- TOEFL score (international applicants only): 88 iBT or 575 PBT minimum. Applicants with scores between 88 and 100 iBT or between 575 and 600 PBT must take an English refresher course.

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Program Requirements**

**General Program Requirements:**

**Number of Credits Required Beyond the Baccalaureate:** 36, including 12 credits of core courses, 15 credits of AOD electives, 6 credits of non-AOD electives, and a 3-credit capstone course.

**Required Courses:**
Core Courses
AOD 5401  System Dynamics  3
AOD 5402  Communication and Conflict  3
AOD 5403  Facilitating Adult Learning  3
AOD 5404  Organizational Communication  3

Electives
Select at least five electives in AOD from the following:  15
AOD 5515  Conflict Resolution in Education
AOD 5516  Negotiation Processes
AOD 5518  Third-Party Conflict Intervention
AOD 5522  Interpersonal Skills Training
AOD 5524  Sociocultural Dynamics
AOD 5527  Training Design and Delivery
AOD 5532  Leadership and Management
AOD 5533  Team Development
AOD 5534  Group Facilitation and Consultation
AOD 5535  Organizational Assessment, Design and Strategy
AOD 5540  Current Topics in AOD
AOD 5530  Non-AOD electives  6

Capstone Course
AOD 9231  Proseminar in AOD  3

Total Credit Hours  36

Culminating Events:
Capstone Course Sequence (AOD 9231 Proseminar in AOD):
The capstone course is a proseminar. In the first part of the seminar,
students are assigned to groups that function as consulting teams,
working on cases, simulations, and/or general questions provided
by the faculty. The second part of the seminar is devoted to having
students identify, develop, and complete individual learning projects. The
seminar concludes with a session in which AOD faculty provide feedback
to students. The evaluation is based both on group and individual
performance. The capstone course must be taken in the last term of a
student’s coursework and after completion of the four required AOD core
courses. Students can take only one other elective course while they are
enrolled in the capstone course.

Applied Behavior Analysis, M.S.Ed.

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Program
The mission of the Master of Science in Education program in Applied
Behavior Analysis (ABA) is to enable its students to work proficiently with
the coherent system of concepts and principles of behavior analysis,
preparing them for professional careers in a variety of environments.
The core principles and techniques of ABA are broadly applicable,
therefore, the interdisciplinary character of this program. Demand for
individuals with applied behavior-analytic competencies is intense and
growing, especially in social service agencies and educational institutions
that serve individuals with autism or with developmental disabilities
and functional deficits resulting from head injury. The program also
provides competencies for diverse types of work, such as devising
arrangements for more effective instruction and classroom management;
teaching strategies for effective behavior management in home settings;
and designing and improving performance, productivity, and safety
in organizations. The program is anchored on fundamentals of the
behavior-analytic approach. These include direct and continuous
measures of behavior both before and during interventions and graphical
representation of outcomes, especially as applied to within-subject
research designs. Complementing these is an emphasis on the logic and
style of scientific prose and on principles of ethical practice.

Time Limit for Degree Completion: 4 years

Campus Location: Main, with some courses offered at off-site locations

Full-Time/Part-Time Status: Students complete the degree program
through classes offered after 4:30 p.m. The degree program can be
completed on a full- or part-time basis.

Accreditation: The degree program includes a course sequence
approved by the Behavior Analyst Certification Board (BACB).

Job Prospects: Graduates are prepared for professional careers in
a variety of environments, particularly in social service agencies and
educational institutions.

Licensure: Coursework may apply toward earning the Behavior
Specialist license from the Commonwealth of Pennsylvania.

Non-Matriculated Student Policy: Students may take up to, but not
more than, 9 credits of graduate study in the program before being
admitted to the program. The credits transfer into the program, if
the student is admitted. Students completing non-matriculated
courses before being admitted to the program are NOT guaranteed
admission.

Financing Opportunities: Financial support opportunities may include
scholarships, tuition remission, and other financial aid such as grants,
loans, and federal work study.
Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 2, with a third submitted at the applicant's discretion. Please submit the "Reference Report for Graduate Study," found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf.

From Whom: Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant's academic competence.

Coursework Required for Admission Consideration: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. Coursework or work experience that provided some exposure to behavior analysis is strongly preferred.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:

1. Standard exception: 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).

2. Special exception: Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

Standardized Test Scores:
TOEFL score (international applicants only): 88 iBT or 575 PBT minimum. Applicants with scores between 88 and 100 iBT or between 575 and 600 PBT must take an English refresher course.

Resume: Current resume required.

Credits Earned in a Certificate Program: Students who choose to enroll in the program may have up to 12 credits earned for either the Applied Behavior Analysis Certificate (http://education.temple.edu/aba) or Autism Endorsement Certificate (http://education.temple.edu/specialed/autism) applied to the M.S.Ed. upon acceptance into the program. Completion of a certificate program does not guarantee admission into the master's program, and students who are accepted may have to complete more than 33 credits to meet all requirements of the master's program. Students currently enrolled in a certificate program and considering matriculation into a master's program are encouraged to apply as early as possible.

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Program

The mission of the Master of Science in Education program in Career and Technical Education is to enable its students to apply advanced pedagogical skills, knowledge, and attributes in a career and technical education setting at the secondary and post-secondary levels. Individuals pursuing this degree already hold instructional or vocational certification in Pennsylvania. While pursuing this degree, individuals may pursue Pennsylvania certification in cooperative education, supervision of vocational education, or director of vocational education. The degree provides specialized knowledge in areas of workforce development; leadership; industry trends and issues; the role of workforce development in a dynamic economy; and infusing industry standards into secondary career and technical education programs.

Time Limit for Degree Completion: 4 years

Campus Location: Main, Fort Washington

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Accreditation: The program is accredited by the Teacher Education Accreditation Council (TEAC).

Job Prospects: Graduates are prepared for leadership roles as teachers, adult instructors, curriculum specialists, career and technical center administrators, and technical trainers in business and industry.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2, with a third submitted at the applicant's discretion. Please submit the "Reference Report for Graduate Study," found at http://www.temple.edu/grad/admissions/documents/ Web_GRAD_REFERENCE_REPORT.pdf.

From Whom: Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant's academic competence.

Coursework Required for Admission Consideration: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. Official undergraduate and graduate transcripts from all accredited institutions attended are required, as well as a copy of a valid PA Teaching Certification or demonstration of at least two years of successful practice in an educational setting

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:

1. Standard exception: 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).

2. Special exception: Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

Standardized Test Scores:

TOEFL score (international applicants only): 88 iBT or 575 PBT minimum. Applicants with scores between 88 and 100 iBT or between 575 and 600 PBT must take an English refresher course.

Resume: Current resume required.

Transfer Credit: Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

Coursework Waivers: Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student's credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

Career and Technical Education/  
Business, Computer and  
Information Technology, M.Ed.

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Program

The mission of the Career and Technical Education master's program with a concentration in Business, Computer and Information Technology is to enable its students to become effective teachers in all of the business domains typically taught in K-12 schools, including computer and information technology; law, entrepreneurship, and international business; quantitative skills and accounting; management and marketing concepts; economics and personal finance; and business communications. Individuals completing the program find success in K-12 teaching, post-secondary teaching in community colleges, and business skills training.

Time Limit for Degree Completion: 4 years

Campus Location: Main, Fort Washington

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Accreditation: The program is approved as a teacher certification program by the Pennsylvania Department of Education and is accredited by the Teacher Education Accreditation Council (TEAC).

Job Prospects: Graduates typically continue in their established career paths as career and technical educators, work-force development professionals, and technical trainers in business and industry.

Licensure: Upon successful completion of the degree requirements and passing all required licensure examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1  
Spring: November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2, with a third submitted at the applicant's discretion. Please submit the "Reference Report for Graduate Study," found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf.

From Whom: Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant's academic competence.

Coursework Required for Admission Consideration: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. Further, the Pennsylvania Department of Education expects that all individuals seeking teacher certification at the master's level, regardless of the discipline, have taken at least 6 credits of college-level mathematics and 6 credits of college-level English composition and literature in their undergraduate program.
Prerequisites for admission to the specialization in Business, Computer and Information Technology for Career and Technical Education include coursework in each of the following areas: 1) computer and information technology; 2) law, entrepreneurship, and international business; 3) quantitative skills and accounting; 4) management and marketing concepts; 5) economics and personal finance; and 6) business communications. Individuals holding a degree in Business from an accredited four-year institution generally meet these requirements. The prerequisite work can also be accomplished by post-baccalaureate coursework at the graduate or undergraduate level.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:

1. **Standard exception**: 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).

2. **Special exception**: Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**

- **Praxis I®**: Applicants must pass the Praxis I® examination required by the Pennsylvania Department of Education. A minimum score of 180 must be obtained in each Core Academic Skills for Educators Test in Reading, Writing, and Mathematics.
- **Praxis II®**: Applicants must pass appropriate subject-area exams on the Praxis II®.

**TOEFL score** (international applicants only): 88 iBT or 575 PBT minimum. Applicants with scores between 88 and 100 iBT or between 575 and 600 PBT must take an English refresher course.

**Resume**: Current resume required.

**Transfer Credit**: Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Coursework Waivers**: Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student's credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

**Clearances**: A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required at admission.

**Career and Technical Education/Industrial Education, M.Ed.**  
COLLEGE OF EDUCATION (http://education.temple.edu)

**About the Program**

The mission of the Career and Technical Education master's program with a concentration in Industrial Education is to enable its students to become effective teachers of Industrial Education in grades 7 to 12. This program provides competencies for diverse types of teaching
environments and offers transitional skill attainment strategies for application of knowledge across an array of career and technical program areas. Individuals completing the program find success in secondary teaching, post-secondary teaching in community colleges, and developing industrial training programs for businesses.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Ambler, Fort Washington

**Full-Time/Part-Time Status:** Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

**Accreditation:** The program is approved as a teacher certification program by the Pennsylvania Department of Education and is accredited by the Teacher Education Accreditation Council (TEAC).

**Job Prospects:** Graduates typically continue in their established career paths as career and technical educators, work-force development professionals, and technical trainers in business and industry.

**Licensure:** Upon successful completion of the degree requirements and passing all required licensure examinations, candidates may apply for a Pennsylvania Vocational Instructional I and II Teaching Certificates for grades 7 to 12.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

## Admission Requirements and Deadlines

**Application Deadline:**

- **Fall:** March 1
- **Spring:** November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

**Number Required:** 2, with a third submitted at the applicant's discretion. Please submit the "Reference Report for Graduate Study," found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf.

**From Whom:** Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant's academic competence.

**Coursework Required for Admission Consideration:** Individuals pursuing the master's degree in Career and Technical Education with a concentration in Industrial Education may hold a baccalaureate degree in any field, but must possess 4,000 hours of work experience and validated technical expertise in the career and technical certification program area for which the candidate desires certification. Technical expertise is demonstrated and validated by candidates through an Occupational Competency Assessment (OCA) administered by the Temple University Center for Professional Development in Career and Technical Education. Candidates who successfully complete the OCA are admitted into the program and earn their Vocational I and Vocational II certifications while completing the degree program.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. Applicants who do not meet the 3.0 UGPA requirement **may be considered for admission if they meet one of the following exceptions:**

1. **Standard exception:** 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).

2. **Special exception:** Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

Career and Technical Education/Marketing Education, M.Ed.

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Program

The mission of the Career and Technical Education master’s program with a concentration in Marketing Education is to enable its students to become effective marketing teachers in K-12 schools. This program provides competencies for diverse types of work in marketing and offers transitional skill attainment strategies for application of knowledge across an array of business areas. Individuals completing the program find success in secondary teaching, post-secondary teaching in community colleges, developing marketing education programs for businesses, and as trainers in marketing for a variety of business types and sizes.

Time Limit for Degree Completion: 4 years

Campus Location: Main, Fort Washington

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Accreditation: The program is approved as a teacher certification program by the Pennsylvania Department of Education and is accredited by the Teacher Education Accreditation Council (TEAC).

Job Prospects: Graduates typically continue in their established career paths as career and technical educators, work-force development professionals, and technical trainers in business and industry.

Licensure: Upon successful completion of the degree requirements and passing all required licensure examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:
Fall: March 1
Spring: November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2, with a third submitted at the applicant’s discretion. Please submit the “Reference Report for Graduate Study,” found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf.

From Whom: Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant’s academic competence.

Coursework Required for Admission Consideration: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. Further, the Pennsylvania Department of Education expects that all individuals seeking teacher certification at the master's level, regardless of the discipline, have taken
at least 6 credits of college-level mathematics and 6 credits of college-level English composition and literature in their undergraduate program.

Prerequisites for admission to the specialization in Marketing Education for Career and Technical Education include coursework in each of the following areas: 1) computer and information technology; 2) law, entrepreneurship, and international business; 3) quantitative skills and accounting; 4) management and marketing concepts; 5) economics and personal finance; and 6) business communications. Individuals holding a degree in Marketing from an accredited four-year institution generally meet these requirements. The prerequisite work can also be accomplished by post-baccalaureate coursework at the graduate or undergraduate level.

Bachelor’s Degree in Discipline/Related Discipline: A bachelor’s degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:

1. **Standard exception**: 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).

2. **Special exception**: Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

Standardized Test Scores:

- **Praxis I®**: Applicants must pass the Praxis I® examination required by the Pennsylvania Department of Education. A minimum score of 180 must be obtained in each Core Academic Skills for Educators Test in Reading, Writing, and Mathematics.

- **Praxis II®**: Applicants must pass appropriate subject-area exams on the Praxis II®.

**TOEFL score** (international applicants only): 88 iBT or 575 PBT minimum. Applicants with scores between 88 and 100 iBT or between 575 and 600 PBT must take an English refresher course.

Resume: Current resume required.

Transfer Credit: Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

Coursework Waivers: Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student’s credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

Clearances: A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required at admission.

**Program Requirements**

**General Program Requirements:**

- **Number of Credits Required Beyond the Baccalaureate**: 33

**Counseling Psychology, M.Ed.**

COLLEGE OF EDUCATION (http://www.temple.edu/education)
About the Program

The Counseling Psychology program offers a 60-credit master's degree in Education (M.Ed.) with two areas of concentration:

- Agency Counseling, which prepares students to work with individuals, couples, families, and groups in various settings, including community mental health centers, hospitals, and consulting agencies. Completion of the master's degree in the Agency Counseling concentration qualifies the student to become a Licensed Professional Counselor (LPC) in the Commonwealth of Pennsylvania.
- School Counseling, which prepares students to work with students, teachers, administrators, and parents in either an elementary or secondary school setting. Completion of the master's degree in the School Counseling concentration qualifies the student for certification as a Pre-K-12 school counselor in the Commonwealth of Pennsylvania.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: Full-time students complete the degree program by taking classes during the day and in the evening. Part-time students take classes that start after 4:00 p.m.

Areas of Specialization: The program offers concentrations in Agency Counseling and School Counseling.

Job Prospects: Graduates typically engage in careers as agency counselors or school counselors, or use their degree to pursue doctoral training in a field related to Counseling Psychology.

Licensure: When post-degree requirements specified by the state licensing board are met by graduates of the Agency Counseling concentration, they are eligible for licensure as a Licensed Professional Counselor (LPC) in the Commonwealth of Pennsylvania. Approximately two additional years of post-master's work experience is required prior to sitting for licensure. Students in the School Counseling concentration are eligible to apply for Pennsylvania school counseling certification (Educational Specialist I) at the time of graduation from the program.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:

Fall: February 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2, with a third submitted at the applicant's discretion. Please submit the "Reference Report for Graduate Study," found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf.

From Whom: Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant's academic competence.

Coursework Required for Admission Consideration: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. Applicants to the M.Ed. degree program, regardless of concentration, must present evidence of having taken Introduction to Psychology if they were not Psychology majors as undergraduates. In addition, those applying to the School Counseling concentration must present evidence of having completed coursework in Abnormal Psychology.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:

1. Standard exception: 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).

2. Special exception: Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

Standardized Test Scores:

TOEFL score (international applicants only): 88 iBT or 575 PBT minimum. Applicants with scores between 88 and 100 iBT or between 575 and 600 PBT must take an English refresher course.

Interview: Applicants who pass the initial application screening are invited for a group interview with members of the faculty between February and April. The interview is used to obtain additional data related to admissions criteria (e.g., clarify questions raised by the application) and to assess the communications skills associated with success in counselor training.

Resume: Current resume required.

Transfer Credit: Courses may be transferred from an accredited institution provided they were completed less than five years ago; have not been used to complete another degree; and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 12.

Program Requirements

General Program Requirements:

Number of Credits Required Beyond the Baccalaureate: 60
Required Courses:

- CPSY 5492 Theories of Counseling Psychology 3
- CPSY 5511 Counseling in the Schools 3
- or CPSY 5691 Diagnosis in Counseling Psychology
- CPSY 5519 Group Counseling 3
- CPSY 5526 Multicultural Counseling 3
- CPSY 5565 Professional Issues in Diverse School Settings 3
- or CPSY 5566 Professional Issues in Agencies
- CPSY 5579 Introduction to Couples and Family Counseling 3
- CPSY 5591 Legal and Ethical Issues in Counseling Psychology 3
- CPSY 5593 Career Counseling and Development 3
- CPSY 5694 Introduction to Assessment 3
- CPSY 5698 Counseling Psychology Laboratory I 3
- CPSY 5699 Counseling Psychology Laboratory II 3
- CPSY 9085 Advanced Counseling Techniques 3
- CPSY 9185 Master's Internship in Counseling Psychology 3
- CPSY 9285 Master's Internship in Counseling Psychology 3
- CPSY 9387 Practicum in Counseling Psychology I & II 9
- EDUC 5325 Introduction to Statistics and Research 3
- EPSY 5541 Concepts in Human Development 3
- Elective 3
Total Credit Hours 60

Internship: Students are required to complete a 780-hour internship, with 280 direct client contact hours completed at a training site approved by the program. Students in the Agency Counseling concentration complete their training in a community mental health setting, while those in the School Counseling concentration complete theirs in a school setting. Students receive individual on-site supervision and faculty supervision as a part of their training experience.

Culminating Events:
Comprehensive Examination:
The comprehensive examination is designed to provide students with an opportunity to demonstrate their ability to integrate and apply both their didactic and practice-oriented academic experiences.

**COLLEGE OF EDUCATION (http://www.temple.edu/education)**

**About the Program**

Not currently accepting applications

**Education/Applied Linguistics, Ph.D.**

**COLLEGE OF EDUCATION (http://www.temple.edu/education)**

**About the Program**

The interdisciplinary Ph.D. program in Education, with a concentration in Applied Linguistics, prepares students to study ways in which languages – and, in particular, second or additional languages – are used, taught, and learned in today’s increasingly globalized and multilingual world. The program promotes significant research on the teaching and learning of additional languages, including but not limited to English, and on the interaction between language ideologies and practices in multilingual communities and societies. Students gain theoretical grounding, research experiences, and academic skills that prepare them for academic research positions and other academic and practice-oriented positions.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students may matriculate either full-time or part-time. Most courses are offered in the evening to accommodate working professionals. The length of time to complete the doctoral degree program varies depending on the number of courses taken each term.

**Job Prospects:** Graduates are prepared for academic research positions in the areas of Applied Linguistics, Second and Foreign Language Education, and TESOL, as well as for other academic and practice-oriented positions.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include assistantships, fellowships, scholarships, tuition remission, graduate student employment, and other financial aid such as grants, loans, and federal work study.

**Admission Requirements and Deadlines**

**Application Deadline:**

*Fall:* December 1

Applications are accepted for the Fall term only. Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

**Number Required:** 2, with a third submitted at the applicant’s discretion. Please submit the “Reference Report for Graduate Study,” found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf.
From Whom: Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant's academic competence.

Master's Degree in Discipline/Related Discipline: A master's degree is not required, although the Ph.D. program requires 51 credits post-master's in a relevant field. Thus, applicants without a master's degree are required to complete 30 credits beyond those required for the Ph.D.

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. Official transcript(s) showing all undergraduate and graduate coursework must be submitted. A minimum GPA of 3.0 on a 4.0 scale is expected at both the undergraduate and graduate levels, although applicants may be admitted if other compelling evidence of academic potential is presented.

Statement of Goals: The personal statement is an important factor in the admissions process. Written in autobiographical style, it should explain your reasons for pursuing a doctoral degree in Education in a thorough and thoughtful manner. The statement should outline:

- a research project that you would like to pursue while at Temple;
- why the project is of interest to you and how it is of scholarship importance; and
- which faculty members you would like to work with while in the program.

Standardized Test Scores:
GRE: Official scores are required to be reported from the test taken no more than 5 years prior to submitting an application.

TOEFL score (international applicants only): 100 iBT or 600 PBT minimum.

Interview: Applicants who are considered qualified following an evaluation of their application materials are called in for an interview.

Resume: Current resume required.

Writing Sample: The academic writing sample should be a paper written for a class within the last five years. If a recent paper is not available, an op-ed piece on an educational issue of the applicant's choosing should be composed. The op-ed should be 3 to 5 pages and of the sort that might appear in The New York Times, Philadelphia Inquirer, or Education Digest.

Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Master's: 51
Number of Credits Required Beyond the Bachelor's: 81

Required Courses:

College-Wide Proseminars
EDUC 8103 Contemporary Trends in Educational Research 3
EDUC 8104 Epistemology and Method in Educational Research 3

College-Wide Research Method Courses 1,2 15
Applied Linguistics Concentration Courses 2 18
Research Apprenticeship 6

Culminating Courses 3 6

Total Credit Hours 51

1 A minimum of 15 credits should include at least one course each in statistics, qualitative methods, and research design.
2 Students should consult with their assigned faculty advisor for appropriate course selection.
3 Of the 6 credits overall, a minimum of 2 credits of EDUC 9999 Doctor of Education Dissertation must be taken.

Internship: An internship in the form of a research apprenticeship is required.

Culminating Events:

Preliminary Examination:
The purpose of the preliminary examination is for students to demonstrate their development in the three core areas of a faculty member’s life: research, teaching, and service. The exam requires students to undertake an integrative analysis of research; to demonstrate that they can bring research and theory into effective practice in their teaching; and to exhibit their ability to provide professional service. Preliminary exams are evaluated by a committee of faculty in the concentration. Evaluators look for a breadth and depth of understanding of research and theory; a critical application of that knowledge to specific phenomena and to teaching; integrative reasoning ability; and an ability to write technical prose.

Proposal with Oral Defense:
The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. The proposal should consist of the context and background surrounding a particular research problem; an exhaustive survey and review of literature related to the problem; and a detailed methodological plan for investigating the problem. The proposal should be completed and approved no more than one year after completing coursework.

The proposal is defended in an open hearing attended by the student’s Doctoral Advisory Committee, which is formed to oversee the student's doctoral research and is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be from, or affiliated with, Applied Linguistics. The Chair is responsible for overseeing and guiding the student's progress, coordinating the responses of the committee members, and informing the student of her/his academic progress. Upon approval of the proposal by the Doctoral Advisory Committee, a timeline for completing the investigation and writing process is established.

Dissertation with Oral Defense:
The doctoral dissertation is an original study that makes a significant contribution to the field. It should expand the existing knowledge and demonstrate the student's knowledge of both research methods and a mastery of her/his primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standards of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field of business; and be prepared for publication in an academic journal.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense. This committee is comprised of the Doctoral Advisory Committee and at least two additional faculty members, one of whom must be from outside the concentration. The Dissertation Examining Committee evaluates the student's ability to express verbally her/his research question, methodological approach,
about learning, cognition, and human development as these processes apply to educational processes and practices. The Educational Psychology specialty is characterized by a strong theoretical and research orientation, the interplay of theory and practice, an interdisciplinary approach, and a commitment to service. Designed for students seeking to become professors or researchers in higher education, it is structured around the interplay of theory and practice, an interdisciplinary approach, and a commitment to service. Designed for students seeking to become professors or researchers in higher education, it is structured around the interplay of theory and practice, an interdisciplinary approach, and a commitment to service. • What academic/professional goals would the program help you to achieve following graduation?

Standardized Test Scores:
GRE: Official scores are required to be reported from the test taken no more than 5 years prior to submitting an application.

TOEFL score (international applicants only): 79 iBT or 550 PBT minimum.

Resume: Current resume required.

Writing Sample: The academic writing sample should be a paper written for a class within the last five years. If a recent paper is not available, an op-ed piece on an educational issue of the applicant's choosing should be composed. The op-ed should be 3 to 5 pages and of the sort that might appear in The New York Times, Philadelphia Inquirer, or Education Digest.

Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Master's: 48
Number of Credits Required Beyond the Bachelor's: 78

Required Courses:

College-Wide Proseminars
EDUC 8103 Contemporary Trends in Educational Research 3
EDUC 8104 Epistemology and Method in Educational Research 3

College-Wide Research Method Courses 1,2 15

Educational Psychology Concentration Courses 2 9

Research Apprenticeship 6

College-Wide Electives 2 6

Culminating Courses 3 6

Total Credit Hours 48

1 A minimum of 15 credits should include at least one course each in statistics, qualitative methods, and research design.
2 Students should consult with their assigned faculty advisor for appropriate course selection.
3 Of the 6 credits overall, a minimum of 2 credits of EDUC 9999 Doctor of Education Dissertation must be taken.

Internship: An internship in the form of a research apprenticeship is required.

Culminating Events:

Preliminary Examination:
The purpose of the preliminary examination is for students to demonstrate their development in the three core areas of a faculty member's life: research, teaching, and service. The exam requires students to undertake an integrative analysis of research; to demonstrate that they can bring research and theory into effective practice in their teaching; and to exhibit their ability to provide professional service. Preliminary exams are evaluated by a committee of faculty in the concentration. Evaluators look for a breadth and depth of understanding of research and theory; a critical application of that knowledge to specific phenomena and to teaching; integrative reasoning ability; and an ability to write technical prose.

Proposal with Oral Defense:
The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. The proposal should consist of the context and background surrounding a particular research problem; an exhaustive survey and review of literature related to the problem; and a detailed methodological plan for investigating the problem. The proposal should be completed and approved no more than one year after completing coursework.

The proposal is defended in an open hearing attended by the student's Doctoral Advisory Committee, which is formed to oversee the student's doctoral research and is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be from, or affiliated with, Educational Psychology. The Chair is responsible for overseeing and guiding the student's progress, coordinating the responses of the committee members, and informing the student of her/his academic progress. Upon approval of the proposal by the Doctoral Advisory Committee, a timeline for completing the investigation and writing process is established.

Dissertation with Oral Defense:
The doctoral dissertation is an original study that makes a significant contribution to the field. It should expand the existing knowledge and demonstrate the student's knowledge of both research methods and a mastery of her/his primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standards of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field of business; and be prepared for publication in an academic journal.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense. This committee is comprised of the Doctoral Advisory Committee and at least two additional faculty members, one of whom must be from outside Educational Psychology. The Dissertation Examining Committee evaluates the student's ability to express verbally her/his research question, methodological approach, primary findings, and implications. The committee votes to pass or fail the dissertation and defense at the conclusion of the public presentation.

Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Shimada Resource Center at least 10 days before the defense is to be held. After the time, date, and room for the defense have been established, the completed "Announcement of Dissertation Defense" form, found at http://www.temple.edu/grad/forms/, is sent to the Graduate School. A flyer announcing the defense is posted in a public location in the College.

Education/Literacy and Learners, Ph.D.

COLLEGE OF EDUCATION (http://www.temple.edu/education)

About the Program
The interdisciplinary Ph.D. program in Education, with a concentration in Literacy and Learners, prepares students to contribute new knowledge to the field of literacy learning. The program defines literacy learning broadly. Students can focus on various aspects of language and literacy from their developmental foundations in childhood and early schooling to how older children, adolescents, and adults learn and apply them in different contexts. The program is grounded in the dual belief that education is a primary mechanism for social justice and that educational research has the capacity to improve the material conditions of people’s lives.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students may matriculate either full-time or part-time. Most courses are offered in the evening to accommodate working professionals. The length of time to complete the doctoral degree program varies depending on the number of courses taken each term.

Job Prospects: The program is designed to prepare students for a college faculty or research-oriented job.

Financing Opportunities: Financial support opportunities may include assistantships, fellowships, scholarships, tuition remission, graduate student employment, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines
Application Deadline:
Fall: December 1
Applications are accepted for the Fall term only. Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.
APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 2, with a third submitted at the applicant’s discretion. Please submit the “Reference Report for Graduate Study,” found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf.

From Whom: Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant’s academic competence.

Master’s Degree in Discipline/Related Discipline: A master’s degree is not required, although the Ph.D. program requires 51 credits post-master’s in a relevant field. Thus, applicants without a master’s degree are required to complete 30 credits beyond those required for the Ph.D.

Bachelor’s Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. Official transcript(s) showing all undergraduate and graduate coursework must be submitted. A minimum GPA of 3.0 on a 4.0 scale is expected at both the undergraduate and graduate levels, although applicants may be admitted if other compelling evidence of academic potential is presented.

Statement of Goals: The personal statement is an important factor in the admissions process. Written in autobiographical style, it should explain your reasons for pursuing a doctoral degree in education in a thorough and thoughtful manner. The statement should address the following:

• How have your personal, academic, and professional experiences shaped your research interests, and how might a doctoral program in Education help you explore those interests?
• How does the doctoral program at Temple fit your individual interests, needs, and future goals, and which faculty member’s research best matches your own interests?
• What academic/professional goals would the program help you to achieve following graduation?

Standardized Test Scores:
GRE: Official scores are required to be reported from the test taken no more than 5 years prior to submitting an application.
TOEFL (international applicants only): 100 iBT or 600 PBT minimum.

Resume: Current resume required.

Writing Sample: The academic writing sample should be a paper written for a class within the last five years. If a recent paper is not available, an op-ed piece on an educational issue of the applicant’s choosing should be composed. The op-ed should be 3 to 5 pages and of the sort that might appear in The New York Times, Philadelphia Inquirer, or Education Digest.

Education/Math and Science Education, Ph.D.

COLLEGE OF EDUCATION (http://www.temple.edu/education)

About the Program
The interdisciplinary Ph.D. program in Education, with a concentration in Math and Science Education, prepares students to contribute new knowledge to the field of mathematics and science learning. The program defines math and science learning very broadly, preparing students to take on a variety of roles in mathematics and science education. Students can focus on any aspect of teaching and learning inclusive of students, teachers, and adult learners. However, because of our strategic location in North Philadelphia, we have a strong and demonstrated commitment to issues of teaching, learning, and schooling in urban contexts. The program is grounded in the dual belief that education is a primary mechanism for social justice and that educational research has the capacity to improve the material conditions of people's lives.

The doctoral program in Math and Science Education prepares students in two ways: through academic coursework and through an intensive mentoring relationship with various faculty members. Coursework emphasizes a broad knowledge of critical lines of inquiry in mathematics
or science education and the development of research and analytic skills. Research opportunities include working alongside prominent faculty on federally funded projects; exposure and presentations at regional and national conferences; and co-authoring papers for publication in top-tiered journals. Practice and research are blended in a program that promotes both teaching and learning.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students may matriculate either full-time or part-time. Most courses are offered in the evening to accommodate working professionals. The length of time to complete the doctoral degree program varies depending on the number of courses taken each term.

Job Prospects: Graduates are prepared to teach Mathematics or Science.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

Financing Opportunities: Financial support opportunities may include assistantships, fellowships, scholarships, tuition remission, graduate student employment, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* December 1

Applications are accepted for the Fall term only. Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

*From Whom:* Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant's academic competence.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required, although the Ph.D. program requires 48 credits post-master's in a relevant field. Thus, applicants without a master's degree are required to complete 30 credits beyond those required for the Ph.D.

**Bachelor's Degree in Discipline/Related Discipline:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. Official transcript(s) showing all undergraduate and graduate coursework must be submitted. A minimum GPA of 3.0 on a 4.0 scale is expected at both the undergraduate and graduate levels, although applicants may be admitted if other compelling evidence of academic potential is presented.

Education/Special Education, Ph.D.

COLLEGE OF EDUCATION (http://www.temple.edu/education)

About the Program
The interdisciplinary Ph.D. program in Education, with a concentration in Special Education, prepares researchers to be equipped to study interventions designed to improve the learning and behavior of students with a variety of disabilities. The program emphasizes practical, relevant research that stems from a solid theoretical base. Moreover, the program focuses on inclusive practices and fosters an understanding of how sociopolitical factors influence classroom practices. Students selected for the program are expected to have an experiential base on which to draw in designing and implementing their research. All students gain:

- Up-to-date knowledge of the research and issues pertaining to special education;
- The ability to apply comprehensive research skills to problems relating to the education of children with special needs;
- The competence to prepare highly qualified teachers that are equipped to understand the complexities and individual differences of children with special needs, especially within urban environments; and
- A deep knowledge of how public policy and political and social variables shape research and service delivery activities within special education.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students may matriculate either full-time or part-time. Most courses are offered in the evening to accommodate working professionals. The length of time to complete the doctoral degree program varies depending on the number of courses taken each term.

Job Prospects: Graduates are prepared to assume research positions at colleges and universities and/or to be engaged in the preparation of special educational professionals at both the pre-service and in-service
levels. They are expected to contribute to the advancement of evidence-based practice throughout their careers.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include assistantships, fellowships, scholarships, tuition remission, graduate student employment, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:

Fall: December 1

Applications are accepted for the Fall term only. Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2, with a third submitted at the applicant's discretion. Please submit the "Reference Report for Graduate Study," found at http://www.temple.edu/grad/admissions/documents/Web_GRADREFERENCE_REPORT.pdf.

From Whom: Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant’s academic competence.

Master’s Degree in Discipline/Related Discipline: A master’s degree is not required, although the Ph.D. program requires 48 credits post-master’s in a relevant field. Thus, applicants without a master’s degree are required to complete 30 credits beyond those required for the Ph.D.

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. Official transcript(s) showing all undergraduate and graduate coursework must be submitted. A minimum GPA of 3.0 on a 4.0 scale is expected at both the undergraduate and graduate levels, although applicants may be admitted if other compelling evidence of academic potential is presented.

Statement of Goals: The personal statement is an important factor in the admissions process. Written in autobiographical style, it should explain your reasons for pursuing a doctoral degree in Education in a thorough and thoughtful manner. The statement should address the following:

- How have your personal, academic, and professional experiences shaped you research interests, and how might a doctoral program in Education help you explore those interests?
- How does the doctoral program at Temple fit your individual interests, needs, and future goals, and which faculty member's research best matches your own interests?
- What academic/professional goals would the program help you to achieve following graduation?

Standardized Test Scores:

GRE: Official scores are required to be reported from the test taken no more than 5 years prior to submitting an application.

TOEFL score (international applicants only): 79 iBT or 550 PBT minimum.

Resume: Current resume required.

Writing Sample: The academic writing sample should be a paper written for a class within the last five years. If a recent paper is not available, an op-ed piece on an educational issue of the applicant’s choosing should be composed. The op-ed should be 3 to 5 pages and of the sort that might appear in The New York Times, Philadelphia Inquirer, or Education Digest.

Program Requirements

General Program Requirements:

Number of Credits Required Beyond the Master's: 48
Number of Credits Required Beyond the Bachelor's: 78

Required Courses:

College-Wide Proseminars

EDUC 8103 Contemporary Trends in Educational Research 3
EDUC 8104 Epistemology and Method in Educational Research 3

College-Wide Research Method Courses 1,2 15
Special Education Concentration Courses 2 12
Research Apprenticeship 6
College-Wide Electives 2 3
Culminating Courses 3 6

Total Credit Hours 48

1 A minimum of 15 credits should include at least one course each in statistics, qualitative methods, and research design.
2 Students should consult with their assigned faculty advisor for appropriate course selection.
3 Of the 6 credits overall, a minimum of 2 credits of EDUC 9999 Doctor of Education Dissertation must be taken.

Internship: An internship in the form of a research apprenticeship is required.

Culminating Events:

Preliminary Examination:

The purpose of the preliminary examination is for students to demonstrate their development in the three core areas of a faculty member’s life: research, teaching, and service. The exam requires students to undertake an integrative analysis of research; to demonstrate that they can bring research and theory into effective practice in their teaching; and to exhibit their ability to provide professional service. Preliminary exams are evaluated by a committee of faculty in the concentration. Evaluators look for a breadth and depth of understanding of research and theory; a critical application of that knowledge to specific phenomena and to teaching; integrative reasoning ability; and an ability to write technical prose.

Proposal with Oral Defense:

The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. The proposal should consist of the context and background surrounding a particular research problem;
an exhaustive survey and review of literature related to the problem; and a detailed methodological plan for investigating the problem. The proposal should be completed and approved no more than one year after completing coursework.

The proposal is defended in an open hearing attended by the student’s Doctoral Advisory Committee, which is formed to oversee the student’s doctoral research and is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be from, or affiliated with, Special Education. The Chair is responsible for overseeing and guiding the student's progress, coordinating the responses of the committee members, and informing the student of her/his academic progress. Upon approval of the proposal by the Doctoral Advisory Committee, a timeline for completing the investigation and writing process is established.

Dissertation with Oral Defense:
The doctoral dissertation is an original study that makes a significant contribution to the field. It should expand the existing knowledge and demonstrate the student’s knowledge of both research methods and a mastery of her/his primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standards of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field of business; and be prepared for publication in an academic journal.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense. This committee is comprised of the Doctoral Advisory Committee and at least two additional faculty members, one of whom must be from outside Special Education. The Dissertation Examining Committee evaluates the student's ability to express verbally her/his research question, methodological approach, primary findings, and implications. The committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Shimada Resource Center at least 10 days before the defense is to be held. After the time, date, and room for the defense have been established, the completed “Announcement of Dissertation Defense” form, found at http://www.temple.edu/grad/forms/, is sent to the Graduate School. A flyer announcing the defense is posted in a public location in the College.

Education/Urban Education, Ph.D.

COLLEGE OF EDUCATION (http://www.temple.edu/education)

About the Program
The Urban Education concentration of the interdisciplinary Ph.D. in Education provides students with a sophisticated understanding of educational research and methods; the social context of urban education; the intersections between large-scale social forces and urban schools, classrooms, and communities; and educational policy and practice. We focus on training educational researchers who are attuned to the promises and challenges of urban schools, committed to social justice, knowledgeable about current research findings, and skilled in conducting ground-breaking research. Because they share our commitment to creating change as well as generating knowledge, our graduates learn to conduct research that can positively impact scholarship, policy, and practice on a local and national level.

In addition to coursework required of all students in the interdisciplinary Ph.D., students in the Urban Education concentration take classes on the history of urban education, the urban environment, the relationship between schools and communities, educational policy and school reform, and qualitative and quantitative research methods. Students work closely with their advisors to create individually tailored courses of study that allow them to pursue their interests and identify the unique scholarly contribution they will make. This program is designed for those interested in careers in college or university teaching, research, and policy analysis.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students may matriculate either full-time or part-time. Most courses are offered in the evening to accommodate working professionals. The length of time to complete the doctoral degree program varies depending on the number of courses taken each term.

Study Abroad: Students may participate in a summer abroad program sponsored by Urban Education faculty that involves a month-long stay in a non-tourist area of Jamaica. The major emphasis of this program, which carries 3 or 6 credits, is international service learning and community development.

Job Prospects: Graduates are prepared for careers in college or university teaching, research, policy analysis, and educational administration.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include assistantships, fellowships, scholarships, tuition remission, graduate
student employment, and other financial aid such as grants, loans, and federal work study.

**Admission Requirements and Deadlines**

About the Program

The restructured Ed.D. in Educational Leadership program is intended for a wide audience of individuals with experience in K-12 educational settings who desire to advance their careers. Many educational professionals want a defined, predictable program of study that supports steady progress and complements the busy schedule of a teacher and/or school leader. This program institutes a cohort-based executive-format program, wherein courses are offered on weekends and during the summer, accommodating the schedules of working professionals. The program fosters and reinforces Temple’s commitment to social justice, equity, and ethical practices. The courses, course sequence, and dissertation process are designed in a way that the program coheres around these issues and their implications for educational leadership. This cohort program consists of a fixed-course sequence and is structured to allow students to complete their degree in three years.

The program objectives reflect the essential values of educational leadership and the foundational knowledge, skills, and abilities required for effective postsecondary administrative practice. Students gain:

- A deep understanding of the historical, social, legal, economic, cultural, and political contexts of higher education administration;
- An advanced understanding of the governance and finance structures of postsecondary institutions and systems;
- Sensitivity to the complexities of organizational culture and the ability to lead effectively in diverse settings;
- The ability to critically examine, diagnose, and address persistent inequities in college access and success;
- The ability to find, critically review, and apply evidence from scholarly and policy research, and a commitment to using evidence routinely in decision making; and
- Skills and habits of reflective practice that support equitable and ethical decision making in complex situations.

The essential expected learning outcomes of the Temple Ed.D. program in Educational Leadership include graduates’ ability to demonstrate advanced understanding of:

- Effective practices for equitable and ethical school, school district, and system leadership;
- Leadership and learning theories;
- The history, politics, policy, and philosophy of public, charter, and independent educational programs;
- Schooling, school governance, organizational leadership, and civic engagement; and
- How political, societal, and identity factors contribute to student and school success.

Graduates will also be able to demonstrate the ability to:

- Critically engage, diagnose, assess, and address issues of equity and inequality that exist in schools and school districts;
- Review and synthesize research and practitioner literature to examine educational issues;
- Select and apply research methods and theoretical frameworks to address problems of practice; and
- Design, engage in, and thoughtfully report on research in multiple designated formats, such as dissertation, white paper, and presentation.

Educational Leadership, M.Ed.

Educational Leadership, M.Ed.

COLLEGE OF EDUCATION (http://www.temple.edu/education)
Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students matriculate part-time. Courses are offered in a cohort-based executive-format program on weekends and during the summer to accommodate the schedules of working professionals. A fixed-course sequence allows students to complete the doctoral degree program in three years.

Accreditation: The program is accredited by the University Council for Educational Administration (UCEA).

Job Prospects: Graduates typically become senior administrators in public or private schools; administrators in state or federal agencies; and administrators or professors in institutions of higher education.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include assistantships, fellowships, scholarships, tuition remission, graduate student employment, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:

Summer II: March 1, 2019

** APPLICATIONS will next be accepted for SUMMER II 2019 ADMISSION **

Applications are considered every other year for the executive Ed.D. in Educational Leadership. Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2

From Whom: Letters of recommendation should be obtained to provide insight regarding the applicant’s academic competence. References from college/university faculty are recommended.

Master’s Degree in Discipline/Related Discipline: A master’s degree is preferred but not required. At a minimum, applicants are required to have successfully completed at least 30 graduate credits in a related field to be admitted to the program. All applicants will be expected to transfer in up to 30 credits as advanced standing, with approval.

Bachelor’s Degree in Discipline/Related Discipline: A bachelor’s degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

Statement of Goals: Using autobiographical style, explain your interest in pursuing a doctoral degree in education. The statement should address the following questions:

- How have your personal, academic, and professional experiences shaped your research interests, and how might a doctoral program in Education help you explore those interests?
- What academic/professional goals would the program help you to achieve following graduation?
- How does the doctoral program at Temple fit your individual interests, needs, and future goals – and which faculty member’s research best matches your own interests?

Standardized Test Scores:

Applicants whose native language is not English must provide scores from a TOEFL, IELTS, or PTE Academic exam. Scores must meet the following minimums:

TOEFL: 79 iBT or 550 PBT
IELTS: 6.5
PTE Academic: 53

Resume: Current resume required.

Writing Sample: The academic writing sample should be a paper written for a class within the last five years. If a recent paper is not available, the applicant should compose an op-ed piece on an educational issue of her/his choosing. The op-ed should be 400 to 1,200 words in length and of the kind that might appear in The New York Times or Philadelphia Inquirer.

Other Requirement: Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

aspirations. The proposal must incorporate a thorough and critical review of literature relevant to the topic, a discussion of theoretical approaches to understanding and studying the topic, a conceptual or theoretical framework that will guide the study, and a robust methodological plan that includes assurances of completing IRB review and any interview or other protocols necessary to submit for IRB review. Dissertation proposal defense occurs at any point during or at the end of the academic term and students receive feedback from the faculty advisor, other committee members, and their cohort peers during their defense.

Dissertation:
The Ed.D. dissertation is distinct from the Ph.D. dissertation in that the intent of the Ed.D. dissertation is not to build theory but to make a substantive contribution to practice-focused scholarship in a particular domain of K-12 educational leadership. Ed.D. dissertations are typically less lengthy than Ph.D. dissertations and cover a smaller scope of theorizing and data collection. They are, however, held to the same standards as Ph.D. dissertations with respect to methodological validity, data analysis, and writing quality and clarity.

Following successful defense of the dissertation proposal and after securing IRB approval, students carry out an original research project intended to make a significant practice-based contribution to the field. While the Ed.D. dissertation is meant to have practical and applied relevance, however, it is nonetheless expected to engage rigorously with existing literature and theory appropriate to the student’s chosen topic and to demonstrate the student’s ability to execute robust methods appropriate to the student’s research question(s). Toward this end, Ed.D. students:

- prepare a dissertation study report that is a standard academic manuscript, which includes an introduction, literature review, conceptual/theoretical framework, methodology, results, discussion, and references; and
- produce a white paper/executive summary that distills the lessons of their research for practitioners in their field.

Educational Psychology, M.Ed.

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Program

The M.Ed. in Educational Psychology is designed to advance students’ understanding of learning, cognition, and human development as these processes apply to educational processes and practices. The Educational Psychology program is characterized by a strong theoretical and research orientation, the interplay of theory and practice, an interdisciplinary approach, and a commitment to service. Coursework focuses on three major areas: learning and conceptual processes, human development, and applied data analysis/assessment.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program through classes offered on a flexible schedule. The degree program can be completed on a full- or part-time basis.

Job Prospects: Graduates typically pursue careers in higher education in departments of education or psychology; in K-12 educational settings; as instructional technology specialists; as trainers in corporate, government, or medical settings; or as educational specialists in positions requiring skills in research design, applied statistics, or testing/measurement.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2, with a third submitted at the applicant’s discretion. Please submit the "Reference Report for Graduate Study," found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf.

From Whom: Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant’s academic competence.

Coursework Required for Admission Consideration: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Bachelor’s Degree in Discipline/Related Discipline: A bachelor’s degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:

1. Standard exception: 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).

2. Special exception: Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

Standardized Test Scores:

TOEFL score (international applicants only): 88 iBT or 575 PBT minimum. Applicants with scores between 88 and 100 iBT or between 575 and 600 PBT must take an English refresher course.

Resume: Current resume required.

Transfer Credit: Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. Grades must be "B" or better in order to transfer. Typically, no more than 6 transfer credits are accepted, although up to 9 may be transferred under special circumstances.

Program Requirements

General Program Requirements:

Number of Credits Required Beyond the Baccalaureate: 30

Required Courses:

Core Courses

EDUC 5101 Critical Understanding of Social Science Research 3
EDUC 5262 Introduction to Qualitative Research 3
EDUC 5325 Introduction to Statistics and Research 3
EPSY 5523 Introduction to Educational Psychology 3
EPSY 5529 Tests and Measurements 3
EPSY 5531 Learning Theories and Education 3
EPSY 5541 Concepts in Human Development 3
Electives 6
One EPSY elective
One course outside of Educational Psychology

Capstone Course

EPSY 9995 Master's Capstone in Educational Psychology 3

Total Credit Hours 30
Electives are selected in consultation with the faculty advisor based on the student's research interests and goals.

Culminating Events:

**Capstone Course:**
Students complete a summative project that applies theory to a real-world problem in the field as part of EPSY 9995 Master’s Capstone in Educational Psychology.

Educational Psychology/Learning Technology, M.Ed.

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Program

Not currently accepting applications

Higher Education, M.Ed.

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Program

The M.Ed. in Higher Education is intended for early- and mid-career individuals aspiring to serve as administrators in a variety of settings, including colleges and universities, community colleges, higher education systems, proprietary/vocational institutions, and college access and pathway programs. The distinctive feature of the M.Ed. program is its structured concentration design and emphasis on urban issues and themes of equity and access in postsecondary education.

Extending Temple’s traditional commitment to social justice and educational opportunity, this program develops expert practitioners, i.e., those who can enact the kinds of changes that are necessary to meet state and federal college completion goals, improve equity in student postsecondary outcomes, strengthen the role of higher education for the public good, and create structures and cultures that are conducive to student success.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students complete the degree program in a hybrid format, both through classes offered after 5:30 p.m. and online courses. The degree program can be completed on a full- or part-time basis.

**Areas of Specialization:** The program offers concentrations in Access and Success, Institutional Effectiveness, and Student Affairs Leadership.

**Job Prospects:** Graduates are prepared to seek employment in a variety of professional areas in higher education, including academic advising, academic support, admissions, advancement, athletics, business services, counseling and health services, facilities, financial aid, human resources, institutional research and planning, learning centers, multicultural and diversity affairs, public relations, residence life, and training and development.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

**Application Deadline:**
- Fall: March 1
- Spring: November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**
- **Number Required:** 2, with a third submitted at the applicant’s discretion. Please submit the “Reference Report for Graduate Study,” found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf.
- **From Whom:** Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant’s academic competence.

**Coursework Required for Admission Consideration:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:
1. **Standard exception**: 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).

2. **Special exception**: Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**
TOEFL score (international applicants only): 88 iBT or 575 PBT minimum. Applicants with scores between 88 and 100 iBT or between 575 and 600 PBT must take an English refresher course.

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Program Requirements**

**General Program Requirements:**

*Number of Credits Required Beyond the Baccalaureate:* 30

**Required Courses:**

Higher Education, Ed.D.
COLLEGE OF EDUCATION (http://www.temple.edu/education)

About the Program
The Ed.D. in Higher Education is a rigorous program of study that helps students develop the skills needed to diagnose and resolve organizational challenges and to craft and evaluate programs and policies impacting student success. The program features a core set of courses that reflect the essential values of the Temple University graduate program in higher education and the foundational knowledge, skills, and abilities required for effective postsecondary administrative practice. This program combines the theoretical and methodological foundations of academic research with an applied focus that helps students develop the professional and interpersonal wisdom necessary to successfully manage change within complex organizational structures.

The Higher Education Ed.D. degree prepares its graduates to be not just effective administrators but skillful and visionary leaders. The essential expected learning outcomes of the Ed.D. in Higher Education include:

• Demonstrate advanced understanding of the foundations of higher education, including knowledge of the history, politics, economics, and philosophy of higher education, theories of student development and organizations, and the institutional and social factors that contribute to student success in higher education.

• Demonstrate a disciplined and analytic approach to professional practice in the organization and administration of academic and student affairs, including the use of assessment, evaluation, and research in decision making; the ability to engage in strategic planning and goal setting; the ability to lead with cultural sensitivity and ethical judgment; the ability to understand organizational behavior and dynamics; and the ability to communicate clearly and effectively about complex administrative issues to a wide array of audiences and stakeholders.

• Demonstrate knowledge related to the functional core of the university, including teaching, research, and service; management skills, such as problem solving, planning, budgeting, fundraising, and assessment and evaluation; and human relations skills, such as managing conflict, communicating effectively, valuing diversity, and promoting organizational and individual development.

• Gain a conceptual understanding of higher education organizations when viewed from multiple perspectives, including organizations as academic enterprises, loosely coupled bureaucratic systems, and complex multifarious cultures, and be able to adopt those perspectives as analytic lenses for understanding and addressing administrative issues.

• Demonstrate the ability to select and apply appropriate research and program evaluation designs and methods, including understanding principles of research study design; synthesizing relevant literature from across fields to inform practice and research; articulating and applying theory or conceptual frameworks to support analysis and evaluation; having familiarity with an array of qualitative and quantitative methods and competence in data analysis strategies appropriate for contributing knowledge to advance effective higher education practice; and being competent in academic writing conventions.

• Enact habits of reflective and equity-conscious administrative practitioners, including conducting critical inquiry into issues of inequity or disparities in student access and success; engaging as learning agents on behalf of the institution; and collecting, interpreting, and communicating evidence to substantiate administrative issues.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students may matriculate either full-time or part-time. Most courses are offered in the evening to accommodate working professionals. The length of time to complete the doctoral degree program varies depending on the number of courses taken each term.

Accreditation: The program is accredited by the University Council for Educational Administration (UCEA).

Job Prospects: Graduates typically become senior administrators in public or private schools; administrators in state or federal agencies; and administrators or professors in institutions of higher education.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include assistantships, fellowships, scholarships, tuition remission, graduate student employment, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines
Application Deadline:

Fall: December 1
Applications are accepted for the Fall term only. Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 2

From Whom: Letters of recommendation should be obtained to provide insight regarding the applicant’s academic competence. References from college/university faculty are recommended.

Master’s Degree in Discipline/Related Discipline: A master’s degree in a related field is required. Students will be expected to transfer in up to 30 credits as advanced standing, with approval.

Bachelor’s Degree in Discipline/Related Discipline: A bachelor’s degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

Statement of Goals: Using autobiographical style, explain your interest in pursuing a doctoral degree in education. The statement should address the following questions:

• How have your personal, academic, and professional experiences shaped your research interests, and how might a doctoral program in Education help you explore those interests?
• What academic/professional goals would the program help you to achieve following graduation?
• How does the doctoral program at Temple fit your individual interests, needs, and future goals – and which faculty member’s research best matches your own interests?

Standardized Test Scores:
Applicants whose native language is not English must provide scores from a TOEFL, IELTS, or PTE Academic exam. Scores must meet the following minimums:

TOEFL: 79 iBT or 550 PBT
IELTS: 6.5
PTE Academic: 53

Resume: Current resume required.

Writing Sample: The academic writing sample should be a paper written for a class within the last five years. If a recent paper is not available, the applicant should compose an op-ed piece on an educational issue of her/his choosing. The op-ed should be 400 to 1,200 words in length and of the kind that might appear in The New York Times or Philadelphia Inquirer.

Other Requirement: Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

Advanced Research Methods Courses

1 Students select a two-course cognate based on their dissertation interests. They should consult with their advisor in the selection of these electives.

2 Students must take the “introductory” versions of the qualitative (EDUC 5262) and quantitative (EDUC 5325) courses before enrolling in more advanced courses for either methodology. A student can be exempted from the introductory courses if program faculty believe the student’s prior coursework warrants an exemption. Approval from the student’s advisor is required.

3 HIED 8093 must be taken during or after the last academic term of coursework.

</tr>
</tbody>
</table>

Total Credit Hours 39

Culminating Events:

Comprehensive Exam:
At the end of the academic term in which students are enrolled in HIED 8093 Advanced Higher Education Research Seminar and prior to completion of the dissertation proposal, students complete a comprehensive exam in order to advance to candidacy for the doctoral degree. The comprehensive exam consists of written responses to three questions developed by the instructor of the Research Seminar who, in most cases, will serve as the student’s primary dissertation advisor and chair. Through the comprehensive exam, students must demonstrate the ability to:

• situate and define a chosen topic or field within the concepts and history of the field;
• compare, contrast, and justify various research methods appropriate to investigation of a practice-based research problem; and
• critically synthesize the extant scholarly and practice-focused literature that informs administrative practice related to the topic.
Successful completion of the comprehensive exam advances students to doctoral candidate status and aids in preparation of the dissertation proposal.

**Dissertation Proposal:**
In the term immediately following completion of the HIED 8093 Advanced Higher Education Research Seminar and successful completion of the comprehensive exam, students enroll in EDUC 9998 Dissertation Proposal Design. Students enroll in a section of EDUC 9998 with the same cohort of students and instructor with whom they were enrolled in HIED 8093. Like HIED 8093 Advanced Higher Education Research Seminar, EDUC 9998 serves as a structured, intensive, cohort-based monthly workshop in which students design and defend a dissertation proposal that outlines a rigorous plan for empirical study of an issue relevant to the student’s professional responsibilities or aspirations. The proposal must incorporate a thorough and critical review of literature relevant to the topic, a discussion of theoretical approaches to understanding and studying the topic, a conceptual or theoretical framework that will guide the study, and a robust methodological plan that includes assurances of completing IRB review and any interview or other protocols necessary to submit for IRB review. Dissertation proposal defense occurs at any point during or at the end of the academic term and students receive feedback from the faculty advisor, other committee members, and their cohort peers during their defense. Students will be encouraged to defend the proposal no later than the end of the term in which they are enrolled in EDUC 9998.

**Dissertation:**
The Ed.D. dissertation is distinct from the Ph.D. dissertation in that the intent of the Ed.D. dissertation is not to build theory but to make a substantive contribution to practice-focused scholarship in a particular domain of higher education. Ed.D. dissertations are typically less lengthy than Ph.D. dissertations and cover a smaller scope of theorizing and data collection. They are, however, held to the same standards as Ph.D. dissertations with respect to methodological validity, data analysis, and writing quality and clarity. Toward this end, Ed.D. students:

- prepare a dissertation study report that is a standard academic manuscript, which includes an introduction, literature review, conceptual/theoretical framework, methodology, results, discussion, and references; and
- produce a Practice Guide that is three to five pages in length. The Practice Guide distills the lessons of the student’s research into succinct recommendations or best practices for practitioners in her/his field.

---

**Middle Grades Education/ Language Arts, M.Ed.**

**COLLEGE OF EDUCATION** ([http://education.temple.edu](http://education.temple.edu))

**About the Program**

The Middle Grades Education graduate program prepares students for middle-level teaching in grades 4 to 8. Middle grades teachers are increasingly sought out and in high demand in Pennsylvania and across the country.

The College of Education program in Middle Grades Education is designed to ensure that our students graduate highly knowledgeable about learning and teaching as well as committed to pre-adolescent learners from diverse ethnic, economic, and geographic backgrounds. The goal is to produce certified teachers to fill the growing vacancies. Toward that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of academic standards and the wide-ranging developmental needs of middle grades students.

Our newly designed program stands out as cutting edge because we prepare graduate students to teach in both upper elementary and middle grades classrooms. In addition to becoming [certified to teach all elementary subjects in grades 4 to 6](http://education.temple.edu), Middle Grades Education students can pursue [single or dual certification for seventh and eighth grades](http://education.temple.edu) in one of the following concentrations:

- Language Arts/English
- Mathematics
- Mathematics and Language Arts/English
- Mathematics and Science
- Science
- Science and Language Arts/English
- Social Studies

The Middle Grades Education graduate program may be completed for certification only or certification plus a master’s degree. All applicants are initially admitted to the master’s program. After successfully completing the minimum requirements for certification, students may choose to leave the program with certification-only or may elect to continue in the program and complete the additional credit hours and requirements to receive certification and a master’s degree. The program requires a minimum of 25 credits for certification-only and 31 credits for certification plus a master’s degree.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main
Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Classes are offered to accommodate working adults.

Accreditation: The program is approved as a teacher certification program by the Pennsylvania Department of Education (PDE).

Job Prospects: Graduates typically pursue teaching positions in elementary or middle schools for grades 4 to 8.

Licensure: Upon successful completion of the degree requirements and passing all Praxis™ examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:

- Fall: March 1
- Spring: November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2, with a third submitted at the applicant's discretion. Please submit the "Reference Report for Graduate Study," found at http://www.temple.edu/grad/admissions/documents/Web_GRADREFERENCE_REPORT.pdf.

From Whom: Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant's academic competence.

Coursework Required for Admission Consideration: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Prerequisites for admission to the specialization in Language Arts for Middle Grades Education include undergraduate or graduate level courses, completed with a grade of "C" or better, as identified below:

- At least two courses (or 6 credits) of science, including earth/space science, life science, or physical science.
- At least two courses (or 6 credits) in American Government, U.S. History, or World History.

The Middle Grades Advisor determines which courses count as fulfilling the prerequisites.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:

1. Standard exception: 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).

2. Special exception: Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

Standardized Test Scores:

Praxis I®: Official score report must demonstrate a passing score in the content-area test to gain admission to the program:

- PA Grades 4–8 Subject Concentration: English Language Arts (5156) – 156 minimum score (effective 4/2/12)

For more information on testing requirements for middle grades education, visit http://education.temple.edu/teach/test-requirements-certification-middle-grades-education.

TOEFL score (international applicants only): 88 iBT or 575 PBT minimum. Applicants with scores between 88 and 100 iBT or between 575 and 600 PBT must take an English refresher course.

Resume: Current resume required.

Transfer Credit: Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

Coursework Waivers: Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student's credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

Clearances: A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required at admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

**Admission Requirements and Deadlines**

**Application Deadline:**
- **Fall:** March 1
- **Spring:** November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support. **APPLY ONLINE to this graduate program.**

**Letters of Reference:**
- **Number Required:** 2, with a third submitted at the applicant's discretion. Please submit the "Reference Report for Graduate Study," found at http://www.temple.edu/grad/admissions/documents/Web_GRADREFERENCE_REPORT.pdf.

- **From Whom:** Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant’s academic competence.

**Coursework Required for Admission Consideration:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Prerequisites for admission to the specialization in Mathematics for Middle Grades Education include undergraduate or graduate level courses, completed with a grade of “C” or better, as identified below:

- At least five courses (or 15 credits) in the chosen concentration area of mathematics. For math, students are advised to have completed at least three credits of calculus and the remaining credits in upper level math courses.
- At least six (6) credits in language arts, of which none may be remedial courses:
  - One course (3 credits) in English composition.
  - One course (3 credits) in American or British literature.
- At least two courses (or 6 credits) of science, including earth/space science, life science, or physical science.
- At least two courses (or 6 credits) in American Government, U.S. History, or World History.

The Middle Grades Advisor determines which courses count as fulfilling the prerequisites.

**Bachelor’s Degree in Discipline/Related Discipline:** A bachelor’s degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:

1. **Standard exception:** 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).

2. **Special exception:** Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**
- **Praxis I:** Official score report must demonstrate a passing score in the content-area test to gain admission to the program:
  - PA Grades 4–8 Subject Concentration: Mathematics (5158) – 173 minimum score (effective 4/2/12)

For more information on testing requirements for middle grades education, visit http://education.temple.edu/teach/test-requirements-certification-middle-grades-education.

- **TOEFL score** (international applicants only): 88 iBT or 575 PBT minimum. Applicants with scores between 88 and 100 iBT or between 575 and 600 PBT must take an English refresher course.

- **Resume:** Current resume required.

- **Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

- **Coursework Waivers:** Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student’s credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

**Clearances:** A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required at admission.

**Program Requirements**

**General Program Requirements:**
- **Number of Credits Required Beyond the Baccalaureate:** 31

**Required Courses:**

Middle Grades Education/Mathematics and Language Arts, M.Ed.

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Program

The Middle Grades Education graduate program prepares students for middle-level teaching in grades 4 to 8. Middle grades teachers, particularly in math and science education, are increasingly sought out and in high demand in Pennsylvania and across the country.

The College of Education program in Middle Grades Education is designed to ensure that our students graduate highly knowledgeable about learning and teaching as well as committed to pre-adolescent learners from diverse ethnic, economic, and geographic backgrounds. The goal is to produce certified teachers to fill the growing vacancies. Toward that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of academic standards and the wide-ranging developmental needs of middle grades students.

Our newly designed program stands out as cutting edge because we prepare graduate students to teach in both upper elementary and middle grades classrooms. In addition to becoming certified to teach all elementary subjects in grades 4 to 6, Middle Grades Education students can pursue single or dual certification for seventh and eighth grades in one of the following concentrations:

- Language Arts/English
- Mathematics
- Mathematics and Language Arts/English
- Mathematics and Science
- Science
- Science and Language Arts/English
- Social Studies

The Middle Grades Education graduate program may be completed for certification only or certification plus a master’s degree. All applicants are initially admitted to the master’s program. After successfully completing the minimum requirements for certification, students may choose to leave the program with certification-only or may elect to continue in the program and complete the additional credit hours and requirements to receive certification and a master’s degree. The program requires a minimum of 25 credits for certification-only and 31 credits for certification plus a master’s degree.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Classes are offered to accommodate working adults.

Accreditation: The program is approved as a teacher certification program by the Pennsylvania Department of Education (PDE).

Job Prospects: Graduates typically pursue teaching positions in elementary or middle schools for grades 4 to 8.

Licensure: Upon successful completion of the degree requirements and passing all Praxis™ examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.
Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2, with a third submitted at the applicant’s discretion. Please submit the “Reference Report for Graduate Study,” found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf.

From Whom: Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant’s academic competence.

Coursework Required for Admission Consideration: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Prerequisites for admission to the specialization in Mathematics and Language Arts for Middle Grades Education include undergraduate or graduate level courses, completed with a grade of “C” or better, as identified below:

• At least eight courses (or 24 credits) each in the chosen concentration areas of mathematics and language arts.
  • For math, students are advised to have completed at least three credits of calculus and the remaining credits in upper level math courses.
  • For language arts, students are advised to have completed at least the following courses, of which none may be remedial courses:
    • One course (3 credits) in English composition.
    • One course (3 credits) in American or British literature.
    • Courses that may include composition/writing, linguistics, and/or literature that are not basic or remedial courses.
• At least two courses (or 6 credits) of science, including earth/space science, life science, or physical science.
• At least two courses (or 6 credits) in American Government, U.S. History, or World History.

The Middle Grades Advisor determines which courses count as fulfilling the prerequisites.

Bachelor’s Degree in Discipline/Related Discipline: A bachelor’s degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:

1. Standard exception: 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).

2. Special exception: Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

Standardized Test Scores:

Praxis II®: Official score report must demonstrate a passing score in one content-area test to gain admission to the program. The selected test should correspond to one of the applicant’s two chosen areas of specialization:

• PA Grades 4–8 Subject Concentration: English Language Arts (5156) – 156 minimum score (effective 4/2/12)
• PA Grades 4–8 Subject Concentration: Mathematics (5158) – 173 minimum score (effective 4/2/12)

For more information on testing requirements for middle grades education, visit http://education.temple.edu/teach/test-requirements-certification-middle-grades-education.

TOEFL score (international applicants only): 88 iBT or 575 PBT minimum. Applicants with scores between 88 and 100 iBT or between 575 and 600 PBT must take an English refresher course.

Resume: Current resume required.

Transfer Credit: Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

Coursework Waivers: Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student's credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

Clearances: A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required at admission.

APPLY ONLINE to this graduate program.

Letters of Reference:
**Number Required:** 2, with a third submitted at the applicant’s discretion. Please submit the "Reference Report for Graduate Study," found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf.

**From Whom:** Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant's academic competence.

**Coursework Required for Admission Consideration:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. Further, the Pennsylvania Department of Education expects that all individuals seeking teacher certification at the master's level, regardless of the discipline, have taken at least 6 credits of college-level mathematics and 6 credits of college-level English composition and literature in their undergraduate program.

Prerequisites for admission to the specialization in Science and Language Arts for Middle Grades Education include undergraduate or graduate level courses, completed with a grade of "C" or better, as identified below:

- At least eight courses (or 24 credits) each in the chosen concentration areas of science and language arts.
  - For science, students are advised to have completed at least one earth/space science, one life science, and one physical science course. One course must include a lab.
  - For language arts, students are advised to have completed at least the following courses, of which none may be remedial courses:
    - One course (3 credits) in English composition.
    - One course (3 credits) in American or British literature.
    - Courses that may include composition/writing, linguistics, and/or literature that are not basic or remedial courses.

The Middle Grades Advisor determines which courses count as fulfilling the prerequisites.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:

1. **Standard exception:** 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).

2. **Special exception:** Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**

**Praxis II:** Official score report must demonstrate a passing score in one content-area test to gain admission to the program. The selected test should correspond to one of the applicant's two chosen areas of specialization:

- PA Grades 4–8 Subject Concentration: English Language Arts (5156) – 156 minimum score (effective 4/2/12)
- PA Grades 4–8 Subject Concentration: Science (5159) – 156 minimum score (effective 4/2/12)

For more information on testing requirements for middle grades education, visit http://education.temple.edu/teach/test-requirements-certification-middle-grades-education.

**TOEFL score (international applicants only):** 88 iBT or 575 PBT minimum. Applicants with scores between 88 and 100 iBT or between 575 and 600 PBT must take an English refresher course.

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Coursework Waivers:** Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student's credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

**Clearances:** A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required at admission.

Middle Grades Education/Social Studies, M.Ed.

**About the Program**

The Middle Grades Education graduate program prepares students for middle-level teaching in grades 4 to 8. Middle grades teachers are increasingly sought out and in high demand in Pennsylvania and across the country.

The College of Education program in Middle Grades Education is designed to ensure that our students graduate highly knowledgeable about learning and teaching as well as committed to pre-adolescent learners from diverse ethnic, economic, and geographic backgrounds. The goal is to produce certified teachers to fill the growing vacancies. Toward that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of academic standards and the wide-ranging developmental needs of middle grades students.

Our newly designed program stands out as cutting edge because we prepare graduate students to teach in both upper elementary and middle grades classrooms. In addition to becoming certified to teach all elementary subjects in grades 4 to 6, Middle Grades Education students can pursue single or dual certification for seventh and eighth grades in one of the following concentrations:

- Language Arts/English  
- Mathematics  
- Mathematics and Language Arts/English  
- Mathematics and Science  
- Science  
- Science and Language Arts/English  
- Social Studies

The Middle Grades Education graduate program may be completed for certification only or certification plus a master's degree. All applicants are initially admitted to the master's program. After successfully completing the minimum requirements for certification, students may choose to leave the program with certification-only or may elect to continue in the program and complete the additional credit hours and requirements to receive certification and a master's degree. The program requires a minimum of 25 credits for certification-only and 31 credits for certification plus a master's degree.

**Time Limit for Degree Completion**: 4 years

**Campus Location**: Main

**Full-Time/Part-Time Status**: The degree program can be completed on a full- or part-time basis. Classes are offered to accommodate working adults.

**Accreditation**: The program is approved as a teacher certification program by the Pennsylvania Department of Education (PDE).

**Job Prospects**: Graduates typically pursue teaching positions in elementary or middle schools for grades 4 to 8.

**Licensure**: Upon successful completion of the degree requirements and passing all Praxis™ examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

**Non-Matriculated Student Policy**: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission**.

**Financing Opportunities**: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

**Admission Requirements and Deadlines**

**Application Deadline**:

- **Fall**: March 1
- **Spring**: November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

**APPLY ONLINE to this graduate program**.

**Letters of Reference**:

**From Whom:** Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant’s academic competence.

**Coursework Required for Admission Consideration:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Prerequisites for admission to the specialization in Social Studies for Middle Grades Education include undergraduate or graduate level courses, completed with a grade of "C" or better, as identified below:

- At least five courses (or 15 credits) in the chosen concentration area of social studies. For social studies, students are advised to have completed at least two courses (or 6 credit hours) in American Government, U.S. History, or World History.
- At least two courses (or 6 credits) of language arts, of which none may be remedial courses:
  - One course (3 credits) in English composition.
  - One course (3 credits) in American or British literature.
- At least two courses (or 6 credits) of mathematics, including at least three credits of calculus and the remaining credits in upper level math courses.
- At least two courses (or 6 credits) of science, including earth/space science, life science, or physical science.

The Middle Grades Advisor determines which courses count as fulfilling the prerequisites.

**Bachelor’s Degree in Discipline/Related Discipline:** A bachelor’s degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:

1. **Standard exception:** 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).

2. **Special exception:** Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**

Praxis II®: Official score report must demonstrate a passing score in the content-area test to gain admission to the program:

- PA Grades 4–8 Subject Concentration: Social Studies (5157) – 150 minimum score (effective 4/2/12)

For more information on testing requirements for middle grades education, visit [http://education.temple.edu/teach/test-requirements-certification-middle-grades-education](http://education.temple.edu/teach/test-requirements-certification-middle-grades-education).

TOEFL score (international applicants only): 88 iBT or 575 PBT minimum. Applicants with scores between 88 and 100 iBT or between 575 and 600 PBT must take an English refresher course.

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Coursework Waivers:** Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student’s credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

**Clearances:** A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required at admission.

Middle Grades students should take the following Praxis™ test during their student teaching term: Pennsylvania Grades 4-8 Core Assessment (5152).
Middle Grades and Special Education/Language Arts, M.Ed.

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Program

The M.Ed. program in Middle Grades and Special Education prepares students for initial teacher certification in Middle Grades Education (grades 4-8) and Special Education (pre-Kindergarten through grade 8). This program prepares high-quality professional educators who go on to embrace innovation, equity, excellence, and leadership opportunities as teachers in diverse educational settings.

This newly designed program stands out as cutting edge because our graduate students are prepared to teach in both elementary and middle grades classrooms. In addition to becoming certified to teach all elementary subjects in grades 4-6 and special education in pre-K to grade 8, all students pursue certification for grades 7 and 8 in one of the following concentrations:

- Language Arts/English
- Mathematics
- Mathematics and Language Arts/English
- Mathematics and Science
- Science
- Science and Language Arts/English
- Social Studies

Middle grades teachers, particularly those who hold double certifications, are increasingly sought out and in high demand in Pennsylvania as well as across the country. This degree program is designed to ensure not only that there are certified teachers to fill the growing vacancies, but that our students graduate highly knowledgeable about learning and teaching as well as committed to pre-adolescent learners from diverse ethnic, economic, and geographic backgrounds. Toward that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of academic standards and the wide-ranging developmental needs of middle grades students.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Classes are offered to accommodate working adults.

Accreditation: The program is approved as a teacher certification program by the Pennsylvania Department of Education (PDE).

Job Prospects: Graduates typically pursue teaching positions in elementary or middle schools for grades 4 to 8.

Licensure: Upon successful completion of the degree requirements and passing all Praxis™ examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2

From Whom: Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

Coursework Required for Admission Consideration: Prerequisites for admission to the Middle Grades and Special Education M.Ed. program include courses taken at the undergraduate or graduate level with a grade of "C" or better earned in the following areas:

- At least five courses (or 15 credits) in language arts/English.
- At least two courses (or 6 credits) in the other three content areas (i.e., mathematics, science, or social studies).

Students pursuing a language arts concentration should have at least one composition course and at least one American or British literature
course with other credits being at a similar level or beyond. Basic or remedial courses do not count toward the language arts prerequisites.

**Bachelor’s Degree in Discipline/Related Discipline:** A bachelor’s degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a master’s degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**

*Praxis III:* Official score report must demonstrate a passing score in the content-area test to gain admission to the program:

- PA Grades 4–8 Subject Concentration: English Language Arts (5156) – 156 minimum score (effective 4/2/12)

For more information on testing requirements for middle grades education, visit http://education.temple.edu/teach/test-requirements-certification-middle-grades-education.

Applicants whose native language is not English must provide scores from a TOEFL, IELTS, or PTE Academic exam. Scores must meet the following minimums:

- TOEFL: 79 iBT or 550 PBT
- IELTS: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Coursework Waivers:** Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student’s credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

**Clearances:** A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required at admission.

**Other Requirements:**

1. Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned
2. A copy of a valid Teaching Certification (from any state) or demonstration of at least two years of successful practice in an educational setting

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Program

The M.Ed. program in Middle Grades and Special Education prepares students for initial teacher certification in Middle Grades Education (grades 4-8) and Special Education (pre-Kindergarten through grade 8).
This program prepares high-quality professional educators who go on to embrace innovation, equity, excellence, and leadership opportunities as teachers in diverse educational settings.

This newly designed program stands out as cutting edge because our graduate students are prepared to teach in both elementary and middle grades classrooms. In addition to becoming certified to teach all elementary subjects in grades 4-6 and special education in pre-K to grade 8, all students pursue certification for grades 7 and 8 in one of the following concentrations:

- Language Arts/English
- Mathematics
- Mathematics and Language Arts/English
- Mathematics and Science
- Science
- Science and Language Arts/English
- Social Studies

Middle grades teachers, particularly those who hold double certifications, are increasingly sought out and in high demand in Pennsylvania as well as across the country. This degree program is designed to ensure not only that there are certified teachers to fill the growing vacancies, but that our students graduate highly knowledgeable about learning and teaching as well as committed to pre-adolescent learners from diverse ethnic, economic, and geographic backgrounds. Toward that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of academic standards and the wide-ranging developmental needs of middle grades students.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis. Classes are offered to accommodate working adults.

**Accreditation:** The program is approved as a teacher certification program by the Pennsylvania Department of Education (PDE).

**Job Prospects:** Graduates typically pursue teaching positions in elementary or middle schools for grades 4 to 8.

**Licensure:** Upon successful completion of the degree requirements and passing all Praxis™ examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

**Admission Requirements and Deadlines**

**Application Deadline:**

**Fall:** March 1

**Spring:** November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

**Number Required:** 2

**From Whom:** Letters of recommendation should be obtained to provide insight regarding the applicant’s academic competence. References from college/university faculty are recommended.

**Coursework Required for Admission Consideration:** Prerequisites for admission to the Middle Grades and Special Education M.Ed. program include courses taken at the undergraduate or graduate level with a grade of “C” or better earned in the following areas:

- At least four courses (or 12 credits) each in the chosen concentration areas of mathematics and language arts.
- At least two courses (or 6 credits) in the other content areas (i.e., science and social studies).

Students pursuing mathematics as one of their concentration areas are advised to have at least three credits of calculus, with other mathematics credits being at a similar level or beyond. For the language arts concentration, they should have at least one composition course and at least one American or British literature course with other credits being at a similar level or beyond. Basic or remedial courses do not count toward the language arts prerequisites.

**Bachelor’s Degree in Discipline/Related Discipline:** A bachelor’s degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a master’s degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**

**Praxis I™:** Official score report must demonstrate a passing score in one content-area test to gain admission to the program. The selected test should correspond to one of the applicant’s two chosen areas of specialization:

- PA Grades 4–8 Subject Concentration: English Language Arts (5156) – 156 minimum score (effective 4/2/12)
- PA Grades 4–8 Subject Concentration: Mathematics (5158) – 173 minimum score (effective 4/2/12)

For more information on testing requirements for middle grades education, visit [http://education.temple.edu/teach/test-requirements-certification-middle-grades-education](http://education.temple.edu/teach/test-requirements-certification-middle-grades-education).
Applicants whose native language is not English must provide scores from a TOEFL, IELTS, or PTE Academic exam. Scores must meet the following minimums:

TOEFL: 79 iBT or 550 PBT
IELTS: 6.5
PTE Academic: 53

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Coursework Waivers:** Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student's credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

**Clearances:** A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required at admission.

**Other Requirements:**

1. Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned
2. A copy of a valid Teaching Certification (from any state) or demonstration of at least two years of successful practice in an educational setting

Middle Grades and Special Education/Social Studies, M.Ed.

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Program

The M.Ed. program in Middle Grades and Special Education prepares students for initial teacher certification in Middle Grades Education (grades 4-8) and Special Education (pre-Kindergarten through grade 8). This program prepares high-quality professional educators who go on to embrace innovation, equity, excellence, and leadership opportunities as teachers in diverse educational settings.

This newly designed program stands out as cutting edge because our graduate students are prepared to teach in both elementary and middle grades classrooms. In addition to becoming certified to teach all elementary subjects in grades 4-6 and special education in pre-K to grade 8, all students pursue certification for grades 7 and 8 in one of the following concentrations:

• Language Arts/English
• Mathematics
• Mathematics and Language Arts/English
• Mathematics and Science
• Science
• Science and Language Arts/English
• Social Studies

Middle grades teachers, particularly those who hold double certifications, are increasingly sought out and in high demand in Pennsylvania as well as across the country. This degree program is designed to ensure not only that there are certified teachers to fill the growing vacancies, but that our students graduate highly knowledgeable about learning and teaching as well as committed to pre-adolescent learners from diverse ethnic, economic, and geographic backgrounds. Toward that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of academic standards and the wide-ranging developmental needs of middle grades students.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Classes are offered to accommodate working adults.

Accreditation: The program is approved as a teacher certification program by the Pennsylvania Department of Education (PDE).

Job Prospects: Graduates typically pursue teaching positions in elementary or middle schools for grades 4 to 8.

Licensure: Upon successful completion of the degree requirements and passing all Praxis™ examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if
the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

**Admission Requirements and Deadlines**

**Application Deadline:**
- **Fall:** March 1
- **Spring:** November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**
- **Number Required:** 2

**From Whom:** Letters of recommendation should be obtained to provide insight regarding the applicant’s academic competence. References from college/university faculty are recommended.

**Coursework Required for Admission Consideration:** Prerequisites for admission to the Middle Grades and Special Education M.Ed. program include courses taken at the undergraduate or graduate level with a grade of “C” or better earned in the following areas:

- At least five courses (or 15 credits) in social studies.
- At least two courses (or 6 credits) in the other three content areas (i.e., language arts/English, mathematics, or science).

Students pursuing a social studies concentration are required to have a minimum of two courses in U.S. History, American Government, or World History with other social studies credits being at a similar level or beyond.

**Bachelor’s Degree in Discipline/Related Discipline:** A bachelor’s degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a master’s degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**

**Praxis II:** Official score report must demonstrate a passing score in the content-area test to gain admission to the program:

- PA Grades 4–8 Subject Concentration: Social Studies (5157) – 150 minimum score (effective 4/2/12)

For more information on testing requirements for middle grades education, visit http://education.temple.edu/teach/test-requirements-certification-middle-grades-education.

Applicants whose native language is not English must provide scores from a TOEFL, IELTS, or PTE Academic exam. Scores must meet the following minimums:

- **TOEFL:** 79 iBT or 550 PBT
- **IELTS:** 6.5
- **PTE Academic:** 53

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Coursework Waivers:** Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student’s credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

**Clearances:** A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required at admission.

**Other Requirements:**

1. Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned
2. A copy of a valid Teaching Certification (from any state) or demonstration of at least two years of successful practice in an educational setting

**Program Requirements**

**General Program Requirements:**
- **Number of Credits Required Beyond the Baccalaureate:** 43

**Required Courses:**

**Core Courses**
- EDUC 5402 Child and Adol Develop 3
- MGRE 5101 Citizenship, Cultures, and Social Studies Education 3

**Pedagogy Courses**
- MGRE 5102 Reading and Writing in the Middle Grades 3
- MGRE 5404 Teaching Math in the Middle Grades 3
- MGRE 5405 Teaching Science in the Middle Grades 3
- SPED 5106 Literacy Instruction for Young Children with Disabilities 3
- SPED 5666 Inclusive School Practices 3
- TESL 5631 Foundations of Language Teaching: Meeting the Needs of English Language Learners 3

**Technology Integration Course**
- EDUC 5255 Tech in Classrooms: TPCK 3

**Additional Special Education Courses**
- SPED 5109 Classroom Management and Positive Behavior Support 3
- SPED 5187 Graduate Assessment Practicum in Early Childhood Special Education 3
Culminating Events: Student teaching and its related seminar are the culminating events for this program.

Middle Grades students should take the following Praxis™ test during their student teaching term: Pennsylvania Grades 4-8 Core Assessment (5152).

School Leadership/Curriculum Supervision, M.Ed.

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Program

The M.Ed. in School Leadership prepares educators with the advanced knowledge and skills needed to lead in urban schools. Students are prepared to tackle the unique challenges of educating children in high need environments. Coursework includes opportunities to learn and explore with other committed professionals who are dedicated to the success of all teachers and all students.

The Curriculum Supervision concentration prepares students to become a district-wide specialist in curriculum and instruction across the total grade organization. Students who successfully complete all program requirements also satisfy the academic requirements for an administrative certificate in Pennsylvania. In addition to the academic requirements, the Pennsylvania Department of Education requires candidates to pass the Praxis® 5411 – Educational Leadership: Administration and Supervision. After all academic requirements are met and the scores from the Praxis® are reported, the College of Education endorses the successful candidate for certification.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program in a hybrid format, both through classes offered after 5:30 p.m. and online courses. The degree program can be completed on a full- or part-time basis.

Areas of Specialization: The program offers three areas of concentration:

• Curriculum Supervision
• Principal Leadership
• Reform and Change Leadership

Job Prospects: Graduates are prepared to step forward to lead schools as principals curriculum supervisors.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:
Fall: March 1
Spring: November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 2, with a third submitted at the applicant's discretion. Please submit the "Reference Report for Graduate Study," found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf.

From Whom: Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant's academic competence.

Coursework Required for Admission Consideration: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:
1. **Standard exception**: 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).

2. **Special exception**: Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

**Statement of Goals**: In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores**: 
TOEFL score (international applicants only): 88 iBT or 575 PBT minimum. Applicants with scores between 88 and 100 iBT or between 575 and 600 PBT must take an English refresher course.

**Resume**: Current resume required.

**Transfer Credit**: Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

School Leadership/Principal Leadership, M.Ed.

**About the Program**

The M.Ed. in School Leadership prepares educators with the advanced knowledge and skills needed to lead in urban schools. Students are prepared to tackle the unique challenges of educating children in high need environments. Coursework includes opportunities to learn and explore with other committed professionals who are dedicated to the success of all teachers and all students.

The Principal Leadership concentration prepares individuals to serve as principals and assistant principals; provides insight into the purposes and processes of schools; and demonstrates the expertise necessary to lead and administer a school community. This concentration meets state educational requirements for certification as a principal, with its courses approved by the Pennsylvania Department of Education.

**Time Limit for Degree Completion**: 4 years

**Campus Location**: Main

**Full-Time/Part-Time Status**: Students complete the degree program in a hybrid format, both through classes offered after 5:30 p.m. and online courses. The degree program can be completed on a full- or part-time basis.
Areas of Specialization: The program offers the areas of concentration:

- Curriculum Supervision
- Principal Leadership
- Reform and Change Leadership

Job Prospects: Graduates are prepared to step forward to lead schools and communities as principals and school superintendents.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

**School Leadership/Reform and Change Leadership, M.Ed.**

COLLEGE OF EDUCATION (http://education.temple.edu)

**About the Program**

The M.Ed. in School Leadership prepares educators with the advanced knowledge and skills needed to lead in urban schools. Students are prepared to tackle the unique challenges of educating children in high need environments. Coursework includes opportunities to learn and explore with other committed professionals who are dedicated to the success of all teachers and all students.

The Reform and Change Leadership concentration is designed for those students who do not wish to pursue curriculum supervision or principal leadership. This concentration prepares students to become agents of change in their schools and districts. Elective coursework provides students with the opportunity to take courses that meet their interests.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students complete the degree program in a hybrid format, both through classes offered after 5:30 p.m. and online courses. The degree program can be completed on a full- or part-time basis.

## School Psychology, Ed.S.

COLLEGE OF EDUCATION (http://education.temple.edu)

---

### About the Program

The Ed.S. is a rigorous graduate degree program that meets the requirements for certification as a school psychologist in Pennsylvania and New Jersey. Students who apply directly from a bachelor's degree can earn an M.Ed. after completion of 30 credits toward the Ed.S. In addition to required coursework, students must also complete an annual portfolio, required practicum placements, and a 1,200-hour internship in a school setting.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The program is designed to be completed in three years of full-time study, with the third year being a full-time internship.

**Accreditation:** The program is accredited by the National Association of School Psychologists and the Pennsylvania Department of Education.

**Job Prospects:** Graduates are employed in public and private schools.

**Licensure:** Graduates can become Nationally Certified School Psychologists. Certification in School Psychology is awarded after completing the internship and passing the examinations required by the Commonwealth of Pennsylvania. Some states will certify without the examinations.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

### Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* February 1

Applications are accepted for the Fall term only. Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

*From Whom:* Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant's academic competence.

**Coursework Required for Admission Consideration:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. No particular major is required, but prerequisites include coursework in Child Development,
Elementary Statistics, General Psychology, and Learning Theory. Students who did not complete the required prerequisites as part of their undergraduate degree or through previous coursework may be required to take:

- EPSY 5523 Introduction to Educational Psychology 3
- EPSY 5531 Learning Theories and Education 3
- EPSY 5541 Concepts in Human Development 3

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:

1. **Standard exception:** 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).

2. **Special exception:** Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**
GRE General Test required.
TOEFL score (international applicants only): 100 iBT or 600 PBT minimum.

**Interview:** Applicants who are considered qualified following an evaluation of their application materials are called in for an interview. Interviews are coordinated by a member of the Admissions Committee and involve the participation of advanced graduate students. Both group and individual interviews are conducted.

**Resume:** Current resume required.

**Advanced Standing:** Advanced standing is determined by the academic advisor during the student's first term in the program by evaluating the student's prior credits in accordance with and relevance to the requirements of the School Psychology program. The maximum number of advanced standing credits awarded is 30.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Clearances:** A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required at admission.

**Program Requirements**

**General Program Requirements:**
*Number of Credits Required Beyond the Baccalaureate: 68 (30 credits M.Ed.; 38 credits post-master's Ed.S.)*

**Required Courses:**

**Total Credit Hours:** 68

1 Twelve credits overall are needed to meet the internship requirement. The credits may be taken throughout Year 3 in the Fall, Spring, and/or Summer terms.
Internship: For certification, an internship with a minimum of 1,200 hours in an approved setting must be completed. A minimum of 600 hours must be in a school setting. The internship can be full-time for a year or half-time over two years.

Culminating Events:
Comprehensive Examination:
The comprehensive examination is an essay examination that covers key areas of Psychology and School Psychology to determine the student’s competence and ability to explain key concepts. The comprehensive exam is only required for a student whose GPA is below 3.5 at the completion of M.Ed. coursework.

Portfolio:
Students must submit a portfolio of professional work annually for review by the advisor.

School Psychology, Ph.D.
COLLEGE OF EDUCATION (http://education.temple.edu)

About the Program
The School Psychology Ph.D. program follows a scientist-practitioner model, which emphasizes that a school psychologist’s basic skills are derived from a thorough understanding of the science of psychology. Armed with this understanding of basic psychology, the school psychologist can adapt to changing professional demands and help determine the future of the profession. Without this background, a psychologist could only serve the role of a technician and would be poorly equipped to overcome any obstacles or lead new developments in the profession.

Time Limit for Degree Completion: 7 years

Full-Time/Part-Time Status: Students must complete one year of full-time residency. The program requires both day and evening classes.

Accreditation: The doctoral program in School Psychology is fully accredited by the American Psychological Association (APA), the National Association of School Psychologists (NASP), and the Pennsylvania Department of Education.

Job Prospects: Graduates are employed in universities, public and private schools, hospitals, research facilities, government and state agencies, and private practice.

Licensure: Certification in School Psychology is awarded after completing the internship and passing the examinations required by the Commonwealth of Pennsylvania. Some states will certify without the examinations. Licensing as a psychologist in most states requires an additional post-doctoral year of supervision and passing the Examination for the Professional Practice in Psychology (EPPP) and a state licensure exam.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include assistantships, fellowships, scholarships, tuition remission, graduate student employment, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines
Application Deadline:
Fall: December 1

Applications are accepted for the Fall term only. Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 2, with a third submitted at the applicant’s discretion. Please submit the “Reference Report for Graduate Study,” found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf.

From Whom: Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant’s academic competence.

Coursework Required for Admission Consideration: Prerequisites include coursework in Child Development, Elementary Statistics, General Psychology, and Learning/Cognition Theory.

Master’s Degree in Discipline/Related Discipline: A master’s degree is not required, although the Ph.D. program requires 85 credits post-master’s. Thus, applicants without a master’s degree are required to complete 30 credits beyond those required for the Ph.D.

Bachelor’s Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. Official transcript(s)
showing all undergraduate and graduate coursework must be submitted. A minimum GPA of 3.0 on a 4.0 scale is expected at both the undergraduate and graduate levels, although applicants may be admitted if other compelling evidence of academic potential is presented.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

Standardized Test Scores:

GRE: Official scores are required to be reported from the test taken no more than 5 years prior to submitting an application.
GRE Subject Test in Psychology: Optional.
TOEFL score (international applicants only): 100 iBT or 600 PBT minimum.

Interview: Applicants who are considered qualified following an evaluation of their application materials are called in for an interview. Interviews are coordinated by a member of the Admissions Committee and involve the participation of advanced graduate students. Both group and individual interviews are conducted.

Resume: Current resume required.

Writing Sample: The academic writing sample should be a paper written for a class within the last five years. If a recent paper is not available, an op-ed piece on an educational issue of the applicant's choosing should be composed. The op-ed should be 3 to 5 pages and of the sort that might appear in The New York Times, Philadelphia Inquirer, or Education Digest.

Advanced Standing: The advisor determines advanced standing during the student's first term in the program by evaluating the credits the student has taken in accordance with the relevance to and requirements of the School Psychology program. The maximum number of advanced standing credits awarded is 30.

Transfer Credit: Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer.

Clearances: A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required at admission. Students must complete and upload documentation of clearances prior to the start of their program.

Secondary Education/English Education, M.Ed.

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Program

The English Education specialization of the Secondary Education graduate program emphasizes the social, intellectual, and discursive skills necessary to ensure that students can not only survive, but also thrive in a rapidly expanding world. Courses stress connections between the advanced literacy demands of high school and the similarities and differences in the literacies necessary to thrive in home and school communities.

The English Education specialization seeks to prepare teachers to engage secondary students in the production and interpretation of literary and non-literary spoken and written texts. Graduates of this specialization can identify the basic structures and functions of language; become familiar with the texts and histories of American, European, and non-Western literary genres; and place reading and writing within the larger context of films, plays, videos, and other forms of expression.

The Secondary Education graduate program with a concentration in English Education may be completed for certification only or certification plus a master's degree. All applicants are initially admitted to the master's program. After successfully completing the minimum requirements for certification, students may choose to leave the program with certification-only or may elect to continue in the program and complete the additional credit hours and requirements to receive certification and a master's degree. The program requires a minimum of 25 credits for certification-only and 31 credits for certification plus a master's degree.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Evening classes on Main campus start at 5:00 p.m.

Accreditation: The program is approved as a teacher certification program by the Pennsylvania Department of Education and is accredited by the Teacher Education Accreditation Council (TEAC).

Job Prospects: Graduates typically pursue teaching positions in middle and secondary school settings in grades 7 to 12.

Licensure: Upon successful completion of the degree requirements and passing all licensure examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2, with a third submitted at the applicant's discretion. Please submit the "Reference Report for Graduate Study," found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf.

From Whom: Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant's academic competence.

Coursework Required for Admission Consideration: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. Further, the Pennsylvania Department of Education expects that all individuals seeking teacher certification at the master's level, regardless of the discipline, have taken at least 6 credits of college-level mathematics and 6 credits of college-level English composition and literature in their undergraduate program.

Before being admitted to the Secondary Education program with a specialization in English, applicants must have completed a major or the equivalent with approximately 30 credits of undergraduate coursework in the subject area, including a linguistics course. Interested applicants who are unsure if prerequisites have been fulfilled should meet with an advisor before completing an application.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:

1. **Standard exception:** 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).

2. **Special exception:** Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

Standardized Test Scores:
Praxis II®: Official score report must demonstrate a passing score in the English content area to gain admission to the program. Visit the Pennsylvania Department of Education's website at http://www.pde.state.pa.us or call its Bureau of Teacher Certification and Preparation at 717-787-3356 for the most current information about testing requirements for certification.

TOEFL score (international applicants only): 88 iBT or 575 PBT minimum. Applicants with scores between 88 and 100 iBT or between 575 and 600 PBT must take an English refresher course.

Resume: Current resume required.

Transfer Credit: Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

Coursework Waivers: Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student's credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

Clearances: A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required at admission.

Secondary Education/Mathematics Education, M.Ed.

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Program

The Mathematics Education specialization of the Secondary Education graduate program follows the standards and recommendations of leading mathematics professional organizations, such as the National Council of Teachers of Mathematics (NCTM). The curriculum is designed to provide candidates with knowledge of the interests and abilities of students at different levels of mathematics achievement. The program emphasizes problem-solving skills, mathematical thinking processes, and methods of actively engaging children and young adults in their own learning.

The Secondary Education graduate program with a concentration in Mathematics Education may be completed for certification only or certification plus a master's degree. All applicants are initially admitted to the master's program. After successfully completing the minimum requirements for certification, students may choose to leave the program with certification-only or may elect to continue in the program and complete the additional credit hours and requirements to receive certification and a master's degree. The program requires a minimum of 25 credits for certification-only and 31 credits for certification plus a master's degree.

Secondary Education/Science Education, M.Ed.

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Program
The Secondary Education graduate program's Science Education specialization, endorsed by the National Science Teachers Association (NSTA), requires a strong foundation in at least one science discipline with supporting expertise in mathematics, as appropriate. Students graduate with an understanding of the nature of science and its complex relationship to the society in which it functions and which it serves. The program offers concentrations in Biology, Chemistry, Earth Science, General Science, and Physics.

The Secondary Education graduate program with a concentration in Science Education may be completed for certification only or certification plus a master’s degree. All applicants are initially admitted to the master’s program. After successfully completing the minimum requirements for certification, students may choose to leave the program with certification-only or may elect to continue in the program and complete the additional credit hours and requirements to receive certification and a master’s degree. The program requires a minimum of 25 credits for certification-only and 31 credits for certification plus a master’s degree.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Evening classes on Main campus start at 5:00 p.m.

Accreditation: The program is approved as a teacher certification program by the Pennsylvania Department of Education and is accredited by the Teacher Education Accreditation Council (TEAC).

Areas of Specialization: The Science Education specialization of the Secondary Education graduate program offers concentrations in Biology, Chemistry, Earth Science, General Science, and Physics.

Job Prospects: Graduates typically pursue teaching positions in middle and secondary school settings in grades 7 to 12.

Licensure: Upon successful completion of the degree requirements and passing all required licensure examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Before being admitted to the Secondary Education Program with a specialization in Science, applicants must have completed a major or the equivalent (e.g., Biology, Chemistry, Earth Science, or Physics) with approximately 30 credits of undergraduate coursework in the subject area. For General Science majors, coursework must cover at least
three science areas with a year course plus a concentration in any area. Interested applicants who are unsure if prerequisites have been fulfilled should meet with an advisor before completing an application.

**Bachelor’s Degree in Discipline/Related Discipline:** A bachelor’s degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:

1. **Standard exception:** 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).

2. **Special exception:** Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**

- *Praxis III®:* Official score report must demonstrate a passing score in the Science content area to gain admission to the program.
- Visit the Pennsylvania Department of Education’s website at http://www.pde.state.pa.us or call its Bureau of Teacher Certification and Preparation at 717-787-3356 for the most current information about testing requirements for certification.
- TOEFL score (international applicants only): 88 iBT or 575 PBT minimum. Applicants with scores between 88 and 100 iBT or between 575 and 600 PBT must take an English refresher course.

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Coursework Waivers:** Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student’s credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

**Clearances:** A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required at admission.

**Program Requirements**

**General Program Requirements:**

- *Number of Didactic Credits Required Beyond the Baccalaureate:* 31

**Secondary Education/Social Studies Education, M.Ed.**

**About the Program**

Professional preparation in the Social Studies Education specialization of the Secondary Education graduate program aims to develop teachers with the skills necessary to create an informed citizenry with respect for diversity in a democratic society. The Social Studies Education specialization emphasizes critical thinking about social studies curriculum frameworks and materials; curriculum development grounded in teaching for understanding; and sensitivity around controversial areas such as race relations, gender, war and peace, equality of economic and social opportunities, and global interdependence.
The Secondary Education graduate program with a concentration in Social Studies Education may be completed for certification only or certification plus a master's degree. All applicants are initially admitted to the master's program. After successfully completing the minimum requirements for certification, students may choose to leave the program with certification-only or may elect to continue in the program and complete the additional credit hours and requirements to receive certification and a master's degree. The program requires a minimum of 25 credits for certification-only and 31 credits for certification plus a master's degree.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis. Evening classes on Main campus start at 5:00 p.m.

**Accreditation:** The program is approved as a teacher certification program by the Pennsylvania Department of Education and is accredited by the Teacher Education Accreditation Council (TEAC).

**Job Prospects:** Graduates typically pursue teaching positions in middle and secondary school settings in grades 7 to 12.

**Licensure:** Upon successful completion of the degree requirements and passing all required licensure examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

### Admission Requirements and Deadlines

**Application Deadline:**

- **Fall:** March 1
- **Spring:** November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

- **Number Required:** 2, with a third submitted at the applicant's discretion. Please submit the "Reference Report for Graduate Study," found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf.

- **From Whom:** Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant's academic competence.

**Coursework Required for Admission Consideration:** All applicants must present credentials that are equivalent to the appropriate bachelor's degree at Temple University. Further, the Pennsylvania Department of Education expects that all individuals seeking teacher certification at the master's level, regardless of the discipline, have taken at least 6 credits of college-level mathematics and 6 credits of college-level English composition and literature in their undergraduate program.

Before being admitted to the Secondary Education program with a specialization in Social Studies, applicants must have completed a major or the equivalent (e.g., Geography, History, or Political Science) with approximately 30 credits of undergraduate coursework in the subject area. Interested applicants who are unsure if prerequisites have been fulfilled should meet with an advisor before completing an application.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:

1. **Standard exception:** 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).

2. **Special exception:** Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**

- **Praxis II:** Official score report must demonstrate a passing score in the Social Studies content area to gain admission to the program. Visit the Pennsylvania Department of Education's website at http://www.pde.state.pa.us or call its Bureau of Teacher Certification and Preparation at 717-787-3356 for the most current information about testing requirements for certification.

- **TOEFL score (international applicants only):** 88 iBT or 575 PBT minimum. Applicants with scores between 88 and 100 iBT or between 575 and 600 PBT must take an English refresher course.

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Coursework Waivers:** Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student's credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

**Clearances:** A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required at admission.

Secondary Education / World/Foreign Languages Education, M.Ed.

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Program

The World/Foreign Languages Education specialization of the Secondary Education program is devoted to providing students with a combination of fluency in the target language and the ability to implement best practices in foreign language pedagogy. The World/Foreign Languages Education specialization emphasizes that learning a foreign language also means learning about another way of life and developing intercultural understanding in order to escape a narrow cultural perspective. Through the experiences in this program, students gain a deeper understanding of the nature of language and culture.

Although most graduates work in secondary school settings, the need for foreign language teachers in elementary schools, especially for teachers of Spanish, is increasing. In response to this, the World/Foreign Languages Education specialization offers K-12 certification, and the curriculum is designed to equip students with knowledge and skills they can apply in K-12 settings. Certification is offered in French, German, Italian, Latin, and Spanish.

The Secondary Education graduate program with a concentration in World/Foreign Languages Education may be completed for certification only or certification plus a master's degree. All applicants are initially admitted to the master’s program. After successfully completing the minimum requirements for certification, students may choose to leave the program with certification-only or may elect to continue in the program and complete the additional credit hours and requirements to receive certification and a master’s degree. The program requires a minimum of 28 credits for certification-only and 31 credits for certification plus a master’s degree.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Evening classes on Main campus start at 5:30 p.m.

Accreditation: The program is approved as a teacher certification program by the Pennsylvania Department of Education and is accredited by the Teacher Education Accreditation Council (TEAC).

Areas of Specialization: The World/Foreign Languages Education specialization of the Secondary Education graduate program offers certification in French, German, Italian, Latin, and Spanish.

Job Prospects: Graduates typically pursue teaching positions in elementary, middle, or secondary school settings in grades K to 12.

Licensure: Upon successful completion of the degree requirements and passing all required licensure examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.
Admission Requirements and Deadlines

Secondary Education and Special Education/English Education, M.Ed.

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Program

The M.Ed. in Secondary Education and Special Education is designed to prepare students to teach in a diverse, urban context and to have the skills to address the challenges facing both students and educators in urban schools. Teachers who are well-equipped to create inclusive classrooms foster learning for all students, including those with disabilities, learning deficits, and language differences, as well as those from diverse cultures within and outside mainstream American culture. In addressing student diversity, effective teachers create pedagogical strategies that are founded on principles of social, cognitive, emotional, and intellectual development. Students in the program learn to present lesson plans that differentiate instruction and include concrete strategies designed to ensure that all students’ needs are met and all students have the opportunity to succeed in the classroom. Our students spend some time in the field in the broad spectrum of Philadelphia schools, with the idea that a diverse sequence of field experiences promote an understanding of the impact of resources on education and efforts to ensure equitable access to good education for all children.

The M.Ed. in Secondary Education and Special Education degree program is designed for individuals choosing to change careers after earning a baccalaureate degree in another field to prepare them for initial teacher certification in Secondary Education (grades 7-12) and Special Education (grades 7-12). With this degree, students are highly qualified to teach in a variety of school settings. They earn a combined M.Ed. in Secondary Education and Special Education, with dual certification in Special Education and one of the concentration areas in Secondary Education:

- English Education
- Mathematics Education
- Science Education
- Social Studies Education
- World/Foreign Languages Education

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Evening classes on Main campus start at 5:00 p.m.

Accreditation: The program is approved as a teacher certification program by the Pennsylvania Department of Education and is accredited by the Teacher Education Accreditation Council (TEAC).

Job Prospects: Graduates typically pursue teaching positions in middle and secondary school settings in grades 7 to 12.

Licensure: Upon successful completion of the degree requirements and passing all licensure examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: October 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2, with a third submitted at the applicant’s discretion. Please submit the “Reference Report for Graduate Study,” found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf.

From Whom: Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant’s academic competence.

Coursework Required for Admission Consideration: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. Further, the Pennsylvania
Department of Education expects that all individuals seeking teacher certification at the master's level, regardless of the discipline, have taken at least 6 credits of college-level mathematics and 6 credits of college-level English composition and literature in their undergraduate program.

Before being admitted to the Secondary Education and Special Education M.Ed. program with a specialization in English, applicants must have completed a major or the equivalent with approximately 30 credits of undergraduate coursework in the subject area, including a linguistics course. Interested applicants who are unsure if prerequisites have been fulfilled should meet with an advisor before completing an application.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:

1. **Standard exception:** 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).

2. **Special exception:** Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**

**Praxis I®:** Official score report must demonstrate a passing score in the English content area to gain admission to the program. Visit the Pennsylvania Department of Education's website at http://www.pde.state.pa.us or call its Bureau of Teacher Certification and Preparation at 717-787-3356 for the most current information about testing requirements for certification.

For applicants whose native language is not English, the TOEFL, IELTS, or PTE Academic exam is required:

- **TOEFL:** 79 iBT or 550 PBT minimum
- **IELTS:** 6.5 minimum
- **PTE Academic:** 53 minimum

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Coursework Waivers:** Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student's credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

**Clearances:** A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required at admission.

**Total Credit Hours:** 46

1. It is recommended that SPED 5666 be the first Special Education course taken by students in the program.

**Milestones:** Students must meet two milestones during their training:

- Intermediate Performance Assessment (IPA)
- Senior Performance Assessment (SPA)

**Culminating Events:** Student teaching and its related seminar are the culminating events for this program. For EDUC 5888 Supervised Teaching, students receive training and experiences in both secondary education and special education. The Supervised Teaching course for Secondary Education students entails 14 weeks of supervised teaching in a Secondary Education content area classroom.

Secondary Education and Special Education/Mathematics Education, M.Ed.

About the Program
The M.Ed. in Secondary Education and Special Education is designed to prepare students to teach in a diverse, urban context and to have the skills to address the challenges facing both students and educators in urban schools. Teachers who are well-equipped to create inclusive classrooms foster learning for all students, including those with disabilities, learning deficits, and language differences, as well as those from diverse cultures within and outside mainstream American culture. In addressing student diversity, effective teachers create pedagogical strategies that are founded on principles of social, cognitive, emotional, and intellectual development. Students in the program learn to present lesson plans that differentiate instruction and include concrete strategies designed to ensure that all students’ needs are met and all students have the opportunity to succeed in the classroom. Our students spend some time in the field in the broad spectrum of Philadelphia schools, with the idea that a diverse sequence of field experiences promote an understanding of the impact of resources on education and efforts to ensure equitable access to good education for all children.

The M.Ed. in Secondary Education and Special Education degree program is designed for individuals choosing to change careers after time in the field in the broad spectrum of Philadelphia schools, with the idea that a diverse sequence of field experiences promote an understanding of the impact of resources on education and efforts to ensure equitable access to good education for all children.

The M.Ed. in Secondary Education and Special Education degree program is designed for individuals choosing to change careers after earning a baccalaureate degree in another field to prepare them for initial teacher certification in Secondary Education (grades 7-12) and Special Education (grades 7-12). With this degree, students are highly qualified to teach in a variety of school settings. They earn a combined M.Ed. in Secondary Education and Special Education, with dual certification in Special Education and one of the concentration areas in Secondary Education:
- English Education
- Mathematics Education
- Science Education
- Social Studies Education

Time Limit for Degree Completion: 4 years

Admission Requirements and Deadlines
Application Deadline:
- Fall: March 1
- Spring: October 1
- Summer: April 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

FINANCING OPPORTUNITIES:
Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Letters of Reference:
Number Required: 2, with a third submitted at the applicant’s discretion. Please submit the “Reference Report for Graduate Study,” found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf.
From Whom: Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant’s academic competence.

Coursework Required for Admission Consideration: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. Further, the Pennsylvania Department of Education expects that all individuals seeking teacher certification at the master’s level, regardless of the discipline, have taken at least 6 credits of college-level mathematics and 6 credits of college-level English composition and literature in their undergraduate program.

Before being admitted to the Secondary Education and Special Education M.Ed. program with a specialization in Mathematics, applicants must...
have completed a major or the equivalent with approximately 30 credits of undergraduate coursework in the subject area, beginning with Calculus. Interested applicants who are unsure if prerequisites have been fulfilled should meet with an advisor before completing an application.

**Bachelor’s Degree in Discipline/Related Discipline:** A bachelor’s degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:

1. **Standard exception:** 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).

2. **Special exception:** Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**

**Praxis II:** Official score report must demonstrate a passing score in the Mathematics content area to gain admission to the program. Visit the Pennsylvania Department of Education’s website at [http://www.pde.state.pa.us](http://www.pde.state.pa.us) or call its Bureau of Teacher Certification and Preparation at 717-787-3356 for the most current information about testing requirements for certification.

For applicants whose native language is not English, the TOEFL, IELTS, or PTE Academic exam is required:

- **TOEFL:** 79 iBT or 550 PBT minimum
- **IELTS:** 6.5 minimum
- **PTE Academic:** 53 minimum

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Coursework Waivers:** Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student’s credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

**Clearances:** A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required at admission.

Secondary Education and Special Education/Science Education, M.Ed.

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Program
The M.Ed. in Secondary Education and Special Education is designed to prepare students to teach in a diverse, urban context and to have the skills to address the challenges facing both students and educators in urban schools. Teachers who are well-equipped to create inclusive classrooms foster learning for all students, including those with disabilities, learning deficits, and language differences, as well as those from diverse cultures within and outside mainstream American culture. In addressing student diversity, effective teachers create pedagogical strategies that are founded on principles of social, cognitive, emotional, and intellectual development. Students in the program learn to present lesson plans that differentiate instruction and include concrete strategies designed to ensure that all students’ needs are met and all students have the opportunity to succeed in the classroom. Our students spend some time in the field in the broad spectrum of Philadelphia schools, with the idea that a diverse sequence of field experiences promote an understand of the impact of resources on education and efforts to ensure equitable access to good education for all children.

The M.Ed. in Secondary Education and Special Education degree program is designed for individuals choosing to change careers after earning a baccalaureate degree in another field to prepare them for initial teacher certification in Secondary Education (grades 7-12) and Special Education (grades 7-12). With this degree, students are highly qualified to teach in a variety of school settings. They earn a combined M.Ed. in Secondary Education and Special Education, with dual certification in Special Education and one of the concentration areas in Secondary Education:

- English Education
- Mathematics Education
- Science Education
- Social Studies Education
- World/Foreign Languages Education

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Evening classes on Main campus start at 5:00 p.m.

Accreditation: The program is approved as a teacher certification program by the Pennsylvania Department of Education and is accredited by the Teacher Education Accreditation Council (TEAC).

Job Prospects: Graduates typically pursue teaching positions in middle and secondary school settings in grades 7 to 12.

Licensure: Upon successful completion of the degree requirements and passing all licensure examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:
Fall: March 1
Spring: October 1
Summer: April 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:

About the Program

The M.Ed. in Secondary Education and Special Education is designed to prepare students to teach in a diverse, urban context and to have the skills to address the challenges facing both students and educators in urban schools. Teachers who are well-equipped to create inclusive classrooms foster learning for all students, including those with disabilities, learning deficits, and language differences, as well as those from diverse cultures within and outside mainstream American culture. In addressing student diversity, effective teachers create pedagogical strategies that are founded on principles of social, cognitive, emotional, and intellectual development. Students in the program learn to present lesson plans that differentiate instruction and include concrete strategies designed to ensure that all students’ needs are met and all students have the opportunity to succeed in the classroom. Our students spend some time in the field in the broad spectrum of Philadelphia schools, with the idea that a diverse sequence of field experiences promote an understanding of the impact of resources on education and efforts to ensure equitable access to good education for all children.

The M.Ed. in Secondary Education and Special Education degree program is designed for individuals choosing to change careers after earning a baccalaureate degree in another field to prepare them for initial teacher certification in Secondary Education (grades 7-12) and Special Education (grades 7-12). With this degree, students are highly qualified to teach in a variety of school settings. They earn a combined M.Ed. in Secondary Education and Special Education, with dual certification in Special Education and one of the concentration areas in Secondary Education:

- English Education
- Mathematics Education
- Science Education
- Social Studies Education
- World/Foreign Languages Education

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Evening classes on Main campus start at 5:30 p.m.

- Spring: October 1
- Summer: April 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2, with a third submitted at the applicant's discretion. Please submit the "Reference Report for Graduate Study," found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf.

From Whom: Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant's academic competence.

Coursework Required for Admission Consideration: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. Further, the Pennsylvania Department of Education expects that all individuals seeking teacher certification at the master's level, regardless of the discipline, have taken at least 6 credits of college-level mathematics and 6 credits of college-level English composition and literature in their undergraduate program.

Before being admitted to the Secondary Education and Special Education M.Ed. program with a specialization in World/Foreign Languages, applicants must have completed a major or the equivalent (e.g., French, German, Italian, Latin, Portuguese, or Spanish) with approximately 30 credits of undergraduate coursework in the subject area. Interested applicants who are unsure if prerequisites have been fulfilled should meet with an advisor before completing an application.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:

1. Standard exception: 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as
a non-matriculated student in the program prior to application for admission).

2. **Special exception**: Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

**Statement of Goals**: In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores**:

- **Praxis I®**: Applicants must pass the Praxis I® examination required by the Pennsylvania Department of Education. A minimum score of 180 must be obtained in each Core Academic Skills for Educators Test in Reading, Writing, and Mathematics.
- **Praxis II®**: Official score report must demonstrate a passing score in the World Languages content area to gain admission to the program. Visit the Pennsylvania Department of Education's website at [http://www.pde.state.pa.us](http://www.pde.state.pa.us) or call its Bureau of Teacher Certification and Preparation at 717-787-3356 for the most current information about testing requirements for certification.

For applicants whose native language is not English, the TOEFL, IELTS, or PTE Academic exam is required:

- TOEFL: 79 iBT or 550 PBT minimum
- IELTS: 6.5 minimum
- PTE Academic: 53 minimum

**Resume**: Current resume required.

**Transfer Credit**: Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Coursework Waivers**: Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student's credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

**Clearances**: A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required at admission.

**Program Requirements**

**General Program Requirements**:

- **Number of Credits Required Beyond the Baccalaureate**: 46

**Required Courses**:

- **Core Courses**
  - EDUC 5255: Tech in Classrooms: TPCK 3
  - EDUC 5402: Child and Adol Develop 3

- **Special Education Courses**
  - SPED 5106: Literacy Instruction for Young Children with Disabilities 3
  - SPED 5109: Classroom Management and Positive Behavior Support 3
  - SPED 5187: Graduate Assessment Practicum in Early Childhood Special Education 3
  - SPED 5211: Effective Instructional Strategies for Young Children with Disabilities 3
  - SPED 5402: Effective Transition Practices for Students with Mild Disabilities 3
  - SPED 5666: Inclusive School Practices 1 3

- **World/Foreign Languages Education Courses**
  - FLED 5429: Curriculum and Methods in Foreign Languages 3
  - FLED 5431: Innovations in Foreign Language Education 3

- **Supervised Teaching**
  - EDUC 5605: Models of Teaching 3
  - EDUC 5888: Supervised Teaching 4

**Total Credit Hours**: 46

1 It is recommended that SPED 5666 be the first Special Education course taken by students in the program.

**Milestones**: Students must meet two milestones during their training:

- Intermediate Performance Assessment (IPA)
- Senior Performance Assessment (SPA)

**Culminating Events**: Student teaching and its related seminar are the culminating events for this program. For EDUC 5888 Supervised Teaching, students receive training and experiences in both secondary education and special education. The Supervised Teaching course for Secondary Education students entails 14 weeks of supervised teaching in a Secondary Education content area classroom.

Special Education, M.Ed.

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Program

The master's degree program in Special Education is designed for those who already hold certification in Art Education, Early Childhood Education, Elementary Education, Middle Grades Education, Music Education, or Physical Education. The program is grounded in its commitment to the following principles:

- Evidence-based instructional practices and their implementation in the classroom.
- Recognition and amelioration of the impact of sociocultural factors on the education of children with disabilities.
- Preventative approaches that de-emphasize labels and traditional diagnostic categories to support improved teaching and learning.
- Implementation of inclusive practices both within schools and within society as a whole.

The M.Ed. in Special Education offers three concentrations: Autism Spectrum Disorders, Mild Disabilities, or Severe Disabilities.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 5:30 p.m. The degree program can be completed on a full- or part-time basis.

Accreditation: The program is approved as a teacher certification program by the Pennsylvania Department of Education and is accredited by the Teacher Education Accreditation Council (TEAC).

Areas of Specialization: The program offers concentrations in Autism Spectrum Disorders, Mild Disabilities, or Severe Disabilities. The scope of the Special Education certificate is grades PreK-8.

Job Prospects: The market for highly qualified special education teachers remains unabated. The U.S. Bureau of Labor Statistics reports an increased need for special education teachers. The shortage of special education teachers has been identified regionally (i.e., Pennsylvania and New Jersey) and is particularly prevalent in urban centers in the immediate environs of Temple University.

Licensure: Upon successful completion of the degree requirements and passing all required licensure examinations, candidates may apply for a Pennsylvania Instructional I Special Education PreK-8 Certificate.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2, with a third submitted at the applicant’s discretion. Please submit the “Reference Report for Graduate Study,” found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf.

From Whom: Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant’s academic competence.

Coursework Required for Admission Consideration: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. Further, applicants must hold valid Pennsylvania teaching certification in Art Education, Early Childhood Education, Elementary Education, Middle Grades Education, Music Education, or Physical Education.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:

1. **Standard exception**: 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).

2. **Special exception**: Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

Standardized Test Scores:

TOEFL score (international applicants only): 88 iBT or 575 PBT minimum. Applicants with scores between 88 and 100 iBT or between 575 and 600 PBT must take an English refresher course.

Resume: Current resume required.

Additional Requirements: A copy of a valid certification in teaching Art Education, Early Childhood Education, Elementary Education, Middle
Grades Education, Music Education, or Physical Education must be presented.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Coursework Waivers:** Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student’s credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

**Clearances:** A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required at admission.

### Program Requirements

#### General Program Requirements:

**Number of Credits Required Beyond the Baccalaureate:** 30

#### Required Courses:

**Core Courses**

- SPED 5106: Literacy Instruction for Young Children with Disabilities (3 credits)
- SPED 5107: Understanding and Using Special Education Research (3 credits)
- SPED 5108: Assistive Technology and Universal Design (3 credits)
- SPED 5109: Classroom Management and Positive Behavior Support (3 credits)
- SPED 5187: Graduate Assessment Practicum in Early Childhood Special Education (3 credits)
- SPED 5211: Effective Instructional Strategies for Young Children with Disabilities (3 credits)

**Specialized Pedagogy Courses for Concentration**

6 credits

- Autism Spectrum Disorders
  - SPED 5301: Building Communication in Students with Autism Spectrum Disorder and Severe Disabilities (3 credits)
  - SPED 5302: Students with Autism Spectrum Disorders: Effective Teaching Strategies (3 credits)

- Mild Disabilities
  - SPED 5401: Students with Mild Disabilities: Effective Teaching Strategies (3 credits)
  - SPED 5402: Effective Transition Practices for Students with Mild Disabilities (3 credits)

- Severe Disabilities
  - SPED 5201: Students with Mild to Severe Disabilities: Effective Teaching Strategies (3 credits)
  - SPED 5301: Building Communication in Students with Autism Spectrum Disorder and Severe Disabilities (3 credits)

**Practicum in Special Education**

6 credits

- SPED 5587: Special Education Practicum
- or Electives in Teacher Education

**Total Credit Hours:** 30

---

1 Students who do not have one year of verified teaching experience with students with disabilities are required to take 6 credits of SPED 5587 Special Education Practicum.

**Culminating Events:** There are no culminating events beyond coursework and/or practicum.

### Teacher Leadership, M.Ed.

**COLLEGE OF EDUCATION**

**About the Program**

The 30-credit M.Ed. in Teacher Leadership is designed for teachers and other educators who aspire to leadership roles within the context of schools and pre-K-12 schooling but wish to maintain their focus on the classroom. It enables teaching professionals to identify various pathways to differentiating their responsibilities and assuming leadership roles while remaining focused on classroom practice. The development of teacher leaders reflects an effort to enhance the role of teachers in promoting positive learning environments and ensuring that schools meet the needs of all students. Teacher leaders have the potential to create the conditions they need to succeed in their classrooms, to work collaboratively and productively with school administrators, and to lift student achievement. Teacher leaders have the potential to foster educational equity and opportunity for all students and to learn and model positive ethical and professional practices.

The Teacher Leadership M.Ed. program consists of a group of foundational courses and a two-course sequence in practitioner research required of all students. The master’s program includes the requirements for Pennsylvania’s Instructional Coach Endorsement Certificate (http://www.education.pa.gov/Documents/Teachers-Administrators/Instructional%20Coaching%20in%20PA/Framework%20for%20Instructional%20Coach%20Endorsement.pdf). Interested students can add a certificate in a specialty area such as Instructional Learning Technology by taking an additional six credits. Students may also pursue specialized courses in specific content areas such as Early Childhood Education or
Secondary Science or Mathematics as an option in lieu of two program-based generalist courses.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students complete the degree program in a hybrid format, both through classes offered after 5:30 p.m. and online courses. The degree program can be completed on a full- or part-time basis.

**Job Prospects:** Graduates of the program are prepared to assume leadership roles in their schools, having gained the ability to:

- Help colleagues work collaboratively to create effective instruction and improve student learning outcomes;
- Assist colleagues in solving problems, making good decisions, managing conflict, and promoting positive change;
- Communicate and effectively engage with diverse constituencies;
- Model good teaching practices and effectively coach and mentor colleagues;
- Use classroom and school-based data to support decision making;
- Integrate evidence-based practices and research into teaching practice;
- Participate in assessing classroom and school effectiveness;
- Improve school climate and promote positive learning communities; and
- Take positive steps toward ensuring educational equity and equal opportunity.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

**Admission Requirements and Deadlines**

**Application Deadline:**

- **Fall:** March 1
- **Spring:** November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

**APPLY ONLINE** to this graduate program.

**Letters of Reference:**

**Number Required:** 2, with a third submitted at the applicant’s discretion. Please submit the “Reference Report for Graduate Study,” found at http://www.temple.edu/grad/admissions/documents/Web_GRADREFERENCE_REPORT.pdf.

**From Whom:** Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant’s academic competence.

**Coursework Required for Admission Consideration:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

2. **Special exception:** Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**

TOEFL score (international applicants only): 88 iBT or 575 PBT minimum. Applicants with scores between 88 and 100 iBT or between 575 and 600 PBT must take an English refresher course.

**Resume:** Current resume required.

**Other:** Applicants to the program must also:

- Be an effective content teacher at the level of early childhood education (pre-K-4), middle grades education (grades 4-8), or secondary education (grades 7-12);
- Hold an Instructional I or II teaching certificate and have a minimum of three years of effective teaching experience; and
- Meet the criteria established by the Temple Teacher Education Program to serve as a mentor for pre-service teachers.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

Teaching English to Speakers of Other Languages (TESOL), M.S.Ed.

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Program
The Master of Science in Education program in Teaching English to Speakers of Other Languages (TESOL) is designed for professionals from a variety of backgrounds and with varied career interests. These include:

- Those interested in teaching positions that do not require state certification, including jobs overseas or in business settings, community agencies, college and university English language institutes, and parochial or other independent elementary and secondary schools.
- Those who are already certified to teach in a public school system in Pennsylvania and want to learn how to better meet the needs of English language learners.
- Those from abroad who desire to develop expertise in teaching English in their native country.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Job Prospects: Graduates are prepared to meet the needs of English language learners both stateside and abroad.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

**Urban Education, M.Ed.**

**About the Program**

The Urban Education master's program serves school-based educators seeking to enhance their understanding of subjects such as the history of urban education, national education policy, social theory, and urban education reform. Courses generally familiarize students with research methodology and include opportunities to conduct research and do field-based study. The program also addresses the needs of professionals involved in adult literacy, afterschool programs, community development, community organizing, community-based education, and family centers.

Students choose from among four areas of specialization: Educational Policy Studies, Foundations in Urban Education, School-Community Partnerships, and Teaching in Urban Schools. Students also have the opportunity to design their program individually with their advisor.

Full-time program faculty specialize in class and race issues; historical, sociological, and anthropological foundations of urban education; quantitative research methods; risk and resilience; school-community collaboration; transition to college; urban educational policy and reform;
and youth culture. Affiliated faculty specialize in areas such as African American families and youth, community mediation, community-based research, gender issues in administration, higher education, multicultural education, race relations, sociology of education, urban studies, and writing instruction. For students interested in other areas of specialization, the program develops special links with appropriate faculty across the university.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** The Urban Education program is both interdisciplinary and intercollegiate, taking advantage of the strengths of various schools/colleges and departments at Temple. Program faculty include those with full-time assignments in Urban Education, as well as affiliated faculty assigned to other departments, such as African American Studies, Anthropology, Communication Sciences, Educational Administration, Educational Psychology, English, Geography and Urban Studies, History, Political Science, Social Administration, Sociology, Teacher Education, TESOL (English as Second Language), and Women's Studies.

