# Legal Studies BBA

#### Overview

Offered by the Department of Risk, Actuarial Science, and Legal Studies, the **Bachelor of Business Administration in Legal Studies** is designed to acquaint students with the broad spectrum of the economic, political and sociological framework within which the law functions. It also may be pursued as a pre-law major in preparation for law school. Students will be exposed to a curriculum that will challenge their thinking process and reasoning abilities through the use of actual court cases, trial simulations, negotiations and other advocacy skills that stress written and oral communication. The Legal Studies major also offers students, who may not be interested in law school, with an academic foundation for future careers in corporate compliance, court administration, federal and state regulatory agencies, non-profit organizations, and other organizations in which a legal background combined with business studies is of critical importance.

All faculty are graduates of law school and many also possess PhD or other advanced law or academic degrees. Adjunct faculty are drawn from government agencies, private law firms, corporate law firms, and the federal and state judiciary.

Students pursuing this curriculum in preparation for the study of law should acquaint themselves with the content and format of the Law School Admissions Test (LSAT). Learn more about the LSAT and the Law School admissions process.
