflicts of interests.

**Special Facilities & Programs**

**Center for Student Professional Development (CSPD)**

The Center for Student Professional Development (CSPD) is an active partner in your collegiate experience at the Fox School of Business. Besides academic preparation, professional development is important to your preparation for life after graduation. Consequently, the Fox School has integrated a unique professional development component into both the undergraduate and graduate curricula.

Rather than simply focus on the traditional career elements such as resume development and interview strategies, etc., CSPD strives to differentiate you by taking a multi-faceted approach with a focus on personal development, career/industry awareness and impression management. This strategy in combination with job search coaching will truly make a difference in terms of your marketability.

CSPD services/resources:

- One-on-one coaching sessions
- Group workshops
- On-line career resources
- Job postings/resume referrals
- Web-based career management system – FoxNet
- On-campus recruiting
- Industry (Mock) interviews
- Executive speaker series
- Networking events with employers/alumni
- Annual Leadership Retreats
- BA2101 – Professional Development Strategies course (BBA)

As mentioned, CSPD is your partner in this process. This means YOU need to take an active role in your professional/career development. The time and energy you invest in your job and internship search will be reflected in the career opportunities available to you.
You have already invested in your future by pursuing a business degree from the Fox School. However, a degree alone will not land you that ideal job. Take the next step and make your investment pay off by taking advantage of the resources CSPD has to offer and start creating your “dream job” strategy from day one!

Internship Programs
The Center for Student Professional Development and Student Professional Organizations work in partnership with employers to connect students with a wide variety of internship positions, both full and part-time. For more information on internship opportunities, please contact the student professional organization for your major or the Center for Student Professional Development at 215-204-2371.

Honors Program
The Fox School of Business and Management offers a stimulating Honors Program for students who demonstrate exceptional ability and achievement in their studies. High school students with SAT scores of at least 1420 (Math and Critical Reading/Writing average) or an ACT (Composite) of 32 and rank in the top 10% of their class are automatically reviewed for admission at the time of application to the University. Continuing/transfer students with at least a 3.70 grade point average are encouraged to apply. All students must first apply and be accepted to the University Honors Program. The program consists of a ten-course academic component and completion of a yearly leadership component and students earn an Honors Certificate upon completion of the program. More information is available at Fox Honors (http://www.fox.temple.edu/cms_academics/honors).

Students admitted to the Fox Honors Program may apply to join the Alter Research Scholars program prior to the start of their junior year. Alter Research Scholars work with faculty mentors on research projects in their chosen field. The research culminates in a senior thesis that students present during the spring of their senior year. Special scholarships are available for the two-year Alter Research Scholars program.

Students who enter the Fox Honors Program are encouraged to join the Business Honors Student Association, as well as the student organization in their major. For more information about the Fox Honors Program and the Alter Research Scholars Program, please contact Dr. Jonathan Scott, Academic Director, Fox Honors Program, Alter Hall LL30 or Charles Allen, Administrative Director, 215-204-4101, or visit the web site (http://www.fox.temple.edu/cms_academics/honors).

Pre-Business Program
The Pre-Business program is a first-time freshman year program operated by the Fox School of Business and Management and the School of Tourism and Hospitality Management (STHM). The program is designed to prepare students to successfully transition to the academic rigors of an undergraduate business degree program.

Pre-Business students will take several foundation courses required by the Bachelors of Business Administration degree program, while gaining access to quality resources and services to help them effectively navigate their first year at Temple. The Pre-Business program leverages a network of assistance programs at the university to provide students a greater opportunity for scholastic achievement.

For further information, go to the Pre-Business (p. 1214) page.

Honorary Societies, Awards, & Student Associations
Beta Gamma Sigma
The Gamma Chapter of Beta Gamma Sigma, the international honorary business society, was installed in the Fox School of Business and Management in March 1935. Membership is limited to standing-year juniors and seniors who are in the upper 10 percent of their class. The members of Beta Gamma Sigma are elected on the basis of high scholarship. Eligible students will be notified by the Dean in March and invited to attend a special induction ceremony in May. Please contact Lori Roseman at 215-204-4101 for more information.

Alpha Mu Alpha
A national marketing honorary society, established by the American Marketing Association in 1981, to recognize and reward the scholastic achievement of marketing students as well as academic excellence in the discipline and science of marketing. To be invited to join Alpha Mu Alpha, marketing majors are required to have 90+ credit hours and be in the top 15% of their class based on GPA. Inductions are made for graduating students in Spring and Fall. For more information, please contact the AMA Faculty Advisor, Mary Conran at mary.conran@temple.edu.

Beta Alpha Psi
This national honorary fraternity was established for students of accountancy, finance, and information systems. For more information, please contact the officers of Beta Alpha Psi at 215-204-8889 or view their web site (http://www.fox.temple.edu/cms_career/student-professional-organizations/beta-alpha-psi).