**Study Abroad:** Students may participate in a summer abroad program sponsored by Urban Education faculty that involves a month-long stay in a non-tourist area of Jamaica. The major emphasis of this program, which carries 3 or 6 credits, is international service learning and community development.

**Areas of Specialization:** Four specializations, as well as the opportunity to design one's own program individually with an advisor, are offered:

- Educational Policy Studies
- Foundations in Urban Education
- School-Community Partnerships
- Teaching in Urban Schools

**Job Prospects:** Graduates find jobs in school districts, advocacy agencies, and community-based organizations.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

### Admission Requirements and Deadlines

**Application Deadline:**
- **Fall:** March 1
- **Spring:** November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

- **Number Required:** 2, with a third submitted at the applicant's discretion. Please submit the "Reference Report for Graduate Study," found at http://www.temple.edu/grad/admissions/documents/Web_GRADREFERENCE_REPORT.pdf.

- **From Whom:** Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant's academic competence.

**Coursework Required for Admission Consideration:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:

1. **Standard exception:** 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).

2. **Special exception:** Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**

- TOEFL score (international applicants only): 88 iBT or 575 PBT minimum. Applicants with scores between 88 and 100 iBT or between 575 and 600 PBT must take an English refresher course.

- **Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. Grades must be "B" or better in order to transfer. Typically, no more than 6 transfer credits are accepted, although up to 9 may be transferred under special circumstances.

### Program Requirements

**General Program Requirements:**

**Number of Credits Required Beyond the Baccalaureate:** 30

Urban School Leadership, M.Ed.

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Program

The M.Ed. in Urban School Leadership is designed for students who are committed to service in Philadelphia and other urban centers who would benefit from a focus on urban schooling while earning principal certification and a master's degree. The program prepares educators with the advanced knowledge and skills needed to lead in urban schools. Students are prepared to tackle the unique challenges of educating children in high need environments. Coursework includes opportunities to learn and explore with other committed professionals who are dedicated to the success of all teachers and all students.

Time Limit for Degree Completion: 4 years

Campus Location: Center City

Full-Time/Part-Time Status: Students complete the degree program in a hybrid format, both through classes and online courses. Courses meet for two weeks during the summer and one weekend a month during the school year. Designed for working professionals, the degree program is expected to be completed on a part-time basis.

Job Prospects: Graduates are prepared to step forward to lead urban schools and communities.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

The new M.Ed. in Urban School Leadership will be offered beginning Summer 2017.

Application Deadline:

Summer II: February 1
Fall: March 1
Spring: November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2, with a third submitted at the applicant's discretion. Please submit the "Reference Report for Graduate Study," found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf.

From Whom: Letters of recommendation should be obtained from college/university faculty members and others who can provide insight into the applicant's academic competence.

Coursework Required for Admission Consideration: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:

1. **Standard exception:** 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as
2. **Special exception:** Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**

TOEFL score (international applicants only): 88 iBT or 575 PBT minimum. Applicants with scores between 88 and 100 iBT or between 575 and 600 PBT must take an English refresher course.

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Graduate Certificate: Applied Behavior Analysis**

**About the Certificate**

The number of students with Autism Spectrum Disorders (ASD) served in public schools has surged dramatically at local, regional, and national levels, generating demand for highly qualified professionals trained in strategies to support this population. The core principles and techniques of Applied Behavior Analysis are broadly applicable (e.g., addressing skill deficits, behavior management, staff performance improvement). Therefore, this certificate meets not only the demands in ASD, but many other areas as well.

The graduate certificate in Applied Behavior Analysis is responsive to the newly developed guidelines of the Behavior Analyst Certification Board®, Inc. (BACB®). This certificate program allows students to fulfill the requirements for BACB® certification without matriculating into the M.S.Ed. program, which is primarily for applicants with a master’s degree who are seeking BACB®-approved coursework. Applicants are responsible for ensuring that they apply under the current BACB® standards, which are found at http://bacb.com/. These standards are subject to revision at the sole discretion of the BACB® Board of Directors.

**Time Limit for Certificate Completion:** 2 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis.

**Non-Matriculated Student Policy:** Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

**Accreditation:** The certificate program includes a 6-course sequence approved by BACB®.

**Job Prospects:** Graduates are prepared for professional careers in a variety of environments, particularly in social service agencies and educational institutions.
Licensure: Coursework may apply toward earning the Behavior Specialist license from the Commonwealth of Pennsylvania.

Graduate Certificate: Autism Endorsement

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Certificate

Pennsylvania is experiencing a considerable increase in the proportion of students with autism eligible for services. A significant need exists for well-trained professionals holding various Level I and Level II certificates of professional competence to serve students with autism and related Autism Spectrum Disorders (ASD).

The graduate certificate in Autism Endorsement offers a competency-based sequence of courses and a practicum for certified teachers who support students with ASD. All courses are grounded in applied behavior analysis and demonstrate research-based practices that enable students to gain the knowledge, specific skills, and competencies to effectively educate children with ASD and work with their families. Students learn from renowned faculty in Temple's College of Education, which is consistently ranked among the nation's best by U.S. News and World Report. Flexible practicum options are available.

Completion of the certificate program ensures that graduates enhance their marketability as certified teachers when seeking positions in inclusive settings. Students who successfully complete the program are eligible to receive Pennsylvania's Autism Spectrum Disorders Endorsement Certificate (http://www.education.pa.gov/Documents/Teachers-Administrators/Certification).
Time Limit for Certificate Completion: 2 years

Campus Location: Main, with convenient night classes offered

Full-Time/Part-Time Status: The graduate certificate can be completed on a part-time basis.

Graduate Certificate: College Access and Success

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Certificate

The graduate certificate in College Access and Success aims to provide a post-baccalaureate credential that aligns with the primary goals of the M.Ed. program in Higher Education. As the College of Education strives to prepare existing and incoming professionals in the ever-changing landscape of higher and postsecondary education, this certificate serves as a critical bridge to helping these service providers develop marketable skills and competencies. Courses offered through this graduate certificate program challenge norms by placing significant emphasis on urban issues and themes of equity, access, and affordability in higher and postsecondary education.

Time Limit for Certificate Completion: 2 years

Campus Location: Main

Full-Time/Part-Time Status: The graduate certificate can be completed on a part-time basis.

Graduate Certificate: Conflict Process

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Certificate

The graduate certificate in Conflict Process is designed for the professional who works regularly with conflict management and dispute resolution in her/his profession. Students learn the causes of conflict, the dynamics of conflict, and the variety of approaches for managing conflict. Four required courses focus on conflict theory and practice in organizational, group, and community contexts. The program’s strong emphasis on integration of theory and practice develops students’ knowledge and skills.

Time Limit for Certificate Completion: 2 years, although the certificate is designed to be completed within a one-year period

Campus Location: Main, with classes offered in the evening and on weekends

Full-Time/Part-Time Status: The graduate certificate can be completed on a part-time basis.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

## Graduation Certificate: Data-Driven Decision Making

**COLLEGE OF EDUCATION** (http://education.temple.edu)

## About the Certificate

Data-driven decision making refers to the practice of using systematically collected and analyzed information to guide key decisions about policy or practice in business, education, government, or other contexts. A growing need exists among organizations of all sorts for employees with knowledge about data-driven decision making, an important trend in the field and one that complements the expertise of our educational psychology faculty. The graduate certificate program is designed for data users and decision makers from many different kinds of organizations, including schools, colleges, social service groups, nonprofits, government, and business.

The success of data-driven decision making depends on knowing what information to collect, how to collect it, how to analyze it, how to interpret the findings, and how to translate these understandings into subsequent action. Flexible sequencing of courses, potentially flexible modes of course delivery (e.g., face-to-face, hybrid, online), and a culminating paper on a flexible topic allow students in the graduate certificate program to customize training to fit their personal interests.

**Time Limit for Certificate Completion:** 2 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis.

**Non-Matriculated Student Policy:** Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

Graduate Certificate: Disability Studies

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Certificate

Disability Studies offers a course of study that explores disability from historical, cultural, and sociopolitical perspectives. Focus is placed on disability within a social and political context, challenging the notion that the statuses and roles of individuals with disability result from physical or psychological aspects of disability. Scholars in the field of Disability
Studies recognize the necessity of focusing their work on issues of disability within a traditional discipline, but also require a familiarity with work on disability in other disciplines to enrich their own understandings. It is for this philosophical reason that the graduate certificate in Disability Studies is interdisciplinary and jointly sponsored by the Institute on Disabilities and the College of Education.

The graduate certificate in Disability Studies draws on resources in a broad array of disciplines from the liberal arts and social sciences to the allied health professions. It develops a more accurate understanding and appreciation of people with disabilities and the evolution of their civil rights movement. The graduate certificate can be earned in conjunction with a wide variety of disciplines. Disability Studies provides students with an opportunity to reflect critically on practices and approaches that may be taken for granted in their home disciplines. Particular strengths include the social history of disability and ableism, disability and health, ecological aspects of disablement, universal design, disability social policy, and constituency-oriented research on disability rights and culture.

Time Limit for Certificate Completion: 2 years

Campus Location: Main and Online

Full-Time/Part-Time Status: The graduate certificate can be completed on a part-time basis.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

Financing Opportunities: Students currently enrolled in a terminal degree program at Temple University should contact the Institute on Disabilities to inquire about graduate assistantship opportunities.

Admission Requirements and Deadlines

Application Deadline:
Applications are reviewed year-round for the free-standing graduate certificate program.

Students already enrolled in a Temple University graduate degree program APPLY ONLINE through an internal application.

Prospective students not currently enrolled in a Temple University graduate degree program APPLY ONLINE to this certificate program.

Letters of Reference:
Number Required: 2

From Whom: Letters of recommendation should be obtained from individuals in a position to evaluate the applicant's academic ability and accomplishments.

Bachelor's Degree in Discipline/Related Discipline: While all applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University, the graduate certificate in Disability Studies can be approached from any number of disciplines.

Statement of Goals: One to two pages should indicate your interests, plans, and objectives within the field of Disability Studies.

Certificate Requirements

Number of Didactic Credits Required to Complete the Certificate: 12

Required Courses:

Core Courses
- DSST 5401 Disability Rights and Culture 3
- DSST 9489 Field Work in Disability Studies 3

Electives
Select two of the following: 6
- DSST 5402 Action Modes of Research
- DSST 5403 Disability and Social Policy
- DSST 5405 Disability Studies in the Humanities

Graduate Certificate: Diversity Leadership

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Certificate

The graduate certificate in Diversity Leadership is designed to provide a broad range of knowledge related to the field of diversity and to create reflective practitioners who can lead and support formal and informal learning collaborations by diverse groups in higher education and K-12 educational settings. The broader vision is that certificate holders contribute to the creation of responsible, ethical citizens able to collaborate in an increasingly diverse world.

A sequence of four courses allows students to build on the knowledge learned from each previous course. First, key foundational principles, policies, and procedures used in the field of diversity in higher education are introduced. Second, students are introduced to the models and theories for developing partnerships and serving as change agents within institutions. They also learn about strategic planning and assessment of diversity initiatives. In the third and fourth courses, the student is
Schools, Colleges, and Divisions

facilitator, leading diverse groups in a variety of settings and helping to create self-awareness of their own positionality and attitudes about diversity.

Time Limit for Certificate Completion: 2 years

Campus Location: Main

Full-Time/Part-Time Status: The graduate certificate can be completed in the Summer term between mid-May and late July. Courses 1 and 2 are offered in Summer I, each over three consecutive weekends, with the exception of the Memorial Day weekend. Classes run Friday evenings from 4:00 p.m. to 9:00 p.m. and Saturdays from 9:00 a.m. to 5:00 p.m. Courses 3 and 4 are offered in Summer II. In addition to the Friday/Saturday schedule, classes are also held on Sundays from 10:00 a.m. to 3:30 p.m. Course 3 runs for two consecutive weekends, with course 4 completing the course schedule the following weekend.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

Admission Requirements and Deadlines

Application Deadline:
Applications are reviewed year-round for the graduate certificate program.

APPLY ONLINE to this certificate program.

Letters of Reference:
Number Required: 2

From Whom: Letters of recommendation should be obtained from school administrators or college/university faculty members who can provide insight into the applicant's academic competence.

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. Official undergraduate and graduate transcripts from all accredited institutions attended are required.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a certificate with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the certificate program.

Standardized Test Scores:
TOEFL score (international applicants only): 79 iBT or 550 PBT minimum

Resume: Current resume required.

Graduate Certificate: English as a Second Language

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Certificate

The student population with ESL (English as a Second Language) needs has been increasing dramatically across Pennsylvania. In 2010, the U.S. Department of Education reported a 114.5% increase in the ESL population in Pennsylvania public schools over the previous ten years, with a 1.4% decrease in all other student populations. This significant growth has led to an increased need for trained ESL teachers. While the ESL graduate certificate is required for individuals to lead ESL classes, it is also strongly recommended for all teachers as Pennsylvania classrooms become increasingly diverse.

In response to the significant need for well-trained ESL and mainstream teachers, Temple's ESL certificate program offers a set of four challenging and practical courses that prepare teachers to work effectively with ESL students. Through this program, students develop a foundation in English usage, linguistic awareness, and second language acquisition. They also learn to adapt and develop instructional materials for ESL students; administer and interpret a variety of formative and summative assessments; become knowledgeable about support services for English language learners; and develop cultural awareness and sensitivity. Because each course includes fieldwork, students have frequent opportunities to teach ESL students throughout the program, immediately applying newly learned concepts and skills. Courses are taught by full-time Temple faculty to ensure students are guided by experts in the field and receive a high-quality education. ESL certificate course credits can also be applied toward Temple University’s M.S.Ed. in Teaching English to Speakers of Other Languages (TESOL) (http://
The ESL graduate certificate can currently be added to any valid Pennsylvania Instructional I or II teaching certificate. However, to obtain a position as an ESL teacher in a public school, individuals must be certified in Early Childhood Education, Middle Grades English, or Secondary English. Students with certificates in other Middle Grades or Secondary content areas should take the Praxis II for English to add this credential.

**Time Limit for Certificate Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis.

**Non-Matriculated Student Policy:** Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

## Admission Requirements and Deadlines

**Application Deadline:** Applications are reviewed year-round for the graduate certificate program.

Prospective students should hold an Instructional I or II certificate that is valid in Pennsylvania. Alternatively, students may be accepted if they are matriculated in a certification program at Temple University:

- Undergraduates currently matriculated in a Temple teacher certification program are eligible for the certificate program after achieving candidacy with a minimum GPA of 3.25.
- Graduate students with good academic standing while enrolled in a teacher certification program are also eligible for the certificate program.

Prospective students not currently matriculated in a Temple University teacher certification program must APPLY ONLINE to this certificate program.

**Letters of Reference:**
**Number Required:** 2

_FROM WHOM:_ Letters of recommendation should include one from a professor and one from a professional supervisor.

**Bachelor’s Degree in Discipline/Related Discipline:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. Official undergraduate and graduate transcripts from all accredited institutions attended are required. In addition, applicants must provide a copy of their valid Pennsylvania Instructional I or II teaching certificate or evidence of enrollment in a certification program.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a certificate with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the certificate program.

**Standardized Test Scores:**
TOEFL score (international applicants only): 79 iBT or 550 PBT minimum

**Resume:** Current resume required.

**Other:** Applicants who have taken some TESOL courses, who have experience as an ESL teacher, and/or who participated in ESL-related professional development activities may request a credential review.

## Graduate Certificate: English Language Teaching

**COLLEGE OF EDUCATION** (http://education.temple.edu)

**About the Certificate**

The graduate certificate in English Language Teaching prepares students who are interested in teaching English to adult immigrant learners, international college students, and/or students overseas. Some may already be involved in teaching English as a second language (ESL) in the Writing Center, serve as conversation partners in ESL programs, or volunteer as teachers in community-based ESL programs. Others may anticipate going abroad and teaching English as a foreign language (EFL). Students interested in this program may not be ready to commit
themselves to undertaking a master’s in TESOL but are keen to acquire basic skills in English language teaching.

**Time Limit for Certificate Completion:** 2 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis.

**Non-Matriculated Student Policy:** Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

### Admission Requirements and Deadlines

**Graduate Certificate: Institutional Effectiveness**

COLLEGE OF EDUCATION (http://education.temple.edu)

### About the Certificate

The graduate certificate in Institutional Effectiveness is for students who wish to focus their graduate training on developing skills to support institutional research, data-driven decision making, and student success analytics. The certificate is particularly timely and relevant, given the focus nationally on increasing the capacity of colleges and universities to advance student success and the rapidly increasing application of predictive analytics within university advising and administration.

**Time Limit for Certificate Completion:** 2 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis.

**Non-Matriculated Student Policy:** Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

### Admission Requirements and Deadlines

**Application Deadline:** Applications are reviewed year-round for the graduate certificate program.

**Letters of Reference:**
- **Number Required:** 2
About the Certificate

Instructional coaching is widely considered a promising strategy for improving teacher quality and student achievement. Given this knowledge, the Pennsylvania Department of Education created a 12-credit Instructional Coach Endorsement certificate designed to improve a teacher’s skills in dealing with complex classroom settings. This endorsement is added to existing Level I or Level II certificates, although it is not required to perform service. Students who successfully complete Temple’s certificate program are eligible to receive Pennsylvania’s Instructional Coach Endorsement Certificate.

Through Temple’s certificate program in Instructional Coaching Endorsement, students learn to:

- analyze their own practices and develop an increased sense of self-efficacy related to their teaching;
- critique the practice of other teachers;
- observe and reflect on effective verbal and non-verbal communication techniques;
- respond constructively to feedback;
- communicate effectively with peers and administrators about their work;
- evaluate different types of feedback and what kind of feedback brings about change;
- tailor feedback to the individual and specific groups;
- identify resources for teachers and communicate about those resources to administrators and peers; and
- familiarize themselves with research on teacher effectiveness and teacher quality and using that research to guide new practice.

Graduate Certificate: Teaching in Higher Education

COLLEGE OF EDUCATION (http://education.temple.edu)

About the Certificate

The graduate certificate in Teaching in Higher Education has been developed for current faculty members looking to enhance their teaching or advance their career, as well as for high school teachers and professionals in other fields who would like to teach in higher education. Completion of the coursework for the certificate prepares students to:

• appreciate learning-centered teaching;
• apply research on learning and adult development to teaching;
• utilize the principles of integrated course design in developing syllabi, assessments, and learning activities;
• use a variety of research-based teaching methods to promote learning, development, and achievement of all students;
• practice a reflective, purposeful, and learning-centered approach to teaching; and
• independently learn, evaluate, and assimilate future research on teaching and learning.

Time Limit for Certificate Completion: 2 years

Campus Location: Online

Full-Time/Part-Time Status: The graduate certificate is completed on a part-time basis as part of a cohort. The Summer cohort enrolls in one course in each of the summer sessions (Summer I and Summer II). The Fall/Spring cohort takes one course in Fall and the other in Spring.

**About the Certificate**
- The urban education graduate certificate helps students develop the skills and knowledge necessary to engage in collaborative education-focused work with diverse groups in urban settings. Students gain a broad understanding of urban schools and communities, focusing on social, economic, and historic factors shaping urban schooling.

Students in the Urban Education certificate program seek to provide services in the areas of community development, education, health, youth, and advocacy. The program attracts individuals from various backgrounds, including educators, parents, community leaders, and activists. Through the certificate, students gain knowledge in:
- the history of urban education;
- race, class, and schools;
- education policy;
• current trends in school reform; and
• theory, practice, and program development related to creating and sustaining partnerships between schools, agencies, and communities.

**Time Limit for Certificate Completion:** 2 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis.

**Non-Matriculated Student Policy:** Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

**Admission Requirements and Deadlines**

**Application Deadline:** Applications are reviewed year-round for the graduate certificate program. **APPLY ONLINE to this certificate program.**

**Letters of Reference:** **Number Required:** 2

**From Whom:** Letters of recommendation should be obtained from school administrators or college/university faculty members who can provide insight into the applicant's academic competence.

**Bachelor's Degree in Discipline/Related Discipline:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. Official undergraduate and graduate transcripts from all accredited institutions attended are required.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a certificate with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the certificate program.

**Standardized Test Scores:** TOEFL score (international applicants only): 79 iBT or 550 PBT minimum

**Resume:** Current resume required.

**Certificate Requirements**

**Number of Didactic Credits Required to Complete the Certificate:** 12

**Required Courses:**

College of Engineering

Temple University’s College of Engineering is committed to its students with an emphasis on education that is hands-on and personal. Classes are small and taught by experienced and dedicated faculty. Fostering an environment for the creation of knowledge, the college encourages basic and cross-disciplinary applied research by its faculty and students. Great importance is attached to scholarship, practice, and service aimed at improving the quality of life and the economic viability of our society. These objectives are pursued in a learning environment that celebrates ethnic and gender diversity, respects experience, and encourages problem solving through teamwork.

As part of a research institution, the College of Engineering offers cutting-edge programs that are accredited by ABET. The college began as the Evening Technical School in 1936 to accommodate an expanded technical course offering. In 1969, the Board of Trustees approved the formation of the College of Engineering Technology, which was authorized to grant Bachelor of Science degrees in various engineering technology disciplines. In 1986, the college offered the Master of Science in Engineering, its first graduate program.

The mission of the College of Engineering is to provide students with a high-quality, innovative, and globally competitive learning experience in engineering, engineering technology, and the applied sciences. Engineering graduates are educated professionals with the technical, problem-solving, and communication skills required to succeed in the workplace and society. The college has partnerships with some of the area’s leading engineering employers. Our graduates are hired by such companies as Boeing, Lockheed Martin, Metrologic, NASA, PennDot, Pennoni Construction, PGW, Turner Construction, Verizon, and many more.

Programs

Degree Programs

• Bioengineering, M.S.Bioe. (p. 483)
• Bioengineering, Ph.D. (p. 486)
• Civil Engineering, M.S.C.E. (p. 490)
• Civil Engineering, Ph.D. (p. 492)
• Computer and Systems Security, P.S.M. (p. 496)
• Electrical Engineering, M.S.E.E. (p. 497)
• Electrical Engineering, Ph.D. (p. 500)
• Engineering, Ph.D. (p. 503)
• Engineering Management, M.S. (p. 506)
• Engineering Technology Management, M.E.T.M. (p. 508)
• Environmental Engineering, M.S.Env.E. (p. 509)
• Environmental Engineering, Ph.D. (p. 512)
• Mechanical Engineering, M.S.M.E. (p. 515)
• Mechanical Engineering, Ph.D. (p. 518)

Certificates

• Computer and Systems Security
• Engineering Management
• Stormwater Management

Graduate Faculty

Bechara E. Abboud, Associate Professor, Department of Civil and Environmental Engineering, College of Engineering; Ph.D., Drexel University.

Fauzia Ahmad, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., University of Pennsylvania.

Li Bai, Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., Drexel University.

George Baran, Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., University of Michigan.

Evangelia Bellas, Assistant Professor, Department of Bioengineering, College of Engineering; Ph.D., Tufts University.

Saroj K. Biswas, Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., University of Ottawa.

Robert M. Brooks, Associate Professor, Department of Civil and Environmental Engineering, College of Engineering; Ph.D., University of California Los Angeles.

Shih-Jiun Chen, Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., Drexel University.

Harsh Deep Chopra, Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., University of Maryland College Park.

Joseph Thomas Coe Jr., Assistant Professor, Department of Civil and Environmental Engineering, College of Engineering; Ph.D., University of California Los Angeles.

Richard S. Cohen, Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., Princeton University.

Philip Dames, Assistant Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., University of Pennsylvania.

Kurosh Darvish, Associate Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., University of Virginia.

Zdenka J. Delalic, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., University of California Los Angeles.

Dmitriy A. Dikin, Associate Professor (Research), Department of Mechanical Engineering, College of Engineering; Ph.D., National Academy of Sciences of Ukraine, Institute for Low Temperature Physics and Engineering.

Oleksandr Diloyan, Assistant Professor (Teaching/Instructional), Department of Mechanical Engineering, College of Engineering; Ph.D., Donetsk National Technical University.

Ahmed Faheem, Assistant Professor, Department of Civil and Environmental Engineering, College of Engineering; Ph.D., University of Wisconsin.

Bojana Gligorijevic, Assistant Professor, Department of Bioengineering, College of Engineering; Ph.D., Georgetown University.
The M.S. Bioe. program offers students graduate-level interdisciplinary education and research opportunities in bioengineering and engineering applications in related healthcare fields. The program offers concentrations in Bioelectronics, Biomaterials, and Biomechanics.
Graduates of the program are prepared for careers in industry or may choose to pursue a program of study leading to the Ph.D. degree. The program offers research opportunities in collaboration with faculty in the College of Science and Technology and the School of Medicine.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main. Students may also take a significant number of required and elective courses at the Health Sciences Center campus.

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** The program encourages interdisciplinary research with other branches of engineering as well as with various departments of the College of Science and Technology and the School of Medicine.

**Areas of Specialization:** For each of the three areas of specialization, research includes:

- Bioelectronics — sensor development and image analysis.
- Biomaterials — wear of ultra-high molecular weight polyethylene, polymer chemistry, and interfacial chemistry.
- Biomechanics — computer-aided design of composite biomaterials, mechanical properties of orthopedic implant materials, design of orthopedic implants, and modeling of biomaterial behavior.

**Job Prospects:** Graduates with the M.S.Bioe. degree are employed in a variety of biomedical industries ranging from device manufacturers to design engineering. Other possibilities include careers in government, either in regulatory agencies or with the U.S. Patent and Trademark Office. Students who complete the M.S.Bioe. degree with a thesis are prepared to enter a doctoral program.

**Non-Matriculated Student Policy:** Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the M.S.Bioe. degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the Bioengineering Graduate Program Director may encourage those with undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the M.S.Bioe. program. If the applicant has been out of school long enough that relevant academic reference letters appear impractical, s/he should contact the Bioengineering Graduate Program Director to obtain a waiver of this admission requirement.

**Financial Aid:**

- **Teaching Assistantship (TA):** TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.
- **Research Assistantship (RA):** Individual Bioengineering faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's Thesis advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.

**Admission Requirements and Deadlines**

**Application Deadline:**

- **Fall:** March 1
- **Spring:** November 1; August 1 international

Applications are processed on a continual basis. Late applications may be considered for admission. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).

Both admissions and financial aid award decisions originate in the Bioengineering Department. Applicants are encouraged to contact the Bioengineering Graduate Program Director for advice and consultation in the application process.

**Letters of Reference:**

- **Number Required:** 3

**From Whom:** Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant's competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant's immediate supervisor. If the applicant has been out of school long enough that relevant academic reference letters appear impractical, s/he should contact the Bioengineering Graduate Program Director to obtain a waiver of this admission requirement.

**Coursework Required for Admissions Consideration:** Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The Bioengineering Department identifies the needed coursework on a case-by-case basis.

**Bachelors Degree in Discipline/Related Discipline:** A bachelor's degree in Bioengineering or a related discipline is the preferred prerequisite degree. However, students who have earned a bachelor's degree in a related field are encouraged to apply, with the understanding that remedial preparatory courses may be a pre-condition of admission to the M.S.Bioe. program.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in her/his undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (http://www.temple.edu/grad/policies/gradpolicies.htm). The Bioengineering Graduate Program Director helps the applicant navigate the admission possibilities, including the "Non-Matriculated Student Policy" option.

**Statement of Goals:** Describe your relevant technical experiences and career goals in one to two pages.

**Standardized Test Scores:**
GRE: Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12. (http://www.temple.edu/grad/policies/gradpolicies.htm)) Applicants who require a waiver of the GRE should consult the Bioengineering Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

TOEFL: 79 iBT or 550 PBT minimum. (See Graduate School Policy 02.23.13.01 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

Resume: Current resume required.

Transfer Credit: Graduate credits taken at an accredited institution prior to matriculation may be transferred into the M.S.Bioe. program. In order to transfer, the courses must be equivalent to courses offered at Temple in the student's area of study and research, and the grades must be "B" or better. The maximum number of credits a student may transfer is 6. (See Graduate School Policy 02.24.21 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

Test Waivers: Applicants with two or more years of employment in an engineering profession performing engineering design and analysis may request a waiver of the GRE. Consult with the Bioengineering Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

Technical Electives: 18

Total Credit Hours: 30

1 BIOE 5600 Bioengineering Graduate Seminar is required to be taken each academic term while completing the degree.

Students choose between three tracks:

1. Thesis Track, which is intended for full-time students who have a financial aid award and includes 24 s.h. of didactic coursework and 6 s.h. of thesis (ENGR 9996).
2. Project Track, which is intended for full-time students who are self-supporting and includes 27 s.h. of didactic coursework and 3 s.h. of project (ENGR 9995).
3. Coursework Track, which is intended for self-supporting part-time students and entails 30 s.h. of didactic coursework.

In the first term, the student and Bioengineering Graduate Program Director jointly establish which track the student will follow; in doing this, they initiate the "M.S.Bioe. Plan of Study." The Plan of Study form lists all required courses and suggests an M.S.Bioe. program requirement execution sequence for the student to follow. This form is used to track the student’s progress, and is updated and annotated at least once a year as the student completes the various benchmarks in the program.

If a student’s circumstances change, s/he can change tracks by revising the Plan of Study form and obtaining the requisite approval signatures. However, when considering whether to change one’s track, the student should note that:

- "Thesis" credits (ENGR 9996) can only be applied toward the Thesis M.S.Bioe. degree program and cannot be applied to either the Project or Coursework Tracks.
- "Project" credits (ENGR 9995) can only be applied toward the Project M.S.Bioe. degree program and cannot be used for either the Coursework or Thesis Tracks.

In all three options, the didactic coursework may include up to, but no more than, 3 s.h. of ENGR 9182 Independent Study I or 3 s.h. of BIOE 9991 Directed Research. Furthermore, students who wish to take graduate coursework in Temple University schools/colleges other than the College of Engineering will need to obtain the appropriate written approvals on their Plan of Study form.

Culminating Events: Depends on the student’s choice of track: Thesis, Project, or Coursework.

Thesis Option:
The master's thesis is the culminating event in the Thesis Track and is typically undertaken during the last two successive terms of study. Successful completion requires the following:

1. **Thesis Proposal** — ENGR 9996 Thesis I (3 s.h.)
   The student assembles a committee of three or more faculty members, including her/his advisor, who is typically a full-time Bioengineering faculty member. The student’s Plan of Study should be updated, if necessary, to indicate the advisor’s name. Under the guidance of the advisor and committee, the student prepares a research proposal and presents her/his proposal in an open College-wide seminar. The student is responsible for scheduling the proposal and posting an announcement at least 10 business days in advance of this seminar. Ordinarily, the proposal seminar is immediately followed by a meeting of the student’s advisory committee in which the student is closely questioned about the details and strategy of the proposed research. The proposal is then accepted by the committee, accepted by the committee with revisions, or rejected by the committee. The student’s advisory committee also jointly determines the letter grade (A-F) for Thesis I at the end of the term. The student must pass Thesis I before registering for Thesis II. If the student fails Thesis I, s/he may either re-register for Thesis I in the next regular term and repeat the entire proposal process (noting that a second failure will result in automatic dismissal from the University) or consider switching to the Project or Coursework Track, with the relevant updating of the Plan of Study form.
2. **Thesis Defense** — ENGR 9996 Thesis II (3 s.h.)
   The student should register for Thesis II in the term that s/he is prepared to defend the thesis. The thesis document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.26.13.02 (http://www.temple.edu/grad/policies/gradpolicies.htm).) The student should provide her/his
committee with a copy of the completed thesis at least two weeks before the date of the thesis defense. The thesis is scheduled during a regular academic term, including summer terms. It should not be scheduled during study days, final exams, or the breaks between terms. The student should arrange for, and post an announcement of, the thesis defense at least 10 business days in advance of the defense. Furthermore, if the student is to graduate in the same term that s/he defends the thesis, the defense should be scheduled no later than 30 days prior to the end of the term to allow for document revisions in keeping with Graduate School deadlines, as specified at http://www.temple.edu/grad/documents/Dissertation-and-Thesis-Handbook.pdf.

The thesis defense is an open College seminar in which the student presents the concepts and results of her/his research. Normally, this presentation is immediately followed by a meeting of the thesis committee, which closely examines the student's research. The committee can accept the thesis as provided, accept the thesis with revisions, or not accept the thesis. If the thesis is accepted, the committee jointly decides on a letter grade for Thesis II. If the thesis is not accepted, but the committee decides not to fail the student:

a. an "R" grade is assigned to Thesis II;
b. the student registers in each subsequent term for one credit of ENGR 9991 Directed Research until s/he is again prepared to attempt the defense; and
c. the entire open-seminar defense procedure described above is carried out in the term that the student is prepared to defend the thesis.

Project Option:
The project is the culminating event in the Project Track. It is normally carried out in the student's last term of study. The student selects an advisor (usually a full-time faculty member in the Bioengineering Department), registers for ENGR 9995 Project, and conducts a one-term research activity under the supervision of the advisor. Near the end of the term, the student prepares a report of her/his findings and presents the study in an open departmental seminar. Both the seminar and the written report are used to determine the student's grade for ENGR 9995. The grade is jointly determined by the advisor and a second grader selected by the Bioengineering Graduate Program Director, as recorded in the Plan of Study.

Coursework Option:
No culminating event is warranted for the Coursework Track.

Bioengineering, Ph.D.

COLLEGE OF ENGINEERING (http://engineering.temple.edu)

About the Program

The Ph.D. in Bioengineering addresses the needs of an aging population that is likely to require more medical care and to take advantage of the advances in and benefits of biomedical engineering. Employment of biomedical engineers is projected to grow 27 percent from 2012 to 2022, much faster than the average for all occupations. The Bioengineering Ph.D. program is designed to educate and train doctoral-level bioengineers to work in academic, medical, or industrial settings.

Time Limit for Degree Completion: 7 years

Campus Location: Main, Health Sciences Center

Full-Time/Part-Time Status: Students are able to complete the didactic portion of the Ph.D. degree program through classes offered after 4:30 p.m.

Interdisciplinary Study: Bioengineering research is highly interdisciplinary and draws on collaboration with members of the faculty and students within all departments of the College of Engineering; other departments on Main campus, including Biology, Chemistry, and Kinesiology; and other schools and colleges at Temple University, such as the Kornberg School of Dentistry, School of Medicine, and School of Pharmacy.

Areas of Specialization: While the Bioengineering Ph.D. is inherently interdisciplinary, the student is admitted to the program and then conducts doctoral research within an area of specialization. The areas of specialization are similar to those at the master's level:

- Biomaterials
- Imaging and Optical Spectroscopy
- Injury Biomechanics
- Neuroengineering
- Neuromechanics of Locomotion
- Regenerative Tissue Engineering
- Stem and Cancer Cell Engineering
- Targeted Drug Delivery
Job Prospects: The program is primarily intended for individuals who wish to pursue careers in industry, government, and academia in a highly creative environment. The program is dedicated to producing engineers who will contribute to advancements in biotechnology.

Non-Matriculated Student Policy: Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the Ph.D. degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the Bioengineering Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the Ph.D. program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (http://www.temple.edu/grad/policies/gradpolicies.htm) and 02.24.19 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

Financing Opportunities: Applicants for full-time study in the Bioengineering Ph.D. program are automatically considered for financial aid. Three forms of financial aid are awarded to Ph.D. students on a competitive basis:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department’s undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.
2. Research Assistantship (RA): Individual faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA’s doctoral advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.
3. Fellowships: Fellowships are awarded by the University in a competitive process that is open to all Ph.D. applicants. The Bioengineering Graduate Program Director nominates exceptional Ph.D. applicants for a University Fellowship. Fellows receive 9 to 12 months of stipend, depending on the award; basic health insurance; and 12 credits of tuition remission each Fall and Spring term. Fellows of the University have no work obligations with respect to either the Department, the College, or the University.

Because financial aid is awarded on a competitive basis, applicants are urged to complete the application as early as possible.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1; August 1 international

Applications are processed on a continual basis. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

Both admissions and financial aid award decisions originate in the Bioengineering Department within the College of Engineering. Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant’s competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant's immediate supervisor. If the applicant has been out of school long enough that relevant academic reference letters appear impractical, s/he should contact the Bioengineering Graduate Program Director to obtain a waiver of this admission requirement.

Coursework Required for Admission Consideration: Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The Bioengineering Department identifies the needed coursework on a case-by-case basis.

Master's Degree in Discipline/Related Discipline: A master's degree is not required, but preferred.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree is required.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in her/his undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (http://www.temple.edu/grad/policies/gradpolicies.htm).) The Bioengineering Graduate Program Director helps the applicant navigate the admission possibilities and assists in the assessment of her/his overall educational qualifications with respect to the departmental requirements for the Ph.D. program.

Statement of Goals: Describe your relevant technical experiences, career goals, and specific research interests in one to two pages.

Standardized Test Scores:

GRE: Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12 (http://www.temple.edu/grad/policies/gradpolicies.htm).) Applicants who require a waiver of the GRE should consult the Bioengineering Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

TOEFL: 79 iBT or 550 PBT minimum. (See Graduate School Policy 02.23.13.01 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

Resume: Current resume required.

Advanced Standing: Both transfer credit for courses taken at another institution while matriculated at Temple and/or advanced standing credit for courses taken within the 5-year period prior to matriculating at Temple may be applied toward the Ph.D.-level didactic coursework requirement. Written approval is required from the student’s doctoral advisor, the College’s Associate Dean for Graduate Study, and the Graduate School. (See Graduate School Policy 02.24.21 (http://www.temple.edu/grad/policies/gradpolicies.htm).) Up to six credits of advanced standing for courses taken within the 5-year period prior to matriculating at Temple may be used to satisfy the master’s-level didactic coursework requirement. Approval of the Bioengineering Graduate Program Director is required. The courses must be equivalent to courses offered at Temple.
in the student's area of study and research, and the grades must be "B" or better.

Program Requirements

General Program Requirements: Minimum Number of Credits Required Beyond the Bachelor's: 60, including 45 credits of master's-level and Ph.D.-level didactic coursework and 15 credits associated with Ph.D. examinations and dissertation research

Minimum Number of Credits Required Beyond the Master's: 30, including 15 credits of Ph.D.-level didactic coursework and 15 credits associated with Ph.D. examinations and dissertation research

Required Courses:

Post-Baccalaureate (for students WITHOUT a master's degree in Bioengineering)

Core Courses
- BIOE 5600 Bioengineering Graduate Seminar 1
- ENGR 5011 Engineering Mathematics I

Specialty Courses
Select three of the following:
- BIOE 5719 Introduction to Bioengineering
- BIOE 5721 Cell Biology for Engineers
- BIOE 5737 Systems Physiology for Engineers
- BIOL 5312 Biostatistics

Technical Electives
- 33

Research Courses 2
- 15
- BIOE 9991 Directed Research (8 credits)
- BIOE 9994 BioEngineering Preliminary Examination Preparation (1 credit)
- BIOE 9998 Bioengineering Pre-Dissertation Research (3 credits)
- BIOE 9999 BioEngineering Dissertation Research (3 credits)

Total Credit Hours
- 60

Post-Master's (for students WITH a master's degree in Bioengineering)

Core Courses
- BIOE 5600 Bioengineering Graduate Seminar 1
- ENGR 5011 Engineering Mathematics I

Specialty Courses
Select three of the following:
- BIOE 5719 Introduction to Bioengineering
- BIOE 5721 Cell Biology for Engineers
- BIOE 5737 Systems Physiology for Engineers
- BIOL 5312 Biostatistics

Technical Electives
- 3

Research Courses 2
- 15
- BIOE 9991 Directed Research (8 credits)
- BIOE 9994 BioEngineering Preliminary Examination Preparation (1 credit)
- BIOE 9998 Bioengineering Pre-Dissertation Research (3 credits)
- BIOE 9999 BioEngineering Dissertation Research (3 credits)

Total Credit Hours
- 30

1. BIOE 5600 Bioengineering Graduate Seminar is required to be taken each academic term while completing the degree.
2. Expected distribution of the 15 credits associated with Ph.D. examinations and dissertation research is shown, although the actual distribution of credits can vary across courses depending on the student's particular circumstances.

In the first term, the student and the Bioengineering Graduate Program Director jointly determine the cohort that is appropriate for the student and initiate the "Ph.D. in Engineering Plan of Study." The Plan of Study form lists all required courses and suggests a Ph.D. program-requirement execution sequence for the student to follow. This form is used to track the student's progress, and is updated and annotated at least once a year as the student completes the various benchmarks in the Ph.D. program. Note that, in general, students who want to take graduate coursework to satisfy either the Ph.D.-level or master's-level didactic coursework requirement in schools/colleges other than the College of Engineering need to obtain the appropriate written approvals on their Plan of Study form.

Culminating Events:

Formation of the Doctoral Advisory Committee:
One of the student's first important tasks is to select a research advisor and form a Doctoral Advisory Committee. The Doctoral Advisory Committee selects the student’s Ph.D.-level coursework and is responsible for guiding the progress of the student’s dissertation research. The time frame for selecting a doctoral advisor depends on the student’s level of preparation upon entering the Ph.D. program:

- Students admitted to the 30-credit cohort are sufficiently experienced to form their Doctoral Advisory Committee before the end of their second regular term of study.
- Students admitted to the 60-credit cohort ordinarily take one or two years of master's-level coursework before forming their Doctoral Advisory Committee by the end of their fourth regular term in the program.

See Graduate School Policy 02.28.11 (http://www.temple.edu/grad/policies/gradpolicies.htm) for clarification on the composition of the Doctoral Advisory Committee.

Preliminary Examination:
Whether the student is a member of the 30-credit cohort or the 60-credit cohort, s/he must complete all didactic coursework in her/his program of study prior to taking the preliminary examination. (See Graduate School Policy 02.27.11 (http://www.temple.edu/grad/policies/gradpolicies.htm).) Students in the 30-credit cohort ordinarily take the exam before the end of their third or fourth regular term. Students in the 60-credit cohort typically take the exam before the end of the eighth regular term.

The preliminary exam tests both the student’s core knowledge in Bioengineering and her/his capacity to synthesize and interpret research
communications. The specific form, content, and frequency of the Bioengineering preliminary exam is supervised by the Bioengineering Graduate Program Director. Questions about the exam should be directed to that individual. The student should also coordinate the scheduling of the preliminary exam with the Bioengineering Graduate Program Director. Students have two opportunities to pass the preliminary exam and must register for one credit of BIOE 9994 BioEngineering Preliminary Examination Preparation in each term that the exam is attempted. Students are dismissed upon the second failure.

Dissertation Proposal:
Within one year of passing the preliminary exam, the student must develop a written research proposal and present it in an open College seminar. The student is responsible for scheduling the proposal and posting an announcement at least 10 business days in advance of this seminar. Ordinarily, the proposal seminar is immediately followed by a meeting of the Doctoral Advisory Committee in which the student is closely questioned about the details and strategy of her/his proposed research.

The proposed dissertation research is considered “approved” when the Graduate School receives the "Dissertation Proposal Transmittal for Elevation to Candidacy" form, found at http://www.temple.edu/grad/forms/, signed by all of the Doctoral Advisory Committee members. The student is considered to be a doctoral candidate after her/his dissertation proposal has been accepted by her/his Doctoral Advisory Committee and the signed transmittal form has been received by the Graduate School. (See Graduate School Policy 02.28.12 (http://www.temple.edu/grad/policies/gradpolicies.htm) for further procedural specifics.)

Research Credits:
Students carry out research throughout their studies and must register for research credits throughout the Ph.D. program. The type of research credits that a student registers for depends, however, on the student’s progress in the Ph.D. program, specifically:

- In the terms prior to passing the preliminary exam, credit hours associated with the student’s research should be registered under BIOE 9991 Directed Research.
- After the preliminary exam is passed, but before elevation to candidacy, credit hours associated with the student’s research should be registered under BIOE 9998 Bioengineering Pre-Dissertation Research.
- After elevation to candidacy, the student’s research credits should be registered under BIOE 9999 BioEngineering Dissertation Research. Students are required to register for at least two credit hours of BIOE 9999 BioEngineering Dissertation Research following their elevation to candidacy. (See Graduate School Policy 02.28.15 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

Publications:
All doctoral students must publish at least two technical papers in refereed journals or refereed conferences. The papers must be based on the student’s dissertation research, and the student must be first author. Paper writing and/or presentation at a conference is considered an integral part of the student’s training. Also, peer review, in part, offers an indication of quality and novelty of the student’s research.

Dissertation:
In the term that the student intends to defend her/his dissertation, the Dissertation Examining Committee must be formed. This committee consists of the original Doctoral Advisory Committee plus one additional “external” member who is not faculty in the College of Engineering. If the external examiner is not a member of Temple University’s Graduate Faculty, s/he must be approved by the Graduate School at least four weeks prior to the dissertation defense.

The Chair of the Dissertation Examining Committee is elected by all members of the committee at least three weeks prior to the defense; this elected Chair cannot be the student’s doctoral advisor. The elected Chair of the Dissertation Examining Committee coordinates the proceedings of the defense and is responsible for the completion of all relevant College and Graduate School forms concerning the defense. The Chair of the Dissertation Examining Committee must be approved by the College’s Associate Dean and is identified for the Graduate School in the student’s official request to the Graduate School for permission to schedule the defense. (See Graduate School Policy 02.28.15 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

The dissertation document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.28.18 (http://www.temple.edu/grad/policies/gradpolicies.htm).) The student should provide her/his committee with a copy of the completed dissertation at least three weeks before the date of the dissertation defense.

The student must post a public announcement of her/his defense at least 10 business days prior to the defense. The announcement must be approved in writing by the Graduate School in advance of the posting. Note that any Graduate Faculty may request a copy of the dissertation in advance of the defense and may participate in the defense. (See Graduate School Policy 02.28.16 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

The dissertation defense may be scheduled on any day in a term when classes are regularly held; it may not be scheduled on study days, during final exams, or over term breaks. Furthermore, if the student is to graduate in the same term that s/he defends the dissertation, the defense should be scheduled no later than 30 days prior to the end of the term to allow for document revisions in keeping with Graduate School deadlines, as specified at http://www.temple.edu/grad/documents/Dissertation-and-Thesis-Handbook.pdf.

The dissertation defense is an open University seminar in which the student presents the concepts and results of her/his research. This presentation is typically followed immediately by a meeting in which the Dissertation Examining Committee closely examines the student and her/his research. External attendees may participate in this closed portion of the defense with the permission of the Dissertation Examining Committee Chair. However, only members of the Dissertation Examining Committee may actually vote on the decision to accept the dissertation as prepared, accept the dissertation with revisions, or not accept the dissertation.

Civil Engineering, M.S.C.E.

COLLEGE OF ENGINEERING (http://engineering.temple.edu)

About the Program

The M.S.C.E. program is designed to provide students with the opportunity to develop a greater technical competency in the general area of Civil and Environmental Engineering. Students are motivated to grow intellectually through the continued search for and use of knowledge, and are provided with the catalyst to become active, articulate, and socially aware individuals. Graduates of the program are key contributors to the civil engineering and environmental engineering professions.

Time Limit for Degree Completion: 5 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The program encourages interdisciplinary research with other branches of engineering as well as with various departments in the sciences and applied mathematics. Recent collaborative work with the Department of Mechanical Engineering includes projects on water flow and solute transport in porous media (aquifers) and the effects of turbulence on the mixing of oil spills at sea. Collaboration with the Department of Chemistry includes research on waste combustion products and surface complexation.

Areas of Specialization: For each of the two areas of specialization, research includes:

- Civil Engineering Systems — three major branches of civil engineering: construction engineering, structural engineering, and transportation engineering.
- Environmental Engineering — the fundamentals and applications of water resources engineering, pollution in natural systems (water and air), and engineered treatment and remediation systems.

Job Prospects: Graduates with the M.S.C.E. are employed by various engineering companies as well as government agencies in design, analysis, and applications. Typical examples are water treatment facilities and regulatory agencies engaged in environmental regulation and pollution control; companies involved in construction project management; and those involved in structural design and analysis of buildings, bridges, and other structures. Students who complete an M.S.C.E. with a thesis are prepared to enter a doctoral program.

Non-Matriculated Student Policy: Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the M.S.C.E. degree upon admission. If the applicant’s undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the Civil and Environmental Engineering (CEE) Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the M.S.C.E. program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (http://www.temple.edu/grad/policies/gradpolicies.htm) and 02.24.19 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

Financing Opportunities: Three forms of financial aid are offered to graduate students:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department’s undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.

2. Research Assistantship (RA): Individual CEE faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA’s Thesis advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.

3. Fellowships: These highly competitive University-wide grants are typically awarded only to Ph.D.-program applicants. See the Engineering, Ph.D. (p. 503) program description for details.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1; August 1 international

Applications are processed on a continual basis. Late applications may be considered for admission. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).

Both admissions and financial aid award decisions originate in the Department of Civil and Environmental Engineering (CEE). Applicants are encouraged to contact the CEE Graduate Program Director for advice and consultation in the application process.
Apply Online to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant's competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant's immediate supervisor. If the applicant has been out of school long enough that relevant academic reference letters appear impractical, s/he should contact the CEE Graduate Program Director to obtain a waiver of this admission requirement.

Coursework Required for Admission Consideration: Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The CEE Department identifies the needed coursework on a case-by-case basis.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree in Civil Engineering is the preferred prerequisite degree. However, students who have earned a bachelor's degree in a related field are encouraged to apply, with the understanding that remedial preparatory courses may be a pre-condition of admission to the M.S.C.E. program.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in her/his undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (http://www.temple.edu/grad/policies/gradpolicies.htm)) The CEE Graduate Program Director helps the applicant navigate the admission possibilities, including the "Non-Matriculated Student Policy" option.

Statement of Goals: Describe your relevant technical experiences and career goals in one to two pages.

Standardized Test Scores:
GRE: Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12. (http://www.temple.edu/grad/policies/gradpolicies.htm)) Applicants who require a waiver of the GRE should consult the CEE Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

TOEFL: 79 iBT or 550 PBT minimum. (See Graduate School Policy 02.23.13.01 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

Resume: Current resume required.

Transfer Credit: Graduate credits taken at an accredited institution prior to matriculation may be transferred into the M.S.C.E. program. In order to transfer, the courses must be equivalent to courses offered at Temple in the student's area of study and research, and the grades must be "B" or better. The maximum number of credits a student may transfer is 6. (See Graduate School Policy 02.24.21 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

Test Waivers: Applicants with two or more years of employment in an engineering profession performing engineering design and analysis may request a waiver of the GRE. Consult with the CEE Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

Program Requirements

General Program Requirements:

Number of Credits Required Beyond the Baccalaureate: 30

Students choose between three tracks:

1. Thesis Track, which is intended for full-time students who have a financial aid award and includes 24 s.h. of didactic coursework and 6 s.h. of thesis (CEE 9996).
2. Project Track, which is intended for full-time students who are self-supporting and includes 27 s.h. of didactic coursework and 3 s.h. of project (CEE 9995).
3. Coursework Track, which is intended for self-supporting part-time students and entails 30 s.h. of didactic coursework.

In the first term, the student and CEE Graduate Program Director jointly establish which track the student will follow; in doing this, they initiate the "M.S.C.E. Plan of Study." The Plan of Study form lists all required courses and suggests an M.S.C.E. program-requirement execution sequence for the student to follow. This form is used to track the student's progress, and is updated and annotated at least once a year as the student completes the various benchmarks in the M.S.C.E. program.

If a student's circumstances change, s/he can change tracks by revising the Plan of Study form and obtaining the requisite approval signatures. However, when considering whether to change one's track, the student should note that:

- "Thesis" credits (CEE 9996) can only be applied toward the Thesis M.S.C.E. degree program and cannot be applied to either the Project or Coursework Tracks.
- "Project" credits (CEE 9995) can only be applied toward the Project M.S.C.E. degree program and cannot be used for either the Coursework or Thesis Tracks.

In all three options, the didactic coursework may include up to, but no more than, 3 s.h. of ENGR 9182 Independent Study I or 3 s.h. of CEE 9991 Directed Research. Furthermore, students who wish to take graduate coursework in Temple University schools/colleges other than the College of Engineering will need to obtain the appropriate written approvals on their Plan of Study form.

Culminating Events: Depends on the student's choice of track: Thesis, Project, or Coursework.

Thesis Option:
The master's thesis is the culminating event in the Thesis Track and is typically undertaken during the last two successive terms of study. Successful completion requires the following:

1. Thesis Proposal — CEE 9996 Thesis I (3 s.h.)
The student assembles a committee of three or more faculty members, including her/his advisor, who is typically a full-time CEE faculty member. The student's Plan of Study should be updated, if necessary, to include the advisor's name. Under the guidance of the advisor and committee, the student prepares a research proposal and presents her/his proposal in an open College-wide seminar. The student is responsible for scheduling the proposal and posting an announcement at least 10 business days in advance of this seminar. Ordinarily, the proposal seminar is immediately followed by a meeting of the student's advisory committee in which the student is closely questioned about the details and strategy of the proposed research. The proposal is then accepted by the committee, accepted by the committee with revisions, or rejected by the committee.
The student's advisory committee also jointly determines the letter grade (A-F) for Thesis I at the end of the term. The student must pass Thesis I before registering for Thesis II. If the student fails Thesis I, s/he may either re-register for Thesis I in the next regular term and repeat the entire proposal process (noting that a second failure will result in automatic dismissal from the University) or consider switching to the Project or Coursework Track, with the relevant updating of the Plan of Study form.

2. Thesis Defense — CEE 9996 Thesis II (3 s.h.)
   The student should register for Thesis II in the term that s/he is prepared to defend the thesis. The thesis document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.26.12.02 (http://www.temple.edu/grad/policies/gradpolicies.htm)) The student should provide her/his committee with a copy of the completed thesis at least two weeks before the date of the thesis defense.
   The thesis is scheduled during a regular academic term, including summer terms. It should not be scheduled during study days, final exams, or the breaks between terms. The student should arrange for, and post an announcement of, the thesis defense at least 10 business days in advance of the defense. Furthermore, if the student is to graduate in the same term that s/he defends the thesis, the defense should be scheduled no later than 30 days prior to the end of the term to allow for document revisions in keeping with Graduate School deadlines, as specified at http://www.temple.edu/grad/documents/Dissertation-and-Thesis-Handbook.pdf.
   The thesis defense is an open College seminar in which the student presents the concepts and results of her/his research. Normally, this presentation is immediately followed by a meeting of the thesis committee, which closely examines the student's research. The committee can accept the thesis as provided, accept the thesis with revisions, or not accept the thesis. If the thesis is accepted, the committee jointly decides on a letter grade for Thesis II. If the thesis is not accepted, but the committee decides to not fail the student:
   a. an "R" grade is assigned to Thesis II;
   b. the student registers in each subsequent term for one credit of CEE 9995 Directed Research until s/he is again prepared to attempt the defense; and
   c. the entire open-seminar defense procedure described above is carried out in the term that the student is prepared to defend the thesis.

Project Option:
The project is the culminating event in the Project Track. It is normally carried out in the student's last term of study. The student selects an advisor (usually a full-time faculty member in the CEE Department), registers for CEE 9995 Project, and conducts a one-term research activity under the supervision of the advisor. Near the end of the term, the student prepares a report of her/his findings and presents the study in an open departmental seminar. Both the seminar and the written report are used to determine the student's grade for CEE 9995. The grade is jointly determined by the advisor and a second grader selected by the CEE Graduate Program Director, as recorded in the Plan of Study.

Coursework Option:
No culminating event is warranted for the Coursework Track.

Civil Engineering, Ph.D.

About the Program:
The Ph.D. in Civil Engineering is designed to produce graduates who have:

- built a solid core knowledge base in science, technology, civil engineering, and mathematics;
- gained the ability to adapt to interdisciplinary research projects and employ emerging technology;
- learned how to plan, develop, and conduct a research project on their own as future principal investigators; and
- mastered professional oral and written communication skills.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students are able to complete the didactic portion of the Ph.D. degree program through classes offered after 4:30 p.m.

Interdisciplinary Study: Research in Civil Engineering is interdisciplinary and requires collaboration of members of the faculty and students in the Department of Electrical and Computer Engineering; Department of Mechanical Engineering; Mathematics Department; and various science departments at Temple University.
Areas of Specialization: Faculty in the Department of Civil and Environmental Engineering are actively engaged in research in the following areas of Civil Engineering:

- Construction Management
- Geophysical Imaging and Site Characterization
- Instrumentation and Sensor Technology
- Pavement Design and Rehabilitation
- Scour Countermeasures for Bridges
- Transportation Engineering

Job Prospects: The program is primarily intended for individuals who wish to pursue careers in industry, government, and academia in a highly creative environment. The program is dedicated to producing engineers who will contribute to advancements in civil engineering.

Non-Matriculated Student Policy: Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the Ph.D. degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the Civil Engineering Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the Ph.D. program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (http://www.temple.edu/grad/policies/gradpolicies.htm) and 02.24.19 (http://www.temple.edu/grad/policies/gradpolicies.htm)).

Financing Opportunities: Applicants for full-time study in the Civil Engineering Ph.D. program are automatically considered for financial aid. Three forms of financial aid are awarded to Ph.D. students on a competitive basis:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.
2. Research Assistantship (RA): Individual faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's doctoral advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.
3. Fellowships: Fellowships are awarded by the University in a competitive process that is open to all Ph.D. applicants. The Civil Engineering Graduate Program Director nominates exceptional Ph.D. applicants for a University Fellowship. Fellowships receive 9 to 12 months of stipend, depending on the award; basic health insurance; and 12 credits of tuition remission each Fall and Spring term. Fellowships of the University have no work obligations with respect to either the Department, the College, or the University. Because financial aid is awarded on a competitive basis, applicants are urged to complete the application as early as possible.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1; August 1 international

Applications are processed on a continual basis. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

Both admissions and financial aid award decisions originate in the Department of Civil and Environmental Engineering within the College of Engineering. Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant's competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant's immediate supervisor. If the applicant has been out of school long enough that relevant academic reference letters appear impractical, s/he should contact the Civil Engineering Graduate Program Director to obtain a waiver of this admission requirement.

Coursework Required for Admission Consideration: Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The Department of Civil and Environmental Engineering identifies the needed coursework on a case-by-case basis.

Master's Degree in Discipline/Related Discipline: A master's degree is not required, but preferred.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree is required.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in her/his undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (http://www.temple.edu/grad/policies/gradpolicies.htm)). The Civil Engineering Graduate Program Director helps the applicant navigate the admission possibilities and assists in the assessment of her/his overall educational qualifications with respect to the departmental requirements for the Ph.D. program.

Statement of Goals: Describe your relevant technical experiences, career goals, and specific research interests in one to two pages, ensuring that you have clearly identified your area of interest within the field of civil and environmental engineering.

Standardized Test Scores:
GRE: Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12 (http://www.temple.edu/grad/policies/gradpolicies.htm)). Applicants who require a waiver of the GRE should consult the Civil Engineering Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

TOEFL: 79 iBT or 550 PBT minimum. (See Graduate School Policy 02.23.13.01 (http://www.temple.edu/grad/policies/gradpolicies.htm)).
Resume: Current resume required.

Advanced Standing: Both transfer credit for courses taken at another institution while matriculated at Temple and/or advanced standing credit for courses taken within the 5-year period prior to matriculating at Temple may be applied toward the Ph.D.-level didactic coursework requirement. Written approval is required from the student’s doctoral advisor, the College’s Associate Dean for Graduate Study, and the Graduate School. (See Graduate School Policy 02.24.21 (http://www.temple.edu/grad/policies/gradpolicies.htm).) Up to six credits of advanced standing for courses taken within the 5-year period prior to matriculating at Temple may be used to satisfy the master’s-level didactic coursework requirement. Approval of the Civil Engineering Graduate Program Director is required. The courses must be equivalent to courses offered at Temple in the student’s area of study and research, and the grades must be “B” or better.

Program Requirements

General Program Requirements:

Minimum Number of Credits Required Beyond the Bachelor's:
60, including 45 credits of master’s-level and Ph.D.-level didactic coursework\(^1\) and 15 credits associated with Ph.D. examinations and dissertation research

Minimum Number of Credits Required Beyond the Master’s: 30, including 15 credits of Ph.D.-level didactic coursework\(^2\) and 15 credits associated with Ph.D. examinations and dissertation research

The 15 credits associated with Ph.D. examinations and dissertation research are expected to be distributed in the following manner, although the actual distribution of credits can vary across courses depending on the student’s particular circumstances:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>

</tbody>
</table>

In the first term, the student and the Civil Engineering Graduate Program Director jointly determine the cohort that is appropriate for the student and initiate the “Ph.D. in Engineering Plan of Study.” The Plan of Study form lists all required courses and suggests a Ph.D. program-requirement execution sequence for the student to follow. This form is used to track the student's progress, and is updated and annotated at least once a year as the student completes the various benchmarks in the Ph.D. program.

Note that, in general, students who want to take graduate coursework to satisfy either the Ph.D.-level or master’s-level didactic coursework requirement in schools/colleges other than the College of Engineering need to obtain the appropriate written approvals on their Plan of Study form.

1 Didactic coursework may include up to, but no more than, 3 credits of ENGR 9182 Independent Study I OR 3 credits of CEE 9991 Directed Research AND 3 credits of ENGR 9282 Independent Study II. Typically, this coursework is selected by the student’s Doctoral Advisory Committee and noted in the student’s Plan of Study form.

2 Ph.D.-level didactic coursework may include up to, but no more than, 3 credits of ENGR 9282 Independent Study II. Typically, this coursework is selected by the student’s Doctoral Advisory Committee and noted in the student’s Plan of Study form.

Culminating Events:

Formation of the Doctoral Advisory Committee:

One of the student’s first important tasks is to select a research advisor and form a Doctoral Advisory Committee. The Doctoral Advisory Committee selects the student’s Ph.D.-level coursework and is responsible for guiding the progress of the student’s dissertation research. The time frame for selecting a doctoral advisor depends on the student’s level of preparation upon entering the Ph.D. program:

- Students admitted to the 30-credit cohort are sufficiently experienced to form their Doctoral Advisory Committee before the end of their second regular term of study.
- Students admitted to the 60-credit cohort ordinarily take one or two years of master’s-level coursework before forming their Doctoral Advisory Committee by the end of their fourth regular term in the program.

See Graduate School Policy 02.28.11 (http://www.temple.edu/grad/policies/gradpolicies.htm) for clarification on the composition of the Doctoral Advisory Committee.

Preliminary Examination:

Whether the student is a member of the 30-credit cohort or the 60-credit cohort, s/he must complete all didactic coursework in her/his program of study prior to taking the preliminary examination. (See Graduate School Policy 02.27.11 (http://www.temple.edu/grad/policies/gradpolicies.htm).) Students in the 30-credit cohort ordinarily take the exam before the end of their third or fourth regular term. Students in the 60-credit cohort typically take the exam before the end of the eighth regular term.

The preliminary exam tests both the student’s core knowledge in Civil Engineering and her/his capacity to synthesize and interpret research communications. The specific form, content, and frequency of the Civil Engineering preliminary exam is supervised by the Civil Engineering Graduate Program Director. Questions about the exam should be directed to that individual. The student should also coordinate the scheduling of the preliminary exam with the Civil Engineering Graduate Program Director. Students have two opportunities to pass the preliminary exam and must register for one credit of CEE 9994 Preliminary Examination Preparation in each term that the exam is attempted. Students are dismissed upon the second failure.

Dissertation Proposal:

Within one year of passing the preliminary exam, the student must develop a written research proposal and present it in an open College seminar. The student is responsible for scheduling the proposal and posting an announcement at least 10 business days in advance of this seminar. Ordinarily, the proposal seminar is immediately followed by a meeting of the Doctoral Advisory Committee in which the student is closely questioned about the details and strategy of her/his proposed research.

The proposed dissertation research is considered “approved” when the Graduate School receives the "Dissertation Proposal Transmittal for Elevation to Candidacy" form, found at http://www.temple.edu/grad/forms/, signed by all of the Doctoral Advisory Committee members. The student is considered to be a doctoral candidate after her/his dissertation proposal has been accepted by her/his Doctoral Advisory Committee and...
the signed transmittal form has been received by the Graduate School. (See Graduate School Policy 02.28.12 [http://www.temple.edu/grad/policies/gradpolicies.htm] for further procedural specifics.)

Research Credits:
Students carry out research throughout their studies and must register for research credits throughout the Ph.D. program. The type of research credits that a student registers for depends, however, on the student’s progress in the Ph.D. program, specifically:

- In the terms prior to passing the preliminary exam, credit hours associated with the student’s research should be registered under CEE 9991 Directed Research.
- After the preliminary exam is passed, but before elevation to candidacy, credit hours associated with the student’s research should be registered under CEE 9998 Pre-Dissertation Research.
- After elevation to candidacy, the student’s research credits should be registered under CEE 9999 Dissertation Research. Students are required to register for at least two credit hours of CEE 9999 Dissertation Research following their elevation to candidacy. (See Graduate School Policy 02.28.15 [http://www.temple.edu/grad/policies/gradpolicies.htm].)

Publications:
All doctoral students must publish at least two technical papers in refereed journals or refereed conferences. The papers must be based on the student’s dissertation research, and the student must be first author. Paper writing and/or presentation at a conference is considered an integral part of the student’s training. Also, peer review, in part, offers an indication of quality and novelty of the student’s research.

Dissertation:
In the term that the student intends to defend her/his dissertation, the Dissertation Examining Committee must be formed. This committee consists of the original Doctoral Advisory Committee plus one additional “external” member who is not faculty in the College of Engineering. If the external examiner is not a member of Temple University’s Graduate Faculty, s/he must be approved by the Graduate School at least four weeks prior to the dissertation defense.

The Chair of the Dissertation Examining Committee is elected by all members of the committee at least three weeks prior to the defense; this elected Chair cannot be the student’s doctoral advisor. The elected Chair of the Dissertation Examining Committee coordinates the proceedings of the defense and is responsible for the completion of all relevant College and Graduate School forms concerning the defense. The Chair of the Dissertation Examining Committee must be approved by the College’s Associate Dean and is identified for the Graduate School in the student’s official request to the Graduate School for permission to schedule the defense. (See Graduate School Policy 02.28.15 [http://www.temple.edu/grad/policies/gradpolicies.htm].)

The dissertation document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.28.18 [http://www.temple.edu/grad/policies/gradpolicies.htm].) The student should provide her/his committee with a copy of the completed dissertation at least three weeks before the date of the dissertation defense.

The student must post a public announcement of her/his defense at least 10 business days prior to the defense. The announcement must be approved in writing by the Graduate School in advance of the posting. Note that any Graduate Faculty may request a copy of the dissertation in advance of the defense and may participate in the defense. (See Graduate School Policy 02.28.16 [http://www.temple.edu/grad/policies/gradpolicies.htm].)

The dissertation defense may be scheduled on any day in a term when classes are regularly held; it may not be scheduled on study days, during final exams, or over term breaks. Furthermore, if the student is to graduate in the same term that s/he defends the dissertation, the defense should be scheduled no later than 30 days prior to the end of the term to allow for document revisions in keeping with Graduate School deadlines, as specified at http://www.temple.edu/grad/documents/Dissertation-and-Thesis-Handbook.pdf.

The dissertation defense is an open University seminar in which the student presents the concepts and results of her/his research. This presentation is typically followed immediately by a meeting in which the Dissertation Examining Committee closely examines the student and her/his research. External attendees may participate in this closed portion of the defense with the permission of the Dissertation Examining Committee Chair. However, only members of the Dissertation Examining Committee may actually vote on the decision to accept the dissertation as prepared, accept the dissertation with revisions, or not accept the dissertation.

COLLEGE OF ENGINEERING (http://engineering.temple.edu)

About the Program

The Professional Science Master's degree in Computer and Systems Security (PSM–C&S Security) is offered by the College of Engineering’s Department of Electrical and Computer Engineering. The program focuses on the technology layer within the cyberphysical security paradigm and on the tools and methodologies needed to ensure trustworthiness and asset protection of hardware and network systems. The program is designed to teach students how to meet industry needs and be prepared for the workplace, yet allows students to customize the program to fit their individual needs.

Time Limit for Degree Completion: 5 years

Campus Location: Main

Full-Time/Part-Time Status: Students can complete the degree program on a full- or part-time basis. All courses are taught in the evening, and the degree can be completed in 18 months.

Interdisciplinary Study: Designed as an interdisciplinary program, students in the program take courses from both the College of Engineering and the College of Science and Technology.

Areas of Specialization: The program may be tailored to the student’s career path in the areas of:

- Embedded security safeguards
- Engineered resilient systems
- Hardware component and device design-for-security
- Quality and risk management of hardware security projects
- Reverse engineering for counterintelligence

Job Prospects: Many students in the program already work in the industry. Emphasizing an experience-oriented approach, the PSM–C&S Security program prepares professionals for industry certification, including CISSP® and (ISC)²®, allowing graduates of the program to move their careers in cyberphysical security to a higher level.

Non-Matriculated Student Policy: Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the PSM–C&S Security degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception.

Financing Opportunities: Financial aid in the form of assistantships or fellowships is not offered to students undertaking the PSM–C&S Security degree. For financial aid information, contact the Office of Student Financial Services at sfs@temple.edu or 215-204-2244.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1

Applications are processed on a continual basis. Late applications may be considered for admission. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendations should be obtained from college or research faculty and/or workplace supervisors. References should be provided by those who can attest to the applicant’s ability to excel in the PSM–C&S Security program.

Coursework Required for Admission Consideration: Applicants should have a technical background in engineering, science, or technology.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree in engineering, science, or technology is strongly preferred. Those without this academic background are required to consult with the PSM–C&S Security Program Director to derive a viable academic plan.

Statement of Goals: Describe your relevant technical experiences and career goals in one to two pages.

Standardized Test Scores:

GRE: Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12 (http://www.temple.edu/grad/policies/gradpolicies.htm).) Applicants who require a waiver of the GRE should consult with the PSM–C&S Security Program Director concerning the mechanics and consequences of obtaining an exception.

TOEFL: 79 iBT or 550 PBT minimum. (See Graduate School Policy 02.23.13.01 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

Resume: Current resume required.

Test Waivers: Applicants with extensive relevant employment in the cyberphysical security industry may request a waiver of the GRE. Consult with the PSM–C&S Security Program Director concerning the mechanics and consequences of obtaining an exception.

Program Requirements

CIS course in ethics, law, governance, and regulatory compliance of hardware systems 3

Electives 1 12

Total Credit Hours 30
Students select electives related to their chosen career path in the areas of embedded security safeguards, engineered resilient systems, hardware component and device design-for-security, quality and risk management of hardware security projects, reverse engineering for counterintelligence, and/or preparation for industry certification.

Culminating Events:

Capstone Project: All students in the PSM–C&S Security program complete a capstone project to round out the program with practical work experience.

Electrical Engineering, M.S.E.

COLLEGE OF ENGINEERING (http://engineering.temple.edu)

About the Program

The M.S.E. program offers students practice-oriented graduate-level education in Electrical and Computer Engineering. Concentrations include Computer Architectures and Microelectronics, Digital Signal Processing and Digital Data Communication, and Intelligent Systems and Control. Current active research projects in the department include embedded systems and system-on-chip design, intelligent interactive tutoring systems, intrusion detection, multisensor fusion, speaker identification, speech processing, and visualization and fault detection in multicasting networks. Other active areas of research include digital signal processing, heat dissipation problems in microchips, human-computer interaction, intelligent multimedia systems, robust and optimal control, and wireless data networks.

Time Limit for Degree Completion: 5 years

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The program encourages interdisciplinary research with other branches of engineering as well as with various departments in the sciences and applied mathematics. Recent collaborative work with the Department of Computer and Information Sciences includes visualization and fault detection in multicasting networks and image processing.

Areas of Specialization: For each of the three areas of specialization, research includes:

- Computer Architectures and Microelectronics — current practices of computer design and development; hardware realization and integrated circuit layout; MOS-integrated circuit design for high-speed digital computation and data communication; and software-level testing.
- Digital Signal Processing and Digital Data Communication — array signal processing; detection of faults in communication networks; detection of multidimensional signals in the presence of noise; filtering and modulation; intrusion detection, visualization, and security of multicast networks; multisensor data fusion; performance evaluation of local area and wireless networks, broadband networks, and protocols; speaker identification; and voice signal processing.
- Intelligent Systems and Control — intelligent tutoring systems, interactive multimedia, neuro-fuzzy control, and robust and optimal control.

Job Prospects: Graduates with the M.S.E. are employed in high-tech industries and government laboratories with responsibilities for design, analysis, and applications of electrical engineering principles. Students who complete an M.S.E. with a thesis are prepared to enter a doctoral program.

Non-Matriculated Student Policy: Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the M.S.E. degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the Electrical and Computer Engineering (ECE) Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the M.S.E. program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (http://www.temple.edu/grad/policies/gradpolicies.htm) and 02.24.19 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

Financing Opportunities: Three forms of financial aid are offered to graduate students:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is
Admission Requirements and Deadlines

Application Deadline:

- **Fall:** March 1
- **Spring:** November 1; August 1 international

Applications are processed on a continual basis. Late applications may be considered for admission. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).

Both admissions and financial aid decisions originate in the Department of Electrical and Computer Engineering (ECE). Applicants are encouraged to contact the ECE Graduate Program Director for advice and consultation in the application process.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

**From Whom:** Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant’s competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant’s immediate supervisor. If the applicant has been out of school long enough that relevant academic reference letters appear impractical, s/he should contact the ECE Graduate Program Director to obtain a waiver of this admission requirement.

Coursework Required for Admission Consideration: Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The ECE Department identifies the needed coursework on a case-by-case basis.

**Bachelor’s Degree in Discipline/Related Discipline:** A bachelor’s degree in Electrical Engineering or Computer Engineering is the preferred prerequisite degree. However, students who have earned a bachelor’s degree in a related field are encouraged to apply, with the understanding that remedial preparatory courses may be a pre-condition of admission to the M.S.E.E. program.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in her/his undergraduate studies, but admission exceptions are made for a variety of circumstances.

Statement of Goals: Describe your relevant technical experiences and career goals in one to two pages.

**Standardized Test Scores:**

- **GRE:** Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12 [http://www.temple.edu/grad/policies/gradpolicies.htm].) Applicants who require a waiver of the GRE should consult the ECE Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

- **TOEFL:** 79 iBT or 550 PBT minimum. (See Graduate School Policy 02.23.13.01 [http://www.temple.edu/grad/policies/gradpolicies.htm].)

**Resume:** Current resume required.

**Transfer Credit:** Graduate credits taken at an accredited institution prior to matriculation may be transferred into the M.S.E.E. program. In order to transfer, the courses must be equivalent to courses offered at Temple in the student’s area of study and research, and the grades must be “B” or better. The maximum number of credits a student may transfer is 6. (See Graduate School Policy 02.24.21 [http://www.temple.edu/grad/policies/gradpolicies.htm].)

**Test Waivers:** Applicants with two or more years of employment in an engineering profession performing engineering design and analysis may request a waiver of the GRE. Consult with the ECE Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

Program Requirements

**General Program Requirements:**

**Number of Credits Required Beyond the Baccalaureate:** 30

Students choose between three tracks:

1. **Thesis Track,** which is intended for full-time students who have a financial aid award and includes 24 s.h. of didactic coursework and 6 s.h. of thesis (ECE 9996).
2. **Project Track,** which is intended for full-time students who are self-supporting and includes 27 s.h. of didactic coursework and 3 s.h. of project (ECE 9995).
3. **Coursework Track,** which is intended for self-supporting part-time students and entails 30 s.h. of didactic coursework.

In the first term, the student and ECE Graduate Program Director jointly establish which track the student will follow; in doing this, they initiate the "M.S.E.E. Plan of Study." The Plan of Study form lists all required courses and suggests an M.S.E.E. program-requirement execution sequence for the student to follow. This form is used to track the student’s progress, and is updated and annotated at least once a year as the student completes the various benchmarks in the M.S.E.E. program.

If a student's circumstances change, s/he can change tracks by revising the Plan of Study form and obtaining the requisite approval signatures. However, when considering whether to change one’s track, the student should note that:
Successful completion requires the following:

• "Thesis" credits (ECE 9996) can only be applied toward the Thesis M.S.E.E. degree program and cannot be applied to either the Project or Coursework Tracks.
• "Project" credits (ECE 9995) can only be applied toward the Project M.S.E.E. degree program and cannot be used for either the Coursework or Thesis Tracks.

In all three options, the didactic coursework may include up to, but no more than, 3 s.h. of ENGR 9182 Independent Study I or 3 s.h. of ECE 9991 Directed Research. Furthermore, students who wish to take graduate coursework in Temple University schools/colleges other than the College of Engineering will need to obtain the appropriate written approvals on their Plan of Study form.

Culminating Events: Depends on the student’s choice of track: Thesis, Project, or Coursework.

Thesis Option:
The master’s thesis is the culminating event in the Thesis Track and is typically undertaken during the last two successive terms of study. Successful completion requires the following:

1. Thesis Proposal — ECE 9996 Thesis I (3 s.h.)
The student assembles a committee of three or more faculty members, including her/his advisor, who is typically a full-time ECE faculty member. The student’s Plan of Study should be updated, if necessary, to indicate the advisor’s name. Under the guidance of the advisor and committee, the student prepares a research proposal and presents her/his proposal in an open departmental seminar. The student is responsible for scheduling the proposal and posting an announcement at least 10 business days in advance of this seminar. Ordinarily, the proposal seminar is immediately followed by a meeting of the student’s advisory committee in which the student is closely questioned about the details and strategy of the proposed research. The proposal is then accepted by the committee, accepted by the committee with revisions, or rejected by the committee. The student’s advisory committee also jointly determines the letter grade (A-F) for Thesis I at the end of the term. The student must pass Thesis I before registering for Thesis II. If the student fails Thesis I, s/he may either re-register for Thesis I in the next regular term and repeat the entire proposal process (noting that a second failure will result in automatic dismissal from the University) or consider switching to the Project or Coursework Track, with the relevant updating of the Plan of Study form.

2. Thesis Defense — ECE 9996 Thesis II (3 s.h.)
The student should register for Thesis II in the term that s/he is prepared to defend the thesis. The thesis document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.26.12.02 (http://www.temple.edu/grad/policies/gradpolicies.htm).) The student should provide her/his committee with a copy of the completed thesis at least two weeks before the date of the thesis defense. The thesis is scheduled during a regular academic term, including summer terms. It should not be scheduled during study days, final exams, or the breaks between terms. The student should arrange for, and post an announcement of, the thesis defense at least 10 business days in advance of the defense. Furthermore, if the student is to graduate in the same term that s/he defends the thesis, the defense should be scheduled no later than 30 days prior to the end of the term to allow for document revisions in keeping with Graduate School deadlines, as specified at http://www.temple.edu/grad/documents/Dissertation-and-Thesis-Handbook.pdf. The thesis defense is an open College seminar in which the student presents the concepts and results of her/his research. Normally, this presentation is immediately followed by a meeting of the thesis committee, which closely examines the student’s research. The committee can accept the thesis as provided, accept the thesis with revisions, or not accept the thesis. If the thesis is accepted, the committee jointly decides on a letter grade for Thesis II. If the thesis is not accepted, the committee decides to not fail the student:
   a. an “F” grade is assigned to Thesis II;
   b. the student registers in each subsequent term for one credit of ENGR 9991 Directed Research until s/he is again prepared to attempt the defense; and
   c. the entire open-seminar defense procedure described above is carried out in the term that the student is prepared to defend the thesis.

Project Option:
The project is the culminating event in the Project Track. It is normally carried out in the student’s last term of study. The student selects an advisor (usually a full-time faculty member in the ECE Department), registers for ECE 9995 Project, and conducts a one-term research activity under the supervision of the advisor. Near the end of the term, the student prepares a report of her/his findings and presents the study in an open departmental seminar. Both the seminar and the written report are used to determine the student’s grade for ECE 9995. The grade is jointly determined by the advisor and a second grader selected by the ECE Graduate Program Director, as recorded in the Plan of Study.

Coursework Option:
No culminating event is warranted for the Coursework Track.

Graduate Program Director, ECE:
Iyad Obeid, Ph.D.
Electrical Engineering, Ph.D.

COLLEGE OF ENGINEERING (http://engineering.temple.edu)

About the Program

The Ph.D. in Electrical Engineering is designed to develop electrical engineers who have a clear understanding of the importance of electrical engineering. Doctoral students are prepared to identify a research area in electrical engineering and analyze the literature, develop theory, perform experimentation, and develop their own methodologically rigorous research studies. Students complete their studies with a mastery of the fundamental critical thinking and analytic skills and competencies necessary for electrical and computer engineering. Graduates are well prepared to enter the workforce in a range of engineering companies, universities, research organizations, federal agencies, and non-profit organizations.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students are able to complete the didactic portion of the Ph.D. degree program through classes offered after 4:30 p.m.

Interdisciplinary Study: Engineering research is highly interdisciplinary and draws on collaboration with members of the faculty and students within all departments of the College of Engineering, in the Mathematics Department and departments engaged in the study of the physical sciences, and at the School of Medicine at Temple University.

Areas of Specialization: The areas of specialization within Electrical Engineering are similar to those at the master's level:

- Cyber Physical Systems
- Digital Data Communication and Network
- Digital Signal Processing and Digital Image Processing
- Microelectronics and Computer Architectures
- Signal Processing and Speech Processing
- Smart Systems and Control

Job Prospects: The program is primarily intended for individuals who wish to pursue careers in industry, government, and academia in a highly creative environment. The program is dedicated to producing engineers who will contribute to advancements in electrical engineering. In the past, most graduates with the Ph.D. in Electrical Engineering were employed in high-tech industries in research and development positions.

Non-Matriculated Student Policy: Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the Ph.D. degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the Electrical Engineering Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the Ph.D. program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (http://www.temple.edu/grad/policies/gradpolicies.htm) and 02.24.19 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

Financing Opportunities: Applicants for full-time study in the Electrical Engineering Ph.D. program are automatically considered for financial aid. Three forms of financial aid are awarded to Ph.D. students on a competitive basis:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.

2. Research Assistantship (RA): Individual faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's doctoral advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.

3. Fellowships: Fellowships are awarded by the University in a competitive process that is open to all Ph.D. applicants. The Electrical Engineering Graduate Program Director nominates exceptional Ph.D. applicants for a University Fellowship. Fellows receive 9 to 12 months of stipend, depending on the award; basic health insurance; and 12 credits of tuition remission each Fall and Spring term. Fellows of the University have no work obligations with respect to either the Department, the College, or the University.

Because financial aid is awarded on a competitive basis, applicants are urged to complete the application as early as possible.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1; August 1 international

Applications are processed on a continual basis. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

Both admissions and financial aid award decisions originate in the Department of Electrical and Computer Engineering within the College of Engineering. Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

In the first term, the student and the Electrical Engineering Graduate Program Director jointly determine the cohort that is appropriate for the student and initiate the “Ph.D. in Engineering Plan of Study.” The Plan of Study form lists all required courses and suggests a Ph.D. program-requirement execution sequence for the student to follow. This form is used to track the student’s progress, and is updated and annotated at least once a year as the student completes the various benchmarks in the Ph.D. program.

Note that, in general, students who want to take graduate coursework to satisfy either the Ph.D.-level or master’s-level didactic coursework requirement in schools/colleges other than the College of Engineering need to obtain the appropriate written approvals on their Plan of Study form.

\(^1\) Didactic coursework may include up to, but no more than, 3 credits of ENGR 9182 Independent Study I OR 3 credits of ECE 9991 Directed Research AND 3 credits of ENGR 9282 Independent Study II. Typically, this coursework is selected by the student’s Doctoral Advisory Committee and noted in the student’s Plan of Study form.

\(^2\) Ph.D.-level didactic coursework may include up to, but no more than, 3 credits of ENGR 9282 Independent Study II. Typically, this coursework is selected by the student’s Doctoral Advisory Committee and noted in the student’s Plan of Study form.

**Culminating Events:**

**Formation of the Doctoral Advisory Committee:**

One of the student’s first important tasks is to select a research advisor and form a Doctoral Advisory Committee. The Doctoral Advisory Committee selects the student’s Ph.D.-level coursework and is responsible for guiding the progress of the student’s dissertation research. The time frame for selecting a doctoral advisor depends on the student’s level of preparation upon entering the Ph.D. program:

- Students admitted to the 30-credit cohort are sufficiently experienced to form their Doctoral Advisory Committee before the end of their second regular term of study.
- Students admitted to the 60-credit cohort ordinarily take one or two years of master’s-level coursework before forming their Doctoral Advisory Committee by the end of their fourth regular term in the program.

See Graduate School Policy 02.28.11 (http://www.temple.edu/grad/policies/gradpolicies.htm) for clarification on the composition of the Doctoral Advisory Committee.

**Preliminary Examination:**
Whether the student is a member of the 30-credit cohort or the 60-credit cohort, s/he must complete all didactic coursework in her/his program of study prior to taking the preliminary examination. (See Graduate School Policy 02.27.11.) Students in the 30-credit cohort ordinarily take the exam before the end of their third or fourth regular term. Students in the 60-credit cohort typically take the exam before the end of the eighth regular term.

The preliminary exam tests both the student’s core knowledge in Electrical Engineering and her/his capacity to synthesize and interpret research communications. The specific form, content, and frequency of the Electrical Engineering preliminary exam is supervised by the Electrical Engineering Graduate Program Director. Questions about the exam should be directed to that individual. The student should also coordinate the scheduling of the preliminary exam with the Electrical Engineering Graduate Program Director. Students have two opportunities to pass the preliminary exam and must register for one credit of ECE 9994 Preliminary Examination Preparation in each term that the exam is attempted. Students are dismissed upon the second failure.

Dissertation Proposal:
Within one year of passing the preliminary exam, the student must develop a written research proposal and present it in an open College seminar. The student is responsible for scheduling the proposal and posting an announcement at least 10 business days in advance of this seminar. Ordinarily, the proposal seminar is immediately followed by a meeting of the Doctoral Advisory Committee in which the student is closely questioned about the details and strategy of her/his proposed research.

The proposed dissertation research is considered “approved” when the Graduate School receives the "Dissertation Proposal Transmittal for Elevation to Candidacy" form, found at http://www.temple.edu/grad/forms/, signed by all of the Doctoral Advisory Committee members. The student is considered to be a doctoral candidate after her/his dissertation proposal has been accepted by her/his Doctoral Advisory Committee and the signed transmittal form has been received by the Graduate School. (See Graduate School Policy 02.28.12.)

Research Credits:
Students carry out research throughout their studies and must register for research credits throughout the Ph.D. program. The type of research credits that a student registers for depends, however, on the student’s progress in the Ph.D. program, specifically:

- In the terms prior to passing the preliminary exam, credit hours associated with the student’s research should be registered under ECE 9991 Directed Research.
- After the preliminary exam is passed, but before elevation to candidacy, credit hours associated with the student’s research should be registered under ECE 9998 Pre-Dissertation Research.
- After elevation to candidacy, the student’s research credits should be registered under ECE 9999 Dissertation Research. Students are required to register for at least two credit hours of ECE 9999 Dissertation Research following their elevation to candidacy. (See Graduate School Policy 02.28.15.)

Publications:
All doctoral students must publish at least two technical papers in refereed journals or refereed conferences. The papers must be based on the student’s dissertation research, and the student must be first author. Paper writing and/or presentation at a conference is considered an integral part of the student’s training. Also, peer review, in part, offers an indication of quality and novelty of the student’s research.

Dissertation:
In the term that the student intends to defend her/his dissertation, the Dissertation Examining Committee must be formed. This committee consists of the original Doctoral Advisory Committee plus one additional “external” member who is not faculty in the College of Engineering. If the external examiner is not a member of Temple University’s Graduate Faculty, s/he must be approved by the Graduate School at least four weeks prior to the dissertation defense.

The Chair of the Dissertation Examining Committee is elected by all members of the committee at least three weeks prior to the defense; this elected Chair cannot be the student’s doctoral advisor. The elected Chair of the Dissertation Examining Committee coordinates the proceedings of the defense and is responsible for the completion of all relevant College and Graduate School forms concerning the defense. The Chair of the Dissertation Examining Committee must be approved by the College’s Associate Dean and is identified for the Graduate School in the student’s official request to the Graduate School for permission to schedule the defense. (See Graduate School Policy 02.28.15.)

The dissertation document must be prepared in a format compliant with University standards. (See Graduate School Policy 02.28.18.) The student should provide her/his committee with a copy of the completed dissertation at least three weeks before the date of the dissertation defense.

The student must post a public announcement of her/his defense at least 10 business days prior to the defense. The announcement must be approved in writing by the Graduate School in advance of the posting. Note that any Graduate Faculty may request a copy of the dissertation in advance of the defense and may participate in the defense. (See Graduate School Policy 02.28.16.)

The dissertation defense may be scheduled on any day in a term when classes are regularly held; it may not be scheduled on study days, during final exams, or over term breaks. Furthermore, if the student is to graduate in the same term that s/he defends the dissertation, the defense should be scheduled no later than 30 days prior to the end of the term to allow for document revisions in keeping with Graduate School deadlines, as specified at http://www.temple.edu/grad/policies/Dissertation-and-Thesis-Handbook.pdf.

The dissertation defense is an open University seminar in which the student presents the concepts and results of her/his research. This presentation is typically followed immediately by a meeting in which the Dissertation Examining Committee closely examines the student and her/his research. External attendees may participate in this closed portion of the defense with the permission of the Dissertation Examining Committee Chair. However, only members of the Dissertation Examining Committee may actually vote on the decision to accept the dissertation as prepared, accept the dissertation with revisions, or not accept the dissertation.

Engineering, Ph.D.

COLLEGE OF ENGINEERING (http://engineering.temple.edu)

About the Program

The College of Engineering offers a College-wide doctoral degree program. It is designed for students who have training in Engineering, Biological Sciences, Mathematics, or Physical Sciences, and who wish to carry out doctoral-level research in Engineering. Faculty members associated with the Ph.D. degree program are drawn from all departments in the College, representing a wide variety of technical backgrounds and interests. Because engineering research is an inherently interdisciplinary activity, graduates of the program have acquired a background in diverse engineering approaches that will promote their careers in research, academia, or industry.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students are able to complete the didactic portion of the Ph.D. degree program through classes offered after 4:30 p.m.

Interdisciplinary Study: Engineering research is highly interdisciplinary and draws on collaboration with members of the faculty and students within all departments of the College of Engineering, in the departments of Mathematics and the Physical Sciences, and within the School of Medicine.

Areas of Specialization: While the Engineering Ph.D. is inherently interdisciplinary, the student is admitted to the program in one of four departments and then conducts doctoral research within the home department. The areas of specialization are similar to those at the master's level:

- Bioengineering
- Civil and Environmental Engineering, including Civil Engineering Systems and Environmental Engineering
- Electrical and Computer Engineering, including Computer Architectures and Microelectronics, Digital Signal Processing and Digital Data Communication, and Intelligent Systems and Control
- Mechanical Engineering

Prospective students are strongly encouraged to communicate with members of the faculty about current areas of research.

Job Prospects: The program is primarily intended for individuals who wish to pursue careers in industry, government, and academia in a highly creative environment. The program is dedicated to producing engineers who will contribute to advancements in technology. In the past, most of the graduates of the Ph.D. in Engineering program have been employed in high-tech industries in research and development positions.

Non-Matriculated Student Policy: Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the Ph.D. degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the appropriate departmental Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the Ph.D. program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (http://www.temple.edu/grad/policies/gradpolicies.htm) and 02.24.19 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

Financing Opportunities: Applicants for full-time study in the Ph.D. program are automatically considered for financial aid. Three forms of financial aid are awarded to Ph.D. students on a competitive basis:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.

2. Research Assistantship (RA): Individual faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's doctoral advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.

3. Fellowships: Fellowships are awarded by the University in a competitive process that is open to all Ph.D. applicants. The appropriate departmental Graduate Program Director nominates exceptional Ph.D. applicants for a University Fellowship. Fellows
receive 9 to 12 months of stipend, depending on the award; basic health insurance; and 12 credits of tuition remission each Fall and Spring term. Fellows of the University have no work obligations with respect to either the Department, the College, or the University.

Because financial aid is awarded on a competitive basis, applicants are urged to complete the application as early as possible.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1  
Spring: November 1; August 1 international

Applications are processed on a continual basis. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).

Both admissions and financial aid award decisions originate in the various departments within the College of Engineering. Thus, it is vital that applicants designate their department of interest in their Statement of Goals. Indicate whether the application is to be considered by the Department of Bioengineering (BIO), Civil and Environmental Engineering (CEE), Electrical and Computer Engineering (ECE), or Mechanical Engineering (ME).

Further, applicants are encouraged to contact the appropriate departmental Graduate Program Director for advice and consultation in the application process. This assistance shall include identifying and providing contact information for departmental faculty who might share the applicant’s research interests. The applicant is encouraged to personally contact the identified departmental faculty for advice and information about her/his research in an effort to establish mutual areas of research interest between applicants and faculty.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant’s competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant’s immediate supervisor. If the applicant has been out of school long enough that relevant academic reference letters appear impractical, s/he should contact the appropriate departmental Graduate Program Director to obtain a waiver of this admission requirement.

Coursework Required for Admission Consideration: Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The department of application identifies the needed coursework on a case-by-case basis.

Master’s Degree in Discipline/Related Discipline: A master’s degree is not required, but preferred.

Bachelor’s Degree in Discipline/Related Discipline: A bachelor’s degree is required.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in her/his undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (http://www.temple.edu/grad/policies/gradpolicies.htm).) The appropriate departmental Graduate Program Director helps the applicant navigate the admission possibilities and assists in the assessment of her/his overall educational qualifications with respect to the departmental requirements for the Ph.D. program.

Statement of Goals: Describe your relevant technical experiences, career goals, and specific research interests in one to two pages. Clearly identify the department of interest within the College of Engineering: Bioengineering (BIO), Civil and Environmental Engineering (CEE), Electrical and Computer Engineering (ECE), or Mechanical Engineering (ME).

Standardized Test Scores:

GRE: Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12 (http://www.temple.edu/grad/policies/gradpolicies.htm).) Applicants who require a waiver of the GRE should consult the appropriate departmental Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

TOEFL: 79 iBT or 550 PBT minimum. (See Graduate School Policy 02.23.13.01 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

Resume: Current resume required.

Advanced Standing: Both transfer credit for courses taken at another institution while matriculated at Temple and/or advanced standing credit for courses taken within the 5-year period prior to matriculating at Temple may be applied toward the Ph.D.-level didactic coursework requirement. Written approval is required from the student’s doctoral advisor, the College’s Associate Dean for Graduate Study, and the Graduate School. (See Graduate School Policy 02.24.21 (http://www.temple.edu/grad/policies/gradpolicies.htm).) Up to six credits of advanced standing for courses taken within the 5-year period prior to matriculating at Temple may be used to satisfy the master’s-level didactic coursework requirement. Approval of the appropriate departmental Graduate Program Director is required. The courses must be equivalent to courses offered at Temple in the student’s area of study and research, and the grades must be “B” or better.

Program Requirements

General Program Requirements:

Minimum Number of Credits Required Beyond the Bachelor’s: 60, including 30 credits of master’s-level didactic coursework¹, 15 credits of Ph.D.-level didactic coursework², and 15 credits associated with Ph.D. examinations and dissertation research

Minimum Number of Credits Required Beyond the Master’s: 30, including 15 credits of Ph.D.-level didactic coursework² and 15 credits associated with Ph.D. examinations and dissertation research

In the first term, the student and her/his departmental Graduate Program Director jointly determine the cohort that is appropriate for the student and initiate the “Ph.D. in Engineering Plan of Study.” The Plan of Study form lists all required courses and suggests a Ph.D. program-requirement execution sequence for the student to follow. This form is used to track
the student’s progress, and is updated and annotated at least once a year as the student completes the various benchmarks in the Ph.D. program.

Note that, in general, students who want to take graduate coursework to satisfy either the Ph.D.-level or master’s-level didactic coursework requirement in schools/colleges other than the College of Engineering need to obtain the appropriate written approvals on their Plan of Study form.

1 Master’s-level didactic coursework may include up to, but no more than, 3 credits of ENGR 9182 Independent Study I or 3 credits of Directed Research (i.e., BIOE 9991, CEE 9991, CSE 9991, or MEE 9991).

2 Ph.D.-level didactic coursework may include up to, but no more than, 3 credits of ENGR 9282 Independent Study II. Typically, this coursework is selected by the student’s Doctoral Advisory Committee and noted in the student’s Plan of Study form.

Culminating Events:

Formation of the Doctoral Advisory Committee:

One of the student’s first important tasks is to select a research advisor and form a Doctoral Advisory Committee. The Doctoral Advisory Committee selects the student’s Ph.D.-level coursework and is responsible for guiding the progress of the student’s dissertation research. The time frame for selecting a doctoral advisor depends on the student’s level of preparation upon entering the Ph.D. program:

• Students admitted to the 30-credit cohort are sufficiently experienced to form their Doctoral Advisory Committee before the end of their second regular term of study.

• Students admitted to the 60-credit cohort ordinarily take one or two years of master’s-level coursework before forming their Doctoral Advisory Committee by the end of their fourth regular term in the program.

See Graduate School Policy 02.28.11 (http://www.temple.edu/grad/policies/gradpolicies.htm) for clarification on the composition of the Doctoral Advisory Committee.

Preliminary Examination:

Whether the student is a member of the 30-credit cohort or the 60-credit cohort, s/he must complete all didactic coursework in her/his program of study prior to taking the preliminary examination. (See Graduate School Policy 02.27.11 (http://www.temple.edu/grad/policies/gradpolicies.htm).) Students in the 30-credit cohort ordinarily take the exam before the end of their third or fourth regular term. Students in the 60-credit cohort typically take the exam before the end of the eighth regular term.

The preliminary exam tests both the student’s core knowledge in her/his engineering discipline and her/his capacity to synthesize and interpret research communications. The specific form, content, and frequency of the preliminary exam vary by department. Further, administration of the departmental preliminary exam is supervised by the departmental Graduate Program Director. Questions about the specific form and content of the examination should be directed, therefore, to the appropriate departmental Graduate Program Director.

The student should coordinate the scheduling of the preliminary exam with the appropriate departmental Graduate Program Director. Students have two opportunities to pass the preliminary exam and must register for one credit of ENGR 9994 Preliminary Examination Preparation in each term that the exam is attempted. Students are dismissed upon the second failure.

Dissertation Proposal:

Within one year of passing the preliminary exam, the student must develop a written research proposal and present it in an open College seminar. The student is responsible for scheduling the proposal and posting an announcement at least 10 business days in advance of this seminar. Ordinarily, the proposal seminar is immediately followed by a meeting of the Doctoral Advisory Committee in which the student is closely questioned about the details and strategy of her/his proposed research.

The proposed dissertation research is considered “approved” when the Graduate School receives the "Dissertation Proposal Transmittal for Elevation to Candidacy" form, found at http://www.temple.edu/grad/forms/, signed by all of the Doctoral Advisory Committee members. The student is considered to be a doctoral candidate after her/his dissertation proposal has been accepted by her/his Doctoral Advisory Committee and the signed transmittal form has been received by the Graduate School. (See Graduate School Policy 02.28.12 (http://www.temple.edu/grad/policies/gradpolicies.htm) for further procedural specifics.)

Research Credits:

Students carry out research throughout their studies and must register for research credits throughout the Ph.D. program. The type of research credits that a student registers for depends, however, on the student’s progress in the Ph.D. program, specifically:

• In the terms prior to passing the preliminary exam, credit hours associated with the student’s research should be registered under ENGR 9991 Directed Research.

• After the preliminary exam is passed, but before elevation to candidacy, credit hours associated with the student’s research should be registered under ENGR 9998 Pre-Dissertation Research.

• After elevation to candidacy, the student’s research credits should be registered under ENGR 9999 Dissertation Research. Students are required to register for at least two credit hours of ENGR 9999 Dissertation Research following their elevation to candidacy. (See Graduate School Policy 02.28.15 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

Publications:

All doctoral students must publish at least two technical papers in refereed journals or refereed conferences. The papers must be based on the student’s dissertation research, and the student must be first author. Paper writing and/or presentation at a conference is considered an integral part of the student’s training. Also, peer review, in part, offers an indication of quality and novelty of the student’s research.

Dissertation:

In the term that the student intends to defend her/his dissertation, the Dissertation Examining Committee must be formed. This committee consists of the original Doctoral Advisory Committee plus one additional “external” member who is not faculty in the College of Engineering. If the external examiner is not a member of Temple University’s Graduate Faculty, s/he must be approved by the Graduate School at least four weeks prior to the dissertation defense.

The Chair of the Dissertation Examining Committee is elected by all members of the committee at least three weeks prior to the defense; this elected Chair cannot be the student’s doctoral advisor. The elected Chair of the Dissertation Examining Committee coordinates the proceedings of the defense and is responsible for the completion of all relevant College and Graduate School forms concerning the defense. The Chair of the Dissertation Examining Committee must be approved by the College’s
Associate Dean and is identified for the Graduate School in the student’s official request to the Graduate School for permission to schedule the defense. (See Graduate School Policy 02.28.15 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

The dissertation document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.28.18 (http://www.temple.edu/grad/policies/gradpolicies.htm).) The student should provide her/his committee with a copy of the completed dissertation at least three weeks before the date of the dissertation defense.

The student must post a public announcement of her/his defense at least 10 business days prior to the defense. The announcement must be approved in writing by the Graduate School in advance of the posting.

Note that any Graduate Faculty may request a copy of the dissertation in advance of the defense and may participate in the defense. (See Graduate School Policy 02.28.16 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

The dissertation defense may be scheduled on any day in a term when classes are regularly held; it may not be scheduled on study days, during final exams, or over term breaks. Furthermore, if the student is to graduate in the same term that s/he defends the dissertation, the defense should be scheduled no later than 30 days prior to the end of the term to allow for document revisions in keeping with Graduate School deadlines, as specified at http://www.temple.edu/grad/documents/Dissertation-and-Thesis-Handbook.pdf.

The dissertation defense is an open University seminar in which the student presents the concepts and results of her/his research. This presentation is typically followed immediately by a meeting in which the Dissertation Examining Committee closely examines the student and her/his research. External attendees may participate in this closed portion of the defense with the permission of the Dissertation Examining Committee Chair. However, only members of the Dissertation Examining Committee may actually vote on the decision to accept the dissertation as prepared, accept the dissertation with revisions, or not accept the dissertation.

Engineering Management, M.S.

COLLEGE OF ENGINEERING (http://engineering.temple.edu)

About the Program

The College of Engineering, which hosts the program, and the Fox School of Business and Management established this interdisciplinary Master of Science in Engineering Management. The degree program is designed as a career development option for students pursuing careers in technology-based ventures who desire to learn specific management techniques associated with the management of technology development and technology-based projects, either for customers or associated with the introduction of new technologies into existing organizations.

Students who complete the M.S. in Engineering Management learn many of the skills and approaches necessary to increase the productivity and innovative capacity of technology-driven organizations. They are exposed to aspects of management education, such as project management, IP strategy, and quality management, to which they may not have previously been exposed.
Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree in engineering, science, or technology is required.

Statement of Goals: An essay on your professional plans and goals should be one to three pages in length. It should reflect your influences, values, aspirations, and interest in the M.S. in Engineering Management program. The following questions may be addressed:

- What particular past experiences or previous exposure (academic, professional, etc.) prepared or motivated you to pursue an M.S. in Engineering Management degree?
- How would you expect to change over the course of the program?
- What personal and professional values and skills do you hope to acquire through the academic content?
- How will obtaining the M.S. in Engineering Management degree support your career objectives or potential career path(s)?
- Given the importance of teamwork and collaboration in business, what are the most significant strengths or contributions you bring to a team?

Standardized Test Scores:
GRE: Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12 [http://www.temple.edu/grad/policies/gradpolicies.htm].) Applicants who request a waiver of the GRE should consult the Engineering Management Program Director concerning the mechanics and consequences of obtaining an exception.

TOEFL: 79 iBT or 550 PBT minimum. (See Graduate School Policy 02.23.13.01 [http://www.temple.edu/grad/policies/gradpolicies.htm].) IELTS Academic version may be substituted for the TOEFL with a comparable minimum score of 6.5.

Resume: Current resume required.

Program Requirements

General Program Requirements:
Number of Didactic Credits Required Beyond the Baccalaureate: 30, with a minimum of 13.5 credits taken in the College of Engineering and 7.5 credits taken in the Fox School of Business and Management

Required Courses:

<table>
<thead>
<tr>
<th>College of Engineering Courses</th>
<th>Fox School of Business and Management Courses</th>

Coursework Required for Admission Consideration: Applicants should have a technical background in engineering, mathematics, science, or technology. Two years’ relevant work experience in a company is preferred, but exceptions can be made.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1; August 1 international

Applications are processed on a continual basis. Late applications may be considered for admission. Ordinarily, the applicant is informed of an admissions decision within 6 weeks of receipt of all supporting application documents.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Recommendations should be professional references from supervisors and co-workers or academic references. References should be obtained from those who know the applicant well and who can attest to the applicant’s ability to excel in the M.S. in Engineering Management program.

Ranking: Most of the content developed for the Engineering Management M.S. degree was developed by the Fox School of Business and Management, which is highly ranked. Current ranking information may be viewed at http://www.fox.temple.edu/ranking/.

Accreditation: The overall curriculum is designed to meet the requirements of the American Society for Engineering Management.

Non-Matriculated Student Policy: Students with an undergraduate GPA of 3.0 or higher may be allowed to take classes on a non-matriculated basis. Non-matriculated students may take a maximum of 9 credit hours. Any additional courses require the student to be matriculated in a program.

Financing Opportunities: Contact the department directly for more information.

Campus Location: Many courses are offered on Main Campus and include online components. Eventually, students will be able to complete the program entirely online, but this is not an option in 2014 and 2015. The online program requires some in-person classroom participation.

Full-Time/Part-Time Status: The degree program can be completed full-time in one year or part-time over two years. Part-time students may extend the completion deadline to 3 years, based on circumstances.

Interdisciplinary Study: Designed as an interdisciplinary program, the source of courses has been balanced between the College of Engineering and Fox School of Business and Management.

Affiliation(s): Research is supported by the Fox School of Business and Management’s Innovation and Entrepreneurship Institute and Small Business Development Center. Research interests of the Fox School and College of Engineering faculty are also supported by numerous centers and institutes throughout Temple University.

Time Limit for Degree Completion: 5 years

Full-Time/Part-Time Status: The degree program can be completed full-time in one year or part-time over two years. Part-time students may extend the completion deadline to 3 years, based on circumstances.

Interdisciplinary Study: Designed as an interdisciplinary program, the source of courses has been balanced between the College of Engineering and Fox School of Business and Management.

Affiliation(s): Research is supported by the Fox School of Business and Management’s Innovation and Entrepreneurship Institute and Small Business Development Center. Research interests of the Fox School and College of Engineering faculty are also supported by numerous centers and institutes throughout Temple University.

Ranking: Most of the content developed for the Engineering Management M.S. degree was developed by the Fox School of Business and Management, which is highly ranked. Current ranking information may be viewed at http://www.fox.temple.edu/ranking/.

Accreditation: The overall curriculum is designed to meet the requirements of the American Society for Engineering Management.

Non-Matriculated Student Policy: Students with an undergraduate GPA of 3.0 or higher may be allowed to take classes on a non-matriculated basis. Non-matriculated students may take a maximum of 9 credit hours. Any additional courses require the student to be matriculated in a program.

Financing Opportunities: Contact the department directly for more information.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1; August 1 international

Applications are processed on a continual basis. Late applications may be considered for admission. Ordinarily, the applicant is informed of an admissions decision within 6 weeks of receipt of all supporting application documents.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Recommendations should be professional references from supervisors and co-workers or academic references. References should be obtained from those who know the applicant well and who can attest to the applicant’s ability to excel in the M.S. in Engineering Management program.

Coursework Required for Admission Consideration: Applicants should have a technical background in engineering, mathematics, science, or technology. Two years’ relevant work experience in a company is preferred, but exceptions can be made.
SGM 5124 Creative Problem Solving: Perspectives & Techniques that Improve Creativity in Organizations & Life 1.5

SGM 5126 Innovation Adoption and Diffusion: Finding First Customers and Driving Widespread Implementation 1.5

Electives 1 9
Total Credit Hours 30

1 Students select electives from either the Fox School of Business and Management (e.g., Managing Business Processes, Managing Productive Work Teams, New Venture Creation, Process Improvement and Innovation, or Quantitative Methods) or the College of Engineering (e.g., IP Strategy for Technologists).

Culminating Events: This program requires no culminating event.

Engineering Technology Management, M.E.T.M.

COLLEGE OF ENGINEERING (http://engineering.temple.edu)

About the Program

The College of Engineering, which hosts the program, and the Fox School of Business and Management established this interdisciplinary Master of Engineering Technology Management in Engineering Technology Management. The degree program is designed for individuals who wish to pursue careers in industry. The degree program exists in concert with other institutions offering graduate studies in the field of engineering technology in such a way that up to 15 credits of graduate engineering technology coursework is accepted by Temple University toward a 30-credit requirement for the M.E.T.M. degree. The remaining 15 credits are completed at Temple to earn the degree.

The initial partner institution is Northern Kentucky University (NKU). Temple University’s College of Engineering has agreed to accept graduate students having acceptable academic credentials without requiring a GRE. Students apply to both Temple University and to the institution offering engineering technology coursework at the graduate level. Students are expected to complete the engineering technology coursework at the partner institution in the Fall and then migrate to Temple for the Spring and Summer terms to complete engineering management coursework.

Time Limit for Degree Completion: 2 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program is expected to be completed full-time in one year, but can be completed on a part-time basis in two years.

Interdisciplinary Study: Designed as an interdisciplinary program, the source of courses has been balanced between the College of Engineering and the Fox School of Business and Management.

Affiliation(s): Research is supported by the Fox School of Business and Management’s Innovation and Entrepreneurship Institute and Small Business Development Center. Research interests of the Fox School and College of Engineering faculty are also supported by numerous centers and institutes throughout Temple University.

Ranking: The Fox School of Business and Management is highly ranked. Current ranking information may be viewed at http://www.fox.temple.edu/ranking/.

Areas of Specialization: Three areas of specialization are offered:
• Civil Engineering Technology Management
• Electrical Engineering Technology Management
• Mechanical Engineering Technology Management

Non-Matriculated Student Policy: Given that students begin coursework at a partner institution, coursework at Temple University cannot be taken on a non-matriculated basis.

Financing Opportunities: Contact the department directly for more information.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1; August 1 international

Applications are processed on a continual basis. Late applications may be considered for admission. Ordinarily, the applicant is informed of an admissions decision within 6 weeks of receipt of all supporting application documents.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Recommendations should be professional references from supervisors and co-workers or academic references. References should be obtained from those who know the applicant well and who can attest to the applicant’s ability to excel in the M.E.T.M. in Engineering Technology Management program.

Coursework Required for Admission Consideration: Applicants should have a technical background in engineering, mathematics, science, or technology.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree in engineering, science, or technology is required.

Statement of Goals: An essay on your professional plans and goals should be one to three pages in length. It should reflect your influences, values, aspirations, and interest in the M.E.T.M. in Engineering Technology Management program. The following questions may be addressed:

- What particular past experiences or previous exposure (academic, professional, etc.) prepared or motivated you to pursue an M.E.T.M. degree?
- How would you expect to change over the course of the program?
- What personal and professional values and skills do you hope to acquire through the academic content?
- How will obtaining the M.E.T.M. degree support your career objectives or potential career path(s)?
- Given the importance of teamwork and collaboration in business, what are the most significant strengths or contributions you bring to a team?

Standardized Test Scores:
GRE: Waived for applicants with acceptable academic credentials.
TOEFL: 79 iBT or 550 PBT minimum. (See Graduate School Policy 02.23.13.01 [http://www.temple.edu/grad/policies/gradpolicies.htm].)
IELTS Academic version may be substituted for the TOEFL with a comparable minimum score of 6.5.

Resume: Current resume required.

Program Requirements

General Program Requirements:
Number of Didactic Credits Required Beyond the Baccalaureate: 30, with 15 credits taken at Temple University in the College of Engineering and the Fox School of Business and Management after 15 credits are completed at a partner institution

Required Courses:

<table>

Environmental Engineering, M.S.Env.E.

COLLEGE OF ENGINEERING [http://engineering.temple.edu]

About the Program
The M.S.Env.E. program is designed to provide students with the opportunity to develop a greater technical competency in the general area of Environmental Engineering. Students are motivated to grow intellectually through the continued search for and use of knowledge, and are provided with the catalyst to become active, articulate, and socially
aware individuals. Graduates of the program are key contributors to the
civil engineering and environmental engineering professions.

Time Limit for Degree Completion: 5 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on
a full- or part-time basis.

Interdisciplinary Study: The program encourages interdisciplinary
research with other branches of engineering as well as with various
departments in the sciences and applied mathematics. Recent
collaborative work with the Department of Mechanical Engineering
includes projects on water flow and solute transport in porous media
(aquifers) and the effects of turbulence on the mixing of oil spills at sea.
Collaboration with the Department of Chemistry includes research on
waste combustion products and surface complexation.

Areas of Specialization: For each of the two areas of specialization,
research includes:

- Civil Engineering Systems — three major branches of civil
  engineering: construction engineering, structural engineering, and
  transportation engineering.
- Environmental Engineering — the fundamentals and applications of
  water resources engineering, pollution in natural systems (water and
  air), and engineered treatment and remediation systems.

Job Prospects: Graduates with the M.S.Env.E. in Environmental
Engineering are employed by various engineering companies as well
as government agencies in design, analysis, and applications. Typical
examples are water treatment facilities and regulatory agencies engaged
in environmental regulation and pollution control; companies involved
in construction project management; and those involved in structural design
and analysis of buildings, bridges, and other structures. Students who
complete an M.S.Env.E. with a thesis are prepared to enter a doctoral
program.

Non-Matriculated Student Policy: Up to 9 credits of graduate
Engineering coursework may be taken at Temple University on a non-
matriculated basis and subsequently applied to the M.S.Env.E. degree
upon admission. If the applicant's undergraduate GPA was less than 3.0,
a GPA of 3.25 or better is required on this non-matriculated graduate
coursework to receive an admissions exception. Consequently, the Civil
and Environmental Engineering (CEE) Graduate Program Director may
encourage those with an undergraduate GPA less than 3.0 to take their
first three graduate courses prior to making formal application to the
M.S.Env.E. program. (See the relevant Graduate School policies on
special admission procedures for non-matriculated students: 02.23.11.03
(http://www.temple.edu/grad/policies/gradpolicies.htm) and 02.24.19
(http://www.temple.edu/grad/policies/gradpolicies.htm).)

Financing Opportunities: Three forms of financial aid are offered to
graduate students:

1. Teaching Assistantship (TA): TA awards are made solely by the
   Department and require the awardee to work 20 hours per week in
   support of the Department’s undergraduate programs. The TA is
   compensated with a 9-month stipend, a basic health-insurance plan,
   and 9 credits per term of tuition remission.
2. Research Assistantship (RA): Individual CEE faculty confer RA
   awards, using their research funds, upon students who appear well-
   qualified to carry out the research. Typically, this faculty member
   becomes the RA’s Thesis advisor. The RA normally works up to 20
   hours per week and is compensated with a stipend, basic health
   insurance, and tuition remission.
3. Fellowships: These highly competitive University-wide grants
   are typically awarded only to Ph.D.-program applicants. See the
   Engineering, Ph.D. (p. 503) program description for details.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1; August 1 international

Applications are processed on a continual basis. Late applications may
be considered for admission. Ordinarily, the applicant is informed of
an admissions decision within 4 to 6 weeks of receipt of all supporting
application documents.

Applicants who plan to matriculate full-time are automatically considered
for financial aid awards so no separate application for financial aid is
required. To ensure financial aid consideration for the intended term of
study, however, applicants should submit a complete application
by January 15 (Fall) and August 1 (Spring).

Both admissions and financial aid award decisions originate in the
Department of Civil and Environmental Engineering (CEE). Applicants
are encouraged to contact the CEE Graduate Program Director for advice
and consultation in the application process.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from college
or research faculty who are familiar with the applicant's competency.
If the applicant has an established career in engineering, one of the
letters should be provided by the applicant's immediate supervisor.
If the applicant has been out of school long enough that relevant
academic reference letters appear impractical, s/he should contact the
CEE Graduate Program Director to obtain a waiver of this admission
requirement.

Coursework Required for Admission Consideration: Students not
adequately prepared for advanced courses may be required to take a
number of prerequisites. The CEE Department identifies the needed
coursework on a case-by-case basis.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's
degree in Environmental Engineering is the preferred prerequisite
degree. However, students who have earned a bachelor's degree in
a related field are encouraged to apply, with the understanding that
remedial preparatory courses may be a pre-condition of admission to the
M.S.Env.E. program.

University regulations stipulate that the applicant must have earned a
3.0 grade-point average on a 4.0 scale in her/his undergraduate studies,
but admission exceptions are made for a variety of circumstances.
(See Graduate School Policy 02.23.11.03 (http://www.temple.edu/grad/
policies/gradpolicies.htm).) The CEE Graduate Program Director helps
the applicant navigate the admission possibilities, including the "Non-
Matriculated Student Policy" option.
Statement of Goals: Describe your relevant technical experiences and career goals in one to two pages.

Standardized Test Scores:
GRE: Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12 (http://www.temple.edu/grad/policies/gradpolicies.htm.) Applicants who request a waiver of the GRE should consult the CEE Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

TOEFL: 79 iBT or 550 PBT minimum. (See Graduate School Policy 02.23.13.01 (http://www.temple.edu/grad/policies/gradpolicies.htm.)

Resume: Current resume required.

Transfer Credit: Graduate credits taken at an accredited institution prior to matriculation may be transferred into the M.S.Env.E. program. In order to transfer, the courses must be equivalent to courses offered at Temple in the student's area of study and research, and the grades must be "B" or better. The maximum number of credits a student may transfer is 6. (See Graduate School Policy 02.24.21 (http://www.temple.edu/grad/policies/gradpolicies.htm.)

Test Waivers: Applicants with two or more years of employment in an engineering profession performing engineering design and analysis may request a waiver of the GRE. Consult with the CEE Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Baccalaureate: 30

Students choose between three tracks:

1. Thesis Track, which is intended for full-time students who have a financial aid award and includes 24 s.h. of didactic coursework and 6 s.h. of thesis (CEE 9996).

2. Project Track, which is intended for full-time students who are self-supporting and includes 27 s.h. of didactic coursework and 3 s.h. of project (CEE 9995).

3. Coursework Track, which is intended for self-supporting part-time students and entails 30 s.h. of didactic coursework.

In the first term, the student and CEE Graduate Program Director jointly establish which track the student will follow; in doing this, they initiate the "M.S.Env.E. Plan of Study." The Plan of Study form lists all required courses and suggests an M.S.Env.E. program-requirement execution sequence for the student to follow. This form is used to track the student's progress, and is updated and annotated at least once a year as the student completes the various benchmarks in the M.S.Env.E. program.

If a student's circumstances change, s/he can change tracks by revising the Plan of Study form and obtaining the requisite approval signatures. However, when considering whether to change one's track, the student should note that:

- "Thesis" credits (CEE 9996) can only be applied toward the Thesis M.S.Env.E. degree program and cannot be applied to either the Project or Coursework Tracks.
- "Project" credits (CEE 9995) can only be applied toward the Project M.S.Env.E. degree program and cannot be used for either the Coursework or Thesis Tracks.

In all three options, the didactic coursework may include up to, but no more than, 3 s.h. of ENGR 9182 Independent Study I or 3 s.h. of CEE 9991 Directed Research. Furthermore, students who wish to take graduate coursework in Temple University schools/colleges other than the College of Engineering will need to obtain the appropriate written approvals on their Plan of Study form.

Culminating Events:

Thesis Option:
The master's thesis is the culminating event in the Thesis Track and is typically undertaken during the last two successive terms of study. Successful completion requires the following:

1. Thesis Proposal — CEE 9996 Thesis I (3 s.h.)
The student assembles a committee of three or more faculty members, including her/his advisor, who is typically a full-time CEE faculty member. The student's Plan of Study should be updated, if necessary, to indicate the advisor's name.

2. Thesis Defense — CEE 9996 Thesis II (3 s.h.)
The student should register for Thesis II in the term that s/he is prepared to defend the thesis. The thesis document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.26.12.02 (http://www.temple.edu/grad/policies/gradpolicies.htm).) The student should provide her/his committee with a copy of the completed thesis at least two weeks before the date of the thesis defense.

3. Thesis I before registering for Thesis II. If the student fails Thesis I, s/he may either re-register for Thesis I in the next regular term and repeat the entire proposal process (noting that a second failure will result in automatic dismissal from the University) or consider switching to the Project or Coursework Track, with the relevant updating of the Plan of Study form.

The thesis is scheduled during a regular academic term, including summer terms. It should not be scheduled during study days, final exams, or breaks between terms. The student should arrange for, and post an announcement of, the thesis defense at least 10 business days in advance of this seminar. Ordinarily, the proposal seminar is immediately followed by a meeting of the student's advisory committee in which the student is closely questioned about the details and strategy of the proposed research. The proposal is then accepted by the committee, accepted by the committee with revisions, or rejected by the committee.

The student's advisory committee also jointly determines the letter grade (A-F) for Thesis I at the end of the term. The student must pass Thesis I before registering for Thesis II. If the student fails Thesis I, s/he may either re-register for Thesis I in the next regular term and repeat the entire proposal process (noting that a second failure will result in automatic dismissal from the University) or consider switching to the Project or Coursework Track, with the relevant updating of the Plan of Study form.

Culminating Events:

Thesis Option:
The master's thesis is the culminating event in the Thesis Track and is typically undertaken during the last two successive terms of study. Successful completion requires the following:

1. Thesis Proposal — CEE 9996 Thesis I (3 s.h.)
The student assembles a committee of three or more faculty members, including her/his advisor, who is typically a full-time CEE faculty member. The student's Plan of Study should be updated, if necessary, to indicate the advisor's name.

2. Thesis Defense — CEE 9996 Thesis II (3 s.h.)
The student should register for Thesis II in the term that s/he is prepared to defend the thesis. The thesis document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.26.12.02 (http://www.temple.edu/grad/policies/gradpolicies.htm).) The student should provide her/his committee with a copy of the completed thesis at least two weeks before the date of the thesis defense.

3. Thesis I before registering for Thesis II. If the student fails Thesis I, s/he may either re-register for Thesis I in the next regular term and repeat the entire proposal process (noting that a second failure will result in automatic dismissal from the University) or consider switching to the Project or Coursework Track, with the relevant updating of the Plan of Study form.

The thesis is scheduled during a regular academic term, including summer terms. It should not be scheduled during study days, final exams, or breaks between terms. The student should arrange for, and post an announcement of, the thesis defense at least 10 business days in advance of the defense. Furthermore, if the student is to graduate in the same term that s/he defends the thesis, the defense should be scheduled no later than 30 days prior to the end of the term to allow for document revisions in keeping with Graduate School deadlines, as specified at http://www.temple.edu/grad/documents/Dissertation-and-Thesis-Handbook.pdf.

The thesis defense is an open College-wide seminar in which the student presents the concepts and results of her/his research. Normally, this presentation is immediately followed by a meeting of the thesis committee, which closely examines the student's research. The committee can accept the thesis as provided, accept the thesis with revisions, or not accept the thesis. If the thesis is accepted, the
committee jointly decides on a letter grade for Thesis II. If the thesis
is not accepted, but the committee decides to not fail the student:
a. an "R" grade is assigned to Thesis II;
b. the student registers in each subsequent term for one credit of
ENGR 9991 Directed Research until s/he is again prepared to
attempt the defense; and
c. the entire open-seminar defense procedure described above is
carried out in the term that the student is prepared to defend the
thesis.

Project Option:
The project is the culminating event in the Project Track. It is normally
carried out in the student's last term of study. The student selects an
advisor (usually a full-time faculty member in the CEE Department),
registers for CEE 9995 Project, and conducts a one-term research
activity under the supervision of the advisor. Near the end of the term,
the student prepares a report of her/his findings and presents the study
in an open departmental seminar. Both the seminar and the written report
are used to determine the student's grade for CEE 9995. The grade is
jointly determined by the advisor and a second grader selected by the
CEE Graduate Program Director, as recorded in the Plan of Study.

Coursework Option:
No culminating event is warranted for the Coursework Track.

Environmental Engineering, Ph.D.

COLLEGE OF ENGINEERING (http://engineering.temple.edu)

About the Program
The Ph.D. in Environmental Engineering is designed to produce graduates who have:
- built a solid core knowledge base in science, technology,
environmental engineering, and mathematics;
- gained the ability to adapt to interdisciplinary research projects and
employ emerging technology;
- learned how to plan, develop, and conduct a research project on their
own as future principal investigators; and
- mastered professional oral and written communication skills.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students are able to complete the didactic portion of the Ph.D. degree program through classes offered after 4:30 p.m.

Interdisciplinary Study: Research in Environmental Engineering is interdisciplinary and requires collaboration of members of the faculty and students within all departments of the College of Engineering, in the Mathematics Department and departments engaged in the study of the sciences, and at the School of Medicine at Temple University.

