About the Program

The MEd in Higher Education is intended for early- and mid-career individuals aspiring to serve as administrators in a variety of settings, including colleges and universities, community colleges, higher education systems, proprietary/vocational institutions, and college access and pathway programs. The distinctive feature of the MEd program is its emphasis on urban issues and themes of equity and access in postsecondary education.

Extending Temple's traditional commitment to social justice and educational opportunity, this program develops expert practitioners, i.e., those who can enact the kinds of changes that are necessary to meet state and federal college completion goals, improve equity in student postsecondary outcomes, strengthen the role of higher education for the public good, and create structures and cultures that are conducive to student success.