Financial Management Association/National Honor Society
This national honorary society strives to provide opportunities to enhance the professional development of its members. For more information, contact the FMA executive officers at 215-204-6673, or go to The Fox School | Financial Management Association (http://www.fox.temple.edu/cms_career/student-professional-organizations/financial-management-association).
Gamma Iota Sigma
This is an international Risk Management, Insurance, and Actuarial Science fraternity. The purpose of the Sigma Chapter of Gamma Iota Sigma (http://www.fox.temple.edu/cms_career/student-professional-organizations/gamma-iota-sigma) is to encourage, establish, and enhance the professionalism of students in the Risk Management, Healthcare Risk Management, and Actuarial Science programs. Contact Dr. R.B. Drennan in the Risk, Insurance, and Healthcare Management Department at 215-204-8894 or contact the GIS Officers at 215-204-9368.

Student Organizations
www.fox.temple.edu/cms_career/student-professional-organizations

As part of the student's overall professional development, all Fox students are strongly encouraged to participate in student organizations, professional associations, and academic fraternities. All major areas of concentration in the undergraduate curriculum have an associated organization. Freshmen and sophomores can utilize the organizations to find out more about the major fields of study available to them. The student organizations provide an opportunity for students to meet one another outside the classroom as well as to meet practicing professionals from industry and government. Many organizations have an array of social activities that range from fund raising and community service projects to evening gatherings.

The Fox School of Business and Management has the following student professional organizations:

- Ascend
- American Marketing Association
- Association for Information Systems
- Beta Alpha Psi
- Business Honors Student Association
- Entrepreneurial Student Association
- Financial Management Association/National Honor Society
- Gamma Iota Sigma
- International Business Association
- Institute of Management Accountants
- National Association for Black Accountants
- Net Impact
- Phi Alpha Delta Pre-Law Fraternity
- Phi Beta Lambda Business Fraternity
- Professional Sales Organization
- Temple Real Estate Organization
- Temple University Investment Association
- Temple University Supply Chain Association
- The Society for Human Resource Management
- Temple Economics Society
- Toastmasters

Please contact the College Council Officers at 215-204-6660 for more information about student organizations on the Main Campus. At the Ambler Campus, please call 267-468-8100.

Fox School of Business & Management College Council (FSBMCC)
The college council is comprised of the presidents from each of the recognized Fox student organizations, associations, and fraternities. The council's role is to assist the individual student organizations in recruiting members, obtaining funding, sponsoring activities, identifying outside speakers, and communicating with students. The college council sponsors volunteer opportunities, student organization fairs, and social events for all Fox students. The council also works closely with the dean's office and the Center for Student Professional Development to identify issues that are of concern to students and the student organizations. To contact the Main Campus college council, please call 215-204-6660. At the Ambler Campus, please call 267-468-8100.

dcampbell@temple.edu
Academic Policies & Regulations

The university policies and regulations apply to all undergraduate students and provide a framework within which schools and colleges may specify further conditions or variations appropriate to students in their courses or programs. Policies specific to FSBM are as follows:

Anticipation of Graduation

Students must submit an application for graduation using the University online graduation application in Self Service Banner prior to the Continuing Student Registration period for their final semester. The Fox School of Business and Management requires students to submit an electronic “Request for Graduation Review” prior to registration for their final semester. Current graduation information is available from the Center for Undergraduate Advising (http://www.fox.temple.edu/cms_academics/dept/advising/graduation/overview).

Courses Inapplicable to Graduation Requirements

Semester hours earned in SRAP or ELECT, Preparatory Mathematics (formerly Mathematics 0001 or 0015), and lower-division (under 3000) Military Science courses do not yield academic credit toward the minimum total of 124.

Credit is only awarded in academic subjects with a corresponding Temple department. Duplicate credit in the same course is not awarded in any case.

Co-Requisites And Prerequisites

Students may be de-enrolled from courses for which they do not meet prerequisites and co-requisites. (Please see the Prerequisites and Co-requisites (p. 99) policy for more information.) Students are responsible for reviewing and abiding by all course prerequisites and co-requisites in the Course Catalog (http://www.temple.edu/apply/common/catcheck.asp). The requirements are designed to assure that students are appropriately prepared to be successful in their courses. Prerequisites provide an efficient manner for students to register for the next course in a sequence for which they are prepared.

Dean's List

Each fall and spring semester, those undergraduates who have met the credit hour and academic criteria for their school or college are placed on the Dean's List. See the Dean's List (p. 92) policy for specific GPA and credit-hour requirements.

Probation and Dismissal

Students in the Fox School of Business and Management are bound by the university policy on Academic Standing (http://policies.temple.edu/getdoc.asp?policy_no=02.10.11).
Grade Point Average Requirement for Graduation

Fox students are required to attain a 2.0 (2.0=C) average in all of their Temple coursework and in their major in order to graduate from the Fox School of Business and Management. Some courses may have specific higher minimum grade requirements for degree applicability. Please check current course descriptions and the section pertaining to your major for this information. In addition, the Center for Undergraduate Advising provides a Major GPA calculator (http://www.fox.temple.edu/cms_academics/dept/advising/students/gpa-calculator).