Areas of Specialization: Faculty in the Department of Civil and Environmental Engineering are actively engaged in research in the following areas of Environmental Engineering:
- Advanced Treatments for Drinking Water and Wastewater
- Emerging Contaminants in the Environment
- Environmental Biotechnology
- Fate and Transformation of Environmental Contaminants
- Surface and Subsurface Hydrology

Job Prospects: The program is primarily intended for individuals who wish to pursue careers in industry, government, and academia in a highly creative environment. The program is dedicated to producing engineers who will contribute to advancements in environmental engineering.

Non-Matriculated Student Policy: Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the Ph.D. degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the Environmental Engineering Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the Ph.D. program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (http://www.temple.edu/grad/policies/gradpolicies.htm) and 02.24.19 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

Financing Opportunities: Applicants for full-time study in the Environmental Engineering Ph.D. program are automatically considered
for financial aid. Three forms of financial aid are awarded to Ph.D. students on a competitive basis:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department’s undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.

2. Research Assistantship (RA): Individual faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA’s doctoral advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.

3. Fellowships: Fellowships are awarded by the University in a competitive process that is open to all Ph.D. applicants. The Environmental Engineering Graduate Program Director nominates exceptional Ph.D. applicants for a University Fellowship. Fellows receive 9 to 12 months of stipend, depending on the award; basic health insurance; and 12 credits of tuition remission each Fall and Spring term. Fellows of the University have no work obligations with respect to either the Department, the College, or the University.

Because financial aid is awarded on a competitive basis, applicants are urged to complete the application as early as possible.

**Admission Requirements and Deadlines**

**Application Deadline:**

*Fall:* March 1  
*Spring:* November 1; August 1 international

Applications are processed on a continual basis. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

Both admissions and financial aid award decisions originate in the Department of Civil and Environmental Engineering within the College of Engineering. Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).

**APPLY ONLINE** to this graduate program.

**Letters of Reference:**

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant’s competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant’s immediate supervisor. If the applicant has been out of school long enough that relevant academic reference letters appear impractical, s/he should contact the Environmental Engineering Graduate Program Director to obtain a waiver of this admission requirement.

**Coursework Required for Admission Consideration:** Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The Department of Civil and Environmental Engineering identifies the needed coursework on a case-by-case basis.

**Master’s Degree in Discipline/Related Discipline:** A master’s degree is not required, but preferred.

**Bachelor’s Degree in Discipline/Related Discipline:** A bachelor’s degree is required.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in her/his undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 [http://www.temple.edu/grad/policies/gradpolicies.htm].) The Environmental Engineering Graduate Program Director helps the applicant navigate the admission possibilities and assists in the assessment of her/his overall educational qualifications with respect to the departmental requirements for the Ph.D. program.

**Statement of Goals:** Describe your relevant technical experiences, career goals, and specific research interests in one to two pages, ensuring that you have clearly identified your area of interest within the field of civil and environmental engineering.

**Standardized Test Scores:**

GRE: Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12 [http://www.temple.edu/grad/policies/gradpolicies.htm].) Applicants who require a waiver of the GRE should consult the Environmental Engineering Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

TOEFL: 79 iBT or 550 PBT minimum. (See Graduate School Policy 02.23.13.01 [http://www.temple.edu/grad/policies/gradpolicies.htm].)

**Resume:** Current resume required.

**Advanced Standing:** Both transfer credit for courses taken at another institution while matriculated at Temple and/or advanced standing credit for courses taken within the 5-year period prior to matriculating at Temple may be applied toward the Ph.D.-level didactic coursework requirement. Written approval is required from the student’s doctoral advisor, the College’s Associate Dean for Graduate Study, and the Graduate School. (See Graduate School Policy 02.24.21 [http://www.temple.edu/grad/policies/gradpolicies.htm].) Up to six credits of advanced standing for courses taken within the 5-year period prior to matriculating at Temple may be used to satisfy the master’s-level didactic coursework requirement. Approval of the Environmental Engineering Graduate Program Director is required. The courses must be equivalent to courses offered at Temple in the student’s area of study and research, and the grades must be “B” or better.

**Program Requirements**

**General Program Requirements:**

**Minimum Number of Credits Required Beyond the Bachelor’s:** 60, including 45 credits of master’s-level and Ph.D.-level didactic coursework and 15 credits associated with Ph.D. examinations and dissertation research.

**Minimum Number of Credits Required Beyond the Master’s:** 30, including 15 credits of Ph.D.-level didactic coursework and 15 credits associated with Ph.D. examinations and dissertation research.

The 15 credits associated with Ph.D. examinations and dissertation research are expected to be distributed in the following manner, although
the actual distribution of credits can vary across courses depending on the student's particular circumstances:

<table>

In the first term, the student and the Environmental Engineering Graduate Program Director jointly determine the cohort that is appropriate for the student and initiate the "Ph.D. in Engineering Plan of Study." The Plan of Study form lists all required courses and suggests a Ph.D. program-requirement execution sequence for the student to follow. This form is used to track the student's progress, and is updated and annotated at least once a year as the student completes the various benchmarks in the Ph.D. program.

Note that, in general, students who want to take graduate coursework to satisfy either the Ph.D.-level or master's-level didactic coursework requirement in schools/colleges other than the College of Engineering need to obtain the appropriate written approvals on their Plan of Study form.

1 Didactic coursework may include up to, but no more than, 3 credits of ENGR 9182 Independent Study I OR 3 credits of CEE 9991 Directed Research AND 3 credits of ENGR 9282 Independent Study II. Typically, this coursework is selected by the student's Doctoral Advisory Committee and notated in the student's Plan of Study form.

2 Ph.D.-level didactic coursework may include up to, but no more than, 3 credits of ENGR 9282 Independent Study II. Typically, this coursework is selected by the student's Doctoral Advisory Committee and notated in the student's Plan of Study form.

Culminating Events:

Formation of the Doctoral Advisory Committee:
One of the student's first important tasks is to select a research advisor and form a Doctoral Advisory Committee. The Doctoral Advisory Committee selects the student's Ph.D.-level coursework and is responsible for guiding the progress of the student's dissertation research. The time frame for selecting a doctoral advisor depends on the student's level of preparation upon entering the Ph.D. program:

- Students admitted to the 30-credit cohort are sufficiently experienced to form their Doctoral Advisory Committee before the end of their second regular term of study.
- Students admitted to the 60-credit cohort ordinarily take one or two years of master’s-level coursework before forming their Doctoral Advisory Committee by the end of their fourth regular term in the program.

See Graduate School Policy 02.28.11 (http://www.temple.edu/grad/policies/gradpolicies.htm) for clarification on the composition of the Doctoral Advisory Committee.

Preliminary Examination:
Whether the student is a member of the 30-credit cohort or the 60-credit cohort, s/he must complete all didactic coursework in her/his program of study prior to taking the preliminary examination. (See Graduate School Policy 02.27.11 (http://www.temple.edu/grad/policies/gradpolicies.htm).) Students in the 30-credit cohort ordinarily take the exam before the end of their third or fourth regular term. Students in the 60-credit cohort typically take the exam before the end of the eighth regular term.

The preliminary exam tests both the student's core knowledge in Environmental Engineering and her/his capacity to synthesize and interpret research communications. The specific form, content, and frequency of the Environmental Engineering preliminary exam is supervised by the Environmental Engineering Graduate Program Director. Questions about the exam should be directed to that individual. The student should also coordinate the scheduling of the preliminary exam with the Environmental Engineering Graduate Program Director. Students have two opportunities to pass the preliminary exam and must register for one credit of CEE 9994 Preliminary Examination Preparation in each term that the exam is attempted. Students are dismissed upon the second failure.

Dissertation Proposal:
Within one of year of passing the preliminary exam, the student must develop a written research proposal and present it in an open College seminar. The student is responsible for scheduling the proposal and posting an announcement at least 10 business days in advance of this seminar. Ordinarily, the proposal seminar is immediately followed by a meeting of the Doctoral Advisory Committee in which the student is closely questioned about the details and strategy of her/his proposed research.

The proposed dissertation research is considered “approved” when the Graduate School receives the “Dissertation Proposal Transmittal for Elevation to Candidacy” form, found at http://www.temple.edu/grad/forms/, signed by all of the Doctoral Advisory Committee members. The student is considered to be a doctoral candidate after her/his dissertation proposal has been accepted by her/his Doctoral Advisory Committee and the signed transmittal form has been received by the Graduate School. (See Graduate School Policy 02.28.12 (http://www.temple.edu/grad/policies/gradpolicies.htm) for further procedural specifics.)

Research Credits:
Students carry out research throughout their studies and must register for research credits throughout the Ph.D. program. The type of research credits that a student registers for depends, however, on the student’s progress in the Ph.D. program, specifically:

- In the terms prior to passing the preliminary exam, credit hours associated with the student’s research should be registered under CEE 9991 Directed Research.
- After the preliminary exam is passed, but before elevation to candidacy, credit hours associated with the student’s research should be registered under CEE 9998 Pre-Dissertation Research.
- After elevation to candidacy, the student’s research credits should be registered under CEE 9999 Dissertation Research . Students are required to register for at least two credit hours of CEE 9999 Dissertation Research following their elevation to candidacy. (See Graduate School Policy 02.28.15 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

Publications:
All doctoral students must publish at least two technical papers in refereed journals or refereed conferences. The papers must be based on the student's dissertation research, and the student must be first author. Paper writing and/or presentation at a conference is considered an integral part of the student's training. Also, peer review, in part, offers an indication of quality and novelty of the student's research.
Dissertation:
In the term that the student intends to defend her/his dissertation, the Dissertation Examining Committee must be formed. This committee consists of the original Doctoral Advisory Committee plus one additional “external” member who is not faculty in the College of Engineering. If the external examiner is not a member of Temple University’s Graduate Faculty, s/he must be approved by the Graduate School at least four weeks prior to the dissertation defense.

The Chair of the Dissertation Examining Committee is elected by all members of the committee at least three weeks prior to the defense; this elected Chair cannot be the student’s doctoral advisor. The elected Chair of the Dissertation Examining Committee coordinates the proceedings of the defense and is responsible for the completion of all relevant College and Graduate School forms concerning the defense. The Chair of the Dissertation Examining Committee must be approved by the College’s Associate Dean and is identified for the Graduate School in the student’s official request to the Graduate School for permission to schedule the defense. (See Graduate School Policy 02.28.15 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

The dissertation document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.28.18 (http://www.temple.edu/grad/policies/gradpolicies.htm).) The student should provide her/his committee with a copy of the completed dissertation at least three weeks before the date of the dissertation defense.

The student must post a public announcement of her/his defense at least 10 business days prior to the defense. The announcement must be approved in writing by the Graduate School in advance of the posting. Note that any Graduate Faculty may request a copy of the dissertation in advance of the defense and may participate in the defense. (See Graduate School Policy 02.28.16 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

The dissertation defense may be scheduled on any day in a term when classes are regularly held; it may not be scheduled on study days, during final exams, or over term breaks. Furthermore, if the student is to graduate in the same term that s/he defends the dissertation, the defense should be scheduled no later than 30 days prior to the end of the term to allow for document revisions in keeping with Graduate School deadlines, as specified at http://www.temple.edu/grad/documents/Dissertation-and-Thesis-Handbook.pdf.

The dissertation defense is an open University seminar in which the student presents the concepts and results of her/his research. This presentation is typically followed immediately by a meeting in which the Dissertation Examining Committee closely examines the student and her/his research. External attendees may participate in this closed portion of the defense with the permission of the Dissertation Examining Committee Chair. However, only members of the Dissertation Examining Committee may actually vote on the decision to accept the dissertation as prepared, accept the dissertation with revisions, or not accept the dissertation.

About the Program

The M.S.M.E. program provides students who already have an undergraduate Engineering degree with the credentials and background to pursue a career in industrial research and development. The program provides students from diverse basic science backgrounds with the fundamental technical engineering expertise necessary to work in an interdisciplinary field such as Bioengineering or Material Science. The program provides engineers who are currently employed with a means to further their technical capabilities through part-time study.

Time Limit for Degree Completion: 5 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The program encourages interdisciplinary research with other branches of engineering as well as with various departments of the College of Science and Technology and the School of Medicine. Faculty are also collaborating with investigators in the Department of Civil and Environmental Engineering on water turbulence studies; in the Department of Electrical and Computer Engineering on heat dissipation in microelectronic components; and in the Department of Physics on nanotechnology research.

Areas of Specialization: Research is offered in:

• Biomaterials
• Composite materials and design
• Finite element analysis and computational fluid dynamics
• Fluidics and energetics
• Target drug delivery and tissue engineering

Job Prospects: Graduates with the M.S.M.E. in Mechanical Engineering are employed in high-tech industries and government laboratories in design, analysis, and applications. Typical employers include manufacturing companies; pharmaceutical and biotechnology companies; companies involved in research and development in fluid flow and heat transfer; computer-aided designers and manufacturers; computer technology firms; and government offices such as the U.S. Patent and Trademark Office. Students who complete an M.S.M.E. with a thesis are prepared to enter a doctoral program.

Non-Matriculated Student Policy: Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the M.S.M.E. degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the Mechanical Engineering (ME) Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the M.S.M.E. program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (http://www.temple.edu/grad/policies/gradpolicies.htm) and 02.24.19 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

Financing Opportunities: Three forms of financial aid are offered to graduate students:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.

2. Research Assistantship (RA): Individual ME faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's Thesis advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.

3. Fellowships: These highly competitive University-wide grants are typically awarded only to Ph.D.-program applicants. See the Engineering, Ph.D. (p. 503) program description for details.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1; August 1 international

Applications are processed on a continual basis. Late applications may be considered for admission. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).

Both admissions and financial aid award decisions originate in the Department of Mechanical Engineering (ME). Applicants are encouraged to contact the ME Graduate Program Director for advice and consultation in the application process.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant's competency. If the applicant has established career in engineering, one of the letters should be provided by the applicant's immediate supervisor. If the applicant has been out of school long enough that relevant academic reference letters appear impractical, s/he should contact the ME Graduate Program Director to obtain a waiver of this admission requirement.

Coursework Required for Admission Consideration: Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The ME Department identifies the needed coursework on a case-by-case basis.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree in Mechanical Engineering is the preferred prerequisite degree. However, students who have earned a bachelor's degree in a related field are encouraged to apply, with the understanding that remedial preparatory courses may be a pre-condition of admission to the M.S.M.E. program.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in her/his undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (http://www.temple.edu/grad/policies/gradpolicies.htm).) The ME Graduate Program Director helps the applicant navigate the admission possibilities, including the "Non-Matriculated Student Policy" option.

Statement of Goals: Describe your relevant technical experiences and career goals in one to two pages.

Standardized Test Scores:

GRE: Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12 (http://www.temple.edu/grad/policies/gradpolicies.html).) Applicants who require a waiver of the GRE should consult the ME Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

TOEFL: 79 iBT or 550 PBT minimum. (See Graduate School Policy 02.23.13.01 (http://www.temple.edu/grad/policies/gradpolicies.html).)

Resume: Current resume required.

Transfer Credit: Graduate credits taken at an accredited institution prior to matriculation may be transferred into the M.S.M.E. program. In order to transfer, the courses must be equivalent to courses offered at Temple in the student's area of study and research, and the grades must be "B" or better. The maximum number of credits a student may transfer is 6. (See Graduate School Policy 02.24.21 (http://www.temple.edu/grad/policies/gradpolicies.html).)

Test Waivers: Applicants with two or more years of employment in an engineering profession performing engineering design and analysis may request a waiver of the GRE. Consult with the ME Graduate Program Director about the possibility of waiving the GRE.
Director concerning the mechanics and consequences of obtaining an exception.

Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Baccalaureate: 30

Students choose between three tracks:

1. Thesis Track, which is intended for full-time students who have a financial aid award and includes 24 s.h. of didactic coursework and 6 s.h. of thesis (MEE 9996).
2. Project Track, which is intended for full-time students who are self-supporting and includes 27 s.h. of didactic coursework and 3 s.h. of project (MEE 9995).
3. Coursework Track, which is intended for self-supporting part-time students and entails 30 s.h. of didactic coursework.

In the first term, the student and ME Graduate Program Director jointly establish which track the student will follow; in doing this, they initiate the "M.S.M.E. Plan of Study." The Plan of Study form lists all required courses and suggests an M.S.M.E. program-requirement execution sequence for the student to follow. This form is used to track the student's progress, and is updated and annotated at least once a year as the student completes the various benchmarks in the M.S.M.E. program.

If a student's circumstances change, s/he can change tracks by revising the Plan of Study form and obtaining the requisite approval signatures. However, when considering whether to change one's track, the student should note that:

- "Thesis" credits (MEE 9996) can only be applied toward the Thesis M.S.M.E. degree program and cannot be applied to either the Project or Coursework Tracks.
- "Project" credits (MEE 9995) can only be applied toward the Project M.S.M.E. degree program and cannot be used for either the Coursework or Thesis Tracks.

In all three options, the didactic coursework may include up to, but no more than, 3 s.h. of ENGR 9182 Independent Study I or 3 s.h. of MEE 9991 Directed Research. Furthermore, students who wish to take graduate coursework in Temple University schools/colleges other than the College of Engineering will need to obtain the appropriate written approvals on their Plan of Study form.

Culminating Events: Depends on the student's choice of track: Thesis, Project, or Coursework.

Thesis Option:
The master's thesis is the culminating event in the Thesis Track and is typically undertaken during the last two successive terms of study. Successful completion requires the following:

1. Thesis Proposal — MEE 9996 Thesis I (3 s.h.)
   The student assembles a committee of three or more faculty members, including her/his advisor, who is typically a full-time ME faculty member. The student's Plan of Study should be updated, if necessary, to indicate the advisor's name.
   Under the guidance of the advisor and committee, the student prepares a research proposal and presents her/his proposal in an open College-wide seminar. The student is responsible for scheduling the proposal and posting an announcement at least 10 business days in advance of this seminar. Ordinarily, the proposal seminar is immediately followed by a meeting of the student's advisory committee in which the student is closely questioned about the details and strategy of the proposed research. The proposal is then accepted by the committee, accepted by the committee with revisions, or rejected by the committee.
   The student's advisory committee also jointly determines the letter grade (A-F) for Thesis I at the end of the term. The student must pass Thesis I before registering for Thesis II. If the student fails Thesis I, s/he may either re-register for Thesis I in the next regular term and repeat the entire proposal process (noting that a second failure will result in automatic dismissal from the University) or consider switching to the Project or Coursework Track, with the relevant updating of the Plan of Study form.

2. Thesis Defense — MEE 9996 Thesis II (3 s.h.)
   The student should register for Thesis II in the term that s/he is prepared to defend the thesis. The thesis document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.26.12.02 (http://www.temple.edu/grad/policies/gradpolicies.htm).) The student should provide her/his committee with a copy of the completed thesis at least two weeks before the date of the thesis defense.
   The thesis is scheduled during a regular academic term, including summer terms. It should not be scheduled during study days, final exams, or the breaks between terms. The student should arrange for, and post an announcement of, the thesis defense at least 10 business days in advance of the defense. Furthermore, if the student is to graduate in the same term that s/he defends the thesis, the defense should be scheduled no later than 30 days prior to the end of the term to allow for document revisions in keeping with Graduate School deadlines, as specified at http://www.temple.edu/grad/documents/Dissertation-and-Thesis-Handbook.pdf. The thesis defense is an open College seminar in which the student presents the concepts and results of her/his research. Normally, this presentation is immediately followed by a meeting of the thesis committee, which closely examines the student's research. The committee can accept the thesis as provided, accept the thesis with revisions, or not accept the thesis. If the thesis is accepted, the committee jointly decides on a letter grade for Thesis II. If the thesis is not accepted, but the committee decides to not fail the student:
   a. an "R" grade is assigned to Thesis II;
   b. the student registers in each subsequent term for one credit of ENGR 9991 Directed Research until s/he is again prepared to attempt the defense; and
   c. the entire open-seminar defense procedure described above is carried out in the term that the student is prepared to defend the thesis.

Project Option:
The project is the culminating event in the Project Track. It is normally carried out in the student's last term of study. The student selects an advisor (usually a full-time faculty member in the ME Department), registers for MEE 9995 Project, and conducts a one-term research activity under the supervision of the advisor. Near the end of the term, the student prepares a report of her/his findings and presents the study in an open departmental seminar. Both the seminar and the written report are used to determine the student's grade for MEE 9995. The grade is jointly determined by the advisor and a second grader selected by the ME Graduate Program Director, as recorded in the Plan of Study.

Coursework Option:
No culminating event is warranted for the Coursework Track.

Mechanical Engineering, Ph.D.
COLLEGE OF ENGINEERING (http://engineering.temple.edu)

About the Program

The Ph.D. in Mechanical Engineering is designed to develop mechanical engineers who have a solid foundation in mechanical engineering research methods, design, and analytics. Doctoral students are prepared to identify a research area in mechanical engineering and analyze the literature, develop theory, perform experimentation, and develop their own methodologically rigorous research studies. Students complete their studies with a mastery of the fundamental critical thinking and analytic skills and competencies necessary for mechanical engineering. Graduates are well prepared to be engineers and researchers in a range of academic units, non-profit organizations, government agencies, and the private sector.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students are able to complete the didactic portion of the Ph.D. degree program through classes offered after 4:30 p.m.

Interdisciplinary Study: Engineering research is highly interdisciplinary and draws on collaboration with members of the faculty and students within the department, as well as with departments in other schools and colleges at Temple University, including the School of Medicine and the College of Science and Technology.

Areas of Specialization: Faculty in the Department of Mechanical Engineering are actively engaged in research in the following areas:

- Biofluidics
- Biomechanics
- Combustion
- Composite Materials
- Finite Element Analysis
- Fluid Dynamics
- Fluid Mechanics
- Heat and Mass Transfer
- Material Science
- Mechanics of Materials
- Vibration and Controls

Job Prospects: The program is primarily intended for individuals who wish to pursue careers in industry, government, and academia in a highly creative environment. The program is dedicated to producing engineers who will contribute to advancements in mechanical engineering.

Non-Matriculated Student Policy: Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the Ph.D. degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the Mechanical Engineering Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the Ph.D. program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (http://www.temple.edu/grad/policies/gradpolicies.htm) and 02.24.19 (http://www.temple.edu/grad/policies/gradpolicies.html).)

Financing Opportunities: Applicants for full-time study in the Mechanical Engineering Ph.D. program are automatically considered for financial aid. Three forms of financial aid are awarded to Ph.D. students on a competitive basis:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.

2. Research Assistantship (RA): Individual faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's doctoral advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.

3. Fellowships: Fellowships are awarded by the University in a competitive process that is open to all Ph.D. applicants. The Mechanical Engineering Graduate Program Director nominates exceptional Ph.D. applicants for a University Fellowship. Fellows receive 9 to 12 months of stipend, depending on the award; basic
Admission Requirements and Deadlines

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant's competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant's immediate supervisor. If the applicant has been out of school long enough that relevant academic reference letters appear impractical, s/he should contact the Mechanical Engineering Graduate Program Director to obtain a waiver of this admission requirement.

Coursework Required for Admission Consideration: Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The Department of Mechanical Engineering identifies the needed coursework on a case-by-case basis.

Master's Degree in Discipline/Related Discipline: A master's degree is not required, but preferred.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree is required.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in her/his undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (http://www.temple.edu/grad/policies/gradpolicies.htm).) The Mechanical Engineering Graduate Program Director helps the applicant navigate the admission possibilities and assists in the assessment of her/his overall educational qualifications with respect to the departmental requirements for the Ph.D. program.

Statement of Goals: Describe your relevant technical experiences, career goals, and specific research interests in one to two pages.

Standardized Test Scores:

GRE: Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12 (http://www.temple.edu/grad/policies/gradpolicies.htm).) Applicants who require a waiver of the GRE should consult the Mechanical Engineering Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

TOEFL: 79 iBT or 550 PBT minimum. (See Graduate School Policy 02.23.13.01 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

Resume: Current resume required.

Advanced Standing: Both transfer credit for courses taken at another institution while matriculated at Temple and/or advanced standing credit for courses taken within the 5-year period prior to matriculating at Temple may be applied toward the Ph.D.-level didactic coursework requirement. Written approval is required from the student's doctoral advisor, the College's Associate Dean for Graduate Study, and the Graduate School. (See Graduate School Policy 02.24.21 (http://www.temple.edu/grad/policies/gradpolicies.htm).) Up to six credits of advanced standing for courses taken within the 5-year period prior to matriculating at Temple may be used to satisfy the master's-level didactic coursework requirement. Approval of the Mechanical Engineering Graduate Program Director is required. The courses must be equivalent to courses offered at Temple in the student's area of study and research, and the grades must be "B" or better.

Program Requirements

General Program Requirements:

Minimum Number of Credits Required Beyond the Bachelor's:

60, including 45 credits of master's-level and Ph.D.-level didactic coursework1 and 15 credits associated with Ph.D. examinations and dissertation research

Minimum Number of Credits Required Beyond the Master's: 30, including 15 credits of Ph.D.-level didactic coursework2 and 15 credits associated with Ph.D. examinations and dissertation research

The 15 credits associated with Ph.D. examinations and dissertation research are expected to be distributed in the following manner, although the actual distribution of credits can vary across courses depending on the student's particular circumstances:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>

</table>

In the first term, the student and the Mechanical Engineering Graduate Program Director jointly determine the cohort that is appropriate for the student and initiate the "Ph.D. in Engineering Plan of Study." The Plan of Study form lists all required courses and suggests a Ph.D. program-requirement execution sequence for the student to follow. This form is used to track the student's progress, and is updated and annotated at least once a year as the student completes the various benchmarks in the Ph.D. program.

Note that, in general, students who want to take graduate coursework to satisfy either the Ph.D.-level or master's-level didactic coursework requirement in schools/colleges other than the College of Engineering need to obtain the appropriate written approvals on their Plan of Study form.
Didactic coursework may include up to, but no more than, 3 credits of ENGR 9182 Independent Study I OR 3 credits of MEE 9991 Directed Research AND 3 credits of ENGR 9282 Independent Study II. Typically, this coursework is selected by the student's Doctoral Advisory Committee and notated in the student's Plan of Study form.

Ph.D.-level didactic coursework may include up to, but no more than, 3 credits of ENGR 9282 Independent Study II. Typically, this coursework is selected by the student’s Doctoral Advisory Committee and notated in the student’s Plan of Study form.

Culminating Events:

Formation of the Doctoral Advisory Committee:
One of the student’s first important tasks is to select a research advisor and form a Doctoral Advisory Committee. The Doctoral Advisory Committee selects the student’s Ph.D.-level coursework and is responsible for guiding the progress of the student’s dissertation research. The time frame for selecting a doctoral advisor depends on the student’s level of preparation upon entering the Ph.D. program:

- Students admitted to the 30-credit cohort are sufficiently experienced to form their Doctoral Advisory Committee before the end of their second regular term of study.
- Students admitted to the 60-credit cohort ordinarily take one or two years of master’s-level coursework before forming their Doctoral Advisory Committee by the end of their fourth regular term in the program.

See Graduate School Policy 02.28.11 (http://www.temple.edu/grad/policies/gradpolicies.htm) for clarification on the composition of the Doctoral Advisory Committee.

Preliminary Examination:
Whether the student is a member of the 30-credit cohort or the 60-credit cohort, s/he must complete all didactic coursework in her/his program of study prior to taking the preliminary examination. (See Graduate School Policy 02.27.11 (http://www.temple.edu/grad/policies/gradpolicies.htm).) Students in the 30-credit cohort ordinarily take the exam before the end of their third or fourth regular term. Students in the 60-credit cohort typically take the exam before the end of the eighth regular term.

The preliminary exam tests both the student’s core knowledge in Mechanical Engineering and her/his capacity to synthesize and interpret research communications. The specific form, content, and frequency of the Mechanical Engineering preliminary exam is supervised by the Mechanical Engineering Graduate Program Director. Questions about the exam should be directed to that individual. The student should also coordinate the scheduling of the preliminary exam with the Mechanical Engineering Graduate Program Director. Students have two opportunities to pass the preliminary exam and must register for one credit of MEE 9994 Preliminary Examination Preparation in each term that the exam is attempted. Students are dismissed upon the second failure.

Dissertation Proposal:
Within one year of passing the preliminary exam, the student must develop a written research proposal and present it in an open College seminar. The student is responsible for scheduling the proposal and posting an announcement at least 10 business days in advance of this seminar. Ordinarily, the proposal seminar is immediately followed by a meeting of the Doctoral Advisory Committee in which the student is closely questioned about the details and strategy of her/his proposed research.

The proposed dissertation research is considered "approved" when the Graduate School receives the "Dissertation Proposal Transmittal for Elevation to Candidacy" form, found at http://www.temple.edu/grad/forms/, signed by all of the Doctoral Advisory Committee members. The student is considered to be a doctoral candidate after her/his dissertation proposal has been accepted by her/his Doctoral Advisory Committee and the signed transmittal form has been received by the Graduate School. (See Graduate School Policy 02.28.12 (http://www.temple.edu/grad/policies/gradpolicies.htm) for further procedural specifics.)

Research Credits:
Students carry out research throughout their studies and must register for research credits through the Ph.D. program. The type of research credits that a student registers for depends, however, on the student’s progress in the Ph.D. program, specifically:

- In the terms prior to passing the preliminary exam, credit hours associated with the student’s research should be registered under MEE 9991 Directed Research.
- After the preliminary exam is passed, but before elevation to candidacy, credit hours associated with the student’s research should be registered under MEE 9998 Pre-Dissertation Research.
- After elevation to candidacy, the student’s research credits should be registered under MEE 9999 Dissertation Research. Students are required to register for at least two credit hours of MEE 9999 Dissertation Research following their elevation to candidacy. (See Graduate School Policy 02.28.15 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

Publications:
All doctoral students must publish at least two technical papers in refereed journals or refereed conferences. The papers must be based on the student’s dissertation research, and the student must be first author. Paper writing and/or presentation at a conference is considered an integral part of the student’s training. Also, peer review, in part, offers an indication of quality and novelty of the student’s research.

Dissertation:
In the term that the student intends to defend her/his dissertation, the Dissertation Examining Committee must be formed. This committee consists of the original Doctoral Advisory Committee plus one additional “external” member who is not faculty in the College of Engineering. If the external examiner is not a member of Temple University’s Graduate Faculty, s/he must be approved by the Graduate School at least four weeks prior to the dissertation defense.

The Chair of the Dissertation Examining Committee is elected by all members of the committee at least three weeks prior to the defense; this elected Chair cannot be the student’s doctoral advisor. The elected Chair of the Dissertation Examining Committee coordinates the proceedings of the defense and is responsible for the completion of all relevant College and Graduate School forms concerning the defense. The Chair of the Dissertation Examining Committee must be approved by the College’s Associate Dean and is identified for the Graduate School in the student’s official request to the Graduate School for permission to schedule the defense. (See Graduate School Policy 02.28.15 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

The dissertation document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.28.18 (http://www.temple.edu/grad/policies/gradpolicies.htm).) The student should
provide her/his committee with a copy of the completed dissertation at least three weeks before the date of the dissertation defense.

The student must post a public announcement of her/his defense at least 10 business days prior to the defense. The announcement must be approved in writing by the Graduate School in advance of the posting. Note that any Graduate Faculty may request a copy of the dissertation in advance of the defense and may participate in the defense. (See Graduate School Policy 02.28.16 (http://www.temple.edu/grad/policies/gradpolicies.htm).)

The dissertation defense may be scheduled on any day in a term when classes are regularly held; it may not be scheduled on study days, during final exams, or over term breaks. Furthermore, if the student is to graduate in the same term that s/he defends the dissertation, the defense should be scheduled no later than 30 days prior to the end of the term to allow for document revisions in keeping with Graduate School deadlines, as specified at http://www.temple.edu/grad/documents/Dissertation-and-Thesis-Handbook.pdf.

The dissertation defense is an open University seminar in which the student presents the concepts and results of her/his research. This presentation is typically followed immediately by a meeting in which the Dissertation Examining Committee closely examines the student and her/his research. External attendees may participate in this closed portion of the defense with the permission of the Dissertation Examining Committee Chair. However, only members of the Dissertation Examining Committee may actually vote on the decision to accept the dissertation as prepared, accept the dissertation with revisions, or not accept the dissertation.

Beasley School of Law

Beasley School of Law is committed to excellence in teaching, scholarship, and service. The faculty are dedicated to preparing students to work in the legal profession with the highest level of skill possible, with a firm commitment to principles of professional responsibility, and with a sense of personal obligation to lead and serve the communities in which they live and practice. We are dedicated to our traditional ideal of making opportunities for legal education accessible to talented students who might otherwise not have the opportunity and those who might encounter barriers due to race, creed, gender, disability, sexual orientation, gender identity, age, socioeconomic background, or other personal characteristics.

The Law School opened in 1895 as Temple College’s Department of Law under Dean Henry S. Borneman to prepare students for the bar examination. Initially, 46 students enrolled in evening classes. In 1901, the Law School graduated its first class of 16. In 1907, it received accreditation from the Pennsylvania State Board of Bar Examiners.

In 1933, the Law School created a three-year day division – and also received full accreditation and an “A” rating from the Council on Legal Education of the American Bar Association. The Law School was admitted to full membership in the Association of American Law Schools in 1935. By 1943, however, the school was on the brink of closure, having experienced a deep decline in enrollment and attendant severe financial difficulties. Judge Charles Klein worked closely with a group of dedicated alumni and professors to save the school from collapse.

Under the leadership of Dean Peter J. Liacouras in the 1970s and 1980s, the Law School greatly expanded its programs. It prospered under Dean Robert Reinstein, who served from 1989 to 2008. In 1999, to express gratitude for one of the largest gifts ever given to an American law school, the Law School took on the name of its alumnus and benefactor, James E. Beasley. The availability of Beasley scholarships, together with Law Faculty, Conwell, and Public Interest Scholarships, continues to draw a bright, diverse student body.

In 2009 under Dean JoAnne Epps, the Law School was selected by the Robert Wood Johnson Foundation to house its new $19 million Public Health Law Research Program, devoted to funding research focused on the influence of law on population health. That year, the Law School also established the Conwell Community Corps, offering recent graduates full-time, paid four- to six-month positions with Philadelphia area public interest agencies. Dean Epps’ leadership during the economic downturn in the years following 2009 drew national attention to Temple Law and to the Dean as an influential voice within legal education.

In 2013, the Sheller Center for Social Justice at Temple Law School was founded to partner with local community advocacy organizations to address civil access to justice issues confronting underserved populations. The Law School seeks to maintain and strengthen a longstanding tradition of accessibility and diversity in order to pursue the goals of excellence in higher education and equal justice under the law.

Graduate Faculty

David A. Hoffman, Professor, Department of Dean's Office, Beasley School of Law; J.D., Stanford Law School.

Laura E. Little, Professor, Department of Dean's Office, Beasley School of Law; J.D., Temple University School of Law.

Gregory N. Mandel, Professor, Department of Dean's Office, Beasley School of Law; J.D., Stanford Law School.

Taxation, M.S.

BEASLEY SCHOOL OF LAW (http://www.law.temple.edu)

About the Program

The Beasley School of Law offers an M.S. program for accountants through which students acquire in-depth knowledge of taxation law. This program is ideally suited for accountants wishing to gain a mastery of taxation law, without becoming lawyers. Students in the program take both law and business classes and seminars with our Master of Laws in Taxation students. Courses are taught primarily by law faculty, with the exception of advanced accounting classes taught by faculty from the Fox School of Business and Management. Students develop both practical and theoretical expertise through case analyses and rigorous class participation with lawyers and Juris Doctor students. The Beasley School of Law has a solid history of preparing students to hit the ground running in a variety of law and law-related fields.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: Business classes in Valuation and Accounting may be required.

Affiliation(s): The Beasley School is a member of the American Association of Law Schools.

Accreditation: The Beasley School of Law is fully accredited by the American Bar Association.

Areas of Specialization: Areas of specialization include:
- Business
- Estate Planning
- Employee Benefits
Job Prospects: Graduates are prepared for employment in accounting firms or to advance in their careers at their current firm.

Non-Matriculated Student Policy: Students must be matriculated in the program to take courses.

Financing Opportunities: Matriculated students are eligible for federal financial aid.

Admission Requirements and Deadlines

Application Deadline:
- Fall: August 1
- Spring: December 15
- Summer: May 1

Applications are processed as they are received throughout the year. Late applications may be considered for admission.

APPLY ONLINE to this graduate program.

Letters of Reference:
- Number Required: 0
- From Whom: If you elect to submit letters of recommendation, obtain references from an immediate supervisor, current or past, and/or from academic evaluators.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree in Accounting or in a related field is required.

Statement of Goals: Describe your future goals in specific terms and how the M.S. will assist you in achieving those goals.

Standardized Test Scores:
For applicants whose native language is not English, the TOEFL or IELTS is required:
- TOEFL: 88 minimum
- IELTS: 6.5 minimum

Resume: Current resume required.

Transfer Credit: Advanced standing is not granted.

Program Requirements

College of Liberal Arts

Home to more than two dozen departments and programs, the College of Liberal Arts (CLA) offers students a small liberal arts college experience within a premier research university setting. The College and its departments are at the forefront of research within their various fields.

CLA is home to more than 5,500 students, both graduate and undergraduate, who learn in seminar-style classes, conduct research with award-winning faculty, and gain real-world experience in the field. Our graduates build the essential skills valued in the workplace: critical reading, careful thinking, and effective communicating. Through our graduate degree programs, students in the College of Liberal Arts are equipped to become vanguards of integrated and innovative thinking.

Graduate students and faculty regularly win awards and accolades for their scholarship. To name but a few, recent honors include:

- American Psychological Association (APA) Distinguished Scientific Lecturer Award
- APA Student Research Award in Clinical Psychology
- APA Toy Caldwell-Colbert Award for Distinguished Educator in Clinical Psychology
- Anxiety and Depression Association of America Clinician Trainee Award
- Fulbright Scholarship
- Goldsmith Book Prize from the Shorenstein Center on Media, Politics and Public Policy at Harvard University’s Kennedy School of Government
- Lindau (Germany) Nobel Laureate Meetings invitation
- National Endowment for the Humanities Summer Institute invitation
- National Humanities Center Fellowship
- National Science Foundation Graduate Research Fellowship
- Pew Fellowship
- Society for Research in Adolescence Emerging Scholar Travel Award
- Sundance Film Festival selection

- Neuroscience

Graduate Faculty

Zain Abdullah, Associate Professor, Department of Religion, College of Liberal Arts; Ph.D., The New School for Social Research.

Carolyn T. Adams, Professor Emerita, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., Washington University.

Hiram Aldarondo, Associate Professor, Department of Spanish and Portuguese, College of Liberal Arts; Ph.D., University of Chicago.

Lauren B. Alloy, Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of Pennsylvania.

Rebecca T. Alpert, Professor, Department of Religion, College of Liberal Arts; Ph.D., Temple University.

Nilgün Anadolu-Okur, Associate Professor, Department of Africology and African American Studies, College of Liberal Arts; Ph.D., Hacettepe University.

Kevin T. Arceneaux, Associate Professor, Department of Political Science, College of Liberal Arts; Ph.D., Rice University.

Molefi Kete Asante, Professor, Department of Africology and African American Studies, College of Liberal Arts; Ph.D., University of California Los Angeles.

Kathleen Auerhahn, Associate Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., University of California Riverside.

James D. Bachmeier, Assistant Professor, Department of Sociology, College of Liberal Arts; Ph.D., University of California Irvine.

Debra Bangasser, Assistant Professor, Department of Psychology, College of Liberal Arts; Ph.D., Rutgers University.
Steven R. Belenko, Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., Columbia University.

Daniel W. Berman, Professor, Department of Greek and Roman Classics, College of Liberal Arts; Ph.D., Yale University.

Lila Conwin Berman, Professor, Department of History, College of Liberal Arts; Ph.D., Yale University.

Kathleen A. Biddick, Professor Emerita, Department of History, College of Liberal Arts; Ph.D., Yale University.

Marcus Bingenheimer, Assistant Professor, Department of Religion, College of Liberal Arts; Ph.D., University of Toronto.

Erwin A. Blackstone, Professor, Department of Economics, College of Liberal Arts; Ph.D., University of Michigan.

Khalid A. Y. Blankinship, Associate Professor, Department of Religion, College of Liberal Arts; Ph.D., University of Washington.

Michael L. Bognanno, Associate Professor, Department of Economics, College of Liberal Arts; Ph.D., Cornell University.

Aryeh I. Botwinick, Professor, Department of Political Science, College of Liberal Arts; Ph.D., Princeton University.

Lucy Bregman, Professor, Department of Religion, College of Liberal Arts; Ph.D., University of Chicago Divinity School.

Lisa A. Briand, Assistant Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of Michigan.

Sheldon R. Brivic, Professor Emeritus, Department of English, College of Liberal Arts; Ph.D., University of California Berkeley.

Seth C. Bruggeman, Associate Professor, Department of History, College of Liberal Arts; Ph.D., College of William and Mary.

Sarah Sunn Bush, Assistant Professor, Department of Political Science, College of Liberal Arts; Ph.D., Princeton University.

Michelle D. Byng, Associate Professor, Department of Sociology, College of Liberal Arts; Ph.D., University of Virginia.

Brantly Callaway, Assistant Professor, Department of Economics, College of Liberal Arts; Ph.D., Vanderbilt University.

Sanjoy Chakravorty, Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., University of Southern California.

Colin Chamberlain, Assistant Professor, Department of Philosophy, College of Liberal Arts; Ph.D., Harvard University.

Jason M. Chein, Associate Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of Pittsburgh.

Eunice Y. Chen, Assistant Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of Sydney.

Bettye Collier-Thomas, Professor, Department of History, College of Liberal Arts; Ph.D., George Washington University.

Gretchen A. Condran, Associate Professor, Department of Sociology, College of Liberal Arts; Ph.D., University of Pennsylvania.

Nyron Crawford, Assistant Professor, Department of Political Science, College of Liberal Arts; Ph.D., The Ohio State University.

Roman A. Cybriwsky, Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., The Pennsylvania State University.

Heath Fogg Davis, Associate Professor, Department of Political Science, College of Liberal Arts; Ph.D., Princeton University.

Richard E. Deeg, Professor, Department of Political Science, College of Liberal Arts; Ph.D., Massachusetts Institute of Technology.

Kevin J. Delaney, Professor, Department of Sociology, College of Liberal Arts; Ph.D., State University of New York Stony Brook.

Dimitrios I. Diamantaras, Associate Professor, Department of Economics, College of Liberal Arts; Ph.D., University of Rochester.

Nguyen Thi Dieu, Associate Professor, Department of History, College of Liberal Arts; Ph.D., Aix-en-Provence.

Deborah A. G. Drabick, Associate Professor, Department of Psychology, College of Liberal Arts; Ph.D., State University of New York Stony Brook.

Douglas Duckworth, Assistant Professor, Department of Religion, College of Liberal Arts; Ph.D., University of Virginia.

David Elesch, Associate Professor Emeritus, Department of Sociology, College of Liberal Arts; Ph.D., Columbia University.

Lauren Elieman, Assistant Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of California Los Angeles.

Julia Ericksen, Professor Emerita, Department of Sociology, College of Liberal Arts; Ph.D., University of Pennsylvania.

Rosario R. Espinal, Professor, Department of Sociology, College of Liberal Arts; Ph.D., Washington University in St. Louis.

Jamie J. Fader, Assistant Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., University of Pennsylvania.

Mohsen Fardmanesh, Associate Professor, Department of Economics, College of Liberal Arts; Ph.D., Yale University.

Paul Farnsworth, Professor, Department of Anthropology, College of Liberal Arts; Ph.D., University of California Los Angeles.

Robert L. Fauber Jr., Associate Professor, Department of Psychology, College of Liberal Arts; Ph.D.

Barbara Ferman, Professor, Department of Political Science, College of Liberal Arts; Ph.D., Brandeis University.

K. Orfeo Fioretos, Associate Professor, Department of Political Science, College of Liberal Arts; Ph.D., Columbia University.

Talissa Ford, Assistant Professor, Department of English, College of Liberal Arts; Ph.D., University of California Berkeley.

Sergio R. Franco, Associate Professor, Department of Spanish and Portuguese, College of Liberal Arts; Ph.D., University of Pittsburgh.

Joseph Friedman, Professor, Department of Economics, College of Liberal Arts; Ph.D., University of California Berkeley.
Inmaculada M. García-Sánchez, Assistant Professor, Department of Anthropology, College of Liberal Arts; Ph.D., University of California Los Angeles.

Paul B. Garrett, Associate Professor, Department of Anthropology, College of Liberal Arts; Ph.D., New York University.

Suzanne Gauch, Associate Professor, Department of English, College of Liberal Arts; Ph.D., State University of New York at Buffalo.

Melissa R. Gilbert, Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., Clark University.

Tania Giovannetti, Associate Professor, Department of Psychology, College of Liberal Arts; Ph.D., Drexel University.

Kristin Gjesdal, Associate Professor, Department of Philosophy, College of Liberal Arts; Ph.D., University of Oslo.

Travis F. Glasson, Associate Professor, Department of History, College of Liberal Arts; Ph.D., Columbia University.

Petra Goedde, Associate Professor, Department of History, College of Liberal Arts; Ph.D., Northwestern University.

Eli C. Goldblatt, Professor, Department of English, College of Liberal Arts; Ph.D., University of Wisconsin-Madison.

Judith Goode, Professor Emerita, Department of Anthropology, College of Liberal Arts; Ph.D., Cornell University.

Alex Gottesman, Assistant Professor, Department of Greek and Roman Classics, College of Liberal Arts; Ph.D., University of Chicago.

Kimberly Ann Gayette, Professor, Department of Sociology, College of Liberal Arts; Ph.D., University of Michigan.

Peter Gran, Professor, Department of History, College of Liberal Arts; Ph.D., University of Chicago.

Sheri L. Grasmuck, Professor, Department of Sociology, College of Liberal Arts; Ph.D., University of Texas.

Leonard O. Greenfield, Professor, Department of Anthropology, College of Liberal Arts; Ph.D., University of Michigan.

Elizabeth Groff, Associate Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., University of Maryland.

Alexandra Guisinger, Assistant Professor, Department of Political Science, College of Liberal Arts; Ph.D., Yale University.

Elizabeth Gunderson, Assistant Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of Chicago.

Michael G. Hagen, Associate Professor, Department of Political Science, College of Liberal Arts; Ph.D., University of California Berkeley.

Simon Hakim, Professor, Department of Economics, College of Liberal Arts; Ph.D., University of Pennsylvania.

Espen Hammer, Professor, Department of Philosophy, College of Liberal Arts; Ph.D., The New School for Social Research.

Donald A. Hantula, Associate Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of Notre Dame.

Carissa M. Harris, Assistant Professor, Department of English, College of Liberal Arts; Ph.D., Northwestern University.

Philip W. Harris, Associate Professor Emeritus, Department of Criminal Justice, College of Liberal Arts.

Allison Hayes-Conroy, Assistant Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., Clark University.

Richard G. Heimberg, Professor, Department of Psychology, College of Liberal Arts; Ph.D., Florida State University.

Katherine Henry, Associate Professor, Department of English, College of Liberal Arts; Ph.D., Rutgers University.

Kevin A. Henry, Assistant Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., McGill University.

Karen Klaiber Hersch, Associate Professor, Department of Greek and Roman Classics, College of Liberal Arts; Ph.D., Rutgers University.

Matthew L. Hiller, Associate Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., Texas Christian University.

Kathryn A. Hirsh-Pasek, Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of Pennsylvania.

Jonathan C. Holmquist, Associate Professor, Department of Spanish and Portuguese, College of Liberal Arts; Ph.D., Princeton University.

Roselyn Hsueh, Assistant Professor, Department of Political Science, College of Liberal Arts; Ph.D., University of California Berkeley.

Richard H. Immerman, Professor, Department of History, College of Liberal Arts; Ph.D., Boston College.

Andrew C. Isenberg, Professor, Department of History, College of Liberal Arts; Ph.D., Northwestern University.

Wilbert L. Jenkins, Associate Professor, Department of History, College of Liberal Arts; Ph.D., Michigan State University.

Jayasinhji Jhala, Associate Professor, Department of Anthropology, College of Liberal Arts; Ph.D., Harvard University.

Peter R. Jones, Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., Aberystwyth University.

Priya Joshi, Associate Professor, Department of English, College of Liberal Arts; Ph.D., Columbia University.

Joyce A. Joyce, Professor, Department of English, College of Liberal Arts; Ph.D., University of Georgia.

Nyasha Junior, Assistant Professor, Department of Religion, College of Liberal Arts; Ph.D., Princeton Theological Seminary.

Andrew Karpinski, Associate Professor, Department of Psychology, College of Liberal Arts; Ph.D.

Robert L. Kaufman, Professor, Department of Sociology, College of Liberal Arts; Ph.D., University of Wisconsin.

Michael W. Kaufmann, Associate Professor, Department of English, College of Liberal Arts; Ph.D., Columbia University.
Philip C. Kendall, Professor, Department of Psychology, College of Liberal Arts; Ph.D., Virginia Commonwealth University.

Dustin Kidd, Associate Professor, Department of Sociology, College of Liberal Arts; Ph.D., University of Virginia.

Susan Klepp, Professor Emerita, Department of History, College of Liberal Arts; Ph.D., University of Pennsylvania.

Joshua Klugman, Professor, Department of Sociology, College of Liberal Arts; Ph.D., Indiana University.

Robin A. Koledny, Professor, Department of Political Science, College of Liberal Arts; Ph.D., Johns Hopkins University.

Rita Krueger, Associate Professor, Department of History, College of Liberal Arts; Ph.D., Harvard University.

Fyodor I. Kushnirsky, Professor, Department of Economics, College of Liberal Arts; Ph.D., Plekhanov Institute of the National Economy.

Kenneth L. Kusmer, Professor, Department of History, College of Liberal Arts; Ph.D., University of Chicago.

George M. Lady, Professor, Department of Economics, College of Liberal Arts; Ph.D., Johns Hopkins University.

Peter Lavelle, Assistant Professor, Department of History, College of Liberal Arts; Ph.D., Cornell University.

Mindie Lazarus-Black, Professor, Department of Anthropology, College of Liberal Arts; Ph.D., University of Chicago.

Don Lee, Professor, Department of English, College of Liberal Arts; M.F.A., Emerson College.

Sue-Im Lee, Associate Professor, Department of English, College of Liberal Arts; Ph.D., University of Illinois at Chicago.

Michael A. Leeds, Professor, Department of Economics, College of Liberal Arts; Ph.D., Princeton University.

Mark A. Leuchter, Associate Professor, Department of Religion, College of Liberal Arts; Ph.D., University of Toronto.

Judith A. Levine, Associate Professor, Department of Sociology, College of Liberal Arts; Ph.D., Northwestern University.

Laura S. Levitt, Professor, Department of Religion, College of Liberal Arts; Ph.D., Emory University.

Vasiliki M. Limberis, Professor, Department of Religion, College of Liberal Arts; Th.D., Harvard University.

Jay B. Lockenour, Associate Professor, Department of History, College of Liberal Arts; Ph.D., University of Pennsylvania.

Peter Logan, Professor, Department of English, College of Liberal Arts; Ph.D., University of California Berkeley.

Gerardo Augusto Lorenzino, Associate Professor, Department of Spanish and Portuguese, College of Liberal Arts; Ph.D., Graduate Center, City University of New York.

Hilary Iris Lowe, Assistant Professor, Department of History, College of Liberal Arts; Ph.D., University of Kansas.

Meghan Foster Lynch, Assistant Professor, Department of Political Science, College of Liberal Arts; Ph.D., Yale University.

Johanna Catherine Maclean, Associate Professor, Department of Economics, College of Liberal Arts; Ph.D., Cornell University.

Joseph Margolis, Professor, Department of Philosophy, College of Liberal Arts; Ph.D., Columbia University.

Peter J. Marshall, Associate Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of Cambridge.

Robert J. Mason, Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., Rutgers University.

Michele Masucci, Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., University of Southern Mississippi.

Joan Mellen, Professor, Department of English, College of Liberal Arts; Ph.D., City University of New York.

Patricia Melzer, Assistant Professor, Department of French, German, Italian and Slavic, College of Liberal Arts; Ph.D., Clark University.

Jeremy Mennis, Associate Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., The Pennsylvania State University.

Nichole E. Miller, Associate Professor, Department of English, College of Liberal Arts; Ph.D., University of California Irvine.

Robin N. Mitchell-Boyask, Professor, Department of Greek and Roman Classics, College of Liberal Arts; Ph.D., Brown University.

Hortensia R. Morell, Professor, Department of Spanish and Portuguese, College of Liberal Arts; Ph.D., University of Wisconsin-Madison.

Gary A. Mucciaroni, Professor, Department of Political Science, College of Liberal Arts; Ph.D., University of Wisconsin-Madison.

Shigenori Nagatomo, Professor, Department of Religion, College of Liberal Arts; Ph.D., University of Hawaii.

Harvey R. Neptune, Associate Professor, Department of History, College of Liberal Arts; Ph.D., New York University.

Nora S. Newcombe, Professor, Department of Psychology, College of Liberal Arts; Ph.D., Harvard University.

Steven L. Newman, Associate Professor, Department of English, College of Liberal Arts; Ph.D., Johns Hopkins University.

David Nickerson, Associate Professor, Department of Political Science, College of Liberal Arts; Ph.D., Yale University.

Daniel T. O'Hara, Professor, Department of English, College of Liberal Arts; Ph.D., Temple University.

Thomas Olino, Assistant Professor, Department of Psychology, College of Liberal Arts; Ph.D., Stony Brook University.
Ingrid Olson, Associate Professor, Department of Psychology, College of Liberal Arts; Ph.D., Yale University.

Miles D. Orvell, Professor, Department of English, College of Liberal Arts; Ph.D., Harvard University.

Jena Osman, Professor, Department of English, College of Liberal Arts; Ph.D., State University of New York at Buffalo.

Lara Ostarić, Assistant Professor, Department of Philosophy, College of Liberal Arts; Ph.D., University of Notre Dame.

Willis F. Overton, Professor Emeritus, Department of Psychology, College of Liberal Arts; Ph.D., Clark University.

Vinay Parikh, Assistant Professor, Department of Psychology, College of Liberal Arts; Ph.D., Penn State University.

C. Hamil Pearsall, Assistant Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., Clark University.

José Manuel Pereiro Otero, Associate Professor, Department of Spanish and Portuguese, College of Liberal Arts; Ph.D., University of Colorado Boulder.

Montserrat Piera, Associate Professor, Department of Spanish and Portuguese, College of Liberal Arts; Ph.D., The Pennsylvania State University.

Mark A. Pollack, Professor, Department of Political Science, College of Liberal Arts; Ph.D., Harvard University.

Victor M. Pueyo Zoco, Associate Professor, Department of Spanish and Portuguese, College of Liberal Arts; Ph.D., State University of New York Stony Brook.

John C. Raines, Professor Emeritus, Department of Religion, College of Liberal Arts; Ph.D.

Anthony Ranere, Professor Emeritus, Department of Anthropology, College of Liberal Arts; Ph.D., University of California Davis.

Jerry H. Ratcliffe, Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., University of Nottingham (UK).

Aunshul P. Rege, Assistant Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., Rutgers University.

Terry Rey, Associate Professor, Department of Religion, College of Liberal Arts; Ph.D., Temple University.

Monica Ricketts, Assistant Professor, Department of History, College of Liberal Arts; Ph.D., Harvard University.

Moritz Ritter, Assistant Professor, Department of Economics, College of Liberal Arts; Ph.D., University of Toronto.

L. Christie Rockwell, Associate Professor, Department of Anthropology, College of Liberal Arts; Ph.D., University of California Davis.

Caterina Gouvís Roman, Assistant Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., American University.

Jessica Roney, Assistant Professor, Department of History, College of Liberal Arts; Ph.D., Johns Hopkins University.

Christina Rosan, Assistant Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., Massachusetts Institute of Technology.

Cathryn Jo Rosen, Associate Professor, Department of Criminal Justice, College of Liberal Arts; LL.M., Temple University.

Eileen Ryan, Assistant Professor, Department of History, College of Liberal Arts; Ph.D., Columbia University.

James Salazar, Associate Professor, Department of English, College of Liberal Arts; Ph.D., University of California Berkeley.

Rickie Sanders, Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., The Ohio State University.

Jeremy Schipper, Professor, Department of Religion, College of Liberal Arts; Ph.D., Princeton Theological Seminary.

Joseph M. Schwartz, Professor, Department of Political Science, College of Liberal Arts; Ph.D., Harvard University.

Jacob Shell, Assistant Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., Syracuse University.

Adam Joseph Shellhorse, Assistant Professor, Department of Spanish and Portuguese, College of Liberal Arts; Ph.D., University of California Berkeley.

Thomas F. Shipley, Associate Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of Pennsylvania.

Muffy E. Siegel, Associate Professor, Department of English, College of Liberal Arts; Ph.D., University of Massachusetts.

Pedro Silos, Associate Professor, Department of Economics, College of Liberal Arts; Ph.D., University of Iowa.

Bryant Simon, Professor, Department of History, College of Liberal Arts; Ph.D., University of North Carolina at Chapel Hill.

Alan S. Singer, Professor, Department of English, College of Liberal Arts; Ph.D., University of Washington.

David V. Smith, Assistant Professor, Department of Psychology, College of Liberal Arts; Ph.D., Duke University.

Hillel David Soifer, Assistant Professor, Department of Political Science, College of Liberal Arts; Ph.D., Harvard University.

Miriam Solomon, Professor, Department of Philosophy, College of Liberal Arts; Ph.D., Harvard University.

John A. Sorrentino, Associate Professor, Department of Economics, College of Liberal Arts; Ph.D., Purdue University.

C. Christopher Soufas, Professor Emeritus, Department of Spanish and Portuguese, College of Liberal Arts; Ph.D., Duke University.

Teresa Scott Soufas, Professor Emerita, Department of Spanish and Portuguese, College of Liberal Arts; Ph.D., Duke University.

Howard Spodek, Associate Professor, Department of History, College of Liberal Arts; Ph.D., University of Chicago.

Gerald J. Stahler, Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., Temple University.
Damien Stankiewicz, Assistant Professor, Department of Anthropology, College of Liberal Arts; Ph.D., New York University.

Laurence D. Steinberg, Professor, Department of Psychology, College of Liberal Arts; Ph.D., Cornell University.

R. Michael Stewart, Professor Emeritus, Department of Anthropology, College of Liberal Arts; Ph.D., Catholic University.

William J. Stull, Professor, Department of Economics, College of Liberal Arts; Ph.D., Massachusetts Institute of Technology.

Sandra L. Suárez, Professor, Department of Political Science, College of Liberal Arts; Ph.D., Yale University.

Charles E. Swanson, Associate Professor, Department of Economics, College of Liberal Arts; Ph.D., University of Minnesota.

Benjamin Talton, Associate Professor, Department of History, College of Liberal Arts; Ph.D., University of Chicago.

Ralph B. Taylor, Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., Johns Hopkins University.

Ronald D. Taylor, Associate Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of Michigan.

Brian Teare, Assistant Professor, Department of English, College of Liberal Arts; M.F.A., Indiana University.

Rebecca Testai, Professor, Department of Sociology, College of Liberal Arts; Ph.D., University of Pennsylvania.

Barbara E. Thornbury, Associate Professor, Department of Asian and Middle Eastern Languages and Studies, College of Liberal Arts; Ph.D., University of British Columbia.

Teshale Tibebu, Professor, Department of History, College of Liberal Arts; Ph.D., State University of New York at Binghamton.

Paul D. Toth, Associate Professor, Department of Spanish and Portuguese, College of Liberal Arts; Ph.D., University of Pittsburgh.

Kathleen S. Uno, Associate Professor, Department of History, College of Liberal Arts; Ph.D., University of California Berkeley.

Gregory J. W. Urwin, Professor, Department of History, College of Liberal Arts; Ph.D., University of Notre Dame.

Nicole Martorano Van Cleeve, Assistant Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., Northwestern University.

Ryan Vander Wielen, Associate Professor, Department of Political Science, College of Liberal Arts; Ph.D., Washington University in St. Louis.

Jane Vaynman, Assistant Professor, Department of Political Science, College of Liberal Arts; Ph.D., Harvard University.

Lawrence Venuti, Professor, Department of English, College of Liberal Arts; Ph.D., Columbia University.

Pablo S. Vila, Professor, Department of Sociology, College of Liberal Arts; Ph.D., University of Texas at Austin.

Gerald A. Vision, Professor, Department of Philosophy, College of Liberal Arts; Ph.D., University of Michigan.

E. Rely Vîlcică, Assistant Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., Temple University.

Robert Wagmiller Jr., Associate Professor, Department of Sociology, College of Liberal Arts; Ph.D., University of Chicago.

Thomas J. Waidzunas, Assistant Professor, Department of Sociology, College of Liberal Arts; Ph.D., University of California San Diego.

Shannon Walters, Assistant Professor, Department of English, College of Liberal Arts; Ph.D., The Pennsylvania State University.

Jeffrey T. Ward, Assistant Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., University of Florida.

David Harrington Watt, Professor, Department of History, College of Liberal Arts; Ph.D., Harvard University.

Douglas Webber, Assistant Professor, Department of Economics, College of Liberal Arts; Ph.D., Cornell University.

Marsha A. Weinraub, Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of Michigan.

Robert W. Weisberg, Professor, Department of Psychology, College of Liberal Arts; Ph.D., Princeton University.

Charles A. Weitz, Associate Professor, Department of Anthropology, College of Liberal Arts; Ph.D., The Pennsylvania State University.

Susan Wells, Professor, Department of English, College of Liberal Arts; Ph.D., University of Texas at Austin.

Wayne N. Welsh, Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., University of California Irvine.

Sydney D. White, Associate Professor, Department of Religion, College of Liberal Arts; Ph.D., University of California Berkeley.

Kimberly D. Williams, Assistant Professor, Department of Anthropology, College of Liberal Arts; Ph.D., The Ohio State University.

Roland L. Williams Jr., Associate Professor, Department of English, College of Liberal Arts; Ph.D., University of Pennsylvania.

Mathieu E. Wimmer, Assistant Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of Pennsylvania.

David Wolfsdorf, Associate Professor, Department of Philosophy, College of Liberal Arts; Ph.D., University of Chicago.

Jennifer D. Wood, Associate Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., University of Toronto.

Alese Wooditch, Assistant Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., George Mason University.

Matt Wray, Associate Professor, Department of Sociology, College of Liberal Arts; Ph.D., University of California Berkeley.

Hongling Xie, Associate Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of North Carolina at Chapel Hill.

Sean Yom, Assistant Professor, Department of Political Science, College of Liberal Arts; Ph.D., Harvard University.
Africology and African American Studies, M.A.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program

The mission of the Department of Africology and African American Studies is to provide an intellectual arena in which students learn to critically examine, analyze, and interpret the experiences, traditions, and dynamics of people of African descent. The department’s undergirding philosophy is that the specific historical experiences of a people must be the central axis guiding and informing any effective analysis and interpretation of that people’s past, present, and future. Our graduate program is informed by the African-centered/Afrocentric paradigms in relation to other perspectives in Africana studies. The program reflects a deeply ingrained commitment to the self-directed study of African peoples and has benefited from a variety of conceptual and political inputs from diverse, but fully committed, faculty participation as well as invaluable contributions from the community. The M.A. program seeks to answer the personal and intellectual aspirations of the student and the particular needs of society that are not satisfied by a baccalaureate degree. Thus, the M.A. provides more specialized study in Africology and African American Studies than the B.A. or B.S. degree and often serves as the terminal degree. It is the goal of the department that graduates with an M.A. in Africology and African American Studies be prepared to engage in a diverse range of intellectual issues that affect the lives of Africans on the continent and in the diaspora. The M.A. also serves as a strong foundation for those who intend to apply to the Ph.D. program.

Time Limit for Degree Completion: 3 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: Advisors may encourage or require students to take courses in other departments in order to enhance or supplement their program.

Affiliation(s): Faculty are affiliated with a variety of professional organizations such as the African Heritage Studies Association (AHSA); African Literature Association; African Studies Association (ASA); American Anthropological Association (AAA); Association of Black Women Historians (ABWH); Association for the Study of African American Life and History (ASALH); Association for the Study of Classical African Civilizations (ASCAC); Black History Advisory Committee of the Pennsylvania Historical and Museum Commission; College Language Association (CLA); Germantown Friends School’s Summerbridge Program; Modern Language Association (MLA); National Council for Black Studies (NCBS); National Council of Teachers of English (NCTE); Pennsylvania Humanities Council; TESOL International Association; and Temple University’s Young Scholars Program.

Study Abroad: The department offers study abroad in the Temple University Ghana program. A maximum of 6 credits may be applied toward the master’s degree.

Accreditation: This program is accredited by the National Council for Black Studies.

Areas of Specialization: Faculty specialize, offer substantial coursework, and mentor in a variety of areas, including:

- African and African American History
- African and African American Literature
- African American Drama
- African American Psychology
- African Civilizations
- African Languages
- Afrocentric Theory
- Caribbean Culture
- Cultural Studies
- Ethnographic Methods
- Gender, Sexuality and Women’s Studies
- Linguistics
- Mass Media
- Narrative Tradition
- Popular Culture
- Research Methods
- Rhetoric and Composition
- Social and Political Thought

Job Prospects: Graduates of the M.A. program in Africology and African American Studies find employment in a variety of public and private sector areas, including arts and humanities, business, social services, and teaching. Many secondary school teachers desire to enhance their skills by obtaining an M.A. degree in Africology and African American Studies.

Non-Matriculated Student Policy: A non-matriculated student may take a maximum of 9 credits in the department. Those credits may be applied to the degree if the student applies and is admitted to the degree program. Non-matriculated students may not take AAAS 9982 Individual Research in African American Studies.

Financing Opportunities: The department offers a limited number of assistantships on a highly competitive basis. The awards usually involve teaching. Teaching Assistants receive a stipend and full tuition remission of up to 9 credits. The applicant must have a grade point average of 3.5 or better and strong letters of recommendation. A resume, writing sample, and/or syllabus are also required with the Teaching Assistantship application, which is obtained from the Graduate Secretary. Normally, awards are given to doctoral students who best meet the criteria.

Admission Requirements and Deadlines

Application Deadline:

Fall: January 15

Applications for admission are processed together shortly after the deadline date.

APPLY ONLINE to this graduate program.
Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation are preferred from college/university professors who have taught or worked with the applicant in her/his major or minor area of concentration.

Coursework Required for Admission Consideration: An applicant is expected to have some academic background in Africology and African American Studies.

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Statement of Goals: Approximately 500 to 1,000 words include your specific interest in Temple's Department of Africology and African American Studies; your research goals as they relate to Africology and African American Studies and to the social relevance of the discipline; your future career goals; and your academic and research achievements.

Standardized Test Scores:
GRE: Required. A combined minimum score of 297 (new test) or 1,000 (old test) on the verbal and quantitative sections is expected.
TOEFL: 79 iBT or 550 PBT minimum

Interview: An interview may be required.

Resume: Current resume required.

Writing Sample: The writing sample should demonstrate the student's ability to conduct research and to write a scholarly paper relevant to the discipline. The paper should be no more than 20 pages in length and fully referenced according to a professional, scholarly style manual.

Transfer Credit: During the first term of enrollment at Temple, incoming graduate students may apply to have graduate credits taken at other accredited institutions count toward completion of the degree. Grades of transfer courses must be "B" or better. After consultation with and approval of the advisor, the student must submit to the Graduate Committee:

1. a letter specifying the course(s) the student wishes to have considered for credit toward the M.A. and the corresponding Temple course related to the transfer course; and
2. supporting documents (e.g., syllabi, course descriptions from college catalogs, a letter from the transfer course instructor or department) showing the overlap by which the course covers material from Temple courses.

The maximum number of credits a student may transfer is 6.

Program Requirements

General Program Requirements:
Number of Didactic Credits Required Beyond the Baccalaureate: 30

Required Courses:

<table>
<thead>
<tr>
<th>Core Courses</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AAAS 8002 African Civilizations</td>
<td>3</td>
</tr>
<tr>
<td>AAAS 8004 Theories and Methods in African American Studies</td>
<td>3</td>
</tr>
<tr>
<td>AAAS 8005 African Literature</td>
<td>3</td>
</tr>
<tr>
<td>or AAAS 8006 African American Literature</td>
<td></td>
</tr>
</tbody>
</table>

Electives: 12

Total Credit Hours: 30

Culminating Events:
Students have the option of completing the program with either a written comprehensive examination or a thesis.

Comprehensive Examination: The comprehensive examination is intended to probe the student's knowledge of content, literature, theory/methodology, and methods in Africology and African American Studies and to test the student's ability to apply theoretical issues to praxis. It is a proctored, closed book, 6-hour written examination. Students may not use a computer or any other electronic device for the examination unless there is a documented medical necessity.

The M.A. comprehensive exam covers the content, theories, and paradigms of the discipline and/or relevant coursework that students may have taken. Students must take the comprehensive exam after completing all required coursework. The student must answer every question on the examination in order to be evaluated. The evaluators look for content mastery and coherent application of the discipline's theories and paradigms.

The comprehensive examination is offered twice a year: the first week of April and the first week of November. The hours of the exam are from 9:00 a.m. to 12:00 noon and 1:00 p.m. to 4:00 p.m. The student must schedule her/his examination with the Graduate Secretary after consultation with her/his advisor at least one month in advance of the exam date. In order to arrange an examination date, the student must be sure that her/his record is free of encumbrances that would prevent her/him from meeting University requirements for taking the examination. In addition, the student intending to take the exam must ensure that all of her/his coursework has been completed in the previous term.

The Examination Committee prepares and administers the student's written M.A. comprehensive exam. Students are advised to choose an Examination Committee at the beginning of their final term. They should consult with their graduate advisor to select the second member of the committee and set the date for the comprehensive exam. The Examination Committee is composed of two Graduate Faculty from the Department of Africology and African American Studies, one of whom is the major advisor who will write one half of the questions; the other committee member will provide the remaining questions.

The Examination Committee evaluates the answers. The Graduate Director notifies the student of the comprehensive exam results no later than five weeks after completion of the exam. Based on the quality of the examination results, the Examination Committee may make one of the following determinations:

1. Pass: The M.A. student may receive a master's degree when all other departmental and University requirements are met.
2. Fail: The M.A. student is not awarded the M.A. degree, and the student may retake the exam once.
3. Fail/Termination: The M.A. student has failed to pass the written examination a second time and is terminated from graduate status in the department.

AAAS 8007 African Aesthetics 3
AAAS 8008 Ethnographic Methods 3
AAAS 8009 The Afrocentric Paradigm 3
Thesis:
Students who choose to complete a thesis are given the opportunity to demonstrate specialized knowledge and their ability to do original research in Africana studies. The student must have completed at least 27 hours of coursework, including the core. She then registers for AAAS 9996 Master's Thesis and completes a Master's Thesis Option form, duly signed by the student and the designated advisor. The student must work with the advisor to produce and successfully defend a thesis on an approved topic. The student then meets the requirements for submission of the approved thesis to the Graduate School, as stipulated in the Final Checklist section of the Dissertation and Thesis Handbook at http://www.temple.edu/grad/.

Africology and African American Studies, Ph.D.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program
The mission of the Department of Africology and African American Studies is to provide an intellectual arena in which students learn to critically examine, analyze, and interpret the experiences, traditions, and dynamics of people of African descent. The department's undergirding philosophy is that the specific historical experiences of a people must be the central axis guiding and informing any effective analysis and interpretation of that people's past, present, and future.

Our graduate program is informed by the African-centered/Afrocentric paradigms in relation to other perspectives in Africana studies. The program reflects a deeply ingrained commitment to the self-directed study of African peoples and has benefited from a variety of conceptual and political inputs from diverse, but fully committed, faculty participation as well as invaluable contributions from the community. It is the goal of the department that graduates of our Ph.D. program be prepared to engage in a diverse range of intellectual issues that affect the lives of Africans on the continent and in the diaspora.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: The majority of courses are offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: Advisors may encourage or require students to take courses in other departments in order to enhance their research agenda. A student must obtain prior approval from her/his major advisor for any courses taken outside the Department of Africology and African American Studies that she/he wants to use to fulfill departmental requirements. However, for personal and intellectual enrichment, a student may take as many external courses as desired.

Affiliation(s): Faculty are affiliated with a variety of professional organizations such as the African Heritage Studies Association (AHSA); African Literature Association; African Studies Association (ASA); American Anthropological Association (AAA); Association of Black Women Historians (ABWH); Association for the Study of African American Life and History (ASALH); Association for the Study of Classical African Civilizations (ASCAC); Black History Advisory Committee of the Pennsylvania Historical and Museum Commission; College Language Association (CLA); Germantown Friends School's Summerbridge Program; Modern Language Association (MLA); National Council for Black Studies (NCBS); National Council of Teachers of English (NCTE); Pennsylvania Humanities Council; TESOL International Association; and Temple University's Young Scholars Program.

Study Abroad: The department offers study abroad in the Temple University Ghana program. A maximum of 6 credits may be applied toward the doctoral degree.

Accreditation: This program is accredited by the National Council for Black Studies.

Areas of Specialization: Applicants to the Ph.D. program should have a clearly articulated research interest that fits within the department's faculty expertise. Africology and African American Studies is a discipline that draws from diverse academic fields. Most research areas fall into two general categories: the cultural aesthetic, which engages interests in the humanities, particularly history, literature, and the performing arts; and the social behavioral, in which issues may be addressed under the broad domains of sociology, psychology, political science, philosophy, anthropology, and the like. Faculty specialize, offer substantial coursework, and mentor in a variety of areas:

- African and African American History
- African and African American Literature
- African American Drama
- African American Psychology
- African Civilizations
- African Languages
- Afrocentric Theory
- Caribbean Culture
- Cultural Studies
- Ethnographic Methods
- Gender, Sexuality and Women's Studies
- Linguistics
- Mass Media
- Narrative Tradition
- Popular Culture
- Research Methods
- Rhetoric and Composition
- Social and Political Thought

Job Prospects: Graduates of the Ph.D. program in Africology and African American Studies generally find employment based on their area of concentration in academia, college and university administration, or public and private high school administration; the entertainment industry; the fields of criminal justice, journalism, public relations, or social work; local, state, and federal government; or non-profit organizations.

Non-Matriculated Student Policy: Non-matriculated students who desire to take courses at the Ph.D. level in the Department of Africology and African American Studies must first submit an academic transcript to the department's Graduate Director for review. The prospective non-matriculated student then receives a letter stating whether or not s/he has been approved to take courses in the department. A maximum of 9 credits may be applied toward a degree if the student later matriculates. Non-matriculated students may not take AAAS 9982 Individual Research in African American Studies.

Financing Opportunities: The department offers a limited number of assistantships on a highly competitive basis. The awards usually involve teaching or assisting one or more faculty with instructional duties. Teaching Assistants receive a stipend and full tuition remission of up to 9 credits. The applicant must have a grade point average of 3.5 or better and strong letters of recommendation. A resume, writing sample, and/or syllabus are also required with the Teaching Assistantship application, which is obtained from the Graduate Secretary. Applications for a Teaching Assistantship should be submitted along with the application for graduate study.

Admission Requirements and Deadlines

Application Deadline:

Fall: January 15

Applications for admission are processed together shortly after the deadline date.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation are preferred from college/university professors who have taught or worked with the applicant. Letters from employers with relevant relation to the applicant's area of study are also useful.

Coursework Required for Admission Consideration: The applicant's official transcripts must show formal course-based exposure to and education in an area that the Admissions Committee judges to be closely related to Africology and African American Studies.

Master's Degree in Discipline/Related Discipline: A master's degree in American Studies, Black Studies, Ethnic Studies, History with a concentration in African or African American Studies, or other content areas with a concentration in African or African American Studies is required.

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Statement of Goals: Approximately 500 to 1,000 words include the nature of your specific interest in the Ph.D. program in Africology and African American Studies at Temple University; a clearly articulated research goal as it relates to Africology and African American Studies; your future career goals; your academic and research achievements; your community service activities; and an explanation of exceptional circumstances.

Standardized Test Scores:
GRE: Required. A combined minimum score of 297 (new test) or 1,000 (old test) on the verbal and quantitative sections is expected.
TOEFL: 100 iBT or 600 PBT minimum
Resume: Current resume required.

Writing Sample: The writing sample should demonstrate the student's ability to conduct research and to write a scholarly paper relevant to the discipline. The paper should be no more than 20 pages in length and fully referenced according to a professional, scholarly style manual.

Advanced Standing: A student who has earned the M.A. in Africology and African American Studies from Temple University will have all 30 of her/his credits earned credited toward the Ph.D. in Africology and African Studies at Temple University.

A student who enters the Ph.D. program with an M.A. in African American Studies from one of the African American Studies master's-granting programs other than Temple (e.g., Brown University; Clark Atlanta University; Cornell University; Harvard University; Indiana University Bloomington; Michigan State University; Northwestern University; The Ohio State University; University at Albany, SUNY; University of California, Berkeley; University of Massachusetts Amherst; University of Pennsylvania; University of Wisconsin; Yale University) may apply for advanced standing. The maximum number of advanced standing credits awarded is 18.

A student who enters the Ph.D. program with an M.A. degree in an area other than African American Studies may apply to have up to 6 credits considered for credit toward the Ph.D.

Program Requirements

General Program Requirements:
exam, the student must register for AAAS 9994 Preliminary Examination Preparation.

The preliminary examination is offered twice a year: during the first week of April and the first week of November. The hours of the exam are from 9:00 a.m. to 12:00 noon and 1:00 p.m. to 4:00 p.m. The student should notify the Graduate Secretary of her/his intention to take the examination at least one month in advance after consultation with her/his advisor. The Graduate Secretary checks to ensure the student’s records are free of encumbrances that would prevent her/him from meeting University requirements for taking the exam. If the student meets all requisites, the Graduate Secretary advises the student’s Examination Committee that the exam will take place on the planned date.

Each member of the Examination Committee evaluates her/his exam question(s). The Graduate Director notifies the student of the preliminary exam results no later than five weeks after completion of the exam. Based on the quality of the examination results, the Examination Committee may make one of the following determinations:

1. Pass: The student passes the exam and may now write her/his dissertation proposal.
2. Fail: The student fails the written and/or oral examination, but may retake part or all of the examination once.
3. Fail/Termination: The student fails the written examination for the second time, may not retake the exam, and is dismissed from the program.

Dissertation Proposal:
The formal research proposal, usually at least 30 pages long, presents a plan for increasing the knowledge base in the discipline. The student works in concert with the Chair of the Doctoral Advisory Committee (DAC) to fine-tune the proposal. With the Chair’s approval, the student submits the proposal to the other committee members who make suggestions for changes. When the entire committee is satisfied with the proposal, the student makes an oral presentation and defends the proposal, where other suggestions to strengthen the proposal can be made. After a successful oral defense, the proposal is submitted to the Graduate School, along with the "Dissertation Proposal Transmittal for Elevation to Candidacy" form, found at http://www.temple.edu/grad/forms/.

Dissertation:
The dissertation is an original and definitive empirical study that makes a significant contribution to the field of Africology and African American Studies. It should add to the knowledge of one or more areas either by uncovering new information, providing an innovative synthesis of existing information, propounding a new theory, fine-tuning an existing theory, or offering a new interpretation substantiated by data. The length of the dissertation varies but should be in excess of 150 pages.

The DAC guides the candidate’s doctoral research. This committee offers regular advice and expertise as the student collects data, researches, and writes the proposal and dissertation. The DAC must include at least three Graduate Faculty members from Temple University; two of them, including the Chair, must be from the Department of Africology and African American Studies. The DAC may be expanded to include other Temple University faculty (from within or outside the department) and/or doctorally prepared experts from outside the University, provided that a majority of the committee members are Graduate Faculty members.

The function of the Dissertation Examining Committee (DEC) is to evaluate the dissertation and the student’s performance in the oral

Number of Credits Required to Earn the Degree: 51

Required Courses:

Core Courses
AAAS 8002 African Civilizations 3
AAAS 8004 Theories and Methods in African American Studies 3
AAAS 8008 Ethnographic Methods 3
AAAS 8009 The Afrocentric Paradigm 3
AAAS 9642 Seminar in African American Social Philosophy 3
Electives 30

Non-Didactic Courses 6
AAAS 9994 Preliminary Examination Preparation
AAAS 9998 Pre-Dissertation Research
AAAS 9999 Dissertation Research

Total Credit Hours 51

Language Examination: The language requirement in Africology and African American Studies is intended to ensure that students have a working familiarity with a language and culture other than English and/or their native language. The Ph.D. student may take the exam at any time, but must pass it before taking the preliminary examination. The student who has English as a second language may use English to fulfill the language requirement. With the recommendation of the advisor, a student may demonstrate competency in Statistics to fulfill the language requirement. The language examination must be administered and graded by a college/university affiliated or certified instructor in the exam language, but may not be from the Department of Africology and African American Studies. The results must be forwarded on letterhead attesting to the examiner’s credentials. Temple University’s various language departments offer non-credit language courses and administer examinations for graduate students needing to fulfill the language requirement.

Culminating Events:

Preliminary Examination:
The preliminary examination is intended to probe the student’s knowledge of content, literature, theory/methodology, and methods in Africology and African American Studies and to test the student’s ability to apply theoretical issues to praxis. It is a proctored, closed-book, 12-hour written examination administered by the student’s Examination Committee. Students are expected to take the preliminary examination upon completion of the coursework component of the program and upon satisfactory completion of the language requirement.

The student is strongly advised to choose an Examination Committee at the beginning of the term in which the last course is taken. The student should consult with her/his graduate advisor in selecting members of the Examination Committee and in setting the date for the exam. The student should then write to prospective members requesting that they serve on the committee. In the letter, the student should mention the course(s) taken with the professor, and include a copy of her/his statement of research interests and career goals. The faculty member should notify the student’s advisor in writing of her/his agreement to serve on the committee.

The subject areas are chosen by the Examination Committee. Particular reading lists or specific materials may be suggested for review before the exam. The student’s major advisor composes six hours of the examination, and the other members compose the balance. Examiners submit exam items directly to the Graduate Director. In order to take the
defense to decide whether the candidate passes or fails. All members of the DEC must be physically present for the oral defense. Exceptions must be specifically approved in writing by the Graduate School. The DEC is composed of the DAC plus at least one additional reader who may be a Graduate Faculty member from Temple or another university, but cannot be a member of the Department of Africology and African American Studies.

A student must have an advisor at all times. However, it is possible that as the student's interests develop, s/he may find it desirable to change major advisors and/or advisory committees. The advisee/advisor relationship can be terminated by mutual consent with a note to the Graduate Director signed by both parties or by either party through negotiation with the Graduate Director, who must not at the time be serving as a member of the DAC. When the Graduate Director is also a member of the committee, then another member of the Graduate Faculty, appointed by the Department Chair, should serve as the negotiator between the student and the committee member. The student must complete a "Change of Advisor" form, which may be obtained from the Graduate Secretary. Once a defense date is set, no changes can be made in major advisor or committee membership.

When the Chair of the committee is satisfied with the dissertation draft, s/he advises the student to distribute it to the other members of the committee. When the entire committee is satisfied with the draft, the student and Chair decide on an examination date. At the conclusion of the dissertation defense, the DEC may recommend either that the candidate passes or fails. After the student passes the dissertation defense, certification forms are signed by the committee members and forwarded to the Graduate School. Failure may call for substantial revisions and a new defense.

Students who are preparing to defend their dissertation should confirm a time and date with their DEC and register with the Graduate Secretary. The Graduate Secretary arranges for the room; prepares the appropriate forms; sends copies of the announcement to the Graduate School and departmental Graduate Faculty; and posts the announcement on public bulletin boards. Every dissertation defense must be publicly announced in writing at least 10 working days prior to the defense and must be open to the academic community.

Anthropology, Ph.D.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program
Anthropology comprises four subdisciplines, all of which are well represented at Temple: Archaeology, Biological Anthropology, Linguistic Anthropology, and Sociocultural Anthropology. The Department also offers specialized courses and training in the Anthropology of Visual Communication, which draws primarily on Linguistic Anthropology and Sociocultural Anthropology. Doctoral students typically specialize in one of these areas, but interdisciplinary study and research are encouraged.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Full-time status is strongly encouraged, although some students may be able to complete the degree program on a part-time basis.

Interdisciplinary Study: Anthropology is an inherently interdisciplinary field of study.

Study Abroad: Study abroad is not required, but many students conduct their independent research outside the United States.

Areas of Specialization: Faculty members specialize in such areas as anthropology of visual communication, archaeology of the eastern United States and tropical Americas, historical archaeology, human evolutionary biology, human genetic and physiological variation, language socialization, political economy of language, politics of cultural identity and difference, and sociocultural dynamics of globalization.

Job Prospects: Well over 100 doctoral degrees have been conferred by the Department of Anthropology since 1976. Approximately 45% of doctoral graduates hold full-time faculty positions in colleges or universities, while another 20% hold full-time research positions in academic or non-academic settings. Another 20% hold degree-related policy and administrative positions, and 10% are engaged in other professional activities.
Non-Matriculated Student Policy: Non-matriculated students are generally restricted to the following four courses:

- ANTH 8003 Approaches in Cultural Anthropology 3
- ANTH 8004 Approaches in Linguistic Anthropology 3
- ANTH 8005 Approaches in Physical Anthropology 3
- ANTH 8006 Approaches in Archaeology 3

Taking coursework as a non-matriculated student does not ensure acceptance into the doctoral program if the student later applies for admission. If a non-matriculated student is later admitted into the doctoral program, a maximum of 9 credits of non-matriculated coursework may be applied toward the degree.

Financing Opportunities: Outstanding applicants are nominated for Temple University’s Presidential, University, and Future Faculty Fellowships, which provide four years of tuition remission, a living stipend, and other benefits. Limited numbers of Teaching and Research Assistantships are also available for well-qualified applicants. Students are strongly encouraged to apply for external grants and fellowships.

Admission Requirements and Deadlines

Application Deadline:
- Fall: January 5; December 10 international

Before preparing and submitting the application for admission, the applicant should, if at all possible, establish personal contact with at least one faculty member in Temple’s Department of Anthropology. This should be a faculty member whose areas of research interest overlap with those of the applicant, and who could potentially serve as her/his faculty advisor.

APPLY ONLINE to this graduate program.

Letters of Reference:
- Number Required: 3
- From Whom: Letters of recommendation should be requested from individuals who are well positioned to evaluate the applicant’s academic abilities and accomplishments as well as her/his potential for graduate study.

Master’s Degree in Discipline/Related Discipline: A master’s degree is not required.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree (B.A./B.S.) is required, but it need not be a degree in Anthropology.

Statement of Goals: In approximately 800 to 1,000 words, address your main area(s) of scholarly interest; the specific research topic that you intend to make the focus of your graduate studies; the experiences that have led you to graduate studies in Anthropology; the specific reasons for your interest in Temple’s graduate program in Anthropology and the faculty members with whom you envision yourself working most closely; and your career goals.

Standardized Test Scores:
- GRE: Required. GRE scores are evaluated in the context of all other materials required for admission.
- TOEFL: 79 iBT or 550 PBT minimum

Advanced Standing: After completing the first academic year, a student who entered the doctoral program with a master’s degree in Anthropology (or a closely related field) may petition the Department’s Graduate Committee for advanced standing. The maximum number of advanced standing credits that can be accepted is 24.

Program Requirements

General Program Requirements:
- Number of Credits Required: 48

Required Courses:

Core Courses 1
- ANTH 8003 Approaches in Cultural Anthropology 3
- ANTH 8004 Approaches in Linguistic Anthropology 3
- ANTH 8005 Approaches in Physical Anthropology 3
- ANTH 8006 Approaches in Archaeology 3

Additional Courses 2 36

Total Credit Hours 48

1 It is preferred that the four core courses be taken by the end of the second year.
2 Students choose 12 additional courses in consultation with their faculty advisor. Some courses may be taken in other departments, as appropriate.

Language Examination: Each doctoral student must pass a written examination of proficiency in a language other than English, preferably by the end of the second year.

Culminating Events:

Dissertation Research Proposal:
Students must have an approved doctoral dissertation research proposal in order to advance to doctoral candidacy. The research proposal must be approved by the student’s advisory committee before s/he takes the doctoral qualifying examinations. Students whose proposed research involves working with human or animal subjects must apply for approval from Temple’s Institutional Review Board (IRB).

Doctoral Qualifying Examinations:
Each student must pass a set of doctoral qualifying examinations before being advanced to doctoral candidacy. These examinations are intended to evaluate the student’s knowledge of the field, readiness to perform doctoral research, and preparedness to write a doctoral dissertation. No student may take the qualifying examinations more than twice. The doctoral qualifying examinations should be completed no more than one term after the student finishes her/his coursework.

Advancement to Doctoral Candidacy:
A doctoral student is advanced to doctoral candidacy when s/he has completed all requirements for the doctoral degree except the research, writing, and defense of the doctoral dissertation. These requirements include completing all required coursework, writing an acceptable dissertation research proposal, passing the doctoral qualifying examinations, and fulfilling the language proficiency requirement. A student cannot be advanced to candidacy with a grade of “I” (Incomplete) or “NR” (No Record) on her/his transcript.

Doctoral Dissertation:
The doctoral dissertation must constitute a significant, original, research-based contribution to scholarship in the student’s field of study. It
must also conform to the rules set out in the “Dissertation and Thesis Handbook” of the Temple University Graduate School.

Upon advancement to doctoral candidacy, each student must form a Doctoral Advisory Committee. This committee must include at least two Graduate Faculty members from the Department of Anthropology, one of whom serves as the student’s primary academic advisor and as chair of the committee. The committee may also include one or more Graduate Faculty members from other Temple schools/colleges, departments, or programs; faculty members from other universities; and/or other doctorally trained experts. The members of the Doctoral Advisory Committee supervise the student’s doctoral research and the writing of the dissertation.

The completed dissertation is read and evaluated by a Dissertation Examining Committee, which consists of the members of the Doctoral Advisory Committee plus at least one additional Graduate Faculty member from Temple not from the faculty of the student’s home department. A faculty member from another university or other doctorally trained expert may also serve as the additional committee member. In addition to being evaluated and approved by the committee members in its written form, the completed doctoral dissertation must be presented and defended orally by the doctoral candidate.

Applied Sociology, P.S.M.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program

The Professional Science Master’s (P.S.M.) degree in Applied Sociology is designed to train research professionals in a wide range of social research methods and data analysis. Students take a set of core courses in research design, quantitative methods, qualitative methods, and research ethics, as well as additional methods courses as electives.

Time Limit for Degree Completion: 3 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The program encourages students to participate in seminars in other social sciences, including Anthropology; Criminal Justice; Gender, Sexuality and Women’s Studies; Geography and Urban Studies; History; Political Science; Psychology; and Urban Education.

Affiliation(s): The program is affiliated with the American Sociological Association (ASA).

Areas of Specialization: The main areas of study are:
- Data Analysis
- Qualitative Methods
- Research Design
- Research Ethics
- Statistics

Job Prospects: Graduates of the program are typically employed as applied researchers in public and private firms.

Non-Matriculated Student Policy: Students with a bachelor’s degree may take graduate courses in Sociology without enrolling in a Temple University graduate program. A limit of 9 credits of graduate coursework taken prior to admission will be accepted toward a Sociology degree. Non-matriculated students should consult with the Graduate Chair before selecting their coursework if they plan to apply for the degree program.

Financing Opportunities: The Sociology Department does not offer funding opportunities for students enrolled in the P.S.M. program.

Admission Requirements and Deadlines

Application Deadline:
Fall 2017: July 15
Fall 2018 and beyond: March 1

Applications are evaluated as they are received throughout the year.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3
From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with the applicant’s academic competence, if possible.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree is required.

Statement of Goals: Approximately 500 to 1,000 words include your interest in Temple's program; your research goals; your future career goals; and your academic and research achievements.

Standardized Test Scores:
GRE: Required.
TOEFL: 100 iBT or 600 PBT minimum

Writing Sample: The writing sample should demonstrate your ability to conduct research and write a scholarly paper. The paper may be on any topic, and no more than 25 pages in length. It must be fully referenced according to a professional and scholarly style.

Resume: Current resume or curriculum vitae required.

Transfer Credit: Graduate coursework in Sociology may be transferred from outside the university, provided that the credits were obtained no more than five years prior to the student's matriculation at Temple and the grades are "B" or better. The maximum number of credits a student may transfer is 6.

Culminating Events: This program has no culminating events beyond successful completion of coursework. The P.S.M. degree in Applied Sociology is awarded to any candidate who earns a cumulative grade point average of 3.0 or better in the degree curriculum. Apply for graduation in Self Service Banner by accessing TUporal (https://tuporal4.temple.edu/cp/home/displaylogin). Note the deadline for submitting the graduation application on the Graduate School's calendar, found at http://bulletin.temple.edu/graduate/academic-calendar/.

Contacts

Program Web Address:  
http://www.cla.temple.edu/sociology/graduate/
aesthetics. To learn more about the faculty, see www.cla.temple.edu/english/creativewriting/faculty/.

**Job Prospects:** Graduates have extended their education and earned Ph.D.’s in English and Creative Writing and are now professors. Others have gone on to become librarians, editors in the field of publishing, arts administrators, journalists, web writers, grant writers, primary and secondary school teachers, and more. Books written by our graduates have been published by trade and small presses and cover all genres. These works have won grants, prizes, and residencies.

**Non-Matriculated Student Policy:** Non-matriculated students are very rarely permitted to take courses within the degree program.

**Financing Opportunities:** Students are encouraged to apply for a teaching assistantship, which includes a tuition waiver and a stipend for the nine months of the academic year. Conditions of the award are determined by the graduate student union contract with Temple University and currently require recipients to do a combination of teaching and other assignments. Assistantship applications are submitted along with admissions applications by December 15.

**Admission Requirements and Deadlines**

**Application Deadline:**

**Fall:** February 15

Applications are processed at the deadline. All materials, including GRE and TOEFL scores, must be received by the application deadline.

Visit http://www.cla.temple.edu/english/creativewriting/how-to-apply/ for details on the application procedures for the M.F.A. program in Creative Writing.

APPLY ONLINE to this graduate program.

**Letters of Reference:**

**Number Required:** 3

**From Whom:** Letters of recommendation should be obtained from professors or work supervisors who can comment on your writing, your tenacity, your intellectual scope, and the nature of your projects to date.

**Coursework Required for Admission Consideration:** It is not necessary for the applicant to have followed an undergraduate Creative Writing major; however, applicants should have a strong background in literary study and critical essay writing. Students in our program take both creative writing courses and graduate-level literature seminars.

**Bachelor’s Degree in Discipline/Related Discipline:** A baccalaureate degree is required, although it need not be in Creative Writing. An applicant must, however, display evidence of talent as a fiction writer or poet.

**Statement of Goals:** In two to four pages, identify the influences and models you have used in your thinking about creative work and the projects you have already undertaken. If you have a particular interest in studying with a member of Temple’s faculty, you should indicate this in this document.

**Standardized Test Scores:**

GRE: Recommended, but not required. Applicants who wish to be considered for a fellowship and/or teaching assistantship are strongly encouraged to include GRE scores with their admission materials.

TOEFL: 79 iBT or 550 PBT minimum

**Resume:** Current resume required.

**Writing Sample:** Applicants need to choose one genre in which to apply. For poetry submissions, a minimum of 10 pages is required. For fiction, a minimum of 20 pages is required. Your best work should be submitted.

**Program Requirements**

**General Program Requirements:**

**Number of Didactic Credits Required Beyond the Baccalaureate:** 33

Total Credit Hours 33

**Culminating Events:**

**Comprehensive Examination:**

The comprehensive examination is intended to give students an opportunity to write about the historical and formal context of the literary genre in which they practice. Students are given an official reading list for their chosen genre at the beginning of the program. For the exam, they write a 10 to 15 page essay.

The exam is due between the third and fourth terms of the program on the Friday immediately preceding the day on which the Spring term begins. The paper should address issues of craft and aesthetics, but may include other points of reference. The essay should demonstrate a facility for critical discourse and indicate a breadth of knowledge of literary traditions.

Each exam is graded by two members of the Creative Writing Graduate Faculty. Exams are graded as either a High Pass, a Pass, a Low Pass, or Failure. Students pass the exam by writing cogent, well-argued, and stylistically polished arguments.

**Master's Project:**

The master's project is intended to be a work of fiction (at least 100 pages) or a work of poetry (at least 50 pages) that reflects an aesthetically and intellectually sophisticated example of the genre in which the student has worked over the course of the program. The project is due on the second Tuesday in April of the student’s fourth term.

The master's project is graded exclusively by members of the Creative Writing Graduate Faculty. Two readers must agree that the project passes. If there is a conflict, the Director of the Graduate Creative Writing Program adjudicates the decision. A project defense is not required.

Criminal Justice, M.A.
COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program
The M.A. program in Criminal Justice is designed to serve as a first stage of training for students wishing to eventually pursue more advanced graduate work. It also prepares students who will terminate their studies at the master's level. For the latter group, including many engaged in part-time study, the M.A. program is designed to serve students who, upon graduation, will begin or rejoin professional careers in management, administration, or specialist positions in governmental and private criminal and juvenile justice and related agencies. The M.A. degree requires the completion of 30 credits. The curriculum is structured around a set of core requirements that provides substantive grounding in decision-making and operational aspects of the criminal justice system, and a theoretical, legal, policy, and methodological foundation for understanding crime and society.

Time Limit for Degree Completion: 3 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Those engaged in part-time study take 8 or fewer credits per term. Students should note that classes are scheduled both during the day and evening as scheduling demands. Students are expected to be available for classes when they are scheduled.

Interdisciplinary Study: The program encourages interdisciplinary coursework, research, and interactions among faculty and students with interests in a wide range of fields. Many of the students entering the Criminal Justice M.A. program have backgrounds in Counseling, Economics, Geography, History, Political Science, Psychology, Social Work, Sociology, and Urban Studies.

Ranking: Criminal Justice programs are not formally ranked, although the Journal of Criminal Justice Education has produced occasional articles on program productivity. Temple University's Criminal Justice program is classed among a number of schools that are acknowledged to have extremely strong faculty, but have not yet produced a large number of doctoral degrees.

Areas of Specialization: Faculty members specialize and offer substantial coursework in a wide array of areas, including:
- Corrections and community corrections
- Court processes
- Crime and the physical/social environment
- Criminal justice policymaking and strategic management
- Criminal law
- Criminological theory
- Discretion in criminal justice
- Issues in policing
- Juvenile justice
- Organized crime
- Qualitative/quantitative research methods
- Restorative justice
- Socialization and deviant behavior
- Statistical analysis
- White collar crime

Job Prospects: The M.A. program is primarily dedicated to producing well-trained criminologists, researchers, and criminal justice practitioners. The job market for an individual with a master's degree in the field is extremely good. Some graduate students advance their career while completing coursework, while others are hired at the completion of their degree. Graduates of the M.A. program have obtained positions in the criminal justice system, including criminal or juvenile courts, institutional and community-based agencies, and state and federal police agencies. Careers are also possible in government, planning, public administration, research, teaching, or community activism.

Non-Matriculated Student Policy: Non-matriculated students are eligible to take some of the graduate courses offered in Criminal Justice. If accepted into the program, up to 9 credits may be applied toward the degree program.

Financing Opportunities: The principal duties of a Teaching Assistant include assisting faculty members in classroom (field, observatory) instruction, conducting tutorials and discussion sections, and grading quizzes. Research Assistants are expected to devote 20 hours per week on average to research obligations. They are assigned to a faculty member or principal investigator investigating a specific research project. The appropriate subjects are determined by consultation between the student and the student's research and academic advisors. Both Teaching and Research Assistantships carry a stipend and full tuition remission for up to 9 credits per term. Applications should include:

- Campus Location: Main
- Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Those engaged in part-time study take 8 or fewer credits per term. Students should note that classes are scheduled both during the day and evening as scheduling demands. Students are expected to be available for classes when they are scheduled.
- Interdisciplinary Study: The program encourages interdisciplinary coursework, research, and interactions among faculty and students with interests in a wide range of fields. Many of the students entering the Criminal Justice M.A. program have backgrounds in Counseling, Economics, Geography, History, Political Science, Psychology, Social Work, Sociology, and Urban Studies.
- Ranking: Criminal Justice programs are not formally ranked, although the Journal of Criminal Justice Education has produced occasional articles on program productivity. Temple University's Criminal Justice program is classed among a number of schools that are acknowledged to have extremely strong faculty, but have not yet produced a large number of doctoral degrees.
- Areas of Specialization: Faculty members specialize and offer substantial coursework in a wide array of areas, including:
  - Corrections and community corrections
  - Court processes
  - Crime and the physical/social environment
  - Criminal justice policymaking and strategic management
  - Criminal law
  - Criminological theory
  - Discretion in criminal justice
  - Issues in policing
  - Juvenile justice
  - Organized crime
  - Qualitative/quantitative research methods
  - Restorative justice
  - Socialization and deviant behavior
  - Statistical analysis
  - White collar crime
- Job Prospects: The M.A. program is primarily dedicated to producing well-trained criminologists, researchers, and criminal justice practitioners. The job market for an individual with a master's degree in the field is extremely good. Some graduate students advance their career while completing coursework, while others are hired at the completion of their degree. Graduates of the M.A. program have obtained positions in the criminal justice system, including criminal or juvenile courts, institutional and community-based agencies, and state and federal police agencies. Careers are also possible in government, planning, public administration, research, teaching, or community activism.
- Non-Matriculated Student Policy: Non-matriculated students are eligible to take some of the graduate courses offered in Criminal Justice. If accepted into the program, up to 9 credits may be applied toward the degree program.
- Financing Opportunities: The principal duties of a Teaching Assistant include assisting faculty members in classroom (field, observatory) instruction, conducting tutorials and discussion sections, and grading quizzes. Research Assistants are expected to devote 20 hours per week on average to research obligations. They are assigned to a faculty member or principal investigator investigating a specific research project. The appropriate subjects are determined by consultation between the student and the student's research and academic advisors. Both Teaching and Research Assistantships carry a stipend and full tuition remission for up to 9 credits per term. Applications should include:
1. a statement of previous teaching and/or research experience, areas of interest, and future goals;
2. unofficial transcripts; and
3. a curriculum vitae.

The Department makes assistantship offers in late Spring of each year.

**Admission Requirements and Deadlines**

**Application Deadline:**
- **Fall:** March 1
- **Spring:** November 1

Applications are evaluated from the end of October until the deadline. Late applications may be considered for admission.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**
- **Number Required:** 3
- **From Whom:** Letters of recommendation should be obtained from college/university faculty members familiar with the demands of a graduate program.

**Bachelor’s Degree in Discipline/Related Discipline:** A baccalaureate degree in Criminology/Criminal Justice, Geography, History, Law, Political Science, Social Work, Sociology, or a related field is required.

**Statement of Goals:** In approximately 500 to 1,000 words, discuss your specific interest in Temple’s program, your research goals, your future career goals, and your academic and research achievements.

**Standardized Test Scores:**
- **GRE:** Required. The average scores for accepted M.A. students are in the 60-70% range on the verbal and quantitative sections.
- **TOEFL:** 79 iBT or 550 PBT minimum

**Resume:** Current resume required.

**Writing Sample:** The writing sample should demonstrate your ability to research and write a scholarly paper. The paper should not be too lengthy (up to 10 pages is preferable) and should be fully referenced according to a professional, scholarly style manual. Although it need not be related directly to Criminal Justice, it should reflect your ability to prepare a social science paper.

**Transfer Credit:** Students with graduate course credits from other accredited institutions should petition the Graduate Chair to determine the acceptance and transferability of coursework. Grades must be of “B” quality or better. The maximum number of credits a student may transfer is 6.

**Program Requirements**

**General Program Requirements:**
- **Number of Credits Required Beyond the Baccalaureate:** 30

**Required Courses:**

<table>
<thead>
<tr>

Criminal Justice, Ph.D.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program

The Ph.D. degree program in Criminal Justice is designed to produce cultural justice scholars who will lead the field in academia, private and governmental research agencies, and policy-level positions in criminal justice and related organizations. The Ph.D. degree requires the completion of a minimum of 48 hours of coursework post-baccalaureate, although students may take additional courses to prepare themselves for subsequent stages of their post-graduate career.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Doctoral students are expected to be enrolled full-time. Part-time students are accepted in exceptional circumstances. Students should note that classes are scheduled both during the day and evening as scheduling demands. Students are expected to be available for classes when they are scheduled.

Interdisciplinary Study: The program encourages interdisciplinary coursework, research, and interactions among faculty and students with interests in a wide range of fields. Many of the students entering the Criminal Justice Ph.D. program have backgrounds in Counseling, Economics, Geography, History, Political Science, Psychology, Social Work, Sociology, and Urban Studies.

Ranking: Temple University’s Ph.D. program in Criminal Justice is ranked in the top 10 programs by U.S. News & World Report. In addition, The Chronicle of Higher Education’s Faculty Scholarly Productivity Index identifies the faculty of the Criminal Justice department as the sixth most productive among all doctoral programs in Criminology and Criminal Justice.

Areas of Specialization: Faculty members specialize and offer substantial coursework in a wide array of areas, including:

- Corrections and community corrections
- Court processes
- Crime and the physical/social environment
- Criminal justice policymaking and strategic management
- Criminal law
- Criminological theory
- Discretion in criminal justice
- Issues in policing
- Juvenile justice
- Organized crime
- Qualitative/quantitative research methods
- Restorative justice
- Socialization and deviant behavior
- Statistical analysis
- White collar crime

Job Prospects: The Ph.D. program is primarily dedicated to producing well-trained criminologists, researchers, and criminal justice practitioners. The job market for an individual with a Ph.D. degree in the field is extremely good. Most of our graduates enter the academy as university professors while others advance their careers in research for government or private agencies.

Non-Matriculated Student Policy: Non-matriculated students are eligible to take some of the graduate courses offered in Criminal Justice. If accepted into the program, up to 9 credits may be applied toward the degree program. For some courses, permission of the instructor is required before registration by non-matriculated students can occur.

Financing Opportunities: The principal duties of a Teaching Assistant include assisting faculty members in classroom (field, observatory) instruction, conducting tutorials and discussion sections, and grading quizzes. Research Assistants are expected to devote 20 hours per week on average to research obligations. They are assigned to a faculty member or principal investigator investigating a specific research project. The appropriate subjects are determined by consultation between the student and the student's research and academic advisors. Both Teaching and Research Assistantships carry a stipend and full tuition remission for up to 9 credits per term. Applications should include:

1. a statement of previous teaching and/or research experience, areas of interest, and future goals;
2. unofficial transcripts; and
3. a curriculum vitae.

The Department makes assistantship offers in late Spring of each year.

Admission Requirements and Deadlines

Application Deadline:

Fall: December 15; November 30 international

Applications are evaluated from the end of October until the deadline. Late applications may be considered for admission.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Ideally, the letters should be obtained from college/university faculty members familiar with the applicant's academic competence. Letters from employers and other non-academic assessors are accepted but generally carry far less weight.

Master’s Degree in Discipline/Related Discipline: A master's degree is not required.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree in Criminology/Criminal Justice, Geography, History, Law, Political Science, Social Work, Sociology, or a related field is required.

Statement of Goals: In approximately 500 to 1,000 words, discuss your specific interest in Temple's program, your research goals and how they
relate to Temple’s program, your future career goals, and your academic and research achievements.

**Standardized Test Scores:**
GRE: Required. The minimum acceptable scores are 153 verbal and 144 quantitative. Applicants with scores just below are considered if other aspects of their application are especially strong.

TOEFL: 79 iBT or 550 PBT minimum

**Resume:** Current resume required.

**Writing Sample:** The writing sample should demonstrate your ability to research and write a scholarly paper. The paper should not be too lengthy (up to 10 pages is preferable) and should be fully referenced according to a professional, scholarly style manual. Although it need not be related directly to Criminal Justice, it should reflect your ability to prepare a social science paper.

**Advanced Standing:** To request advanced standing, an applicant must supply an official transcript from her/his prior graduate institution to the Graduate Chair. The transcript must clearly show “M.A. awarded” and on what date. The Graduate Committee reviews the request. Only grades of “B” or better are accepted. If the request is granted, the student receives advanced standing and is awarded a maximum of 30 credits.

**Program Requirements**

**General Program Requirements:**
*Number of Credits Required Beyond the Master’s: 18*
*Number of Credits Required Beyond the Baccalaureate: 48*

**Required Courses:**

**Culminating Events:**

**Comprehensive Examinations:**
Two comprehensive examinations must be passed. One is in "Justice," which has the Criminal Justice system as its focus. The second is in "Crime," which has theory as its focus. The purpose of the comprehensive exams is to demonstrate critical and interpretive knowledge in specialized areas of both the Criminal Justice system and Criminal Justice theory.

**Prospectus Defense:**

The prospectus defense evaluates the student’s ability to apply specific research and/or analytic methods to the questions addressed in the prospectus. The defense occurs within several weeks of the student’s advisor confirming, in writing to the Graduate Chair, that the student is ready to defend her/his prospectus.

Ideally, the prospectus defense should be completed within one academic year of the comprehensive examinations. The prospectus defense consists of a short (30-40 minute) presentation of the prospectus by the student to faculty and graduate students. Following the presentation, the Graduate Chair mediates a question-and-answer session between the student and audience. The members of the student’s Doctoral Advisory Committee normally pose the initial questions at the defense. When these have been exhausted, other audience members are asked to put forth any questions they have for the student. The defense is scheduled to last no longer than two hours.

The Doctoral Advisory Committee must evaluate the quality of the presentation and of the answers provided during the question-and-answer session. Committee members look for evidence of a breadth and depth of understanding of specific substantive and methodological areas. In addition, they gauge the student’s ability to utilize her/his knowledge to address the questions posed during the defense. Each member votes to Pass or Fail the student. Members can also vote to pass pending the completion of specified changes to the prospectus. In order to pass, a majority of the committee members must agree that the defense has been satisfactorily completed.

Students who are preparing to defend their prospectus should arrange some dates/times for the defense with the Doctoral Advisory Committee. The student should then inform the Graduate Chair of these dates/times and confirm the final date/time selected. Finally, the Graduate Chair provides confirmation of the time, date, and room.

**Dissertation:**

The dissertation is an original empirical study that makes a significant contribution to the field of Criminal Justice. It should expand the existing database and demonstrate the student’s knowledge of both research methods and a mastery of her/his primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standards of the field of Criminal Justice; demonstrate an understanding of the relationship between the primary area of interest and the broader field of Criminal Justice; and be prepared for publication in a professional journal.

The Doctoral Advisory Committee is formed to oversee the student's doctoral research and is comprised of at least three Temple Graduate Faculty members. Two members, including the Chair, must be from the Department of Criminal Justice. Committee compositions must be approved by the Department’s Graduate Committee. The Chair is responsible for overseeing and guiding the student’s progress, coordinating the responses of the Committee members, and informing the student of her/his academic progress.

The Dissertation Examinining Committee evaluates the student’s dissertation and oral defense. This committee is comprised of the Doctoral Advisory Committee and at least one additional Graduate Faculty member from outside the Department of Criminal Justice. The Outside Examiner should be identified no later than the beginning of the term in which the student will defend the dissertation. The Dissertation Examinining Committee evaluates the student’s ability to express verbally her/his research question, methodological approach, primary findings,
and implications. The Committee votes to Pass or Fail the dissertation and the defense at the conclusion of the public presentation.

If a student needs to change a member of a Committee, the new member must be approved by the Department's Graduate Committee and registered with the Graduate Secretary and the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their Doctoral Advisory Committee and register with the Graduate Secretary at least 30 days before the defense is to be scheduled. The Graduate Secretary arranges the time, date, and room and forwards to the student the appropriate paperwork. After the Graduate Secretary has arranged the time, date, and room for the defense, the student must send the Graduate School a completed "Announcement of Dissertation Defense" form, found at http://www.temple.edu/grad/forms/, at least 10 working days before the defense. The department posts flyers announcing the defense.

Decision Neuroscience, Ph.D.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program

The field of decision neuroscience provides new insights into the mechanisms that underlie a wide range of economic and social phenomena, from risky choice and consumer behavior to altruism and cooperation. It is also a primary example of truly interdisciplinary research, with people from such diverse fields as business administration, economics, engineering, neuroscience, philosophy, physics, and psychology working together to advance knowledge of mechanisms underlying decision making and decision preferences.

The interdisciplinary Ph.D. program in Decision Neuroscience in the Department of Psychology in the College of Liberal Arts is a collaborative effort with the Fox School of Business and Management. Temple University's Psychology Department has long been a leader in brain and cognitive science research. Similarly, through the efforts of its Center for Neural Decision Making (CNDM), Fox School has been at the forefront of the field of decision neuroscience over the past six years.

Students enrolled in the program gain a thorough understanding of the intellectual issues in the rapidly growing field of decision neuroscience and its subfields of neuroeconomics and neuromarketing. The program has the unique vision of integrating scientific findings with everyday real-world problems. It is designed for students who want to work at the intersection of neuroscience and business.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Full-time study is required.

Interdisciplinary Study: The program is inherently interdisciplinary.

Ranking: Over the years, the Department of Psychology's Ph.D. program has been consistently ranked among the very best by all evaluating agencies.

Job Prospects: Graduates of the program are prepared to seek tenure-track appointments either in business schools or psychology departments, depending on their approach to the program's curriculum.

Non-Matriculated Student Policy: Non-matriculated students are not permitted to take 8000-level Psychology courses.

Financing Opportunities: Both Teaching and Research Assistantships carry a stipend, full tuition remission (up to 12 credits per term depending on year and specialization), and health insurance benefits. The principal duties of a Teaching Assistant (TA) include assisting faculty members in classroom (field and observatory) instruction, conducting tutorials and discussion sections, and grading quizzes. A Research Assistant (RA) is expected to devote 20 hours per week on average to research obligations. An RA is assigned to a faculty member or principal investigator who is working on a specific research project. The appropriate subjects are determined by consultation between the student and the student’s research and academic advisors.

Admission Requirements and Deadlines

Application Deadline:
Fall: December 1
Application is made solely online. The Temple University online application is completed, and all supporting documents are then submitted online at www.interfolio.com (http://www.interfolio.com).

Applications are not evaluated until after the deadline has passed.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with the applicant's academic competence.

Master's Degree in Discipline/Related Discipline: A master's degree is not required.

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Statement of Goals: In approximately 500 to 1,000 words, state your interest in Temple's program, your research goals, your future career goals, and your academic and research achievements.

Standardized Test Scores:
GRE: Required. Minimum scores are 153 (new test) or 500 (old test) verbal; 151 (new test) or 650 (old test) quantitative; and 304 (new test) or 304 (old test) total GRE.

TOEFL: 105 iBT or 620 PBT minimum

Resume: Current resume required.

Additional Requirements:
Research Rotations:
In addition to undertaking specially designed interdisciplinary coursework, students complete research rotations during the first year of study that prepare them for independent research in the field of decision neuroscience. Students are required to complete two laboratory rotations in their first year (Fall and Spring) that would ideally be in different subfields with different mentors. Students also have the option to complete a third rotation during the Summer if they require additional exposure.

Research rotations are designed to give students a wide range of knowledge in the area of decision neuroscience by being engaged in the research of an assigned lab. When rotating through a lab (or with a research mentor), students are often paired with a senior lab member (e.g., a postdoctoral fellow or senior graduate student) to work on an ongoing research project. In some cases, they may be given a new project based on their knowledge and skill levels. Students are not, however, expected to complete a full project within an academic term.

Research Meetings:
Students are expected to attend research meetings and to be fully engaged in the research culture.

Publications:
It is expected that students will write, submit, and publish articles.

Grant Proposals:
Students are expected to prepare a grant proposal for submission to a government funding agency. Eligible students are also required to write and submit a National Research Service Award (NRSA) proposal at the end of their third year. International students who are not eligible for federal grants are encouraged to work on submissions with faculty members.

Culminating Events:
Comprehensive Examination:
The comprehensive examination is taken at the end of the second year of study. Each student must propose and defend a major area paper in her/his proposed field of research. Upon passing the exam, students choose a faculty member from either the College of Liberal Arts or Fox School as their primary mentor.
Dissertation:
The doctoral dissertation is an original empirical study that makes a significant contribution to the field. It should expand the existing knowledge and demonstrate both the student’s grasp of research methods and a mastery of her/his primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standards of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field of psychology; and be prepared for publication in a professional journal.

The Dissertation Examining Committee evaluates the student’s dissertation and oral defense, including the student’s ability to express verbally her/his research question, methodological approach, primary findings, and implications. The Dissertation Examining Committee consists of the Doctoral Advisory Committee plus at least three additional doctorally prepared individuals. The majority of the individuals on the Committee must be members of the Temple University Graduate Faculty. The Dissertation Examining Committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

If a student needs to change a member of either the Doctoral Advisory Committee or the Dissertation Examining Committee, the new member must be approved by the Departmental Chair and registered with the department’s Graduate Secretary and the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Graduate Secretary at least 15 days before the defense is to be scheduled. The Graduate Secretary arranges the time, date, and room within two working days, and forwards to the student the appropriate forms.

After the Graduate Secretary has arranged the time, date, and room for the defense, the student must send to the Graduate School a completed “Announcement of Dissertation Defense” form, found at http://www.temple.edu/grad/forms/, at least 10 working days before the defense. The Department posts announcements of the defense, and the Graduate School lists the defense on its website.

Economics, M.A.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program

The M.A. in Economics prepares the student to understand contemporary economic theory and its application to problems arising in industry, business, and government. The program gives the student an opportunity to specialize in a specific area of economics or follow a general course of study.

Time Limit for Degree Completion: 3 years, although a student whose advisor certifies that s/he is making satisfactory progress may apply for an extension of her/his program for up to a maximum of 5 years

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 5:30 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: An interdisciplinary track is available with the Department of Finance in the Fox School of Business and Management.

Areas of Specialization: The program allows specialization in several areas:
1. Econometrics
2. Health Economics
3. International Economics
4. Labor
5. Quantitative Macroeconomics

Job Prospects: The program is primarily dedicated to producing well-trained researchers and managers in the field of Economics. Many students go on to enter Ph.D. programs.

Non-Matriculated Student Policy: Students may enroll in up to 9 credits with the permission of the Graduate Director. Minimum undergraduate GPA requirements apply.

Financing Opportunities: Financial aid may be available to students through the University. For information on financial aid, please contact Student Financial Services at 215-204-2244.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1

Although students are admitted in both the Fall and Spring terms, applicants without previous graduate coursework in Economics are advised to apply for the Fall. Students seeking Spring admission should contact the Graduate Director to determine whether they have the appropriate background. Late applications may be considered for admission.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with the applicant’s academic competence and/or immediate work supervisor.

Coursework Required for Admission Consideration: Details on appropriate background are available from the department upon request.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree is required. Details on appropriate disciplines are available from the department.

Statement of Goals: Approximately 500 to 1,000 words include your specific interest in Temple’s program, your research goals, your future career goals, and your academic and research achievements.

Standardized Test Scores:
GRE: Required. Scores are typically in the 60th to 99th percentile on the quantitative section and in the 45th to 99th percentile on the verbal section.

TOEFL: 79 iBT or 550 PBT minimum

Transfer Credit: A grade of "B" or better must have been earned in a peer M.A. program course in order for the credit to transfer. The maximum number of credits a student may transfer is 6.

Program Requirements

General Program Requirements:
Number of Didactic Credits Required Beyond the Baccalaureate: 30

Required Courses:

Economics, Ph.D.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program

The Ph.D. in Economics is designed to prepare the student for university teaching and research as well as for positions as economists in business, government, and industry. The program emphasizes the development of advanced research and scholarship skills in applied economics areas, including applied econometrics, economic development, financial economics, industrial organization, international economics, and labor economics. The program has a strong track record of placing its graduates in desirable positions.

Time Limit for Degree Completion: 7 years
Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 5:30 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: Interdisciplinary tracks may be established with other departments.

Areas of Specialization: The Economics faculty focus their research in the major areas of applied econometrics, development economics, financial economics, industrial organization, international economics, and labor economics.

Job Prospects: The program is dedicated to producing well-trained researchers to work in academic positions and research-oriented jobs in companies, think tanks, government, and other institutions.

Non-Matriculated Student Policy: Non-matriculated students are permitted to take doctoral courses when granted an exception. Students may enroll in up to 9 credits with the permission of the Economics Graduate Director. Minimum undergraduate GPA requirements apply.

Financing Opportunities: The Economics Department has a limited number of Ph.D. assistantships that are awarded to exceptionally good candidates on a competitive basis. The assistantship requires 20 hours of service per week, which can include teaching and/or supervised research. An assistantship provides a stipend, tuition remission, and health insurance.

Admission Requirements and Deadlines

Application Deadline:

Fall: January 15
Spring: November 15

Applications received after the January 15 deadline will be considered, but will not receive priority for financial assistance. Spring admission is restricted to those students who have taken classes at Temple University in the Fall or who can pass the waiver exams. All other prospective students are advised to apply for Fall admission.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with the applicant’s academic competence.

Coursework Required for Admission Consideration: Details on appropriate background are available from the department upon request.

Master’s Degree in the Discipline/Related Discipline: A master’s degree is not required.

Bachelor’s Degree in the Discipline/Related Discipline: A baccalaureate degree is required. Details on appropriate disciplines are available from the department.

Statement of Goals: Approximately 500 to 1,000 words include your specific interest in Temple’s program, your research goals, your future career goals, and your academic and research achievements.

Standardized Test Scores:

GRE: Required. Scores are typically in the 65th to 99th percentile on the quantitative section and in the 50th to 99th percentile on the verbal section.

TOEFL: 79 iBT or 550 PBT minimum

Transfer Credit: A grade of “B” or better must have been earned in a peer graduate program course in order for the credit to transfer. The maximum number of credits a student may transfer is 9.

Total Credit Hours: 42

1 These courses can be waived upon passing the departmental waiver exams.
2 Upon finishing coursework, the student enters the research stage, which involves studying Economic literature and models, preparing a dissertation proposal, and writing a dissertation. This process is structured and monitored by the use of ECON 9994 Field Examination/Dissertation Proposal Research, ECON 9998 Dissertation Proposal Research, and ECON 9999 Doctoral Thesis Research.
3 ECON 9994 is designed for students who have finished all coursework and passed the theory prelims. Along with preparing for the field exams, they must choose a topic and start researching their dissertation proposal.
4 ECON 9998 is designed for students who have passed all theory and field qualifying exams. The students are expected to complete their dissertation proposal and submit it to the Graduate Affairs Committee for consideration.
5 ECON 9999 is designed for students who have an accepted dissertation proposal. Their research should be divided into several stages, each leading to a successful dissertation defense.

Culminating Events:

Preliminary Examinations:

The purpose of the preliminary examinations is to demonstrate critical and interpretive knowledge of current research. There are two theory
exams, one each in microeconomics and in macroeconomics, and two field exams. The theory exams must be passed by the end of the second year, while the field exams must be completed within three terms of passing the last theory exam.

The subject areas of the field exams are chosen by the student, in consultation with the Graduate Director. To prepare for a field exam, the student must take one or two courses in the subject area. The number of required courses is specified by the Field Examination Committee. If a required course is not offered, it can be substituted by ECON 9183 Directed Study. Students who are preparing to write their preliminary examinations should confirm a time and date with their departmental advisor.

Members of the Economics Department write the questions for the preliminary examinations. The student must answer every question on the examination in order to be evaluated. The Department Committee evaluates the examination. The evaluators look for a breadth and depth of understanding of specific research areas; a critical application of that knowledge to specific phenomena; and an ability to write technical prose. Each member votes to pass or fail the student. In order to pass, a majority of the committee members must agree that the exam has been satisfactorily completed.

Dissertation Proposal:
The dissertation proposal demonstrates the student’s knowledge of and ability to conduct the proposed research. The proposal should consist of the following:

1. the context and background surrounding a particular research problem,
2. an exhaustive survey and review of literature related to the problem, and
3. a detailed methodological plan for investigating the problem.

The proposal should be completed and approved no more than one year after passing the last field exam. Upon approval, a timeline for completing the investigation and the writing process is established.

Dissertation:
The doctoral dissertation is an original empirical study that makes a significant contribution to the field. It should expand the existing knowledge and demonstrate the student's knowledge of both research methods and a mastery of her/his primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standard of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader discipline of Economics; and be prepared for publication in an academic journal.

The Doctoral Advisory Committee is formed to oversee the student's doctoral research and is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be from the department. The Chair is responsible for overseeing and guiding the student's progress, coordinating the responses of the committee members, and informing the student of her/his academic progress.

If any member of the Doctoral Advisory Committee decides to withdraw from the committee, the student shall notify the Chair of the committee and the Director of the Ph.D. program. The student is responsible for finding a replacement, in consultation with the Chair. Inability to find a replacement shall constitute evidence that the student is unable to complete the dissertation. In such a case, the student may petition the Director of the Ph.D. program for a review. Once a review of the facts and circumstances is completed, the Director rules on the student's progress. If the Director rules that the student is incapable of completing the dissertation, s/he is dismissed from the program. This decision may be appealed to the Associate Dean of the College of Liberal Arts and, if necessary, to the Graduate School.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense. This committee is comprised of the Doctoral Advisory Committee and at least one additional faculty member from outside the department. It examines the student's ability to express verbally her/his research topic, methodological approach, primary findings, and implications. The committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

Students preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Graduate Secretary at least 15 days before the defense is to be scheduled. The Graduate Secretary arranges the time, date, and room within two working days, and forwards the appropriate forms to the student. The student then sends a completed "Announcement of Dissertation Defense" form, found at http://www.temple.edu/grad/forms/, at least 10 working days before the defense to the Graduate School. The Economics Department posts an announcement of the defense.

