Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:
• TOEFL iBT: 100
• IELTS Academic: 7.0
• PTE Academic: 68

Resume: Current resume required.

Transfer Credit: Upper-level graduate credits from an AACSB-accredited graduate business program, but not previously applied to a conferred degree, may be transferred into the M.S. program. The credits must be part of the required degree program at Temple University. To be transferred, the grade must be a ‘B’ or better. The Admissions Committee makes recommendations for transferring credits to the department chair. The maximum number of credits a student may transfer is 6.

Culminating Events:

Capstone Experience:
Through MKTG 5118, the capstone course, students collaborate on a real-world business challenge in the marketplace. Each student plays a critical role in developing a comprehensive strategic marketing plan. Collaboratively, students own responsibility for accurate segmentation, targeting, positioning, value generation, and feasibility for a brand company, product, or product line. Students in the Strategic Advertising and Marketing (STAM) program assess the effectiveness of the brand’s current advertising and communication strategies while guiding students in the Marketing Research and Insight (R&I) concentration of the Marketing M.S. program on research objectives that are actionable. In turn, R&I students guide STAM students on sound research planning, survey development, execution, and data analysis while identifying strategic outcomes. All students work together to finalize a commercial-grade marketing strategy and plan of tactics worthy of business management approval. All students learn to apply team leadership practices while developing a strategic marketing plan and gaining hands-on experience that can help accelerate a career in their respective fields. Success in this course requires playing an active role through a field research project that facilitates knowledge, skill, and competency in developing a company’s product line and robust communication strategy and plan for implementation.

Graduate Certificate: Business Administration

FOX SCHOOL OF BUSINESS AND MANAGEMENT

About the Certificate
This graduate certificate is not open for enrollment for the 2019-2020 academic year.

Graduate Certificate: Business Analytics

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the graduate certificate in Business Analytics.

About the Certificate
The graduate certificate in Business Analytics, which is offered by the Department of Statistical Science in the Fox School of Business, is designed to foster deep analytical skills and the know-how needed to
use the analysis of big data to make effective decisions. Students are prepared to:

- understand descriptive, predictive, and prescriptive analytics, recognize when each is appropriate, and understand the fundamental methods and techniques used in each;
- understand the applications, assumptions, and limitations of business-analytic models and techniques;
- develop expertise in the use and application of analytical tools and software;
- obtain information and insight from datasets of varying complexity; and
- effectively communicate insights and results of analyses in managerially relevant terms.

**Admission Requirements and Deadlines**

Students are accepted into the certificate program in both the Fall and Spring terms.

**Graduate Certificate: Corporate Instructional Design**

FOX SCHOOL OF BUSINESS AND MANAGEMENT

**About the Certificate**

This graduate certificate is not open for enrollment for the 2019-2020 academic year.

**Graduate Certificate: Entrepreneurship and Technology Commercialization**

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the graduate certificate in Entrepreneurship and Technology Commercialization.

**About the Certificate**

The graduate certificate in Entrepreneurship and Technology Commercialization is an efficient, high-impact program that gives participants the practical skills for turning innovative ideas or new technologies into commercially viable products and services. It is part of a system of technology commercialization support programs offered by the Innovation and Entrepreneurship Institute (IEI). This certificate is jointly designed and delivered by the Fox School of Business and Management and the College of Engineering.

Our graduate certificates are designed for working professionals and leverage hybrid course formats that provide the best of both online and in-person experiences. Rigorous, hands-on courses are taught by faculty who are leaders in their fields and business people who have implemented ideas into practice. Participants also have the option to transfer credits earned into our other graduate degree programs, such as the Innovation Management and Entrepreneurship M.S. or our M.B.A. degree.

Participants learn to experiment with different commercialization strategies and business models as they assess the feasibility of their own and others’ ideas. Some topics explored in this certificate program are:

- How do you transform technological features and innovations into value propositions from a customer's perspective?
- How can you understand the customer adoption decision in order to formulate a 'go-to-market' strategy?
• How can you evaluate multiple business model options to increase the likelihood of new venture success?

This certificate program is appropriate for:

• corporate R&D personnel who want to better understand how to position their inventions for commercial success or want to move into new product development or R&D management roles;
• managers and executives who must monetize technology or innovative products and services, as well as anyone involved in technology transfer or commercialization;
• faculty and Ph.D. students who have invented a technology and want help applying for translational research grants (e.g., NSF I-Teams / I-Corp, SBIR / STTR Phase I Funding) or want to commercialize the technology either via licensing or starting a new venture; and
• entrepreneurs or graduate students with an innovative idea for a new product/service or that might like to work with an inventor or patented technology.

Admission Requirements and Deadlines

Students are accepted into the certificate program in both the Fall and Spring terms; Summer start dates may be available in some years. Faculty and students enrolled in graduate programs in Temple University’s College of Engineering, College of Science and Technology, Fox School of Business and Management, and Lewis Katz School of Medicine are automatically accepted into the certificate program. Other participants with 10 years of work experience, a 3.0 undergraduate GPA, or GMAT scores in the 75th percentile and above are also typically accepted automatically. Prospective participants with 3 to 9 years of work experience must submit a resume and statement of goals to be considered for admission.

APPLY ONLINE to this certificate program.

Graduate Certificate: Healthcare Innovation Management

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the graduate certificate in Healthcare Innovation Management.

About the Certificate

The graduate certificate in Healthcare Innovation Management is an efficient, high-impact program that gives healthcare leaders the tools to become more innovative in their thinking and more focused on non-traditional approaches to delivery. Our healthcare system is undergoing dramatic changes as a result of market forces, consumer expectations, and direct and indirect incentives to innovate in financing, organizational form, and delivery.

Our graduate certificates are designed for working professionals and leverage hybrid course formats that provide the best of both online and in-person experiences. Rigorous, hands-on courses are taught by faculty who are leaders in their fields and business people who have implemented ideas into practice. Participants also have the option to transfer credits earned into our other graduate degree programs, such as the Innovation Management and Entrepreneurship M.S., the M.B.A. in Business Administration/Health Sector Management, or Health Administration M.H.A. This certificate is jointly designed by the
Department of Risk, Insurance and Healthcare Management and the Department of Strategic Management in the Fox School of Business and Management.

Graduate Certificate: Human Resource Management

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the graduate certificate in Human Resource Management.

About the Certificate

People are a critical component of all organizations. They are the ones who produce the products, serve the customers, verify the financial statements, attract the customers, develop the innovations, and manage the enterprise. Human Resource Management (HRM) plays a crucial role in this arena as its strategies and tactics:

- facilitate attracting and selecting from a diverse talent pool and developing that talent for continued growth and engagement;
- create motivation and reward systems that support individual and organizational goals;
• ensure talent retention; and
• ultimately generate success.

Our graduate certificate is designed for career accelerators as well as career changers. Courses are delivered online and include virtual classroom meetings with a Fox School of Business faculty member and student-classmates. Rigorous, hands-on courses are taught by faculty who are leaders in their fields and businesspeople who have led HR groups. Participants also have the option to transfer credits earned into a Fox graduate degree program, such as the Human Resource Management M.S.

Some questions answered in this certificate program are:
• How does one acquire talent efficiently and effectively?
• How can compensation be used to support organizational goals?
• What are the key public policy issues related to HRM?
• How do ethical HRM practices contribute to the enterprise’s success?

The HRM certificate program is appropriate for:
• current human resource practitioners seeking to enhance their careers with new strategies and cutting-edge knowledge;
• current general managers who wish to transition to an HRM career; and
• current general managers who wish to deepen their understanding of HRM practices so as to become better managers.

Admission Requirements and Deadlines

Application Deadline:

Fall: June 30
Spring: November 1

APPLY ONLINE to this certificate program.

Graduate Certificate: Information Technology Auditing and Cyber Security

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the graduate certificate in Information Technology Auditing and Cyber Security.

About the Certificate

The graduate certificate program in Information Technology Auditing and Cyber Security (ITACS) immerses students in a series of cyber security, information systems auditing, and IT risk management courses. The ITACS graduate certificate is an efficient, high-impact program that prepares the next generation of information assurance specialists for the rapidly changing landscape of information systems security.

Our graduate certificate program is designed for working professionals and leverages online and in-person course formats. Rigorous, hands-on courses are taught by faculty who work for leading businesses on the front lines of cyber security, information systems auditing, and IT risk management. Participants also have the option to transfer credits earned into the Information Technology Auditing and Cyber Security M.S. degree.

Graduate Certificate: Innovation Strategy

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the graduate certificate in Innovation Strategy.

About the Certificate

Innovation and entrepreneurship are ubiquitous in today's modern competitive landscape. Firms that sit still are left behind as new leaders or, entire industries surge ahead. In this rapidly changing landscape, it is critical that employees and managers alike understand how to overcome both the strategic and tactical challenges of organizational innovation. The Innovation Strategy graduate certificate is an efficient, high-impact program that prepares the next generation of innovation leaders and high-potential employees to build agile organizations, strategically drive innovation, and make decisions appropriate for the rapidly changing global competitive landscape.

Our graduate certificates are designed for working professionals and leverage hybrid course formats that provide the best of both online and in-person experiences. Rigorous, hands-on courses are taught by faculty who are leaders in their fields and business people who have implemented ideas into practice. Participants also have the option to transfer credits earned into our other graduate degree programs, such as the Innovation Management and Entrepreneurship M.S. or our M.B.A. degree.

Some questions answered in this certificate program are:

- How do firms create or add value through innovation?
- How does innovation fit into a firm’s overall business strategy?
- How does the value frontier evolve and transform the competitive landscapes?
- How can organizations embrace disruptive innovations?
- How can you create an organizational environment that rewards innovation?
- How do you structure innovation initiatives to reduce resistance to change?
- How do you balance your innovation portfolio between radical and incremental innovation, while maintaining the legacy business?

The Innovation Strategy certificate program is appropriate for:

- managers responsible for strategy and innovation;
- high-potential employees who want to drive innovation and move into leadership roles; and
- entrepreneurs who want to build organizations focused on innovation and disruption.

Admission Requirements and Deadlines

Students are accepted into the certificate program in both the Fall and Spring terms; Summer start dates may be available in some years. Kornberg School of Dentistry

Temple University’s Maurice H. Kornberg School of Dentistry is a center of excellence in dental education, patient care, and community-based service and research. The school’s mission is to promote oral health through the education of diverse general and specialty dentists with advanced skills who provide care that is comprehensive, patient centered, and evidence based, and who engage in research, scholarly activities, and community service. Founded in 1863 as the Philadelphia Dental College, it is the second oldest continuously operating dental school in the United States.

The Kornberg School of Dentistry provides more than 300,000 patient procedures every year and is known around the nation and the world for the quality of its clinical education. The school’s patient base and outreach in its immediate community give students exceptional opportunities to develop clinical skills in the full range of oral health care. A complete renovation of the school’s preclinical lab, four general practice clinics, and eight specialty clinics completed in 2014 has created a state-of-the-art environment for clinical education and patient care on Temple’s Health Sciences Center campus. Temple dental students work in a comprehensive-care, large-practice setting equipped with the latest technologies, including computer-aided design and computer-aided manufacturing (CAD/CAM) and cone-beam imaging.

A growing faculty research enterprise explores issues with broad-scale impact on dental and overall health. Dental faculty are conducting research into remineralization of dental enamel; regeneration of dental pulp tissue; development of bacterial viruses to combat infections caused by antibiotic-resistant bacterial strains; the effect of maternal behavior in influencing dental hygiene practices in young children; and other topics.

Temple’s Kornberg School of Dentistry prepares students to serve their patients and to shape the continued development of the dental profession and oral health. Kornberg School graduates demonstrate the highest levels of skills, with outstanding manual dexterity, diagnostic and clinical skills, and a sound understanding of the science and business aspects of dental practice.

Programs

Degree Program

- Oral Health Sciences, M.S. (p. 390)

Professional Certificates

- Advanced Education in General Dentistry
- Dental Public Health
- Endodontics
- Orthodontics
- Periodontics

Graduate Faculty

Jasim M. Albandar, Professor, Department of Periodontology and Oral Implantology, Kornberg School of Dentistry; D.M.D., Temple University.

Vinodh Bhooopathi, Assistant Professor, Department of Oral Health Sciences, Kornberg School of Dentistry; D.Sc.D., Boston University.

Kenneth G. Boberick, Associate Professor, Department of Restorative Dentistry, Kornberg School of Dentistry; D.M.D.

Jeffrey H. Godel, Associate Professor (Clinician Scholar), Department of Orthodontics, Kornberg School of Dentistry; D.D.S.

Amid Ismail, Professor, Department of Restorative Dentistry, Kornberg School of Dentistry; D.R.H., University of Michigan.

Paul Jones, Assistant Professor, Department of Oral Health Sciences, Kornberg School of Dentistry; Ph.D., Temple University.

Laurie MacPhail, Professor, Department of Oral Maxillofacial Pathology, Medicine and Surgery, Kornberg School of Dentistry; D.M.D.

Santiago Orrego, Assistant Professor, Department of Restorative Dentistry, Kornberg School of Dentistry; Ph.D., University of Maryland Baltimore County.

Thomas E. Rams, Professor, Department of Periodontology and Oral Implantology, Kornberg School of Dentistry; D.D.S., University of Maryland.

James J. Sciotto, Professor, Department of Orthodontics, Kornberg School of Dentistry; Ph.D., University of Michigan.

Roy H. Stevens, Professor, Department of Endodontology, Kornberg School of Dentistry; D.D.S., Columbia University.

Marisol Tellez-Merchán, Associate Professor, Department of Oral Health Sciences, Kornberg School of Dentistry; Ph.D., University of Michigan.

Orhan C. Tuncay, Professor, Department of Orthodontics, Kornberg School of Dentistry; D.M.D.

Eugene J. Whitaker, Associate Professor Emeritus, Department of Restorative Dentistry, Kornberg School of Dentistry; D.M.D.

Jie Yang, Professor, Department of Oral Maxillofacial Pathology, Medicine and Surgery, Kornberg School of Dentistry; D.M.D., Temple University.

Maobin Yang, Assistant Professor, Department of Endodontology, Kornberg School of Dentistry; Ph.D., University of Connecticut.

Oral Health Sciences, M.S.

KORNBERG SCHOOL OF DENTISTRY

About the Program

The M.S. in Oral Health Sciences program is designed to meet the needs of those who wish to pursue an advanced science degree. This flexible program allows students to choose either to survey a range of oral health disciplines or to pursue an interest in one particular discipline. Students may pursue a Clinical Specialty Track, a Clinical Internship Track, or a Non-Clinical Track. Each track requires completion of 30 credits of coursework, with an emphasis on producing a scholarly work that demonstrates mastery of the scientific method and creation of new knowledge.

The M.S. in Oral Health Sciences provides advanced education on the structure, development, and function of oral tissues, their interrelationships, and their relation to other organ systems in both health and disease. Emphasis is on gaining advanced understanding of oral and craniofacial structures and their function in health and disease, as well as application of modern biological principles and research techniques in
the diagnosis, treatment, and prevention of oral and craniofacial diseases and anomalies.

Areas of study for the Oral Health Sciences M.S. program include traditional basic biomedical science disciplines, such as advanced biomaterials, advanced digital dentistry, advanced systematic review and critical thinking, anatomy, clinical pharmacology, contemporary laboratory techniques, neurophysiology of pain, oral microbiomes, and regenerative medicine, with emphasis on how these areas relate to oral health and disease. Study and research opportunities are offered in a variety of areas, including, but not limited to, advanced general dentistry, dental biomaterials, oral implantology, oral and maxillofacial radiology, oral microbiology and immunology, oral molecular biology, oral mucosal disorders, periodontal and craniofacial regeneration, pulp biology, and such clinical fields as endodontology, orthodontics, periodontology, and implantology, and public health. The goals of the Oral Health Sciences M.S. program are to:

- advance knowledge and understanding in the scientific field of oral health sciences;
- develop 'clinical scholars' in dentistry by offering an adaptive graduate-level education across a variety of dental disciplines applicable to oral health;
- offer oral healthcare professionals the opportunity to attain a deeper, more focused understanding of their respective disciplines; and
- provide graduate-level training and experience in research methodology and technology to better qualify students for careers in academic and/or industry-related oral health activities.

**Time Limit for Degree Completion:** 4 years, but can be completed in 2 years

**Campus Location:** Health Sciences Center

**Full-Time/Part-Time Status:** Students not enrolled in an advanced training certificate program may choose to complete the M.S. degree either full- or part-time. Students enrolled in a Commission on Dental Accreditation (CODA)-accredited advanced training certificate program are full-time.

**Interdisciplinary Study:** The curriculum of the Oral Health Sciences M.S. program is inherently interdisciplinary and crosses traditional department boundaries of basic biomedical sciences, such as anatomy, microbiology, pharmacology, and physiology. A major strength of the program lies in offering Clinical Internship and Non-Clinical tracks such that students who are not enrolled in a specialty certificate program are able to choose from course offerings across all dental specialty programs and disciplines at Temple University's Kornberg School of Dentistry.

**Areas of Specialization:** Three tracks are offered:

- **Clinical Specialty**, which is intended for post-graduate students enrolled in a CODA-accredited advanced training certificate program at the Kornberg School of Dentistry. Coursework in the students' respective post-graduate certificate program is used toward fulfilling the required 30 credits for the M.S. degree.
- **Clinical Internship**, which is intended to be a stand-alone program for students who are not enrolled in an advanced training certificate program at the Kornberg School of Dentistry, but wish to broaden their understanding of clinical dentistry.
- **Non-Clinical**, which is intended to be a stand-alone program for students with or without a dental degree who have an interest in advanced master's-level education in oral health sciences. The curriculum for students in the Non-Clinical Track does not include clinical courses.

**Job Prospects:** Graduates of the M.S. in Oral Health Sciences degree program may be engaged in academic teaching and research careers, private clinical patient care, and industry-related oral health activities.

**Non-Matriculated Student Policy:** Coursework may not be taken on a non-matriculated basis.

**Financing Opportunities:** Contact the Office of Graduate Education in the Kornberg School of Dentistry for information.

### Admission Requirements and Deadlines

**Application Deadline:**

- **Fall:** March 1

Applications either accepted into or applying for one of the advanced training certificate programs at the Kornberg School of Dentistry may submit application documents in conjunction with the PASS application for their certificate program. Information regarding advanced training certificate programs at the Kornberg School of Dentistry can be obtained at [https://dentistry.temple.edu/](https://dentistry.temple.edu/).

Applicants not affiliated with one of the Kornberg School of Dentistry's advanced training certificate programs APPLY ONLINE to this graduate program. Supporting documentation is submitted to the Kornberg School of Dentistry's Office of Graduate Education.

Applications are processed as they are received. Late applications may be considered for admission.

**Letters of Reference:**

- **Number Required:** 3

**From Whom:** Letters of recommendation should be obtained from faculty members who are familiar with the applicant's academic background and potential for graduate-level study. Referees may know the applicant from dental school or wherever her/his highest degree was attained.

**Degree Required for Admission Consideration:** Applicants to the Oral Health Sciences graduate program must hold a B.D.S., D.D.S., or an other bachelor's degree from an accredited college or university.

**Statement of Goals:** In approximately 500 to 1,000 words, address:

- academic and research achievements to date,
- overall career goals,
- specific interest in Temple University's Oral Health Sciences graduate program, and
- area and/or topic of proposed research interests.

**Standardized Test Scores:**

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- **TOEFL iBT:** 100
- **IELTS Academic:** 7.0
- **PTE Academic:** 68
Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Baccalaureate, B.D.S., D.D.S., or D.M.D.: 30

Culminating Events:

Qualifying Exam Presentation:

Prior to commencing the master’s project, the student’s Master’s Advisory Committee (MAC) must formally accept the project plan. All students must establish a MAC for their scholarly activity, which reviews and approves the student’s proposed master’s protocol and monitors the student’s progress. The committee should consist of a primary faculty research mentor who serves as committee chair, another faculty member who has expertise in the area of research, and a third faculty member from another department who may have expertise in the area to be studied.

The primary research mentor must be a member of the Temple University graduate faculty and approved by the Chair of the student’s home academic department at the Kornberg School of Dentistry or the Assistant Dean for Advanced Clinical Education. The MAC must include members of at least two different departments at the Kornberg School of Dentistry, one of which must be the academic department representing the student’s area of research. MAC members may include experts from outside of Temple University. In addition, the Assistant Dean for Advanced Clinical Education may serve as an ex-officio member of the committee. The majority of members of the MAC must be members of the graduate faculty. The committee has responsibility for submitting grades for ORBG 9991 Research in Oral Biology, ORBG 9993 Masters in Oral Health Sciences Qualification Exam, and ORBG 9996 Master's Thesis in Oral Biology.

The comprehensive project plan is reviewed by members of the student’s MAC and is then presented by the student in a qualifying exam.
This proposal contains an introduction, theories, hypotheses, scholarly literature review, research methods, proposed alternatives, and any other issues relevant to the project.

**Master’s Research Project:**

All students, regardless of their chosen track, complete a scholarly work acceptable to their MAC. The thesis may be an original research investigation, a self-directed capstone project, or a systematic review:

1. The original research investigation demonstrates the student's ability to design and carry out original research, and to analyze, interpret, and present the resulting data under the supervision of an approved research mentor. The thesis must address a well-focused, scientifically meaningful question and a hypothesis that is of adequate scope and significance to qualify for an M.S. degree.

2. The self-directed capstone project results from the student's applying what has been learned throughout the course of graduate study in the examination of a specific idea. Successful projects are those that have added to the technological and practical advancements involved in the oral health sciences field. Capstone projects identify, define, and research a pertinent problem or opportunity in a real-world setting and develop the means to address it. The findings and end product should be something that can be readily implemented and used.

3. A systematic review summarizes the results of available, carefully designed healthcare studies (controlled trials) and provides a high level of evidence on the effectiveness of healthcare interventions. Judgments may be made about the evidence and inform recommendations for healthcare. These reviews are complicated and depend largely on the available clinical trials, the quality of the trials conducted, and the health outcomes that were measured. Review authors pool numerical data about the effects of the treatment through the process of meta-analyses. Authors then assess the evidence for any benefits or harms from those treatments. In this way, systematic reviews are able to summarize the existing clinical research on a topic.

Each project is unique to the student’s program and, therefore, the student must continuously consult with her/his MAC to ensure that her/his project is proceeding in a timely manner and is consistent with the qualifying exam presentation. When appropriate, a written manuscript must be submitted and orally defended to the student's MAC. The master’s candidate is then invited by her/his MAC to give a formal presentation of her/his project that shall be announced and open to the faculty of the Kornberg School of Dentistry. The date and location are arranged by mutual agreement between the candidate and the MAC. The presentation must meet standards outlined by the MAC regarding foundation, organization, relevance, and practicality of results.

College of Education

The College of Education at Temple University promotes education – in schools, in the workplace, in organizations, and through community engagement – as a critically important way to achieve social justice. Our mission is to prepare our students to become agents of change who employ leading-edge understandings and evidence-based practices in any setting in which they might work. Our faculty include experts not only in early childhood/elementary, middle-grades, and secondary teacher education, but also in adult and organizational development, applied behavior analysis, career and technical education, counseling psychology, educational psychology/human development, higher education, leadership, school psychology, special education, teaching English to speakers of other languages, and urban education.

In our research, we work both to conduct well-designed investigations that have the potential to improve learning and teaching, especially for historically underserved populations, and to provide effective mentorship of master’s and doctoral students so that they can engage in similar kinds of investigations on their own. In our teaching, we strive to provide practitioners and prospective practitioners with deep understandings both of research and theory and of how research and theory can be translated into effective practice. As a result of our strategic location in the city of Philadelphia, the College of Education is uniquely situated to have a collective impact in the surrounding neighborhoods. We also endeavor to bring our work to the largest possible audience in the city of Philadelphia, the region, the nation, and the world.

While the founding of the College of Education is officially stated as 1919, the college has included teacher preparation as part of its curricula almost from its inception. It is clear from Temple’s history that the unofficial founder of the college was Laura Carnell, who began a program for the preparation of kindergarten teachers as early as 1895. In 1919, the College of Education was founded as Teachers College. Its initial programs in elementary and then secondary education were offered largely in response to the Philadelphia school district’s decision that higher positions in its school system would be open only to those with a college degree. As a consequence, the college began offering two-, three-, and four-year programs to teachers, as well as extension work, through day and evening courses five days a week and on Saturday mornings. This intimate relationship between the college and the School District of Philadelphia characterizes almost all of the college’s history.

The college was one of the first institutions to schedule courses so that teachers could take them after school hours. Programs of graduate study at the master’s level were introduced in 1923, with the Doctor of Education degree first awarded in 1931. The official name was changed to the ‘College of Education’ in 1960.

Historically, Temple’s College of Education has had a significant impact on local and regional practice. It has always been the largest college of education in the region and one of the largest in the country. The college continues to be the major provider of teachers for the School District of Philadelphia and for many suburban districts. Many principals and superintendents in the neighboring regions have received their degrees from Temple. Many of the school psychologists, counselors, educational researchers, and other education professionals have been prepared at Temple. In a very real sense, the College of Education has helped to shape the educational direction of the region. In addition, recognizing that education occurs both in and out of school, the College of Education has in recent years diversified its programs to provide preparation to those who plan to work with learners across the lifespan not only in schools but also in businesses and community-based organizations.

Accomplished Teaching, M.S.Ed.

COLLEGE OF EDUCATION

Learn more about the Master of Science in Education in Accomplished Teaching.

About the Program

The Master of Science in Education program in Accomplished Teaching enables working teachers, both relatively new practitioners and veterans, to develop new knowledge and to reflect on and analyze their own practices in order to move their teaching to a higher level. A combination of core courses and electives supports and advances those who have chosen to make classroom teaching their profession while allowing them to explore individual interests and additional certifications. Courses are designed to meet the immediate needs of students and to be directly applicable to students’ home schools and communities.

Time Limit for Degree Completion: 4 years

Campus Location: Main, with some courses offered online.

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Job Prospects: Graduates are typically educators in current positions of teaching and leadership. This program is designed to enhance credentials and expand educators’ knowledge and expertise.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 2, with a third submitted at the applicant’s discretion. Please submit the ‘Reference Report for Graduate Study,’ found at https://grad.temple.edu/sites/grad/files/Web_GRAD_REFERENCE_REPORT.PDF.

From Whom: Letters of recommendation should be obtained from school administrators or college/university faculty members who can provide insight into the applicant’s academic competence.

Coursework Required for Admission Consideration: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. Official undergraduate and graduate transcripts from all accredited institutions attended are required, as well as a copy of a valid PA Teaching Certification or demonstration of at least two years of successful practice in an educational setting.

Bachelor’s Degree in Discipline/Related Discipline: A bachelor’s degree is required. Applicants who do not meet the 3.0 UGPA requirement may be considered for admission if they meet one of the following exceptions:

1. Standard exception: 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).
2. Special exception: Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

Standardized Test Scores:
Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 88 (Applicants with scores between 88 and 100 iBT must take an English refresher course.)
- IELTS Academic: 6.5
- PTE Academic: 60

Resume: Current resume required.

Adult and Organizational Development, M.Ed.

COLLEGE OF EDUCATION
Learn more about the Master of Education in Adult and Organizational Development.

About the Program

The master's program in Adult and Organizational Development prepares students for professional positions in the fields of adult learning and organizational development. Temple's program supports professionals whose work focuses on facilitating developmental changes in individuals, teams, and organizations.

Coursework draws from social science theory and research to develop students' diagnostic and intervention skills in the areas of adult learning, conflict intervention, conflict management, group decision making, strategic communication, systems perspectives, team development, and training design. Classroom instruction and assignments draw heavily on students' professional experience and are aimed at developing applied intervention strategies that are useful in diverse workplace settings.

The program in Adult and Organizational Development encourages applications from students who work in a wide range of settings, including educational institutions, businesses, consulting agencies, healthcare institutions, governmental and community organizations, and non-profit groups.

Graduates of the program pursue careers in human resource management, training and adult development, organizational management, consulting, community organizing, and conflict intervention and mediation.

Time Limit for Degree Completion: 4 years

Campus Location: Center City

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 4:30 p.m. and on weekends. One weekend class (AOD 9231 Proseminar in AOD) is required. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The program has a strong interdisciplinary focus. Students are encouraged to take courses throughout the University, especially in communication sciences, counseling psychology, educational psychology, human resource administration, and instructional technology. In addition, the program concentrates on applications in a wide variety of educational settings: formal and informal, public and private, schools and industries, and the like.

Accreditation: The program is listed with the Association for Talent Development (ATD) and the Organizational Development Network (OD Network).

Areas of Specialization: The program features coursework in three areas:

- Adult Learning and Training, which concentrates on developing and teaching instructional/training programs for adult personal and professional development;
- Organizational and Team Development, which develops assessment, planning, facilitation, and consulting skills to help teams and organizations design and implement change; and
- Conflict Management and Dispute Resolution, which involves developing models and best practices for positive conflict cultures and third-party interventions.

Job Prospects: Graduates typically pursue careers in large private and public organizations; firms that specialize in training/organizational development and conflict resolution; adult education centers; and independent practice.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2

From Whom: Letters of recommendation should be obtained to provide insight regarding the applicant’s academic competence. References from college/university faculty are recommended.

Bachelor’s Degree in Discipline/Related Discipline: A bachelor’s degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a master’s degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: Current resume required.
Other Requirement: Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Baccalaureate: 36, including 12 credits of core courses, 15 credits of AOD electives, 6 credits of non-AOD electives, and a 3-credit capstone course.

Capstone Course
AOD 9231 Proseminar in AOD 3

Total Credit Hours 36

Culminating Events:
Capstone Course Sequence (AOD 9231 Proseminar in AOD):
The capstone course is a proseminar. In the first part of the seminar, students are assigned to groups that function as consulting teams, working on cases, simulations, and/or general questions provided by the faculty. The second part of the seminar is devoted to having students identify, develop, and complete individual learning projects. The seminar concludes with a session in which AOD faculty provide feedback to students. The evaluation is based both on group and individual performance. The capstone course must be taken in the last term of a student's coursework and after completion of the four required AOD core courses. Students can take only one other elective course while they are enrolled in the capstone course.

Applied Behavior Analysis, M.S.Ed.

COLLEGE OF EDUCATION

Learn more about the Master of Science in Education in Applied Behavior Analysis.

About the Program

The Master of Science in Education program in Applied Behavior Analysis trains students to apply the principles of learning and behavior to influence behavior change that is significant to society. Students learn how to systematically change behavior by analyzing related environmental variables and applying interventions based on the principles of behavior science. Behavior analysts have improved a wide range of everyday issues, including enhancing staff performance, improving public safety initiatives, teaching effective parenting skills, treating problem behavior in children, improving general and special education teaching strategies, rehabilitating individuals who abuse substances, and more. This program fulfills the degree and coursework requirements and partially fulfills the supervised experience requirement for the Board Certified Behavior Analyst® (BCBA®) credential.

Graduates of the Applied Behavior Analysis M.S.Ed. program help fill the growing demand for individuals with applied behavior analytic training in social service agencies and educational institutions, particularly in service of individuals with autism and other intellectual and developmental disabilities. The Applied Behavior Analysis graduate degree also prepares educators, clinicians, and other helping professionals to understand and implement interventions to address skill deficits and performance issues or problem behavior. Graduates of the program have a diverse set of skills, including the ability to analyze environmental variables affecting behavior, create individualized interventions, and assess the effectiveness of interventions to inform data-based decisions on modification and continuation.

Time Limit for Degree Completion: 4 years

Campus Location: Main, with some courses offered at off-site locations
Full-Time/Part-Time Status: Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The interdisciplinary Applied Behavior Analysis M.S.Ed. program blends courses in education and psychology. Courses are taught by faculty with top academic credentials and experience as practitioners.

Accreditation: The degree program includes a seven-course sequence verified by the Association for Behavior Analysis International (ABAI).

Job Prospects: Graduates are prepared for professional careers in a variety of environments, particularly in social service agencies and educational institutions.

Licensure: Coursework may apply toward earning the Behavior Specialist license from the Commonwealth of Pennsylvania.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2

From Whom: Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferment of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a master's degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Interview: An interview with the faculty admissions committee may be required after a complete application is received.

Resume: Current resume required.

Other Requirement: Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

Credits Earned in a Certificate Program: Students who choose to enroll in the M.S.Ed. program may have up to 12 credits earned for either the Applied Behavior Analysis Certificate or Autism Endorsement Certificate applied to the M.S.Ed. upon acceptance into the program. Completion of a certificate program does not guarantee admission into the master's program, and students who are accepted may have to complete more than 33 credits to meet all requirements of the master's program. Students currently enrolled in a certificate program and considering matriculation into a master's program are encouraged to apply as early as possible.

Career and Technical Education, M.S.Ed.

COLLEGE OF EDUCATION

Learn more about the Master of Science in Education in Career and Technical Education.

About the Program

The mission of the Master of Science in Education program in Career and Technical Education is to enable its students to apply advanced pedagogical skills, knowledge, and attributes in a career and technical education setting at the secondary and post-secondary levels. Individuals pursuing this degree already hold instructional or vocational certification in Pennsylvania. While pursuing this online degree, individuals pursue Pennsylvania certification in cooperative education, supervision of vocational education, and director of vocational education. The degree provides specialized knowledge in areas of workforce development, leadership, industry trends and issues, the role of workforce development in a dynamic economy, and infusing industry standards into secondary career and technical education programs.

Time Limit for Degree Completion: 4 years

Campus Location: Online

Full-Time/Part-Time Status: Students complete the degree program online on a full- or part-time basis.

Accreditation: The program is accredited by the Teacher Education Accreditation Council (TEAC).

Job Prospects: Graduates are prepared for leadership roles as teachers, adult instructors, curriculum specialists, career and technical center administrators, and technical trainers in business and industry.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Career and Technical Education/ Business, Computer and Information Technology, M.Ed.

COLLEGE OF EDUCATION

Learn more about the Master of Education in Career and Technical Education.

About the Program

The mission of the Career and Technical Education master’s program with a concentration in Business, Computer and Information Technology is to enable its students to become effective teachers in all of the business domains typically taught in K-12 schools, including computer and information technology; law, entrepreneurship, and international business; quantitative skills and accounting; management and marketing concepts; economics and personal finance; and business communications. Individuals completing the program find success in K-12 teaching, post-secondary teaching in community colleges, and business skills training.

Time Limit for Degree Completion: 4 years

Campus Location: Main, Fort Washington

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Accreditation: The program is approved as a teacher certification program by the Pennsylvania Department of Education and is accredited by the Teacher Education Accreditation Council (TEAC).

Job Prospects: Graduates typically continue in their established career paths as career and technical educators, work-force development professionals, and technical trainers in business and industry.

Licensure: Upon successful completion of the degree requirements and passing all required licensure examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.
Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1  
Spring: November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2

From Whom: Letters of recommendation should be obtained to provide insight regarding the applicant’s academic competence. References from college/university faculty are recommended.

Coursework Required for Admission Consideration: Prerequisites for admission to the Career and Technical Education M.Ed. program include courses taken at the undergraduate level with a grade of ‘C’ or better earned in the following areas:

- At least 6 credits of college-level mathematics.
- At least 6 credits of college-level English composition and literature.

A prerequisite evaluation is conducted upon receipt of the application and all official transcripts. All required prerequisites must be fulfilled before an applicant is eligible for admission.

Bachelor’s Degree in Discipline/Related Discipline: A bachelor’s degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a master’s degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

Standardized Test Scores: The official score report must demonstrate a passing score on both Praxis ® and Praxis II ®:

- Praxis ® Test Code 30511 — Fundamental Subjects: Content Knowledge
- Praxis II ® Test Code 10101 — Business Subjects

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: Current resume required.

Transfer Credit: Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

Coursework Waivers: Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student’s credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

Clearances: A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required upon enrollment.

Other Requirement: Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

About the Program

The mission of the Career and Technical Education master’s program with a concentration in Industrial Education is to enable its students to become effective teachers of Industrial Education in grades 7 to 12. This program provides competencies for diverse types of teaching environments and offers transitional skill attainment strategies for application of knowledge across an array of career and technical program areas. Individuals completing the program find success in secondary teaching, post-secondary teaching in community colleges, and developing industrial training programs for businesses.

Time Limit for Degree Completion: 4 years

Campus Location: Ambler, Fort Washington

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Accreditation: The program is approved as a teacher certification program by the Pennsylvania Department of Education and is accredited by the Teacher Education Accreditation Council (TEAC).

Job Prospects: Graduates typically continue in their established career paths as career and technical educators, work-force development professionals, and technical trainers in business and industry.

Licensure: Upon successful completion of the degree requirements and passing all required licensure examinations, candidates may apply for a Pennsylvania Vocational Instructional I and II Teaching Certificates for grades 7 to 12.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:
Fall: March 1
Spring: November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 2

From Whom: Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a master’s degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

Standardized Test Scores:
Occupational Competency Assessment (OCA): Applicants must have at least 2 years’ experience in the field and pass the OCA.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: Current resume required.

Transfer Credit: Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

Coursework Waivers: Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student's credentials
and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

**Clearances:** A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required upon enrollment.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

**Career and Technical Education/Marketing Education, M.Ed.**

#### About the Program

The mission of the Career and Technical Education master's program with a concentration in Marketing Education is to enable its students to become effective marketing teachers in K-12 schools. This program provides competencies for diverse types of work in marketing and offers transitional skill attainment strategies for application of knowledge across an array of business areas. Individuals completing the program find success in secondary teaching, post-secondary teaching in community colleges, developing marketing education programs for businesses, and as trainers in marketing for a variety of business types and sizes.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main, Fort Washington

**Full-Time/Part-Time Status:** Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

**Accreditation:** The program is approved as a teacher certification program by the Pennsylvania Department of Education and is accredited by the Teacher Education Accreditation Council (TEAC).

**Job Prospects:** Graduates typically continue in their established career paths as career and technical educators, work-force development professionals, and technical trainers in business and industry.

**Licensure:** Upon successful completion of the degree requirements and passing all required licensure examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

Counseling Psychology, M.Ed.
COLLEGE OF EDUCATION
Learn more about the Master of Education in Counseling Psychology.

About the Program
The Counseling Psychology program offers a 60-credit master’s degree in Education (M.Ed.) with two areas of concentration:

• Mental Health Counseling prepares students to work with individuals, couples, families, and groups in various settings, including community mental health centers, hospitals, and consulting agencies. Completion of the Counseling Psychology master’s degree with a concentration in Mental Health Counseling qualifies the student to become a Licensed Professional Counselor (LPC) in the Commonwealth of Pennsylvania.

• School Counseling prepares students to work with students, teachers, administrators, and parents in either an elementary or secondary school setting. Completion of the Counseling Psychology master’s degree with a concentration in School Counseling qualifies the student for certification as a Pre-K-12 school counselor in the Commonwealth of Pennsylvania.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: Full-time students complete the degree program by taking classes during the day and in the evening. Part-time students take classes that start after 4:00 p.m.

Areas of Specialization: The program offers concentrations in Mental Health Counseling and School Counseling.

Job Prospects: Graduates typically engage in careers as licensed professional counselors or school counselors, or use their degree to pursue doctoral training in a field related to Counseling Psychology.

Licensure: When post-degree requirements specified by the state licensing board are met by graduates of the Mental Health Counseling concentration, they are eligible for licensure as a Licensed Professional Counselor (LPC) in the Commonwealth of Pennsylvania. Approximately two additional years of post-master’s work experience is required prior to sitting for licensure. Students in the School Counseling concentration are eligible to apply for Pennsylvania school counseling certification (Educational Specialist I) at the time of graduation from the program.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:
Fall: February 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support. The faculty admissions committee reviews application materials to evaluate evidence of:

• Work experience and/or volunteer public service relevant to professional development in counseling psychology;

• Intra- and inter-personal skills (or potential for the development of such skills) as indicated in the applicant's personal and career statements; and

• Aptitude for graduate-level academic work as determined by graduate and undergraduate grades, especially work in the major and in prerequisite psychology courses.

APPLY ONLINE to this graduate program.

Total Credit Hours 60

Internship: Students are required to complete a 780-hour internship, with 280 direct client contact hours completed at a training site approved by the program. Students in the Mental Health Counseling concentration complete their training in a community mental health setting, while those in the School Counseling concentration complete theirs in a school setting. Students receive individual on-site supervision and faculty supervision as a part of their training experience.

Culminating Events:

Comprehensive Examination:

The comprehensive examination is designed to provide students with an opportunity to demonstrate their ability to integrate and apply both their didactic and practice-oriented academic experiences.

### Education/Applied Linguistics, Ph.D.

**About the Program**
The interdisciplinary Ph.D. program in Education, with a concentration in Applied Linguistics, prepares students to study ways in which languages – and, in particular, second or additional languages – are used, taught, and learned in today's increasingly globalized and multilingual world. The program promotes significant research on the teaching and learning of additional languages, including but not limited to English, and on the interaction between language ideologies and practices in multilingual communities and societies. Students gain theoretical grounding, research experiences, and academic skills that prepare them for academic research positions and other academic and practice-oriented positions.
Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students may matriculate either full-time or part-time. Most courses are offered in the evening to accommodate working professionals. The length of time to complete the doctoral degree program varies depending on the number of courses taken each term.

Job Prospects: Graduates are prepared for academic research positions in the areas of Applied Linguistics, Second and Foreign Language Education, and TESOL, as well as for other academic and practice-oriented positions.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

Financing Opportunities: Financial support opportunities may include assistantships, fellowships, scholarships, tuition remission, graduate student employment, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:

Fall: December 1

Applications are accepted for the Fall term only. Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2

From Whom: Letters of recommendation should be obtained to provide insight regarding the applicant’s academic competence. References from college/university faculty are recommended.

Master’s Degree in Discipline/Related Discipline: Students who hold a master’s degree in a related field may transfer in up to 30 credits as advanced standing, with approval.

Bachelor’s Degree in Discipline/Related Discipline: A bachelor’s degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

Statement of Goals: Using autobiographical style, explain your interest in pursuing a doctoral degree in education. The statement should outline the following:

- A research project you would like to pursue while at Temple,
- Why the project is of interest to you, and
- How the project is of scholastic importance.

Standardized Test Scores:

GRE: Official scores are required to be reported from the test taken no more than 5 years prior to submitting an application.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 100
- IELTS Academic: 7.0
- PTE Academic: 68

Resume: Current resume required.

Writing Sample: The academic writing sample should be a paper written for a class within the last five years. If a recent paper is not available, the applicant should compose an op-ed piece on an educational issue of her/his choosing. The op-ed should be 400 to 1,200 words in length and of the kind that might appear in *The New York Times* or *Philadelphia Inquirer.*

Other Requirement: Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

**Current Issues in Applied Linguistics**

**Doctor of Education Dissertation**

Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Shimada Resource Center at least 10 days before the defense is to be held. After the time, date, and room for the defense have been established, the completed ‘Announcement of Dissertation Defense’ form, found in TuPortal under the Tools tab within “University Forms,” is sent to the Graduate School. A flyer announcing the defense is posted in a public location in the College.

**Education/Educational Psychology, Ph.D.**

**College of Education**

Learn more about the Doctor of Philosophy in Education.

**About the Program**

The interdisciplinary Ph.D. program in Education, with a concentration in Educational Psychology, seeks to advance the understanding of learning, cognition, and human development as these processes apply to educational processes and practices. The Educational Psychology specialty is characterized by a strong theoretical and research orientation, the interplay of theory and practice, an interdisciplinary approach, and a commitment to service. Designed for students seeking to become professors or researchers in higher education, it is structured around the three areas of learning and conceptual processes, motivation, and applied data analysis and research methodology.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main
Full-Time/Part-Time Status: Students may matriculate either full-time or part-time. Most courses are offered in the evening to accommodate working professionals. The length of time to complete the doctoral degree program varies depending on the number of courses taken each term.

Job Prospects: Graduates typically pursue careers in higher education.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. *Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.*

Financing Opportunities: Financial support opportunities may include assistantships, fellowships, scholarships, tuition remission, graduate student employment, and other financial aid such as grants, loans, and federal work study.

Total Credit Hours 48

Of the 6 credits overall, a minimum of 2 credits of EDUC 9999 must be taken.

Internship: An internship in the form of a research apprenticeship is required.

Culminating Events:

**Preliminary Examination:**
The purpose of the preliminary examination is for students to demonstrate their development in the three core areas of a faculty member's life: research, teaching, and service. The exam requires students to undertake an integrative analysis of research; to demonstrate that they can bring research and theory into effective practice in their teaching; and to exhibit their ability to provide professional service. Preliminary exams are evaluated by a committee of faculty in the concentration. Evaluators look for a breadth and depth of understanding of research and theory; a critical application of that knowledge to specific phenomena and to teaching; integrative reasoning ability; and an ability to write technical prose.

**Proposal with Oral Defense:**
The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. The proposal should consist of the context and background surrounding a particular research problem; an exhaustive survey and review of literature related to the problem; and a detailed methodological plan for investigating the problem. The proposal should be completed and approved no more than one year after completing coursework.

The proposal is defended in an open hearing attended by the student's Doctoral Advisory Committee, which is formed to oversee the student's doctoral research and is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be from, or affiliated with, Educational Psychology. The Chair is responsible for overseeing and guiding the student's progress, coordinating the responses of the committee members, and informing the student of her/his academic progress. Upon approval of the proposal by the Doctoral Advisory Committee, a timeline for completing the investigation and writing process is established.

**Dissertation with Oral Defense:**
The doctoral dissertation is an original study that makes a significant contribution to the field. It should expand the existing knowledge and demonstrate the student's knowledge of both research methods and a mastery of her/his primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standards of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field of business; and be prepared for publication in an academic journal.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense. This committee is comprised of the Doctoral Advisory Committee and at least two additional faculty members, one of whom must be from outside Educational Psychology. The Dissertation Examining Committee evaluates the student's ability to express verbally her/his research question, methodological approach, primary findings, and implications. The committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Shimada Resource Center at least 10 days before the defense is to be held. After the time, date, and room for the defense have been established, the completed 'Announcement of Dissertation Defense' form, found in TUportal under the Tools tab within "University Forms," is sent to the Graduate School. A flyer announcing the defense is posted in a public location in the College.

Education/Science, Mathematics and Educational Technology, Ph.D.

COLLEGE OF EDUCATION

Learn more about the Doctor of Philosophy in Education.

About the Program
The interdisciplinary Ph.D. program in Education, with a concentration in Science, Mathematics and Educational Technology, prepares students to contribute new knowledge to the fields of science and mathematics, with an emphasis on educational technology. The program defines science and mathematics learning very broadly, preparing students to take on a variety of roles in science and mathematics education. Students can focus on any aspect of teaching and learning inclusive of students, teachers, and adult learners. However, because of our strategic location in North Philadelphia, we have a strong and demonstrated commitment to issues of teaching, learning, and schooling in urban contexts. The program is grounded in the dual belief that education is a primary mechanism for social justice and that educational research has the capacity to improve the material conditions of people’s lives.

The doctoral program in Science, Mathematics and Educational Technology prepares students in two ways: through academic coursework and through an intensive mentoring relationship with various faculty members. Coursework emphasizes a broad knowledge of critical lines of inquiry in science or mathematics education and the development of research and analytic skills, with an emphasis on educational technology. Research opportunities include working alongside prominent faculty on federally funded projects; exposure and presentations at regional and national conferences; and co-authoring papers for publication in top-tiered journals. Practice and research are blended in a program that promotes both teaching and learning.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students may matriculate either full-time or part-time. Most courses are offered in the evening to accommodate working professionals. The length of time to complete the doctoral degree program varies depending on the number of courses taken each term.

1 An elective may be selected in lieu of repeating EDUC 9991.

2 Of the 6 credits overall, a minimum of 2 credits of EDUC 9999 must be taken.

Internship: An internship in the form of a research apprenticeship is required.

Culminating Events:

Preliminary Examination:
The purpose of the preliminary examination is for students to demonstrate their development in the three core areas of a faculty member’s life: research, teaching, and service. The exam requires students to undertake an integrative analysis of research; to demonstrate that they can bring research and theory into effective practice in their teaching; and to exhibit their ability to provide professional service.
Preliminary exams are evaluated by a committee of faculty in the concentration. Evaluators look for a breadth and depth of understanding of research and theory; a critical application of that knowledge to specific phenomena and to teaching; integrative reasoning ability; and an ability to write technical prose.

Proposal with Oral Defense:
The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. The proposal should consist of the context and background surrounding a particular research problem; an exhaustive survey and review of literature related to the problem; and a detailed methodological plan for investigating the problem. The proposal should be completed and approved no more than one year after completing coursework.

The proposal is defended in an open hearing attended by the student's Doctoral Advisory Committee, which is formed to oversee the student's doctoral research and is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be from, or affiliated with, Math and Science Education. The Chair is responsible for overseeing and guiding the student's progress, coordinating the responses of the committee members, and informing the student of her/his academic progress. Upon approval of the proposal by the Doctoral Advisory Committee, a timeline for completing the investigation and writing process is established.

Dissertation with Oral Defense:
The doctoral dissertation is an original study that makes a significant contribution to the field. It should expand the existing knowledge and demonstrate the student's knowledge of both research methods and a mastery of her/his primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standards of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field of business; and be prepared for publication in an academic journal.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense. This committee is comprised of the Doctoral Advisory Committee and at least two additional faculty members, one of whom must be from outside Math and Science Education. The Dissertation Examining Committee evaluates the student's ability to express verbally her/his research question, methodological approach, primary findings, and implications. The committee votes to pass or fail the dissertation and defense at the conclusion of the public presentation.

Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Shimada Resource Center at least 10 days before the defense is to be held. After the time, date, and room for the defense have been established, the completed 'Announcement of Dissertation Defense' form, found in TUPortal under the Tools tab within "University Forms," is sent to the Graduate School. A flyer announcing the defense is posted in a public location in the College.

Education/Special Education, Ph.D.

COLLEGE OF EDUCATION

Learn more about the Doctor of Philosophy in Education.

About the Program

The interdisciplinary Ph.D. program in Education, with a concentration in Special Education, prepares researchers to be equipped to study interventions designed to improve the learning and behavior of students with a variety of disabilities. The program emphasizes practical, relevant research that stems from a solid theoretical base. Moreover, the program focuses on inclusive practices and fosters an understanding of how sociopolitical factors influence classroom practices. Students selected for the program are expected to have an experiential base on which to draw in designing and implementing their research. All students gain:

- Up-to-date knowledge of the research and issues pertaining to special education;
- The ability to apply comprehensive research skills to problems relating to the education of children with special needs;
- The competence to prepare highly qualified teachers that are equipped to understand the complexities and individual differences of children with special needs, especially within urban environments; and
- A deep knowledge of how public policy and political and social variables shape research and service delivery activities within special education.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students may matriculate either full-time or part-time. Most courses are offered in the evening to accommodate working professionals. The length of time to complete the doctoral degree program varies depending on the number of courses taken each term.

Job Prospects: Graduates are prepared to assume research positions at colleges and universities and/or to be engaged in the preparation of special educational professionals at both the pre-service and in-service
levels. They are expected to contribute to the advancement of evidence-based practice throughout their careers.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include assistantships, fellowships, scholarships, tuition remission, graduate student employment, and other financial aid such as grants, loans, and federal work study.

**Admission Requirements and Deadlines**

**Application Deadline:**

- **Fall:** December 1

Applications are accepted for the Fall term only. Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

- Number Required: 2

From Whom: Letters of recommendation should be obtained to provide insight regarding the applicant’s academic competence. References from college/university faculty are recommended.

**Master's Degree in Discipline/Related Discipline:** Students who hold a master's degree in a related field may transfer in up to 30 credits as advanced standing, with approval.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** Using autobiographical style, explain your interest in pursuing a doctoral degree in education. The statement should outline the following:

- A research project you would like to pursue while at Temple,
- Why the project is of interest to you, and
- How the project is of scholastic importance.

**Standardized Test Scores:**

GRE: Official scores are required to be reported from the test taken no more than 5 years prior to submitting an application.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 100
- IELTS Academic: 7.0
- PTE Academic: 68

**Resume:** Current resume required.

**Writing Sample:** The academic writing sample should be a paper written for a class within the last five years. If a recent paper is not available, the applicant should compose an op-ed piece on an educational issue of her/his choosing. The op-ed should be 400 to 1,200 words in length and of the kind that might appear in *The New York Times* or *Philadelphia Inquirer.*

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

**Program Requirements**

**General Program Requirements:**

**Number of Credits Required Beyond the Master's:** 48

Educational Leadership, M.Ed.

COLLEGE OF EDUCATION

About the Program
Currently open only to students in Jamaica, in collaboration with Church Teachers’ College.

Educational Leadership, Ed.D.

COLLEGE OF EDUCATION

Learn more about the Doctor of Education in Educational Leadership.

About the Program
The Ed.D. in Educational Leadership program is intended for a wide audience of individuals with experience in K-12 educational settings who desire to advance their careers. Many educational professionals want a defined, predictable program of study that supports steady progress and complements the busy schedule of a teacher and/or school leader. This program institutes a cohort-based executive-format program, wherein courses are offered on weekends and during the summer, accommodating the schedules of working professionals. The program fosters and reinforces Temple’s commitment to social justice, equity, and ethical practices. The courses, course sequence, and dissertation process are designed in a way that the program coheres around these issues and their implications for educational leadership. This cohort program consists of a fixed-course sequence and is structured to allow students to complete their degree in three years.

The program objectives reflect the essential values of educational leadership and the foundational knowledge, skills, and abilities required for effective postsecondary administrative practice. Students gain:

• A deep understanding of the historical, social, legal, economic, cultural, and political contexts of higher education administration;
• An advanced understanding of the governance and finance structures of postsecondary institutions and systems;
• Sensitivity to the complexities of organizational culture and the ability to lead effectively in diverse settings;
• The ability to critically examine, diagnose, and address persistent inequities in college access and success;
• The ability to find, critically review, and apply evidence from scholarly and policy research, and a commitment to using evidence routinely in decision making; and
• Skills and habits of reflective practice that support equitable and ethical decision making in complex situations.

The essential expected learning outcomes of the Temple Ed.D. program in Educational Leadership include graduates’ ability to demonstrate advanced understanding of:

• Effective practices for equitable and ethical school, school district, and system leadership;
• Leadership and learning theories;
• The history, politics, policy, and philosophy of public, charter, and independent educational programs;
• Schooling, school governance, organizational leadership, and civic engagement; and
• How political, societal, and identity factors contribute to student and school success.

Graduates will also be able to demonstrate the ability to:

• Critically engage, diagnose, assess, and address issues of equity and inequality that exist in schools and school districts;
• Review and synthesize research and practitioner literature to examine educational issues;
• Select and apply research methods and theoretical frameworks to address problems of practice; and
• Design, engage in, and thoughtfully report on research in multiple designated formats, such as dissertation, white paper, and presentation.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students matriculate part-time. Courses are offered in a cohort-based executive-format program on weekends and during the summer to accommodate the schedules of working professionals. A fixed-course sequence allows students to complete the doctoral degree program in three years.

Affiliation(s): The program is a member of the University Council for Educational Administration (UCEA).