Life Experience

The Fox School of Business and Management does not offer credits for life experiences. Please see Credit for Prior Learning (p. 92) under the Academic Policies section of this Bulletin for information about advanced placement or CLEP examinations.

Leave of Absence/Re-enrollment/Reinstatement

Fox students who wish to voluntarily withdraw from the university for one or two semesters (fall and/or spring) are strongly encouraged to apply for a Leave of Absence (LOA). If approved, these students remain eligible for the same requirements as when they declared their major and will have access to Temple e-mail, university library systems, and priority and self registration for the approved semester of return. By contrast, students who leave the university without any notice and without an approved LOA must apply to be re-enrolled and, if allowed to return, must follow the most recent university curricular requirements in place for the semester of their return. If no LOA was filed, before students return, they must indicate any course(s) taken since leaving Temple and provide a copy of an official transcript from each institution attended. Students who received a medical withdrawal may be asked to provide medical documentation clearing them to return to school and to schedule an interview with an advisor before a re-enrollment decision can be made. Any existing holds must be cleared prior to re-enrollment.

Leaf of Absence and Re-enrollment forms are available online (http://www.fox.temple.edu/cms_academics/dept/advising/forms). Further details can be viewed at Policy_02.10.16 (http://policies.temple.edu/getdoc.asp?policy_no=02.10.16).

Students who were dismissed for academic reasons should see the university policy on Academic Standing (http://policies.temple.edu/getdoc.asp?policy_no=02.10.11).

Repeating Courses

University policy restricts the number of times students can enroll in the same course to three times. Permission is required to register for the third attempt of the same course. Students should work closely with an academic advisor to review their options when required to repeat a course. Students who fail to complete a “College Graduation Requirement” in three attempts will be required to change their program to one outside the Fox School of Business and Management. Students who fail to complete a required major course listed in their academic program will be required to change to a different major. For more information, see Repeating a Course (p. 99) and Policy 02.10.12 (http://policies.temple.edu/getdoc.asp?policy_no=02.10.12).

Residence Requirement

A minimum of 45 of the last 60 semester hours must be completed in the Fox School of Business and Management at Temple University in order to receive a degree. In addition, a minimum of 50% of the business courses and the majority of the requirements of a major must be completed at Temple University. For more information, see the Academic Residency Requirements (p. 83).

Transfer Credits

Business courses taken at colleges or universities which are not members of The Association to Advance Collegiate Schools of Business (AACS (http://www.aacsb.edu)) will be accepted for transfer business credits only if they are equivalent to the following:

MKTG 2101 and HRM 1101 (formerly Human Resource Administration) will be accepted for transfer if they were taken during the fall 1994 semester or later. HRM 2501 will be accepted for transfer if taken during the spring 2005 semester or later. Specific articulation agreements with local colleges may expand on this list. View current articulation agreements (http://www.temple.edu/vpus/transfer/agreements.htm).
Additional business credits are accepted from colleges that are members of the AACSB. It should be understood that it is possible for a student to transfer in a large number of credits which, while accepted by the university, may exceed the maximum number of elective credits applicable to the degree.

**Permission to Complete Courses at Another Institution**

Consistent with the University Policy (p. 98) students will not receive transfer credit for courses taken at another institution while they are matriculated at Temple University unless prior permission has been obtained. Completed permission forms (http://www.fox.temple.edu/cms_academics/dept/advising/forms) with supporting documentation should be submitted to the Fox School of Business and Management advising offices. Please refer to the above section on transfer credits. Students should allow approximately two weeks for processing once permission forms and documentation have been submitted. For more information, refer to Permission to Complete a Course at another Institution after Matriculation (p. 98).

**Non-Degree Seeking Student Policy**

Students not formally admitted (p. 97) to Temple University may take undergraduate courses numbered under 3000 in the Fox School of Business and Management. Undergraduate courses numbered above 3000 are open to visiting students who have completed a minimum of 60 credits, have met course prerequisites, and have written permission from their home institution. Students who have a baccalaureate degree and the prerequisites for the course desired may also enroll in advanced courses.

**College Graduation Requirements**

The degree of Bachelor of Business Administration (B.B.A.) may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 124 semester hours of credit with a minimum cumulative GPA of 2.0 overall and in the major. A minimum of 124 credit hours will be earned in the following four requirement categories:

- University General Education (GenEd) Requirements
- Fox School of Business & Management lower- and upper-division requirements
- Major requirements
- Electives

Students must follow the program requirements in effect at the time the major is declared or changed. Program requirements include both the College Graduation Requirements listed here and the courses required for the major listed in the Programs of Study. Students not continuously enrolled who have not been approved for a Leave of Absence or study elsewhere must follow University requirements current at the time of re-enrollment.

**University General Education Curriculum**

The General Education curriculum (GenEd (p. 143)) is required for all students. Note that students not continuously enrolled who have not been approved for a Leave of Absence or study elsewhere must follow University requirements current at the time of re-enrollment.

**Fox School of Business & Management Requirements**

**Lower-Division Foundation Requirements**

Note: 1000-level courses are typically taken in freshman year; 2000-level courses are typically taken in sophomore year.

