

Management Information Systems Minor

Overview

Offered by Department of Management Information Systems, the **Minor in Management Information Systems (MIS)** is open to all undergraduate students. This minor equips students with the skills to effectively identify, select, and apply information technology (IT) in their primary field of study. By completing the MIS minor, students gain essential knowledge and terminology to become proficient IT users in the business world and develop the ability to collaborate with technology professionals across organizations.

The MIS minor prepares students for careers in business applications, consulting, technical liaisons, and the acquisition and selling of business software. Key benefits of the MIS minor include:

- Understanding key information technologies used by organizations;
- Learning to specify technology solutions and effectively engage with IT professionals;
- Gaining insights into business processes and how IT solutions align with them;
- Identifying how IT solutions are designed and implemented to improve efficiency and effectiveness; and
- Applying data analytics to collect, store, analyze and distribute organizational information.

To pursue the MIS minor, students must first declare their intent to minor in MIS.

Total Credit Hours		18

- A grade point average of 2.0 in the minor is required as well as a minimum grade of C- in each course unless otherwise specified.
- ECON 1101, HRM 1101 and MIS 2101 cannot be used to meet minor requirements if already used to meet the requirements for a major or a different minor or certificate.

- Courses for the minor must be completed prior to graduation; if completed, the minor will be recorded on the final transcript upon graduation.
- For more information and to declare or rescind this minor visit the Fox MIS Minor web site.

Interested students should discuss with their home college advisors how the courses in the minor will fit into their overall degree plan and are strongly encouraged to declare the minor early in their academic career.
