## Speech, Language and Hearing Science BA

## Overview

The Bachelor of Arts in Speech, Language and Hearing Science is offered by the Department of Communication Sciences and Disorders. This is a degree program for students interested in becoming speech-language pathologists or audiologists. Both of those professions require a graduate degree in addition to the prerequisites obtained in the undergraduate major. Speech-language pathologists and audiologists diagnose, treat and work to prevent a variety of speech, language and hearing disorders. This major is also excellent preparation for those interested in going on to graduate programs in education, linguistics, neuroscience and a variety of health professions.

Majors have opportunities to observe and work with clients and to participate in research as well.
Campus Location: Main
Program Code: HP-SPLH-BA

## Distinction in the Major

Students who complete the Speech, Language and Hearing Science major may graduate with distinction in the department if they meet the requirements outlined below:

1. GPA of 3.50 or better in the major and overall;
2. No grade below $B$ in the major;
3. Completion of an honors paper at the end of a 3-credit independent study (CSCD 4979) during which the student will engage in an empirical study or library research in the field of Communication Sciences and Disorders under the supervision of a faculty advisor;
4. Completion of 20 hours of volunteer work, internship or fieldwork in consultation with the advisor.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

The Bachelor of Arts in Speech, Language and Hearing Science may be conferred upon a student by recommendation of the faculty upon the satisfactory completion of 122 credit hours. A grade of $C$ is the lowest acceptable final grade for courses required of majors as well as departmental electives taken by majors. A grade of C- (C minus) is the lowest acceptable grade in GenEd courses. The Department of Communication Sciences and Disorders requires that students show a basic level of proficiency in a language other than English. This requirement may be met by taking collegelevel courses up to or beyond the equivalent of the 1002 -level or by showing similar knowledge through a placement examination. Students may take American Sign Language to satisfy this requirement.