**Total Credit Hours**

42
Higher level courses may be recommended depending on the mathematics placement score or the student's intended major. Actuarial Science majors should refer to the math courses listed under the Actuarial Science major description.

Successful completion of this course will waive the General Education Quantitative Literacy requirement.

Accounting and Entrepreneurship majors must take ACCT 2521 instead of ACCT 2102.

Note: In order to graduate, a grade of C- or better must be obtained in all FSBM lower-division requirements.

Upper-Division Foundation Requirements

Note: 3000-level courses are typically taken in the junior or senior year; 4000-level courses are taken in the senior year.

Total Credit Hours 18

¹ Actuarial Science majors must take AS 2503 instead of FIN 3101.
² Economics majors replace IB 3101 with ECON 3563 or ECON 3564.
   Finance and Real Estate majors replace IB 3101 with FIN 3551.
   Marketing majors replace IB 3101 with MKTG 3553.
   Actuarial Science and Risk Management majors replace IB 3101 with RMI 3567.
   IB 3101 is waived for students who major in Accounting and Management Information Systems only if a second major or a minor is not completed.
   Consult your academic advisor.

Note: In order to graduate, a grade of C- or better must be obtained in all FSBM upper-division requirements for students with Fall 2015 admit dates and beyond.

Major Requirements

Major requirements are determined by the effective semester of their declaration and students should declare their majors upon the completion of 60 credits in consultation with their academic advisors. Major requirements include both the College Graduation Requirements listed above and the courses required for the major listed in the Programs of Study.

Twenty-one business courses (60 s.h.) are required as part of the lower- and upper-division foundation requirements for the B.B.A. program. In addition, a minimum of six business courses must be completed in the major. In completing the courses in the major, students will become competent in understanding critical business concepts and the practice of ethical decision-making, and demonstrate both effective written and oral communication and the ability to apply critical thinking to business problems. Students who choose to pursue a dual major in business can double-count a maximum of one course toward both majors. All Fox students must take a minimum of two writing-intensive courses at Temple. One of these courses will be BA 2196; the second will be a writing-intensive course in the major.

**NOTE:** Many upper-division foundation courses and major courses have prerequisites. Some prerequisites also include minimum grade requirements. Students are required to meet all prerequisites. Prerequisites will be strictly enforced and the school reserves the right to de-enroll students from courses when prerequisites have not been met. Course descriptions, including prerequisites, are found in the Course Catalog in Self-Service Banner, accessed through the TUportal (https://tuportal4.temple.edu/cp/home/displaylogin).

Electives

**Free electives:** Students who have satisfied all of the requirements for GenEd, the Fox School Foundation, and the major will need additional credits to achieve the 124 credit minimum required for graduation. These credits may be taken in either business or non-business courses. Students
are encouraged to explore completing a minor, a certificate, or a second major for these credits. Students who choose to pursue a dual major in
business can double-count a maximum of one course toward both majors. Students who choose to pursue one or more minors may not double-count
courses already used to meet the requirements for a major or different minor.

Academic Advising

Center for Undergraduate Advising
http://www.fox.temple.edu/cms_academics/dept/advising/

The Center for Undergraduate Advising provides advising at three campuses: Main, Ambler, and Center City (TUCC).

The Main Campus office is open every weekday. The Ambler and Center City offices are open on selected days and evenings. Please see our web site
for current office hours (http://www.fox.temple.edu/cms_academics/dept/advising/contact/contact).

Our purpose is to provide quality academic advising services that empower students to make informed decisions about their education, projected
career, and personal/professional life at Temple University. Students work collaboratively with our academic advising team to develop individual plans
for academic success, interpret university policy, fully utilize campus resources, and engage in the process of reflection and decision making that will
promote their achievement.

We have two advising teams dedicated to working with students at each academic level. Freshman/Sophomore Advising (http://www.fox.temple.edu/
cms_academics/dept/advising/staff/freshmansophomore-advising) focuses on the transition to college life, major exploration within Fox, successful
completion of the lower-division foundation requirements, and retention. Junior/Senior Advising (http://www.fox.temple.edu/cms_academics/dept/
advising/staff/juniorsenior-advising) focuses on ensuring students are making satisfactory progress in their major, have completed their graduation audit
prior to their final semester, and are prepared to graduate. Junior and senior students are assigned a personal advisor based on their declared major.

As active participants in the advising process, students bear the ultimate responsibility for making educational and career decisions. Therefore, we rely
on students to be prepared with questions, research options before they come to their meeting, and to refer to their advising notes both before and after
advising meetings. Students are expected to know University Policies (p. 81) and their program requirements as defined in their Bulletin and on their
DARS (http://www.fox.temple.edu/cms_academics/dept/advising/students/dars) report.

Advisors, in turn, strive to provide knowledgeable assistance to ensure students’ accurate understanding of University and School policies, utilization
of campus resources, interpretation of curriculum requirements, and timely completion of degree requirements. Students in Fox have several ways to
meet with an academic advisor (http://www.fox.temple.edu/cms_academics/dept/advising/overview/overview), including Scheduled Appointments for
academic planning, Daily Walk-in Advising for quick questions, and Virtual Advising for students unable to come to campus during business hours.

