Graduate Certificate: Cyber Defense and Information Assurance

COLLEGE OF SCIENCE AND TECHNOLOGY

Learn more about the graduate certificate in Cyber Defense and Information Assurance.

About the Certificate

The graduate certificate program in Cyber Defense and Information Assurance (CyberDIA) is designed for aspiring technical professionals at all career levels — entry-level, mid-career, and senior executives — who want to equip themselves with skills necessary to protect their organization and the nation from increasing cyberthreats. The multidisciplinary program design borrows knowledge, skills, and expertise from different academic disciplines, including business, computer and information sciences, electrical and computer engineering, and law. The key focus is on a holistic cybersecurity framework, i.e., one that is built around the core principles of preventive, detective, and corrective security mechanisms. While the CyberDIA curriculum is technology intensive, focusing on network security and digital forensics, it also bridges the ever-increasing gap between cybersecurity technology and cybersecurity policies. Students take 12 credits of the core curricular classes of the CyberDIA M.S. program to complete the certificate.

Campus Location: Main

Full-Time/Part-Time Status: The graduate certificate can be completed on a part-time basis. NOTE: International students may not be eligible to apply for a student visa based on admission to the certificate program. Please contact the graduate administrative coordinator for more information.

Non-Matriculated Student Policy: Students can take up to 9 credits on a non-matriculated basis. When they complete 9 credits, they must declare their intention to complete the graduate certificate in Cyber Defense and Information Assurance by completing and submitting the “Non-Degree Seeking Student Request to Exceed 9 Credits of Graduate Coursework for Certificate Program,” found in TUportal under the Tools tab within “University Forms.”

Admission Requirements and Deadlines

Bachelor’s Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Certificate Requirements

Number of Credits Required to Complete the Certificate: 12

Required Courses:¹

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