English, M.A.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program

The English program enjoys a high reputation for teaching and research in both traditional and innovative areas of literary history and literary criticism. The graduate program prides itself on providing students with the advantages of studying at a Research I institution in a diversity-filled urban environment.

Full-Time/Part-Time Status: In order to be certified as full-time, a student must engage in at least 9 credits of coursework each term or the equivalent in supervised teaching, dissertation research, or writing. In special circumstances, the department permits part-time enrollment, but such students are not exempt from the guidelines concerning reasonable academic progress toward the degree.

Time Limit for Degree Completion: 3 years

Campus Location: Main and Center City. Every summer, the department offers the Rome Seminar in Art and Culture.

Study Abroad: The Rome Seminar in Art and Culture is offered in the Summer term at Temple University's Rome campus, the Villa Caproni. This 6-credit graduate seminar is designed to bring together the disciplines of aesthetics and cultural studies. In its interdisciplinary thrust, the seminar is intended to serve as a foundation for advanced study in the human sciences and to reflect the most current trends of thought in post-modern culture. Applications are welcome from advanced undergraduate, graduate, and postdoctoral students in fields such as art, film studies, literature, philosophy, and social theory. The seminar entails an intensive program of classwork, field trips, and guest lectures. The city of Rome is used extensively as a resource. Accommodations are available in a Temple student Residenza or through student-arranged living accommodations in advance. All classes are taught in English.

Areas of Specialization: The literature faculty is unusually productive in both emerging and traditional areas of literary scholarship. The M.A. program provides options for intensive study in critical theory, cultural theory, film theory, interdisciplinary methods, minority literature, and women's studies. Traditional areas of study include Renaissance, eighteenth-century, nineteenth-century, modern, and contemporary literature, as well as rhetoric and composition.

Job Prospects: Graduates find jobs in the Philadelphia area and in all parts of the United States as teachers, editors, journalists, and in all professions that value writing and critical thinking.

Non-Matriculated Student Policy: Non-matriculated students are restricted from taking English courses.

Financing Opportunities: Assistantship monies are typically reserved for doctoral students.

Admission Requirements and Deadlines

Application Deadline:

Fall: December 15

Applications are evaluated together after the deadline has passed.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with the applicant's academic abilities.

Coursework Required for Admission Consideration: An applicant should hold an undergraduate degree in English or have completed equivalent coursework in English and American literature.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree is required in a Humanities discipline. A wide range of literature courses should have been taken.

Statement of Goals: Approximately 600 to 1,000 words include your research goals; your particular interest in the Temple English graduate program; and your future goals.

Standardized Test Scores:

GRE: Required. Scores on the verbal section are most important on the general test.

GRE Subject Exam in Literature: Required. Subject test scores are highly considered. A low score does not exclude an applicant from consideration, if other application materials are strong.

TOEFL: 105 iBT or 620 PBT minimum

Resume: Current resume required.

Writing Sample: The writing sample should be a work of literary criticism, not creative writing, approximately 12 to 15 pages in length. It should represent the best of its author's critical and writing abilities.

Program Requirements

General Program Requirements:

Number of Credits Required Beyond the Baccalaureate: 30

Required Courses:

Coursework, including at least one advanced-level (8000 to 9000-level) seminar

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 9996</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credit Hours: 30

Language Examination: Students must demonstrate a reading knowledge of one foreign language.

Culminating Events:

Qualifying Paper:

While enrolled in ENG 9996, students must write one qualifying paper that demonstrates the student's ability to write perceptively, lucidly, and at length (4,000-6,000 words) on a literary subject. Typically a substantial revision of a paper submitted for a previous course, the qualifying
paper is to be submitted in the last term of coursework. A sponsor on the Graduate Faculty must approve it for submission to the Graduate Director. Then, two members of the English Graduate Faculty other than the paper's sponsor review it. The readers may accept the essay, ask for revisions, or fail it. The paper must receive a passing grade from at least one of the non-sponsoring readers. An essay that has been failed by two readers is not accepted as an M.A. qualifying paper. With the permission of the Graduate Director, the student may revise the essay. An essay that has been revised at a reader's request must be resubmitted to the same reader to certify that the objections have been met.

English, Ph.D.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program

The English program enjoys a high reputation for teaching and research in both traditional and innovative areas of literary history and literary criticism. The graduate program prides itself on providing students with the advantages of studying at a Research I institution in a diversity-filled urban environment. Temple University is the only public university in the Philadelphia area offering a doctoral concentration in rhetoric and composition.

Time Limit for Degree Completion: 7 years

Campus Location: Main and Center City. Every summer, the department offers the Rome Seminar in Art and Culture.

Full-Time/Part-Time Status: In order to be certified as full-time, a student must engage in at least 9 credits of coursework each term or the equivalent in supervised teaching, dissertation research, or writing. In special circumstances, the department permits part-time enrollment, but no student is exempt from the guidelines concerning reasonable academic progress toward the degree.

Interdisciplinary Study: Students are encouraged to engage in serious interdisciplinary projects and to work closely with a faculty member engaged in research and publications projects that take them regularly into the areas of History, Philosophy, Psychology, the arts, and non-print media.

Affiliation(s): Affiliations include the Association of Departments of English (ADE) and the Modern Language Association (MLA).

Study Abroad: The Rome Seminar in Art and Culture is offered in the Summer term at Temple University's Rome campus, the Villa Caproni. This 6-credit graduate seminar is designed to bring together the disciplines of aesthetics and cultural studies. In its interdisciplinary thrust, the seminar is intended to serve as a foundation for advanced study in the human sciences and to reflect the most current trends of thought in post-modern culture. Applications are welcome from advanced undergraduate, graduate, and postdoctoral students in fields such as art, film studies, literature, philosophy, and social theory. The seminar entails an intensive program of classwork, field trips, and guest lectures. The city of Rome is used extensively as a resource. Accommodations are available in a Temple student Residenza or through student-arranged living accommodations in advance. All classes are taught in English.

Areas of Specialization: The literature faculty is unusually productive in both emerging and traditional areas of literary scholarship. The doctoral program provides options for intensive study in critical theory, cultural theory, film theory, interdisciplinary methods, minority literature, and women's studies. Traditional areas of study include Renaissance, eighteenth-century, nineteenth-century, modern, and contemporary literature, as well as rhetoric and composition.

Job Prospects: The majority of graduates hold tenure-track positions at colleges and universities. A smaller number are non-tenure track faculty, while some work in publishing, foundations, or corporate positions. Graduates tend to find placement in the Northeast, demonstrating that the program continues to serve and enrich the region as it has traditionally. Increasingly, however, the program's graduates have taken jobs outside the region in such locations as California, New York, Ohio, and Wisconsin.

Non-Matriculated Student Policy: Non-matriculated students are restricted from taking English courses.

Financing Opportunities: Students are encouraged to apply for a Teaching Assistantship, which includes a tuition waiver and a stipend for the nine months of the academic year. Conditions of the award are determined by the graduate student union contract with Temple University and currently require recipients to perform a combination of teaching and other assignments. Applications are submitted along with admissions applications by December 15. The department makes funding offers on or before March 31.
Admission Requirements and Deadlines

Application Deadline:

Fall: December 15

Applications are evaluated together after the deadline has passed.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with the applicant's academic abilities.

Coursework Required for Admission Consideration: The applicant should have completed an undergraduate concentration in English covering a broad chronological range.

Master's Degree in Discipline/Related Discipline: A master's degree is not required.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree in English is required.

Statement of Goals: Approximately 600 to 1,000 words include your research goals; your particular interest in the Temple English graduate program; and your future goals.

Standardized Test Scores:
GRE: Required. Scores on the verbal section are most important on the general test.

GRE Subject Exam in Literature: Required. Subject test scores are highly considered. A low score does not exclude an applicant from consideration, if other application materials are strong.

TOEFL: 105 iBT or 620 PBT minimum

Resume: Current resume required.

Writing Sample: The writing sample should be a literary critical essay, not a piece of creative writing, approximately 12 to 15 pages in length. It should represent the work that is to be continued in graduate school as well as the abilities the author brings to the program.

Advanced Standing: Students who have earned graduate credits or a master's degree in English from another institution can transfer credits toward the coursework requirement for the Ph.D. All transfer students must take ENG 9001 unless they have completed comparable coursework elsewhere. The maximum number of advanced standing credits awarded is 15.

Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Baccalaureate: 48

Required Courses:

Core Courses
ENG 9001 Introduction to Graduate Study 3

One course in Concentrated Textual Analysis with a focus on a single author or single text 3

Electives

Select 7 courses in consultation with the Graduate Director and, in the final year, the student's dissertation advisor

Non-Didactic Courses

ENG 9996 Master's Essay
ENG 9998 Pre-Dissertation Research
ENG 9999 Dissertation Research

Total Credit Hours 48

1 At least one of the core courses must also be in Pre-1800 Literature, and at least one must be an advanced-level seminar. The latter requirement can be satisfied for all Teaching Assistants by taking the required ENG 9087 Composition Practicum.

2 At least 2 of the 6 credits must be in ENG 9999 Dissertation Research.

Language Examination: Students must demonstrate a reading knowledge of one foreign language.

Culminating Events:

Preliminary Examination:
The preliminary examination, together with successful completion of coursework, should demonstrate special competence in two areas. Students define these areas by writing a protocol and constructing two reading lists, one for each area. The protocol is an explanation and justification of the two reading lists in terms of professional aims. It demonstrates competence in generally recognized areas of teaching and scholarship and explains how the fields chosen will advance the student's research. Students who are preparing to take their preliminary examination should confirm a time and date with the Chair of their Preliminary Examinations Committee and register with the Graduate Secretary. The student and Chair receive confirmation of the time, date, room, and proctor for the examination.

The preliminary examination should be completed within one year of finishing coursework. The subject areas are determined, in advance, by the student and the Preliminary Examinations Committee. The exam consists of a written and an oral component. The written exam is normally taken in two sessions. The questions for each session generally do not exceed seven, from which the student chooses three. Members of the student's Preliminary Examinations Committee write the questions for the preliminary exam. All members of the Preliminary Examinations Committee read the entire written examination and issue a grade of Pass or Fail. The essays are judged on the basis of their demonstrable mastery of the material on the list and their analytical strength. If two members of the committee grade the exam as failed, the student does not pass the written examination. Students failing the exam retake the entire exam no later than the following academic term. Students who fail the written examination twice are dismissed from the program.

After passing the written exam, the student proceeds to a one-hour oral exam. The oral must be held no more than three weeks after taking the written examination. At the oral, students should demonstrate their competence in both exam fields. They have the opportunity to discuss their written essays. The exam must be graded Pass or Fail. If the student fails the oral exam, it may be retaken once no later than the following academic term. Students who fail the oral examination twice are dismissed from the program. If the committee finds that the student's...
combined performance on both the written and oral portions of the preliminary examination is exceptionally meritorious, the committee may acknowledge this by including the designation Preliminary Examinations Honors.

**Dissertation Proposal:**

The dissertation proposal should:

- identify the key issues to be investigated;
- demonstrate an awareness of the relevant scholarship in the field; and
- provide a detailed outline of the proposed dissertation.

**Dissertation:**

The dissertation should demonstrate the student's ability to conceive, research, and write a scholarly project of at least 150 pages. The student's doctoral research is overseen by the Doctoral Advisory Committee, which consists of at least three Graduate Faculty members. Two members, including the Chair, must be from the English Department. Committee compositions must be approved by the department's graduate committee. The Chair is responsible for overseeing and guiding the student's progress; coordinating the responses of the committee members; and informing the student of her/his academic progress.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense, including the student's ability to express verbally her/his research question, methodological approach, primary findings, and implications. This committee is comprised of the Doctoral Advisory Committee and at least one additional Graduate Faculty member from outside the English Department. The Outside Examiner should be identified no later than the beginning of the term in which the student will defend the dissertation. The committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

If a student wishes to change a member of a committee, the new member must be approved by the department's graduate executive committee and registered with the Graduate Secretary and the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Graduate Secretary at least 10 working days before the defense. The department posts notices announcing the defense.

**Geographic Information Systems, P.S.M.**

**COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)**

**About the Program**

The Department of Geography and Urban Studies offers graduate work leading to the Professional Science Master's (P.S.M.) degree in Geographic Information Systems (GIS). The program combines advanced training in GIS core skills with professional development and business ethics to prepare students to enter the GIS workforce. Our courses introduce students to a variety of cutting-edge spatial analysis technology and mapping software. The Department of Geography and Urban Studies faculty have expertise in a range of GIS applications, including urban, health, environment, business, location analysis, geovisualization, and remote sensing. The program curriculum is informed by an advisory board of industry professionals and incorporates real-world experiences through project-based learning and an internship capstone requirement. Graduates are well prepared to pursue certification as a GIS professional (GISP).

**Time Limit for Degree Completion:** 3 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis. Full-time students can complete the program in one calendar year. Part-time students are expected to complete the program in 3 years.

**Affiliation(s):** The program is an affiliated Professional Science Master's program.

**Areas of Specialization:** The program specializes in Geographic Information Systems and offers coursework in cartography, geospatial programming, spatial database design, spatial statistics, web mapping, geovisualization, and several applied areas. The Department offers
students the opportunity to learn in research laboratory settings equipped with the latest technologies.

**Job Prospects:** The program will train a workforce that is highly competent to meet the challenges faced by public, regulated, and private sector industries and also adaptable to the future needs of the industries. It provides access to a professional career, requiring both technical skills and professional development training in areas related to business, policy, and ethics. The program will enable students to match their specialized training in GIS with substantive fields that utilize such training, including criminology, epidemiology, national security, urban and regional planning, and the natural and environmental sciences.

**Non-Matriculated Student Policy:** Non-matriculated students may take up to 9 credits prior to matriculation. If accepted into the program, these credits may be applied toward the degree.

**Funding Opportunities:** Typically, the Department does not provide financial assistance to students at the master's level. Teaching and Research Assistantships are reserved for Ph.D. students.

**Admission Requirements and Deadlines**

**Application Deadline:**
- **Fall:** March 1
- **Spring:** November 1
- **Summer:** April 15

Full-time students intending to complete the program in a single year are expected to matriculate in the Fall term. Students planning to complete the program part-time may matriculate in Fall or Spring. Late applications may be considered for admission.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

**Number Required:** 3

**From Whom:** Letters of recommendation should be obtained from college/university faculty members or professional references familiar with the applicant's academic competence. The recommendations may be submitted on the "Reference Report for Graduate Study," found at [http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf](http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf), or as a traditional letter of recommendation. If the latter, the letters can be sent either electronically or in hard copy to the Admissions Coordinator. If sent electronically, letters must be signed and attached as a PDF on official letterhead.

**Coursework Required for Admission Consideration:** No specific coursework is required as applicants are drawn from a variety of disciplines.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree in any field is appropriate. An undergraduate GPA of 3.0 or an undergraduate GPA of 2.5 with 2 to 4 years of relevant professional experience is preferred.

**Statement of Goals:** Approximately 500 to 1,000 words include why you are interested in this program; your research and academic goals; your future career goals; your academic and research achievements; and any other information that you believe will be helpful in evaluating your application.

**Standardized Test Scores:**
- TOEFL: 88 iBT or 575 PBT minimum

**Resume:** Current resume required. Resumes can be submitted electronically to the Admissions Coordinator.

**Transfer Credit:** Applicable graduate coursework may be transferred from outside the University, provided that the credits were obtained no more than five years prior to the student's matriculation at Temple and the grades are "B" or better. The credits must be equivalent to coursework offered at Temple. The maximum number of credits a student may transfer is 6.

**Program Requirements**

**General Program Requirements:**
- **Number of Credits Required Beyond the Baccalaureate:** 30

**Required Courses:**

**Core Courses**
- GUS 5162 Advanced Statistics for Urban Applications 3
- GUS 8065 Cartographic Design 3
- GUS 8066 Application Development for Geographic Information Systems 3
- GUS 8067 Spatial Database Design 3
- GUS 8069 GIS Ethics and Professional Practice 3

**Electives** 12

**Capstone Course**
- GUS 9187 GIS Capstone 3

**Total Credit Hours** 30

1 Select four electives from a departmental list of approved courses. GUS 5062 Fundamentals of Geographical Information Systems must be taken as an elective if the student has not completed equivalent coursework or lacks equivalent professional experience, as determined by the faculty advisor.

**Culminating Events:**

**GIS Capstone:**
- The GIS Capstone course (GUS 9187) provides an experiential and industry-relevant learning experience for students matriculated in the GIS Professional Science Master's program at Temple. Students engage in a structured internship experience (140 hours during the term) identified with the guidance of P.S.M. faculty at Temple and a prospective employer. The student completes a GIS-oriented project during the internship that draws on the GIS science and professional skills developed through the P.S.M. curriculum.

**Department Information:**
- Dept. of Geography and Urban Studies
  - 308 Gladfelter Hall
  - 1115 Polett Walk
About the Program

The Department of Geography and Urban Studies offers graduate work leading to the Master of Arts degree. The program prepares students for further study and for careers in academia, community organizing and social change efforts, economic development, environmental management, geographic systems management, and planning and public administration. Throughout, emphasis is placed on the development of research techniques and analytical skills applicable to problem solving.

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: Faculty members in the Department of Geography and Urban Studies hold doctoral degrees in a half dozen different social sciences. Even beyond the interdisciplinary expertise of the departmental faculty, the program draws on the expertise of Graduate Faculty conducting research and teaching courses in related departments across the university.

Affiliation(s): The program is affiliated with the Association of American Geographers and the Urban Affairs Association.

Areas of Specialization: The graduate program in Geography and Urban Studies emphasizes study and research in the areas of environmental issues, gender and race, geographic methods, international development, social and spatial theory, and urban development. Areas of applied work include cartography, environmental analysis, geographic information science, land-use planning and management, and regional development. The Department offers students a chance to be trained in geographic information science in a research laboratory equipped with the latest technology.

Job Prospects: Graduates have continued their education by pursuing doctoral degrees in some of the nation's most prestigious Ph.D. programs. Graduates also find employment in public sector agencies that deal with environmental planning, land use, and urban problems. In addition, they work for quasi-public social service institutions that address various needs of urban residents, as well as for private sector firms whose business requires an understanding of urban and spatial dynamics.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits prior to matriculation. If accepted into the program, these credits may be applied toward the degree.

Funding Opportunities: Typically, the Department does not provide financial assistance to students at the master's level. Teaching and Research Assistantships are reserved for Ph.D. students.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1

Applications may be reviewed prior to the deadlines. Although students are sometimes admitted for the Spring term, the Department encourages applicants to apply for the Fall term since the program sequence is designed to begin at that time.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with the applicant's academic competence. The recommendations may be submitted on the "Reference Report for Graduate Study," found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf, or as a traditional letter of recommendation. If the latter, the letters can be sent either electronically or in hard copy to the Admissions Coordinator. If sent
electronically, letters must be signed and attached as a PDF on official letterhead.

Coursework Required for Admission Consideration: No specific coursework is required as applicants are drawn from a variety of disciplines.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree in any of the social sciences is appropriate. A bachelor's degree in another discipline may also be considered.

Statement of Goals: Approximately 500-1,000 words include why you are interested in Temple's Geography and Urban Studies program; your research and academic goals; your future career goals; your academic and research achievements; and any other information that you believe will be helpful in evaluating your application. The Graduate Admissions Committee is particularly interested in students' interests and goals and whether they fit with our program offerings and faculty interests.

Standardized Test Scores:
GRE: Required. A combined score of at least 297 (new test) or 1,000 (old test) is required for the quantitative and verbal sections of the exam.

TOEFL: 88 iBT or 575 PBT minimum

Resume: Current resume required. Resumes can be submitted electronically to the Admissions Coordinator.

Writing Sample: At its discretion, the Graduate Admissions Committee may request a writing sample.

Transfer Credit: Applicable graduate coursework may be transferred from outside the University, provided that the credits were obtained no more than five years prior to the student's matriculation at Temple and the grades are "B" or better. The credits must be equivalent to coursework offered at Temple. The maximum number of credits a student may transfer is 6.

Culminating Events:
Master's Research Paper:
In a student's final term, s/he develops a high-quality paper on a topic of her/his choice. Students meet as a class to facilitate their projects. The class is graded on a pass/fail basis. The course instructor evaluates the paper and determines whether the student passes the class.

Geography and Urban Studies, Ph.D.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program

The Ph.D. program trains students in interdisciplinary and spatially integrative frameworks and equips them with specialized skills to pursue cutting-edge research and to address real-world conditions. The program draws on its Philadelphia location to provide students with opportunities to engage in public policy and urban research. Students can utilize the faculty's linkages with community-based organizations, educational institutions, non-governmental organizations, and public agencies, as well as their work in social movements in the local region, many other regions in the United States, and international locations.

Time Limit for Degree Completion: 7 years

Campus Location: Main
**Full-Time/Part-Time Status:** Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** The faculty members of the Department of Geography and Urban Studies hold doctoral degrees in geography, urban and regional planning, and other social sciences. Even beyond the interdisciplinary expertise of the departmental faculty, the program draws on the expertise of Graduate Faculty conducting research and teaching courses in related departments across the university.

**Affiliation(s):** The program is affiliated with the Association of American Geographers and the Urban Affairs Association.

**Areas of Specialization:** The graduate program in Geography and Urban Studies focuses on the themes of globalization, social justice, and sustainability as lenses through which to examine the development of urban regions. Our emphasis on globalization focuses on capital and labor flows, welfare state restructuring, identity, culture, and concepts of citizenship. In the realm of social justice, interest lies in how globalization exacerbates uneven development and contributes to increasing inequalities both between and within places, including economic inequalities, gender, and race/ethnicity. Our work on sustainability encompasses comparative dimensions of environmental sustainability on the national and global scales, environmental justice, land use/land cover analysis, sprawled development patterns, and urban ecology. As an integrative graduate program, the curriculum connects these processes, giving students a strong analytical foundation that stresses nature and societal relations, place and context, scale transitions, and spatial relations.

**Job Prospects:** Graduates are typically employed in academic settings as teaching-research scholars in geography and in interdisciplinary fields such as environmental studies, international studies, and urban studies. They also serve research-oriented organizations such as non-governmental organizations, policy institutes, and think tanks as applied researchers and administrators.

**Non-Matriculated Student Policy:** Non-matriculated students may take up to 9 credits prior to matriculation. If accepted into the program, these credits may be applied toward the degree.

**Funding Opportunities:** Financial support is available to graduate students through a variety of university and departmental teaching and research assistantships, fellowships, and awards. Most assistantships and fellowships carry a stipend plus a tuition waiver. Assistantships typically require 20 hours of work per week devoted to assisting faculty with either teaching or research. Teaching Assistants grade papers, lead discussion sections, and occasionally lecture in large undergraduate classes. Advanced graduate students are sometimes assigned their own undergraduate class to teach.

In recent years, a number of graduate students have been supported by externally funded faculty research projects. Positions on funded research projects may include full or partial tuition coverage in addition to the stipend for up to 20 hours of work per week. The timing and availability of such opportunities depend on the status of faculty research projects and external grants.

**Admission Requirements and Deadlines**

**Application Deadline:**

*Fall: January 15*

Applications may be evaluated before the deadline, if submitted early, and after the deadline at the discretion of the Graduate Chair.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

*Number Required: 3*

**From Whom:** Letters of recommendation should be obtained from college/university faculty members familiar with the applicant's academic competence. The recommendations may be submitted on the "Reference Report for Graduate Study," found at [http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCES_REPORT.pdf](http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCES_REPORT.pdf), or as a traditional letter of recommendation. If the latter, the letters can be sent either electronically or in hard copy to the Admissions Coordinator. If sent electronically, letters must be signed and attached as a PDF on official letterhead.

**Coursework Required for Admission Consideration:** No specific coursework is required as applicants are drawn from a variety of disciplines.

**Master’s Degree in Discipline/Related Discipline:** A master’s degree is not required but is highly recommended.

**Bachelor’s Degree in Discipline/Related Discipline:** A baccalaureate degree is required. It should have been earned in Criminal Justice, Economics, Geography, Political Science, Psychology, Sociology, or Urban Studies, among other disciplines.

**Statement of Goals:** Approximately 500-1,000 words include why you are interested in Temple’s Geography and Urban Studies program; your research and academic goals; your future career goals; your academic and research achievements; and any other information that you believe will be helpful in evaluating your application. The Graduate Admissions Committee is particularly interested in students’ interests and goals and whether they fit with our program offerings and faculty interests.

**Standardized Test Scores:**

*GRE: Required. A combined score of at least 300 (new test) or 1,000 (old test) is required for the quantitative and verbal sections of the exam.*

*TOEFL: 88 iBT or 575 PBT minimum*

**Resume:** Current resume required. Resumes can be submitted electronically to the Admissions Coordinator.

**Writing Sample:** At its discretion, the Graduate Admissions Committee may request a writing sample.

**Advanced Standing Credit:** Graduate coursework taken at an accredited institution as part of a master’s degree program prior to matriculation at Temple may be accepted for Advanced Standing Credit. An applicant must supply an official transcript from her/his prior graduate institution to the Graduate Chair. The Graduate Admissions Committee reviews the request. Only grades of “B” or better can be accepted. If the request is granted, the student receives advanced standing and is awarded a maximum of 24 credits. Normally, these credits should have been earned no more than five years prior to the student's matriculation at Temple.

**Program Requirements**

**General Program Requirements:**

*Number of Didactic Credits Required Beyond the Baccalaureate: 51*
After the meeting, the committee chair sends a letter to the Department's proposal and gives specific instructions on how the student can improve it. The committee must approve the student's proposal; the committee members give an oral presentation of the proposal. Within one term after finishing the qualifying exam, a candidate is expected to submit a more substantial preliminary dissertation. Within one year of passing the qualifying exam, a candidate is expected to submit a 5 to 6 page preliminary dissertation. The proposal defines the research problem, scholarly significance, intellectual sophistication across the fields of Geography and Urban Studies. Students are expected to demonstrate breadth of knowledge and intellectual sophistication across the fields of Geography and Urban Studies. The proposal includes additional but related questions. If the student fails the second time, s/he is recommended for academic dismissal.

Ordinarily, the exam should be administered no later than six months after coursework is completed. Several different written formats are possible, at the discretion of the committee, including a single extended paper, individual papers prepared for separate examiners, and closed or open book exams administered within a time limit. The oral portion of the exam may expand on the questions asked on the written exam. It may include additional but related questions.

Proposal:
The proposal defines the research problem, scholarly significance, pertinent literature, and methodology. It should contain an outline of the projected document and timeline for completing various tasks involved in the dissertation. Within one term after finishing the qualifying exam, a candidate is expected to submit a 5 to 6 page preliminary dissertation proposal to the Doctoral Advisory Committee. Within one year of passing the qualifying exam, a candidate is expected to submit a more substantial proposal to the committee members. When the proposal is ready, the committee chair schedules a meeting of the committee. The student gives an oral presentation of the proposal; the committee members ask questions and give suggestions. The committee must approve the proposal and give specific instructions on how the student can improve it. After the meeting, the committee chair sends a letter to the Department's Graduate Director indicating whether it has been accepted (1 credit) or rejected, and summarizing comments from the overall committee. At that time, the student is scheduled to present her/his proposal at a departmental colloquium.

Dissertation:
The Ph.D. dissertation should make an original contribution to the field of Geography and Urban Studies. The dissertation must demonstrate formulation, design, and independent execution of a significant research project. The student must complete a minimum of 4 credits of dissertation research. When no ceiling on the number of dissertation credits exists, students should note that seven years from matriculation is the time limit for completion of the degree.

When the student and the committee chair judge the dissertation complete and ready to be defended, the committee chair schedules the defense. The Coordinator arranges the time, date, and room, and forwards to the student the appropriate forms. With approval of the committee chair, the Coordinator sends a completed "Announcement of Dissertation Defense" form, found at http://www.temple.edu/grad/forms/, to the Graduate School at least 10 working days before the defense. The Coordinator notifies all members of the Dissertation Examining Committee and all faculty members and graduate students in the Department. Changes in the membership of a committee must be approved by the Department's Graduate Director. If approved, the Graduate School must be notified.

The entire Dissertation Examining Committee must attend the defense to evaluate the student's dissertation and oral defense. This committee is comprised of the Doctoral Advisory Committee and at least one additional Graduate Faculty member from outside the Department of Geography and Urban Studies. Affiliated faculty may serve as external members of the Dissertation Examining Committee. The student presents a formal lecture at the defense. The oral defense should demonstrate that the student's work satisfies the standards for original research in Geography and Urban Studies; that the candidate has mastered the appropriate methodology or methodologies; and that the candidate has an understanding of the relationship of the dissertation to the broader field. Following the public lecture and discussion, the Dissertation Examining Committee convenes in a closed session with the candidate for the defense. Directly after this session, the committee votes whether to accept or reject a completed dissertation.

Culminating Events:
Qualifying Examination:
The qualifying exam is taken after all coursework is completed. The exam has written and oral components. Students develop the parameters of the exam with their committee, which approves reading lists prepared by the student before the exam. All parts of the written exam must be passed before the student proceeds to the oral exam. The oral exam, based on the written portion, assesses the candidate's readiness to commence dissertation research.

In conjunction with her/his Graduate Advisor, each student identifies at least two other faculty members for the exam committee. At least two committee members must be GUS faculty, while the third may be from outside the Department. The Graduate Advisor/Chair and all but one of the remaining members of the examination committee must approve in order for the student to pass.

Students are expected to demonstrate breadth of knowledge and intellectual sophistication across the fields of Geography and Urban Studies. Students should be able to employ various theoretical approaches to investigate geographic and urban patterns and processes and to use data to illuminate concepts. When the student has passed the exam (1 credit), s/he achieves candidacy. If the student fails the exam, s/he is given the opportunity to retake the exam, usually within one term. If the student fails the second time, s/he is recommended for academic dismissal.

When the student and the committee chair judge the dissertation complete and ready to be defended, the committee chair schedules the defense. The Coordinator arranges the time, date, and room, and forwards to the student the appropriate forms. With approval of the committee chair, the Coordinator sends a completed "Announcement of Dissertation Defense" form, found at http://www.temple.edu/grad/forms/, to the Graduate School at least 10 working days before the defense. The Coordinator notifies all members of the Dissertation Examining Committee and all faculty members and graduate students in the Department. Changes in the membership of a committee must be approved by the Department’s Graduate Director. If approved, the Graduate School must be notified.

The entire Dissertation Examining Committee must attend the defense to evaluate the student's dissertation and oral defense. The committee is comprised of the Doctoral Advisory Committee and at least one additional Graduate Faculty member from outside the Department of Geography and Urban Studies. Affiliated faculty may serve as external members of the Dissertation Examining Committee. The student presents a formal lecture at the defense. The oral defense should demonstrate that the student’s work satisfies the standards for original research in Geography and Urban Studies; that the candidate has mastered the appropriate methodology or methodologies; and that the candidate has an understanding of the relationship of the dissertation to the broader field. Following the public lecture and discussion, the Dissertation Examining Committee convenes in a closed session with the candidate for the defense. Directly after this session, the committee votes whether to accept or reject a completed dissertation.

History, M.A.
COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program
Temple University offers a varied and flexible program for graduate training in History at the master's level. While general requirements ensure that every graduate is familiar with the basic issues of History and the latest approaches of professional historians, students are encouraged to tailor their programs to suit their own particular interests. To enrich their appreciation of History, students are also welcome to study in other disciplines. This program provides enrichment opportunities for teachers in secondary schools, students hoping to pursue history doctorates elsewhere, and professionals in various public history fields. Philadelphia is a rich public history environment with numerous opportunities for internships and fieldwork.

Time Limit for Degree Completion: 3 years, although a student whose advisor certifies that s/he is making satisfactory progress may apply for an extension of her/his program for up to a maximum of 5 years

Campus Location: Main, Center City

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The program encourages interdisciplinary coursework, research, and interactions among faculty and students.

Affiliation(s): The History program at Temple is affiliated with the Biographical Dictionary of Pennsylvania Legislators, the Center for the Study of Force and Diplomacy, The Myer and Rosaline Feinstein Center for American Jewish History, the Social Science Data Library, and Temple's Urban Archives.

Areas of Specialization: Faculty members specialize and offer substantial coursework in diplomatic and military history, environmental history, history of capitalism, modern history, public history, U.S. social and cultural history, and urban history.

Job Prospects: The program is primarily dedicated to producing well-trained historians who aspire to receive the Ph.D., teach in primary and secondary schools, and work in public history institutions (i.e., archives, museums, historical parks, and government agencies).

Non-Matriculated Student Policy: Non-matriculated students are permitted to take up to 9 credits of coursework prior to applying. These courses can be transferred into the degree program after admission only if the student earned a grade of "B" or higher.

Funding Opportunities: Funding is not offered by the History Department to students studying at the master's level.

Admission Requirements and Deadlines
Application Deadline:
Fall: February 15

Applications are evaluated together after the deadline date.

APPLY ONLINE to this graduate program and then follow these instructions for submitting your supporting application materials by using Interfolio’s Dossier service:

• Visit www.interfolio.com/ (http://www.interfolio.com) to create or log in to your Interfolio account.
• Request letters of reference from your evaluators, who will upload their letters directly, through your Interfolio account.
• Upload scanned copies of all supporting documents, including transcript(s), personal statement of goals, and writing sample to your account. Note that your GRE scores must be reported directly by ETS to institution code 2906.
• Send all required documents as one delivery to Temple University’s Department of History in three easy steps:
  a. Search “Temple University -- Department of History” in Step 1 of the “Add Delivery” process.
  b. Select and order all required documents.
  c. Check out and complete the electronic delivery.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from instructors or other individuals who are familiar with the applicant’s academic work.

Coursework Required for Admission Consideration: Applicants are expected to have majored or minored in History or a related discipline at the undergraduate level. Applicants lacking that qualification are considered on a case-by-case basis.

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Statement of Goals: Approximately 500-750 words include a clear statement of your interest in the master's program in History at Temple University and how Temple's program meets your needs; your major historical interests; your career goals; and your academic and research achievements, if applicable.

Standardized Test Scores:
GRE: Combined scores on the verbal and quantitative sections should exceed 300 (new test) or 1,050 (old test).
TOEFL: 79 iBT or 550 PBT minimum

Writing Sample: The writing sample should demonstrate an applicant's ability to conduct research and write a scholarly paper. It should be fully referenced according to a professional, scholarly style manual and should not exceed 30 pages in length.

Transfer Credit: Graduate credits from an accredited institution may be transferred into the History program. Transferred credits must be equivalent to coursework at Temple and carry a "B" grade or better. They may not have been used to obtain another degree. Incoming students may transfer a maximum of 6 credits.

Program Requirements

General Program Requirements: Number of Credits Required Beyond the Baccalaureate: 30

Required Courses:

HIST 8714 Historical Methods 3
Select one of the following: 3

HIST 8101 Introduction to American History I (to 1865) 1
HIST 8103 Studies in American Diplomatic History
HIST 8152 Managing History
HIST 8209 United States Foreign Policy in the Cold War
HIST 8301 Introduction to European History
HIST 8701 Introduction to World History
One writing seminar 3
Other coursework determined by the student's specific interests and goals
HIST 9996 Master's Thesis 2 3

Total Credit Hours 30

1 Those with a concentration in Public History are required to take both HIST 8101 and HIST 8152.
2 Students must complete 27 s.h. of coursework before registering for HIST 9996, the 3-credit M.A. Thesis Colloquium.

Internship: An internship is required only of students pursuing Public History as a primary or secondary field.

Additional Requirements:

Students in the general M.A. program must take two courses (6 credits) of coursework outside the student's primary field of study as they are prohibited from taking courses exclusively in one geographic area. Courses of a comparative nature, including independent study courses, offered in fulfillment of this geographic distribution requirement must include readings that are at least 50% outside the student's primary geographic area. HIST 9996, the M.A. Thesis Colloquium, does not satisfy this requirement. Further, the geographic distribution requirement does not apply to those with a concentration in Public History.

Culminating Events:

Thesis: All M.A. students submit and defend a master's thesis to complete the requirements for the degree. A student preparing to defend a thesis should notify the Graduate Secretary of the date and time s/he has confirmed with her/his thesis committee, which consists of the student's advisor and another member of the History Department's Graduate Faculty chosen by the student. The student must be enrolled at the time of the defense.

University-wide regulations governing an M.A. student at the time of matriculation apply throughout her/his career until the degree is received. If departmental or college regulations change, the student similarly follows the rules in place at the time of her/his matriculation unless s/he obtains approval of the advisory committee and written permission from the Graduate Council to follow more recent requirements.

History, Ph.D.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program

Temple University offers a varied and flexible program for graduate training in History on the Ph.D. level in the Philadelphia area, which is rich in historical archives and museums. While general requirements ensure that every graduate is familiar with the basic issues of History and the latest approaches of professional historians, students are encouraged to tailor their programs to suit their own particular interests. The thrust of the Ph.D. program is to prepare professional historians who are equipped to function in academia, public history, government service, or other related careers.
Time Limit for Degree Completion: 7 years

Campus Location: Main, Center City

Students take many of their courses at the Center City Campus, while preliminary examinations and dissertation defenses are conducted on Main Campus.

Full-Time/Part-Time Status: Students are required to complete the Ph.D. program on a full-time basis.

Interdisciplinary Study: The program encourages interdisciplinary coursework, research, and interactions among faculty and students.

Affiliation(s): The History program at Temple is affiliated with the Biographical Dictionary of Pennsylvania Legislators, the Center for the Study of Force and Diplomacy, The Myer and Rosaline Feinstein Center for American Jewish History, the Social Science Data Library, and Temple's Urban Archives.

Areas of Specialization: Faculty members specialize and offer substantial coursework in anti-colonial movements, cultural history, diplomatic history, gender, imperialism, international history, military history, political history, race and ethnicity, religious history, sexuality, and social history. The History Department offers training in many different historical eras; most of its doctoral students, however, write dissertations that focus on the eighteenth, nineteenth, or twentieth century. Most, but certainly not all, of the department's doctoral students focus on the history of North America.

Job Prospects: The program is primarily dedicated to producing well-trained historians who work in academia and public history.

Non-Matriculated Student Policy: Non-matriculated students are permitted to take up to 9 credits of coursework. These courses can be transferred into the degree program after their admission only if they earn a grade of "B" or higher.

Financing Opportunities:
Teaching Assistantships:
Teaching Assistants are required to teach or assist in teaching at Temple. Their duties include 20 hours of service per week. Teaching Assistants receive tuition waivers for all courses taken during the Fall and Spring terms (up to 9 credits) that contribute to the student's program, plus a stipend and health insurance benefits. All Teaching Assistants are doctoral students.

Teaching Assistantships can be renewed for up to four years. Decisions regarding Teaching Assistantships are made annually in the Spring term. New applicants for the Ph.D. program are automatically considered. Advanced Ph.D. students who are not currently Teaching Assistants and who wish to be considered should send an application to the Chair of the History Department by January 31.

Fellowships:
Presidential, University, and Future Faculty Fellowships provide support for four years. The Graduate School funds Years 1 and 4; the College of Liberal Arts funds Years 2 and 3. In addition to free tuition and health coverage, these fellowships carry a stipend. While on fellowship, the student must take a minimum of 9 credits each term during the academic year. Students are nominated for a fellowship by the department upon admission to the program.

Fellowships from the Center for the Humanities at Temple (CHAT):
CHAT Senior Doctoral Fellowships provide support to advanced doctoral students pursuing research in the humanities or humanistic social sciences in any school or college at Temple. Fellows receive funding for full-time work on their dissertation. This includes a stipend, tuition, benefits, and $500 in research funding for the term. Fellows receive office space at the Center and participate in the bi-weekly Fellows Seminar.

CHAT Graduate Teaching Fellowships provide support for research and offer the opportunity to teach innovative and interdisciplinary humanities courses. CHAT Graduate Teaching Fellowships are configured as 75% directed research or creative activity in the applicant's area of interest and 25% teaching for a course of wide humanistic concern related to that interest, as it is tied to the focus of particular departments or programs.

Our students are highly competitive for CHAT fellowships.

Dissertation Completion Grant:
Students may apply for a dissertation completion grant in their last term before graduation. Applications are due in the History Graduate Office on the second Friday in March and the second Friday in October, which is one week prior to the Graduate School deadline. The Director of Graduate Studies or the Department Chair submits a letter of nomination on behalf of each applicant. Departmental nomination does not, however, guarantee the nominee receipt of the dissertation completion grant. Note that receipt of this grant disqualifies a student from receiving further financial support from Temple University.

Appointment as Part-Time Instructor:
Ph.D. candidates are eligible for appointment as part-time instructors. The Department Chair, after consulting with the Director of Graduate Studies, is responsible for these appointments. S/he considers whether the candidate has assisted in the course and, if so, consult the faculty whom s/he has assisted. Priority is given to qualified students who have not had the opportunity previously to teach independently.

Awards and Grants:
The History Department and the Center for the Study of Force and Diplomacy provide several awards and grants annually. For more information on these, see http://www.cla.temple.edu/history/alumni-and-giving/department-awards/.

Admission Requirements and Deadlines
Application Deadline:
Fall: December 15

Applications are evaluated together after the deadline date.

APPLY ONLINE to this graduate program and then follow these instructions for submitting your supporting application materials by using Interfolio's Dossier service:

- Visit www.interfolio.com/ (http://www.interfolio.com) to create or log in to your Interfolio account.
- Request letters of reference from your evaluators, who will upload their letters directly, through your Interfolio account.
- Download, complete, and submit with your materials the History Department data sheet. Simply click on data sheet (http://www.cla.temple.edu/history/files/2014/04/History_Department_Graduate_Application_Data_Sheet.pdf).
- Upload scanned copies of all supporting documents, including transcript(s), personal statement of goals, and writing sample to your
Students should consult with their advisor for specific field requirements. Courses must be completed before the general examination can be taken. The permission of the Director of Graduate Studies is required. A minimum of 10 credits must be taken in the History Department, and students may elect to take courses outside the department with the approval of the advisor.

Doctoral students must take at least 11 courses in the History Department. The preliminary exam is a take-home exam consisting of one synthetic question covering all of American history. Students choose from two questions and have one week to write an essay of no more than 6,000 words. The exam is set by an exam committee of three to five graduate students in American History.

Writing Sample: The writing sample should demonstrate the applicant's ability to conduct research and write a scholarly paper. It should be fully referenced according to a professional, scholarly style manual and should not exceed 30 pages in length.

Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Master's: 18
Number of Credits Required Beyond the Baccalaureate: 33

Required Courses:
Doctoral students must take at least 11 courses in the History Department, and they may elect to take courses outside the department with the permission of the Director of Graduate Studies. A minimum of 10 courses must be completed before the general examination can be taken. Students should consult with their advisor for specific field requirements for the following required courses:

• Two research seminars in which a substantial piece of original research is produced; one must be taken in the first year, preferably in the second term. At least one of the two research papers must be based on primary research in a language other than English, unless the student is writing a dissertation on the history of the United States, United Kingdom, Australia, or another Anglophone country.

• One foundation seminar, normally to be taken in the first year of study. For students pursuing the U.S. field, the foundation seminar is divided into a two-course sequence; at least one course should be taken in the first year.

• One methodology seminar, normally to be taken in the first year of study.

• Two historiographic or thematic seminars that address a series of methodological and interpretive debates in the given field; one must be taken in the first year.

• Two readings seminars in the secondary or outside field.

Language Examination: All students must show competence in at least one foreign language. To demonstrate competence, a student must pass a short translation exam administered, in most cases, by the University's language departments. The dissertation advisor determines whether competence in a second language is required. The language requirement must be satisfied prior to taking the general examination. For doctoral students in American History, the language requirement may be waived at the discretion of the advisor and with the approval of the Director of Graduate Studies.

Culminating Events:

Preliminary Examination:
All doctoral students in American History take a preliminary exam in American history in the September of their third term of study. The preliminary exam is a take-home exam consisting of one synthetic question covering all of American history. Students choose from two questions and have one week to write an essay of no more than 6,000 words. The exam is set by an exam committee of three to five graduate students in American History appointed by the Director of Graduate Studies.

The Director of Graduate Studies asks all American historians in the History Department to suggest seven books for a U.S. field list. The exam committee, newly appointed each year, constructs the list in the first instance from the suggested books, and each year the committee is responsible for updating the reading list. That list is distributed to incoming doctoral students in American History when they matriculate into the program.

The term of each exam committee begins when a Ph.D. cohort enters the doctoral program in August and runs until that cohort takes its exam the following September. At the end of the Fall and Spring terms, the exam committee is responsible for conducting a workshop with first-year doctoral students in which the expectations of the preliminary exam are discussed. The exam is graded blindly by the exam committee.

Doctoral students who twice fail the preliminary exam are dismissed from the program.

General Examination:
Doctoral students in American History who pass the preliminary exam proceed to the general exam, which consists of three fields:

• One field must be geographically distinct from American history, such as Latin American history. The reading list for the geographically distinct field is limited to no more than 50 books or article equivalents.

• The other two fields are research fields, in a period or methodology, such as Early American, Early Republic, environmental, foreign
relations, gender, military, public, or urban history. Each research field is limited to no more than 70 books or article equivalents.

Doctoral students in American History must complete the general exam by the end of their fifth term. This oral exam is two hours long. Students are asked to discuss issues pertinent to their prepared fields of study. To pass the exam, all members of the committee must approve of the student’s performance. Students may retake the oral exam if they fail it. After failing twice, students are dismissed from the program.

For all doctoral students not specializing in American history, the general examination is a take-home exam. Examinees have up to two weeks to complete it. During that time, they are expected to write an original essay approximately 2,500 to 3,500 words in length for each of the three fields on the examination. Examinees should obtain the questions for the examination from and return the completed examination to the Graduate Secretary. Examinees are expected to provide the Graduate Secretary with both a hard copy and a disk that contains their completed examination.

With the written examination, students need to demonstrate their mastery of the field, their ability to explain and evaluate interpretations, and their ability to defend their own interpretation. Bibliographic citations to specific interpretations are expected. Satisfactory completion of the Ph.D. general examination requires receiving passing grades in all three fields (“general,” “dissertation,” and “distinct”).

Upon passing the written exams, students are given a two-hour oral exam by their General Examination Committee. The oral exam should be scheduled within 30 days of the beginning of the written exam. Students may be asked to defend or expand on their written exams, and may also be asked to discuss other issues pertinent to their prepared fields of study. To pass the exam, all members of the committee must approve the student’s performance.

The general examination must be completed by the end of the student’s fifth term in the doctoral program. Doctoral students who have been granted a leave of absence must complete their general examination no later than the sixth week of the sixth term in the doctoral program. (Ideally, students in the doctoral program complete their coursework by the end of the fourth term.) Failure to complete the coursework and take the general examination by the end of the fifth term of matriculation may be considered grounds for dismissal from the program.

University-wide regulations governing examinations when a Ph.D. student matriculated apply throughout her/his career until the degree is received. If departmental or college regulations change, the student similarly follows the rules in place at the time of her/his matriculation unless s/he obtains approval of the advisory committee and written permission from the Graduate Council to follow more recent requirements.

Students preparing to take their general examination should confirm times and dates with their General Examination Committee Chair, other committee members, and the Graduate Secretary. All parties involved receive confirmation of the times, dates, and rooms for the examination.

Dissertation Committee:
After passing the general exam and in consultation with the primary advisor, students select the members of their Doctoral Advisory Committee. The Doctoral Advisory Committee is formed to oversee the student's doctoral research and is comprised of at least three Graduate Faculty members, two of whom are from the History Department. The student’s primary advisor functions as the chair of this committee and is responsible for overseeing and guiding the student's progress, coordinating the responses of committee members, and informing the student of her/his academic progress.

Further, either during the process of writing the dissertation prospectus, or at some time following its approval, students, again in consultation with their primary advisor, select a qualified external reader of the dissertation. The external reader may either be on the faculty of a Temple University department other than History or a member of the faculty of a college/university other than Temple. Once s/he has agreed to serve in the capacity (and received approval from the Graduate School), s/he will be added to the Dissertation Examining Committee. The total membership of the Dissertation Examining Committee may exceed four faculty (the minimum being the three Graduate Faculty members who approved the prospectus plus the external reader). A majority of the committee’s members, however, must be Temple University History Department Graduate Faculty.

Prospectus:
All doctoral candidates must prepare a dissertation prospectus in close consultation with the advisor prior to advancing to Ph.D. candidacy. This document, usually 15 to 20 pages in length, must achieve the following goals:

1. Identify the major research question of the dissertation.
2. Situate the dissertation in the existing scholarly literature.
3. Lay out a coherent research strategy that identifies the archives and sources that will be used.
4. Include a timeline for research and writing of the dissertation.

The prospectus defense is a public event, open to History Department faculty and doctoral students. At this event, the doctoral candidate makes a brief presentation lasting approximately 10 to 20 minutes, outlining the contents of the prospectus. A copy of the dissertation prospectus is made available at least one week before the defense for examination by the faculty. During the defense, faculty and students engage the candidate in vigorous conversation about the proposed project.

The prospectus must be defended before the end of the sixth term. Failure to defend the prospectus by the end of the sixth term is grounds for dismissal from the doctoral program. At the end of the defense, the candidate’s Doctoral Advisory Committee meets privately to vote on advancing the student to Ph.D. candidacy.

Dissertation:
Dissertations must be written and defended within seven years of matriculation. Students who have made satisfactory progress toward completing their dissertation can apply for an extension of up to three additional years. Therefore, the maximum total time permitted for completing the Ph.D. program is ten years. Students in the Ph.D. program must register each term until all requirements for the degree have been fulfilled unless they receive a leave of absence.

All dissertations must be prepared in accordance with the guidelines of the Dissertation and Thesis Handbook, which is available at http://www.temple.edu/grad/. Students should arrange a procedure for submitting draft chapters for review to their primary advisor and other members of the Doctoral Advisory Committee.

When the chair and a majority of the Dissertation Examining Committee agree that the written dissertation is of sufficient quality to be defended, the student should arrange with the Committee a time for the oral defense to be held. The student should then notify the Graduate Secretary of the proposed defense date. The oral defense must be
publicly announced in writing at least ten days in advance of the date of the defense and must be open to the public. A copy of the dissertation is made available to the department at least one week before the defense for examination by the faculty.

An Oral Defense Chair must be identified. This person must be a Temple University presidential faculty member and may not be the chair of the student’s Dissertation Examining Committee.

In the event that a member of the Dissertation Examining Committee cannot attend the defense, teleconferencing or videoconferencing is arranged. This arrangement must be approved by the Graduate School prior to the defense. No more than one member of the Dissertation Examining Committee can be physically absent from the defense.

The dissertation defense is a public event, open to History Department faculty and doctoral students. At this event, the doctoral candidate makes a brief presentation, outlining the main argument of the dissertation. During the defense, faculty and students engage the candidate in a vigorous conversation about the project. At the end of the defense, the Dissertation Examining Committee meets privately to vote on the candidate’s performance. The candidate is notified immediately of the decision.

Liberal Arts, M.L.A.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program
The Master of Liberal Arts is an interdisciplinary degree that allows students to take courses from a variety of graduate programs in the College of Liberal Arts and elsewhere in the University. Students are encouraged to develop an individual program of study, based on their own interests and objectives and at the direction of the M.L.A. Program Director. Our students are generally working adults who want to grow intellectually by extending their liberal arts education. Some may be seeking to move toward a doctorate and want to prepare themselves for graduate work; others may be interested in changing careers and wish to gain post-baccalaureate experience. The M.L.A. degree might be relevant, for example, for those who want to move into educational administration, library work, public policy, the law, or teaching.

Time Limit for Degree Completion: 5 years

Campus Location: Main, Center City

Students take required and elective courses at the Main and Center City campuses.

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Continuous Enrollment: Students must maintain continuous enrollment. When a student knows that s/he will not register for the Fall or Spring term, s/he must submit a "Leave of Absence Request" form, found at http://www.temple.edu/grad/forms/, along with the $25 fee to the M.L.A. administrative office. If a student fails to register for two consecutive terms without submitting Leave of Absence forms, then s/he may be dismissed from the program for non-continuous enrollment.

Interdisciplinary Study: Students are introduced to interdisciplinary thinking through a range of "Topics" courses and encouraged to develop individual programs of study along interdisciplinary lines.

Areas of Specialization: The M.L.A. program draws on faculty from across the range of disciplines in the College of Liberal Arts, with an emphasis on applied humanities, engaging such areas as arts and culture, media studies, public history, and social theory. Students may also choose to concentrate their course of study by taking courses outside of the M.L.A. curriculum.

Job Prospects: While not a professional degree, the M.L.A. degree may be applicable to a wide range of future graduate training and/or employment: from teaching and educational administration to library work; from public policy to arts management; and from government, the law, and public service to private sector work.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits of graduate work at Temple University before applying to the program. Coursework may be credited to the M.L.A. degree with approval of the M.L.A. Advisory Committee.

Financing Opportunities: Funding opportunities are not available.

Admission Requirements and Deadlines

Application Deadline:
Fall: March 1
Spring: November 1

Applications are accepted on a rolling basis, but all application materials must be received by the deadline to be considered for that term. Late applications may be considered for admission.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be requested from individuals who are well positioned to evaluate the applicant’s academic abilities and accomplishments as well as potential for graduate study.

Bachelor’s Degree in Discipline/Related Discipline: All applicants must hold a baccalaureate degree from an accredited college or university. A minimum undergraduate GPA of 3.0 is required for admission.

Statement of Goals: Approximately 500-1,000 words include your academic and research achievements, your current research interests, and your future career goals.

Standardized Test Scores: GRE: Not required.

TOEFL: 79 iBT or 550 PBT minimum

Resume: Current academic CV or professional resume required.

Transcripts: An official transcript from each post-secondary institution attended is required.

Transfer Credit: Graduate credits from an accredited institution may be transferred into the M.L.A. program upon approval. The credits must be equivalent to coursework offered at Temple and not older than five years. The grade(s) earned must be a "B" or better in order to transfer. The maximum number of credits a student may transfer is 6.

Culminating Events:
Qualifying Paper:
All candidates for the M.L.A. degree are required to write a Qualifying Paper, which is typically 40 to 50 pages in length. It should demonstrate the student's ability to:

- write analytically on a topic of her/his choice;
- read, absorb, and evaluate scholarly thought and research; and
- develop and establish her/his own perspective on the problem being examined.

The Qualifying Paper is submitted for approval to the M.L.A. Advisory Committee or other graduate faculty chosen by the M.L.A. program. Revisions may be requested.

Neuroscience: Systems, Behavior and Plasticity, M.S.

College of Liberal Arts (http://www.cla.temple.edu)

About the Program

Neuroscience is the study of the nervous system, including the brain, spinal cord, networks of nerve cells called neurons, and how these cells interact to generate behavior. This is a rapidly evolving field with applications ranging from health disciplines to economics and public policy. The philosophical goal of the M.S. program in Neuroscience: Systems, Behavior and Plasticity is to provide advanced training in neuroscience and professional development via coursework and a faculty-mentored research experience to students who have completed an undergraduate major in Neuroscience or a closely related scientific area and who wish to extend their studies before moving on to other postgraduate training or professional employment. Students in this program achieve the following objectives:

- Build a core knowledge in specific areas of neuroscience, including behavioral, cellular, molecular, and systems.
- Develop a general professional competence in oral and written expression as well as in the critical analysis of research articles.
- Learn to understand, create, and undertake hypothesis-based approaches to research.
- Train in a variety of techniques and approaches to studying the nervous system.
- Develop a keen sense of analytical thinking and logic in the evaluation of their own work and that of others.
- Become effective teachers and communicators of neuroscience.
- Gain independence in thinking, teaching, laboratory work, and communicating.
Time Limit for Degree Completion: 2 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program is expected to be completed on a full-time basis.

Job Prospects: Because the brain is involved in every important human endeavor, understanding the brain and its functions opens career paths in multiple fields, including education, engineering, law, medicine, psychology, and public policy. Master’s-level education in neuroscience provides students with a wide range of career options, including:

- Biostatistician
- Clinical data manager
- Counselor
- Environmental health safety officer
- Medical or science writer
- Public health administrator
- Public policy strategist
- Regulatory affairs specialist
- Research associate at academic research institutes or in private industry
- Research and teaching administrator
- Teacher/lecturer

The United States Bureau of Labor Statistics identifies the breadth of employment opportunities in neuroscience along with the salary ranges for different careers options based on different types of employers in its Occupational Outlook Handbook (http://www.bls.gov/ooh).

Non-Matriculated Student Policy:

Financing Opportunities:

Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty who are familiar with the applicant’s academic abilities.

Bachelor’s Degree in Discipline/Related Discipline: All applicants must hold a baccalaureate degree (B.A. or B.S.) in one of the following disciplines:

- Bioengineering
- Biology
- Chemistry
- Human Movement Science
- Kinesiology
- Mathematics
- Neuroscience
- Physics

- Psychology
- Public Health

Other relevant disciplines, combined with or including coursework in Biology, Chemistry, Mathematics/Statistics, Neuroscience, Physics, and/or Psychology, may be accepted after individual evaluation of the applicant’s qualifications. A minimum grade point average of 3.2 in undergraduate work is required for unconditional admission to the program.

Statement of Goals: Approximately 500 to 1,000 words outline your specific interest in Temple’s program, your academic achievements, and your future career goals.

Standardized Test Scores:

TOEFL (international students only): 88 iBT or 575 PBT minimum

Total Credit Hours: 30

\[1\] Students may select any elective relevant to their area of interest or specialization with approval from the Program Director.

Culminating Events:

Master’s Project:

Students are required to work on a master’s project over both terms in their second year of the program. The purpose of the project is not only to train students in specific neuroscientific techniques, but also how to develop a scientific and analytical approach toward a problem, formulate clear research questions, conduct experiments, and analyze/interpret data. Depending on their career goals, students may opt to engage either in a laboratory-based research project or in a non-laboratory project.

Students who are motivated to join a doctoral program or are interested in a research position gain by working independently on a neuroscientific investigation under the supervision of a faculty member who maintains an active neuroscience research program. On the other hand, students who are not intending to engage in bench-level research upon graduation and are interested in non-research jobs, such as counseling, research administration, public policy, and teaching, may choose to engage in a non-laboratory project of a similar scope. This may include activities such as conducting a literature review on a topic and presenting it to
an audience, drafting a scope of work for a grant funding agency, or preparing a consulting proposal for a prospective client.

Philosophy, M.A.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program

Temple’s Department of Philosophy has strengths in several areas of philosophical study. The department has a rich history and continuing presence in the field of aesthetics as Monroe Beardsley and John Fisher were in the department for many years. The department also has expertise in European philosophy, epistemology, feminist philosophy, philosophy of mind, philosophy of race, and philosophy of science.

The M.A. program is designed for students to begin advanced training in the field of Philosophy. Students may plan to continue with a Ph.D. program elsewhere, or may be satisfied with a master's degree for personal enrichment or for pre-college teaching. Students who plan at the outset to pursue the Ph.D. at Temple should apply to the Ph.D. The M.A. can be earned on the way to the Ph.D., if desired.

Time Limit for Degree Completion: 3 years

Campus Location: Main, Center City

Full-Time/Part-Time Status: Students complete the degree program through classes largely offered before 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The program encourages students in the M.A. program to engage in a limited amount of interdisciplinary coursework. Students generally take courses in African American Studies, Art History, English, Psychology, or Women's Studies. A dual-degree program earning the M.A. in Philosophy/M.A. in Urban Bioethics (http://www.cla.temple.edu/philosophy/announcing-new-ma-in-philosophymasters-in-urban-bioethics-dual-degree-program) is also now being offered with the Lewis Katz School of Medicine.

Affiliation(s): The Greater Philadelphia Consortium provides expanded course options for graduate work in Philosophy. Students enrolled in the M.A. program at Temple may take graduate courses at the University of Pennsylvania and Villanova University.

Job Prospects: M.A. graduates often find employment as teachers in community colleges and in other professions. For university teaching, the Ph.D. is necessary.

Non-Matriculated Student Policy: Non-matriculated students may register for courses after an interview with the Director of Graduate Studies, at which time they should present academic transcripts. Credit toward a subsequent degree program at Temple University is limited to 9 credits.

Financing Opportunities: University Fellowships, Graduate Assistantships, and Academic Internships are ordinarily reserved for Ph.D. students.

Admission Requirements and Deadlines

Application Deadline:
Fall: March 1

Admission is competitive and determined only once a year.

APPLY ONLINE to this graduate program. For details on how to apply to the M.A. program in Philosophy, visit http://www.cla.temple.edu/philosophy/graduate-program/information-for-applicants/.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with your academic competence.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree is required, preferably with some coursework in Philosophy.

Statement of Goals: In approximately 500 to 1,000 words, address your interest in Temple’s program, your research goals, your future career goals, and your academic and research achievements.

Standardized Test Scores:
GRE: Required. Scores are typically in the 65-75% range on the verbal and quantitative sections.

TOEFL: 79 iBT or 550 PBT minimum

Resume: A short curriculum vitae should be submitted with your application.

Writing Sample: The writing sample should demonstrate your ability to research and write a scholarly paper. The paper should be 15-20 pages in length and fully referenced according to a professional, scholarly style manual. It should be in the area of Philosophy or a closely related field.
Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Baccalaureate: 30

Required Courses:
The Thesis Option requires students to take 24 credits in Philosophy and 6 credits in thesis writing. The Non-Thesis Option requires students to take 6 credits in electives rather than in thesis writing.

For a current copy of the Departmental Graduate Handbook, which lists all requirements, contact Sonia Lawson, the Graduate Coordinator, at 215-204-1742 or slawson@temple.edu.

Culminating Events:
Thesis Option:
A thesis is required when choosing the Thesis Option.

Non-Thesis Option:
This option has no culminating events.

Philosophy, Ph.D.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program

Temple’s Department of Philosophy has strengths in several areas of philosophical study. The department has a rich history and continuing presence in the field of aesthetics as Monroe Beardsley and John Fisher were in the department for many years. The department also has expertise in European philosophy, epistemology, feminist philosophy, philosophy of mind, philosophy of race, and philosophy of science.

The Ph.D. program is designed to provide students with a breadth of knowledge in Philosophy while emphasizing depth of knowledge through intensive work on particular philosophical issues of interest to the student. The program stresses early development of professional writing standards and oral skills. Ph.D. students are generally given the opportunity to teach courses under the guidance of the department’s Teaching Mentoring Program.

Time Limit for Degree Completion: 7 years

Campus Location: Main, Center City

Full-Time/Part-Time Status: Students complete the degree program through classes largely offered before 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The program permits students in the Ph.D. program to take a limited number of courses in non-Philosophy programs at Temple. Many students take courses in African American Studies, Art History, English, and Psychology. Students may also earn the Graduate Certificate in Women’s Studies in conjunction with the Ph.D. in Philosophy.

Affiliation(s): The Greater Philadelphia Consortium provides expanded course options for graduate work in Philosophy. Students enrolled in the Ph.D. program at Temple may take graduate courses at the University of Pennsylvania and Villanova University.

Job Prospects: Graduates typically find employment in college or university teaching and research. A departmental placement committee assists students with the job search.

Non-Matriculated Student Policy: Non-matriculated students may register for courses after an interview with the Director of Graduate Studies, at which time they should present academic transcripts. Credit toward a subsequent degree program at Temple University is limited to 9 credits.

Financing Opportunities: Support is available in the form of University Fellowships, Teaching Assistantships, and Academic Internships. University Fellows are typically supported with a stipend and full tuition remission for four years, teaching for two of those years. Teaching Assistants are typically required to teach introductory philosophy courses or recitation sections in large courses taught by professors. They receive a stipend and full tuition remission. All Ph.D. applications are automatically considered for financial aid.

Admission Requirements and Deadlines

Application Deadline:
Fall: January 15

Admission is competitive and determined only once a year. Applications to the Ph.D. program are automatically considered for financial aid.
APPLY ONLINE to this graduate program. For details on how to apply
to the Ph.D. program in Philosophy, visit http://www.cla.temple.edu/
philosophy/graduate-program/information-for-applicants/.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from
college/university faculty members familiar with your academic
competence.

Coursework Required for Admission Consideration: Applicants
typically have majored or minored in Philosophy for their bachelor’s
degree.

Master’s Degree in Discipline/Related Discipline: A master’s degree is
not required.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate
degree in Philosophy is standard, although not mandatory, for admission
into the program.

Statement of Goals: In approximately 500 to 1,000 words, address your
interest in Temple’s program, your research goals, your future career
goals, and your academic and research achievements.

Standardized Test Scores:
GRE: Required. Scores are typically in the 65-75% range on the verbal
and quantitative sections.

TOEFL: 105 iBT or 620 PBT minimum

Writing Sample: The writing sample should demonstrate your ability to
research and write a scholarly paper. The paper should be 15-20 pages
in length and fully referenced according to a professional, scholarly style
manual. It should be in the field of Philosophy or a closely related area.

Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Baccalaureate: 42

Required Courses:

Core Courses
Course in Epistemology/Metaphysics | 3
Course in History of Philosophy - Ancient | 3
Course in History of Philosophy - Kant/Hegel | 3
Course in History of Philosophy - 17th/18th Century | 3
Course in Values/Ethics | 3
Electives | 21

Non-Didactic Courses
PHIL 9994 Preliminary Examination Preparation
PHIL 9998 Pre-Dissertation Research
PHIL 9999 Dissertation Research
Total Credit Hours | 42

1. Of the 21 elective credits, 9 credits may be taken in cognate
disciplines, subject to determination by the Director of Graduate
Studies.

For a current copy of the Departmental Graduate Handbook, which lists
all requirements, contact Sonia Lawson, the Graduate Coordinator, at
215-204-1742 or slawson@temple.edu.

Language Examination: Students must pass a written proficiency
examination in French, German, or Ancient Greek. Other languages may
be approved by the Director of Graduate Studies, provided the student
makes a compelling case that the language in question is useful for
dissertation work.

Culminating Events:
Dissertation Advising:
It is the student’s responsibility, in consultation with her/his primary
advisor, to assemble three advisory committees. It is best to form a
committee that gives the student a variety of sympathetic but critical
perspectives on the project. Three distinct committees, which are largely
composed of the same members, must be in place at different phases of
the proposal and dissertation processes. The committee guidelines are
outlined below:

1. Proposal Advisory Committee: This committee guides the student
through the preparation and defense of her/his dissertation proposal.
The Proposal Advisory Committee is composed of three Graduate
Faculty members from the Philosophy Department. One member
is named Chair. Additional members from outside the Philosophy
Department may be included with written approval from the Chair and
the Graduate School. Normally, the Proposal Advisory Committee
becomes the Doctoral Advisory Committee upon approval of the
proposal.

2. Doctoral Advisory Committee: This committee guides the student
through all stages of the dissertation. The Doctoral Advisory
Committee must be in compliance with University guidelines
as prescribed by the Graduate School. The committee must be
composed of at least three Temple University Graduate Faculty
members, two of whom must be from the Philosophy Department. A
member of the committee from the Philosophy Department is named
Chair.

If changes must be made in the Doctoral Advisory Committee
after the student is elevated to candidacy, such changes must be
approved by the Chair of the Advisory Committee and the Graduate
School. A “Request for Change in Dissertation Committee” form,
found at www.temple.edu/grad/forms, must be filed.

3. Dissertation Examining Committee: This committee consists of the
Doctoral Advisory Committee plus one Graduate Faculty member
from outside Temple’s Philosophy Department OR one Outside
Examiner. The Outside Examiner may be from another academic
institution; should not have been a part of the dissertation writing
process or the Doctoral Advisory Committee; and must be approved
at least two weeks prior to the defense. The Chair of the Dissertation
Examining Committee must be a member of the Temple University
Graduate Faculty, but may not be the Chair of the student’s Doctoral
Advisory Committee. The Chair of the Dissertation Examining
Committee must be identified when the defense is posted through the
Graduate School.

Preliminary Examinations:
The preliminary examinations consist of writing original research papers
in:

1. History of Philosophy, defined as Ancient Philosophy through the end
of the 19th Century; and
2. Contemporary Philosophy, emphasizing constructivist, analytical, or other philosophical approaches to a particular issue.

Students may submit either the historical or the contemporary paper first. These papers are typically developed from a student’s best coursework papers and are generally revised through consultation with the professors who originally evaluated them. The papers should aspire to meet the standards of publication. NOTE: A successful course paper typically requires considerable work to become a successful preliminary paper. Preliminary examination essays should show both a mastery of relevant primary and secondary literature and put forward ideas that are an original contribution to the field. Graduate students are strongly encouraged to consult with faculty members before their preliminary examination essays are due.

The first Preliminary Examination Paper is due by 4:00 p.m. on the second Monday in October at the beginning of the student’s second year, and the second paper submission is due by 4:00 p.m. on the second Monday in October at the beginning of the student’s third year. Papers must be prepared for blind review and submitted both online and in hard copy (four copies) to the Graduate Secretary. Papers should include an abstract of not more than 200 words.

The papers are evaluated by two faculty members. In close cases, a third reader is consulted. Papers are graded High Pass/Pass/Low Pass/Fail. Students receiving a Low Pass are on notice that their performance is not up to the level expected for dissertation work. Second-year students who fail a preliminary examination resubmit (along with their second preliminary examination) in the October of their third year. Third-year students who fail one or two preliminary examinations resubmit by 4:00 p.m. on the second Monday of the following February. Third-year students who fail a preliminary examination twice are dismissed from the program.

Students must be registered for at least one credit of PHIL 9994 Preliminary Examination Preparation in the terms in which they submit their preliminary examinations. Students who are required to resubmit their preliminary examinations must re-register for one credit hour of PHIL 9994 in the term in which the exam is to be resubmitted.

Dissertation Proposal:
The dissertation proposal is an opportunity for the student to develop and clearly articulate the project of the dissertation. The dissertation proposal has two components: written and oral. The written component should be 15-20 pages in length and include a statement of the problem, a critical literature review, and a sketch of how the student intends to address the philosophical problem(s) at hand. The student needs to make clear how the dissertation will be an original contribution to the field of philosophy. A detailed bibliography and chapter outline are also expected. The approved dissertation proposal serves as a contract between the student and her/his Doctoral Advisory Committee; the student agrees to complete the work outlined in the proposal under the guidance of the Doctoral Advisory Committee.

When the written component of the proposal is judged ready by the Proposal Advisory Committee, an oral examination date is set. At least two weeks before this examination, the defense is announced to the department faculty and at least two copies of the written proposal are made available in the Graduate Coordinator’s office.

The oral examination, which is conducted by the Proposal Advisory Committee, constitutes an opportunity for the student’s committee to make positive suggestions as well as to test the candidate’s preparedness. Other faculty may attend the oral examination and ask questions after the Proposal Advisory Committee has completed its questioning. The Proposal Advisory Committee decides, by majority vote, whether the candidate passes or fails the written and oral parts of the dissertation proposal.

Dissertation:
The dissertation should constitute a definitive and original contribution to the field of philosophy. It needs to show mastery of the relevant philosophical literature. The dissertation should be in the hands of the Dissertation Examining Committee by October 1 for December graduation and by March 1 for May graduation.

All Ph.D. students must formally and publicly defend their dissertations before the Dissertation Examining Committee. The candidate must submit the official, signed notice of the oral defense to the Graduate School 10 or more working days before the scheduled defense. A defense cannot be held without written confirmation of approval and receipt of the defense paperwork from the Graduate School.

The defense should be announced publicly and is open to all members of the University. During the defense, primary questioning is restricted to the members of the Dissertation Examining Committee. Then, Philosophy Department faculty members who have submitted written questions in advance may address the candidate. Lastly, other members of the Philosophy Department faculty may address the candidate. The Dissertation Examining Committee decides, by majority vote, whether the candidate passes or fails.

Political Science, M.A.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program

The primary mission of the Political Science Department's graduate program is to prepare students for careers in academia. The department gives equal emphasis to training students for both the research and teaching sides of such a career. Most students in the M.A. program intend to pursue a Ph.D. either at Temple or elsewhere, immediately after graduation or after a few years of employment. Those who wish to pursue a Ph.D. at Temple are strongly encouraged to apply directly to the Ph.D. program at the outset of the admissions process. Some M.A. students use the degree to establish or strengthen credentials in teaching or for private/public sector positions; a few M.A. students want to strengthen their backgrounds for applications to other professional degree programs.

Time Limit for Degree Completion: 3 years

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 3:00 p.m. The degree program can be completed on a full- or part-time basis.

Areas of Specialization: Our particular strengths in American Politics, Comparative Politics, International Relations, and Political Theory are reflected in the brief biographical statements of our Graduate Faculty members' research and teaching interests:

- In American Politics, faculty teach and conduct research on political behavior, political economy, political institutions, public policy, and urban politics.
- In Comparative Politics, faculty focus on the issues of democratization; public policymaking; the role of the state in the economy; and identity politics in European and post-communist states, Latin America, China, and other developing nations.
- In International Relations, faculty emphasize the various theoretical approaches to the study of world politics and the testing of such theories in the areas of international security, international political economy, and the study of international organizations.
- In Political Theory, our strengths cluster around the research areas of late modernity; democratic and normative political theories, especially those pertaining to political questions of social and economic inequality, globalization, identity politics, and social movements; and the relationship between politics and religion.

Job Prospects: Most students in the M.A. program intend to pursue a Ph.D. immediately after graduation or after a few years of employment. Some M.A. students use the degree to establish or strengthen credentials in teaching or for private/public sector positions; a few M.A. students want to strengthen their background for applications to other professional degree programs.

Non-Matriculated Student Policy: Prior to applying for admission, students sometimes want to take courses as non-degree students. Those who wish to do so must first obtain the approval of the Graduate Chair in the Political Science Department to determine if the individual stands a reasonable chance for admission to the M.A. or Ph.D. program. Then, the prospective student must visit the Office of Continuing Studies with transcripts from all institutions attended, including the one that conferred the undergraduate degree, to be enrolled in the coursework.

Financing Opportunities: M.A. students are not eligible for departmental assistantships.

Admission Requirements and Deadlines

Application Deadline:
Fall: December 1

Applications are evaluated as they arrive.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with academic competence.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree is required.

Statement of Goals: Approximately 500-1,000 words include your interest in Temple's program, your research goals, your future career goals, and your academic and research achievements.

NOTE: Students who are ultimately interested in earning a doctoral degree in Political Science at Temple University should apply directly to the Ph.D. program.

Standardized Test Scores:
GRE: Required. Minimum scores of 156 verbal and 148 quantitative are expected.

TOEFL: 100 iBT or 600 PBT minimum

Writing Sample: The writing sample should demonstrate your ability to research and write a scholarly paper. The paper should be no more than 25 pages and fully referenced according to a professional, scholarly style manual.

Transfer Credit: Graduate coursework in Political Science may be transferred from outside the University, provided that the credits were obtained no more than five years prior to the student's matriculation at Temple and the grades are "B" or better. The maximum number of credits a student may transfer is 6.

Political Science, Ph.D.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program

The primary mission of the Political Science Department's graduate program is to prepare students for careers in academia. The department gives equal emphasis to training students for both the research and teaching sides of such a career. Many of our graduates also successfully apply their political science training to non-academic careers. The Ph.D. program offers study in four broadly defined fields: American Politics, Comparative Politics, International Relations, and Political Theory. The Ph.D. program seeks primarily to develop the research skills and substantive knowledge necessary for successful completion of a dissertation.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 3:00 p.m. The degree program can be completed on a full- or part-time basis.

Areas of Specialization: Our particular strengths in American Politics, Comparative Politics, International Relations, and Political Theory are reflected in the brief biographical statements of our Graduate Faculty members' research and teaching interests:

• In American Politics, faculty teach and conduct research on political behavior, political economy, political institutions, public policy, and urban politics.

• In Comparative Politics, faculty focus on the issues of democratization; public policy making; the role of the state in the economy; and identity politics in European and post-communist states, Latin America, China, and other developing nations.

• In International Relations, faculty emphasize the various theoretical approaches to the study of world politics and the testing of such theories in the areas of international security, international political economy, and the study of international organizations.

• In Political Theory, our strengths cluster around the research areas of late modernity; democratic and normative political theories, especially those pertaining to political questions of social and economic inequality, globalization, identity politics, and social movements; and the relationship between politics and religion.

Job Prospects: Most Ph.D. students are preparing for college teaching careers. Our program has an excellent placement record. About three-quarters of recent Ph.D.s hold tenured or tenure-track professorial positions at colleges and universities, many of which are in the Pennsylvania, New Jersey, and Delaware state university and college systems. Other Ph.D.s are in government or research positions.

Non-Matriculated Student Policy: Prior to applying for admission, students sometimes want to take courses as non-degree students. Those who wish to do so must first obtain the approval of the Graduate Chair in the Political Science Department to determine if the individual stands a reasonable chance for admission to the M.A. or Ph.D. program. Then, the prospective student must visit the Office of Continuing Studies with transcripts from all institutions attended, including the one that conferred the undergraduate degree, to be enrolled in the coursework.

Electives
Select two elective courses taken in each of two main fields and one in a third minor field. 1

Total Credit Hours 30

1 Students should consult with their faculty advisor on course selection and exam preparation. Those who plan to continue into the Ph.D. program should take two elective courses in each of the two fields in which they plan to complete written comprehensive exams and one in a third minor field. Students are also allowed to complete their fifth elective by registering for POLS 8002 Qualitative Research Methods or POLS 8003 Political Statistics II.

Culminating Events:
Seminar Paper:
The seminar paper requirement is met by completing the coursework required in POLS 8000 Topics in Research Design. Students must submit the seminar paper, with the instructors' comments and grades, to the Graduate Chair. The Graduate Chair must certify that these papers meet the seminar paper requirement (i.e., contain arguments grounded in extensive reference to relevant secondary and/or primary sources). Such certification must be granted before the degree is awarded.

Financing Opportunities:

Departmental Support:
The department typically supports a portion of its graduate students as Teaching or Research Assistants. Students may not only assist professors in research and teaching, but also may teach courses on their own. Assistantships include full tuition, a stipend, and health insurance. Assistantships are awarded on a competitive basis. The amount of support available for entering students varies from year to year, in accordance with the University budget and contractual commitments with the Temple University Graduate Students’ Association (TUGSA). Assisting in research and undergraduate teaching helps graduate students integrate their studies and prepare for examinations, and gives those who plan on pursuing an academic career valuable experience.

In making funding awards, the Graduate Chair and committee place high priority on a student's academic performance and potential. The following rules and criteria guide the committee’s decisions for continuing students:

• The student must be making normal progress toward meeting her/his degree requirements. Two incompletes disqualify a student from consideration for financial assistance. Advanced students should note that no student will be awarded financial assistance who has not successfully defended a dissertation prospectus within a year of passing the comprehensive examinations.

• To spread support more broadly and to provide an incentive for students to move quickly through coursework and examinations and into the dissertation, the department typically will not provide financial aid for students who have already had five years of support as a Graduate Assistant.

The graduate committee also considers the extent to which a student's interests and skills fit departmental needs and the student's financial need.

In applications for financial assistance, students who have had prior teaching experience, either at Temple or elsewhere, should include syllabi of courses they have taught as well as any student assessments that have been taken.

Graduate School Support:
The Graduate School offers Presidential and University Fellowships to the very best applicants on a competitive basis for newly and recently admitted Ph.D. students. Each fellowship offers a stipend plus tuition, for up to two years, plus up to two additional years of support as a Teaching and/or Research Assistant. Presidential Fellowships are for doctoral candidates not yet enrolled at Temple, while University Fellowships are also for doctoral students not yet enrolled at Temple as well as Temple graduate students who have not earned more than 24 graduate credits.

The Graduate School also has a Future Faculty Fellowship Program for students who intend to become college professors. The program provides tuition and a stipend comparable to a University Fellowship. Nominees to this program must be U.S. citizens or permanent residents. Applicants interested in this program should craft their statements of purpose carefully, emphasizing both their commitment to a career in higher education and their eligibility under at least one of these criteria:

• Holding membership in an ethnic or gender group that is underrepresented in the applicant's discipline;

• Having earned a record of exceptional and continuous leadership ability in substantial college or community activities;

• Demonstrating a strong likelihood of successfully completing a terminal degree program; and/or

• Having overcome exceptional circumstances or significant obstacles in the applicant's education career.

The department nominates students to the Graduate School for these awards. All application materials for such scholarships, including official report of GRE scores, must arrive at the department no later than January 15. In addition to excellent grades and GRE scores, applicants are expected to have strong letters of recommendation and a statement of purpose that conveys a sense of the applicant’s intellectual evolution and professional trajectory, as well as demonstrates a good fit between the applicant’s scholarly interests and those of the faculty.

Finally, for students nearing completion of their dissertations, the Graduate School offers a limited number of Doctoral Dissertation Completion Grants. Doctoral candidates with approximately six months of anticipated writing to complete their dissertations may apply for this grant. These awards are given on a competitive basis. Students should apply for these awards only when all other department and university support has been exhausted, and when a persuasive case can be made that the dissertation will be completed within the time period of the grant. No more aid will be available after the awarding of such a grant. Interested students should speak to the Graduate Chair at least one term before they plan to apply for the award. Application can be made in the Fall or Spring term.

Admission Requirements and Deadlines

Application Deadline:

Fall: December 1

Applications are evaluated as they arrive.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with academic competence.

Master’s Degree in Discipline/Related Discipline: A master's degree is not required.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree is required.

Statement of Goals: Approximately 500-1,000 words include your interest in Temple's program, your research goals, your future career goals, and your academic and research achievements.

Standardized Test Scores:
GRE: Required. Minimum scores of 156 verbal and 148 quantitative are expected.

TOEFL: 100 iBT or 600 PBT minimum

Resume: Current resume required.

Writing Sample: The writing sample should demonstrate your ability to research and write a scholarly paper. The paper should be no more than 25 pages and fully referenced according to a professional, scholarly style manual.
Advanced Standing: For students entering the Ph.D. program who have received an M.A. degree elsewhere, up to 18 credits may be applied to the doctoral program, provided they are relevant to the department's required courses. These credits must have been obtained no more than five years prior to the student’s matriculation at Temple and the grades must be "B" or better. The Graduate Chair decides which courses students may transfer. As a general rule, transfer students should expect that they will have to complete much of the required coursework in residence. Students transferring into the Ph.D. program should note that it is advisable to take courses from Temple faculty in their major and minor fields before taking the Ph.D. Qualifying Exams in those two fields.

Total Credit Hours 46

1 Elective courses in the two fields should be taken in areas in which the student plans to complete written comprehensive exams. The free elective may be taken in advanced methods or another substantive course. Taking more than two independent study courses requires the permission of the Graduate Chair.

2 Students must register for POLS 9999 while writing their dissertation to remain in good standing in the program – unless they file for a leave of absence. Students usually register for 1 credit of POLS 9999 for every term they are writing the dissertation.

Culminating Events:
Qualifying Examinations:
Qualifying Exams are given twice each year near the beginning of each term within a designated period of time. Application must be made to take the exams before the posted deadline by students who:

- Plan to apply for the Ph.D. program or those who were directly admitted into the Ph.D. program;
- Have completed all didactic coursework; and
- Have no incompletes on their transcript regardless of how many credits have been completed. In practice, all incompletes must be converted to a letter grade by the date on which the application to take the examinations is due.

Students take the Ph.D. Qualifying Examinations in two of four fields: American Politics, Comparative Politics, International Relations, and Political Theory. The exams must be taken in both fields within a single exam period. The examinations include both written and oral parts.

Each field examination is conducted by at least three faculty selected from the subfield by the Graduate Chair in consultation with the Subfield Coordinator. The examiners have joint responsibility for writing and grading the field examination. In this exam, students must demonstrate depth and breadth of knowledge and intellectual sophistication across their main intended Ph.D. field and a second field. They should also be prepared to interpret political phenomena within the context of various theories; use empirical data to illuminate concepts; and identify gaps in knowledge.

Students are encouraged to meet with faculty in their fields to discuss the general areas of the exams' content to ensure that they have accurately identified key theories, concepts, and literature. Professors may make sample questions, previous exams, or special reading lists available as study aids. In addition, core reading lists in each field may be available from the Graduate Coordinator. The lists represent a minimum of representative readings with which a candidate should be familiar.

Oral examinations for students who have passed their written exams are scheduled soon after the student receives notice of the passing of the written exam. Except under extraordinary circumstances, students should take the oral exams in the same term as their written exams. Each oral examination committee consists of the written examiners. The oral exam allows the candidate to respond to the examiners’ comments on the written exam and to demonstrate her/his ability to connect the specific issues addressed in the exam to other related areas of inquiry within the intended Ph.D. field and second field. Students are urged to carefully review the examiners’ comments on their written preliminary examinations in preparation for the orals.

In the oral exam (as well as in the oral defense of a dissertation discussed below), the student must be able to converse in English adequately for professional purposes. If, in the judgment of a majority of committee members, the student is not demonstrating this ability, the examination is suspended so that the student can take additional training in the English language.

The Graduate School specifies that any student who fails all or part of these examinations twice is automatically dismissed from the program.

Dissertation Proposal:
In consultation with the Graduate Chair, the candidate secure a principal dissertation advisor. This person must be a member of the Political Science Graduate Faculty and specialize in the area of the dissertation topic. Preferably in the term immediately after passing the Ph.D. Qualifying Exam, and no more than two terms thereafter, the candidate takes POLS 9998, the dissertation proposal preparation course. The course is offered every Spring under the guidance of the Graduate Chair. The purpose of the course is to launch students on writing their dissertation proposals and prepare them for writing the dissertation. Regardless of whichever term the student registers, students are required to do the following:
1. Under the guidance of their advisor (or if different from the advisor, the faculty member most likely to supervise their dissertation) and Graduate Chair, begin exploring possible dissertation topics through research and reading.

2. Attend seminar meetings in the Spring term under the supervision of the Graduate Chair. At these sessions, the Graduate Chair presents information relevant to the development and preparation of dissertation proposals and chapters. Students are required to make presentations that address problems encountered in the proposal and dissertation writing process and strategies for overcoming them. Students who already have taken POLS 9998 are invited back to attend and participate in subsequent seminars and report on their progress and share their experiences with the students enrolled in the course.

In consultation with the dissertation advisor, the student assembles a Doctoral Advisory Committee. The Doctoral Advisory Committee is to be composed of at least three Temple Graduate Faculty, at least two of whom have their primary presidential appointment in Political Science. The composition of the Doctoral Advisory Committee must be formally approved by the Graduate Chair. A student wishing to pursue a dissertation on a topic that requires supplementing the expertise of the department's faculty may have to seek a committee member from another department. The student has the burden of convincing the Graduate Chair that a committee with adequate expertise can be established with faculty willing to serve.

Students are required to submit a preliminary proposal not to exceed five double-spaced pages. The preliminary proposal should address both the question(s) to be examined and a justification for why those questions warrant a major study. Students are expected to show why these questions are or should be important to political scientists as well as to citizens. Only after the Doctoral Advisory Committee is satisfied that the student has written a persuasive preliminary proposal will the student be permitted to write a longer proposal, if the committee believes a longer proposal is warranted.

Successful completion of POLS 9998 culminates in the defense of the dissertation prospectus before the Doctoral Advisory Committee. The dissertation prospectus, consisting of a research design and literature review, should be defended and accepted by the full membership of the committee within two terms after completion of Ph.D. coursework. No student is awarded financial assistance who has not successfully defended a prospectus within a year of completion of coursework. Students who fail to submit an approved dissertation proposal within two years of completing their Ph.D. coursework are subject to dismissal from the program. An approved proposal is a contract between the student and the Doctoral Advisory Committee. After approval, any significant theoretical or methodological change in the substantive direction of the project must be approved by the committee.

Once the prospectus is successfully defended, the student is advanced to candidacy. The Doctoral Advisory Committee must confer at least once a year with the student to review progress and provide advice. Students should take the initiative to schedule these exchanges and ensure that written faculty comments on the exchange be placed in their graduate file.

Dissertation:
A doctoral dissertation should demonstrate that the candidate can conduct scholarly research with a high level of professional competence. The dissertation should constitute a distinctive contribution to knowledge in Political Science. Normally, it should outline theoretical knowledge in some field of Political Science; propose a question or hypothesis that is linked to the theory; and provide empirical data to illuminate the theoretical issues in a convincing manner.

The Graduate School requires that students working on a dissertation register for POLS 9999 in order to maintain status as an active graduate student.

After the principal dissertation advisor and the Doctoral Advisory Committee have reviewed the completed dissertation draft, a fourth reader from outside the department who has not been involved with the dissertation previously must be selected by the dissertation committee chair and the Graduate Chair. (Students may suggest a reader.) This reader must be a Graduate Faculty member from another department at Temple or from another university who has the qualifications necessary to act as a fair judge of the dissertation's scholarly merit. As a member of the newly formed Dissertation Examining Committee, this reader should receive a completed draft of the dissertation one month before the anticipated dissertation defense date. Readers who are from outside of Temple University must submit a curriculum vitae and be approved by the Graduate School at least two weeks prior to the oral defense.

When a majority of the Dissertation Examining Committee has judged in writing that the dissertation is ready to be defended, a defense date can be scheduled. A defense is open to the university community and to the student's family; others who wish to attend must obtain the written permission of the student and the Dissertation Examining Committee. The defense must be announced publicly at least 10 working days in advance. Notice must be sent to all faculty members in the department and to the Graduate School. The public announcement of the defense should include an abstract of the dissertation.

The oral defense must be chaired by a member of the committee other than the dissertation advisor. The oral defense should demonstrate that:

- the dissertation is commensurate with the standards for original research in Political Science;
- the ethics and standards governing Political Science research have been followed;
- the research and appropriate methodology have been mastered; and
- the candidate has an understanding of the relationship of this work to the broader field in which it is lodged.

Passing the examination requires a vote of approval by more than half of the full membership of the Dissertation Examining Committee. If a dissertation is approved but revisions are required, the revisions must be submitted to the Graduate School in final form within 30 days of the defense. Otherwise, the defense is nullified and a new oral defense must be scheduled. After the final draft of the dissertation has been approved by the dissertation chair, it must be submitted to the Graduate Coordinator and to the Graduate School by uploading the final document to www.etdadmin.com/cgi-bin/school?siteld=171 (http://www.etdadmin.com/cgi-bin/school?siteld=171).
Psychological Research, M.S.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program

The M.S. in Psychological Research is designed to provide a research-intensive experience, advanced coursework, and professional development to students who intend to pursue doctoral studies in any of the academic psychology disciplines. Students in the 32-credit program work with a faculty sponsor to develop and carry out a master's project; complete graduate-level coursework in methodology, statistics, ethics, and topical seminars; and engage in professional development activities that prepare them for doctoral-level studies and enhance their applications to Ph.D. programs.

The M.S. in Psychological Research is separate and distinct from the Department of Psychology’s Ph.D. program and does not lead to entrance into the Psychology Ph.D. program. Prospective doctoral students must apply directly to the Ph.D. program.

Time Limit for Degree Completion: 2 years

Campus Location: Main

Full-Time/Part-Time Status: Full-time study is required.

Interdisciplinary Study: The program encourages interdisciplinary coursework.

Job Prospects: Graduates of the M.S. program in Psychological Research gain skills that enhance their applications to doctoral programs in academic psychology. Positions for individuals with an M.S. in Psychological Research are also available in a number of settings, including universities, private research and consulting organizations, nonprofits, and marketing.

Non-Matriculated Student Policy: Master's Directed Research courses, including PSY 5791 and PSY 5891, and 8000-level courses are not open to non-matriculated students. Permission of the instructor is required for non-matriculated students to take PSY 5003 and PSY 5104.

Financing Opportunities: Assistantships are not available for the M.S. program.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1

Application is made solely online. The Temple University online application is completed, and all supporting documents are then submitted online at www.interfolio.com. Applications are not evaluated until after the deadline has passed.

If you are currently an undergraduate student in Psychology at Temple University, APPLY ONLINE to this graduate program. The M.S. program in Psychological Research is open only as an accelerated 4+1 program for Psychology undergraduate students at Temple University. It is expected that the program will open to non-Temple students in the future, but that time frame has not yet been determined.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with the applicant's academic competence.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree (B.A., A.B., or B.S.) in Psychology is required.

GPA: 3.67 minimum required in both Psychology and overall for admissions consideration. Meeting the minimum does not, however, guarantee admission.

Statement of Goals: In approximately 500 to 1,000 words, state your reasons for pursuing a master's degree, your current research interests, your research experience, and your future career goals.

Standardized Test Scores:

GRE: Required. Minimum scores are 150 (new test) or 450 (old test) verbal; 150 (new test) or 630 (old test) quantitative; and 4 in analytical writing.

TOEFL: 105 iBT or 620 PBT minimum.

Writing Sample: An academic writing sample must be submitted. It is used to assess the applicant's ability to complete graduate-level written work and produce a high-quality master's project paper.

</table>

The elective must be a graduate course at the 5000 to 8000 level, but may be taken from any school or college.

Other: M.S. students are exposed to a broad range of current research by attending the department’s Colloquium and TILES lecture series to hear talks by distinguished researchers from other universities. They are also required to participate in lab meetings and journal clubs, and to attend regular advising meetings to select and apply to appropriate doctoral programs. Students who postpone application to doctoral programs receive guidance for a master’s level job search and applications.

Culminating Event:

Master’s Project:
A four-course sequence of directed research immerses the student in carefully planned and executed research, culminating in a publishable paper. Throughout the sequence, students are expected to participate in and contribute to the advisor’s program of research. Activities include data analyses, literature reviews, programming experiments, and/or recruitment. During the first term, students work with their advisors to develop a research proposal and analysis plan for the master’s project; a protocol is submitted to the Institutional Review Board (IRB) for approval. Students become familiar with the methods, measures, and apparatus in the advisor’s lab. During the second term, students begin data collection for the master’s project and start work on a comprehensive literature review. The third term focuses on continued data collection, preliminary analyses, completion of the literature review, and a possible poster submission. During the fourth term, data collection, cleaning, and analyses are completed, and the results are written up in an APA manuscript.

All students complete the master’s project and submit their research for publication and/or presentation at a conference. Students who do not complete the final project requirement by the end of the Spring term of Year 2 may register for additional research credits in the Summer term and submit their master’s project no later than July 15 to be eligible for August graduation.

Psychology, Ph.D.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program
The Psychology program offers advanced study leading to the doctoral degree. Training is directed toward excellence in scholarship, research, teaching, and practical applications. The focus of the Psychology Ph.D. program varies depending on the area of specialization into which the
student enters. Graduates go on to positions as research scientists, teachers, and applied specialists.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time study is required.

**Interdisciplinary Study:** The program encourages interdisciplinary coursework.

**Ranking:** Over the years, the program has been consistently ranked among the very best by all evaluating agencies.

**Accreditation:** The American Psychological Association has accredited the Clinical Psychology area of specialization. Other area emphases do not undergo accreditation.

**Areas of Specialization:** The four areas of specialization include:

- Brain and Cognitive Sciences
- Clinical Psychology
- Developmental Psychology
- Social Psychology

**Job Prospects:** The program is dedicated to producing well-trained psychologists with the Ph.D. who work in academic and applied settings.

**Licensure:** The field of Clinical Psychology requires licensure for its practice.

**Non-Matriculated Student Policy:** The permission of the instructor is required for non-matriculated students to take Ph.D. courses. The exception is 8000-level courses, which are not open to non-matriculated students.

**Financing Opportunities:** Both Teaching and Research Assistantships carry a stipend, full tuition remission (up to 12 credits per term depending on year and specialization), and health insurance benefits. The principal duties of a Teaching Assistant (TA) include assisting faculty members in classroom (field and observatory) instruction, conducting tutorials and discussion sections, and grading quizzes. A Research Assistant (RA) is expected to devote 20 hours per week on average to research obligations. An RA is assigned to a faculty member or principal investigator who is working on a specific research project. The appropriate subjects are determined by consultation between the student and the student’s research and academic advisors.

**Admission Requirements and Deadlines**

**Application Deadline:**

- **Fall:** December 1

Application is made solely online:

- To apply for the Clinical Psychology specialization, complete the Temple University online application (http://www.temple.edu/apply/common/appcheck.asp) and then submit all supporting documents online at www.interfolio.com (http://www.interfolio.com).
- Applicants to the specializations in Brain and Cognitive Sciences or Developmental Psychology must apply via the Centralized Application Service for Graduate Psychology (PSYCAS), which is accessed at https://psycas.liaisoncas.com/. The Social Psychology program is not accepting applications for the 2018-2019 academic year.

For full details about applying to the doctoral program in Psychology, review the application procedures (http://www.cla.temple.edu/psychology/graduate/application-procedure) and requirements for admission (http://www.cia.temple.edu/psychology/graduate/requirements-for-admission) found on the department’s website.

Applications are not evaluated until after the deadline has passed.

**Letters of Reference:**

**Number Required:** 3

**From Whom:** Letters of recommendation should be obtained from college/university faculty members familiar with the applicant’s academic competence. Referees for applicants to the Clinical Psychology specialization submit their recommendations through www.interfolio.com (http://www.interfolio.com). Referees for applicants to the specializations in Brain and Cognitive Sciences, Developmental Psychology, or Social Psychology submit their recommendations through https://psycas.liaisoncas.com/.

**Coursework Required for Admission Consideration:** Applicants to the doctoral program must hold a B.A. or B.S. degree and must have completed at least four 3-credit courses in Psychology, including one laboratory course. A Statistics course is also required, and a Natural Sciences laboratory course is recommended.

**Master’s Degree in Discipline/Related Discipline:** A master’s degree is not required.

**Bachelor’s Degree in Discipline/Related Discipline:** A baccalaureate degree in Psychology is strongly recommended. Depending on the area of interest, a bachelor’s in a Biology-related discipline may be appropriate.

**Statement of Goals:** In approximately 500 to 1,000 words, state your interest in Temple’s program, your research goals, your future career goals, and your academic and research achievements.

**Standardized Test Scores:**

- **GRE:** Required. Minimum scores are 153 (new test) or 500 (old test) verbal; 151 (new test) or 650 (old test) quantitative; and 304 (new test) or 1150 (old test) total GRE.
- **GRE Subject Exam in Psychology:** Strongly recommended.
- **TOEFL:** 105 iBT or 620 PBT minimum.

**Advanced Standing:** A student enrolled in the Psychology Ph.D. program may, after satisfactory completion of the initial term, and with the approval of the Director of Graduate Studies in Psychology, transfer as many as 9 credits of coursework taken elsewhere. To be so approved, the courses must be deemed appropriate to stand as part of the student’s training in the Ph.D. program, and the student must have received a grade of “B” or higher in the course(s). Final approval of advanced standing credits is given by the Office of the Dean, College of Liberal Arts, on recommendation of the Director of Graduate Studies in Psychology. The maximum number of advanced standing credits awarded is 9.

**Program Requirements**

**General Program Requirements:**
Number of Credits Required to Earn the Degree: 32-71, depending on area of specialization:

1 39 credits required with Neuroscience specialization.

For greater detail on requirements by area of specialization, consult the Departmental Graduate Handbook, found at http://www.cia.temple.edu/psychology/graduate/graduate-handbook/.

Required Courses:

Core Courses
- PSY 8011 Graduate Statistics I 1 3
- PSY 8015 Teaching of Psychology 2 1
- PSY 8021 Graduate Statistics II 1 3

Differing for each area of specialization, select a minimum of four core courses from the following to complete in the first four terms of study: 3
- PSY 8012 Core Course in History and Systems of Psychology
- PSY 8312 Core Course in Cognitive Psychology
- PSY 8412 Core Course in Psychopathology
- PSY 8512 Core Course in Developmental Psychology
- PSY 8612 Core Course in Social Psychology
- PSY 8712 Core Course in Behavioral Neuroscience

Electives and Other Required Courses 4

Non-Didactic Courses 5 6
- PSY 9994 Preliminary Examination Preparation
- PSY 9998 Pre-Dissertation Research
- PSY 9999 Ph.D. Dissertation Research

1 Two terms of graduate coursework in Statistics must be successfully completed in the first year of study.
2 Attendance is required of all first-year graduate students.
3 Students in the Clinical Psychology area of specialization have five terms to successfully complete a minimum of four core courses.
4 Specific elective and other courses are required by area of specialization. Students should consult with their advisor.
5 A minimum of 6 credits is required, with at least 2 of the 6 credits required to be in PSY 9999. The remaining 4 credits can be taken in any combination of PSY 9994, PSY 9998, and PSY 9999. At least one credit of PSY 9999 must be taken in the term of graduation.

Internship: An internship is required for the Clinical Psychology area of specialization.

Culminating Events:

Preliminary Examination:
The purpose of the preliminary examination is to demonstrate critical and interpretive knowledge in a specialized area of Psychology. The exam should be modeled after published literature reviews in the field and evaluated by the criteria applied to reviews that are submitted for publication to scholarly journals. The examination evaluates the student's ability to apply specific research foci to anticipated problems in Psychology. The student must demonstrate a high level of oral and written competency in reviewing, synthesizing, and evaluating an important topic in the field of Psychology.

The preliminary examination is generally completed by the end of the third year of study. The subject areas are determined, in advance, by the student and the Doctoral Advisory Committee. The Doctoral Advisory Committee must include at least three Graduate Faculty members from Temple's Psychology Department. The committee may be expanded to include other Temple Presidential faculty (from inside or outside the Department) and/or doctorally prepared experts from outside the University, provided that a majority of the members of the committee are members of Temple's Graduate Faculty. The Doctoral Advisory Committee evaluates the examination. Each member votes to pass or fail the student. In order to pass, a majority of the committee members must agree that the exam has been satisfactorily completed. The examination is defended orally following an evaluation of the written document.

Students who are preparing to write their preliminary examinations should confirm a time and date with the Chair of the Doctoral Advisory Committee and notify all members of their training program.

Proposal:
The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. The proposal should consist of the following:

1. the context and background surrounding a particular research problem;
2. an exhaustive survey and review of literature related to the problem; and
3. a detailed methodological plan for investigating the problem.

The Doctoral Advisory Committee evaluates and approves the proposal or requests modifications by the student.

Dissertation:
The doctoral dissertation is an original empirical study that makes a significant contribution to the field of Psychology. It should expand the existing knowledge and demonstrate both the student's grasp of research methods and a mastery of her/his primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standards of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field of Psychology; and be prepared for publication in a professional journal.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense, including the student's ability to express verbally her/his research question, methodological approach, primary findings, and implications. The Dissertation Examining Committee consists of the Doctoral Advisory Committee plus at least three additional doctorally prepared individuals. The majority of the individuals on the Committee must be members of the Temple University Graduate Faculty. The Dissertation Examining Committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

If a student needs to change a member of either the Doctoral Advisory Committee or the Dissertation Examining Committee, the new member must be approved by the Departmental Chair and registered with the department's Graduate Secretary and the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Graduate Secretary at least 15 days before the defense is to be
scheduled. The Graduate Secretary arranges the time, date, and room within two working days, and forwards to the student the appropriate forms.

After the Graduate Secretary has arranged the time, date, and room for the defense, the student must send to the Graduate School a completed "Announcement of Dissertation Defense" form, found at http://www.temple.edu/grad/forms/, at least 10 working days before the defense. The Department posts announcements of the defense, and the Graduate School lists the defense on its website.

Public Policy, M.P.P.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program

The Master of Public Policy (M.P.P.) degree provides training for individuals who seek careers in the public sector or in private and non-profit organizations that work on a continuous basis with government agencies. The M.P.P. curriculum is designed to provide students with the technical and analytical skills to be able to develop and assess proposed public policies and evaluate the effectiveness of programs and activities that governments at the federal, state, and local levels undertake. The M.P.P. also develops students' appreciation for the political and institutional contexts in which issues reach the policy agenda and policies are formulated, adopted, implemented, and evaluated.

Time Limit for Degree Completion: 3 years; part-time students may apply for extensions, if needed

Campus Location: Center City

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 5:00 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: Courses are taken in Political Science, Economics, Geography and Urban Studies, and other disciplines as needed. Students may also pursue the M.P.P. as a dual degree with the Master of Public Health (M.P.H.). Applicants for the dual degree must apply to each program separately and should consult the M.P.P. website for further details.

Areas of Specialization: Students can focus on public policy analysis or public management.

Job Prospects: Students in the M.P.P. program plan to seek entry-level jobs in government agencies as civil servants or in private and non-profit organizations that work with federal, state, and local governments, or may already have experience in government, private, or non-profit organizations and seek training and credentials to further develop their careers.

Non-Matriculated Student Policy: Prior to applying for admission, students sometimes want to take courses as non-degree students. Students are permitted to take up to 9 credits on a non-matriculated basis. If admitted to the program, students may have that coursework, with a grade of "B" or better, apply toward the M.P.P. degree. Individuals who wish to take courses as non-matriculated students must first obtain the approval of the Director of the M.P.P. program to determine if the individual stands a reasonable chance for admission to the program. Next, the prospective student must visit the Office of Continuing Studies with transcripts from all institutions attended, including the one that conferred the undergraduate degree, to be enrolled in the coursework.

Financing Opportunities: M.P.P. students are not eligible for departmental assistantships.
Admission Requirements and Deadlines

Application Deadline:

Fall: March 1  
Spring: November 1

Applications are evaluated as they arrive.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with academic competence. For applicants with extensive administrative experience, two of the letters may come from supervisors or colleagues in the agency or organization where the applicant has been employed.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree is required.

Statement of Goals: Approximately 500-1,000 words include your interest in Temple's program, your future career goals, and your academic and work experience.

Standardized Test Scores:
GRE: Required, but may be waived if the applicant has three or more years of appropriate administrative experience or an excellent undergraduate record from a reputable institution.

TOEFL: 100 iBT or 600 PBT minimum

Resume: Current resume required.

Transfer Credit: Graduate coursework in public policy or public administration may be transferred from outside the University, provided that the credits were obtained no more than five years prior to the student's matriculation at Temple; the grades are "B" or better; and the course(s) for transfer are equivalent to those in Temple's curriculum. The maximum number of credits a student may transfer is 6.

Total Credit Hours 36

Culminating Events:
Seminar Paper:
The Policy Analysis Project, completed in PLCY 8127, is undertaken in the student's last term in the M.P.P. program. Students produce an original, full-length policy analysis for a client. Students attend a weekly seminar to report on their progress at each stage in the development of their policy analysis, receive feedback from other seminar participants, and provide advice to other students in the seminar.

Religion, M.A.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program

The Department of Religion at Temple University offers a 30-credit master's program. For those seeking to qualify for the Ph.D. program at Temple University or other leading universities, it offers intensive training in research methods and in special fields of concentration in religion studies. (Note: Admission to the Temple Ph.D. program requires a separate application and the completion of qualifying examinations not required for the M.A. degree.) For those who plan to teach religious studies in community colleges or high schools, it provides advanced training in methods of research and in-depth study of the world's major religious traditions. For those in various forms of religious ministry, it offers post-graduate training and exposure to the newest research methods and developments for use in understanding their own or other religious and cultural traditions. For those who wish to bring cultural and cross-cultural analytical tools to professions such as business, government, journalism, medicine, and social work, it provides additional training in research methods and graduate-level study in the major world religious and cultural traditions. For qualified persons in the general public, it allows the opportunity to acquire competence in the study of

...
religions, values, and cultures broadly defined, and in areas of special interest to the student.

**Time Limit for Degree Completion:** 3 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Areas of Specialization:** The M.A. program offers two concentrations, each of which allows students to choose between the Thesis Option and the Portfolio Option:

- Religion, Values and Global Cultures, which is built around our Foundations seminars in the world’s religious traditions and advanced seminars in the historical, philosophical, and social-scientific methods of study in the field of Religion, together with advanced seminars in various areas of the interaction of religion and values in public life, such as interfaith dialogue, race/gender/sexuality and religion, religion and ethics, and religion and the political process. Students taking courses in this concentration may also take courses related topics in world religions.

**Job Prospects:** The master’s degree at Temple University is viewed as enhancement of knowledge about religion for those already employed in various professional capacities or as the foundation for pursuit of a Ph.D. degree.

**Non-Matriculated Student Policy:** Non-matriculated students may complete three graduate courses before being admitted into the degree program. Credit toward a subsequent degree program at Temple University is limited to 9 credits.

**Financing Opportunities:** University Fellowships, Graduate Assistantships, and Academic Internships are ordinarily reserved for Ph.D. students.

**Admission Requirements and Deadlines**

**Application Deadline:**

- **Fall:** January 15

Applications are evaluated together after the deadline.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

- **Number Required:** 3

  **From Whom:** Recommendations should be obtained from former instructors or academic persons who know the applicant best.

**Coursework Required for Admission Consideration:** Applicants are invited to consult with the Graduate Director regarding specific academic preparation.

**Bachelor’s Degree in Discipline/Related Discipline:** A baccalaureate degree is required; a degree earned in a Liberal Arts discipline is preferred. Applicants with no Liberal Arts background should consult with the Graduate Director.

**Statement of Goals:** In 2 to 3 pages, describe your background and specific interests and reasons for pursuing an M.A. in Religion, demonstrating knowledge of the scope and limits of the Department of Religion’s offerings and outlook.

**Standardized Test Scores:**

- **GRE:** Required. Combined scores in the range of 308-340 (new test) or 1,200-1,600 (old test) on the verbal and quantitative sections are expected. The verbal score is weighed more heavily than the quantitative.

- **TOEFL:** 100 iBT or 600 PBT minimum

**Writing Sample:** The writing sample should demonstrate your ability to research and write a scholarly paper. The paper should be no more than 10 pages in length and fully referenced according to a professional, scholarly style manual. It should be in the field of Religious Studies or a closely related area.

**Transfer Credit:** Courses taken at an accredited institution that are compatible with the offerings at Temple’s Department of Religion and graded “B” or better are eligible for transfer credit. The maximum number of credits a student may transfer is 6.

**Test Waivers:** The GRE is waived for international students whose native language is not English, but the minimum TOEFL must be achieved and reported.

**Program Requirements**

**General Program Requirements:**

- **Number of Credits Required Beyond the Baccalaureate:** 30

**Required Courses:**

- **Foundations Courses**
  - 12 credits

- **Advanced Seminars and/or Independent Study**
  - 12 credits

- **Additional Courses**
  - 6 credits

**Total Credit Hours**

30

1 Students can take 3 to 6 credits of coursework outside the Department of Religion in a cognate field at Temple University.

**Language Examination:** Reading knowledge of a language relevant to the area of focus is required. However, at the discretion of the student’s supervisory committee, this requirement can be waived for those who are planning to do graduate work that does not require foreign language proficiency.

**Culminating Events:** No later than upon completion of her/his first 18 credits of coursework in either the Religion, Values and Global Cultures concentration or the Religion, Values and Public Life concentration, the student must choose either the thesis or portfolio option:

- The Thesis Option is recommended for, but not limited to, students intending to apply to a doctoral program or planning to teach at the college level. Six credits must be taken in a 3-credit Independent Study that prepares the student to register the following term for a 3-credit M.A. thesis project under the direction of a thesis advisor.
Temple's department broke from the "seminary model" of traditional
with its practice) in state-supported public education was commended.

Supreme Court declared that the study of religion (not to be confused
About the Program

The Temple University Department of Religion began shortly after the
with its practice) in state-supported public education was commended.

Temple's department broke from the "seminary model" of traditional
fields, such as church history and theology, and instead committed
to the multi-traditional and multi-disciplinary study of global religious
traditions. This gives our program an outstanding breadth and cross-
cultural diversity. We have a long history of attracting students from all
over the world, and our graduates now work in universities not just in
North America, but also in places such as Germany, Japan, Korea, and
Malaysia.

Time Limit for Degree Completion: 7 years

Campus Location: Main, Center City

Full-Time/Part-Time Status: Most graduate courses are offered during
the day at the Main Campus, with an increasing number of courses
offered at TUCC in the evening. The degree program can be completed
on a full- or part-time basis.

Interdisciplinary Study: Students are given a broad, interdisciplinary
introduction to Religion in the first unit of study and take courses in other
departments and institutions in the second unit of study.

Affiliation(s): Graduate student exchange agreements exist with the
University of Pennsylvania's Department of Religious Studies, the
Reconstructionist Rabbinical College, the Eastern Baptist Theological
Seminary, and the Lutheran Theological Seminary in Philadelphia. In
addition, a coordinated M.A./Ph.D. program in Islamic-Christian Relations
is conducted with Hartford Theological Seminary and a Graduate
Certificate in Women's Studies is offered in cooperation with Temple's
Women's Studies Program.

Areas of Specialization: The Department of Religion offers graduate
programs leading to the M.A. and Ph.D. degrees. Students are
introduced to the major methods of study in Religion, with stress on the
critical analysis of religions by the methods of the humanities and the
social sciences, including textual and historical analysis, philosophical
and hermeneutical studies, and social and cultural analysis. The program
thus ensures that a well-rounded course of study is achieved. The two
basic concentrations are:

1. Global Religious Traditions, with emphasis in Asian Philosophy/
   Religious Thought, Biblical Studies, and Islam; and
2. Religion and Society.

Job Prospects: The kind of education we offer has enabled our
graduates to find jobs in a very competitive job market. For example,
some of our graduates in the area of Bible study were hired explicitly
because they had received some instruction in Islam and could serve
as a resource about that tradition. Breadth and diversity constitute one
of the strengths of our program, and we continue to offer coursework
in global religious traditions and the roles of religions in society and
culture so as to maintain this strength. Graduates of our doctoral program
are employed in colleges and universities in North America, Europe,
Africa, and Asia. The most common positions are as faculty in religion
studies, although some are administrators in educational governmental
administrations and academic administrations.

Non-Matriculated Student Policy: Persons not enrolled in a degree
program may register for courses as non-matriculated students.
Transcripts of undergraduate work should indicate some background
in Religion Studies and a GPA sufficient to maintain graduate work,
normally 3.5 or above. Non-matriculated students may register for
courses after an interview with the Director of Graduate Religion Studies,
at which time they should present academic transcripts. Credit earned

Religion, Ph.D.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program

The Temple University Department of Religion began shortly after the
Supreme Court declared that the study of religion (not to be confused
with its practice) in state-supported public education was commended.

Reading knowledge of a language relevant to the thesis topic and
oral defense of the thesis are required.

• The Portfolio Option is recommended for students to augment their
primary area of experience and professional training in fields other
than Religion.

Upon choosing an option, the student then selects an advisor for the
final project who has primary responsibility for supervising the student's
work for the remainder of the program and is the primary reader of the
thesis or portfolio. This choice must be approved by the Graduate Studies
Committee.

Thesis:
For the Thesis Option, a thesis is required.

Note that the Portfolio Option has no culminating event.

Note that the Portfolio Option has no culminating event.
Admission Requirements and Deadlines

Application Deadline:

Fall: January 15

Applicants are evaluated together after the deadline.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Recommendations should be obtained from former faculty who know the applicant best.

Coursework Required for Admission Consideration: It is suggested that applicants have taken at least 18 credits of Religion coursework.

Master's Degree in Discipline/Related Discipline: A master's degree is not required.

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Statement of Goals: In 2 to 3 pages, address your background that prepares you for graduate studies in Religion, including your previous successes in academic study and research in the field; your area of interest within the field of Religion and how that interest coincides with offerings in Temple's Department of Religion; and your teaching and research goals and how you foresee study at Temple furthering those goals.

Standardized Test Scores:

GRE: Required. Scores of 160 (new test) or 600 (old test) on the verbal section and 144 (new test) or 500 (old test) on the quantitative section are preferred.

TOEFL: 100 iBT or 600 PBT minimum

Resume: Current resume required.

Writing Sample: The writing sample should demonstrate your ability to research and write a scholarly paper. The paper should be no more than 10 pages in length and fully referenced according to a professional, scholarly style manual. It should be in the field of Religious Studies or a closely related area.

Program Requirements

General Program Requirements:

Number of Credits Required Beyond the Master's: 30
Number of Credits Required Beyond the Baccalaureate: 60

Required Courses:

Foundation Courses

Basic Thought, Practices, and History of Three Particular Religious Traditions 12

Introductory Methodology 3

Advanced Seminars and/or Independent Study 33

Courses Taken Outside the Department 6

Dissertation Research

REL 9999 Dissertation Research 6

Total Credit Hours 60

The Ph.D. program is divided into three sequential units of study:

1. Unit I encompasses the first 24 credits of courses, including all the required foundation courses, and satisfaction of a first foreign language requirement. These courses are intended to provide a firm and broad academic base across the field of Religious Studies. The foundation courses must include 12 credits of courses in the basic thought, practices, and history of three particular religious traditions and 3 credits in an introductory methodology course. The remaining 9 credits consist of advanced or specialized courses chosen by the student for the benefit of her/his program after consultation with the advisor.

2. Unit II includes the remaining courses and second language competency to complete the required specialization in preparation for the preliminary examinations and the dissertation proposal. These include 24 credits of further advanced or specialized courses and 6 credits taken outside of the department for a total of 30 credits.

3. Unit III entails the writing and defense of the dissertation. The student registers for 6 credits of dissertation research, usually one credit per term.

Language Examination: Competence in all languages necessary to perform graduate-level scholarly research in the student's area of concentration must be demonstrated. Reading knowledge of a minimum of two foreign languages is required.

Culminating Events:

Preliminary Examination:

The purpose of the preliminary examination is to demonstrate critical and interpretive knowledge in specialized areas of Religion. Students are examined in all areas of scholarship and research necessary for their area of study. They must have demonstrated reading knowledge of at least a second foreign language, the first having been examined in Unit I. They prepare a dissertation proposal and an outline of their areas of examinations. The preliminary examination is taken at the end of Unit II.

Members of the student's dissertation committee individually write examination questions. Sometimes faculty are included as "examiners" who will not serve on the Dissertation Committee. Students arrange with their Dissertation Committee when the exams are to be taken. Normally exams are done within the Department of Religion, using a computer under supervised conditions. All examiners and members of the Dissertation Committee must agree that the student has demonstrated competence in the relevant areas of study, and that the student is capable of completing the dissertation proposed.

The written exams serve as the basis for the oral preliminary examination. All faculty for whom exams were written participate in the oral preliminary exam.

Dissertation Proposal:

The proposal demonstrates the student's knowledge of the current research in the field on her/his particular problem of interest. Students
should show methodological awareness and state the uniqueness of the proposed research with regard to the ongoing body of scholarly literature.

Dissertation:
The dissertation is to demonstrate original and significant contributions to the study of Religion. It should make use of primary texts and demonstrate reading knowledge of appropriate original languages.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense. This committee is comprised of the Doctoral Advisory Committee and at least one additional Graduate Faculty member from outside the Department of Religion. The Outside Examiner should be identified no later than the beginning of the term in which the student will defend the dissertation. The Dissertation Examining Committee evaluates the student's written thesis in making an original scholarly contribution to the field and her/his ability to defend and discuss orally the contents of the thesis.

If a student needs to change a member of a Committee, the new member must be approved by the Department's Graduate Studies Committee and registered with the Graduate Secretary and the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Graduate Secretary at least 30 days before the defense is to occur. The Graduate Secretary arranges the time, date, and room, and forwards to the student the appropriate forms. After the Graduate Secretary has arranged the time, date, and room for the defense, the student must send to the Graduate School a completed "Announcement of Dissertation Defense" form, found at www.temple.edu/grad/forms, at least 10 days before the defense. The department posts flyers announcing the defense.

Sociology, M.A.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program

The graduate program in Sociology is devoted to the training of research scholars and educators in the discipline. Students have a variety of career goals, ranging from academic research and teaching to research and administration in private or public agencies. The master's program provides advanced training in sociological theory, statistics, and research methods. The program's main areas of graduate teaching and research are Gender and Sexuality, Immigration and Globalization, Medical Sociology, Race and Ethnicity, and Urban Sociology.

Time Limit for Degree Completion: 3 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The program encourages students to participate in seminars in other social sciences, including Anthropology, Criminal Justice, Geography and Urban Studies, History, Political Science, Psychology, Urban Education, and Women’s Studies.

Affiliation(s): The program is affiliated with the American Sociological Association (ASA).

Areas of Specialization: The main areas of graduate teaching and research are:

• Gender and Sexuality
• Immigration and Globalization
• Medical Sociology
• Race and Ethnicity
• Urban Sociology

Job Prospects: Graduates of the M.A. program are typically employed as applied researchers and administrators in private and public agencies.

Non-Matriculated Student Policy: Students with a bachelor's degree may take graduate courses in Sociology without enrolling in a Temple University graduate program. A limit of 9 credits of graduate coursework taken prior to admission will be accepted toward a Sociology degree. Non-matriculated students should consult with the Graduate Chair before selecting their coursework if they plan to apply for the degree program.

Financing Opportunities: The Sociology Department does not offer funding opportunities for students enrolled in the M.A. program.

Admission Requirements and Deadlines

Application Deadline:
Fall: March 1
Applications are evaluated as they are received throughout the year.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with academic competence, wherever possible.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree is required.

Statement of Goals: Approximately 500 to 1,000 words include your interest in Temple's program; your research goals; your future career goals; and your academic and research achievements.

Standardized Test Scores:
GRE: Required.
TOEFL: 100 iBT or 600 PBT minimum

Writing Sample: The writing sample should demonstrate your ability to conduct research and write a scholarly paper. The paper may be on any topic, and no more than 25 pages in length. It must be fully referenced according to a professional and scholarly style.

Resume: Current personal resume or curriculum vitae required.

Transfer Credit: Graduate coursework in Sociology may be transferred from outside the university, provided that the credits were obtained no more than five years prior to the student's matriculation at Temple and the grades are "B" or better. The maximum number of credits a student may transfer is 6.

Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Baccalaureate: 31

Required Courses:

Social Theory Course
SOC 8111 Classical Social Theory 3
or SOC 9111 Contemporary Sociological Theory

Methods of Inquiry Courses
SOC 8011 Logic of Inquiry 3
SOC 8211 Inferential and Multivariate Statistics 4
SOC 8221 Qualitative Methods 3
SOC 9211 Graduate Data Analysis 3
SOC 9241 Qualitative Data Analysis 3

Electives 1 12

Total Credit Hours 31

1 Of the four elective courses, two must relate to the preliminary examination. Other electives may include:
- An Independent Study course (SOC 9382): With the consent of the Graduate Chair and the instructor, students may take one Independent Study course, which is an intensive program of study within a specific area of Sociology. Students who wish to take an Independent Study course must submit to the Graduate Chair at the beginning of the term a "Department Independent Study Request" form describing the readings and/or research they propose to undertake. The form must be signed by both the participating faculty member and the Graduate Chair. A final statement on the work completed must be filed with the Graduate Chair at the end of the term. A letter grade is given for this course.
- Outside courses: With the approval of the Graduate Chair, students may take one course outside the Sociology Department.

Culminating Events: This program has no culminating events beyond successful completion of coursework. The master's degree in Sociology is awarded to any candidate who earns a cumulative grade point average of 3.0 or better in the master's degree curriculum. Apply for graduation in Self Service Banner by accessing TUportal (https://tuportal4.temple.edu/cp/home/displaylogin). Note the deadline for submitting the graduation application on the Graduate School's calendar, found at http://bulletin.temple.edu/graduate/academic-calendar/.

Sociology, Ph.D.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)
About the Program

The graduate program in Sociology is devoted to the training of research scholars and educators in the discipline. Students have a variety of career goals, ranging from academic research and teaching to research and administration in private or public agencies. The doctoral program provides advanced training in sociological theory, statistics, and research methods. The program's main areas of graduate teaching and research are Gender and Sexuality, Immigration and Globalization, Medical Sociology, Race and Ethnicity, and Urban Sociology.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Full-time study is preferred, but part-time enrollment can be considered on a case-by-case basis.

Interdisciplinary Study: The program encourages students to participate in seminars in other social sciences, including Anthropology, Criminal Justice, Geography and Urban Studies, History, Political Science, Psychology, Urban Education, and Women’s Studies.

Affiliation(s): The program is affiliated with the American Sociological Association (ASA).

Areas of Specialization: The main areas of graduate teaching and research are:

- Gender and Sexuality
- Immigration and Globalization
- Medical Sociology
- Race and Ethnicity
- Urban Sociology

Job Prospects: Graduates of the Ph.D. program are typically employed as either teaching-research scholars in an academic setting or as applied researchers and administrators in private and public agencies.

Non-Matriculated Student Policy: Students with a bachelor's degree may take graduate courses in Sociology without enrolling in a Temple University graduate program. A limit of 9 credits of graduate coursework taken prior to admission will be accepted toward a Sociology degree. Non-matriculated students should consult with the Graduate Chair before selecting their coursework if they plan to apply for the degree program.

Financing Opportunities: The Sociology Department and Temple University support full-time students during the academic year through Teaching Assistantships, part-time teaching, and University and Future Faculty Fellowships. Initial funding is contingent on the recommendation of the Admissions Committee; continued funding is based on faculty assessment at the annual graduate student review. Funded students are typically offered a four-year funding package. Additional support for dissertation research is available through fellowships competitively awarded by the university and from outside sources.

Admission Requirements and Deadlines

Application Deadline:

Fall: December 15

Applications are evaluated together after the deadline has passed.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3
From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with academic competence, wherever possible.

Master's Degree in Discipline/Related Discipline: A master's degree is not required.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree in Sociology, Criminal Justice, Economics, History, Political Science, Psychology, or Urban Studies is required, although a degree in other disciplines can be considered.

Statement of Goals: Approximately 500 to 1,000 words include your interest in Temple's program; your research goals; your future career goals; and your academic and research achievements.

Standardized Test Scores:
GRE: Required.
TOEFL: 100 iBT or 600 PBT minimum

Writing Sample: The writing sample should demonstrate your ability to conduct research and write a scholarly paper. The paper should be on a sociological topic, and no more than 25 pages in length. It must be fully referenced according to a professional and scholarly style.

Resume: Current personal resume or curriculum vitae required.