Job Prospects: Graduates typically become senior administrators in public or private schools; administrators in state or federal agencies; and administrators or professors in institutions of higher education.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include assistantships, fellowships, scholarships, tuition remission, graduate student employment, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:

Summer II: March 1, 2021

** APPLICATIONS will next be accepted for SUMMER II 2021 ADMISSION **

Applications are considered every other year for the executive Ed.D. in Educational Leadership. Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 2

From Whom: Letters of recommendation should be obtained to provide insight regarding the applicant’s academic competence. References from college/university faculty are recommended.

Master’s Degree in Discipline/Related Discipline: A master’s degree is preferred but not required. At a minimum, applicants are required to have successfully completed at least 30 graduate credits in a related field to be admitted to the program. All applicants will be expected to transfer in up to 30 credits as advanced standing, with approval.

Bachelor’s Degree in Discipline/Related Discipline: A bachelor’s degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

Statement of Goals: Using autobiographical style, explain your interest in pursuing a doctoral degree in education. The statement should address the following questions:

• How have your personal, academic, and professional experiences shaped your research interests, and how might a doctoral program in Education help you explore those interests?
• What academic/professional goals would the program help you to achieve following graduation?
• How does the doctoral program at Temple fit your individual interests, needs, and future goals – and which faculty member’s research best matches your own interests?

Standardized Test Scores:
Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

• TOEFL iBT: 79
• IELTS Academic: 6.5
• PTE Academic: 53

Resume: Current resume required.
**Writing Sample:** The academic writing sample should be a paper written for a class within the last five years. If a recent paper is not available, the applicant should compose an op-ed piece on an educational issue of her/his choosing. The op-ed should be 400 to 1,200 words in length and of the kind that might appear in The New York Times or Philadelphia Inquirer.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

#### Culminating Events:

**Comprehensive Examination:**
At the end of the academic term in which students are enrolled in EDAD 8093 Administration Research Seminar and prior to completion of the dissertation proposal, students complete a comprehensive exam in order to advance to candidacy for the doctoral degree. The comprehensive exam consists of written responses to three questions developed by the instructor of the Research Seminar who, in most cases, will serve as the student’s primary dissertation advisor and chair. Through the comprehensive exam, students must demonstrate the ability to:

- situate and define a chosen topic or field within the concepts and history of the field;
- compare, contrast, and justify various research methods appropriate to investigation of a practice-based research problem; and
- critically synthesize the extant scholarly and practice-focused literature that informs administrative practice related to the topic.

Successful completion of the comprehensive exam advances students to doctoral candidate status and aids in preparation of the dissertation proposal.

**Dissertation Proposal:**
In the term immediately following completion of the EDAD 8093 Administration Research Seminar and successful completion of the comprehensive exam, students enroll in EDUC 9998 Dissertation Proposal Design. Like EDAD 8093 Administration Research Seminar, EDUC 9998 Dissertation Proposal Design serves as a structured, intensive, cohort-based monthly workshop in which students design and defend a dissertation proposal that outlines a rigorous plan for empirical study of an issue relevant to the student’s professional responsibilities or aspirations. The proposal must incorporate a thorough and critical review of literature relevant to the topic, a discussion of theoretical approaches to understanding and studying the topic, a conceptual or theoretical framework that will guide the study, and a robust methodological plan that includes assurances of completing IRB review and any interview or other protocols necessary to submit for IRB review. Dissertation proposal defense occurs at any point during or at the end of the academic term and students receive feedback from the faculty advisor, other committee members, and their cohort peers during their defense.

**Dissertation:**
The Ed.D. dissertation is distinct from the Ph.D. dissertation in that the intent of the Ed.D. dissertation is not to build theory but to make a substantive contribution to practice-focused scholarship in a particular domain of K-12 educational leadership. Ed.D. dissertations are typically less lengthy than Ph.D. dissertations and cover a smaller scope of theorizing and data collection. They are, however, held to the same standards as Ph.D. dissertations with respect to methodological validity, data analysis, and writing quality and clarity.

Following successful defense of the dissertation proposal and after securing IRB approval, students carry out an original research project intended to make a significant practice-based contribution to the field. While the Ed.D. dissertation is meant to have practical and applied relevance, however, it is nonetheless expected to engage rigorously with existing literature and theory appropriate to the student’s chosen topic and to demonstrate the student’s ability to execute robust methods...
appropriate to the student’s research question(s). Toward this end, Ed.D. students:

- prepare a dissertation study report that is a standard academic manuscript, which includes an introduction, literature review, conceptual/theoretical framework, methodology, results, discussion, and references; and
- produce a white paper/executive summary that distills the lessons of their research for practitioners in their field.

Educational Psychology, M.Ed.

COLLEGE OF EDUCATION

Learn more about the Master of Education in Educational Psychology.

About the Program

The M.Ed. in Educational Psychology is designed to advance students’ understanding of learning, cognition, and human development as these processes apply to educational processes and practices. The Educational Psychology program is characterized by a strong theoretical and research orientation, the interplay of theory and practice, an interdisciplinary approach, and a commitment to service. Coursework focuses on three major areas: learning and conceptual processes, human development, and applied data analysis/assessment.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program through classes offered on a flexible schedule. The degree program can be completed on a full- or part-time basis.

Job Prospects: Graduates typically pursue careers in higher education in departments of education or psychology; in K-12 educational settings; as instructional technology specialists; as trainers in corporate, government, or medical settings; or as educational specialists in positions requiring skills in research design, applied statistics, or testing/measurement.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:
Fall: March 1
Spring: November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 2

From Whom: Letters of recommendation should be obtained to provide insight regarding the applicant’s academic competence. References from college/university faculty are recommended.

Bachelor’s Degree in Discipline/Related Discipline: A bachelor’s degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a master’s degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

Standardized Test Scores:
Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: Current resume required.

Other Requirement: Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

Learn more about the Master of Education in Higher Education.

### About the Program

The M.Ed in Higher Education is intended for early- and mid-career individuals aspiring to serve as administrators in a variety of settings, including colleges and universities, community colleges, higher education systems, proprietary/vocational institutions, and college access and pathway programs. The distinctive feature of the M.Ed. program is its structured concentration design and emphasis on urban issues and themes of equity and access in postsecondary education.

Extending Temple’s traditional commitment to social justice and educational opportunity, this program develops expert practitioners, i.e., those who can enact the kinds of changes that are necessary to meet state and federal college completion goals, improve equity in student postsecondary outcomes, strengthen the role of higher education for the public good, and create structures and cultures that are conducive to student success.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students complete the degree program in a hybrid format, both through classes offered after 5:30 p.m. and online courses. The degree program can be completed on a full- or part-time basis.

**Areas of Specialization:** The program offers concentrations in Access and Success, Institutional Effectiveness, and Student Affairs Leadership.

**Job Prospects:** Graduates are prepared to seek employment in a variety of professional areas in higher education, including academic advising, academic support, admissions, advancement, athletics, business services, counseling and health services, facilities, financial aid, human resources, institutional research and planning, learning centers, multicultural and diversity affairs, public relations, residence life, and training and development.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

**Admission Requirements and Deadlines**

**Application Deadline:**
- **Fall:** March 1
- **Spring:** November 1
Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**
**Number Required:** 2

**From Whom:** Letters of recommendation should be obtained to provide insight regarding the applicant’s academic competence. References from college/university faculty are recommended.

**Bachelor’s Degree in Discipline/Related Discipline:** A bachelor’s degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a master’s degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**
Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:
- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

Higher Education, Ed.D.

COLLEGE OF EDUCATION

Learn more about the Doctor of Education in Higher Education.

About the Program

The Ed.D. in Higher Education is a rigorous program of study that helps students develop the skills needed to diagnose and resolve organizational challenges and to craft and evaluate programs and policies impacting student success. The program features a core set of courses that reflect the essential values of the Temple University graduate program in higher education and the foundational knowledge, skills, and abilities required for effective postsecondary administrative practice. This program combines the theoretical and methodological foundations of academic research with an applied focus that helps students develop the professional and interpersonal wisdom necessary to successfully manage change within complex organizational structures.

The Higher Education Ed.D. degree prepares its graduates to be not just effective administrators but skilled and visionary leaders. The essential expected learning outcomes of the Ed.D. in Higher Education include:

- Demonstrate advanced understanding of the foundations of higher education, including knowledge of the history, politics, economics, and philosophy of higher education, theories of student development and organizations, and the institutional and social factors that contribute to student success in higher education.
- Demonstrate a disciplined and analytic approach to professional practice in the organization and administration of academic and student affairs, including the use of assessment, evaluation, and research in decision making; the ability to engage in strategic planning and goal setting; the ability to lead with cultural sensitivity and ethical judgment; the ability to understand organizational behavior and dynamics; and the ability to communicate clearly and effectively about complex administrative issues to a wide array of audiences and stakeholders.
- Demonstrate knowledge related to the functional core of the university, including teaching, research, and service; management skills, such as problem solving, planning, budgeting, fundraising, and assessment and evaluation; and human relations skills, such as managing conflict, communicating effectively, valuing diversity, and promoting organizational and individual development.
- Gain a conceptual understanding of higher education organizations when viewed from multiple perspectives, including organizations as academic enterprises, loosely coupled bureaucratic systems, and complex multifarious cultures, and be able to adopt those perspectives as analytic lenses for understanding and addressing administrative issues.
- Demonstrate the ability to select and apply appropriate research and program evaluation designs and methods, including understanding principles of research study design; synthesizing relevant literature from across fields to inform practice and research; articulating and applying theory or conceptual frameworks to support analysis and evaluation; having familiarity with an array of qualitative and quantitative methods and competence in data analysis strategies appropriate for contributing knowledge to advance effective higher education practice; and being competent in academic writing conventions.
- Enact habits of reflective and equity-conscious administrative practitioners, including conducting critical inquiry into issues of inequity or disparities in student access and success; engaging as learning agents on behalf of the institution; and collecting, interpreting, and communicating evidence to substantiate administrative issues.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students may matriculate either full-time or part-time. Most courses are offered in the evening to accommodate working professionals. The length of time to complete the doctoral degree program varies depending on the number of courses taken each term.

Affiliation(s): The program is a member of the University Council for Educational Administration (UCEA).
Job Prospects: Graduates typically become senior administrators in public or private schools; administrators in state or federal agencies; and administrators or professors in institutions of higher education.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

Financing Opportunities: Financial support opportunities may include assistantships, fellowships, scholarships, tuition remission, graduate student employment, and other financial aid such as grants, loans, and federal work study.

### Admission Requirements and Deadlines

**Application Deadline:**

**Fall:** February 1

Applications are accepted for the Fall term only. Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

**Number Required:** 2

**From Whom:** Letters of recommendation should be obtained to provide insight regarding the applicant’s academic competence. References from college/university faculty are recommended.

**Master's Degree in Discipline/Related Discipline:** A master’s degree in a related field is required. Students will be expected to transfer in up to 30 credits as advanced standing, with approval.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:**
Using autobiographical style, explain your interest in pursuing a doctoral degree in education. The statement should address the following questions:

- How have your personal, academic, and professional experiences shaped your research interests, and how might a doctoral program in Education help you explore those interests?
- What academic/professional goals would the program help you to achieve following graduation?
- How does the doctoral program at Temple fit your individual interests, needs, and future goals – and which faculty member’s research best matches your own interests?

**Standardized Test Scores:**
Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Writing Sample:** The academic writing sample should be a paper written for a class within the last five years. If a recent paper is not available, the applicant should compose an op-ed piece on an educational issue of her/his choosing. The op-ed should be 400 to 1,200 words in length and of the kind that might appear in *The New York Times* or *Philadelphia Inquirer.*

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

### Program Requirements

</tr>
</tbody>
</table>

Total Credit Hours 39

¹ Students select a two-course cognate based on their dissertation interests. They should consult with their advisor in the selection of these electives.
Students must take the “introductory” versions of the qualitative (EDUC 5262) and quantitative (EDUC 5325) courses before enrolling in more advanced courses for either methodology. A student can be exempted from the introductory courses if program faculty believe the student’s prior coursework warrants an exemption. Approval from the student’s advisor is required.

HIED 8093 must be taken during or after the last academic term of coursework.

**Culminating Events:**

**Comprehensive Exam:**
At the end of the academic term in which students are enrolled in HIED 8093 Advanced Higher Education Research Seminar and prior to completion of the dissertation proposal, students complete a comprehensive exam in order to advance to candidacy for the doctoral degree. The comprehensive exam consists of written responses to three questions developed by the instructor of the Research Seminar who, in most cases, will serve as the student’s primary dissertation advisor and chair. Through the comprehensive exam, students must demonstrate the ability to:

- situate and define a chosen topic or field within the concepts and history of the field;
- compare, contrast, and justify various research methods appropriate to investigation of a practice-based research problem; and
- critically synthesize the extant scholarly and practice-focused literature that informs administrative practice related to the topic.

Successful completion of the comprehensive exam advances students to doctoral candidate status and aids in preparation of the dissertation proposal.

**Dissertation Proposal:**
In the term immediately following completion of the HIED 8093 Advanced Higher Education Research Seminar and successful completion of the comprehensive exam, students enroll in EDUC 9998 Dissertation Proposal Design. Students enroll in a section of EDUC 9998 with the same cohort of students and instructor with whom they were enrolled in HIED 8093. Like HIED 8093 Advanced Higher Education Research Seminar, EDUC 9998 Dissertation Proposal Design serves as a structured, intensive, cohort-based monthly workshop in which students design and defend a dissertation proposal that outlines a rigorous plan for empirical study of an issue relevant to the student’s professional responsibilities or aspirations. The proposal must incorporate a thorough and critical review of literature relevant to the topic, a discussion of theoretical approaches to understanding and studying the topic, a conceptual or theoretical framework that will guide the study, and a robust methodological plan that includes assurances of completing IRB review and any interview or other protocols necessary to submit for IRB review. Dissertation proposal defense occurs at any point during or at the end of the academic term and students receive feedback from the faculty advisor, other committee members, and their cohort peers during their defense. Students will be encouraged to defend the proposal no later than the end of the term in which they are enrolled in EDUC 9998.

**Dissertation:**
The Ed.D. dissertation is distinct from the Ph.D. dissertation in that the intent of the Ed.D. dissertation is not to build theory but to make a substantive contribution to practice-focused scholarship in a particular domain of higher education. Ed.D. dissertations are typically less lengthy than Ph.D. dissertations and cover a smaller scope of theorizing and data collection. They are, however, held to the same standards as Ph.D. dissertations with respect to methodological validity, data analysis, and writing quality and clarity. Toward this end, Ed.D. students:

- prepare a dissertation study report that is a standard academic manuscript, which includes an introduction, literature review, conceptual/theoretical framework, methodology, results, discussion, and references; and
- produce a Practice Guide that is three to five pages in length. The Practice Guide distills the lessons of the student’s research into succinct recommendations or best practices for practitioners in her/his field.

**Middle Grades Education/ Language Arts, M.Ed.**

**COLLEGE OF EDUCATION**

Learn more about the Master of Education in Middle Grades Education.

**About the Program**
The Middle Grades Education graduate program prepares students for middle-level teaching in grades 4 to 8. Middle grades teachers are increasingly sought out and in high demand in Pennsylvania and across the country.

The College of Education program in Middle Grades Education is designed to ensure that our students graduate highly knowledgeable about learning and teaching as well as committed to pre-adolescent learners from diverse ethnic, economic, and geographic backgrounds. The goal is to produce certified teachers to fill the growing vacancies. Toward that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of academic standards and the wide-ranging developmental needs of middle grades students.
Our newly designed program stands out as cutting edge because we prepare graduate students to teach in both upper elementary and middle grades classrooms. In addition to becoming certified to teach all elementary subjects in grades 4 to 6, Middle Grades Education students can pursue single or dual certification for seventh and eighth grades in one of the following concentrations:

- Language Arts/English
- Mathematics
- Mathematics and Language Arts/English
- Mathematics and Science
- Science
- Science and Language Arts/English
- Social Studies

The Middle Grades Education graduate program may be completed for certification only or certification plus a master’s degree. All applicants are initially admitted to the master’s program. After successfully completing the minimum requirements for certification, students may choose to leave the program with certification-only or may elect to continue in the program and complete the additional credit hours and requirements to receive certification and a master’s degree. The program requires a minimum of 25 credits for certification-only and 31 credits for certification plus a master’s degree.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis. Classes are offered to accommodate working adults.

**Accreditation:** The program is approved as a teacher certification program by the Pennsylvania Department of Education (PDE).

**Job Prospects:** Graduates typically pursue teaching positions in elementary or middle schools for grades 4 to 8.

**Licensure:** Upon successful completion of the degree requirements and passing all Praxis™ examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

**Admission Requirements and Deadlines**

**Application Deadline:**

- **Fall:** March 1
- **Spring:** November 1
- **Summer II:** March 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

- **Number Required:** 2

- **From Whom:** Letters of recommendation should be obtained to provide insight regarding the applicant’s academic competence. References from college/university faculty are recommended.

**Coursework Required for Admission Consideration:** Prerequisites for admission to the Middle Grades Education M.Ed. program include courses taken at the undergraduate or graduate level with a grade of ‘C’ or better earned in the following areas:

- At least five courses (or 15 credits) in language arts/English.
- At least two courses (or 6 credits) in the other three content areas (i.e., mathematics, science, or social studies).

Students pursuing a language arts concentration should have at least one composition course and at least one American or British literature course or remedial courses do not count toward the language arts prerequisites.

**Bachelor’s Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a master’s degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**

- **Praxis I®:** Official score report must demonstrate a passing score in the content-area test to gain admission to the program:
  - PA Grades 4–8 Subject Concentration: English Language Arts (5156)
  - 156 minimum score (effective 4/2/12)

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- **TOEFL iBT:** 79
- **IELTS Academic:** 6.5
- **PTE Academic:** 53

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.
Coursework Waivers: Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student’s credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

Clearances: A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required upon enrollment.

Other Requirement: Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis. Classes are offered to accommodate working adults.

**Accreditation:** The program is approved as a teacher certification program by the Pennsylvania Department of Education (PDE).

**Job Prospects:** Graduates typically pursue teaching positions in elementary or middle schools for grades 4 to 8.

**Licensure:** Upon successful completion of the degree requirements and passing all Praxis™ examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

**Admission Requirements and Deadlines**

**Application Deadline:**
- **Fall:** March 1
- **Spring:** November 1
- **Summer II:** March 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

**Apply Online** to this graduate program.

**Letters of Reference:**
- **Number Required:** 2

**From Whom:** Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

**Coursework Required for Admission Consideration:** Prerequisites for admission to the Middle Grades Education M.Ed. program include courses taken at the undergraduate or graduate level with a grade of 'C' or better earned in the following areas:

- At least five courses (or 15 credits) in mathematics.
- At least two courses (or 6 credits) in the other three content areas (i.e., language arts/English, science, or social studies).

Students pursuing a mathematics concentration are advised to have at least three credits of calculus, with other mathematics credits being at a similar level or beyond.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a master's degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**
- **Praxis I:** Official score report must demonstrate a passing score in the content-area test to gain admission to the program:
  - PA Grades 4–8 Subject Concentration: Mathematics (5158) – 173 minimum score (effective 4/2/12)

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Coursework Waivers:** Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student's credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

**Clearances:** A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required upon enrollment.

**Other Requirements:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

**Program Requirements**

**General Program Requirements:**
- **Number of Credits Required Beyond the Baccalaureate:** 31

**Required Courses:**
Middle Grades Education/ Mathematics and Language Arts, M.Ed.

COLLEGE OF EDUCATION

Learn more about the Master of Education in Middle Grades Education.

About the Program

The Middle Grades Education graduate program prepares students for middle-level teaching in grades 4 to 8. Middle grades teachers, particularly in math and science education, are increasingly sought out and in high demand in Pennsylvania and across the country.

The College of Education program in Middle Grades Education is designed to ensure that our students graduate highly knowledgeable about learning and teaching as well as committed to pre-adolescent learners from diverse ethnic, economic, and geographic backgrounds. The goal is to produce certified teachers to fill the growing vacancies. Toward that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of academic standards and the wide-ranging developmental needs of middle grades students.

Our newly designed program stands out as cutting edge because we prepare graduate students to teach in both upper elementary and middle grades classrooms. In addition to becoming certified to teach all elementary subjects in grades 4 to 6, Middle Grades Education students can pursue single or dual certification for seventh and eighth grades in one of the following concentrations:

- Language Arts/English
- Mathematics
- Mathematics and Language Arts/English
- Mathematics and Science
- Science
- Science and Language Arts/English
- Social Studies

The Middle Grades Education graduate program may be completed for certification only or certification plus a master's degree. All applicants are initially admitted to the master's program. After successfully completing the minimum requirements for certification, students may choose to leave the program with certification-only or may elect to continue in the program and complete the additional credit hours and requirements to receive certification and a master's degree. The program requires a minimum of 25 credits for certification-only and 31 credits for certification plus a master's degree.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Classes are offered to accommodate working adults.

Accreditation: The program is approved as a teacher certification program by the Pennsylvania Department of Education (PDE).
Job Prospects: Graduates typically pursue teaching positions in elementary or middle schools for grades 4 to 8.

Licensure: Upon successful completion of the degree requirements and passing all Praxis™ examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

**Standardized Test Scores:**

*Praxis II:* Official score report must demonstrate a passing score in one content-area test to gain admission to the program. The selected test should correspond to one of the applicant’s two chosen areas of specialization:

- PA Grades 4–8 Subject Concentration: English Language Arts (5156) − 156 minimum score (effective 4/2/12)
- PA Grades 4–8 Subject Concentration: Science (5159) − 156 minimum score (effective 4/2/12)

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Coursework Waivers:** Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student’s credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

**Clearances:** A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required upon enrollment.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

COLLEGE OF EDUCATION

Learn more about the Master of Education in Middle Grades Education.

About the Program

The Middle Grades Education graduate program prepares students for middle-level teaching in grades 4 to 8. Middle grades teachers are increasingly sought out and in high demand in Pennsylvania and across the country.

The College of Education program in Middle Grades Education is designed to ensure that our students graduate highly knowledgeable about learning and teaching as well as committed to pre-adolescent learners from diverse ethnic, economic, and geographic backgrounds. The goal is to produce certified teachers to fill the growing vacancies. Toward that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of academic standards and the wide-ranging developmental needs of middle grades students.

Our newly designed program stands out as cutting edge because we prepare graduate students to teach in both upper elementary and middle grades classrooms. In addition to becoming certified to teach all elementary subjects in grades 4 to 6, Middle Grades Education students can pursue single or dual certification for seventh and eighth grades in one of the following concentrations:

- Language Arts/English
- Mathematics
- Mathematics and Language Arts/English
- Mathematics and Science
- Science
- Science and Language Arts/English
- Social Studies

The Middle Grades Education graduate program may be completed for certification only or certification plus a master’s degree. All applicants are initially admitted to the master’s program. After successfully completing the minimum requirements for certification, students may choose to leave the program with certification-only or may elect to continue in the program and complete the additional credit hours and requirements to receive certification and a master’s degree. The program requires a minimum of 25 credits for certification-only and 31 credits for certification plus a master’s degree.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Classes are offered to accommodate working adults.

Accreditation: The program is approved as a teacher certification program by the Pennsylvania Department of Education (PDE).

Job Prospects: Graduates typically pursue teaching positions in elementary or middle schools for grades 4 to 8.

Licensure: Upon successful completion of the degree requirements and passing all Praxis™ examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:

- Fall: March 1
- Spring: November 1
- Summer II: March 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:

From Whom: Letters of recommendation should be obtained to provide insight regarding the applicant’s academic competence. References from college/university faculty are recommended.

Number Required: 2

Coursework Required for Admission Consideration: Prerequisites for admission to the Middle Grades Education M.Ed. program include courses taken at the undergraduate or graduate level with a grade of ‘C’ or better earned in the following areas:

- At least five courses (or 15 credits) in social studies.
- At least two courses (or 6 credits) in the other three content areas (i.e., language arts/English, mathematics, or science).

Students pursuing a social studies concentration are required to have a minimum of two courses in U.S. History, American Government, or World History with other social studies credits being at a similar level or beyond.

Bachelor’s Degree in Discipline/Related Discipline: A bachelor’s degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a master’s degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.
Standardized Test Scores:

*Praxis II®*: Official score report must demonstrate a passing score in the content-area test to gain admission to the program:

- PA Grades 4–8 Subject Concentration: Social Studies (5157) – 150 minimum score (effective 4/2/12)

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: Current resume required.

Transfer Credit: Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

Coursework Waivers: Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student’s credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

Clearances: A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required upon enrollment.

Other Requirement: Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

Coursework Required for Admission Consideration: Prerequisites for admission to the Middle Grades and Special Education M.Ed. program include courses taken at the undergraduate or graduate level with a grade of 'C' or better earned in the following areas:

- At least four courses (or 12 credits) each in the chosen concentration areas of mathematics and language arts.
- At least two courses (or 6 credits) in the other content areas (i.e., science and social studies).

Students pursuing mathematics as one of their concentration areas are advised to have at least three credits of calculus, with other mathematics credits being at a similar level or beyond. For the language arts concentration, they should have at least one composition course and at least one American or British literature course with other credits being at a similar level or beyond. Basic or remedial courses do not count toward the language arts prerequisites.

Bachelor's Degree in Discipline/Related Discipline: A bachelor’s degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a master's degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

Standardized Test Scores:

Praxis II: Official score report must demonstrate a passing score in one content-area test to gain admission to the program. The selected test should correspond to one of the applicant's two chosen areas of specialization:

- PA Grades 4–8 Subject Concentration: English Language Arts (5156) – 156 minimum score (effective 4/2/12)
- PA Grades 4–8 Subject Concentration: Mathematics (5158) – 173 minimum score (effective 4/2/12)

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: Current resume required.

Transfer Credit: Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

Coursework Waivers: Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student's credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

Clearances: A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required upon enrollment.

Other Requirement: Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

Middle Grades and Special Education/Mathematics and Science, M.Ed.

COLLEGE OF EDUCATION

Learn more about the Master of Education in Middle Grades and Special Education.

About the Program

The M.Ed. program in Middle Grades and Special Education prepares students for initial teacher certification in Middle Grades Education (grades 4-8) and Special Education (pre-Kindergarten through grade 8). This program prepares high-quality professional educators who go on to embrace innovation, equity, excellence, and leadership opportunities as teachers in diverse educational settings.

This newly designed program stands out as cutting edge because our graduate students are prepared to teach in both elementary and middle grades classrooms. In addition to becoming certified to teach all elementary subjects in grades 4-6 and special education in pre-K to grade 8, all students pursue certification for grades 7 and 8 in one of the following concentrations:

- Language Arts/English
- Mathematics
- Mathematics and Language Arts/English
- Mathematics and Science
- Science
- Science and Language Arts/English
- Social Studies

Middle grades teachers, particularly those who hold double certifications, are increasingly sought out and in high demand in Pennsylvania as well as across the country. This degree program is designed to ensure not only that there are certified teachers to fill the growing vacancies, but that our students graduate highly knowledgeable about learning and teaching as well as committed to pre-adolescent learners from diverse ethnic, economic, and geographic backgrounds. Toward that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of academic standards and the wide-ranging developmental needs of middle grades students.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Classes are offered to accommodate working adults.

Accreditation: The program is approved as a teacher certification program by the Pennsylvania Department of Education (PDE).

Job Prospects: Graduates typically pursue teaching positions in elementary or middle schools for grades 4 to 8.

Licensure: Upon successful completion of the degree requirements and passing all Praxis™ examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.
Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

**Admission Requirements and Deadlines**

**Application Deadline:**

*Fall:* March 1  
*Spring:* November 1  
*Summer II:* March 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

**Number Required:** 2

**From Whom:** Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

**Coursework Required for Admission Consideration:** Prerequisites for admission to the Middle Grades and Special Education M.Ed. program include courses taken at the undergraduate or graduate level with a grade of 'C' or better earned in the following areas:

- At least four courses (or 12 credits) each in the chosen concentration areas of mathematics and science.
- At least two courses (or 6 credits) in the other content areas (i.e., language arts/English and social studies).

Students pursuing mathematics as one of their concentration areas are advised to have at least three credits of calculus, with other mathematics credits being at a similar level or beyond. For the science concentration, they are advised to have at least one life science, one earth science, and one physical science course with other science credits being at a similar level or beyond.

**Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree is required. A minimum UGPA of 3.0 is expected.**

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a master's degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**

**Praxis II:** Official score report must demonstrate a passing score in one content-area test to gain admission to the program. The selected test should correspond to one of the applicant's two chosen areas of specialization:

Coursework Required for Admission Consideration: Prerequisites for admission to the Middle Grades and Special Education M.Ed. program include courses taken at the undergraduate or graduate level with a grade of 'C' or better earned in the following areas:
• At least five courses (or 15 credits) in social studies.
• At least two courses (or 6 credits) in the other three content areas (i.e., language arts/English, mathematics, or science).

Students pursuing a social studies concentration are required to have a minimum of two courses in U.S. History, American Government, or World History with other social studies credits being at a similar level or beyond.

**Bachelor’s Degree in Discipline/Related Discipline:** A bachelor’s degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a master’s degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**

*Praxis II:* Official score report must demonstrate a passing score in the content-area test to gain admission to the program:

• PA Grades 4–8 Subject Concentration: Social Studies (5157) – 150 minimum score (effective 4/2/12)

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

• TOEFL iBT: 79
• IELTS Academic: 6.5
• PTE Academic: 53

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Coursework Waivers:** Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student’s credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

**Clearances:** A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required upon enrollment.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

---

Policy and Organizational Studies, Ph.D.

COLLEGE OF EDUCATION
Learn more about the Doctor of Philosophy in Policy and Organizational Studies.

About the Program
The Ph.D. in Policy and Organizational Studies is designed to prepare students for research-oriented work in the academy or other settings within the fields of education policy or organizational development. This program is structured to highlight the interdisciplinary nature of the fields and to build on the unique characteristics of Temple University, including its status as a diverse urban institution that emphasizes user-inspired, social justice-oriented, and community-connected scholarship.

The 48-credit post-master's doctoral program includes rigorous study of the theoretical and methodological foundations of Policy and Organizational Studies research combined with a focus on three specialized facets of the policy and organizational fields: Adult and Organizational Development, Higher Education, and Urban Education. The Ph.D. in Policy and Organizational Studies is designed to be completed in four years.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students may matriculate either full-time or part-time. Most courses are offered in the evening to accommodate working professionals. The length of time to complete the doctoral degree program varies depending on the number of courses taken each term.

Areas of Specialization: The program offers three areas of concentration:

• Adult and Organizational Development
• Higher Education
• Urban Education

Job Prospects: Graduates are prepared for research-focused careers in academia and other institutions.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include assistantships, fellowships, scholarships, tuition remission, graduate student employment, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:
Fall: December 1

Applications are accepted for the Fall term only. Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 2
From Whom: Letters of recommendation should be obtained to provide insight regarding the applicant’s academic competence. References from college/university faculty are recommended.

Master’s Degree in Discipline/Related Discipline: Students who hold a master's degree in a related field may transfer in up to 30 credits as advanced standing, with approval.

Bachelor’s Degree in Discipline/Related Discipline: A bachelor's degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

Statement of Goals: Using autobiographical style, explain your interest in pursuing a doctoral degree in education. The statement should address the following questions:

• How have your personal, academic, and professional experiences shaped your research interests, and how might a doctoral program in Policy and Organizational Studies help you explore those interests?
• What academic and professional goals would the program help you to achieve upon graduating?
• How does the doctoral program at Temple fit your individual interests, needs, and future goals – and which faculty member’s research best matches your own interests?

Standardized Test Scores:
GRE: Official scores are required to be reported from the test taken no more than 5 years prior to submitting an application.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

• TOEFL iBT: 100
• IELTS Academic: 7.0
• PTE Academic: 68
Resume: Current resume required.

Writing Sample: The academic writing sample should be a paper written for a class within the last five years. If a recent paper is not available, the applicant should compose an op-ed piece on an educational issue of her/his choosing. The op-ed should be 400 to 1,200 words in length and of the kind that might appear in The New York Times or Philadelphia Inquirer.

Other Requirement: Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

Theory Elective | 3

Total Credit Hours | 18

Culminating Events:
Comprehensive Examination:
Students are required to complete their comprehensive examination by the end of their second year of doctoral studies. The specific nature of the examination is determined by the concentration selected by the student, but all comprehensive examinations will require students to demonstrate proficiency in theory, research methodology, and discipline-specific content.

Proposal with Oral Defense:
The dissertation proposal demonstrates the student’s knowledge of and ability to conduct the proposed research. Minimally, the proposal should contain the context and background surrounding a particular research problem; a survey and review of the literature to a sufficient degree to provide the reader with enough information to understand why the research is being conducted; a detailed methodological plan for investigating the problem; and a proposed timeline for completing
the dissertation. The Doctoral Advisory Committee must approve the student's proposal, which is presented at a formal proposal defense.

**Dissertation with Oral Defense:**

The doctoral dissertation is an original piece of scholarship that makes a significant contribution to the field of Policy and Organizational Studies. A successful dissertation will be publishable in a refereed journal.

The Doctoral Advisory Committee oversees all aspects of the student's dissertation from the proposal to the oral defense. It is composed of three members of the Graduate Faculty. A member of the Policy, Organizational and Leadership Studies faculty typically chairs the committee. At least one faculty member from outside the program must be on the committee. The student chooses her/his committee in consultation with the selected chair. A student may petition for a change of chairperson or member of the Doctoral Advisory Committee. This petition must be approved by the Department Chair and by the Associate Dean for Academic Affairs and Graduate Studies. Complete details about the dissertation process are available in the College of Education Dissertation Handbook, which is available from the Dean's office.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense. It is composed of the three members of the Doctoral Advisory Committee plus one additional faculty member, i.e., an outside examiner. One member may be assigned by the Associate Dean for Academic Affairs and Graduate Studies. The Dissertation Examining Committee evaluates the dissertation and the student's ability to defend it. The committee votes to pass or fail the dissertation. The outcome of the defense is determined by majority vote.

Students who are preparing to defend their dissertation must confirm a date and time with the Dissertation Examining Committee. Notification of the date and time must then be submitted on the appropriate College form to the Associate Dean for Academic Affairs and Graduate Studies no less than 3 weeks prior to the oral defense. The announcement of the oral defense is sent by the Associate Dean to the Graduate School no less than 10 days prior to the defense. A copy of the announcement is also sent to each member of the Dissertation Examining Committee and is posted on the bulletin board in the Office of Student Services of the College of Education.

The program offers three areas of specialization:

- Curriculum Supervision
- Principal Leadership
- Reform and Change Leadership

**School Leadership/Curriculum Supervision, M.Ed.**

**College of Education**

Learn more about the Master of Education in School Leadership.

**About the Program**

The M.Ed. in School Leadership prepares educators with the advanced knowledge and skills needed to lead in urban schools. Students are prepared to tackle the unique challenges of educating children in high need environments. Coursework includes opportunities to learn and explore with other committed professionals who are dedicated to the success of all teachers and all students.

The Curriculum Supervision concentration prepares students to become a district-wide specialist in curriculum and instruction across the total grade organization. Students who successfully complete all program requirements also satisfy the academic requirements for an administrative certificate in Pennsylvania. In addition to the academic requirements, the Pennsylvania Department of Education requires candidates to pass the Praxis® 5411 – Educational Leadership: Administration and Supervision. After all academic requirements are met and the scores from the Praxis® are reported, the College of Education endorses the successful candidate for certification.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students complete the degree program in a hybrid format, both through classes offered after 5:30 p.m. and online courses. The degree program can be completed on a full- or part-time basis.

**Areas of Specialization:** The program offers three areas of concentration:

- Curriculum Supervision
- Principal Leadership
- Reform and Change Leadership

**Job Prospects:** Graduates are prepared to step forward to lead schools as principals curriculum supervisors.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

**Financial Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

School Leadership/Principal Leadership, M.Ed.

COLLEGE OF EDUCATION
Learn more about the Master of Education in School Leadership.

**About the Program**

The M.Ed. in School Leadership prepares educators with the advanced knowledge and skills needed to lead in urban schools. Students are prepared to tackle the unique challenges of educating children in high need environments. Coursework includes opportunities to learn and explore with other committed professionals who are dedicated to the success of all teachers and all students.

The Principal Leadership concentration prepares individuals to serve as principals and assistant principals; provides insight into the purposes and processes of schools; and demonstrates the expertise necessary to lead and administer a school community. This concentration meets state educational requirements for certification as a principal, with its courses approved by the Pennsylvania Department of Education.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students complete the degree program in a hybrid format, both through classes offered after 5:30 p.m. and online courses. The degree program can be completed on a full- or part-time basis.

School Leadership/Reform and Change Leadership, M.Ed.

COLLEGE OF EDUCATION
Learn more about the Master of Education in School Leadership.

About the Program
The M.Ed. in School Leadership prepares educators with the advanced knowledge and skills needed to lead in urban schools. Students are prepared to tackle the unique challenges of educating children in high need environments. Coursework includes opportunities to learn and explore with other committed professionals who are dedicated to the success of all teachers and all students.

The Reform and Change Leadership concentration is designed for those students who do not wish to pursue curriculum supervision or principal leadership. This concentration prepares students to become agents of change in their schools and districts. Elective coursework provides students with the opportunity to take courses that meet their interests.

Time Limit for Degree Completion: 4 years
Campus Location: Main
Full-Time/Part-Time Status: Students complete the degree program in a hybrid format, both through classes offered after 5:30 p.m. and online courses. The degree program can be completed on a full- or part-time basis.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a master's degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

Standardized Test Scores:
Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:
• TOEFL iBT: 79
• IELTS Academic: 6.5
• PTE Academic: 53

Resume: Current resume required.

Other Requirement: Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

School Psychology, Ed.S.

COLLEGE OF EDUCATION

Learn more about the Education Specialist degree in School Psychology.

About the Program

The Ed.S. is a rigorous graduate degree program that meets the requirements for certification as a school psychologist in Pennsylvania and New Jersey. Students who apply directly from a bachelor's degree can earn an M.Ed. after completion of 30 credits toward the Ed.S. In addition to required coursework, students must complete a portfolio, required practicum placements, and a 1,200-hour internship in a school setting.

Time Limit for Degree Completion: 4 years

Culminating Events:

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**
*Number Required:* 2

*From Whom:* Letters of recommendation should be obtained to provide insight regarding the applicant’s academic competence. References from college/university faculty are recommended.

**Bachelor’s Degree in Discipline/Related Discipline:** A bachelor’s degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In two to three pages, indicate your goals and objectives in obtaining a specialist degree and certification as a school psychologist, as well as your reason for seeking certification with a specific focus on the career to which you aspire, your research and practice interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**
GRE: Scores from the general test taken no more than 5 years prior to application are required. Scores from the GRE Subject Exam in Psychology may also be submitted.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Interview:** An interview with the faculty admissions committee may be required after a complete application is received.

**Resume:** Current resume required.

**Clearances:** A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required upon enrollment. Students must complete and upload documentation of clearances prior to the start of their program.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

**Program Requirements**

**General Program Requirements:**
*Number of Credits Required Beyond the Baccalaureate:* 65 (30 credits M.Ed.; 35 credits post-master’s Ed.S.)

| Total Credit Hours: | **65** |

1 The 9 credits needed to meet the internship requirement may be taken throughout Year 3 in the Fall, Spring, and/or Summer terms.

**Internship:** For certification, an internship with a minimum of 1,200 hours in an approved setting must be completed. A minimum of 600 hours must be in a school setting. The internship can be full-time for a year or half-time over two years.

**Culminating Events:**
Comprehensive Examination:
The comprehensive examination is an essay examination that covers key areas of Psychology and School Psychology to determine the student's competence and ability to explain key concepts. The comprehensive exam is only required for a student whose GPA is below 3.5 at the completion of M.Ed. coursework.

Portfolio Review:
During the internship year, students must submit a portfolio of professional work for review by the advisor.

School Psychology, Ph.D.
COLLEGE OF EDUCATION

Learn more about the Doctor of Philosophy in School Psychology.

About the Program
The School Psychology Ph.D. program follows a scientist-practitioner model, which emphasizes that a school psychologist's basic skills are derived from a thorough understanding of the science of psychology. Armed with this understanding of basic psychology, the school psychologist can adapt to changing professional demands and help determine the future of the profession. Without this background, a psychologist could only serve the role of a technician and would be poorly equipped to overcome any obstacles or lead new developments in the profession.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students must complete one year of full-time residency. The program requires both day and evening classes.

Accreditation: The doctoral program in School Psychology is fully accredited by the American Psychological Association (APA), the National Association of School Psychologists (NASP), and the Pennsylvania Department of Education.

Job Prospects: Graduates are employed in universities, public and private schools, hospitals, research facilities, government and state agencies, and private practice.

Licensure: Certification in School Psychology is awarded after completing the internship and passing the examinations required by the Commonwealth of Pennsylvania. Some states will certify without the examinations. Licensing as a psychologist in most states requires an additional post-doctoral year of supervision and passing the Examination for the Professional Practice in Psychology (EPPP) and a state licensure exam.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include assistantships, fellowships, scholarships, tuition remission, graduate student employment, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines
Application Deadline:
Fall: December 1

Applications are accepted for the Fall term only. Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 2

From Whom: Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

Master's Degree in Discipline/Related Discipline: A master's degree is not required.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

Statement of Goals: Using autobiographical style, explain your interest in pursuing a doctoral degree in education. The statement should address the following questions:

• Why are interested in becoming a school psychologist?
• What do you perceive as the role and functions of a school psychologist?
What is your area of research focus?
• How does the doctoral program at Temple fit your individual interests, needs, and future goals – and which faculty member’s research best matches your own interests?

**Standardized Test Scores:**
GRE: Official scores are required to be reported from the test taken no more than 5 years prior to submitting an application.

GRE Subject Test in Psychology: Optional.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Interview:** An interview with the faculty admissions committee may be required after a complete application is received.

**Resume:** Current resume required.

**Writing Sample:** The academic writing sample should be a paper written for a class within the last five years. If a recent paper is not available, the applicant should compose an op-ed piece on an educational issue of her/his choosing. The op-ed should be 400 to 1,200 words in length and of the kind that might appear in *The New York Times* or *Philadelphia Inquirer*.

**Advanced Standing:** The advisor determines advanced standing during the student's first term in the program by evaluating the credits the student has taken in accordance with the relevance to and requirements of the School Psychology program. The maximum number of advanced standing credits awarded is 30.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 9.

**Clearances:** A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required upon enrollment. Students must complete and upload documentation of clearances prior to the start of their program.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

**Program Requirements**

**General Program Requirements:**

*Number of Credits Required to Earn the Degree:* 100 for those who complete an internship through the Association of Psychology Postdoctoral and Internship Centers (APPIC); 103 for those who complete a non-APPIC internship.

**Required Courses:**

Doctoral Dissertation

Internship in School Psychology

for investigating the problem; and a proposed timeline for completing why the research is being conducted; a detailed methodological plan degree to provide the reader with enough information to understand should contain the context and background surrounding a particular The dissertation proposal demonstrates the student's knowledge of Proposal with Oral Defense:

Education.

administered and proctored at a time determined by the College of subjects except for the internship. It is offered over two days, with The preliminary examination is taken after completion of all academic areas of Psychology and School Psychology to determine the student's competence and ability to explain key concepts. Four areas are covered:

1. Scientific Psychology;
2. Consultation and Intervention;
3. Diagnosis and Remediation; and
4. Role/Function and Ethical/Legal Considerations.

The preliminary examination is taken after completion of all academic subjects except for the internship. It is offered over two days, with each section of the examination requiring three hours. The exam is administered and proctored at a time determined by the College of Education.

All School Psychology faculty participate in writing the exam by submitting questions and by evaluating the written exam. A passing grade in all four areas is required to pass the exam.

Proposal with Oral Defense:

The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. Minimally, the proposal should contain the context and background surrounding a particular research problem; a survey and review of the literature to a sufficient degree to provide the reader with enough information to understand why the research is being conducted; a detailed methodological plan for investigating the problem; and a proposed timeline for completing the dissertation. The Doctoral Advisory Committee must approve the student's proposal, which is presented at a formal proposal defense.

Internship Evaluation:

The internship experience is evaluated for successful completion.

Dissertation with Oral Defense:

The doctoral dissertation is an original piece of scholarship that makes a significant contribution to the field of School Psychology. A majority of the dissertations in the program are empirical, typically using statistical analysis as the means of completing the data collection process. Other types of scholarship (e.g., those utilizing more qualitative approaches or those employing theoretical or philosophical analysis of educational issues) may be acceptable. A successful dissertation will be publishable in a refereed journal.

The Doctoral Advisory Committee oversees all aspects of the student's dissertation from the proposal to the oral defense. It is composed of three members of the Graduate Faculty. A member of the School Psychology faculty typically chairs the committee. At least one faculty member from outside the program must be on the committee. The student chooses her/his committee in consultation with the selected chair. A student may petition for a change of chairperson or member of the Doctoral Advisory Committee. This petition must be approved by the Department Chair and by the Associate Dean for Academic Affairs and Graduate Studies. Complete details about the dissertation process are available in the College of Education Dissertation Handbook, which is available from the Dean's office.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense. It is composed of three members of the Doctoral Advisory Committee plus one additional faculty member, i.e., an outside examiner. One member may be assigned by the Associate Dean for Academic Affairs and Graduate Studies. The Dissertation Examining Committee evaluates the dissertation and the student's ability to defend it. The committee votes to pass or fail the dissertation. The outcome of the defense is determined by majority vote.

Students who are preparing to defend their dissertation must confirm a date and time with the Dissertation Examining Committee. Notification of the date and time must then be submitted on the appropriate College form to the Associate Dean for Academic Affairs and Graduate Studies no less than 3 weeks prior to the oral defense. The announcement of the oral defense is sent by the Associate Dean to the Graduate School no less than 10 days prior to the defense. A copy of the announcement is also sent to each member of the Dissertation Examining Committee and is posted on the bulletin board in the Office of Student Services of the College of Education.

Secondary Education/English Education, M.Ed.

COLLEGE OF EDUCATION
Learn more about the Master of Education in Secondary Education.

About the Program
The English Education specialization of the Secondary Education graduate program seeks to prepare teachers to engage secondary students in the production and interpretation of literary and non-literary spoken and written texts. Courses stress connections between the advanced literacy demands of secondary schools and the similarities and differences in the literacies necessary to thrive in home and school communities.

The Secondary Education graduate program with a concentration in English Education may be completed for certification only or certification plus a master's degree. All applicants are initially admitted to the master's program. After successfully completing the minimum requirements for certification, students may choose to leave the program with certification only or may elect to continue in the program and complete the additional credit hours and requirements to receive certification and a master's degree. The program requires a minimum of 25 credits for certification-only and 31 credits for certification plus a master's degree.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Evening classes on Main campus start at 5:00 p.m.

Accreditation: The program is approved as a teacher certification program by the Pennsylvania Department of Education and is accredited by the Teacher Education Accreditation Council (TEAC).

Job Prospects: Graduates typically pursue teaching positions in middle and secondary school settings in grades 7 to 12.

Licensure: Upon successful completion of the degree requirements and passing all licensure examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transferred into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines
Application Deadline:
Fall: March 1
Spring: November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 2

From Whom: Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

Coursework Required for Admission Consideration: Prerequisites for admission to the Secondary Education M.Ed. program in English include a major or the equivalent with completion of approximately 36 credits taken at the undergraduate level with a grade of 'C' or better earned in English, including a linguistics course. A prerequisite evaluation is conducted upon receipt of the application and all official transcripts. All required prerequisites must be fulfilled before an applicant is eligible for admission.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a master's degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

Standardized Test Scores: The official score report must demonstrate a passing score on the Praxis II:

- Praxis II® Test Code 5038 — English Language, Literature, and Composition: Content Knowledge

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: Current resume required.
Transfer Credit: Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

Coursework Waivers: Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student's credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

Clearances: A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required upon enrollment.

Other Requirement: Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

Secondary Education/ Mathematics Education, M.Ed.

COLLEGE OF EDUCATION

Learn more about the Master of Education in Secondary Education.

About the Program

The Mathematics Education specialization of the Secondary Education graduate program follows the standards and recommendations of leading mathematics professional organizations, such as the National Council of Teachers of Mathematics (NCTM). The curriculum is designed to provide candidates with knowledge of the interests and abilities of students at different levels of mathematics achievement. The program emphasizes problem-solving skills, mathematical thinking processes, and methods of actively engaging children and young adults in their own learning.

The Secondary Education graduate program with a concentration in Mathematics Education may be completed for certification only or certification plus a master's degree. All applicants are initially admitted to the master's program. After successfully completing the minimum requirements for certification, students may choose to leave the program with certification-only or may elect to continue in the program and complete the additional credit hours and requirements to receive certification and a master's degree. The program requires a minimum of 25 credits for certification-only and 31 credits for certification plus a master's degree.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Evening classes on Main campus start at 5:00 p.m.

Accreditation: The program is approved as a teacher certification program by the Pennsylvania Department of Education and is accredited by the Teacher Education Accreditation Council (TEAC).

Job Prospects: Graduates typically pursue teaching positions in middle and secondary school settings in grades 7 to 12.

Licensure: Upon successful completion of the degree requirements and passing all licensure examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if
the student is admitted. *Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.*

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

## Admission Requirements and Deadlines

**Application Deadline:**

- **Fall:** March 1
- **Spring:** November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

**Letters of Reference:**

- **Number Required:** 2
- **From Whom:** Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

**Coursework Required for Admission Consideration:** Prerequisites for admission to the Secondary Education M.Ed. program in Mathematics include a major or the equivalent with completion of approximately 30 credits taken at the undergraduate level with a grade of 'C' or better earned in mathematics, beginning with calculus. A prerequisite evaluation is conducted upon receipt of the application and all official transcripts. All required prerequisites must be fulfilled before an applicant is eligible for admission.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

Secondary Education/Science Education, M.Ed.

COLLEGE OF EDUCATION
Learn more about the Master of Education in Secondary Education.

About the Program
The Secondary Education graduate program’s Science Education specialization, endorsed by the National Science Teachers Association (NSTA), requires a strong foundation in at least one science discipline with supporting expertise in mathematics, as appropriate. Students graduate with an understanding of the nature of science and its complex relationship to the society in which it functions and which it serves. The program offers concentrations in Biology, Chemistry, Earth Science, General Science, and Physics.

The Secondary Education graduate program with a concentration in Science Education may be completed for certification only or certification plus a master’s degree. All applicants are initially admitted to the master’s program. After successfully completing the minimum requirements for certification, students may choose to leave the program with certification-only or may elect to continue in the program and complete the additional credit hours and requirements to receive certification and a master’s degree. The program requires a minimum of 25 credits for certification-only and 31 credits for certification plus a master’s degree.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Most courses are offered in the evening or online, but one course may meet during the daytime and several require daytime fieldwork in schools. Evening classes on Main campus start at 5:00 p.m.

Accreditation: The program is approved as a teacher certification program by the Pennsylvania Department of Education and is accredited by the Teacher Education Accreditation Council (TEAC).

Areas of Specialization: The Science Education specialization of the Secondary Education graduate program offers concentrations in Biology, Chemistry, Earth Science, General Science, and Physics.

Job Prospects: Graduates typically pursue teaching positions in middle and secondary school settings in grades 7 to 12.

Licensure: Upon successful completion of the degree requirements and passing all required licensure examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Secondary Education/Social Studies Education, M.Ed.

COLLEGE OF EDUCATION

Learn more about the Master of Education in Secondary Education.

About the Program

Professional preparation in the Social Studies Education specialization of the Secondary Education graduate program aims to develop teachers with the skills necessary to create an informed citizenry with respect for diversity in a democratic society. The Social Studies Education specialization emphasizes critical thinking about social studies curriculum frameworks and materials; curriculum development grounded in teaching for understanding; and sensitivity around controversial areas such as race relations, gender, war and peace, equality of economic and social opportunities, and global interdependence.

The Secondary Education graduate program with a concentration in Social Studies Education may be completed for certification only or certification plus a master's degree. All applicants are initially admitted to the master's program. After successfully completing the minimum requirements for certification, students may choose to leave the program with certification-only or may elect to continue in the program and complete the additional credit hours and requirements to receive certification and a master’s degree. The program requires a minimum of 25 credits for certification-only and 31 credits for certification plus a master’s degree.
Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Evening classes on Main campus start at 5:00 p.m.

About the Program

The World/Foreign Languages Education specialization of the Secondary Education program is devoted to providing students with a combination of fluency in the target language and the ability to implement best practices in foreign language pedagogy. The World/Foreign Languages Education specialization emphasizes that learning a foreign language also means learning about another way of life and developing intercultural understanding in order to escape a narrow cultural perspective. Through the experiences in this program, students gain a deeper understanding of the nature of language and culture.

Although most graduates work in secondary school settings, the need for foreign language teachers in elementary schools, especially for teachers of Spanish, is increasing. In response to this, the World/Foreign Languages Education specialization offers K-12 certification, and the curriculum is designed to equip students with knowledge and skills they can apply in K-12 settings. Certification is offered in Chinese, French, German, Italian, Latin, and Spanish.

The Secondary Education graduate program with a concentration in World/Foreign Languages Education may be completed for certification only or certification plus a master's degree. All applicants are initially admitted to the master's program. After successfully completing the minimum requirements for certification, students may choose to leave the program with certification-only or may elect to continue in the program and complete the additional credit hours and requirements to receive certification and a master's degree. The program requires a minimum of 28 credits for certification-only and 31 credits for certification plus a master's degree.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Evening classes on Main campus start at 5:30 p.m.

Accreditation: The program is approved as a teacher certification program by the Pennsylvania Department of Education and is accredited by the Teacher Education Accreditation Council (TEAC).

Areas of Specialization: The World/Foreign Languages Education specialization of the Secondary Education graduate program offers certification in Chinese, French, German, Italian, Latin, and Spanish.

Job Prospects: Graduates typically pursue teaching positions in elementary, middle, or secondary school settings in grades K to 12.

Licensure: Upon successful completion of the degree requirements and passing all required licensure examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2
From Whom: Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

Coursework Required for Admission Consideration: Prerequisites for admission to the Secondary Education M.Ed. program in World Languages include a major or the equivalent with completion of approximately 36 credits taken at the undergraduate level with a grade of 'C' or better earned in a world language such as Chinese, French, German, Italian, Latin, or Spanish. Coursework should include the following:

- For non-native speakers of English, ten three-credit courses, covering work in conversation, composition, culture and civilization, linguistics, and contemporary literature, beyond the first two elementary courses, with a minimum of 30 credits in the foreign language at the college level for certification in one foreign language.
- For native speakers, eight courses at a university taken in the department of the language of certification (e.g., the Spanish Department) at their level of knowledge of the language, literature, and culture and linguistics.

A prerequisite evaluation is conducted upon receipt of the application and all official transcripts. All required prerequisites must be fulfilled before an applicant is eligible for admission. No foreign language examination is required. Applicants who earned their baccalaureate degree from an institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: Current resume required.

Transfer Credit: Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

Coursework Waivers: Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student's credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

Clearances: A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required upon enrollment.

Other Requirement: Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

COLLEGE OF EDUCATION

Learn more about the Master of Education in Secondary Education and Special Education.

