Painting, M.F.A.

TYLER SCHOOL OF ART AND ARCHITECTURE

About the Program

The Painting program at the Tyler School of Art and Architecture is a two-year, 60-credit program leading to the Master of Fine Arts (M.F.A.) degree. The program, which is ranked among the top 10 M.F.A. programs in the nation by U.S. News & World Report, offers students access to unparalleled facilities and strong, personal mentorship.

With eight faculty members devoted to 16 M.F.A. students, Tyler Painting provides something that few other top programs can give their students: substantial, engaged, one-on-one access to a diversity of painters and thinkers. The breadth and interdisciplinary nature of the Tyler approach is reinforced by exposure to practicing faculty artists in the school’s other programs and its visiting artist and lecture series, which brings leading minds to Tyler to interact with graduate students.

Tyler M.F.A. students take advantage of the school’s location in Philadelphia, a vibrant art center and affordable home base near New York and Washington, D.C., to grow their creative practices. Graduates join an alumni community that includes highly accomplished and influential artists and teachers.

This course will not only focus on allowing you to gain a thorough understanding of artificial lighting techniques, but also how to approach natural light situations better, and beyond that, to an understanding of how the two work in conjunction. By revisiting the fundamentals of the large format view camera, and developing an understanding of environmental and situational lighting techniques, you will learn different commercial and fine art approaches to working in a studio setting. ART 5607. Contemporary Photography. 3 Credit Hours.
We live in an extraordinary moment in the history of photography, a moment much hoped for and anticipated by many champions of the medium. Finally one can say without qualification that photography is a medium fully embraced by the contemporary art world. While there has always been a movement to look at and discuss photography as art, photography has never played a more central, critical and vital role in contemporary art then it does now. This course will look at both the role that photography plays in contemporary art and the role that contemporary art plays in photography. By surveying contemporary trends in photography, students in this class will develop an understanding of what exactly photography is now. At the same time the class will attempt to answer questions about what it means to be contemporary, about what the relationship between the contemporary and the historical is, and why this might be important. Through these problems students will be encouraged to develop personal work that addresses themes and ideas discussed in the class. Note: Open to Junior/Seniors. Special authorization required for non-majors.
