Pharmaceutical Regulatory Sciences MS

SCHOOL OF PHARMACY

About the Program

The MS in Pharmaceutical Regulatory Sciences (MSPRS) blends two disciplines, pharmaceutical and regulatory sciences, providing a unique and critical academic path for professionals in the pharmaceutical, medical device and biologics industries:

- Pharmaceutical science courses focus on the core science principles involved in the development and manufacturing of therapeutic products.
- RAQA courses provide a strong framework of regulations and quality practices, addressing scientific methods needed to ensure safety, efficacy, quality and consistent performance.

The MSPRS program is designed to prepare a cadre within the pharmaceutical industry of senior regulatory professionals who are familiar with both the pharmaceutical sciences and worldwide regulatory practices as they interact with the U.S. Food and Drug Administration (FDA) and other global regulators in bringing new chemical entities and biologics to market.

Time Limit for Degree Completion: 5 years

Campus Location: Online, in a hybrid format with some in-person instruction but the majority of learning online

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The program fosters interdisciplinary study with the pharmaceutical sciences and technology.

Job Prospects: The program prepares graduates for positions in the global marketplace related to the pharmaceutical and regulatory sciences.

Non-Matriculated Student Policy: Non-matriculated students are able to take up to 9 credits before formal application must be made to the program.

Financing Opportunities: Master's students are generally not considered for financial support.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1; December 15 international
Spring: November 1; September 1 international

Statement of Goals: Describe your career goals and objectives in 500 to 1,500 words.

Standardized Test Scores:
Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 85
- IELTS Academic: 7.0
- PTE Academic: 58

Resume: Current resume or CV required.

Transfer Credit: Students may transfer a maximum of 6 credits into the MS program. These credits must be similar or identical to courses offered by the Temple University School of Pharmacy and applicable to the MS in Pharmaceutical Regulatory Sciences. In addition, the student must request the transfer credits at the time of application to the MS program, providing copies of course syllabi. The maximum number of credits a student may transfer is 6.