About the Program

The M.Ed. in Secondary Education and Special Education is designed to prepare students to teach in a diverse, urban context and to have the skills to address the challenges facing both students and educators in urban schools. Teachers who are well-equipped to create inclusive classrooms foster learning for all students, including those with disabilities, learning deficits, and language differences, as well as those from diverse cultures within and outside mainstream American culture. In addressing student diversity, effective teachers create pedagogical strategies that are founded on principles of social, cognitive, emotional, and intellectual development. Students in the program learn to present lesson plans that differentiate instruction and include concrete strategies designed to ensure that all students’ needs are met and all students have the opportunity to succeed in the classroom. Our students spend some time in the field in the broad spectrum of Philadelphia schools, with the idea that a diverse sequence of field experiences promote an understanding of the impact of resources on education and efforts to ensure equitable access to good education for all children.

The M.Ed. in Secondary Education and Special Education degree program is designed for individuals choosing to change careers after earning a baccalaureate degree in another field to prepare them for initial teacher certification in Secondary Education (grades 7-12) and Special Education (grades 7-12). With this degree, students are highly qualified to teach in a variety of school settings. They earn a combined M.Ed. in Secondary Education and Special Education, with dual certification in Special Education and one of the concentration areas in Secondary Education:

- English Education
- Mathematics Education
- Science Education
- Social Studies Education
- World/Foreign Languages Education

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Evening classes on Main campus start at 5:30 p.m.

Accreditation: The program is approved as a teacher certification program by the Pennsylvania Department of Education and is accredited by the Teacher Education Accreditation Council (TEAC).

Job Prospects: Graduates typically pursue teaching positions in middle and secondary school settings in grades 7 to 12.

Licensure: Upon successful completion of the degree requirements and passing all licensure examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2

From Whom: Letters of recommendation should be obtained to provide insight regarding the applicant’s academic competence. References from college/university faculty are recommended.

Coursework Required for Admission Consideration: Prerequisites for admission to the Secondary Education and Special Education M.Ed. program in English include a major or the equivalent with completion of approximately 36 credits taken at the undergraduate level with a grade of ‘C’ or better earned in English, including a linguistics course. A
prerequisite evaluation is conducted upon receipt of the application and all official transcripts. All required prerequisites must be fulfilled before an applicant is eligible for admission.

**Bachelor’s Degree in Discipline/Related Discipline:** A bachelor’s degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a master’s degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:** The official score report must demonstrate a passing score on the Praxis II:

- Praxis II Test Code 5038 — English Language, Literature, and Composition: Content Knowledge

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Coursework Waivers:** Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student’s credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

**Clearances:** A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required upon enrollment.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

**Program Requirements**

**Total Credit Hours:** 46

¹ It is recommended that SPED 5666 be the first Special Education course taken by students in the program.

**Milestones:** Students must meet two milestones during their training:

- Intermediate Performance Assessment (IPA)
- Senior Performance Assessment (SPA)

**Culminating Events:** Student teaching and its related seminar are the culminating events for this program. For EDUC 5888 Supervised Teaching, students receive training and experiences in both secondary education and special education. The Supervised Teaching course for Secondary Education students entails 14 weeks of supervised teaching in a Secondary Education content area classroom.

### Secondary Education and Special Education / World/Foreign Languages Education, M.Ed.

**COLLEGE OF EDUCATION**

Learn more about the Master of Education in Secondary Education and Special Education.

### About the Program

The M.Ed in Secondary Education and Special Education is designed to prepare students to teach in a diverse, urban context and to have
the skills to address the challenges facing both students and educators in urban schools. Teachers who are well-equipped to create inclusive classrooms foster learning for all students, including those with disabilities, learning deficits, and language differences, as well as those from diverse cultures within and outside mainstream American culture. In addressing student diversity, effective teachers create pedagogical strategies that are founded on principles of social, cognitive, emotional, and intellectual development. Students in the program learn to present lesson plans that differentiate instruction and include concrete strategies designed to ensure that all students’ needs are met and all students have the opportunity to succeed in the classroom. Our students spend some time in the field in the broad spectrum of Philadelphia schools, with the idea that a diverse sequence of field experiences promote an understand of the impact of resources on education and efforts to ensure equitable access to good education for all children.

The M.Ed. in Secondary Education and Special Education degree program is designed for individuals choosing to change careers after earning a baccalaureate degree in another field to prepare them for initial teacher certification in Secondary Education (grades 7-12) and Special Education (grades 7-12). With this degree, students are highly qualified to teach in a variety of school settings. They earn a combined M.Ed. in Secondary Education and Special Education, with dual certification in Special Education and one of the concentration areas in Secondary Education:

- English Education
- Mathematics Education
- Science Education
- Social Studies Education
- World/Foreign Languages Education

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis. Evening classes on Main campus start at 5:30 p.m.

**Accreditation:** The program is approved as a teacher certification program by the Pennsylvania Department of Education and is accredited by the Teacher Education Accreditation Council (TEAC).

**Job Prospects:** Graduates typically pursue teaching positions in middle and secondary school settings in grades 7 to 12.

**Licensure:** Upon successful completion of the degree requirements and passing all licensure examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

---

**Admission Requirements and Deadlines**

**Application Deadline:**

- **Fall:** March 1
- **Spring:** November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

- **Number Required:** 2

**From Whom:** Letters of recommendation should be obtained to provide insight regarding the applicant’s academic competence. References from college/university faculty are recommended.

**Coursework Required for Admission Consideration:** Prerequisites for admission to the Secondary Education and Special Education M.Ed. program in World Languages include a major or the equivalent with completion of approximately 36 credits taken at the undergraduate level with a grade of ‘C’ or better earned in a world language such as Chinese, French, German, Italian, Latin, or Spanish. Coursework should include the following:

- For non-native speakers of English, ten three-credit courses, covering work in conversation, composition, culture and civilization, linguistics, and contemporary literature, beyond the first two elementary courses, with a minimum of 30 credits in the foreign language at the college level for certification in one foreign language.
- For native speakers, eight courses at a university taken in the department of the language of certification (e.g., the Spanish Department) at their level of knowledge of the language, literature, and culture and linguistics.

A prerequisite evaluation is conducted upon receipt of the application and all official transcripts. All required prerequisites must be fulfilled before an applicant is eligible for admission. No foreign language examination is offered to award credit by examination at Temple University.

**Bachelor’s Degree in Discipline/Related Discipline:** A bachelor’s degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a master’s degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:** The official score report must demonstrate a passing score on both Praxis I® and Praxis II®:

- **Praxis I® Test Code 5511 — Fundamental Subjects: Content Knowledge**
- **Praxis II® Test Code 5174 — French: World Language**
- **Praxis II® Test Code 5183 — German: World Language**

**Schools and Colleges** 483
• Praxis II® Test Code 5195 — Spanish: World Language
• Praxis II® Test Code 5601 — Latin
• Praxis II® Test Code 5665 — Chinese (Mandarin): World Language

Candidates for all other foreign languages should take the ACTFL test, which includes a written (when available) and oral exam that is graded on a proficiency scale rather than a point scale. Both the written and oral exams must be taken if available. The minimum proficiency to qualify is Intermediate High: Code 120. Candidates may contact the testing office of the American Council on the Teaching of Foreign Languages (ACTFL) at 914-963-7110.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

• TOEFL iBT: 79
• IELTS Academic: 6.5
• PTE Academic: 53

Resume: Current resume required.

Transfer Credit: Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

Coursework Waivers: Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student’s credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

Clearances: A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required upon enrollment.

Other Requirement: Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

COLLEGE OF EDUCATION

Learn more about the Master of Education in Special Education.

About the Program

The master's degree program in Special Education is designed for those who already hold certification in Art Education, Early Childhood Education, Elementary Education, Middle Grades Education, Music Education, or Physical Education. The program is grounded in its commitment to the following principles:

- Evidence-based instructional practices and their implementation in the classroom.
- Recognition and amelioration of the impact of sociocultural factors on the education of children with disabilities.
- Preventative approaches that de-emphasize labels and traditional diagnostic categories to support improved teaching and learning.
- Implementation of inclusive practices both within schools and within society as a whole.

The M.Ed. in Special Education offers three concentrations: Autism Spectrum Disorders, Mild Disabilities, or Severe Disabilities.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 5:30 p.m. The degree program can be completed on a full- or part-time basis.

Accreditation: The program is approved as a teacher certification program by the Pennsylvania Department of Education and is accredited by the Teacher Education Accreditation Council (TEAC).

Areas of Specialization: The program offers concentrations in Autism Spectrum Disorders, Mild Disabilities, or Severe Disabilities. The scope of the Special Education certificate is grades PreK-8.

Job Prospects: The market for highly qualified special education teachers remains unabated. The U.S. Bureau of Labor Statistics reports an increased need for special education teachers. The shortage of special education teachers has been identified regionally (i.e., Pennsylvania and New Jersey) and is particularly prevalent in urban centers in the immediate environs of Temple University.

Licensure: Upon successful completion of the degree requirements and passing all required licensure examinations, candidates may apply for a Pennsylvania Instructional I Special Education PreK-8 Certificate.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Non-TESOL Elective 2

Research Course

EDUC 9993 | Master’s Comprehensive Examination                           | 1            |

Total Credit Hours: 31

1 With advisor approval, other appropriate courses may be taken. Students may also choose to take a third TESOL elective, thus requiring no non-TESOL elective.

2 To fulfill this requirement, a course may be taken either within the College of Education or in other schools/colleges at Temple University. Non-TESOL electives are recommended to be taken in, but are not limited to, such fields as Anthropology, Educational Media, Educational Sociology, English, Foreign Language Education, Linguistics, Literacy, Secondary Education, and Urban Education.

Culminating Events:

Comprehensive Examination:

In order to take the comprehensive exam, the student must remain in good academic standing. Thus, the student cannot accumulate more than two grades below ‘B’ or one ‘F’ and must maintain at least a 3.0 grade point average.

Urban Education, M.Ed.

COLLEGE OF EDUCATION

Learn more about the Master of Education in Urban Education.

About the Program

The M.Ed. in Urban Education provides students with an understanding of the social context of urban schools; historical and contemporary school reform efforts; and the relationship between broader social, political, and economic issues and the experiences of students and communities. This is done with a strong emphasis on social justice and creating bridges between theory and practice. The program aims to create engaged practitioners and leaders. Students currently in the classroom will be prepared to place their practice in its larger social and economic context, think critically about issues of policy and practice, and develop tools for creating change within their schools and beyond. Students choose from among three areas of specialization: Education Policy, School-Community Partnerships, and Teaching in Urban Schools.

Full-time program faculty specialize in class and race issues; sociological foundations of urban education; family-school relationships; risk and resilience; pre-service education for urban teachers; school-community collaboration; urban educational policy and reform; and youth culture. Affiliated faculty specialize in areas such as African American families and youth, community mediation, community-based research, gender issues in administration, higher education, multicultural education, race relations, sociology of education, urban studies, and writing instruction. For students interested in other areas of specialization, the program develops special links with appropriate faculty across the university.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The Urban Education program is both interdisciplinary and intercollegiate, taking advantage of the strengths of various schools/colleges and departments at Temple. Program faculty include those with full-time assignments in Urban Education, as well as affiliated faculty assigned to other departments and programs, such as Africology and African American Studies; Anthropology; Communication Sciences; Educational Administration; Educational Psychology; English; Gender, Sexuality, and Women's Studies; Geography and Urban Studies; History; Political Science; Social Administration; Sociology; Teacher Education; and TESOL (English as a Second Language).

Areas of Specialization: Three specializations, as well as the opportunity to design one’s own program individually with an advisor, are offered:

- Education Policy
- School-Community Partnerships
- Teaching in Urban Schools

Job Prospects: Graduates find jobs in school districts, advocacy agencies, and community-based organizations.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Urban School Leadership, M.Ed.

COLLEGE OF EDUCATION

Learn more about the Master of Education in Urban School Leadership.

About the Program

The M.Ed. in Urban School Leadership is designed for students who are committed to service in Philadelphia and other urban centers who would benefit from a focus on urban schooling while earning principal certification and a master's degree. The program prepares educators with the advanced knowledge and skills needed to lead in urban schools. Students are prepared to tackle the unique challenges of educating children in high need environments. Coursework includes opportunities to learn and explore with other committed professionals who are dedicated to the success of all teachers and all students.

Time Limit for Degree Completion: 4 years

Campus Location: Center City

Full-Time/Part-Time Status: Students complete the degree program in a hybrid format, both through classes and online courses. Courses meet for two weeks during the summer and one weekend a month during the school year. Designed for working professionals, the degree program is expected to be completed on a part-time basis.

Job Prospects: Graduates are prepared to step forward to lead urban schools and communities.

Non-Matriculated Student Policy: Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.

Financing Opportunities: Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans, and federal work study.

Admission Requirements and Deadlines

Application Deadline:
Fall: March 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.
Letters of Reference:
Number Required: 2

From Whom: Letters of recommendation should be obtained to provide insight regarding the applicant’s academic competence. References from college/university faculty are recommended.

Bachelor’s Degree in Discipline/Related Discipline: A bachelor’s degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

Statement of Goals: Indicate your interest in seeking a master’s degree with a specific focus on the career to which you aspire; your particular research, intellectual, and applied interests; and your academic and job-related experiences that are relevant to the program.

Standardized Test Scores:
Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: Current resume required.

Other Requirements:
1. Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned
2. A copy of a valid Pennsylvania Teaching Certification

Graduate Certificate: Applied Behavior Analysis

Learn more about the graduate certificate in Applied Behavior Analysis.

About the Certificate
The graduate certificate in Applied Behavior Analysis trains students to apply the principles of learning and behavior to influence behavior change that is significant to society. Students learn how to systematically change behavior by analyzing related environmental variables and applying interventions based on the principles of behavior science. Behavior analysts have improved a wide range of everyday issues, including enhancing staff performance, improving public safety initiatives, teaching effective parenting skills, treating problem behavior in children, improving general and special education teaching strategies, rehabilitating individuals who abuse substances, and more.

Time Limit for Certificate Completion: 2 years
Schools and Colleges

Campus Location: Main

Full-Time/Part-Time Status: The graduate certificate can be completed on a part-time basis.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

Accreditation: The certificate program includes a seven-course sequence approved by the Association for Behavior Analysis International (ABAI).

Job Prospects: Graduates are prepared for professional careers in a variety of environments, particularly in social service agencies and educational institutions.

Licensure: Coursework may apply toward earning the Behavior Specialist license from the Commonwealth of Pennsylvania.

Admission Requirements and Deadlines

Application Deadline:
Applications are accepted for the Fall and Spring terms and are reviewed on a rolling basis.

Graduate Certificate: Autism Endorsement

COLLEGE OF EDUCATION

Learn more about the graduate certificate in Autism Endorsement.
About the Certificate

Pennsylvania is experiencing a considerable increase in the proportion of students with autism eligible for services. A significant need exists for well-trained professionals holding various Level I and Level II certificates of professional competence to serve students with autism and related Autism Spectrum Disorders (ASD).

The graduate certificate in Autism Endorsement offers a competency-based sequence of courses and a practicum for certified teachers who support students with ASD. All courses are grounded in applied behavior analysis and demonstrate research-based practices that enable students to gain the knowledge, specific skills, and competencies to effectively educate children with ASD and work with their families. Students learn from renowned faculty in Temple’s College of Education, which is consistently ranked among the nation’s best by U.S. News and World Report. Flexible practicum options are available.

Completion of the certificate program ensures that graduates enhance their marketability as certified teachers when seeking positions in inclusive settings. Students who successfully complete the program are eligible to receive Pennsylvania’s Autism Spectrum Disorders Endorsement Certificate.

Time Limit for Certificate Completion: 2 years

Campus Location: Main, with convenient night classes offered

Full-Time/Part-Time Status: The graduate certificate can be completed on a part-time basis.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

Graduate Certificate: College Access and Success

COLLEGE OF EDUCATION

Learn more about the graduate certificate in College Access and Success.

About the Certificate

The graduate certificate in College Access and Success aims to provide a post-baccalaureate credential that aligns with the primary goals of the M.Ed. program in Higher Education. As the College of Education strives to prepare existing and incoming professionals in the ever-changing landscape of higher and postsecondary education, this certificate serves as a critical bridge to helping these service providers develop marketable skills and competencies. Courses offered through this graduate certificate program challenge norms by placing significant emphasis on urban issues and themes of equity, access, and affordability in higher and postsecondary education.

Time Limit for Certificate Completion: 2 years

Campus Location: Main

Full-Time/Part-Time Status: The graduate certificate can be completed on a part-time basis.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

Graduate Certificate: Data-Driven Decision Making

COLLEGE OF EDUCATION

Learn more about the graduate certificate in Data-Driven Decision Making.
About the Certificate

Data-driven decision making refers to the practice of using systematically collected and analyzed information to guide key decisions about policy or practice in business, education, government, or other contexts. A growing need exists among organizations of all sorts for employees with knowledge about data-driven decision making, an important trend in the field and one that complements the expertise of our educational psychology faculty. The graduate certificate program is designed for data users and decision makers from many different kinds of organizations, including schools, colleges, social service groups, nonprofits, government, and business.

The success of data-driven decision making depends on knowing what information to collect, how to collect it, how to analyze it, how to interpret the findings, and how to translate these understandings into subsequent action. Flexible sequencing of courses, potentially flexible modes of course delivery (e.g., face-to-face, hybrid, online), and a culminating paper on a flexible topic allow students in the graduate certificate program to customize training to fit their personal interests.

Time Limit for Certificate Completion: 2 years

Campus Location: Main

Full-Time/Part-Time Status: The graduate certificate can be completed on a part-time basis.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

Graduate Certificate: Disability Studies

COLLEGE OF EDUCATION

Learn more about the graduate certificate in Disability Studies.

About the Certificate

Disability Studies offers a course of study that explores disability from historical, cultural, and sociopolitical perspectives. Focus is placed on disability within a social and political context, challenging the notion that the statuses and roles of individuals with disability result from physical or psychological aspects of disability. Scholars in the field of Disability Studies recognize the necessity of focusing their work on issues of disability within a traditional discipline, but also require a familiarity with
work on disability in other disciplines to enrich their own understandings. It is for this philosophical reason that the graduate certificate in Disability Studies is interdisciplinary and jointly sponsored by the Institute on Disabilities and the College of Education.

The graduate certificate in Disability Studies draws on resources in a broad array of disciplines from the liberal arts and social sciences to the allied health professions. It develops a more accurate understanding and appreciation of people with disabilities and the evolution of their civil rights movement. The graduate certificate can be earned in conjunction with a wide variety of disciplines. Disability Studies provides students with an opportunity to reflect critically on practices and approaches that may be taken for granted in their home disciplines. Particular strengths include the social history of disability and ableism, disability and health, ecological aspects of disablement, universal design, disability social policy, and constituency-oriented research on disability rights and culture.

**Time Limit for Certificate Completion:** 2 years

**Campus Location:** Main and Online

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis.

**Non-Matriculated Student Policy:** Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

**Financing Opportunities:** For information about financing this graduate certificate, please refer to the Graduate School's financing information (p. 25). Students who are adding this certificate to a terminal degree program may be eligible for Spring Graduate Assistantship opportunities from the Institute on Disabilities. For more information on assistantships, please refer to the Institute on Disabilities' graduate assistantship information.

## Admission Requirements and Deadlines

**Application Deadline:** Applications are accepted for the Fall, Spring, and Summer terms and are reviewed on a rolling basis.

Students already enrolled in a Temple University graduate degree program APPLY ONLINE through an internal application.

Prospective students not currently enrolled in a Temple University graduate degree program APPLY ONLINE to this certificate program.

**Letters of Reference:**

**Number Required:** 2

**From Whom:** Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** Outline your interest in seeking a graduate certificate with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

Graduate Certificate: Diversity Leadership

COLLEGE OF EDUCATION

Learn more about the graduate certificate in Diversity Leadership.

About the Certificate

The graduate certificate in Diversity Leadership is designed to provide a broad range of knowledge related to the field of diversity and to create reflective practitioners who can lead and support formal and informal learning collaborations by diverse groups in higher education and K-12 educational settings. The broader vision is that certificate holders contribute to the creation of responsible, ethical citizens able to collaborate in an increasingly diverse world.

A sequence of four courses allows students to build on the knowledge learned from each previous course. First, key foundational principles, policies, and procedures used in the field of diversity in higher education are introduced. Second, students are introduced to the models and theories for developing partnerships and serving as change agents within institutions. They also learn about strategic planning and assessment of diversity initiatives. In the third and fourth courses, the student is facilitator, leading diverse groups in a variety of settings and helping to create self-awareness of their own positionality and attitudes about diversity.

Time Limit for Certificate Completion: 2 years

Campus Location: Main

Full-Time/Part-Time Status: The graduate certificate can be completed on a part-time basis.

Graduate Certificate: English as a Second Language

COLLEGE OF EDUCATION

Learn more about the graduate certificate in English as a Second Language.

About the Certificate

The student population with ESL (English as a Second Language) needs has been increasing dramatically across Pennsylvania. In 2010, the U.S. Department of Education reported a 114.5% increase in the ESL population in Pennsylvania public schools over the previous ten years, with a 1.4% decrease in all other student populations. This significant growth has led to an increased need for trained ESL teachers. While the ESL graduate certificate is required for individuals to lead ESL classes, it is also strongly recommended for all teachers as Pennsylvania classrooms become increasingly diverse.

In response to the significant need for well-trained ESL and mainstream teachers, Temple’s ESL certificate program offers a set of four challenging and practical courses that prepare teachers to work effectively with ESL students. Through this program, students develop a foundation in English usage, linguistic awareness, and second language acquisition. They also learn to adapt and develop instructional materials for ESL students; administer and interpret a variety of formative and summative assessments; become knowledgeable about support services for English language learners; and develop cultural awareness and sensitivity. Because each course includes fieldwork, students have frequent opportunities to teach ESL students throughout the program, immediately applying newly learned concepts and skills. Courses are taught by full-time Temple faculty to ensure students are guided by experts in the field and receive a high-quality education. ESL certificate course credits can also be applied toward Temple University’s M.S.Ed. in Teaching English to Speakers of Other Languages (TESOL) (p. 486).

The ESL graduate certificate can currently be added to any valid Pennsylvania Instructional I or II teaching certificate. However, to obtain a position as an ESL teacher in a public school, individuals must be certified in Early Childhood Education, Middle Grades English, or Secondary English. Students with certificates in other Middle Grades or Secondary content areas should take the Praxis II for English to add this credential.

Time Limit for Certificate Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: The graduate certificate can be completed on a part-time basis.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

Admission Requirements and Deadlines

Application Deadline:
Applications are accepted for the Fall, Spring, and Summer terms and are reviewed on a rolling basis.

Prospective students should hold an Instructional I or II certificate that is valid in Pennsylvania. Alternatively, students may be accepted if they are matriculated in a certification program at Temple University:

• Undergraduates currently matriculated in a Temple teacher certification program are eligible for the certificate program after achieving candidacy with a minimum GPA of 3.0.
• Graduate students with good academic standing while enrolled in a teacher certification program are also eligible for the certificate program.

Prospective students not currently matriculated in a Temple University teacher certification program must APPLY ONLINE to this certificate program.

Letters of Reference:
Number Required: 2

From Whom: Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree is required. A minimum UGPA of 3.0 is expected.

Applicants who have taken some TESOL courses, who have experience as an ESL teacher, and/or who participated in ESL-related professional development activities may request a credential review.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

Statement of Goals: Outline your interest in seeking a graduate certificate with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

Standardized Test Scores:
Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

• TOEFL iBT: 79
• IELTS Academic: 6.5
• PTE Academic: 53

Resume: Current resume required.

Other Requirements:

1. Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned.
2. A copy of a valid Pennsylvania Instructional I or II Teaching Certification or evidence of enrollment in a certification program

Graduate Certificate: English Language Teaching

COLLEGE OF EDUCATION

Learn more about the graduate certificate in English Language Teaching.

About the Certificate

The graduate certificate in English Language Teaching equips students with a foundational understanding of language structure and development as well as strategies for teaching and working with English language learners beyond the K-12 classroom in the United States. Please note that this certificate does not lead to teacher certification and, therefore, is not intended for teacher education students. Teaching English in K-12 classrooms in the United States requires state certification and, in Pennsylvania, a Pennsylvania Program Specialist: ESL Certificate. If you are enrolled in a teacher education program leading toward Pennsylvania Instructional I certification or currently hold this certification, please review the Teaching English to Speakers of Other Languages (TESOL) M.S.Ed. (p. 486) program.

Grounded in a socio-cultural perspective, the program provides firsthand practical experience to build language teaching skills, including lesson planning/delivery, curriculum development, and assessment. Upon completion, students find themselves knowledgeable of the cultural, social, and political complexities of language education, its learning, and use, and are able to skillfully draw on this awareness in a broad range of international, professional, and teaching contexts. This program is ideal for those who want to develop a solid foundation for teaching English to non-native speakers and can serve as a critical pathway to the master’s program in Teaching English to Speakers of Other Languages (TESOL).

Time Limit for Certificate Completion: 2 years

Campus Location: Main

Full-Time/Part-Time Status: The graduate certificate can be completed on a part-time basis.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

Admission Requirements and Deadlines

Application Deadline:
Applicants may apply for the Fall 2018 term. Applications are reviewed on a rolling basis.

Graduate Certificate: Teaching in Higher Education

COLLEGE OF EDUCATION

Learn more about the graduate certificate in Teaching in Higher Education.

About the Certificate
The graduate certificate in Teaching in Higher Education has been developed for current faculty members looking to enhance their teaching or advance their career, as well as for high school teachers and professionals in other fields who would like to teach in higher education. Completion of the coursework for the certificate prepares students to:

• appreciate learning-centered teaching;
• apply research on learning and adult development to teaching;
• utilize the principles of integrated course design in developing syllabi, assessments, and learning activities;
• use a variety of research-based teaching methods to promote learning, development, and achievement of all students;
• practice a reflective, purposeful, and learning-centered approach to teaching; and
• independently learn, evaluate, and assimilate future research on teaching and learning.

Time Limit for Certificate Completion: 2 years

Campus Location: Online

Full-Time/Part-Time Status: The graduate certificate is completed on a part-time basis as part of a cohort. The Summer cohort enrolls in one course in each of the summer sessions (Summer I and Summer II). The Fall/Spring cohort takes one course in Fall and the other in Spring.

Admission Requirements and Deadlines
Application Deadline:
To register for the Fall/Spring cohort or the Summer I/Summer II cohort, complete TUCC’s registration form.

For questions, contact Johanna Inman at jinman@temple.edu or 215-204-9270.

Bachelor's Degree in Discipline/Related Discipline: A bachelor’s degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also be prepared to submit an official document that validates completion and conferral of a degree, diploma, and/or certificate.

Standardized Test Scores:
Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

• TOEFL iBT: 79
• IELTS Academic: 6.5
• PTE Academic: 53

Other Requirement: Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned are expected to be provided.

Graduate Certificate: Training and Organizational Development

Learn more about the graduate certificate in Training and Organizational Development.

About the Certificate

The graduate certificate in Training and Organizational Development is intended for adult educators and administrators, trainers, consultants, program and instructional developers, and facilitators. The certificate program is a training ground for individuals wishing to enter careers in these settings and an opportunity for mid-career professionals to upgrade their skills. It consists of four courses focusing on adult training, team development, and organizational change in such diverse settings as educational, community-based, and governmental organizations, associations, and the workplace.

Time Limit for Certificate Completion: 2 years

Campus Location: Center City (TUCC), with classes offered in the evening and on weekends

Full-Time/Part-Time Status: The graduate certificate can be completed on a part-time basis.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

Admission Requirements and Deadlines

Application Deadline:
Applications are accepted for the Fall and Spring terms and are reviewed on a rolling basis.

APPLY ONLINE to this certificate program.

Letters of Reference:
Number Required: 2

From Whom: Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree is required. A minimum UGPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma, and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

Statement of Goals: Outline your interest in seeking a graduate certificate with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

Standardized Test Scores:
Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: Current resume required.

Other Requirement: Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

Total Credit Hours: 12

1 Students who choose to matriculate into the M.Ed. program in Adult and Organizational Development may transfer up to 12 credits from the Training and Organizational Development certificate upon acceptance into the M.Ed. program. Completion of a certificate program does not guarantee admission into the master's program. Students considering matriculating into a master's program are encouraged to apply as early as possible.

Graduate Certificate: Urban Education

COLLEGE OF EDUCATION

Learn more about the graduate certificate in Urban Education.

About the Certificate

The graduate certificate in Urban Education helps students develop the skills and knowledge necessary to engage in collaborative education-focused work with diverse groups of people in urban settings. Students develop a broad understanding of urban schools and communities, with a particular emphasis on the social, economic, political, and historic factors that shape urban schooling. They also learn to create connections between theory and practice and to move beyond stories of urban school “failure” to analysis of successful policies and approaches.

Students in the Urban Education certificate program seek to provide services in the areas of community development, education, health, youth, and advocacy. The program attracts individuals from a wide variety of backgrounds, including educators, parents, community leaders, and activists. Through the certificate, students gain knowledge and skills in:

- the history of urban education;
- race, class, and schools;
- education policy;
- current trends in school reform; and
- theory, practice, and program development related to creating and sustaining partnerships between schools, agencies, and communities.

Time Limit for Certificate Completion: 2 years

Campus Location: Main

Full-Time/Part-Time Status: The graduate certificate can be completed on a part-time basis.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

College of Engineering

Temple University's College of Engineering is committed to its students with an emphasis on education that is hands-on and personal. Classes are small and taught by experienced and dedicated faculty. Fostering an environment for the creation of knowledge, the college encourages basic and cross-disciplinary applied research by its faculty and students. Great importance is attached to scholarship, practice, and service aimed at improving the quality of life and the economic viability of our society. These objectives are pursued in a learning environment that celebrates ethnic and gender diversity, respects experience, and encourages problem solving through teamwork.

As part of a research institution, the College of Engineering offers cutting-edge programs that are accredited by ABET. The college began as the Evening Technical School in 1936 to accommodate an expanded technical course offering. In 1969, the Board of Trustees approved the formation of the College of Engineering Technology, which was authorized to grant Bachelor of Science degrees in various engineering technology disciplines. In 1986, the college offered the Master of Science in Engineering, its first graduate program.

The mission of the College of Engineering is to provide students with a high-quality, innovative, and globally competitive learning experience in engineering, engineering technology, and the applied sciences. Engineering graduates are educated professionals with the technical, problem-solving, and communication skills required to succeed in the workplace and society. The college has partnerships with some of the area’s leading engineering employers. Our graduates are hired by such companies as Boeing, Lockheed Martin, Metrologic, NASA, PennDot, Pennoni Construction, PGW, Turner Construction, Verizon, and many more.

Programs

Degree Programs

- Bioengineering, M.S. Bioe. (p. 510)
- Bioengineering, Ph.D. (p. 513)
- Civil Engineering, M.S.C.E. (p. 516)
- Civil Engineering, Ph.D. (p. 519)
- Computer and Systems Security, P.S.M. (p. 523)
- Electrical Engineering, M.S.E.E. (p. 524)
- Electrical Engineering, Ph.D. (p. 527)

- Stormwater Management

Graduate Faculty

Bechara E. Abboud, Associate Professor, Department of Civil and Environmental Engineering, College of Engineering; Ph.D., Drexel University.

Fauzia Ahmad, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., University of Pennsylvania.

Li Bai, Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., Drexel University.

George Baran, Professor Emeritus, Department of Mechanical Engineering, College of Engineering; Ph.D., University of California Los Angeles.

Evangelia Bellas, Assistant Professor, Department of Bioengineering, College of Engineering; Ph.D., University of Michigan.

Saroj K. Biswas, Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., University of Ottawa.

Robert M. Brooks, Associate Professor, Department of Civil and Environmental Engineering, College of Engineering; Ph.D., University of Pennsylvania.

Harsh Deep Chopra, Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., University of California Los Angeles.

Richard S. Cohen, Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., Princeton University.

Philip Dames, Assistant Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., University of Pennsylvania.

Kurosh Darvish, Associate Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., University of Virginia.

Zdenka J. Delalic, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., University of California Los Angeles.

Dmitry A. Dikin, Associate Professor (Research), Department of Mechanical Engineering, College of Engineering; Ph.D., National Academy of Sciences of Ukraine, Institute for Low Temperature Physics and Engineering.

Oleksandr Dilyan, Assistant Professor (Teaching/Instructional), Department of Mechanical Engineering, College of Engineering; Ph.D., Donetsk National Technical University.

Liang Du, Assistant Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., Georgia Institute of Technology.

Ahmed Faheem, Assistant Professor, Department of Civil and Environmental Engineering, College of Engineering; Ph.D., University of Wisconsin.
Bojana Gligorijevic, Assistant Professor, Department of Bioengineering, College of Engineering; Ph.D., Georgetown University.

Yah-el Har-el, Assistant Professor (Teaching/Instructional), Department of Bioengineering, College of Engineering; Ph.D., Johns Hopkins University.

John J. Helferty, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., Drexel University.

Parsooran Hutapea, Associate Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., North Carolina State University.

Daniel A. Jacobs, Assistant Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., Stanford University.

Mohammad F. Kiani, Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., Louisiana Tech University.

Albert Kim, Assistant Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., Purdue University.

Sanghun Kim, Assistant Professor (Teaching/Instructional), Department of Civil and Environmental Engineering, College of Engineering; Ph.D., Syracuse University.

Peter Leikes, Professor, Department of Bioengineering, College of Engineering; Ph.D., RWTH Aachen University.

Michel Lemay, Professor, Department of Bioengineering, College of Engineering; Ph.D., Case Western Reserve University.

Haijun Liu, Assistant Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., University of Maryland College Park.

Xiaonan Lu, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., University of Maryland College Park.

Erica R. McKenzie, Assistant Professor, Department of Civil and Environmental Engineering, College of Engineering; Ph.D., University of California Davis.

William C. Miller, Associate Professor Emeritus, Department of Civil and Environmental Engineering, College of Engineering; Ph.D., University of Pennsylvania.

Iyad Obeid, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., Duke University.

Chetan A. Patil, Assistant Professor (Research), Department of Bioengineering, College of Engineering; Ph.D., Vanderbilt University.

Vallorie J. Perdier, Associate Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., Lehigh University.

Joseph Picone, Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., Illinois Institute of Technology.

Shriram Pillapakkam, Associate Professor (Teaching/Instructional), Department of Mechanical Engineering, College of Engineering; Ph.D., New Jersey Institute of Technology.

Nancy Pleshko, Professor, Department of Bioengineering, College of Engineering; Ph.D., Rutgers University.

Fei Ren, Assistant Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., Michigan State University.

Avner Ronen, Assistant Professor (Teaching/Instructional), Department of Civil and Environmental Engineering, College of Engineering; Ph.D., Technion - Israel Institute of Technology.

Robert J. Ryan, Associate Professor (Teaching/Instructional), Department of Civil and Environmental Engineering, College of Engineering; Ph.D., Drexel University.

Keyanoush Sadeghipour, Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., University of Manchester Institute of Science and Technology.

Elham Sahraei, Associate Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., George Washington University.

Dennis A. Silage, Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., University of Pennsylvania.

Damoon Soudbakhsh, Associate Professor, Department of Mechanical Engineering, College of Engineering; Ph.D., George Washington University.

Andrew Spence, Associate Professor, Department of Bioengineering, College of Engineering; Ph.D., Cornell University.

Won Hyuk Suh, Assistant Professor, Department of Bioengineering, College of Engineering; Ph.D., University of Illinois at Urbana-Champaign.

Rominder Suri, Professor, Department of Civil and Environmental Engineering, College of Engineering; Ph.D., Michigan Technological University.

Rouzbeh Tehrani, Assistant Professor (Teaching/Instructional), Department of Civil and Environmental Engineering, College of Engineering; Ph.D., Temple University.

Philip D. Udo-Inyang, Associate Professor, Department of Civil and Environmental Engineering, College of Engineering; Ph.D., University of Missouri-Columbia.

Felix F. Udoeyo, Assistant Professor (Teaching/Instructional), Department of Civil and Environmental Engineering, College of Engineering; Ph.D., Abubakar Tafawa Balewa University.

Karin Wang, Associate Professor, Department of Bioengineering, College of Engineering; Ph.D., Cornell University.

Chang-Hee Won, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., University of Notre Dame.

Yimin Daniel Zhang, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; Ph.D., University of Tsukuba.
Bioengineering, M.S.Bioe.

COLLEGE OF ENGINEERING

Learn more about the Master of Science in Bioengineering.

About the Program

The M.S.Bioe. program offers students graduate-level interdisciplinary education and research opportunities in bioengineering and engineering applications in related healthcare fields. The program offers concentrations in Bioelectronics, Biomaterials, and Biomechanics. Graduates of the program are prepared for careers in industry or may choose to pursue a program of study leading to the Ph.D. degree. The program offers research opportunities in collaboration with faculty in the College of Science and Technology and the School of Medicine.

Time Limit for Degree Completion: 5 years

Campus Location: Main. Students may also take a significant number of required and elective courses at the Health Sciences Center campus.

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The program encourages interdisciplinary research with other branches of engineering as well as with various departments of the College of Science and Technology and the School of Medicine.

Areas of Specialization: For each of the three areas of specialization, research includes:

• Bioelectronics — sensor development and image analysis.
• Biomaterials — wear of ultra-high molecular weight polyethylene, polymer chemistry, and interfacial chemistry.
• Biomechanics — computer-aided design of composite biomaterials, mechanical properties of orthopedic implant materials, design of orthopedic implants, and modeling of biomaterial behavior.

For the M.S.Bioe. program, students also choose between three tracks:

1. The Thesis Track is intended for students pursuing advanced research and includes 24 credits of didactic coursework, 3 credits of Project (BIOE 9995), and 3 credits of Thesis (BIOE 9996).
2. The Project Track introduces students to applied research and includes 27 credits of didactic coursework, 3 credits of Project (BIOE 9995), and 3 credits of Thesis (BIOE 9996).
3. The Coursework Track provides students with an advanced engineering background for their future in the engineering profession through 30 credits of didactic coursework.

In the first term, the student and the BIO Graduate Program Director establish a graduate Plan of Study that outlines all required courses and the sequence for the student to follow. This form is used to track the student's progress as the various benchmarks in the program are completed. Once established, any revisions to the Plan of Study require approval in advance. However, if considering whether to change one's track, the student should note that:

• 'Thesis' credits (BIOE 9996) can only be applied toward the Thesis M.S.Bioe. Track and cannot be applied to either the Project or Coursework Tracks.

• 'Project' credits (BIOE 9995) can be applied toward the Thesis and Project M.S.Bioe. Tracks but cannot be used for the Coursework Track.

Job Prospects: Graduates with the M.S.Bioe. degree are employed in a variety of biomedical industries ranging from device manufacturers to design engineering. Other possibilities include careers in government, either in regulatory agencies or with the U.S. Patent and Trademark Office. Students who complete the M.S.Bioe. degree with a thesis are prepared to enter a doctoral program.

Non-Matriculated Student Policy: Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the M.S.Bioe. degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the Bioengineering Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the M.S.Bioe. program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (p. 12) and 02.24.19 (p. 13).)

Financing Opportunities: Three forms of financial aid are offered to graduate students:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.
2. Research Assistantship (RA): Individual Bioengineering faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's Thesis advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.
3. Fellowships: These highly competitive University-wide grants are typically awarded only to Ph.D.-program applicants.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1; August 1 international

Applications are processed on a continual basis. Late applications may be considered for admission. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).

Both admissions and financial aid award decisions originate in the Bioengineering Department. Applicants are encouraged to contact the Bioengineering Graduate Program Director for advice and consultation in the application process.
APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant's competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant's immediate supervisor. If the applicant has been out of school long enough that relevant academic reference letters appear impractical, s/he should contact the Bioengineering Graduate Program Director to obtain a waiver of this admission requirement.

Coursework Required for Admission Consideration: Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The Bioengineering Department identifies the needed coursework on a case-by-case basis.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree in Bioengineering or a related discipline is the preferred prerequisite degree. However, students who have earned a bachelor's degree in a related field are encouraged to apply, with the understanding that remedial preparatory courses may be a pre-condition of admission to the M.S.Bioe. program.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in her/his undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (p. 12).) The Bioengineering Graduate Program Director helps the applicant navigate the admission possibilities, including the 'Non-Matriculated Student Policy' option.

Statement of Goals: Describe your relevant technical experiences and career goals in one to two pages.

Standardized Test Scores:
GRE: Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12. (p. 12)) Applicants who require a waiver of the GRE should consult the Bioengineering Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: Current resume required.

Transfer Credit: Graduate credits taken at an accredited institution prior to matriculation may be transferred into the M.S.Bioe. program. In order to transfer, the courses must be equivalent to courses offered at Temple in the student's area of study and research, and the grades must be 'B' or better. The maximum number of credits a student may transfer is 6. (See Graduate School Policy 02.24.21 (p. 13).)

Test Waivers: Applicants with two or more years of employment in an engineering profession performing engineering design and analysis may request a waiver of the GRE. Consult with the Bioengineering Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

1 BIOE 5600 Bioengineering Graduate Seminar is required to be taken each academic term while completing the degree.
Coursework may include up to, but no more than, 3 credits of ENGR 9182 Independent Study I or 3 credits of BIOE 9991 Directed Research. Furthermore, students who wish to take graduate coursework outside the College of Engineering in one of Temple University’s other schools/colleges need to obtain the appropriate written approvals on their Plan of Study form.

**Electives ²** 18

- Total Credit Hours: 30

¹ BIOE 5600 Bioengineering Graduate Seminar is required to be taken each academic term while completing the degree.

² Coursework may include up to, but no more than, 3 credits of ENGR 9182 Independent Study I or 3 credits of BIOE 9991 Directed Research. Furthermore, students who wish to take graduate coursework outside the College of Engineering in one of Temple University’s other schools/colleges need to obtain the appropriate written approvals on their Plan of Study form.

**Culminating Events:**

**Thesis Track:**

The culminating events in the Thesis Track are typically undertaken during the last two successive terms of study. Successful completion requires the following:

- **Thesis Proposal — BIOE 9995 BioEngineering Project Research (3 credits)**

  Under the guidance of the advisor, the student conducts independent research on an applied engineering topic of current interest and registers for BIOE 9995. This work includes the research and preliminary results that form the basis of an extended study that the student plans to carry on in BIOE 9996 BioEngineering Thesis Research in the following term. The student submits a research report as her/his Thesis Proposal to a committee consisting of three or more faculty members, including the faculty advisor, and presents her/his proposal in an open College-wide seminar, which is scheduled and posted at least 10 business days in advance of the presentation date. Immediately following the presentation, the student’s advisory committee questions the student about the details and strategy of the proposed research. The committee then accepts, accepts with revisions, or rejects the proposal. The student must pass the Thesis Proposal before registering for BIOE 9996. If the student fails Thesis Proposal, s/he may either re-register for BIOE 9995 (1 credit) in the next regular term and repeat the entire proposal process or consider switching to the Project or Coursework Track. NOTE: A second failure of Thesis Proposal results in automatic dismissal from the University. If switching to another track, the Plan of Study form requires updating and appropriate approvals.

  The student should register for BIOE 9996 in the term that s/he plans to defend the thesis. The thesis document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.26.12.02 (p. 18).) Two weeks prior to the thesis defense, the student provides the committee with a copy of the completed thesis and posts an announcement of the defense, which is to take place during a regular academic term (i.e., not scheduled during study days, final exams, or the breaks between terms). If the student is to graduate in the same term as the thesis defense is held, then the defense should take place at least 30 days prior to the end of the term.

  The thesis defense is an open College seminar in which the student presents the concepts and results of her/his research. Immediately following the defense, the thesis committee convenes to closely examine the student's research and decide to accept the thesis as provided, accept the thesis with revisions, or not accept the thesis. If the thesis is accepted, a letter grade for BIOE 9996 is assigned. If the thesis is accepted with revisions, then the student must submit the revised thesis within 30 days and with the approval of the Thesis Committee. If the thesis is not accepted, but the committee decides to not fail the student, an “R” grade is assigned to BIOE 9996. In the following term, the student registers for one credit of ENGR 9991 Directed Research until s/he is again prepared to attempt the defense. The defense procedures described above are then carried out again in the term that the student is prepared to defend the thesis.

**Project Track:**

The culminating event for the Project Track is BIOE 9995 BioEngineering Project Research. This entails a one-term research activity done under the supervision of a full-time faculty advisor on an applied engineering topic of interest. Near the end of the term, the student prepares a report of her/his findings and presents the study in an open departmental seminar. Both the seminar and the written report are used to determine the student’s grade for BIOE 9995. The grade is determined jointly by the advisor and another designated grader selected by the Graduate Program Director.

**Coursework Track:**

No culminating event is warranted for the Coursework Track.

Bioengineering, Ph.D.

COLLEGE OF ENGINEERING

Learn more about the Doctor of Philosophy in Bioengineering.

About the Program

The Ph.D. in Bioengineering addresses the needs of an aging population that is likely to require more medical care and to take advantage of the advances in and benefits of biomedical engineering. Employment of biomedical engineers is projected to grow 27 percent from 2012 to 2022, much faster than the average for all occupations. The Bioengineering Ph.D. program is designed to educate and train doctoral-level bioengineers to work in academic, medical, or industrial settings.

Time Limit for Degree Completion: 7 years

Campus Location: Main, Health Sciences Center

Full-Time/Part-Time Status: Students are able to complete the didactic portion of the Ph.D. degree program through classes offered after 4:30 p.m.

Interdisciplinary Study: Bioengineering research is highly interdisciplinary and draws on collaboration with members of the faculty and students within all departments of the College of Engineering; other departments on Main campus, including Biology, Chemistry, and Kinesiology; and other schools and colleges at Temple University, such as the Kornberg School of Dentistry, School of Medicine, and School of Pharmacy.

Areas of Specialization: While the Bioengineering Ph.D. is inherently interdisciplinary, the student is admitted to the program and then conducts doctoral research within an area of specialization. The areas of specialization are similar to those at the master's level:

- Biomaterials
- Imaging and Optical Spectroscopy
- Injury Biomechanics
- Neuroengineering
- Neuromechanics of Locomotion
- Regenerative Tissue Engineering
- Stem and Cancer Cell Engineering
- Targeted Drug Delivery

In the first term, the student and the BIO Graduate Program Director jointly initiate a Plan of Study. This form lists all required courses and the program requirement sequence for the student to follow. The Plan of Study is used to track the student’s progress, with an annual annotation and update as the student completes various benchmarks in the Ph.D. program.

Job Prospects: The program is primarily intended for individuals who wish to pursue careers in industry, government, and academia in a highly creative environment. The program is dedicated to producing engineers who will contribute to advancements in biotechnology.

Non-Matriculated Student Policy: Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the Ph.D. degree upon admission. If the applicant’s undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the Bioengineering Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the Ph.D. program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (p. 12) and 02.24.19 (p. 13).)

Financing Opportunities: Applicants for full-time study in the Bioengineering Ph.D. program are automatically considered for financial aid. Three forms of financial aid are awarded to Ph.D. students on a competitive basis:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department’s undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.

2. Research Assistantship (RA): Individual faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA’s doctoral advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.

3. Fellowships: Fellowships are awarded by the University in a competitive process that is open to all Ph.D. applicants. The Bioengineering Graduate Program Director nominates exceptional Ph.D. applicants for a University Fellowship. Fellows receive 9 to 12 months of stipend, depending on the award; basic health insurance; and 12 credits of tuition remission each Fall and Spring term. Fellows of the University have no work obligations with respect to either the Department, the College, or the University.

Because financial aid is awarded on a competitive basis, applicants are urged to complete the application as early as possible.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1; August 1 international
Applications are processed on a continual basis. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

Both admissions and financial aid award decisions originate in the Bioengineering Department within the College of Engineering. Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant’s competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant’s immediate supervisor. If the applicant has been out of school long enough that relevant academic reference letters appear impractical, s/he should contact the Bioengineering Graduate Program Director to obtain a waiver of this admission requirement.

Coursework Required for Admission Consideration: Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The Bioengineering Department identifies the needed coursework on a case-by-case basis.

Master’s Degree in Discipline/Related Discipline: A master’s degree is not required, but preferred.

Bachelor’s Degree in Discipline/Related Discipline: A bachelor’s degree is required.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in her/his undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (p. 12).) The Bioengineering Graduate Program Director helps the applicant navigate the admission possibilities and assists in the assessment of her/his overall educational qualifications with respect to the departmental requirements for the Ph.D. program.

Statement of Goals: Describe your relevant technical experiences, career goals, and specific research interests in one to two pages.

Standardized Test Scores:
GRE: Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12 (p. 12).) Applicants who require a waiver of the GRE should consult the Bioengineering Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: Current resume required.

Advanced Standing: Both transfer credit for courses taken at another institution while matriculated at Temple and/or advanced standing credit for courses taken within the 5-year period prior to matriculating at Temple may be applied toward the Ph.D.-level didactic coursework requirement. Written approval is required from the student’s doctoral advisor, the College’s Associate Dean for Graduate Study, and the Graduate School. (See Graduate School Policy 02.24.21 (p. 13).) Up to six credits of advanced standing for courses taken within the 5-year period prior to matriculating at Temple may be used to satisfy the master’s-level didactic coursework requirement. Approval of the Bioengineering Graduate Program Director is required. The courses must be equivalent to courses offered at Temple in the student’s area of study and research, and the grades must be ‘B’ or better.

Program Requirements

General Program Requirements:

Minimum Number of Credits Required Beyond the Bachelor’s: 60, including 45 credits of master’s-level and Ph.D.-level didactic coursework and 15 credits associated with Ph.D. examinations and dissertation research

Minimum Number of Credits Required Beyond the Master’s: 30, including 15 credits of Ph.D.-level didactic coursework and 15 credits associated with Ph.D. examinations and dissertation research

Required Courses:

Post-Baccalaureate (for students WITHOUT a master’s degree in Bioengineering)

Total Credit Hours 60
Bioengineering Graduate Seminar is required to be taken each academic term while completing the degree.

Students who wish to take graduate coursework outside the College of Engineering in one of Temple University’s other schools/colleges need to obtain the appropriate written approvals on their Plan of Study form.

Expected distribution of the 15 credits associated with Ph.D. examinations and dissertation research is shown, although the actual distribution of credits can vary across courses depending on the student’s particular circumstances.

Total Credit Hours 30

¹ BIOE 5600 Bioengineering Graduate Seminar is required to be taken each academic term while completing the degree.

² Students entering the program with a bachelor’s degree, i.e., those who must complete 60 credits to earn the Ph.D. degree, generally complete most of their coursework before forming their Doctoral Advisory Committee by the end of their fourth regular term in the program.

³ Expect distribution of the 15 credits associated with Ph.D. examinations and dissertation research is shown, although the actual distribution of credits can vary across courses depending on the student’s particular circumstances.

Doctoral Advisory Committee before the end of their second regular term of study.

Students entering the program with a bachelor’s degree, i.e., those who must complete 60 credits to earn the Ph.D. degree, generally complete most of their coursework before forming their Doctoral Advisory Committee by the end of their fourth regular term in the program.

See Graduate School Policy 02.28.11 (p. 18) for clarification on the composition of the Doctoral Advisory Committee.

Preliminary Examination:

All students generally complete their didactic coursework prior to taking the preliminary examination. (See Graduate School Policy 02.27.11 (p. 18).) Students in the 30-credit cohort ordinarily take the exam in their third or fourth term. Students in the 60-credit cohort typically take the exam no later than the eighth regular term. Students should register for one credit of BIOE 9994 BioEngineering Preliminary Examination Preparation in the term when the exam will be taken.

The preliminary exam tests both the student’s core knowledge in Bioengineering and her/his capacity to synthesize and interpret research communications. The student coordinates the scheduling of the preliminary exam with the BIO Graduate Program Director. The BIO Graduate Program Director supervises the specific form, content, and frequency of the Bioengineering preliminary exam. A maximum of two opportunities to pass the preliminary exam are available to the student. In each term when the exam is attempted, the student registers for one credit of BIOE 9994. Students are dismissed upon the second failure.

Dissertation Proposal:

Within a year of passing the preliminary exam, the student must develop a written research proposal and present it in an open College seminar. Ten business days prior to the presentation seminar, the student must schedule the proposal and post an announcement. Immediately following the seminar, the Doctoral Advisory Committee questions the student about the details and strategy of her/his proposed research.

Approval is granted for the proposed dissertation research when the ‘Dissertation Proposal Transmittal for Elevation to Candidacy’ form (found in TUportal under the Tools tab within “University Forms”) has been signed off by the entire Doctoral Advisory Committee. After the dissertation proposal has been accepted by the Doctoral Advisory Committee and the Graduate School has received the form, the student is considered to be a doctoral candidate. (See Graduate School Policy 02.28.12 (p. 18) for more information.)

Research Credits:

Students carry out research throughout their studies and register for the corresponding research credits while in the Ph.D. program. However, the type of research credits that a student registers for depends on the student’s progress in the program:

- Prior to passing the preliminary exam, credit hours associated with the student’s research should be registered under BIOE 9991 Directed Research.
- After the preliminary exam is passed, but before elevation to candidacy, credit hours associated with the student’s research should be registered under BIOE 9998 Bioengineering Pre-Dissertation Research.
- After elevation to candidacy, the student’s research credits should be registered under BIOE 9999 BioEngineering Dissertation Research. Students are required to register for at least three credits...
of BIOE 9999 following their elevation to candidacy. (See Graduate School Policy 02.28.15 (p. 18).)

Publications:
Paper writing and presentation at a conference are considered integral to the student’s training. Also, peer review, in part, offers an indication of the quality and novelty of the student’s research. All doctoral students must publish at least two technical papers in refereed journals or refereed conferences. The papers must be based on the student’s dissertation research with the student as the first author.

Dissertation:
The dissertation defense is an open University seminar in which the student presents the concepts and results of her/his research.

The student must coordinate the formation of the Dissertation Examining Committee in the term that s/he intends to defend her/his dissertation. This committee consists of the original Doctoral Advisory Committee plus one additional “external” member who is not faculty in the College of Engineering. If the external examiner is not a member of Temple University’s Graduate Faculty, the person must be approved by the Graduate School at least four weeks prior to the dissertation defense.

The dissertation defense is to take place during a regular academic term (i.e., not scheduled during study days, final exams, or the breaks between terms). If the student is to graduate in the same term as the dissertation defense is held, then the defense should take place at least 30 days prior to the end of the term to allow for document revisions.

Three weeks prior to the defense, the members of the committee elect a Chair of the Dissertation Examining Committee. The Chair cannot be the student’s doctoral advisor. The Associate Dean of Research and Graduate Studies must approve the selection. The Chair is identified to the Graduate School in the student’s official request for permission to schedule the defense. (See Graduate School Policy 02.28.15 (p. 18).) The Chair’s role includes coordination of the proceedings of the defense and completion of all relevant College and Graduate School forms concerning the defense.

The dissertation document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.28.18 (p. 18).) A copy of the completed dissertation must be provided to the committee at least three weeks before the date of the dissertation defense. Note that any Graduate Faculty may request a copy of the dissertation in advance of the defense and may participate in the defense.

