About the Program

The MS in Digital Marketing degree program is designed to address digital marketing best practices to empower graduates to thrive at the front line of the changing media environment. Students are equipped with the skills necessary to develop and manage a modern brand through authentic communication with customers and prospects alike. In addition, students are empowered to think strategically about how brands, their employees and society-at-large interact to hone more effective multi-platform media plans. The entire program is designed to provide students with hands-on, real-world experiences leveraging marketing research, data visualization and advanced analytics to enhance strategies they can immediately apply to their current careers and/or to entrepreneurial initiatives.