Transfer Credit: Graduate coursework in Sociology may be transferred from outside the university, provided that the credits were obtained no more than five years prior to the student's matriculation at Temple and the grades are "B" or better. The maximum number of credits a student may transfer is 12, if the credits earned did not result in the completion of an M.A. degree.

Advanced Standing: For students entering the Ph.D. program who have received an M.A. degree elsewhere, up to 19 credits may be applied to the doctoral program, provided the courses are relevant to the department's required courses. These credits must have been obtained no more than five years prior to the student's matriculation at Temple and the grades must be "B" or better. The Graduate Chair decides which courses students may transfer. As a general rule, students with transferred credits should expect that they will have to complete much of the required coursework in residence and are, further, expected to take two courses from Temple faculty in their area of focus before taking the Ph.D. Preliminary Exam in their field.

Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Baccalaureate: 52

Required Courses:

Social Theory Courses

SOC 8111 Classical Social Theory 3
SOC 9111 Contemporary Sociological Theory 3

Methods of Inquiry Courses

SOC 8011 Logic of Inquiry 3
SOC 8211 Inferential and Multivariate Statistics 4
take the preliminary examination in one of the broad examination areas identified by the Sociology Department as consistent with its mission and self-defined areas of strength: Gender and Sexuality, Immigration and Globalization, Medical Sociology, Race and Ethnicity, and Urban Sociology. However, students may request to take the exam in another area under the following conditions:

1. the student has taken at least two graduate-level courses in the Sociology Department in the requested area, one of which may be an independent study course;
2. two faculty members are willing to sponsor the exam; and
3. the Graduate Chair approves.

No later than the second Monday in September prior to the Spring term when the preliminary examination will be taken, students must fill out the “Department Preliminary Examination Application” form and indicate the selected area for the exam. At the beginning of the Fall term, two faculty members from the prelim area are appointed by the Department Chair to form a Prelim Committee, which consists of a chair and one regular member. The committee members are charged with:

1. updating the integrated prelim reading list for the area;
2. writing and submitting four prelim questions to the Graduate Chair by March 15; and
3. grading the exams.

The Department Chair also appoints a tiebreaker to read the exam if the committee does not agree on the evaluation.

The written area examination consists of four questions, and students must select and answer two of those questions. Students are given one week to complete the preliminary exam. Students receive the questions the second Monday in April, and the answers are due the third Monday in April. The Prelim Committee members have two weeks to evaluate the exam, assigning a grade of “Pass” or “Fail” to each question along with their comments. A total of at least three “Pass” grades from the two graders is needed for a student to pass the exam. When the graders both agree to fail a question (even if they pass the other question), the student has failed the preliminary exam. The tiebreaker should be used either when:

1. one grader passes both answers and the other grader fails both answers; or
2. when one grader passes the first answer and fails the second, while the other grader fails the first answer and passes the second.

If the tiebreaker fails to break the tie (i.e., three fails and three passes), the student fails the exam. Grades with comments are submitted to the Graduate Chair.

If the student fails the written area exam, s/he may retake the exam. At the beginning of the following Fall term, three faculty members (including a tiebreaker) in the prelim area are appointed by the Department Chair to form a Prelim Committee. The committee submits four questions to the Graduate Chair by October 15. The student receives the questions the Monday of the week before Thanksgiving week and the exam is due on the Monday of Thanksgiving week. The committee has two weeks to grade the exam.

Proposal Paper: In the Spring term of the preliminary examination, students are also required to take a three-credit proposal seminar course (SOC 9994 Preliminary Examination Preparation). They must receive a
passing grade on the written paper for the course in order to pass the preliminary examination.

The proposal paper is the main assignment of the proposal seminar. Every student selects a faculty member with expertise in her/his research area to serve as a proposal reader. The proposal reader meets with the student at least twice during the term to discuss the paper: once before Spring break, and once after Spring break. At the end of each meeting, the reader provides the student and the instructor of the proposal seminar course with a brief narrative of the strengths and weaknesses of the paper. The instructor may meet with the reader to discuss the student’s progress in the writing of the proposal paper. The week after Spring break, the instructor submits a report to the Graduate Chair with a brief description of the performance of each student. Any student who is underperforming is called to a meeting with the Graduate Chair in the presence of the instructor and the proposal reader to take corrective measures.

On the official last day of classes, students submit their proposal paper to the instructor and the reader. The paper should demonstrate mastery of the existing body of literature on the proposed topic and the ability to formulate important scholarly research problems, as well as the appropriate methods to investigate them. It should not exceed 20 pages and should have no fewer than 12 pages. The evaluation of the proposal paper focuses on the student’s potential for writing a passable dissertation. Evidence of such potential includes the ability to synthesize the relevant literature; conceptualize a researchable problem; and propose a feasible research design. The instructor and the reader have a week to grade the papers. Each must submit a detailed, descriptive evaluation of the paper to the Graduate Chair, indicating whether it is “acceptable” or “unacceptable.” If the instructor and the reader disagree on the evaluation of the paper, a third department member with expertise in the area is appointed by the Graduate Chair to provide a determining evaluation. The main goal of the paper evaluation is to assess the student’s ability to write a dissertation.

If the student fails the proposal paper, s/he may rewrite the paper. The Graduate Chair appoints a faculty mentor with expertise in the research topic to work with the student on the rewriting of the paper; the mentor also serves as a grader. The Graduate Chair appoints another faculty member to serve as a second grader. If a tie occurs between the two graders, the Graduate Chair finds a third grader to break the tie.

The rewritten paper is due the first Monday in December. The appointed faculty members evaluate the paper and report to the Graduate Chair in two weeks whether the paper is “acceptable” or “unacceptable.” Students are notified of the results by December 15.

**Doctoral Advisory Committee:**

Following the preliminary examination, the student selects the Chair of her/his Doctoral Advisory Committee. The remaining two or more members of the committee are selected by the student in consultation with the Chair. The majority of the committee members must be from the Sociology Department. Other members may include faculty from other departments within Temple University or from other universities; doctoral-level expert advisors from outside university settings may also be considered as members.

To establish the Doctoral Advisory Committee, the student must submit a "Sociology Department Doctoral Advisory Committee" form to the department’s Graduate Coordinator. To include committee members who are not members of the Temple Graduate Faculty on a Doctoral Advisory Committee, the Chair must request approval by submitting the "Nomination for Service on Doctoral Committee" form, found at http://www.temple.edu/grad/forms/, and the proposed committee member’s current curriculum vitae to the Graduate School. If a change is made in the composition of the Doctoral Advisory Committee, the change must be approved by the Chair of the committee; if the change involves the Chair of the committee, the Graduate Chair should be informed beforehand and the original Chair of the committee must be notified. The change must also be noted on the original "Sociology Department Doctoral Advisory Committee" form and signed by both the Chair of the committee and the Graduate Chair.

The Doctoral Advisory Committee meets at least once a year to review the candidate’s progress and offer advice to the candidate.

**Dissertation Proposal:**

The dissertation proposal is a brief statement of the dissertation research. It should contain a review of the literature; a statement of the research problem; and a comprehensive description of the research strategy to be employed.

The student distributes a proposal summary of five pages or less to all department faculty members at least two weeks prior to the oral defense of the proposal. One complete copy of the proposal should also be available in the office of the department’s Graduate Coordinator. All department faculty and graduate students are invited to attend the presentation of the dissertation proposal. Normally, proposal defenses are held during the academic year. All members of the committee must be present at the proposal defense, but an alternate member may be requested with prior approval from the Graduate Chair.

The dissertation proposal is accepted only when members of the dissertation committee vote unanimously to accept it. An approved dissertation proposal along with the "Dissertation Proposal Transmittal for Elevation to Candidacy" form, found at http://www.temple.edu/grad/forms/, must be filed with the Graduate School. After defending the dissertation proposal, a student is formally advanced to Ph.D. candidacy.

If a change is made in the composition of the Doctoral Advisory Committee after the approval of the proposal, the change must be approved by the Chair of the committee and the Dean of the College. The change must be noted on the "Request for Change in Dissertation Committee" form, found at http://www.temple.edu/grad/forms/, and filed with the Graduate School prior to posting the final dissertation defense.

**Dissertation Defense/Ph.D. Final Examination:**

The dissertation is defended orally. Any discrepancy between the final version of the dissertation and the dissertation proposal should be explained and defended. One copy of the final dissertation should be made available in the office of the Sociology Department at least two weeks before the dissertation defense. An abstract of the dissertation, not exceeding ten pages, must be given to all faculty members ten days before the defense.

The Dissertation Examining Committee is formed to evaluate the quality of the dissertation and conduct the oral defense. The committee includes the Doctoral Advisory Committee and at least one outside examiner. If the outside examiner is not a member of the Temple Graduate Faculty, the Chair of the Doctoral Advisory Committee must request approval by submitting the "Nomination for Service on Doctoral Committee" form, found at http://www.temple.edu/grad/forms/, and the outside examiner’s current curriculum vitae to the Graduate School at least four weeks in advance of the scheduled defense. Approval must be received prior to posting the oral defense. The Chair of the Dissertation Examining Committee must be a member of the Graduate Faculty, but may not
be the Chair of the candidate’s Doctoral Advisory Committee. This person, responsible for coordinating and conducting the defense, must be identified when the defense is posted with the Graduate School on the "Announcement of Dissertation Defense" form, found at http://www.temple.edu/grad/forms/.

All dissertation oral defense examinations are publicly announced by the Sociology Department in writing at least ten days in advance of the examination. The written announcement must be sent to all members of the Dissertation Examining Committee, all graduate faculty in the candidate’s department, and the Graduate School. It must also be posted in the College. All dissertation examinations are open to the entire academic community.

Normally, the dissertation defense is held during the regular academic year. A dissertation defense passed after the Graduate School deadline in the Spring does not qualify the student for a May degree. A summer defense may be scheduled only if all members of the committee agree. The entire dissertation committee must attend the defense. If one or more committee members fail to attend the defense, the Departmental Chair cannot sign the form certifying the defense. All faculty members and students are invited to participate in the dissertation defense.

The dissertation committee must vote unanimously that the student has passed the Ph.D. Final Examination. Each member of the dissertation committee indicates her/his assessment of the examination and signs her/his name to the "Final Examination Report for Doctoral Candidates" form, found at http://www.temple.edu/grad/forms/. If the Chair of the Sociology Department agrees that the dissertation meets departmental standards, she/he signifies her/his approval for signing for the department as well on the "Final Examinations Report for Doctoral Candidates" form. The completed form is submitted to the Dean's Office of the College of Liberal Arts.

Information regarding the required format of the dissertation is available in the Graduate School’s Dissertation and Thesis Handbook, found at http://www.temple.edu/grad/. A processing fee must be paid to the Temple University Bursar as shown on the "Dissertation/Thesis Processing Fee" form, found at http://www.temple.edu/grad/forms/. Fees may also be required when filing the dissertation electronically, within 30 days of the dissertation defense, at http://www.etdadmin.com/cgi-bin/school?siteId=171. The student should heed the instructions found on the "Final Checklist of Dissertation Materials," identified as Appendix M1 in the Graduate School’s Dissertation and Thesis Handbook. Note that the signature page bearing original ink signatures constitutes the only item required to be submitted in hard copy to the Graduate School.

Students must apply to graduate, through the Sociology Department, by the deadline date announced in the graduate catalog each year. The deadline is usually three or four months before graduation. Applications may be obtained from the department’s Graduate Coordinator or online. Upon completion of the doctoral program, the student is required to submit a bound copy of her/his dissertation to the Sociology Department, as well as a regular hard copy to the Chair of the Dissertation Examining Committee.

Spanish, M.A.

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Program
The graduate program in Spanish integrates the established fields of Literature and Linguistics. At the M.A. level, the program develops advanced Spanish-language skills for diverse careers and trains students in the exercise of research and pedagogical skills necessary for the pursuit of the Ph.D.

Time Limit for Degree Completion: 3 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Study Abroad: Students may apply one approved non-Temple graduate course done in a Spanish-speaking country toward fulfillment of the M.A. requirements in Spanish. Opportunities for graduate study abroad through Temple programs are available occasionally.

Areas of Specialization: Areas of specialization include:

- Spanish Peninsular Literature
- Spanish American Literature
- Hispanic Linguistics

Job Prospects: Graduates of the M.A. program in Spanish typically find employment in secondary education, in business and government, and in social and medical services.
Non-Matriculated Student Policy: Non-matriculated students may take up to three courses with approval of the department or Graduate Chair.

Financing Opportunities: Teaching Assistants typically teach basic and intermediate Spanish or specialized language-skills courses. Assistantships carry a stipend and tuition remission. Candidates for Teaching Assistantships should express their interest and special needs in an addendum to the personal statement of the application to the graduate program.

Admission Requirements and Deadlines

Application Deadline:
Fall: January 15
Spring: September 30

Applications are evaluated as they arrive, with attention paid to deadlines. APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members with personal knowledge of the applicant's academic achievements.

Coursework Required for Admission Consideration: An undergraduate major in Spanish or its coursework equivalent is required for entrance into the M.A. program.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree, preferably in Spanish, is required for admission.

Statement of Goals: Approximately 2 to 3 pages include your interest in Temple's Spanish program, future career goals, research goals, academic achievements, and any related experience. Applicants interested in Teaching Assistantships, Fellowships, or other financial support may describe special needs in an addendum to their personal statement.

Standardized Test Scores:
GRE: Typical scores range from 153 to 166 in verbal reasoning and 144 to 155 in quantitative reasoning or 500 to 700 on the old version of the GRE. Applicants from Spanish-speaking countries may present EXADEP scores instead.

International applicants are required to provide scores from one of the following tests: Test of English as a Foreign Language (TOEFL®), the International English Language Testing System (IELTS™), or the Pearson Test of English Academic (PTE Academic™).

Resume: Current resume required.

Writing Sample: A paper or journal article written in Spanish is required.

Transfer Credit: One course (3 credits) undertaken while the student is enrolled in Temple's Spanish M.A. program may be transferred from a program in a Spanish-speaking country. The course must be a graduate course, and it must be approved by the Graduate Advisor. The maximum number of credits a student may transfer is 3.

Program Requirements

General Program Requirements:

Number of Didactic Credits Required Beyond the Baccalaureate: 30

Required Courses:

<table>
<thead>
<tr>
<th>Core Course</th>
<th>SPAN 8001 Hispanic Bibliography and Research</th>
<th>3</th>
</tr>
</thead>
<tbody>
<tr>
<td>Other Courses</td>
<td>27</td>
<td></td>

</tr>
<tr>
<td>Advanced (6000-level and higher) courses</td>
<td>2</td>
<td></td>
</tr>
<tr>
<td>Total Credit Hours</td>
<td>30</td>
<td></td>
</tr>
</tbody>
</table>

1 Student may take a maximum of 12 credits.
2 Student must take a minimum of 18 credits.

Language Examination: Students must pass a written reading-comprehension examination in a foreign language other than Spanish. Examinations are usually taken in the Romance languages or German. Other languages may be accepted with approval.

Culminating Events:

Comprehensive Examination:
The purpose of the comprehensive examination is to evaluate the breadth and depth of students' knowledge of the discipline. Students must write a six-hour written comprehensive examination based on a reading list. The examination is taken after the student fulfills the 30-credit course requirement and passes the reading-comprehension exam in a language other than Spanish or English.

All examinations must include representation from each of three course fields: Spanish Peninsular Literature, Spanish American Literature, and Hispanic Linguistics. Graduate Faculty from each of the three fields write the questions and evaluate responses on a scale of "A" to "F." Each answer is then evaluated by a second reader. To be evaluated as passing, a grade of "B-" or higher must be achieved in response to each examination question. Evaluators look for an understanding of core concepts; the application of principles of critical analysis to texts from the reading list for the M.A. examination; and the ability to write expository prose.

Comprehensive examinations are administered once a term. They are scheduled by the Graduate Chair, with whom students must register. The M.A. examination is given over a period of one week and is proctored by the Graduate Chair or an Administrative Assistant.

**Spanish, Ph.D.**

COLLEGE OF LIBERAL ARTS ([http://www.cla.temple.edu](http://www.cla.temple.edu))

**About the Program**

The graduate program in Spanish integrates the established fields of Literature and Linguistics. At the Ph.D. level, the program provides opportunities for advanced study and research in Spanish Peninsular Literature, Spanish American Literature, and Hispanic Linguistics as it trains scholars for careers in higher education.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Areas of Specialization:** Areas of specialization include:

- Spanish Peninsular Literature
- Spanish American Literature
- Hispanic Linguistics

**Job Prospects:** The department has an excellent record of placing graduates as full-time faculty in public and private universities.

**Non-Matriculated Student Policy:** Non-matriculated students may take up to three courses with approval of the department or Graduate Chair.

**Financing Opportunities:** Teaching Assistants typically teach basic and intermediate Spanish or conversation, composition, and reading courses. Assistantships carry a stipend and tuition remission. Candidates for Teaching Assistantships should express their interest and special needs in an addendum to the personal statement of the application to the graduate program.

**Admission Requirements and Deadlines**

**Application Deadline:**
- Fall: January 15
- Spring: September 30

Applications are evaluated as they arrive, with attention paid to deadlines.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

**Number Required:** 3

**From Whom:** Letters of recommendation should be obtained from college/university faculty members with personal knowledge of the applicant's academic and scholarly achievements.

**Master's Degree in Discipline/Related Discipline:** A master's degree in Spanish with an emphasis in Literature and/or Linguistics is required.

**Bachelor's Degree in Discipline/Related Discipline:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

**Statement of Goals:** Approximately 2 to 3 pages include your interest in Temple's Spanish program, future career goals, research goals, academic achievements, and any related experience. Applicants interested in Teaching Assistantships, Fellowships, or other financial support may describe special needs in an addendum to their personal statement.

**Standardized Test Scores:**

- **GRE:** Required. Typical GRE scores range from 153 to 166 in verbal reasoning and 144 to 155 in quantitative reasoning or 500 to 700 on the old version of the GRE. Applicants from Spanish-speaking countries may present EXADEP scores instead.

- International applicants are required to provide scores from one of the following tests: Test of English as a Foreign Language (TOEFL®), the International English Language Testing System (IELTS™), or the Pearson Test of English Academic (PTE Academic™).

- **Resume:** Current resume required.

- **Writing Sample:** A paper or journal article in Spanish is required as a writing sample.

- **Advanced Standing:** Students are awarded advanced standing based on a review of transcripts and descriptions of previous graduate coursework in Spanish Literature or Spanish Linguistics. The maximum number of advanced standing credits awarded is 30.

**Program Requirements**

**General Program Requirements:**

**Number of Credits Required Beyond the Master's:** 39

**Required Courses:**

- **Core Courses**
  - SPAN 8001 Hispanic Bibliography and Research 3
  - SPAN 8161 Critical Approaches to Hispanic Literature 3

- **Other Courses** 27
  - 6-7 courses in Spanish Peninsular Literature, Spanish American Literature, and Hispanic Linguistics
  - 2-3 approved courses in related fields outside the Department of Spanish and Portuguese

**Non-Didactic Courses** 6
that makes a significant contribution to the field of Hispanic Studies. The doctoral dissertation is an original empirical or theoretical study. The proposal should be completed and approved after the student completes coursework. The dissertation proposal demonstrates the student’s knowledge and ability to conduct the proposed research. The proposal typically consists of the presentation of the context and background surrounding a particular research question or problem; a survey and review of pertinent literature; and a detailed methodological plan for carrying out the proposed research. The proposal should be completed and approved by the student's Doctoral Advisory Committee no more than one year after the student completes coursework.

The preliminary examination is given over a period of two weeks. Students who are preparing to write their preliminary examinations must meet with the Graduate Chair to register and confirm subject areas, dates, and times for the examination. The Graduate Chair or an Administrative Assistant proctors all examinations.

The preliminary examination is to demonstrate critical and interpretive knowledge in two specific areas of Hispanic Studies. It is based on a required reading list. The examination is 10 hours long and focuses on one primary and one supporting area. The primary area must be selected from the main field of concentration for the dissertation. The supporting area is selected from the other fields of study within the department. The preliminary examination should be completed no more than one term after the student completes the coursework component of the program.

The preliminary examination is given over a period of two weeks. Students who are preparing to write their preliminary examinations must meet with the Graduate Chair to register and confirm subject areas, dates, and times for the examination. The Graduate Chair or an Administrative Assistant proctors all examinations.

Language Examination: Students must pass written reading-comprehension examinations in two foreign languages other than Spanish. Examinations are usually taken in the Romance languages or German. Other languages may be accepted with approval.

Graduate Certificate: Crime Science

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Certificate

The graduate certificate in Crime Science is designed to produce professionals who are qualified for analytical positions in policing and other branches of the criminal justice system, as well as in private industry or non-profit organizations that have an analytical function. Students in the program learn practical skills such as geospatial crime analysis and crime reduction evaluation through time series analysis, as well as develop a conceptual understanding of analytical strategies across the crime prevention domain. Graduating students are versed in the skill set designated by the International Association of Crime Analysts' (IACA) Certified Law Enforcement Analyst Program (CLEA). Upon completion of the certificate program, future and current crime analysts are better equipped to undertake complex crime and offender analysis; describe the scientific method and its application to crime analysis; and appraise and apply the latest research in evidence-based policing, especially in relation to crime, harm, and disorder in the community. They also demonstrate a broad range of GIS data management skills.

Time Limit for Certificate Completion: 2 years

Students undertaking coursework for the graduate certificate can decide to continue with the M.A. program in Criminal Justice. They can either:

• Complete the certificate, and transfer 6 credits into the M.A., or
• Forgo the graduate certificate, and transfer all completed credits (up to 12) into the M.A. program.

Note that students who undertake both the graduate certificate in Crime Science and the graduate certificate in Police Leadership are only able to complete seven of eight required classes for the pair because the certificates share CJ 5001 Evidence-Based Policing. Those students are then required to take one class from the department's existing graduate program.

Campus Location: Main, with CJ 5001 Evidence-Based Policing offered at the Philadelphia Police Department Police Academy in Northeast Philadelphia

Full-Time/Part-Time Status: The graduate certificate is completed on a part-time basis. Students take one course per academic term over 16 months: Fall, Spring, Summer, and Fall. Classes are held in the evening to accommodate working professionals.

Job Prospects: The certificate program is chiefly available to individuals who are currently employed in a role that requires relevant professional experience. Examples include those working in a police department or as a loss prevention leader with a private firm.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

Admission Requirements and Deadlines

Application Deadline:
Fall: Admission is offered as part of a cohort for the Fall term.

Letters of Reference:
Number Required: 2

From Whom: Letters of recommendation should be obtained from evaluators, typically college/university faculty or an immediate work supervisor, who can provide insight into the applicant's aptitude for graduate study.

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. An undergraduate GPA of 3.0 — or 2.5 with at least two years of relevant professional experience — is required.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a Crime Science certificate and your professional experience in the field.

Standardized Test Scores:
TOEFL score (international applicants only): 88 iBT or 575 PBT minimum. Proficiency in the use of spoken and written English is required. Students whose first language is not English will need to meet the University's English language requirement.

Resume: Current resume required.

About the Certificate
The 21st century is increasingly defined by the incorporation of spatial technologies into everyday life. Geographic information has become one of the linchpins of the Information Age, whether through the proliferation of the civilian global positioning system, mobile and fixed platforms for reporting locational information, or, most crucially, the increasing interest in computational and analytical tools focused on this information (i.e., Geographic Information Systems [GIS]). While geographic information is increasingly integrated into the fabric of everyday life, this explosion in interest in GIS is fueling demand for well-trained professional practitioners. Our courses introduce students to a variety of cutting-edge spatial analysis technology and mapping software.

GIS is a rapidly growing field with applications across the social sciences, sciences, and professional fields. Because applications of GIS are pervasive across many fields and industries, the U.S. Department of Labor estimates that the geospatial technology market is growing at an annual rate of 35 percent. The Department of Geography and Urban Studies faculty have expertise in a range of GIS applications, including urban, health, environment, business, location analysis, geovisualization, and remote sensing.

The certificate complements our Professional Science Master’s in GIS and may serve as a gateway into the program. Students in the certificate program pursue a curriculum that provides training in GIS that also complements graduate programs offered in the College of Education, College of Liberal Arts, College of Public Health, College of Science and Technology, Fox School of Business and Management, and the School of Media and Communication.

Time Limit for Certificate Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: The graduate certificate can be completed on a part-time basis.

Job Prospects: Training in GIS prepares individuals to take on advanced research positions in technology-based companies, governmental agencies, and non-profit organizations. The array of electives for the certificate allows students to specialize in the areas of their professional or academic interests.

Non-Matriculated Student Policy: Courses are available to non-matriculated graduate students with approval from the Graduate Chair or Assistant Director. Non-matriculated students may take up to 9 credits prior to matriculation. If accepted into the program, these credits may be applied toward the certificate. Please contact psmgis@temple.edu for more information about registering as a non-matriculated student.

Admission Requirements and Deadlines
Application Deadline:
Fall and Spring: Admission is on a rolling basis. Interested students should contact psmgis@temple.edu for permission to enroll in coursework. Students are processed by the Office of Continuing Studies.

Bachelor’s Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Graduate Certificate: Police Leadership

COLLEGE OF LIBERAL ARTS (http://www.cla.temple.edu)

About the Certificate

The graduate certificate in Police Leadership is designed to provide police practitioners with a thorough understanding of the leadership challenges that face police command staff in an operational environment. Students in the program undertake a field of study designed to equip police leaders with a skill set tuned to 21st-century policing. Courses explore decision-making styles and individual leadership characteristics; evidence-based policing and decision-making in the context of operational command and community crime reduction; ethical governance and workplace management; and an executive seminar involving organizational leaders from within and outside of policing. Upon completion of the certificate program, policing practitioners are better equipped to consume research evidence; describe best practice in leadership roles across complex work environments, especially in relation to crime, harm, and disorder in the community; and develop their own leadership traits.

Time Limit for Certificate Completion: 2 years

Students undertaking coursework for the graduate certificate can decide to continue with the M.A. program in Criminal Justice. They can either:

• Complete the certificate, and transfer 6 credits in to the M.A., or
• Forgo the graduate certificate, and transfer all completed credits (up to 12) into the M.A. program.

Note that students who undertake both the graduate certificate in Police Leadership and the graduate certificate in Crime Science are only able to complete seven of eight required classes for the pair because the certificates share CJ 5001 Evidence-Based Policing. Those students are then required to take one class from the department's existing graduate program.

Campus Location: Main, with CJ 5001 Evidence-Based Policing offered at the Philadelphia Police Department Police Academy in Northeast Philadelphia

Full-Time/Part-Time Status: The graduate certificate is completed on a part-time basis. Students take one course per academic term over 16 months: Fall, Spring, Summer, and Fall. Classes are held in the evening to accommodate working professionals.

Job Prospects: The certificate program is chiefly available to individuals who are currently employed in a role that requires relevant professional experience. Examples include those working in a police department or as a loss prevention leader with a private firm.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

Admission Requirements and Deadlines

Application Deadline:  
Fall: Admission is offered as part of a cohort for the Fall term.

Letters of Reference:
Number Required: 2

From Whom: Letters of recommendation should be obtained from evaluators, typically college/university faculty or an immediate work supervisor, who can provide insight into the applicant’s aptitude for graduate study.

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. An undergraduate GPA of 3.0 — or 2.5 with at least two years of relevant professional experience — is required.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a Police Leadership certificate and your professional experience in the field.

Standardized Test Scores: TOEFL score (international applicants only): 88 iBT or 575 PBT minimum. Proficiency in the use of spoken and written English is required. Students whose first language is not English will need to meet the University’s English language requirement.

Resume: Current resume required.

Lew Klein College of Media and Communication

The Lew Klein College of Media and Communication (KCMC) at Temple University is one of the most prominent of its kind in the nation. Combining a history of success with an eye on the constantly shifting horizon, Klein College offers one of the most advanced and diverse programs for learning and networking in the communications field.

With a superb faculty, diverse student body, and location in the nation's fourth-largest media market, KCMC is one of the most exciting places in the world to study the role and many facets of communication in public life. Possessing an array of experience and expertise, KCMC faculty range from world-renowned scholars to Pulitzer Prize-winning practitioners. All are dedicated to teaching and ensuring that our school is a powerful force for innovation, diversity, and social justice. We foster curiosity in our students and encourage their willingness to begin with tough questions and challenge themselves and each other in pursuing truth. Our students graduate with the confidence to communicate effectively across cultures.

Klein College students learn by doing. Classrooms provide hands-on training using industry-standard technology. All KCMC facilities are uniquely outfitted for the teaching, research, and production of all disciplines of communications study. Annenberg Hall is home to:

- A 75-seat film and video screening room
- Broadcast and film production areas
- Electronic news writing and editing rooms
- Journalism and photography labs
- Multimedia labs
- Video and film editing areas
- Three fully-equipped studios for educational use, including videography, television direction, and broadcast performance

At Temple University Center City, the Multimedia Urban Reporting Lab (MURL) is a newsroom that features wireless networking, digital recorders, access to the AP wire, and video equipment.

Since the founding of the Department of Journalism in 1927, the structure and curriculum of the communications program have been evolving to meet the demands and expectations of a changing media landscape. Key events include:

- In 1967, the School of Communications and Theater was formed by combining the Department of Journalism and the Department of Radio, Television and Film.
- Also in 1967, the first graduate degree was offered in an M.F.A. in Theater, which was followed four years later by an M.F.A. in Film and Video.
- In 2010, TUTV, Temple's digital cable channel, was launched within the city of Philadelphia on Comcast and Verizon, as well as online at http://templetv.net/.
- In 2012, the school was renamed the School of Media and Communication when a University realignment of schools and colleges moved the Department of Film and Media Arts and Department of Theater to a new Center for the Arts.

In March 2017, in celebration of the school's 50th anniversary, an official renaming made it the Lew Klein College of Media and Communication. The name change honors broadcasting pioneer Lew Klein. Klein began teaching TV courses at Temple University in 1952, while he also worked as an executive at WFIL-TV (now WPVI) in Philadelphia. In the ensuing 65 years, he helped launch the careers of hundreds of professionals, including NBC Today co-anchor Matt Lauer; CBS Evening News Executive Producer Steve Capus; SMC '86; comedian Bob Saget, SMC ‘78; and the late host and producer Dick Clark. In addition to serving as executive producer of American Bandstand and producing legendary Philadelphia-area programs, such as Captain Noah and His Magical Ark, Klein played an instrumental role in launching Channel 6's Action News format as program director of the station in 1970. He also spent 15 years producing Philadelphia Phillies telecasts and was president of Gateway Communications, which owned four TV stations in the East. Throughout his momentous career, Klein taught as a part-time adjunct professor at Temple.

Adrienne Shaw, Assistant Professor, Department of Media Studies and Production, Lew Klein College of Media and Communication; Ph.D., University of Pennsylvania.

Larry Stains, Associate Professor (Teaching/Instructional), Department of Journalism, Lew Klein College of Media and Communication; M.J., Columbia University.

Edward J. Trayes, Professor, Department of Journalism, Lew Klein College of Media and Communication; Ph.D., University of Iowa.

Karen M. Turner, Associate Professor, Department of Journalism, Lew Klein College of Media and Communication; J.D., Northwestern University School of Law.

Elizabeth Leebron Tutelman, Professor, Department of Media Studies and Production, Lew Klein College of Media and Communication; Ph.D., Northwestern University.
Conflict, employee dispute resolution, leading diverse teams, and organizational demands such as crisis management, cross-cultural program have gained the effective executive skills to manage different job prospects.

Areas of Specialization:
- Conflict Management and Dispute Resolution
- Strategic Communication and Cross-Cultural Leadership

Job Prospects: Graduates of the M.S. in Communication Management program have gained the effective executive skills to manage different organizational demands such as crisis management, cross-cultural conflict, employee dispute resolution, leading diverse teams, and responsible decision making in both corporate and non-corporate institutions. They are prepared to serve in corporate and nonprofit organizations, public and government relations, and public and political advocacy.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits before submitting an application.

Financing Opportunities: Funding is not available for this program.

Admission Requirements and Deadlines

Application Deadline:
- Fall: February 15
- Spring: November 1

Applications are processed as they arrive up to the deadline date.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 2

From Whom: Letters of recommendation should be obtained from evaluators who are able to provide insight into the applicant's potential for professional achievement and aptitude for graduate study.

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the baccalaureate degree at Temple University.

Statement of Goals: Include your special interests within the discipline and expectations for the program.

Standardized Test Scores:
GRE: Required. Scores at or above the 65th percentile are expected.
TOEFL: 105 iBT or 620 PBT minimum

Resume: Current resume or curriculum vitae required.

Other Requirements: Submission of writing or research samples is optional.

CMGT 5102  Designing Workplace Dispute Systems  3  
Capstone Course  
CMGT 8109  Final Project  1  
Total Credit Hours  31  

Culminating Events:  
Capstone Project:  
CMGT 8109 constitutes the final project in Communication Management. It requires students to solve a critical communication problem (structural and/or procedural) affecting an organization’s ability to communicate efficiently or effectively at internal and/or external levels. The 20-minute video-recorded presentation allows students during their final academic term to reflect on and summarize relevant concepts, practices, and readings from their entire course of study.

Globalization and Development Communication, M.S.  
LEW KLEIN COLLEGE OF MEDIA AND COMMUNICATION (https://klein.temple.edu)  

About the Program  
The M.S. in Globalization and Development Communication is a 30-credit program designed to be completed in one year, with 18 credits of required core coursework, 9 credits in a specialization, and 3 credits of capstone field experience. The curriculum provides a comprehensive overview of management and communication theories and their implications for communication management; research methods tailored to media and development communication issues; and the design, implementation, and evaluation of development communication projects.  

Time Limit for Degree Completion: 4 years, although the program is designed to be completed in one year  
Campus Location: Main, Center City  
Full-Time/Part-Time Status: The program requires full-time enrollment.  
Interdisciplinary Study: The program is designed to be interdisciplinary in nature.  
Areas of Specialization: Areas of specialization include:  
• Community Development  
• Conflict, Peace and Human Rights  
• Media Development and Advocacy  
• Policy, Planning and Governance  
• Public Health  
• Sustainability and the Environment  

Students may also design their own specialization.  
Job Prospects: The program prepares graduates as development communication specialists who can help raise public understanding, build consensus, and generate change by effectively using the range of communication alternatives available, whether by facilitating processes of dialogue among stakeholders or through media campaigns, for governmental and non-governmental institutions.  

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits before submitting an application.

Financing Opportunities: Given that the program is designed to be completed in one year of full-time study, the Lew Klein College of Media and Communication does not offer graduate assistantships for those in the Globalization and Development Communication master's program.

Admission Requirements and Deadlines  
Application Deadline:  
Fall: March 1  
Applications are processed on a continual basis.  
APPLY ONLINE to this graduate program.

Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Baccalaureate: 30

Required Courses:

Core Courses
- GDC 8001 Seminar in Media, Communication and Development 3
- GDC 8002 Development Communication Project Design and Management 3
- JRN 5213 Solutions Journalism 3
- MSP 5114 Communication Research Methods 3
- or GDC 8003 Research Approaches in Communication, Development and Social Change
- MSP 8254 Public Information Campaigns 3
- MSP 8473 Information Society 3

Courses for Area of Specialization 1 9

Capstone Course
- GDC 8089 Field Experience 3

Total Credit Hours 30

1 Students choose three courses in one area of specialization. Coursework options are identified at https://klein.temple.edu/communication-and-public-relations/master-science-globalization-and-development-communication/classes-and-curriculum for each of the six specializations: Community Development; Conflict, Peace and Human Rights; Media Development and Advocacy; Policy, Planning and Governance; Public Health; and Sustainability and the Environment. Additional courses from across the University can be employed in student-designed specializations.

Culminating Events:
Capstone Course:
The hybrid capstone course, GDC 8089 Field Experience, takes the form of an internship, special project, or service learning experience. It is offered in the Summer term.

Journalism, M.J.

LEW KLEIN COLLEGE OF MEDIA AND COMMUNICATION (https://klein.temple.edu)

About the Program
The Master of Journalism program provides both introductory and advanced study for students who wish to begin or advance their careers in news and information, including broadcast and print reporters, magazine editors and writers, media managers, and those working in online news and information. Students receive instruction from award-winning media practitioners from the Philadelphia region and have the opportunity to study under a well-regarded faculty at a Research I institution. Students may find many freelance and internship opportunities in the nation's fourth largest media market.

Note that in Fall 2018, the M.J. degree program will be restructured to require 30 credits for completion over the course of one year in a cohort experience. The restructured program will allow students to develop a broader range of skills and deeper knowledge required to work across media platforms. It will do so within a curriculum and through reporting projects that focus more directly on the problems and opportunities of urban life.

Time Limit for Degree Completion: 4 years

Campus Location: Main, Center City

Courses are primarily offered at the well-equipped and professional facility of Temple University Center City (TUCC) campus, a location across from Philadelphia’s City Hall and appropriate for a professional news training program. Some classes are also offered on Main Campus, 15 minutes away by subway, bus, or automobile. Parking is available at both sites.

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The program encourages interdisciplinary coursework in areas outside the Master of Journalism program. Students can select courses from other departments if those courses are appropriate to the student's career goals.
Study Abroad: M.J. students may participate in the London program offered by the Lew Klein College of Media and Communication in the Summer and Fall terms.

Ranking: Temple University's Master of Journalism program is the only one of its kind in the state and one of just a handful of programs in the United States. The program is proud that it provides professional training within a University liberal arts context appropriate for individuals who seek to be leaders in their field.

Areas of Specialization: Coursework is offered in communication history; law and ethics; magazine writing; news and magazine management; and news reporting for print, broadcast, and online distribution. Specialized classes are also offered in computer-assisted reporting, documentary photography, electronic information gathering, sports writing, Web design, and other areas.

Job Prospects: The program is dedicated to training professional practitioners in mass media, newspaper and broadcast reporters, magazine writers, and professionals in emerging fields such as Web design and the Internet. The program also emphasizes critical thinking, development of specialized knowledge bases, ethical concerns, and historical context.

Non-Matriculated Student Policy: Non-matriculated students may apply up to 4 credits to the program requirements with the permission of the Master of Journalism Program Director and/or the Master of Journalism Committee. Non-matriculated students may choose to take JRN 5001 Crit Perspectives Journ and JRN 5002 Reporting and Writing I if space is available.

Financing Opportunities: The program offers limited Teaching and Research Assistantships, which are competitively awarded based on GRE scores, among other things. Applications for assistantships should be made at the time of application for admission and should include a statement of experience, areas of interest, and future goals; transcripts; and a curriculum vitae. Assistantships carry a stipend and full tuition remission for up to 9 credits each academic term.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1  
Spring: November 1

All application materials must be received by the appropriate deadline to be eligible for assistantships and scholarships. Any application completed after a deadline may be considered for the next term of admission.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with the applicant’s academic competence.

Coursework Required for Admission Consideration: No specific courses are required for admission, but a professional background is highly recommended.

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Statement of Goals: Approximately 500 to 1,000 words include your interest in Temple’s program; your research goals; your focus in the program; and your talents and achievements.

Standardized Test Scores:

GRE: Required. Scores in the 65-75% range on the verbal and quantitative sections are expected.

TOEFL: 105 iBT or 620 PBT minimum

Resume: Current resume required.

Writing Sample: Professional, published articles or papers are preferred as a writing sample.

Transfer Credit: Graduate credits from an accredited institution may be transferred into the M.J. program but must be a “B” or better in order to transfer. The maximum number of credits a student may transfer is 7.

1 Up to 12 elective credits may be taken outside the Lew Klein College of Media and Communication. Courses are selected by students in consultation with their academic advisor.

Culminating Events:

Comprehensive Exam:

The purpose of the comprehensive examination is to demonstrate competence in three areas of study in the Master of Journalism program. Students request three major professors to submit three separate questions for the exam. Students must take Communication History or Communication Law as one area of the exam, but may choose two other areas from subjects studied. Students have a week to complete the examination, which is taken during or after the last term of coursework.

Graduate Faculty in the Master of Journalism program participate based on the student’s choice and that of the M.J. Program Director. Graduate Faculty members who write the questions also evaluate the answers. The examination is evaluated by two faculty members, each voting to pass or fail the student. If the members are not in agreement, a third faculty member reads and evaluates the examination and determines the outcome. The student must answer every question on the examination in order to be evaluated. Students must successfully pass all questions on the exam in order to qualify as satisfactorily completing the requirement.
Comprehensive examinations are administered at various times during the year.

Media and Communication, Ph.D.

LEW KLEIN COLLEGE OF MEDIA AND COMMUNICATION (https://klein.temple.edu)

About the Program

The Ph.D. in Media and Communication offers a comprehensive curriculum in communication theory and research designed to provide advanced students with the breadth and depth of knowledge needed to make significant contributions in the academic and professional field of mediated communication and, generally, communication.

Time Limit for Degree Completion: 7 years

Full-Time/Part-Time Status: Although the degree program can be completed on a full- or part-time basis, the Media and Communication doctoral program requires that students be “in residence” (registered for at least 9 credits) for two consecutive terms (excluding Summer sessions) in their first year of study.

Interdisciplinary Study: The Media and Communication Ph.D. program encourages interdisciplinary coursework, research, and interactions among faculty and students with interests in business, political science, psychology, sociology, and other fields. Students also may complete a limited amount of production coursework in audio, video, film, and/or journalism.

Study Abroad: Media and Communication doctoral students can take advantage of Temple's London program, which offers a unique opportunity to study British media. Other international study opportunities include programs in Rome and Japan.

Areas of Specialization: Faculty members specialize and offer substantial coursework in diverse areas related to communication, including communication history, gender studies, international communication, media institutions, new media, political communication, psychological processing of media, and social change.

Job Prospects: The Media and Communication Ph.D. program is designed to prepare graduates for work as professors in colleges and universities around the world. Graduates also hold a variety of positions in the communication and other commercial industries as well as in non-profit organizations.

Non-Matriculated Student Policy: Non-matriculated students are restricted to taking MMC 9001 Communication Theory I and MMC 9002 Researching Communication I. These courses may only be taken with the permission of the instructor. If the student is admitted to the program, these courses may be applied toward the degree.

Financing Opportunities: Teaching Assistantships carry a stipend and full tuition remission of up to 9 credits per term. The principal duties of a Teaching Assistant include aiding faculty members in classroom and laboratory instruction; preparing material for presentation and demonstration; conducting tutorials and discussion sections; and grading quizzes and exams. The program makes offers of assistantships on or before March 15. April 5 is the final date to accept or decline the offer.

Admission Requirements and Deadlines

Application Deadline:

Fall: December 15

All applications are evaluated together after the deadline date.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from evaluators, particularly college/university faculty, who can provide insight into your abilities and talents, as well as comment on your aptitude for graduate study.

Master's Degree in Discipline/Related Discipline: A master’s degree in Communication, Media Studies, or the Humanities or Social Sciences is required.

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the baccalaureate degree at Temple University.
Statement of Goals: Approximately 500 to 1,000 words should include your specific interest in Temple's program; your research goals; your future career goals; and your academic and research achievements.

Standardized Test Scores:
GRE: Required. Applicants should have attained a total GRE score in the range of 65% to 80% on the verbal and quantitative sections.
TOEFL: 96 iBT or 590 PBT minimum

Resume: Current resume required.

Advanced Standing: Students who enter the Media and Communication Ph.D. program may receive credit for previous relevant coursework at the graduate level. To apply for this credit, students must submit a "Request for Transfer of Graduate Credit" form, found at http://www.temple.edu/grad/forms/, at the beginning of their second academic term. The petition is then evaluated by the program faculty. The maximum number of advanced standing credits awarded is 30.

Electives  

Examination/Dissertation Courses

Total Credit Hours  42

1 An advanced research methods course should be taken in MMC. If an appropriate course topic is not offered by the department, the student may take such a course offered by a program or department outside of MMC.

2 Elective credits may be taken in the Lew Klein College of Media and Communication or within other schools at Temple University.

3 Students must register for at least six credits of MMC 9994 Preliminary Examination Preparation, MMC 9998 Pre-Dissertation Research, and/or MMC 9999 Dissertation Research. The six credits must include at least two credits of MMC 9999, which requires an approved dissertation proposal. None of the six credits can be applied toward the 42 credits of coursework required for the degree.

Culminating Events:

Preliminary Examinations:
Under the direction of an approved faculty committee, the Ph.D. student must satisfactorily complete written and oral examinations prior to achieving formal Ph.D. candidacy. Areas of examination and the constituency of the committee are tailored to the individual student. The subject areas are determined, in advance, by the student and her/his Doctoral Advisory Committee (DAC). The examinations consist of essay questions in three areas written by the members of the student's DAC. The exams are designed to demonstrate the student's critical and interpretive knowledge of specialized areas of media and communication. The exams evaluate the student's ability to apply specific research foci to related issues in the discipline.

The preliminary examinations should be taken no more than one term after the student completes the coursework component of the program. Students who are preparing to write their preliminary examinations should confirm a date and time with the chair of their DAC and register this information with the graduate secretary. The student and chair receive confirmation of the date, time, and, where applicable, room and proctor for the examinations. The examinations are defended orally approximately three weeks after they are written. They must be completed before the student defends her/his dissertation proposal.

The DAC evaluates the examinations. The student must answer every question in order to be evaluated. The evaluators look for breadth and depth of understanding of specific research areas; a critical application of that knowledge to specific media and communication issues; and an ability to write technical prose in a manner consistent with media and communication research. Each committee member votes to pass or fail the student. In order to pass, a majority of the committee members must agree that the exams have been satisfactorily completed.

Proposal:
With the guidance of her/his academic advisor, who is a member of the Media and Communication faculty, and at least two other committee members, the student proposes, conducts, and creates a written report of an original, theoretically motivated research project. The proposal should consist of the context and background surrounding a particular research problem; identification of the theoretical and, if relevant, practical importance of the problem; an exhaustive survey and review of literature related to the problem; and a detailed methodological plan for investigating the problem. The proposal should be completed and approved no more than one term after the student completes coursework. It cannot be defended before the preliminary examinations are taken. Upon approval, a timeline for completing the investigation and writing process is established.

Dissertation:
The doctoral dissertation is an original empirical study that makes a significant contribution to the field of media and communication. It should expand the existing knowledge and demonstrate the student's knowledge of both research methods and her/his primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standards of the communication field; demonstrate an understanding of the relationship between the primary area of interest and the broader field of media and communication; and be prepared for publication in a professional journal.

The DAC oversees the student's dissertation research and is comprised of at least three graduate faculty members. Two members, including the chair, must be from the Media and Communication program. Committee compositions must be approved by the Media and Communication faculty. The chair is responsible for overseeing and guiding the student's progress, coordinating the responses of the DAC members, and informing the student of her/his academic progress.

The Dissertation Examining Committee (DEC) evaluates the student's dissertation and oral defense. This committee is composed of the DEC and at least one additional graduate faculty member from outside the Media and Communication program. The outside examiner should be identified no later than the beginning of the term in which the student
will defend the dissertation. The DEC evaluates the student's ability to express verbally her/his research question, methodological approach, primary findings, and implications. DEC members vote to pass or fail the dissertation and the defense at the conclusion of the public presentation.

If a student needs to change a member of a committee, the new member must be approved by the program's faculty and registered with the graduate secretary and the Graduate School.

Students who are preparing to defend their dissertation should confirm a date and time with their DEC members and register with the graduate secretary at least 15 days before the defense. The graduate secretary arranges the date, time, and room within two working days and forwards to the student the appropriate forms. After the graduate secretary has made the appropriate arrangements for the defense, the student must send a completed "Announcement of Dissertation Defense" form, found at http://www.temple.edu/grad/forms/, to the Graduate School at least 10 days before the defense. The Media and Communication program announces the defense via e-mail.

Media Studies and Production, M.A.

LEW KLEIN COLLEGE OF MEDIA AND COMMUNICATION (https://klein.temple.edu)

About the Program
The master's program in Media Studies and Production provides graduate students with both scholarly and professional training. Many students concentrate wholly on the department's scholarly curriculum as excellent preparation for doctoral training. Others desire professional media training. This may involve preparation for a number of career options, including corporate communication, marketing and research, mass media and new media production, media management, and media publicity and advertising.

Time Limit for Degree Completion: 5 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: Departmental courses must constitute a minimum of 19 of the 36 credits required to graduate. Provided this requirement is met, students are free to take courses in other departments and pursue an interdisciplinary focus.

Affiliation(s): Department faculty members and students regularly present research at established communications associations, such as the Association for Education in Journalism and Mass Communication (AEJMC), Association of Internet Researchers (AoIR), Broadcast Education Association (BEA), Eastern Communication Association (ECA), International Communication Association (ICA), and National Communication Association (NCA).

Study Abroad: Students can register for the Summer program at Temple London.

Areas of Specialization: The program offers two concentrations:

1. Communication Scholarship, which covers the history, economics, law, regulation, and policy pertaining to broadcast, cable, and new technology industries in both national and international contexts; social processes such as the psychology, sociology, cultural study, and politics of both media and communications technology, particularly in terms of their impact on everyday life; and the analysis of the behavior and management of communications systems, particularly in terms of the media and telecommunication industries and institutions.

2. Media Production and Business, which covers TV, radio, computer, and multimedia production; corporate communications; media management, marketing, and research; and media publicity and advertising.

Job Prospects: Graduates find positions in academia, private media, and nonprofit or government/public service.

Non-Matriculated Student Policy: Non-matriculated students are encouraged to begin with introductory and required courses. If accepted to the program, those courses may be applied toward the degree program, provided grade requirements have been met. Consistent with Graduate School regulations, students are permitted to take up to 9 credits before deciding whether to apply formally to the program.

Financing Opportunities: Funding is currently unavailable.

Admission Requirements and Deadlines

Application Deadline:
Fall: February 15

Applications are processed through the deadline.
APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 2

From Whom: Letters of recommendation should be obtained from college/university faculty, professional supervisors, or others familiar with the applicant’s academic or professional competence. At least one letter should be from an academic reference.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree in Communication, Media Studies, or the Humanities or Social Sciences is required.

Statement of Goals: Approximately 500 to 1,000 words should include your specific interest in Temple’s program; your research goals; your future career goals; and your academic and research achievements.

Standardized Test Scores:
GRE: Required. Scores of at least 60% verbal and at least 25% quantitative are preferred. A writing score of at least 3.5 is recommended.

TOEFL: 100 iBT or 600 PBT minimum

Resume: Current resume required.

Transfer Credit: Up to 8 credits of graduate coursework may be transferred into the master’s program, subject to the approval of the department’s Graduate Faculty. To request the transfer of credits, a student must complete and submit a “Request for Transfer of Graduate Credit” form, found at http://www.temple.edu/grad/forms/, to the Lew Klein College of Media and Communication’s Graduate Office during the first term of matriculation so that her/his future curriculum can be properly planned. Additional details on credit transfer are available in the M.A. manual. The maximum number of credits a student may transfer is 8.

Culminating Events:

Master’s Thesis or Project:
Students can elect to complete a thesis or master’s project.

Comprehensive Examinations:
Upon completion of all or most coursework and all other requirements, the student who elects not to complete a thesis or master’s project must take comprehensive examinations. The comprehensive examinations are a set of written tests on several subjects, that may, if necessary, be followed by oral discussions. As the student nears coursework completion, s/he should discuss with the advisor the topics of the examinations. During this period, the student is also advised to check with prospective faculty members concerning their willingness and ability to serve as members on the committee. This should be done sometime during the student’s third term of study. The comprehensive exams are taken during the final term of study.

The examinations cover the discipline of media and communication, not the precise coursework taken by a given student. The student is examined in three areas that s/he determines in conjunction with her/his committee. Each area is represented by the question(s) of one committee member. The questioner in each examination area may be understood to be the lead or main reader for that area. The three areas are chosen by the Comprehensive Examination Committee and the topics of the examinations. During this period, the student is also advised to check with prospective faculty members concerning their willingness and ability to serve as members on the committee. This should be done sometime during the student’s third term of study. The comprehensive exams are taken during the final term of study.

The form of the examinations is determined by the student and the Comprehensive Examination Committee. Each of the three examinations can be taken either in office or at home, either with or without the use of notes and/or books, and for a period of a few hours to a week. In all
cases, the written portion of the examination must be completed within a 14-day period. In-office examinations may not exceed four hours.

The student must answer every question on the examination in order to be evaluated. Evaluators look for an understanding of core concepts, application of relevant materials, informed responses, and careful writing. Additional standards may be applied by individual faculty members. All members of the Comprehensive Examination Committee evaluate each answer and convey their assessments to the committee chair within three weeks of receiving the examinations. First, each content area is graded on a pass/fail basis. To pass in a given area, the majority of committee members (i.e., no fewer than two) must accept the answer(s). Included in this majority approval must be that of the area examiner (i.e., the lead reader). Second, to pass the comprehensive examinations, the Comprehensive Examination Committee must also determine that the overall written (and oral, if required) performance across all questions and areas is adequate. Thus, it is possible that a student may discharge each area just passably but have such a weak overall performance that s/he fails the comprehensive examinations.

The examinations are scheduled by the student and her/his committee members. The student must complete all of the examinations within the 90 days following the approval of the student's Comprehensive Examination Committee; if 90 days elapse from the approval-of-committee date without completion, the process must be started again from the beginning. Examinations may be scheduled any time during the regular academic term, either Fall or Spring.

Graduate Certificate: Conflict Management and Dispute Resolution

LEW KLEIN COLLEGE OF MEDIA AND COMMUNICATION (https://klein.temple.edu)

About the Program

The graduate certificate in Conflict Management and Dispute Resolution is designed for those interested in developing their skills to manage organizational demands for crisis management and resolution of employee disputes. The online format offers students flexibility in accessing resources, submitting assignments, and communicating online to accommodate demanding job constraints and challenging personal responsibilities.

Time Limit for Degree Completion: 2 years

Campus Location: Online

Full-Time/Part-Time Status: The graduate certificate can be completed on a part-time basis. All courses are offered for seven weeks in synchronous or asynchronous formats, can be taken in any order, and have no prerequisites.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits before submitting an application.

Admission Requirements and Deadlines

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Lewis Katz School of Medicine

Lewis Katz School of Medicine (LKSOM) at Temple University, located on the Health Sciences Center campus, is dedicated to excellence in education, research, and patient care achieved by faculty, staff, and students who represent the diversity of society. LKSOM takes pride in the excellence of its teaching, research, and service programs by:

- providing education that is patient-centered, instilling in learners the school’s ethic of human service and lifelong learning;
- engaging in research that advances and integrates basic and clinical science; and
- administering patient care with compassion and understanding, utilizing contemporary knowledge and techniques.

Located in the historic city of Philadelphia where American medicine has its roots, LKSOM has been known for its faculty’s uncommon interest in and concern for students and its commitment to the highest quality of care for all people. On November 1, 2007, the Medical School broke ground on a new home. At a cost of $160 million, the Medical Education and Research Building is the largest capital improvement project in the history of Temple University. The 11-story, 480,000-square-foot glass and brick structure opened in May 2009 and has proven to be a highly functional site for both education and research.

Russell H. Conwell, founder of Temple University, established a medical school, lit by gaslight, for the “common man” with its opening on September 16, 1901. The faculty consisted of 27 lecturers, demonstrators, and instructors. Medical practitioners taught classes at College Hall, next to the Baptist Temple, on present-day Main Campus. Samaritan Hospital, two miles up Broad Street, was the site of clinical instruction. Anatomical dissections on cadavers, which were delivered in pickle barrels, were performed in a hayloft. According to admissions materials, “matriculates of academic or scientific colleges, or graduates of reputable high schools of the first grade, or a normal school established by State authority, of both sexes, are admitted to the first year class without examination.” In the inaugural class, 31 students began the five-year program that included:

- classes held on nights and weekends to accommodate students’ day jobs;
- fifteen required textbooks;
- total tuition and fees of a modest $635; and
- a curriculum requiring 700 hours of work each year.

From such modest beginnings, the School of Medicine has emerged as a school of national reputation. One in every four people who applies to medical school in the United States applies to Temple. Nationally ranked by U.S. News & World Report, the Lewis Katz School of Medicine at Temple University prepares students for a rewarding career in medical practice or research. The combined energy created by our enthusiastic faculty, state-of-the-art technology, and soaring new facilities makes Temple one of the most exciting places to study medicine today.

Gareth Thomas, Assistant Professor, Department of Anatomy and Cell Biology, Lewis Katz School of Medicine; Ph.D., Dundee University.

Ying Tian, Assistant Professor, Department of Pharmacology, Lewis Katz School of Medicine; Ph.D., Temple University.

Douglas G. Tilley, Assistant Professor, Department of Center for Translational Medicine, Lewis Katz School of Medicine; Ph.D., Queen's University.

Alexander Y. Tsygankov, Associate Professor, Department of Microbiology and Immunology, Lewis Katz School of Medicine; Ph.D., Bach Institute of Biochemistry, Moscow.

Ronald F. Tuma, Professor, Department of Center for Substance Abuse Research, Lewis Katz School of Medicine; Ph.D., Temple University.

Çagla Tükel, Assistant Professor, Department of Microbiology and Immunology, Lewis Katz School of Medicine; Ph.D., Ankara University.

Ellen M. Unterwald, Professor, Department of Center for Substance Abuse Research, Lewis Katz School of Medicine; Ph.D., Boston University School of Medicine.

Hong Wang, Professor, Department of Center for Metabolic Disease Research, Lewis Katz School of Medicine; Ph.D., University of Montreal.

Sara Jane Ward, Assistant Professor (Research Center), Department of Center for Substance Abuse Research, Lewis Katz School of Medicine; Ph.D., Wake Forest University.

Martyn K. White, Assistant Professor (Research Center), Department of Neuroscience, Lewis Katz School of Medicine; Ph.D., University of Oxford.

Marla R. Wolfson, Professor, Department of Center for Inflammation, Translational and Clinical Lung Research, Lewis Katz School of Medicine; Ph.D., Temple University.

Weidong Xiao, Professor, Department of Microbiology and Immunology, Lewis Katz School of Medicine; Ph.D., University of North Carolina at Chapel Hill.

Xiao-Feng Yang, Professor, Department of Cardiovascular Research Center, Lewis Katz School of Medicine; Ph.D., University of Montreal.

Jun Yu, Assistant Professor, Department of Physiology, Lewis Katz School of Medicine; M.D., Yale University School of Medicine.

M. Raza Zaidi, Assistant Professor, Department of Fels Institute for Cancer Research, Lewis Katz School of Medicine; Ph.D., Rutgers University, Robert Wood Johnson Medical School.

Yi Zhang, Associate Professor, Department of Fels Institute for Cancer Research, Lewis Katz School of Medicine; M.D., University of Tokyo School of Medicine.

Biomedical Sciences, M.S.

LEWIS KATZ SCHOOL OF MEDICINE (http://www.temple.edu/medicine)

About the Program

The M.S. program is aimed at broad interdisciplinary training in the major areas of Biomedical Sciences. The goal is to train students in the theory and practice of Biomedical Sciences for eventual service in research and teaching. Students are instructed in diverse laboratory techniques through a series of lecture and laboratory courses, and provided with a program of experimental research for thesis students under the guidance of a faculty member. Two options are available:

- **Thesis Track**, with a transcripted concentration in the area of thesis research. Five areas of concentration or clusters are available: Cancer Biology and Genetics, Infectious Disease and Immunity, Molecular and Cellular Biosciences, Neuroscience, and Organ Systems and Translational Medicine. Students complete and defend a master's thesis under the supervision of a faculty member.
- **Non-Thesis Track**, which is in General Biomedical Sciences. Students complete didactic coursework in each of the five cluster areas.

**Time Limit for Degree Completion:** 3 years
Fall: Application Deadline: preapp.htm and must be submitted electronically by October 31.

Interdisciplinary Study: The graduate program in Biomedical Sciences is interdisciplinary and emphasizes translational research. Students have the opportunity to work with faculty in disease-based research centers in the Lewis Katz School of Medicine, including the Center for Inflammation, Translational and Clinical Lung Research; Center for Metabolic Disease Research; Center for Neurovirology; Center for Substance Abuse Research; Center for Translational Research; Comprehensive NeuroAIDS Center; Fels Institute for Cancer Research and Molecular Biology; Independence Blue Cross Cardiovascular Research Center; Shriners Hospitals Pediatric Research Center; Solomon Sherry Thrombosis Research Center; and Temple Autoimmunity Center.

Ranking: The 2014 U.S. News and World Report ranked Temple University's School of Medicine number 54 in Research and among the Best Medical Schools.

Areas of Specialization: This interdisciplinary Biomedical Sciences graduate program offers five areas of concentration for students who plan to earn the M.S. with a thesis:

- Cancer Biology and Genetics
- Infectious Disease and Immunity
- Molecular and Cellular Biosciences
- Neuroscience
- Organ Systems and Translational Medicine

Job Prospects: This well-balanced program has been designed to be individually tailored to meet the interests and needs of each student and to fully prepare each student for a Biomedical Sciences career in academia, industry, and government. The graduate program is designed to provide training in the theory and practice of Biomedical Sciences for eventual placement in research and teaching positions.

Non-Matriculated Student Policy: Non-matriculated students may enroll in some courses with permission from the course instructor and approval from the Office of Graduate Studies at the Lewis Katz School of Medicine.

Financing Opportunities: Limited financial support is available for M.S. students.

Admission Requirements and Deadlines

Pre-Application Deadline for International Applicants Only:

All international applicants who have not earned a degree in the United States or from an institution where English is the sole language of instruction are required to complete a Pre-Application for approval before applying. The Pre-Application is found on the Biomedical Sciences website at http://www.temple.edu/medicine/biomedical_sciences/apply/preapp.htm and must be submitted electronically by October 31.

Application Deadline:

Fall: February 15

Applications are processed as they are received. Late applications may be considered for admission.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from faculty and supervisors of research experiences.

Coursework Required for Admission Consideration: Applicants should have undergraduate training in the life sciences such as Biology, Biochemistry, Cell Biology, or Molecular Biology and Genetics. Students are also expected to have training in Chemistry and Mathematics.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree in the Biological or Chemical Sciences is required.

Statement of Goals: Approximately 500 to 1,000 words include your interest in Temple's Biomedical Sciences graduate program; your research interests and past experiences; your future career goals; and your academic and research achievements.

Standardized Test Scores:

GRE: Required. Acceptance by Temple University requires submission of verbal, quantitative, and analytical GRE scores. GRE scores below the 50th percentile are outside the norm set by the Graduate School, and no individual score in the verbal, quantitative, or analytical sections should be below that level.

For applicants whose native language is not English, the TOEFL, IELTS, or PTE Academic exam is required:

TOEFL: 79 iBT or 550 PBT minimum

IELTS: 6.5 minimum

PTE Academic: 53 minimum

Transfer Credit: Graduate credits from an accredited institution may be transferred into the M.S. program in Biomedical Sciences. The credits must be equivalent to coursework offered at Temple, and the grades earned must be a "B" or better in order to transfer. The Academic Affairs Committee reviews the courses and makes the recommendation to accept the credits based on the student's knowledge of the course material and initial performance in the program. The maximum number of credits a student may transfer is 12.

Test Waivers: Upon review of the student's background by the Graduate Admissions Committee, applicants with high levels of performance in one or more areas can gain favorable consideration for an application that is otherwise outside the acceptance matrix.

Program Requirements

General Program Requirements:

Number of Credits Required Beyond the Baccalaureate: 30 Thesis Track or 36 Non-Thesis Track

Required Courses:

All students participate in a common first-year interdisciplinary experience that includes the following core courses:

- Molecules to Cells
- Organ Systems: Function, Dysfunction and Therapies
Scientific Design and Biostatistics
Scientific Communications
Bioinformatics
Scientific Integrity

Advanced elective courses are selected for one of the following tracks:

<table>
<thead>
<tr>
<th>Track</th>
<th>Credits</th>
<th>Areas of Concentration</th>
</tr>
</thead>
<tbody>
<tr>
<td>Thesis Track</td>
<td>6</td>
<td>Cancer Biology and Genetics, Infectious Disease and Immunity, Molecular and Cellular Biosciences, Neuroscience, and Organ Systems and Translational Medicine</td>
</tr>
<tr>
<td>Non-Thesis Track</td>
<td>20</td>
<td>Cancer Biology and Genetics, Infectious Disease and Immunity, Molecular and Cellular Biosciences, Neuroscience, and Organ Systems and Translational Medicine</td>
</tr>
<tr>
<td>Seminar/Specialized Journal Club</td>
<td>0</td>
<td>Cancer Biology and Genetics, Infectious Disease and Immunity, Molecular and Cellular Biosciences, Neuroscience, and Organ Systems and Translational Medicine</td>
</tr>
</tbody>
</table>

Note that the Non-Thesis Track has no culminating event. Students may elect to obtain research experience within a laboratory.

Biomedical Sciences, Ph.D.

LEWIS KATZ SCHOOL OF MEDICINE (http://www.temple.edu/medicine)

About the Program

The Ph.D. program is aimed at broad interdisciplinary and translational training in Biomedical Sciences and provides in-depth training in one of five areas of concentration. All students participate in an interdisciplinary first-year experience and then select an area of concentration from among Cancer Biology and Genetics, Infectious Disease and Immunity, Molecular and Cellular Biosciences, Neuroscience, and Organ Systems and Translational Medicine. The curriculum provides students with an interdisciplinary approach to research training, providing new pathways for learning and discovery. The Ph.D. program is intended to educate premier biomedical scientists who will be tomorrow’s leaders in research, education, and government.

Time Limit for Degree Completion: 7 years

Campus Location: Health Sciences. With the permission of the student’s Research Advisory Committee, elective courses not offered on the Health Sciences Campus may be taken at other campuses.

Full-Time/Part-Time Status: The Ph.D. degree program is designed as a full-time day program of study.

Interdisciplinary Study: The graduate program in Biomedical Sciences is interdisciplinary and emphasizes translational research. Students have the opportunity to work with faculty in disease-based research centers at the Lewis Katz School of Medicine, including the Center for Inflammation, Translational and Clinical Lung Research; Center for Metabolic Disease Research; Center for Neurovirology; Center for Substance Abuse Research; Center for Translational Research; Comprehensive NeuroAIDS Center; Fels Institute for Cancer Research and Molecular Biology; Independence Blue Cross Cardiovascular Research Center; Shriners Hospitals Pediatric Research Center; Sol Sherry Thrombosis Research Center; and Temple Autoimmunity Center.

Ranking: The 2014 U.S. News and World Report ranked Temple University’s School of Medicine number 54 in Research and among the Best Medical Schools.

Areas of Specialization: This interdisciplinary Biomedical Sciences graduate program offers five areas of concentration for students who plan to earn the Ph.D.:

- Cancer Biology and Genetics
- Infectious Disease and Immunity
- Molecular and Cellular Biosciences
- Neuroscience
- Organ Systems and Translational Medicine

Job Prospects: This well-balanced program has been designed to be individually tailored to meet the interests and needs of each student and to fully prepare each student for a Biomedical Sciences career in academia, industry, and government. The graduate program is designed
to provide training in the theory and practice of Biomedical Sciences for eventual placement in research and teaching positions.

**Non-Matriculated Student Policy:** Non-matriculated students may enroll in some courses with permission from the course instructor and approval from the Office of Graduate Studies at the Lewis Katz School of Medicine.

**Financing Opportunities:** All students are provided with a competitive stipend, health insurance, and tuition remission. First-year students are supported by Medical School fellowships. After the first year, students receive financial support from extramural funds available to their research mentor, including training grants, research assistantships, and fellowships. Students are expected to work full-time toward the completion of the degree requirements. A satisfactory level of performance must be maintained at all times.

Exceptionally qualified students who apply to the program may be nominated for Presidential, University, and Future Faculty Fellowships. In order to be considered for nomination, prospective students must submit all application materials to the department by February 15.

**Admission Requirements and Deadlines**

**Pre-Application Deadline for International Applicants Only:**

All international applicants who have not earned a degree in the United States or from an institution where English is the sole language of instruction are required to complete a Pre-Application for approval before applying. The Pre-Application is found on the Biomedical Sciences website at http://www.temple.edu/medicine/biomedical_sciences/apply/preapp.htm and must be submitted electronically by October 31.

**Application Deadline:**

**Fall:** February 15

Applications are processed as they are received.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

**Number Required:** 3

**From Whom:** Letters of recommendation should be obtained from faculty and supervisors of research experiences.

**Coursework Required for Admission Consideration:** Applicants should have undergraduate training in the life sciences such as Biology, Biochemistry, Cell Biology, or Molecular Biology and Genetics. Students are also expected to have training in Chemistry and Mathematics.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree in the Biological or Chemical Sciences is required.

**Statement of Goals:** Approximately 500 to 1,000 words include your interest in Temple's Biomedical Sciences graduate program; your research interests and past experiences; your future career goals; and your academic and research achievements.

**Standardized Test Scores:**

**GRE:** Required. Acceptance by Temple University requires submission of verbal, quantitative, and analytical GRE scores. GRE scores below the 50th percentile are outside the norm set by the Graduate School, and no individual score in the verbal, quantitative, or analytical sections should be below that level.

For applicants whose native language is not English, the TOEFL, IELTS, or PTE Academic exam is required:

**TOEFL:** 79 iBT or 550 PBT minimum

**IELTS:** 6.5 minimum

**PTE Academic:** 53 minimum

**Advanced Standing:** Students who enter the Ph.D. program in Biomedical Sciences may be considered for advanced standing, based on the successful completion of graduate-level courses in the Biological Sciences or Chemistry. The credits must be equivalent to coursework offered at Temple, and the grades earned must be a "B" or better. The Graduate Admissions Committee makes the recommendation on a case-by-case basis as the application is reviewed. The maximum number of advanced standing credits awarded is 24.

**Test Waivers:** Upon review of the student's background by the Graduate Admissions Committee, applicants with high levels of performance in one or more areas can gain favorable consideration for an application that is otherwise outside the acceptance matrix.

**Program Requirements**

**General Program Requirements:**

**Number of Didactic Credits Required Beyond the Baccalaureate:** 37

**Required Courses:**

All students participate in a common first-year interdisciplinary experience that includes the following core courses:

- **Molecules to Cells**
- **Organ Systems: Function, Dysfunction and Therapies**
- **Scientific Design and Biostatistics**
- **Scientific Communications**
- **Bioinformatics**
- **Scientific Integrity**
- **Scientific Grant Writing**

Advanced elective courses in area of concentration/cluster

Cluster-Based Seminar/Specialized Journal Club

**Additional Requirements:**

**Research Advisory Committee Meetings:**

Students are required to meet with their Research Advisory Committee each term to evaluate their progress toward the degree.

**Outside Research Proposal:**

In the Spring term of the second year of study, students are required to prepare and defend an NIH-style grant proposal in their area of concentration on a topic that is distinct from the student's research. This is a requirement for elevation to candidacy.

**Culminating Events:**

**Dissertation Proposal:**

The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. The proposal should describe the context and background surrounding a particular research problem and a methodological plan for investigating the problem. The proposal is

---

**Schools, Colleges, and Divisions**

617
a requirement for admission to candidacy and should be submitted and
approved during the Fall term of the third year in the program.

Dissertation:
The Ph.D. degree in Biomedical Sciences is a research degree.
Research training begins with three research rotations in the first year
of the graduate program and continues with the selection of an area
of concentration and a Dissertation Research Advisor, who is a member
of the Graduate Faculty from within the selected area of concentration.
The areas of concentration include Cancer Biology and Genetics,
Infectious Disease and Immunity, Molecular and Cellular Biosciences,
Neuroscience, and Organ Systems and Translational Medicine.

Under the direction of the Dissertation Research Advisor, the student
develops an original research project. Dissertation research involves
meaningful, critical thinking and the execution of ideas in the laboratory
through the use of the scientific method. Dissertation research conducted
by the student should be an original contribution to scientific knowledge.
The quality of the student’s Ph.D. dissertation research should be
equivalent to that found in reputable biomedical sciences journals.

Upon selection of an area of concentration and a Dissertation Research
Advisor, a Research Advisory Committee is formed for each student. This
Committee is responsible for the review of the student’s research and
academic progress twice yearly. It determines whether the content of the
student’s research is sufficient for the Ph.D. dissertation.

The student submits the dissertation in complete form not less than 14
days prior to the date of the final examination. The dissertation must have
been read and approved by the Dissertation Research Advisor prior to
distribution. After the student has arranged the time, date, and room for
the dissertation defense, the “Announcement of Dissertation Defense”
form, found at http://www.temple.edu/grad/forms/, is completed and
forwarded to the Graduate School on Main Campus and to the Office of
Graduate Studies on the Health Sciences Campus at least 10 working
days before the defense. Announcements of the defense are posted and
emailed to all members of the cluster/area of concentration.

The Final Examination Committee evaluates the student’s dissertation
and demonstration of competence within the field of the dissertation and
related areas. This Committee consists of five faculty members, including
the Dissertation Research Advisor, Research Advisory Committee, and
one additional faculty member from another cluster. The Committee
evaluates the quality of the dissertation research and the student’s
ability to express, both in writing and orally, her/his research question,
methodological approach, primary findings, and implications. The
Committee votes to pass or fail the dissertation and the defense at the
conclusion of the public presentation and private question/answer period.

Physician Assistant, M.M.S.

LEWIS KATZ SCHOOL OF MEDICINE (http://www.temple.edu/medicine)

About the Program

The Master of Medical Science (M.M.S.) program is designed to train
outstanding Physician Assistants who enhance patient care in our North
Philadelphia community and beyond. Graduates of the program will be
recognized as leaders, educators, and innovators in the delivery of high-
quality healthcare that is accessible, affordable, compassionate, and
respectful of cultural diversity.

The Physician Assistant program facilitates delivery of an innovative
curriculum for medical students that meets the accreditation standards
for inter-professional education set by the Liaison Committee on Medical
Education (LCME). The program is designed to prepare students to
provide patient-centered care in practice settings under the supervision
of and in collaboration with physicians and inter-professional teams.
The curriculum satisfies all of the Accreditation Review Commission on
Education for the Physician Assistant (ARC-PA) standards and provides
instruction in all areas tested by the National Commission on Certification
of Physician Assistants (NCCPA) licensing examination. The goals of the
program are to:

• Admit highly qualified students representing diverse backgrounds.
• Prepare compassionate and highly trained physician assistants to
become leaders in healthcare.
• Train physician assistants to develop and use an evidence-based
approach in the delivery of the highest quality patient-centered
healthcare.
• Develop the skills needed as effective lifelong learners.
• Cultivate collaborative patient care through integrated inter-
professional training experiences.
• Foster high individual and professional ethical standards.
• Promote cultural awareness in the provision of care to a diverse
society.

Time Limit for Degree Completion: 3 years

Campus Location: Health Sciences
Full-Time/Part-Time Status: The curriculum is designed to be completed in approximately 26 months. Students begin in early June of the first year and complete their studies 26 months later at the end of the 12-week summer session, around July 30, to receive an August diploma.

Interdisciplinary Study: The Physician Assistant program is part of inter-professional education at the Lewis Katz School of Medicine. Inter-professional education is a collaborative exercise that involves students from the School of Medicine as well as from Temple University’s College of Public Health, Maurice H. Kornberg School of Dentistry, School of Pharmacy, and School of Podiatric Medicine.

Ranking: The 2014 U.S. News and World Report ranked Temple University’s School of Medicine number 54 in Research and among the Best Medical Schools.

Job Prospects: A critical need for Physician Assistants to work as part of a medical team providing access to quality healthcare has resulted from a looming critical shortage of physicians and an increase in the number of Americans covered through the Affordable Care Act (ACA) of 2010. Job prospects for graduates of the M.M.S. program are excellent.

Non-Matriculated Student Policy: Non-matriculated students may enroll in some courses with permission from the course instructor and approval from the Office of Graduate Studies at the Lewis Katz School of Medicine.

Financing Opportunities: Limited financial support is available for M.M.S. students.

Admission Requirements and Deadlines

Application Deadline:

Summer I: December 1

All applicants to the M.M.S. program must apply via the Centralized Application Service for Physician Assistants (CASPA). The system can be accessed at https://caspa.liaisoncas.com/. A supplemental application is also required to be submitted directly to Temple University at http://www.temple.edu/apply/common/appcheck.asp. Submission of the supplemental application generates the applicant’s TUid number. The CASPA application will not be considered without the assigned TUid.

Applications are processed throughout the year as they are received. Thus, it is in the applicant’s best interest to apply early to this highly competitive degree program.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation are to be submitted electronically at https://caspa.liaisoncas.com/. They should include one letter each from:

• a professor with whom the applicant has completed prerequisite science coursework;
• a physician or physician assistant; and
• an individual of the applicant’s choosing, but one who possesses a personal, supervisory knowledge of the applicant.

Coursework Required for Admission Consideration: Prerequisite coursework, with the required number of credits, includes:

• General Biology (with lab): 8
• Organic Chemistry (with lab): 4
• Biochemistry: 3
• Human Anatomy*: 4
• Human Physiology*: 3
• Medical Terminology: 2
• Psychology: 3
• Statistics (not business): 2
• Two or more of the following (or a related health or medical science):
  Cell Biology, Genetics, Immunology, Microbiology, Molecular Biology: 6

* Combined Human Anatomy/Physiology may substitute with a total of 8 required credits.

To identify coursework that fulfills the program’s prerequisite requirements, applicants are required to complete the “Program Materials: Prerequisites” section of the CASPA application.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree from a regionally accredited college or university in the United States or Canada is required.

Statement of Goals: Approximately 500 to 1,000 words include your interest in Temple’s Physician Assistant graduate program; your research interests and past experiences; your future career goals; and your academic and research achievements.

Standardized Test Scores:

GRE or MCAT: Required. Students must achieve a total score of no less than the 50th percentile, with no single score below the 50th percentile on either exam.

Scores must be reported for a test taken within three years of matriculation. Applicants with GRE scores must contact ETS to request release of GRE scores through CASPA. The relevant code for the Physician Assistant program is 1746. MCAT scores are automatically transmitted to CASPA when the applicant’s AMCAS ID number is provided.

Interview: Candidates must have strong interpersonal skills, including the ability to listen and be culturally sensitive to another’s point of view. The PA Program Admissions Committee gives strong consideration to students who:

• have demonstrated exceptional service to others (e.g., military/police/fire service, Peace Corps, Teach for America);
• are educationally/environmentally disadvantaged; or
• hail from groups underrepresented in medicine.

Applicants are notified of their selection for interview by email. In addition to two personal interviews, the interview day includes a Clinical Skills Center Activity (MMI) and a brief essay at the time of interview.

Resume: Current resume or CV required.

Citizenship: Due to limitations on U.S. government-subsidized financing for medical education, Temple University only considers applications from U.S. citizens or non-citizens who have permanent resident or refugee/asylee status with the U.S. Immigration and Naturalization Service (INS). Applicants with permanent resident or refugee/asylee status need...
to provide a copy of official INS documentation when completing the CASPA application.

Healthcare/Patient Contact Experience: To be considered for an interview, 400 hours of healthcare/patient contact experience are required. These hours are strongly recommended to include a minimum of 100 hours working with or shadowing an M.D., D.O., and/or Physician Assistant and 200 hours of relevant healthcare experience.

Community/Volunteer Service: Applicants are recommended to have a minimum 50 hours of community service activities, not including those performed in high school. All types of community service and volunteer activities are considered.

Clearances: Upon acceptance, students must complete a Child Abuse History Clearance and a Criminal Background Check. Any academic infraction, license infraction, felony, or misdemeanor after the date of the original CASPA application submission must be reported to the M.M.S. program within 10 business days of the occurrence.

Program Requirements

General Program Requirements: 
Number of Credits Required to Earn the Degree: 117, divided into a preclinical curriculum of 69 credits over 14 months and a clinical curriculum of 48 credits over 12 months

Required Courses for the Preclinical Curriculum:

| Year 1  |  |  |  |  |
|---------|  |  |  |  |
| **Term Credit Hours** |  |  |  |  |
| **Summer I** |  |  |  |  |
| PA 8101 | Physician Assistant Practice I | 1 |  |  |
| PA 8102 | Patient Assessment I | 1 |  |  |
| PA 8103 | Human Gross Anatomy | 5 |  |  |
| PA 8104 | Introduction to Scientific Inquiry | 1 |  |  |
| PA 8105 | Foundations of Medical Sciences I | 4 |  |  |
| PA 8106 | Introduction to Epidemiology and Biostatistics | 2 |  |  |
| **Total Credit Hours** | 14 |  |  |  |
| **Fall** |  |  |  |  |
| PA 8201 | Physician Assistant Practice II | 1 |  |  |
| PA 8202 | Patient Assessment II | 1 |  |  |
| PA 8203 | Foundations of Medical Sciences II | 4 |  |  |
| PA 8204 | Fundamentals of Hematology | 3 |  |  |
| PA 8205 | Fundamentals of Cardiology | 4 |  |  |
| PA 8206 | Fundamentals of Pulmonology | 4 |  |  |
| PA 8207 | Fundamentals of Gastroenterology | 3 |  |  |
| **Total Credit Hours** | 20 |  |  |  |
| **Spring** |  |  |  |  |
| PA 8301 | Physician Assistant Practice III | 1 |  |  |
| PA 8302 | Patient Assessment III | 1 |  |  |
| PA 8303 | Fundamentals of Nephrology | 2 |  |  |
| PA 8304 | Fundamentals of Endocrinology | 3 |  |  |
| PA 8305 | Fundamentals of Ears/Eyes/Nose/Throat (EENT) | 2 |  |  |
| PA 8306 | Fundamentals of Neurology | 2 |  |  |
| PA 8307 | Fundamentals of Rheumatology and Orthopedics | 3 |  |  |
| PA 8308 | Fundamentals of Dermatology | 2 |  |  |
| **Total Credit Hours** | 56 |  |  |  |

Required Courses for the Clinical Curriculum:

| Term Credit Hours |  |  |  |  |
| **Summer** |  |  |  |  |
| PA 8401 | Physician Assistant Practice IV | 1 |  |  |
| PA 8402 | Patient Assessment IV | 1 |  |  |
| PA 8403 | Bioethics | 2 |  |  |
| PA 8404 | Essentials of Men’s and Women’s Health | 4 |  |  |
| PA 8405 | Essentials Across the Lifespan | 4 |  |  |
| PA 8406 | Essentials of Surgery and Emergency Medicine | 4 |  |  |
| PA 9991 | Scholarly Clinical Research I | 1 |  |  |
| **Total Credit Hours** | 17 |  |  |  |

Required Courses for the Clinical Curriculum:

| Term Credit Hours |  |  |  |  |
| **Year 2** |  |  |  |  |
| **Summer** |  |  |  |  |
| PA 8309 | Essentials of Psychiatry | 2 |  |  |
| **Total Credit Hours** | 69 |  |  |  |

Students spend the last 12 months of the program, i.e., in Fall and Spring of Year 2 and Summer of Year 3, rotating through clerkships in seven assigned medical disciplines and two elective rotations at Temple University Hospital System locations. Students are under the direct supervision of a physician or physician assistant, although they interact with numerous other healthcare providers, including residents, interns, medical students, nurses, and others. Students are expected to work the preceptor’s work schedule, which may include nights/weekends.

Culminating Events:

Technical Standards:
The technical standards for the Lewis Katz School of Medicine at Temple University Physician Assistant Program have been established to ensure that students have the ability to demonstrate academic mastery and competence when performing clinical skills and the ability to communicate clinical information. These technical standards are intended to ensure that each student has the academic and physical ability to acquire competencies, as defined by the Accreditation Review Commission on Education for the Physician Assistant (ARC-PA), the American Academy of Physician Assistants (AAPA), the National Commission on Certification of Physician Assistants (NCCPA), and the Physician Assistant Education Association (PAEA). The technical standards are consistent with the technical standards set forth by the Accreditation Council for Graduate Medical Education (ACGME).
The candidate for successful completion of the Physician Assistant Program must be able to perform the following skills:

1. Observation: Observe demonstrations and experiments in the basic sciences, including but not limited to physiologic and pharmacologic demonstrations, microbiologic cultures, and microscopic studies of microorganisms and tissues in normal and pathologic states; observe a patient accurately at a distance and close at hand, necessitating the functional use of vision, which is enhanced by the functional use of the sense of smell.

2. Communication: Speak to, hear, and observe patients in order to elicit both verbal and nonverbal information; communicate effectively and sensitively with and about patients; communicate effectively and efficiently in oral and written form with the patient, the patient’s family, and all members of the healthcare team, including referral sources such as agencies and other physicians. Speech, reading, and writing are essential.

3. Motor: Exhibit sufficient motor function to carry out basic laboratory techniques and to elicit information from patients by palpation, auscultation, percussion, and other diagnostic maneuvers; perform anatomical dissections and use a microscope; perform basic laboratory tests (e.g., urinalysis, gram stain, preparation of a blood smear), diagnostic procedures (e.g., proctoscopy, paracentesis); perform/read EKGs and read X-rays; execute motor movements reasonably required to provide general care and emergency treatment to patients (e.g., cardiopulmonary resuscitation, administration of intravenous medication, application of pressure to stop bleeding, opening obstructed airways, suturing simple wounds, and performing simple, general gynecologic procedures). Coordination of both gross and fine muscular movements, equilibrium, and functional use of the senses of touch and vision are essential.

4. Intellectual, i.e., Conceptual, Integrative, and Quantitative Abilities: Possess abilities to measure, calculate, reason, analyze, and synthesize, which are required when engaging in problem solving, the critical skill demanded of physician assistants; comprehend three-dimensional relationships and understand the spatial relationships of structures.

5. Behavioral and Social Attributes: Possess the physical and emotional health required for full utilization of intellectual abilities, exercise of good judgment, prompt completion of all responsibilities attendant to the diagnosis and care of patients, and development of mature, sensitive, and effective relationships with patients; adapt to changing environments, display flexibility, and learn to function in the face of uncertainties inherent in the clinical problems of many patients. Compassion, integrity, concern for others, interpersonal skills, interest, and motivation are all personal qualities assessed during the admission and education process.

The faculty of Temple University’s Physician Assistant Program recognizes its responsibility to present candidates for the Physician Assistant degree who have the knowledge, attitudes, and skills to function in a broad variety of clinical situations and to render a broad spectrum of patient care.

Urban Bioethics, M.A.
LEWIS KATZ SCHOOL OF MEDICINE (http://www.temple.edu/medicine)

About the Program
Urban Bioethics is a new and growing field that points a critical lens on the extreme inequalities of health and access to medical, legal, and other resources that leave many urban dwellers and communities distinctly disadvantaged, disenfranchised, and vulnerable. With its abundance of academic medical centers, Philadelphia should be one of the healthiest cities in the nation—yet health disparities persist in the city at levels surpassing national averages. Health status is especially troubling in North Philadelphia, where a disproportionately high number of residents suffer from preventable and treatable health conditions—and many battle chronic illnesses without health insurance. The interdisciplinary membership of Temple University’s Center for Bioethics, Urban Health, and Policy (CBUHP) includes community residents, faculty, students, and staff representing numerous schools within Temple University and the Temple University Health System, all working to improve health status for vulnerable urban populations and to position Temple University as a nationally recognized expert in the field of urban health and bioethics.

CBUHP is committed to defining and addressing the ethical challenges of urban health care, public health status, and policy. The M.A. in Urban Bioethics, offered through CBUHP, trains students in the ethics and values of health, health care delivery, and health law and policy underlying the urban context of density, diversity, and inequalities. Coursework is practical, methodological, and theoretical. The degree is designed for Temple graduate students and area professionals who face, or will soon face, the complexities and disparities of urban health, and want specialized training in the ethics, values, and politics of health care in our increasingly multi-dimensionally diverse society.
Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1
Summer: March 15

Late applications may be considered for admission, even as late as up to two weeks prior to the term’s start date.

Dual-degree applicants should note that application deadlines for companion programs may be earlier than the deadlines for the Urban Bioethics, M.A. Please visit the companion program’s description in the Graduate Bulletin for details.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2-3

Students applying to the Urban Bioethics M.A. program must submit 3 letters of reference and original transcripts from all post-high school institutions attended. However, students already matriculated into a graduate program at Temple University who are applying for a dual degree may:

- upon permission of their recommenders and their home school, use their home school letters of recommendation for the Urban Bioethics M.A. application; and
- ask the Urban Bioethics program administrators to request a transcript from the home school.

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with your academic performance and/or from professional supervisors familiar with your professional experience, accomplishments, and potential for success in a graduate program.

Bachelor’s Degree in Discipline/Related Discipline: While a baccalaureate degree is required for admission to the M.A. program, the major studied for the undergraduate degree is not specified.

Statement of Goals: Two to three double-spaced pages should address how you see the M.A. in Urban Bioethics as integral to your current educational goals and current/future career development.

Standardized Test Scores:

GRE: Required for applicants graduating from traditional undergraduate programs. Applicants for the dual degree and those already holding an advanced degree are not required to submit GRE scores. Other applicants should contact the Director of Education or the Program Coordinator for clarification about their need to submit GRE scores as part of the application.

TOEFL: 79 iBT or 550 PBT minimum

School of Pharmacy

Located on Temple University’s bustling Health Sciences Center campus, the School of Pharmacy strives to bridge the gaps between drug discovery, preclinical basic research, and translation medicine. We are positioned to continue to provide leadership in our educational mission, while also pursuing innovative research. In conjunction with both of these efforts, we train future researchers in pharmaceutical sciences, drug discovery and development, and basic preclinical and translational research.

In recent years, the School of Pharmacy has enjoyed tremendous growth in our research enterprise. We have established several centers of excellence for scientific study across a wide range of disciplines. The Temple University Drug Discovery Initiative, launched in 2010, has resulted in a substantial expansion of our research facilities and an increase in the number of talented and accomplished researchers joining our faculty and staff.

Efforts by the faculty and research staff of the School of Pharmacy are focused on multidisciplinary approaches to complex scientific problems associated with a number of important disease states. Funding for our research has been generously provided by several foundations, federal and state-funded grants, contract research programs, and Temple University research awards. Members of our faculty have been recognized by outside scientific organizations with numerous honors, awards, and invited lectureships.

The School of Pharmacy offers students the ideal combination of a high-quality education, dedicated faculty, active research programs, and a supportive atmosphere enlivened by diversity and community service.

• Good Manufacturing Practices for the 21st Century
• Medical Device

Graduate Faculty

Magid Abou-Gharbia, Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., University of Pennsylvania.

Benjamin E. Blass, Assistant Professor (Research), Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., University of Rochester.

Michael R. Borenstein, Associate Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., Temple University.

Daniel J. Canney, Associate Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., Temple University.

Wayne E. Childers, Associate Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., University of Georgia.

Jon H. Condra, Associate Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., University of California Riverside.

A. Reza Fassihi, Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., Brighton University.

Marc A. Ilies, Assistant Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., University of Bucharest.

Marlene A. Jacobson, Associate Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., University of Delaware.

Kenneth R. Korzekwa, Associate Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., University of Washington.

Evgeny Krynetskiy, Associate Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., Moscow State University.

David B. Lebo, Associate Professor (Teaching/Instructional), Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D.

Salim Merali, Associate Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., City University of New York.

Swati V. Nagar, Associate Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., University of Minnesota.

Ellen A. Walker, Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., University of Michigan.

Ho-Lun Wong, Assistant Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., University of Toronto.
Global Clinical and Pharmacovigilance Regulations, M.S.

SCHOOL OF PHARMACY (http://www.temple.edu/pharmacy)

About the Program

The M.S. in Global Clinical and Pharmacovigilance Regulations addresses the career needs of individuals involved in domestic and global clinical trials and pharmacovigilance activities within the Pharmaceutical industry, including managing and assisting in clinical trials, supervising record keeping of clinical trials, reviewing safety data of clinical trials or post-marketing reports of healthcare products, and other related activities. In recent years, pharmacovigilance activities have been conducted alongside clinical trials to determine the benefits and risk factors of products both under development and on the market. Pharmacovigilance, or drug safety, relates to the myriad of activities the pharmaceutical and related industries use in monitoring, assessing, and compiling the benefits and risks involved with their products. Whereas pharmacovigilance studies used to be undertaken once products were already on the market, the latest trend is to conduct these studies with “first in human” studies, which are generally done on healthy volunteer subjects to ascertain how a new product affects an individual without the known disease state. Clinical trials are highly regulated research studies of pharmaceutical and related products, treatment options, or medical devices in human beings. Their goal is to find new or better ways to prevent, detect, diagnose, or treat disease or disease states. In order to accomplish this, clinical trials must rigorously follow certain protocols, study designs, and data collection and monitoring methods defined by regulatory authorities.

The M.S. in Global Clinical and Pharmacovigilance Regulations degree program is primarily designed for Pharm.D. students who already possess extensive experience in clinical settings, but would benefit from specific knowledge of domestic and global regulations to be more marketable for careers in the pharmaceutical industry. This M.S. degree combining clinical practices with global pharmacovigilance empowers Pharm.D. graduates with knowledge of:

- the need for pharmacovigilance and clinical regulations;
- the evolution of global pharmacovigilance and clinical regulations;
- domestic and international pharmacovigilance and clinical requirements and regulations for healthcare products;
- differences in regulations between product types and regions;
- current utilization of pharmacovigilance data throughout the lifespan of all products;
- the ability to contextualize and interpret safety data; and
- the paramount importance of data collection, statistics, and data mining in the industry.

Time Limit for Degree Completion: 5 years

Campus Location: Fort Washington on evenings and weekends; also entirely online

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The program fosters interdisciplinary study with the pharmaceutical sciences and technology.

Job Prospects: The program prepares graduates for positions in the global marketplace related to drug safety and human clinical trials.

Non-Matriculated Student Policy: Non-matriculated students are able to take up to 9 credits before formal application must be made to the program.

Financing Opportunities: Master’s-level students are generally not considered for financial support.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1; December 15 international
Spring: November 1; September 1 international
Summer I: March 1; January 15 international

Applications are processed throughout the year. Late applications may be considered for admission. However, the entire application packet must be received by the Graduate Studies Office before it is reviewed by the Admissions Committee. Applicants are responsible for making sure that all materials have been received.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with academic competence.

Coursework Required for Admission Consideration: It is expected that applicants are Pharm.D. students or graduates.

Bachelor’s Degree in Discipline/Related Discipline: A B.S. degree in Biochemistry, Biology, Chemistry, Physics, or a health-related discipline is required.

Statement of Goals: Describe your experience in the pharmaceutical or related industries, indicating how the Global Clinical and Pharmacovigilance Regulations M.S. program will help you achieve your career objectives.

Standardized Test Scores:

For applicants whose native language is not English, the TOEFL, IELTS, or PTE Academic exam is required:

TOEFL: 85 iBT or 563 PBT minimum
IELTS: 7.0 academic
PT Academic: 58 minimum

Resume: Current resume required.

Transfer Credit: Temple University Pharm.D. students may apply a maximum of 15 credits toward this M.S. degree. The following courses are applicable:

- an Ethics course (2 s.h.)
- PS P254 Biostatistics/Medical Literature Evaluation (2 s.h.)
• PS P312 Adverse Drug Reactions: An Organ Systems Approach (2 s.h.)
• PS P313 Clinical Pharmacokinetics (3 s.h.)
• QARA 5459 Drug Development (3 s.h.)
• QARA 5536 Good Clinical Practices (3 s.h.)
• QARA 5537 Clinical Trial Management (3 s.h.)

Students in and graduates of Pharm.D. programs at other accredited schools of pharmacy may apply for transfer credits. Such requests are decided on a case-by-case basis. A maximum of 6 transfer credits are permitted for this group of prospective students.

Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Baccalaureate: 30

Required Courses:

Core Courses
QARA 5459 Drug Development 3
QARA 5508 Good Pharmacovigilance Operations 3
QARA 5536 Good Clinical Practices 3
QARA 5537 Clinical Trial Management 3
QARA 5538 Clinical Drug Safety and Pharmacovigilance 3
or QARA 5571 Post-Marketing Safety Surveillance
QARA 5573 Pharmacoepidemiology 3
QARA 5578 Benefit Risk Management and Safety Signaling of Healthcare Products 3
QARA 5579 Regulatory and Legal Basis of Pharmacovigilance 3

Electives 6

Select from the following approved courses:

PS P312 Adverse Drug Reactions: An Organ Systems Approach
PS P313 Clinical Pharmacokinetics
QARA 5497 Statistics for Clinical Trials 1
QARA 5539 Global Clinical Drug Development
QARA 5547 Project Management for Clinical Trials
QARA 5612 Bioethics for Pharmaceutical Professionals
QARA 5618 Clinical Data Management (CDM)

Total Credit Hours 30

1 Alternately, students may take PS P254 Biostatistics.

Culminating Events: This program has no culminating events beyond completion of coursework.

Pharmaceutical and Regulatory Sciences, M.S.

SCHOOL OF PHARMACY (http://www.temple.edu/pharmacy)

About the Program
Not currently accepting applications

Pharmaceutical Sciences/Medicinal Chemistry, M.S.

SCHOOL OF PHARMACY (http://www.temple.edu/pharmacy)

About the Program
The School of Pharmacy offers a graduate program leading to the M.S. and to the Ph.D. in Pharmaceutical Sciences with a concentration in Medicinal Chemistry. The program is designed to prepare students for positions in the pharmaceutical industry, government agencies, and faculty positions in schools of pharmacy.

Time Limit for Degree Completion: 5 years

Campus Location: Health Sciences Center, Main

Some courses may be offered at the Fort Washington campus. Research must be carried out at the Health Sciences Center campus under the supervision of an advisor who is a member of the Graduate Faculty.

Full-Time/Part-Time Status: Full-time status is recommended due to the nature of ongoing research.

Interdisciplinary Study: The program encourages interdisciplinary coursework, research, and collaborations among faculty and students
with interests in Biochemistry, Molecular Modeling, Organic Chemistry, and Pharmacology.

Areas of Specialization: The focus is Medicinal and Pharmaceutical Chemistry, including design and synthesis of ligands for nicotinic receptors and ligands for retinoic acid receptors, novel anticonvulsants, and the development of analytical methodologies.

Job Prospects: The program is primarily concentrated to provide research scientists for the pharmaceutical industry, government agencies, and faculty positions in schools of pharmacy.

Non-Matriculated Student Policy: Non-matriculated students are able to take up to 9 credits before formal application must be made to the program.

Financing Opportunities: Master's-level students are generally not considered for financial support. Financial support in the form of University fellowships, teaching assistantships, and research assistantships is generally available to Ph.D. candidates only. Only under rare circumstances are M.S. students considered for support.

Application Deadline:

Fall: December 15

All applications are evaluated together after the deadline.

APPLY ONLINE to this graduate program (http://www.temple.edu/apply/common/appcheck.asp).

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with the applicant's academic competence and professionals in a supervisory position.

Coursework Required for Admission Consideration: It is recommended that applicants complete the courses (or their equivalent as determined by the School of Pharmacy) taken in obtaining a B.S. in Chemistry, preferably Organic Chemistry, before entering the program.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree in Biochemistry, Chemistry (preferably Organic Chemistry), or Pharmacy is required.

Statement of Goals: In approximately 500 to 1,000 words, state your specific interest in Temple's program, your research goals, your future career goals, and your academic and research achievements.

Standardized Test Scores:

GRE: Required. Scores should be in the 65th percentile or above.

TOEFL: 100 iBT or 600 PBT minimum

Resume: Submission of a current resume is encouraged.

Transfer Credit: With approval, courses specific to Medicinal Chemistry or Organic Chemistry may be transferred into the program. Applicants must present supporting documentation (syllabus, course description, and/or transcript) for transfer consideration at the time of application. The maximum number of credits a student may transfer into the M.S. program is 6.

Total Credit Hours: 36

Electives should be taken primarily in Chemistry, although courses in Pharmacology and Computer and Information Science are also permissible.

Culminating Events:

Thesis:
The M.S. thesis is an original, theoretical, and/or empirical study that contributes to the field of Medicinal/Pharmaceutical Chemistry. It should expand existing knowledge and demonstrate the student's knowledge of research methods and a mastery of her/his primary area of interest. The thesis should be rigorously investigated; uphold the ethics and standards of the pharmaceutical sciences; demonstrate an understanding of the relationship between the primary area of interest and the broader field of medicinal chemistry; and be prepared for publication in a professional journal.

Students who are preparing to defend their thesis should confirm a time and date with their advisor and register with the Administrative Assistant at least 15 days before the defense is to be scheduled. The Administrative Assistant arranges the time, date, and room within two working days and forwards to the student the appropriate forms. Once approved, the public announcement of the defense is posted.

The Thesis Examining Committee evaluates the student's ability to express verbally her/his research question, methodological approach, primary findings, and implications. This committee is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be members of the Graduate Faculty of the School of Pharmacy. The Thesis Examining Committee votes to pass or fail the thesis and the defense at the conclusion of the public presentation.

Pharmaceutical Sciences/
Pharmaceutics, M.S.

SCHOOL OF PHARMACY (http://www.temple.edu/pharmacy)

About the Program

The School of Pharmacy offers a graduate program leading to the M.S., with a choice of Thesis or Non-Thesis Option, and the Ph.D. in Pharmaceutical Sciences with a concentration in Pharmaceutics. The program is designed to prepare students for positions in the pharmaceutical industry, government agencies, and faculty positions in schools of pharmacy.

Time Limit for Degree Completion: 5 years

Campus Location: Health Sciences Center, Fort Washington

Students in the Non-Thesis Option take a majority of required and elective courses at Fort Washington. Some courses may be offered at the Health Sciences Center campus.

Students in the Thesis Option take a majority of required and elective courses at Fort Washington. Some courses may be offered at the Health Sciences Center campus.

Full-Time/Part-Time Status: The program is considered full-time for those in the Thesis Option and part-time for those in the Non-Thesis Option. Part-time students can complete the program through classes offered during evenings and weekends primarily at the Fort Washington campus.

Interdisciplinary Study: The program encourages interdisciplinary coursework, research, and collaborations among faculty and students with interests in Biochemistry, Molecular Modeling, Organic Chemistry, and Pharmacology.

Areas of Specialization: Faculty members specialize and offer graduate coursework in controlled release dosage forms, drug metabolism, encapsulation, mechanisms of drug action, pharmaceutical analysis, pharmacokinetics, and solid dosage forms.

Job Prospects: Graduates generally find employment in the pharmaceutical industry, government agencies, or academia.

Non-Matriculated Student Policy: Non-matriculated students are able to take up to 9 credits before formal application must be made to the program.

Financing Opportunities: Master's-level students are generally not considered for financial support. Financial support in the form of University fellowships, teaching assistantships, and research assistantships is generally available to Ph.D. candidates only. Only under rare circumstances are M.S. students in the Thesis Option considered for support; students enrolled in the Non-Thesis Option are ineligible for financial support because their program is part-time.

Admission Requirements and Deadlines

Application Deadline:
Fall: December 15

All applications are evaluated together after the deadline.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with the applicant's academic competence and professionals in a supervisory position.

Coursework Required for Admission Consideration: It is recommended that applicants should have completed a minimum of two years of General Chemistry, including Organic Chemistry; one Analytical Chemistry course; and Mathematics, including at least Introductory Calculus. A course in Physical Chemistry is also advisable.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree in Pharmacy, Biology, Biochemistry, Chemistry, Engineering, or a related discipline is required.

Statement of Goals: In approximately 500 to 1,000 words, state your specific interest in Temple's program, your research goals, your future career goals, and your academic and research achievements.
Schools, Colleges, and Divisions

Standardized Test Scores:

GRE: Required for the Thesis Option. Scores should be in the 65th percentile or above. Note that the GRE is not required for the Non-Thesis Option.

TOEFL: 100 iBT or 600 PBT minimum

Resume: Submission of a current resume is encouraged for those in the Thesis Option. It is required for those in the Non-Thesis Option.

Transfer Credit: With approval, courses specific to the field of Pharmaceutics may be transferred into the program. Applicants must present supporting documentation (syllabus, course description, and/or transcript) for transfer consideration at the time of application. The maximum number of credits a student may transfer into the M.S. program is 6.

Total Credit Hours 36

Culminating Events:

Thesis:
For the Thesis Option, the M.S. thesis is the culminating event. The thesis is an original, theoretical, and/or empirical study that contributes to the field of Pharmaceutics. It should expand existing knowledge and demonstrate the student's knowledge of research methods and a mastery of her/his primary area of interest. The thesis should be rigorously investigated; uphold the ethics and standards of the Pharmaceutics field; demonstrate an understanding of the relationship between the primary area of interest and the broader field of Pharmaceutics; and be prepared for publication in a professional journal.

Students who are preparing to defend their thesis should confirm a time and date with their advisor and register with the Administrative Assistant at least 15 days before the defense is to be scheduled. The Administrative Assistant arranges the time, date, and room within two working days and forwards to the student the appropriate forms. Once approved, the public announcement of the defense is posted.

The Thesis Examining Committee evaluates the student’s ability to express verbally her/his research question, methodological approach, primary findings, and implications. This committee is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be members of the Graduate Faculty of the School of Pharmacy. The Thesis Examining Committee votes to pass or fail the thesis and the defense at the conclusion of the public presentation.

The Non-Thesis Option has no culminating events.

SCHOOL OF PHARMACY (http://www.temple.edu/pharmacy)

About the Program
The School of Pharmacy offers a graduate program leading to the M.S. and to the Ph.D. in Pharmaceutical Sciences with a concentration in Medicinal Chemistry. The program is designed to prepare students for positions in the pharmaceutical industry, government agencies, and faculty positions in schools of pharmacy.

Time Limit for Degree Completion: 7 years

Campus Location: Health Sciences Center, Main

Some courses may be offered at the Fort Washington campus. Research must be carried out at the Health Sciences Center campus under the supervision of an advisor who is a member of the Graduate Faculty.

Full-Time/Part-Time Status: Full-time status is recommended due to the nature of ongoing research.

Interdisciplinary Study: The program encourages interdisciplinary coursework, research, and collaborations among faculty and students with interests in Biochemistry, Molecular Modeling, Organic Chemistry, and Pharmacology.

Areas of Specialization: The focus is Medicinal and Pharmaceutical Chemistry, including design and synthesis of ligands for cholinergic receptors and ligands for retinoic acid receptors, novel anticonvulsants, and the development of analytical methodologies.

Job Prospects: The program is primarily concentrated to provide research scientists for the pharmaceutical industry, government agencies, and faculty positions in schools of pharmacy.

Non-Matriculated Student Policy: Non-matriculated students are able to take up to 9 credits before formal application must be made to the program.

PS 9996  Master’s Research  6

Total Credit Hours: 36

Culminating Events:
Thesis:
The M.S. thesis is an original, theoretical, and/or empirical study that contributes to the field of Pharmacodynamics. It should expand existing knowledge and demonstrate the student’s knowledge of research methods and a mastery of her/his primary area of interest. The thesis should be rigorously investigated; uphold the ethics and standards of the pharmaceutical sciences; demonstrate an understanding of the relationship between the primary area of interest and the broader field of pharmacodynamics; and be prepared for publication in a professional journal.

Students who are preparing to defend their thesis should confirm a time and date with their advisor and register with the Administrative Assistant at least 15 days before the defense is to be scheduled. The Administrative Assistant arranges the time, date, and room within two working days and forwards to the student the appropriate forms. Once approved, the public announcement of the defense is posted.

The Thesis Examining Committee evaluates the student’s ability to express verbally her/his research question, methodological approach, primary findings, and implications. This committee is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be members of the Graduate Faculty of the School of Pharmacy. The Thesis Examining Committee votes to pass or fail the thesis and the defense at the conclusion of the public presentation.
Financing Opportunities: Support options include University fellowships, teaching assistantships, and research assistantships. Recipients are determined on a competitive basis during the admission process and receive a stipend and full tuition remission (up to 9 credits per term).

The principal duties of a Teaching Assistant (TA) include assisting faculty members in laboratory instruction, preparing apparatus or materials for Pharm.D. students, conducting recitations, grading quizzes and reports, and proctoring exams. TAs are expected to work 20 hours per week.

A Research Assistant (RA) is expected to spend 20 hours per week engaged in research and is assigned to a specific faculty member. The research subjects are determined by consultation between the student and her/his research advisor.

Applications should include a statement of previous teaching and/or research experience, areas of interest, and future goals; official transcripts; and a curriculum vitae. The department attempts to make offers of assistantships on or before May 1. June 1 is the final date for acceptance or declination of department offers. Applications should be directed to:

Total Credit Hours 46

Electives should be taken primarily in Chemistry, although courses in Pharmacology and Computer and Information Science are also permissible.

Culminating Events:

Preliminary Examination:

The purpose of the preliminary examination is to demonstrate critical and interpretive knowledge in specialized areas of the discipline. The examination evaluates the student's ability to apply specific research foci to anticipated practical problems in the field. Students who accumulate 40 didactic credits are eligible to take the exam.

The preliminary exam consists of two sections. The first is a written examination evaluates the student's ability to apply specific research foci to anticipated practical problems in the field. Students who accumulate 40 didactic credits are eligible to take the exam. The second section of the preliminary exam includes the preparation of a research proposal approved by the DAC and a 30-minute oral summary of the proposal followed by an oral defense of the proposal.

Students who are preparing to take their preliminary examination should confirm a time and date with the Director of Graduate Studies and register with the Administrative Assistant in the Office of Graduate Studies. The student and Director receive confirmation of the time, date, room, and proctor for the examination.

Dissertation Proposal:
The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. The proposal should consist of:

- the context and background surrounding a particular research problem;
- an exhaustive survey and review of literature related to the problem; and
- a detailed methodological plan for investigating the problem.

The proposal should be completed and approved no more than one year after completing the preliminary exam. Upon approval, a doctoral student is promoted to a Ph.D. candidate, and a timeline for completing the investigation and writing process are established.

**Dissertation:**

The doctoral dissertation is an original, theoretical, and/or empirical study that makes a significant contribution to the field. It should expand existing knowledge and demonstrate the student's knowledge of research methods and a mastery of her/his primary area of interest. The dissertation should be rigorously investigated; uphold the ethics and standards of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field; and be prepared for publication in a professional journal.

The Dissertation Examining Committee (DEC) is formed to oversee the student's doctoral research. It is charged with evaluating the student's dissertation and oral defense, including the student's ability to express verbally her/his research question, methodological approach, primary findings, and implications. The DEC, which includes the members of the DAC, is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be from the School of Pharmacy. The Chair is responsible for overseeing and guiding the student's progress, coordinating the responses of the Committee members, and informing the student of her/his academic progress. At least one additional Graduate Faculty member from outside the School of Pharmacy must be included on the DEC. This outside examiner should be identified no later than the beginning of the academic term in which the student will defend the dissertation. The DEC members vote to pass or fail the dissertation and the defense at the conclusion of the public presentation.

Committee compositions must be approved by the departmental graduate committee. If a student needs to change a member of a committee, the new member must be approved by the departmental graduate committee and by the Graduate School. The changes must be documented with the Administrative Assistant and the Graduate School using the "Request for Change in Dissertation Committee" form, found at http://www.temple.edu/grad/forms/.

Students who are preparing to defend their dissertation should confirm a time and date with their DEC and register with the Office of Graduate Studies at least 15 days before the defense is to be scheduled. The Office of Graduate Studies arranges the time, date, and room and forwards to the student the appropriate forms. After the Administrative Assistant has made the arrangements, the student must send the Graduate School a completed "Announcement of Dissertation Defense" form, found at http://www.temple.edu/grad/forms/, at least 10 days before the defense date. The department posts announcements for the defense.

**Culminating Events:**

**Preliminary Examination:**

The purpose of the preliminary examination is to demonstrate critical and interpretive knowledge in specialized areas of the discipline. The examination evaluates the student’s ability to apply specific research foci to anticipated practical problems in the field. Students who accumulate 40 didactic credits are eligible to take the exam.

The preliminary exam consists of two sections. The first is a written section consisting of questions from the student’s Doctoral Advisory Committee (DAC). Each member of the DAC submits a question and then judges the quality of the student's answer based on criteria such as accuracy, thoroughness, and originality. They then share that score and their rationale for it with the other members of the DAC. The evaluators...
look for a breadth and depth of understanding of concepts in the areas being tested; application of that knowledge; and the ability to write technical prose in a manner consistent with scientists in the field. The second section of the preliminary exam includes the preparation of a research proposal approved by the DAC and a 30-minute oral summary of the proposal followed by an oral defense of the proposal.

Students who are preparing to take their preliminary examination should confirm a time and date with the Director of Graduate Studies and register with the Administrative Assistant in the Office of Graduate Studies. The student and Director receive confirmation of the time, date, room, and proctor for the examination.

Dissertation Proposal:
The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. The proposal should consist of:

- the context and background surrounding a particular research problem;
- an exhaustive survey and review of literature related to the problem; and
- a detailed methodological plan for investigating the problem.

The proposal should be completed and approved no more than one year after completing the preliminary exam. Upon approval, a doctoral student is promoted to a Ph.D. candidate, and a timeline for completing the investigation and writing process are established.

Dissertation:
The doctoral dissertation is an original, theoretical, and/or empirical study that makes a significant contribution to the field. It should expand existing knowledge and demonstrate the student's knowledge of research methods and a mastery of her/his primary area of interest. The dissertation should be rigorously investigated; uphold the ethics and standards of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field; and be prepared for publication in a professional journal.

The Dissertation Examining Committee (DEC) is formed to oversee the student's doctoral research. It is charged with evaluating the student's dissertation and oral defense, including the student's ability to express verbally her/his research question, methodological approach, primary findings, and implications. The DEC, which includes the members of the DAC, is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be from the School of Pharmacy. The Chair is responsible for overseeing and guiding the student's progress, coordinating the responses of the Committee members, and informing the student of her/his academic progress. At least one additional Graduate Faculty member from outside the School of Pharmacy must be included on the DEC. This outside examiner should be identified no later than the beginning of the academic term in which the student will defend the dissertation. The DEC members vote to pass or fail the dissertation and the defense at the conclusion of the public presentation.

Committee compositions must be approved by the departmental graduate committee. If a student needs to change a member of a committee, the new member must be approved by the departmental graduate committee and by the Graduate School. The changes must be documented with the Administrative Assistant and the Graduate School using the "Request for Change in Dissertation Committee" form, found at http://www.temple.edu/grad/forms/.

Students who are preparing to defend their dissertation should confirm a time and date with their DEC and register with the Office of Graduate

Students who are preparing to defend their dissertation should confirm a time and date with their DEC and register with the Office of Graduate
Some courses may be offered at the Fort Washington campus. Research must be carried out at the Health Sciences Center campus under the supervision of an advisor who is a member of the Graduate Faculty.

Full-Time/Part-Time Status: Full-time status is recommended due to the nature of ongoing research.

Interdisciplinary Study: The program encourages interdisciplinary coursework, research, and collaborations among faculty and students with interests in Biochemistry, Molecular Modeling, Organic Chemistry, and Pharmacology.

Areas of Specialization: The Pharmacodynamics concentration involves the study of integrated drug transport and mechanism of drug action research.

Job Prospects: Graduates generally accept employment offers shortly before or after defending their dissertation. Job opportunities for graduates include positions as postdoctoral researchers, scientists in the pharmaceutical industry, and faculty members in a variety of departments involved in biomedical research.

Non-Matriculated Student Policy: Non-matriculated students are able to take up to 9 credits before formal application must be made to the program.

Financing Opportunities: Support options include University fellowships, teaching assistantships, and research assistantships. Recipients are determined on a competitive basis during the admission process and receive a stipend and full tuition remission (up to 9 credits per term).

The principal duties of a Teaching Assistant (TA) include assisting faculty members in laboratory instruction, preparing apparatus or materials for Pharm.D. students, conducting recitations, grading quizzes and reports, and proctoring exams. TAs are expected to work 20 hours per week.

A Research Assistant (RA) is expected to spend 20 hours per week engaged in research and is assigned to a specific faculty member. The research subjects are determined by consultation between the student and her/his research advisor.

Applications should include a statement of previous teaching and/or research experience, areas of interest, and future goals; official transcripts; and a curriculum vitae. The department attempts to make offers of assistantships on or before May 1. June 1 is the final date for acceptance or declination of department offers. Applications should be directed to:

Temple University School of Pharmacy
3307 North Broad Street, Suite 528
Philadelphia, PA 19140

Admission Requirements and Deadlines

Application Deadline:

Fall: December 15

All applications are evaluated together after the deadline.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with the applicant’s academic competence and professionals in a supervisory position.

Coursework Required for Admission Consideration: It is recommended that applicants complete the courses (or their equivalent as determined by the School of Pharmacy) taken in obtaining a B.S. degree in Biochemistry, Biology, Pharmacology, Pharmacy, or Psychology.

Master’s Degree in Discipline/Related Discipline: A master’s degree is not required.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree in Biochemistry, Biology, Pharmacology, Pharmacy, or Psychology is required.

Statement of Goals: In approximately 500 to 1,000 words, state your specific interest in Temple’s program, your research goals, your future career goals, and your academic and research achievements.

Standardized Test Scores:
GRE: Required. Scores should be in the 65th percentile or above.
TOEFL: 100 iBT or 600 PBT minimum

Resume: Submission of a current resume is encouraged.

Preliminary Examination:
The purpose of the preliminary examination is to demonstrate critical and interpretive knowledge in specialized areas of the discipline. The examination evaluates the student’s ability to apply specific research foci to anticipated practical problems in the field. Students who accumulate 40 didactic credits are eligible to take the exam.

The preliminary exam consists of two sections. The first is a written section consisting of questions from the student’s Doctoral Advisory Committee (DAC). Each member of the DAC submits a question and then judges the quality of the student’s answer based on criteria such as accuracy, thoroughness, and originality. They then share that score and
their rationale for it with the other members of the DAC. The evaluators look for a breadth and depth of understanding of concepts in the areas being tested; application of that knowledge; and the ability to write technical prose in a manner consistent with scientists in the field. The second section of the preliminary exam includes the preparation of a research proposal approved by the DAC and a 30-minute oral summary of the proposal followed by an oral defense of the proposal.

Students who are preparing to take their preliminary examination should confirm a time and date with the Director of Graduate Studies and register with the Administrative Assistant in the Office of Graduate Studies. The student and Director receive confirmation of the time, date, room, and proctor for the examination.

Dissertation Proposal:
The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. The proposal should consist of:

- the context and background surrounding a particular research problem;
- an exhaustive survey and review of literature related to the problem; and
- a detailed methodological plan for investigating the problem.

The proposal should be completed and approved no more than one year after completing the preliminary exam. Upon approval, a doctoral student is promoted to a Ph.D. candidate, and a timeline for completing the investigation and writing process are established.

Dissertation:
The doctoral dissertation is an original, theoretical, and/or empirical study that makes a significant contribution to the field. It should expand existing knowledge and demonstrate the student's knowledge of research methods and a mastery of her/his primary area of interest. The dissertation should be rigorously investigated; uphold the ethics and standards of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field; and be prepared for publication in a professional journal.

The Dissertation Examining Committee (DEC) is formed to oversee the student's doctoral research. It is charged with evaluating the student's dissertation and oral defense, including the student's ability to express verbally her/his research question, methodological approach, primary findings, and implications. The DEC, which includes the members of the DAC, is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be from the School of Pharmacy. The Chair is responsible for overseeing and guiding the student's progress, coordinating the responses of the Committee members, and informing the student of her/his academic progress. At least one additional Graduate Faculty member from outside the School of Pharmacy must be included on the DEC. This outside examiner should be identified no later than the beginning of the academic term in which the student will defend the dissertation. The DEC members vote to pass or fail the dissertation and the defense at the conclusion of the public presentation.

Committee compositions must be approved by the departmental graduate committee. If a student needs to change a member of a committee, the new member must be approved by the departmental graduate committee and by the Graduate School. The changes must be documented with the Administrative Assistant and the Graduate School using the "Request for Change in Dissertation Committee" form, found at http://www.temple.edu/grad/forms/.

Students who are preparing to defend their dissertation should confirm a time and date with their DEC and register with the Office of Graduate Studies at least 15 days before the defense is to be scheduled. The Office of Graduate Studies arranges the time, date, and room and forwards to the student the appropriate forms. After the Administrative Assistant has made the arrangements, the student must send the Graduate School a completed "Announcement of Dissertation Defense" form, found at http://www.temple.edu/grad/forms/, at least 10 days before the defense date. The department posts announcements for the defense.

Regulatory Affairs and Quality Assurance, M.S.

SCHOOL OF PHARMACY (http://www.temple.edu/pharmacy)

About the Program
Since its establishment in 1968, Temple's Regulatory Affairs and Quality Assurance program has played a significant role in training pharmaceutical company personnel in regulations and quality principles and practices. Its courses meet the career requirements of professionals in the pharmaceutical and related industries. The program provides students with a broad knowledge of the industry, fostering their...
professional development and preparing them for supervisory and managerial positions.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Fort Washington

The M.S. is offered in its entirety on evenings and weekends at Fort Washington.

**Full-Time/Part-Time Status:** Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** The program fosters interdisciplinary study with the pharmaceutical sciences and technology.

**Affiliation(s):** Each year the program sponsors a major conference with the pharmaceutical industry and the U.S. FDA, focusing on current regulatory and quality issues.

**Ranking:** Temple's master's degree in Regulatory Affairs and Quality Assurance is widely recognized as the oldest, most comprehensive, and most respected academic program of its type in the world.

**Areas of Specialization:** This is a non-thesis M.S. program. Faculty members are specialists in many areas, such as auditing; clinical trial management and operations; global regulation; IND/NDA submissions; manufacturing; pharmaceutical, food, and device law; pharmaceutical labeling and advertising; quality assurance; regulatory affairs; and validation.

**Job Prospects:** Students find positions in all areas of the pharmaceutical industry, including big Pharmaceutical Research and Manufacturers of America (PhRMA) and generic companies, biotechnology, clinical research organizations, and medical devices and packaging. Employment is also found with government agencies, including the FDA, and healthcare providers.

**Non-Matriculated Student Policy:** Students may complete a maximum of 9 credits before they must formally apply for admission. Before taking any electives, new students are strongly encouraged to take courses: QARA 5459 Drug Development and QARA 5592 Food and Drug Law.

**Financing Opportunities:** Students in the Regulatory Affairs and Quality Assurance program are generally working professionals. Therefore, funding for assistantships and academic internships is limited.

**Admission Requirements and Deadlines**

**Application Deadline:**

- **Fall:** March 1; December 15 international
- **Spring:** November 1; September 1 international
- **Summer I:** March 1; January 15 international

Applications are processed throughout the year. Late applications may be considered for admission. However, the entire application packet must be received by the Regulatory Affairs and Quality Assurance Graduate Studies Office before it is reviewed by the Admissions Committee. Applicants are responsible for making sure that all materials have been received.

**APPLY ONLINE** to this graduate program.

**Letters of Reference:**

- **Number Required:** 2

**From Whom:** One letter should be obtained from the candidate's direct supervisor, indicating that the supervisor is aware of and supports the candidate's involvement in Temple's Regulatory Affairs and Quality Assurance graduate program.

**Bachelor's Degree in Discipline/Related Discipline:** A B.S. degree in Biochemistry, Biology, Chemistry, Physics, or a health-related discipline is required.

**Statement of Goals:** Describe your experience in the pharmaceutical or related industries, indicating how the Regulatory Affairs and Quality Assurance M.S. program will help you achieve your career objectives.

**Standardized Test Scores:**

For applicants whose native language is not English, the TOEFL, IELTS, or PTE Academic exam is required:

- **TOEFL:** 85 iBT or 563 PBT minimum
- **IELTS:** 6.5 academic
- **PT Academic:** 58 minimum

**Resume:** Current resume required.

**Transfer Credit:** Students may transfer a maximum of 6 credits into the M.S. program. These credits must be similar or identical to courses offered in Temple's Regulatory Affairs and Quality Assurance program. In addition, the student must request the transfer credits at the time of application to the M.S. program, providing copies of course syllabi. The maximum number of credits a student may transfer is 6.

**Program Requirements**

**General Program Requirements:**

**Number of Credits Required Beyond the Baccalaureate:** 36

Graduate Certificate: Advanced Quality Assurance and Regulatory Affairs

SCHOOL OF PHARMACY (http://www.temple.edu/pharmacy)

About the Certificate

The post-master's certificate in Advanced Quality Assurance and Regulatory Affairs is designed to allow individuals holding a master's degree in Regulatory Affairs and Quality Assurance to pursue advanced coursework from a broad array of topics and receive formal recognition for their work. The certificate program is also open to those holding an advanced degree in the sciences who have worked extensively in the pharmaceutical industry and seek a cadre of advanced courses in Regulatory Affairs or Quality Assurance to be compliant with FDA regulations on training records.

Admission Requirements and Deadlines

Application Deadline:

Fall and Spring admissions are on a rolling basis. Interested students should contact the School of Pharmacy for permission to enroll in coursework.

Master's Degree in Discipline/Related Discipline: Applicants completing the program to earn a post-master's certificate must hold a master's degree in Regulatory Affairs and Quality Assurance from Temple University or a peer institution. An advanced degree in the sciences is also accepted.

Bachelor's Degree in Discipline/Related Discipline: Applicants completing the program to earn a graduate certificate must hold a B.S. degree in Biochemistry, Biology, Chemistry, Physics, or a health-related discipline.

Other: Applicants who did not earn their master's degree from Temple University's School of Pharmacy must formally apply to the certificate program. They must provide proof of their advanced degree, including a transcript and documentation of the titles and descriptions of previous RA/QA courses taken. A summary of their industry experience in the form of a CV or resume is also required.