A minimum of two weeks prior to the defense, a public announcement of the defense must be posted. Prior to posting, this announcement must be approved in writing by the Graduate School. (See Graduate School Policy 02.28.16 (p. 18).)

Immediately following the presentation, the Dissertation Examining Committee closely examines the student’s performance and her/his research. External attendees may participate in this closed portion of the defense with the permission of the Dissertation Examining Committee Chair. However, only members of the Dissertation Examining Committee may actually vote on the decision to accept the dissertation as prepared, accept the dissertation with revisions, or not accept the dissertation. If the dissertation is accepted with revisions, a revised copy of the dissertation must be submitted and approved by the Committee within 30 days of the original defense date.

Civil Engineering, M.S.C.E.

COLLEGE OF ENGINEERING

Learn more about the Master of Science in Civil Engineering.

About the Program
The M.S.C.E. program is designed to provide students with the opportunity to develop a greater technical competency in the general area of Civil and Environmental Engineering. Students are motivated to grow intellectually through the continued search for and use of knowledge, and are provided with the catalyst to become active, articulate, and socially aware individuals. Graduates of the program are key contributors to the civil engineering and environmental engineering professions.

Time Limit for Degree Completion: 5 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The program encourages interdisciplinary research with other branches of engineering as well as with various departments in the sciences and applied mathematics. Recent collaborative work with the Department of Mechanical Engineering
includes projects on water flow and solute transport in porous media (aquifers) and the effects of turbulence on the mixing of oil spills at sea. Collaboration with the Department of Chemistry includes research on waste combustion products and surface complexation.

**Areas of Specialization:** For each of the two areas of specialization, research includes:

- Civil Engineering Systems — three major branches of civil engineering: construction engineering, structural engineering, and transportation engineering.
- Environmental Engineering — the fundamentals and applications of water resources engineering, pollution in natural systems (water and air), and engineered treatment and remediation systems.

For the M.S.C.E. program, students also choose between three tracks:

1. The Thesis Track is intended for students pursuing advanced research and includes 24 credits of didactic coursework, 3 credits of Project (CEE 9995), and 3 credits of Thesis (CEE 9996).
2. The Project Track introduces students to applied research and includes 27 credits of didactic coursework and 3 credits of Project (CEE 9995).
3. The Coursework Track provides students with an advanced engineering background for their future in the engineering profession through 30 credits of didactic coursework.

In the first term, the student and the CEE Graduate Program Director establish a graduate Plan of Study that outlines all required courses and the sequence for the student to follow. This form is used to track the student's progress as the various benchmarks in the program are completed. Once established, any revisions to the Plan of Study require approval in advance. However, if considering whether to change one's track, the student should note that:

- 'Thesis' credits (CEE 9996) can only be applied toward the Thesis M.S.C.E. Track and cannot be applied to either the Project or Coursework Tracks.
- 'Project' credits (CEE 9995) can be applied toward the Thesis and Project M.S.C.E. Tracks but cannot be used for the Coursework Track.

**Job Prospects:** Graduates with the M.S.C.E. are employed by various engineering companies as well as government agencies in design, analysis, and applications. Typical examples are water treatment facilities and regulatory agencies engaged in environmental regulation and pollution control; companies involved in construction project management; and those involved in structural design and analysis of buildings, bridges, and other structures. Students who complete an M.S.C.E. with a thesis are prepared to enter a doctoral program.

**Non-Matriculated Student Policy:** Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the M.S.C.E. degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the Civil and Environmental Engineering (CEE) Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the M.S.C.E. program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (p. 12) and 02.24.19 (p. 13).)

**Financing Opportunities:** Three forms of financial aid are offered to graduate students:

1. **Teaching Assistantship (TA):** TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.
2. **Research Assistantship (RA):** Individual CEE faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's Thesis advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.
3. **Fellowships:** These highly competitive University-wide grants are typically awarded only to Ph.D.-program applicants.

**Admission Requirements and Deadlines**

**Application Deadline:**

**Fall:** March 1  
**Spring:** November 1; August 1 international

Applications are processed on a continual basis. Late applications may be considered for admission. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).

Both admissions and financial aid award decisions originate in the Department of Civil and Environmental Engineering (CEE). Applicants are encouraged to contact the CEE Graduate Program Director for advice and consultation in the application process.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

**Number Required:** 3

**From Whom:** Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant's competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant's immediate supervisor. If the applicant has been out of school long enough that relevant academic reference letters appear impractical, s/he should contact the CEE Graduate Program Director to obtain a waiver of this admission requirement.

**Coursework Required for Admission Consideration:** Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The CEE Department identifies the needed coursework on a case-by-case basis.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree in Civil Engineering is the preferred prerequisite degree. However, students who have earned a bachelor's degree in a related field are
encouraged to apply, with the understanding that remedial preparatory courses may be a pre-condition of admission to the M.S.C.E. program.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in her/his undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (p. 12).) The CEE Graduate Program Director helps the applicant navigate the admission possibilities, including the 'Non-Matriculated Student Policy' option.

**Statement of Goals:** Describe your relevant technical experiences and career goals in one to two pages.

**Standardized Test Scores:**
GRE: Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12. (p. 12)) Applicants who require a waiver of the GRE should consult the CEE Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Transfer Credit:** Graduate credits taken at an accredited institution prior to matriculation may be transferred into the M.S.C.E. program. In order to transfer, the courses must be equivalent to courses offered at Temple in the student's area of study and research, and the grades must be 'B' or better. The maximum number of credits a student may transfer is 6. (See Graduate School Policy 02.24.21 (p. 13.).)

**Test Waivers:** Applicants with two or more years of employment in an engineering profession performing engineering design and analysis may request a waiver of the GRE. Consult with the CEE Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

### Program Requirements

**General Program Requirements:**

**Total Credit Hours** 30

1 Coursework may include up to, but no more than, 3 credits of ENGR 9182 Independent Study I or 3 credits of CEE 9991 Directed Research. Furthermore, students who wish to take graduate coursework outside the College of Engineering in one of Temple University's other schools/colleges need to obtain the appropriate written approvals on their Plan of Study form.
The culminating events in the Thesis Track are typically undertaken during the last two successive terms of study. Successful completion requires the following:

- **Thesis Proposal — CEE 9995 Project (3 credits)**
  Under the guidance of the advisor, the student conducts independent research on an applied engineering topic of current interest and registers for CEE 9995. This work includes the research and preliminary results that form the basis of an extended study that the student plans to carry on in CEE 9996 Thesis in the following term. The student submits a research report as her/his Thesis Proposal to a committee consisting of three or more faculty members, including the faculty advisor, and presents her/his proposal in an open College-wide seminar, which is scheduled and posted at least 10 business days in advance of the presentation date. Immediately following the presentation, the student’s advisory committee questions the student about the details and strategy of the proposed research. The committee then accepts, accepts with revisions, or rejects the proposal. The student must pass the Thesis Proposal before registering for CEE 9996. If the student fails Thesis Proposal, s/he may either re-register for CEE 9995 (1 credit) in the next regular term and repeat the entire proposal process or consider switching to the Project or Coursework Track. **NOTE: A second failure of Thesis Proposal results in automatic dismissal from the University.** If switching to another track, the Plan of Study form requires updating and appropriate approvals.

- **Thesis Defense — CEE 9996 Thesis (3 credits)**
  The student should register for CEE 9996 in the term that s/he plans to defend the thesis. The thesis document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.26.12.02 (p. 18).) Two weeks prior to the thesis defense, the student provides the committee with a copy of the completed thesis and posts an announcement of the defense, which is to take place during a regular academic term (i.e., not scheduled during study days, final exams, or the breaks between terms). If the student is to graduate in the same term as the thesis defense is held, then the defense should take place at least 30 days prior to the end of the term. The thesis defense is an open College seminar in which the student presents the concepts and results of her/his research. Immediately following the defense, the thesis committee convenes to closely examine the student’s research and decide to accept the thesis as provided, accept the thesis with revisions, or not accept the thesis. If the thesis is accepted, a letter grade for CEE 9996 is assigned. If the thesis is accepted with revisions, then the student must submit the revised thesis within 30 days and with the approval of the Thesis Committee. If the thesis is not accepted, but the committee decides to not fail the student, an ‘R’ grade is assigned to CEE 9996. In the following term, the student registers for one credit of ENGR 9991 Directed Research until s/he is again prepared to attempt the defense. The defense procedures described above are then carried out again in the term that the student is prepared to defend the thesis.

**Project Track:**
The culminating event for the Project Track is CEE 9995 Project. This entails a one-term research activity done under the supervision of a full-time faculty advisor on an applied engineering topic of interest. Near the end of the term, the student prepares a report of her/his findings and presents the study in an open departmental seminar. Both the seminar and the written report are used to determine the student’s grade for CEE 9995. The grade is determined jointly by the advisor and another designated grader selected by the Graduate Program Director.

**Coursework Track:**
No culminating event is warranted for the Coursework Track.

**Civil Engineering, Ph.D.**

COLLEGE OF ENGINEERING

Learn more about the Doctor of Philosophy in Civil Engineering.

**About the Program**
The Ph.D. in Civil Engineering is designed to produce graduates who have:
Interdisciplinary Study: Research in Civil Engineering is interdisciplinary and requires collaboration of members of the faculty and students in the Department of Electrical and Computer Engineering; Department of Mechanical Engineering; Mathematics Department; and various science departments at Temple University.

Areas of Specialization: Faculty in the Department of Civil and Environmental Engineering are actively engaged in research in the following areas of Civil Engineering:

- Construction Management
- Geophysical Imaging and Site Characterization
- Instrumentation and Sensor Technology
- Pavement Design and Rehabilitation
- Scour Countermeasures for Bridges
- Transportation Engineering

In the first term, the student and the CEE Graduate Program Director jointly initiate a Plan of Study. This form lists all required courses and the program requirement sequence for the student to follow. The Plan of Study is used to track the student's progress, with an annual annotation and update as the student completes various benchmarks in the Ph.D. program.

Job Prospects: The program is primarily intended for individuals who wish to pursue careers in industry, government, and academia in a highly creative environment. The program is dedicated to producing engineers who will contribute to advancements in civil engineering.

Non-Matriculated Student Policy: Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the Ph.D. degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the Civil Engineering Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the Ph.D. program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (p. 12) and 02.24.19 (p. 13).)

Financing Opportunities: Applicants for full-time study in the Civil Engineering Ph.D. program are automatically considered for financial aid. Three forms of financial aid are awarded to Ph.D. students on a competitive basis:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.
2. Research Assistantship (RA): Individual faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's doctoral advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.
3. Fellowships: Fellowships are awarded by the University in a competitive process that is open to all Ph.D. applicants. The Civil Engineering Graduate Program Director nominates exceptional Ph.D. applicants for a University Fellowship. Fellows receive 9 to 12 months of stipend, depending on the award; basic health insurance; and 12 credits of tuition remission each Fall and Spring term. Fellows of the University have no work obligations with respect to either the Department, the College, or the University.

Because financial aid is awarded on a competitive basis, applicants are urged to complete the application as early as possible.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1; August 1 international

Applications are processed on a continual basis. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

Both admissions and financial aid award decisions originate in the Department of Civil and Environmental Engineering within the College of Engineering. Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant's competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant's immediate supervisor. If the applicant has been out of school long enough that relevant academic reference letters appear impractical, s/he should contact the Civil Engineering Graduate Program Director to obtain a waiver of this admission requirement.

Coursework Required for Admission Consideration: Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The Department of Civil and Environmental Engineering identifies the needed coursework on a case-by-case basis.
Master’s Degree in Discipline/Related Discipline: A master’s degree is not required, but preferred.

Bachelor’s Degree in Discipline/Related Discipline: A bachelor’s degree is required.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in her/his undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (p. 12).) The Civil Engineering Graduate Program Director helps the applicant navigate the admission possibilities and assists in the assessment of her/his overall educational qualifications with respect to the departmental requirements for the Ph.D. program.

Statement of Goals: Describe your relevant technical experiences, career goals, and specific research interests in one to two pages, ensuring that you have clearly identified your area of interest within the field of civil and environmental engineering.

Standardized Test Scores:
GRE: Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12 (p. 12).) Applicants who require a waiver of the GRE should consult the Civil Engineering Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

• TOEFL iBT: 79
• IELTS Academic: 6.5
• PTE Academic: 53

Resume: Current resume required.

Advanced Standing: Both transfer credit for courses taken at another institution while matriculated at Temple and/or advanced standing credit for courses taken within the 5-year period prior to matriculating at Temple may be applied toward the Ph.D.-level didactic coursework requirement. Written approval is required from the student’s doctoral advisor, the College’s Associate Dean for Graduate Study, and the Graduate School. (See Graduate School Policy 02.24.21 (p. 13).) Up to six credits of advanced standing for courses taken within the 5-year period prior to matriculating at Temple may be used to satisfy the master’s-level didactic coursework requirement. Approval of the Civil Engineering Graduate Program Director is required. The courses must be equivalent to courses offered at Temple in the student’s area of study and research, and the grades must be ‘B’ or better.

Program Requirements

General Program Requirements:

Minimum Number of Credits Required Beyond the Bachelor’s: 60, including 45 credits of graduate-level didactic coursework and 15 research credits, including preliminary Ph.D. examination and dissertation research

Minimum Number of Credits Required Beyond the Master’s: 30, including 15 credits of graduate-level didactic coursework and 15 research credits, including preliminary Ph.D. examination and dissertation research

Required Courses:

Post-Baccalaureate (for students WITHOUT a master’s degree in Civil Engineering)

Total Credit Hours 30

1 Didactic coursework is typically selected by the student’s Doctoral Advisory Committee. It may include up to, but no more than, 3 credits of CEE 9182 Independent Study I, 3 credits of CEE 9282 Independent Study II, or 3 credits of CEE 9991 Directed Research. Furthermore, students who wish to take graduate coursework outside the College of Engineering in one of Temple University’s other schools/colleges need to obtain the appropriate written approvals on their Plan of Study form.

2 Expected distribution of the 15 credits associated with Ph.D. examinations and dissertation research is shown, although the actual distribution of credits can vary across courses depending on the student’s particular circumstances.

Culminating Events:

Formation of the Doctoral Advisory Committee:
Selection of a research advisor and formation of a Doctoral Advisory Committee constitute the first steps toward achieving a Ph.D. Selection of a doctoral advisor depends on the student's level of preparation upon entering the Ph.D. program. The Doctoral Advisory Committee selects the required coursework and guides the progress of the student's dissertation research:

- Students entering the Ph.D. program with a master's degree, i.e., those who must complete 30 credits to earn the degree, form their Doctoral Advisory Committee before the end of their second regular term of study.
- Students entering the program with a bachelor's degree, i.e., those who must complete 60 credits to earn the Ph.D. degree, generally complete most of their coursework before forming their Doctoral Advisory Committee by the end of their fourth regular term in the program.

See Graduate School Policy 02.28.11 (p. 18) for clarification on the composition of the Doctoral Advisory Committee.

**Preliminary Examination:**
All students generally complete their didactic coursework prior to taking the preliminary examination. (See Graduate School Policy 02.27.11 (p. 18).) Students in the 30-credit cohort ordinarily take the exam in their third or fourth term. Students in the 60-credit cohort typically take the exam no later than the eighth regular term. Students should register for one credit of CEE 9994 Preliminary Examination Preparation in the term when the exam will be taken.

The preliminary exam tests both the student’s core knowledge in Civil Engineering and her/his capacity to synthesize and interpret research communications. The student coordinates the scheduling of the preliminary exam with the CEE Graduate Program Director. The CEE Graduate Program Director supervises the specific form, content, and frequency of the Civil Engineering preliminary exam. A maximum of two opportunities to pass the preliminary exam are available to the student. In each term when the exam is attempted, the student registers for one credit of CEE 9994. Students are dismissed upon the second failure.

**Dissertation Proposal:**
Within a year of passing the preliminary exam, the student must develop a written research proposal and present it in an open College seminar. Ten business days prior to the presentation seminar, the student must schedule the proposal and post an announcement. Immediately following the seminar, the Doctoral Advisory Committee questions the student about the details and strategy of her/his proposed research.

Approval is granted for the proposed dissertation research when the 'Dissertation Proposal Transmittal for Elevation to Candidacy' form (found in TUportal under the Tools tab within "University Forms") has been signed off by the entire Doctoral Advisory Committee. After the dissertation proposal has been accepted by the Doctoral Advisory Committee and the Graduate School has received the form, the student is considered to be a doctoral candidate. (See Graduate School Policy 02.28.12 (p. 18) for more information.)

**Research Credits:**
Students carry out research throughout their studies and register for the corresponding research credits while in the Ph.D. program. However, the type of research credits that a student registers for depends on the student’s progress in the program:

- Prior to passing the preliminary exam, credit hours associated with the student’s research should be registered under CEE 9991 Directed Research.
- After the preliminary exam is passed, but before elevation to candidacy, credit hours associated with the student’s research should be registered under CEE 9998 Pre-Dissertation Research.
- After elevation to candidacy, the student’s research credits should be registered under CEE 9999 Dissertation Research. Students are required to register for at least three credits of CEE 9999 following their elevation to candidacy. (See Graduate School Policy 02.28.15 (p. 18).)

**Publications:**
Paper writing and presentation at a conference are considered integral to the student's training. Also, peer review, in part, offers an indication of the quality and novelty of the student’s research. All doctoral students must publish at least two technical papers in refereed journals or refereed conferences. The papers must be based on the student’s dissertation research with the student as the first author.

**Dissertation:**
The dissertation defense is an open University seminar in which the student presents the concepts and results of her/his research.

The student must coordinate the formation of the Dissertation Examining Committee in the term that s/he intends to defend her/his dissertation. This committee consists of the original Doctoral Advisory Committee plus one additional “external” member who is not faculty in the College of Engineering. If the external examiner is not a member of Temple University’s Graduate Faculty, the person must be approved by the Graduate School at least four weeks prior to the dissertation defense.

The dissertation defense is to take place during a regular academic term (i.e., not scheduled during study days, final exams, or the breaks between terms). If the student is to graduate in the same term as the dissertation defense is held, then the defense should take place at least 30 days prior to the end of the term to allow for document revisions.

Three weeks prior to the defense, the members of the committee elect a Chair of the Dissertation Examining Committee. The Chair cannot be the student’s doctoral advisor. The Associate Dean of Research and Graduate Studies must approve the selection. The Chair is identified to the Graduate School in the student’s official request for permission to schedule the defense. (See Graduate School Policy 02.28.15 (p. 18).) The Chair’s role includes coordination of the proceedings of the defense and completion of all relevant College and Graduate School forms concerning the defense.

The dissertation document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.28.18 (p. 18).) A copy of the completed dissertation must be provided to the committee at least three weeks before the date of the dissertation defense. Note that any Graduate Faculty may request a copy of the dissertation in advance of the defense and may participate in the defense.

A minimum of two weeks prior to the defense, a public announcement of the defense must be posted. Prior to posting, this announcement must be approved in writing by the Graduate School. (See Graduate School Policy 02.28.16 (p. 18).)

Immediately following the presentation, the Dissertation Examining Committee closely examines the student’s performance and her/his research. External attendees may participate in this closed portion of the defense with the permission of the Dissertation Examining Committee.
Chair. However, only members of the Dissertation Examining Committee may actually vote on the decision to accept the dissertation as prepared, accept the dissertation with revisions, or not accept the dissertation. If the dissertation is accepted with revisions, a revised copy of the dissertation must be submitted and approved by the Committee within 30 days of the original defense date.

Computer and Systems Security, P.S.M.

COLLEGE OF ENGINEERING

Learn more about the Professional Science Master's in Computer and Systems Security.

About the Program

The Professional Science Master's degree in Computer and Systems Security (PSM–C&S Security) is offered by the College of Engineering's Department of Electrical and Computer Engineering. The program focuses on the technology layer within the cyberphysical security paradigm and on the tools and methodologies needed to ensure trustworthiness and asset protection of hardware and network systems. The program is designed to teach students how to meet industry needs and be prepared for the workplace, yet allows students to customize the program to fit their individual needs.

Time Limit for Degree Completion: 5 years

Campus Location: Main

Full-Time/Part-Time Status: Students can complete the degree program on a full- or part-time basis. All courses are taught in the evening, and the degree can be completed in 18 months.

Interdisciplinary Study: Designed as an interdisciplinary program, students in the program take courses from both the College of Engineering and the College of Science and Technology.

Areas of Specialization: The program may be tailored to the student's career path in the areas of:

- Embedded security safeguards
- Engineered resilient systems
- Hardware component and device design-for-security
- Quality and risk management of hardware security projects
- Reverse engineering for counterintelligence

Job Prospects: Many students in the program already work in the industry. Emphasizing an experience-oriented approach, the PSM–C&S Security program prepares professionals for industry certification, including CISSP® and (ISC)²®, allowing graduates of the program to move their careers in cyberphysical security to a higher level.

Non-Matriculated Student Policy: Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the PSM–C&S Security degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception.

Financing Opportunities: Financial aid in the form of assistantships or fellowships is not offered to students undertaking the PSM–C&S Security degree. For financial aid information, contact the Office of Student Financial Services at sfs@temple.edu or 215-204-2244.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1

Applications are processed on a continual basis. Late applications may be considered for admission. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendations should be obtained from college or research faculty and/or workplace supervisors. References should be provided by those who can attest to the applicant's ability to excel in the PSM–C&S Security program.

Coursework Required for Admission Consideration: Applicants should have a technical background in engineering, science, or technology.
Bachelor’s Degree in Discipline/Related Discipline: A bachelor’s degree in engineering, science, or technology is strongly preferred. Those without this academic background are required to consult with the PSM–C&S Security Program Director to derive a viable academic plan.

Statement of Goals: Describe your relevant technical experiences and career goals in one to two pages.

Standardized Test Scores:
GRE: Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12.) Applicants who require a waiver of the GRE should consult with the PSM–C&S Security Program Director concerning the mechanics and consequences of obtaining an exception.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: Current resume required.

Test Waivers: Applicants with extensive relevant employment in the cyberphysical security industry may request a waiver of the GRE. Consult with the PSM–C&S Security Program Director concerning the mechanics and consequences of obtaining an exception.

Total Credit Hours 30

1 Students select electives related to their chosen career path in the areas of embedded security safeguards, engineered resilient systems, hardware component and device design-for-security, quality and risk management of hardware security projects, reverse engineering for counterintelligence, and/or preparation for industry certification.

Culminating Events: Capstone Project:

All students in the PSM–C&S Security program complete a capstone project to round out the program with practical work experience.

Electrical Engineering, M.S.E.

COLLEGE OF ENGINEERING

Learn more about the Master of Science in Electrical Engineering.

About the Program

The M.S.E.E. program offers students practice-oriented graduate-level education in Electrical and Computer Engineering. Concentrations include Computer Architectures and Microelectronics, Digital Signal Processing and Digital Data Communication, and Intelligent Systems and Control. Current active research projects in the department include embedded systems and system-on-chip design, intelligent interactive tutoring systems, intrusion detection, multisensor fusion, speaker identification, speech processing, and visualization and fault detection in multicasting networks. Other active areas of research include digital signal processing, heat dissipation problems in microchips, human-computer interaction, intelligent multimedia systems, robust and optimal control, and wireless data networks.

Time Limit for Degree Completion: 5 years

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.
**Interdisciplinary Study:** The program encourages interdisciplinary research with other branches of engineering as well as with various departments in the sciences and applied mathematics. Recent collaborative work with the Department of Computer and Information Sciences includes visualization and fault detection in multicasting networks and image processing.

**Areas of Specialization:** For each of the three areas of specialization, research includes:

- Computer Architectures and Microelectronics — current practices of computer design and development; hardware realization and integrated circuit layout; MOS-integrated circuit design for high-speed digital computation and data communication; and software-level testing.
- Digital Signal Processing and Digital Data Communication — array signal processing; detection of faults in communication networks; detection of multidimensional signals in the presence of noise; filtering and modulation; intrusion detection, visualization, and security of multicast networks; multisensor data fusion; performance evaluation of local area and wireless networks, broadband networks, and protocols; speaker identification; and voice signal processing.
- Intelligent Systems and Control — intelligent tutoring systems, interactive multimedia, neuro-fuzzy control, and robust and optimal control.

For the M.S.E.E. program, students also choose between three tracks:

1. The Thesis Track is intended for students pursuing advanced research and includes 24 credits of didactic coursework, 3 credits of Project (ECE 9995), and 3 credits of Thesis (ECE 9996).
2. The Project Track introduces students to applied research and includes 27 credits of didactic coursework and 3 credits of Project (ECE 9995).
3. The Coursework Track provides students with an advanced engineering background for their future in the engineering profession through 30 credits of didactic coursework.

In the first term, the student and the ECE Graduate Program Director establish a graduate Plan of Study that outlines all required courses and the sequence for the student to follow. This form is used to track the student's progress as the various benchmarks in the program are completed. Once established, any revisions to the Plan of Study require approval in advance. However, if considering whether to change one's track, the student should note that:

- 'Thesis' credits (ECE 9996) can only be applied toward the Thesis M.S.E.E. Track and cannot be applied to either the Project or Coursework Tracks.
- 'Project' credits (ECE 9995) can be applied toward the Thesis and Project M.S.E.E. Tracks but cannot be used for the Coursework Track.

**Job Prospects:** Graduates with the M.S.E.E. are employed in high-tech industries and government laboratories with responsibilities for design, analysis, and applications of electrical engineering principles. Students who complete an M.S.E.E. with a thesis are prepared to enter a doctoral program.

**Non-Matriculated Student Policy:** Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the M.S.E.E. degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the Electrical and Computer Engineering (ECE) Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the M.S.E.E. program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (p. 12) and 02.24.19 (p. 13).)

**Financing Opportunities:** Three forms of financial aid are offered to graduate students:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.
2. Research Assistantship (RA): Individual ECE faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's Thesis advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.
3. Fellowships: These highly competitive University-wide grants are typically awarded only to Ph.D.-program applicants.

**Admission Requirements and Deadlines**

**Application Deadline:**

*Fall:* March 1  
*Spring:* November 1; August 1 international

Applications are processed on a continual basis. Late applications may be considered for admission. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).

Both admissions and financial aid award decisions originate in the Department of Electrical and Computer Engineering (ECE). Applicants are encouraged to contact the ECE Graduate Program Director for advice and consultation in the application process.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

**Number Required:** 3

**From Whom:** Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant's competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant's immediate supervisor. If the applicant has been out of school long enough that relevant academic reference letters appear impractical, s/he should contact the ECE Graduate Program Director to obtain a waiver of this admission requirement.
Coursework Required for Admission Consideration: Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The ECE Department identifies the needed coursework on a case-by-case basis.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree in Electrical Engineering or Computer Engineering is the preferred prerequisite degree. However, students who have earned a bachelor's degree in a related field are encouraged to apply, with the understanding that remedial preparatory courses may be a pre-condition of admission to the M.S.E.E. program.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in her/his undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (p. 12).) The ECE Graduate Program Director helps the applicant navigate the admission possibilities, including the 'Non-Matriculated Student Policy' option.

Statement of Goals: Describe your relevant technical experiences and career goals in one to two pages.

Standardized Test Scores:
GRE: Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12 (p. 12).) Applicants who require a waiver of the GRE should consult the ECE Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:
- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: Current resume required.

Transfer Credit: Graduate credits taken at an accredited institution prior to matriculation may be transferred into the M.S.E.E. program. In order to transfer, the courses must be equivalent to courses offered at Temple in the student's area of study and research, and the grades must be 'B' or better. The maximum number of credits a student may transfer is 6. (See Graduate School Policy 02.24.21 (p. 13).)

Test Waivers: Applicants with two or more years of employment in an engineering profession performing engineering design and analysis may request a waiver of the GRE. Consult with the ECE Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

Culminating Events:

Thesis Track:
The culminating events in the Thesis Track are typically undertaken during the last two successive terms of study. Successful completion requires the following:

- Thesis Proposal — ECE 9995 Project (3 credits)
  Under the guidance of the advisor, the student conducts independent research on an applied engineering topic of current interest and registers for ECE 9995. This work includes the research and preliminary results that form the basis of an extended study that the student plans to carry on in ECE 9996 Thesis in the following term. The student submits a research report as her/his Thesis Proposal to a committee consisting of three or more faculty members, including the faculty advisor, and presents her/his proposal in an open College-wide seminar, which is scheduled and posted at least 10 business days in advance of the presentation date. Immediately following the presentation, the student’s advisory committee questions the student about the details and strategy of the proposed research. The committee then accepts, accepts with revisions, or rejects the proposal. The student must pass the Thesis Proposal before registering for ECE 9996. If the student fails Thesis Proposal, s/he may either re-register for ECE 9995 (1 credit) in the next regular term and repeat the entire proposal process or consider switching to the Project or Coursework Track. NOTE: A second failure of Thesis Proposal results in automatic dismissal from the University. If switching to another track, the Plan of Study form requires updating and appropriate approvals.

- Thesis Defense — ECE 9996 Thesis (3 credits)
  The student should register for ECE 9996 in the term that s/he plans to defend the thesis. The thesis document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.26.12.02 (p. 18).) Two weeks prior to the thesis defense, the student provides the committee with a copy of the completed thesis and posts an announcement of the defense, which is to take place during a regular academic term (i.e., not scheduled during study days, final exams, or the breaks between terms). If the student is to graduate in the same term as the thesis defense is held, then the defense should take place at least 30 days prior to the end of the term. The thesis defense is an open College seminar in which the student presents the concepts and results of her/his research. Immediately following the defense, the thesis committee convenes to closely examine the student’s research and decide to accept the thesis as provided, accept the thesis with revisions, or not accept the thesis. If the thesis is accepted, a letter grade for ECE 9996 is assigned. If the thesis is accepted with revisions, then the student must submit the revised thesis within 30 days and with the approval of the Thesis Committee. If the thesis is not accepted, but the committee decides to not fail the student, an ‘R’ grade is assigned to ECE 9996. In the following term, the student registers for one credit of ENGR 9991 Directed Research until s/he is again prepared to attempt the defense. The defense procedures described above are then carried out again in the term that the student is prepared to defend the thesis.

Project Track:
The culminating event for the Project Track is ECE 9995 Project. This entails a one-term research activity done under the supervision of a full-time faculty advisor on an applied engineering topic of interest. Near the end of the term, the student prepares a report of her/his findings and presents the study in an open departmental seminar. Both the seminar and the written report are used to determine the student’s grade for ECE 9995. The grade is determined jointly by the advisor and another designated grader selected by the Graduate Program Director.

Coursework Track:
No culminating event is warranted for the Coursework Track.

Electrical Engineering, Ph.D.

COLLEGE OF ENGINEERING

Learn more about the Doctor of Philosophy in Electrical Engineering.

About the Program

The Ph.D. in Electrical Engineering is designed to develop electrical engineers who have a clear understanding of the importance of electrical engineering. Doctoral students are prepared to identify a research area in electrical engineering and analyze the literature, develop theory, perform experimentation, and develop their own methodologically rigorous research studies. Students complete their studies with a mastery of the fundamental critical thinking and analytic skills and competencies necessary for electrical and computer engineering. Graduates are well prepared to enter the workforce in a range of engineering companies, universities, research organizations, federal agencies, and non-profit organizations.
Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students are able to complete the didactic portion of the Ph.D. degree program through classes offered after 4:30 p.m.

Interdisciplinary Study: Engineering research is highly interdisciplinary and draws on collaboration with members of the faculty and students within all departments of the College of Engineering, in the Mathematics Department and departments engaged in the study of the physical sciences, and at the School of Medicine at Temple University.

Areas of Specialization: The areas of specialization within Electrical Engineering are similar to those at the master's level:

- Cyber Physical Systems
- Digital Data Communication and Network
- Digital Signal Processing and Digital Image Processing
- Microelectronics and Computer Architectures
- Signal Processing and Speech Processing
- Smart Systems and Control

In the first term, the student and the ECE Graduate Program Director jointly initiate a Plan of Study. This form lists all required courses and the program requirement sequence for the student to follow. The Plan of Study is used to track the student's progress, with an annual annotation and update as the student completes various benchmarks in the Ph.D. program.

Job Prospects: The program is primarily intended for individuals who wish to pursue careers in industry, government, and academia in a highly creative environment. The program is dedicated to producing engineers who will contribute to advancements in electrical engineering. In the past, most graduates with the Ph.D. in Electrical Engineering were employed in high-tech industries in research and development positions.

Non-Matriculated Student Policy: Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the Ph.D. degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the Electrical Engineering Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the Ph.D. program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (p. 12) and 02.24.19 (p. 13).)

Financing Opportunities: Applicants for full-time study in the Electrical Engineering Ph.D. program are automatically considered for financial aid. Three forms of financial aid are awarded to Ph.D. students on a competitive basis:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department’s undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.

2. Research Assistantship (RA): Individual faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA’s doctoral advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.

3. Fellowships: Fellowships are awarded by the University in a competitive process that is open to all Ph.D. applicants. The Electrical Engineering Graduate Program Director nominates exceptional Ph.D. applicants for a University Fellowship. Fellows receive 9 to 12 months of stipend, depending on the award; basic health insurance; and 12 credits of tuition remission each Fall and Spring term. Fellows of the University have no work obligations with respect to either the Department, the College, or the University. Because financial aid is awarded on a competitive basis, applicants are urged to complete the application as early as possible.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1; August 1 international

Applications are processed on a continual basis. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

Both admissions and financial aid award decisions originate in the Department of Electrical and Computer Engineering within the College of Engineering. Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant's competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant’s immediate supervisor. If the applicant has been out of school long enough that relevant academic reference letters appear impractical, s/he should contact the Electrical Engineering Graduate Program Director to obtain a waiver of this admission requirement.

Coursework Required for Admission Consideration: Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The Department of Electrical and Computer Engineering identifies the needed coursework on a case-by-case basis.

Master's Degree in Discipline/Related Discipline: A master's degree is not required, but preferred.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree is required.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in her/his undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (p. 12).) The Electrical Engineering Graduate Program Director helps the applicant navigate the admission process.
possibilities and assists in the assessment of her/his overall educational qualifications with respect to the departmental requirements for the Ph.D. program.

**Statement of Goals:** Describe your relevant technical experiences, career goals, and specific research interests in one to two pages.

**Standardized Test Scores:**
GRE: Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12 (p. 12).) Applicants who require a waiver of the GRE should consult the Electrical Engineering Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Advanced Standing:** Both transfer credit for courses taken at another institution while matriculated at Temple and/or advanced standing credit for courses taken within the 5-year period prior to matriculating at Temple may be applied toward the Ph.D.-level didactic coursework requirement. Written approval is required from the student’s doctoral advisor, the College’s Associate Dean for Graduate Study, and the Graduate School. (See Graduate School Policy 02.24.21 (p. 13).) Up to six credits of advanced standing for courses taken within the 5-year period prior to matriculating at Temple may be used to satisfy the master’s-level didactic coursework requirement. Approval of the Electrical Engineering Graduate Program Director is required. The courses must be equivalent to courses offered at Temple in the student’s area of study and research, and the grades must be ‘B’ or better.

**Program Requirements**

**General Program Requirements:**

**Number of Credits Required Beyond the Bachelor’s:** 60, including 45 credits of graduate-level didactic coursework and 15 research credits, including preliminary Ph.D. examination and dissertation research

**Number of Credits Required Beyond the Master’s:** 30, including 15 credits of graduate-level didactic coursework and 15 research credits, including preliminary Ph.D. examination and dissertation research

**Required Courses:**

**Post-Baccalaureate (for students WITHOUT a master’s degree in Electrical Engineering)**

2. Expected distribution of the 15 credits associated with Ph.D. examinations and dissertation research is shown, although the actual distribution of credits can vary across courses depending on the student’s particular circumstances.

**Culminating Events:**

**Formation of the Doctoral Advisory Committee:**
Selection of a research advisor and formation of a Doctoral Advisory Committee constitute the first steps toward achieving a Ph.D. Selection of a doctoral advisor depends on the student’s level of preparation upon entering the Ph.D. program. The Doctoral Advisory Committee selects the required coursework and guides the progress of the student’s dissertation research:

- Students entering the Ph.D. program with a master's degree, i.e., those who must complete 30 credits to earn the degree, form their Doctoral Advisory Committee before the end of their second regular term of study.
- Students entering the program with a bachelor's degree, i.e., those who must complete 60 credits to earn the Ph.D. degree, generally
complete most of their coursework before forming their Doctoral Advisory Committee by the end of their fourth regular term in the program.

See Graduate School Policy 02.28.11 (p. 18) for clarification on the composition of the Doctoral Advisory Committee.

Preliminary Examination:
All students generally complete their didactic coursework prior to taking the preliminary examination. (See Graduate School Policy 02.27.11 (p. 18).) Students in the 30-credit cohort ordinarily take the exam in their third or fourth term. Students in the 60-credit cohort typically take the exam no later than the eighth regular term. Students should register for one credit of ECE 9994 Preliminary Examination Preparation in the term when the exam will be taken.

The preliminary exam tests both the student’s core knowledge in Electrical Engineering and her/his capacity to synthesize and interpret research communications. The student coordinates the scheduling of the preliminary exam with the ECE Graduate Program Director. The ECE Graduate Program Director supervises the specific form, content, and frequency of the Electrical Engineering preliminary exam. A maximum of two opportunities to pass the preliminary exam are available to the student. In each term when the exam is attempted, the student registers for one credit of ECE 9994. Students are dismissed upon the second failure.

Dissertation Proposal:
Within a year of passing the preliminary exam, the student must develop a written research proposal and present it in an open College seminar. Ten business days prior to the presentation seminar, the student must schedule the proposal and post an announcement. Immediately following the seminar, the Doctoral Advisory Committee questions the student about the details and strategy of her/his proposed research.

Approval is granted for the proposed dissertation research when the 'Dissertation Proposal Transmittal for Elevation to Candidacy' form (found in TUportal under the Tools tab within "University Forms") has been signed off by the entire Doctoral Advisory Committee. After the dissertation proposal has been accepted by the Doctoral Advisory Committee and the Graduate School has received the form, the student is considered to be a doctoral candidate. (See Graduate School Policy 02.28.12 (p. 18) for more information.)

Research Credits:
Students carry out research throughout their studies and register for the corresponding research credits while in the Ph.D. program. However, the type of research credits that a student registers for depends on the student’s progress in the program:

- Prior to passing the preliminary exam, credit hours associated with the student’s research should be registered under ECE 9991 Directed Research.
- After the preliminary exam is passed, but before elevation to candidacy, credit hours associated with the student’s research should be registered under ECE 9998 Pre-Dissertation Research.
- After elevation to candidacy, the student’s research credits should be registered under ECE 9999 Dissertation Research. Students are required to register for at least three credits of ECE 9999 following their elevation to candidacy. (See Graduate School Policy 02.28.15 (p. 18).)

Publications:
Paper writing and presentation at a conference are considered integral to the student’s training. Also, peer review, in part, offers an indication of the quality and novelty of the student’s research. All doctoral students must publish at least two technical papers in refereed journals or refereed conferences. The papers must be based on the student’s dissertation research with the student as the first author.

Dissertation:
The dissertation defense is an open University seminar in which the student presents the concepts and results of her/his research.

The student must coordinate the formation of the Dissertation Examining Committee in the term that s/he intends to defend her/his dissertation. This committee consists of the original Doctoral Advisory Committee plus one additional “external” member who is not faculty in the College of Engineering. If the external examiner is not a member of Temple University’s Graduate Faculty, the person must be approved by the Graduate School at least four weeks prior to the dissertation defense.

The dissertation defense is to take place during a regular academic term (i.e., not scheduled during study days, final exams, or the breaks between terms). If the student is to graduate in the same term as the dissertation defense is held, then the defense should take place at least 30 days prior to the end of the term to allow for document revisions.

Three weeks prior to the defense, the members of the committee elect a Chair of the Dissertation Examining Committee. The Chair cannot be the student’s doctoral advisor. The Associate Dean of Research and Graduate Studies must approve the selection. The Chair is identified to the Graduate School in the student’s official request for permission to schedule the defense. (See Graduate School Policy 02.28.15 (p. 18).) The Chair’s role includes coordination of the proceedings of the defense and completion of all relevant College and Graduate School forms concerning the defense.

The dissertation document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.28.18 (p. 18).) A copy of the completed dissertation must be provided to the committee at least three weeks before the date of the dissertation defense. Note that any Graduate Faculty may request a copy of the dissertation in advance of the defense and may participate in the defense.

A minimum of two weeks prior to the defense, a public announcement of the defense must be posted. Prior to posting, this announcement must be approved in writing by the Graduate School. (See Graduate School Policy 02.28.16 (p. 18).)

Immediately following the presentation, the Dissertation Examining Committee closely examines the student’s performance and her/his research. External attendees may participate in this closed portion of the defense with the permission of the Dissertation Examining Committee Chair. However, only members of the Dissertation Examining Committee may actually vote on the decision to accept the dissertation as prepared, accept the dissertation with revisions, or not accept the dissertation. If the dissertation is accepted with revisions, a revised copy of the dissertation must be submitted and approved by the Committee within 30 days of the original defense date.

COLLEGE OF ENGINEERING

Learn more about the Master of Science in Engineering Management.

About the Program
The College of Engineering, which hosts the program, and the Fox School of Business and Management established this interdisciplinary Master of Science in Engineering Management. The degree program is designed as a career development option for students pursuing careers in technology-based ventures who desire to learn specific management techniques associated with the management of technology development and technology-based projects, either for customers or associated with the introduction of new technologies into existing organizations.

Students who complete the M.S. in Engineering Management learn many of the skills and approaches necessary to increase the productivity and innovative capacity of technology-driven organizations. They are exposed to aspects of management education, such as project management, IP strategy, and quality management, to which they may not have previously been exposed.

Time Limit for Degree Completion: 5 years

Campus Location: Many courses are offered on Main Campus and include online components. Eventually, students will be able to complete the program entirely online. The online program requires some in-person classroom participation.

Full-Time/Part-Time Status: The degree program can be completed full-time in one year or part-time over two years. Part-time students may extend the completion deadline to 3 years, based on circumstances.

Interdisciplinary Study: Designed as an interdisciplinary program, the source of courses has been balanced between the College of Engineering and Fox School of Business and Management.

Affiliation(s): Research is supported by the Fox School of Business and Management’s Innovation and Entrepreneurship Institute and Small Business Development Center. Research interests of the Fox School and College of Engineering faculty are also supported by numerous centers and institutes throughout Temple University.

Accreditation: The overall curriculum is designed to meet the requirements of the American Society for Engineering Management.

Non-Matriculated Student Policy: Students with an undergraduate GPA of 3.0 or higher may be allowed to take classes on a non-matriculated basis. Non-matriculated students may take a maximum of 9 credit hours. Any additional courses require the student to be matriculated in a program.

Financing Opportunities: For more information, contact the Department of Engineering, Technology and Management in the College of Engineering.

Admission Requirements and Deadlines
Application Deadline:
Fall: March 1
Spring: November 1; August 1 international

Applications are processed on a continual basis. Late applications may be considered for admission. Ordinarily, the applicant is informed of an admissions decision within 6 weeks of receipt of all supporting application documents.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Recommendations should be professional references from supervisors and co-workers or academic references. References should be obtained from those who know the applicant well and who can attest to the applicant's ability to excel in the M.S. in Engineering Management program.

Coursework Required for Admission Consideration: Applicants should have a technical background in engineering, mathematics, science, or technology. Two years’ relevant work experience in a company is preferred, but exceptions can be made.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree in engineering, science, or technology is required.

Statement of Goals: An essay on your professional plans and goals should be one to three pages in length. It should reflect your influences, values, aspirations, and interest in the M.S. in Engineering Management program. The following questions may be addressed:

• What particular past experiences or previous exposure (academic, professional, etc.) prepared or motivated you to pursue an M.S. in Engineering Management degree?
• How would you expect to change over the course of the program?
• What personal and professional values and skills do you hope to acquire through the academic content?
• How will obtaining the M.S. in Engineering Management degree support your career objectives or potential career path(s)?
• Given the importance of teamwork and collaboration in business, what are the most significant strengths or contributions you bring to a team?

Standardized Test Scores:
GRE: Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12 (p. 12).) Applicants who request a waiver of the GRE should consult the Engineering Management Program Director concerning the mechanics and consequences of obtaining an exception.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

  • TOEFL iBT: 79
  • IELTS Academic: 6.5
  • PTE Academic: 53

Resume: Current resume required.

Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Baccalaureate: 30, with a minimum of 16.5 credits taken in the College of Engineering and a minimum of 6 credits taken in the Fox School of Business and Management

Electives: 7.5

Total Credit Hours: 30

1 Students select electives from either the Fox School of Business and Management (e.g., Managing Business Processes, Managing Productive Work Teams, New Venture Creation, Process Improvement and Innovation, or Quantitative Methods) or the College of Engineering (e.g., IP Strategy for Technologists).

Culminating Events: Successful completion of coursework constitutes the culminating event for the M.S. in Engineering Management.

Engineering Technology Management, M.E.T.M.

COLLEGE OF ENGINEERING

About the Program

The College of Engineering, which hosts the program, and the Fox School of Business and Management established this interdisciplinary Master of Engineering Technology Management in Engineering Technology Management. The degree program is designed for individuals who wish to pursue careers in industry. The degree program exists in concert with other institutions offering graduate studies in the field of engineering technology in such a way that up to 15 credits of
graduate engineering technology coursework is accepted by Temple University toward a 30-credit requirement for the M.E.T.M. degree. The remaining 15 credits are completed at Temple to earn the degree.

The initial partner institution is Northern Kentucky University (NKU). Temple University’s College of Engineering has agreed to accept graduate students having acceptable academic credentials without requiring a GRE. Students apply to both Temple University and to the institution offering engineering technology coursework at the graduate level. Students are expected to complete the engineering technology coursework at the partner institution in the Fall and then migrate to Temple for the Spring and Summer terms to complete engineering management coursework.

**Time Limit for Degree Completion:** 2 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program is expected to be completed full-time in one year, but can be completed on a part-time basis in two years.

**Interdisciplinary Study:** Designed as an interdisciplinary program, the source of courses has been balanced between the College of Engineering and the Fox School of Business and Management.

**Affiliation(s):** Research is supported by the Fox School of Business and Management’s Innovation and Entrepreneurship Institute and Small Business Development Center. Research interests of the Fox School and College of Engineering faculty are also supported by numerous centers and institutes throughout Temple University.

**Areas of Specialization:** Three areas of specialization are offered:

- Civil Engineering Technology Management
- Electrical Engineering Technology Management
- Mechanical Engineering Technology Management

**Non-Matriculated Student Policy:** Given that students begin coursework at a partner institution, coursework at Temple University cannot be taken on a non-matriculated basis.

**Financing Opportunities:** Contact the department directly for more information.

**Admission Requirements and Deadlines**

**Application Deadline:**

- **Fall:** March 1
- **Spring:** November 1; August 1 international

Applications are processed on a continual basis. Late applications may be considered for admission. Ordinarily, the applicant is informed of an admissions decision within 6 weeks of receipt of all supporting application documents.

APPLY ONLINE to this graduate program.

**Letters of Reference:**

- **Number Required:** 3
- **From Whom:** Recommendations should be professional references from supervisors and co-workers or academic references. References should be obtained from those who know the applicant well and who can attest to the applicant’s ability to excel in the M.E.T.M. in Engineering Technology Management program.

**Coursework Required for Admission Consideration:** Applicants should have a technical background in engineering, mathematics, science, or technology.

**Bachelor’s Degree in Discipline/Related Discipline:** A baccalaureate degree in engineering, science, or technology is required.

**Statement of Goals:** An essay on your professional plans and goals should be one to three pages in length. It should reflect your influences, values, aspirations, and interest in the M.E.T.M. in Engineering Technology Management program. The following questions may be addressed:

- What particular past experiences or previous exposure (academic, professional, etc.) prepared or motivated you to pursue an M.E.T.M. degree?
- How would you expect to change over the course of the program?
- What personal and professional values and skills do you hope to acquire through the academic content?
- How will obtaining the M.E.T.M. degree support your career objectives or potential career path(s)?
- Given the importance of teamwork and collaboration in business, what are the most significant strengths or contributions you bring to a team?

**Standardized Test Scores:**

- **GRE:** Waived for applicants with acceptable academic credentials.
- Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:
  - TOEFL iBT: 79
  - IELTS Academic: 6.5
  - PTE Academic: 53

**Resume:** Current resume required.

**Program Requirements**

**General Program Requirements:**

- **Number of Credits Required Beyond the Baccalaureate:** 30, with 15 credits taken at Temple University in the College of Engineering and the Fox School of Business and Management after 15 credits are completed at a partner institution

### Environmental Engineering, M.S.Env.E.

**COLLEGE OF ENGINEERING**

Learn more about the Master of Science in Environmental Engineering.

### About the Program

The M.S.Env.E. program is designed to provide students with the opportunity to develop a greater technical competency in the general area of Environmental Engineering. Students are motivated to grow intellectually through the continued search for and use of knowledge, and are provided with the catalyst to become active, articulate, and socially aware individuals. Graduates of the program are key contributors to the civil engineering and environmental engineering professions.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** The program encourages interdisciplinary research with other branches of engineering as well as with various departments in the sciences and applied mathematics. Recent collaborative work with the Department of Mechanical Engineering includes projects on water flow and solute transport in porous media (aquifers) and the effects of turbulence on the mixing of oil spills at sea. Collaboration with the Department of Chemistry includes research on waste combustion products and surface complexation.

**Areas of Specialization:** For each of the two areas of specialization, research includes:

- Civil Engineering Systems — three major branches of civil engineering: construction engineering, structural engineering, and transportation engineering.
- Environmental Engineering — the fundamentals and applications of water resources engineering, pollution in natural systems (water and air), and engineered treatment and remediation systems.

For the M.S.Env.E. program, students also choose between three tracks:

1. The Thesis Track is intended for students pursuing advanced research and includes 24 credits of didactic coursework, 3 credits of Project (CEE 9995), and 3 credits of Thesis (CEE 9996).
2. The Project Track introduces students to applied research and includes 27 credits of didactic coursework and 3 credits of Project (CEE 9995).
3. The Coursework Track provides students with an advanced engineering background for their future in the engineering profession through 30 credits of didactic coursework.

In the first term, the student and the CEE Graduate Program Director establish a graduate Plan of Study that outlines all required courses and the sequence for the student to follow. This form is used to track the student's progress as the various benchmarks in the program are completed. Once established, any revisions to the Plan of Study require approval in advance. However, if considering whether to change one's track, the student should note that:

- 'Thesis' credits (CEE 9996) can only be applied toward the Thesis M.S.Env.E. Track and cannot be applied to either the Project or Coursework Tracks.
- 'Project' credits (CEE 9995) can be applied toward the Thesis and Project M.S.Env.E. Tracks but cannot be used for the Coursework Track.

**Job Prospects:** Graduates with the M.S.Env.E. in Environmental Engineering are employed by various engineering companies as well as government agencies in design, analysis, and applications. Typical examples are water treatment facilities and regulatory agencies engaged in environmental regulation and pollution control; companies involved in construction project management; and those involved in structural design...
and analysis of buildings, bridges, and other structures. Students who complete an M.S.Env.E. with a thesis are prepared to enter a doctoral program.

**Non-Matriculated Student Policy:** Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the M.S.Env.E. degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the Civil and Environmental Engineering (CEE) Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the M.S.Env.E. program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (p. 12) and 02.24.19 (p. 13).)

**Financing Opportunities:** Three forms of financial aid are offered to graduate students:

1. **Teaching Assistantship (TA):** TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.
2. **Research Assistantship (RA):** Individual CEE faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's Thesis advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.
3. **Fellowships:** These highly competitive University-wide grants are typically awarded only to Ph.D.-program applicants.

**Admission Requirements and Deadlines**

**Application Deadline:**

- **Fall:** March 1
- **Spring:** November 1; August 1 international

Applications are processed on a continual basis. Late applications may be considered for admission. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).

Both admissions and financial aid award decisions originate in the Department of Civil and Environmental Engineering (CEE). Applicants are encouraged to contact the CEE Graduate Program Director for advice and consultation in the application process.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

- **Number Required:** 3

  **From Whom:** Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant's competency.

If the applicant has an established career in engineering, one of the letters should be provided by the applicant's immediate supervisor. If the applicant has been out of school long enough that relevant academic reference letters appear impractical, s/he should contact the CEE Graduate Program Director to obtain a waiver of this admission requirement.

**Coursework Required for Admission Consideration:** Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The CEE Department identifies the needed coursework on a case-by-case basis.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree in Environmental Engineering is the preferred prerequisite degree. However, students who have earned a bachelor's degree in a related field are encouraged to apply, with the understanding that remedial preparatory courses may be a pre-condition of admission to the M.S.Env.E. program.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in her/his undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (p. 12).) The CEE Graduate Program Director helps the applicant navigate the admission possibilities, including the 'Non-Matriculated Student Policy' option.

**Statement of Goals:** Describe your relevant technical experiences and career goals in one to two pages.

**Standardized Test Scores:**

- **GRE:** Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12 (p. 12).) Applicants who require a waiver of the GRE should consult the CEE Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Transfer Credit:** Graduate credits taken at an accredited institution prior to matriculation may be transferred into the M.S.Env.E. program. In order to transfer, the courses must be equivalent to courses offered at Temple in the student's area of study and research, and the grades must be 'B' or better. The maximum number of credits a student may transfer is 6. (See Graduate School Policy 02.24.21 (p. 13).)

**Test Waivers:** Applicants with two or more years of employment in an engineering profession performing engineering design and analysis may request a waiver of the GRE. Consult with the CEE Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

**Program Requirements**

**General Program Requirements:**
Number of Credits Required Beyond the Baccalaureate: 30

Required Courses:

Total Credit Hours 30

**Culminating Events:**

**Thesis Track:**

The culminating events in the Thesis Track are typically undertaken during the last two successive terms of study. Successful completion requires the following:

- Thesis Proposal — CEE 9995 Project (3 credits)
  Under the guidance of the advisor, the student conducts independent research on an applied engineering topic of current interest and registers for CEE 9995. This work includes the research and preliminary results that form the basis of an extended study that the student plans to carry on in CEE 9996 Thesis in the following term. The student submits a research report as her/his Thesis Proposal to a committee consisting of three or more faculty members, including the faculty advisor, and presents her/his proposal in an open College-wide seminar, which is scheduled and posted at least 10 business days in advance of the presentation date. Immediately following the presentation, the student’s advisory committee questions the student about the details and strategy of the proposed research. The committee then accepts, accepts with revisions, or rejects the proposal.
  The student must pass the Thesis Proposal before registering for CEE 9996. If the student fails Thesis Proposal, s/he may either re-register for CEE 9995 (1 credit) in the next regular term and repeat the entire proposal process or consider switching to the Project or Coursework Track. **NOTE: A second failure of Thesis Proposal results in automatic dismissal from the University.**
  If switching to another track, the Plan of Study form requires updating and appropriate approvals.
- Thesis Defense — CEE 9996 Thesis (3 credits)
  The student should register for CEE 9996 in the term that s/he plans to defend the thesis. The thesis document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.26.12.02 (p. 18).) Two weeks prior to the thesis defense, the student provides the committee with a copy of the completed thesis and posts an announcement of the defense, which is to take
place during a regular academic term (i.e., not scheduled during study days, final exams, or the breaks between terms). If the student is to graduate in the same term as the thesis defense is held, then the defense should take place at least 30 days prior to the end of the term.