Peer Advising

The Center for Undergraduate Advising is pleased to provide peer advising on Main Campus, comprised of undergraduate peer advisors recruited from
among the best and brightest in the Fox School of Business. Peer advisors provide the perspective of an upper-class student and are trained to assist
business students to be successful by sharing their knowledge and personal strategies for academic success. For more information, visit Peer Advising

Office of the Ombudsperson

The Fox School of Business and Management Ombudsperson assists students in Fox to resolve problems and conflicts that might arise from the
classroom, acting as mediator between faculty and students while promoting alternatives to more formal processes. The ombudsperson supports
effective communication, cooperation, equity, and civility in all academic and scholastic settings. Students who believe they have been treated unfairly
in an academic matter should first meet with the appropriate ombudsperson.

For more information, refer to grievance procedures (http://www.fox.temple.edu/cms_academics/dept/advising/students/grievance-procedures) or
contact the Center for Undergraduate Advising at foxombud@temple.edu or 215-204-7672 for further information.

Faculty

In addition to the faculty list below, refer to the school's faculty directory (http://www.fox.temple.edu/posts/people-category/cms-faculty) and staff directory (http://www.fox.temple.edu/posts/people-category/staff).

Joan Allatta, Assistant Professor (Teaching/Instructional), Department of Strategic Management, Fox School of Business and Management; Ph.D., University of Pennsylvania.

Andrew Allmond, Assistant Professor (Practice), Department of Marketing and Supply Chain Management, Fox School of Business and Management; M.J., Temple University.

Ronald Anderson, Professor, Department of Finance, Fox School of Business and Management; Ph.D., Texas A and M University.

Lynne M. Andersson, Associate Professor, Department of Human Resource Management, Fox School of Business and Management; Ph.D., University of North Carolina at Chapel Hill.

Paul K. Asabere, Professor, Department of Finance, Fox School of Business and Management; Ph.D., University of Illinois at Urbana-Champaign.

Hilal Atasoy, Assistant Professor (Research), Department of Accounting, Fox School of Business and Management; Ph.D., University of Illinois at Urbana-Champaign.

Craig Atwater, Instructor (Teaching/Instructional), Department of Marketing and Supply Chain Management, Fox School of Business and Management; Ph.D., Temple University.

Cynthia Axelrod, Assistant Professor (Practice), Department of Finance, Fox School of Business and Management; M.B.A., Drexel University.

Steven Balsam, Professor, Department of Accounting, Fox School of Business and Management; Ph.D., City University of New York.

Rajiv D. Banker, Professor, Department of Accounting, Fox School of Business and Management; D.B.A., Harvard University.

Sudipta Basu, Professor, Department of Accounting, Fox School of Business and Management; Ph.D., University of Rochester.

Gary J. Blau, Professor, Department of Human Resource Management, Fox School of Business and Management; Ph.D., University of Cincinnati.

Misty P. Blessley, Assistant Professor (Teaching/Instructional), Department of Marketing and Supply Chain Management, Fox School of Business and Management; Ph.D., Temple University.

Jeffrey R. Boles, Assistant Professor, Department of Legal Studies in Business, Fox School of Business and Management; Ph.D., University of California Berkeley.

Edward C. Boyer, Assistant Professor (Teaching/Instructional), Department of Finance, Fox School of Business and Management; Ph.D., Temple University.

Lawrence Brown, Professor (Research), Department of Accounting, Fox School of Business and Management; Ph.D., University of Rochester.

Dmitri Byzalov, Assistant Professor, Department of Accounting, Fox School of Business and Management; Ph.D., Harvard University.

Dwight Carey, Assistant Professor (Practice), Department of Strategic Management, Fox School of Business and Management; B.S., Farleigh Dickinson University at Madison.
Alexandra D. Carides, Assistant Professor (Teaching/Instructional), Department of Statistics, Fox School of Business and Management; Ph.D., Temple University.

Debra Casey, Assistant Professor (Teaching/Instructional), Department of Human Resource Management, Fox School of Business and Management; Ph.D., Rutgers University-New Brunswick.

Steven J. Casper, Assistant Professor (Teaching/Instructional), Department of Finance, Fox School of Business and Management; Ph.D., Temple University.

Boyoun Chae, Assistant Professor, Department of Marketing and Supply Chain Management, Fox School of Business and Management; Ph.D., University of British Columbia.

Rajeswararao S. Chaganti, Professor, Department of Strategic Management, Fox School of Business and Management; Ph.D., State University of New York.

Rajan Chandran, Professor, Department of Dean's Office, Fox School of Business and Management; Ph.D., Syracuse University.

Hua Chen, Assistant Professor, Department of Risk, Insurance and Healthcare Management, Fox School of Business and Management; Ph.D., Georgia State University.

