

Graduate Certificate: Engineering Project Management

COLLEGE OF ENGINEERING

Learn more about the graduate certificate in Engineering Project Management.

About the Certificate

The innovative graduate certificate in Engineering Project Management is designed for working engineering professionals. In addition to learning traditional project management methodologies, students study Agile project management (APM) methodologies, engage with financial analysis to understand the value of a project to the overall organization, and work toward a detailed treatment of the specific leadership challenges facing the project manager. This certificate can be "stacked" along with other graduate certificates and an integrative capstone project to earn the Master of Engineering (MEng) degree.

Campus Location: Online

Full-Time/Part-Time Status: The graduate certificate can be completed on a part-time basis. NOTE: International students may not be eligible to apply for a student visa based on admission to the certificate program.