Certificate Requirements

Number of Credits Required to Complete the Certificate: 12-15, depending on the institution from which and/or the subject in which the master's degree was earned

Required Courses:

Select four or five from the following approved courses: 12-15

- PS 5501 Development of Sterile Products
- PS 8005 Pharmaceutical Biotechnology
- PS 8111 Introduction to Toxicology
- PS 8403 Advanced Pharmacogenomics
- QARA 5000 Special Topics in Regulatory Affairs and Quality Assurance
- QARA 5401 Fundamentals of Pharmacology and Pharmacokinetics
- QARA 5408 Pharmacoconomics
- QARA 5451 Statistical Quality Control
- QARA 5458 Global Biopharmaceutical Industry
- QARA 5469 Pharmaceutical Laboratory Quality Systems and Operations
- QARA 5471 Biotechnology: Bioprocess Basics
- QARA 5472 Pharmaceutical Marketing
- QARA 5473 Generic Drug Regulation (ANDAs)
- QARA 5474 Process Validation
- QARA 5476 Good Laboratory Practices
- QARA 5477 Good Manufacturing Practices
- QARA 5478 High Purity Water Systems
- QARA 5479 Advanced Good Manufacturing Practices - Defining "c"
- QARA 5491 Pre-Approval Inspections
- QARA 5492 Production of Sterile Parenterals
- QARA 5493 Sterilization Processes
- QARA 5494 Quality Audit
- QARA 5495 Investigational New Drug/New Drug Application Submissions

Total Credit Hours: 12-15

1 Students who earned their M.S. in Regulatory Affairs and Quality Assurance from Temple University's School of Pharmacy are permitted to select any four 3-credit courses not previously completed as part of their MS curriculum. Those who earned a master's degree in Regulatory Affairs and Quality Assurance from a peer institution, as well as those holding an advanced degree in the sciences, are required to take five 3-credit courses.

Graduate Certificate: Biopharmaceutical Manufacturing and Regulatory Affairs

SCHOOL OF PHARMACY (http://www.temple.edu/pharmacy)

About the Certificate

The graduate certificate in Biopharmaceutical Manufacturing and Regulatory Affairs is intended to enable Regulatory Affairs and Quality Assurance (RAQA) students to receive formal recognition for studying the highly specialized, rapidly growing field of pharmaceutical biotechnology, which includes the manufacturing techniques and applicable regulations used in the development and production of biotechnology products. The first biopharmaceutical product, namely, recombinant human insulin, was approved in 1982. Since then, products derived through biotechnology have provided advances in medicine that include therapeutic monoclonal antibodies, cancer vaccines, cytokines, antisense technology, interference RNA, and growth factors. The regulatory framework required for the approval of biotechnology-derived products (or biologics) is lengthy, rigorous, and highly complicated. This certificate delves into the complex regulations governing the development, manufacturing, and distribution of such products.

Through completion of the certificate, whether post-baccalaureate or post-master’s, students understand the following:

• the pharmaceutical science behind the discovery of biotechnology products, including biologics, biosimilars, and biopharmaceuticals;
• the requirements for sourcing and testing materials used in the production of biotechnology products;
• the technologies and unique considerations associated with the manufacturing and distribution of biotechnology products;
• the applicable regulations involved with biotechnology products; and
• the processes used to sterilize biotechnology products, including regulatory requirements for thermal, gaseous, radiation, filtration, and aseptic processing.

Time Limit for Certificate Completion: 3 years

Campus Location: Fort Washington

Full-Time/Part-Time Status: The graduate certificate may be completed on a part-time basis.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

Admission Requirements and Deadlines

Application Deadline:
Fall and Spring admissions are on a rolling basis. Interested students should contact the School of Pharmacy for permission to enroll in coursework.

Master’s Degree in Discipline/Related Discipline: Applicants completing the program to earn a post-master’s certificate must hold a master’s degree in a Pharmacy-related field.

Bachelor’s Degree in Discipline/Related Discipline: Applicants completing the program to earn a post-baccalaureate certificate must hold a B.S. degree in Biochemistry, Biology, Chemistry, Physics, or a health-related discipline.

Graduate Certificate: Food Regulatory Affairs and Quality Assurance

SCHOOL OF PHARMACY (http://www.temple.edu/pharmacy)
About the Certificate

The graduate certificate in Food Regulatory Affairs and Quality Assurance is intended to enable Regulatory Affairs and Quality Assurance (RAQA) students to receive formal recognition for studying food regulation and quality practices, which expands their regulatory knowledge. The certificate is also designed for individuals working in Philadelphia's large food industry so they can earn credentials in this highly important and rapidly expanding field. As the name "Food and Drug Administration" (FDA) implies, numerous parallels exist between the regulations and quality practices of drug and food products. Since the 1990s, employees from Philadelphia's food industry have been engaged in the RAQA graduate program, either taking individual courses or pursuing the M.S. degree. Then, in 2011, the Food Safety and Modernization Act (FSMA) encompassed some of the most sweeping reforms in food safety laws in more than 70 years, shifting the focus of food safety from responding to contamination to preventing it.

Through completion of the certificate, whether post-baccalaureate or post-master's, students become:

- knowledgeable and conversant in key regulatory practices that prepare them for supervisory and managerial positions in the food industry or better prepare them for positions in the pharmaceutical industry with food-related products;
- fluent in discussing the basics of food quality practices, including good manufacturing practices (GMPs) and preventive control and hazard/risk analysis;
- knowledgeable about the legal and regulatory requirements involved in a food company's processing activities;
- capable of identifying the key regulatory agencies (FDA, EPA, USDA) involved in food quality assurance and regulation, being familiar with their roles, responsibilities, and missions; and
- fluent in knowing where to find the latest FDA regulatory changes in the food industry so they can respond quickly to new regulatory and quality trends and developments.

Time Limit for Certificate Completion: 2 years

Campus Location: Fort Washington

Full-Time/Part-Time Status: The graduate certificate may be completed on a part-time basis.

Job Prospects: Those completing the certificate gain the knowledge and skills to prepare them to address the laws and regulations set forth in FSMA. Graduates are at an advantage when pursuing an FDA career in food inspection or employment with food manufacturers. They are also prepared to work with the medical foods of the RAQA industry, such as baby formula, dietary supplements, nutraceuticals, and vitamins.

Non-Matriculated Student Policy: The graduate certificate program may be completed on a non-matriculated basis.

Admission Requirements and Deadlines

Application Deadline: 
Fall and Spring admissions are on a rolling basis. Interested students should contact the School of Pharmacy for permission to enroll in coursework.

Graduate Certificate: Pharmaceutical Labeling, Advertising and Promotions

SCHOOL OF PHARMACY (http://www.temple.edu/pharmacy)

About the Certificate

The graduate certificate in Pharmaceutical Labeling, Advertising and Promotions is intended to produce well-qualified experts with knowledge of the U.S. and global regulations governing the labeling, advertising,
and promotions of pharmaceuticals and related products. Coursework addresses the complexity of the PI (Package Insert), showing how it must delineate every aspect of the product, from its dosage form to its unique storage requirements and dosage information. Topics include how the PI must be incorporated into print and internet advertising and promotions for products and also the requirements for television ads. Differences in the regulations in key world markets are also discussed.

The Pharmaceutical Labeling, Advertising and Promotions certificate is offered at both the post-baccalaureate and post-master's levels.

**Time Limit for Certificate Completion:** 4 years

**Campus Location:** Fort Washington and online

**Full-Time/Part-Time Status:** The graduate certificate may be completed on a part-time basis.

**Non-Matriculated Student Policy:** Non-matriculated students may take up to 9 credits of coursework before applying to the post-baccalaureate certificate program. The post-master's certificate cannot be taken on a non-matriculated basis.

### Admission Requirements and Deadlines

**Application Deadline:**
Fall and Spring admissions are on a rolling basis.

**Master's Degree in Discipline/Related Discipline:** Applicants completing the program to earn a post-master's certificate must hold a master's degree in Regulatory Affairs and Quality Assurance.

**Bachelor's Degree in Discipline/Related Discipline:** Applicants completing the program to earn a post-baccalaureate certificate must hold a B.S. degree in Biochemistry, Biology, Chemistry, Physics, or a health-related discipline.

**Other:** Applicants who did not earn their master's degree from Temple University's School of Pharmacy must have sufficient industry experience and familiarity with the basic tenets of regulatory affairs and quality assurance to pursue the post-master's certificate. As part of the application, these applicants must include:

- a letter of request to the Assistant Dean of Regulatory Affairs and Quality Assurance indicating the courses to be pursued and citing the applicant's industry experience;
- a copy of their resume; and
- a photocopy of their final transcript from the institution where the master's or doctoral degree was earned.

### Certificate Requirements

**Number of Credits Required to Complete the Certificate:** 12-15, depending on the origin of the master's degree

**Required Courses:**

<table>

Select course(s) from the following:

- QARA 5507 Regulation of Non-Prescription Healthcare Products
- QARA 5532 Global Labeling Regulation: Principles and Practices
- QARA 5535 Advanced Topics in Labeling Development
- QARA 5594 Regulation of Dietary Supplements, Botanicals, and Nutraceuticals

**Total Credit Hours:** 12-15

1 If QARA 5592 was not taken as part of the student's master's program, it is required for the post-master's certificate program as it is a prerequisite for QARA 5533.

2 Students in the post-baccalaureate certificate program take one elective to fulfill 12 credits. Graduates who earned their M.S. in Regulatory Affairs and Quality Assurance at Temple University are expected to have taken QARA 5592 as part of the M.S. program and, therefore, take two electives to complete 12 credits. Graduates who earned an advanced degree at a peer institution are required to take two electives in addition to QARA 5592 to complete 15 credits to earn the certificate.

**Graduate Certificate: Sterile Process Manufacturing**

SCHOOL OF PHARMACY (http://www.temple.edu/pharmacy)
About the Certificate

The graduate certificate in Sterile Process Manufacturing is intended to enable Regulatory Affairs and Quality Assurance (RAQA) students to receive formal recognition for studying the techniques and applicable regulations used in the development and manufacture of sterile products. Sterile products include a wide range of commonly used products, such as intradermal (ID), intramuscular (IM), intravenous (IV), and subcutaneous (SC) products, vaccines, and products administered directly into different parts of the body, such as arteries (intra-arterial), bones (intrasternal), heart (intracardiac), or the spinal canal (intrathecal). Sterile products must be manufactured using aseptic (or free from contamination) methods wherein the drug substance, excipients, and vehicle (e.g., saline or water for injection) are combined in a container, such as a syringe. Generally, the final dosage form cannot be sterilized at the end of the manufacturing process, since the drug substance would become degraded. Therefore, sterility must be ensured during the manufacturing process by utilizing sterile filtration, microbial controls, and facility design, all of which must follow regulatory guidelines.

Through completion of the certificate, whether post-baccalaureate or post-master’s, students understand the following:

- routes and types of administration of sterile products;
- regulations, processes, and unique considerations involved with sterile parenteral products;
- manufacturing and facility requirements for the design and production of sterile products;
- validation and compliance specifications for sterile products;
- methods used for sterilization, including regulatory requirements for thermal, gaseous, radiation, filtration, and aseptic processing.

Time Limit for Certificate Completion: 3 years

Campus Location: Fort Washington

Full-Time/Part-Time Status: The graduate certificate may be completed on a part-time basis.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

Admission Requirements and Deadlines

College of Public Health

The College of Public Health is a global leader in the discovery, dissemination, and integration of health-related research and practice. We prepare future generations of professionals through an intellectual environment that incorporates interdisciplinary collaboration, critical thinking, and innovation to instill a commitment to ethical practice and lifelong learning. Exemplary research, teaching, and service are informed by our engagement with professional and community, regional, national, and global partners.

The College of Public Health engages in exciting, innovative research and supports talented, committed researchers. Investigations focus on medical interventions, social and behavioral inquiries, and animal and basic science. Inquiries are frequently interdisciplinary, crossing departmental and collegial lines, and draw on resources from across the University. The college’s research mission entails:

- increasing faculty productivity in grants and published research;
- encouraging faculty to seek research funds creatively, from such non-governmental sources as corporations and foundations;
- promoting collaborative research;
- developing a research infrastructure supported by best practices and outstanding staff;
- creating students’ awareness of faculty research and opportunities for research assistantships;
- providing research opportunities for students; and
- ensuring sufficient support to train faculty, students, administrators, and staff in the uses of new technologies.

The College of Public Health is also committed to excellence in fieldwork and clinical education. We believe that academic preparation must be complemented with a well-designed and mentored real-world experience that transforms classroom and laboratory learning into a dynamic, field-based demonstration of professional attitudes, skills, and abilities. Our students benefit from the college’s location in a metropolitan area filled with diverse and highly regarded health care, human services, and other non-medical agencies promoting health of individuals and communities. Our network of partnering agencies includes top-rated hospitals and rehabilitation centers, wellness clinics, state and federal government agencies, public and private schools, community health and human services agencies, research centers, and private practice offices. Field/clinical education can also begin on campus at clinics and research centers operated by departments in the College of Public Health, through placements with intercollegiate athletics, and at Temple University Hospital.

As noted, graduate students in many of the College of Public Health’s degree programs engage in required clinical/field education experiences at facilities both on and off the University’s campuses. Many of these placements may require the student to have personal health insurance. Additionally, many require a criminal background check, Act 33/34 clearances, and perhaps a drug screen. Failure to maintain personal health insurance or the results of background clearances may limit and potentially eliminate placement options for students. This, in turn, can result in an inability to meet graduation requirements. The college cannot ensure clinical field placements if a student fails to meet the requirements or maintain health insurance. Additionally, conviction of a misdemeanor, felony, or felonious or illegal act may prevent a student from becoming credentialed and/or licensed to practice in certain professions. Applicants are encouraged to review the requirements for the particular program in which they are interested, as well as the licensure/credentialing rules in the state(s) in which they are interested in working to review their eligibility.

In Fall 2015, the College of Public Health introduced a common College Core course requirement for all incoming graduate students. The course, HRPR 5001 Current and Emerging Issues in Public Health and Health Professions, is completely online and designed such that students can complete the modules at their own pace over the course of their degree program. Tuition is not charged for the course since it carries no credit. However, it is a required pass/fail course, and students will not be eligible for graduation unless the course is completed. The course requires graduate students to complete a set of six learning modules that address core elements of health, including guiding principles, practices, and guidelines. Students then have the option to select an additional six modules from a menu of modules — currently 12 in number while new modules are being developed. Each module includes a video presentation, PowerPoint slides, additional resources, and a short quiz. A minimum grade of 80% on each module is required to pass the course. Program directors and faculty advisors work closely with students to explain the modules, discuss appropriate timing for their completion, and monitor progress towards completion before graduation.

Ultimately, our diverse population of students and highly recognized faculty seek to enhance the quality of life for all.

Carolina Hausmann-Stabile, Assistant Professor, Department of Social Work, College of Public Health; Ph.D., Washington University.

Shivayogi V. Hiremath, Assistant Professor, Department of Physical Therapy, College of Public Health; Ph.D., University of Pittsburgh.

Matthew Bryant Hudson, Assistant Professor, Department of Kinesiology, College of Public Health; Ph.D., University of Florida-Gainesville.

Cheryl A. Hyde, Associate Professor, Department of Social Work, College of Public Health; Ph.D., University of Michigan.

Jennifer K. Ibrahim, Associate Professor, Department of Health Services Administration and Policy, College of Public Health; Ph.D., University of California Berkeley.

Larry D. Icard, Professor, Department of Social Work, College of Public Health; Ph.D., Columbia University.

John Jeka, Professor, Department of Kinesiology, College of Public Health; Ph.D., Florida Atlantic University.

Emily Keshner, Professor, Department of Physical Therapy, College of Public Health; Ed.D., Columbia University.

Martha Y. Kubik, Professor, Department of Nursing, College of Public Health; Ph.D., University of Minnesota.

Richard Lauer, Associate Professor, Department of Physical Therapy, College of Public Health; Ph.D., Case Western Reserve University.

Stephen J. Lepore, Professor, Department of Social and Behavioral Sciences, College of Public Health; Ph.D., University of California Irvine.

Edwin Maas, Assistant Professor, Department of Communication Sciences and Disorders, College of Public Health; Ph.D., San Diego State University.

Nadine Martin, Professor, Department of Communication Sciences and Disorders, College of Public Health; Ph.D., Temple University.

Omar Martinez, Assistant Professor, Department of Social Work, College of Public Health; J.D., Indiana University.

Heather Murphy, Assistant Professor, Department of Epidemiology and Biostatistics, College of Public Health; Ph.D., University of Guelph.

Miguel Muñoz-Laboy, Associate Professor, Department of Social Work, College of Public Health; Dr.P.H., Columbia University.

Bernie Sue Newman, Associate Professor, Department of Social Work, College of Public Health; Ph.D., University of Pittsburgh.

Joon Young Park, Associate Professor, Department of Kinesiology, College of Public Health; Ph.D., University of Maryland College Park.

Elizabeth A. Pfeiffer, Associate Professor, Department of Communication Sciences and Disorders, College of Public Health; Ph.D., Nova Southeastern University.

James J. Reilly, Associate Professor, Department of Communication Sciences and Disorders, College of Public Health; Ph.D., University of Pennsylvania.

Jin-Soob Roh, Assistant Professor (Teaching/Instructional), Department of Kinesiology, College of Public Health; Ph.D., Massachusetts Institute of Technology.
multivariate biostatistics, including the use of regression models and such as database coding and development; environmental surveillance; Health (CEPH) standards. Applied Biostatistics courses address topics and of the application of hypothesis-based development and statistical

The program is designed to train professionals in the field of public health who have a clear understanding of and expertise in the use, trained professionals with expertise in advanced biostatistical methods. The Master of Public Health in Applied Biostatistics is a unique and newly developed degree in response to the growing need for master's-trained professionals with expertise in advanced biostatistical methods. The program is designed to train professionals in the field of public health who have a clear understanding of and expertise in the use, statistical application, and interpretation of large and complex data sets; of the critical importance of valid study designs and analytic methods; and of the application of hypothesis-based development and statistical programming and testing. Students complete their studies with an understanding of the fundamental critical thinking skills and statistical/programming competencies necessary for public health practice and Applied Biostatistics in accordance with Council on Education for Public Health (CEPH) standards. Applied Biostatistics courses address topics such as database coding and development; environmental surveillance; multivariate biostatistics, including the use of regression models and

Time Limit for Degree Completion: 4 years

Campus Location: Main. Some required and elective courses are offered at satellite campuses and through online courses, but the full M.P.H. program is currently available only at Main Campus.

Full-Time/Part-Time Status: Students can complete the degree program through evening classes and online courses. Full-time students usually complete the program within two academic years. Part-time students usually take three to four years to complete their degree.

Interdisciplinary Study: Interdisciplinary M.P.H. coursework, research, and interactions are encouraged to give students as broad a perspective as possible to excel in the complex, diverse, and dynamic state of public health. Through associations with the Center for Obesity Research and Education, Center for Women's Health, and others, students have access to over 100 faculty at Temple University and additional regional scholars who are actively involved in programs, research, and teaching in public health. Seven dual M.P.H. degree programs are currently offered:

- D.M.D./M.P.H. with Temple University's Kornberg School of Dentistry
- D.O./M.P.H. with the Philadelphia College of Osteopathic Medicine
- D.P.M./M.P.H. with the Temple University School of Podiatric Medicine
- J.D./M.P.H. with Temple University's Beasley School of Law
- M.D./M.P.H. with the Lewis Katz School of Medicine at Temple University
- M.H.A./M.P.H. with Temple University's Fox School of Business and Management
- M.S.W./M.P.H. with the Temple University School of Social Work

Affiliation(s): Locally, the program has long-standing research affiliations with The Food Trust, Fox Chase Cancer Center, Health Federation of Philadelphia, Philadelphia Department of Public Health, Public Health Management Corporation (PHMC), School District of Philadelphia, Temple University Health System, and numerous other community health agencies.

Study Abroad: Short-term intensive study abroad courses are offered as part of the M.P.H. program of study. These courses are offered during the Summer and are open to both undergraduate and graduate students.

Accreditation: The M.P.H. is fully accredited by the Council on Education for Public Health (CEPH). Achieving accreditation in 1985, Temple's M.P.H. program is one of the longest established accredited M.P.H. programs in community health in the country.

Nancy L. Rothman, Professor, Department of Nursing, College of Public Health; Ed.D., Temple University.

Scott E. Rutledge, Associate Professor, Department of Social Work, College of Public Health; Ph.D., University of Washington.

Michael L. Sachs, Professor, Department of Kinesiology, College of Public Health; Ph.D., Florida State University.

Mark Salzer, Professor, Department of Rehabilitation Sciences, College of Public Health; Ph.D., University of Illinois at Urbana-Champaign.

David B. Sarwer, Professor, Department of Social and Behavioral Sciences, College of Public Health; Ph.D., Loyola University Chicago.

Laura Siminoff, Professor, Department of Social and Behavioral Sciences, College of Public Health; Ph.D., Johns Hopkins University.

Gretchen A. Snethen, Assistant Professor, Department of Rehabilitation Sciences, College of Public Health; Ph.D., Indiana University.

Gerry A. Stefanatos, Associate Professor, Department of Communication Sciences and Disorders, College of Public Health; D.Phil., Oxford University.

Christopher Thompson, Assistant Professor, Department of Physical Therapy, College of Public Health; Ph.D., University of Illinois.

Heather M. Traino, Associate Professor, Department of Social and Behavioral Sciences, College of Public Health; Ph.D., State University of New York at Buffalo.

Carole Tucker, Associate Professor, Department of Physical Therapy, College of Public Health; Ph.D., State University of New York at Buffalo.

Robert C. Whitaker, Professor, Department of Epidemiology and Biostatistics, College of Public Health; M.D., Johns Hopkins University School of Medicine.

W. Geoffrey Wright, Associate Professor, Department of Physical Therapy, College of Public Health; Ph.D., Brandeis University.

Marsha Zibalese Crawford, Associate Professor, Department of Social Work, College of Public Health; D.S.W., Howard University.

**Applied Biostatistics, M.P.H.**

COLLEGE OF PUBLIC HEALTH ([http://cph.temple.edu](http://cph.temple.edu))

**About the Program**

The Master of Public Health in Applied Biostatistics is a unique and newly developed degree in response to the growing need for master's-trained professionals with expertise in advanced biostatistical methods. The program is designed to train professionals in the field of public health who have a clear understanding of and expertise in the use, statistical application, and interpretation of large and complex data sets; of the critical importance of valid study designs and analytic methods; and of the application of hypothesis-based development and statistical programming and testing. Students complete their studies with an understanding of the fundamental critical thinking skills and statistical/programming competencies necessary for public health practice and Applied Biostatistics in accordance with Council on Education for Public Health (CEPH) standards. Applied Biostatistics courses address topics such as database coding and development; environmental surveillance; multivariate biostatistics, including the use of regression models and
Areas of Specialization: The M.P.H. degree program is offered in five specialty fields of study:

- Applied Biostatistics (APBIO)
- Environmental Health (EH)
- Epidemiology (EPI)
- Health Policy and Management (HPM)
- Social and Behavioral Sciences (SBS)

In addition, a certificate in Global Health is available to all students in the M.P.H. program. Students are able to complete this transcripted concentration by utilizing their three elective courses for Global Health classes.

Job Prospects: Graduates with an M.P.H. in Applied Biostatistics are employed in research institutions, such as universities and medical centers; at government agencies at the federal level, such as the Centers for Disease Control and Prevention, as well as local and state governments; and in private industry, including pharmaceutical firms, in positions such as research associates and statisticians.

Licensure: Students who complete an M.P.H. at Temple University are eligible to sit for the Certification in Public Health (CPH) exam and the Certified Health Education Specialist (CHES) exam. For information regarding credentialing in public health, see http://www.nchec.org/.

Non-Matriculated Student Policy: Non-matriculated students are required to speak with an advisor before registering for classes and to obtain the permission of the professor. If accepted to the program, a maximum of three courses may be applied toward the degree program. Exceptions to this policy relate to formal certificate programs.

Financing Opportunities: The Graduate School awards fellowships on a competitive basis only to students with outstanding academic records who are admitted to Temple University for the Fall term. Applicants who wish to be considered for fellowships must apply no later than January 26 for consideration for the Fall term. The department's Admissions Committee nominates outstanding students for these awards, but the Graduate Board's Fellowship Committee makes all award decisions.

Limited Teaching and Research Assistantships are available in the College of Public Health. The Graduate School website details levels of support, benefits, and the terms and conditions of these types of graduate student support at http://www.temple.edu/grad/finances/. Assistantships are awarded on a term or annual basis. Students whose Fall applications are complete prior to or at the application deadline are reviewed for eligibility for Teaching Assistant (TA) positions. TAs are required to work 20 hours per week in any combination of teaching assignments made by the department and must meet the English Language Proficiency standards set by the University and the College. Students who hold Teaching or Research Assistantships are not permitted to hold other employment without the written prior approval of their advisor, the Director of Graduate Programs, and the Graduate School. To be considered for a Teaching or Research Assistantship, complete an application form that is sent to students upon admission to the M.P.H. program. The completed application must be returned to publichealth@temple.edu to be considered.

The College of Public Health has a limited number of scholarship opportunities available for M.P.H. students. Available scholarships are listed at https://cph.temple.edu/cph/giving/scholarshipsfunds. Students may also be eligible for financial support through the Office of Student Financial Services. See http://sfs.temple.edu/.

Admission Requirements and Deadlines

Application Deadline:
Fall: March 1
Spring: November 1

All applicants to the M.P.H. program must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://portal.sophas.org/. A supplemental application is also required to be submitted directly to Temple University at http://www.temple.edu/apply/common/appcheck.asp. Late applications may be considered for admission.

Applicants should check their application status on the SOPHAS portal often and inquire directly of SOPHAS about receipt of materials. For other questions, please contact Theresa White, Senior Graduate Advisor, at theresawhite@temple.edu or 215-204-5105.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation, which are completed electronically through the SOPHAS system, should be obtained from college/university faculty members familiar with academic competence. If the applicant has been out of school for a long time, please ensure that letters are from professional colleagues and that they address academic abilities, such as writing and research.

Coursework Required for Admission Consideration: Applicants' files are reviewed for undergraduate coursework in mathematics and/or statistics, social science, and writing.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree is required.

Statement of Goals: In 500 to 1,000 words, address the following items:

- What are your interests in Public Health, and why are you planning to pursue an M.P.H. in Applied Biostatistics?
- What are your future career goals, and what have you done either academically or professionally to guide your interest in Public Health?
- Are there any exceptional circumstances related to previous academic performance that you would like the Admissions Committee to consider?

Standardized Test Scores:
GRE: Required. While the program takes a portfolio approach to admissions, standardized tests provide important insight into quantitative and verbal abilities. Minimum scores are 500 (old test) on both the verbal and quantitative sections or, on the new test, 153 on the verbal section and 144 on the quantitative section.

Standardized tests considered in lieu of the GRE include DAT, GMAT, MCAT, OAT, and PCAT. The LSAT, which is also considered for some M.P.H. specialties, is not accepted when applying for Applied Biostatistics or Epidemiology.

TOEFL: 79 iBT or 550 PBT minimum.

Clearances: The M.P.H. programs require students to complete clinical/field education experiences at facilities both on and off Temple
University’s campuses. These placements may require criminal background checks, Act 33/34 clearances, and perhaps a drug screen. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his inability to meet graduation requirements.

Resumes: Current resume or CV required.

Transfer Credit: Graduate credits from an M.P.H. program accredited by the Council on Education for Public Health (CEPH) may be transferred into the M.P.H. The credits must be equivalent to coursework offered at Temple, and the grade must be a "B" or better in order to transfer. The M.P.H. advisor approves the transfer of credits based on a review of course materials provided by the student. The maximum number of credits a student may transfer is 9.

Test Waivers: Graduates with a terminal degree from a U.S. medical school, foreign-trained physicians who have obtained licensure to practice in the United States, and those with Ph.D.’s may have the GRE requirement waived.

Total Credit Hours 45

Internship: An internship is required as part of a student’s M.P.H. fieldwork.

Culminating Events:

Fieldwork Practicum:

M.P.H. fieldwork requires a student to synthesize and integrate the knowledge acquired in coursework and other learning experiences and to apply theory and principles in a situation that approximates some aspect of professional practice through an internship or practicum experience with a public health agency or under the supervision of a faculty preceptor. The M.P.H. fieldwork experience serves as the culminating event as required by the Council on Education for Public Health (CEPH), the accrediting body of all U.S. schools of public health, for completion of the Master of Public Health degree. In addition, this culminating experience provides the student with the opportunity to develop expertise in a topic area and to contribute original and independent observations to a body of knowledge.

For the culminating experience to fulfill the requirements of EPBI 9289 and EPBI 9389, M.P.H. in Applied Biostatistics students are expected to complete a fieldwork experience, which enables them to:

- Describe the roles biostatistics serves in the discipline of public health.
- Apply basic statistical methods for summarizing public health data and for inference.
- Interpret and present results from the application of basic statistical techniques.
- Distinguish among the different measurement scales and, based on these distinctions, recognize the implications for selection of appropriate statistical methods.
- Apply descriptive techniques commonly used to summarize public health data.
- Recognize concepts of probability, random variation, and commonly used statistical probability distributions.
- Apply common statistical methods for inference, including estimation, confidence intervals, and hypothesis testing.
- Use appropriate statistical software and make proper interpretations based on the output.
- Be trained in a variety of common statistical programs and languages.
- Gain hands-on experience working with existing databases while being mentored on a culminating project.
- Incorporate public health practices when conducting and interpreting analytic results.
- Describe preferred methodological alternatives to commonly used statistical methods.
- Develop written and oral presentations based on statistical analyses for both public health professionals and educated lay audiences.
- Apply basic informatics techniques with vital statistics and public health records in the description of public health characteristics and in public health research and evaluation.

A final paper is the required deliverable for the M.P.H. fieldwork requirement. Students must also demonstrate their proficiency and the application of theory and principles in the paper and demonstrate mastery of the required competencies during the oral defense. The evaluation of the M.P.H. fieldwork practicum experience, therefore, is integrated into the culminating experience requirement.
Students graduating from the M.S.A.T. program will be able to:

- clinically apply the foundational behaviors of professional practice;
- demonstrate knowledge and competency within the content areas of athletic training, as defined by the National Athletic Trainers' Association;
- integrate cultural competency and professionalism in global healthcare delivery;
- effectively communicate with peer healthcare professionals, patients, and athletic program administrators; and
- apply evidence-based decision making to clinical practice to increase patient outcomes and satisfaction.

Time Limit for Degree Completion: 5 years

Campus Location: Main

Full-Time/Part-Time Status: Students are expected to complete their two years of coursework on a full-time basis.

Interdisciplinary Study: Interdisciplinary study is available within the department and through other departments in the University.

Ranking: While rankings of individual programs and the department are not conducted in the profession, the programs at Temple University have excellent reputations. Historically, the Department of Kinesiology's Athletic Training program is one of only four in the country with bachelor's, master's, and doctoral level training.

Accreditation: The M.S.A.T. degree program is accredited by the Commission on Accreditation of Athletic Training Education (CAATE).

Areas of Specialization: The Athletic Training Practice Domains, as identified by the Board of Certification, encompass five main areas:

1. Injury/illness prevention and wellness protection
2. Clinical evaluation and diagnosis
3. Immediate and emergency care
4. Treatment and rehabilitation
5. Organizational and professional health and well-being

As a result of the uniqueness of Temple University's College of Public Health and its research areas, areas of distinctiveness also include:

- Advanced concussion education
- Evidence-based practice components

Job Prospects: Graduates are prepared to work as entry-level clinical certified athletic trainers in various traditional settings (e.g., high schools, universities, clinics, hospitals); to apply for advanced research-based education (e.g., Ph.D.) or clinical education (e.g., D.A.T.); or to practice in an emerging area (e.g., dance, military).

Licensure: Graduates of the M.S.A.T. degree program are eligible to take the Board of Certification examination to become a certified athletic trainer. For more information on the certification process, see http://www.bocatc.org/. For more information about state regulatory processes, see http://members.nata.org/gov/state/regulatory-boards/map.cfm.

Non-Matriculated Student Policy: Non-matriculated students are welcome to take classes in the department, assuming they have the requisite knowledge to be successful in the coursework.

Financing Opportunities: For information on financial aid, contact the Office of Student Financial Services at sfs@temple.edu or 215-204-2244.
Admission Requirements and Deadlines

Application Deadline:

Summer II: June 1

All applicants to the M.S.A.T. program must apply via the Athletic Training Centralized Application Service (ATCAS). The system can be accessed at https://atcas.liaisoncas.com/.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from evaluators, typically college/university faculty or an immediate work supervisor, who can provide insight into the applicant’s aptitude for graduate study. These letters are to be submitted electronically at https://atcas.liaisoncas.com/.

Coursework Required for Admission Consideration: Required coursework includes:

• Basic Health and Wellness
• Exercise Physiology
• General or Sport Psychology
• Human Anatomy and Physiology (8 credits)
• Nutrition
• Statistics

Recommended courses include:

• Chemistry
• Functional Anatomy or Functional Kinesiology
• Physics

Without exception, grades earned in prerequisite courses must be a “B” or better for consideration in an application. Prerequisites are not required to have been taken while an undergraduate. The courses may be completed at a local community college or any accredited institution of higher education. Prerequisites may be in progress at the time of the initial application, but must be completed and verified on one’s ATCAS application by June 1 of the year for which application is made.

Bachelor’s Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of a baccalaureate degree.

Statement of Goals: A statement of one to two pages should be clearly written and well thought out.

Standardized Test Scores:

GRE: Not required, but recommended.

TOEFL: 79 iBT or 550 PBT minimum

Clearances: The Athletic Training M.S.A.T. program requires students to complete clinical/field education experiences at facilities both on and off Temple University’s campuses. These placements require students to have a physical exam, immunizations with titers, and a PPD test. Many placements also require criminal background checks, Act 33/34 clearances, and perhaps a drug screen. Students may also be required to maintain personal health insurance. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his ability to meet graduation requirements. The College cannot ensure clinical field placements if the individual fails to meet the requirements or maintain health insurance. Additionally, conviction of a misdemeanor, felony, or felonious or illegal act may prevent the student from becoming certified to practice athletic training.

Resume: Current resume required, including the applicant’s undergraduate GPA and relevant clinical and research experiences.

Interview: An interview is scheduled at a mutually convenient time between the faculty interviewer(s) and the applicant via video chat.

Other: Verification of at least 50 hours of observation under a certified athletic trainer is required when applying. After admission to the program but prior to August 1, students must submit the following items in preparation for the Fall practicum courses:

• Emergency Cardiac Care Certification
• FBI Fingerprint Check
• PA Criminal Background Check
• PA Department of Public Welfare Child Abuse Clearance
• Proof of Physical Examination, including blood titers/boosters where applicable
• PPD Skin Test for Tuberculosis Exposure

Transfer Credit: At the discretion of the Program Director, relevant graduate courses taken at other accredited universities may be considered for transfer credit to the student’s program. The maximum number of credits a student may transfer is 6.

Year 2
## About the Program

The Clinical Doctorate in Athletic Training (D.A.T.) is offered online by the Department of Kinesiology in the College of Public Health at Temple University, which has been a leader in athletic training education for more than 30 years. Temple is one of only four universities historically offering athletic training degree options at the bachelor’s, master’s, and doctoral levels. Establishing the D.A.T. keeps Temple University ahead of the curve in athletic training education as a master’s becomes the entry-level degree within the next four to six years.

Offering the D.A.T. online increases student access to a unique and innovative world-class graduate education. The combination of outstanding faculty, administrative support, and online instructional resources allows Temple University to provide an excellent didactic and clinical education to an ever-growing market of students seeking quality graduate education. Students seek advising and complete/update advising contracts with the Program Director. Faculty work closely with students to select courses, develop an evidence-based project question, and complete the capstone project. In addition, the Clinical Coordinator verifies that students are continuously practicing as a certified athletic trainer, certified by the Board of Certification, and appropriately licensed or registered within their state of employment.

The D.A.T. is designed to enhance clinical decision making by allowing the practicing certified athletic trainer to utilize evidence-based techniques, including the identification and interpretation of current literature to improve patient outcomes. Through the clinical education components, the program enhances interdisciplinary and inter-professional relationships to mimic real-world healthcare delivery experiences.

Delivering the program exclusively online allows a greater audience to be reached and collaboration with people from diverse backgrounds and with varied experiences to occur.

The D.A.T. is geared toward advancing clinical knowledge of currently practicing certified athletic trainers. It targets those interested in the clinical application and education of advanced athletic training concepts and practice, not original research. For individuals interested in athletic training research, Temple University offers a Ph.D. in Kinesiology with a concentration in Athletic Training. The Ph.D. degree is research-based and trains professionals to be independent investigators who may go on for post-doctoral training.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Online

**Full-Time/Part-Time Status:** While not recommended, the degree program can be completed on a part-time basis. This must be approved by the Program Director.

---

1 This common College Core course is required of all incoming graduate students in the College of Public Health. It is available completely online and designed such that students can complete the modules at their own pace over the course of their degree program.

## Athletic Training, D.A.T.

**COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)**
Ranking: While rankings of individual programs and the department are not conducted in the profession, the programs at Temple University have excellent reputations. Historically, the Department of Kinesiology's Athletic Training program is one of only four in the country with bachelor's, master's, and doctoral level training.

Job Prospects: As of 2015, the U.S. Bureau of Labor Statistics projects a 19% growth in athletic training until 2025, which is above the standard workforce demand rate of 11%.

Licensure: Applicants for and graduates of the D.A.T. program must be certified athletic trainers. This program does not allow for students to take the Board of Certification exam. Applicants interested in becoming a certified athletic trainer should consider Temple's accredited Master of Science in Athletic Training (M.S.A.T.) program.

Non-Matriculated Student Policy: D.A.T. coursework is available only to matriculated students.

Financing Opportunities: Clinical graduate externships may be available for graduate students who are certified athletic trainers.

Admission Requirements and Deadlines

Application Deadline:

Fall: July 1

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from evaluators, typically college/university faculty or an immediate work supervisor, who can provide insight into the applicant's aptitude for graduate study.

Coursework Required for Admission Consideration: All applicants must be certified athletic trainers via the procedures specified by the Board of Certification.

Master's Degree in Discipline/Related Discipline: A master's degree is required.

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of a baccalaureate degree.

Statement of Goals: A statement of one to two pages should be clearly written and well thought out.

Standardized Test Scores:

GRE: Required. The GRE is, however, waived if a person has been practicing clinically as an athletic trainer for five years or more.

TOEFL: 79 iBT or 550 PBT minimum.

Resume: Current resume required, including the applicant's GPA and relevant clinical and research experiences.

Interview: An interview is scheduled at a mutually convenient time between the faculty interviewer(s) and the applicant via video chat.

1 This common College Core course is required of all incoming graduate students in the College of Public Health. It is available completely online and designed such that students can complete the modules at their own pace over the course of their degree program.

2 KINS 5808 can be taken in either the Summer term of Year 1 or the Spring term of Year 2. An elective is taken in the term in which the student does not enroll in KINS 5808.

Culminating Events:

Capstone Project:

Students are assigned a faculty advisor to guide the Capstone Project, which must be grounded in evidence-based practice. The doctoral capstone is developed over a series of academic terms. Outcomes from the Capstone Project are expected to be incorporated into clinical practice.

Clinical Research and Translational Medicine, M.S.

About the Program
The M.S. in Clinical Research and Translational Medicine program provides detailed training in conducting clinical research and understanding the complex scientific, ethical, and regulatory issues associated with clinic-based research. This degree program addresses the increased emphasis on high-quality clinical research to translate the findings of basic research into improved clinical care.

Time Limit for Degree Completion: 3 years

Campus Location: Main, with courses also offered at the Center City and Health Sciences Center campuses

Full-Time/Part-Time Status: Full-time study is highly recommended.

Interdisciplinary Study: Required and elective courses are offered through the College of Public Health, Lewis Katz School of Medicine, and other departments within the University.

Affiliation(s): The program is collaboratively offered by the College of Public Health and the Lewis Katz School of Medicine.

Accreditation: The program is accredited by the Council on Education for Public Health (CEPH).

Job Prospects: Graduates of the M.S. in Clinical Research and Translational Medicine program are prepared to be faculty members or researchers in colleges and universities or to hold research-related positions in a wide range of organizations. Graduates are employed in health systems, hospitals and clinics, public health departments, and public health and other healthcare and human service agencies. Graduates also work in pharmaceutical companies, non-profit and for-profit corporations, foundations, and consulting firms with a focus on interdisciplinary and translational clinical research.

Non-Matriculated Student Policy: Students are permitted to take up to 9 credits of coursework before matriculation. Entry into these courses as a non-matriculated student is at the instructor's discretion. If accepted into the program, those courses may be applied toward the degree requirements. Course selection should be made in consultation with an advisor, and students should be aware that completion of coursework does not ensure admission into the program.

Financing Opportunities: Teaching Assistants (TAs) and Research Assistants (RAs) provide 20 hours of service per week. TAs may be assigned to assist in the teaching of courses, including grading examinations and papers or teaching laboratory sections. Some TAs independently teach undergraduate courses. RAs perform supervised research activities. Both assistantships carry a minimum stipend and full tuition remission for up to 9 credits per term. Applications for assistantships are available from the Department of Epidemiology and Biostatistics and must be submitted by January 15 for the following Fall term. The application requires a statement of previous teaching and/or research experience, areas of interest, and future goals; unofficial copies of transcripts; and a curriculum vitae. The department makes offers of assistantships following admission to the program. Applications should be addressed to:
Levent Dumenci, Ph.D.
Chair, Department of Epidemiology and Biostatistics
939 Ritter Hall Annex (004-09)
1301 Cecil B. Moore Avenue
Philadelphia, PA 19122-6005
LDumenci@temple.edu

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1

All applicants to the M.S. in Clinical Research and Translational Medicine program must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://portal.sophas.org/. A supplemental application is also required to be submitted directly to Temple University at http://www.temple.edu/apply/common/appcheck.asp. Late applications may be considered for admission.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from evaluators who can provide insight into the applicant's academic abilities
and talents, as well as comment on the applicant's aptitude for graduate study and research, particularly as related to translational research. Recommendations from college/university faculty members are preferred.

**Coursework Required for Admission Consideration:** Proficiency in statistics and basic clinical medicine is highly desired.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate in a clinical or basic science is required.

**Statement of Goals:** In no more than 750 words, describe important academic and research achievements; specific interests in translational research; and how your research interests relate to your ultimate career goals in clinical medicine and/or translational research.

**Standardized Test Scores:**
- **GRE:** Required. Minimum scores should be at least 153 on the verbal section and 144 on the quantitative section.
- **TOEFL (international applicants only):** 79 iBT or 550 PBT minimum.

**Resume:** Current resume or curriculum vitae required.

**Interview:** An interview may be required.

**Test Waivers:** Postdoctoral applicants who hold a terminal degree from an accredited institution may request a waiver of the GRE.

### Program Requirements

1 Includes HRPR 5001 Current and Emerging Issues in Public Health and Health Professions (0 s.h.), which is required for graduation.

### Culminating Events:

**Thesis:**
The master's thesis documents the independent research of the student and demonstrates mastery of her/his primary area of interest. Thesis research is conducted under the direct supervision of academic advisors from both the College of Public Health and the Lewis Katz School of Medicine. The specific topic for research should be of current interest in the professional community and relevant to translational clinical research. After a research topic is selected, a thesis proposal is submitted describing a plan for completion of the proposed research. The student may continue the research only after the initial proposal is approved by the committee.

### Communication Sciences and Disorders, Ph.D.

**COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)**

**About the Program**

The Ph.D. program in Communication Sciences and Disorders seeks to bring students to a level of education at which they may participate as scholars in the discipline. It is the program's objective to provide doctoral students with a base of information sufficiently broad that they understand the range of their discipline, yet deep enough in a chosen area of specialization to enable them to comfortably assume positions of leadership. The program emphasizes education in specific methods of research, appropriate to the student's area of specialization, reaching a level at which the graduate will be able to make original and valuable contributions to the knowledge of the field. A final objective is to infuse students with the spirit of scientific inquiry and wisdom in the methods and philosophy of science to place their own contributions, and the contributions of others, in a proper perspective with regard to theoretical and philosophical positions and trends. It is anticipated that graduates
will contribute to the discipline as leaders and exemplars in the areas of teaching, research, administration, and clinical services.

**Time Limit for Degree Completion**: 7 years

**Campus Location**: Main

**Full-Time/Part-Time Status**: The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study**: Students often take elective coursework outside the department in disciplines such as biostatistics, education, and psychology.

**Affiliation(s)**: Cooperative efforts have been established with Temple University Hospital and Lewis Katz School of Medicine, the Camden School District, MossRehab, and the School District of Philadelphia.

**Areas of Specialization**: Areas of concentration are Speech-Language Pathology with emphases in adult language disorders, child language and literacy development and disorders, and motor speech.

**Job Prospects**: Graduates are prepared for careers in universities and research institutions.

**Non-Matriculated Student Policy**: Departmental permission is required for registration in graduate classes. A maximum of 9 credits earned as a non-matriculated student may be applied toward the degree.

**Financing Opportunities**: Research and Teaching Assistantships may be available. Contact the Department of Communication Sciences and Disorders to inquire.

## Admission Requirements and Deadlines

**Application Deadline**:  
*Fall*: January 15

APPLY ONLINE to this graduate program.

**Letters of Reference**:

*Number Required*: 3

*From Whom*: Letters of recommendation should be obtained from professors, employers, or colleagues who are able to evaluate the applicant's research potential. One letter must be from a previous professor, advisor, or research supervisor.

**Coursework Required for Admission Consideration**: Applicants must demonstrate coursework taken in statistics and probability.

**Master's Degree in Discipline/Related Discipline**: A master's degree is not required.

**Bachelor's Degree in Discipline/Related Discipline**: A baccalaureate degree in Communication Disorders, Education, Linguistics, or Psychology is required.

**Statement of Goals**: Approximately 500 to 1,000 words address your background, your academic and professional goals, and the fit of your interests with the program.

**Standardized Test Scores**:

*GRE*: Required. Scores on the verbal and quantitative sections are expected to fall at or above the 50th percentile.

**TOEFL**: 79 iBT or 550 PBT minimum.

**Resume**: Current resume required.

**Writing Sample**: A writing sample that is expository in nature, e.g., a chapter of a thesis, a convention paper, and/or a paper from senior undergraduate or master’s level coursework, should be submitted.

**Advanced Standing**: The student's advisor recommends advanced standing to the department based on a review of prior coursework and experience. The maximum number of advanced standing credits awarded is 30.

## Program Requirements

**General Program Requirements**:

*Number of Credits Required to Earn the Degree*: 45

</tbody>
</table>

**Total Credit Hours**: 45

1. Other courses may meet this requirement if approved by mentor, Ph.D. Program Director, and department chair.

2. Alternate elective courses must be approved by the Ph.D. Program Director.

3. Students enrolled in CSCD 9998 must take 2 credits each term until the dissertation proposal is approved and filed with the Graduate School.
4 Students enrolled in CSCD 9999 must take a minimum of 3 credits after approval of the proposal and be enrolled for at least 3 credits each term until the dissertation is defended and filed with the Graduate School.

Culminating Events:

Preliminary Examination:
The preliminary examination serves as a prospectus/proposal to the dissertation. The typical preliminary examination consists of a fully referenced introduction (20-30 pages) followed by a proposed method section that will guide the candidate’s dissertation study. In conjunction with the preliminary examination, a student must submit a journal-quality article for peer review. The student must pass the preliminary examination in no more than two attempts. The Doctoral Advisory Committee evaluates the exam on a pass/fail basis. All judgments are by committee consensus.

Dissertation:
The dissertation is an original study that makes a significant and publishable contribution to the field. It should demonstrate a thorough knowledge of the theoretical and empirical literature of the area of investigation. It should also be of sound and rigorous methodology. Original research of quality appropriate for publication in a first-tier national journal is expected.

Graduate School guidelines for announcing the defense are followed. Notice is given through postings, email, and listserv announcements. The defense lasts two hours.

Environmental Health, M.P.H.

COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)

About the Program

Environmental factors and sustainable development are the predominant determinants of health in individuals and communities. Proper environmental management is the key to protecting public health and avoiding most preventable illnesses, which are directly caused by environmental factors. The environment influences our health in many ways, including exposure to physical, chemical, and biological risk factors, and related changes in our behavior in response to those factors. The Master of Public Health in Environmental Health is a terminal, professional degree that prepares students for practice-oriented careers in environmental health and management, with an emphasis on examining environmental factors and environmental policies that affect the health and sustainable environments of communities.

Time Limit for Degree Completion: 4 years

Campus Location: Main. Some required and elective courses are offered at satellite campuses and through online courses, but the full M.P.H. program is currently available only at Main Campus.

Full-Time/Part-Time Status: Students can complete the degree program through evening classes and online courses. Full-time students usually complete the program within two academic years. Part-time students usually take three to four years to complete their degree.

Interdisciplinary Study: Interdisciplinary M.P.H. coursework, research, and interactions are encouraged to give students as broad a perspective as possible to excel in the complex, diverse, and dynamic state of public health. Through associations with the Center for Obesity Research and Education, Center for Women's Health, and others, students have access to over 100 faculty at Temple University and additional regional scholars who are actively involved in programs, research, and teaching in public health. Seven dual M.P.H. degree programs are currently offered:

• D.M.D./M.P.H. with Temple University’s Kornberg School of Dentistry
• D.O./M.P.H. with the Philadelphia College of Osteopathic Medicine
• D.P.M./M.P.H. with the Temple University School of Podiatric Medicine
• J.D./M.P.H. with Temple University’s Beasley School of Law
• M.D./M.P.H. with the Lewis Katz School of Medicine at Temple University
• M.H.A./M.P.H. with Temple University’s Fox School of Business and Management
• M.S.W./M.P.H. with the Temple University School of Social Work

Affiliation(s): Locally, the program has long-standing research affiliations with The Food Trust, Fox Chase Cancer Center, Health Federation of Philadelphia, Philadelphia Department of Public Health, Public Health Management Corporation (PHMC), School District of Philadelphia, Temple University Health System, and numerous other community health agencies.
Study Abroad: Short-term intensive study abroad courses are offered as part of the M.P.H. program of study. These courses are offered during the Summer and are open to both undergraduate and graduate students.

Accreditation: The M.P.H. is fully accredited by the Council on Education for Public Health (CEPH). Achieving accreditation in 1985, Temple’s M.P.H. program is one of the longest established accredited M.P.H. programs in community health in the country.

Areas of Specialization: The M.P.H. degree program is offered in five specialty fields of study:

- Applied Biostatistics (APBIO)
- Environmental Health (EH)
- Epidemiology (EPI)
- Health Policy and Management (HPM)
- Social and Behavioral Sciences (SBS)

In addition, a certificate in Global Health is available to all students in the M.P.H. program. Students are able to complete this transcripted concentration by utilizing their three elective courses for Global Health classes.

Job Prospects: Graduates with an M.P.H. in Environmental Health have positions in a wide range of health-related settings, including state and local public health departments, community-based organizations, voluntary health agencies, health maintenance organizations, hospitals, clinics, schools, and work sites. Graduates are employed as infection control coordinators, project directors, evaluation specialists, marketing specialists, research directors, prevention specialists, environmental health specialists, senior health educators, and adjunct faculty and consultants. Virtually all students are placed within three to six months of graduation.

Licensure: Students who complete an M.P.H. at Temple University are eligible to sit for the Certification in Public Health (CPH) exam and the Certified Health Education Specialist (CHES) exam. For information regarding credentialing in public health, see http://www.nchec.org/.

Non-Matriculated Student Policy: Non-matriculated students are required to speak with an advisor before registering for classes and to obtain the permission of the professor. If accepted to the program, a maximum of three courses may be applied toward the degree program. Exceptions to this policy relate to formal certificate programs.

Financing Opportunities: The Graduate School awards fellowships on a competitive basis only to students with outstanding academic records who are admitted to Temple University for the Fall term. Applicants who wish to be considered for fellowships must apply no later than January 26 for consideration for the Fall term. The department's Admissions Committee nominates outstanding students for these awards, but the Graduate Board's Fellowship Committee makes all award decisions.

Limited Teaching and Research Assistantships are available in the College of Public Health. The Graduate School website details levels of support, benefits, and the terms and conditions of these types of graduate student support at http://www.temple.edu/grad/finances/. Assistantships are awarded on a term or annual basis. Students whose Fall applications are complete prior to or at the application deadline are reviewed for eligibility for Teaching Assistant (TA) positions. TAs are required to work 20 hours per week in any combination of teaching assignments made by the department and must meet the English Language Proficiency standards set by the University and the College.

Students who hold Teaching or Research Assistantships are not permitted to hold other employment without the written prior approval of their advisor, the Director of Graduate Programs, and the Graduate School. To be considered for a Teaching or Research Assistantship, complete an application form that is sent to students upon admission to the M.P.H. program. The completed application must be returned to publichealth@temple.edu to be considered.

Students may also be eligible for financial support through the Office of Student Financial Services. See http://sfs.temple.edu/.

**Admission Requirements and Deadlines**

**Application Deadline:**

**Fall:** March 1

**Spring:** November 1

All applicants to the M.P.H. program must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://portal.sophas.org/. A supplemental application is also required to be submitted directly to Temple University at http://www.temple.edu/apply/common/appcheck.asp. Late applications may be considered for admission.

Applicants should check their application status on the SOPHAS portal often and inquire directly of SOPHAS about receipt of materials. For other questions, please contact Theresa White, Senior Graduate Advisor, at theresawhite@temple.edu or 215-204-5105.

**Letters of Reference:**

**Number Required:** 3

**From Whom:** Letters of recommendation, which are completed electronically through the SOPHAS system, should be obtained from college/university faculty members familiar with academic competence. If the applicant has been out of school for a long time, please ensure that letters are from professional colleagues and that they address academic abilities, such as writing and research.

**Coursework Required for Admission Consideration:** Applicants’ files are reviewed for undergraduate coursework in mathematics and/or statistics, social science, and writing.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree is required.

**Statement of Goals:** In 500 to 1,000 words, address the following items:

- What are your interests in Public Health, and why are you planning to pursue an M.P.H. in Environmental Health?
- What are your future career goals, and what have you done either academically or professionally to guide your interest in Public Health?
- Are there any exceptional circumstances related to previous academic performance that you would like the Admissions Committee to consider?

**Standardized Test Scores:**

GRE: Required. While the program takes a portfolio approach to admissions, standardized tests provide important insight into quantitative and verbal abilities. Minimum scores are 500 (old test) on both the verbal and quantitative sections or, on the new test, 153 on the verbal section and 144 on the quantitative section.
Standardized tests considered in lieu of the GRE include DAT, GMAT, MCAT, OAT, and PCAT. The LSAT, which is also considered for some M.P.H. specialties, is not accepted when applying for Applied Biostatistics or Epidemiology.

TOEFL: 79 iBT or 550 PBT minimum.

Clearances: The M.P.H. programs require students to complete clinical/field education experiences at facilities both on and off Temple University’s campuses. These placements may require criminal background checks, Act 33/34 clearances, and perhaps a drug screen. Placements may also require the student to maintain personal health insurance. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his inability to meet graduation requirements.

Resume: Current resume or CV required.

Transfer Credit: Graduate credits from an M.P.H. program accredited by the Council on Education for Public Health (CEPH) may be transferred into the M.P.H. The credits must be equivalent to coursework offered at Temple, and the grade must be a “B” or better in order to transfer. The M.P.H. advisor approves the transfer of credits based on a review of course materials provided by the student. The maximum number of credits a student may transfer is 9.

Test Waivers: Graduates with a terminal degree from a U.S. medical school, foreign-trained physicians who have obtained licensure to practice in the United States, and those with Ph.D.’s may have the GRE requirement waived.

Internship: An internship is required as part of a student’s M.P.H. fieldwork.

Culminating Events:
Fieldwork Practicum:
M.P.H. fieldwork requires a student to synthesize and integrate the knowledge acquired in coursework and other learning experiences and to apply theory and principles in a situation that approximates some aspect of professional practice through an internship or practicum experience with a public health agency or under the supervision of a faculty preceptor. The M.P.H. fieldwork experience serves as the culminating event as required by the Council on Education for Public Health (CEPH), the accrediting body of all U.S. schools of public health, for completion of the Master of Public Health degree. In addition, this culminating experience provides the student with the opportunity to develop expertise in a topic area and to contribute original and independent observations to a body of knowledge.

For the culminating experience to fulfill the requirements of ENVH 9289 and ENVH 9389, M.P.H. in Environmental Health students are expected to complete a fieldwork experience, which enables them to:

- Describe environmental health hazards and their potential effects on human health; discuss methods for evaluating risks associated with such hazards; and discuss strategies for preventing or controlling hazards that pose risks to human health.
- Identify chemical, biological, and physical agents by media, their principal sources, and general approaches for their quantification.
- Specify pathways of exposure, including environmental transport and fate and routes of transfer from the source, through all environmental media, to humans.
- Explain the general mechanisms of toxicity and the roles that dose-response and time-response play in eliciting a toxic effect.
- Describe extrinsic (socioeconomic and behavioral) and intrinsic (genetic and physiologic) factors that affect environmental exposure-response relationships.
- Discuss issues of environmental justice, equity, and health disparities.
- Describe the local, regional, and global impact of environmental hazards (direct and indirect) on human and ecological health.
- Identify the major causes of injury and illness in the workplace and approaches to reducing occupational health risks.
- Describe the components of a risk assessment, including the types of evidence that are used and the sources of uncertainty and variability.
- Discuss risk management and risk communication approaches for preventing and/or reducing environmental health risks, including regulatory, engineering, and behavioral interventions.
- Develop a research question that pertains to an environmental hazard and its potential effects.

A final paper is the required deliverable for the M.P.H. fieldwork requirement. Students must also demonstrate their proficiency and the application of theory and principles in the paper and demonstrate mastery of the required competencies during the oral defense. The evaluation of the M.P.H. fieldwork practicum experience, therefore, is integrated into the culminating experience requirement.

Environmental Health, M.S.

COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)

About the Program
Not currently accepting applications.

Epidemiology, M.P.H.

COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)

About the Program
The Master of Public Health in Epidemiology is a professional degree program for those students who desire to receive fundamental and applied training in the public health sciences with a focus on epidemiological study design, disease surveillance methods, bioethics of population-based research, and core biostatistical methods. This practice-oriented program prepares students to successfully work in public health and applied epidemiology agencies, including conducting disease surveillance within government public health agencies; directing community demonstration and clinical trials research; and evaluating and running screening programs and other preventative health services in the broad areas of public health practice and health policy. The program is grounded in the core M.P.H. competencies and disciplines of public health with an emphasis in epidemiologic techniques. It covers the application of epidemiological research methods with an emphasis on developing research and methodological skills and critically evaluating current epidemiological studies.

The Department of Epidemiology and Biostatistics also offers a small research-intensive M.S. in Epidemiology, which is a research-oriented degree intended for students who desire to learn the advanced concepts and methods of epidemiology and apply those concepts to a unique population-based study through the completion of a master's-level thesis project.

Time Limit for Degree Completion: 4 years

Campus Location: Main. Some required and elective courses are offered at satellite campuses and through online courses, but the full M.P.H. program is currently available only at Main Campus.

Full-Time/Part-Time Status: Students can complete the degree program through evening classes and online courses. Full-time students usually complete the program within two academic years. Part-time students usually take three to four years to complete their degree.

Interdisciplinary Study: Interdisciplinary M.P.H. coursework, research, and interactions are encouraged to give students broad a perspective as possible to excel in the complex, diverse, and dynamic state of public health. Through associations with the Center for Obesity Research and Education, Center for Women's Health, and others, students have access to over 100 faculty at Temple University and additional regional scholars who are actively involved in programs, research, and teaching in public health. Seven dual M.P.H. degree programs are currently offered:

- D.M.D./M.P.H. with Temple University's Kornberg School of Dentistry
- D.O./M.P.H. with the Philadelphia College of Osteopathic Medicine
- D.P.M./M.P.H. with the Temple University School of Podiatric Medicine
- J.D./M.P.H. with Temple University's Beasley School of Law
- M.D./M.P.H. with the Lewis Katz School of Medicine at Temple University
- M.H.A./M.P.H. with Temple University's Fox School of Business and Management
- M.S.W./M.P.H. with the Temple University School of Social Work

Affiliation(s): Locally, the program has long-standing research affiliations with The Food Trust, Fox Chase Cancer Center, Health Federation of Philadelphia, Philadelphia Department of Public Health, Public Health Management Corporation (PHMC), School District of Philadelphia, Temple University Health System, and numerous other community health agencies.

Study Abroad: Short-term intensive study abroad courses are offered as part of the M.P.H. program of study. These courses are offered during the Summer and are open to both undergraduate and graduate students.

Accreditation: The M.P.H. is fully accredited by the Council on Education for Public Health (CEPH). Achieving accreditation in 1985, Temple’s M.P.H. program is one of the longest established accredited M.P.H. programs in community health in the country.

Areas of Specialization: The M.P.H. degree program is offered in five specialty fields of study:
• Applied Biostatistics (APBIO)
• Environmental Health (EH)
• Epidemiology (EPI)
• Health Policy and Management (HPM)
• Social and Behavioral Sciences (SBS)

In addition, a certificate in Global Health is available to all students in the M.P.H. program. Many students in the Epidemiology M.P.H. program complete this transcripted Global Health concentration by utilizing their three elective courses for Global Health classes.

Job Prospects: Graduates with an M.P.H. in Epidemiology have positions in a wide range of health-related settings, including state and local public health departments, community-based organizations, voluntary health agencies, health maintenance organizations, pharmaceutical companies, hospitals, clinics, schools, and public health-related work sites. Graduates are employed as HIV/AIDS coordinators, infection control coordinators, project directors, program evaluation specialists, research directors, prevention specialists, environmental health specialists, protocol directors, senior health educators, and consultants. Virtually all students are placed within three to six months of graduation.

Licensure: Students who complete an M.P.H. at Temple University are eligible to sit for the Certification in Public Health (CPH) exam and the Certified Health Education Specialist (CHES) exam. For information regarding credentialing in public health, see http://www.nche.org/.

Non-Matriculated Student Policy: Non-matriculated students are required to speak with an advisor before registering for classes and to obtain the permission of the professor. If accepted to the program, a maximum of three courses may be applied toward the degree program. Exceptions to this policy relate to formal certificate programs.

Financing Opportunities: The Graduate School awards fellowships on a competitive basis only to students with outstanding academic records who are admitted to Temple University for the Fall term. Applicants who wish to be considered for fellowships must apply no later than January 26 for consideration for the Fall term. The department’s Admissions Committee nominates outstanding students for these awards, but the Graduate Board’s Fellowship Committee makes all award decisions.

Limited Teaching and Research Assistantships are available in the College of Public Health. The Graduate School website details levels of support, benefits, and the terms and conditions of these types of graduate student support at http://www.temple.edu/grad/finances/. Assistantships are awarded on a term or annual basis. Students whose Fall applications are complete prior to or at the application deadline are reviewed for eligibility for Teaching Assistant (TA) positions. TAs are required to work 20 hours per week in any combination of teaching assignments made by the department and must meet the English Language Proficiency standards set by the University and the College. Students who hold Teaching or Research Assistantships are not permitted to hold other employment without the written prior approval of their advisor, the Director of Graduate Programs, and the Graduate School. To be considered for a Teaching or Research Assistantship, complete an application form that is sent to students upon admission to the M.P.H. program. The completed application must be returned to publichealth@temple.edu to be considered.

The College of Public Health has a limited number of scholarship opportunities available for M.P.H. students. Available scholarships are listed at https://cph.temple.edu/cph/giving/scholarshipsfunds. Students may also be eligible for financial support through the Office of Student Financial Services. See http://sfs.temple.edu/.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1

All applicants to the M.P.H. program must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://portal.sophas.org/. A supplemental application is also required to be submitted directly to Temple University at http://www.temple.edu/apply/common/appcheck.asp. Late applications may be considered for admission.

Applicants should check their application status on the SOPHAS portal often and inquire directly of SOPHAS about receipt of materials. For other questions, please contact Theresa White, Senior Graduate Advisor, at theresawhite@temple.edu or 215-204-5105.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation, which are completed electronically through the SOPHAS system, should be obtained from college/university faculty members familiar with academic competence. If the applicant has been out of school for a long time, please ensure that letters are from professional colleagues and that they address academic abilities, such as writing and research.

Coursework Required for Admission Consideration: Applicants’ files are reviewed for undergraduate coursework in mathematics and/or statistics, social science, and writing.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree is required.

Statement of Goals: In 500 to 1,000 words, address the following items:

• What are your interests in Public Health, and why are you planning to pursue an M.P.H. in Epidemiology?
• What are your future career goals, and what have you done either academically or professionally to guide your interest in Public Health?
• Are there any exceptional circumstances related to previous academic performance that you would like the Admissions Committee to consider?

Standardized Test Scores:

GRE: Required. While the program takes a portfolio approach to admissions, standardized tests provide important insight into quantitative and verbal abilities. Minimum scores are 500 (old test) on both the verbal and quantitative sections or, on the new test, 153 on the verbal section and 144 on the quantitative section.

Standardized tests considered in lieu of the GRE include DAT, GMAT, MCAT, OAT, and PCAT. The LSAT, which is also considered for some M.P.H. specialties, is not accepted when applying for Applied Biostatistics or Epidemiology.

TOEFL: 79 iBT or 550 PBT minimum.

Clearances: The M.P.H. programs require students to complete clinical/field education experiences at facilities both on and off Temple
University’s campuses. These placements may require criminal background checks, Act 33/34 clearances, and perhaps a drug screen. Placements may also require the student to maintain personal health insurance. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his inability to meet graduation requirements.

**Resume:** Current resume or CV required.

**Transfer Credit:** Graduate credits from an M.P.H. program accredited by the Council on Education for Public Health (CEPH) may be transferred into the M.P.H. The credits must be equivalent to coursework offered at Temple, and the grade must be a “B” or better in order to transfer. The M.P.H. advisor approves the transfer of credits based on a review of course materials provided by the student. The maximum number of credits a student may transfer is 9.

**Test Waivers:** Graduates with a terminal degree from a U.S. medical school, foreign-trained physicians who have obtained licensure to practice in the United States, and those with Ph.D.’s may have the GRE requirement waived.

**Total Credit Hours:** 45

1. May be selected as a general elective if not taken as an Epidemiology elective above.

**Internship:** An internship is required as part of a student's M.P.H. fieldwork.

**Culminating Events:  
Fieldwork Practicum:**

M.P.H. fieldwork requires a student to synthesize and integrate the knowledge acquired in coursework and other learning experiences and to apply theory and principles in a situation that approximates some aspect of professional practice through an internship or practicum experience with a public health agency or under the supervision of a faculty preceptor. The M.P.H. fieldwork experience serves as the culminating event as required by the Council on Education for Public Health (CEPH), the accrediting body of all U.S. schools of public health, for completion of the Master of Public Health degree. In addition, this culminating experience provides the student with the opportunity to develop expertise in a topic area and to contribute original and independent observations to a body of knowledge.

For the culminating experience to fulfill the requirements of EPBI 9289 and EPBI 9389, M.P.H. in Epidemiology students are expected to complete a fieldwork experience, which enables them to:

- Identify key sources of data for epidemiological purposes.
- Identify the principles and limitations of public health screening programs.
- Describe a public health problem in terms of magnitude, person, time, and place.
- Explain the importance of epidemiology for informing scientific, ethical, economic, and political discussion of health issues.
- Comprehend basic ethical and legal principles pertaining to the collection, maintenance, use, and dissemination of epidemiologic data.
- Apply the basic terminology and definitions of epidemiology.
- Calculate basic epidemiologic measures.
- Communicate epidemiologic information to lay and professional audiences.
- Draw appropriate inferences from epidemiologic data.
- Evaluate the strengths and limitations of epidemiologic reports.
- Apply basic statistical methods for summarizing public health data and for inference.
- Apply descriptive techniques commonly used to summarize public health data.
- Recognize concepts of probability, random variation, and commonly used statistical probability distributions.
- Distinguish the pros and cons of existing, national, publicly available data sets and surveys.
Epidemiology, M.S.

COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)

About the Program

The conduct of epidemiologic research involves the study of the distribution of disease and/or injury in human populations. The M.S. in Epidemiology degree is designed specifically for students interested in in-depth training and knowledge of the research techniques appropriate to conducting epidemiologic studies in a particular concentration of health research. Master's-level epidemiologists work in applied settings conducting disease surveillance and outbreak investigations or in research settings developing and evaluating research hypotheses generated to understand the effects of behavioral, biological, environmental, and social factors on human health. Since epidemiology is the principal science underlying disease prevention and control programs, this training is also a basic component for other degree and training programs in public health and preventative medicine.

Time Limit for Degree Completion: 3 years

Campus Location: Main, with courses also offered at the Center City and Health Sciences Center campuses

Full-Time/Part-Time Status: The program is designed to accommodate both full-time and part-time students. While the time limit for degree completion is set at 3 years, full-time students are expected to earn their degree within 2 years; part-time students are granted the additional year.

Interdisciplinary Study: Students are encouraged to develop programs of study that are interdisciplinary in nature, involving coursework across departments, schools, and colleges. Research in affiliated units is encouraged.

Affiliation(s): Research affiliations of the Graduate Faculty of the M.S in Epidemiology program include the Center for Obesity Research, the Department of Nursing, the Fox Chase Cancer Center, Temple University School of Medicine and Children's Medical Center, and Temple University School of Podiatric Medicine. Additional research opportunities at Temple include the Institute for Survey Research, the Social Science Data Library, and the Office of Institutional Research and Assessment.

Study Abroad: Temple University has campuses in Tokyo, London, and Rome where independent research can be pursued under advisement.

Accreditation: The program is accredited by the Council on Education for Public Health (CEPH).

Areas of Specialization: Areas of specialization can be dictated through the area of concentration pursued by the student in her/his thesis research.

Job Prospects: Graduates of the M.S in Epidemiology program are prepared to be faculty members or researchers in colleges and universities or to hold research-related positions in a wide range of organizations. Graduates are employed in health systems, hospitals and clinics, public health departments, and public health and other healthcare and human service agencies. Some graduates are employed by schools at the local, state, and federal levels. Graduates also work in pharmaceutical companies, non-profit and for-profit corporations, foundations, and consulting firms.

Non-Matriculated Student Policy: Students are permitted to take up to 9 credits of coursework before matriculation. If a student is accepted into the program, those courses may be applied toward the degree requirements. Course selection should be made in consultation with an advisor, and students should be aware that completion of coursework does not ensure admission into the program.

Financing Opportunities: Teaching Assistants (TAs) and Research Assistants (RAs) provide 20 hours of service per week. TAs may be assigned to assist in the teaching of courses, including grading examinations and papers or teaching laboratory sections. Some TAs independently teach undergraduate courses. RAs perform supervised research activities. Both assistantships carry a minimum stipend and full tuition remission for up to 9 credits per term. Applications for assistantships are available from the Department of Epidemiology and Biostatistics and must be submitted by January 15 for the following Fall term. The application requires a statement of previous teaching and/or research experience, areas of interest, and future goals; unofficial copies of transcripts; and a curriculum vitae. The department makes offers of assistantships following admission to the program. Applications should be addressed to:
Levent Dumenci, Ph.D.
Chair, Department of Epidemiology and Biostatistics
939 Ritter Hall Annex (004-09)
1301 Cecil B. Moore Avenue
Philadelphia, PA 19122-6005

Admission Requirements and Deadlines

Application Deadline:
Fall: March 1

All applicants to the M.S. in Epidemiology program must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://portal.sophas.org/. A supplemental application is also required to be submitted directly to Temple University at http://www.temple.edu/apply/common/appcheck.asp. Late applications may be considered for admission.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with the applicant’s academic competence and, if appropriate, research supervisors or mentors.

Coursework Required for Admission Consideration: Proficiency in statistical programming and a minimum of 6 credits of undergraduate quantitative and/or analytical methods (statistics, research design, etc.) are required.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree is required.

Statement of Goals: Approximately 500 to 1,000 words include your interest in the M.S. in Epidemiology program, your research area of interest, research goals and experience, current quantitative skills, future career goals, and academic and research achievements.

Standardized Test Scores:
GRE: Required. Minimum scores should be 500 (old test) on both the verbal and quantitative sections or, on the new test, 153 on the verbal section and 144 on the quantitative section.

TOEFL (international applicants only): 79 iBT or 550 PBT minimum.

Resume: Current resume or curriculum vitae required.

Interview: An interview may be required.

Test Waivers: Postdoctoral applicants who hold a terminal degree from an accredited institution may request a waiver of the GRE.

Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Baccalaureate: 36

Required Courses:

College Core Course
HRPR 5001  Current and Emerging Issues in Public Health and Health Professions  0

Core Courses
EPBI 5101  Fundamentals of Epidemiology  3

Electives
EPBI 5201  Epidemiological Research Methods I  3
EPBI 8001  Research Methods in Public Health  3
EPBI 8202  Epidemiological Research Methods II  3

Choose three from the following:
ENVH 8207  Environmental Epidemiology
EPBI 5204  Mental Health Epidemiology
EPBI 5500  Seminar in Current Issues in Public Health
EPBI 8011  Social Epidemiology
EPBI 8205  Chronic Disease Epidemiology
EPBI 8206  Infectious Disease Epidemiology
EPBI 8208  Data Management and Analysis ¹
EPBI 8209  Epidemiology of HIV/AIDS
GUS 5071  Medical Geography

Advanced Quantitative Methods Courses
Choose three from the following:
EPBI 5002  Biostatistics ²
EPBI 8012  Multivariate Biostatistics
EPBI 8201  Structural Equation Modeling
EPBI 8204  Multilev Mod in Int Res
EPBI 8208  Data Management and Analysis ¹
EPSY 8625  Intermediate Educational Statistics
EPSY 8826  Multivariate Research Methods
SOC 8211  Inferential and Multivariate Statistics
STAT 8103  Sampling Theory
STAT 8105  Univariate Time Series Analysis
STAT 8106  Linear Models I
STAT 8107  Design of Experiments I
STAT 8108  Applied Multivariate Analysis I
STAT 8116  Categorical Data Analysis
STAT 8117  Clinical Trials

Non-Didactic Courses
EPBI 9996  Masters Res in Pub Hlth (2 terms)  6

Total Credit Hours  36

¹ Course may be selected as an elective or as an advanced quantitative methods course, but not in both categories.
² EPBI 5002 Biostatistics is highly recommended.

Culminating Events:

Thesis:
The master’s thesis documents the student’s independent research and demonstrates mastery of her/his primary area of interest. Thesis research is conducted under the direct supervision of an academic advisor. The specific topic for research should be of current interest in the professional community. After a research topic is selected, the student performs preliminary background research. A thesis proposal is then submitted describing the plan for further steps toward completion of the proposed research. The student may continue the research only after the proposal is approved by the committee. Presentation of methods and study results is conducted upon completion of the thesis.

Epidemiology, Ph.D.

COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)

About the Program
The dynamic and quantitatively oriented doctoral program in Epidemiology provides advanced training in epidemiologic and biologic methods. The program develops strong academic researchers in the field of Epidemiology with a clear understanding of the patterns, causes, and effects of diseases in the population who are well-prepared to design, implement, analyze, and interpret research studies investigating key epidemiologic questions with the ultimate goal of improving overall population health. Working closely with faculty in the department, students gain expertise in collecting data, designing instruments and research protocols, directing and conducting sophisticated and multilevel statistical analyses, interpreting data, and communicating research findings to both lay and professional audiences. All students in the Epidemiology Ph.D. program complete common core public health course requirements, which include foundational courses in Biostatistics, Epidemiology, grantsmanship, and research design. Beyond these core courses, students master specialized courses in advanced epidemiologic and biostatistical methods and engage in research and scholarly productivity with faculty members in the department and throughout the College.

In addition to in-depth, didactic training in epidemiologic and quantitative concepts and methods, the Ph.D. in Epidemiology program aims to foster in students the development of a public health professional identity and values. Professional development exercises are infused in didactic courses and available in other program-sponsored activities (e.g., conference attendance, departmental colloquia and brown-bag presentations, journal clubs, and professional development workshops). Doctoral trainees in Epidemiology are encouraged to take advantage of these professional development opportunities offered at various public health centers and laboratories throughout the College of Public Health and Temple University. Ph.D. in Epidemiology students work closely with faculty mentors throughout the program and particularly during the dissertation phase on formalizing grant-writing skills, teaching in higher education, and writing papers for publications to prepare students as the next generation of academic researchers.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Full-time study is preferred.

Interdisciplinary Study: Students are encouraged to develop a program of research that is interdisciplinary in nature, involving coursework and research across departments, schools, and colleges that is quantitative and methodologic in focus. Research in affiliated units is encouraged.

Affiliation(s): A number of centers and laboratories exist within the Department of Epidemiology and Biostatistics, the College of Public Health, and Temple University that are designed to study, develop, and evaluate interventions aimed at resolving significant public health problems (e.g., ethnic and racial disparities in cancer, inadequate disaster preparedness, maternal and child health, obesity, tobacco exposure, and violence). These centers and labs offer opportunities for research placements for doctoral students to assist students in developing research and papers for publication and presentation at conferences; provide professional socialization; help students meet and work with faculty to define dissertation projects using existing funded research studies; and may provide some funding in the form of Research Assistantships.

Specific centers and labs include the Health Behavior Research Clinic, the Maternal and Child Health Wellness Laboratory, the Risk Communication Laboratory, and the Social and Behavioral Health Intervention Laboratory. Faculty and doctoral students also are involved in research with affiliates in the Department of Nursing, Fox Chase Cancer Center, the Fox School of Business and Management, the Institute on Aging, the Institute on Disabilities, the School of Media and Communication, the School of Medicine, and the School of Podiatric Medicine. Additional research opportunities at Temple University include the Institute for Survey Research, the Social Science Data Library, and the Office of Institutional Research and Assessment.

Job Prospects: Graduates of the Ph.D. in Epidemiology program are prepared to become empirical quantitative researchers in academic units, non-profit organizations, government agencies, or the private sector, including pharmaceutical companies or health systems. Graduates are well trained to identify the etiology of major public health issues; conduct and analyze survey, surveillance, longitudinal, case-control, and experimental data using comprehensive and complex statistical techniques; and develop their own methodologically rigorous research studies.

Non-Matriculated Student Policy: Non-matriculated students may take Ph.D. courses only with the permission of the instructor. Further, 8000-level courses are not open to non-matriculated students. Completion of coursework does not ensure admission into the program.
Financing Opportunities: Full-time Ph.D. students generally receive financial support through a combination of fellowships and assistantships. Research Assistants (RAs) perform supervised research activities. Teaching Assistants (TAs) may be assigned to assist in the teaching of courses, including grading examinations and papers or teaching laboratory sections. Some TAs independently teach undergraduate courses. TAs and RAs provide 20 hours of service per week. Both assistantships carry a stipend and typically tuition remission for up to 9 credits per term. Applications for assistantships are available from the Department of Public Health and must be submitted by January 10 for the following Fall term. The RA/TA application requires a statement of previous teaching and/or research experience, areas of interest, and future goals; unofficial copies of transcripts; and a curriculum vitae. The department makes offers of assistantships following admission to the program. Applications should be addressed to:

Levent Dumenci, Ph.D.
Chair, Department of Epidemiology and Biostatistics
939 Ritter Hall Annex (004-09)
1301 Cecil B. Moore Avenue
Philadelphia, PA 19122-6005
LDumenci@temple.edu

Admission Requirements and Deadlines

Application Deadline:
Fall: January 2

All applicants to the Ph.D. in Epidemiology program must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://portal.sophas.org/. A supplemental application is also required to be submitted directly to Temple University at http://www.temple.edu/apply/common/appcheck.asp.

All application materials must be received by the deadline in order to be reviewed by the Ph.D. Admissions Committee. Admission is competitive, and students are admitted only once a year. Applications are evaluated together after the deadline has passed. Applications that are completed after the deadline are held for review the following year. An important component of the admissions decision is the fit between the applicant’s goals, experiences, and interests and the expertise of the faculty in the Ph.D. program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from evaluators who can provide insight into the applicant’s academic abilities and talents, as well as comment on the applicant’s aptitude for doctoral-level study and research. Recommendations from college/university faculty members are preferred.

Coursework Required for Admission Consideration: Applicants are expected to have completed coursework in Statistics, Research Methods, Epidemiology, and Data Analysis. Courses in Natural, Social, or Behavioral Sciences related to health are desirable.

Master’s Degree in Discipline/Related Discipline: Nearly all students admitted to the Ph.D. in Epidemiology program have a master’s degree. Although a master’s degree specifically in epidemiology is not required, preference is given to applicants who have a background in epidemiology, statistics, and the health sciences, including behavioral medicine, environmental health, medicine, or a public health discipline.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree is required, although it need not be in public health. Preference is given to applicants who have a background in epidemiology, statistics, and the health sciences, including behavioral medicine, environmental health, medicine, or a public health discipline.

Statement of Goals: In no more than 750 words,

- describe important academic and research achievements and interests, and
- specify how your research interests relate to your ultimate career goals in the field of Epidemiology and to ongoing work by faculty members affiliated with the Ph.D. in Epidemiology program.

The match between faculty and student interests is important in the admissions decision. Be sure to articulate clearly the linkages among your training goals, the expertise of our faculty, and the training emphasis of the Ph.D. program. For a description of faculty interests, visit https://cph.temple.edu/epibio/about-us/faculty.

Standardized Test Scores:
GRE: Required. The median score of recently admitted applicants is 153 on the verbal section and 144 on the quantitative section.

TOEFL (international applicants only): 79 iBT or 550 PBT minimum.

Resume: Current resume required.

Writing Sample: Scholarly articles, technical reports, or academic professional papers are preferred in which the applicant is the first author. Unless it is a published work, the writing sample should be no more than 10 pages.

Advanced Standing: A student enrolled in the Ph.D. in Epidemiology program may apply for advanced standing credits for graduate coursework graded “B” or better from an accredited institution. Credits for courses taken as part of a master’s degree are considered; credits for thesis work, fieldwork, clinical practice, or directed projects/readings cannot be used for advanced standing credit. To be approved for advanced standing, the courses must be deemed appropriate as part of the student’s training in the Ph.D. program. For the maximum number of advanced standing credits awarded, consult the program’s Senior Graduate Advisor.

Paper can be written in one of a variety of formats, including a systematic and a capacity to contribute to generalizable knowledge in the field. The paper requirement is to demonstrate critical and interpretive knowledge published or publishable paper in their chosen area. The purpose of the Area Paper:

Prior to sitting for the preliminary examinations, students must write a paper requirement within the specified time frame can result in dismissal from the Ph.D. program. Students who are entering the Ph.D. program and have already published a peer-reviewed paper related to epidemiology can request to waive this requirement by completing a waiver application and submitting it along with the published document to the Director of Graduate Studies.

Preliminary Examinations (EPBI 9994):

In the term prior to taking the preliminary examinations, students should review their progress with their faculty advisor. To register for EPBI 9994, students must also meet with the Director of Graduate Studies, who can best explain the scope of and process involved in taking the preliminary examinations. The Director of Graduate Studies is charged with reviewing "Advising Form 1," which describes the student's program plan, and, in consultation with the Senior Graduate Advisor, reviewing Banner records to determine the student's eligibility. The Director of Graduate Studies then provides authorization to enroll eligible students for the preliminary examinations. When their eligibility has been confirmed, students must contact the Academic Coordinator and request to be registered for the exam course in the subsequent academic term with the Director of Graduate Studies or faculty advisor.

All students are required to take the preliminary examinations after completion of coursework but prior to registering for EPBI 9998 and defending the dissertation research proposal. Offered in the Fall or Spring term as needed, the preliminary examinations cover the core components of students’ training in epidemiology and biostatistics, as well as the specific area of concentration. The examinations consist of the following components:

- Two separate in-class examinations reflect knowledge of both advanced epidemiological methods and advanced biostatistical techniques.
- One take-home written research examination involves responding to a request for proposal (RFP) and generating an innovative, fully described study design. The RFP is within the student’s research expertise and preapproved by the faculty advisor.
- An oral examination on any and all areas covered in the three examinations and the student’s content concentration is taken before a panel of three faculty members.

The complete process takes approximately seven weeks from the time that the student takes the first examination till s/he completes the oral exam. A typical timeline for the exam process follows:

- Week 1: Six-hour in-class exam I
- Week 2: Six-hour in-class exam II

**Epidemiology/Biostatistics Electives**

Choose five from the following:

- ENVH 8016 Human Health Risk Analysis
- ENVH 8207 Environmental Epidemiology
- ENVH 8309 Exposure Assessment
- EPBI 5003/ GUS 5062 Spatial Analysis in Public Health
- EPBI 5204 Mental Health Epidemiology
- EPBI 5500 Seminar in Current Issues in Public Health
- EPBI 8201 Structural Equation Modeling
- EPBI 8203 Public Health Data Reporting
- EPBI 8204 Multiev Mod in Int Res
- EPBI 8205 Chronic Disease Epidemiology
- EPBI 8206 Infectious Disease Epidemiology
- EPBI 8209 Epidemiology of HIV/AIDS
- EPBI 9187 Biostat Cnslt Practicum
- GUS 5065 Urban Geographical Information Systems
- GUS 5066 Environmental Applications of GIS
- GUS 5067 GIS and Location Analysis
- GUS 5068 Census Analysis with Geographical Information Systems
- GUS 5069 GIS for Health Data Analysis
- SBS 8018 Obesity: From Genes to Junk Food
- STAT 8121 Statistical Computing
- STAT 8122 Advanced SAS Programming
- STAT 9103 Stat Lrng & Data Mining

**Non-Didactic Courses**

**Total Credit Hours**: 45

1. This common College Core course is required of all incoming graduate students in the College of Public Health. It is available completely online and designed such that students can complete the modules at their own pace over the course of their degree program.

2. Sample topics for EPBI 5500 include Data Analysis for Computer Packages and Molecular Epidemiology.

3. Students enrolled in EPBI 9998 must take 2 credits each term until the dissertation proposal is approved and filed with the Graduate School.

4. Students enrolled in EPBI 9999 must take a minimum of 3 credits after approval of the proposal and be enrolled for at least 1 credit each term until the dissertation is defended and filed with the Graduate School.

**Culminating Events:**

**Area Paper:**

Prior to sitting for the preliminary examinations, students must write a published or publishable paper in their chosen area. The purpose of the paper requirement is to demonstrate critical and interpretive knowledge in epidemiology, as well as a high proficiency in written communication and a capacity to contribute to generalizable knowledge in the field. The paper can be written in one of a variety of formats, including a systematic review, an empirical paper, or a theoretical piece relevant to the field. The student must be the lead or sole author.

The Director of Graduate Studies determines if the published paper meets the writing requirement. If a student is not submitting a first-authored, peer-reviewed, and published (or in press) article, two faculty reviewers review the paper to assess whether it is of publishable quality. The second reader may not be the student’s advisor. The review is similar to a peer review of a journal article and evaluated as either passing or failing the writing requirement. Students who fail the paper requirement are allowed to submit a revision. The evaluators set a reasonable timeline for doing so, usually within one term.

A student cannot advance to the preliminary examinations without passing the paper requirement. Failure to satisfactorily complete the area paper requirement within the specified time frame can result in dismissal from the Ph.D. program. Students who are entering the Ph.D. program and have already published a peer-reviewed paper related to epidemiology can request to waive this requirement by completing a waiver application and submitting it along with the published document to the Director of Graduate Studies.
should be rigorous, while upholding the ethics and standards of the field.

The doctoral dissertation is an original theory-based research study in a student's mastery of research design methods and advanced statistical techniques, particularly within the field of epidemiology. It should expand existing knowledge and demonstrate the ability to articulate orally the research question; methodological approach; primary findings; interpretation of the findings; and implications for theory, research, and practice. The DEC votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

To fulfill the dissertation requirement, students must prepare and orally defend the final dissertation in a public meeting. Students should present their plans for publishing their dissertation as part of their defense. Students must be enrolled continuously for at least 3 credits of dissertation research until their dissertation is successfully defended. The Graduate School requires a minimum of 6 credits for the dissertation experience. Students must be enrolled in the term that they graduate.

The Dissertation Examining Committee (DEC) consists of the DAC plus at least one additional external reviewer. The external reviewer must be doctorally prepared. If this person is not a member of the Temple University Graduate Faculty, s/he must be approved by the Director of Graduate Studies, the Dean of the College, and the Graduate School to take part in the final dissertation examination. The DEC evaluates the student's written dissertation and oral defense, including the student's ability to articulate orally the research question; methodological approach; primary findings; interpretation of the findings; and implications for theory, research, and practice. The DEC votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

If a student needs to change a member of a committee, the new member must be approved by the Director of Graduate Studies and registered with the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their DEC and work with the Department of Epidemiology and Biostatistics's administrative assistant to secure a room. This should be done at least one month in advance of the proposed date. The administrative assistant arranges the time, date, and room within two working days. After the time, date, and room are secured, the student must send to the Graduate School a completed "Announcement of Dissertation Defense" form, found at http://www.temple.edu/grad/forms/. This must be submitted at least 10 working days before the defense. The department posts flyers announcing the defense, and the Graduate School lists the defense on its website.

Admissions:
Theresa White
Senior Graduate Advisor

- Weeks 3-4: Take-home exam with one week to complete. The exact dates for receiving the take-home exam and returning it must be determined by the student and clearly communicated to the Director of Graduate Studies in writing via email. The Director of Graduate Studies is responsible for sending out the exam on the established date, and the student is responsible for returning it via email to the Director. The student must return the exam by the predetermined date.

- Weeks 4-6: Faculty grade all written exams

- Week 7: Oral exam

On occasion, a student chooses to complete a course after or concurrent with taking the preliminary examinations. The student's faculty advisor and the Director of Graduate Studies must approve such an exception in advance and in writing.

The Director of Graduate Studies coordinates the grading of the preliminary examinations and is responsible for coordinating the scheduling of the oral exam. A committee of departmental faculty members review and score the examinations and evaluate each student's performance in the oral exam.

Dissertation Proposal (EPBI 9998):
After passing the preliminary examinations, students may enroll in EPBI 9998. Students must be enrolled for 2 credits of EPBI 9998 each term until they file their dissertation proposal with the Graduate School.

All students must form a Doctoral Advisory Committee (DAC) with the approval of the Director of Graduate Studies. The DAC is composed of at least three Graduate Faculty members: two members, including the Chair, must be from the Ph.D. program faculty of the Department of Epidemiology and Biostatistics. The DAC Chair must be approved as Doctoral Graduate Faculty by the Dean of the College of Public Health and by the Graduate School. The chair is responsible for overseeing and guiding the student's progress; coordinating the responses of the committee members; and informing the student and the Director of Graduate Studies annually of the student's academic progress. A fourth, external reader is also required at the time of the final dissertation defense. This person must be a member of the Graduate Faculty at Temple or approved by the Dean of the College to take part in the final dissertation examination. This fourth member is not required to be present at the defense of the proposal.

To fulfill the requirements of EPBI 9998, students must submit a dissertation proposal, successfully defend it orally before their committee, apply for IRB approval for the proposed research, and submit the proposal to the Graduate School. Students have a maximum of one year from the time of completing their preliminary examinations to develop and defend their dissertation proposal. Thus, students may enroll in EPBI 9998 for only two terms without permission. Students needing more time may, with the support of their advisor, formally petition the Director of Graduate Studies for an extension, although an extension is not guaranteed. Failure to meet these requirements can result in dismissal from the program.

Dissertation (EPBI 9999):
The doctoral dissertation is an original theory-based research study that makes a significant contribution to the fields of public health and epidemiology. It should expand existing knowledge and demonstrate the student's mastery of research design methods and advanced statistical techniques, particularly within the field of epidemiology. The research should be rigorous, while upholding the ethics and standards of the field.

It is expected that the study will result in publication and presentation to professional audiences.

To fulfill the dissertation requirement, students must prepare and orally defend the final dissertation in a public meeting. Students should present their plans for publishing their dissertation as part of their defense. Students must be enrolled continuously for at least 3 credits of dissertation research until their dissertation is successfully defended. The Graduate School requires a minimum of 6 credits for the dissertation experience. Students must be enrolled in the term that they graduate.

The Dissertation Examining Committee (DEC) consists of the DAC plus at least one additional external reviewer. The external reviewer must be doctorally prepared. If this person is not a member of the Temple University Graduate Faculty, s/he must be approved by the Director of Graduate Studies, the Dean of the College, and the Graduate School to take part in the final dissertation examination. The DEC evaluates the student's written dissertation and oral defense, including the student's ability to articulate orally the research question; methodological approach; primary findings; interpretation of the findings; and implications for theory, research, and practice. The DEC votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

If a student needs to change a member of a committee, the new member must be approved by the Director of Graduate Studies and registered with the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their DEC and work with the Department of Epidemiology and Biostatistics's administrative assistant to secure a room. This should be done at least one month in advance of the proposed date. The administrative assistant arranges the time, date, and room within two working days. After the time, date, and room are secured, the student must send to the Graduate School a completed "Announcement of Dissertation Defense" form, found at http://www.temple.edu/grad/forms/. This must be submitted at least 10 working days before the defense. The department posts flyers announcing the defense, and the Graduate School lists the defense on its website.
Health Informatics, M.S.

COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)

About the Program

Health Informatics is the intersection of healthcare, information science, and computer science. The M.S. in Health Informatics (MSHI) is an innovative, interdisciplinary, applied graduate degree program that addresses the intersection of healthcare and information technology to develop efficient systems, processes, and uses of health data across the continuum of healthcare delivery to improve patient care and advance individual and population health outcomes. The MSHI is focused on the resources, devices, and methods to optimize healthcare delivery. The program helps students develop the competencies and acquire the practical tools to succeed in today’s digital healthcare environment. Current students include physicians, nurses, therapists, data analysts, and information technology and allied health professionals. The degree is also well suited for individuals with no prior healthcare or information technology experience.

Time Limit for Degree Completion: 5 years

Campus Location: Temple University Center City (TUCC) is centrally located to regional rail. A large number of online course offerings extend the campus environment.

Full-Time/Part-Time Status: Part-time study is common among students as classes are offered on weekday evenings and the occasional weekend. A growing number of courses are available online.

Interdisciplinary Study: The degree program is interdisciplinary in nature with a focus on inquiry, insight, and innovation. The program builds an awareness of both clinical and technical challenges in the field.

Accreditation: The curriculum meets the curricular requirements of the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM), which is the accrediting body of the American Health Information Management Association (AHIMA).

Areas of Concentration: The MSHI offers three areas of concentration:

• Cybersecurity for Healthcare Professionals
• Healthcare Data Analytics
• Population Health Management

Job Prospects: Graduates of the program obtain positions in a variety of healthcare institutions or vendor settings in a wide range of positions such as project manager, electronic health record system implementation specialist, and health data analyst. A number of external organizations, including AHIMA, the American Medical Informatics Association (AMIA), and the Healthcare Information and Management Systems Society (HIMSS), conduct annual surveys of job prospects.

Non-Matriculated Student Policy: Students seeking a GRE waiver should consider taking classes on a non-matriculated basis. Non-matriculated students may take a maximum of 9 graduate-level credits. Upon completion of the credits, a student’s academic performance is reviewed and a GRE waiver may be granted.

Transfer Credit: Graduate-level credits earned at another accredited institution may be evaluated during the application process. The maximum number of graduate credits a student may transfer is 6.

Financing Opportunities: Students in the MSHI program are generally working professionals. Therefore, funding for assistantships and academic internships is limited.

Admission Requirements and Deadlines

Application Deadline:
Fall: March 1
Spring: November 1

Application review is done on a rolling basis throughout the year. Late applications may be considered for admission.

APPLY ONLINE to this graduate program (http://www.temple.edu/apply/common/appcheck.asp).

Letters of Reference:
Number Required: 2

From Whom: Recommendations should be obtained from faculty and/or professionals familiar with the applicant's academic competence and/or professional work experience. Evaluators must use the official “Reference Report for Graduate Study,” found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf. References should be emailed to hlthinfo@temple.edu.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree or its equivalent, as recognized by Temple University, from an accredited post-secondary institution is required.

International students must provide official documentation that validates completion and conferral of a degree, diploma, and/or certificate. While not required, applicants are encouraged to submit their transcript(s) to World Education Services (WES) for evaluation. More information on international student admission requirements is available at http://www.temple.edu/grad/admissions/international.htm.

Statement of Goals: Demonstrate your professional writing ability as you address your interest in obtaining the degree. Submissions should address the impact of informatics in the field of health and healthcare as well as discuss the impact a graduate degree has on one's career.

Standardized Test Scores:
GRE: Required. Quantitative and verbal scores should be in the 50th percentile or above. A student may seek a GRE waiver by demonstrating academic proficiency by completing three courses in the program on a non-matriculated basis.

For applicants whose native language is not English, the TOEFL, IELTS, or PTE Academic exam is required:
TOEFL: 79 iBT or 550 PBT minimum
IELTS: 6.5 minimum
Temple University Graduate Bulletin 2017-2018

PTE Academic: 53 minimum

Resume: Current resume required.

Health Policy, Ph.D.

COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)

About the Program

The Ph.D. program in Health Policy is administered by the Department of Health Services Administration and Policy. This program is unique in that it provides students with an opportunity to develop mixed methods research to investigate health policy and its impact on population health improvement, access to care, and reduction in health disparities. The program trains students in the use of qualitative and quantitative research methods using primary data collection and secondary data sets to research the development, implementation, and impact of health policy initiatives. The Ph.D. program in Health Policy also fosters the application of the methods and materials of health services and health economics research in investigating health disparities and clinical outcomes as the basis to inform health policy.

The Ph.D. in Health Policy is one of two doctoral programs offered in Public Health. The other is the Ph.D. in Social and Behavioral Health Sciences. In general, the Ph.D. programs:

• provide training and experiences that support interdisciplinary learning,
• promote critical and theory-based problem-solving skills to address public health problems, and
• foster the development of public health professional values and ethics.

All students in the Ph.D. programs complete common core course requirements that include foundational courses in Bioethics, Biostatistics, Epidemiology, History of Public Health, and Theory of Health Behavior, and are introduced to critical public health research methods and statistical techniques. Beyond these core courses, students take specialized courses in their chosen subdiscipline and engage in research and scholarly productivity with faculty members. In addition to in-depth, didactic training in cross-disciplinary concepts and methods, the Ph.D. programs aim to foster in their trainees the development of a public health professional identity and values. Professional development exercises are infused in didactic courses and available in other program-sponsored activities, such as conference attendance, departmental colloquia and brown-bag presentations, journal clubs, and professional development workshops. Doctoral trainees are also encouraged to take advantage of professional development opportunities offered at various public health centers and laboratories, the College of Public Health, and Temple University, including special workshops and seminars on grant writing, methods, and teaching. Finally, students learn by working closely with faculty on research and writing papers for publications.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Full-time study is required.

Interdisciplinary Study: Students are encouraged to develop programs of study that are interdisciplinary in nature, involving coursework across departments, schools, and colleges. Research in affiliated units is encouraged.

Affiliation(s): A number of centers and laboratories exist within the College of Public Health and Temple University that are designed to study, develop, and evaluate interventions aimed at resolving significant public health problems (e.g., ethnic and racial disparities in cancer, inadequate disaster preparedness, obesity, tobacco exposure, and violence). These centers and labs offer opportunities for research placements for doctoral students; assist them in developing papers for publication and presentation at conferences; provide professional socialization; help them to define dissertation projects using existing funded studies; and may provide some funding in the form of Research Assistantships.

Specific centers and labs include the Center for Asian Tobacco Control, the Ergonomics and Work Physiology Laboratory, the Health Behavior Research Clinic, the Risk Communication Laboratory, and the Social and Behavioral Health Intervention Laboratory. Faculty and doctoral students also are involved in research with affiliates in the Department of Nursing, Fox Chase Cancer Center, the Fox School of Business and Management, the Institute on Aging, the Institute on Disabilities, the Public Health Law Research Program, the School of Media and Communication, the Lewis Katz School of Medicine, the School of Podiatric Medicine, and Temple University Health System. Additional research opportunities at Temple University include the Institute for Survey Research, the Social Science Data Library, and the Office of Institutional Research and Assessment.

Job Prospects: Graduates of the Ph.D. programs are prepared to become faculty members or researchers in colleges and universities or to hold research-related positions in a wide range of organizations, including health foundations, health systems, pharmaceutical companies, and public health departments. The purpose of the program is to develop research and teaching competencies, so it is anticipated that most graduates will enter tenure-track faculty positions in research-focused schools of public health or health-related academic programs.

Financing Opportunities: Full-time Ph.D. students generally receive financial support through a combination of university fellowships and assistantships.

University Fellowships:
The Department of Health Services Administration and Policy nominates outstanding applicants for consideration for the following fellowship opportunities:

- Presidential Fellowships are the most prestigious awards. Competition is reserved for only the most outstanding candidates.
- University Fellowships are awarded to outstanding incoming graduate students. These awards are intended to support students who demonstrate outstanding potential for success in their chosen fields.
- Future Faculty Fellowships are intended to attract outstanding students who would diversify the professoriate. Candidates are newly admitted graduate students from underrepresented groups in the applicant's discipline who show exceptional leadership and/or have overcome significant obstacles in pursuing an academic career.

University fellowships provide a stipend and tuition for two years of study. The College of Public Health then provides a graduate assistantship to cover the additional 2 years of study.

College of Public Health Graduate Assistantships:
Graduate assistantships sponsored by the College of Public Health include:

- Research Assistants (RAs) perform supervised research activities. Research assistantships are frequently supported by faculty grant funding, and it is anticipated the RAs will work with faculty members on new and continuing grant proposals and develop both research and grant-writing competencies.
- Teaching Assistants (TAs) may be assigned to assist in the teaching of courses, including grading examinations and papers or teaching laboratory sections. Some TAs independently teach undergraduate courses. The purpose, however, is to develop competencies in current pedagogies that prepare students for academic teaching careers.

TAs and RAs provide 20 hours of service per week. Both assistantships carry a stipend and typically tuition remission for up to 9 credits per term. Consideration for admission with an assistantship requires a description of research and teaching experience; statement of research and teaching goals; identification of areas of interest, including identification of potential faculty mentors and articulation of career goals consistent with the mission and purpose of the Health Policy Ph.D. program. Offers of admission will generally be accompanied by a fellowship or assistantship offer. Students with full funding from another source (e.g., government funding) will be given full consideration in the admission process. Self-funding is highly discouraged.

Information regarding funding opportunities at Temple can be found at http://www.temple.edu/grad/finances/index.htm.
Admission Requirements and Deadlines

Application Deadline:

Fall: January 2

All applicants to the Health Policy Ph.D. program must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://portal.sophas.org/. A supplemental application is also required to be submitted directly to Temple University at http://www.temple.edu/apply/common/appcheck.asp.

All application materials must be received by the deadline in order to be reviewed by the Ph.D. Admissions Committee. Admission is competitive, and students are admitted only once a year. Applications are evaluated together after the deadline has passed. Applications that are completed after the deadline are held for review the following year. An important component of the admissions decision is the fit between the applicant’s goals, experiences, and interests and the expertise of the faculty in the Ph.D. program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from evaluators who can provide insight into the applicant’s academic abilities and talents, as well as comment on the applicant’s aptitude for doctoral-level study and research. Recommendations from college/university faculty members are preferred.

Coursework Required for Admission Consideration: Applicants are expected to have completed coursework in the natural, social, or behavioral sciences related to health. A course in statistics and research methods is also desirable. The following prerequisites, which do not count toward the Ph.D., must also be satisfied, either through the College of Public Health’s graduate certificate in Public Health, by an M.P.H. degree, or through course equivalency:

- ENVH 5103 Environmental Health 3
- EPBI 5002 Biostatistics 3
- EPBI 5101 Fundamentals of Epidemiology 3
- HPM 5006 Political and Economic Aspects of Health 3
- or HPM 8003 Political-Economic Aspects of Public Health 3
- SBS 5102 Theoretical Foundations of Health Behavior 3

Master’s Degree in Discipline/Related Discipline: Nearly all students admitted to the program have a master’s degree. Although a master’s degree specifically in Public Health is not required, preference is given to applicants who have a background in the health sciences, including behavioral medicine, environmental health, epidemiology, health communication, health psychology, medicine, or a public health discipline.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree is required, although it need not be in Public Health. Preference is given to applicants who have a background in the health sciences, including behavioral medicine, environmental health, epidemiology, health communication, health psychology, medicine, or a public health discipline.

Statement of Goals: In no more than 750 words:

- describe important academic and research achievements and interests; and
- specify how your research interests relate to your ultimate career goals and to ongoing work by faculty members affiliated with the HP Ph.D. program.

The match between faculty and student interests is important in the admissions decision. Be sure to articulate clearly the linkages among your training goals, the expertise of our faculty, and the training emphasis of the Ph.D. program. For a description of faculty interests, visit https://cph.temple.edu/healthadminpolicy/about/faculty.

Standardized Test Scores:
GRE: Required. The median score of recently admitted applicants is 550 (old test) or 156 (new test) verbal and 620 (old test) or 149 (new test) quantitative.

TOEFL (international applicants only): 79 iBT or 550 PBT minimum.

Resume: Current curriculum vitae required.

Writing Sample: Scholarly articles, technical reports, or academic professional papers are desirable. Unless it is a published work, the writing sample should be no more than 10 pages.

Advanced Standing: A student enrolled in the Health Policy Ph.D. program may apply for advanced standing credits for graduate coursework graded “B” or better from an accredited institution. Credits for courses taken as part of a master's degree are considered; credits for thesis, fieldwork, clinical practice, or directed projects/readings cannot be used for advanced standing credit. To be approved for advanced standing, the courses must be deemed appropriate as part of the student’s training in the Health Policy Ph.D. program. The maximum number of advanced standing credits awarded is 30.

Program Requirements

General Program Requirements:
Total Number of Credits Required: 45 (some of which may be in the form of Advanced Standing credit, as determined after matriculation)

</table>
The preliminary examinations consist of the following components:

- Core exam, which is a one-week take-home written examination on the history, bioethics, and scientific foundations of Public Health, with an emphasis on the student’s concentration.
- Methods exam, which is a four-hour in-class examination on research methods and statistics.
- Oral exam, which is a two-hour oral examination by a panel of three faculty members on any areas covered in the three written examinations, the area paper, and the students’ concentration.

Students who fail the written examination do not proceed to the oral examination. They may have one opportunity to take the examination again. A second failure results in automatic dismissal from the Ph.D. program.

**Dissertation Proposal (HPM 9998):**

After passing the preliminary examinations, students may enroll in HPM 9998. Students must enroll for 1 credit of HPM 9998 each term until they file their dissertation proposal with the Graduate School.

All students must form a Doctoral Advisory Committee (DAC) with the approval of the Director of Graduate Studies. The DAC is composed of at least three Graduate Faculty members: two members, including the chair, must be from the Ph.D. program faculty of the relevant department. The DAC Chair must be approved as Doctoral Graduate Faculty by the Dean of the College of Public Health and by the Graduate School. The chair is responsible for overseeing and guiding the student's progress; coordinating the responses of the Committee members; and informing the student and the Director of Graduate Studies annually of the student's academic progress. A fourth, external reader is also required at the time of the final dissertation defense. This person must be a member of the Graduate Faculty at Temple or approved by the Dean of the College to take part in the final dissertation examination. This fourth member is not required to be present at the defense of the proposal.

To fulfill the requirements of HPM 9998, students must submit a dissertation proposal, successfully defend it orally before their Committee, apply for IRB approval for the proposed research, and submit the proposal to the Graduate School. Students have a maximum of one year from the time of completing their preliminary examinations to develop and defend their dissertation proposal. Thus, students may enroll in HPM 9998 for only two terms without permission. Students needing more time may, with the support of their advisor, formally petition the Director of Graduate Studies for an extension, although an extension is not guaranteed. Failure to meet these requirements can result in dismissal from the program.

Once the proposal is defended, the student is elevated to candidacy and eligible to register for dissertation credits.

**Dissertation (HPM 9999):**

The doctoral dissertation is an original theory-based research study that makes a significant contribution to the field of Public Health. It should
expand existing knowledge and demonstrate the student’s mastery of theory and research methods, particularly within a concentration or specialty area. The research should be rigorous, while upholding the ethics and standards of the field. It is expected that the study will result in publication and presentation to professional audiences.

To fulfill the dissertation requirement, students must prepare and orally defend the final dissertation in a public meeting. Students should present their plans for publishing their dissertation as part of their defense. Students must be enrolled continuously for at least 3 credits of dissertation research until their dissertation is successfully defended. The Graduate School requires a minimum of 2 credits of HPM 9999. Students must be enrolled in the term that they graduate.

The Dissertation Examining Committee (DEC) consists of the DAC plus at least one additional external reviewer. The external reviewer must be doctorally prepared. If this person is not a member of the Temple University Graduate Faculty, s/he must be approved by the Director of Graduate Studies, the Dean of the College, and the Graduate School to take part in the final dissertation examination. The DEC evaluates the student’s written dissertation and oral defense, including the student’s ability to articulate orally the research question; methodological approach; primary findings; interpretation of the findings; and implications for theory, research, and practice. The DEC votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

If a student needs to change a member of a committee, the new member must be approved by the Director of Graduate Studies and registered with the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their DEC and work with their department’s administrative assistant to secure a room. This should be done at least one month in advance of the proposed date. The Administrative Assistant arranges the time, date, and room within two working days. After the time, date, and room are secured, the student must send to the Graduate School a completed “Announcement of Dissertation Defense” form, found at http://www.temple.edu/grad/forms/. This must be submitted at least 10 working days before the defense. The department posts flyers announcing the defense, and the Graduate School lists the defense on its website.

Health Policy and Management,
M.P.H.

COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)

About the Program

The Master of Public Health in Health Policy and Management (MPH-HPM) is a terminal, professional degree designed to develop professionals in the field of public health and health services delivery who have a clear understanding of the health policy and management of health-related programs, as well as the Triple Aim of managing health of population, improving the patient experience, and reducing systems cost. The MPH-HPM offers optional concentrations in Health Leadership and in Health Policy.

Time Limit for Degree Completion: 4 years

Campus Location: Main. Some required and elective courses are offered at satellite campuses and through online courses, but the full MPH-HPM program is currently available only at Main Campus.

Full-Time/Part-Time Status: Students can complete the degree program through evening classes and online courses. Full-time students usually complete the program within two academic years. Part-time students usually take three to four years to complete their degree.

Interdisciplinary Study: Interdisciplinary MPH-HPM coursework, research, and interactions are encouraged to give students as broad a perspective as possible to excel in the complex, diverse, and dynamic state of public health. Through associations with the Center for Obesity Research and Education and others, students have access to dozens of faculty at Temple University and additional regional scholars who are actively involved in programs, research, and teaching in public health.

Eight dual degree programs with the MPH-HPM are currently offered:

- D.M.D./M.P.H. with Temple University's Kornberg School of Dentistry
- D.O./M.P.H. with the Philadelphia College of Osteopathic Medicine
- D.P.M./M.P.H. with the Temple University School of Podiatric Medicine
- J.D./M.P.H. with Temple University's Beasley School of Law
- M.D./M.P.H. with the Lewis Katz School of Medicine at Temple University
- M.H.A./M.P.H. with Temple University's Fox School of Business and Management

• D.M.D./M.P.H. with Temple University's Kornberg School of Dentistry
• D.O./M.P.H. with the Philadelphia College of Osteopathic Medicine
• D.P.M./M.P.H. with the Temple University School of Podiatric Medicine
• J.D./M.P.H. with Temple University's Beasley School of Law
• M.D./M.P.H. with the Lewis Katz School of Medicine at Temple University
• M.H.A./M.P.H. with Temple University's Fox School of Business and Management
• M.S.W./M.P.H. with the Temple University School of Social Work
• M.S. Health Informatics/M.P.H. within the Temple University College of Public Health’s Department of Health Services Administration and Policy

Affiliation(s): Locally, the program has long-standing research affiliations with The Food Trust, Fox Chase Cancer Center, Health Federation of Philadelphia, Philadelphia Department of Public Health, Public Health Management Corporation (PHMC), School District of Philadelphia, Temple University Health System, and numerous other community health agencies.

Study Abroad: Short-term intensive study abroad courses are offered as part of the M.P.H. program of study. These courses are offered during the Summer and are open to both undergraduate and graduate students.

Accreditation: The M.P.H. is fully accredited by the Council on Education for Public Health (CEPH). Achieving accreditation in 1985, Temple’s M.P.H. program is one of the longest established accredited programs in community health in the country.

Areas of Concentration: The MPH-HPM concentrations reflect market needs and expectations in the related areas of health leadership and health policy. Fieldwork in health leadership or in health policy is required as the integrative experience for the program.

Health Leadership: Students who select the concentration in Health Leadership complete four required courses that best fulfill the following competencies with the goal of achieving the Triple Aim:

• Identify and analyze the effects of leadership management styles on organizational performance to ensure a positive patient experience and improve population health.
• Describe financial management and budgeting processes designed to improve financial performance.
• Understand the contribution of information technologies to effective organizational management and improvement of population health.

Health Policy: Students in the Health Policy concentration select courses from a course menu. Only one course constitutes a required course in the concentration: HPM 8014 Comparative Health Policy. Students develop competencies specific to this concentration as follows:

• Health Policy Analysis and Development
• Identification of Population Health Needs and Policy Responses

In addition, a certificate in Global Health is available to all students in the M.P.H. program. Students are able to complete this transcripted concentration by utilizing three elective courses in the general MPH-HPM program for Global Health classes.

Job Prospects: Graduates with an MPH-HPM hold positions in a wide range of health-related settings, including state and local public health departments, federally qualified health centers, hospitals and health systems, community-based organizations, voluntary health agencies, health insurers, clinics, schools, and work sites. Graduates are prepared to assume leadership positions in a variety of health services and public health organizations. Alumni are employed as environmental health specialists, evaluation specialists, healthcare administrators, HIV/AIDS coordinators, infection control coordinators, marketing specialists, prevention specialists, project directors, research directors, senior health educators, and consultants. Virtually all full-time students are placed within three to six months of graduation.

Licensure: Students who complete an M.P.H. at Temple University are eligible to sit for the Certification in Public Health (CPH) exam and the Certified Health Education Specialist (CHES) exam. For information regarding credentialing in public health, see http://www.nchec.org. Graduates also become eligible for certification and advancement in a number of health professional associations such as the American College of Healthcare Executives.

Non-Matriculated Student Policy: Non-matriculated students are required to speak with an advisor before registering for classes and to obtain the permission of the professor. If accepted to the program, a maximum of three courses may be applied toward the degree program. Exceptions to this policy relate to formal certificate programs.

Financing Opportunities: The College of Public Health and the Department of Health Services Administration and Policy offer a limited number of tuition scholarships to highly qualified applicants.

Limited Teaching Assistantships are available in the College of Public Health. The Graduate School website details levels of support, benefits, and the terms and conditions of these types of graduate student support at http://www.temple.edu/grad/finances/. Assistantships are awarded on a term or annual basis.

Students may also be eligible for financial support through the Office of Student Financial Services. See http://sfs.temple.edu/.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1

All applicants to the M.P.H. program must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://portal.sophas.org/. A supplemental application is also required to be submitted directly to Temple University at http://www.temple.edu/apply/common/appcheck.asp. Late applications may be considered for admission.

Applicants should check their application status on the SOPHAS portal often and inquire directly of SOPHAS about receipt of materials. For other questions, please contact Theresa White, Senior Graduate Advisor, at theresawhite@temple.edu or 215-204-5105.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation, which are completed electronically through the SOPHAS system, should be obtained from college/university faculty members familiar with academic competence. If the applicant has been out of school for a long time, please ensure that letters are from professional colleagues and that they address academic abilities, such as writing and research.

Coursework Required for Admission Consideration: Applicants’ files are reviewed for undergraduate coursework in Mathematics and/or Statistics, Social Science, and writing.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree is required.

Statement of Goals: In 500 to 1,000 words, address the following questions:
• What are your interests in Health Policy and Management, and why are you planning to pursue an M.P.H.?
• What are your future career goals, and what have you done either academically or professionally to guide your interest in Health Policy and Management?
• What is your leadership philosophy? How effective are you at working on interdisciplinary teams?
• Are there any exceptional circumstances related to previous academic performance that you would like the Admissions Committee to consider?

**Standardized Test Scores:**
GRE: Required. While the program takes a portfolio approach to admissions, standardized tests provide important insight into quantitative and verbal abilities. Minimum scores are 500 (old test) on both the verbal and quantitative sections or, on the new test, 153 on the verbal section and 144 on the quantitative section.

TOEFL: 79 iBT or 550 PBT minimum

**Clearances:** The M.P.H. programs require students to complete clinical/field education experiences at facilities both on and off Temple University's campuses. These placements may require criminal background checks, Act 33/34 clearances, and perhaps a drug screen. Placements may also require the student to maintain personal health insurance. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his inability to meet graduation requirements.

**Resume:** Current resume or CV required.

**Transfer Credit:** Graduate credits from an M.P.H. program accredited by the Council on Education for Public Health (CEPH) may be transferred into the M.P.H. The credits must be equivalent to coursework offered at Temple, and the grade must be a “B” or better in order to transfer. The M.P.H. advisor approves the transfer of credits based on a review of course materials provided by the student. The maximum number of credits a student may transfer is 9.

**Test Waivers:** Graduates with a terminal degree from a U.S. medical school, foreign-trained physicians who have obtained licensure to practice in the United States, and those with a Ph.D. or with an excellent undergraduate record and 7 to 10 years or more of public health or healthcare professional experience may have the GRE requirement waived.

Total Credit Hours 45

1 This common College Core course is required of all incoming graduate students in the College of Public Health. It is available completely online and designed such that students can complete the modules at their own pace over the course of their degree program.

2 Students may elect to complete one of two optional concentrations or, alternately, to complete neither concentration in its totality. In the latter case, the student selects four courses from the course menus for both concentrations. The approved electives are delineated in the grids below:

**Health Leadership Concentration**

Total Credit Hours 12

1 An alternate elective may be selected with the approval of the Program Director.
Internship: An internship is required as part of a student's M.P.H. fieldwork. Part-time fieldwork experiences are available for full-time employees.

Culminating Events:

Fieldwork Practicum:
M.P.H. fieldwork requires a student to synthesize and integrate the knowledge acquired in coursework and other learning experiences and to apply theory and principles in a situation that approximates some aspect of professional practice through an internship or practicum experience with a public health agency, health services organization, or under the supervision of a faculty preceptor. The M.P.H. fieldwork experience serves as the culminating event as required by the Council on Education for Public Health (CEPH), the accrediting body of all U.S. schools of public health, for completion of the Master of Public Health degree. In addition, this culminating experience provides the student with the opportunity to develop expertise in a topic area and to contribute original and independent observations to a body of knowledge.

For the culminating experience to fulfill the requirements of HPM 9289 and HPM 9389, M.P.H. in Health Policy and Management students are expected to complete a fieldwork experience, which enables them to:

- Apply knowledge and methods in planning, leading, organizing, administering, and evaluating systems, programs, and policies to address health problems that impact populations in the context of the multilevel structures (global, national, state, local, community, agency, organization, group, team, dyad).
- Create and communicate a shared vision for a changing future.
- Champion solutions to organizational and community challenges.
- Energize commitment to goals.
- Demonstrate ethical choices, values, and professional practices implicit in public health decisions.
- Consider the effect of choices on community stewardship, equity, social justice, and accountability.
- Commit to personal and institutional development.
- Recognize system-level properties that result from dynamic interactions among human and social systems and how they affect the relationships among individuals, groups, organizations, communities, and environments.
- Monitor and evaluate the performance of organizations and/or policies that address health problems/issues.
- Use the understanding of the policymaking and policy implementation processes to achieve improvements in the health status of populations.
- Describe the attributes of leadership in public health.

A final paper is the required deliverable for the M.P.H. fieldwork requirement. Students must also demonstrate their proficiency and the application of theory and principles in the paper and demonstrate mastery of the required competencies during the oral defense. The evaluation of the M.P.H. fieldwork practicum experience, therefore, is integrated into the culminating experience requirement.

Kinesiology/Athletic Training, M.S.

COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)

About the Program

The mission of the post-professional graduate Athletic Training program offered by the Temple University Department of Kinesiology is to expand the applied and experiential knowledge and skills of certified athletic trainers, expand the athletic training body of knowledge, and disseminate new knowledge in the discipline. This program does not allow students to take the Board of Certification exam. Applicants interested in becoming a certified athletic trainer should consider the Master of Science in Athletic Training (M.S.A.T.) degree program.

Time Limit for Degree Completion: 4 years

Campus Location: Main, with at least one course (KINS 8349 Cadaver Anatomy) offered at the Health Sciences Center or School of Podiatric Medicine campuses

Full-Time/Part-Time Status: Students are expected to complete their two years of coursework on a full-time basis.

Interdisciplinary Study: Interdisciplinary study is available within the department and through other departments in the University.

Ranking: While rankings of individual programs and the department are not conducted in the profession, the programs at Temple University have excellent reputations. Historically, the Department of Kinesiology's Athletic Training program is one of only four in the country with
Accreditation: The post-professional graduate Athletic Training program at Temple University is accredited by the Commission on Accreditation of Athletic Training Education (CAATE).

Areas of Specialization: The Athletic Training concentration in Kinesiology promotes three areas of distinctiveness: athletic training leadership, brain injury, and evidence-based medicine (EBM) research. These areas are based on program faculty expertise and available facilities.

Job Prospects: Job and advanced degree opportunities are posted on the program’s Blackboard page and forwarded to students when received by program faculty. All recent graduates of the M.S. program are working in various clinical settings or seeking advanced degrees.

Licensure: All students working as certified athletic trainers in the Commonwealth of Pennsylvania need to be licensed by the state. For more information about licensure, see http://www.mylicense.state.pa.us.

Non-Matriculated Student Policy: Non-matriculated students are welcome to take classes in the department, assuming they have the requisite knowledge to be successful in the coursework.

Financing Opportunities: Assistantship duties include, but are not limited to, working clinically in a high school or college setting; teaching activity courses in a variety of movement forms and sports; teaching laboratory sections of undergraduate courses such as Biomechanics or Human Anatomy and Physiology; and serving as a research assistant in a research laboratory.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1

Late applications may be considered for admission if complete.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2

From Whom: Applicants must submit the names of two professional references, along with an email address and telephone number at which each individual can be contacted. Typically, referees are college/university faculty or immediate work supervisor who can provide insight into the applicant’s abilities and talents, as well as comment on her/his aptitude for graduate study.

Bachelor’s Degree in Discipline/Related Discipline: The post-professional graduate Athletic Training program at Temple University is a CAATE-accredited graduate program that is designed to accommodate both BOC-certified athletic trainers and BOC “certification eligible” athletic trainers (i.e., those who graduated from an accredited undergraduate athletic training program). All applicants must present credentials that are the equivalent of the athletic training professional/entry-level degree.

Statement of Goals: A statement of one to two pages should be clearly written and well thought out.

Standardized Test Scores:

GRE/MAT: Required. Scores of 150 each are preferred on the verbal and quantitative sections. Occasionally, students with lower totals are accepted if undergraduate work and/or other life experiences suggest a high degree of probability of success in the graduate program.

TOEFL: 79 iBT or 550 PBT minimum

Clearances: The Athletic Training M.S. concentration in Kinesiology requires students to complete clinical/field education experiences at facilities both on and off the University campuses. Students are expected to have current PA certification to practice and are required to have immunization records, a physical exam, criminal background checks, and Act 33/34 clearances. Students may also be required to maintain personal health insurance and have a drug screen. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his ability to meet graduation requirements. The College cannot ensure clinical field placements if the individual fails to meet the requirements or maintain health insurance.

Interview: An interview is scheduled at a mutually convenient time between the faculty interviewer(s) and the applicant. Master’s applicants may interview by telephone or video chat if an on-campus visit is difficult to arrange.

Resume: Current resume required, including the applicant’s GRE scores, undergraduate GPA, and relevant clinical and research experiences.

Transfer Credit: Relevant graduate courses taken at other accredited universities may be considered for transfer credit to the student’s program. The maximum number of credits a student may transfer is 6.

Independent Research and Elective | 4

Total Credit Hours | 36

1 One credit of KINS 8300 is taken each of the four academic terms of the program.
Students have a choice in how to fulfill 4 of the required 36 credits needed to complete the degree program. They may choose to take 4 credits of KINS 9882 Independent Research under the mentorship of an athletic training faculty member. This cannot be related to the student's master's research project and must be approved by the program director. Alternately, they may register for 1 credit of KINS 9882 and a 3-credit elective.

Culminating Events:
Master's Research Project:
The master's research project is a mentored research experience that results in an oral and written defense of results. Taken for 3 credits, KINS 9995 Master's Research in Kinesiology is designed to allow students to create and defend an independent research project that may be published and/or presented at the local, state, and/or national level. Evaluation of the project is by a two-person committee as pass/fail.

Kinesiology/Curriculum and Instruction, M.S.

COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)

About the Program
Not currently accepting applications.

Kinesiology/Integrative Exercise Physiology, M.S.

COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)

About the Program
The mission of the Department of Kinesiology is to advance comprehensive inquiry into, and understanding of, human movement in all of its forms and implications. The program primarily trains academicians but also clinicians/practitioners in some areas. The program offers an opportunity to engage in coursework as well as research and applied work across a range of subdisciplines within the discipline of Kinesiology. Central to the mission is the discovery and dissemination of knowledge through a multidimensional study of physical activity with special emphasis on the relationships among physical activity, health, and well-being. This approach incorporates biophysical, behavioral, and professional practice perspectives.