Pallavi Chitturi, Associate Professor (Research), Department of Statistics, Fox School of Business and Management; Ph.D., University of Texas at Austin.

J. Jay Choi, Professor, Department of Finance, Fox School of Business and Management; Ph.D., New York University.

George Chressanthis, Professor (Teaching/Instructional), Department of Risk, Insurance and Healthcare Management, Fox School of Business and Management; Ph.D., Purdue University.

Teresa Gill Cirillo, Assistant Professor (Practice), Department of Marketing and Supply Chain Management, Fox School of Business and Management; M.A., Rowan University.

Shira Cohen, Assistant Professor, Department of Accounting, Fox School of Business and Management; Ph.D., Columbia University.

Mary Conran, Assistant Professor (Practice), Department of Marketing and Supply Chain Management, Fox School of Business and Management; M.B.A., Temple University.

J. David Cummins, Professor, Department of Risk, Insurance and Healthcare Management, Fox School of Business and Management; Ph.D., University of Pennsylvania.

Kathleen A. Davis, Assistant Professor (Practice), Department of Human Resource Management, Fox School of Business and Management; J.D., University of California Berkeley.

John R. Deckop, Professor, Department of Human Resource Management, Fox School of Business and Management; Ph.D., University of Minnesota.

Mercedes Delgado, Assistant Professor, Department of Strategic Management, Fox School of Business and Management; Ph.D., Universidad Complutense de Madrid.

C. Anthony Di Benedetto, Professor, Department of Marketing and Supply Chain Management, Fox School of Business and Management; Ph.D., McGill University.

Angelika Dimoka, Associate Professor, Department of Marketing and Supply Chain Management, Fox School of Business and Management; Ph.D., University of Southern California.

Yuexiao Dong, Assistant Professor, Department of Statistics, Fox School of Business and Management; Ph.D., Pennsylvania State University.

Martin J. Doyle, Assistant Professor (Practice), Department of Management Information Systems, Fox School of Business and Management; M.S., University of Phoenix.

Rob B. Drennan, Associate Professor, Department of Risk, Insurance and Healthcare Management, Fox School of Business and Management; Ph.D., University of Pennsylvania.

Leora F. Eisenstadt, Assistant Professor (Research), Department of Legal Studies in Business, Fox School of Business and Management; J.D., New York University School of Law.

Eric Eisenstein, Assistant Professor, Department of Marketing and Supply Chain Management, Fox School of Business and Management; Ph.D., University of Pennsylvania.

Elyas E. Elyasiani, Professor, Department of Finance, Fox School of Business and Management; Ph.D., Michigan State University.
Philip English, Assistant Professor (Research), Department of Finance, Fox School of Business and Management; Ph.D., University of South Carolina.

Kevin J. Fandi, Assistant Professor (Research), Department of Legal Studies in Business, Fox School of Business and Management; Ph.D., George Mason University.

Susan Feinberg, Associate Professor, Department of Strategic Management, Fox School of Business and Management; Ph.D., University of Minnesota.

Stuart H. Fine, Associate Professor (Practice), Department of Risk, Insurance and Healthcare Management, Fox School of Business and Management; Ph.D., Medical University of South Carolina.

Jennifer M. Fitzgerald, Instructor (Practice), Department of Marketing and Supply Chain Management, Fox School of Business and Management; M.B.A., Temple University.

Laurie J. Fitzpatrick, Assistant Professor (Practice), Department of Marketing and Supply Chain Management, Fox School of Business and Management; M.F.A., Temple University.

Richard Y. Flanagan, Assistant Professor (Teaching/Instructional), Department of Management Information Systems, Fox School of Business and Management; Ph.D., Temple University.

Nathan Fong, Assistant Professor, Department of Marketing and Supply Chain Management, Fox School of Business and Management; Ph.D., Massachusetts Institute of Technology.

Jane H. Frankel, Assistant Professor (Teaching/Instructional), Department of Strategic Management, Fox School of Business and Management; M.S., University of Pennsylvania.

Mary Anne Gaffney, Associate Professor, Department of Accounting, Fox School of Business and Management; Ph.D., University of Maryland.

Deanna Geddes, Associate Professor, Department of Human Resource Management, Fox School of Business and Management; Ph.D., Purdue University.

Mark E. Gershon, Professor, Department of Marketing and Supply Chain Management, Fox School of Business and Management; Ph.D., University of Arizona.

Katherine W. Gerst, Assistant Professor (Practice), Department of Marketing and Supply Chain Management, Fox School of Business and Management; M.B.A., Temple University.

Melissa Glenn-Fleming, Assistant Professor (Practice), Department of Marketing and Supply Chain Management, Fox School of Business and Management; M.A., La Salle University.

Elizabeth A. Gordon, Associate Professor, Department of Accounting, Fox School of Business and Management; Ph.D., Columbia University.

Isaac Gottlieb, Professor (Clinical), Department of Statistics, Fox School of Business and Management; Ph.D., Columbia University.

Brad Greenwood, Assistant Professor, Department of Management Information Systems, Fox School of Business and Management; Ph.D., University of Maryland College Park.

