

Mechanical Engineering Technology (MET)

Courses

MET 4671. Computer Integrated Manufacturing Systems. 3 Credit Hours.

CAD/CAM in practice: flexible systems, operations, and performance. The course also considers communication and the integration of robots and computerized machines. Laboratory and demonstrations.

Repeatability: This course may not be repeated for additional credits.

Pre-requisites:

(ENGT 3651|Minimum Grade of D-|May not be taken concurrently)

AND ENGT 3652|Minimum Grade of D-|May not be taken concurrently)