Time Limit for Degree Completion: 4 years

Campus Location: Main, with classes occasionally offered at Fort Washington. Electives are also offered at the Center City, Ambler, and Health Sciences Center campuses.

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: Interdisciplinary study is available within the department and through other departments in the University.

Areas of Specialization: Students in the Integrative Exercise Physiology concentration can focus on biomedical research paradigms or clinical practice.

Job Prospects: Students find positions in research or clinical settings or pursue a doctoral degree.

Non-Matriculated Student Policy: Non-matriculated students are welcome to take classes in the department, assuming they have the requisite knowledge to be successful in the coursework.

Financing Opportunities: Assistantship duties include, but are not limited to, teaching activity courses in a variety of movement forms and sports; teaching laboratory sections of undergraduate courses such as Biomechanics, Human Anatomy and Physiology, and Physiology of Exercise; serving as a research assistant in a research laboratory; or acting as an administrative assistant to one of the department administrators.

Admission Requirements and Deadlines
Application Deadline:
Fall: November 15

Review of completed applications begins at the application deadline. Other important dates are:

- March 1 - Departmental deadline for review of completed applications
• April 15 - Admission decision deadline for completed applications

Late applications may be considered for admission if complete.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 2

From Whom: Applicants must submit the names of two professional references, along with an email address and telephone number at which each individual can be contacted. Typically, referees are college/university faculty or immediate work supervisor who can provide insight into the applicant's abilities and talents, as well as comment on her/his aptitude for graduate study.

Coursework Required for Admission Consideration: It is preferred that applicants have completed laboratory courses in biology, chemistry, human anatomy and physiology, and physics.

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Statement of Goals: A statement of one to two pages should be clearly written and well thought out.

Standardized Test Scores:
GRE/MAT: Required. Scores of 150 each are preferred on the verbal and quantitative sections. Occasionally, students with lower totals are accepted if undergraduate work and/or other life experiences suggest a high degree of probability of success in the graduate program.

TOEFL: 79 iBT or 550 PBT minimum.

Clearances: Students in the Integrative Exercise Physiology M.S. concentration in Kinesiology have the option to complete clinical/field education experiences at facilities both on and off Temple University's campuses. These placements may require criminal background checks, Act 33/34 clearances, and perhaps a drug screen. Many may also require students to have personal health insurance. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his ability to meet graduation requirements. The College cannot ensure clinical field placements if the individual fails to meet the requirements or maintain health insurance. Additionally, conviction of a misdemeanor, felony, or felonious or illegal act may prevent the individual from becoming credentialed and/or licensed to practice.

Interview: An interview is scheduled at a mutually convenient time between the faculty interviewer(s) and the applicant. Master's applicants may interview by telephone or video chat if an on-campus visit is difficult to arrange.

Resume: Current resume required.

Transfer Credit: Relevant graduate courses taken at other accredited universities may be considered for transfer credit to the student's program. The maximum number of credits a student may transfer is 6.

Culminating Experience Courses

Total Credit Hours: 30

1 Electives may be taken to tailor graduate coursework to the interests and skills of the student. Approval of the faculty advisor is required to select an elective course.

2 Students choose from among three options to complete the degree: a thesis, a master's research project, or a clinical practicum. Each option requires the completion of 6 credits, as explained in the section below.

Culminating Events:

Thesis Option:
The thesis is designed to demonstrate the student's ability to collect data and present results in a scholarly manner. KINS 9995 Master's Research in Kinesiology is taken for 3 credits, as is KINS 9996 Master's Thesis in Kinesiology. Students schedule a defense with their three-person committee after the thesis advisor has approved the thesis as ready for defense. Overall evaluation is pass/fail, with recommendations for improvements of the thesis offered as a result of faculty review and discussion at the thesis defense.

Master's Research Project Option:
The master's research project option is a mentored research experience that may result in a publication or a summary document of the research experience. Taken for 3 credits, KINS 9995 Master's Research in Kinesiology is designed to offer flexibility for students who wish to be actively involved with research, but do not want to engage in research at the level expected for a thesis. Evaluation of the project is by a two-person committee as pass/fail. To earn the 3 other required credits, students in the master's research project option take an additional elective.

Clinical Practicum Option:
KINS 9785 Internship in Kinesiology is a 300-hour (6 credits) supervised applied experience. The clinical practicum offers students the opportunity to engage in more applied work. Evaluation of the experience is by the
major professor, based on a submitted portfolio of materials completed during the experience.

**Kinesiology/Athletic Training, Ph.D.**

**COLLEGE OF PUBLIC HEALTH** (http://cph.temple.edu)

**About the Program**

The mission of the Department of Kinesiology is to advance comprehensive inquiry into, and understanding of, human movement in all of its forms and implications. The program primarily trains academicians but also clinicians/practitioners in some areas. The program offers an opportunity to engage in coursework as well as research and applied work across a range of subdisciplines within the discipline of Kinesiology.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main, with electives also offered at the Health Sciences Center campus

**Full-Time/Part-Time Status:** Full-time study is required.

**Interdisciplinary Study:** Interdisciplinary study is available within the department and through other departments in the University.

**Ranking:** While rankings of individual programs and the department are not conducted in the profession, the programs at Temple University have excellent reputations. The Department of Kinesiology’s Athletic Training program is one of only three in the country with accredited bachelor’s, master’s, and doctoral level training.

**Areas of Specialization:** The area of distinctiveness for the Athletic Training concentration in Kinesiology is sport concussion.

**Job Prospects:** The majority of graduates find positions in academic institutions, while some work in research and clinical settings. Training is primarily for academic and research positions at institutions of higher learning.

**Non-Matriculated Student Policy:** Non-matriculated students are permitted to take up to 9 credits in the department, provided they have the requisite knowledge to be successful in the coursework.

**Financing Opportunities:** Assistantship duties include, but are not limited to, working clinically in a high school or college setting; teaching activity courses in a variety of movement forms and sports; teaching laboratory sections of undergraduate courses such as Biomechanics or Human Anatomy and Physiology; and serving as a research assistant in a research laboratory.

**Admission Requirements and Deadlines**

**Application Deadline:**

*Fall:* November 15

Review of completed applications begins at the application deadline. Other important dates are:

* March 1 - Departmental deadline for review of completed applications

• April 15 - Admission decision deadline for completed applications

Late applications may be considered for admission if complete.

Non-Didactic Courses

- KINS 9994 Preliminary Examination Preparation 1
- KINS 9998 Dissertation Proposal Research 2
- KINS 9999 Doctoral Dissertation in Kinesiology 3

Total Credit Hours 45

1 Electives may be taken to tailor graduate coursework to the interests and skills of the student. Approval of two graduate faculty members is required to select an elective course.

Culminating Events:

Preliminary Examination:

All Ph.D. candidates in Kinesiology must complete the preliminary examination, which includes two requirements:

1. successful completion of a set of four questions that examine the doctoral student’s competency in her/his subdiscipline, and
2. submission of a research article of publishable quality, as first author, to a refereed journal.

Note that a literature review does not fulfill the second requirement.

Proposal:

The dissertation proposal encompasses the first part of the dissertation: introduction, review of literature, and methodology. It is a substantive document that spells out clearly the rationale for the research, reviews the literature, and precisely identifies the methodology to be used in answering the research problem. The proposal is reviewed and approved by the Doctoral Advisory Committee (DAC), which is composed of three Graduate Faculty members. Two of the DAC members, including the chair, must be Graduate Faculty in the student’s degree program.

Dissertation:

The dissertation represents an original research study that provides a substantive contribution to the literature and is worthy of publication. As such, it is a rigorous examination of a research problem that requires extensive investigation, using quantitative and/or qualitative methodology. The Dissertation Examining Committee (DEC) must include the chair and all members of the DAC and two additional readers, one of whom must be from outside the department and not previously involved with the dissertation writing or DAC. The defense is scheduled at the mutual convenience of the student and the members of the DEC. Notice is provided to the College of Public Health, which completes the necessary paperwork to announce the defense date, time, and location. The DEC reviews and discusses the defense. Overall evaluation of pass/fail with recommendations for improvements of the dissertation result.

About the Program
The mission of the Department of Kinesiology is to advance comprehensive inquiry into, and understanding of, human movement in all of its forms and implications. The program primarily trains academicians but also clinicians/practitioners in some areas. The program offers an opportunity to engage in coursework as well as research and applied work across a range of subdisciplines within the discipline of Kinesiology. Central to the mission is the discovery and dissemination of knowledge through a multidimensional study of physical activity with special emphasis on the relationships among physical activity, health, and well-being. This approach incorporates biophysical, behavioral, and professional practice perspectives.

Time Limit for Degree Completion: 7 years

Campus Location: Main, with classes occasionally offered at Fort Washington. Electives are also offered on the Center City, Ambler, and Health Sciences Center campuses.

Full-Time/Part-Time Status: Full-time study is required.

Interdisciplinary Study: Interdisciplinary study is available within the department and through other departments in the University.

Areas of Specialization: Students in the Integrative Exercise Physiology concentration primarily focus on urban health issues related to translational and evidence-based practice of physical activity on metabolic-related diseases. The areas of distinctiveness are hypertension, obesity, and diabetes.

Job Prospects: The majority of students find positions in academic institutions, while some work in research and clinical settings. Training is primarily for academic and research positions at institutions of higher learning.

Non-Matriculated Student Policy: Non-matriculated students are welcome to take classes in the department, assuming they have the requisite knowledge to be successful in the coursework.

Financing Opportunities: Assistantship duties include, but are not limited to, teaching activity courses in a variety of movement forms and sports; teaching laboratory sections of undergraduate courses such as Biomechanics, Human Anatomy and Physiology, and Physiology of Exercise; serving as a research assistant in a research laboratory; or acting as an administrative assistant to one of the department administrators.

Admission Requirements and Deadlines

Application Deadline:

Fall: November 15

Review of completed applications begins at the application deadline. Other important dates are:

- March 1 - Departmental deadline for review of completed applications
- April 15 - Admission decision deadline for completed applications

Late applications may be considered for admission if complete.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 2

From Whom: Applicants must submit the names of two professional references, along with an email address and telephone number at which each individual can be contacted. Typically, referees are college/university faculty or immediate work supervisor who can provide insight into the applicant's abilities and talents, as well as comment on her/his aptitude for graduate study.

Coursework Required for Admission Consideration: It is preferred that applicants have completed laboratory courses in biology, chemistry, human anatomy and physiology, and physics.

Master's Degree in Discipline/Related Discipline: Most applicants will have earned a master's degree from an accredited post-secondary institution in Kinesiology with an emphasis in exercise physiology or in a related discipline.

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Statement of Goals: A statement of one to two pages should be clearly written and well thought out.

Standardized Test Scores:
GRE: Required. Scores of 150 each are preferred on the verbal and quantitative sections. Occasionally, students with lower totals are accepted if undergraduate work and/or other life experiences suggest a high degree of probability of success in the graduate program.

TOEFL: 79 iBT or 550 PBT minimum.

Interview: An interview is scheduled at a mutually convenient time between the faculty interviewer(s) and the applicant. With rare exceptions, an on-site interview is required for the Ph.D. program.

Resume: Current resume required.

Writing Sample: Writing sample is required. The topic is flexible, but should be relevant to Kinesiology.

Advanced Standing: Students who enter the doctoral program with the master's degree may receive advanced standing toward the Ph.D. degree. The maximum number of advanced standing credits awarded is 9.

**Electives:** 15 credits

Select courses from the following totaling a minimum of 15 credits:

- **BIOL 5111** Genomics in Medicine
- **BIOL 5254** Animal Behavior
- **BIOL 5301** Cell Biology
- **BIOL 5403** Genomics
- **BIOL 5433** Advanced Techniques in Microscopy
- **BIOL 5454** Neurological Basis of Animal Behavior
- **BIOL 5467** Endocrinology
- **BIOL 5471** Cell Proliferation
- **BIOL 5475** General Biochemistry I
- **BMSC 8001** Introduction to Biochemistry and Molecular Biology
- **BMSC 8002** Introduction to Cell Biology and Immunology
- **BMSC 8003** Introduction to Molecular and Cell Biology
- **BMSC 8101** Molecules to Cells
- **BMSC 8201** Organ Systems: Function, Dysfunction and Therapeutics
- **BMSC 8205** Cell Structure & Function
- **BMSC 8206** Molecular, Cellular and Systems Signal Transduction
- **BMSC 8207** Molecular Approaches to Research
- **BMSC 8503** Genetics and Epigenetics
- **BMSC 8803** Molecular and Cellular Neuroscience
- **BMSC 8902** Mechanisms of Cardiovascular Pathophysiology
- **BMSC 8906** Development, Function and Diseases of the Musculoskeletal System
- **KINS 5202** Biomechanical Skeletal Tissue
- **KINS 5312** Exercise and Nutrient Metabolism
- **KINS 5313** Exercise and Aging
- **KINS 8349** Cadaver Anatomy
- **KINS 9401** Psychological Bases of Motor Behavior
- **KINS 9402** Psychology of Human Motivation and Development
- **MEDS 5003** Fundamentals of Biochem
- **MEDS 5004** Fundamentals of Physiology
- Other KINS electives or graduate courses in other departments \(^2\)

**Non-Didactic Courses**

- **KINS 9994** Preliminary Examination Preparation 1
- **KINS 9998** Dissertation Proposal Research 2
- **KINS 9999** Doctoral Dissertation in Kinesiology 3

Total Credit Hours 45

---

1. HRPR 5999 is taken twice.
2. Electives may be taken to tailor graduate coursework to the interests and skills of the student. Approval of two graduate faculty members is required to select an elective course.

### Culminating Events:

#### Preliminary Examination:

All Ph.D. candidates in Kinesiology must complete the preliminary examination, which includes two requirements:

1. successful completion of a set of four questions that examine the doctoral student's competency in her/his subdiscipline, and
2. submission of a research article of publishable quality, as first author, to a refereed journal.

Note that a literature review does not fulfill the second requirement.

#### Proposal:

The dissertation proposal encompasses the first part of the dissertation: introduction, review of literature, and methodology. It is a substantive document that spells out clearly the rationale for the research, reviews the literature, and precisely identifies the methodology to be used in answering the research problem. The proposal is reviewed and approved by the Doctoral Advisory Committee (DAC), which is composed of three Graduate Faculty members. Two of the DAC members, including the chair, must be Graduate Faculty in the student's degree program.

#### Dissertation:

The dissertation represents an original research study that provides a substantive contribution to the literature and is worthy of publication. As such, it is a rigorous examination of a research problem that requires extensive investigation, using quantitative and/or qualitative methodology. The Dissertation Examining Committee (DEC) must include the chair and all members of the DAC and at least one external examiner not previously involved with the dissertation writing or DAC. The defense is scheduled at the mutual convenience of the student and the members of the DEC. Notice is provided to the College of Public Health, which completes the necessary paperwork to announce the defense date, time, and location. The DEC reviews and discusses the defense. Overall evaluation of pass/fail with recommendations for improvements of the dissertation result.

Kinesiology/Psychology of Movement, Ph.D.

COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)

About the Program

The mission of the Department of Kinesiology is to advance comprehensive inquiry into, and understanding of, human movement in all of its forms and implications. The program primarily trains academicians but also clinicians/practitioners in some areas. The program offers an opportunity to engage in coursework as well as research and applied work across a range of subdisciplines within the discipline of Kinesiology.

Time Limit for Degree Completion: 7 years

Campus Location: Main, with classes occasionally offered at Fort Washington. Electives are also offered on the Center City, Ambler, and Health Sciences Center campuses.

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: Interdisciplinary study is available within the department and through other departments in the University.

Areas of Specialization: The Department of Kinesiology offers four primary areas of concentration:

• Athletic Training
• Curriculum and Instruction
• Integrative Exercise Physiology
• Psychology of Movement

Job Prospects: The majority of graduates find positions in academic institutions, while some work in research and clinical settings. Training is primarily for academic and research positions at institutions of higher learning.

Non-Matriculated Student Policy: Non-matriculated students are permitted to take up to 9 credits in the department, provided they have the requisite knowledge to be successful in the coursework.

Financing Opportunities: Assistantship duties include, but are not limited to, teaching activity courses in a variety of movement forms and sports; teaching laboratory sections of undergraduate courses such as Biomechanics, Human Anatomy and Physiology, and Physiology of Exercise; serving as a research assistant in a research laboratory; or acting as an administrative assistant to one of the department administrators.

Admission Requirements and Deadlines

Application Deadline:

Fall: November 15

Review of completed applications begins at the application deadline. Other important dates are:

• March 1 - Departmental deadline for review of completed applications
• April 15 - Admission decision deadline for completed applications

Late applications may be considered for admission if complete.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2

From Whom: Applicants must submit the names of two professional references, along with an email address and telephone number at which each individual can be contacted. Typically, referees are college/university faculty or immediate work supervisor who can provide insight into the applicant's abilities and talents, as well as comment on her/his aptitude for graduate study.

Master's Degree in Discipline/Related Discipline: A master's degree is not required.

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Statement of Goals: A statement of one to two pages should be clearly written and well thought out.

Standardized Test Scores:

GRE: Required. Scores of 150 each are preferred on the verbal and quantitative sections. Occasionally, students with lower totals are accepted if undergraduate work and/or other life experiences suggest a high degree of probability of success in the graduate program.

TOEFL: 79 iBT or 550 PBT minimum.

Interview: An interview is scheduled at a mutually convenient time between the faculty interviewer(s) and the applicant. With rare exceptions, an on-site interview is required for the Ph.D. program.

Resume: Current resume required.

Writing Sample: Writing sample required. The topic is flexible, but should be relevant to Kinesiology.

Advanced Standing: Students who enter the doctoral program with the master's degree may receive advanced standing toward the Ph.D. degree. The maximum number of advanced standing credits awarded is 9.

Program Requirements

General Program Requirements:

Number of Credits Required to Earn the Degree: 45
Required Courses:

Core Courses

- **EPBI 5002** Biostatistics 3
- **EPBI 8012** Multivariate Biostatistics 1 3
- **EPBI 8212** Grantsmanship in Health Research 3
- **HRPR 5001** Current and Emerging Issues in Public Health and Health Professions 0
- **HRPR 5999** Research Experience in Health Professions 0
- **KINS 9402** Psychology of Human Motivation and Development 3
- **KINS 9403** Sociology of Kinesiology 3
- **KINS 9405** Psychosocial Interactions and Skilled Performance 3
- **KINS 9406** Psychosocial Testing in Exercise and Sport Psychology 3
- **KINS 9901** Research Methods in Kinesiology 3

Electives

Select courses from the following totalling a minimum of 15 credits:

- **AOD 5522** Interpersonal Skills Training
- **AOD 5527** Training Design and Delivery
- **CPSY 5519** Group Counseling
- **CPSY 5526** Multicultural Counseling
- **CPSY 5691** Diagnosis in Counseling Psychology
- **Other KINS electives or graduate courses in other departments** 3

Non-Didactic Courses

- **KINS 9994** Preliminary Examination Preparation 1
- **KINS 9998** Dissertation Proposal Research 2
- **KINS 9999** Doctoral Dissertation in Kinesiology 3

Total Credit Hours 45

1. Alternately, a qualitative research course may be taken. See advisor for approval.
2. HRPR 5999 is taken twice.
3. Electives may be taken to tailor graduate coursework to the interests and skills of the student. Approval of two graduate faculty members is required to select an elective course.

Culminating Events:

**Preliminary Examination:**
All Ph.D. candidates in Kinesiology must complete the Preliminary Examination, which includes two requirements:

1. successful completion of a set of four questions that examine the doctoral student’s competency in her/his subdiscipline, and

**Neuromotor Science, M.S.**

About the Program

The study of human movement, both as an outcome of health and functioning and as a means to understand the mechanisms underlying neuromotor system integration and behavior, is foundational to many health professions. The skills needed to be successful in fields of related study require fluency across the disciplines of engineering, movement science, neuroscience, and rehabilitation. The need exists for rigorously
trained scientists with interdisciplinary training in neuromechanics, neurobiology, and biomechanics of the sensorimotor system, and the impact of health conditions, disease, and disability on human movement. Our Neuromotor Science (NMS) program trains scientists to advance the science of neuromotor control and biomechanics of human posture and movement in individuals across the lifespan and spectrum of health and disability levels. The M.S. in Neuromotor Science (MS NMS) program is designed for individuals in the fields of Engineering, Exercise Science, Kinesiology, Occupational Therapy, Physical Therapy, Rehabilitation Science, and the like, preparing them to:

- advance the science and understanding of neuromotor processes, including assessment and evaluation of movement, neuromotor function and integration, and its impact on movement on health, functioning, and disability, and
- contribute to the development of interventions to improve human movement, particularly posture and locomotor control and function across the lifespan.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main, Health Sciences Center

**Full-Time/Part-Time Status:** While full-time study is encouraged at the master’s level, this research-focused degree program can be completed in 2 years with full-time study (9 credits per term) or 3 to 4 years if enrolled part-time.

**Interdisciplinary Study:** Students may use their elective coursework to pursue interdisciplinary study throughout the University. The MS NMS program participates in the interdisciplinary program in Neuroscience at Temple University.

**Areas of Specialization:** All students complete the same core course requirements, but may focus their elective coursework and research experiences on preparing them for future work in areas related to their specific interests.

**Job Prospects:** Graduates from the MS NMS degree program are prepared for employment in clinical research, as faculty in professional programs, or in industry positions. In addition, the M.S. degree provides a strong foundation for students to continue their studies at the Ph.D. level.

**Non-Matriculated Student Policy:** Non-matriculated students may enroll in up to three graduate courses with permission from the NMS Program Director.

**Financing Opportunities:** Assistantship packages consisting of a stipend, tuition remission, and subsidized health benefits are available. Admission to the MS NMS program does not, however, guarantee financial support. Research and Teaching Assistantships are highly competitive, with awards varying based on faculty-funded areas of research and the teaching needs of the College. Please contact the NMS Program Director for additional information.

**Admission Requirements and Deadlines**

**Application Deadline:**

*Fall:* March 1

*Spring:* November 1; August 1 international

Applications are evaluated upon receipt of all supporting materials. Applications received after the stated deadlines will be reviewed on a space-available basis.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

**Number Required:** 2

**From Whom:** Letters of recommendation should be obtained from individuals who can judge the applicant's ability to succeed in a graduate program. At least one letter should be from a faculty member who can fairly judge the applicant's academic potential. Please submit the "Reference Report for Graduate Study," found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf.

**Bachelor's Degree in Discipline/Related Discipline:** All applicants must present credentials that are equivalent of a baccalaureate degree at Temple University. All international students must have their educational transcripts reviewed by a credentialing agency in the United States.

**Statement of Goals:** A one-page statement details your interest in Temple’s program, your research interests, and your future career goals.

**Standardized Test Scores:**

- **GRE:** Required. Scores from a test taken within the last 5 years must be at or above the 50th percentile in the verbal and quantitative components, with a score of 4 or higher on the writing component.
- **TOEFL:** 88 iBT or 575 PBT minimum. Students admitted with lower TOEFL scores may be required to take an English skills course during their first term.

**Interview:** Qualified applicants are invited to interview with members of the Graduate Faculty. Electronic interviews can be conducted when travel costs are prohibitive.

**Resume:** Current resume or CV required.

**Program Requirements**

**General Program Requirements:**

- **Number of Credits Required Beyond the Baccalaureate:** 30

**Required Courses:**

NMS 9654: Neuromotor Science: Laboratory Rotation and Seminar
Electives 1

Total Credit Hours 30

1 Electives are chosen from existing 5000, 8000, or higher level courses to provide a cognate area based on the student’s interest in, for example, engineering, kinesiology, neuroscience, psychology, public health, rehabilitation science, or teaching in higher education. Not all courses listed in the course descriptions for this program are available to MS NMS students. The Program Director and faculty advise on and approve the selection of electives.

MS NMS students are initially advised by the Program Director during admission and in the first term if an academic advisor has not been identified. Within two terms of matriculation, students are assigned an academic advisor from the core program faculty — or an available Graduate Faculty member with expertise in the student’s cognate area, as approved by the Program Director. Students develop an “Individualized Development Plan of Graduate Studies,” which is reviewed with their advisor every term, and by the NMS Program Director and/or the Program Advisory Committee on an annual basis.

Culminating Events: No thesis or other culminating event is required.

Neuromotor Science, Ph.D.
COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)

About the Program

The study of human movement, both as an outcome of health and functioning and as a means to understand the mechanisms underlying neuromotor system integration and behavior, is foundational to many health professions. The skills needed to be successful in fields of related study require fluency across the disciplines of engineering, movement science, neuroscience, and rehabilitation. The need exists for rigorously trained scientists with interdisciplinary training in neuromechanics, neurobiology, and biomechanics of the sensorimotor system, and the impact of health conditions, disease, and disability on human movement. Our Neuromotor Science (NMS) program trains scientists to advance the science of neuromotor control and biomechanics of human posture and movement in individuals across the lifespan and spectrum of health and disability levels. The Ph.D. in Neuromotor Science (PhD NMS) program is designed for individuals in the fields of Engineering, Exercise Science, Kinesiology, Occupational Therapy, Physical Therapy, Rehabilitation Science, and the like, preparing them to:

- advance the science and understanding of neuromotor processes, including assessment and evaluation of movement, neuromotor function and integration, and its impact on movement on health, functioning, and disability, and
- contribute to the development of interventions to improve human movement, particularly posture and locomotor control and function across the lifespan.

Time Limit for Degree Completion: 7 years

Campus Location: Main, Health Sciences Center

Full-Time/Part-Time Status: Full-time study is expected. This research-focused doctoral degree program requires 4 to 7 years of full-time study post-baccalaureate or 2 to 3 years of full-time study after completion of the M.S. in Neuromotor Science degree.

Interdisciplinary Study: Students may use their elective coursework to pursue interdisciplinary study throughout the University. The PhD NMS program participates in the interdisciplinary program in Neuroscience at Temple University.

Areas of Specialization: All students complete the same core course requirements, but may focus their elective coursework and research experiences on preparing them for future work in areas related to their specific interests.

Job Prospects: Graduates of the PhD NMS degree program are prepared for research or teaching/research positions at Carnegie Research I institutions. They are also prepared for employment as faculty members in other academic settings, in clinical research settings, or in industry positions.

Non-Matriculated Student Policy: Non-matriculated students may enroll in up to three graduate courses with permission from the NMS Program Director.

Financing Opportunities: Assistantship packages consisting of a stipend, tuition remission, and subsidized health benefits are available. Admission to the PhD NMS program does not, however, guarantee financial support. Research and Teaching Assistantships are highly competitive, with awards varying based on faculty-funded areas of research and the teaching needs of the College. Please contact the NMS Program Director for additional information.

Admission Requirements and Deadlines

Application Deadline:
Fall: March 1
Spring: November 1; August 1 international

To ensure funding consideration, applicants must meet these earlier deadlines:

Fall: January 15
Spring: August 1

Applications are evaluated upon receipt of all supporting materials. Applications received after the stated deadlines will be reviewed on a space-available basis.

APPLY ONLINE to this graduate program.

Electives: 12

PhD NMS students are initially advised by the Program Director during admission and in the first term if an academic advisor has not been identified. Within two terms of matriculation, students are assigned an academic advisor from the core program faculty — or an available Graduate Faculty member with expertise in the student's cognate area, as approved by the Program Director. Students develop an “Individualized Development Plan of Graduate Studies,” which is reviewed with their advisor every term, and by the NMS Program Director and/or the Program Advisory Committee on an annual basis.

Culminating Events:

In addition to completing the required coursework, students are expected to complete an area paper, a preliminary written and oral examination, and a dissertation research proposal prepared in the form of a grant proposal. Students are also expected to write and submit an abstract for their research and present that research at a scientific or professional meeting. The dissertation must include a publishable article.

Area Paper:
Prior to the preliminary examination, students must write a paper of publishable quality in their chosen area. Students could enroll in an elective course, a laboratory rotation, or independent study to complete this paper. The paper can be a report of research completed with a faculty member, a systematic review of literature related to the projected area of dissertation work, or a representation of theoretical work. In each instance, the student is expected to be the lead or sole author. Students are encouraged to select and submit the paper for peer review to an appropriate journal, but the publishable quality of the paper will be determined by faculty members with sufficient background in the area to judge the quality of the work. Students who have published a peer-reviewed paper in a journal as lead author prior to entry into the doctoral program can request a waiver of this requirement.
Preliminary Examination (NMS 9994):
All students must pass a preliminary examination prior to defending their dissertation research proposal. This qualifying examination consists of assessment of both didactic knowledge and research skills in neuromotor science. The didactic knowledge portion of the exam consists of a written examination followed by an oral examination of core concepts taught within the core neuromotor science courses. The research skill portion of the exam consists of skills acquired in a research lab presented in a lab practicum format.

Dissertation Proposal and Defense (NMS 9998):
In conjunction with the academic advisor and with the approval of the Program Director, each student is expected to identify a Doctoral Advisory Committee. The committee shall be comprised of at least three members. Two of the members shall be from within the Departments of Physical Therapy or Kinesiology, and at least one shall be from outside the department. At least two of the three members must hold full Graduate Faculty status.

Students are required to prepare and submit a dissertation proposal and successfully defend it orally in front of their committee. As appropriate, they must obtain IRB approval for their proposed research and submit a copy of the dissertation proposal to the Graduate School. Students are expected to have developed and defended their dissertation proposal within one year of successfully completing their preliminary examination.

Any student who does not adhere to this timeline must petition the Program Advisory Committee for an exception to this requirement.

Extensions are not guaranteed. If a student does not receive an extension, her/his case will be considered at the time of the Annual Review of Progress toward the degree. Failure to pass NMS 9998 within one year can result in dismissal from the program.

Dissertation Research (NMS 9999):
Students are required to complete and orally defend their dissertation research. Students must be enrolled continuously in NMS 9999 until their dissertation is successfully defended. The Graduate School requires at least 6 credit hours of dissertation coursework. Students must be enrolled in the term that they graduate.

The dissertation must be successfully defended in a public oral defense as determined by the student's Dissertation Examining Committee. This committee evaluates the student's ability to express verbally her/his research question, methodological approach, primary findings, and implications. The Dissertation Examining Committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

Students who are preparing to defend their dissertation must confirm a time and date for the oral defense with their Dissertation Examining Committee at least 15 days before the desired defense date. After the student and department have arranged the time, date, and room for the defense, the student must provide the official announcement to the Graduate School at least two weeks before the defense.

Nursing, D.N.P.

COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)

About the Program

Graduate nursing education strongly reflects the values and goals of Nursing and the broad mission of Temple University. The D.N.P. program prepares graduates to provide primary care for individuals, families, and communities grounded in evidence-based practice and research. Embedded in the program is the social context of health systems, health policy, and health economics and their impact on the individual, family, and community. Students are prepared to provide direct primary care to individuals across diverse settings and indirect administration of systems of care, as well as to participate in the development and implementation of health policy. The D.N.P. program expands students’ scope of practice while maintaining a clinical primary care focus. Through integration of the educator, clinician, and research roles, faculty work with D.N.P. students to cultivate the value of evidence-based clinical practice and its potential impact on individuals, groups, and communities.

Time Limit for Degree Completion: 5 years

Campus Location: Health Sciences Center

Full-Time/Part-Time Status: Starting in Fall 2017, classes are now primarily offered on Wednesdays between 8:00 a.m. and 7:30 p.m., although some classes may be offered between 4:30 p.m. and 10:00 p.m. weekdays. Full-time enrollment in the program is preferred.

Accreditation: The baccalaureate degree in nursing and Doctor of Nursing Practice degree at Temple University are accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington, DC 20036, 202-887-6791.

Areas of Specialization: Two concentrations are offered: Adult-Gerontology Primary Care and Family-Individual Across the Lifespan Primary Care.
Job Prospects: Graduates of the program are employed in a variety of diverse settings, including both outpatient settings affiliated with hospitals and outpatient primary care clinics.

Licensure: Professional Nurse licensure (R.N.) is required in Pennsylvania and either New Jersey or Delaware for B.S.N. applicants. R.N. and C.R.N.P. licensure is required for post-M.S.N. applicants. For more information about licensure, see https://www.ncsbn.org/contact-bon.htm.

Non-Matriculated Student Policy: Non-matriculated students can take a total of 6 graduate credits prior to matriculation, although they must submit a complete application before registering for their second course. Only the following courses may be taken while a non-matriculated student:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>NURS 5501</td>
<td>Theories for Advanced Practice Nursing of Families and Individuals</td>
<td>3</td>
</tr>
<tr>
<td>EPBI 5002</td>
<td>Biostatistics</td>
<td>3</td>
</tr>
</tbody>
</table>

Financing Opportunities: Funds are available to matriculated students. Students are required to complete a scholarship application annually to be eligible for funding.

Admission Requirements and Deadlines

Application Deadline:

Fall: February 15

Late applications may be considered for admission at the discretion of the Graduate Programs Director.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2

From Whom: Letters of recommendation must be written on official letterhead with original signatures. Obtain letters from employers, professional colleagues, and/or college faculty members. For detailed instructions, visit http://cph.temple.edu/nursing/admissions/dnp-admissions.

Coursework Required for Admission Consideration: Two admission options are offered for the D.N.P. program:

- Direct entry from the B.S.N. (post-baccalaureate option) - Post-baccalaureate applicants choose between two areas of concentration: Adult-Gerontology Primary Care and Family-Individual Across the Lifespan Primary Care. Candidates who apply for post-B.S.N. entry must have earned a baccalaureate degree in Nursing with a GPA of 3.0.
- Post-M.S.N. with advanced practice certification (post-master's option) - Post-master's applicants must have earned an M.S.N. from an accredited nursing program and be certified as an advanced practice nurse from a specialty organization. Certified Registered Nurse Anesthetists (C.R.N.A.) with a B.S.N. and M.S. degree are eligible for admission to the post-M.S.N. D.N.P. option.

Statement of Goals: As part of the online application, write 500 to 1,000 words that include the reasons for your interest in a graduate degree and in Temple's program specifically, as well as reflect your future career goals. This brief composition should be well-thought-out and well-written. It will be considered as part of the application documents.

Standardized Test Scores:

- GRE/MAT: Required for those who enter post-B.S.N, but waived for those who enter post-M.S.N. Scores are expected to be at or above the 50th percentile. To qualify for a waiver of the GRE or MAT requirement, the applicant must have:
  - an undergraduate GPA greater than 3.5,
  - a cumulative GPA of 3.5 in three graduate core courses if the undergraduate GPA is less than or equal to 3.49, or
  - a graduate degree in another discipline.

TOEFL: 100 iBT or 600 PBT minimum.

Clearances: The Nursing D.N.P. program requires students to complete clinical/field education experiences at facilities both on and off Temple University’s campuses. These placements require criminal background checks, including Pennsylvania state criminal background check for employment, Pennsylvania state child abuse clearance, FBI fingerprinting clearance, and drug screen. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his inability to meet admission/graduation requirements. Additionally, conviction of a misdemeanor, felony, or felonious or illegal act may prevent the individual from becoming credentialed and/or obtaining Advanced Practice Nursing approval. Students also need a physical examination, proof of required immunizations, annual influenza vaccines, vaccination, Quantiferon testing, CPR certification, and personal health insurance. Students who do not comply with the required health and immunization requirements will not be permitted to attend clinical and may be dismissed from the nursing program.

Interview: An interview conducted by the Nursing Graduate Faculty may be scheduled only when all required materials have been submitted by the applicant and reviewed by the Academic Coordinator. Applicants who are invited to be interviewed will be contacted by Audrey Scriven, Graduate Academic Coordinator.

Resume: Current professional resume required.

Transfer Credit: Up to 6 graduate credits from an accredited institution may be transferred into the D.N.P. program. A transferred course must be equivalent to coursework offered at Temple, and the grade must be a "B" or better to transfer. The decision is made by the Director of Graduate Programs in conjunction with the appropriate faculty member.

Other: Copies of the applicant's current nursing licenses must be provided with the application packet. Those admitted to the program are required to have two R.N. licenses, one in Pennsylvania and the other in either New Jersey or Delaware.

Program Requirements

General Program Requirements:

Number of Credits Required to Earn the Degree: 58 for the Adult-Gerontology Primary Care concentration; 62 for the Family-Individual Across the Lifespan concentration; 30 for students entering post-M.S.N.

Required Courses:

<table>
<thead>

Graduate Core Courses

EPBI 5002 Biostatistics 3
NURS 5501 Theories for Advanced Practice Nursing of Families and Individuals 3
NURS 5553 Pathophysiology for Advanced Nursing Practice 3
NURS 5558 Local and Global Perspectives in Population Health 3
NURS 5902 Evidence-Based Practice 3

Advanced Core Courses

NURS 5552 Clinical Assessment and Diagnosis in Advanced Practice Nursing 4
NURS 5557 Pharmacology for Advanced Nursing Practice 3

D.N.P. Core Courses

NURS 5903 Research Methods: Quantitative and Qualitative 3
NURS 8201 Health Indices of Urban Populations in Primary Health Care 3
NURS 8211 Leadership and Health Policy in Clinical Nursing 3
NURS 8302 Managing Quality Initiatives Through Nursing Quality Initiatives 3
NURS 8303 Health Economics and Information Systems in Primary Health Care 3

D.N.P. Required Specialty Courses

NURS 9287 Primary Care of Children (Family-Individual Across the Lifespan concentration ONLY) 0-4
NURS 9885 DNP Clinical Capstone 3
NURS 9886 DNP Evidence-Based Practice Project Implementation 3
NURS 9887 Primary Care of Adolescents 4
NURS 9888 Primary Care of the Elderly 4
NURS 9987 Primary Care of Adults 4

Cognate Course 1

Total Credit Hours 58-62

1 Chosen in consultation with the academic advisor, the cognate course must be in support of the evidence-based practice project.

Culminating Events:

During NURS 9885 DNP Clinical Capstone, the student develops an evidence-based clinical practice project in consultation with the Faculty Chair. During NURS 9886 DNP Evidence-Based Practice Project Implementation, the student implements the evidence-based project and evaluates the impact on client outcomes.

Occupational Therapy, M.O.T.

COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)

About the Program

The Master of Occupational Therapy (M.O.T.) is an 80-credit, full-time program that begins in June and takes seven academic terms to complete, including six months of supervised full-time fieldwork. Students take foundational, theoretical, intervention, and research courses while engaging in community and field experiences.

Time Limit for Degree Completion: 2.5 years

Campus Location: Contact the Academic Coordinator at otadmissions@temple.edu for information.

Full-Time/Part-Time Status: Full-time study is required.

Interdisciplinary Study: Community and fieldwork experiences offer students the opportunity to interact, communicate, and collaborate with clients, families, and other disciplines.

Affiliation(s): Local, regional, and national community and fieldwork affiliations are available.

Ranking: In the 2017 edition of U.S. News and World Report, Temple University’s Occupational Therapy program is ranked 32.

Accreditation: The M.O.T. program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE®):

Accreditation Council for Occupational Therapy Education (ACOTE®)
American Occupational Therapy Association, Inc.
4720 Montgomery Lane, Suite 200
Bethesda, MD 20814-3449
Voice: 301-652-2682
Fax: 301-652-1417
E-mail: accred@aota.org
Areas of Specialization: The Temple University Occupational Therapy program prepares graduates to be entry-level practitioners in any area of service delivery.

Job Prospects: In 2014, the U.S. Bureau of Labor Statistics projected a 29% growth in occupational therapy from 2012 to 2022, much higher than average for all jobs.

Licensure: Graduates of the M.O.T. program are eligible to take the National Board for Certification in Occupational Therapy (NBCOT) examination leading to the designation Occupational Therapist, Registered (OTR). Additionally, practitioners must abide by specific licensure requirements as determined by individual states. For more information about state licensure, see http://www.aota.org/Advocacy-Policy/State-Policy/Licensure.aspx.

Non-Matriculated Student Policy: M.O.T. coursework is available only to full-time matriculated students.

Financing Opportunities: Financial aid is available to students. For information, please contact Student Financial Services at 215-707-2667.

Admission Requirements and Deadlines

Application Deadline:

Summer II: February 1

All applicants to the M.O.T. program must apply via the Occupational Therapist Centralized Application Service (OTCAS). The system can be accessed at https://portal.otcas.org/. A supplemental application is also required to be submitted directly to Temple University at http://www.temple.edu/apply/common/appcheck.asp.

Applications are processed throughout the year as they are received. Thus, it is in the applicant's best interest to apply early to this highly competitive degree program. Full admissions requirements and answers to frequently asked questions can be found at http://cph.temple.edu/rs/occupational-therapy-program-master-occupational-therapy-mot/applying-mot-program. Admission to the M.O.T. program is a rolling process such that, beginning in the Fall, applications are reviewed and offers of admission are extended, continuing until the cohort is filled.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from evaluators, typically college/university faculty or an immediate work supervisor, who can provide insight into the applicant's aptitude for graduate study. These letters are to be submitted electronically at https://portal.otcas.org/.

Coursework Required for Admission Consideration: Required coursework includes:

- Introduction to Psychology
- Introduction to Sociology (1000-level course, not 2000- or 3000-level course) or Cultural Anthropology
- Anatomy with lab and Physiology (1000-level course, not 2000- or 3000-level course), which can be taken separately or as a combined sequence (e.g., Anatomy and Physiology I with Anatomy lab, and Anatomy and Physiology II)
- Developmental Psychology or Lifespan Development, which must include a lifespan perspective of development
- Abnormal Psychology or Psychopathology
- Statistics, Biostatistics, or Research Methods

Without exception, grades earned in prerequisite courses must be a "B-" or better for consideration in an application. Prerequisites are not required to have been taken while an undergraduate. The courses may be completed at a local community college or any accredited institution of higher education. AP or CLEP courses are not accepted for prerequisites, except for Introduction to Psychology with a score of 4 or higher. Science courses must be four credits. Prerequisites may be in progress at the time of the initial application, but must be completed and verified on one's OTCAS application by February 1 of the year for which application is made.

Bachelor's Degree in Discipline/Related Discipline: Without exception, the February 1 deadline for OTCAS transcript and course verification must be met. If you have questions regarding transcript and course verification, contact OTCAS directly. A baccalaureate degree in any discipline is acceptable for applying to Temple University's Occupational Therapy program as long as the required prerequisites are successfully completed with a grade of "B-" or better.

Statement of Goals: The education and practice of occupational therapists demand a great deal of mental flexibility, creativity, teamwork, and service to others. The personal statement, which is submitted at https://portal.otcas.org/, should reflect your capacity to engage in the rigorous demands of professional graduate occupational therapy education and practice.

Standardized Test Scores:

MAT or GRE: Scores are expected in the top 50th percentile.

TOEFL: 100 iBT or 600 PBT minimum.

Clearances: The Occupational Therapy M.O.T. program requires students to complete clinical/field education experiences at facilities both on and off Temple University’s campuses. These placements require a physical examination, immunization records, criminal background checks, Act 33/34 clearances, DHS fingerprinting, Healthcare Provider CPR certification, proof of personal health insurance, an annual influenza vaccine, and perhaps a drug screen. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his inability to meet graduation requirements. Additionally, conviction of a misdemeanor, felony, or felonious or illegal act may prevent the individual from becoming credentialed and/or licensed to practice occupational therapy.

---

1 This common College Core course is required of all incoming graduate students in the College of Public Health. It is available completely online and aligned with the M.O.T. curriculum. Your course instructor will provide additional information on which modules are required for each course.

2 The Fieldwork II experience must be completed within 24 months of completion of academic coursework.

**Culminating Events:**

**Fieldwork Practicum:**

Students may be required to travel up to 90 minutes from their place of residence to a Level I or II clinical site.

**Level I:** Students participate in a variety of Level I fieldwork experiences that are largely local. However, opportunities do exist for international Level I field experiences.

**Level II:** Two 12-week supervised full-time fieldwork experiences are required for degree completion. Level II fieldwork must be completed within 24 months of successful completion of all academic courses. Students are assigned to Level II fieldwork either locally or in another state. No international Level II fieldwork experiences are available.

**Occupational Therapy, O.T.D.**

COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)

**About the Program**

The Clinical Doctorate in Occupational Therapy (O.T.D.) is a postprofessional non-research-based doctorate in occupational therapy. It establishes advanced clinical expertise and leadership in the practice of occupational therapy. The objectives of the program are to create:

- Occupational therapists who use, promote, and advance client-centered and evidenced-based practices.
- Broad thinkers who see occupational therapy’s role as promoting a person’s participation in society in consideration of societal needs, policy, and trends.
- Inspired scholarly thinkers who can bring clinically relevant and fresh perspectives to a situation.
- Innovators and leaders who can enact individual action and social reform to foster productive and meaningful living.
The O.T.D. program is offered in a flexible-distance education format with two to three on-campus sessions per year. Students are required to attend the on-campus sessions to launch and wrap up the coursework. Orientation, advisement, and introductions to faculty are also provided during on-campus sessions.

**Time Limit for Degree Completion:** 4 years, but the average student can complete the program in 2 to 3 years, depending on the student’s course schedule

**Campus Location:** On-campus experiences may take place at Temple University’s Center City campus.

**Full-Time/Part-Time Status:** The degree program must be completed on a full-time basis.

**Affiliation(s):** Students complete field studies and capstones in various settings depending on the nature of the study, as determined by the faculty advisor and student.

**Ranking:** In the 2017 edition of *U.S. News and World Report*, Temple University’s Occupational Therapy program is ranked 32.

**Accreditation:** Temple University is accredited by the Middle States Commission on Higher Education, which is an institutional accrediting agency recognized by the U.S. Secretary of Education and the Council for Higher Education Accreditation.

**Job Prospects:** As of 2014, the U.S. Bureau of Labor Statistics projects a 29% growth in occupational therapy from 2012 to 2022, much higher than average for all jobs.

**Licensure:** Applicants for and graduates of the O.T.D. program must be certified and licensed occupational therapists.

**Non-Matriculated Student Policy:** O.T.D. coursework is available only to matriculated students.

**Financing Opportunities:** Financial aid is available to students. For information on financial aid, please contact the Office of Student Financial Services at 215-707-2667.

## Admission Requirements and Deadlines

**Application Deadline:**

- **Fall:** March 1

To apply for the O.T.D. program, the applicant must be a licensed Occupational Therapist. Applicants must complete two applications:

**OTCAS Application:** Apply via the Occupational Therapist Centralized Application Service (OTCAS). The system can be accessed at https://portal.otcas.org/. All application materials listed below are required to be sent directly to OTCAS:

1. **Official academic transcripts** are required from all undergraduate and graduate institutions attended.
2. **Two professional/academic letters of recommendation** are required.
3. A **statement of goals** is required and must be a minimum of one page in length. This personal statement reflects your capacity to engage in rigorous graduate education and practice and should inform on your capacity for mental flexibility, creativity, teamwork, contribution to a learning environment, and service to others. Your statement must include a reflection of your alignment with Temple’s Occupational Therapy mission, philosophy, and values. In addition, you must identify an area of interest you might pursue in clinical doctorate studies and describe a current OT faculty member’s scholarly areas and capacity to advise in your area of interest. Submit the personal statement as part of the online application; a formatted copy may also be sent via e-mail to otadmissions@temple.edu.
4. A professional **writing sample** is required, which may include either a previously published article or an academic paper from previous coursework. If you do not have a professional writing sample, you may write a brief professional paper, one to two pages in length, based on a clinical question provided to you by the O.T.D. program.
5. A current **resume** is required.
6. A copy of your **current state OT license** must be submitted.

**Standardized test scores:**

- **GRE scores** are required only if the applicant’s cumulative GPA for the master’s degree is below 3.0. Scores in the 50th percentile or higher are preferred on the verbal and quantitative sections. Submit GRE scores to Temple University OTCAS using code 1239.
- **TOEFL scores** must be reported. The acceptable minimum is 79 iBT or 550 PBT.

**Temple University Application:** A supplemental application is also required to be submitted directly to Temple University at http://www.temple.edu/apply/common/appcheck.asp.

Questions about the application process should be directed to Joyce Hankins-Radford, Academic Coordinator, at otadmissions@temple.edu or 215-204-7213. International students are advised to first visit http://www.temple.edu/grad/admissions/international.htm for general information about applying to Temple University.

**Post-Baccalaureate Certificate in Occupational Therapy:** Students with a Bachelor in Science in Occupational Therapy (B.S.O.T.) are eligible to apply to the O.T.D. program following successful completion of an 8-credit Post-Baccalaureate Certificate in Occupational Therapy, as well as a Statistics or Biostatistics course prior to admission. Four courses are required to earn the Post-Baccalaureate Certificate in Occupational Therapy and are offered in a hybrid format of online and in-person classes:

<table>

<td>3</td>
</tr>
</tbody>
</table>

**Total Credit Hours:** 8

Additional information on the Post-Baccalaureate Certificate in Occupational Therapy is available by contacting Joyce Hankins-Radford, Academic Coordinator, at otadmissions@temple.edu.

**Bachelor’s Degree in Discipline/Related Discipline:** All applicants must have earned a baccalaureate degree.

**Clearances:** The Occupational Therapy program requires students to complete clinical/field education experiences at facilities both on and
off Temple University’s campus. These placements require criminal background checks, Act 33/34 clearances, and perhaps a drug screen. The results of these requirements may limit and potentially eliminate placement options for the student, which can, in turn, result in an inability to meet graduation requirements. Additionally, conviction of a misdemeanor, felony, or felonious or illegal act may prevent the student from becoming credentialed and/or licensed to practice occupational therapy.

Total Credit Hours: 31

1 This common College Core course is required of all incoming graduate students in the College of Public Health. It is available completely online and designed such that students can complete the modules at their own pace over the course of their degree program.

2 Consult with your faculty advisor when choosing electives.

3 If not completed by the Fall term of Year 2, the third elective is taken in the Spring term of Year 2.

It is recommended that students complete the O.T.D. program by taking two courses and an elective per term. In this format, students can complete the degree program over five terms and within two years. Students develop a professional development plan at the beginning of the program to guide them through the curriculum.

Culminating Events:

Capstone Project:

Students are assigned a faculty advisor to guide the capstone experience over a series of academic terms: OTHR 8902 Capstone Project Inquiry, OTHR 8903 Capstone Project Proposal, OTHR 8904 Capstone Project Implementation, and OTHR 8905 Capstone Project. Outcomes from the Capstone Project are expected to be disseminated through presentations or publications and/or to be incorporated into clinical practice. An on-campus Capstone Presentation Day is scheduled in the final Spring term.

Physical Therapy, D.P.T.

COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)

About the Program

Physical Therapy is a health care profession with the purpose to promote human health and function by applying evidence to identify, assess, remediate, or prevent human movement dysfunction. Physical therapists are concerned with the physical well-being of their clients and patients, and recognize the need to understand and respond to the sociocultural beliefs of the person and family receiving physical therapy services. They accept full responsibility for the patients or clients in their care and for the development of their profession.

The mission of the Department of Physical Therapy is fourfold:
1. Provide the opportunity for individuals from diverse cultural backgrounds to enter the physical therapy profession.
2. Prepare physical therapy practitioners to meet the health care needs of society.
3. Discover and convey knowledge related to physical therapy.
4. Provide services to the academic, professional, and public communities.

To meet this mission, three graduate programs are supported by the Department of Physical Therapy: the Doctor of Physical Therapy, the Master of Science in Neuromotor Science, and the Doctor of Philosophy in Neuromotor Science.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** All required courses in the Department of Physical Therapy are offered weekdays on a full-time basis.

**Accreditation:** The D.P.T. program is accredited by the Commission on Accreditation of Physical Therapy Education (CAPTE) through 2025.

**Job Prospects:** Graduates with the D.P.T. degree are poised to meet the demand for physical therapy services for an increasing diverse population in acute care centers, independent outpatient orthopedic clinics, rehabilitation centers and clinics, skilled care facilities, and sports medicine clinics.

**Licensure:** For more information about state licensure, see [http://www.fsbpt.org/FreeResources/LicensingAuthoritiesContactInformation.aspx](http://www.fsbpt.org/FreeResources/LicensingAuthoritiesContactInformation.aspx).

**Non-Matriculated Student Policy:** Only matriculated students may enroll in D.P.T. coursework.

**Financing Opportunities:** Contact the Department of Physical Therapy for information.

## Admission Requirements and Deadlines

**Application Deadline:**

**Summer:**
- July 1 - Application Cycle Opens
- November 1 - Application Cycle Ends

The two-step application process requires submission of both:

1. The Physical Therapy Centralized Application System (PTCAS) application accessible at [https://portal.ptcas.org/](https://portal.ptcas.org/). It is recommended that the PTCAS application be completed by early October so PTCAS has ample time to fully verify the application, which must be done prior to review by Temple University.

For more information on the application process for the D.P.T. program at Temple University, visit [https://cph.temple.edu/pt/degrees-offered/doctor-physical-therapy-dpt](https://cph.temple.edu/pt/degrees-offered/doctor-physical-therapy-dpt). Late applications may be considered for admission.

**Letters of Reference:**

*Number Required: 2*

**From Whom:** Letters of recommendation should be obtained from individuals who can judge the applicant's ability to succeed in a professional graduate program in Physical Therapy. Individuals typically positioned to provide such assessment include university faculty members, physical therapy clinicians, and employers. One reference must be from a physical therapist who can provide perspective on your ability as a student and future physical therapist. The second letter of reference must be from an academic professor who can provide an assessment of your ability to succeed with the academic rigor of a doctoral-level program. Notify the references to expect an online reference form from PTCAS once you begin the application process.

**Coursework Required for Admission Consideration:** Applicants must complete 10 prerequisite courses totaling 37 credits with a minimum cumulative GPA of 3.0 and no grades below a "C" (2.0). An applicant is permitted to apply with 6 of the 10 required prerequisite courses completed. If outstanding coursework exists, the admitted student must provide proof that s/he earned sufficient grades in all courses upon completion. Pass/fail for prerequisite courses is not acceptable. Laboratories for science-based courses should not be online, but rather in-person traditional laboratories. Online lecture components are acceptable. Complete information on prerequisites is available at [https://cph.temple.edu/pt/degree-programs/doctor-physical-therapy-dpt/apply](https://cph.temple.edu/pt/degree-programs/doctor-physical-therapy-dpt/apply).

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required.

**Bachelor's Degree in Discipline/Related Discipline:** All applicants must possess a completed baccalaureate degree in any discipline with a minimum GPA of 3.0 on a 4.0 scale or be designated as a matriculant in an internal articulation agreement (i.e., Temple 3+3 applicant) between approved undergraduate departments at Temple University and the Department of Physical Therapy.

**Statement of Goals:** This written essay details reasons why the applicant wants to work in the field of Physical Therapy. PTCAS also asks several program-specific questions as part of its application.

**Standardized Test Scores:**

**GRE:** Required. Scores from the test taken within the last 5 years should be in the 50th percentile on at least two of the three test sections (verbal, quantitative, and analytical). It is recommended that applicants have a GRE score for all three sections that are at or near the averages for admitted students. Review the average GRE scores for matriculants as well as electronic transmittal instructions in the prerequisites document found at [https://cph.temple.edu/pt/degree-programs/doctor-physical-therapy-dpt/apply](https://cph.temple.edu/pt/degree-programs/doctor-physical-therapy-dpt/apply).

**TOEFL:** Required of international applicants. Scores must be a minimum of 79 iBT or 550 PBT. International applicants should review the document found at [https://cph.temple.edu/sites/chpsw/files/imce_uploads/Information%20for%20International%20Students%20Applying%20to%20Temple%2DPT_2016%20281%29.pdf](https://cph.temple.edu/sites/chpsw/files/imce_uploads/Information%20for%20International%20Students%20Applying%20to%20Temple%2DPT_2016%20281%29.pdf).

**Clearances:** The Physical Therapy D.P.T. program requires students to complete clinical/field education experiences at facilities both on and off Temple University's campuses. These placements require criminal background checks, Act 33/34 clearances, and perhaps a drug screen. Placements also require the student to maintain personal health insurance. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his inability to meet graduation requirements. Additionally, conviction of a

**Recreation Therapy, M.S.**

**Culminating Events:**

**Clinical Experiences:**
Three full-time clinical experiences are required over the course of the degree program. Additionally, beginning in the Fall term of Year 1 and throughout Year 2, five part-time clinical experiences allow students to practice and apply current didactic skills with a variety of patient populations.

The full-time clinical experiences include:

- PHTH 9185 Clinical Experience 1, taken for 8 credits over 12 weeks in the Summer term between Years 2 and 3.
- PHTH 9285 Clinical Experience 2, taken for 8 credits over 12 weeks beginning in the Fall term of Year 3 and extending into the Spring term of that same academic year.
- PHTH 9385 Clinical Experience 3, taken for 8 credits over 12 weeks immediately following completion of PHTH 9285 Clinical Experience 2.

**Practice Project and Comprehensive Patient Evaluation:**

In the Fall term of Year 3, each student participates in a mentored evidence-based practice project and completes a comprehensive evaluation on a simulated patient.

**About the Program**

The M.S. in Recreation Therapy is designed for individuals who want to advance their knowledge and skills related to evidence-based practice within healthcare and human services. The curriculum teaches from a conceptual model of health promotion and rehabilitation and maintains a lifespan perspective in three core areas: health, disability, and leisure. The primary focus of academic and clinical preparation is on training recreation therapists to use play, recreation, and leisure to achieve and maintain goals related to health promotion, rehabilitation, and full participation in active, meaningful life. Specialization coursework can be used to meet advanced certification with National Council for Therapeutic Recreation Certification (NCTRC) or certification as a Child Life Specialist.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** Interdisciplinary study is encouraged and may be geared toward the student's personal interests (e.g., counseling, exercise science, or special education). The diversity of departments and
programs in the College of Public Health presents abundant opportunities for cross-disciplinary learning.

Affiliation(s): Numerous healthcare and human service agencies in Philadelphia and the surrounding Delaware Valley region cooperate with the Department of Rehabilitation Sciences and offer opportunities for student training and research. These include nationally recognized rehabilitation facilities such as Children’s Hospital of Philadelphia, Magee Rehabilitation Hospital, MossRehab, the Pennsylvania Center for Adapted Sports, the Princeton Medical Center, Shriners’ Hospital, the Temple University Hospital and Health System, United Cerebral Palsy of Philadelphia, and the Variety Club Camp and Developmental Center.

Additionally, graduate students are encouraged and supported to complete internships/clinical practicums in an extensive network of agencies cultivated by the program over the years. These include placements across the country, including California, Colorado, Florida, Georgia, Illinois, Montana, and Virginia.

Ranking: The faculty and the program are nationally recognized for excellence and have received numerous national and state awards for their contributions. Graduates of the program consistently perform well on the national credentialing examination for certified recreation therapists.

Accreditation: The academic program meets or exceeds all current curriculum standards issued by professional organizations and the National Council for Therapeutic Recreation Certification (NCTRC).

Areas of Specialization: Faculty members specialize and offer learning opportunities in adapted sport and inclusive recreation, behavioral health, disability studies, geriatrics, health promotion and rehabilitation, pediatrics, and physical rehabilitation.

Job Prospects: Graduates of the program are highly sought after to begin practicing as recreation therapists. Graduates who use the degree to enter this field are also highly sought after to begin practicing as recreation therapists.

Certification: Professional recognition is granted by NCTRC to individuals who apply and meet established standards for certification, including education, experience, and continuing professional development. The Certified Therapeutic Recreation Specialist (CTRS) credential is offered to qualified individuals when they meet the agency’s stringent standards.

Non-Matriculated Student Policy: Students are allowed to take up to 9 credits of graduate coursework before matriculation. Selection of courses must be made in conjunction with the department’s Graduate Program Director.

Financing Opportunities: Limited funding is available in the form of select assistantships and externships:

- Research Assistants are expected to devote up to 20 hours per week to research obligations. Availability depends on whether faculty have externally funded research grants. Assignments vary depending on the nature of the grant. A Research Assistantship carries a stipend and partial or full tuition remission.
- Graduate Externships are available through other divisions of the university. For example, Temple University’s Recreation Services hires externs to conduct student recreation events, and the Institute on Disabilities hires externs to assist with various projects. Externs do not receive tuition remission. Externship positions are handled directly by the units offering them.

Applying for a position as a Research Assistant or Graduate Extern is done in the form of a letter outlining relevant qualifications and experience. Students are notified as opportunities become available.

Admission Requirements and Deadlines

Application Deadline:
Fall: March 1
Spring: November 1

Late applications may be considered for admission.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 2

From Whom: One letter of recommendation should be obtained from a faculty member familiar with the applicant’s academic competence. One reference letter may be from a professional who can address work-related competencies.

Coursework Required for Admission Consideration: If admitted, students lacking NCTRC national credentialing are required to take leveling and supportive undergraduate courses in addition to the M.S. degree requirements, as shown in Course Sequence B under "Program Requirements."

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree from an accredited post-secondary school is required. All undergraduate majors are considered. A GPA of 3.0 or higher is required, but applicants with a GPA below 3.0 may be considered for admission based on scores at or above the 65th percentile on the Graduate Record Exam (GRE) or Miller Analog Test (MAT) or a GPA of 3.25 in 9 credits of graduate-level coursework.

Statement of Goals: In 500 to 1,000 words, describe why your background and interests make you suitable for a career in Recreation Therapy, your future career goals, and your academic and research interests and accomplishments. Please note that as with many graduate degree programs, the Recreation Therapy M.S. requires scholarly writing. The statement of goals is also reviewed, therefore, as an example of your writing.

Standardized Test Scores:
GRE or MAT: Test scores are considered, along with the undergraduate GPA.

TOEFL: 79 iBT or 550 PBT minimum.

Clearances: The Recreation Therapy M.S. program requires students to complete clinical/field education experiences at facilities both on and off Temple University’s campuses. These placements require criminal background checks, Act 33/34 clearances, and perhaps a drug screen. Placements may also require the student to maintain personal health insurance and/or to submit proof of a physical and immunization records. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his inability to meet graduation requirements. Additionally, conviction of a misdemeanor, felony, or felonious or illegal act may prevent the individual...
from becoming credentialed and/or licensed to practice in the field of therapeutic recreation.

**Resume:** Current professional resume required.

**Transfer Credit:** Graduate credits from an accredited institution are considered for transfer into the M.S. in Recreation Therapy degree program. Such courses are reviewed by the M.S. Program Coordinator to determine whether they are equivalent to coursework offered at Temple and fulfill any degree requirements. The grade must be a "B" or better in order to transfer. The maximum number of credits that may be transferred into the M.S. program is 6. These credits must have been earned within five years of applying to the program.

### Program Requirements

#### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate:*

- 30 for those who hold NCTRC national certification (see Course Sequence A).
- 36 plus 6 credits of Therapeutic Recreation-specific leveling coursework for those without NCTRC national certification (see Course Sequence B). Note that other supportive coursework may be required to sit for the national credentialing examination for recreation therapist certification. Specialization electives can be used to meet advanced certification from NCTRC after one year of full-time employment as a recreation therapist.

Social and Behavioral Health Sciences, Ph.D.

COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)

About the Program

The Department of Social and Behavioral Sciences administers the Ph.D. in Social and Behavioral Health Sciences (SBHS). This program provides advanced training in theory, methods, and research related to social and behavioral influences on population health that prepares students for advanced research and scholarship. The program provides experiences that support interdisciplinary learning; promote critical and theory-based problem-solving skills to address public health threats; and foster the development of professional values and ethics. Heavy emphasis is placed on scientific foundations, research methods, and statistics as well as hands-on research experience. Coursework and experiential learning emphasize the dynamic interaction of individual difference characteristics, social circumstances, and situational factors influencing health-promoting and health-damaging behavior and behavior change. Required research courses, structured research experiences each academic term, colloquium presentations, and coursework in teaching and grant-writing expand students’ knowledge and application of research methods and analytic techniques while facilitating professional development and scholarship. Students choose advanced training opportunities in concentration electives with close consultation from a faculty mentor to ensure proper breadth and depth of training in the students’ emerging areas of expertise. A publishable first-authored paper is required prior to sitting for the preliminary examinations to further facilitate students’ focus on scholarship.

Throughout enrollment in the program, students are expected to actively participate in scholarly activities and develop their own line of independent research that will contribute to their area of interest within the social and behavioral health sciences. Many opportunities lie in the Department of Social and Behavioral Sciences for research mentorship with internationally renowned faculty affiliated with dynamic research laboratories and centers, including the Center for Obesity Research and Education, the Health Behavior and Research Clinic, the Health Disparities Research Laboratory, the Risk Communication Laboratory, and the Social and Behavioral Health Interventions Laboratory, as well as the Dean’s Research Group. Collectively, centers and labs in the Department of Social and Behavioral Sciences develop, test, and evaluate interventions aimed at resolving significant public health problems in high-risk and vulnerable populations. Examples of research content areas in which Department faculty are actively involved include cancer control (e.g., smoking cessation); cancer prevention and decision making (e.g., early detection and screening); cancer survivorship (e.g., online and live support groups); ethnic and racial disparities in cancer; health systems research; obesity; and violence. Research mentors in these labs offer opportunities for research placements and provide professional socialization; help define dissertation projects using existing funded studies; and may provide some funding in the form of Research Assistantships. Students in the PhD-SBHS program also are expected to participate in ongoing professional development opportunities, including journal clubs, colloquia, and brown-bag research presentations.

Time Limit for Degree Completion: 7 years
Campus Location: Main

Full-Time/Part-Time Status: Full-time study is preferred.

Interdisciplinary Study: Students are encouraged to develop programs of study that are interdisciplinary in nature, involving coursework across departments, schools, and colleges.

Affiliation(s): Students are expected to work in close collaboration with their faculty research mentor in the Department of Social and Behavioral Sciences. In addition, students can consider collaborative research projects across affiliated units within the College of Public Health. A list of active research centers can be found on the College of Public Health website at https://cpm.temple.edu/research. Faculty and doctoral students also are involved in research with affiliates across the University, including the Fox Chase Cancer Center, the Fox School of Business and Management, the Institute on Aging, the Institute on Disabilities, the Lewis Katz School of Medicine, the School of Media and Communication, and the School of Podiatric Medicine. Additional research opportunities at Temple University include the Institute for Survey Research, the Office of Institutional Research and Assessment, and the Social Science Data Library.

Areas of Specialization: The Ph.D. in Social and Behavioral Health Sciences (SBHS) is one of two doctoral programs offered in Public Health. The other is the Ph.D. in Health Policy. Students in both Ph.D. programs complete common core course requirements that include foundational instruction in Bioethics, Biostatistics, Epidemiology, History of Public Health, and Theory of Health Behavior. Core coursework combines conceptual and experiential learning to teach historical and sociocultural approaches to understanding public health and addressing public health priorities, particularly in vulnerable populations. In addition, both Ph.D. programs:

- provide training and experiences that support interdisciplinary learning;
- promote critical and theory-based problem-solving skills to address public health problems; and
- foster the development of public health professional values and ethics.

Job Prospects: Graduates of the Ph.D. programs are prepared to become faculty members or researchers in colleges and universities or to hold research-related positions in a wide range of organizations, such as agencies promoting community and public health, consulting firms, foundations, healthcare systems, nonprofits, and research centers. Graduates are employed in health systems, hospitals and clinics, public health departments, public health and other healthcare and human service agencies, and universities.

Non-Matriculated Student Policy: Doctoral coursework is open only to students enrolled in the PhD-SBHS program.

Financing Opportunities: Full-time Ph.D. students generally receive financial support through a combination of fellowships and assistantships.

University Fellowships: University fellowships provide a stipend and tuition for two years of study. The College of Public Health provides assistantships to cover two additional years of study. The Department of Social and Behavioral Sciences nominates outstanding applicants for consideration for the following fellowship opportunities:

- Presidential Fellowships are the most prestigious awards. Competition is reserved for only the most outstanding candidates.
- University Fellowships are awarded to outstanding incoming graduate students. These awards are intended to support students who demonstrate outstanding potential for success in their chosen fields.
- Future Faculty Fellowships are intended to attract outstanding students who would diversify the professoriate. Candidates are newly admitted graduate students from underrepresented groups in the applicant’s discipline who show exceptional leadership and/or have overcome significant obstacles in pursuing an academic career. For more information, visit http://www.temple.edu/grad/finances/fff_program.htm.

College of Public Health Graduate Assistantships: Graduate assistantships sponsored by the College of Public Health include the following:

- Research Assistants (RAs) perform supervised research activities. Research assistantships are frequently supported by faculty grant funding, and it is anticipated the RAs will work with faculty members on new and continuing grant proposals and develop both research and grant-writing competencies.
- Teaching Assistants (TAs) support faculty in the teaching of courses, with activities that include grading examinations/papers or teaching occasional lecture sections. One purpose of a TA opportunity is to develop competencies in current pedagogies that prepare students for academic teaching careers.

TAs and RAs provide 20 hours of service per week. Both assistantships carry a stipend and typically tuition remission for up to 9 credits per term. Consideration for admission with an assistantship requires a description of research and teaching experience; a statement of research and teaching goals; and identification of areas of interest, including identification of potential faculty mentors and articulation of career goals consistent with the mission and purpose of the PhD-SBHS program. Offers of admission are generally accompanied by a fellowship or assistantship offer. Students with full funding from another source (e.g., government funding) are given full consideration in the admission process. Self-funding through external employment is highly discouraged as it can impede progress in the program. Information regarding funding opportunities at Temple can be found at http://www.temple.edu/grad/finances/index.htm.

Admission Requirements and Deadlines

Fall: January 2

All applicants to the PhD-SBHS program must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://portal.sophas.org/. A supplemental application is also required to be submitted directly to Temple University at http://www.temple.edu/apply/common/appcheck.asp.

All application materials must be received by the deadline in order to be reviewed by the Ph.D. Admissions Committee. Admission is competitive, and students are admitted only once a year. Applications are evaluated together after the deadline has passed. Applications that are completed after the deadline are held for review the following year. An important component of the admissions decision is the fit between the applicant's
goals, experiences, and interests and the expertise of the faculty in the Ph.D. program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from evaluators who can provide insight into the applicant’s academic and research experiences and talents, as well as comment on the applicant’s aptitude for doctoral-level study and research. Recommendations from college/university faculty members are preferred.

Coursework Required for Admission Consideration: Applicants are expected to have completed coursework in the natural, social, or behavioral sciences related to health. Coursework in statistics and research methods is desirable. The following prerequisites, which do not count toward the Ph.D., must also be satisfied, either through the College of Public Health’s graduate certificate in Public Health, by an M.P.H. degree, or through course equivalency:

- ENV H 5103: Environmental Health 3
- EPBI 5002: Biostatistics 3
- EPBI 5101: Fundamentals of Epidemiology 3
- HPM 5006: Political and Economic Aspects of Health 3
- or HPM 8003: Political-Economic Aspects of Public Health
- SBS 5102: Theoretical Foundations of Health Behavior 3

Master’s Degree in Discipline/Related Discipline: Nearly all students admitted to the program have a master’s degree. Although a master’s degree specifically in Public Health is not required, preference is given to applicants who have a background in the health sciences, including behavioral medicine, environmental health, epidemiology, health communication, health psychology, medicine, or a public health discipline.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree is required, although it need not be in Public Health. Preference is given to applicants who have a background in the health sciences, including behavioral medicine, environmental health, epidemiology, health communication, health psychology, medicine, or a public health discipline.

Statement of Goals: In no more than 750 words:
- identify the Social and Behavioral Health Sciences doctorate as the program for which you wish to be considered and why;
- describe important academic and research achievements and interests; and
- specify how your research interests relate to your ultimate career goals and to ongoing work by faculty members affiliated with the PhD-SBHS program.

The match between faculty and student interests is important in the admissions decision. Be sure to articulate clearly the linkages among your training goals, the expertise of our faculty, and the training emphasis of the Ph.D. program. For a description of faculty interests and active research, visit https://cph.temple.edu/socialbehavioral/about-us/faculty.

Standardized Test Scores:
GRE: Required. The median score of recently admitted applicants is above the 50th percentile on the verbal and quantitative subscales.

TOEFL (international applicants only): 79 iBT or 550 PBT minimum.

Resume: Current CV required.

Writing Sample: Scholarly articles, technical reports, or academic papers are preferred. Unless it is a published work (e.g., a book chapter or peer-reviewed journal article), the writing sample should be no more than 10 pages.

Advanced Standing: A student enrolled in the PhD-SBHS program may apply for advanced standing credits for graduate coursework graded “B” or better from an accredited institution. Credits for courses taken as part of a master’s degree are considered; credits for thesis, fieldwork, clinical practice, or directed projects/ readings cannot be used for advanced standing credit. To be approved for advanced standing, the courses must be deemed appropriate as part of the student’s training in the PhD-SBHS program. The maximum number of advanced standing credits awarded is 9.

Program Requirements
General Program Requirements:
Total Number of Credits Required: 45 (some of which may be in the form of Advanced Standing credit, as determined after matriculation)

Required Courses:
- College Core Courses
  - HRPR 5001: Current and Emerging Issues in Public Health and Health Professions 0
  - Teaching Practicum 0
- SBHS Core Courses
  - HPM 8012: Program Evaluation 3
  - SBS 8009: Health Psychology 3
  - SBS 8105: Health Communication 3
  - SBS 8111: Public Health Program Planning 3
- Research and Methods Courses
  - EPBI 8012: Multivariate Biostatistics 1 3
  - EPBI 8201: Structural Equation Modeling 1 3
  - EPBI 8212: Grantsmanship in Health Research 3
  - HRPR 5999: Research Experience in Health Professions 2 0
  - SBS 8001: Research Methods in Public Health 3
  - Electives 3 15

Non-Didactic Courses 4
- SBS 9994: Preliminary Examinations 1
- SBS 9998: Dissertation Proposal Research 2
- SBS 9999: Dissertation Research 3

Total Credit Hours 45

1 Students may select an alternate advanced statistics course with the approval of a faculty advisor.
2 Students engage in a project with a research mentor, as approved by the Director of Graduate Studies.
3 Electives include SBS 8004 Understanding Stress and Change (3 s.h.), SBS 8005 Health Promotion in Vulnerable Populations (3 s.h.), SBS 8006 Addictions and Dependencies (3 s.h.), SBS 8018 Obesity: From Genes to Junk Food (3 s.h.), and SBS 9083 Readings and Conference in Public Health (3 s.h.). Students may select other electives with the approval of a faculty advisor.

The Graduate School requires that students complete a minimum of 6 credits that include SBS 9994, SBS 9998, and SBS 9999. Of the 6 credits, at least 2 credits must be earned in the dissertation phase (SBS 9999).

Culminating Events:

Area Paper:

Prior to sitting for the preliminary examinations, students must have successfully published or written a publishable paper in their chosen area of research interest. The purpose of the paper requirement is to demonstrate critical and interpretive knowledge in specialized areas of one’s chosen program, as well as a high proficiency in written communication and a capacity to contribute to generalizable knowledge in the field. The student must be the lead or sole author.

A student cannot advance to the preliminary examinations without passing the paper requirement. Failure to satisfactorily complete the area paper requirement within the specified time frame can result in dismissal from the Ph.D. program. Students who are entering the Ph.D. program and have already published a peer-reviewed paper related to their programmatic subdiscipline can request to waive this requirement by completing a waiver application and submitting it along with the published document to the Director of Graduate Studies.

Preliminary Examinations (SBS 9994):

After completing the paper requirement, all students are required to take the preliminary examinations prior to defending their dissertation research proposal. The preliminary examinations cover all of the core components of the students’ training, including the specific program. The exams should be taken within one term of completing all coursework. The student must register for 1 credit of SBS 9994 in the term in which the examinations are taken. To register for SBS 9994, the student must have completed all coursework or be enrolled in final courses in the term in which the examinations are taken. The exams cannot be taken until all Incomplete and/or “NR” grades are removed and the area paper requirement has been satisfied. Students are required to meet with their advisor and Director of Graduate Studies before the beginning of the term in which they plan to take the examinations to establish eligibility. Special authorization is required to register.

The preliminary examinations consist of the following components:

- Two one-week take-home written examinations, with an emphasis on the student’s concentration, about:
  1. the history and bioethics of Public Health, and
  2. the scientific foundations of Public Health.
- Methods exam, which is a four-hour in-class examination on research methods and statistics.

Students who fail these exams may have one opportunity to take the examinations again. A second failure results in automatic dismissal from the Ph.D. program.

Dissertation Proposal (SBS 9998):

After passing the preliminary examinations, students may enroll in SBS 9998. Students must be enrolled for 1 credit of SBS 9998 each term until they file their dissertation proposal with the Graduate School.

All students must form a Doctoral Advisory Committee (DAC) with the approval of the Director of Graduate Studies. The DAC is composed of at least three Graduate Faculty members: two members, including the chair, must be from the Ph.D. program faculty of the relevant department. The DAC Chair must be approved as Doctoral Graduate Faculty by the Dean of the College of Public Health and by the Graduate School. The chair is responsible for overseeing and guiding the student’s progress; coordinating the responses of the Committee members; and informing the student and the Director of Graduate Studies annually of the student’s academic progress. A fourth, external reader is also required at the time of the final dissertation defense. This person must be a member of the Graduate Faculty at Temple or approved by the Dean of the College to take part in the final dissertation examination. This fourth member is not required to be present at the defense of the proposal.

To fulfill the requirements of SBS 9998, students must submit a dissertation proposal, successfully defend it orally before their Committee, apply for IRB approval for the proposed research, and submit the proposal to the Graduate School. Students have a maximum of one year from the time of completing their preliminary examinations to develop and defend their dissertation proposal. Thus, students may enroll in SBS 9998 for only two terms without permission. Students needing more time may, with the support of their advisor, formally petition the Director of Graduate Studies for an extension, although an extension is not guaranteed. Failure to meet these requirements can result in dismissal from the program.

Dissertation (SBS 9999):

The doctoral dissertation is an original theory-based research study that makes a significant contribution to the field of Public Health. It should expand existing knowledge and demonstrate the student’s mastery of theory and research methods, particularly within a concentration or specialty area. The research should be rigorous, while upholding the ethics and standards of the field. Students are expected to submit their dissertation study for publication and presentation to professional audiences.

To fulfill the dissertation requirement, students must prepare and orally defend the final dissertation in a public meeting. Students should present their plans for publishing their dissertation as part of their defense. Students must be enrolled continuously for at least 3 credits of dissertation research until their dissertation is successfully defended. The Graduate School requires a minimum of 2 credits of SBS 9999. Students must be enrolled in the course in the term that they graduate.

The Dissertation Examining Committee (DEC) consists of the DAC plus at least one additional external reviewer. The external reviewer must be doctorally prepared. If this person is not a member of the Temple University Graduate Faculty, s/he must be approved by the Director of Graduate Studies, the Dean of the College, and the Graduate School to take part in the final dissertation examination. The DEC evaluates the student’s written dissertation and oral defense, including the student’s ability to articulate orally the research question; methodological approach; primary findings; interpretation of the findings; and implications for theory, research, and practice. The DEC votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

If a student needs to change a member of a committee, the new member must be approved by the Director of Graduate Studies and registered with the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their DEC and work with their department’s administrative assistant to secure a room. This should be done at least one month in advance of the proposed date. The Administrative Assistant arranges the time, date, and room within two working days. After the time, date, and room are secured, the student must send to the Graduate School a completed “Announcement of Dissertation Defense” form.
found at http://www.temple.edu/grad/forms/. This must be submitted at least 10 working days before the defense. The department posts flyers announcing the defense, and the Graduate School lists the defense on its website.

Social and Behavioral Sciences, M.P.H.

COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)

About the Program

The Department of Social and Behavioral Sciences offers the Master of Public Health in Social and Behavioral Sciences. The M.P.H. in Social and Behavioral Sciences is a terminal, professional degree that prepares students to design, implement, and evaluate interventions directed toward identified public health problems in communities. This program aims to prepare public health practitioners to identify and assess the needs of populations; plan, implement, and evaluate programs to address those needs; and ensure that the needs of diverse populations are met to improve their overall health status. The program has a strong focus on addressing the behavioral, social, and cultural factors related to individual and population health and health disparities over the life course, as well as the social and behavioral aspects of community health, health communication, program implementation and evaluation, and health education. Research and practice in this area contribute to the development, administration, and evaluation of programs in public health, which promote and sustain healthy lives for individuals and communities.

Applicants to the M.P.H. in Social and Behavioral Sciences can choose between our on-campus program or our online program. The delivery formats differ, as described below:

1. The on-campus format is designed for students who prefer live interaction with instructors and fellow students; access to campus activities; and the opportunity to choose local Philadelphia fieldwork placements with the assistance of our fieldwork coordinator. Students can enroll full-time or part-time. While some courses may be offered online or in hybrid formats, most of the coursework is delivered in person over a full 16-week semester during evening hours. For more information about the on-campus M.P.H. program, contact Theresa White, Senior Graduate Advisor, at theresawhite@temple.edu or 215-204-5105.

2. The online format is designed for working professionals interested in a part-time program. Courses are structured to include asynchronous assignments plus a once-a-week synchronous class meeting via WebEx. Students in the online program take a sequence of 6-week courses, one at a time, during their enrollment. A fieldwork coordinator works with students to find appropriate placement in their preferred geographic location. For more information about the online M.P.H. program, please contact Dr. Anne Frankel, Online Program Coordinator, at anne.frankel@temple.edu or 215-204-9117.

Time Limit for Degree Completion: 4 years

Campus Location: Main for the on-campus M.P.H. program and online

Full-Time/Part-Time Status: Full-time students usually complete the program within two academic years. Part-time students usually take three to four years to complete their degree.

Interdisciplinary Study: Interdisciplinary M.P.H. coursework, research, and interactions with students and faculty in other departments are encouraged to give students as broad a perspective as possible to excel in the diverse, dynamic, and multidisciplinary field of public health. Through associations with the Center for Obesity Research and Education, the Health Behavior and Research Clinic, the Health Disparities Research Lab, the Risk Communication Laboratory, and the Social and Behavioral Health Interventions Laboratory, among others, students have access to dozens of faculty at Temple University and additional regional scholars who are actively involved in programs, research, and teaching in public health.

Five on-campus dual M.P.H. degree programs are currently offered in addition to the single-degree M.P.H. in Social and Behavioral Sciences:

- D.M.D./M.P.H. with Temple University's Kornberg School of Dentistry
- D.O./M.P.H. with the Philadelphia College of Osteopathic Medicine
- D.P.M./M.P.H. with the Temple University School of Podiatric Medicine
- J.D./M.P.H. with Temple University's Beasley School of Law
- M.D./M.P.H. with the Lewis Katz School of Medicine at Temple University

A sixth dual degree program, namely, the M.S.W./M.P.H. with the Temple University School of Social Work, is offered both on-campus and online.
Affiliation(s): On-campus M.P.H. students choose from a wide range of community agency fieldwork placement options throughout Philadelphia as a result of dozens of affiliation agreements with the program. For example, the program has long-standing research and fieldwork affiliations with The Food Trust, Fox Chase Cancer Center, the Health Federation of Philadelphia, NORTH, Inc. (managers of the Philadelphia WIC program), the Philadelphia Department of Public Health, the Public Health Management Corporation (PHMC) and its subsidiaries, the School District of Philadelphia, and many other community health agencies.

The fieldwork coordinator assists online students in finding appropriate placement in their preferred geographic region.

Study Abroad: Depending on faculty availability, study abroad opportunities may be offered during the summer and are open to both undergraduate and graduate students.

Accreditation: The M.P.H. is fully accredited by the Council on Education for Public Health (CEPH). Temple’s M.P.H. programs first achieved accreditation in 1985 and are among the longest established accredited M.P.H. programs in the region.

Areas of Specialization: In addition to the M.P.H. program in Social and Behavioral Sciences offered on Main campus, the College of Public Health offers four other on-campus M.P.H. programs with different specialty fields of study:

- Applied Biostatistics (APBS)
- Environmental Health (ENVH)
- Epidemiology (EPID)
- Health Policy and Management (HPM)

Job Prospects: Graduates with an M.P.H. in Social and Behavioral Sciences have gained employment in a wide range of health-related settings, including state and local public health departments, community-based organizations, voluntary health agencies, health maintenance organizations, hospitals, clinics, schools, and work sites. Graduates are employed as health educators and counselors, evaluation specialists, marketing specialists, prevention specialists, project directors, research and community health program managers, HIV/AIDS coordinators, infection control coordinators, adjunct faculty, and consultants. Virtually all students are placed within three to six months of graduation.

Licensure: Students who complete an M.P.H. at Temple University may be eligible to sit for the Certification in Public Health (CPH) exam and the Certified Health Education Specialist (CHES) exam.

Non-Matriculated Student Policy: Non-matriculated students are required to speak with an advisor and to obtain the permission of the professor before registering for classes, whether the coursework is taken in the on-campus or online format. If accepted to the program, a maximum of three courses may be applied toward the degree program. Exceptions to this policy relate to formal certificate programs.

Financing Opportunities: In both the Fall and Spring terms, the College of Public Health and Department of Social and Behavioral Sciences award a limited number of partial scholarships on a competitive basis to students with an outstanding academic record. No separate application is needed for these awards as outstanding applicants are automatically considered following submission of their application.

Limited Teaching and Research Assistantships are available to on-campus M.P.H. students in the College of Public Health. The Graduate School website details levels of support, benefits, and the terms and conditions of these types of graduate student support at http://www.temple.edu/grad/finances/. Assistantships are awarded on a term or annual basis. Students whose Fall applications are complete prior to or at the application deadline are reviewed for eligibility for Teaching Assistant (TA) positions. TAs may work up to 20 hours per week in any combination of teaching assignments made by the department and must meet the English Language Proficiency standards set by the University and the College. Students who hold Teaching or Research Assistantships are not permitted to hold other employment without the written prior approval of their advisor, the Director of Graduate Studies, and the Graduate School. To be considered for a TA or RA position, complete an application form that is sent to students upon admission to the M.P.H. program. For more information, contact Theresa White, Senior Graduate Advisor, at theresawhite@temple.edu or 215-204-5105.

Students may also be eligible for financial support through the Office of Student Financial Services. See http://sfs.temple.edu/.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1  
Spring: November 1

All applicants to the M.P.H. program must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://portal.sophas.org/. A supplemental application is also required to be submitted directly to Temple University at http://www.temple.edu/apply/common/appcheck.asp. Late applications may be considered for admission.

Applicants should check their application status on the SOPHAS portal often and inquire directly of SOPHAS about receipt of materials. For other questions, please contact Theresa White, Senior Graduate Advisor, at theresawhite@temple.edu or 215-204-5105.

Deposit Deadline for Admitted Applicants:

Fall: April 30  
Spring: December 15

Applicants who are accepted to the program must pay a $200 deposit to secure their enrollment. For questions about the deposit and payment process or to request an extension, contact Theresa White, Senior Graduate Advisor, at theresawhite@temple.edu or 215-204-5105.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation, which are completed electronically through the SOPHAS system, should be obtained from college/university faculty members familiar with academic competence. If the applicant has been out of school for a long time, please ensure that letters are from supervising employers or professional colleagues who can speak to the applicant’s academic abilities, such as writing and research.

Coursework Required for Admission Consideration: Applicants’ files are reviewed for undergraduate coursework in mathematics and/or statistics, social science, and writing.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree is required.
Statement of Goals: Within 1,000 words, address the following items:

- What are your interests in Public Health, and why are you planning to pursue an M.P.H. in Social and Behavioral Sciences?
- What are your future career goals, and what have you done either academically or professionally to guide your interest in Public Health and to begin preparation toward your career goals?
- Are there any exceptional circumstances related to previous academic performance that you would like the Admissions Committee to consider?

Standardized Test Scores:

GRE: Required. While the program takes a portfolio approach to admissions, standardized tests provide important insight into quantitative and verbal abilities. Minimum scores around the 50th percentile on the verbal and quantitative sections are preferred.

Applicants who have a minimum GPA of 3.00 on undergraduate mathematics or statistics courses and have an undergraduate cumulative GPA of at least 3.25 may request that their GRE scores be waived from consideration in their application portfolio. To request a waiver or if you have other questions, contact Theresa White, Senior Graduate Advisor, at theresawhite@temple.edu or 215-204-5105.

Standardized tests considered in lieu of the GRE include DAT, GMAT, LSAT, MCAT, OAT, and PCAT.

TOEFL: 79 iBT or 550 PBT minimum

Clearances: The M.P.H. programs require students to complete clinical/field education experiences at facilities both on and off Temple University’s campuses. These placements may require criminal background checks, Act 33/34 clearances, and perhaps a drug screen. The results of these requirements may limit and potentially eliminate placement options, which can, in turn, result in the student’s inability to meet graduation requirements.

Resume: Current resume required.

Transfer Credit: Graduate credits earned through other M.P.H. programs accredited by the Council on Education for Public Health (CEPH) may be transferred into Temple’s M.P.H. in Social and Behavioral Sciences program. The credits must be equivalent to coursework offered at Temple, and the grade must be a “B” or better in order to transfer. The Director of Graduate Studies approves the transfer of credits based on a review of course materials provided by the student. The maximum number of credits a student may transfer is 9.

Test Waivers: Graduates with a terminal degree from a U.S. medical school, foreign-trained physicians who have obtained licensure to practice in the United States, and those with Ph.D.'s may have the GRE requirement waived.

Clinical Fieldwork Experience

The M.P.H. fieldwork practicum is the capstone experience of the M.P.H. educational program and takes place over two terms during the student’s final year in the program. The fieldwork practicum requires a student to synthesize and integrate the knowledge acquired in coursework and other learning experiences and to apply theory and principles in a placement that approximates some aspect of professional practice. The internship or practicum experience occurs in a public health agency or under the supervision of a faculty preceptor and in conjunction with two semester courses (SBS 9289 and SBS 9389) taught by department faculty. The M.P.H. fieldwork experience is required by the Council on Education for Public Health (CEPH), the accrediting body of all U.S. schools of public health, for completion of the M.P.H. degree. In addition, this culminating experience provides the student with the opportunity to develop expertise in a topic area and to contribute original and independent observations to a body of knowledge.

For the culminating experience to fulfill the requirements of SBS 9289 and SBS 9389, M.P.H. in Social and Behavioral Sciences students are expected to complete a fieldwork experience, which enables them to:

- Explain the contributions of social and behavioral sciences to public health.
- Describe health problems, including their social, cultural, environmental, and behavioral causes.
• Ensure that social and behavioral science theories and concepts are used in planning and evaluating public health programs.

• Use behavioral science and health promotion methods in planning/evaluating public health programs.

• Apply ethical principles to public health program planning, implementation, and evaluation.

• Identify multiple targets and levels of intervention for social and behavioral science programs and/or policies, including individual, family, network, organizational, community, policy, physical environment, and culture.

A final paper is the required deliverable for the M.P.H. fieldwork requirement. Students must also demonstrate their proficiency and the application of theory and principles in the paper and demonstrate mastery of the required competencies during the oral defense. The evaluation of the M.P.H. fieldwork practicum experience, therefore, is integrated into the culminating experience requirement.

Speech, Language and Hearing Science, M.A.

The M.A. program in Speech, Language and Hearing Science (MA-SLH) is committed to the education of high-quality clinical professionals able to deal creatively with the broadest possible range of populations, settings, and speech-language-swallowing disorders. The program provides students with a rich variety of supervised clinical experiences at its own Temple University Speech-Language-Hearing Center (TUSLHC) on Main campus and at more than 80 field affiliate settings throughout the Delaware Valley. In addition, the department maintains strong connections with faculty members and practitioners at Temple University Hospital, the Lewis Katz School of Medicine at Temple University, and other departments in the College of Public Health. Graduates of the program have consistently gone on to significant careers throughout the United States and abroad. Opportunities exist for pursuing research interests under faculty guidance through independent study courses or the writing of a master’s thesis.

Time Limit for Degree Completion: 2 years (six terms, including required enrollment in two summer sessions) with a bachelor’s degree in Communication Sciences and Disorders; 3 years (eight or nine terms, including required enrollment in two or three summer sessions) without a bachelor’s degree in Communication Sciences and Disorders.

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program through full-time enrollment.

Interdisciplinary Study: The faculty itself is interdisciplinary with representation from Audiology, Cognitive and Neuropsychology, Linguistics, Speech Motor Control, and Speech-Language Pathology. A colloquium series and series of grand rounds presentations include speakers from outside the department and the University.

Affiliation(s): The program has research affiliations with the Temple University Hospital and Lewis Katz School of Medicine; the American Institute for Voice and Ear Research; MossRehab; New York University; The Pennsylvania State University; University of California, Irvine; University of North Carolina; and University of South Florida. The tri-state area around Philadelphia offers a culturally diverse setting with urban, suburban, and even rural areas, affording a variety of opportunities for students to engage in clinical practica in over 80 affiliated clinical sites that include schools, acute care and rehabilitation hospitals, skilled nursing facilities, private practice, and early intervention agencies.

Ranking: The program is ranked 29th nationally among approximately 250 ASHA-certified programs.

Accreditation: The Master of Arts in Speech, Language and Hearing Science (MA-SLH) education program at Temple University is accredited by the Council on Academic Accreditation in Audiology and Speech Language Pathology (CAA) of the American Speech-Language-Hearing Association, 2200 Research Boulevard #310, Rockville, Maryland 20850, 800-498-2071 or 301-296-5700.

Areas of Specialization: Students completing the master’s program are generalists with expertise in a wide variety of disorders and population types. Courses and supervised diagnostic and therapeutic experiences involve both children and adults, and encompass a range of disorders, including dysfluency, dysphagia, hearing disorders, language disorders, motor speech disorders, phonological disorders, and voice disorders. Faculty conduct supervised research in such areas as phonological, syntactic, and pragmatic development and language disorders in
monolingual and bilingual children, adult aphasia, voice disorders, communication in aging individuals, and speech physiology.

**Job Prospects:** Graduates are employed in hospitals, rehabilitation centers, schools, private practices, and universities. The placement rate for graduates seeking employment in the field is 100%.

**Licensure:** To complete the process for the Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP) from the Council for Clinical Certification (CFCC) of the American Speech-Language-Hearing Association, graduates must pass the national Praxis® examination in Speech-Language Pathology and must complete a Clinical Fellow experience after graduation. Graduates of the program are eligible to apply for the Instructional I Certificate through the Pennsylvania Department of Education upon successful completion of the Praxis® examination in Speech-Language Pathology and the Praxis II® Fundamental Subjects: Content Knowledge examination. Additional state-mandated requirements may apply for graduates employed in the public schools in states other than Pennsylvania. Each state has its own licensing procedures in addition to those of the CCC-SLP.

**Non-Matriculated Student Policy:** Non-matriculated students must have departmental permission to enroll in graduate courses. No more than 9 credits of graduate coursework taken as a non-matriculated student may be counted toward the degree. In order to enroll in courses as a non-matriculated student, individuals must supply the department with an official transcript from their undergraduate institution and syllabi from the courses that satisfy the prerequisite requirements for the graduate-level courses the student is requesting to take. A grade of "B-" or better must have been attained in the prerequisite classes, and an overall undergraduate GPA greater than 3.0 must have been earned. If these requirements are met, non-matriculated students, with the department's permission, are permitted to take up to three of the following four courses:

<table>
<thead>
<tr>

</tbody>
</table>

For more information, contact Dawn Dandridge (ddandrid@temple.edu), Coordinator of Student Services.

**Financing Opportunities:** For information on financial aid, please contact the Office of Student Financial Services at 215-204-2244.

**Admission Requirements and Deadlines**

**Application Deadline:**

- **Fall:** February 1

All applicants to the M.A. program in Speech, Language and Hearing Science must apply via the Communication Science and Disorders Centralized Application Service (CSDCAS), as well as the supplemental application for Temple University. The CSDCAS system can be accessed at https://portal.csdcas.org/. The supplemental application is also required to be submitted directly to Temple University at http://www.temple.edu/apply/common/appcheck.asp.

**Letters of Reference:**

**Number Required:** 3

**From Whom:** Recommendations should be obtained from teachers, clinical supervisors, or others who can speak to the applicant's academic or clinical abilities and personal integrity. Two of the recommendations must be professional/academic in nature.

**Coursework Required for Admission Consideration:** Prerequisites to graduate study, which may be taken during the first year of graduate study if not completed previously, include the following courses or equivalent subject knowledge:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>

</tbody>
</table>

**Total Credit Hours** 32

**Bachelor's Degree in Discipline/Related Discipline:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

**Statement of Goals:** One writing sample is required. It should address your goals and the prompts outlined on the CSDCAS application.

**Standardized Test Scores:**

- **GRE:** Required. Scores on the verbal and quantitative sections are expected to fall at or above the 50th percentile.
- **TOEFL:** 79 iBT or 550 PBT minimum.

**Clearances:** The Speech, Language and Hearing Science M.A. program requires students to complete clinical/field education experiences at facilities both on and off Temple University’s campuses. These placements require criminal background checks, Act 33/34 clearances (for working with children and vulnerable populations), and often a drug screen and CPR certification. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his inability to meet graduation requirements. Additionally, conviction of a misdemeanor, felony, or felonious or illegal act may prevent the student from becoming credentialed and/or licensed to practice as a Speech Language Pathologist.

**Transfer Credit:** On the recommendation of the student’s advisor, the department may accept transfer of graduate credits from an accredited institution. Grades must be "B" or better. The maximum number of credits a student may transfer is 6.

**Program Requirements**

**General Program Requirements:**

- **Number of Total Credits Required Beyond the Baccalaureate:** 54-59, including 39 credits of academic coursework and 15-20 credits of clinical coursework

**Required Courses:**

**Core Courses**
Proposed Progressive Coursework Outlined by Year and Term:

**Year 2**

**Fall**

- CSCD 5525: Foundations and Management in Fluency 3
- CSCD 5532: Foundations and Management in Hearing Disorders 3
- CSCD 8187: Basic Practicum in Diagnostic Processes 1
- CSCD 8287: Basic Practicum in Therapy Processes 2
- CSCD 8724: Management of Adult Language Disorders 3
- CSCD 8726: Management of Child Language Disorders 3

**Total Credit Hours:** 12

**Spring**

- CSCD 5528: Voice Disorders: Theory and Analysis 3
- CSCD 8187: Basic Practicum in Diagnostic Processes 1
- CSCD 8287: Basic Practicum in Therapy Processes 2
- CSCD 8724: Management of Adult Language Disorders 3
- CSCD 8726: Management of Child Language Disorders 3

**Total Credit Hours:** 13

**Summer**

- CSCD 5525: Foundations and Management in Fluency 3
- CSCD 5532: Foundations and Management in Hearing Disorders 3
- CSCD 8187: Basic Practicum in Diagnostic Processes 1
- CSCD 8721: Management and Foundation in Augmentative and Alternative Communication 2
- CSCD 8722: Foundations and Management in Dysphagia 2
- CSCD 9587: Advanced Practicum in Aphasia 2

**Total Credit Hours:** 13

---

**Proposed Progressive Coursework Outlined by Year and Term:**

**Year 1**

**Fall**

- CSCD 5521: Foundations in Child Language Disorders 3
- CSCD 5522: Foundations and Management in Phonological Disorders 3
- CSCD 5526: Foundations in Adult Language Disorders 3
- CSCD 5531: Applications in Audiology 1
- CSCD 8187: Basic Practicum in Diagnostic Processes 1
- CSCD 8287: Basic Practicum in Therapy Processes 1
- HRPR 5001: Current and Emerging Issues in Public Health and Health Professions 0

**Total Credit Hours:** 12

**Spring**

- CSCD 5528: Voice Disorders: Theory and Analysis 3
- CSCD 8187: Basic Practicum in Diagnostic Processes 1
- CSCD 8287: Basic Practicum in Therapy Processes 2
- CSCD 8724: Management of Adult Language Disorders 3
- CSCD 8726: Management of Child Language Disorders 3

**Total Credit Hours:** 13

---

1. This common College Core course is required of all incoming graduate students in the College of Public Health. It is available completely online and designed such that students can complete the modules at their own pace over the course of their degree program.

2. Students who elect to complete a thesis should select CSCD 9996 Thesis Seminar as their elective.

3. Students enroll in 15 to 19 credits of clinical practicum to complete at least 375 clock hours of a supervised clinical experience to acquire the requisite skills in the evaluation and treatment of speech, language, and swallowing disorders.Credits are earned in CSCD 8147 Basic Practicum in Audiology, CSCD 8187 Basic Practicum in Diagnostic Processes, CSCD 8287 Basic Practicum in Therapy Processes, CSCD 9187 Advanced Practicum in Voice, CSCD 9287 Advanced Practicum in Fluency, CSCD 9387 Advanced Field Practicum in Speech Language Pathology - Child, CSCD 9487 Advanced Field Practicum in Speech Language Pathology - Adult, and CSCD 9587 Advanced Practicum in Aphasia.

**Standards of Scholarship:** A graduate student in the M.A. program is expected to perform in accordance with the standards of scholarship of the Temple University Graduate School and the Department of Communication Sciences and Disorders, including the following:
1. At the time of graduation, the student must have a grade point average of at least 3.0 (equivalent at Temple to the grade of "B").
2. The student's grades will be averaged after the student has completed 15 graduate credits. Unless her/his average is "B" or better, the student will have one additional term to achieve a total grade average of "B" or better. Any time from the end of that term forward that her/his total grade average falls below a "B," s/he will be dropped from the program.
3. A student who receives more than two grades below "B-" or more than one grade of "F" is dismissed for failure to maintain satisfactory grades. Although grades of "C+," "C," and "C-" carry academic credit, receipt of such grades indicates that the student is performing at a substandard level. Additionally, ASHA hours are not accumulated in Clinical Courses (Practicum) with earned grades below a "B-.
4. A student may not graduate without completing all coursework and thus removing any outstanding grades of "I" (incomplete).
5. An M.A. student in the program may apply no more than 6 graduate credits earned at another institution toward the degree.
6. Grades in prerequisite courses taken at Temple or elsewhere, while matriculated in the graduate program, will be counted in determining whether a student has satisfied standards of scholarship described in 1-4 above, but prerequisite credits will not count toward the number of credits required for the master's degree.

Culminating Events:
Students choose between two options: completion of the comprehensive examination or preparation and defense of a master's thesis.

Comprehensive Examination:
The purpose of the comprehensive examination is to demonstrate the application of accumulated knowledge to the basic science and clinical domains. It is typically taken in the final term of study. Details on procedures can be found in the program manual at https://cph.temple.edu/sites/chpsw/files/imce_uploads/ AcadFacAffairs/academic_affairs/handbooks/MA-SLH%20Manual_nov%202016Revised.pdf.

Master's Thesis:
The thesis option is intended to provide an opportunity for students interested in research to conduct a study of greater scope and rigor than is generally possible in the context of a one-term seminar or independent study. Students electing the thesis option enroll for up to 3 credits of CSCD 9996 Thesis Seminar, typically in the Spring of Year 2.

The thesis involves descriptive and/or experimental research and is supervised by a faculty member selected by the student. Students develop a prospectus (i.e., proposal of research to be conducted) in conjunction with their M.A. committee, which consists of the thesis advisor and two other faculty members. A final presentation is given orally to a symposium of faculty and students. The thesis document is submitted to the Graduate School in accordance with its guidelines. Additional details are found in the program manual at https://cph.temple.edu/sites/chpsw/files/imce_uploads/AcadFacAffairs/academic_affairs/handbooks/MA-SLH%20Manual_nov%202016Revised.pdf.

Graduate Certificate: Health Informatics

COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)

About the Certificate
The Health Informatics (HI) certificate is a 12-credit graduate certificate designed to provide students with the skills and competencies needed to embark on or advance a career in health informatics. The certificate program provides hands-on skills taught by industry leaders. The program is designed to expand students' understanding of privacy and security requirements, the role of standards and data exchange, and fundamentals associated with managing health IT. In addition, approximately 50 hours of training and assignments are conducted in an educational EHR setting, providing the student with hands-on skills. All courses are taught at the graduate level and certificate courses count toward the M.S. in Health Informatics if the student continues in the program.

Time Limit for Certificate Completion: 2 years

Campus Location: Online

Full-Time/Part-Time Status: The graduate certificate may be completed on a part-time basis.

Non-Matriculated Student Policy: The certificate program is not open to non-matriculated graduate students. Courses taken in the certificate program count toward the M.S. in Health Informatics if the student continues in the program.

Admission Requirements and Deadlines
Application Deadline:
Fall and Spring admissions are on a rolling basis.
First, complete and submit the Graduate Information Request form found at https://cph.temple.edu/graduate-information-request.

In addition, all applicants must complete Temple University's graduate application. The paper form is available at http://www.temple.edu/grad/admissions/documents/Web_GRAD_APPLICATION_FORM.pdf. Note that the application fee is waived when applying for the certificate program.

Letters of Reference:
Number Required: 2

From Whom: Recommendations must be submitted using the form found at http://www.temple.edu/grad/admissions/documents/Web_GRAD_REFERENCE_REPORT.pdf. Evaluators should be individuals who know the applicant in a professional capacity, such as a faculty member, a supervisor, a colleague, or a co-worker in another department who interacts in a professional capacity.

Bachelor's Degree in Discipline/Related Discipline: Applicants must hold a baccalaureate degree, having earned a cumulative GPA of 3.0 on a 4.0 scale, from an accredited college or university. Official transcripts for courses taken for credit at all colleges/universities attended are required. Transcripts must be original and sent directly to Temple University in a sealed envelope from the original source.

Resume: Current resume or CV required.

Graduate Certificate: Public Health Law Research

COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)

About the Certificate

The field of Public Health Law Research is defined as the scientific study of the effects of laws and legal practices on health. The graduate certificate in Public Health Law Research is a 12-credit experience intended to give students a grounding in public health law with a specific focus on empirical evaluation of policies and laws. In order to advance health through policy initiatives, it is important that there be sound evidence on which to act. Students who complete the certificate program are able to demonstrate the integration of behavioral and organizational theory with a law or policy; describe the mechanism behind a law or policy; and systematically evaluate the law or policy at the level of individual provisions, rather than just a holistic view. The culminating experience for the certificate is an independent project to evaluate a law or policy of the student's choice and communicate the findings.

The transcripted post-baccalaureate certificate in Public Health Law Research is offered in a fully online format to both graduate students at Temple University and those outside Temple who are interested in the field. The certificate is a collaborative effort of the College of Public Health and the Beasley School of Law at Temple University.

Time Limit for Certificate Completion: 2 years

Campus Location: Online

Full-Time/Part-Time Status: The graduate certificate may be completed on a part-time basis.

Non-Matriculated Student Policy: The certificate program is not open to non-matriculated graduate students.

Admission Requirements and Deadlines

Application Deadline:
Fall, Spring, and Summer admissions are on a rolling basis. Interested students should contact the College of Public Health for permission to enroll in coursework.

All applicants to the Public Health Law Research certificate must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://portal.sophas.org/. A supplemental application is also required to be submitted directly to Temple University at http://www.temple.edu/apply/common/appcheck.asp. Late applications may be considered for admission.
Applicants should check their application status on the SOPHAS portal often and inquire directly of SOPHAS about receipt of materials. For other questions, please contact Theresa White, Senior Graduate Advisor, at theresawhite@temple.edu or 215-204-5105.

College of Public Health / School of Social Work

The School of Social Work is an integral part of Temple University's College of Public Health, which is home to various professions that seek to heal and bolster human capacities. The School of Social Work fulfills its mission of building social and economic justice to improve quality of life through teaching, research, and service.

Established at Temple University more than 40 years ago, the School of Social Work prepares its graduates to tackle such diverse issues as child welfare, community capacity building, elder abuse, health services, HIV/AIDS, homelessness, hospice services, juvenile justice, mental health, organizational diversity, poverty, substance abuse, teen pregnancy, and violence against women. The School utilizes:

- education to affect social change;
- research and scholarship to advance knowledge and generate evidence-based strategies to resolve problems;
- public research to aid the dissemination of knowledge and evidence-based strategies; and
- continued responsiveness to meet the changing needs of constituents through collaborations and partnerships with communities, agencies, and organizations.

The Master of Social Work (M.S.W.) degree program is offered today with full-time, part-time, and online options. In addition, a dual-degree program lets M.S.W. students concurrently earn their Master of Public Health (M.P.H.) degree.

Programs

Degree Program and Certificate

- Social Work, M.S.W. (p. 717)
- Graduate Certificate: Military Counseling (p. 721)

Graduate Faculty

For information on Graduate Faculty in the School of Social Work, please refer to the College of Public Health's Graduate Faculty page (http://bulletin.temple.edu/graduate/scd/cph/#graduatefacultytext).

Social Work, M.S.W.

COLLEGE OF PUBLIC HEALTH (http://cph.temple.edu)

SCHOOL OF SOCIAL WORK (https://cph.temple.edu/ssa)

About the Program

The School of Social Work is dedicated to the pursuit of societal transformations that eliminate social, political, and economic injustices for poor and oppressed populations and advance the quality of life for all through:

- Education emphasizing the discovery of knowledge, use of critical inquiry, and application of professional ethics to effect social change among social workers in front-line, supervisory, managerial, and leadership positions.
- Research and scholarship that advances applied knowledge and generates evidence-based strategies to resolve problems between people and their social environments at the local, state, national, and global levels.
- Public service that aids in the dissemination of knowledge and evidence-based strategies.
- Collaborations and partnerships with communities, agencies, and organizations in response to the needs of constituents.

Flexible programming is offered for the M.S.W. and includes:

Regular Standing — Applicants with a bachelor's degree may apply for the 60-credit M.S.W. degree, which has been accredited by the Council on Social Work Education (CSWE):

- Full-time students pursue a degree (15 credits per term) for 2 years, excluding summers. Admission for full-time study is in the Fall term only.
- Part-time students pursue their degree (6 then 9 credits per term) over a 3-year period, including summers. Admission for part-time study is in the Fall term only.

Advanced Standing — Applicants must have earned a B.S.W. degree within the last 5 years from a CSWE-accredited school of social work and be selected for advanced standing status:

- Full-time students begin in Summer I and finish in 12 months, taking 15 credits per term for two terms. Admission is in the Summer term only.
- Part-time students begin in Summer I and finish in 18 months, taking 6 or 9 credits in their first Fall, Spring, Summer, and final Fall terms. Admission is in the Summer term only.

Students who are accepted for advanced standing are awarded 25.5 credits as a result and complete 34.5 credits to earn the 60-credit M.S.W. degree accredited by CSWE.

Time Limit for Degree Completion: 5 years

Campus Locations: Main (full- and part-time), Center City (part-time), Harrisburg (part-time), and online (part-time). Most courses are offered in an in-person format for campus-based students; however, to increase choice, some courses are offered only in an online format. Students based at the Center City campus take Saturday courses in the Fall and Spring; in Summer, they take courses online or at Main campus. Center City and Harrisburg students have limited concentration, specialization, and elective choices.

Full-Time/Part-Time Status: Course times are structured so as to offer a broad range of flexible options for students, many of whom are employed while engaged in their program of study at Temple. Students who are employed full-time are strongly advised to pursue the part-time program.

Interdisciplinary Study: The College of Public Health offers a dual master's degree in Social Work and Public Health. Interested applicants apply separately to each program. A post-master's certificate in Military Counseling is available online.

Study Abroad: Students are permitted to complete up to 6 credits in elective courses abroad. They should consult with their advisor about the timing of degree requirements.

Ranking: For 2015, according to U.S. News & World Report, Temple University's M.S.W. program ranks 64 out of 159 accredited schools of social work.
Accreditation: The M.S.W. degree program is accredited by the Council on Social Work Education (CSWE).

Areas of Specialization: Faculty are engaged in a number of research and service projects pertaining to child welfare, family and community violence, gender and sexual orientation, HIV/AIDS, homelessness, involvement of fathers in families, mental and physical health, poverty, social capital development, and substance abuse. Centers, such as the Center for Social Policy and Community Development, offer rich opportunities for students, faculty, and staff to engage in social work practice training and program evaluation.

Job Prospects: Graduates of the M.S.W. program find employment in public and private social service agencies, as well as in profit and non-profit organizations. Their work encompasses a broad range of responsibilities, including community organizing, counseling, management, program design and implementation, supervision, and training. Graduates are also employed in many different fields of practice, such as adoption support, aging, child protection, developmental disabilities, employment-based social work, HIV/AIDS, hospice care, medical social work, mental health counseling, school social work, and substance abuse.

Licensure: States vary in their requirements for a license to practice social work. Many also offer different levels of licensing. Graduates should contact their local chapter of the National Association of Social Workers (NASW) for information on the specific requirements for licensing in their state. For more information about state licensure, see https://www.aswb.org/licensees/about-licensing-and-regulation/social-work-regulation/.

Non-Matriculated Student Policy: Students must apply for the M.S.W. and be offered a non-matriculated student option. This option is for students who are ultimately seeking the M.S.W. but do not fully meet the admissions requirements.

Financing Opportunities: The School of Social Work awards some aid each year to assist meritorious applicants and continuing students in meeting the cost of their educational program. Awards include partial scholarships, government training grants, and stipends provided by local public and voluntary agencies. Awards are made on the basis of academic merit and the overall promise shown by an applicant for contributing to the School and to the profession. Additional considerations include interest in particular areas of practice for which special funding is available; service in the military, AmeriCorps, AmeriCorps VISTA, or the Peace Corps; and the School’s commitment to maintaining diversity in the student body. Some awards are granted at program admission, while others are designed to support our advanced year, continuing students.

Most awards made by the School of Social Work ordinarily meet only part of the student’s total educational expenses. All students are, therefore, expected to make use of available family and other resources as well as federal grant, loan, and work-study assistance to help meet the cost of their education. Temple University’s Office of Student Financial Services provides assistance with the federal grant/loan/work-study application process.

Admission Requirements and Deadlines

Application Deadline:

Priority Admission for All M.S.W. Programs: January 15 (if interested in a scholarship)
Fall Regular Standing: March 1

Summer I Advanced Standing: March 1

As of September 1, 2016, all applicants to the M.S.W. program must apply via the Social Work Centralized Application Service (SocialWorkCAS). The system can be accessed at https://socialworkcas.liaisoncas.com/applicant-ux/. A supplemental application is also required to be submitted directly to Temple University at http://www.temple.edu/apply/common/appcheck.asp.

Applications are processed as they are completed up to the deadline date. Admission to Temple's M.S.W. program is competitive, so applicants are advised to apply early and to ensure that all supporting documents are received by the SocialWorkCAS system before the deadline. Late applications may be considered for admission.

Letters of Reference:
Number Required: 3, with submission made electronically via https://socialworkcas.liaisoncas.com/applicant-ux/.

From Whom: For regular standing, letters of recommendation should be obtained from faculty and professionals familiar with the applicant’s academic competence and/or professional work experience. Applicants who have graduated from college within the last 5 years should submit at least one reference from a professor or an official of the degree-granting institution. Those with employment experience in the social services or a related field should submit at least one reference from a supervisor or administrator at their place of employment.

If seeking advanced standing, applicants should obtain three references, one of which should be prepared by the B.S.W. Program Director, Senior Practice Seminar Course Instructor, Field Instructor, or Field Coordinator, indicating readiness for advanced standing. See additional requirements for Advanced Standing below.

Coursework Required for Admission Consideration: Social Work education draws heavily from the rich and broad foundation provided by a liberal arts curriculum. All applicants are expected to have completed an undergraduate course of study reflecting this liberal arts foundation.

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of an accredited baccalaureate degree. The minimum acceptable undergraduate GPA for regular standing applicants is 3.0 on a 4.0 scale or 3.5 in the last 2 years of study.

A bachelor's degree in Social Work (B.S.W.) is not required except for advanced standing applicants. Applicants for advanced standing must have achieved an undergraduate GPA of 3.25 overall and at least 3.25 in their junior/senior years.

Statement of Goals: A statement of professional plans and goals is an important component of the admissions application in Social Work. It provides an opportunity for the applicants to show their motivation for pursuing graduate study in the field of Social Work, relevant personal and professional experiences, and knowledge of diversity and social justice. This essay is evaluated on the basis of the applicant’s ability to reflect on and summarize significant and relevant experiences, to conceptualize and think critically, and to write proficiently.

An essay of 4 to 6 pages (double-spaced, 12-point font, with name and page numbers in the header) should be composed in which the applicant:
Applicants for advanced standing must also submit:

- minimum requirements, have: 
- considers a social problem that reflects social injustice or oppression, describes the prevalence of and contributing factors to the problem, and discusses the social injustices associated with the problem.

Applicants applying to the online M.S.W. program must also articulate their rationale for choosing the online format and their plans to meet the time expectations of the program as detailed at http://cph.temple.edu/online-master-social-work.

All applicants should submit their essay electronically via https://socialworkcas.liaisoncas.com/applicant-ux/. Applicants seeking advanced standing are required to submit an additional essay, as described in the "Advanced Standing" section below.

**Standardized Test Scores:**
TOEFL: 79 iBT or 550 PBT minimum

**Clearances:** The Social Work M.S.W. program requires students to complete clinical/field education experiences at facilities both on and off Temple University’s campuses. These placements require criminal background checks, Act 33/34 clearances, and perhaps a drug screen. Placements may also require the student to maintain personal health insurance. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his inability to meet graduation requirements. Additionally, conviction of a misdemeanor, felony, or felonious or illegal act may prevent the student from becoming credentialed and/or licensed to practice social work.

**Resume:** Current professional resume required.

**Advanced Standing:** Applicants from a B.S.W. program accredited by the Council on Social Work Education (CSWE) may be eligible for advanced standing. This enables students, after a required summer "bridge" course that begins in June, to start the second year of study at the advanced curriculum level in their area of specialization. To be considered for advanced standing, students must, in addition to meeting minimum requirements, have:

- earned the B.S.W. no more than 5 years prior to applying;
- achieved an overall undergraduate GPA of 3.25, in addition to a 3.25 GPA in their junior and senior years; and
- received no more than one "C" grade in Social Work courses; that is, all other Social Work grades must be "B" or better.

Applicants for advanced standing must also submit:

- Three references, preferably one from the Senior Practice Seminar Course Instructor, one from the applicant’s Field Instructor for the senior practicum, and the third from the B.S.W. Program Director or another academic source.
- A copy of the Field Instructor’s evaluation form from the undergraduate placement.
- An essay that provides a full description of undergraduate field practicum experiences, including agency names and addresses; types of assignments; types and numbers of clients or client populations served (in a micro, mezzo, or macro capacity); and social work models or approaches used. The essay should be typed, double-spaced, 4 to 6 pages in length, and in APA (6th ed.) format.

Students who have completed their foundation year at another graduate school of social work may also be eligible to transfer in their foundation year credits if they meet the criteria.

**Program Requirements**

**General Program Requirements:**

- **Number of Credits Required Beyond the Baccalaureate:** 60, including 30 in foundation coursework and 30 in advanced-level study

**Required Courses:**

Students are exposed to multiple methods of intervention through foundation coursework. The courses are generalist in nature, allowing students to become familiar with the breadth of social work. Courses cover content in human behavior and the social environment, research, social welfare policy, and social work practice.

Students then select from a range of advanced-level coursework that allows them to examine in greater depth a practice modality (or concentration) and a field of practice (or specialization). Each concentration requires two practice courses, each taken concurrently with an advanced field placement, and one research course. Two concentrations are offered:

- Clinical Practice
- Macro, which is a combination of the former Community and Policy Arenas and the former Management and Planning concentrations

Students also take coursework relevant to their chosen specialization. Each specialization requires a practice course, a policy course, and a human behavior and social environment course. Two major areas of specialization are currently offered because they are of critical importance in Social Work practice:

- Children and Families
- Health and Mental Health

Students may also propose an individualized option for a specialization by working with their advisor to design a coherent plan of study that includes the two types of advanced courses required for a specialization. In some cases, students may need to complete courses outside of the discipline of Social Work. As part of an individualized specialization plan, former students have taken courses in Criminal Justice, Geography and Urban Studies, and Gender, Sexuality, and Women’s Studies. Not all courses are available in an online format.

**Advanced Courses**

SSWG 8504  Integrative Seminar (Specialization Practice course)  3

Select one pair of the following Specialization courses:

Health/Mental Health Specialization

SSWG 8303  Dynamics of Health, Health Care, and Health Systems
SSWG 8307  Health/Mental Health Policy

OR

Children and Family Specialization

SSWG 8403  Children and Families in the Social Environment
SSWG 8407  Policy on Families and Children

Select one set of the following Concentration courses:

Clinical Practice Concentration, which requires these three 3-credit courses:

SSWG 8101  Clinical Practice with Individuals, Families, and Groups I
SSWG 8102  Clinical Practice with Individuals, Families, and Groups II
SSWG 8205  Evaluation of Clinical Practice

OR

Macro Concentration, which requires these two 3-credit courses and a choice of three 1-credit practice courses:

SSWG 8107  Macro Practice in Organizational, Community and Policy Arenas
SSWG 8207  Social Work Research: Communities and Policy Arenas and Management/Planning

Choose three of the following 1-credit Macro practice courses:

SSWG 8108  Thinking Economically
SSWG 8109  Social Innovation and Entrepreneurship
SSWG 8111  Legislative Advocacy
SSWG 8112  Coalitions and Partnerships
SSWG 8113  Resource and Grant Development for Human Services
SSWG 8114  Supervision, Staff Management, and Staff Development in Human Service Organizations
SSWG 8115  Leadership in Human Service and Social Change Organizations
SSWG 8116  Grassroots Mobilization: In the U.S. and Internationally

**Electives**  6

**Field Practica**

SSWG 8187  Advanced Field Practicum I  3
SSWG 8188  Advanced Field Practicum II  3

Total Credit Hours  60

---

1. This common College Core course is required of all incoming graduate students in the College of Public Health. It is available completely online and designed such that students can complete the modules at their own pace over the course of their degree program.

2. Unless transfer credits fulfill them, 30 credits of advanced-level courses are required. A portion of these 30 credits are earned in the advanced field practicum experiences described under “Internship" below.

**Internship:** Two internships are required in the form of a field practicum, which is an essential part of Social Work studies and is deliberately linked in an integral way with classroom learning. The practicum occurs concurrently with Social Work practice courses or can be taken as a block placement in the Summer sessions. (At this time, block placements are available only to campus-based students, not online students.) In order to ensure a quality learning experience for students, the Office of Field Education is responsible for arranging and overseeing field practica. Students employed in social service settings may undertake their practica at their place of employment, but field placement activities must be substantially different than job duties. Because of accreditation and M.S.W. curriculum requirements, students must have appropriate learning experiences and supervision; therefore, they should plan on allocating at least one full day during the regular work week to the practica.

The first field practicum, taken as part of the foundation curriculum, focuses on developing proficiency in generalist practice/basic Social Work skills. This includes learning to engage and assess a range of clients, including individuals, families, groups, organizations, and communities. Students learn to identify issues, needs, resources, and strengths. They also acquire skills in planning, communication, supervision, and consultation as well as intervention, cultural competence, evidence-based practice, and evaluation. This two-term practicum requires a minimum of 450 hours (usually 2.5 days per week).

With the second field practicum, taken as part of the advanced curriculum, students develop expertise in their chosen specialization and concentration. This practicum allows for in-depth development of skills and application of theory and concepts, exploration of ethical challenges, and continued cultural competency. This two-term practicum requires a minimum of 600 hours (usually 3 days per week).

About the Certificate

The post-master's certificate in Military Counseling is designed to help practitioners meet the public health challenge that exists as a result of U.S. service members returning to their communities and facing a number of issues following deployment, such as the effects of trauma, post-traumatic stress disorder (PTSD) and traumatic brain injury (TBI), family relationship strain, substance abuse, mental health issues, and readjustment difficulties. The certificate allows practitioners to improve their clinical versatility and skills by providing students with the theory, skills, and knowledge necessary for clinical practice with military service members, veterans, and families. Clinical practice with the military, not unlike other facets of clinical practice, must keep in mind the unique culture of the individual within the context of their unique environment and history.

Learning modules for the certificate program include military culture, the signature (invisible) wounds of contemporary conflicts, the military family, military children, female warriors and veterans, military health care, and contemporary community response. Students learn to:

• Describe military culture, including guard and reserve branches of the military;
• Enumerate issues unique to the military family, military health, and mental health care;
• Refine critical thinking about the interface among military culture, military policy, developmental issues, human biology/neuroscience, and social work and human service practice at the micro and macro levels so students can analyze the interacting aspects of a practice issue in order to consider them in making practice decisions;
• Distinguish among sources of knowledge to synthesize and apply appropriate evidence needed to do an assessment, create an intervention plan, design a program/delivery system, or develop policy for various military subpopulations;
• Develop skills needed to provide prevention, treatment, and rehabilitative services to service members, veterans, their families, and their communities;
• Develop specialized advanced clinical practice skills applicable to individuals, families, and groups within the military population; and
• Identify ways to develop and implement programs, policies, and procedures to improve the quality of life for service members, veterans, their families, and their communities.

Time Limit for Certificate Completion: 2 years

Campus Location: Online

Full-Time/Part-Time Status: The graduate certificate may be completed on a part-time basis.

Job Prospects: The certificate program develops in practitioners, such as social workers, counselors, pastoral counselors, psychiatrists, and psychologists, a practice specialization with military populations within U.S. Department of Defense (DOD) and U.S. Department of Veterans Affairs (VA) settings and/or the larger community. Graduates attain the knowledge and skills necessary to practice with all branches of armed forces at the DOD and with veterans of all eras and their families in VA and non-VA settings.

Non-Matriculated Student Policy: The certificate program is not open to non-matriculated graduate students.

Admission Requirements and Deadlines

Application Deadline:
Fall and Spring admissions are on a rolling basis. Interested students need to apply for admission to the certificate program. To submit an application, forward a statement of interest, three letters of reference, and graduate transcript(s) to the School of Social Work.

Master's Degree in Discipline/Related Discipline: Applicants must hold a master's or doctoral degree from an accredited university in a related field of study, including but not limited to social work, counseling, pastoral counseling, psychiatry, or psychology.

