1

Natural Sciences BA with Earth and Environmental Sciences Concentration

Overview

The Natural Sciences program provides students more breadth than traditional science programs.

Natural Sciences students must select one of the following concentrations:

- Biology
- Chemistry
- Earth and Environmental Sciences
- · Physics

Many exciting areas of scientific inquiry, such as the neurosciences, environmental sciences, and biophysical sciences, require general science backgrounds that encompass multiple science disciplines. The **Bachelor of Arts in Natural Sciences with a concentration in Earth and Environmental Sciences** helps students to explore both domestic and international culture through the foreign language and upper-level liberal arts course requirements.

Students planning graduate study or technical careers in one of these interdisciplinary areas, as well as students preparing for careers in health sciences, legal professions, science education, science-related business, or social service might be well served by the BA in Natural Sciences. This program of study can prepare students for graduate study in a traditional science discipline, and many Natural Sciences graduates have found employment in technical fields.

Students in this program can apply to our Professional Science Master's (PSM) programs in Bioinnovation, Biotechnology and Scientific Writing. Students interested in these PSM programs can apply for admission to the +1 BA/PSM accelerated options for completion of these degrees. PSM programs provide specific curricula and training for workforce entry or re-entry.

Campus Location: Main

Program Code: ST-NATS-BA

Distinction in Major

To graduate with distinction in this major, a student must satisfy the following criteria:

- achieve a minimum 3.33 GPA in major or
- achieve a minimum 3.0 cumulative GPA and successfully complete six credits of internship coursework (SCTC 1385, SCTC 2385, or SCTC 3185) with approval by the program director.

Accelerated Programs

Accelerated programs provide a pathway for students to pursue both an undergraduate degree and an advanced degree in a shorter amount of time. Below is a list of available accelerated programs for students in the BA in Natural Sciences.

- · BA or BS in Natural Sciences / PSM in Scientific Writing
- · BA or BS in Natural Sciences / PSM in Bioinnovation
- BA or BS in Natural Sciences / PSM in Biotechnology
- · BA in Natural Sciences / MEd in Middle Grades Education with a Concentration in Science
- BA in Natural Sciences / MEd in Middle Grades Education with a Concentration in Science and Language Arts

Undergraduate Contact Information

Susan Varnum, Program Director and Professor of Chemistry Senior Associate Dean for Undergraduate Affairs and Science Education College of Science and Technology Gladfelter Hall, Room 629 215-204-4073 susan.varnum@temple.edu

Learn more about the Bachelor of Arts in Natural Sciences.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Bachelor of Arts Requirements

Summary of Requirements for the Degree

- 1. University Requirements (123 total s.h.)
 - Students must complete all University requirements including those listed below.
 - All undergraduate students must complete at least two writing-intensive courses for a total of at least six credits at Temple as part of their major. The specific writing-intensive course options for this major are:

Code	Title	Credit
		Hours
SCTC 2396	Writing for Science and Technology	3
SCTC 4396	Paradigms of Scientific Knowledge: Knowledge Discovery from Scientific Data	3

• Students must complete the General Education (GenEd) requirements.

- See the General Education section of the Undergraduate Bulletin for the GenEd curriculum.
- Students who complete CST majors receive a waiver for 2 Science & Technology (GS) and 1 Quantitative Literacy (GQ) GenEd courses.
- Students must satisfy general Temple University residency requirements.

2. College Requirements

Temple

- A minimum of 90 total credits within the College of Science & Technology (CST), the College of Liberal Arts (CLA), and/or the College of Engineering (ENG).
 - A minimum of 45 of these credits must be upper-level (courses numbered 2000 and above).
 - A minimum of 6 of these credits must be upper-level (courses numbered 2000 and above) CLA credits.
- Successful completion or waiver from the second level of a foreign language.
- Complete a one-credit first-year or transfer seminar.
 - SCTC 1001 CST First Year Seminar for every entering first-year CST student.
 - SCTC 2001 CST Transfer Seminar for every entering transfer CST student.
- 3. Major Requirements for Bachelor of Arts (63-72 s.h.)

At least 7 courses required for the major must be completed at Temple. At least 2 courses in the chosen concentration must be completed at

Code	Title	Credit Hours
(F) - Fall only course		

(S) - Spring only course

1

It is recommended that SCTC 1501 or SCTC 1502 be completed before SCTC 4396.

2

It is recommended that students take CIS 1051 (or CIS 1951) as Python is the language of choice for most science programming needs.

3

SCTC 3312 is a variable credit course and must be taken for 3 credits in order to meet the requirement for this program. Since the default credits are set to 1, students must contact CSTbce@temple.edu to have an advisor change the credits to 3.

4

These courses are not required if MATH 1031 is completed.

5

The four electives (2000+) must all be taken from within the EES department and must satisfy elective criteria of the department. In the circumstance where a laboratory course is the complement of a lecture course, both must be completed to fulfill the requirement for ONE science elective.