The thesis defense is an open College seminar in which the student presents the concepts and results of her/his research. Immediately following the defense, the thesis committee convenes to closely examine the student's research and decide to accept the thesis as provided, accept the thesis with revisions, or not accept the thesis. If the thesis is accepted, a letter grade for CEE 9996 is assigned. If the thesis is accepted with revisions, then the student must submit the revised thesis within 30 days and with the approval of the Thesis Committee. If the thesis is not accepted, but the committee decides to not fail the student, an 'R' grade is assigned to CEE 9996. In the following term, the student registers for one credit of ENGR 9991 Directed Research until s/he is again prepared to attempt the defense. The defense procedures described above are then carried out again in the term that the student is prepared to defend the thesis.

Project Track:
The culminating event for the Project Track is CEE 9995 Project. This entails a one-term research activity done under the supervision of a full-time faculty advisor on an applied engineering topic of interest. Near the end of the term, the student prepares a report of her/his findings and presents the study in an open departmental seminar. Both the seminar and the written report are used to determine the student's grade for CEE 9995. The grade is determined jointly by the advisor and another designated grader selected by the Graduate Program Director.

Coursework Track:
No culminating event is warranted for the Coursework Track.

COLLEGE OF ENGINEERING

Learn more about the Doctor of Philosophy in Environmental Engineering.

About the Program

The Ph.D. in Environmental Engineering is designed to produce graduates who have:

• built a solid core knowledge base in science, technology, environmental engineering, and mathematics;
• gained the ability to adapt to interdisciplinary research projects and employ emerging technology;
• learned how to plan, develop, and conduct a research project on their own as future principal investigators; and
• mastered professional oral and written communication skills.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students are able to complete the didactic portion of the Ph.D. degree program through classes offered after 4:30 p.m.

Interdisciplinary Study: Research in Environmental Engineering is interdisciplinary and requires collaboration of members of the faculty and students within all departments of the College of Engineering, in the Mathematics Department and departments engaged in the study of the sciences, and at the School of Medicine at Temple University.

Areas of Specialization: Faculty in the Department of Civil and Environmental Engineering are actively engaged in research in the following areas of Environmental Engineering:

• Advanced Treatments for Drinking Water and Wastewater
• Emerging Contaminants in the Environment
• Environmental Biotechnology
• Fate and Transformation of Environmental Contaminants
• Surface and Subsurface Hydrology

In the first term, the student and the CEE Graduate Program Director jointly initiate a Plan of Study. This form lists all required courses and the program requirement sequence for the student to follow. The Plan of Study is used to track the student’s progress, with an annual annotation and update as the student completes various benchmarks in the Ph.D. program.

Job Prospects: The program is primarily intended for individuals who wish to pursue careers in industry, government, and academia in a highly creative environment. The program is dedicated to producing engineers who will contribute to advancements in environmental engineering.
Non-Matriculated Student Policy: Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the Ph.D. degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the Environmental Engineering Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the Ph.D. program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (p. 12) and 02.24.19 (p. 13).)

Financing Opportunities: Applicants for full-time study in the Environmental Engineering Ph.D. program are automatically considered for financial aid. Three forms of financial aid are awarded to Ph.D. students on a competitive basis:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.

2. Research Assistantship (RA): Individual faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's doctoral advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.

3. Fellowships: Fellowships are awarded by the University in a competitive process that is open to all Ph.D. applicants. The Environmental Engineering Graduate Program Director nominates exceptional Ph.D. applicants for a University Fellowship. Fellows receive 9 to 12 months of stipend, depending on the award; basic health insurance; and 12 credits of tuition remission each Fall and Spring term. Fellows of the University have no work obligations with respect to either the Department, the College, or the University.

Because financial aid is awarded on a competitive basis, applicants are urged to complete the application as early as possible.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1; August 1 international

Applications are processed on a continual basis. Ordinarily, the applicant is informed of admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

Both admissions and financial aid award decisions originate in the Department of Civil and Environmental Engineering within the College of Engineering. Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant's competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant's immediate supervisor. If the applicant has been out of school long enough that relevant academic reference letters appear impractical, s/he should contact the Environmental Engineering Graduate Program Director to obtain a waiver of this admission requirement.

Coursework Required for Admission Consideration: Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The Department of Civil and Environmental Engineering identifies the needed coursework on a case-by-case basis.

Master's Degree in Discipline/Related Discipline: A master's degree is not required, but preferred.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree is required.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in her/his undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (p. 12).) The Environmental Engineering Graduate Program Director helps the applicant navigate the admission possibilities and assists in the assessment of her/his overall educational qualifications with respect to the departmental requirements for the Ph.D. program.

Statement of Goals: Describe your relevant technical experiences, career goals, and specific research interests in one to two pages, ensuring that you have clearly identified your area of interest within the field of civil and environmental engineering.

Standardized Test Scores:
GRE: Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12 (p. 12).) Applicants who require a waiver of the GRE should consult the Environmental Engineering Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: Current resume required.

Advanced Standing: Both transfer credit for courses taken at another institution while matriculated at Temple and/or advanced standing credit for courses taken within the 5-year period prior to matriculating at Temple may be applied toward the Ph.D.-level didactic coursework requirement. Written approval is required from the student’s doctoral advisor, the College’s Associate Dean for Graduate Study, and the Graduate School. (See Graduate School Policy 02.24.21 (p. 13).) Up to six credits of advanced standing for courses taken within the 5-year period prior to matriculating at Temple may be used to satisfy the master’s-level didactic

IELTS Academic: 6.5
PTE Academic: 53

Resume: Current resume required.

Advanced Standing: Both transfer credit for courses taken at another institution while matriculated at Temple and/or advanced standing credit for courses taken within the 5-year period prior to matriculating at Temple may be applied toward the Ph.D.-level didactic coursework requirement. Written approval is required from the student’s doctoral advisor, the College’s Associate Dean for Graduate Study, and the Graduate School. (See Graduate School Policy 02.24.21 (p. 13).) Up to six credits of advanced standing for courses taken within the 5-year period prior to matriculating at Temple may be used to satisfy the master’s-level didactic
Program Requirements

**General Program Requirements:**

Minimum Number of Credits Required Beyond the Bachelor’s: 60, including 45 credits of graduate-level didactic coursework and 15 research credits, including preliminary Ph.D. examination and dissertation research

Minimum Number of Credits Required Beyond the Master’s: 30, including 15 credits of graduate-level didactic coursework and 15 research credits, including preliminary Ph.D. examination and dissertation research

**Required Courses:**

**Post-Baccalaureate (for students WITHOUT a master’s degree in Environmental Engineering)**

Furthermore, students who wish to take graduate coursework outside the College of Engineering in one of Temple University’s other schools/colleges need to obtain the appropriate written approvals on their Plan of Study form.

2. Expected distribution of the 15 credits associated with Ph.D. examinations and dissertation research is shown, although the actual distribution of credits can vary across courses depending on the student’s particular circumstances.

Culminating Events:

**Formation of the Doctoral Advisory Committee:**
Selection of a research advisor and formation of a Doctoral Advisory Committee constitute the first steps toward achieving a Ph.D. Selection of a doctoral advisor depends on the student’s level of preparation upon entering the Ph.D. program. The Doctoral Advisory Committee selects the required coursework and guides the progress of the student’s dissertation research:

- Students entering the Ph.D. program with a master’s degree, i.e., those who must complete 30 credits to earn the degree, form their Doctoral Advisory Committee before the end of their second regular term of study.
- Students entering the program with a bachelor’s degree, i.e., those who must complete 60 credits to earn the Ph.D. degree, generally complete most of their coursework before forming their Doctoral Advisory Committee by the end of their fourth regular term in the program.

See Graduate School Policy 02.28.11 (p. 18) for clarification on the composition of the Doctoral Advisory Committee.

**Preliminary Examination:**
All students generally complete their didactic coursework prior to taking the preliminary examination. (See Graduate School Policy 02.27.11 (p. 18).) Students in the 30-credit cohort ordinarily take the exam in their third or fourth term. Students in the 60-credit cohort typically take the exam no later than the eighth regular term. Students should register for one credit of CEE 9994 Preliminary Examination Preparation in the term when the exam will be taken.

The preliminary exam tests both the student’s core knowledge in Environmental Engineering and her/his capacity to synthesize and interpret research communications. The student coordinates the scheduling of the preliminary exam with the CEE Graduate Program Director. The CEE Graduate Program Director supervises the specific form, content, and frequency of the Environmental Engineering preliminary exam. A maximum of two opportunities to pass the preliminary exam are available to the student. In each term when the exam is attempted, the student registers for one credit of CEE 9994. Students are dismissed upon the second failure.

**Dissertation Proposal:**
Within a year of passing the preliminary exam, the student must develop a written research proposal and present it in an open College seminar. Ten business days prior to the presentation seminar, the student must schedule the proposal and post an announcement. Immediately following the seminar, the Doctoral Advisory Committee questions the student about the details and strategy of her/his proposed research.
Approval is granted for the proposed dissertation research when the ‘Dissertation Proposal Transmittal for Elevation to Candidacy’ form (found in TUportal under the Tools tab within “University Forms”) has been signed off by the entire Doctoral Advisory Committee. After the dissertation proposal has been accepted by the Doctoral Advisory Committee and the Graduate School has received the form, the student is considered to be a doctoral candidate. (See Graduate School Policy 02.28.12 (p. 18) for more information.)

Research Credits:
Students carry out research throughout their studies and register for the corresponding research credits while in the Ph.D. program. However, the type of research credits that a student registers for depends on the student’s progress in the program:

- Prior to passing the preliminary exam, credit hours associated with the student’s research should be registered under CEE 9991 Directed Research.
- After the preliminary exam is passed, but before elevation to candidacy, credit hours associated with the student’s research should be registered under CEE 9998 Pre-Dissertation Research.
- After elevation to candidacy, the student’s research credits should be registered under CEE 9999 Dissertation Research. Students are required to register for at least three credits of CEE 9999 following their elevation to candidacy. (See Graduate School Policy 02.28.15 (p. 18).)

Publications:
Paper writing and presentation at a conference are considered integral to the student’s training. Also, peer review, in part, offers an indication of the quality and novelty of the student’s research. All doctoral students must publish at least two technical papers in refereed journals or refereed conferences. The papers must be based on the student’s dissertation research with the student as the first author.

Dissertation:
The dissertation defense is an open University seminar in which the student presents the concepts and results of her/his research.

The student must coordinate the formation of the Dissertation Examining Committee in the term that s/he intends to defend her/his dissertation. This committee consists of the original Doctoral Advisory Committee plus one additional “external” member who is not faculty in the College of Engineering. If the external examiner is not a member of Temple University’s Graduate Faculty, the person must be approved by the Committee within 30 days of the original defense date.

The dissertation document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.28.18 (p. 18).) A copy of the completed dissertation must be provided to the committee at least three weeks before the date of the dissertation defense. Note that any Graduate Faculty may request a copy of the dissertation in advance of the defense and may participate in the defense.

A minimum of two weeks prior to the defense, a public announcement of the defense must be posted. Prior to posting, this announcement must be approved in writing by the Graduate School. (See Graduate School Policy 02.28.16 (p. 18).)

Immediately following the presentation, the Dissertation Examining Committee closely examines the student’s performance and her/his research. External attendees may participate in this closed portion of the defense with the permission of the Dissertation Examining Committee Chair. However, only members of the Dissertation Examining Committee may actually vote on the decision to accept the dissertation as prepared, accept the dissertation with revisions, or not accept the dissertation. If the dissertation is accepted with revisions, a revised copy of the dissertation must be submitted and approved by the Committee within 30 days of the original defense date.

Mechanical Engineering, M.S.M.E.

COLLEGE OF ENGINEERING
Learn more about the Master of Science in Mechanical Engineering.

About the Program

The M.S.M.E. program provides students who already have an undergraduate Engineering degree with the credentials and background to pursue a career in industrial research and development. The program provides students from diverse basic science backgrounds with the fundamental technical engineering expertise necessary to work in an interdisciplinary field such as Bioengineering or Material Science. The program provides engineers who are currently employed with a means to further their technical capabilities through part-time study.

Time Limit for Degree Completion: 5 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The program encourages interdisciplinary research with other branches of engineering as well as with various departments of the College of Science and Technology and the School of Medicine. Faculty are also collaborating with investigators in the Department of Civil and Environmental Engineering on water turbulence studies; in the Department of Electrical and Computer Engineering on heat dissipation in microelectronic components; and in the Department of Physics on nanotechnology research.

Areas of Specialization: Research is offered in:

- Biomaterials
- Composite materials and design
- Finite element analysis and computational fluid dynamics
- Fluidics and energetics
- Target drug delivery and tissue engineering

For the M.S.M.E. program, students also choose between three tracks:

1. The Thesis Track is intended for students pursuing advanced research and includes 24 credits of didactic coursework, 3 credits of Project (MEE 9995), and 3 credits of Thesis (MEE 9996).
2. The Project Track introduces students to applied research and includes 27 credits of didactic coursework and 3 credits of Project (MEE 9995).
3. The Coursework Track provides students with an advanced engineering background for their future in the engineering profession through 30 credits of didactic coursework.

In the first term, the student and the ME Graduate Program Director establish a graduate Plan of Study that outlines all required courses and the sequence for the student to follow. This form is used to track the student's progress as the various benchmarks in the program are completed. Once established, any revisions to the Plan of Study require approval in advance. However, if considering whether to change one's track, the student should note that:

- 'Thesis' credits (MEE 9996) can only be applied toward the Thesis M.S.M.E. Track and cannot be applied to either the Project or Coursework Tracks.
- 'Project' credits (MEE 9995) can be applied toward the Thesis and Project M.S.M.E. Tracks but cannot be used for the Coursework Track.

Job Prospects: Graduates with the M.S.M.E. in Mechanical Engineering are employed in high-tech industries and government laboratories in design, analysis, and applications. Typical employers include manufacturing companies; pharmaceutical and biotechnology companies; companies involved in research and development in fluid flow and heat transfer; computer-aided designers and manufacturers; computer technology firms; and government offices such as the U.S. Patent and Trademark Office. Students who complete an M.S.M.E. with a thesis are prepared to enter a doctoral program.

Non-Matriculated Student Policy: Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the M.S.M.E. degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the Mechanical Engineering (ME) Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the M.S.M.E. program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (p. 12) and 02.24.19 (p. 13).)

Financing Opportunities: Three forms of financial aid are offered to graduate students:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.
2. Research Assistantship (RA): Individual ME faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's Thesis advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.
3. Fellowships: These highly competitive University-wide grants are typically awarded only to Ph.D.-program applicants.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1; August 1 International

Applications are processed on a continual basis. Late applications may be considered for admission. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).

Both admissions and financial aid award decisions originate in the Department of Mechanical Engineering (ME). Applicants are encouraged to contact the ME Graduate Program Director for advice and consultation in the application process.
APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant's competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant’s immediate supervisor. If the applicant has been out of school long enough that relevant academic reference letters appear impractical, s/he should contact the ME Graduate Program Director to obtain a waiver of this admission requirement.

Coursework Required for Admission Consideration: Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The ME Department identifies the needed coursework on a case-by-case basis.

Bachelor's Degree in Discipline/Related Discipline: A bachelor's degree in Mechanical Engineering is the preferred prerequisite degree. However, students who have earned a bachelor's degree in a related field are encouraged to apply, with the understanding that remedial preparatory courses may be a pre-condition of admission to the M.S.M.E. program.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in her/his undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (p. 12).) The ME Graduate Program Director helps the applicant navigate the admission possibilities, including the 'Non-Matriculated Student Policy' option.

Statement of Goals: Describe your relevant technical experiences and career goals in one to two pages.

Standardized Test Scores:
GRE: Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12 (p. 12).) Applicants who require a waiver of the GRE should consult the ME Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: Current resume required.

Transfer Credit: Graduate credits taken at an accredited institution prior to matriculation may be transferred into the M.S.M.E. program. In order to transfer, the courses must be equivalent to courses offered at Temple in the student's area of study and research, and the grades must be 'B' or better. The maximum number of credits a student may transfer is 6. (See Graduate School Policy 02.24.21 (p. 13).)

Test Waivers: Applicants with two or more years of employment in an engineering profession performing engineering design and analysis may request a waiver of the GRE. Consult with the ME Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

Coursework may include up to, but no more than, 3 credits of ENGR 9182 Independent Study I or 3 credits of MEE 9991 Directed Research. Furthermore, students who wish to take graduate coursework outside the College of Engineering in one of Temple University’s other schools or colleges need to obtain the appropriate written approvals on their Plan of Study form.

Culminating Events:

**Thesis Track:**
The culminating events in the Thesis Track are typically undertaken during the last two successive terms of study. Successful completion requires the following:

- Thesis Proposal — MEE 9995 Project (3 credits)
  Under the guidance of the advisor, the student conducts independent research on an applied engineering topic of current interest and registers for MEE 9995. This work includes the research and preliminary results that form the basis of an extended study that the student plans to carry on in MEE 9996 Thesis in the following term. The student submits a research report as her/his Thesis Proposal to a committee consisting of three or more faculty members, including the faculty advisor, and presents her/his proposal in an open College-wide seminar, which is scheduled and posted at least 10 business days in advance of the presentation date. Immediately following the presentation, the student’s advisory committee questions the student about the details and strategy of the proposed research. The committee then accepts, accepts with revisions, or rejects the proposal.
  The student must pass the Thesis Proposal before registering for MEE 9996. If the student fails Thesis Proposal, s/he may either re-register for MEE 9995 (1 credit) in the next regular term and repeat the entire proposal process or consider switching to the Project or Coursework Track. NOTE: A second failure of Thesis Proposal results in automatic dismissal from the University. If switching to another track, the Plan of Study form requires updating and appropriate approvals.
  - Thesis Defense — MEE 9996 Thesis (3 credits)

  The student should register for MEE 9996 in the term that s/he plans to defend the thesis. The thesis document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.26.12.02 (p. 18).) Two weeks prior to the thesis defense, the student provides the committee with a copy of the completed thesis and posts an announcement of the defense, which is to take place during a regular academic term (i.e., not scheduled during study days, final exams, or the breaks between terms). If the student is to graduate in the same term as the thesis defense is held, then the defense should take place at least 30 days prior to the end of the term.

  The thesis defense is an open College seminar in which the student presents the concepts and results of her/his research. Immediately following the defense, the thesis committee convenes to closely examine the student's research and decide to accept the thesis as provided, accept the thesis with revisions, or not accept the thesis. If the thesis is accepted, a letter grade for MEE 9996 is assigned. If the thesis is accepted with revisions, then the student must submit the revised thesis within 30 days and with the approval of the Thesis Committee. If the thesis is not accepted, but the committee decides to not fail the student, an ‘R’ grade is assigned to MEE 9996. In the following term, the student registers for one credit of ENGR 9991 Directed Research until s/he is again prepared to attempt the defense. The defense procedures described above are then carried out again in the term that the student is prepared to defend the thesis.

  Project Track:
The culminating event for the Project Track is MEE 9995 Project. This entails a one-term research activity done under the supervision of a full-time faculty advisor on an applied engineering topic of interest. Near the end of the term, the student prepares a report of her/his findings and presents the study in an open departmental seminar. Both the seminar and the written report are used to determine the student’s grade for MEE 9995. The grade is determined jointly by the advisor and another designated grader selected by the Graduate Program Director.

  Coursework Track:
  No culminating event is warranted for the Coursework Track.

Mechanical Engineering, Ph.D.

COLLEGE OF ENGINEERING

Learn more about the Doctor of Philosophy in Mechanical Engineering.

About the Program

The Ph.D. in Mechanical Engineering is designed to develop mechanical engineers who have a solid foundation in mechanical engineering research methods, design, and analytics. Doctoral students are prepared to identify a research area in mechanical engineering and analyze the literature, develop theory, perform experimentation, and develop their own methodologically rigorous research studies. Students complete their studies with a mastery of the fundamental critical thinking and analytic skills and competencies necessary for mechanical engineering. Graduates are well prepared to be engineers and researchers in a range of academic units, non-profit organizations, government agencies, and the private sector.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students are able to complete the didactic portion of the Ph.D. degree program through classes offered after 4:30 p.m.

Interdisciplinary Study: Engineering research is highly interdisciplinary and draws on collaboration with members of the faculty and students within the department, as well as with departments in other schools and colleges at Temple University, including the School of Medicine and the College of Science and Technology.

Areas of Specialization: Faculty in the Department of Mechanical Engineering are actively engaged in research in the following areas:

- Biofluidics
- Biomechanics
- Combustion
- Composite Materials
- Finite Element Analysis
- Fluid Dynamics
- Fluid Mechanics
- Heat and Mass Transfer
- Material Science
- Mechanics of Materials
- Vibration and Controls

In the first term, the student and the ME Graduate Program Director jointly initiate a Plan of Study. This form lists all required courses and the program requirement sequence for the student to follow. The Plan of Study is used to track the student's progress, with an annual annotation and update as the student completes various benchmarks in the Ph.D. program.

Job Prospects: The program is primarily intended for individuals who wish to pursue careers in industry, government, and academia in a highly creative environment. The program is dedicated to producing engineers who will contribute to advancements in mechanical engineering.

Non-Matriculated Student Policy: Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the Ph.D. degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the Mechanical Engineering Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the Ph.D. program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (p. 12) and 02.24.19 (p. 13).)

Financing Opportunities: Applicants for full-time study in the Mechanical Engineering Ph.D. program are automatically considered for financial aid. Three forms of financial aid are awarded to Ph.D. students on a competitive basis:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.

2. Research Assistantship (RA): Individual faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's doctoral advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.

3. Fellowships: Fellowships are awarded by the University in a competitive process that is open to all Ph.D. applicants. The Mechanical Engineering Graduate Program Director nominates exceptional Ph.D. applicants for a University Fellowship. Fellows receive 9 to 12 months of stipend, depending on the award; basic health insurance; and 12 credits of tuition remission each Fall and Spring term. Fellows of the University have no work obligations with respect to either the Department, the College, or the University.

Because financial aid is awarded on a competitive basis, applicants are urged to complete the application as early as possible.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1; August 1 international

Applications are processed on a continual basis. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

Both admissions and financial aid award decisions originate in the Department of Mechanical Engineering within the College of Engineering.
Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant’s competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant’s immediate supervisor. If the applicant has been out of school long enough that relevant academic reference letters appear impractical, s/he should contact the Mechanical Engineering Graduate Program Director to obtain a waiver of this admission requirement.

Coursework Required for Admission Consideration: Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The Department of Mechanical Engineering identifies the needed coursework on a case-by-case basis.

Master’s Degree in Discipline/Related Discipline: A master’s degree is not required, but preferred.

Bachelor’s Degree in Discipline/Related Discipline: A bachelor’s degree is required.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in her/his undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (p. 12).) The Mechanical Engineering Graduate Program Director helps the applicant navigate the admission possibilities and assists in the assessment of her/his overall educational qualifications with respect to the departmental requirements for the Ph.D. program.

Statement of Goals: Describe your relevant technical experiences, career goals, and specific research interests in one to two pages.

Standardized Test Scores:
GRE: Required. Scores must be no more than 5 years in advance of the application date. (See Graduate School Policy 02.23.12 (p. 12).) Applicants who require a waiver of the GRE should consult the Mechanical Engineering Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:
- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: Current resume required.

Advanced Standing: Both transfer credit for courses taken at another institution while matriculated at Temple and/or advanced standing credit for courses taken within the 5-year period prior to matriculating at Temple may be applied toward the Ph.D.-level didactic coursework requirement. Written approval is required from the student’s doctoral advisor, the College’s Associate Dean for Graduate Study, and the Graduate School. (See Graduate School Policy 02.24.21 (p. 13).) Up to six credits of advanced standing for courses taken within the 5-year period prior to matriculating at Temple may be used to satisfy the master’s-level didactic coursework requirement. Approval of the Mechanical Engineering Graduate Program Director is required. The courses must be equivalent to courses offered at Temple in the student’s area of study and research, and the grades must be ‘B’ or better.

Program Requirements

General Program Requirements:

Minimum Number of Credits Required Beyond the Bachelor's: 60, including 45 credits of graduate-level didactic coursework and 15 research credits, including preliminary Ph.D. examination and dissertation research

Minimum Number of Credits Required Beyond the Master's: 30, including 15 credits of graduate-level didactic coursework and 15 research credits, including preliminary Ph.D. examination and dissertation research

Required Courses:

Post-Baccalaureate (for students WITHOUT a master's degree in Mechanical Engineering)

Dissertation Research (3 credits) 30

Didactic coursework is typically selected by the student’s Doctoral Advisory Committee. It may include up to, but no more than, 3 credits of MEE 9182 Independent Study I, 3 credits of MEE 9282 Independent Study II, or 3 credits of MEE 9991 Directed Research. Furthermore, students who wish to take graduate coursework outside the College of Engineering in one of Temple University’s other schools/colleges need to obtain the appropriate written approvals on their Plan of Study form.

Expected distribution of the 15 credits associated with Ph.D. examinations and dissertation research is shown, although the actual distribution of credits can vary across courses depending on the student’s particular circumstances.

Culminating Events:
Formation of the Doctoral Advisory Committee:
Selection of a research advisor and formation of a Doctoral Advisory Committee constitute the first steps toward achieving a Ph.D. Selection of a doctoral advisor depends on the student’s level of preparation upon entering the Ph.D. program. The Doctoral Advisory Committee selects the required coursework and guides the progress of the student’s dissertation research:

- Students entering the Ph.D. program with a master’s degree, i.e., those who must complete 30 credits to earn the degree, form their Doctoral Advisory Committee before the end of their second regular term of study.
- Students entering the program with a bachelor’s degree, i.e., those who must complete 60 credits to earn the Ph.D. degree, generally complete most of their coursework before forming their Doctoral Advisory Committee by the end of their fourth regular term in the program.

See Graduate School Policy 02.28.11 (p. 18) for clarification on the composition of the Doctoral Advisory Committee.

Preliminary Examination:
All students generally complete their didactic coursework prior to taking the preliminary examination. (See Graduate School Policy 02.27.11 (p. 18).) Students in the 30-credit cohort ordinarily take the exam in their third or fourth term. Students in the 60-credit cohort typically take the exam no later than the eighth regular term. Students should register for one credit of MEE 9994 Preliminary Examination Preparation in the term when the exam will be taken.

The preliminary exam tests both the student’s core knowledge in Mechanical Engineering and her/his capacity to synthesize and interpret research communications. The student coordinates the scheduling of the preliminary exam with the ME Graduate Program Director. The ME Graduate Program Director supervises the specific form, content, and frequency of the Mechanical Engineering preliminary exam. A maximum of two opportunities to pass the preliminary exam are available to the student. In each term when the exam is attempted, the student registers for one credit of MEE 9994. Students are dismissed upon the second failure.

Dissertation Proposal:
Within a year of passing the preliminary exam, the student must develop a written research proposal and present it in an open College seminar. Ten business days prior to the presentation seminar, the student must schedule the proposal and post an announcement. Immediately following the seminar, the Doctoral Advisory Committee questions the student about the details and strategy of her/his proposed research.

Approval is granted for the proposed dissertation research when the ‘Dissertation Proposal Transmittal for Elevation to Candidacy’ form (found in TUportal under the Tools tab within “University Forms”) has been signed off by the entire Doctoral Advisory Committee. After the dissertation proposal has been accepted by the Doctoral Advisory Committee and the Graduate School has received the form, the student is considered to be a doctoral candidate. (See Graduate School Policy 02.28.12 (p. 18) for more information.)

Research Credits:
Students carry out research throughout their studies and register for the corresponding research credits while in the Ph.D. program. However, the type of research credits that a student registers for depends on the student’s progress in the program:

- Prior to passing the preliminary exam, credit hours associated with the student’s research should be registered under MEE 9991 Directed Research.
- After the preliminary exam is passed, but before elevation to candidacy, credit hours associated with the student’s research should be registered under MEE 9998 Pre-Dissertation Research.
- After elevation to candidacy, the student’s research credits should be registered under MEE 9999 Dissertation Research. Students are required to register for at least three credits of MEE 9999 following their elevation to candidacy. (See Graduate School Policy 02.28.15 (p. 18).)

Publications:
Paper writing and presentation at a conference are considered integral to the student's training. Also, peer review, in part, offers an indication of the quality and novelty of the student’s research. All doctoral students must publish at least two technical papers in refereed journals or refereed conferences. The papers must be based on the student’s dissertation research with the student as the first author.

Dissertation:
The dissertation defense is an open University seminar in which the student presents the concepts and results of her/his research.

The student must coordinate the formation of the Dissertation Examining Committee in the term that s/he intends to defend her/his dissertation. This committee consists of the original Doctoral Advisory Committee plus one additional “external” member who is not faculty in the College of Engineering. If the external examiner is not a member of Temple University’s Graduate Faculty, the person must be approved by the Graduate School at least four weeks prior to the dissertation defense.

The dissertation defense is to take place during a regular academic term (i.e., not scheduled during study days, final exams, or the breaks between terms). If the student is to graduate in the same term as the dissertation defense is held, then the defense should take place at least 30 days prior to the end of the term to allow for document revisions.

Three weeks prior to the defense, the members of the committee elect a Chair of the Dissertation Examining Committee. The Chair cannot be the student’s doctoral advisor. The Associate Dean of Research and Graduate Studies must approve the selection. The Chair is identified to the Graduate School in the student’s official request for permission to schedule the defense. (See Graduate School Policy 02.28.15 (p. 18).)
The Chair’s role includes coordination of the proceedings of the defense and completion of all relevant College and Graduate School forms concerning the defense.

The dissertation document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.28.18 (p. 18).) A copy of the completed dissertation must be provided to the committee at least three weeks before the date of the dissertation defense. Note that any Graduate Faculty may request a copy of the dissertation in advance of the defense and may participate in the defense.

A minimum of two weeks prior to the defense, a public announcement of the defense must be posted. Prior to posting, this announcement must be approved in writing by the Graduate School. (See Graduate School Policy 02.28.16 (p. 18).)

Immediately following the presentation, the Dissertation Examining Committee closely examines the student’s performance and her/his research. External attendees may participate in this closed portion of the defense with the permission of the Dissertation Examining Committee Chair. However, only members of the Dissertation Examining Committee may actually vote on the decision to accept the dissertation as prepared, accept the dissertation with revisions, or not accept the dissertation. If the dissertation is accepted with revisions, a revised copy of the dissertation must be submitted and approved by the Committee within 30 days of the original defense date.

Beasley School of Law

Beasley School of Law is committed to excellence in teaching, scholarship, and service. The faculty are dedicated to preparing students to work in the legal profession with the highest level of skill possible, with a firm commitment to principles of professional responsibility, and with a sense of personal obligation to lead and serve the communities in which they live and practice. We are dedicated to our traditional ideal of making opportunities for legal education accessible to talented students who might otherwise not have the opportunity and those who might encounter barriers due to race, creed, gender, disability, sexual orientation, gender identity, age, socioeconomic background, or other personal characteristics.

The Law School opened in 1895 as Temple College’s Department of Law under Dean Henry S. Borneman to prepare students for the bar examination. Initially, 46 students enrolled in evening classes. In 1901, the Law School graduated its first class of 16. In 1907, it received accreditation from the Pennsylvania State Board of Bar Examiners.

In 1933, the Law School created a three-year day division – and also received full accreditation and an “A” rating from the Council on Legal Education of the American Bar Association. The Law School was admitted to full membership in the Association of American Law Schools in 1935. By 1943, however, the school was on the brink of closure, having experienced a deep decline in enrollment and attendant severe financial difficulties. Judge Charles Klein worked closely with a group of dedicated alumni and professors to save the school from collapse.

Under the leadership of Dean Peter J. Liacouras in the 1970s and 1980s, the Law School greatly expanded its programs. It prospered under Dean Robert Reinstein, who served from 1989 to 2008. In 1999, to express gratitude for one of the largest gifts ever given to an American law school, the Law School took on the name of its alumnus and benefactor, James E. Beasley. The availability of Beasley scholarships, together with Law Faculty, Conwell, and Public Interest Scholarships, continues to draw a bright, diverse student body.

In 2009 under Dean JoAnne Epps, the Law School was selected by the Robert Wood Johnson Foundation to house its new $19 million Public Health Law Research Program, devoted to funding research focused on the influence of law on population health. That year, the Law School also established the Conwell Community Corps, offering recent graduates full-time, paid four- to six-month positions with Philadelphia area public interest agencies. Dean Epps’ leadership during the economic downturn in the years following 2009 drew national attention to Temple Law and to the Dean as an influential voice within legal education.

In 2013, the Sheller Center for Social Justice at Temple Law School was founded to partner with local community advocacy organizations to address civil access to justice issues confronting underserved populations. The Law School seeks to maintain and strengthen a longstanding tradition of accessibility and diversity in order to pursue the goals of excellence in higher education and equal justice under the law.

About the Program

This program is not accepting applications for the 2019-2020 academic year.
College of Liberal Arts

Home to more than two dozen departments and programs, the College of Liberal Arts (CLA) offers students a small liberal arts college experience within a premier research university setting. The College and its departments are at the forefront of research within their various fields.

CLA is home to more than 5,000 students, both graduate and undergraduate, who learn in seminar-style classes, conduct research with award-winning faculty, and gain real-world experience in the field. Our graduates build the essential skills valued in the workplace: critical reading, careful thinking, and effective communicating. Through our graduate degree programs, students in the College of Liberal Arts are equipped to become vanguards of integrated and innovative thinking.

Graduate students and faculty regularly win awards and accolades for their scholarship. To name but a few, recent honors include:

- American Psychological Association (APA) Distinguished Scientific Lecturer Award
- APA Student Research Award in Clinical Psychology
- APA Toy Caldwell-Colbert Award for Distinguished Educator in Clinical Psychology
- Anxiety and Depression Association of America Clinician Trainee Award
- Fulbright Scholarship
- Goldsmith Book Prize from the Shorenstein Center on Media, Politics and Public Policy at Harvard University’s Kennedy School of Government
- Lindau (Germany) Nobel Laureate Meetings invitation
- National Endowment for the Humanities Summer Institute invitation
- National Humanities Center Fellowship
- National Science Foundation Graduate Research Fellowship
- Pew Fellowship
- Society for Research in Adolescence Emerging Scholar Travel Award
- Sundance Film Festival selection

Eugene Chislenko, Assistant Professor, Department of Philosophy, College of Liberal Arts; Ph.D., University of California Berkeley.

Elise Chor, Assistant Professor, Department of Political Science, College of Liberal Arts; Ph.D., University of Chicago.

Bettye Collier-Thomas, Professor, Department of History, College of Liberal Arts; Ph.D., George Washington University.

Gretchen A. Condran, Associate Professor, Department of Sociology, College of Liberal Arts; Ph.D., University of Pennsylvania.

Nyron Crawford, Assistant Professor, Department of Political Science, College of Liberal Arts; Ph.D., The Ohio State University.

Roman A. Cybriwsky, Professor Emeritus, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., The Pennsylvania State University.

Heath Fogg Davis, Professor, Department of Political Science, College of Liberal Arts; Ph.D., Princeton University.

Richard E. Deeg, Professor, Department of Political Science, College of Liberal Arts; Ph.D., Massachusetts Institute of Technology.

Kevin J. Delaney, Professor, Department of Sociology, College of Liberal Arts; Ph.D., State University of New York Stony Brook.

Dimitrios I. Diamantaras, Associate Professor, Department of Economics, College of Liberal Arts; Ph.D., University of Rochester.

Deborah A. G. Drabick, Associate Professor, Department of Psychology, College of Liberal Arts; Ph.D., State University of New York Stony Brook.

Douglas Duckworth, Assistant Professor, Department of Religion, College of Liberal Arts; Ph.D., University of Virginia.

Lauren Elman, Associate Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of California Los Angeles.

Jamie J. Fader, Associate Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., University of Pennsylvania.

Mohsen Fardmanesh, Associate Professor, Department of Economics, College of Liberal Arts; Ph.D., Yale University.

Paul Farnsworth, Professor, Department of Anthropology, College of Liberal Arts; Ph.D., University of California Los Angeles.

Robert L. Fauber Jr., Associate Professor, Department of Psychology, College of Liberal Arts; Ph.D.

Barbara Ferma, Professor, Department of Political Science, College of Liberal Arts; Ph.D., Brandeis University.

K. Orgeo Fioretos, Associate Professor, Department of Political Science, College of Liberal Arts; Ph.D., Columbia University.

Talissa Ford, Associate Professor, Department of English, College of Liberal Arts; Ph.D., University of California Berkeley.

Inmaculada M. Garcia-Sanchez, Associate Professor, Department of Anthropology, College of Liberal Arts; Ph.D., University of California Los Angeles.

Paul B. Garrett, Associate Professor, Department of Anthropology, College of Liberal Arts; Ph.D., New York University.

Suzanne Gauch, Professor, Department of English, College of Liberal Arts; Ph.D., State University of New York at Buffalo.

Melissa Gauch, Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., Clark University.

Tania Giovannetti, Associate Professor, Department of Psychology, College of Liberal Arts; Ph.D., Drexel University.

Kristin Ojesdal, Associate Professor, Department of Philosophy, College of Liberal Arts; Ph.D., University of Oslo.
Travis F. Glasson, Associate Professor, Department of History, College of Liberal Arts; Ph.D., Columbia University.

Petra Goedde, Associate Professor, Department of History, College of Liberal Arts; Ph.D., Northwestern University.

Eli C. Goldblatt, Professor Emeritus, Department of English, College of Liberal Arts; Ph.D., University of Wisconsin-Madison.

Alex Gottesman, Associate Professor, Department of Greek and Roman Classics, College of Liberal Arts; Ph.D., University of Chicago.

Kimberly Ann Gayotte, Professor, Department of Sociology, College of Liberal Arts; Ph.D., University of Michigan.

Peter Gran, Professor, Department of History, College of Liberal Arts; Ph.D., University of Chicago.

Leonard O. Greenfield, Professor, Department of Anthropology, College of Liberal Arts; Ph.D., University of Michigan.

Elizabeth Groff, Associate Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., University of Maryland.

Alexandra Guisinger, Assistant Professor, Department of Political Science, College of Liberal Arts; Ph.D., Yale University.

Elizabeth Gunderson, Associate Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of Pennsylvania.

Victor Gutierrez-Velez, Assistant Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., Columbia University.

Michael G. Hagen, Associate Professor, Department of Political Science, College of Liberal Arts; Ph.D., University of California Berkeley.

Simon Hakim, Professor, Department of Economics, College of Liberal Arts; Ph.D., University of Pennsylvania.

Espen Hammer, Professor, Department of Philosophy, College of Liberal Arts; Ph.D., The New School for Social Research.

Donald A. Hantula, Associate Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of Notre Dame.

Cariisa M. Harris, Associate Professor, Department of English, College of Liberal Arts; Ph.D., Northwestern University.

Allison Hayes-Conroy, Associate Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., Clark University.

Richard G. Heimberg, Professor, Department of Psychology, College of Liberal Arts; Ph.D., Florida State University.

Katherine Henry, Associate Professor, Department of English, College of Liberal Arts; Ph.D., Rutgers University.

Kevin A. Henry, Associate Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., McGill University.

Karen Klaiber Hersch, Associate Professor, Department of Greek and Roman Classics, College of Liberal Arts; Ph.D., Rutgers University.

Rebeca L. Hey-Colón, Assistant Professor, Department of Spanish and Portuguese, College of Liberal Arts; Ph.D., Harvard University.

Matthew L. Hiller, Associate Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., Texas Christian University.

Kathryn A. Hirsh-Pasek, Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of Pennsylvania.

Jonathan C. Holmqquist, Associate Professor Emeritus, Department of Spanish and Portuguese, College of Liberal Arts; Ph.D., Princeton University.

Roselyn Hsueh, Associate Professor, Department of Political Science, College of Liberal Arts; Ph.D., University of California Berkeley.

Richard H. Immerman, Professor Emeritus, Department of History, College of Liberal Arts; Ph.D., Boston College.

Johanna Jarcho, Assistant Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of California Los Angeles.

Wilbert L. Jenkins, Associate Professor, Department of History, College of Liberal Arts; Ph.D., Michigan State University.

Jayasinhji Jhala, Associate Professor, Department of Anthropology, College of Liberal Arts; Ph.D., Harvard University.

Peter R. Jones, Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., Aberystwyth University.

Priya Joshi, Professor, Department of English, College of Liberal Arts; Ph.D., Columbia University.

Joyce A. Joyce, Professor, Department of English, College of Liberal Arts; Ph.D., University of Georgia.

Nyasha Junior, Assistant Professor, Department of Religion, College of Liberal Arts; Ph.D., Princeton Theological Seminary.

Andrew Karpinski, Associate Professor, Department of Psychology, College of Liberal Arts; Ph.D.

Robert L. Kaufman, Professor Emeritus, Department of Sociology, College of Liberal Arts; Ph.D., University of Wisconsin.

Michael W. Kaufmann, Associate Professor, Department of English, College of Liberal Arts; Ph.D., Columbia University.

Philip C. Kendall, Professor, Department of Psychology, College of Liberal Arts; Ph.D., Virginia Commonwealth University.

Dustin Kidd, Associate Professor, Department of Sociology, College of Liberal Arts; Ph.D., University of Virginia.

Joshua Klugman, Associate Professor, Department of Sociology, College of Liberal Arts; Ph.D., Indiana University.

Robin A. Kolodny, Professor, Department of Political Science, College of Liberal Arts; Ph.D., Johns Hopkins University.

Rita Krueger, Associate Professor, Department of History, College of Liberal Arts; Ph.D., Harvard University.

Fyodor I. Kushnirsky, Professor, Department of Economics, College of Liberal Arts; Ph.D., Plekhanov Institute of the National Economy.

Kenneth L. Kusmer, Professor Emeritus, Department of History, College of Liberal Arts; Ph.D., University of Chicago.
Peter Lavelle, Assistant Professor, Department of History, College of Liberal Arts; Ph.D., Cornell University.

Mindie Lazarus-Black, Professor Emerita, Department of Anthropology, College of Liberal Arts; Ph.D., University of Chicago.

Don Lee, Professor, Department of English, College of Liberal Arts; M.F.A., Emerson College.

Sue-Im Lee, Associate Professor, Department of English, College of Liberal Arts; Ph.D., University of Illinois at Chicago.

Michael A. Leeds, Professor, Department of Economics, College of Liberal Arts; Ph.D., Princeton University.

Mark A. Leuchter, Professor, Department of Religion, College of Liberal Arts; Ph.D., University of Toronto.

Judith A. Levine, Associate Professor, Department of Sociology, College of Liberal Arts; Ph.D., Northwestern University.

Laura S. Levitt, Professor, Department of Religion, College of Liberal Arts; Ph.D., Emory University.

Vasiliaki Limberis, Professor, Department of Religion, College of Liberal Arts; Th.D., Harvard University.

Jay B. Lockenour, Associate Professor, Department of History, College of Liberal Arts; Ph.D., University of Pennsylvania.

Peter Logan, Professor Emeritus, Department of English, College of Liberal Arts; Ph.D., University of California Berkeley.

Martin Lopez-Daneri, Assistant Professor, Department of Economics, College of Liberal Arts; Ph.D., University of Iowa.

Gerardo Augusto Lorenzino, Associate Professor, Department of Spanish and Portuguese, College of Liberal Arts; Ph.D., Graduate Center, City University of New York.

Hilary Iris Lowe, Associate Professor, Department of History, College of Liberal Arts; Ph.D., University of Kansas.

Johanna Catherine Maclean, Associate Professor, Department of Economics, College of Liberal Arts; Ph.D., Cornell University.

Joseph Margolis, Professor, Department of Philosophy, College of Liberal Arts; Ph.D., Columbia University.

Peter J. Marshall, Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of Cambridge.

Michele Masucci, Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., Clark University.

Ama Mazama, Professor, Department of Africana and African American Studies, College of Liberal Arts; Ph.D., La Sorbonne Nouvelle, Paris III.

Michael S. McCloskey, Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of Southern Mississippi.

Alan McPherson, Professor, Department of History, College of Liberal Arts; Ph.D., University of North Carolina at Chapel Hill.

Joan Melien, Professor Emerita, Department of English, College of Liberal Arts; Ph.D., City University of New York.

Patricia Melzer, Associate Professor, Department of French, German, Italian and Slavic, College of Liberal Arts; Ph.D., Clark University.

Jeremy Mennis, Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., The Pennsylvania State University.

Travis Meyers, Assistant Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., Arizona State University.

Nichole E. Miller, Associate Professor, Department of English, College of Liberal Arts; Ph.D., University of California Irvine.

Robin N. Mitchell-Boyask, Professor, Department of Greek and Roman Classics, College of Liberal Arts; Ph.D., Brown University.

Katherina Motyl, Assistant Professor, Department of History, College of Liberal Arts; Ph.D., University of Chicago.

Gary A. Mucciarone, Professor, Department of Political Science, College of Liberal Arts; Ph.D., University of Wisconsin-Madison.

Vishnu Murty, Assistant Professor, Department of Psychology, College of Liberal Arts; Ph.D., Duke University.

Shigenori Nagatomo, Professor, Department of Religion, College of Liberal Arts; Ph.D., University of Hawaii.

Harvey R. Neptune, Associate Professor, Department of History, College of Liberal Arts; Ph.D., New York University.

Nora S. Newcombe, Professor, Department of Psychology, College of Liberal Arts; Ph.D., Harvard University.

Jessica M. Newman, Assistant Professor, Department of Anthropology, College of Liberal Arts; Ph.D., Yale University.

Steven L. Newman, Associate Professor, Department of English, College of Liberal Arts; Ph.D., Johns Hopkins University.

Dieu Thi Nguyen, Associate Professor, Department of History, College of Liberal Arts; Ph.D., Aix-en-Provence.

David Nickerson, Professor, Department of Political Science, College of Liberal Arts; Ph.D., Yale University.

Daniel T. O'Hara, Professor Emeritus, Department of English, College of Liberal Arts; Ph.D., Temple University.

Ajima Olaghere, Assistant Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., George Mason University.

Thomas Olino, Assistant Professor, Department of Psychology, College of Liberal Arts; Ph.D., Stony Brook University.

Ingrid Olson, Professor, Department of Psychology, College of Liberal Arts; Ph.D., Yale University.

Ryan Omizo, Assistant Professor, Department of English, College of Liberal Arts; Ph.D., The Ohio State University.

Miles D. Orvell, Professor, Department of English, College of Liberal Arts; Ph.D., Harvard University.

Jena Osman, Professor, Department of English, College of Liberal Arts; Ph.D., State University of New York at Buffalo.
Lara Oostric, Associate Professor, Department of Philosophy, College of Liberal Arts; Ph.D., University of Notre Dame.

Willis F. Overton, Professor Emeritus, Department of Psychology, College of Liberal Arts; Ph.D., Clark University.

Vinay Panik, Associate Professor, Department of Psychology, College of Liberal Arts; Ph.D., Punjab University.

C. Hamil Pearse, Assistant Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., Clark University.

C. Hamil Pearse, Assistant Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., Clark University.

José Manuel Pereira Otero, Professor, Department of Spanish and Portuguese, College of Liberal Arts; Ph.D., University of California Berkeley.

Montserrat Piera, Professor, Department of Spanish and Portuguese, College of Liberal Arts; Ph.D., The Pennsylvania State University.

Mark A. Pollack, Professor, Department of Political Science, College of Liberal Arts; Ph.D., Harvard University.

Victor M. Pueyo Zoco, Associate Professor, Department of Spanish and Portuguese, College of Liberal Arts; Ph.D., State University of New York Stony Brook.

Elver S. Ramirez-Franco, Associate Professor, Department of Spanish and Portuguese, College of Liberal Arts; Ph.D., University of Pittsburgh.

Anthony Ranere, Professor Emeritus, Department of Anthropology, College of Liberal Arts; Ph.D., University of California Davis.

Jerry H. Ratcliffe, Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., University of Nottingham (UK).

Leslie A. Reeder-Myers, Assistant Professor, Department of Anthropology, College of Liberal Arts; Ph.D., Southern Methodist University.

Aunshul P. Rege, Assistant Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., Rutgers University.

Terry Rey, Associate Professor, Department of Religion, College of Liberal Arts; Ph.D., Temple University.

Monica Ricketts, Assistant Professor, Department of History, College of Liberal Arts; Ph.D., Harvard University.

Moritz Ritter, Associate Professor, Department of Economics, College of Liberal Arts; Ph.D., University of Toronto.

L. Christie Rockwell, Associate Professor, Department of Anthropology, College of Liberal Arts; Ph.D., University of California Davis.

Caterina Gouvis Roman, Associate Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., American University.

Jessica Roney, Associate Professor, Department of History, College of Liberal Arts; Ph.D., Johns Hopkins University.

Christina Rosan, Associate Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., Massachusetts Institute of Technology.

Cathryn Jo Rosen, Associate Professor, Department of Criminal Justice, College of Liberal Arts; LL.M., Temple University.

Eileen Ryan, Assistant Professor, Department of History, College of Liberal Arts; Ph.D., Columbia University.

James Salazar, Associate Professor, Department of English, College of Liberal Arts; Ph.D., University of California Berkeley.

Rickie Sanders, Professor Emerita, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., The Ohio State University.

Jeremy Schipper, Professor, Department of Religion, College of Liberal Arts; Ph.D., Princeton Theological Seminary.

Joseph M. Schwartz, Professor, Department of Political Science, College of Liberal Arts; Ph.D., Harvard University.

Jacob Shell, Assistant Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., Syracuse University.

Adam Joseph Shellhorse, Associate Professor, Department of Spanish and Portuguese, College of Liberal Arts; Ph.D., University of California Berkeley.

Thomas F. Shipley, Associate Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of Pennsylvania.

Pedro Silos, Associate Professor, Department of Economics, College of Liberal Arts; Ph.D., University of Iowa.

Bryant Simon, Professor, Department of History, College of Liberal Arts; Ph.D., University of North Carolina at Chapel Hill.

Alan S. Singer, Professor, Department of English, College of Liberal Arts; Ph.D., University of Washington.

David V. Smith, Assistant Professor, Department of Psychology, College of Liberal Arts; Ph.D., Duke University.

Hillel David Soifer, Associate Professor, Department of Political Science, College of Liberal Arts; Ph.D., Harvard University.

Miriam Solomon, Professor, Department of Philosophy, College of Liberal Arts; Ph.D., Harvard University.

Howard Spodek, Professor, Department of History, College of Liberal Arts; Ph.D., University of Chicago.

Gerald J. Stahler, Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., Temple University.

Damien Stankiewicz, Assistant Professor, Department of Anthropology, College of Liberal Arts; Ph.D., New York University.

Laurence D. Steinberg, Professor, Department of Psychology, College of Liberal Arts; Ph.D., Cornell University.

R. Michael Stewart, Professor Emeritus, Department of Anthropology, College of Liberal Arts; Ph.D., Catholic University.

William J. Stull, Professor, Department of Economics, College of Liberal Arts; Ph.D., Massachusetts Institute of Technology.

Sandra L. Suárez, Professor, Department of Political Science, College of Liberal Arts; Ph.D., Yale University.

Charles E. Swanson, Associate Professor, Department of Economics, College of Liberal Arts; Ph.D., University of Minnesota.
Benjamin Talton, Associate Professor, Department of History, College of Liberal Arts; Ph.D., University of Chicago.

Ralph B. Taylor, Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., Johns Hopkins University.

Ronald D. Taylor, Associate Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of Michigan.

Rebecca Tesfai, Assistant Professor, Department of Sociology, College of Liberal Arts; Ph.D., University of Pennsylvania.

Kimberly Thomas, Assistant Professor, Department of Geography and Urban Studies, College of Liberal Arts; Ph.D., Rutgers University.

Barbara E. Thornbury, Professor, Department of Asian and Middle Eastern Languages and Studies, College of Liberal Arts; Ph.D., University of British Columbia.

Teshale Tibebe, Professor, Department of History, College of Liberal Arts; Ph.D., State University of New York at Binghamton.

Paul D. Toth, Associate Professor, Department of Spanish and Portuguese, College of Liberal Arts; Ph.D., University of Pittsburgh.

Kathleen S. Uno, Associate Professor, Department of History, College of Liberal Arts; Ph.D., University of California Berkeley.

Gregory J. W. Urwin, Professor, Department of History, College of Liberal Arts; Ph.D., University of Notre Dame.

Ryan Vander Wielen, Professor, Department of Political Science, College of Liberal Arts; Ph.D., Washington University in St. Louis.

Jane Vaynman, Assistant Professor, Department of Political Science, College of Liberal Arts; Ph.D., Harvard University.

Lawrence Venuti, Professor, Department of English, College of Liberal Arts; Ph.D., Columbia University.

Pablo S. Vila, Professor, Department of Sociology, College of Liberal Arts; Ph.D., University of Texas at Austin.

Gerald A. Vision, Professor, Department of Philosophy, College of Liberal Arts; Ph.D., University of Michigan.

E. Rely Vîlcică, Associate Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., Temple University.

Thomas J. Waidzunas, Assistant Professor, Department of Sociology, College of Liberal Arts; Ph.D., University of California San Diego.

Shannon Walters, Associate Professor, Department of English, College of Liberal Arts; Ph.D., The Pennsylvania State University.

Jeffrey T. Ward, Assistant Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., University of Florida.

Douglas Webber, Assistant Professor, Department of Economics, College of Liberal Arts; Ph.D., Cornell University.

Marsha A. Weisnraub, Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of Michigan.

Robert W. Weisberg, Professor, Department of Psychology, College of Liberal Arts; Ph.D., Princeton University.

Charles A. Weitz, Associate Professor, Department of Anthropology, College of Liberal Arts; Ph.D., The Pennsylvania State University.

Susan Wells, Professor Emerita, Department of English, College of Liberal Arts; Ph.D., University of Texas at Austin.

Wayne N. Welsh, Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., University of California Irvine.

Sydney D. White, Associate Professor, Department of Religion, College of Liberal Arts; Ph.D., University of California Berkeley.

Kimberly D. Williams, Associate Professor, Department of Anthropology, College of Liberal Arts; Ph.D., The Ohio State University.

Roland L. Williams Jr., Professor, Department of English, College of Liberal Arts; Ph.D., University of Pennsylvania.

Mathieu E. Wimmer, Assistant Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of Pennsylvania.

David Wolfsdorf, Professor, Department of Philosophy, College of Liberal Arts; Ph.D., University of Chicago.

Jennifer D. Wood, Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., University of Toronto.

Alese Wooditch, Assistant Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., George Mason University.

Matt Wray, Associate Professor, Department of Sociology, College of Liberal Arts; Ph.D., University of California Berkeley.

Hongling Xie, Associate Professor, Department of Psychology, College of Liberal Arts; Ph.D., University of North Carolina at Chapel Hill.

Sean Yom, Associate Professor, Department of Political Science, College of Liberal Arts; Ph.D., Harvard University.

Amarat Zaatut, Assistant Professor, Department of Criminal Justice, College of Liberal Arts; Ph.D., Rutgers University.

Janire Zalbidea, Assistant Professor, Department of Spanish and Portuguese, College of Liberal Arts; Ph.D., Georgetown University.

