Campus Overview

Oldest and largest foreign university in Japan

Temple University, Japan Campus (TUJ) is the oldest and largest foreign university in Japan. Founded in 1982, TUJ has developed into a nationally recognized institution offering an extensive range of educational programs. In addition to its core undergraduate program (http://www.tuj.ac.jp/ug), TUJ offers graduate programs in law (http://www.tuj.ac.jp/law), business (http://www.tuj.ac.jp/mba), and education (http://www.tuj.ac.jp/tesol); an English-language preparation program (http://www.tuj.ac.jp/aep); continuing education (http://www.tuj.ac.jp/cont-ed) courses; and corporate education (http://www.tuj.ac.jp/cep) classes.

4,700 learners and counting...

Including the participants in the Corporate Education programs and English training programs for educational organizations, TUJ is a home for around 4,700 learners. TUJ takes pride in its top-quality, English-language education and in providing a unique opportunity for students to obtain American undergraduate and graduate degrees without leaving Japan.

International student body

One of TUJ's greatest assets is its student body. Students come from approximately 60 countries around the world, including Japan, the United States, East and Southeast Asia, Russia, the Middle East, Africa, Latin America, and Europe. Its diverse student body helps make TUJ a rich, dynamic, and stimulating institution.

Recognized as a Foreign University, Japan Campus

TUJ is the first educational institution in Japan to be officially recognized as a Foreign University, Japan Campus by Japan's Ministry of Education, Culture, Sports, Science and Technology. This status allows TUJ to sponsor student visas, enabling international students to study at the university on either a short-term basis (one or two semesters) or a long-term basis (such as to complete a full four-year program).

Superb faculty and small classes

TUJ's superb faculty works closely with students to help them achieve their academic objectives. We organize small classes to facilitate lively discussions and to allow professors to give special attention to students. Moreover, TUJ offers the Temple University brand of education, providing the same course content as that of Temple's main campus and teaching all but its language courses in English. Studying at TUJ offers the same quality education as at Temple University in the United States.

For more information about TUJ, go to the TUJ web site (http://www.tuj.ac.jp/ug).

ACADEMIC ADVISING CENTER

Norihisa Shimada, M.H.Ed.A., Director

TUJ's Academic Advising Center works with all undergraduate students in any major at any level. See "Advising" section for more details.

Internship Program (Career Development Office)

Kentaro Sawa, M.A., Director

The internship program is one of the distinctive features of a TUJ education. Students find it useful to not only gain valuable work experience, but also to build their future career plan. In fact, many students choose to find the same kind of job as they undertake during their internship.

Credit internship is a valuable way to gain practical work experience, often in a student's field of interest, while earning academic credits. Since credit internship is treated as an academic course, you will need to register with the Academic Advising Center (http://www.tuj.ac.jp/ug/academics/advising-and-support/academic-advising). Students usually work from 10 to 20 hours per week on site under managerial supervision.

Not only TUJ students but also qualified Main Campus students are welcome to apply for the Internship Program through Study Abroad. Main Campus students who are interested in applying for TUJ's Internship Program should contact the Education Abroad and Overseas Campuses (https://studyabroad.temple.edu), 200 Tuttleman Learning Center.

More details about the Internship Program at TUJ can be found at the TUJ Career Development Office web site (http://www.tuj.ac.jp/career-support/students/internship-programs.html).

Office of Student Services

Nicole Despres, Director

The Office of Student Services (http://www.tuj.ac.jp/ug/student-services/about.html) (OSS) supports TUJ's diverse student population as they become members of the university community. In addition to providing assistance with the visa application process and coordinating Financial Aid/GI Bill-related matters and housing, the OSS provides orientations to help students adapt to the academic and social life at TUJ. The OSS also works with
the Student Government and other student organizations to encourage social interaction among students with different backgrounds by creating events and activities that appeal to all TUJ students.

Director

Danielle Vokal, M.S., M.A.

Assistant Director

Academic Advising is a series of supportive activities provided for students to accomplish their academic and career goals through assistance such as:

- choosing an appropriate major based on their interests
• selecting appropriate courses for their program of study
• monitoring their academic progress
• informing about the University's deadlines, policies, and regulations
• assisting students on exploring academic options and opportunities

Please also see full mission statement (http://www.tuj.ac.jp/ug/academics/advising-and-support/academic-advising/mission-statement.html).

The Academic Advising Center (AAC) works with all undergraduate students as a primary support unit. Major Coordinators (http://www.tuj.ac.jp/ug/academics/advising-and-support/major-coordinators.html) are also available to assist students in course selection for the major and minor requirements based on their academic interest and needs.

**Advising by Professional Advisors**

Undergraduate students in all majors at any level can get assistance from the Academic Advising Center (AAC, located on the 1st floor of Azabu Hall) staffed with full-time professional academic advisors. Students will be ensured by the AAC advisors to satisfy all of the University's graduation requirement areas, such as General Education, major, and college requirements. Advising is available on appointment basis throughout the semester with the exception of certain designated periods in which advising is limited, such as Graduation Review and Clearance or New Student Orientation.

**Advising Appointments**

Appointments are typically available between 10:00 a.m. - 5:00 p.m. on Monday through Friday. In order to make an appointment, students simply can stop by the AAC or submit a request through the online form (https://www.tuj.ac.jp/ug/academics/advising-and-support/academic-advising/form-appointment-for-academic-advising.html). Each advising slot typically lasts for 30 minutes.

Due to high demand for advising appointments, it is critical for students to arrive on time. Please be aware that students who are more than 10 minutes late to their appointment will have to reschedule due to time constraints.

Advising by the AAC is also available on the same-day sign-up basis during the first two weeks of each semester. Each advising slot will last for 30 minutes. Students who wish to book a slot may do so only by stopping at the AAC. The sign-up sheet becomes available at 9:00 a.m. every day during the aforementioned period.

**Major Coordinators**

While the AAC works as the primary unit for advising to TUJ undergraduate students, Major Coordinators (https://www.tuj.ac.jp/ug/academics/advising-and-support/major-coordinators.html) are also available for students to discuss their course selection particularly in major and minor requirements. Students should remember that Major Coordinators are specifically responsible for the respective major and minor requirements only, and therefore, General Education and other collegial requirements are typically not covered by them. Students who seek assistance in comprehensive academic advising to cover all degree requirements should meet with a professional academic advisor from the AAC even after they discuss course selection in their major requirements with the Major Coordinator.

Double-major students and students with minors should also meet with a professional advisor from the AAC on a regular basis since there will be a policy regarding course sharing.

Through contact with the Major Coordinators, students gain an in-depth appreciation of a specific discipline and discover opportunities associated with their field of interest. Some TUJ students choose to continue their studies by attending Masters or Doctorate Graduate programs of their choice. While each graduate program has their own specific admissions requirements, it is recommended that students meet with their Major Coordinator for further information and suggestions. Students should begin planning as soon as their sophomore/junior year.

**Change of Program (CoP) between TUJ and Main Campus**

The AAC serves as an academic liaison with relevant advising and other academic units at Main Campus, and assists students transfer between two campuses. Students who are interested in studying at Main Campus should contact the AAC at least two semesters earlier before they transfer to Main Campus.

**Academic Partnership with Japanese Universities**

TUJ currently has academic partnerships with the following institutions in Tokyo. TUJ students can attend these institutions and earn credits without extra costs. Contact the AAC for more details.
