Counseling Psychology, M.Ed.

About the Program
The Counseling Psychology program offers a 60-credit master's degree in Education (M.Ed.) with two areas of concentration:

• Agency Counseling, which prepares students to work with individuals, couples, families, and groups in various settings, including community mental health centers, hospitals, and consulting agencies. Completion of the master’s degree in the Agency Counseling concentration qualifies the student to become a Licensed Professional Counselor (LPC) in the Commonwealth of Pennsylvania.

• School Counseling, which prepares students to work with students, teachers, administrators, and parents in either an elementary or secondary school setting. Completion of the master’s degree in the School Counseling concentration qualifies the student for certification as a Pre-K-12 school counselor in the Commonwealth of Pennsylvania.
