Accelerated Degree Program

Students who wish to earn a BA and an MA in Economics may do so in a combined +1 accelerated program. Students begin graduate study during their undergraduate program and are able to count some electives towards both degrees. This program is only open to students who will complete both degrees in a total of five years or less. See the Economics faculty advisor if you are considering this option.

Honors Society and Majors' Association

Along with the more general student organization, The Economics Society, it provides opportunities for students to network with other students and with practicing economists in learning more about economics and finding internships and employment opportunities.

Workplace Preparation

Students may participate in an internship, gaining valuable work experience which can enhance their job market prospects upon graduation. By completing an academic research project under the guidance of a faculty member, student interns may earn credit for ECON 2585.

Cooperative Education Option

Through this program, students may earn income while gaining valuable work experience which can enhance their job market prospects upon graduation. By completing an academic research project under the guidance of a faculty member, co-op students will earn credit for ECON 3581.