Manak C. Gupta, Professor, Department of Finance, Fox School of Business and Management; Ph.D., University of California Los Angeles.

Terry Ann Halbert, Professor, Department of Legal Studies in Business, Fox School of Business and Management; J.D., Rutgers University.

Robert D. Hamilton III, Professor, Department of Strategic Management, Fox School of Business and Management; Ph.D., Northwestern University.

Xu Han, Assistant Professor, Department of Statistics, Fox School of Business and Management; Ph.D., University of Pennsylvania.

Crystal M. Harold, Assistant Professor, Department of Human Resource Management, Fox School of Business and Management; Ph.D., George Mason University.

Roie Hauser, Assistant Professor (Research), Department of Finance, Fox School of Business and Management; Ph.D., University of Chicago.

Richard M. Heiberger, Professor Emeritus, Department of Statistics, Fox School of Business and Management; Ph.D.

Theodore L. Hill III, Associate Professor (Teaching/Instructional), Department of Strategic Management, Fox School of Business and Management; Ph.D., Temple University.

Arthur Hochner, Associate Professor, Department of Human Resource Management, Fox School of Business and Management; Ph.D., Harvard University.

Samuel D. Hodge Jr., Professor, Department of Legal Studies in Business, Fox School of Business and Management; J.D., Temple University.
Brian C. Holtz, Assistant Professor, Department of Human Resource Management, Fox School of Business and Management; Ph.D., George Mason University.

H. Donald Hopkins, Associate Professor, Department of Strategic Management, Fox School of Business and Management; Ph.D., Pennsylvania State University.

Andrea Hornett, Assistant Professor (Teaching/Instructional), Department of Marketing and Supply Chain Management, Fox School of Business and Management; Ph.D., George Washington University.

Forrest E. Huffman, Professor, Department of Finance, Fox School of Business and Management; Ph.D., University of South Carolina.

James M. Hunt, Associate Professor, Department of Marketing and Supply Chain Management, Fox School of Business and Management; Ph.D., University of Cincinnati.

James Hutchin, Associate Professor (Practice), Department of Strategic Management, Fox School of Business and Management; M.B.A., American Graduate School of International Management.

Daniel Isaacs, Assistant Professor (Teaching/Instructional), Department of Legal Studies in Business, Fox School of Business and Management; J.D., Brooklyn Law School.

Alan J. Izenman, Professor, Department of Statistics, Fox School of Business and Management; Ph.D., University of California Berkeley.

Cheng Jiang, Assistant Professor (Teaching/Instructional), Department of Finance, Fox School of Business and Management; Ph.D., University of California Riverside.

Kose John, Professor, Department of Finance, Fox School of Business and Management.

Darin Kapanjie, Assistant Professor (Teaching/Instructional), Department of Statistics, Fox School of Business and Management; Ed.D., Temple University.

Satyajit Karnik, Assistant Professor (Teaching/Instructional), Department of Finance, Fox School of Business and Management; Ph.D., University of Michigan.

Howard Keen, Assistant Professor (Teaching/Instructional), Department of Finance, Fox School of Business and Management; Ph.D., Bryn Mawr College.

Ron Kershner, Assistant Professor (Teaching/Instructional), Department of Statistics, Fox School of Business and Management; Ph.D., Cornell University.

You Jin Kim, Assistant Professor, Department of Human Resource Management, Fox School of Business and Management; Ph.D., Michigan State University.

Harold E. Klein, Associate Professor, Department of Strategic Management, Fox School of Business and Management; Ph.D., Columbia University.

Masaaki Kotabe, Professor, Department of Strategic Management, Fox School of Business and Management; Ph.D., Michigan State University.

Robert T. Krafty, Assistant Professor, Department of Statistics, Fox School of Business and Management; Ph.D., University of Pennsylvania.

A. J. Kreimer, Assistant Professor (Practice), Department of Accounting, Fox School of Business and Management; M.B.A., Temple University.

Jagannathan Krishnan, Professor, Department of Accounting, Fox School of Business and Management; Ph.D., Ohio State University.

Jayanthi Krishnan, Associate Professor, Department of Accounting, Fox School of Business and Management; Ph.D., Ohio State University.

Seok-Woo Kwon, Assistant Professor, Department of Strategic Management, Fox School of Business and Management; Ph.D., University of Southern California.

Nandini Lahiri, Assistant Professor, Department of Strategic Management, Fox School of Business and Management; Ph.D., University of Michigan.

James M. Lammendola, Assistant Professor (Practice), Department of Legal Studies in Business, Fox School of Business and Management; J.D., University of Tulsa College of Law.

Richard A. Lancioni, Professor Emeritus, Department of Marketing and Supply Chain Management, Fox School of Business and Management.

Vanessa J. Lawrence, Associate Professor, Department of Legal Studies in Business, Fox School of Business and Management; J.D., University of Pennsylvania School of Law.

Xi Li, Assistant Professor, Department of Accounting, Fox School of Business and Management; Ph.D., London Business School.
Yan Li, Assistant Professor, Department of Finance, Fox School of Business and Management; Ph.D., Cornell University.