Lu Zhang, Associate Professor, Department of Sociology, College of Liberal Arts; Ph.D., Johns Hopkins University.

Shanyang Zhao, Professor, Department of Sociology, College of Liberal Arts; Ph.D., University of Maryland.

Adam Ziegfeld, Assistant Professor, Department of Political Science, College of Liberal Arts; Ph.D., Massachusetts Institute of Technology.

Dai Zusai, Assistant Professor, Department of Economics, College of Liberal Arts; Ph.D., University of Wisconsin-Madison.

Africology and African American Studies, M.A.

COLLEGE OF LIBERAL ARTS

About the Program

The mission of the Department of Africology and African American Studies is to provide an intellectual arena in which students learn to
critically examine, analyze, and interpret the experiences, traditions, and dynamics of people of African descent. The department’s undergirding philosophy is that the specific historical experiences of a people must be the central axis guiding and informing any effective analysis and interpretation of that people’s past, present, and future. Our graduate program is informed by the African-centered/Afrocentric paradigms in relation to other perspectives in Africana studies. The program reflects a deeply ingrained commitment to the self-directed study of African peoples and has benefited from a variety of conceptual and political inputs from diverse, but fully committed, faculty participation as well as invaluable contributions from the community. The M.A. program seeks to answer the personal and intellectual aspirations of the student and the particular needs of society that are not satisfied by a baccalaureate degree. Thus, the M.A. provides more specialized study in Africology and African American Studies than the B.A. or B.S. degree and often serves as the terminal degree. It is the goal of the department that graduates with an M.A. in Africology and African American Studies be prepared to engage in a diverse range of intellectual issues that affect the lives of Africans on the continent and in the diaspora. The M.A. also serves as a strong foundation for those who intend to apply to the Ph.D. program.

Time Limit for Degree Completion: 3 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: Advisors may encourage or require students to take courses in other departments in order to enhance or supplement their program.

Affiliation(s): Faculty are affiliated with a variety of professional organizations such as the African Heritage Studies Association (AHSA); African Literature Association; African Studies Association (ASA); American Anthropological Association (AAA); Association of Black Women Historians (ABWH); Association for the Study of African American Life and History (ASALH); Association for the Study of Classical African Civilizations (ASCAC); Black History Advisory Committee of the Pennsylvania Historical and Museum Commission; College Language Association (CLA); Germantown Friends School’s Summerbridge Program; Modern Language Association (MLA); National Council for Black Studies (NCBS); National Council of Teachers of English (NCTE); Pennsylvania Humanities Council; TESOL International Association; and Temple University’s Young Scholars Program.

Study Abroad: The department offers study abroad in the Temple University Ghana program. A maximum of 6 credits may be applied toward the master’s degree.

Accreditation: This program is accredited by the National Council for Black Studies.

Areas of Specialization: Faculty specialize, offer substantial coursework, and mentor in a variety of areas, including:

- African and African American History
- African and African American Literature
- African American Drama
- African American Psychology
- African Civilizations
- African Languages
- Afrocentric Theory
- Caribbean Culture
- Cultural Studies
- Ethnographic Methods
- Gender, Sexuality and Women’s Studies
- Linguistics
- Mass Media
- Narrative Tradition
- Popular Culture
- Research Methods
- Rhetoric and Composition
- Social and Political Thought

Job Prospects: Graduates of the M.A. program in Africology and African American Studies find employment in a variety of public and private sector areas, including arts and humanities, business, social services, and teaching. Many secondary school teachers desire to enhance their skills by obtaining an M.A. degree in Africana and African American Studies.

Non-Matriculated Student Policy: A non-matriculated student may take a maximum of 9 credits in the department. Those credits may be applied to the degree if the student applies and is admitted to the degree program. Non-matriculated students may not take AAAS 9982 Individual Research in African American Studies.

Financing Opportunities: The department offers a limited number of assistantships on a highly competitive basis. The awards usually involve teaching. Teaching Assistants receive a stipend and full tuition remission of up to 9 credits. The applicant must have a grade point average of 3.5 or better and strong letters of recommendation. A resume, writing sample, and/or syllabus are also required with the Teaching Assistantship application, which is obtained from the Graduate Secretary. Normally, awards are given to doctoral students who best meet the criteria.

Admission Requirements and Deadlines

Application Deadline:

Fall: January 15

Applications for admission are processed together shortly after the deadline date.

APPLY ONLINE to this graduate program to begin the application process and receive your TUid number.

Next, visit https://www.cla.temple.edu/interfolio/aaas-ma to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

- Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
- Official electronic transcripts must be sent to afam@temple.edu or the originals mailed to:

Tammey Abner, Graduate Coordinator
Temple University College of Liberal Arts
Dept. of Africology and African American Studies
1115 W. Polett Walk, 810 Gladfelter Hall (025-26)
Philadelphia, PA 19122-6089

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation are preferred from college/university professors who have taught or worked with the applicant in her/his major or minor area of concentration.

Coursework Required for Admission Consideration: An applicant is expected to have some academic background in Africology and African American Studies.

Bachelor’s Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Statement of Goals: Approximately 500 to 1,000 words include your specific interest in Temple’s Department of Africology and African American Studies; your research goals as they relate to Africology and African American Studies and to the social relevance of the discipline; your future career goals; and your academic and research achievements.

Standardized Test Scores:
GRE: Required. A combined minimum score of 297 on the verbal and quantitative sections is expected.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Interview: An interview may be required.

Resume: Current resume required.

Writing Sample: The writing sample should demonstrate the student’s ability to conduct research and to write a scholarly paper relevant to the discipline. The paper should be no more than 20 pages in length and fully referenced according to a professional, scholarly style manual.

Transfer Credit: During the first term of enrollment at Temple, incoming graduate students may apply to have graduate credits taken at other accredited institutions count toward completion of the degree. Grades of transfer courses must be ‘B’ or better. After consultation with and approval of the advisor, the student must submit to the Graduate Committee:

1. a letter specifying the course(s) the student wishes to have considered for credit toward the M.A. and the corresponding Temple course related to the transfer course; and
2. supporting documents (e.g., syllabi, course descriptions from college catalogs, a letter from the transfer course instructor or department) showing the overlap by which the course covers material from Temple courses.

The maximum number of credits a student may transfer is 6.

Program Requirements

General Program Requirements:
Number of Didactic Credits Required Beyond the Baccalaureate: 30

Required Courses:

<table>
<thead>

<td>Theories and Methods in African American Studies</td>
<td>3</td>
</tr>
<tr>
<td>AAAS 8009</td>
<td>The Afrocentric Paradigm</td>
<td>3</td>
</tr>
</tbody>
</table>

Culminating Events:

Students have the option of completing the program with either a written comprehensive examination or a thesis.

Comprehensive Examination:
The comprehensive examination is intended to probe the student’s knowledge of content, literature, theory/methodology, and methods in Africology and African American Studies and to test the student’s ability to apply theoretical issues to praxis. It is a proctored, closed book, 6-hour written examination. Students may not use a computer or any other electronic device for the examination unless there is a documented medical necessity.

The M.A. comprehensive exam covers the content, theories, and paradigms of the discipline and/or relevant coursework that students may have taken. Students must take the comprehensive exam after completing all required coursework. The student must answer every question on the examination in order to be evaluated. The evaluators look for content mastery and coherent application of the discipline’s theories and paradigms.

The comprehensive examination is offered twice a year: the first week of April and the first week of November. The hours of the exam are from 9:00 a.m. to 12:00 noon and 1:00 p.m. to 4:00 p.m. The student must schedule her/his examination with the Graduate Secretary after consultation with her/his advisor at least one month in advance of the exam date. In order to arrange an examination date, the student must be sure that her/his record is free of encumbrances that would prevent her/him from meeting University requirements for taking the examination. In addition, the student intending to take the exam must ensure that all of her/his coursework has been completed in the previous term.

The Examination Committee prepares and administers the student’s written M.A. comprehensive exam. Students are advised to choose an Examination Committee at the beginning of their final term. They should consult with their graduate advisor to select the second member of the committee and set the date for the comprehensive exam. The Examination Committee is composed of two Graduate Faculty from the Department of Africology and African American Studies, one of whom is the major advisor who will write one half of the questions; the other committee member will provide the remaining questions.

The Examination Committee evaluates the answers. The Graduate Director notifies the student of the comprehensive exam results no later than five weeks after completion of the exam. Based on the quality of the examination results, the Examination Committee may make one of the following determinations:

1. Pass: The M.A. student may receive a master’s degree when all other departmental and University requirements are met.
2. Fail: The M.A. student is not awarded the M.A. degree, and the student may retake the exam once.

3. Fail/Termination: The M.A. student has failed to pass the written examination a second time and is terminated from graduate status in the department.

Thesis:
Students who choose to complete a thesis are given the opportunity to demonstrate specialized knowledge and their ability to do original research in Africana studies. The student must have completed at least 27 hours of coursework, including the core. S/he then registers for AAAS 9996 Master's Thesis and completes a Master's Thesis Option form, duly signed by the student and the designated advisor. The student must work with the advisor to produce and successfully defend a thesis on an approved topic. The student then meets the requirements for submission of the approved thesis to the Graduate School, as stipulated in the Final Checklist section of the Dissertation and Thesis Handbook at https://grad.temple.edu/resources/dissertation-thesis-handbook.

Africology and African American Studies, Ph.D.

COLLEGE OF LIBERAL ARTS

About the Program
The mission of the Department of Africology and African American Studies is to provide an intellectual arena in which students learn to critically examine, analyze, and interpret the experiences, traditions, and dynamics of people of African descent. The department's undergirding philosophy is that the specific historical experiences of a people must be the central axis guiding and informing any effective analysis and interpretation of that people's past, present, and future.

Our graduate program is informed by the African-centered/Afrocentric paradigms in relation to other perspectives in Africana studies. The program reflects a deeply ingrained commitment to the self-directed study of African peoples and has benefited from a variety of conceptual and political inputs from diverse, but fully committed, faculty participation as well as invaluable contributions from the community. It is the goal of the department that graduates of our Ph.D. program be prepared to engage in a diverse range of intellectual issues that affect the lives of Africans on the continent and in the diaspora.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: The majority of courses are offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: Advisors may encourage or require students to take courses in other departments in order to enhance their research agenda. A student must obtain prior approval from her/his major advisor for any courses taken outside the Department of Africology and African American Studies that s/he wants to use to fulfill departmental requirements. However, for personal and intellectual enrichment, a student may take as many external courses as desired.

Affiliation(s): Faculty are affiliated with a variety of professional organizations such as the African Heritage Studies Association (AHSA); African Literature Association; African Studies Association (ASA); American Anthropological Association (AAA); Association of Black Women Historians (ABWH); Association for the Study of African American Life and History (ASALH); Association for the Study of Classical African Civilizations (ASCAC); Black History Advisory Committee of the Pennsylvania Historical and Museum Commission; College Language Association (CLA); Germantown Friends School's Summerbridge Program; Modern Language Association (MLA); National Council for Black Studies (NCBS); National Council of Teachers of English (NCTE); Pennsylvania Humanities Council; TESOL International Association; and Temple University's Young Scholars Program.
Study Abroad: The department offers study abroad in the Temple University Ghana program. A maximum of 6 credits may be applied toward the doctoral degree.

Accreditation: This program is accredited by the National Council for Black Studies.

Areas of Specialization: Applicants to the Ph.D. program should have a clearly articulated research interest that fits within the department’s faculty expertise. Africology and African American Studies is a discipline that draws from diverse academic fields. Most research areas fall into two general categories: the cultural aesthetic, which engages interests in the humanities, particularly history, literature, and the performing arts; and the social behavioral, in which issues may be addressed under the broad domains of sociology, psychology, political science, philosophy, anthropology, and the like. Faculty specialize, offer substantial coursework, and mentor in a variety of areas:

- African and African American History
- African and African American Literature
- African American Drama
- African American Psychology
- African Civilizations
- African Languages
- Afrocentric Theory
- Caribbean Culture
- Cultural Studies
- Ethnographic Methods
- Gender, Sexuality and Women’s Studies
- Linguistics
- Mass Media
- Narrative Tradition
- Popular Culture
- Research Methods
- Rhetoric and Composition
- Social and Political Thought

Job Prospects: Graduates of the Ph.D. program in Africology and African American Studies generally find employment based on their area of concentration in academia, college and university administration, or public and private high school administration; the entertainment industry; the fields of criminal justice, journalism, public relations, or social work; local, state, and federal government; or non-profit organizations.

Non-Matriculated Student Policy: Non-matriculated students who desire to take courses at the Ph.D. level in the Department of Africology and African American Studies must first submit an academic transcript to the department's Graduate Director for review. The prospective non-matriculated student then receives a letter stating whether or not s/he has been approved to take courses in the department. A maximum of 9 credits may be applied toward a degree if the student later matriculates. Non-matriculated students may not take AAAS 9982 Individual Research in African American Studies.

Financing Opportunities: The department offers a limited number of assistantships on a highly competitive basis. The awards usually involve teaching or assisting one or more faculty with instructional duties. Teaching Assistants receive a stipend and full tuition remission of up to 9 credits. The applicant must have a grade point average of 3.5 or better and strong letters of recommendation. A resume, writing sample, and/or syllabus are also required with the Teaching Assistantship application, which is obtained from the Graduate Secretary. Applications for a Teaching Assistantship should be submitted along with the application for graduate study.

Admission Requirements and Deadlines

Application Deadline:

Fall: January 15

Applications for admission are processed together shortly after the deadline date.

APPLY ONLINE to this graduate program to begin the application process and receive your TUID number.

Next, visit https://www.cla.temple.edu/interfolio/aaas-phd to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

- Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
- Official electronic transcripts must be sent to afam@temple.edu or the originals mailed to:
  Tammey Abner, Graduate Coordinator
  Temple University College of Liberal Arts
  Dept. of Africology and African American Studies
  1115 W. Polett Walk, 810 Gladfelter Hall (025-26)
  Philadelphia, PA 19122-6089

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation are preferred from college/university professors who have taught or worked with the applicant. Letters from employers with relevant relation to the applicant's area of study are also useful.

Coursework Required for Admission Consideration: The applicant's official transcripts must show formal course-based exposure to and education in an area that the Admissions Committee judges to be closely related to Africology and African American Studies.

Master’s Degree in Discipline/Related Discipline: A master's degree in African Studies, Black Studies, Ethnic Studies, History with a concentration in African or African American Studies, or other content areas with a concentration in African or African American Studies is required.

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Statement of Goals: Approximately 500 to 1,000 words include the nature of your specific interest in the Ph.D. program in Africology and African American Studies at Temple University; a clearly articulated research goal as it relates to Africology and African American Studies; your future career goals; your academic and research achievements; your community service activities; and an explanation of exceptional circumstances.

Standardized Test Scores:
GRE: Required. A combined minimum score of 297 on the verbal and quantitative sections is expected.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 100
- IELTS Academic: 7.0
- PTE Academic: 68

Resume: Current resume required.

Writing Sample: The writing sample should demonstrate the student’s ability to conduct research and to write a scholarly paper relevant to the discipline. The paper should be no more than 20 pages in length and fully referenced according to a professional, scholarly style manual.

Advanced Standing: A student who has earned the M.A. in Africology and African American Studies from Temple University will have all 30 of her/his credits earned credited toward the Ph.D. in Africology and Africana Studies at Temple University.

A student who enters the Ph.D. program with an M.A. in African American Studies from one of the African American Studies master’s-granting programs other than Temple (e.g., Brown University; Clark Atlanta University; Cornell University; Harvard University; Indiana University Bloomington; Michigan State University; Northwestern University; The Ohio State University; University at Albany, SUNY; University of California, Berkeley; University of Massachusetts Amherst; University of Pennsylvania; University of Wisconsin; Yale University) may apply for advanced standing. The maximum number of advanced standing credits awarded is 18.

A student who enters the Ph.D. program with an M.A. degree in an area other than African American Studies may apply to have up to 6 credits considered for credit toward the Ph.D.

Language Examination: The language requirement in Africology and African American Studies is intended to ensure that students have a working familiarity with a language and culture other than English and/or their native language. The Ph.D. student may take the exam at any time, but must pass it before taking the preliminary examination. The student who has English as a second language may use English to fulfill the language requirement. With the recommendation of the advisor, a student may demonstrate competency in Statistics to fulfill the language requirement. The language examination must be administered and graded by a college/university affiliated or certified instructor in the exam language, but may not be from the Department of Africology and African American Studies. The results must be forwarded on letterhead attesting to the examiner’s credentials. Temple University’s various language departments offer non-credit language courses and administer examinations for graduate students needing to fulfill the language requirement.

Culminating Events:

Preliminary Examination:

The preliminary examination is intended to probe the student’s knowledge of content, literature, theory/methodology, and methods in Africology and African American Studies and to test the student’s ability to apply theoretical issues to praxis. It is a proctored, closed-book, 12-hour written examination administered by the student’s Examination Committee. Students are expected to take the preliminary examination upon completion of the coursework component of the program and upon satisfactory completion of the language requirement.

The student is strongly advised to choose an Examination Committee at the beginning of the term in which the last course is taken. The student should consult with her/his graduate advisor in selecting members of the Examination Committee and in setting the date for the exam. The student should then write to prospective members requesting that they serve on the committee. In the letter, the student should mention the course(s) taken with the professor, and include a copy of her/his statement of research interests and career goals. The faculty member should notify the student’s advisor in writing of her/his agreement to serve on the committee.

The subject areas are chosen by the Examination Committee. Particular reading lists or specific materials may be suggested for review before the exam. The student’s major advisor composes six hours of the examination, and the other members compose the balance. Examiners submit exam items directly to the Graduate Director. In order to take the exam, the student must register for AAAS 9994 Preliminary Examination Preparation.

The preliminary examination is offered twice a year: during the first week of April and the first week of November. The hours of the exam are from 9:00 a.m. to 12:00 noon and 1:00 p.m. to 4:00 p.m. The student should notify the Graduate Secretary of her/his intention to take the examination at least one month in advance after consultation with her/his advisor. The Graduate Secretary checks to ensure the student’s records are free of encumbrances that would prevent her/him from meeting University requirements for taking the exam. If the student meets all requisites, the Graduate Secretary advises the student’s Examination Committee that the exam will take place on the planned date.

Each member of the Examination Committee evaluates her/his exam question(s). The Graduate Director notifies the student of the preliminary exam results no later than five weeks after completion of the exam.
exam. Based on the quality of the examination results, the Examination Committee may make one of the following determinations:

1. Pass: The student passes the exam and may now write her/his dissertation proposal.
2. Fail: The student fails the written and/or oral examination, but may retake part or all of the examination once.
3. Fail/Termination: The student fails the written examination for the second time, may not retake the exam, and is dismissed from the program.

Dissertation Proposal:
The formal research proposal, usually at least 30 pages long, presents a plan for increasing the knowledge base in the discipline. The student works in concert with the Chair of the Doctoral Advisory Committee (DAC) to fine-tune the proposal. With the Chair's approval, the student submits the proposal to the other committee members who make suggestions for changes. When the entire committee is satisfied with the proposal, the student makes an oral presentation and defends the proposal, where other suggestions to strengthen the proposal can be made. After a successful oral defense, the proposal is submitted to the Graduate School, along with the ‘Dissertation Proposal Transmittal for Elevation to Candidacy’ form, found in TPortal under the Tools tab within “University Forms.”

Dissertation:
The dissertation is an original and definitive empirical study that makes a significant contribution to the field of Africology and African American Studies. It should add to the knowledge of one or more areas either by uncovering new information, providing an innovative synthesis of existing information, propounding a new theory, fine-tuning an existing theory, or offering a new interpretation substantiated by data. The length of the dissertation varies but should be in excess of 150 pages.

The DAC guides the candidate's doctoral research. This committee offers regular advice and expertise as the student collects data, researches, and writes the proposal and dissertation. The DAC must include at least three Graduate Faculty members from Temple University; two of them, including the Chair, must be from the Department of Africology and African American Studies. The DAC may be expanded to include other Temple University faculty (from within or outside the department) and/or doctoral prepared experts from outside the University, provided that a majority of the committee members are Graduate Faculty members.

The function of the Dissertation Examining Committee (DEC) is to evaluate the dissertation and the student's performance in the oral defense to decide whether the candidate passes or fails. All members of the DEC must be physically present for the oral defense. Exceptions must be specifically approved in writing by the Graduate School. The DEC is composed of the DAC plus at least one additional reader who may be a Graduate Faculty member from Temple or another university, but cannot be a member of the Department of Africology and African American Studies.

The DAC guides the candidate's doctoral research. This committee offers regular advice and expertise as the student collects data, researches, and writes the proposal and dissertation. The DAC must include at least three Graduate Faculty members from Temple University; two of them, including the Chair, must be from the Department of Africology and African American Studies. The DAC may be expanded to include other Temple University faculty (from within or outside the department) and/or doctoral prepared experts from outside the University, provided that a majority of the committee members are Graduate Faculty members.

A student must have an advisor at all times. However, it is possible that as the student's interests develop, s/he may find it desirable to change major advisors and/or advisory committees. The advisee/advisor relationship can be terminated by mutual consent with a note to the Graduate Director signed by both parties or by either party through negotiation with the Graduate Director, who must not at the time be serving as a member of the DAC. When the Graduate Director is also a member of the committee, then another member of the Graduate Faculty, appointed by the Department Chair, should serve as the negotiator between the student and the committee member. The student must complete a ‘Change of Advisor’ form, which may be obtained from the Graduate Secretary. Once a defense date is set, no changes can be made in major advisor or committee membership.

When the Chair of the committee is satisfied with the dissertation draft, s/he advises the student to distribute it to the other members of the committee. When the entire committee is satisfied with the draft, the student and Chair decide on an examination date. At the conclusion of the dissertation defense, the DEC may recommend either that the candidate passes or fails. After the student passes the dissertation defense, certification forms are signed by the committee members and forwarded to the Graduate School. Failure may call for substantial revisions and a new defense.

Students who are preparing to defend their dissertation should confirm a time and date with their DEC and register with the Graduate Secretary. The Graduate Secretary arranges for the room; prepares the appropriate forms; sends copies of the announcement to the Graduate School and departmental Graduate Faculty; and posts the announcement on public bulletin boards. Every dissertation defense must be publicly announced in writing at least 10 working days prior to the defense and must be open to the academic community.

Anthropology, Ph.D.

COLLEGE OF LIBERAL ARTS

About the Program

Anthropology comprises four subdisciplines, all of which are well represented at Temple: Archaeology, Biological Anthropology, Linguistic Anthropology, and Sociocultural Anthropology. The Department also offers specialized courses and training in the Anthropology of Visual Communication, which draws primarily on Linguistic Anthropology and Sociocultural Anthropology. Doctoral students typically specialize in one of these areas, but interdisciplinary study and research are encouraged.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Full-time status is strongly encouraged, although some students may be able to complete the degree program on a part-time basis.

Interdisciplinary Study: Anthropology is an inherently interdisciplinary field of study.

Study Abroad: Study abroad is not required, but many students conduct their independent research outside the United States.

Areas of Specialization: Faculty members specialize in such areas as anthropology of visual communication, archaeology of the eastern United States and tropical Americas, historical archaeology, human evolutionary biology, human genetic and physiological variation, language socialization, political economy of language, politics of cultural identity and difference, and sociocultural dynamics of globalization.

Job Prospects: Well over 100 doctoral degrees have been conferred by the Department of Anthropology since 1976. Approximately 45% of doctoral graduates hold full-time faculty positions in colleges or universities, while another 20% hold full-time research positions in academic or non-academic settings. Another 20% hold degree-related policy and administrative positions, and 10% are engaged in other professional activities.

Non-Matriculated Student Policy: Non-matriculated students are generally restricted to the following four courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 8003</td>
<td>Approaches in Cultural Anthropology</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 8004</td>
<td>Approaches in Linguistic Anthropology</td>
<td>3</td>
</tr>
</tbody>
</table>

Taking coursework as a non-matriculated student does not ensure acceptance into the doctoral program if the student later applies for admission. If a non-matriculated student is later admitted into the doctoral program, a maximum of 9 credits of non-matriculated coursework may be applied toward the degree.

Financing Opportunities: Outstanding applicants are nominated for Temple University's Presidential and University Fellowships, which provide four years of tuition remission, a living stipend, and other benefits. Limited numbers of Teaching and Research Assistantships are also available for well-qualified applicants. Students are strongly encouraged to apply for external grants and fellowships.

Admission Requirements and Deadlines

Application Deadline:

Fall: January 5; December 10 international

Before preparing and submitting the application for admission, the applicant should, if at all possible, establish personal contact with at least one faculty member in Temple's Department of Anthropology. This should be a faculty member whose areas of research interest overlap with those of the applicant, and who could potentially serve as her/his faculty advisor.

APPLY ONLINE to this graduate program to begin the application process and receive your TUid number.

Next, visit https://www.cla.temple.edu/interfolio/anthro-phd to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

- Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
- Official electronic transcripts must be sent to anthgapp@temple.edu or the originals mailed to:

  Yvonne Davis, Graduate Coordinator
  Temple University College of Liberal Arts
  Dept. of Anthropology
  1115 W. Polett Walk, 210 Gladfelter Hall (025-21)
  Philadelphia, PA 19122-6089

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be requested from individuals who are well positioned to evaluate the applicant's academic abilities and accomplishments as well as her/his potential for graduate study.

Master's Degree in Discipline/Related Discipline: A master's degree is not required.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree (B.A./B.S.) is required, but it need not be a degree in Anthropology.

Statement of Goals: In approximately 800 to 1,000 words, address your main area(s) of scholarly interest; the specific research topic that you
intend to make the focus of your graduate studies; the experiences that 
have led you to graduate studies in Anthropology; the specific reasons 
for your interest in Temple’s graduate program in Anthropology and the 
faculty members with whom you envision yourself working most closely; 
and your career goals.

Standardized Test Scores:
GRE: Required. GRE scores are evaluated in the context of all other 
materials required for admission.

Applicants who earned their baccalaureate degree from an institution 
where the language of instruction was other than English, with the 
exception of those who subsequently earned a master's degree at a U.S. 
institution, must report scores for a standardized test of English that meet 
these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Advanced Standing: After completing the first academic year, a student 
who entered the doctoral program with a master's degree in Anthropology 
(or a closely related field) may petition the Department's Graduate 
Committee for advanced standing. The maximum number of advanced 
standing credits that can be accepted is 24.

</tbody>
</table>

1. It is preferred that the four core courses be taken by the end of the second year.
2. Beyond the core courses, students select 12 additional courses in consultation with their faculty advisor. Some courses may be taken in other departments, as appropriate.
3. Of the 6 credits required of ANTH 9994, ANTH 9998, and/or ANTH 9999, a minimum of 2 credits of ANTH 9999 must be taken.

Language Examination: Each doctoral student must pass a written 
examination of proficiency in a language other than English, preferably by 
the end of the second year.

Culminating Events:
Dissertation Research Proposal:

Students must have an approved doctoral dissertation research proposal 
in order to advance to doctoral candidacy. The research proposal must 
be approved by the student's advisory committee before s/he takes the 
doctoral qualifying examinations. Students whose proposed research 
includes working with human or animal subjects must apply for approval 
from Temple’s Institutional Review Board (IRB).

Doctoral Qualifying Examinations:
Each student must pass a set of doctoral qualifying examinations before 
being advanced to doctoral candidacy. These examinations are intended 
to evaluate the student's knowledge of the field, readiness to perform 
doctoral research, and preparedness to write a doctoral dissertation. 
No student may take the qualifying examinations more than twice. The 
doctoral qualifying examinations should be completed no more than one 
term after the student finishes her/his coursework.

Advancement to Doctoral Candidacy:
A doctoral student is advanced to doctoral candidacy when s/he 
has completed all requirements for the doctoral degree except the 
research, writing, and defense of the doctoral dissertation. These 
requirements include completing all required coursework, writing an 
acceptable dissertation research proposal, passing the doctoral qualifying 
examinations, and fulfilling the language proficiency requirement. A 
student cannot be advanced to candidacy with a grade of 'I' (Incomplete) 
or 'NR' (No Record) on her/his transcript.

Doctoral Dissertation:
The doctoral dissertation must constitute a significant, original, research-
based contribution to scholarship in the student’s field of study. It 
must also conform to the rules set out in the ‘Dissertation and Thesis 
Handbook’ of the Temple University Graduate School.

Upon advancement to doctoral candidacy, each student must form a 
Doctoral Advisory Committee. This committee must include at least 
two Graduate Faculty members from the Department of Anthropology, 
one of whom serves as the student’s primary academic advisor and as chair of the committee. The committee may also include one or 
more Graduate Faculty members from other Temple schools/colleges, 
departments, or programs; faculty members from other universities; and/or 
other doctorally trained experts. The members of the Doctoral Advisory 
Committee supervise the student’s doctoral research and the writing of 
the dissertation.

The completed dissertation is read and evaluated by a Dissertation 
Examining Committee, which consists of the members of the Doctoral 
Advisory Committee plus at least one additional Graduate Faculty 
member from Temple not from the faculty of the student’s home 
department. A faculty member from another university or other doctorally 
trained expert may also serve as the additional committee member. In 
addition to being evaluated and approved by the committee members in 
its written form, the completed doctoral dissertation must be presented 
and defended orally by the doctoral candidate.

Program Web Address:
https://www.cla.temple.edu/anthropology/graduate/

Department Information:
Department of Anthropology
210 Gladfelter Hall
1115 W. Polett Walk
About the Program
The Professional Science Master's (P.S.M.) degree in Applied Sociology is designed to train research professionals in a wide range of social research methods and data analysis. Students take a set of core courses in research design, quantitative methods, qualitative methods, and research ethics, as well as additional methods courses as electives.

Time Limit for Degree Completion: 3 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The program encourages students to participate in seminars in other social sciences, including Anthropology; Criminal Justice; Gender, Sexuality and Women’s Studies; Geography and Urban Studies; History; Political Science; Psychology; and Urban Education.

Affiliation(s): The program is affiliated with the American Sociological Association (ASA).

Areas of Specialization: The main areas of study are:
- Data Analysis
- Qualitative Methods
- Research Design
- Research Ethics
- Statistics

Job Prospects: Graduates of the program are typically employed as applied researchers in public and private firms.

Non-Matriculated Student Policy: Students with a bachelor’s degree may take graduate courses in Sociology without enrolling in a Temple University graduate program. A limit of 9 credits of graduate coursework taken prior to admission will be accepted toward a Sociology degree. Non-matriculated students should consult with the Graduate Chair before selecting their coursework if they plan to apply for the degree program.

Financing Opportunities: The Sociology Department does not offer funding opportunities for students enrolled in the P.S.M. program.

Admission Requirements and Deadlines
Application Deadline:
Fall: March 1

Applications are evaluated as they are received throughout the year.

APPLY ONLINE to this graduate program to begin the application process and receive your TUid number.

Next, visit https://www.cla.temple.edu/interfolio/applied-sociology-psm to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:
- Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
- Official electronic transcripts must be sent to socadmis@temple.edu or the originals mailed to:
  Pamela Smallwood, Graduate Coordinator
  Temple University College of Liberal Arts
  Dept. of Sociology
  1115 W. Polett Walk, 710 Gladfelter Hall (025-23)
  Philadelphia, PA 19122-6089

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with the applicant’s academic competence, if possible.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree is required.

Statement of Goals: Approximately 500 to 1,000 words include your interest in Temple's program; your research goals; your future career goals; and your academic and research achievements.

Standardized Test Scores:
GRE: Required.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 100
- IELTS Academic: 7.0
- PTE Academic: 68

Writing Sample: The writing sample should demonstrate your ability to conduct research and write a scholarly paper. The paper may be on any topic, and no more than 25 pages in length. It must be fully referenced according to a professional and scholarly style.

Resume: Current resume or curriculum vitae required.

Transfer Credit: Graduate coursework in Sociology may be transferred from outside the university, provided that the credits were obtained no more than five years prior to the student's matriculation at Temple and the grades are ‘B’ or better. The maximum number of credits a student may transfer is 6.

Total Credit Hours: 31

Culminating Events: This program has no culminating events beyond successful completion of coursework. The P.S.M. degree in Applied Sociology is awarded to any candidate who earns a cumulative grade point average of 3.0 or better in the degree curriculum. Apply for graduation in Self Service Banner by accessing TPortal. Note the deadline for submitting the graduation application on the Graduate School’s calendar (p. 10).

Contacts

Program Web Address: https://www.cla.temple.edu/sociology/graduate/

Department Information:
Dept. of Sociology
science courses and one elective in departments outside of the English Department.

Study Abroad: Creative Writing students may apply to attend a 6-credit seminar in Art and Culture offered in Rome during the Summer. The seminar entails an intensive program of classwork, field trips, and guest lectures.

Areas of Specialization: The program provides a combination of small, intensive workshops in poetry and fiction, in addition to one-on-one tutorials and craft and special topics courses in Creative Writing. Temple has an excellent faculty of writers in both genres, representing a wide range of aesthetics. To learn more about the faculty, see https://www.cla.temple.edu/creative-writing/faculty/.

Job Prospects: Graduates have become published authors and have been hired as faculty members at colleges and universities. Others have gone on to become editors in the field of publishing. Web content writers and editors, arts administrators, journalists, librarians, copywriters, grant writers, and primary and secondary school teachers, and have obtained jobs in advertising, communications, marketing, and public relations. Books written by our graduates have been published by trade and small presses and cover all genres. These works have won grants, prizes, and residencies.

Non-Matriculated Student Policy: Writers (or graduate students from other departments at Temple) who wish to take a class in the M.F.A. program on a non-matriculated basis should inquire about the possibility first, emailing creatwrt@temple.edu at least two weeks before the start of the academic term about a specific course. Search Temple’s class schedule by selecting the term, then ‘English’ and ‘Graduate.’ If there is space and the instructor is amenable, you will most likely be asked for a writing sample and other information for further consideration. Upon admission to the program, non-matriculated students may transfer up to 9 credits for courses in which a grade of ‘B’ or higher was earned.

Financing Opportunities: On average, the M.F.A. program in Creative Writing is able to fund 40% of its students with Teaching Assistantships or University Fellowships. These funding packages are awarded on a competitive basis. If you are admitted to the Creative Writing program, you will automatically be considered for an assistantship or fellowship.

Admission Requirements and Deadlines

Application Deadline:

Fall: February 15

All materials should be submitted by February 15. If you would like to be considered for a teaching assistantship or fellowship, please submit your materials by December 15. Applications submitted after December 15 will still be considered for a teaching assistantship or fellowship, but those meeting the initial deadline will be prioritized.

APPLY ONLINE to this graduate program to begin the application process and receive your TUid number.

Next, visit https://www.cla.temple.edu/interfolio/creative-writing-mfa to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

• Scores for the optional GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.

• Official electronic transcripts must be sent to creatwrt@temple.edu or the originals mailed to:
  Creative Writing Program
  Temple University College of Liberal Arts
  1114 W. Polett Walk, 1020 Anderson Hall (022-29)
  Philadelphia, PA 19122-6090

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from professors or work supervisors who can comment on your performance in previous academic, creative, and/or professional roles.

Coursework Required for Admission Consideration: Although not required, we prefer applicants to the M.F.A. program in Creative Writing to hold a bachelor’s degree in English or creative writing or to have taken a significant number of workshops or literature classes as an undergraduate. However, in the past, students without this background have performed well in the program. Therefore, we consider the entire application package in our admission decisions.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree is required, although it need not be in Creative Writing or English. An applicant must, however, display evidence of talent as a fiction writer or poet. A minimum undergraduate GPA of 3.0 is required for admission.

Statement of Goals: In two to four double-spaced pages, discuss literary influences and models that feed your creative work. We are interested in which writers and texts have been important to you in recent years, as well as what critical approaches, if any, you have found useful. Describe your work or teaching experience. Discuss your aims in attending an M.F.A. program. Mention what attracts you to Temple’s program and whether you are familiar with Philadelphia. Give us a sense of who you are—a more detailed, personal picture than what can be gleaned from transcripts or resumes, especially if you have a non-traditional background or atypical undergraduate record.

Standardized Test Scores:
GRE: Optional. However, if you are taking or have taken the GRE and wish your scores for the general test to be considered, please have them forwarded electronically by ETS to Temple University.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

• TOEFL iBT: 79
• IELTS Academic: 6.5
• PTE Academic: 53

Resume: Current resume required.

Writing Sample: Your writing sample is the most crucial single element of your application. Send a packet of writing in one genre only: poetry or fiction. For poetry, submit 10 to 25 pages. For fiction, submit 10 to 25 pages. These pages may include shorter poems, longer poems, and/or an excerpt from a longer work. Individual poems should be separated by page breaks, not run together. Poems may be single-spaced or formatted in whatever way you see fit. For fiction, send a total of 15 to 25 double-spaced pages. The pages may include a single story, a series of stories, and/or an excerpt from a longer work.
work. Please identify the excerpt as part of a long story, novella, novel, or hybrid work. For applicants in either genre, if you would like to include a critical essay in addition to the creative sample, please feel free to do so.

Total Credit Hours: 33

1 Those who hold a Teaching Assistantship must take a Practicum in Composition Theory as their elective.

Culminating Events:

Comprehensive Examination:
The comprehensive examination is intended to give students an opportunity to write about the historical and formal context of the literary genre in which they practice. For the exam, they write a 10 to 15 page essay.

The exam is due between the third and fourth terms of the program on the Friday immediately preceding the day on which the Spring term begins. The paper should address issues of craft and aesthetics, but may include other points of reference. The essay should demonstrate a facility for critical discourse and indicate a breadth of knowledge of literary traditions.

Each exam is graded by two members of the Creative Writing Graduate Faculty. Students pass the exam by writing cogent, well-argued, and stylistically polished arguments.

Master's Project:
The master's project is intended to be a work of fiction (at least 100 pages) or a work of poetry (at least 50 pages) that reflects an aesthetically and intellectually sophisticated example of the genre in which the student has worked over the course of the program. The project is due on the second Tuesday in April of the student's fourth term.

The master's project is graded exclusively by members of the Creative Writing Graduate Faculty. Two readers must agree that the project passes. If there is a conflict, the Director of the Graduate Creative Writing Program adjudicates the decision. A project defense is not required.

Criminal Justice, M.A.

COLLEGE OF LIBERAL ARTS

About the Program

The M.A. program in Criminal Justice is designed to serve as a first stage of training for students wishing to eventually pursue more advanced graduate work. It also prepares students who will terminate their studies at the master's level. For the latter group, including many engaged in part-time study, the M.A. program is designed to serve students who, upon graduation, will begin or rejoin professional careers in management, administration, or specialist positions in governmental and private criminal and juvenile justice and related agencies. The M.A. degree requires the completion of 30 credits. The curriculum is structured around a set of core requirements that provides substantive grounding in decision-making and operational aspects of the criminal justice system, and a theoretical, legal, policy, and methodological foundation for understanding crime and society.

Time Limit for Degree Completion: 3 years

Campus Location: Main
Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Those engaged in part-time study take 8 or fewer credits per term. Students should note that classes are scheduled both during the day and evening as scheduling demands. Students are expected to be available for classes when they are scheduled.

Interdisciplinary Study: The program encourages interdisciplinary coursework, research, and interactions among faculty and students with interests in a wide range of fields. Many of the students entering the Criminal Justice M.A. program have backgrounds in Counseling, Economics, Geography, History, Political Science, Psychology, Social Work, Sociology, and Urban Studies.

Ranking: Criminal Justice programs are not formally ranked, although the *Journal of Criminal Justice Education* has produced occasional articles on program productivity. Temple University's Criminal Justice program is classed among a number of schools that are acknowledged to have extremely strong faculty, but have not yet produced a large number of doctoral degrees.

Areas of Specialization: Faculty members specialize and offer substantial coursework in a wide array of areas, including:

- Corrections and community corrections
- Court processes
- Crime and the physical/social environment
- Criminal justice policymaking and strategic management
- Criminal law
- Criminological theory
- Discretion in criminal justice
- Issues in policing
- Juvenile justice
- Organized crime
- Qualitative/quantitative research methods
- Restorative justice
- Socialization and deviant behavior
- Statistical analysis
- White collar crime

Job Prospects: The M.A. program is primarily dedicated to producing well-trained criminologists, researchers, and criminal justice practitioners. The job market for an individual with a master's degree in the field is extremely good. Some graduate students advance their career while completing coursework, while others are hired at the completion of their degree. Graduates of the M.A. program have obtained positions in the criminal justice system, including criminal or juvenile courts, institutional and community-based agencies, and state and federal police agencies. Careers are also possible in government, planning, public administration, research, teaching, or community activism.

Non-Matriculated Student Policy: Non-matriculated students are eligible to take some of the graduate courses offered in Criminal Justice. If accepted into the program, up to 9 credits may be applied toward the degree program.

Financing Opportunities: Students in the M.A. program cannot be awarded Teaching Assistantships. Occasionally, however, funded research opportunities become available for which M.A. students are eligible.

Admission Requirements and Deadlines

Application Deadline:

**Fall:** March 1  
**Spring:** November 1

Late applications may be considered for admission.

**APPLY ONLINE to this graduate program** to begin the application process and receive your TuId number.

Next, visit https://www.cla.temple.edu/interfolio/criminal-justice-ma to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

- Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
- Official electronic transcripts must be sent to cjgrad@temple.edu or the originals mailed to:
  
  Jenise Ly, Graduate Coordinator  
  Temple University College of Liberal Arts  
  Dept. of Criminal Justice  
  1115 W. Polett Walk, 522 Gladfelter Hall (025-02)  
  Philadelphia, PA 19122-6089

Letters of Reference:

**Number Required:** 3

**From Whom:** Letters of recommendation should be obtained from college/university faculty members familiar with the demands of a graduate program.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree in Criminology/Criminal Justice, Geography, History, Law, Political Science, Social Work, Sociology, or a related field is required.

**Statement of Goals:** In approximately 500 to 1,000 words, discuss your specific interest in Temple's program, your research goals, your future career goals, and your academic and research achievements.

**Standardized Test Scores:**

**GRE:** Required. The average scores for accepted M.A. students are in the 60 to 70% range on the verbal and quantitative sections.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Writing Sample:** The writing sample should demonstrate your ability to research and write a scholarly paper. The paper should not be too lengthy (up to 10 pages is preferable) and should be fully referenced according to a professional, scholarly style manual. Although it need not be related directly to Criminal Justice, it should reflect your ability to prepare a social science paper.
Temple University Graduate Bulletin 2019-2020

Transfer Credit: Students with graduate course credits from other accredited institutions should petition the Graduate Chair to determine the acceptance and transferability of coursework. Grades must be of ‘B’ quality or better. The maximum number of credits a student may transfer is 6.

Criminal Justice, Ph.D.

COLLEGE OF LIBERAL ARTS

About the Program

The Ph.D. degree program in Criminal Justice is designed to produce criminal justice scholars who will lead the field in academia, private and governmental research agencies, and policy-level positions in criminal justice and related organizations. The Ph.D. degree requires the completion of a minimum of 48 hours of coursework post-baccalaureate, although students may take additional courses to prepare themselves for subsequent stages of their post-graduate career.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Doctoral students are expected to be enrolled full-time. Part-time students are accepted in exceptional circumstances. Students should note that classes are scheduled both during the day and evening as scheduling demands. Students are expected to be available for classes when they are scheduled.

Interdisciplinary Study: The program encourages interdisciplinary coursework, research, and interactions among faculty and students...
with interests in a wide range of fields. Many of the students entering the Criminal Justice Ph.D. program have backgrounds in Counseling, Economics, Geography, History, Political Science, Psychology, Social Work, Sociology, and Urban Studies.

Ranking: In the 2018 rankings by U.S. News & World Report, Temple University's Ph.D. program in Criminal Justice is tied for 13th in Criminology. In addition, The Chronicle of Higher Education’s Faculty Scholarly Productivity Index identifies the faculty of the Criminal Justice department as the sixth most productive among all doctoral programs in Criminology and Criminal Justice.

Areas of Specialization: Faculty members specialize and offer substantial coursework in a wide array of areas, including:

- Corrections and community corrections
- Court processes
- Crime and the physical/social environment
- Criminal justice policymaking and strategic management
- Criminal law
- Criminological theory
- Discretion in criminal justice
- Issues in policing
- Juvenile justice
- Organized crime
- Qualitative/quantitative research methods
- Restorative justice
- Socialization and deviant behavior
- Statistical analysis
- White collar crime

Job Prospects: The Ph.D. program is primarily dedicated to producing well-trained criminologists, researchers, and criminal justice practitioners. The job market for an individual with a Ph.D. degree in the field is extremely good. Most of our graduates enter the academy as university professors while others advance their careers in research for government or private agencies.

Non-Matriculated Student Policy: Non-matriculated students are eligible to take some of the graduate courses offered in Criminal Justice. If accepted into the program, up to 9 credits may be applied toward the degree program. For some courses, permission of the instructor is required before registration by non-matriculated students can occur.

Financing Opportunities: The principal duties of a Teaching Assistant include assisting faculty members in classroom (field, observatory) instruction, conducting tutorials and discussion sections, and grading quizzes. Research Assistants are expected to devote 20 hours per week on average to research obligations. They are assigned to a faculty member or principal investigator investigating a specific research project. The appropriate subjects are determined by consultation between the student and the student's research and academic advisors. Both Teaching and Research Assistantships carry a stipend and full tuition remission for up to 9 credits per term. Applications should include:

1. a statement of previous teaching and/or research experience, areas of interest, and future goals;
2. unofficial transcripts; and
3. a curriculum vitae.

The Department makes assistantship offers in late Spring of each year.

Admission Requirements and Deadlines

Application Deadline:

Fall: December 15; November 30 international

Applications are evaluated from the end of October until the deadline. Late applications may be considered for admission.

APPLY ONLINE to this graduate program to begin the application process and receive your TUid number.

Next, visit https://www.cla.temple.edu/interfolio/criminal-justice-phd to create or log into your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

- Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
- Official electronic transcripts must be sent to cjgrad@temple.edu or the originals mailed to:

  Jenise Ly, Graduate Coordinator
  Temple University College of Liberal Arts
  Dept. of Criminal Justice
  1115 W. Polett Walk, 522 Gladfelter Hall (025-02)
  Philadelphia, PA 19122-6089

Letters of Reference:

Number Required: 3

From Whom: Ideally, the letters should be obtained from college/university faculty members familiar with the applicant's academic competence. Letters from employers and other non-academic assessors are accepted but generally carry far less weight.

Master's Degree in Discipline/Related Discipline: A master's degree is not required.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree in Criminology/Criminal Justice, Geography, History, Law, Political Science, Social Work, Sociology, or a related field is required.

Statement of Goals: In approximately 500 to 1,000 words, discuss your specific interest in Temple's program, your research goals and how they relate to Temple's program, your future career goals, and your academic and research achievements.

Standardized Test Scores:

GRE: Required. The minimum acceptable scores are 153 verbal and 144 quantitative. Applicants with scores just below are considered if other aspects of their application are especially strong.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53
Resume: Current resume required.

Writing Sample: The writing sample should demonstrate your ability to research and write a scholarly paper. The paper should not be too lengthy (up to 10 pages is preferable) and should be fully referenced according to a professional, scholarly style manual. Although it need not be related directly to Criminal Justice, it should reflect your ability to prepare a social science paper.

Advanced Standing: To request advanced standing, an applicant must supply an official transcript from her/his prior graduate institution to the Graduate Chair. The transcript must clearly show ‘M.A. awarded’ and on what date. The Graduate Committee reviews the request. Only grades of ‘B’ or better are accepted. If the request is granted, the student receives advanced standing and is awarded a maximum of 30 credits.

Culminating Events:

Comprehensive Examinations:
Two comprehensive examinations must be passed. One is in ‘Justice,’ which has the Criminal Justice system as its focus. The second is in ‘Crime,’ which has theory as its focus. The purpose of the comprehensive exams is to demonstrate critical and interpretive knowledge in specialized areas of both the Criminal Justice system and Criminal Justice theory.

Prospectus Defense:
The prospectus defense evaluates the student’s ability to apply specific research and/or analytic methods to the questions addressed in the prospectus. The defense occurs within several weeks of the student’s advisor confirming, in writing to the Graduate Chair, that the student is ready to defend her/his prospectus.

Ideally, the prospectus defense should be completed within one academic year of the comprehensive examinations. The prospectus defense consists of a short (30-40 minute) presentation of the prospectus by the student to faculty and graduate students. Following the presentation, the Graduate Chair mediates a question-and-answer session between the student and audience. The members of the student’s Doctoral Advisory Committee normally pose the initial questions at the defense. When these have been exhausted, other audience members are asked to put forth any questions they have for the student. The defense is scheduled to last no longer than two hours.

The Doctoral Advisory Committee must evaluate the quality of the presentation and of the answers provided during the question-and-answer session. Committee members look for evidence of a breadth and depth of understanding of specific substantive and methodological areas. In addition, they gauge the student’s ability to utilize her/his knowledge to address the questions posed during the defense. Each member votes to Pass or Fail the student. Members can also vote to pass pending the completion of specified changes to the prospectus. In order to pass, a majority of the committee members must agree that the defense has been satisfactorily completed.

Students who are preparing to defend their prospectus should arrange some dates/times for the defense with the Doctoral Advisory Committee. The student should then inform the Graduate Chair of these dates/times and confirm the final date/time selected. Finally, the Graduate Chair provides confirmation of the time, date, and room.

Dissertation:
The dissertation is an original empirical study that makes a significant contribution to the field of Criminal Justice. It should expand the existing database and demonstrate the student’s knowledge of both research methods and a mastery of her/his primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standards of the field of Criminal Justice; demonstrate an understanding of the relationship between the primary area of interest and the broader field of Criminal Justice; and be prepared for publication in a professional journal.

The Doctoral Advisory Committee is formed to oversee the student’s doctoral research and is comprised of at least three Temple Graduate Faculty members. Two members, including the Chair, must be from the Department of Criminal Justice. Committee compositions must be approved by the Department’s Graduate Committee. The Chair is responsible for overseeing and guiding the student’s progress, coordinating the responses of the Committee members, and informing the student of her/his academic progress.

The Dissertation Examining Committee evaluates the student’s dissertation and oral defense. This committee is comprised of the Doctoral Advisory Committee and at least one additional Graduate Faculty member from outside the Department of Criminal Justice. The Outside Examiner should be identified no later than the beginning of the term in which the student will defend the dissertation. The Dissertation Examining Committee evaluates the student’s ability to express verbally her/his research question, methodological approach, primary findings, and implications. The Committee votes to Pass or Fail the dissertation and the defense at the conclusion of the public presentation.

If a student needs to change a member of a Committee, the new member must be approved by the Department’s Graduate Committee and registered with the Graduate Secretary and the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their Doctoral Advisory Committee and register
with the Graduate Secretary at least 30 days before the defense is to be scheduled. The Graduate Secretary arranges the time, date, and room and forwards to the student the appropriate paperwork. After the Graduate Secretary has arranged the time, date, and room for the defense, the student must send the Graduate School a completed ‘Announcement of Dissertation Defense’ form, found in TUPortal under the Tools tab within “University Forms,” at least 10 working days before the defense. The department posts flyers announcing the defense.

Decision Neuroscience, Ph.D.

COLLEGE OF LIBERAL ARTS

About the Program

The field of decision neuroscience provides new insights into the mechanisms that underlie a wide range of economic and social phenomena, from risky choice and consumer behavior to altruism and cooperation. It is also a primary example of truly interdisciplinary research, with people from such diverse fields as business administration, economics, engineering, neuroscience, philosophy, physics, and psychology working together to advance knowledge of mechanisms underlying decision making and decision preferences.

The interdisciplinary Ph.D. program in Decision Neuroscience in the Department of Psychology in the College of Liberal Arts is a collaborative effort with the Fox School of Business and Management. Temple University's Psychology Department has long been a leader in brain and cognitive science research. Similarly, through the efforts of its Center for Neural Decision Making (CNDM), Fox School has been at the forefront of the field of decision neuroscience over the past six years.

Students enrolled in the program gain a thorough understanding of the intellectual issues in the rapidly growing field of decision neuroscience and its subfields of neuroeconomics and neuromarketing. The program has the unique vision of integrating scientific findings with everyday real-world problems. It is designed for students who want to work at the intersection of neuroscience and business.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Full-time study is required.

Interdisciplinary Study: The program is inherently interdisciplinary.

Ranking: Over the years, the Department of Psychology's Ph.D. program has been consistently ranked among the very best by all evaluating agencies.

Job Prospects: Graduates of the program are prepared to seek tenure-track appointments either in business schools or psychology departments, depending on their approach to the program's curriculum.

Non-Matriculated Student Policy: Non-matriculated students are not permitted to take 8000-level Psychology courses.

Financing Opportunities: Both Teaching and Research Assistantships carry a stipend, full tuition remission (up to 12 credits per term depending on year and specialization), and health insurance benefits. The principal duties of a Teaching Assistant (TA) include assisting faculty members in classroom (field and observatory) instruction, conducting tutorials and discussion sections, and grading quizzes. A Research Assistant (RA) is expected to devote 20 hours per week on average to research obligations. An RA is assigned to a faculty member or principal investigator who is working on a specific research project. The appropriate subjects are determined by consultation between the student and the student's research and academic advisors.

Admission Requirements and Deadlines

Application Deadline:

Fall: December 1

Applications are not evaluated until after the deadline has passed.
APPLY ONLINE to this graduate program to begin the application process and receive your TUid number.

Next, visit https://www.cla.temple.edu/interfolio/decision-neuroscience-phd to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

- Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
- Official electronic transcripts must be sent to lmcduffie@temple.edu or the originals mailed to:
  Lauren McDuffie, Graduate Coordinator
  Temple University College of Liberal Arts
  Neuroscience Programs
  1701 N. 13th Street, 659 Weiss Hall (265-67)
  Philadelphia, PA 19122-6085

Letters of Reference:
Number Required: 3
From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with the applicant’s academic competence.

Master’s Degree in Discipline/Related Discipline: A master's degree is not required.

Bachelor’s Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Statement of Goals: In approximately 500 to 1,000 words, state your interest in Temple’s program, your research goals, your future career goals, and your academic and research achievements.

Standardized Test Scores:
GRE: Required. Minimum scores are 153 verbal, 151 quantitative, and 304 total GRE.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 105
- IELTS Academic: 7.0
- PTE Academic: 72

Resume: Current resume required.

Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Baccalaureate: 42

Required Courses:

<table>

</table>

MKTG 9090  | Sem-Sel Topics in Mkgt | 3 |
PSY 8310  | Topical Seminar in Cognitive Psychology (2 courses) | 6 |
Course in decision neuroscience | 3 |
Proseminar in decision neuroscience | 3 |
Methods Electives | 6 |
Select two from the following:
BA 9806  | Integrative Perspectives on Business Knowledge |
BA 9814  | Advanced Quantitative Research Methods |
BA 9815  | Problem Solving using Qualitative Research Methods |
PSY 8033  | Hierarchical Linear Modeling |
Other Electives | 12 |
Select four from the following:
MKTG 9001  | Sem-Marketing Theory Dev |
MKTG 9002  | Sem-Behavior Res-Mktg |
MKTG 9003  | Sem-Quant Research-Mktg |
PSY 8310  | Topical Seminar in Cognitive Psychology |
PSY 8312  | Core Course in Cognitive Psychology |
PSY 8712  | Core Course in Behavioral Neuroscience |
Research Courses:
PSY 9994  | Preliminary Examination Preparation | 1 |
PSY 9998  | Pre-Dissertation Research | 2 |
PSY 9999  | Ph.D. Dissertation Research | 3 |
Total Credit Hours | 42 |

1 The select topic for this course is an introduction to research in judgment and decision making and their applications.
2 PSY 8310 Topical Seminar in Cognitive Psychology is taken twice for credit. One course topic provides an introduction to the biological bases of higher brain function, including attention, consciousness, emotion, executive functions, language, memory, and perception. The other provides an overview of the use of functional magnetic resonance imaging (FMRI) in the investigation of human sensory, motor, and cognitive function.