Bachelor's Degree in Discipline/Related Discipline: Applicants must hold a baccalaureate degree.

Certificate Requirements

Number of Credits or CEUs Required to Complete the Certificate: 12 credits or 140 CEUs

Required Courses in Sequence:

1 Credits or CEUs Required to Complete the Certificate: 12 credits or 140 CEUs
2 Winter
3 Fall
Courses may be taken for graduate credit or for continuing education (non-credit) units. Before enrolling in their first course, students must decide if they are taking coursework for credit or non-credit. They are then required to complete all coursework similarly for credit or non-credit; switching from one option to the other is not permitted. Registration for credit-bearing courses is managed through Banner. All courses earn 3 credits. Registration for non-credit courses is managed through the Destiny One platform. Each course affords 35 CEUs (non-credit) for licensed social workers (LSW, LCSW, LCSW-C) or licensed professional counselors (LPC). CEUs earned in Temple University’s Military Counseling certificate program can also be used toward the Military Service Members, Veterans, and Their Families — Clinical Social Worker (MVF-CSW) credential offered by the National Association of Social Workers. While CEU certificates are issued at the conclusion of each course, a separate certificate is issued upon completion of the certificate program.

2 M.S.W. student can take SSWG 8503 and apply the credits as a human behavior and social environment (HBSE) specialization requirement or as an elective.

3 M.S.W. students can take SSWG 8507 and apply the credits as a policy specialization requirement or elective.

4 M.S.W. students can only take SSWG 9817 after completing the M.S.W. program and applying to the certificate program.

College of Science and Technology

With more than 4,000 students, the College of Science and Technology (CST) is one of Temple University’s fastest growing schools. Students work side-by-side with experienced faculty researchers in the laboratory, field, and classroom. Since 2007, external funding for advanced research has more than doubled, creating new opportunities for CST’s more than 200 world-class faculty members. Excellence begins with faculty members who inspire and challenge every student.

CST’s efforts to advance the quality of research, education, and engagement with the world are greatly enhanced by its state-of-the-art Science Education and Research Center (SERC). As of Fall 2014, SERC is home to advanced laboratories and classrooms designed to attract talented students and scholars and foster interdisciplinary research. It is one of the most advanced facilities of its kind on the East Coast.

A cornerstone of CST’s graduate programs is research with a focus on advancing knowledge and finding solutions to today’s toughest challenges. This real-world, hands-on approach is ideal for preparing students for careers in academia and industry — or as entrepreneurs in the computer, science, and technological fields. Students work closely with world-class researchers to understand the science, hone their investigation skills, and ask pertinent and important questions. Professors create an environment that encourages inquiry and rewards hard work.

Graduate Faculty

Shohreh Amini, Professor, Department of Biology, College of Science and Technology; Ph.D., University of Pennsylvania.

Rodrigo B. Andrade, Associate Professor, Department of Chemistry, College of Science and Technology; Ph.D., Massachusetts Institute of Technology.

Darius Balciunas, Associate Professor, Department of Biology, College of Science and Technology; Ph.D., Uppsala University.

Richard Beigel, Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., Stanford University.

Shiferaw S. Berhanu, Professor, Department of Mathematics, College of Science and Technology; Ph.D., Rutgers University.

Eric U. Borguet, Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of Pennsylvania.

Theodore W. Burkhardt, Professor, Department of Physics, College of Science and Technology; Ph.D., Stanford University.

Ilya V. Buynevich, Associate Professor, Department of Earth and Environmental Science, College of Science and Technology; Ph.D., Boston University.

Vincenzo Carnevale, Assistant Professor (Research), Department of Biology, College of Science and Technology; Ph.D., International School for Advanced Studies, Trieste.

Frank N. Chang, Professor, Department of Biology, College of Science and Technology; Ph.D., University of Wisconsin.

Steven M. Chemtob, Assistant Professor, Department of Earth and Environmental Science, College of Science and Technology; Ph.D., California Institute of Technology.

Ke Chen, Associate Professor (Research), Department of Physics, College of Science and Technology; Ph.D., Chinese Academy of Sciences.

Erik Cordes, Associate Professor, Department of Biology, College of Science and Technology; Ph.D., The Pennsylvania State University.

Hai-Lung Dai, Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of California Berkeley.

Boris A. Datskovsky, Professor, Department of Mathematics, College of Science and Technology; Ph.D., Harvard University.

Alexandra Krull Davatzes, Associate Professor, Department of Earth and Environmental Sciences, College of Science and Technology; Ph.D., Stanford University.

Nicholas Davatzes, Associate Professor, Department of Earth and Environmental Science, College of Science and Technology; Ph.D., Stanford University.

Franklin A. Davis, Professor, Department of Chemistry, College of Science and Technology; Ph.D., Syracuse University.
Graham Dobereiner, Assistant Professor, Department of Chemistry, College of Science and Technology; Ph.D., Yale University.

Vasily Dolgushev, Associate Professor, Department of Mathematics, College of Science and Technology; Ph.D., Massachusetts Institute of Technology.

Eduard Dragut, Assistant Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., University of Illinois at Chicago.

Xubin He, Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., University of Maryland College Park.

Ananias A. Escalante, Professor, Department of Biology, College of Science and Technology; Ph.D., University of California Irvine.

Mark A. Feitelson, Professor, Department of Biology, College of Science and Technology; Ph.D., University of California Los Angeles.

Dieter Forster, Professor, Department of Physics, College of Science and Technology; Ph.D., Harvard University.

Amy Freestone, Associate Professor, Department of Biology, College of Science and Technology; Ph.D., University of California Davis.

David Futer, Associate Professor, Department of Mathematics, College of Science and Technology; Ph.D., Stanford University.

Edward T. Gawinski, Associate Professor, Department of Physics, College of Science and Technology; Ph.D., Boston University.

Antonio Giordano, Professor, Department of Biology, College of Science and Technology; Ph.D., University of Trieste.

Yury Grabovsky, Professor, Department of Mathematics, College of Science and Technology; Ph.D., New York University.

David E. Grandstaff, Professor, Department of Earth and Environmental Science, College of Science and Technology; Ph.D., Princeton University.

Alexander Gray, Assistant Professor, Department of Physics, College of Science and Technology; Ph.D., Lawrence Berkeley National Laboratory and University of California, Davis.

Yuhong Guo, Associate Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., University of Alberta.

Cristian E. Gutiérrez, Professor, Department of Mathematics, College of Science and Technology; Ph.D., University of Buenos Aires.

Raymond Habas, Professor, Department of Biology, College of Science and Technology; Ph.D., State University of New York Stony Brook.

Zameer U. Hasan, Professor, Department of Physics, College of Science and Technology; Ph.D., Australian National University, Canberra.

Xubin He, Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., University of Rhode Island.

Stephen Blair Hedges, Professor, Department of Biology, College of Science and Technology; Ph.D., University of Maryland.

Matthew Richard Helmus, Assistant Professor, Department of Biology, College of Science and Technology; Ph.D., University of Wisconsin-Madison.

Emanuel B. Hey, Professor, Department of Biology, College of Science and Technology; Ph.D., State University of New York Stony Brook.

Omar Hijab, Professor, Department of Mathematics, College of Science and Technology; Ph.D., University of California Berkeley.

S. Tonia Hsieh, Assistant Professor, Department of Biology, College of Science and Technology; Ph.D., Harvard University.

Maria Iavarone, Associate Professor, Department of Physics, College of Science and Technology; Ph.D., University of Napoli Federico II.

Susan A. Jansen-Varnum, Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of Missouri-St. Louis.

Bo Ji, Assistant Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., The Ohio State University.

Krishna Kant, Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., University of Texas at Dallas.

Bojeong Kim, Assistant Professor, Department of Earth and Environmental Science, College of Science and Technology; Ph.D., Cornell University.

Isaac Klapper, Professor, Department of Mathematics, College of Science and Technology; Ph.D., New York University Courant Institute of Mathematical Sciences.

Michael L. Klein, Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of Bristol.

James F. Korsh, Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., University of Pennsylvania.

Rob J. Kulathinal, Assistant Professor, Department of Biology, College of Science and Technology; Ph.D., McMaster University.

Sudhir Kumar, Professor, Department of Biology, College of Science and Technology; Ph.D., The Pennsylvania State University.

Eugene Kwatny, Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., Drexel University.

Paul S. LaFollette Jr., Associate Professor, Department of Computer and Information Sciences, College of Science and Technology; M.D., Temple University.

Rolf Lakaemper, Associate Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., University of Hamburg.

Longin Jan Latecki, Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., University of Hamburg.

Edward S. Letzter, Professor, Department of Mathematics, College of Science and Technology; Ph.D., University of Washington.
Robert J. Levis, Professor, Department of Chemistry, College of Science and Technology; Ph.D., The Pennsylvania State University.

Ronald M. Levy, Professor, Department of Chemistry, College of Science and Technology; Ph.D., Harvard University.

David A. Liberles, Associate Professor, Department of Biology, College of Science and Technology; Ph.D., California Institute of Technology.

Chyanlong Lin, Associate Professor, Department of Physics, College of Science and Technology; Ph.D., Temple University.

Haibin Ling, Associate Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., The Ohio State University.

Martin W. Lorenz, Professor, Department of Mathematics, College of Science and Technology; Ph.D., Universität Giessen.

A. Marjatta Lyyra, Professor, Department of Physics, College of Science and Technology; Ph.D., University of Stockholm.

C. Jeffrey Martoff, Professor, Department of Physics, College of Science and Technology; Ph.D., University of California Berkeley.

Spiridoula Matsika, Professor, Department of Chemistry, College of Science and Technology; Ph.D., The Ohio State University.

Gerardo A. Mendoza, Professor, Department of Mathematics, College of Science and Technology; Ph.D., Massachusetts Institute of Technology.

Andreas Metz, Associate Professor, Department of Physics, College of Science and Technology; Ph.D., Institut Für Kernphysik Universität Mainz.

Zein-Eddine Meziani, Professor, Department of Physics, College of Science and Technology; Ph.D., Université de Paris XI.

Irina Mitrea, Professor, Department of Mathematics, College of Science and Technology; Ph.D., University of Minnesota.

Atsuhiro Muto, Assistant Professor, Department of Earth and Environmental Science, College of Science and Technology; Ph.D., University of Colorado.

James Napolitano, Professor, Department of Physics, College of Science and Technology; Ph.D., Stanford University.

Allen W. Nicholson, Professor, Department of Biology, College of Science and Technology; Ph.D., University of Pennsylvania.

John T. Nosek, Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., Temple University.

Jonathan Nyquist, Professor, Department of Earth and Environmental Science, College of Science and Technology; Ph.D., University of Wisconsin.

Zoran Obradovic, Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., The Pennsylvania State University.

Karen B. Palter, Associate Professor, Department of Biology, College of Science and Technology; Ph.D., Princeton University.

Susan Patterson, Associate Professor, Department of Biology, College of Science and Technology; Ph.D., University of Washington.

Jamie Payton, Associate Professor, Department of Computer and Information Sciences, College of Science and Technology; D.Sc., Washington University.

John P. Perdew, Professor, Department of Physics, College of Science and Technology; Ph.D., Cornell University.

Sergei L. Kosakovsky Pond, Professor, Department of Biology, College of Science and Technology; Ph.D., University of Arizona.

Sean Gillian Queisser, Associate Professor, Department of Mathematics, College of Science and Technology; Ph.D., Ruprecht-Karls University of Heidelberg.

SuJith Ravi, Assistant Professor, Department of Earth and Environmental Science, College of Science and Technology; Ph.D., University of Virginia.

Brian Rider, Professor, Department of Mathematics, College of Science and Technology; Ph.D., New York University Courant Institute of Mathematical Sciences.

Peter S. Riseborough, Professor, Department of Physics, College of Science and Technology; Ph.D., Imperial College London.

Igor Rivin, Professor, Department of Mathematics, College of Science and Technology; Ph.D., Princeton University.

Adrienn Ruzsinszky Perdew, Assistant Professor, Department of Physics, College of Science and Technology; Ph.D., Budapest University of Technology and Economics.

Robert W. Sanders, Professor, Department of Biology, College of Science and Technology; Ph.D., University of Georgia.

Christian E. Schafmeister, Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of California San Francisco.

Joshua Schraiber, Assistant Professor, Department of Biology, College of Science and Technology; Ph.D., University of California Berkeley.

Benjamin Seibold, Associate Professor, Department of Mathematics, College of Science and Technology; Ph.D., University of Kaiserslautern.

Brent Sewall, Assistant Professor, Department of Biology, College of Science and Technology; Ph.D., University of California Davis.

Joel B. Sheffield, Professor, Department of Biology, College of Science and Technology; Ph.D., University of Chicago.

Yuan Justin Shi, Associate Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., University of Pennsylvania.

Scott M. Sieburth, Professor, Department of Chemistry, College of Science and Technology; Ph.D., Harvard University.

Richard Souvenir, Associate Professor, Department of Computer and Information Sciences, College of Science and Technology; D.Sc., Washington University.

Francis C. Spano, Professor, Department of Chemistry, College of Science and Technology; Ph.D., Princeton University.
Nikolaos Sparveris, Assistant Professor, Department of Physics, College of Science and Technology; Ph.D., University of Athens.

Rachel Spigler, Assistant Professor, Department of Biology, College of Science and Technology; Ph.D., University of Georgia.

Robert J. Stanley, Professor, Department of Chemistry, College of Science and Technology; Ph.D., The Pennsylvania State University.

Matthew Stover, Assistant Professor, Department of Mathematics, College of Science and Technology; Ph.D., University of Texas at Austin.

Daniel R. Strongin, Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of California Berkeley.

Yugang Sun, Associate Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of California Berkeley.

Bernd Surrow, Associate Professor, Department of Physics, College of Science and Technology; Ph.D., University of Hamburg.

Daniel B. Szyld, Professor, Department of Mathematics, College of Science and Technology; Ph.D., New York University.

Chiu Chiang Tan, Assistant Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., College of William and Mary.

Jacqueline C. Tanaka, Associate Professor, Department of Biology, College of Science and Technology; Ph.D., University of Illinois.

Rongjia Tao, Professor, Department of Physics, College of Science and Technology; Ph.D., Columbia University.

Dennis O. Terry Jr., Associate Professor, Department of Earth and Environmental Science, College of Science and Technology; Ph.D., University of Nebraska.

Laura Toran, Professor, Department of Earth and Environmental Science, College of Science and Technology; Ph.D., University of Wisconsin.

Darius H. Torchinsky, Assistant Professor, Department of Physics, College of Science and Technology; Ph.D., Massachusetts Institute of Technology.

Allison Tumarkin-Deratzian, Associate Professor (Teaching/Instructional), Department of Earth and Environmental Science, College of Science and Technology; Ph.D., University of Pennsylvania.

Ann M. Valentine, Associate Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of Pennsylvania.

Vincent Voelz, Assistant Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of California San Francisco.

Slobodan Vucetic, Associate Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., Washington State University.

Chelsea Walton, Assistant Professor, Department of Mathematics, College of Science and Technology; Ph.D., University of Michigan.

Pei Wang, Associate Professor (Teaching/Instructional), Department of Computer and Information Sciences, College of Science and Technology; Ph.D., Indiana University.

Richard B. Waring, Associate Professor, Department of Biology, College of Science and Technology; Ph.D., Essex University.

Bradford B. Wayland, Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of Illinois.

Sarah Elizabeth Wengrynuk, Assistant Professor, Department of Chemistry, College of Science and Technology; Ph.D., Duke University.

Katherine A. Willets, Associate Professor, Department of Chemistry, College of Science and Technology; Ph.D., Stanford University.

Jie Wu, Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., Florida Atlantic University.

Xifan Wu, Assistant Professor, Department of Physics, College of Science and Technology; Ph.D., Rutgers University.

William Wuest, Assistant Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of Pennsylvania.

Stephanie L. Wunder, Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of Massachusetts.

Xiaoxing Xi, Professor, Department of Physics, College of Science and Technology; Ph.D., Peking University and Institute of Physics.

Wei-Shih Yang, Professor, Department of Mathematics, College of Science and Technology; Ph.D., Cornell University.

Weidong Yang, Professor, Department of Biology, College of Science and Technology; Ph.D., Fudan University.

Tan Yuen, Associate Professor, Department of Physics, College of Science and Technology; Ph.D., Temple University.

Michael J. Zdilla, Associate Professor, Department of Chemistry, College of Science and Technology; Ph.D., Princeton University.

Qiang Zeng, Assistant Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., The Pennsylvania State University.

Bioinformatics, P.S.M.

COLLEGE OF SCIENCE AND TECHNOLOGY (http://cst.temple.edu)

About the Program

Bioinformatics is the science that happens when computers are joined with the latest discoveries in genomics, biochemistry, and biophysics. It is a rapidly growing field that brings together elements of biology, chemistry, computer science, physics, and statistics. The Bioinformatics degree at Temple University, a leader in the field, is a two-year Professional Science Master's (P.S.M.) degree that features:

- an interdisciplinary approach involving scientists from across Temple University;
- classes taught by esteemed tenure and tenure-track faculty as well as by our industry and government partners;
- hands-on training in professional and management skills;
• partnerships with industry and government leaders, including a diverse and active External Advisory Board;
• access to real-world independent research projects; and
• an applied focus on responsibility and ethics in research and policy.

Time Limit for Degree Completion: 2 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Most of the classes are offered in the evenings or on weekends to enable full-time working professionals to be enrolled in the program. International students are required to register as full-time students.

Interdisciplinary Study: Students in the Temple University Bioinformatics master’s degree program benefit from an advanced curriculum developed by leading Temple faculty in the Departments of Biology, Chemistry, and Computer and Information Sciences. The program has been designed to provide students with extensive skills in computer programming as well as deep knowledge in genomics and structural biology. All three areas are required in this challenging and exciting field. Because the degree is a Professional Science Master’s, the program also offers:

• professional skills through courses in professional development;
• a research internship in a biotech company or other research center; and
• connections to key employers in the Philadelphia area.

Accreditation: Temple University is fully accredited by the Middle States Commission on Higher Education.

Areas of Specialization: The degree program designed by some of the top scientists in the areas of genomics, evolutionary medicine, and structural bioinformatics allows students to specialize in Genetics/Genomics, Structural Bioinformatics, or Computational Bioinformatics as part of the capstone research and choice of electives. Students are trained to analyze genomic and proteomic data generated from large-scale sequencing and related efforts that form the foundation of personalized medicine.

Job Prospects: Official job placement is not offered, but Bioinformatics is an area of rapid job growth and has become an essential part of healthcare research and the biotechnology and pharmaceutical industries. Graduates of P.S.M. programs are in high demand, which underscores the P.S.M. as an attractive career path for those who do not wish to become academic researchers or pursue a doctorate.

Non-Matriculated Student Policy: Non-matriculated students may enroll in a total of three courses (9 credits) with permission of the instructor and the Biology Department.

Financing Opportunities: Financial assistance in the form of Research or Teaching Assistantships is not offered at this time.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1; December 15 international

Applications are processed on a continual basis. Ordinarily, the applicant is informed of an admissions decision within four to six weeks of receipt of all supporting application documents. Late applications may be considered for admission.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters should be obtained from college/university faculty or faculty who are familiar with the applicant's competency. If the applicant has an established career in a related field, the applicant's immediate supervisor should provide one of the letters.

Coursework Required for Admission Consideration: Applicants should have a strong background in one or more STEM fields: Science, Technology, Engineering, and Mathematics.

Bachelor's Degree in Discipline/Related Discipline: The Bioinformatics P.S.M. program has been designed for recent graduates and professionals who have a bachelor's degree or equivalent in a STEM field.

Statement of Goals: In approximately 500 to 1,000 words, specify your interest in the Bioinformatics P.S.M. program, your career goals, and your academic and professional achievements.

Standardized Test Scores:

GRE: Required. A combined minimum score of 305 on the quantitative and verbal reasoning sections of the new test is expected.

TOEFL: 90 iBT or 575 PBT minimum

Interview: An in-person or SKYPE interview is required.

Transfer Credit: Graduate credits from an accredited institution may be transferred into the Bioinformatics P.S.M. program. The credits must be equivalent to coursework offered by the Biology Department at Temple University. A grade of “B” or better must have been earned for the credits to transfer. The P.S.M. in Bioinformatics Steering Committee makes recommendations to the Department Chair for transferring credit on an individual basis. The maximum number of credits a student may transfer is 6.

Additional Requirements:

All graduate-level courses must be passed with a "B-" or better.

Attendance at scheduled departmental colloquia is required.

Culminating Events:

Capstone Project:
BIOL 9995 Capstone Project constitutes a culminating event of the Bioinformatics P.S.M. and requires the submission of a written project and oral presentation of the results. Capstone research may be completed in any laboratory at Temple University at the invitation of the Principal Investigator (PI) or through an internship/co-op/full-time job in the field of Bioinformatics in industry, the healthcare system, or a government agency. Since all P.S.M. in Bioinformatics classes are offered in the evening, students can avail themselves of these opportunities during the day. The process of locating internships is facilitated by the P.S.M. in Bioinformatics program based on the specific research and career interests of the individual student.

Bioinnovation, P.S.M.

COLLEGE OF SCIENCE AND TECHNOLOGY (http://cst.temple.edu)

About the Program

Bioinnovation entails identification, commercialization, and dissemination of novel biological technologies, concepts, and models. The primary objective of the Professional Science Master’s (P.S.M.) program in Bioinnovation is to develop a portfolio of knowledge and experience that allows individuals with background in science, business, communication, law, and policy and regulation to pursue careers in such fast-growing fields as bioinformation, the environment, global health, pharmaceuticals and biotech, technology transfer, and trade. The program offers:

- extensive biotechnology and biomedical background to challenge and complement traditional thinking and applications;
- review of the translational nature of biodiscoveries through classroom instruction and direct interaction with different bioindustry professionals, including scientists, lawyers, journalists, and others; and
- development of team and matrix work routines and effective communication skills.

The Bioinnovation P.S.M. program draws on the strengths of Temple faculty in the College of Science and Technology and the Fox School of Business and Management. Program development and implementation are executed by the P.S.M. in Bioinnovation Steering Committee, which partners with Internal and External Advisory Board members and the Temple University Graduate School.

Time Limit for Degree Completion: 2 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Most of the classes are offered in the evenings or on weekends to enable full-time working professionals to be enrolled in the program. International students are required to register as full-time students.

Interdisciplinary Study: The two-year program consists of a series of multi- and interdisciplinary core courses related to application of systems biology; dissemination of biodiscoveries; epigenetic and genetic applications in drug design and drug response; ethics, regulation, and policy; feasibility assessment of innovative business ideas; innovation in biomodels and concepts; management and marketing for technologists; and research and commercialization of biomarkers and biotargets. Many of the courses are writing intensive and also provide students with opportunities to sharpen their oral presentation skills. All student research projects are developed with the cooperation of Temple faculty and members of our External Advisory Board under the guidance of the P.S.M. in Bioinnovation Steering Committee.

Accreditation: Temple University is fully accredited by the Middle States Commission on Higher Education.

Areas of Specialization: Three areas of concentration are offered:

- Bioinnovation in Environment and Society
- Current Topics in Bioinnovation
- Implementation of Biodiscoveries in Health and Other Industries

Job Prospects: Official job placement is not offered, but prospects are good. The program is designed to help recent graduates obtain relevant employment as well as accelerate career advancement and/or allow career shift of currently employed professionals. Graduates of P.S.M. programs are in high demand, which underscores the P.S.M. as an attractive career path for those who do not wish to become academic researchers or pursue a doctorate.

Non-Matriculated Student Policy: Non-matriculated students may enroll in a total of three courses (9 credits) with permission of the instructor and the Biology Department.

Financing Opportunities: Financial assistance in the form of Research or Teaching Assistantships is not offered at this time.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1; December 15 international
Spring: October 30

Applications are processed on a continual basis. Ordinarily, the applicant is informed of an admissions decision within four to six weeks of receipt of all supporting application documents. Late applications may be considered for admission.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters should be obtained from college/university faculty or faculty who are familiar with the applicant’s competency. If the applicant has an established career in a related field, the applicant’s immediate supervisor should provide one of the letters.

Coursework Required for Admission Consideration: Applicants should have a solid background in one or more of the following fields: science, business, communication, law, and policy and regulation. The P.S.M. in Bioinnovation Steering Committee may allow departures from course requirements upon review.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree in Biology, Chemistry, Business, or Communication, or a Juris Doctor in Law (or foreign equivalent) is required. Non-STEM graduates are required to enroll in at least two Biology foundation courses, as recommended by the P.S.M. in Bioinnovation Steering Committee, on a non-matriculated basis.

Statement of Goals: Approximately 500 to 1,000 words specify your interest in the Bioinnovation P.S.M. program, your career goals, and your academic and professional achievements.

Standardized Test Scores:

GRE: Combined minimum score of 305 on the quantitative and verbal reasoning sections

Biology, M.S.

COLLEGE OF SCIENCE AND TECHNOLOGY (http://cst.temple.edu)

About the Program:

The M.S. in Biology offers students rigorous advanced study of the Biological Sciences. Broad preparation is offered in major research areas in Biology through a variety of formal courses and advanced seminars. Students are encouraged to take courses in related sciences. Preparation for both research and teaching is important.

Time Limit for Degree Completion: 3 years

Campus Location: Main
Full-Time/Part-Time Status: Full-time study is required.

Interdisciplinary Study: The program encourages interdisciplinary research and coursework in Biochemistry, Chemistry, Computer Science, Environmental Science, Engineering, Mathematics, and Physics. Special interdisciplinary programs in which faculty from the Biology Department participate include the Center for Biotechnology, Center for Computational Genetics and Genomics, the Institute for Computational Molecular Science, the Institute for Genomics and Evolutionary Medicine, and the Environmental Studies and Neuroscience Programs.

Areas of Specialization: Faculty members specialize in the areas of Aquatic and Terrestrial Ecology, Biochemistry, Biophysics, Cell Biology, Computational Genomics, Developmental Biology, Evolutionary and Organismal Biology, Genetics, Molecular Biology, Molecular Evolution, Neurobiology, and Virology.

Job Prospects: The department produces well-trained biologists who find work in the health professions, pharmaceutical or biotechnology fields, and government or academia.

Non-Matriculated Student Policy: Non-matriculated students may enroll in a total of three courses (9 credits) with permission of the instructor and the department.

Financing Opportunities: University Fellowships, Graduate Assistantships, and Academic Internships are normally reserved for Ph.D. students.

Admission Requirements and Deadlines

Application Deadline:

Fall: January 15; December 15 international
Spring: October 15; August 1 international (Fall matriculation recommended)

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters should be obtained from college/university faculty, preferably those in laboratory science areas, who are familiar with the applicant's academic and/or research abilities. Letters may be sent to cstgrad@temple.edu.

Coursework Required for Admission Consideration: Applicants should have a solid background in Biology and should have taken at least eight undergraduate Biology courses and one year each of Chemistry, Physics, and Calculus. The Biology Department Graduate Committee may allow exceptions to these course requirements after review.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree in a science field is required.

Statement of Goals: Approximately 500-1,000 words include your interest in Temple's program, your academic achievements, your research goals, and the names of up to three faculty with whom you would like to conduct your master's research thesis.

Standardized Test Scores:

GRE: Combined minimum score of 300 on the quantitative and verbal reasoning sections

TOEFL: 90 iBT or 575 PBT minimum

Transfer Credit: Graduate credits from an accredited institution may be transferred into the Biology program. The credits must be equivalent to coursework offered by the Biology Department at Temple University. A grade of "B" or better must have been earned for the credits to transfer. The Biology Department Graduate Committee makes recommendations to the Department Chair for transferring credit on an individual basis. The maximum number of credits a student may transfer is 6.

Program Requirements

Two 3-credit Graduate Seminar Courses 6

Total Credit Hours 18-21

Additional Requirements:
All graduate-level courses, including Biochemistry, must be passed with a "B-" or better.

Attendance at scheduled departmental colloquia is required.

**Culminating Events:**

**Thesis:**
The master's thesis is an original empirical study that demonstrates the student's knowledge of research methods and mastery of her/his primary area of interest. The thesis should be limited to a specific problem in the Biological Sciences and investigated under the direct supervision of a major advisor.

A student preparing to defend a master's thesis should confirm a date and time with her/his committee, composed of both the major advisor and another member of the Graduate Faculty. The student should then register with the Graduate Secretary. After the date, time, and room are approved, the Biology Department posts flyers announcing the defense.

The student's committee is responsible for evaluating the thesis and its oral defense in a public presentation. The committee votes to pass or fail the thesis and defense at the end of the public presentation. If revisions are required, the committee must approve the changes.

**Biology, Ph.D.**

**COLLEGE OF SCIENCE AND TECHNOLOGY (http://cst.temple.edu)**

**About the Program**
The Ph.D. in Biology offers students rigorous advanced study of the Biological Sciences. Broad preparation is offered in major research areas in Biology through a variety of formal courses and advanced seminars. Students are encouraged to take courses in related sciences. Preparation for both research and teaching is important.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time study is required.

**Interdisciplinary Study:** The program encourages interdisciplinary research and coursework in Biochemistry, Chemistry, Computer Science, Environmental Science, Engineering, Mathematics, and Physics. Special interdisciplinary programs in which faculty from the Biology Department participate include the Center for Biotechnology, Center for Computational Genetics and Genomics, the Institute for Computational Molecular Science, the Institute for Genomics and Evolutionary Medicine (see http://igem.temple.edu/education/overview), and the Environmental Studies and Neuroscience Programs.

**Areas of Specialization:** Faculty members specialize in the areas of Aquatic and Terrestrial Ecology, Biochemistry, Biophysics, Cell Biology, Computational Genomics, Developmental Biology, Evolutionary and Organismal Biology, Genetics, Molecular Biology, Molecular Evolution, Neurobiology, and Virology.

**Job Prospects:** The department produces well-trained biologists who find work in the health professions, pharmaceutical or biotechnology fields, and government or academia.

**Non-Matriculated Student Policy:** Non-matriculated students may enroll in a total of three courses (9 credits) with permission of the instructor and the department.

**Financing Opportunities:** Temple University offers a limited number of Fellowships to support outstanding students in the doctoral program. Fellowships typically provide support, including a stipend and tuition, for two years.

Additional support is available in the form of Teaching and Research Assistantships. The principal duties of a Teaching Assistant include assisting faculty in the classroom; offering field and laboratory instruction; preparing materials for demonstration; conducting tutorials and laboratory sessions; and grading labs, quizzes, and tests. Attendance at weekly laboratory preparation sessions is required. The duties of a Research Assistant vary depending on the faculty member or principal investigator who is directing a specific research project. The appropriate project(s) are determined by consultation between the student and the student's academic and research advisors. Research Assistants are expected to devote 20 hours per week to research obligations. Both Teaching and Research Assistantships typically provide a nine-month academic-year stipend and full tuition remission (up to 9 credits per term), but are generally awarded on a per term basis. Summer stipends are also available. Assistantships are awarded competitively.
Admission Requirements and Deadlines

Application Deadline:

Fall: December 15; November 15 international
Spring: October 15; August 1 international

To be considered for a University Fellowship, applicants should have an essentially complete application on file by January 5.

Matriculation in the Fall is highly recommended. Late applications may be considered for admission.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Letters should be obtained from college/university faculty, preferably those in laboratory science areas, who are familiar with the applicant's academic and/or research abilities. Letters may be sent to cstgrad@temple.edu.

Coursework Required for Admission Consideration: Applicants should have a solid background in Biology and should have taken at least eight undergraduate Biology courses, as well as one year each of Calculus, Chemistry, and Physics. The Biology Department Graduate Committee may allow exceptions to these course requirements after review.

Master's Degree in Discipline/Related Discipline: A master's degree is not required.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree in Biology or another science field is required.

Statement of Goals: Approximately 500-1,000 words include your interest in Temple's program, your research goals, and your academic and research achievements.

Standardized Test Scores:
GRE: Required. Combined minimum score of 305 on the quantitative and verbal reasoning sections
TOEFL: 90 iBT or 575 PBT minimum

Transfer Credit: Graduate credits from an accredited institution may be transferred into the Biology program. The credits must be equivalent to coursework offered by the Biology Department at Temple University. A grade of "B" or better must have been earned for the credits to transfer. The Biology Department Graduate Committee makes recommendations to the Department Chair for transferring credit on an individual basis. The maximum number of credits a student may transfer is 6.

Advanced Standing: A student who has completed a master's degree at another institution may apply for advanced standing. Students are awarded varying numbers of credit of advanced standing. This differs from transfer credit in that the number of credits awarded is recorded on the transcript without specific information about the courses transferred. The effect of having advanced standing is to reduce the total number of credits the student is required to take at Temple University.

Program Requirements

General Program Requirements:
The student independently prepares a written proposal and submits it to the Graduate Committee by April 1 of the student’s fourth term. The proposal should follow the general format of a postdoctoral proposal to a federal granting agency (e.g., NIH). It should include background surrounding a particular research problem, including literature related to the problem, and a detailed methodological plan for investigating the problem. The sections of the written proposal should include Title; Abstract (not to exceed 300 words); Specific Aims; Background and Significance; Preliminary Data; Experimental Design, including Rationale, Specific Methods, Interpretation of Possible Results, and Pitfalls and Alternative Strategies; and References in PNAS format. It should be 15 to 20 pages in length. The research advisor is not to make direct contributions to the brief.

The Area Committee has two weeks in which to review the written proposal, and the student is allowed only one re-write. If the proposal is not accepted after the first re-write, the student is considered to have failed the exam. If the written proposal is accepted, an oral examination is scheduled through the Graduate Secretary and held within two weeks. The oral examination tests the student's understanding of the background and substance of the research proposal and her/his understanding of the area of specialization in which the research is embedded.

The preliminary examination is administered by the Preliminary Examination Committee in the absence of the research advisor. A minimum of three examiners serve on the Preliminary Examination Committee. The full exam, both written and oral, is graded by the Preliminary Examination Committee, and one of the following grades is assigned: Fail, Promising, Pass, High Pass, or Pass with Distinction. The evaluators look for a breadth and depth of understanding of specific research areas; a critical application of that knowledge to specific biological phenomena; and an ability to write a proposal in a manner consistent with scientists in the student's specialization. The student is notified of the grade the day the exam is taken. A passing grade requires a 2/3 majority of the Preliminary Examination Committee. The grade of Promising denotes that an exam must be retaken. Examinations that are to be retaken must be completed before October 1 of the following academic year. 

Dissertation:
The doctoral dissertation is an original empirical study that demonstrates the student's knowledge of research methods and mastery of her/his primary area of research. The Doctoral Advisory Committee includes a minimum of four members: three from the department, including the advisor, and one from outside the department. Departmental members must be Graduate Faculty or equivalent research faculty and are chosen by the student and advisor. The Doctoral Advisory Committee is to be formed within 2 to 3 months after successful completion of the preliminary examination, with the exception of the outside member who may be chosen just prior to the Initial Dissertation Defense. The student may petition the Biology Department Graduate Committee to change an advisor or committee member.

The Initial Dissertation Defense is to be an open defense to which faculty and graduate students are invited. It is conducted significantly in advance of writing the final draft of the dissertation and is administered by the Dissertation Examining Committee, including the outside member. This is to be arranged by the dissertation advisor and the results reported to the Chair of the Graduate Committee and the Department Chair in writing, signed by committee members. The scheduling of the Final Dissertation Defense is to be arranged by the dissertation advisor. The Graduate School must be notified at least 10 working days in advance. Announcements of the dissertation defense are posted around the Biology Department and sent via e-mail or listserv.

Biotechnology, P.S.M.

COLLEGE OF SCIENCE AND TECHNOLOGY (http://cst.temple.edu)

About the Program

The Professional Science Master’s (P.S.M.) program in Biotechnology is a two-year degree program hosted by the Department of Biology, with coursework taught by diverse faculty from Temple University, industry, and government. Students work directly with our research faculty on real-world projects, gaining hands-on skills necessary to solve emerging problems. The program culminates in an independent research project.
based at Temple or one of its industry and government partners in Philadelphia.

**Time Limit for Degree Completion:** 2 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis. Most of the classes are offered in the evenings or on weekends to enable full-time working professionals to be enrolled in the program. International students are required to register as full-time students.

**Interdisciplinary Study:** The two-year program consists of a series of multi- and interdisciplinary core courses that include current topics in biotechnology, analytical biotechnology, and bioinformatics, environmental biotechnology, and microbial biotechnology. Many of the courses are writing intensive and also provide students with opportunities to sharpen their oral presentation skills. All student research projects are developed with the cooperation of Temple faculty and members of our External Advisory Board under the guidance of the P.S.M. Steering Committee.

**Accreditation:** Temple University is fully accredited by the Middle States Commission on Higher Education.

**Areas of Specialization:** Three areas of concentration are offered:
- Bioinformatics in Biotechnology, which entails decision making based on data accession, as well as manipulation and analysis over a broad range of fields.
- Biotechnology in Biomedicine and Drug Discovery, including target identification of disease to drug design, discovery, and optimization.
- Biotechnology in Industrial and Environmental Engineering, in partnership with the College of Engineering.

**Job Prospects:** Official job placement is not offered, but prospects are good. Philadelphia and the surrounding Delaware Valley constitute a primary hub for integrative biotechnology since the area is a major center for pharmaceutical companies, chemical industries, and the health sciences. Philadelphia has also exhibited an increasing leadership presence in the emerging Green City movement. Given recent growth in the Biotechnology sector, the demand for a highly trained workforce with a strong science background has soared.

**Non-Matriculated Student Policy:** Non-matriculated students may enroll in a total of three courses (9 credits) with permission of the instructor and the Biology Department.

**Financing Opportunities:** Financial assistance in the form of Research or Teaching Assistantships is not offered.

Any Bioinformatics or Genomics 5000-level course 3 Elective 1 3

**Total Credit Hours:** 30

1 Students can take any elective relevant to their area of specialization, including coursework offered by the School of Pharmacy's QA/RA program. Approval from the P.S.M. Steering Committee is required.

#### Additional Requirements:

All graduate-level courses must be passed with a “B-” or better.
Attendance at scheduled departmental colloquia is required.

Culminating Events:

Independent Research Project:
The P.S.M. program in Biotechnology at Temple University offers technical and leadership training to address environmental priorities and human health. In this vein, students select an independent research project (BIOL 9995 Capstone Project) by the end of their first year with mentors at Temple and/or approved co-mentors at any off-campus sites, including pharmaceutical companies and government agencies.

Project proposals, which are approved by the P.S.M. Steering Committee, foster technical and intellectual skill building. At the end of the program, the project is presented in written and oral formats to further develop communication skills. These features provide graduates with knowledge and leadership skills to help tackle real-world problems using Biotechnology.

Chemistry, M.A.

COLLEGE OF SCIENCE AND TECHNOLOGY (http://cst.temple.edu)

About the Program

The Chemistry graduate program is designed to provide a solid background in the chosen area of specialization. It emphasizes the acquisition of skills that enable students to gain further knowledge in their research and professional careers. For this reason, the Chemistry graduate degree program is research oriented, and seminar attendance and familiarization with the chemical literature are considered integral. The course requirements are comparatively light, although a wide variety of intermediate and advanced courses in related areas are offered. Students are encouraged to take courses in related areas, such as Biology, Computer Science, and Physics, according to their research interests.

Time Limit for Degree Completion: 3 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: A Chemical Physics program is offered jointly with the Department of Physics.

Areas of Specialization: The Department of Chemistry offers programs leading to the M.A. and Ph.D. degrees in Analytical Chemistry, Biochemistry, Inorganic Chemistry, Organic Chemistry, and Physical Chemistry. Areas of specialization include environmental chemistry, materials and polymers, medicinal, nanoscience, photonics, and surface science. For the master's program, two options are offered:

- Thesis Track, which is designed for students who are not full-time. Students cannot receive financial support from the Chemistry Department when completing this option. Any student wanting to pursue this option must receive prior approval from the Graduate Committee.
- Coursework Track, which is designed for students who already have extensive experience in the laboratory and are currently employed in the local chemical industry. Students must get permission from the Graduate Committee to pursue this option.

Job Prospects: The majority of students find employment in the chemical industry. Some go on to academic positions or positions in government laboratories.

Non-Matriculated Student Policy: Non-matriculated students are allowed to take up to 9 credits before admission into a degree program must be sought.

Financing Opportunities: The duties of a Teaching Assistant typically involve leading recitation sections and/or overseeing laboratories, as well as grading lab assignments, tests, and quizzes, when applicable. After their first year, most students are supported by a research assistantship.

Admission Requirements and Deadlines

Application Deadline:
Fall: December 15; January 1 international
For Fall admissions, priority will be given to applications submitted by December 15. Applications submitted after December 15 will be considered on a case-by-case basis for admissions and financial assistance.

Applications for Spring admission should be received by September 15. Note, however, that Spring admission is rare as coursework is designed to start in the Fall.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from faculty or people in industry who are familiar with the academic and/or research aptitude of the candidate.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree is required. Typically, the undergraduate degree has been earned in Chemistry, Biochemistry, or a related field.

**Statement of Goals:** Include your specific interest in Temple's program; your research goals; your future career goals; and your academic and research achievements.

**Standardized Test Scores:**

*GRE:* Required. If the applicant's GPA is below 3.25, s/he can be considered for appointment as a Teaching Assistant if her/his percentile scores on the verbal and quantitative portions of the GRE sum to at least 100%.

*TOEFL:* 88 iBT or 575 PBT minimum. Regardless of score, all international students are required to take a SPEAK test upon arrival at Temple.

**Resume:** Current resume required.

**Transfer Credit:** All graduate credits earned by a student prior to matriculation in the Chemistry graduate program are subject to evaluation and approval by the Chemistry Graduate Committee. A "Request for Transfer of Graduate Credit" form, found at http://www.temple.edu/grad/forms/, must be completed. It must be supplemented with an official transcript, sent directly by the Registrar of the institution where the credits were earned. All transfer credits must be "B" or higher and must be from an accredited institution. The maximum number of credits a student may transfer is 6.

**Program Requirements**

**General Program Requirements:**

*Number of Credits Required Beyond the Baccalaureate:* 30

**Required Courses:**

**Thesis Track**

<table>

</tr>
<tr>
<td>CHEM 9996 Master's Thesis Research</td>
<td>6</td>
</tr>
</tbody>
</table>

Total Credit Hours 30

**Culminating Events:**

**Thesis:** The M.A. thesis is the culminating event for the Thesis Track. The thesis should be an original piece of research. Often, but not always, the research described in the M.A. thesis can be published in a peer-reviewed journal. The student coordinates the time for the defense with her/his Graduate Advisory Committee, which is responsible for evaluating the thesis and its defense. No thesis should go to defense unless it is ready for public scrutiny.

**Master's Examination:** The master's examination is usually the last requirement to be fulfilled by students in the Coursework Track. Its purpose is to demonstrate a breadth and depth of knowledge in the core concepts of Chemistry. The exam is based on the student's major track in Chemistry. Faculty members in the student's track write the questions for the master's exam. The faculty members who write the questions grade the exam. Students schedule the exam through the Graduate Secretary.

Master's Degree in Discipline/Related Discipline: A master's degree is not required for admission into the Ph.D. program.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree is required. Typically, the undergraduate degree has been earned in Chemistry, Biochemistry, or a related field.

Statement of Goals: Include your specific interest in Temple's program; your research goals; your future career goals; and your academic and research achievements.

Statement of Goals:

Standardized Test Scores:
GRE: Required. If the applicant's GPA is below 3.25, s/he can be considered for appointment as a Teaching Assistant if her/his percentile scores on the verbal and quantitative portions of the GRE sum to at least 100%.

TOEFL: 88 iBT or 575 PBT minimum. Regardless of score, all international students are required to take a SPEAK test upon arrival at Temple.

Resume: Current resume required.

Other: Submission of research papers with the applicant as co-author or any other material associated with the applicant's research aptitude is recommended.

Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Master's: 12
Number of Credits Required Beyond the Baccalaureate: 42

Required Courses:

</table>

1: Coursework includes a combination of CHEM 9994 Preliminary Examination Preparation, CHEM 9998 Pre-Dissertation Research / Elevation to Candidacy, and CHEM 9999 Dissertation Research, with a minimum of 2 credits of CHEM 9999 required.

Culminating Events:

Literature Seminar:
The Ph.D. student makes the presentation of one departmental seminar on a current literature topic or her/his research, as approved by the seminar professor. The seminar is 30 minutes in length and should include any background material needed to allow the audience to appreciate the topic(s) discussed.

Cumulative Examinations:
Cumulative examinations are a major part of the preliminary examinations. Written by the Graduate Faculty, cumulative examinations

APPLY ONLINE to this graduate program.
are offered seven times a year. Each cumulative examination is evaluated by at least two Graduate Faculty members. Students entering the program in Fall 2012 or later must pass a total of five “cumes” within the first two years of matriculation. Note that students who began their program of study prior to Fall 2012 must pass six cumes in three years.

Original Research Proposal:
To obtain Ph.D. candidacy, the student is required to write, present, and defend an Original Research Proposal (ORP). The topic of the ORP can be related to the student’s research, but must still be original. The proposal is an opportunity for the student to use her/his scientific knowledge to demonstrate her/his ability to formulate experiments, calculations, theory, etc. to address an important scientific problem. The ORP should also contain a description of the actual research that the student will pursue for her/his Ph.D.

The student must consult with her/his research advisor for guidance prior to writing the ORP. It is understood by writing this document that a general experience in research will help evolve new chemistry through observations made during the course of an ongoing research problem. The ORP needs to be defended within 30 months of matriculation for students entering the program in Fall 2012 or later. Note that students who started prior to this date must defend the document within 42 months of matriculation.

Dissertation:
The doctoral dissertation is an original study that makes a significant contribution to the field of Chemistry. It should expand the existing knowledge and demonstrate the student’s knowledge of research methods and a mastery of her/his primary area of interest. The dissertation should be rigorously investigated; uphold the ethics and standard of the field of Chemistry; demonstrate an understanding of the relationship between the primary area of interest and the broader field of Chemistry; and be prepared for publication in a professional journal.

The Doctoral Advisory Committee is formed to oversee the student’s doctoral research and is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be from the Chemistry Department. Committee compositions must be approved by the Graduate Committee. The Chair is responsible for overseeing and guiding the student’s progress, coordinating the responses of the Committee members, and informing the student of her/his academic progress.

The Dissertation Examining Committee evaluates the student’s dissertation and oral defense. This committee is comprised of the Doctoral Advisory Committee and at least one additional Graduate Faculty member from outside the Chemistry Department. The Outside Examiner should be identified no later than the beginning of the academic term in which the student will defend the dissertation. The Dissertation Examining Committee evaluates the student’s ability to express verbally her/his research question, methodological approach, primary findings, and implications. The Committee votes to pass or fail the dissertation and the defense.

If a student needs to change a member of a Committee, the new member must be approved by the department’s Graduate Committee and registered with the Graduate Secretary and the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Graduate Secretary at least 15 days before the defense is to be scheduled. The Graduate Secretary arranges the time, date, and room within two working days, and forwards to the student the appropriate forms. After the time, date, and room have been arranged for the defense, the student is required to send the Graduate School a completed “Announcement of Dissertation Defense” form, found at http://www.temple.edu/grad/forms/, at least 10 days before the defense. The student posts flyers announcing the defense.

Computational Data Science, M.S.

COLLEGE OF SCIENCE AND TECHNOLOGY (http://cst.temple.edu)

About the Program
The M.S. in Computational Data Science is designed for students interested in developing expertise in data science with a specialization in computational analytics. The goal is to enable students to analyze large quantities of data to discover new knowledge and facilitate decision making. To accomplish this, the program provides students with a strong foundation in big data management and analysis; algorithmic, computational, and statistical thinking; and an understanding of computer systems. Data science is a multifaceted, interdisciplinary discipline that employs techniques and theories drawn from the broad areas of computer and information science, mathematics, and statistics, and applies them to a wide range of data-rich domains such as biomedical science, business, education, engineering, geoscience, physical science, and social science.
Time Limit for Degree Completion: 5 years

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Areas of Specialization: Research interests of faculty include:

- Analysis of algorithms
- Artificial intelligence
- Communication and networks
- Computer architecture
- Data analytics
- Digital forensics
- Expert systems
- Flexible and intelligent manufacturing systems
- Graphics
- High-performance computing
- Information security and assurance
- Intelligent CAI systems
- Management information and database systems
- Natural language processing
- Network security
- Parallel and distributive processing and operating systems
- Programming languages
- Sensory and image processing
- Software engineering
- Theory of automata and computation
- Wired and wireless networks

Job Prospects: Graduates gain the necessary skills to find positions in the data science field requiring a mix of data analysis skills, the ability to deal with large quantities of data, and a strong foundation in computer science. Graduates are also prepared to undertake doctoral studies, either to deepen their overall data science expertise or learn how to better use their analytics skills in a particular data-rich domain.

Non-Matriculated Student Policy: Non-matriculated students are permitted to take a maximum of two graduate-level CIS courses.

Financing Opportunities: Assistantships provide a stipend and full-time tuition to qualified students, but are typically reserved for doctoral students.

Admission Requirements and Deadlines

Application Deadline:

Fall: December 15
Spring: August 1

Applications are reviewed as they are received and can sometimes be considered after the deadline.

Apply Online to this graduate program

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from Computer Science faculty and professionals.

Coursework Required for Admission Consideration: A minimum of one year of programming and data structures using the C++ or Java programming language and one year of theoretical calculus are required. This includes coursework equivalent to CIS 1068 Program Design and Abstraction, CIS 2168 Data Structures, MATH 1041 Calculus I, and MATH 1042 Calculus II.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree in Computer Science is required. If the applicant has insufficient undergraduate coursework in Computer Science, s/he will need to take undergraduate courses to address any deficiencies. Students without a Computer Science degree are typically required to take the following courses, which cannot be counted for credit toward the M.S. degree:

- CIS 2107 Computer Systems and Low-Level Programming 4
- CIS 2166 Mathematical Concepts in Computing II 4
- CIS 2168 Data Structures 4
- CIS 3207 Introduction to Systems Programming and Operating Systems 3-4
  or CIS 5012 System Software and Operating Systems
- CIS 3223 Data Structures and Algorithms 3
  or CIS 5011 Programming and Data Structure

Statement of Goals: Approximately 500 to 1,000 words include your specific interest in Temple's program, your research goals, your future career goals, and your academic and research achievements.

Standardized Test Scores:
GRE: Required. Scores should be in the 75th percentile on the quantitative section and 25th percentile on the verbal section. Most students submit scores far above the minimums.

For applicants whose native language is not English, the TOEFL, IELTS, or PTE Academic exam is required:

- TOEFL: 85 iBT or 563 PBT minimum
- IELTS: 7.0 minimum
- PTE Academic: 58 minimum

Resume: Current resume required.

Transfer Credit: Graduate-level Computer Science coursework obtained no more than five years prior to the student’s matriculation in the graduate program may be transferred into the Computational Data Science M.S. program. The student must have earned an “A” in the course, and must submit a rationale for applying the credits to the current graduate program. The maximum number of credits a student may transfer is 6.

CIS 5526  Machine Learning  3
Select one course from the following:  3
    CIS 5512  Operating Systems
    CIS 5516  Principles of Data Management
    CIS 5642  Computer Architecture

Electives  15
Select at most three Big Data courses from the following:
    CIS 5512  Operating Systems
    CIS 5516  Principles of Data Management
    CIS 5517  Data-Intensive and Cloud Computing
    CIS 5590  Topics in Computer Science
    CIS 5642  Computer Architecture
    CIS 5643  Emerging Storage Systems and Technologies
    CIS 5644  Distributed Systems
    CIS 9665  Advanced Topics in Data Base Systems
Select at most three Data Analysis courses from the following:
    CIS 5523  Knowledge Discovery and Data Mining
    CIS 5524  Analysis and Modeling of Social and Information Networks
    CIS 5525  Neural Computation
    CIS 5535  Probabilistic Graph Models
    CIS 5538  Text Mining and Language Processing
    CIS 5543  Computer Vision
    CIS 5603  Artificial Intelligence
Select at most two Statistics and domain-related courses
Select at most one CIS course numbered less than 5500
Select at most three credits of Independent Study:
    CIS 9282  Independent Study

Capstone Course
CIS 9995  Capstone Project  3

Total Credit Hours  30

1  May be selected as an elective if not taken as a core course above.
2  Requires approval from the student's advisor.

Culminating Events: Students complete a capstone project in data science as the culminating event. CIS 9995 is taken for 3 credits under the close supervision of CIS Graduate Faculty.

Computer and Information Science, Ph.D.

COLLEGE OF SCIENCE AND TECHNOLOGY (http://cst.temple.edu)

About the Program
The Computer and Information Science Ph.D. program prepares a student to undertake independent research leading to science and engineering advances in computer and information sciences. The program is structured around the Ph.D. dissertation, with coursework and seminars designed to attain the requisite quality of the dissertation. An important criterion for the dissertation is that it be publishable in a recognized journal and presentable at international conferences.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Areas of Specialization: The Ph.D. program focuses on four research tracks:
1. Artificial Intelligence and Applications, which is concerned with systems that exhibit intelligent behavior;
2. Computer and Network Systems, which covers systems programming, operating systems, and system architectures, including networks and distributed systems;
3. Information Systems, which focuses on systems that provide information to improve the performance of organizations; and
4. Software Systems, which is dedicated to the creation of software and its associated methodologies.

Job Prospects: Graduates typically find employment in universities, industry, or government agencies.
Non-Matriculated Student Policy: Non-matriculated students are permitted to take a maximum of two graduate-level CIS courses.

Financing Opportunities: Teaching Assistants teach two undergraduate laboratory sections each term under the direction of a faculty lecturer. Assistantships provide a stipend and full-time tuition.

Admission Requirements and Deadlines

Application Deadline:

Fall: December 15
Spring: August 1

Applications are reviewed as they are received. Late applications will be considered for admission.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from Computer Science faculty and professionals.

Coursework Required for Admission Consideration: The applicant is required to have a solid background in Computer and Information Science and related disciplines. In addition, acceptance by a Ph.D. Graduate Faculty member in at least one open track is required. To find a faculty advisor, prospective students should contact Graduate Faculty whose research interests are similar to their own. The list of faculty can be found at http://www.temple.edu/cis/directory/.

Master's Degree in Discipline/Related Discipline: A master's degree is not required.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree in Computer Science, Information Science, Mathematics, Science, or Engineering is required. The applicant's undergraduate program must include a considerable amount of coursework in Computer and Information Science.

Statement of Goals: Approximately 500-1,000 words include your specific interest in Temple's program; your research goals; your future career goals; and your academic and research achievements.

Standardized Test Scores:

GRE: Required. Scores should minimally be in the 75th percentile on the quantitative section and 25th percentile on the verbal section for a combined total score of at least 297.

For applicants whose native language is not English, the TOEFL, IELTS, or PTE Academic exam is required:

TOEFL: 85 iBT or 563 PBT minimum
IELTS: 7.0 minimum
PTE Academic: 58 minimum

A score of 45 or greater on the Test of Spoken English (TSE) or a score of 28 or greater on the TOEFL iBT Speaking section is required for international applicants who wish to be considered for a Teaching Assistantship.

Resume: Current resume required.

Advanced Standing: Advanced standing credit is determined by the CIS Graduate Committee. Requests for, and decisions on, advanced standing are normally not made until after the student has satisfactorily completed the CIS Ph.D. Qualifying Examination and formed a Doctoral Advisory Committee. The maximum number of advanced standing credits awarded is 24.

Program Requirements

General Program Requirements:

Number of Credits Required to Earn the Degree: 48

Required Courses:

<table>
<thead>
<tr>

Total Credit Hours: 48

1 Required and elective courses are identified in the course lists below for each of the four tracks: Artificial Intelligence and Applications, Computer and Network Systems, Information Systems, and Software Systems.

2 Select no more than 8 courses from those identified. Note that at least 1 credit of coursework (or research experience) outside of the Department of Computer and Information Sciences is required. To fulfill this 1-credit minimum requirement, students enroll in CIS 9182 or CIS 9282, an Independent Study course. This requirement can be waived for students with adequate work experience.

Artificial Intelligence and Applications Track

Core Courses

All are required for the Qualifying Exam:

CIS 5511 Programming Techniques
CIS 5526 Machine Learning
CIS 5603 Artificial Intelligence

Didactic Courses

Select five, choosing at most four for inclusion in the Qualifying Exam:

CIS 5513 Automata and Formal Languages
CIS 5525 Neural Computation
CIS 5527 Data Warehousing, Filtering and Mining
CIS 5538 Text Mining and Language Processing
CIS 5543 Computer Vision
CIS 5617 Computer Networking and Communication
CIS 9590 Seminar in Advanced Topics in Computer Science
CIS 9601 Computer Graphics and Image Processing
CIS 9618 Web Applications Development
CIS 9651 Artificial Intelligence, Heuristic Models, and Education
CIS 9665 Advanced Topics in Data Base Systems
### Computer and Network Systems Track

<tbody>
<tr>
<td>CIS 5511</td>
<td>Programming Techniques</td>
<td>3</td>
</tr>
</tbody>
</table>

#### Core Courses
- All CIS courses are required for the Qualifying Exam:
- CIS 5511 Programming Techniques

### Additional Requirements:

#### Ph.D. Qualifying Examination:
The Qualifying Examination tests the student on the fundamentals of Computer and Information Science and the basic body of knowledge in a track. It consists of a written exam on theory and algorithms, systems, and track-specific material. The Qualifying Exam is offered twice a year, usually in late January and late June.

#### Culminating Events:

##### Preliminary Examinations:
The goal of the preliminary examinations is to test the research skills and knowledge of the student and the appropriateness and feasibility of the proposed research. The exams are completed in two stages:

- Prelim I consists of written and oral components testing advanced track knowledge and in-depth knowledge of the research area. It includes a literature review of the area. This preliminary exam is used to determine whether the student needs to take additional courses in order to support research in the chosen area. Prelim I is open only to the Doctoral Advisory Committee and members of the department.
- Prelim II consists of written and oral components to assess the appropriateness of the research, including approach and methodology. It is designed to ensure that the selected research problem is of reasonable scope and significance and that the proposed dissertation is feasible. The written portion of Prelim II should be of sufficient quality to be publishable as a department technical report. This exam is open to the public.

The Doctoral Advisory Committee evaluates the preliminary examinations. Each member votes to pass or fail the student. In order to pass, a majority of the committee members must agree that the exam has been satisfactorily completed. The successful completion of the preliminary examinations produces a written understanding among the student, faculty advisor, and Doctoral Advisory Committee, specifying the work to be done to obtain final approval of the dissertation.

Students who are preparing to do their preliminary examinations should confirm a time and date with the Chair of their Doctoral Advisory Committee and register with the Administrative Coordinator one month prior to the date. The student and Chair receive confirmation of the time, date, and room of the examination.

##### Dissertation Proposal:
The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. The proposal should consist of:

1. the context and background surrounding a particular research problem;
2. an exhaustive survey and review of literature related to the problem; and
3. a detailed methodological plan for investigating the problem.

The proposal should be finished and approved no more than one year after completing coursework. Upon approval, a timeline for completing the investigation and writing process are established.

**Dissertation:**
The doctoral dissertation is an original empirical study that makes a significant contribution to the field of Computer and Information Science. It should expand the existing knowledge and demonstrate the student's knowledge of research methods and a mastery of her/his primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standards of the Computer and Information Science field; demonstrate an understanding of the relationship between the primary area of interest and the broader field of Computer and Information Science; and be prepared for publication in a professional journal.

The Doctoral Advisory Committee is formed to oversee the student's doctoral research and is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be from the Department of Computer and Information Sciences. Committee compositions must be approved by the CIS Graduate Committee. The Chair is responsible for overseeing and guiding the student's progress, coordinating the responses of the committee members, and informing the student of her/his academic progress.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense. This committee is comprised of the Doctoral Advisory Committee and at least one additional Graduate Faculty member from outside the Department of Computer and Information Sciences. The Outside Examiner should be identified no later than the beginning of the term in which the student will defend the dissertation. The committee evaluates the student's ability to express verbally her/his research question, methodological approach, primary findings, and implications. The committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

If a student needs to change a member of a committee, the new member must be approved by the CIS Graduate Committee and registered with the Administrative Coordinator and the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their Doctoral Advisory Committee and register with the Administrative Coordinator at least 30 days before the defense is to be scheduled. The student and Chair receive confirmation of the time, date, and room for the examination.

The Administrative Coordinator sends the Graduate School a completed "Announcement of Dissertation Defense" form, found at http://www.temple.edu/grad/forms/, at least 10 days before the defense. The department posts flyers announcing the defense.

**Computer Science, M.S.**

COLLEGE OF SCIENCE AND TECHNOLOGY (http://cst.temple.edu)

**About the Program**

The M.S. in Computer Science emphasizes a general approach to the study of computing, including courses in artificial intelligence, collaborative systems, computer architecture, database systems, graphics and image processing, networking and communications, operating systems, software engineering, and theoretical areas. The curriculum is not oriented toward any specific applications area of computing but emphasizes general graduate-level studies in computing, preparing students for careers in systems analysis, teaching, and research.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

**Areas of Specialization:** Research interests of faculty include:

- Analysis of algorithms
- Artificial intelligence
- Communication and networks
• Computer architecture
• Data analytics
• Digital forensics
• Expert systems
• Flexible and intelligent manufacturing systems
• Graphics
• High-performance computing
• Information security and assurance
• Intelligent CAI systems
• Management information and database systems
• Natural language processing
• Network security
• Parallel and distributive processing and operating systems
• Programming languages
• Sensory and image processing
• Software engineering
• Theory of automata and computation
• Wired and wireless networks

Job Prospects: Graduates often find employment as data analysis consultants, product designers, researchers, and software developers. Alternatively, many become involved in the design and implementation of new applications software or the planning and evaluation of computer-based systems. Prospective employers include the government or industrial firms that utilize computers for research and/or production purposes.

Non-Matriculated Student Policy: Non-matriculated students are permitted to take a maximum of two graduate-level CIS courses.

Financing Opportunities: Assistantships provide a stipend and full-time tuition to qualified students, but are typically reserved for doctoral students.

Admission Requirements and Deadlines

Application Deadline:

Fall: December 15
Spring: August 1

Applications are reviewed as they are received and can sometimes be considered after the deadline.

Students without a Computer Science degree are typically required to take the following courses, which cannot be counted for credit toward the M.S. degree:

CIS 2107    Computer Systems and Low-Level Programming  4
CIS 2166    Mathematical Concepts in Computing II   4
CIS 2168    Data Structures 4
CIS 3207    Introduction to Systems Programming and Operating Systems 3-4
or CIS 5012 System Software and Operating Systems
CIS 3223    Data Structures and Algorithms 3
or CIS 5011 Programming and Data Structure

Statement of Goals: Approximately 500 to 1,000 words include your specific interest in Temple’s program, your research goals, your future career goals, and your academic and research achievements.

Standardized Test Scores:
GRE: Required. Scores should be in the 75th percentile on the quantitative section and 25th percentile on the verbal section. Most students submit scores far above the minimums.

For applicants whose native language is not English, the TOEFL, IELTS, or PTE Academic exam is required:
TOEFL: 85 iBT or 563 PBT minimum
IELTS: 7.0 minimum
PTE Academic: 58 minimum

Resume: Current resume required.

Transfer Credit: Graduate-level Computer Science coursework obtained no more than five years prior to the student’s matriculation in the graduate program may be transferred into the Computer Science M.S. program. The student must have earned an “A” in the course, and must submit a rationale for applying the credits to the current graduate program. The maximum number of credits a student may transfer is 6.

Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Baccalaureate: 30

Required Courses:

Core Courses
CIS 5511    Programming Techniques 3
CIS 5512    Operating Systems 3
CIS 5515 Design and Analysis of Algorithms 3
Electives 18

Project Course
CIS 9991 Master’s Research Projects 3

Total Credit Hours 30

Culminating Events: Students complete a master’s research project as the culminating event. CIS 9991 Master’s Research Projects is taken for 3 credits under the close supervision of CIS Graduate Faculty.

Cyber Defense and Information Assurance, P.S.M.
COLLEGE OF SCIENCE AND TECHNOLOGY (http://cst.temple.edu)

About the Program
As our physical and digital worlds become more deeply interwoven, a web of interdependence is increasingly fading away the distinction between physical and cyberspace infrastructures. One consequence is that citizens are rendered extremely vulnerable to threats against our cyberinfrastructure by cybercriminals who can inflict crippling blows to pockets of society or even the entire nation. With projections that the dearth of a global information security workforce will reach a staggering 1.5 million by 2021, the federal government has expressed its support to meet this urgent need.

In designing the Professional Science Master's (P.S.M.) program in Cyber Defense and Information Assurance (CyberDIA), the dynamic and cross-cutting nature of the current and continuously evolving cyberspace and the barrage of ever-increasing and never-ceasing threats it faces was addressed. The program is designed for aspiring technical professionals at all career levels – entry-level, mid-career, and senior executives – who want to equip themselves with skills necessary to protect their organization and the nation from increasing cyberthreats. The multidisciplinary program design borrows knowledge, skills, and expertise from different academic disciplines, including business, computer and information sciences, electrical and computer engineering, and law. The key focus is on a holistic cybersecurity framework, i.e., one that is built around the core principles of preventive, detective, and corrective security mechanisms. While the CyberDIA curriculum is technology intensive, focusing on network security and digital forensics, it also bridges the ever-increasing gap between cybersecurity technology and cybersecurity policies.

Time Limit for Degree Completion: 2 years
Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Most of the classes are offered in the evenings or on weekends to enable full-time working professionals to be enrolled in the program. International students are required to register as full-time students.

Interdisciplinary Study: The CyberDIA curriculum addresses four core knowledge areas:
- Technology (60%)
- Laws, regulations, and governance (15%)
- Policies, procedures, and compliance (15%)
- Leadership and ethics (10%)

Accreditation: Temple University is fully accredited by the Middle States Commission on Higher Education.

Job Prospects: Official job placement is not offered, but prospects are excellent given the projected dearth in "Infosec" professionals. Positions include:
- Computer Security Forensic Investigator
- Cybersecurity Systems Engineer
- Information Security Officer
- IT Network Security Penetration Tester
- Security Analyst/Cybersecurity Analyst

Licensure: Successful completion of the CyberDIA P.S.M. program equips students with the necessary knowledge, skills, and tools to appear for the following professional certifications:
- Certified Ethical Hacker (CEH) offered by EC-Council
- Certified Information Systems Security Professional (CISSP®) offered by (ISC)²
- Computer Hacking Forensic Investigator (CHFI) offered by EC-Council

Non-Matriculated Student Policy: Non-matriculated students may enroll in a total of three courses (9 credits) with permission of the instructor and the Department of Computer and Information Sciences.

Financing Opportunities: Financial assistance in the form of Research or Teaching Assistantships is not offered.
Admission Requirements and Deadlines

Application Deadline:

- **Fall:** March 1; December 15 international
- **Spring:** Open only to non-matriculated students who successfully completed P.S.M. coursework in the Fall term

Late applications may be considered for admission.

APPLY ONLINE to this graduate program.

Letters of Reference:

- **Number Required:** 3
  - **From Whom:** Letters should be obtained from college/university faculty or faculty who are familiar with the applicant's competency. If the applicant has an established career in the field, the applicant's immediate supervisor should provide one of the letters.

Coursework Required for Admission Consideration: Applicants should have a strong background in one or more STEM fields: Science, Technology, Engineering, and Mathematics. The following prerequisites must also be met:

  - a course in data structures, such as Temple’s CIS 2168, and
  - a course in computer architecture, operating systems, and networking, such as Temple’s CIS 2229.

Bachelor's Degree in Discipline/Related Discipline: The CyberDIA P.S.M. program has been designed for recent graduates and professionals who have a bachelor's degree or equivalent in a STEM field.

Statement of Goals: Approximately 250 to 500 words include your interest in Temple's program, your research goals, and your academic and research achievements.

Standardized Test Scores:

- **GRE:** Required. A combined minimum score of 300 on the quantitative and verbal reasoning sections of the new test is expected.

For applicants whose native language is not English, the TOEFL, IELTS, or PTE Academic exam is required:

  - **TOEFL:** 85 iBT or 563 PBT minimum
  - **IELTS:** 7.0 minimum
  - **PTE Academic:** 53 minimum

Interview: An in-person or SKYPE interview with the Program Director or members of the CyberDIA P.S.M. Steering Committee is required.

Transfer Credit: Graduate credits from an accredited institution may be transferred into the CyberDIA P.S.M. program. The credits must be equivalent to coursework offered by the Department of Computer and Information Sciences at Temple University. A grade of "B" or better must have been earned for the credits to transfer. The CyberDIA P.S.M. Steering Committee makes recommendations to the Department Chair for transferring credit on an individual basis. The maximum number of credits a student may transfer is 6.

Total Credit Hours: 30

Additional Requirements: All graduate-level courses must be passed with a "B-" or better.

Culminating Events:

**Capstone Project:**
Each student is given a real security problem. Phase 1 relates to compliance: identifying how the security problem affects the organization and which regulations/standards are to be considered. Phase 2 is the technical piece: identifying network and application vulnerabilities; performing forensics (chain of custody); and documenting findings. In Phase 3, all findings from Phases 1 and 2 are presented to the executive body of the affected organization and the faculty mentor(s).

Forensic Chemistry, P.S.M.

COLLEGE OF SCIENCE AND TECHNOLOGY (http://cst.temple.edu)

About the Program

The primary objective of the Forensic Chemistry P.S.M. is for students to develop a portfolio of knowledge and experiences through a strong background in analytical methodologies that will enable them to tackle problems in forensic chemistry, environmental chemistry, and other areas of chemistry. Other objectives include providing:

- a theoretical understanding of major concepts in Forensic Chemistry,
- a range of practical skills in Forensic Chemistry, and
- knowledge and skills applicable to academia, industry, and government.

The goal of the program is the successful placement of graduates into relevant jobs and to enable career advancement for chemists already employed.

The program includes core requirements in current topics in forensic chemistry; applied biopharmaceutics; data analysis; law, ethics, and policy; and toxicology. Attendance is required at annual symposia where leaders in the field of forensic science present on current topics and developments in the field of forensics and forensic chemistry. Many courses in the program are conducted as hands-on training in a modular, forensic chemistry laboratory. An independent project is assigned that will generate knowledge with the goal of developing advanced forensic skills, enabling program graduates to effectively work in and be leaders of the discipline of forensic chemistry. All students are required to complete a forensic chemistry internship.

Time Limit for Degree Completion: 5 years

Campus Location: Main, Ft. Washington, and the Center for Forensic Science Education, Willow Grove, PA

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Most of the classes are offered in the evenings or on weekends to enable full-time working professionals to be enrolled in the program. International students are required to register as full-time students.

Interdisciplinary Study: The two-year program consists of courses in forensic and analytical chemistry as well as data analysis, law, and ethics. Student research projects are developed with the cooperation of Temple faculty and members of our External Advisory Board under the guidance of the P.S.M. in Forensic Chemistry Steering Committee.

Accreditation: Temple University is fully accredited by the Middle States Commission on Higher Education.

Job Prospects: Official job placement is not offered, but prospects are good. The program is designed to help recent graduates obtain relevant employment as well as accelerate career advancement and/or allow career shift of currently employed professionals. Graduates of P.S.M. programs are in high demand, which underscores the P.S.M. as an attractive career path for those who do not wish to become academic researchers or pursue a doctorate degree.

Non-Matriculated Student Policy: Non-matriculated students may enroll in a total of three courses (9 credits) with permission of the instructor and the Chemistry Department.

Financing Opportunities: Financial assistance in the form of Research or Teaching Assistantships is not offered at this time.

Admission Requirements and Deadlines

Application Deadline:

Fall: June 15; February 15 international
Spring: September 15

Applications are processed on a continual basis. Ordinarily, the applicant is informed of an admissions decision within three weeks of receipt of all supporting application documents. Late applications may be considered for admission.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters should be obtained from college/university faculty or faculty who are familiar with the applicant's competency. If the applicant has an established career in a related field, the applicant's immediate supervisor should provide one of the letters.

Coursework Required for Admission Consideration: An undergraduate degree in Chemistry or a closely related field is required. Candidates not holding a degree in Chemistry should contact the Program Director for guidance.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree in Chemistry or a closely related field is required.

Statement of Goals: Approximately 500 to 1,000 words specify your interest in the Forensic Chemistry P.S.M. program, your career goals, and your academic and professional achievements.

Standardized Test Scores:

GRE: Required. A combined minimum percentile of 100% on the quantitative and verbal reasoning sections is expected. A GRE waiver will be considered for those applicants with an exceptional undergraduate GPA.

TOEFL: 85 iBT or 575 PBT minimum

Transfer Credit: Graduate credits from an accredited institution may be transferred into the Forensic Chemistry P.S.M. program. The credits

Geology, M.S.

COLLEGE OF SCIENCE AND TECHNOLOGY (http://cst.temple.edu)

About the Program

The Department of Earth and Environmental Science offers a two-year M.S. program that includes graduate courses in Geology, weekly graduate seminars, qualifying exams, and research leading to a master's thesis.

Time Limit for Degree Completion: 3 years

Campus Location: Main

Full-Time/Part-Time Status: Full-time status is expected.

Areas of Specialization: Advanced courses and research opportunities are available in:

• Environmental geology, including ecohydrology, energy and land degradation, environmental geophysics, groundwater modeling, ice sheet stability and climate change, Karst hydrology, nanomineralogy, and urban hydrology.
• Geochemistry, including nanomineralogy, paleontology-fossil provenance, planetary geology, and weathering and diagenesis.
• Sedimentary geology and paleontology, including coastal and aeolian dynamics, ichnology, paleontology-fossil provenance, paleopedology and modern soils, planetary geology and impact studies, and Precambrian geology.
• Structural geology, including geothermal energy and geomechanics.

Job Prospects: Graduates secure positions in industry, education, and government, and are accepted into doctoral programs.

Licensure: Licensure is recommended after three years of on-the-job training. The Pennsylvania Professional Geologist Licensing Examination is administered by the National Association of State Boards of Geology (ASBOG).

Non-Matriculated Student Policy: Non-matriculated students are allowed to take up to 9 credits before applying to the program.

Financing Opportunities: Students are supported by a combination of Teaching and Research Assistantships, which typically provide a nine-month academic-year stipend and full tuition remission. Summer stipends are also available. Teaching and Research Assistants are expected to devote 20 hours per week to their duties. Teaching Assistants teach labs for non-science and geology majors. The duties for Research Assistants are determined by the primary research advisor. Both Teaching and Research Assistantships are awarded competitively. Funding after two years is not guaranteed.

Admission Requirements and Deadlines

Application Deadline:

Fall: February 1
Applications are evaluated together after the deadline has passed. Program admissions are limited and competitive.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 2

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with the applicant's academic competence.

Coursework Required for Admission Consideration: Applicants are required to have taken at least five courses in Geology and one year of college-level Chemistry, Calculus, and either Physics or Biology to prepare for graduate-level classes and instructing undergraduate majors.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree, whether a B.A. or a B.S., with a major in Geology or a related program in Science or Mathematics is required.

Statement of Goals: Includes your specific interest in Temple's M.S. program, your research goals, your future career goals, and your academic and research achievements.

Standardized Test Scores:
GRE: Required. Scores are typically in the 50th percentile or higher in the quantitative and verbal areas.

TOEFL: 105 iBT or 620 PBT minimum

Total Credit Hours: 30

1 The elective is selected in consultation with an advisor.

Culminating Events:

Comprehensive Examination:
The purpose of the comprehensive examination is to demonstrate breadth and depth of knowledge in the concepts of geological sciences. The exam has written and oral sections. It is taken when the student completes at least 20 credits.

Thesis:
The Department of Earth and Environmental Science requires an original research thesis as the culminating project to earn its master’s degree. The thesis is evaluated for both scientific content and writing style by a committee of two faculty members and the thesis advisor. Students are required to defend their theses publicly to the academic community.

Geoscience, Ph.D.

COLLEGE OF SCIENCE AND TECHNOLOGY (http://cst.temple.edu)
About the Program

The Department of Earth and Environmental Science offers a Ph.D. program that includes graduate courses in the geosciences, weekly graduate seminars, qualifying exams, and research leading to a doctoral dissertation.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Full-time status is expected.

Areas of Specialization: Advanced courses and research opportunities are available in:

- Environmental geology, including ecohydrology, energy and land degradation, environmental geophysics, groundwater modeling, ice sheet stability and climate change, Karst hydrology, nanomineralogy, and urban hydrology.
- Geochemistry, including nanomineralogy, paleontology-fossil provenance, planetary geology, and weathering and diagenesis.
- Sedimentary geology and paleontology, including coastal and aeolian dynamics, ichnology, paleontology-fossil provenance, paleopedology and modern soils, planetary geology and impact studies, and Precambrian geology.
- Structural geology, including geothermal energy and geomechanics.

Job Prospects: Graduates secure positions in academia, industry, and government.

Licensure: For careers in industry, licensure is recommended after three years of on-the-job training. The Pennsylvania Professional Geologist Licensing Examination is administered by the National Association of State Boards of Geology (ASBOG).

Non-Matriculated Student Policy: Doctoral courses are open only to matriculated students.

Financing Opportunities: Students are supported by a combination of Teaching and Research Assistantships, which typically provide a nine-month academic-year stipend and full tuition remission. Summer stipends are also available. Teaching and Research Assistants are expected to devote 20 hours per week to their duties. Teaching Assistants teach introductory geology labs and labs for majors. The duties for Research Assistants are determined by the primary research advisor. Both Teaching and Research Assistantships are awarded competitively. Funding after four years is not guaranteed.

Temple University also offers a limited number of two-year Fellowships to support outstanding doctoral students.

Admission Requirements and Deadlines

Application Deadline:

Fall: February 1

Applications are evaluated together after the deadline for submission has passed. Program admissions are limited and competitive. Applicants are expected to contact the faculty in their area of interest prior to submitting an application.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with the applicant's academic competence.

Coursework Required for Admission Consideration: Applicants are required to have taken courses in Geology to prepare them for graduate-level classes and instructing undergraduate majors. In addition, at least one year of college-level Chemistry, Calculus, and either Physics or Biology is expected.

Master's Degree in Discipline/Related Discipline: A master's degree is recommended, but undergraduate research experience is also considered in evaluating applicants.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree, whether a B.A. or a B.S., with a major in Geology or a related program in Science or Mathematics is required.

Statement of Goals: Includes your specific interest in Temple's Geoscience Ph.D. program and the faculty member with whom you would like to work; your research goals; your future career goals; and your academic and research achievements.

Standardized Test Scores:
GRE: Required. Scores above the 50th percentile in the quantitative and verbal sections are expected, but higher scores are more competitive.
TOEFL: 105 iBT or 620 PBT minimum

Writing Sample: Applicants are required to submit a writing sample directly to the Graduate Chair of Earth and Environmental Science. Acceptable materials include the undergraduate thesis or research paper, master's thesis, and published journal articles in which the applicant is first author.

Program Requirements

General Program Requirements:
Number of Didactic Credits Required Beyond the Baccalaureate: 30-32, including 7 courses required in the Department of Earth and Environmental Science, with one additional course taken outside of the department, if desired

Number of Didactic Credits Required Beyond the Master's: 12, including 3 courses required in the Department of Earth and Environmental Science, with one additional course taken outside of the department, if desired

Elective 2  3

Non-Didactic Courses  6

EES 9994  Preliminary Examination Preparation
EES 9998  Pre-Dissertation Research / Elevation to Candidacy
EES 9999  Dissertation Research

Total Credit Hours  37

1. Select three of the courses if entering the Ph.D. program with a master's degree.
2. The elective is selected in consultation with an advisor.

Culminating Events:
Qualifying for Ph.D. candidacy includes completion of coursework within the Department of Earth and Environmental Science, as well as demonstrations of subject area knowledge, skill, and the ability to conduct research to define and investigate new questions. The assessment for candidacy consists of four parts:

1. Completion of a minimum of three departmental graduate courses in good standing
2. Successfully passing the written and oral components of the Preliminary Examination
3. Submission and acceptance of an NSF-style research proposal
4. Oral defense of the research proposal

Dissertation:
The Department of Earth and Environmental Science requires an original research dissertation as the culminating project in its Ph.D. program.

High-Performance Computing for Scientific Applications, P.S.M.

About the Program
Computation, in tandem with theory and experiment, is highly regarded in the advance of scientific knowledge and engineering practice. In recognition of a growing need for experts cross-trained in relevant computational sciences, applied mathematics, statistics, and traditional scientific fields such as chemistry and physics, the Professional Science Master's (P.S.M.) program in High-Performance Computing for Scientific Applications is targeted toward STEM graduates seeking to use high-performance computation as their primary research instrument in the physical sciences, life sciences, and engineering. The core curriculum introduces students to the architecture of high-performance computing systems, mathematical techniques employed in high-performance computing, the software tools used in parallel calculations, and computational methods used in the sciences and engineering. A distinguishing feature of the program is its paired emphasis on the algorithms and technology of high-performance computing in applications to problems in science and engineering. Cross-disciplinary techniques are emphasized, and learning through applications and individually designed projects are prioritized over theory.

Time Limit for Degree Completion: 2 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Most of the classes are offered in the evenings or on weekends to enable full-time working professionals to enroll in the program. International students are required to register as full-time students.

Interdisciplinary Study: The program is interdisciplinary by nature.

Accreditation: Temple University is fully accredited by the Middle States Commission on Higher Education.

Job Prospects: Students in the program are connected to internships in industry and government laboratories by the P.S.M. Scientific Advisory
Committee. Graduates are then well prepared to compete for high-quality positions in industry, government laboratories, and academia.

**Non-Matriculated Student Policy:** Non-matriculated students may enroll in a total of three courses (9 credits) with permission of the instructor and the Department of Mathematics.

**Financing Opportunities:** Financial assistance in the form of Research or Teaching Assistantships is not offered.

### Admission Requirements and Deadlines

**Application Deadline:**
- **Fall:** March 1; December 15 international
- **Spring:** Open only to non-matriculated students who successfully completed P.S.M. coursework in the Fall term

Late applications may be considered for admission.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**
- **Number Required:** 3

**From Whom:** Letters should be obtained from college/university faculty or faculty who are familiar with the applicant’s competency. If the applicant has an established career in the field, the applicant’s immediate supervisor should provide one of the letters.

**Coursework Required for Admission Consideration:** Applicants should have a strong background in one or more STEM fields: Science, Technology, Engineering, and Mathematics.

**Bachelor’s Degree in Discipline/Related Discipline:** The P.S.M. program has been designed for recent graduates and professionals who have a bachelor’s degree or equivalent in a STEM field.

**Statement of Goals:** Approximately 250 to 500 words include your interest in Temple’s program, your research goals, and your academic and research achievements.

**Standardized Test Scores:**
- **GRE:** Required. A combined minimum score of 300 on the quantitative and verbal reasoning sections of the new test is expected.

For applicants whose native language is not English, the TOEFL, IELTS, or PTE Academic exam is required:

- **TOEFL:** 85 iBT or 563 PBT minimum
- **IELTS:** 7.0 minimum
- **PTE Academic:** 53 minimum

**Interview:** An in-person or SKYPE interview with the Program Director or members of the P.S.M. Steering Committee is required.

**Transfer Credit:** Graduate credits from an accredited institution may be transferred into the P.S.M. program. The credits must be equivalent to coursework offered by the Department of Mathematics at Temple University. A grade of “B” or better must have been earned for the credits to transfer. The P.S.M. Steering Committee makes recommendations to the Department Chair for transferring credit on an individual basis. The maximum number of credits a student may transfer is 6.

### Program Requirements

**General Program Requirements:**

**Capstone Course**

| Total Credit Hours | 30 |

**Additional Requirements:** All graduate-level courses must be passed with a “B-” or better.

**Culminating Events:**

**Capstone Research Project:**

The Capstone Research Project provides students with the opportunity to develop, apply, and demonstrate their skills in a professional high-performance computing environment. The project must be approved in advance by the P.S.M. Steering Committee and requires a supervisor from either the Temple faculty or the P.S.M. Scientific Advisory Committee. Students can undertake their research projects in whole or in part during student internships.

Information Science and Technology, M.S.

COLLEGE OF SCIENCE AND TECHNOLOGY (http://cst.temple.edu)

About the Program
The M.S. in Information Science and Technology (IS&T) program provides students with knowledge about how to apply information sciences and technologies to solve practical problems. Students learn advanced software engineering methods, bioinformatics, computer vision, cryptology, database technologies, digital forensics, high-performance computing, information security and assurance, networks, project management, robotics, software development paradigms, and wireless sensor networks. Students also learn about process re-engineering and how to design and implement robust web and mobile applications to support these processes.

Time Limit for Degree Completion: 5 years

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: Students may take up to three graduate IS&T-related courses in other departments. All such course clusters require prior approval of the M.S. in IS&T Program Director.

Areas of Specialization: Research interests of faculty include:

- Communication and networks
- Data warehousing, filtering, and mining
- Enterprise system development and resource management
- Ethics and social issues related to technology
- Knowledge management
- Management information and database systems
- Security and privacy
- Software engineering
- System development and process management
- Usability engineering

Job Prospects: Graduates often find employment as systems developers and managers for information technology organizations, computer centers, or computer manufacturers. Many become involved in the design and implementation of new applications software or the planning and evaluation of computer-based systems. Prospective employers include the government, universities and colleges, non-profit agencies, or industrial firms that utilize computers for production purposes.

Non-Matriculated Student Policy: Non-matriculated students are permitted to take a maximum of two graduate-level CIS courses.

Financing Opportunities: Assistantships provide a stipend and full-time tuition to qualified students, but are typically reserved for doctoral students.

Admission Requirements and Deadlines

Application Deadline:
Fall: December 15
Spring: August 1

Applications are reviewed as they are received. Late applications will be considered for admission.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from Computer Science faculty and professionals.

Coursework Required for Admission Consideration: Applicants are expected to have completed these prerequisites:

- Two consecutive programming courses in the same language (e.g., CIS 1068 Program Design and Abstraction and CIS 2168 Data Structures);
- A database course that covers database design, SQL, and an understanding of the role that databases play in business applications (e.g., CIS 2109 Database and File Management Systems and/or CIS 4331 Principles of Database Systems);
- Two courses in computer operating systems and networking (such as CIS 2229 Architecture, Operating Systems and Networking and CIS 3329 Network Architectures); and
- A course in object-oriented web application development (e.g., CIS 2308 Web Application Programming or CIS 3515 Introduction to Mobile Application Development or CIS 3342 Networked Application Systems).

Applicants who did not complete the above coursework as part of their undergraduate degree – and who do not have equivalent practical experience – should undertake the prerequisite courses, whether at
Temple University or another accredited institution, before applying to this program.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree is required.

**Statement of Goals:** Approximately 500-1,000 words include your specific interest in Temple’s program; your research goals; your future career goals; and your academic and research achievements.

**Standardized Test Scores:**
- GRE: Required. Scores should be in the 75th percentile on the quantitative section and 25th percentile on the verbal section. Most students submit scores far above the minimums.
- For applicants whose native language is not English, the TOEFL, IELTS, or PTE Academic exam is required:
  - TOEFL: 85 iBT or 563 PBT minimum
  - IELTS: 7.0 minimum
  - PTE Academic: 58 minimum

**Resume:** Current resume required.

**Transfer Credit:** Graduate-level IS&T coursework obtained no more than five years prior to the student's matriculation in the graduate program may be transferred into the M.S. in IS&T program. The student must have earned an "A" in the course, and must submit a rationale for applying the credits to the current graduate program. The maximum number of credits a student may transfer is 6.

**Program Requirements**

**General Program Requirements:**
*Number of Credits Required Beyond the Baccalaureate: 30*

**Required Courses:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

**Capstone Course**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CIS 9991</td>
<td>Master's Research Projects</td>
<td>3</td>
</tr>
</tbody>
</table>

**Total Credit Hours**

1 Five electives are typically selected from graduate CIS courses, which are limited to the courses listed above. Note, however, that a maximum of three courses may be taken from other departments upon approval of the M.S in IS&T Program Director. Further, at least 1 credit of coursework (or research experience) outside of the Department of Computer and Information Sciences is required. To fulfill this 1-credit minimum requirement, students enroll in CIS 9182 or CIS 9282, an Independent Study course. This requirement can be waived for students with adequate work experience.

**Culminating Events:**

**Project:**

Students are required to complete three credits of CIS 9991 Master's Research Projects.

**Mathematics, M.S.**

COLLEGE OF SCIENCE AND TECHNOLOGY (http://cst.temple.edu)
About the Program

The Department of Mathematics offers graduate work leading to the Master of Science degree. The aim of the M.S. program is to provide students with a foundation sufficient to pursue careers in mathematics in industry, government, or education. The program offers opportunities to conduct original research under the supervision of a faculty member.

Time Limit for Degree Completion: 3 years

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program through classes offered before 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The program encourages interdisciplinary coursework, research, and interactions among faculty and students with interest in computer and information sciences, physical and life sciences, statistics, and engineering.

Affiliation(s): The Mathematics program at Temple University is affiliated with the American Mathematical Society and the Mathematical Association of America.

Study Abroad: Department faculty are active internationally and sometimes travel overseas for conferences and extended research visits. In some cases, students may participate in these activities.

Accreditation: This program adheres to accepted professional standards of mathematics education and research.

Areas of Specialization: The department has approximately 25 faculty members actively involved in research and graduate education. With a graduate student body of less than 40, we offer a program of moderate size with a high faculty/student ratio. Thus, we provide students with unique opportunities for flexible program design and ample interaction with faculty. Classes are small and are held in an informal atmosphere enabling students and faculty to work closely together.

The department offers a great variety of choices for areas of specialization. A strong research presence exists in the following areas: algebra, computational mathematics, differential geometry and topology, geometric group theory, global geometry, harmonic analysis, invariant theory, mathematical biology, mathematical physics, mathematics of materials, numerical analysis, partial differential equations, probability, representation theory, and several complex variables. Both prospective and matriculated students are encouraged to browse faculty web pages and contact faculty directly for more detailed information regarding areas of specialization and opportunities for further research.

Job Prospects: Graduates either continue advanced educational programs or pursue employment in industry, education, or government laboratories and agencies.

Non-Matriculated Student Policy: Non-matriculated students must coordinate coursework with the Graduate Chair.

Financing Opportunities: Teaching Assistants teach basic undergraduate mathematics courses, ranging from remedial courses through calculus. The standard teaching load is 20 hours per term. In determining the load, credit is given for more difficult and challenging teaching assignments. Research Assistantships are sometimes available, typically through special projects and grants. Support generally includes a stipend and tuition of up to 9 credits per term.

Admission Requirements and Deadlines

Application Deadline:

Fall: February 15

Applications are processed on a semi-rolling basis.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from individuals who are well acquainted with the applicant's abilities and achievements in mathematics and related areas, particularly former instructors in mathematics courses and projects. Letters from instructors in related areas such as computation or the physical and life sciences are also appropriate. In certain cases, letters from employment supervisors or project leaders may be appropriate as well.

Coursework Required for Admission Consideration: Applicants must have completed fundamental undergraduate mathematics courses.

Bachelor's Degree in Discipline/Related Discipline: All applicants must hold a baccalaureate degree from an accredited college or university.

Statement of Goals: Describe your strengths and motivation, the purpose for applying to a graduate program in mathematics, and why you are interested in the intended degree. This forum should be used to make your strongest case for admission and, thus, should be well written.

Standardized Test Scores:

GRE: No rigid minimum score criteria. The department considers an applicant's overall record. Students who wish to discuss their scores are encouraged to contact the department directly.

TOEFL score: 79 iBT or 550 PBT minimum

Resume: Current resume required.

Transfer Credit: Students who have taken graduate courses at other institutions, or at Temple University prior to matriculation, may apply for transfer credit. Applications for transfer credit are not considered until the student has completed at least one term of full-time graduate study or the equivalent, if the student is part-time. All applications for transfer credit are reviewed by the Mathematics Graduate Committee and may be denied if the committee decides that the courses involved are substantially inferior to similar courses offered by the department. No course completed more than five years before the date of application will be awarded credit. Credit for courses substantially similar to courses taken since matriculation will not be awarded. If a course was taken before the bachelor's degree was earned, it cannot be awarded transfer credit. Transfer credit is only available for graduate-level courses in mathematical content. The maximum number of credits a student may transfer is 9.

Test Waivers: An applicant who wishes to have certain admission requirements waived must contact the department directly. Requests are considered by the department on a case-by-case basis. In some cases, an additional appeal to the Graduate School may be required. In such a case, the department makes a preliminary determination for the applicant
and, if positive, issues a supporting letter to the Graduate School on the applicant's behalf.

Program Requirements

General Program Requirements:
Number of Credit Hours Required Beyond the Baccalaureate: 30

Required Courses:
The Master of Science degree requires 10 graduate courses at the 5000 level or above. The program of study must be designed in coordination with a Mathematics faculty advisor and approved by the departmental Graduate Committee. With the approval of the faculty advisor and Graduate Committee, relevant courses from departments other than Mathematics may be included.

The M.S. degree is offered with an optional concentration in Applied and Computational Mathematics. The concentration is designed for students interested in incorporating advanced study in mathematical and computational methods into the Master of Science program. Students pursuing this concentration complete at least 15 credits of coursework in applied and computational mathematics within their 30-credit degree program.

Culminating Events:
After satisfying the 30-credit course requirement, students may choose between the following three options as the culminating event of the M.S. degree:

- Master's Thesis
- Master's Comprehensive Examination
- Master's Pass on the Ph.D. Comprehensive Examination

Master's Thesis:
Students who choose to submit a master's thesis must select a faculty advisor and a thesis advisory committee. These arrangements are subject to the approval of the Mathematics Graduate Committee. The date, time, and location of a thesis defense are set by the Graduate Chair in consultation with the student's advisory committee.

Master's Comprehensive Examination:
For students selecting this option, a written Master's Comprehensive Examination will be composed by at least two departmental Graduate Faculty. The topics covered should correspond to the student's program of study as approved by the Graduate Committee. The exam is graded by at least two Mathematics faculty members, with grades of either Pass or Fail. Students interested in taking the Master's Comprehensive Examination are required to make a written request to the Graduate Chair at least four weeks in advance. If the examination is failed, it may be taken again once, or the student may attempt a master's pass on the Ph.D. Comprehensive Examination.

Master's Pass on the Ph.D. Comprehensive Examination:
Students choosing this option must take three of the separate 25-point sections of the written Ph.D. Comprehensive Examination. A student who achieves a total score of at least 40 on the three sections of the examination, with no individual section below 8, obtains a master's pass on the exam and has fulfilled the examination requirement for the M.S. degree. If one of the individual exam scores falls below 8 points, that exam may be repeated once, or the exam in a different topic may be attempted once, or the student may take the Master's Comprehensive Examination described above. Such arrangements are subject to approval by the Graduate Committee. The case of a student failing the comprehensive exam by a small margin is discussed by the department's Graduate Committee, which takes the student's whole academic record into account in its decision.

Mathematics, Ph.D.

COLLEGE OF SCIENCE AND TECHNOLOGY (http://cst.temple.edu)

About the Program

The Ph.D. program in Mathematics prepares students for careers that depend on advanced mathematics. These include broad directions such as advanced research and development, education, government, industry, and national laboratories. For new students, the program offers a repertoire of coursework and research opportunities that ease the transition from undergraduate to advanced graduate studies. The courses provide a sound mathematical background, while helping beginning students to mature mathematically. Naturally, individuals with enough maturity and knowledge need not take these more basic courses. In the Mathematics Department, our philosophy is to participate actively in our students' development as future professionals whose work involves advanced mathematics. We take pride in caring for our students. Our faculty are accessible and willing to talk mathematics with any inquiring student. It is this attitude that most distinguishes our program from other mathematics graduate programs. While requiring excellence, we work hard at providing the environment for achieving it.

Time Limit for Degree Completion: 7 years

Campus Location: Main
Full-Time/Part-Time Status: Students complete the degree program through classes offered before 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The program encourages interdisciplinary coursework, research, and interactions among faculty and students with interest in computer and information sciences, physical and life sciences, statistics, and engineering.

Affiliation(s): The Mathematics program at Temple University is affiliated with the American Mathematical Society and the Mathematical Association of America.

Study Abroad: Department faculty are active internationally and sometimes travel overseas for conferences and extended research visits. In some cases, students may participate in these activities.

Ranking: The Ph.D. program is designed to provide opportunities for education and research that are commensurate with national standards. Faculty are active in professional meetings and initiatives organized by the American Mathematical Society and the Mathematical Association of America.

Accreditation: This program adheres to accepted professional standards of mathematics education and research.

Areas of Specialization: The department offers a great variety of choices for areas of specialization, with a strong research presence in the following areas:

- Algebra
- Algebraic and analytic number theory
- Combinatorics
- Computational mathematics
- Differential and computational geometry and topology
- Global geometry
- Harmonic analysis
- Mathematical physics
- Mathematics of materials
- Numerical analysis
- Partial differential equations
- Related probability and mathematical statistics
- Several complex variables

Both prospective and matriculated students are encouraged to browse faculty web pages and contact faculty directly for more detailed information regarding areas of specialization and opportunities for further research.

Job Prospects: Graduates either continue advanced educational programs or pursue employment in industry, education, or government laboratories and agencies.

Non-Matriculated Student Policy: Non-matriculated students must coordinate coursework with the Graduate Chair.

Financing Opportunities: Teaching Assistants teach basic undergraduate mathematics courses, ranging from remedial courses through calculus. The standard teaching load is 20 hours per term. In determining the load, credit is given for more difficult and challenging teaching assignments. Research Assistantships are sometimes available, typically through special projects and grants. Support generally includes a stipend and tuition of up to 9 credits per term.

Admission Requirements and Deadlines

Application Deadline:

Fall: January 8; December 8 international

For full consideration, applications should be received by the stated deadlines. Applications received after these dates will be considered on a case-by-case rolling basis.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from individuals who are well acquainted with the applicant's abilities and achievements in mathematics and related areas, particularly former instructors in mathematics courses and projects. Letters from instructors in related areas such as computation or the physical and life sciences are also appropriate. In certain cases, letters from employment supervisors or project leaders may be appropriate as well.

Coursework Required for Admission Consideration: Applicants must have completed fundamental undergraduate mathematics courses. Prospective students are encouraged to contact the department to discuss their background.

Master's Degree in Discipline/Related Discipline: A master's degree is not required.

Bachelor's Degree in Discipline/Related Discipline: All applicants must hold a baccalaureate degree from an accredited college or university.

Statement of Goals: Describe your strengths and motivation, the purpose for applying to a graduate program in mathematics, and why you are interested in the intended degree. This forum should be used to make your strongest case for admission and, thus, should be well written.

Standardized Test Scores:

GRE General Test and GRE Subject Test in Mathematics: Rigid minimum score criteria is not used. The department considers an applicant's overall record. Students who wish to discuss their scores are encouraged to contact the department directly.

TOEFL score: 79 iBT or 550 PBT minimum

Resume: Current resume required.

Transfer Credit: Students who have taken graduate courses at other institutions, or at Temple University prior to matriculation, may apply for transfer credit. Applications for transfer credit are not considered until the student has completed at least one term of full-time graduate study or the equivalent, if the student is part-time. All applications for transfer credit are reviewed by the Mathematics Graduate Committee and may be denied if the committee decides that the courses involved are substantially inferior to similar courses offered by the department. No course completed more than five years before the date of application will be awarded credit. Credit for courses substantially similar to courses taken since matriculation will not be awarded. If a course was taken before the bachelor's degree was earned, it cannot be awarded transfer credit. Transfer credit is only available for graduate-level courses in
mathematical content. The maximum number of credits a student may transfer is 9.

Advanced Standing: A student who has completed a master's degree at another institution may apply for advanced standing. Students are awarded varying numbers of credit of advanced standing. This differs from transfer credit in that the number of credit hours awarded is recorded on the transcript without specific information about the courses transferred. The effect of having advanced standing is to reduce the total number of credit hours the student is required to take at Temple University. Credit for advanced standing can only be awarded to students who have completed a master's degree at another institution. Although there is no requirement that the degree must have been completed recently, the amount of time since the degree has been completed is taken into consideration. The maximum number of advanced standing credits awarded is 30.

Test Waivers: An applicant who wishes to have certain admission requirements waived must contact the department directly. Requests are considered by the department on a case-by-case basis. In some cases, an additional appeal to the Graduate School may be required. In such a case, the department makes a preliminary determination for the applicant and, if positive, issues a supporting letter to the Graduate School on the applicant's behalf.

Program Requirements

General Program Requirements:
Number of Didactic Credits Required: 48

Required Courses:

Students are required to take at least 16 graduate courses, which are chosen with the advice and consent of the student's advisor. These courses should be taken during the first two years of graduate study and include foundational 8000-level courses for the topics in which the student plans to take the Ph.D. Comprehensive Examination. Students who have had graduate courses in these subjects prior to admission may omit some or all of the courses with the consent of their advisor and the Graduate Committee.

Students also take six additional credit hours of:

Language Examination: As of Fall 2016, a language requirement is no longer in effect.

Culminating Events:

Written Comprehensive Examination:
The Ph.D. Comprehensive Examination is a written exam comprised of three separate sections selected from the following areas:

- Algebra
- Applied Mathematics
- Complex Analysis
- Differential Geometry and Topology
- Partial Differential Equations
- Real Analysis

Students can choose any three of these sections for their examination. After exams in three different topics have been attempted, an exam in a fourth topic can only be taken under exceptional circumstances, and only after specific approval by the Graduate Committee. Each section is a three-hour test based primarily on the corresponding two-term 8000-level graduate course sequence. The separate section tests are given on different days, during one two-week period, twice a year: once in August just before the beginning of the Fall term, and once in January during the two weeks prior to the beginning of the Spring term. Students do not have to take all three of the section tests during the same two-week period. Each section test may be repeated once to obtain a higher grade.

Each of the three-hour section tests is further divided into two parts. Part I contains four questions, of which the student is asked to answer three. These questions are designed to test mastery of the facts of the subject. Part II contains three questions, of which two are to be answered. These questions test the ability to solve in-depth problems in the subject.

Students should begin taking the components of the Comprehensive Exam as soon as possible after finishing the corresponding coursework. Students are expected to complete and pass the Comprehensive Examination by August of their second year of study. While some delay in this schedule may be permitted, under exceptional circumstances, students not making good progress toward completing and passing their Comprehensive Examination in a timely fashion will be asked to leave the Ph.D. program.

Incoming students may, with approval of the Graduate Chair, take up to three of the written Ph.D. Comprehensive Examination sections once prior to their first term of enrollment. Upon request by the student, any of these pre-enrollment attempts can be removed from the student's record.

Each section is graded independently by two faculty members, using a scale of 0 to 25. The grades are compared and reconciled in the event of a discrepancy. A total score of at least 60, with a score on each individual section test of at least 13, is required to pass. If a student falls slightly short of this standard, the Graduate Faculty may, at their discretion, recommend a grade of pass based on the whole of the student's academic record.

A student who achieves a total score of at least 40 from the three sections of the Ph.D. Comprehensive Examination, with no individual section below 8, has obtained a master's pass on the examination and has fulfilled the examination requirement for the M.S. degree. If one of the individual exam scores falls below 8, that exam may be repeated once, or the exam in a different topic may be attempted once, or the student may take the Master's Comprehensive Examination. As above, such arrangements are subject to approval by the Graduate Committee, and if a student falls slightly short of the required standards, then the Graduate Faculty may, at their discretion, recommend a grade of pass, basing their decision on the student's entire academic record.

Preliminary Examination:
The preliminary examination is a two-hour oral exam. It should be taken by the end of the sixth term and must be passed by the end of the seventh term. The Ph.D. preliminary examination can be repeated, in whole or in part, only once. No student is permitted to take the preliminary examination before passing the written Ph.D. Comprehensive Examination and satisfying the foreign language requirement.

The student chooses a chief examiner with the advice and consent of the Mathematics Graduate Committee -- and with the consent of
the proposed chief examiner. The chief examiner, in accepting his/her assignment, implicitly offers to be the student's dissertation supervisor if the examination is passed. Approximately one-half of the preliminary examination is conducted by the chief examiner, who asks questions in the area that the student has chosen as a specialty. The other half of the examination is devoted to questions asked by other faculty members on two or more elementary topics related to the area of specialization. The exact description of the elementary topics to be included in the examination is determined by the chief examiner, who will also be responsible for assigning examiners to cover the topics. The examination committee consists of the chief examiner, the examiners for the elementary topics, and any other faculty who choose to attend. All faculty in attendance may vote on the outcome of the examination. The examination is considered passed if the chief examiner and at least one-half of the other faculty present vote in favor of passing.

Students who are preparing to write their preliminary examination should confirm a time and date with the chair of their Doctoral Advisory Committee and register with the Graduate Secretary. The student and chair receive confirmation of the time, date, room, and proctor for the examination.

Dissertation:
The candidate's dissertation must be a distinctive and original contribution to research in mathematics. It must be an individual work, with only one author. Previously published work by the candidate may be included, if it represents research done while the student was enrolled in the Ph.D. program in Mathematics at Temple University and was not used to obtain any other degree. Joint work that cannot be attributed to the candidate alone must not be included in the body of the dissertation, but may be attached as an appendix. All previously published work must be logically connected and integrated into the dissertation, with a common introduction, conclusion, and bibliography. Existing copyrights must not be violated.

Preparation of the dissertation is supervised by the student's Doctoral Advisory Committee (DAC). This committee must include at least three Temple graduate faculty, two of whom must be in the Mathematics Department. The chair of the committee must be a member of the Temple Mathematics Department. The DAC may include members of other Temple University departments; it is also possible for faculty from other universities or expert advisors employed in non-university settings to be included in the DAC.

The first step in preparing the dissertation is to write a dissertation proposal, which must be approved by the candidate's DAC. The proposal is kept on file, and if it becomes necessary to alter the proposal, the changes should be approved by the DAC and filed with the proposal.

The dissertation defense may be attended by faculty and graduate students from Temple University or other institutions, as well as mathematicians or scientists employed in a non-academic setting. The candidate's Dissertation Examining Committee (DEC) must attend the defense. This committee includes the candidate's DAC and at least one additional member, who must be a faculty of some Temple University department other than Mathematics or a faculty member of another university. The DEC meets at the conclusion of the dissertation defense and decides, by majority vote, if the candidate was successful.

If a student needs to change a member of a committee, the new member must be approved by the Mathematics Graduate Committee and registered with the Graduate Secretary and the Graduate School.

When the dissertation is deemed complete by the candidate and the DAC, a defense is scheduled. Students who are preparing to defend their dissertation should confirm a date and time with their DAC and register with the Graduate Secretary at least 20 days before the defense is to be scheduled. The Graduate Chair arranges the date, time, and room. The Graduate Secretary forwards to the student the appropriate forms.

This dissertation defense must be announced in writing at least 10 days in advance of its occurrence. Copies of the announcement must be directed to each member of the candidate's DEC, each faculty member of the Mathematics Department, the Dean of the College of Science and Technology, and the Graduate School. Copies of the announcement are to be posted at the Department Office, the College Office, and on the Graduate School website.

Physics, M.S.

COLLEGE OF SCIENCE AND TECHNOLOGY (http://cst.temple.edu)

About the Program

The objective of the M.S. degree program in Physics is to provide advanced training in Physics sufficiently broad to permit the graduate to pursue a range of technical careers. Students choose to pursue the Coursework Track or Thesis Track to complete the M.S. degree.

Time Limit for Degree Completion: 3 years

Campus Location: Main
Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Job Prospects: The program is dedicated to producing well-trained scientists prepared for careers as high school science teachers, technical writers, or members of a technical support staff.

Non-Matriculated Student Policy: Non-matriculated students are restricted to taking the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 5101</td>
<td>Analytical Mechanics I</td>
</tr>
<tr>
<td>PHYS 5301</td>
<td>Electromagnetic Theory</td>
</tr>
<tr>
<td>PHYS 5501</td>
<td>Mathematical Physics I</td>
</tr>
</tbody>
</table>

If the student applies to and is accepted into the program, the courses taken, up to 9 credits, may be applied toward the degree requirements.

Financing Opportunities: Financial aid in the form of Teaching Assistantships, Research Assistantships, and Temple University Fellowships is reserved largely for Ph.D. students. Applicants with a bachelor's degree who wish to earn a doctorate should apply to the Ph.D. program, not the M.S. program. Students in the Ph.D. program normally complete all of the requirements for the M.S. in their first two years and may request the M.S. degree at that time while continuing in the Ph.D. program.

Admission Requirements and Deadlines

Application Deadline:
Fall: March 1; December 15 international
Spring: November 1; August 1 international

Applications are reviewed as they are received throughout the year. Late applications may be considered for admission.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 2

From Whom: Letters of recommendation should be obtained from college/university faculty members or scientists familiar with the applicant's academic and scientific capabilities.

Coursework Required for Admission Consideration: Applicants should have successfully completed coursework typically required for a bachelor's degree in Physics.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree in Physics is typically required. A certified transcript is required from each institution previously attended by the applicant.

Statement of Goals: One to two pages address the applicant's specific interest in Temple's program, research and career goals, and academic and research achievements.

Standardized Test Scores:
GRE: General Test required. Subject Test in Physics strongly recommended, but not required.

For applicants whose native language is not English, the TOEFL, IELTS, or PTE Academic exam is required:
TOEFL: 79 iBT or 550 PBT minimum

IELTS: 6.5 minimum
PTE Academic: 53 minimum

Transfer Credit: Graduate credits from an accredited institution may be transferred into the program. The credits must be equivalent to coursework offered at Temple, and the grade must be a "B" or better in order to transfer. The Graduate Program Committee must approve all requests for transfer credit. The maximum number of credits a student may transfer is 6.

Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Baccalaureate: 30

Required Courses:

Additional Coursework 1,2,3 6

Total Credit Hours 30

1 The balance of coursework is identified in consultation with the graduate advisor and subject to the approval of the Graduate Program Committee.
2 For the Coursework Track, no more than 3 credits may be taken in these independent study courses: PHYS 8004 Problems in Experimental Physics; PHYS 8005 Problems in Theoretical Physics; or PHYS 9998 Pre-Dissertation Research / Elevation to Candidacy.
3 For the Thesis Track, coursework including 3 credits of PHYS 9996 Master's Thesis Research and an additional 3 credits of PHYS 8004 Problems in Experimental Physics, PHYS 8005 Problems in Theoretical Physics, or PHYS 9996 Master's Thesis Research must be taken.

Culminating Events:

Comprehensive Examination:
The M.S. comprehensive examination is required for students in the Coursework Track, but not for students in the Thesis Track. The exam, which tests the student's mastery of undergraduate and beginning graduate physics, consists of a three-part written exam and an oral exam. General subject areas covered by the examination include classical electromagnetic theory, classical mechanics, mathematical physics, modern physics, quantum mechanics, statistical mechanics, and thermodynamics.

M.S. students in the Coursework Track are required to take the comprehensive examination by the end of their second year of full-time graduate study. The exam is offered twice a year. In the event of failure, the exam may be retaken once. If the student fails a second time, s/he is dropped from the graduate program.

Thesis:
A master's thesis is required for students in the Thesis Track, but not for students in the Coursework Track. The thesis is based on the student's
research and approved in accordance with the policies of the Department of Physics and the Graduate School.

Physics, Ph.D.

COLLEGE OF SCIENCE AND TECHNOLOGY (http://cst.temple.edu)

About the Program

The objective of the Ph.D. program in Physics is to provide both a broad understanding of foundational areas of Physics and intensive training and experience in an important area of current research. A primary requirement for the degree is an original and significant research contribution, which is presented in the Ph.D. dissertation.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Job Prospects: The program is intended to produce well-trained physicists, who are qualified for careers as research scientists in government and industrial laboratories or as university faculty members.

Non-Matriculated Student Policy: Non-matriculated students are restricted to taking the following courses:

- PHYS 5101 Analytical Mechanics I
- PHYS 5301 Electromagnetic Theory
- PHYS 5501 Mathematical Physics I

If the student applies to and is accepted into the program, the courses taken, up to 9 credits, may be applied toward the degree requirements.

Financing Opportunities: Financial aid is available in the form Teaching and Research Assistantships. The principal duties of a Teaching Assistant include laboratory instruction, grading of lab reports, and tutoring of students enrolled in introductory physics courses. Research Assistants are assigned to a faculty member, typically the thesis advisor, who is engaged in an externally funded research project and who determines the students' duties. Both Teaching and Research Assistantships provide tuition, a stipend for living expenses, and health insurance.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1; December 15 international
Spring: November 1; August 1 international

Applications are reviewed as they are received throughout the year. Late applications may be considered for admission.

APPLY ONLINE to this graduate program.

Additional Coursework ²   6

Total Credit Hours 45

¹ A minimum of 6 credits of PHYS 9999 Dissertation Research is required.
² The balance of coursework is identified in consultation with the graduate advisor and subject to the approval of the Graduate Program Committee.

Culminating Events:

Preliminary Examination: For elevation to candidacy for the Ph.D. degree, the student must pass a written and oral preliminary examination covering undergraduate and master’s level physics. Students are required to take the examination by the end of their second year of full-time graduate study. The exam is offered twice a year. In the event of failure, the exam may be retaken once. If the student fails a second time, s/he is dropped from the graduate program.

Dissertation: A topic for the Ph.D. dissertation is selected in consultation with a faculty member who agrees to serve as the dissertation supervisor. For elevation to candidacy, the student must submit a dissertation proposal that meets the approval of the Graduate Program Committee and the Graduate School. The completed dissertation is submitted to the department before the final examination, in which the dissertation is presented and defended by the candidate in an oral examination.

Scientific Writing, P.S.M.

COLLEGE OF SCIENCE AND TECHNOLOGY (http://cst.temple.edu)

About the Program

In science, the ability to write clearly and succinctly is a skill in demand by organizations as diverse as non-profit organizations, pharmaceutical companies, and news outlets. The primary objective of the P.S.M. in Scientific Writing program is to enable students with diverse backgrounds in science, technology, engineering, and mathematics (STEM) to develop the expertise to pursue medical and scientific writing jobs in the STEM fields. In addition, individuals currently employed in STEM areas are offered the opportunity to enhance and broaden their skills for their professional advancement. The Scientific Writing P.S.M. program offers specific and focused instruction in a wide range of scientific writing genres, as well as enables students to develop their communication skills. Students also experience scientific writing in practice, both through classroom instruction and an internship that provides an opportunity for direct training by directors of regulatory affairs in pharmaceutical companies, medical writers, practicing scientists, professionals working for scientific/medical journals, publishers, and the like. The program is a collaborative effort of Temple faculty in the College of Science and...
Technology and the Lew Klein College of Media and Communication. Students may satisfy the degree requirements by also taking electives in Engineering, English, Health Policy and Management, Marketing, Pharmacy Quality Assurance, Philosophy, and Statistics.

Time Limit for Degree Completion: 3 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The degree program is inherently interdisciplinary in commingling science coursework with writing coursework.

Accreditation: Temple University is fully accredited by the Middle States Commission on Higher Education.

Areas of Specialization: The Scientific Writing P.S.M. program offers two concentrations:

- Marketing/Regulatory Writing
- Popular Scientific Writing

Job Prospects: Recent data from the United States Labor Department, Bureau of Labor Statistics, shows that technical writer jobs are growing at a faster rate than medical scientist jobs. Graduates of the Scientific Writing P.S.M. program are prepared to use scientific writing skills in all relevant areas, including the STEM disciplines, Contract Research Organizations (CRO), public health and policy, and science communications.

Non-Matriculated Student Policy: Non-matriculated students may enroll in a total of three courses (9 credits) with permission of the instructor and the Biology Department.

Financing Opportunities: Financial assistance in the form of Research or Teaching Assistantships is not offered at this time.

Admission Requirements and Deadlines

Application Deadline:

Fall 2017 only: July 1; June 1 international
Fall 2018 and beyond: March 1; December 15 international

Spring: November 1; September 1 international

Applications are processed on a continual basis. Ordinarily, the applicant is informed of an admissions decision within four to six weeks of receipt of all supporting application documents. Late applications may be considered for admission.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters should be obtained from college/university faculty or faculty who are familiar with the applicant’s competency. If the applicant has an established career in a related field, the applicant’s immediate supervisor should provide one of the letters.

Coursework Required for Admission Consideration: Applicants should have a strong background in one or more STEM fields: Science, Technology, Engineering, and Mathematics.

Bachelor’s Degree in Discipline/Related Discipline: The Scientific Writing P.S.M. program has been designed for professionals who have a bachelor’s degree or equivalent in a STEM field.

Statement of Goals: In approximately 500 to 1,000 words, specify your interest in the Scientific Writing P.S.M. program, your career goals, and your academic and professional achievements.

Standardized Test Scores:

GRE: Optional. If scores are submitted, a combined minimum score of 305 on the quantitative and verbal reasoning sections is expected.

TOEFL: 90 iBT or 575 PBT minimum

Interview: An in-person or SKYPE interview is required.

Transfer Credit: Graduate credits from an accredited institution may be transferred into the Scientific Writing P.S.M. program. The credits must be equivalent to coursework offered by the Biology Department at Temple University. A grade of "B" or better must have been earned for the credits to transfer. The P.S.M. in Scientific Writing Steering Committee makes recommendations to the Department Chair for transferring credit on an individual basis. The maximum number of credits a student may transfer is 6.

1 Electives may be selected in one of two areas of concentration, as delineated below, or drawn from any scientific STEM discipline. The latter allows students to choose from a wide spectrum of topics but to concentrate in any one field that is their professional interest and ensures that they are exposed to the diverse writing currently being done in the sciences. Any graduate-level course offered by the College of Science and Technology is acceptable as an elective, and students may petition the P.S.M. Program Director to include graduate-level courses taught at Temple in a related scientific area. Currently approved electives are identified in the three course lists below.

Marketing/Regulatory Writing Concentration

Select from the following courses:
### Popular Scientific Writing Concentration

</tr>
</tbody>
</table>

**Total Credit Hours:** 12

### Additional Requirements:

- All graduate-level courses must be passed with a “B-“ or better.
- Attendance at scheduled departmental colloquia is required.

### Culminating Events:

**Capstone Project:**

BIOL 9995 Capstone Research Experience constitutes a culminating event of the Scientific Writing P.S.M. and requires the submission of a detailed technical paper and oral presentation. In the summer following the first year of study, students are expected to complete an internship, which becomes part of their capstone project. The internship must take place in a workplace approved by the P.S.M. Steering Committee, which includes faculty from the College of Science and Technology, Lew Klein College of Media and Communication, and the Provost's Office. Workplaces may include a patent law office specializing in chemical, engineering, and scientific innovation; a practicing scientist; a publishing company; or any other relevant workplace on or off Temple’s campus.

Graduate Certificate: Scientific Writing

COLLEGE OF SCIENCE AND TECHNOLOGY (http://cst.temple.edu)

About the Certificate

In science, the ability to write clearly and succinctly is a skill in demand by organizations as diverse as non-profit organizations, pharmaceutical companies, and news outlets. The graduate certificate in Scientific Writing enables students with diverse backgrounds in science, technology, engineering, and mathematics (STEM) currently employed in those areas to enhance and broaden their skills for their professional advancement. The certificate is a collaborative effort of the College of Science and Technology and the Lew Klein College of Media and Communication.

Campus Location: Main

Full-Time/Part-Time Status: The graduate certificate can be completed on a part-time basis.

Non-Matriculated Student Policy: Students can take up to 9 credits on a non-matriculated basis. When they complete 9 credits, they must declare their intention to complete the graduate certificate in Scientific Writing by completing and submitting the “Non-Degree Seeking Student Request to Exceed 9 Credits of Graduate Coursework for Certificate Program,” found at http://www.temple.edu/grad/forms/.

Admission Requirements and Deadlines

Bachelor’s Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

School of Sport, Tourism and Hospitality Management

Our industries are rooted in deep professional networks, first-class service, and access to opportunities. So are we, the School of Sport, Tourism and Hospitality Management (STHM) at Temple University. STHM is the largest provider of tourism, hospitality, sport, and recreation management education in the Philadelphia region and an international model for innovative teaching and research. Through classroom instruction, experiential learning, and executive education, we prepare talented professionals and scholars for rewarding careers.

Temple University began its long and distinguished record of professional preparation in the fields of recreation, sport, tourism, and hospitality in 1908, when courses were offered in playground supervision through its Physical Education program. By the 1950s, Temple was offering programs in recreation education at both the undergraduate and graduate levels. In 1973, a curriculum in Recreation and Leisure Studies was established. The bachelor’s degree in Sport and Recreation Management was first accredited in 1978 by the Council on Accreditation of Parks, Recreation, Tourism and Related Professions (COAPRT), with reaccreditation of academic programs every 5 years since. As a result, Temple University was one of the first to have its programs accredited through the National Recreation and Parks Association (NRPA).

STHM is ideally located in Philadelphia, the nation’s fifth-largest city and a living laboratory for the sport, recreation, tourism, and hospitality industries. As a premier destination for visitors from around the world, Philadelphia is home to 13,000 Center City hotel rooms; over 700 Zagat-rated restaurants; a thriving and growing casino and gaming scene; the Pennsylvania Convention Center; and countless attractions such as Independence Hall, the Liberty Bell, the National Constitution Center, the Philadelphia Museum of Art, and the Philadelphia Zoo. The city provides innumerable opportunities for applied learning with access to all five major sports through the Eagles, Flyers, Phillies, Sixers, and Union, as well as a host of major national and international sporting events such as the Army-Navy game, March Madness basketball, U.S. Olympic trials, and the X-Games. Philadelphia also has one of the country’s most active parks and recreation departments and the world’s largest urban park in Fairmount Park.

The mission of STHM is to:

• Enrich the tourism, hospitality, recreation, and sport industries by fostering diversity and inclusion;
• Meet the leadership needs of the tourism, hospitality, recreation, and sport industries by providing quality, student-centered, professional preparation programs;
• Advance knowledge in tourism, hospitality, recreation, and sport by conducting high level research;
• Enhance the tourism, hospitality, recreation, and sport management professions by offering quality service to relevant organizations; and
• Educate the Temple University community about the significance of tourism, hospitality, recreation, and sport in today’s multicultural society by offering courses in general education, collaborating with other faculty on joint research projects, and serving on relevant committees.

**Sport Business, M.S.**

SCHOOL OF SPORT, TOURISM AND HOSPITALITY MANAGEMENT ([http://sthm.temple.edu](http://sthm.temple.edu))

**About the Program**

The goal of the graduate program in Sport Business is to prepare future leaders in the areas of policymaking, management, supervision, education, and research. The program provides for the analysis of current trends, problems, and policies that affect sport and leisure services. Designed to provide a multifaceted approach to the study of sport business, the program is structured to prepare students for a wide range of career opportunities in athletic administration, marketing and promotions, recreation and event management, and sport analytics.

Students interested in studying at the doctoral level should refer to the Ph.D. program in Business Administration with a concentration in Tourism/Sport (p. 332) offered by Fox School of Business and Management.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main, with business electives offered at the Center City campus or online

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Study Abroad:** Students who wish to do their internships abroad work closely with the Center for Student Professional Development, which assists with the necessary contacts and supervision.

**Ranking:** In 2017, this program was ranked #7 in the nation and #9 in the world by *SportBusiness International* (SBI), a leading industry publication that ranks sport management programs.

**Areas of Specialization:** Four areas of concentration are offered:

- Athletics Administration
- Recreation and Event Management
- Sport Analytics
- Sport Marketing and Promotions

**Job Prospects:** Students typically find placements in college athletics, campus recreation, professional sports, sport governing bodies, youth sport, stadium and arena management, and parks and recreation.

**Financing Opportunities:** Teaching and Research Assistantships and Graduate Externships within the School of Sport, Tourism and Hospitality Management are reserved for students who are capable of teaching undergraduate classes in specialized academic areas or assisting in faculty research. Teaching Assistants (TAs), Research Assistants (RAs), and Graduate Externs (GEs) are expected to provide between 5 and 20 hours per week of service throughout the academic year. A 9-month stipend is offered along with full (9 credits) tuition remission for the Fall and Spring terms for TAs and RAs. GEs receive a stipend only. Applications for assistantships and externships are not evaluated until all positions have been filled.

**Admission Requirements and Deadlines**

**Application Deadline:**

**Fall:**
- October 1 - Early Action Deadline
- March 31 – Priority Scholarship Deadline
- May 15 – Final Scholarship Deadline
- June 30 – Final Application Deadline

**Spring:**
- October 1 – Priority Scholarship Deadline
- November 15 – Final Application Deadline

Applications are processed as they arrive through the deadline.

**Letters of Reference:**

**Number of Letters Required:** 2

**From Whom:** Letters of recommendation should be obtained from college/university faculty members familiar with academic competence and/or an immediate work supervisor.

**Bachelor's Degree in Discipline/Related Discipline:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

**Statement of Goals:** In 500 words, explain your:

- Academic/professional goals
- Personal strengths that will contribute to success in the graduate program
- Personal weaknesses that may inhibit success in the program

**Standardized Test Scores:**

GRE or GMAT scores are required for admission. Individuals may qualify for a GRE/GMAT waiver based on academic or professional history.
TOEFL score: 100 iBT or 600 PBT minimum

IELTS Academic score: 6.5 minimum

Resume: Current resume required

Transfer Credit: Graduate credits from an accredited institution may be transferred into the program. The credits must be equivalent to coursework offered in the Master of Science in Sport Business program and cannot have been used to complete another degree either at Temple University or another institution. The grade must be a "B" or better in order to transfer. The maximum number of credits a student may transfer is 6.
