

Accelerated Health Programs in CST

Overview

The College of Science and Technology (CST) has a variety of accelerated health programs in partnership with professional programs.

3+2, 3+3, 3+4 Bachelor/Professional Accelerated Programs

Temple Professional School Programs (Lewis Katz School of Medicine, Temple University Kornberg School of Dentistry, Temple University School of Podiatry, Temple University School of Pharmacy) agree to cooperate in providing an accelerated 3+2 and 3+4 undergraduate/professional school education leading to both a bachelor's degree in the College of Science and Technology and a doctorate degree from the Professional School. The Temple University College of Public Health agrees to cooperate in providing an accelerated 3+3 undergraduate/graduate education leading to both a bachelor's degree in the College of Science and Technology and a Doctor of Physical Therapy in the College of Public Health.

Students in the College of Science and Technology who are in a joint program listed below, have been admitted to the professional program at the end of their third year, and have completed 90 semester hours, may transfer their first year in professional study toward the completion of the credit requirements for the bachelor's degree. Biology and Chemistry majors may also transfer approved courses in their first year of professional study toward some of the required courses in their major.

The specific Bachelor/Professional accelerated programs are:

- Dental 3+4 Program
- Pharmacy 3+4 Program
- Physical Therapy 3+3 Program
- Physician Assistant 3+2 Program
- Podiatry 3+4 Program
- Pharmaceutical Studies BS

Programs