Additional Requirements:
Research Rotations:
In addition to undertaking specially designed interdisciplinary coursework, students complete research rotations during the first year of study that prepare them for independent research in the field of decision neuroscience. Students are required to complete two laboratory rotations in their first year (Fall and Spring) that would ideally be in different subfields with different mentors. Students also have the option to complete a third rotation during the Summer if they require additional exposure.

Research rotations are designed to give students a wide range of knowledge in the area of decision neuroscience by being engaged in the research of an assigned lab. When rotating through a lab (or with a research mentor), students are often paired with a senior lab member (e.g., a postdoctoral fellow or senior graduate student) to work on an ongoing research project. In some cases, they may be given a new project based on their knowledge and skill levels. Students are not, however, expected to complete a full project within an academic term.

Research Meetings:
Students are expected to attend research meetings and to be fully engaged in the research culture.

Publications:
It is expected that students will write, submit, and publish articles.

Grant Proposals:
Students are expected to prepare a grant proposal for submission to a government funding agency. Eligible students are also required to write and submit a National Research Service Award (NRSA) proposal at the end of their third year. International students who are not eligible for federal grants are encouraged to work on submissions with faculty members.

Culminating Events:
Comprehensive Examination:
The comprehensive examination is taken at the end of the second year of study. Each student must propose and defend a major area paper in her/his proposed field of research. Upon passing the exam, students choose a faculty member from either the College of Liberal Arts or Fox School as their primary mentor.

Dissertation:
The doctoral dissertation is an original empirical study that makes a significant contribution to the field. It should expand the existing knowledge and demonstrate both the student’s grasp of research methods and a mastery of her/his primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standards of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field of psychology; and be prepared for publication in a professional journal.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense, including the student's ability to express verbally her/his research question, methodological approach, primary findings, and implications. The Dissertation Examining Committee consists of the Doctoral Advisory Committee plus at least three additional doctorally prepared individuals. The majority of the individuals on the Committee must be members of the Temple University Graduate Faculty. The Dissertation Examining Committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

If a student needs to change a member of either the Doctoral Advisory Committee or the Dissertation Examining Committee, the new member must be approved by the Departmental Chair and registered with the department’s Graduate Secretary and the Graduate School. Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Graduate Secretary at least 15 days before the defense is to be scheduled. The Graduate Secretary arranges the time, date, and room within two working days, and forwards to the student the appropriate forms.

After the Graduate Secretary has arranged the time, date, and room for the defense, the student must send to the Graduate School a completed ‘Announcement of Dissertation Defense’ form, found in TUportal under the Tools tab within "University Forms," at least 10 working days before the defense. The Department posts announcements of the defense, and the Graduate School lists the defense on its website.

Economics, M.A.
COLLEGE OF LIBERAL ARTS

About the Program
The M.A. in Economics prepares the student to understand contemporary economic theory and its application to problems arising in industry, business, and government. The program gives the student an opportunity to specialize in a specific area of economics or follow a general course of study.

Time Limit for Degree Completion: 3 years, although a student whose advisor certifies that s/he is making satisfactory progress may apply for an extension of her/his program for up to a maximum of 5 years

Campus Location: Main
Full-Time/Part-Time Status: Students complete the degree program through classes offered after 5:30 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: An interdisciplinary track is available with the Department of Finance in the Fox School of Business and Management.

Areas of Specialization: The program allows specialization in several areas:

1. Econometrics
2. Health Economics
3. International Economics
4. Labor
5. Quantitative Macroeconomics

Job Prospects: The program is primarily dedicated to producing well-trained researchers and managers in the field of Economics. Many students go on to enter Ph.D. programs.

Non-Matriculated Student Policy: Students may enroll in up to 9 credits with the permission of the Graduate Director. Minimum undergraduate GPA requirements apply.

Financing Opportunities: Financial aid may be available to students through the University. For information on financial aid, please contact Student Financial Services at 215-204-2244.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1

Although students are admitted in both the Fall and Spring terms, applicants without previous graduate coursework in Economics are advised to apply for the Fall. Spring admission will only be granted when the student has taken the typical Fall term classes as a non-matriculated student. Late applications may be considered for admission.

APPLY ONLINE to this graduate program to begin the application process and receive your TUid number.

Next, visit https://www.cla.temple.edu/interfolio/economics-ma to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

- Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
- Official electronic transcripts must be sent to econgrad@temple.edu (linda.wyatt@temple.edu) or the originals mailed to:
  
  Linda Wyatt, Graduate Coordinator
  Temple University College of Liberal Arts
  Dept. of Economics
  1301 Cecil B. Moore Avenue, 822 Ritter Hall Annex (004-00)
  Philadelphia, PA 19122-6091

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with the applicant’s academic competence and/or immediate work supervisor.

Coursework Required for Admission Consideration: Details on appropriate background are available from the department upon request.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree is required. Details on appropriate disciplines are available from the department.

Statement of Goals: Approximately 500 to 1,000 words include your specific interest in Temple’s program, your research goals, your future career goals, and your academic and research achievements.

Standardized Test Scores:
GRE: Required. Scores are typically in the 60th to 99th percentile on the quantitative section and in the 45th to 99th percentile on the verbal section.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Transfer Credit: A grade of ‘B’ or better must have been earned in a peer M.A. program course in order for the credit to transfer. The maximum number of credits a student may transfer is 6.

Economics, Ph.D.

COLLEGE OF LIBERAL ARTS

About the Program
The Ph.D. in Economics is designed to prepare the student for university teaching and research as well as for positions as economists in business, government, and industry. The program emphasizes the development of advanced research and scholarship skills in applied economics areas, including applied econometrics, economic development, financial economics, industrial organization, international economics, and labor economics. The program has a strong track record of placing its graduates in desirable positions.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 5:30 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: Interdisciplinary tracks may be established with other departments.

Areas of Specialization: The Economics faculty focus their research in the major areas of applied econometrics, development economics, financial economics, industrial organization, international economics, and labor economics.

Job Prospects: The program is dedicated to producing well-trained researchers to work in academic positions and research-oriented jobs in companies, think tanks, government, and other institutions.

Non-Matriculated Student Policy: Non-matriculated students are permitted to take doctoral courses when granted an exception. Students may enroll in up to 9 credits with the permission of the Economics Graduate Director. Minimum undergraduate GPA requirements apply.

Financing Opportunities: The Economics Department has a limited number of Ph.D. assistantships that are awarded to exceptionally good candidates on a competitive basis. The assistantship requires 20 hours of service per week, which can include teaching and/or supervised research. An assistantship provides a stipend, tuition remission, and health insurance.

Admission Requirements and Deadlines

Application Deadline:
Fall: January 15
Spring: November 15

Applications received after the January 15 deadline will be considered, but will not receive priority for financial assistance. Spring admission is restricted to those students who have taken classes at Temple University in the Fall or who can pass the waiver exams. All other prospective students are advised to apply for Fall admission.

APPLY ONLINE to this graduate program to begin the application process and receive your TUid number.

Next, visit https://www.cla.temple.edu/interfolio/economics-phd to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

Total Credit Hours 42

1. These courses can be waived upon passing the departmental waiver exams.
2. Upon finishing coursework, the student enters the research stage, which involves studying Economic literature and models, preparing a dissertation proposal, and writing a dissertation. This process is structured and monitored by the use of ECON 9994 Field Examination/Dissertation Proposal Research, ECON 9998 Dissertation Proposal Research, and ECON 9999 Doctoral Thesis Research.
3. ECON 9994 is designed for students who have finished all coursework and passed the theory prelims. Along with preparing for the field exams, they must choose a topic and start researching their dissertation proposal.
4. ECON 9998 is designed for students who have passed all theory and field qualifying exams. The students are expected to complete their dissertation proposal and submit it to the Graduate Affairs Committee for consideration.
5. ECON 9999 is designed for students who have an accepted dissertation proposal. Their research should be divided into several stages, each leading to a successful dissertation defense.

Culminating Events:

Preliminary Examinations:
The purpose of the preliminary examinations is to demonstrate critical and interpretive knowledge of current research. There are two theory exams, one each in microeconomics and in macroeconomics, and two field exams. The theory exams must be passed by the end of the second year, while the field exams must be completed within three terms of passing the last theory exam.

The subject areas of the field exams are chosen by the student, in consultation with the Graduate Director. To prepare for a field exam, the student must take one or two courses in the subject area. The number of required courses is specified by the Field Examination Committee. If a required course is not offered, it can be substituted by ECON 9183 Directed Study. Students who are preparing to write their preliminary examinations should confirm a time and date with their departmental advisor.

Members of the Economics Department write the questions for the preliminary examinations. The student must answer every question on the examination in order to be evaluated. The Department Committee evaluates the examination. The evaluators look for a breadth and depth of understanding of specific research areas; a critical application of that knowledge to specific phenomena; and an ability to write technical prose. Each member votes to pass or fail the student. In order to pass, a majority of the committee members must agree that the exam has been satisfactorily completed.

Dissertation Proposal:
The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. The proposal should consist of the following:
1. the context and background surrounding a particular research problem,
2. an exhaustive survey and review of literature related to the problem,
and
3. a detailed methodological plan for investigating the problem.

The proposal should be completed and approved no more than one year after passing the last field exam. Upon approval, a timeline for completing the investigation and the writing process is established.

**Dissertation:**
The doctoral dissertation is an original empirical study that makes a significant contribution to the field. It should expand the existing knowledge and demonstrate the student's knowledge of both research methods and a mastery of her/his primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standard of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader discipline of Economics; and be prepared for publication in an academic journal.

The Doctoral Advisory Committee is formed to oversee the student's doctoral research and is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be from the department. The Chair is responsible for overseeing and guiding the student's progress, coordinating the responses of the committee members, and informing the student of her/his academic progress.

If any member of the Doctoral Advisory Committee decides to withdraw from the committee, the student shall notify the Chair of the committee and the Director of the Ph.D. program. The student is responsible for finding a replacement, in consultation with the Chair. Inability to find a replacement shall constitute evidence that the student is unable to complete the dissertation. In such a case, the student may petition the Director of the Ph.D. program for a review. Once a review of the facts and circumstances is completed, the Director rules on the student's progress. If the Director rules that the student is incapable of completing the dissertation, s/he is dismissed from the program. In such a case, the student may petition the Director of the Ph.D. program for a review. Once a review of the facts and circumstances is completed, the Director rules on the student's progress. If the Director rules that the student is incapable of completing the dissertation, s/he is dismissed from the program. This decision may be appealed to the Associate Dean of the College of Liberal Arts and, if necessary, to the Graduate School.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense. This committee is comprised of the Doctoral Advisory Committee and at least one additional faculty member from outside the department. It examines the student's ability to express verbally her/his research topic, methodological approach, primary findings, and implications. The committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

Students preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Graduate Secretary at least 15 days before the defense is to be scheduled. The Graduate Secretary arranges the time, date, and room within two working days, and forwards the appropriate forms to the student. The student then sends a completed 'Announcement of Dissertation Defense' form, found in TPortal under the Tools tab within "University Forms," at least 10 working days before the defense to the Graduate School. The Economics Department posts an announcement of the defense.

**English, M.A.**

COLLEGE OF LIBERAL ARTS

**About the Program**
The English program enjoys a high reputation for teaching and research in both traditional and innovative areas of literary history and literary criticism. The graduate program prides itself on providing students with the advantages of studying at a Research I institution in a diversity-filled urban environment.

**Time Limit for Degree Completion:** 3 years
**Campus Location:** Main and Center City. Every summer, the department offers the Rome Seminar in Art and Culture.

**Full-Time/Part-Time Status:** In order to be certified as full-time, a student must engage in at least 9 credits of coursework each term or the equivalent in supervised teaching, dissertation research, or writing. In special circumstances, the department permits part-time enrollment, but such students are not exempt from the guidelines concerning reasonable academic progress toward the degree.

**Interdisciplinary Study:** Students are encouraged to engage in serious interdisciplinary projects and to work closely with a faculty member engaged in research and publications projects that take them regularly into the areas of History, Philosophy, Psychology, the arts, and non-print media.

**Affiliation(s):** Affiliations include the Association of Departments of English (ADE) and the Modern Language Association (MLA).

**Study Abroad:** The Rome Seminar in Art and Culture is offered in the Summer term at Temple University's Rome campus, the Villa Caproni. This 6-credit graduate seminar is designed to bring together the disciplines of aesthetics and cultural studies. In its interdisciplinary thrust, the seminar is intended to serve as a foundation for advanced study in the human sciences and to reflect the most current trends of thought in post-modern culture. Applications are welcome from advanced undergraduate, graduate, and postdoctoral students in fields such as art, film studies, literature, philosophy, and social theory. The seminar entails an intensive program of classwork, field trips, and guest lectures. The city of Rome is used extensively as a resource. Accommodations are available in a Temple student Residenza or through student-arranged living accommodations in advance. All classes are taught in English.

**Areas of Specialization:** The literature faculty is unusually productive in both emerging and traditional areas of literary scholarship. The M.A. program provides options for intensive study in critical theory, cultural theory, film theory, interdisciplinary methods, minority literature, and women's studies. Traditional areas of study include Renaissance, eighteenth-century, nineteenth-century, modern, and contemporary literature, as well as rhetoric and composition.

**Job Prospects:** Graduates find jobs in the Philadelphia area and in all parts of the United States as teachers, editors, journalists, and in all professions that value writing and critical thinking.

**Non-Matriculated Student Policy:** In general, English graduate courses are open only to students who are matriculated in an English graduate degree program. However, students matriculated in another graduate program at Temple University may be admitted to introductory-level English courses at the discretion of the instructor. In exceptional cases, a non-matriculated student may request permission from the instructor to register for a course. Students who fall into these two categories must register through the Graduate Director.

**Financing Opportunities:** Assistantship monies are typically reserved for doctoral students.

**Admission Requirements and Deadlines**

**Application Deadline:**

*Fall:* February 15

To be considered for a fellowship and/or teaching assistantship, applicants should submit a complete application by December 15. Applications are accepted until February 15, although funding consideration is uncertain for later applications.

**Apply Online** to this graduate program to begin the application process and receive your TUid number.

Next, visit https://www.cla.temple.edu/interfolio/english-ma to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

- Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
- Official electronic transcripts must be sent to eng1grad@temple.edu or the originals mailed to:

  Sharon Logan, Graduate Coordinator
  Temple University College of Liberal Arts
  Dept. of English
  1114 W. Polett Walk, 1027 Anderson Hall (022-29)
  Philadelphia, PA 19122-6090

**Letters of Reference:**

**Number Required:** 3

**From Whom:** Letters of recommendation should be obtained from college/university faculty members familiar with the applicant's academic abilities.

**Coursework Required for Admission Consideration:** An applicant should hold an undergraduate degree in English or have completed equivalent coursework in English and American literature.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree is required in a Humanities discipline. A wide range of literature courses should have been taken.

**Statement of Goals:** In approximately 600 to 1,000 words, include your research goals, your particular interest in the Temple English graduate program, and your future goals.

**Standardized Test Scores:**

**GRE:** Required. Scores on the verbal section are most important on the general test.

**GRE Subject Exam in Literature:** Required. Subject test scores are highly considered. A low score does not exclude an applicant from consideration, if other application materials are strong.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 105
- IELTS Academic: 7.0
- PTE Academic: 72

**Resume:** Current resume required.

**Writing Sample:** The writing sample should be a work of literary criticism, not creative writing, approximately 12 to 15 pages in length. It should represent the best of its author's critical and writing abilities.
Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Baccalaureate: 30

Required Courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Coursework, including at least one advanced-level (8000 to 9000-level) seminar</td>
<td>27</td>
</tr>
<tr>
<td>ENG 9996</td>
<td>Master's Essay</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credit Hours 30

Language Examination: Students must demonstrate a reading knowledge of one foreign language.

Culminating Events:

Qualifying Paper:
While enrolled in ENG 9996, students must write one qualifying paper that demonstrates the student's ability to write perceptively, lucidly, and at length (4,000-6,000 words) on a literary subject. Typically a substantial revision of a paper submitted for a previous course, the qualifying paper is to be submitted in the last term of coursework. A sponsor on the Graduate Faculty must approve it for submission to the Graduate Director. Then, two members of the English Graduate Faculty other than the paper's sponsor review it. The readers may accept the essay, ask for revisions, or fail it. The paper must receive a passing grade from at least one of the non-sponsoring readers. An essay that has been failed by two readers is not accepted as an M.A. qualifying paper. With the permission of the Graduate Director, the student may revise the essay. An essay that has been revised at a reader's request must be resubmitted to the same reader to certify that the objections have been met.

English, Ph.D.

COLLEGE OF LIBERAL ARTS

About the Program

The English program enjoys a high reputation for teaching and research in both traditional and innovative areas of literary history and literary criticism. The graduate program prides itself on providing students with the advantages of studying at a Research I institution in a diversity-filled urban environment. Temple University is the only public university in the Philadelphia area offering a doctoral concentration in rhetoric and composition.

The English doctoral program offers a curriculum that provides training in broad foundational areas while also allowing for concentration in more specialized seminars and in areas of individual student interest. For students entering with an M.A., the time to completion can be five years. Students with a B.A. may need an extra year, during which adjunct teaching may be available.

Time Limit for Degree Completion: 7 years

Campus Location: Main and Center City. Every summer, the department offers the Rome Seminar in Art and Culture.

Full-Time/Part-Time Status: In order to be certified as full-time, a student must engage in at least 9 credits of coursework each term or the equivalent in supervised teaching, dissertation research, or writing. In special circumstances, the department permits part-time enrollment, but no student is exempt from the guidelines concerning reasonable academic progress toward the degree.

Interdisciplinary Study: Students are encouraged to engage in serious interdisciplinary projects and to work closely with a faculty member engaged in research and publications projects that take them regularly into the areas of History, Philosophy, Psychology, the arts, and non-print media.

Affiliation(s): Affiliations include the Association of Departments of English (ADE) and the Modern Language Association (MLA).

Areas of Specialization: The literature faculty is unusually productive in both emerging and traditional areas of literary scholarship. The doctoral program provides options for intensive study in critical theory, cultural theory, film theory, interdisciplinary methods, minority literature, and
women’s studies. Traditional areas of study include Renaissance, eighteenth-century, nineteenth-century, modern, and contemporary literature, as well as rhetoric and composition.

**Job Prospects:** About 40% of graduates hold tenure-track positions at colleges and universities. A smaller number are non-tenure-track faculty, while some work in publishing, foundations, or corporate positions. Graduates tend to find placement in the Northeast, demonstrating that the program continues to serve and enrich the region as it has traditionally. Increasingly, however, the program’s graduates have taken jobs outside the region in such locations as California, New York, Ohio, and Wisconsin.

**Non-Matriculated Student Policy:** In general, English graduate courses are open only to students who are matriculated in an English graduate degree program. However, students matriculated in another graduate program at Temple University may be admitted to introductory-level English courses at the discretion of the instructor. In exceptional cases, a non-matriculated student may request permission from the instructor to register for a course. Students who fall into these two categories must register through the Graduate Director.

**Financing Opportunities:** All applicants are automatically considered for funding in the form of a Teaching Assistantship, which consists of five years of support, including a research semester and up to $5,000 research stipend, along with tuition waiver, healthcare, and other benefits. Conditions of the award are determined by the graduate student union contract with Temple University and currently require recipients to perform a combination of teaching and other assignments. Applications are submitted along with admissions applications by December 15. The department makes funding offers on or before March 31.

### Admission Requirements and Deadlines

**Application Deadline:**

**Fall:** February 15

To be considered for a fellowship and/or teaching assistantship, applicants should submit a complete application by December 15. Applications are accepted until February 15, although funding consideration is uncertain for later applications.

APPLY ONLINE to this graduate program to begin the application process and receive your TUID number.

Next, visit https://www.cla.temple.edu/interfolio/english-phd to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

- Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
- Official electronic transcripts must be sent to eng1grad@temple.edu or the originals mailed to:
  
  Sharon Logan, Graduate Coordinator  
  Temple University College of Liberal Arts  
  Dept. of English  
  1114 W. Polett Walk, 1027 Anderson Hall (022-29)  
  Philadelphia, PA 19122-6090

**Letters of Reference:**

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members familiar with the applicant’s academic abilities.

**Coursework Required for Admission Consideration:** The applicant should have completed an undergraduate concentration in English covering a broad chronological range.

**Master’s Degree in Discipline/Related Discipline:** A master’s degree is preferred.

**Bachelor’s Degree in Discipline/Related Discipline:** A baccalaureate degree in English is required.

**Statement of Goals:** In approximately 600 to 1,000 words, include your research goals, your particular interest in the Temple English graduate program, and your future goals.

**Standardized Test Scores:**

- GRE: Required. Scores on the verbal section are most important on the general test.
- GRE Subject Exam in Literature: Required. Subject test scores are highly considered. A low score does not exclude an applicant from consideration, if other application materials are strong.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 105
- IELTS Academic: 7.0
- PTE Academic: 72

**Resume:** Current resume required.

**Writing Sample:** The writing sample should be a literary critical essay, not a piece of creative writing, approximately 12 to 15 pages in length. It should represent the work that is to be continued in graduate school as well as the abilities the author brings to the program.

**Advanced Standing:** Students who have earned graduate credits or a master’s degree in English from another institution can transfer up to 15 credits (five courses) toward the coursework requirement for the Ph.D.

### Program Requirements

**General Program Requirements: **

*Number of Credits Required Beyond the Baccalaureate:* 48

**Required Courses:**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 5001</td>
<td>Introduction to Graduate Study in English</td>
<td>3</td>

<td>Current Directions in Critical Theory</td>
<td>3</td>
</tr>
<tr>
<td>ENG 8900</td>
<td>Advanced Study in Literature and Culture ¹</td>
<td>3</td>
</tr>
</tbody>
</table>

**5000-Level Courses**

Select two of the following:

- ENG 5011 Early British Literature
- ENG 5012 Early American Literature
The subject areas are determined, in advance, by the student and the Preliminary Examinations Committee. The exam consists of written and oral components. The written exam is normally taken in two sessions. The questions for each session generally do not exceed five, from which the student chooses two. Members of the student's Preliminary Examinations Committee write the questions for the preliminary exam. All members of the Preliminary Examinations Committee read the entire written examination and issue a grade of Pass or Fail. The essays are judged on the basis of their demonstrable mastery of the material on the list and their analytical strength. If two members of the committee grade the exam as failed, the student does not pass the written examination. Students failing the exam retake the entire exam no later than the following academic term. Students who fail the written examination twice are dismissed from the program.

After passing the written exam, the student proceeds to a one-hour oral exam. The oral must be held no more than three weeks after taking the written examination. At the oral, students should demonstrate their competence in both exam fields. They have the opportunity to discuss their written essays. The exam must be graded Pass or Fail. If the student fails the oral exam, it may be retaken once no later than the following academic term. Students who fail the oral examination twice are dismissed from the program. If the committee finds that the student’s combined performance on both the written and oral portions of the preliminary examination is exceptionally meritorious, the committee may acknowledge this by including the designation Preliminary Examinations Honors.

**Dissertation Proposal:**

The dissertation proposal should:

- identify the key issues to be investigated;
- demonstrate an awareness of the relevant scholarship in the field; and
- provide a detailed outline of the proposed dissertation.

**Dissertation:**

The dissertation should demonstrate the student’s ability to conceive, research, and write a scholarly project of at least 150 pages. The student’s doctoral research is overseen by the Doctoral Advisory Committee, which consists of at least three Graduate Faculty members. Two members, including the Chair, must be from the English Department. Committee compositions must be approved by the department’s graduate committee. The Chair is responsible for overseeing and guiding the student’s progress; coordinating the responses of the committee members; and informing the student of her/his academic progress.

The Dissertation Examining Committee evaluates the student’s dissertation and oral defense, including the student’s ability to express verbally her/his research question, methodological approach, primary findings, and implications. This committee comprises the Doctoral Advisory Committee and at least one additional Graduate Faculty member from outside the English Department. The Outside Examiner should be identified no later than the beginning of the term in which the student will defend the dissertation. The committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

If a student wishes to change a member of a committee, the new member must be approved by the department’s graduate executive committee and registered with the Graduate Coordinator and the Graduate School.

---

1. ENG 8900 is taken by students in their last term of coursework, after they have satisfied all 5000- and 8000-level course requirements.
2. Students select two advanced seminars at the 8000 level with the exception of ENG 8900 Advanced Study in Literature and Culture and ENG 8985 Teaching in Higher Education: Writing.
3. Students select seven electives in consultation with the Graduate Director and, in the final year, their dissertation advisor.
4. At least 2 of the 6 credits must be in ENG 9999 Dissertation Research.

**Language Examination:** Students must demonstrate a reading knowledge of one foreign language.

**Culminating Events:**

**Optional Master's Degree:**

Students enrolled in the Ph.D. program who do not already possess the M.A. degree may acquire the optional M.A. degree while continuing on to the Ph.D. Students who leave the Ph.D. program for any reason also can apply for the M.A. In either case, the student qualifies for the M.A. by successfully completing 30 credits of coursework; passing the foreign language requirement; and writing a Qualifying Paper that demonstrates the student's ability to write perceptively, lucidly, and at length (4,000-6,000 words) on a literary subject.

**Preliminary Examination:**

The preliminary examination, together with successful completion of coursework, should demonstrate special competence in two areas. Students define these areas by writing a protocol and constructing two reading lists, one for each area. The protocol is an explanation and justification of the two reading lists in terms of professional aims. It demonstrates competence in generally recognized areas of teaching and scholarship and explains how the fields chosen will advance the student's research.

The preliminary examination should be completed within one year of finishing coursework. Students preparing for the exam must register for ENG 9994 Preliminary Examination Preparation. They should also confirm a time and date with the Chair of their Preliminary Examinations Committee and register with the Graduate Coordinator. The student and Chair receive confirmation of the time, date, room, and proctor for the examination.
Students who are preparing to defend their dissertation should confirm a
time and date with their Dissertation Examining Committee and register
with the Graduate Coordinator at least 15 days before the defense is to
be scheduled. The Graduate Coordinator arranges the time, date, and
room. After the Graduate Coordinator has made the arrangements, the
student must send to the Graduate School a completed ‘Announcement
of Dissertation Defense’ form, found in TUportal under the Tools tab
within “University Forms,” at least 10 working days before the defense.
The department posts notices announcing the defense.

Geographic Information Systems,
P.S.M.

About the Program
The Department of Geography and Urban Studies offers graduate
work leading to the Professional Science Master’s (P.S.M.) degree
in Geographic Information Systems (GIS). The program combines
advanced training in GIS core skills with professional development
and business ethics to prepare students to enter the GIS workforce.
Our courses introduce students to a variety of cutting-edge spatial
analysis technology and mapping software. The Department of
Geography and Urban Studies faculty have expertise in a range of
GIS applications, including urban, health, environment, business,
location analysis, geovisualization, and remote sensing. The program
curriculum is informed by an advisory board of industry professionals
and incorporates real-world experiences through project-based learning
and an internship capstone requirement. Graduates are well prepared
to pursue certification as a GIS professional (GISP).

Time Limit for Degree Completion: 3 years

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program
through classes offered after 4:30 p.m. The degree program can be
completed on a full- or part-time basis. Full-time students can complete
the program in one calendar year. Part-time students are expected to
complete the program in 3 years.

Affiliation(s): The program is an affiliated Professional Science Master’s
program.

Areas of Specialization: The program specializes in Geographic
Information Systems and offers coursework in cartography, geospatial
programming, spatial database design, spatial statistics, web mapping,
geovisualization, and several applied areas. The Department offers
students the opportunity to learn in research laboratory settings equipped
with the latest technologies.

Job Prospects: The program will train a workforce that is highly
competent to meet the challenges faced by public, regulated, and private
sector industries and also adaptable to the future needs of the industries.
It provides access to a professional career, requiring both technical skills
and professional development training in areas related to business,
policy, and ethics. The program will enable students to match their
specialized training in GIS with substantive fields that utilize such training,
including criminology, epidemiology, national security, urban and regional
planning, and the natural and environmental sciences.

Non-Matriculated Student Policy: Non-matriculated students may take
up to 9 credits prior to matriculation. If accepted into the program, these
credits may be applied toward the degree.

Funding Opportunities: Typically, the Department does not provide
financial assistance to students at the master’s level. Teaching and
Research Assistantships are reserved for Ph.D. students.

Admission Requirements and Deadlines

Application Deadline:

Fall:
• March 1 – Application Deadline
• July 1 – Late Application Deadline
Spring:

• November 1 – Application Deadline
• December 7 – Late Application Deadline

Summer:

• April 15 – Application Deadline

Applications are processed as they are received. Late applications may be considered for admission.

APPLY ONLINE to this graduate program to begin the application process and receive your TUid number.

Next, visit https://www.cla.temple.edu/interfolio/gis-psm to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

• Scores for the TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
• Official electronic transcripts must be sent to GUSadmissions@temple.edu or the originals mailed to:

GIS P.S.M. Program Graduate Admissions Committee
Temple University College of Liberal Arts
1115 W. Polett Walk, 308 Gladfelter Hall (025-27)
Philadelphia, PA 19122-6089

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members or professional references familiar with the applicant's academic competence. The recommendations may be submitted on the 'Reference Report for Graduate Study' or as a traditional letter of recommendation. Letters must be signed and forwarded as a PDF on official letterhead.

Coursework Required for Admission Consideration: No specific coursework is required as applicants are drawn from a variety of disciplines.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree in any field is appropriate. An undergraduate GPA of 3.0 or an undergraduate GPA of 2.5 with 2 to 4 years of relevant professional experience is preferred.

Statement of Goals: Approximately 500 to 1,000 words include why you are interested in this program; your research and academic goals; your future career goals; your academic and research achievements; and any other information that you believe will be helpful in evaluating your application.

Standardized Test Scores:
Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

• TOEFL iBT: 88
• IELTS Academic: 6.5
• PTE Academic: 60

Resume: Current resume required.

Transfer Credit: Applicable graduate coursework may be transferred from outside the University, provided that the credits were obtained no more than five years prior to the student’s matriculation at Temple and the grades are 'B' or better. The credits must be equivalent to coursework offered at Temple. The maximum number of credits a student may transfer is 6.

Total Credit Hours: 30

1 Select four electives from a departmental list of approved courses.

GUS 5062 Fundamentals of Geographical Information Systems must be taken as an elective if the student has not completed equivalent coursework or lacks equivalent professional experience, as determined by the faculty advisor.

Culminating Events:

GIS Capstone:
The GIS Capstone course (GUS 9187) provides an experiential and industry-relevant learning experience for students matriculated in the GIS Professional Science Master’s program at Temple. Students engage in a structured internship experience (140 hours during the term) identified with the guidance of P.S.M. faculty at Temple and a prospective employer. The student completes a GIS-oriented project during the internship that draws on the GIS science and professional skills developed through the P.S.M. curriculum.

Geography and Urban Studies, M.A.

COLLEGE OF LIBERAL ARTS

About the Program
The Department of Geography and Urban Studies offers graduate work leading to the Master of Arts degree. The program prepares students for further study and for careers in academia, community organizing and social change efforts, economic development, environmental management, geographic systems management, and planning and public administration. Throughout, emphasis is placed on the development of research techniques and analytical skills applicable to problem solving.

Time Limit for Degree Completion: 3 years

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: Faculty members in the Department of Geography and Urban Studies hold doctoral degrees in a half dozen different social sciences. Even beyond the interdisciplinary expertise of the departmental faculty, the program draws on the expertise of Graduate Faculty conducting research and teaching courses in related departments across the university.

Affiliation(s): The program is affiliated with the Association of American Geographers and the Urban Affairs Association.

Areas of Specialization: The graduate program in Geography and Urban Studies emphasizes study and research in the areas of environmental issues, gender and race, geographic methods, international development, social and spatial theory, and urban development. Areas of applied work include cartography, environmental analysis, geographic information science, land-use planning and management, and regional development. The Department offers students a chance to be trained in geographic information science in a research laboratory equipped with the latest technology.

Job Prospects: Graduates have continued their education by pursuing doctoral degrees in some of the nation's most prestigious Ph.D. programs. Graduates also find employment in public sector agencies that deal with environmental planning, land use, and urban problems. In addition, they work for quasi-public social service institutions that address various needs of urban residents, as well as for private sector firms whose business requires an understanding of urban and spatial dynamics.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits prior to matriculation. If accepted into the program, these credits may be applied toward the degree.

Funding Opportunities: Typically, the Department does not provide financial assistance to students at the master's level. Teaching and Research Assistantships are reserved for Ph.D. students.

Admission Requirements and Deadlines
Application Deadline:
Fall: March 1
Spring: November 1

Applications may be reviewed prior to the deadlines. Although students are sometimes admitted for the Spring term, the Department encourages applicants to apply for the Fall term since the program sequence is designed to begin at that time.

APPLY ONLINE to this graduate program to begin the application process and receive your TUid number.

Next, visit https://www.cla.temple.edu/interfolio/gus-ma to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

• Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
• Official electronic transcripts must be sent to GUSadmissions@temple.edu or the originals mailed to:

Coursework Required for Admission Consideration: No specific coursework is required as applicants are drawn from a variety of disciplines.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree in any of the social sciences is appropriate. A bachelor's degree in another discipline may also be considered.

Statement of Goals: Approximately 500 to 1,000 words include why you are interested in Temple's Geography and Urban Studies program; your research and academic goals; your future career goals; your academic and research achievements; and any other information that you believe will be helpful in evaluating your application. The Graduate Admissions Committee is particularly interested in students' interests and goals and whether they fit with our program offerings and faculty interests.

Standardized Test Scores:
GRE: Required. A combined score of at least 297 is required for the quantitative and verbal sections of the exam.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

  • TOEFL: 88
  • IELTS Academic: 6.5
  • PTE Academic: 60

Resume: Current resume required.

Writing Sample: At its discretion, the Graduate Admissions Committee may request a writing sample.

¹ Students select two courses from a departmental list of approved methodology courses.

Culminating Events:

Master's Research Paper:
In a student's final term, s/he develops a high-quality paper on a topic of her/his choice. Students meet as a class to facilitate their projects. The class is graded on a pass/fail basis. The course instructor evaluates the paper and determines whether the student passes the class.

COLLEGE OF LIBERAL ARTS

About the Program

The Ph.D. program trains students in interdisciplinary and spatially integrative frameworks and equips them with specialized skills to pursue cutting-edge research and to address real-world conditions. The program draws on its Philadelphia location to provide students with opportunities to engage in public policy and urban research. Students can utilize the faculty’s linkages with community-based organizations, educational institutions, non-governmental organizations, and public agencies, as well as their work in social movements in the local region, many other regions in the United States, and international locations.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The faculty members of the Department of Geography and Urban Studies hold doctoral degrees in geography, urban and regional planning, and other social sciences. Even beyond the interdisciplinary expertise of the departmental faculty, the program draws on the expertise of Graduate Faculty conducting research and teaching courses in related departments across the university.

Affiliation(s): The program is affiliated with the Association of American Geographers and the Urban Affairs Association.

Areas of Specialization: The graduate program in Geography and Urban Studies focuses on the themes of globalization, social justice, and sustainability as lenses through which to examine the development of urban regions. Our emphasis on globalization focuses on capital and labor flows, welfare state restructuring, identity, culture, and concepts of citizenship. In the realm of social justice, interest lies in how globalization exacerbates uneven development and contributes to increasing inequalities both between and within places, including economic inequalities, gender, and race/ethnicity. Our work on sustainability encompasses comparative dimensions of environmental sustainability on the national and global scales, environmental justice, land use/land cover analysis, sprawled development patterns, and urban ecology. As an integrative graduate program, the curriculum connects these processes, giving students a strong analytical foundation that stresses nature and societal relations, place and context, scale transitions, and spatial relations.

Job Prospects: Graduates are typically employed in academic settings as teaching-research scholars in geography and in interdisciplinary fields such as environmental studies, international studies, and urban studies. They also serve research-oriented organizations such as non-governmental organizations, policy institutes, and think tanks as applied researchers and administrators.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits prior to matriculation. If accepted into the program, these credits may be applied toward the degree.

Funding Opportunities: Financial support is available to graduate students through a variety of university and departmental teaching and research assistantships, fellowships, and awards. Most assistantships and fellowships carry a stipend plus a tuition waiver. Assistantships typically require 20 hours of work per week devoted to assisting faculty with either teaching or research. Teaching Assistants grade papers, lead discussion sections, and occasionally lecture in large undergraduate classes. Advanced graduate students are sometimes assigned their own undergraduate class to teach.

In recent years, a number of graduate students have been supported by externally funded faculty research projects. Positions on funded research projects may include full or partial tuition coverage in addition to the stipend for up to 20 hours of work per week. The timing and availability of such opportunities depend on the status of faculty research projects and external grants.

Admission Requirements and Deadlines

Application Deadline:

Fall: January 15

Applications may be evaluated before the deadline, if submitted early, and after the deadline at the discretion of the Graduate Chair.

APPLY ONLINE to this graduate program to begin the application process and receive your TUid number.

Next, visit https://www.cla.temple.edu/interfolio/gus-phd to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

- Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.

- Official electronic transcripts must be sent to GUSadmissions@temple.edu or the originals mailed to:
  Graduate Admissions Committee
  Temple University College of Liberal Arts
  Dept. of Geography and Urban Studies
  1115 W. Polett Walk, 308 Gladfelter Hall (025-27)
  Philadelphia, PA 19122-6089

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with the applicant's academic competence. The recommendations may be submitted on the Reference
Report for Graduate Study or as a traditional letter of recommendation. Letters must be signed and uploaded to https://www.cla.temple.edu/interfolio/gus-phd as a PDF on official letterhead.

Coursework Required for Admission Consideration: No specific coursework is required as applicants are drawn from a variety of disciplines.

Master's Degree in Discipline/Related Discipline: A master's degree is not required but is highly recommended.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree is required. It should have been earned in Criminal Justice, Economics, Geography, Political Science, Psychology, Sociology, or Urban Studies, among other disciplines.

Statement of Goals: Approximately 500 to 1,000 words include why you are interested in Temple's Geography and Urban Studies program; your research and academic goals; your future career goals; your academic and research achievements; and any other information that you believe will be helpful in evaluating your application. The Graduate Admissions Committee is particularly interested in students' interests and goals and whether they fit with our program offerings and faculty interests.

Standardized Test Scores:
GRE: Required. A combined score of at least 300 is required for the quantitative and verbal sections of the exam.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 88
- IELTS Academic: 6.5
- PTE Academic: 60

Resume: Current resume required. Resumes must be uploaded to https://www.cla.temple.edu/interfolio/gus-phd.

Writing Sample: At its discretion, the Graduate Admissions Committee may request a writing sample.

Advanced Standing: Graduate coursework taken at an accredited institution as part of a master's degree program prior to matriculation at Temple may be accepted for Advanced Standing Credit. An applicant must supply an official transcript from her/his prior graduate institution to the Graduate Chair. The Graduate Admissions Committee reviews the request. Only grades of 'B' or better can be accepted. If the request is granted, the student receives advanced standing and is awarded a maximum of 24 credits. Normally, these credits should have been earned no more than five years prior to the student's matriculation at Temple.

Four methodology courses selected from a departmental list

Seven electives

Total Credit Hours 51

Culminating Events: Qualifying Examination:
The qualifying exam is taken after all coursework is completed. The exam has written and oral components. Students develop the parameters of the exam with their committee, which approves reading lists prepared by the student before the exam. All parts of the written exam must be passed before the student proceeds to the oral exam. The oral exam, based on the written portion, assesses the candidate's readiness to commence dissertation research.

In conjunction with her/his Graduate Advisor, each student identifies at least two other faculty members for the exam committee. At least two committee members must be GUS faculty, while the third may be from outside the Department. The Graduate Advisor/Chair and all but one of the remaining members of the examination committee must approve in order for the student to pass.

Students are expected to demonstrate breadth of knowledge and intellectual sophistication across the fields of Geography and Urban Studies. Students should be able to employ various theoretical approaches to investigate geographic and urban patterns and processes and to use data to illuminate concepts. When the student has passed the exam (1 credit), s/he achieves candidacy. If the student fails the exam, s/he is given the opportunity to retake the exam, usually within one term. If the student fails the second time, s/he is recommended for academic dismissal.

Ordinarily, the exam should be administered no later than six months after coursework is completed. Several different written formats are possible, at the discretion of the committee, including a single extended paper, individual papers prepared for separate examiners, and closed or open book exams administered within a time limit. The oral portion of the exam may expand on the questions asked on the written exam. It may include additional but related questions.

Proposal:
The proposal defines the research problem, scholarly significance, pertinent literature, and methodology. It should contain an outline of the projected document and timeline for completing various tasks involved in the dissertation. Within one term after finishing the qualifying exam, a candidate is expected to submit a 5 to 6 page preliminary dissertation proposal to the Doctoral Advisory Committee. Within one year of passing the qualifying exam, a candidate is expected to submit a more substantial proposal to the committee members. When the proposal is ready, the committee chair schedules a meeting of the committee. The student gives an oral presentation of the proposal; the committee members ask questions and give suggestions. The committee must approve the proposal and give specific instructions on how the student can improve it.
After the meeting, the committee chair sends a letter to the Department’s Graduate Director indicating whether it has been accepted (1 credit) or rejected, and summarizing comments from the overall committee. At that time, the student is scheduled to present her/his proposal at a departmental colloquium.

**Dissertation:**
The Ph.D. dissertation should make an original contribution to the field of Geography and Urban Studies. The dissertation must demonstrate formulation, design, and independent execution of a significant research project. The student must complete a minimum of 4 credits of dissertation research. While no ceiling on the number of dissertation credits exists, students should note that seven years from matriculation is the time limit for completion of the degree.

When the student and the committee chair judge the dissertation complete and ready to be defended, the committee chair schedules the defense. The Coordinator arranges the time, date, and room, and forwards to the student the appropriate forms. With approval of the committee chair, the Coordinator sends a completed ‘Announcement of Dissertation Defense’ form, found in T’Portal under the Tools tab within “University Forms,” to the Graduate School at least 10 working days before the defense. The Coordinator notifies all members of the Dissertation Examining Committee and all faculty members and graduate students in the Department. Changes in the membership of a committee must be approved by the Department’s Graduate Director. If approved, the Graduate School must be notified.

The entire Dissertation Examining Committee must attend the defense to evaluate the student’s dissertation and oral defense. This committee is comprised of the Doctoral Advisory Committee and at least one additional Graduate Faculty member from outside the Department of Geography and Urban Studies. Affiliated faculty may serve as external members of the Dissertation Examining Committee. The student presents a formal lecture at the defense. The oral defense should demonstrate that the student’s work satisfies the standards for original research in Geography and Urban Studies; that the candidate has mastered the appropriate methodology or methodologies; and that the candidate has an understanding of the relationship of the dissertation to the broader field. Following the public lecture and discussion, the Dissertation Examining Committee convenes in a closed session with the candidate for the defense. Directly after this session, the committee votes whether to accept or reject a completed dissertation.

**History, M.A.**

**COLLEGE OF LIBERAL ARTS**

**About the Program**

Temple University offers a varied and flexible program for graduate training in History at the master’s level. While general requirements ensure that every graduate is familiar with the basic issues of History and the latest approaches of professional historians, students are encouraged to tailor their programs to suit their own particular interests. To enrich their appreciation of History, students are also welcome to study in other disciplines. This program provides enrichment opportunities for teachers in secondary schools, students hoping to pursue history doctorates elsewhere, and professionals in various public history fields. Philadelphia is a rich public history environment with numerous opportunities for internships and fieldwork.

**Time Limit for Degree Completion:** 3 years, although a student whose advisor certifies that s/he is making satisfactory progress may apply for an extension of her/his program for up to a maximum of 5 years

**Campus Location:** Main, Center City

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** The program encourages interdisciplinary coursework, research, and interactions among faculty and students.

**Affiliation(s):** The History program at Temple is affiliated with the Biographical Dictionary of Pennsylvania Legislators, the Center for the Study of Force and Diplomacy, The Myer and Rosaline Feinstein
**Admission Requirements and Deadlines**

**Application Deadline:**

*Fall*: February 15

Applications are evaluated together after the deadline date.

**APPLY ONLINE to this graduate program** to begin the application process and receive your TUid number.

Next, visit [https://www.cla.temple.edu/interfolio/history-ma](https://www.cla.temple.edu/interfolio/history-ma) to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

- Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
- Official electronic transcripts must be sent to history@temple.edu or the originals mailed to:

  Temple University College of Liberal Arts  
  Dept. of History  
  1115 W. Polett Walk, 913 Gladfelter Hall (025-24)  
  Philadelphia, PA 19122-6089

**Letters of Reference:**

**Number Required:** 3

*From Whom*: Letters of recommendation should be obtained from instructors or other individuals who are familiar with the applicant's academic work.

**Coursework Required for Admission Consideration**: Applicants are expected to have majored or minored in History or a related discipline at the undergraduate level. Applicants lacking that qualification are considered on a case-by-case basis.

**Bachelor's Degree in Discipline/Related Discipline**: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

**Statement of Goals**: Approximately 500 to 750 words include a clear statement of your interest in the master's program in History at Temple University and how Temple's program meets your needs; your major historical interests; your career goals; and your academic and research achievements, if applicable.

**Standardized Test Scores**:

*GRE*: Required. Combined scores on the verbal and quantitative sections should exceed 300.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Writing Sample**: The writing sample should demonstrate an applicant's ability to conduct research and write a scholarly paper. It should be fully referenced according to a professional, scholarly style manual and should not exceed 30 pages in length.

**Transfer Credit**: Graduate credits from an accredited institution may be transferred into the History program. Transferred credits must be equivalent to coursework at Temple and carry a 'B' grade or better. They may not have been used to obtain another degree. Incoming students may transfer a maximum of 6 credits.

**Program Requirements**

**General Program Requirements**:

*Number of Credits Required Beyond the Baccalaureate: 30*

**Required Courses**:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 8714</td>
<td>Historical Methods</td>
<td>3</td>
</tr>
<tr>
<td>HIST 5152</td>
<td>Digital History or HIST 8152 Managing History</td>
<td>1</td>
</tr>
<tr>
<td>Two 9000-level research seminars</td>
<td>2</td>
<td>6</td>
</tr>
<tr>
<td>Total Credit Hours</td>
<td></td>
<td>30</td>
</tr>
</tbody>
</table>

1 Course selection is determined by the student's specific interests and goals. It is recommended that one skills-based course, such as HIST 5152 Digital History or HIST 8152 Managing History, be taken. Those with a concentration in Public History are required to take both HIST 8101 Introduction to American History I (to 1865) and HIST 8152 Managing History.

2 Students may take only one writing seminar in an academic term. The second seminar should be taken in the student's last term of study. Students choose whether to combine the two 9000-level courses to produce a master's thesis.

**Internship**: An internship is required only of students pursuing Public History as a primary or secondary field.

**Culminating Events**: Both thesis and non-thesis options are offered as a culminating event. The default position of the department is that students opt for the non-thesis option.

**Non-Thesis Option**: 
All M.A. students are required to take two writing seminars along with the Ph.D. students. The writing seminars are open writing workshops, eschewing a particular time period or geographic focus on which students must concentrate, and instead allowing students to pursue whatever interest they wish. Students work with the course instructor who sets deadlines; provides feedback on argument, structure, and writing; and, with input from the faculty mentor, assigns a grade for the course. Students also, where appropriate, work with another faculty mentor whose area of expertise aligns with the student's research topic.

**Thesis Option:**
Before beginning the second writing seminar, students choosing the thesis option must formally declare that they will continue and build on the research paper written for the first writing seminar. Essentially, the first research paper is treated as one chapter in an M.A. thesis and the second chapter is written during the second writing seminar. Permission from both the faculty mentor who will oversee the project and the M.A. Coordinator is required. The instructor of the second writing seminar must also be advised of a student's choice to work on a thesis.

The M.A. thesis in its entirety must be signed by a first reader, i.e., the faculty mentor, and a second reader, who may or may not be one of the faculty members who taught the two research classes. The thesis advisor/first reader gathers the necessary signatures.

Students who pursue an M.A. thesis but do not complete it must have produced work comparable to two distinct seminar papers to complete the degree program.

**History, Ph.D.**

**COLLEGE OF LIBERAL ARTS**

**About the Program**
Temple University offers a varied and flexible program for graduate training in History on the Ph.D. level in the Philadelphia area, which is rich in historical archives and museums. While general requirements ensure that every graduate is familiar with the basic issues of History and the latest approaches of professional historians, the program focuses on two thematic areas: Environments, Cities, and Cultures; and War, Empire, and Society. The thrust of the Ph.D. program is to prepare professional historians who are equipped to function in academia, public history, government service, or other related careers.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main, Center City

Students take many of their courses at the Center City Campus, while preliminary examinations and dissertation defenses are conducted on Main Campus.

**Full-Time/Part-Time Status:** Students are required to complete the Ph.D. program on a full-time basis.

**Interdisciplinary Study:** The program encourages interdisciplinary coursework, research, and interactions among faculty and students.

**Affiliation(s):** The History program at Temple is affiliated with the Biographical Dictionary of Pennsylvania Legislators, the Center for the Study of Force and Diplomacy, The Myer and Rosaline Feinstein Center for American Jewish History, the Social Science Data Library, and Temple's Urban Archives.

**Areas of Specialization:** Faculty members specialize and offer substantial coursework in anti-colonial movements, cultural history, diplomatic history, gender, imperialism, international history, military history, political history, race and ethnicity, religious history, sexuality, and social history. Thus, two thematic areas constitute the focus of the Ph.D. program:

- Environments, Cities, and Cultures
- War, Empire, and Society

Although training is offered in many different historical eras at Temple, most doctoral students write dissertations that focus on the eighteenth,
nineteenth, or twentieth century. Most, but certainly not all, of the History Department's doctoral students focus on the history of North America.

Job Prospects: The program is primarily dedicated to producing well-trained historians who work in academia and public history.

Non-Matriculated Student Policy: Non-matriculated students are permitted to take up to 9 credits of coursework. These courses can be transferred into the degree program after their admission only if they earn a grade of 'B' or higher.

Financing Opportunities:
Teaching Assistantships:
Teaching Assistants are required to teach or assist in teaching at Temple. Their duties include 20 hours of service per week. Teaching Assistants receive tuition waivers for all courses taken during the Fall and Spring terms (up to 9 credits) that contribute to the student’s program, plus a stipend and health insurance benefits. All Teaching Assistants are doctoral students.

Teaching Assistantships can be renewed for up to four years. Decisions regarding Teaching Assistantships are made annually in the Spring term. New applicants for the Ph.D. program are automatically considered. Advanced Ph.D. students who are not currently Teaching Assistants and who wish to be considered should send an application to the Chair of the History Department by January 31.

Fellowships:
Presidential and University Fellowships provide support for four years. The Graduate School funds Years 1 and 4; the College of Liberal Arts funds Years 2 and 3. In addition to free tuition and health coverage, these fellowships carry a stipend. While on fellowship, the student must take a minimum of 9 credits each term during the academic year. Students are nominated for a fellowship by the department upon admission to the program.

Fellowships from the Center for the Humanities at Temple (CHAT):
CHAT Senior Doctoral Fellowships provide support to advanced doctoral students pursuing research in the humanities or humanistic social sciences in any school or college at Temple. Fellows receive funding for full-time work on their dissertation. This includes a stipend, tuition, benefits, and $500 in research funding for the term. Fellows receive office space at the Center and participate in the bi-weekly Fellows Seminar.

CHAT Graduate Teaching Fellowships provide support for research and offer the opportunity to teach innovative and interdisciplinary humanities courses. CHAT Graduate Teaching Fellowships are configured as 75% directed research or creative activity in the applicant’s area of interest and 25% teaching for a course of wide humanistic concern related to that interest, as it is tied to the focus of particular departments or programs.

Our students are highly competitive for CHAT fellowships.

Dissertation Completion Grant:
Students may apply for a dissertation completion grant in their last term before graduation. Applications are due in the History Graduate Office on the second Friday in March and the second Friday in October, which is one week prior to the Graduate School deadline. The Director of Graduate Studies or the Department Chair submits a letter of nomination on behalf of each applicant. Departmental nomination does not, however, guarantee the nominee receipt of the dissertation completion grant. Note that receipt of this grant disqualifies a student from receiving further financial support from Temple University.

Appointment as Part-Time Instructor:
Ph.D. candidates are eligible for appointment as part-time instructors. The Department Chair, after consulting with the Director of Graduate Studies, is responsible for these appointments. S/he considers whether the candidate has assisted in the course and, if so, consult the faculty whom s/he has assisted. Priority is given to qualified students who have not had the opportunity previously to teach independently.

Awards and Grants:
The History Department and the Center for the Study of Force and Diplomacy provide several awards and grants annually. For more information on these, see https://www.cla.temple.edu/history/student-life/.

Admission Requirements and Deadlines

Application Deadline:
Fall: December 15

Applications are evaluated together after the deadline date.

APPLY ONLINE to this graduate program to begin the application process and receive your TUid number.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from instructors or other individuals who are familiar with the applicant’s academic work.

Coursework Required for Admission Consideration: Applicants are expected to have majored or minored in History at the undergraduate level or to have received an M.A. in History. Those who lack either of these qualifications are considered on a case-by-case basis.

Master’s Degree in Discipline/Related Discipline: A master’s degree is not required.

Bachelor’s Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Statement of Goals: Approximately 500 to 750 words include a clear statement of your interest in the doctoral program in History at Temple University and how Temple’s program meets your needs; your major historical interests; your career goals; and your academic and research achievements, if applicable.

Standardized Test Scores:
GRE: Required. Combined scores on the verbal and quantitative sections should exceed 303.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Writing Sample: The writing sample should demonstrate the applicant’s ability to conduct research and write a scholarly paper. It should be fully referenced according to a professional, scholarly style manual and should not exceed 30 pages in length.

Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Master’s: 24
Number of Credits Required Beyond the Baccalaureate: 39

Required Courses:
Doctoral students must take at least 11 courses in the History Department, and may elect to take courses outside the department with the permission of the Director of Graduate Studies. A minimum of 10 courses must be completed before the general examination can be taken. Students should consult with their advisor for specific field requirements for the following required courses:

- One methodology seminar [HIST 8714 Historical Methods (3 s.h.)], taken in the first year of study in the first academic term.
- Two 9000-level research/writing seminars (currently HIST 9208 Seminar in International History repeated for a total of 6 credits) in which a substantial piece of original research is produced; one course must be taken in the first year, preferably in the second term.
- Eight 5000- and 8000-level reading and literature review courses (24 credits), with the course offerings coordinated by the Director of Graduate Studies; four of the courses are recommended to be taken in the student’s area of interest.
- 6 credits of HIST 9994 Preliminary Examination Preparation, HIST 9998 Pre-Dissertation Research, and HIST 9999 Dissertation Research.

