Management Information Systems Certificate

Overview

Offered by Department of Management Information Systems, the **Certificate in Management Information Systems** (MIS) is open to non-business students. The MIS certificate provides undergraduate students the ability to identify, select and evaluate innovative technology solutions for business. In this nine-credit certificate program, students become a knowledgeable user of information technology and develop the tools necessary to successfully interact with technology professionals. As a graduate of the program, students acquire valuable, translatable skills and differentiate themselves in an increasingly competitive industry.

Campus Location: Main

Program Code: BU-MIS-CERT