Yuanzhi Li, Assistant Professor, Department of Finance, Fox School of Business and Management; Ph.D., New York University.

Andrea B. Lopez, Assistant Professor (Teaching/Instructional), Department of Human Resource Management, Fox School of Business and Management; Ph.D., Temple University.

Dian S. Luedtke, Assistant Professor (Practice), Department of Risk, Insurance and Healthcare Management, Fox School of Business and Management; M.A., University of Pennsylvania.

Xueming Luo, Professor, Department of Marketing and Supply Chain Management, Fox School of Business and Management; D.B.A., Louisiana Tech University.

Marco Malandra, Assistant Professor (Practice), Department of Accounting, Fox School of Business and Management; M.S., Golden Gate University.

Barbara B. Manaka, Assistant Professor (Teaching/Instructional), Department of Risk, Insurance and Healthcare Management, Fox School of Business and Management; Ph.D., Temple University.

Munir Y. Mandviwalla, Associate Professor, Department of Management Information Systems, Fox School of Business and Management; Ph.D., Claremont Graduate University.

Connie Xiangdong Mao, Associate Professor, Department of Finance, Fox School of Business and Management; Ph.D., Cornell University.

Elizabeth G. Matthew, Assistant Professor (Practice), Department of Marketing and Supply Chain Management, Fox School of Business and Management; M.A., Pennsylvania State University.

John A. McClendon, Associate Professor, Department of Human Resource Management, Fox School of Business and Management; Ph.D., University of South Carolina.

Michael McCloskey, Assistant Professor (Practice), Department of Risk, Insurance and Healthcare Management, Fox School of Business and Management; M.B.A., Drexel University.

Robert C. McNamee, Assistant Professor (Teaching/Instructional), Department of Strategic Management, Fox School of Business and Management; Ph.D., Rutgers University.

James P. Miller, Assistant Professor (Practice), Department of Marketing and Supply Chain Management, Fox School of Business and Management; Ph.D., University College Cork.

Martina Mincheva, Assistant Professor, Department of Statistics, Fox School of Business and Management; Ph.D., Princeton University.

Neha Mittal, Assistant Professor (Teaching/Instructional), Department of Marketing and Supply Chain Management, Fox School of Business and Management; Ph.D., Rutgers University.

Christopher Monos, Assistant Professor (Practice), Department of Marketing and Supply Chain Management, Fox School of Business and Management; Ph.D., Columbia University.

Christopher Moore, Instructor (Practice), Department of Risk, Insurance and Healthcare Management, Fox School of Business and Management; M.S., University of Akron.

Maureen Morrin, Professor, Department of Marketing and Supply Chain Management, Fox School of Business and Management; Ph.D., New York University.

Michael Moughan, Assistant Professor (Practice), Department of Accounting, Fox School of Business and Management; Ph.D., University of Delaware.

James C. Moustafellos, Assistant Professor (Practice), Department of Management Information Systems, Fox School of Business and Management; M.Arch., Princeton University.

Shreeram R. Mudambi, Professor, Department of Strategic Management, Fox School of Business and Management; Ph.D., Cornell University.

Susan Mudambi, Associate Professor (Research), Department of Marketing and Supply Chain Management, Fox School of Business and Management; Ph.D., University of Warwick.

Subhadeep Mukhopadhyay, Assistant Professor, Department of Statistics, Fox School of Business and Management; Ph.D., Texas A and M University.

David Nash, Assistant Professor (Practice), Department of Strategic Management, Fox School of Business and Management; M.S., University of Pennsylvania.

Lalitha Naveen, Associate Professor, Department of Finance, Fox School of Business and Management; Ph.D., Arizona State University.
Katherine Nelson, Instructor (Practice), Department of Human Resource Management, Fox School of Business and Management; M.S., Temple University.

E. Carey O'Donnell, Assistant Professor (Practice), Department of Management Information Systems, Fox School of Business and Management; B.A., Colgate University.

In-Sue Oh, Associate Professor, Department of Human Resource Management, Fox School of Business and Management; Ph.D., University of Iowa.

Bora Ozkan, Assistant Professor (Teaching/Instructional), Department of Finance, Fox School of Business and Management; Ph.D., University of New Orleans.

Min-Seok Pang, Assistant Professor, Department of Management Information Systems, Fox School of Business and Management; Ph.D., University of Michigan.

Arvind Parkhe, Professor, Department of Strategic Management, Fox School of Business and Management; Ph.D., Temple University.

Paul Pavlou, Professor, Department of Management Information Systems, Fox School of Business and Management; Ph.D., University of Southern California.

Tony Petrucci, Assistant Professor (Practice), Department of Human Resource Management, Fox School of Business and Management; Ph.D., Regent University.

M. Moshe Porat, Professor, Department of Dean's Office, Fox School of Business and Management; Ph.D., Temple University.

James D. Portwood, Professor, Department of Human Resource Management, Fox School of Business and Management; Ph.D., University of Michigan.