Language Examination: All students must show competence in at least one foreign language. To demonstrate competence, a student must pass a short translation exam administered, in most cases, by the University’s language departments. The dissertation advisor determines whether competence in a second language is required. The language requirement must be satisfied prior to taking the general examination. For doctoral students in American History, the language requirement may be waived at the discretion of the advisor and with the approval of the Director of Graduate Studies.

Culminating Events:
Pre-Dissertation Research:
All doctoral students in American History take a preliminary exam in American history in the September of their third term of study. The preliminary exam is a take-home exam consisting of one synthetic question covering all of American history. Students choose from two questions and have one week to write an essay of no more than 6,000 words. The exam is set by an exam committee of three to five Graduate Faculty in American History appointed by the Director of Graduate Studies.

The Director of Graduate Studies asks all American historians in the History Department to suggest seven books for a U.S. field list of approximately 60 books that doctoral students in American History are expected to have read by the time of the preliminary exam. The exam question is based on this list. The exam committee, newly appointed each year, constructs the list in the first instance from the suggested books, and each year the committee is responsible for updating the reading list. That list is distributed to incoming doctoral students in American History when they matriculate into the program.

The term of each exam committee begins when a Ph.D. cohort enters the doctoral program in August and runs until that cohort takes its exam the following September. At the end of the Fall and Spring terms, the exam committee is responsible for conducting a workshop with first-year doctoral students in which the expectations of the preliminary exam are discussed. The exam is graded blindly by the exam committee.

Doctoral students who twice fail the preliminary exam are dismissed from the program.

General Examination:
Doctoral students in American History who pass the preliminary exam proceed to the general exam, which consists of three fields:

- One field must be geographically distinct from American history, such as Latin American history. The reading list for the geographically distinct field is limited to no more than 50 books or article equivalents.
- The other two fields are research fields, in a period or methodology, such as Early American, Early Republic, environmental, foreign relations, gender, military, public, or urban history. Each research field is limited to no more than 70 books or article equivalents.

Doctoral students in American History must complete the general exam by the end of their fifth term. This oral exam is two hours long. Students are asked to discuss issues pertinent to their prepared fields of study. To pass the exam, all members of the committee must approve of the student’s performance. Students may retake the oral exam if they fail it. After failing twice, students are dismissed from the program.

For all doctoral students not specializing in American history, the general examination is a take-home exam. Examinees have up to two weeks to complete it. During that time, they are expected to write an original essay approximately 2,500 to 3,500 words in length for each of the three fields on the examination. Examinees should obtain the questions for the examination from and return the completed examination to the Graduate Secretary. Examinees are expected to provide the Graduate Secretary with both a hard copy and a disk that contains their completed examination.

With the written examination, students need to demonstrate their mastery of the field, their ability to explain and evaluate interpretations, and their ability to defend their own interpretation. Bibliographic citations to specific interpretations are expected. Satisfactory completion of the Ph.D. general examination requires receiving passing grades in all three fields (‘general,’ ‘dissertation,’ and ‘distinct’).

Upon passing the written exams, students are given a two-hour oral exam by their General Examination Committee. The oral exam should be scheduled within 30 days of the beginning of the written exam. Students may be asked to defend or expand on their written exams, and may also
be asked to discuss other issues pertinent to their prepared fields of study. To pass the exam, all members of the committee must approve the student’s performance.

The general examination must be completed by the end of the student’s fifth term in the doctoral program. Doctoral students who have been granted a leave of absence must complete their general examination no later than the sixth week of the sixth term in the doctoral program. (Ideally, students in the doctoral program complete their coursework by the end of the fourth term.) Failure to complete the coursework and take the general examination by the end of the fifth term of matriculation may be considered grounds for dismissal from the program.

University-wide regulations governing examinations when a Ph.D. student matriculated apply throughout her/his career until the degree is received. If departmental or college regulations change, the student similarly follows the rules in place at the time of her/his matriculation unless s/he obtains approval of the advisory committee and written permission from the Graduate Council to follow more recent requirements.

Students preparing to take their general examination should confirm times and dates with their General Examination Committee Chair, other committee members, and the Graduate Secretary. All parties involved receive confirmation of the times, dates, and rooms for the examination.

Dissertation Committee:
After passing the general exam and in consultation with the primary advisor, students select the members of their Doctoral Advisory Committee. The Doctoral Advisory Committee is formed to oversee the student’s doctoral research and is comprised of at least three Graduate Faculty members, two of whom are from the History Department. The student’s primary advisor functions as the chair of this committee and is responsible for overseeing and guiding the student’s progress, coordinating the responses of committee members, and informing the student of her/his academic progress.

Further, either during the process of writing the dissertation prospectus, or at some time following its approval, students, again in consultation with their primary advisor, select a qualified external reader of the dissertation. The external reader may either be on the faculty of a Temple University department other than History or a member of the faculty of a college/university other than Temple. Once s/he has agreed to serve in the capacity (and received approval from the Graduate School), s/he will be added to the Dissertation Examining Committee. The total membership of the Dissertation Examining Committee may exceed four faculty (the minimum being the three Graduate Faculty members who approved the prospectus plus the external reader). A majority of the committee’s members, however, must be Temple University History Department Graduate Faculty.

Prospectus:
All doctoral candidates must prepare a dissertation prospectus in close consultation with the advisor prior to advancing to Ph.D. candidacy. This document, usually 15 to 20 pages in length, must achieve the following goals:

1. Identify the major research question of the dissertation.
2. Situate the dissertation in the existing scholarly literature.
3. Lay out a coherent research strategy that identifies the archives and sources that will be used.
4. Include a timeline for research and writing of the dissertation.

The prospectus defense is a public event, open to History Department faculty and doctoral students. At this event, the doctoral candidate makes a brief presentation lasting approximately 10 to 20 minutes, outlining the contents of the prospectus. A copy of the dissertation prospectus is made available at least one week before the defense for examination by the faculty. During the defense, faculty and students engage the candidate in vigorous conversation about the proposed project.

The prospectus must be defended before the end of the sixth term. Failure to defend the prospectus by the end of the sixth term is grounds for dismissal from the doctoral program. At the end of the defense, the candidate’s Doctoral Advisory Committee meets privately to vote on advancing the student to Ph.D. candidacy.

Dissertation:
Dissertations must be written and defended within seven years of matriculation. Students who have made satisfactory progress toward completing their dissertation can apply for an extension of up to three additional years. Therefore, the maximum total time permitted for completing the Ph.D. program is ten years. Students in the Ph.D. program must register each term until all requirements for the degree have been fulfilled unless they receive a leave of absence.

All dissertations must be prepared in accordance with the guidelines of the Dissertation and Thesis Handbook, found at https://grad.temple.edu/resources/dissertation-thesis-handbook. Students should arrange a procedure for submitting draft chapters for review to their primary advisor and other members of the Doctoral Advisory Committee.

When the chair and a majority of the Dissertation Examining Committee agree that the written dissertation is of sufficient quality to be defended, the student should arrange with the Committee a time for the oral defense to be held. The student should then notify the Graduate Secretary of the proposed defense date. The oral defense must be publicly announced in writing at least ten days in advance of the date of the defense and must be open to the public. A copy of the dissertation is made available to the department at least one week before the defense for examination by the faculty.

An Oral Defense Chair must be identified. This person must be a Temple University presidential faculty member and may not be the chair of the student’s Dissertation Examining Committee.

In the event that a member of the Dissertation Examining Committee cannot attend the defense, teleconferencing or videoconferencing is arranged. This arrangement must be approved by the Graduate School prior to the defense. No more than one member of the Dissertation Examining Committee can be physically absent from the defense.

The dissertation defense is a public event, open to History Department faculty and doctoral students. At this event, the doctoral candidate makes a brief presentation outlining the main argument of the dissertation. During the defense, faculty and students engage the candidate in a vigorous conversation about the project. At the end of the defense, the Dissertation Examining Committee meets privately to vote on the candidate’s performance. The candidate is notified immediately of the decision.

**Liberal Arts, M.L.A.**

**COLLEGE OF LIBERAL ARTS**

**About the Program**
The Master of Liberal Arts is an interdisciplinary degree that allows students to take courses from a variety of graduate programs in the College of Liberal Arts and elsewhere in the University. Students are encouraged to develop an individual program of study, based on their own interests and objectives and at the direction of the M.L.A. Program Director. Our students are generally working adults who want to grow intellectually by extending their liberal arts education. Some may be seeking to move toward a doctorate and want to prepare themselves for graduate work; others may be interested in changing careers and wish to gain post-baccalaureate experience. The M.L.A. degree might be relevant, for example, for those who want to move into educational administration, library work, public policy, the law, or teaching.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main, Center City

Students take required and elective courses at the Main and Center City campuses.

**Full-Time/Part-Time Status:** Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

**Continuous Enrollment:** Students must maintain continuous enrollment. When a student knows that s/he will not register for the Fall or Spring term, s/he must submit a ‘Leave of Absence Request’ form, found in TUportal under the Tools tab within “University Forms,” along with the $25 fee to the M.L.A. administrative office. If a student fails to register for two consecutive terms without submitting Leave of Absence forms, then s/he may be dismissed from the program for non-continuous enrollment.

**Interdisciplinary Study:** Students are introduced to interdisciplinary thinking through a range of ‘Topics’ courses and encouraged to develop individual programs of study along interdisciplinary lines.

**Areas of Specialization:** The M.L.A. program draws on faculty from across the range of disciplines in the College of Liberal Arts, with an emphasis on applied humanities, engaging such areas as arts and culture, media studies, public history, and social theory. Students may also choose to concentrate their course of study by taking courses outside of the M.L.A. curriculum.

**Job Prospects:** While not a professional degree, the M.L.A. degree may be applicable to a wide range of future graduate training and/or employment: from teaching and educational administration to library work; from public policy to arts management; and from government, the law, and public service to private sector work.

**Non-Matriculated Student Policy:** Non-matriculated students may take up to 9 credits of graduate work at Temple University before applying to the program. Coursework may be credited to the M.L.A. degree with approval of the M.L.A. Advisory Committee.

**Financing Opportunities:** Funding opportunities are not available.

**Admission Requirements and Deadlines**

**Application Deadline:**
*Fall:* March 1  
*Spring:* November 1

Applications are accepted on a rolling basis, but all application materials must be received by the deadline to be considered for that term. Late applications may be considered for admission.

**APPLY ONLINE to this graduate program** to begin the application process and receive your TUid number.

Next, visit https://www.cla.temple.edu/interfolio/liberal-arts-mla to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

- Scores for the TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
- Official electronic transcripts must be sent to morawski@temple.edu or the originals mailed to:

  Stephanie Morawski, Administrator  
  Temple University College of Liberal Arts  
  M.L.A. Program  
  1114 W. Polett Walk, 1041 Anderson Hall (022-36)
Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be requested from individuals who are well positioned to evaluate the applicant's academic abilities and accomplishments as well as potential for graduate study.

Bachelor’s Degree in Discipline/Related Discipline: All applicants must hold a baccalaureate degree from an accredited college or university. A minimum undergraduate GPA of 3.0 is required for admission.

Statement of Goals: Approximately 500 to 1,000 words include your academic and research achievements, your current research interests, and your future career goals.

Standardized Test Scores: Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

• TOEFL iBT: 79
• IELTS Academic: 6.5
• PTE Academic: 53

Resume: Current academic CV or professional resume required.

Transcripts: An official transcript from each post-secondary institution attended is required.

Transfer Credit: Graduate credits from an accredited institution may be transferred into the M.L.A. program upon approval. The credits must be equivalent to coursework offered at Temple and not older than five years. The grade(s) earned must be a ‘B’ or better in order to transfer. The maximum number of credits a student may transfer is 6.

Qualifying Paper:
All candidates for the M.L.A. degree are required to write a Qualifying Paper, which is typically 40 to 50 pages in length. It should demonstrate the student's ability to:

• write analytically on a topic of her/his choice;
• read, absorb, and evaluate scholarly thought and research; and

The Qualifying Paper is submitted for approval to the M.L.A. Advisory Committee or other graduate faculty chosen by the M.L.A. program. Revisions may be requested.

Neuroscience: Systems, Behavior and Plasticity, M.S.

COLLEGE OF LIBERAL ARTS

About the Program

Neuroscience is the study of the nervous system, including the brain, spinal cord, networks of nerve cells called neurons, and how these cells interact to generate behavior. This is a rapidly evolving field with applications ranging from health disciplines to economics and public policy. The philosophical goal of the M.S. program in Neuroscience:
Systems, Behavior and Plasticity is to provide advanced training in neuroscience and professional development via coursework and a faculty-mentored research experience to students who have completed an undergraduate major in Neuroscience or a closely related scientific area and who wish to extend their studies before moving on to other postgraduate training or professional employment. Students in this program achieve the following objectives:

• Build a core knowledge in specific areas of neuroscience, including behavioral, cellular, molecular, and systems.
• Develop a general professional competence in oral and written expression as well as in the critical analysis of research articles.
• Learn to understand, create, and undertake hypothesis-based approaches to research.
• Train in a variety of techniques and approaches to studying the nervous system.
• Develop a keen sense of analytical thinking and logic in the evaluation of their own work and that of others.
• Become effective teachers and communicators of neuroscience.
• Gain independence in thinking, teaching, laboratory work, and communicating.

Time Limit for Degree Completion: 2 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program is expected to be completed on a full-time basis.

Job Prospects: Because the brain is involved in every important human endeavor, understanding the brain and its functions opens career paths in multiple fields, including education, engineering, law, medicine, psychology, and public policy. Master’s-level education in neuroscience provides students with a wide range of career options, including:

• Biostatistician
• Clinical data manager
• Counselor
• Environmental health safety officer
• Medical or science writer
• Public health administrator
• Public policy strategist
• Regulatory affairs specialist
• Research associate at academic research institutes or in private industry
• Research and teaching administrator
• Teacher/lecturer

The United States Bureau of Labor Statistics identifies the breadth of employment opportunities in neuroscience along with the salary ranges for different careers options based on different types of employers in its Occupational Outlook Handbook.

Non-Matriculated Student Policy: Non-matriculated students are eligible to take graduate courses. If accepted into the program, up to 9 credits may be applied toward the degree program.

Financing Opportunities: Assistantships are not available for the M.S. program.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1

APPLY ONLINE to this graduate program to begin the application process and receive your TUid number.

Next, visit https://www.cla.temple.edu/interfolio/neuroscience-sbp-ms to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

• Scores for the TOEFL, if applicable, must be reported directly by ETS to institution code 2906.

  Neuroscience Program
  1701 N. 13th Street, 618 Weiss Hall (265-67)
  Philadelphia, PA 19122-6085

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty who are familiar with the applicant’s academic abilities.

Bachelor’s Degree in Discipline/Related Discipline: All applicants must hold a baccalaureate degree (B.A. or B.S.) in one of the following disciplines:

• Bioengineering
• Biology
• Chemistry
• Human Movement Science
• Kinesiology
• Mathematics
• Neuroscience
• Physics
• Psychology
• Public Health

Other relevant disciplines, combined with or including coursework in Biology, Chemistry, Mathematics/Statistics, Neuroscience, Physics, and/or Psychology, may be accepted after individual evaluation of the applicant’s qualifications.

A minimum GPA of 3.2 in undergraduate work is required for consideration of the application to the program.

Statement of Goals: Approximately 500 to 1,000 words outline your specific interest in Temple’s program, your academic achievements, and your future career goals.

Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S.

Total Credit Hours: 30

1 Students may select any elective relevant to their area of interest or specialization with approval from the Program Director.

Culminating Events:

Master's Project:

Students are required to work on a master's project over both terms in their second year of the program. The purpose of the project is not only to train students in specific neuroscientific techniques, but also how to develop a scientific and analytical approach toward a problem, formulate clear research questions, conduct experiments, and analyze/interpret data. Depending on their career goals, students may opt to engage either in a laboratory-based research project or in a non-laboratory project.

Students who are motivated to join a doctoral program or are interested in a research position gain by working independently on a neuroscientific investigation under the supervision of a faculty member who maintains an active neuroscience research program. On the other hand, students who are not intending to engage in bench-level research upon graduation and are interested in non-research jobs, such as counseling, research administration, public policy, and teaching, may choose to engage in a non-laboratory project of a similar scope. This may include activities such as conducting a literature review on a topic and presenting it to an audience, drafting a scope of work for a grant funding agency, or preparing a consulting proposal for a prospective client.

Philosophy, M.A.

COLLEGE OF LIBERAL ARTS

About the Program

Temple’s Department of Philosophy has strengths in several areas of philosophical study. The department has a rich history and continuing presence in the field of aesthetics as Monroe Beardsley and John Fisher were in the department for many years. The department also has expertise in European philosophy, epistemology, feminist philosophy, philosophy of mind, philosophy of race, and philosophy of science.

The M.A. program is designed for students to begin advanced training in the field of Philosophy. Students may plan to continue with a Ph.D. program elsewhere, or may be satisfied with a master's degree for personal enrichment or for pre-college teaching. Students who plan at the outset to pursue the Ph.D. at Temple should apply to the Ph.D. The M.A. can be earned on the way to the Ph.D., if desired.

Time Limit for Degree Completion: 3 years

Campus Location: Main, Center City

Full-Time/Part-Time Status: Students complete the degree program through classes largely offered before 4:30 p.m. The degree program can be completed on a full- or part-time basis.
Interdisciplinary Study: The program encourages students in the M.A. program to engage in a limited amount of interdisciplinary coursework. Students generally take courses in African American Studies, Art History, English, Psychology, or Women's Studies. A dual-degree program earning the M.A. in Philosophy/M.A. in Urban Bioethics is also now being offered with the Lewis Katz School of Medicine.

Affiliation(s): The Greater Philadelphia Consortium provides expanded course options for graduate work in Philosophy. Students enrolled in the M.A. program at Temple may take graduate courses at the University of Pennsylvania and Villanova University.

Job Prospects: M.A. graduates often find employment as teachers in community colleges and in other professions. For university teaching, the Ph.D. is necessary.

Non-Matriculated Student Policy: Non-matriculated students may register for courses after an interview with the Director of Graduate Studies, at which time they should present academic transcripts. Credit toward a subsequent degree program at Temple University is limited to 9 credits.

Financing Opportunities: University Fellowships, Graduate Assistantships, and Academic Internships are ordinarily reserved for Ph.D. students.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1

Admission is competitive and determined only once a year.

APPLY ONLINE to this graduate program to begin the application process and receive your TUid number.

Next, visit https://www.cla.temple.edu/interfolio/philosophy-ma to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

- Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
- Official electronic transcripts must be sent to slawson@temple.edu or the originals mailed to:

Sonia Lawson, Graduate Coordinator
Temple University College of Liberal Arts
Dept. of Philosophy
1114 W. Polett Walk, 731 Anderson Hall (022-32)
Philadelphia, PA 19122-6090

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with your academic competence.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree is required, preferably with some coursework in Philosophy.

Statement of Goals: In approximately 500 to 1,000 words, address your interest in Temple's program, your research goals, your future career goals, and your academic and research achievements.

Standardized Test Scores:

GRE: Required. Scores are typically in the 65 to 75% range on the verbal and quantitative sections.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: A short curriculum vitae should be submitted with your application.

Writing Sample: The writing sample should demonstrate your ability to research and write a scholarly paper. The paper should be 15-20 pages in length and fully referenced according to a professional, scholarly style manual. It should be in the area of Philosophy or a closely related field.

Program Requirements

General Program Requirements:

Number of Credits Required Beyond the Baccalaureate: 30

Required Courses:

The Thesis Option requires students to take 24 credits in Philosophy and 6 credits in thesis writing. The Non-Thesis Option requires students to take 6 credits in electives rather than in thesis writing.

For a current copy of the Departmental Graduate Handbook, which lists all requirements, contact Sonia Lawson, the Graduate Coordinator, at 215-204-1742 or slawson@temple.edu.

Culminating Events:

Thesis Option:
A thesis is required when choosing the Thesis Option.

Non-Thesis Option:
This option has no culminating events.

Philosophy, Ph.D.  
COLLEGE OF LIBERAL ARTS

About the Program
Temple’s Department of Philosophy has strengths in several areas of philosophical study. The department has a rich history and continuing presence in the field of aesthetics as Monroe Beardsley and John Fisher were in the department for many years. The department also has expertise in European philosophy, epistemology, feminist philosophy, philosophy of mind, philosophy of race, and philosophy of science.

The Ph.D. program is designed to provide students with a breadth of knowledge in Philosophy while emphasizing depth of knowledge through intensive work on particular philosophical issues of interest to the student. The program stresses early development of professional writing standards and oral skills. Ph.D. students are generally given the opportunity to teach courses under the guidance of the department’s Teaching Mentoring Program.

Time Limit for Degree Completion: 7 years

Campus Location: Main, Center City

Full-Time/Part-Time Status: Students complete the degree program through classes largely offered before 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The program permits students in the Ph.D. program to take a limited number of courses in non-Philosophy programs at Temple. Many students take courses in African American Studies, Art History, English, and Psychology. Students may also earn the Graduate Certificate in Women’s Studies in conjunction with the Ph.D. in Philosophy. A dual-degree program earning the Ph.D. in Philosophy/M.A. in Urban Bioethics is also now being offered with the Lewis Katz School of Medicine.

Affiliation(s): The Greater Philadelphia Consortium provides expanded course options for graduate work in Philosophy. Students enrolled in the Ph.D. program at Temple may take graduate courses at the University of Pennsylvania and Villanova University.

Job Prospects: Graduates typically find employment in college or university teaching and research. A departmental placement committee assists students with the job search.

Non-Matriculated Student Policy: Non-matriculated students may register for courses after an interview with the Director of Graduate Studies, at which time they should present academic transcripts. Credit toward a subsequent degree program at Temple University is limited to 9 credits.

Financing Opportunities: Support is available in the form of University Fellowships, Teaching Assistantships, and Academic Internships. University Fellows are typically supported with a stipend and full tuition remission for four years, teaching for two of those years. Teaching Assistants are typically required to teach introductory philosophy courses or recitation sections in large courses taught by professors. They receive a stipend and full tuition remission. All Ph.D. applications are automatically considered for financial aid.

Admission Requirements and Deadlines
Application Deadline:

Fall: January 15

Admission is competitive and determined only once a year. Applications to the Ph.D. program are automatically considered for financial aid. APPLY ONLINE to this graduate program to begin the application process and receive your TUid number.

Next, visit https://www.cla.temple.edu/interfolio/philosophy-phd to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

- Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
- Official electronic transcripts must be sent to slawson@temple.edu or the originals mailed to:

  Sonia Lawson, Graduate Coordinator  
  Temple University College of Liberal Arts  
  Dept. of Philosophy  
  1114 W. Polett Walk, 731 Anderson Hall (022-32)  
  Philadelphia, PA 19122-6090

Letters of Reference:
Number Required: 3
From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with your academic competence.

Coursework Required for Admission Consideration: Applicants typically have majored or minored in Philosophy for their bachelor’s degree.

Master’s Degree in Discipline/Related Discipline: A master's degree is not required.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree in Philosophy is standard, although not mandatory, for admission into the program.

Statement of Goals: In approximately 500 to 1,000 words, address your interest in Temple’s program, your research goals, your future career goals, and your academic and research achievements.

Standardized Test Scores:
GRE: Required. Scores are typically in the 65 to 75% range on the verbal and quantitative sections.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 105
- IELTS Academic: 7.0
- PTE Academic: 72

Writing Sample: The writing sample should demonstrate your ability to research and write a scholarly paper. The paper should be 15-20 pages in length and fully referenced according to a professional, scholarly style manual. It should be in the field of Philosophy or a closely related area.

Total Credit Hours 42

1 Of the 21 elective credits, 9 credits may be taken in cognate disciplines, subject to determination by the Director of Graduate Studies.

For a current copy of the Departmental Graduate Handbook, which lists all requirements, contact Sonia Lawson, the Graduate Coordinator, at 215-204-1742 or slawson@temple.edu.

Language Examination: Students must pass a written proficiency examination in French, German, or Ancient Greek. Other languages may be approved by the Director of Graduate Studies, provided the student makes a compelling case that the language in question is useful for dissertation work.

Culminating Events:

Dissertation Advising:
It is the student’s responsibility, in consultation with her/his primary advisor, to assemble three advisory committees. It is best to form a committee that gives the student a variety of sympathetic but critical perspectives on the project. Three distinct committees, which are largely composed of the same members, must be in place at different phases of the proposal and dissertation processes. The committee guidelines are outlined below:

1. Proposal Advisory Committee: This committee guides the student through the preparation and defense of her/his dissertation proposal. The Proposal Advisory Committee is composed of three Graduate Faculty members from the Philosophy Department. One member is named Chair. Additional members from outside the Philosophy Department may be included with written approval from the Chair and the Graduate School. Normally, the Proposal Advisory Committee becomes the Doctoral Advisory Committee upon approval of the proposal.

2. Doctoral Advisory Committee: This committee guides the student through all stages of the dissertation. The Doctoral Advisory Committee must be in compliance with University guidelines as prescribed by the Graduate School. The committee must be composed of at least three Temple University Graduate Faculty members, two of whom must be from the Philosophy Department. A member of the committee from the Philosophy Department is named Chair. If changes must be made in the Doctoral Advisory Committee after the student is elevated to candidacy, such changes must be approved by the Chair of the Advisory Committee and the Graduate School. A ‘Request for Change in Dissertation Committee’ form, found in TUportal under the Tools tab within “University Forms,” must be filed.

3. Dissertation Examining Committee: This committee consists of the Doctoral Advisory Committee plus one Graduate Faculty member from outside Temple’s Philosophy Department OR one Outside Examiner. The Outside Examiner may be from another academic institution; should not have been a part of the dissertation writing process or the Doctoral Advisory Committee; and must be approved at least two weeks prior to the defense. The Chair of the Dissertation Examining Committee must be a member of the Temple University Graduate Faculty, but may not be the Chair of the student’s Doctoral Advisory Committee. The Chair of the Dissertation Examining Committee must be identified when the defense is posted through the Graduate School.

Preliminary Examinations:
The preliminary examinations consist of writing original research papers in:

1. History of Philosophy, defined as Ancient Philosophy through the end of the 19th Century; and
2. Contemporary Philosophy, emphasizing constructivist, analytical, or other philosophical approaches to a particular issue.

Students may submit either the historical or the contemporary paper first. These papers are typically developed from a student’s best coursework papers and are generally revised with consultation with the professors who originally evaluated them. The papers should aspire to meet the standards of publication. NOTE: A successful course paper typically requires considerable work to become a successful preliminary paper. Preliminary examination essays should show both a mastery of relevant primary and secondary literature and put forward ideas that are an original contribution to the field. Graduate students are strongly encouraged to consult with faculty several months before their preliminary examination essays are due.

The first Preliminary Examination Paper is due by 4:00 p.m. on the second Monday in October at the beginning of the student’s second year, and the second paper submission is due by 4:00 p.m. on the second Monday in October at the beginning of the student’s third year. Papers must be prepared for blind review and submitted both online and in hard copy (four copies) to the Graduate Secretary. Papers should include an abstract of not more than 200 words.

All papers are prepared for blind review and evaluated by three faculty members. Papers are graded High Pass/Pass/Borderline/Fail. Papers must receive at least two grades of Pass in order to pass. Papers that receive two Borderline grades, a Fail and a Borderline, or two Fail grades automatically fail. Second-year students who fail a preliminary examination resubmit (along with their second preliminary examination) in the October of their third year. Third-year students who fail one or two preliminary examinations resubmit by 4:00 p.m. on the second Monday of the following February. Third-year students who fail a preliminary examination twice are dismissed from the program.

Students must be registered for at least one credit of PHIL 9994 Preliminary Examination Preparation in the terms in which they submit their preliminary examinations. Students who are required to resubmit their preliminary examinations must re-register for one credit hour of PHIL 9994 in the term in which the exam is to be resubmitted.

**Dissertation Proposal:**

The dissertation proposal is an opportunity for the student to develop and clearly articulate the project of the dissertation. The dissertation proposal has two components: written and oral. The written component should be 15-20 pages in length and include a statement of the problem, a critical literature review, and a sketch of how the student intends to address the philosophical problem(s) at hand. The student needs to make clear how the dissertation will be an original contribution to the field of philosophy. A detailed bibliography and chapter outline are also expected. The approved dissertation proposal serves as a contract between the student and her/his Doctoral Advisory Committee; the student agrees to complete the work outlined in the proposal under the guidance of the Doctoral Advisory Committee.

When the written component of the proposal is judged ready by the Proposal Advisory Committee, an oral examination date is set. At least two weeks before this examination, the defense is announced to the department faculty and at least two copies of the written proposal are made available in the Graduate Coordinator’s office.

The oral examination, which is conducted by the Proposal Advisory Committee, constitutes an opportunity for the student’s committee to make positive suggestions as well as to test the candidate’s preparedness. Other faculty may attend the oral examination and ask questions after the Proposal Advisory Committee has completed its questioning. The Proposal Advisory Committee decides, by majority vote, whether the candidate passes or fails the written and oral parts of the dissertation proposal.

**Dissertation:**

The dissertation should constitute a definitive and original contribution to the field of philosophy. It needs to show mastery of the relevant philosophical literature. The dissertation should be in the hands of the Dissertation Examining Committee by October 1 for December graduation and by March 1 for May graduation.

All Ph.D. students must formally and publicly defend their dissertations before the Dissertation Examining Committee. The candidate must submit the official, signed notice of the oral defense to the Graduate School 10 or more working days before the scheduled defense. A defense cannot be held without written confirmation of approval and receipt of the defense paperwork from the Graduate School.

The defense should be announced publicly and is open to all members of the University. During the defense, primary questioning is restricted to the members of the Dissertation Examining Committee. Then, Philosophy Department faculty members who have submitted written questions in advance may address the candidate. Lastly, other members of the Philosophy Department faculty may address the candidate. The Dissertation Examining Committee decides, by majority vote, whether the candidate passes or fails.

Sonia Lawson, Graduate Coordinator  
Temple University Dept. of Philosophy
Political Science, M.A.

COLLEGE OF LIBERAL ARTS

About the Program

The primary mission of the Political Science Department's graduate program is to prepare students for careers in academia. The department gives equal emphasis to training students for both the research and teaching sides of such a career. Most students in the M.A. program intend to pursue a Ph.D. either at Temple or elsewhere, immediately after graduation or after a few years of employment. Those who wish to pursue a Ph.D. at Temple are strongly encouraged to apply directly to the Ph.D. program at the outset of the admissions process. Some M.A. students use the degree to establish or strengthen credentials in teaching or for private/public sector positions; a few M.A. students want to strengthen their background for applications to other professional degree programs.

Time Limit for Degree Completion: 3 years

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 3:00 p.m. The degree program can be completed on a full- or part-time basis.

Areas of Specialization: Our particular strengths in American Politics, Comparative Politics, International Relations, and Political Theory are reflected in the brief biographical statements of our Graduate Faculty members’ research and teaching interests:

- In American Politics, faculty teach and conduct research on political behavior, political economy, political institutions, public policy, and urban politics.
- In Comparative Politics, faculty focus on the issues of democratization; public policymaking; the role of the state in the economy; and identity politics in European and post-communist states; Latin America, China, and other developing nations.
- In International Relations, faculty emphasize the various theoretical approaches to the study of world politics and the testing of such theories in the areas of international security, international political economy, and the study of international organizations.
- In Political Theory, our strengths cluster around the research areas of late modernity; democratic and normative political theories, especially those pertaining to political questions of social and economic inequality, globalization, identity politics, and social movements; and the relationship between politics and religion.

Job Prospects: Most students in the M.A. program intend to pursue a Ph.D. immediately after graduation or after a few years of employment. Some M.A. students use the degree to establish or strengthen credentials in teaching or for private/public sector positions; a few M.A. students want to strengthen their background for applications to other professional degree programs.

Non-Matriculated Student Policy: Prior to applying for admission, students sometimes want to take courses as non-degree students. Those who wish to do so must first obtain the approval of the Graduate Chair in the Political Science Department to determine if the individual stands a reasonable chance for admission to the M.A. or Ph.D. program. Then, the prospective student must visit the Office of Continuing Studies with transcripts from all institutions attended, including the one that conferred the undergraduate degree, to be enrolled in the coursework.

Financing Opportunities: M.A. students are not eligible for departmental assistantships.

Admission Requirements and Deadlines

Application Deadline:

Fall: December 15

Applications are evaluated as they arrive.

APPLY ONLINE to this graduate program to begin the application process and receive your TUid number.

Next, visit https://www.cla.temple.edu/interfolio/political-science-ma to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

- Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
- Official electronic transcripts must be sent to latasha.goodman@temple.edu or the originals mailed to:

  LaTasha R. Goodman, Academic Department Coordinator
  Temple University College of Liberal Arts
  Dept. of Political Science
  1115 W. Polett Walk, 408 Gladfelter Hall (025-22)
  Philadelphia, PA 19122-6089

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with academic competence.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree is required.

Statement of Goals: Approximately 500 to 1,000 words include your interest in Temple’s program, your research goals, your future career goals, and your academic and research achievements.
NOTE: Students who are ultimately interested in earning a doctoral degree in Political Science at Temple University should apply directly to the Ph.D. program.

Standardized Test Scores:
GRE: Required. Minimum scores of 156 verbal and 148 quantitative are expected.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 100
- IELTS Academic: 7.0
- PTE Academic: 68

Writing Sample: The writing sample should demonstrate your ability to research and write a scholarly paper. The paper should be no more than 25 pages and fully referenced according to a professional, scholarly style manual.

Transfer Credit: Graduate coursework in Political Science may be transferred from outside the University, provided that the credits were obtained no more than five years prior to the student's matriculation at Temple and the grades are 'B' or better. The maximum number of credits a student may transfer is 6.

1 All students should consult with their faculty advisor on course selection and exam preparation. Students select two elective courses in two main fields and one in a third minor field. Those who plan to continue into the Ph.D. program should take their two main-field elective courses in the two fields in which they plan to complete their written comprehensive exams and the third in a minor field. Students are also allowed to complete their fifth elective by registering for POLS 8002 Qualitative Research Methods or POLS 8003 Political Statistics II.

Culminating Events:

Seminar Paper:
The seminar paper requirement is met by completing the coursework required in POLS 8000 Topics in Research Design. Students must submit the seminar paper, with the instructors' comments and grades, to the Graduate Chair. The Graduate Chair must certify that these papers meet the seminar paper requirement (i.e., contain arguments grounded in extensive reference to relevant secondary and/or primary sources). Such certification must be granted before the degree is awarded.

Political Science, Ph.D.
COLLEGE OF LIBERAL ARTS
About the Program

The primary mission of the Political Science Department's graduate program is to prepare students for careers in academia. The department gives equal emphasis to training students for both the research and teaching sides of such a career. Many of our graduates also successfully apply their political science training to non-academic careers. The Ph.D. program offers study in four broadly defined fields: American Politics, Comparative Politics, International Relations, and Political Theory. The Ph.D. program seeks primarily to develop the research skills and substantive knowledge necessary for successful completion of a dissertation.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 3:00 p.m. The degree program can be completed on a full- or part-time basis.

Areas of Specialization: Our particular strengths in American Politics, Comparative Politics, International Relations, and Political Theory are reflected in the brief biographical statements of our Graduate Faculty members' research and teaching interests:

- In American Politics, faculty teach and conduct research on political behavior, political economy, political institutions, public policy, and urban politics.
- In Comparative Politics, faculty focus on the issues of democratization; public policy making; the role of the state in the economy; and identity politics in European and post-communist states, Latin America, China, and other developing nations.
- In International Relations, faculty emphasize the various theoretical approaches to the study of world politics and the testing of such theories in the areas of international security, international political economy, and the study of international organizations.
- In Political Theory, our strengths cluster around the research areas of late modernity; democratic and normative political theories, especially those pertaining to political questions of social and economic inequality, globalization, identity politics, and social movements; and the relationship between politics and religion.

Job Prospects: Most Ph.D. students are preparing for college teaching careers. Our program has an excellent placement record. About three-quarters of recent Ph.D.s hold tenured or tenure-track professorial positions at colleges and universities, many of which are in the Pennsylvania, New Jersey, and Delaware state university and college systems. Other Ph.D.s are in government or research positions.

Non-Matriculated Student Policy: Prior to applying for admission, students sometimes want to take courses as non-degree students. Those who wish to do so must first obtain the approval of the Graduate Chair in the Political Science Department to determine if the individual stands a reasonable chance for admission to the M.A. or Ph.D. program. Then, the prospective student must visit the Office of Continuing Studies with transcripts from all institutions attended, including the one that conferred the undergraduate degree, to be enrolled in the coursework.

Financing Opportunities:
Departmental Support: The department typically supports a portion of its graduate students as Teaching or Research Assistants. Students may not only assist professors in research and teaching, but also may teach courses on their own. Assistantships include full tuition, a stipend, and health insurance. Assistantships are awarded on a competitive basis. The amount of support available for entering students varies from year to year, in accordance with the University budget and contractual commitments with the Temple University Graduate Students’ Association (TUGSA). Assisting in research and undergraduate teaching helps graduate students integrate their studies and prepare for examinations, and gives those who plan on pursuing an academic career valuable experience.

In making funding awards, the Graduate Chair and committee place high priority on a student's academic performance and potential. The following rules and criteria guide the committee’s decisions for continuing students:

- The student must be making normal progress toward meeting her/his degree requirements. Two incompletes disqualify a student from consideration for financial assistance. Advanced students should note that no student will be awarded financial assistance who has not successfully defended a dissertation prospectus within a year of passing the comprehensive examinations.
- To spread support more broadly and to provide an incentive for students to move quickly through coursework and examinations and into the dissertation, the department typically will not provide financial aid for students who have already had five years of support as a Graduate Assistant.

The graduate committee also considers the extent to which a student's interests and skills fit departmental needs and the student's financial need.

In applications for financial assistance, students who have had prior teaching experience, either at Temple or elsewhere, should include syllabi of courses they have taught as well as any student assessments that have been taken.

Graduate School Support:
The Graduate School offers Presidential and University Fellowships to the very best applicants on a competitive basis for newly and recently admitted Ph.D. students. Each fellowship offers a stipend plus tuition, for up to two years, plus up to two additional years of support as a Teaching and/or Research Assistant. Presidential Fellowships are for doctoral candidates not yet enrolled at Temple, while University Fellowships are also for doctoral students not yet enrolled at Temple as well as Temple graduate students who have not earned more than 24 graduate credits.

The department nominates students to the Graduate School for these awards. All application materials for fellowships, including official report of GRE scores, must arrive at the department no later than January 15. In addition to excellent grades and GRE scores, applicants are expected to have strong letters of recommendation and a statement of purpose that conveys a sense of the applicant’s intellectual evolution and professional trajectory, as well as demonstrates a good fit between the applicant’s scholarly interests and those of the faculty.

Finally, for students nearing completion of their dissertations, the Graduate School offers a limited number of Doctoral Dissertation Completion Grants. Doctoral candidates with approximately six months of anticipated writing to complete their dissertations may apply for this grant. These awards are given on a competitive basis. Students should apply for these awards only when all other department and university support has been exhausted, and when a persuasive case can be made that the dissertation will be completed within the time period of the grant. No
more aid will be available after the awarding of such a grant. Interested students should speak to the Graduate Chair at least one term before they plan to apply for the award. Application can be made in the Fall or Spring term.

**Admission Requirements and Deadlines**

**Application Deadline:**

*Fall:* December 15

Applications are evaluated as they arrive.

**APPLY ONLINE** to this graduate program to begin the application process and receive your TUID number.

Next, visit https://www.cla.temple.edu/interfolio/political-science-phd to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

- Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
- Official electronic transcripts must be sent to latasha.goodman@temple.edu or the originals mailed to:

  LaTasha R. Goodman, Academic Department Coordinator
  Temple University College of Liberal Arts
  Dept. of Political Science
  1115 W. Polett Walk, 408 Gladfelter Hall (025-22)
  Philadelphia, PA 19122-6089

**Letters of Reference:**

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members familiar with academic competence.

**Master’s Degree in Discipline/Related Discipline:** A master’s degree is not required.

**Bachelor’s Degree in Discipline/Related Discipline:** A baccalaureate degree is required.

**Statement of Goals:** Approximately 500 to 1,000 words include your interest in Temple’s program, your research goals, your future career goals, and your academic and research achievements.

**Standardized Test Scores:**

GRE: Required. Minimum scores of 156 verbal and 148 quantitative are expected.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 100
- IELTS Academic: 7.0
- PTE Academic: 68

**Resume:** Current resume required.

**Writing Sample:** The writing sample should demonstrate your ability to research and write a scholarly paper. The paper should be no more than 25 pages and fully referenced according to a professional, scholarly style manual.

**Advanced Standing:** For students entering the Ph.D. program who have received an M.A. degree elsewhere, up to 18 credits may be applied to the doctoral program, provided they are relevant to the department’s required courses. These credits must have been obtained no more than five years prior to the student’s matriculation at Temple and the grades must be ‘B’ or better. The Graduate Chair decides which courses students may transfer. As a general rule, transfer students should expect that they will have to complete much of the required coursework in residence. Students transferring into the Ph.D. program should note that it is advisable to take courses from Temple faculty in their major and minor fields before taking the Ph.D. Qualifying Exams in those two fields.

**Program Requirements**

**General Program Requirements:**

*Number of Credits Required to Earn the Ph.D.:* 46, including 30 credits at the master’s level and 16 at the doctoral level

1 Students select three elective courses in a first field, two elective courses in a second field, and one free elective. Elective courses in the two fields should be taken in areas in which the student plans to complete written comprehensive exams. The free elective may be taken in advanced methods or another substantive course. Taking more than two independent study courses requires the permission of the Graduate Chair.

2 Students must register for POLS 9999 while writing their dissertation to remain in good standing in the program unless they file for a leave of absence. Students usually register for 1 credit of POLS 9999 for every term they are writing the dissertation.

**Culminating Events:**

**Qualifying Examinations:**
Qualifying Exams are given twice each year near the beginning of each term within a designated period of time. Application must be made to take the exams before the posted deadline by students who:

- Plan to apply for the Ph.D. program or those who were directly admitted into the Ph.D. program;
- Have completed all didactic coursework; and
- Have no incompletes on their transcript regardless of how many credits have been completed. In practice, all incompletes must be converted to a letter grade by the date on which the application to take the examinations is due.

Students take the Ph.D. Qualifying Examinations in two of four fields: American Politics, Comparative Politics, International Relations, and Political Theory. The exams must be taken in both fields within a single exam period. The examinations include both written and oral parts.

Each field examination is conducted by at least three faculty selected from the subfield by the Graduate Chair in consultation with the Subfield Coordinator. The examiners have joint responsibility for writing and grading the field examination. In this exam, students must demonstrate depth and breadth of knowledge and intellectual sophistication across their main intended Ph.D. field and a second field. They should also be prepared to interpret political phenomena within the context of various theories; use empirical data to illuminate concepts; and identify gaps in knowledge.

Students are encouraged to meet with faculty in their fields to discuss the general areas of the exams' content to ensure that they have accurately identified key theories, concepts, and literature. Professors may make sample questions, previous exams, or special reading lists available as study aids. In addition, core reading lists in each field may be available from the Graduate Coordinator. The lists represent a minimum of representative readings with which a candidate should be familiar.

Oral examinations for students who have passed their written exams are scheduled soon after the student receives notice of the passing of the written exam. Except under extraordinary circumstances, students should take the oral exams in the same term as their written exams. Each oral examination committee consists of the written examiners. The oral exam allows the candidate to respond to the examiners' comments on the written exam and to demonstrate her/his ability to connect the specific issues addressed in the exam to other related areas of inquiry within the intended Ph.D. field and second field. Students are urged to carefully review the examiners' comments on their written preliminary examinations in preparation for the orals.

In the oral exam (as well as in the oral defense of a dissertation discussed below), the student must be able to converse in English adequately for professional purposes. If, in the judgment of a majority of committee members, the student is not demonstrating this ability, the examination is suspended so that the student can take additional training in the English language.

The Graduate School specifies that any student who fails all or part of these examinations twice is automatically dismissed from the program.

**Dissertation Proposal:**

In consultation with the Graduate Chair, the candidate secures a principal dissertation advisor. This person must be a member of the Political Science Graduate Faculty and specialize in the area of the dissertation topic. Preferably in the term immediately after passing the Ph.D. Qualifying Exam, and no more than two terms thereafter, the candidate takes POLS 9998, the dissertation proposal preparation course. The course is offered every Spring under the guidance of the Graduate Chair. The purpose of the course is to launch students on writing their dissertation proposals and prepare them for writing the dissertation. Regardless of whichever term the student registers, students are required to do the following:

1. Under the guidance of their advisor (or if different from the advisor, the faculty member most likely to supervise their dissertation) and Graduate Chair, begin exploring possible dissertation topics through research and reading.
2. Attend seminar meetings in the Spring term under the supervision of the Graduate Chair. At these sessions, the Graduate Chair presents information relevant to the development and preparation of dissertation proposals and chapters. Students are required to make presentations that address problems encountered in the proposal and dissertation writing process and strategies for overcoming them. Students who already have taken POLS 9998 are invited back to attend and participate in subsequent seminars and report on their progress and share their experiences with the students enrolled in the course.

In consultation with the dissertation advisor, the student assembles a Doctoral Advisory Committee. The Doctoral Advisory Committee is to be composed of at least three Temple Graduate Faculty, at least two of whom have their primary presidential appointment in Political Science. The composition of the Doctoral Advisory Committee must be formally approved by the Graduate Chair. A student wishing to pursue a dissertation on a topic that requires supplementing the expertise of the department's faculty may have to seek a committee member from another department. The student has the burden of convincing the Graduate Chair that a committee with adequate expertise can be established with faculty willing to serve.

Students are required to submit a preliminary proposal not to exceed five double-spaced pages. The preliminary proposal should address both the question(s) to be examined and a justification for why those questions warrant a major study. Students are expected to show why these questions are or should be important to political scientists as well as to citizens. Only after the Doctoral Advisory Committee is satisfied that the student has written a persuasive preliminary proposal will the student be permitted to write a longer proposal, if the committee believes a longer proposal is warranted.

Successful completion of POLS 9998 culminates in the defense of the dissertation prospectus before the Doctoral Advisory Committee. The dissertation prospectus, consisting of a research design and literature review, should be defended and accepted by the full membership of the committee within two terms after completion of Ph.D. coursework. No student is awarded financial assistance who has not successfully defended a prospectus within a year of completion of coursework. Students who fail to submit an approved dissertation proposal within two years of completing their Ph.D. coursework are subject to dismissal from the program. An approved proposal is a contract between the student and the Doctoral Advisory Committee. After approval, any significant theoretical or methodological change in the substantive direction of the project must be approved by the committee.

Once the prospectus is successfully defended, the student is advanced to candidacy. The Doctoral Advisory Committee must confer at least once a year with the student to review progress and provide advice. Students should take the initiative to schedule these exchanges and ensure that
written faculty comments on the exchange be placed in their graduate file.

Dissertation:
A doctoral dissertation should demonstrate that the candidate can conduct scholarly research with a high level of professional competence. The dissertation should constitute a distinctive contribution to knowledge in Political Science. Normally, it should outline theoretical knowledge in some field of Political Science; propose a question or hypothesis that is linked to the theory; and provide empirical data to illuminate the theoretical issues in a convincing manner.

The Graduate School requires that students working on a dissertation register for POLS 9999 in order to maintain status as an active graduate student.

Students must submit final drafts of dissertations in an approved style and format. Not doing so may result in significant reformatting at the end. Information on the desired format can be found in the Dissertation and Thesis Handbook on the Graduate School’s website at https://grad.temple.edu/resources/dissertation-thesis-handbook.

After the principal dissertation advisor and the Doctoral Advisory Committee have reviewed the completed dissertation draft, a fourth reader from outside the department who has not been involved with the dissertation previously must be selected by the dissertation committee chair and the Graduate Chair. (Students may suggest a reader.) This reader must be a Graduate Faculty member from another department at Temple or from another university who has the qualifications necessary to act as a fair judge of the dissertation's scholarly merit. As a member of the newly formed Dissertation Examining Committee, this reader should receive a completed draft of the dissertation one month before the anticipated dissertation defense date. Readers who are from outside of Temple University must submit a curriculum vitae and be approved by the Graduate School at least two weeks prior to the oral defense.

When a majority of the Dissertation Examining Committee has judged in writing that the dissertation is ready to be defended, a defense date can be scheduled. A defense is open to the university community and to the student's family; others who wish to attend must obtain the written permission of the student and the Dissertation Examining Committee. The defense must be announced publicly at least 10 working days in advance. Notice must be sent to all faculty members in the department and to the Graduate School. The public announcement of the defense should include an abstract of the dissertation.

The oral defense must be chaired by a member of the committee other than the dissertation advisor. The oral defense should demonstrate that:

• the dissertation is commensurate with the standards for original research in Political Science;
• the ethics and standards governing Political Science research have been followed;
• the research and appropriate methodology have been mastered; and
• the candidate has an understanding of the relationship of this work to the broader field in which it is lodged.

Passing the examination requires a vote of approval by more than half of the full membership of the Dissertation Examining Committee. If a dissertation is approved but revisions are required, the revisions must be submitted to the Graduate School in final form within 30 days of the defense. Otherwise, the defense is nullified and a new oral defense must be scheduled. After the final draft of the dissertation has been approved by the dissertation chair, it must be submitted to the Graduate Coordinator and to the Graduate School by uploading the final document to https://www.etdadmin.com/cgi-bin/school?siteId=171.

Psychological Research, M.S.

About the Program
The M.S. in Psychological Research is designed to provide a research-intensive experience, advanced coursework, and professional development to Temple University students completing their undergraduate degree in Psychology who intend to pursue doctoral studies in any of the academic psychology disciplines. Students in the 32-credit program work with a faculty sponsor to develop and carry out
a master’s project; complete graduate-level coursework in methodology, statistics, ethics, and topical seminars; and engage in professional development activities that prepare them for doctoral-level studies and enhance their applications to Ph.D. programs.

The M.S. in Psychological Research is separate and distinct from the Department of Psychology’s Ph.D. program and does not lead to entrance into the Psychology Ph.D. program. Prospective doctoral students apply directly to the Ph.D. program.

**Time Limit for Degree Completion:** 2 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time study is required.

**Interdisciplinary Study:** The program encourages interdisciplinary coursework.

**Job Prospects:** Graduates of the M.S. program in Psychological Research gain skills that enhance their applications to doctoral programs in academic psychology. Positions for individuals with an M.S. in Psychological Research are also available in a number of settings, including universities, private research and consulting organizations, nonprofit, and marketing.

**Non-Matriculated Student Policy:** Master’s Directed Research courses, including PSY 5791 and PSY 5891, and 8000-level courses are not open to non-matriculated students. Permission of the instructor is required for non-matriculated students to take PSY 5003 Advanced Statistics and PSY 5104 Ethics and Ethical Conflicts in Psychological Science.

**Financing Opportunities:** Assistantships are not available for the M.S. program.

### Admission Requirements and Deadlines

**Application Deadline:**

- **Fall:** March 1

  Applications are not evaluated until after the deadline has passed.

If you are currently an undergraduate student in Psychology at Temple University, **APPLY ONLINE to this graduate program**. The M.S. program in Psychological Research is open only as an accelerated 4+1 program for Psychology undergraduate students at Temple University. It is expected that the program will open to non-Temple students in the future, but that time frame has not yet been determined.

Next, visit [https://www.cla.temple.edu/interfolio/psychological-research-ms](https://www.cla.temple.edu/interfolio/psychological-research-ms) to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

- Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
- Official electronic transcripts must be sent to vallens@temple.edu or the originals mailed to:

  Vanessa Allen-Smith, Graduate Coordinator
  Temple University College of Liberal Arts
  Dept. of Psychology
  1701 N. 13th Street, 653 Weiss Hall (265-67)
  Philadelphia, PA 19122-6085

**Letters of Reference:**

- **Number Required:** 3
- **From Whom:** Letters of recommendation should be obtained from college/university faculty members familiar with the applicant's academic competence.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree (B.A., A.B., or B.S.) in Psychology is required. Additionally, a minimum GPA of 3.67 is required in both Psychology and overall for admissions consideration. Meeting the minimum does not, however, guarantee admission.

**Statement of Goals:** In approximately 500 to 1,000 words, state your reasons for pursuing a master's degree, your current research interests, your research experience, and your future career goals.

**Standardized Test Scores:**

- **GRE:** Required. Minimum scores are 150 verbal, 150 quantitative, and 4 in analytical writing.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 105
- IELTS Academic: 7.0
- PTE Academic: 72

**Writing Sample:** An academic writing sample must be submitted. It is used to assess the applicant's ability to complete graduate-level written work and produce a high-quality master's project paper.

### Program Requirements

**General Program Requirements:**

- **Number of Credits Required Beyond the Baccalaureate:** 32

**Required Courses:**

**Year 1**

1 The elective must be a graduate course at the 5000 to 8000 level, but may be taken from any school or college.

Other: M.S. students are exposed to a broad range of current research by attending the department’s Colloquium and TILES lecture series to hear talks by distinguished researchers from other universities. They are also required to participate in lab meetings and journal clubs, and to attend regular advising meetings to select and apply to appropriate doctoral programs. Students who postpone application to doctoral programs receive guidance for a master’s level job search and applications.

Culminating Event:
Master’s Project:
A four-course sequence of directed research immerses the student in carefully planned and executed research, culminating in a publishable paper. Throughout the sequence, students are expected to participate in and contribute to the advisor’s program of research. Activities include data analyses, literature reviews, programming experiments, and/or recruitment. During the first term, students work with their advisors to develop a research proposal and analysis plan for the master’s project; a protocol is submitted to the Institutional Review Board (IRB) for approval. Students become familiar with the methods, measures, and apparatus in the advisor’s lab. During the second term, students begin data collection for the master’s project and start work on a comprehensive literature review. The third term focuses on continued data collection, preliminary analyses, completion of the literature review, and a possible poster submission. During the fourth term, data collection, cleaning, and analyses are completed, and the results are written up in an APA manuscript.

All students complete the master’s project and submit their research for publication and/or presentation at a conference. Students who do not complete the final project requirement by the end of the Spring term of Year 2 may register for additional research credits in the Summer term and submit their master’s project no later than July 15 to be eligible for August graduation.

Psychology, Ph.D.

COLLEGE OF LIBERAL ARTS

About the Program
The Psychology program offers advanced study leading to the doctoral degree. Training is directed toward excellence in scholarship, research, teaching, and practical applications. The focus of the Psychology Ph.D. program varies depending on the area of specialization into which the student enters. Graduates go on to positions as research scientists, teachers, and applied specialists.

Time Limit for Degree Completion: 7 years
Campus Location: Main
Full-Time/Part-Time Status: Full-time study is required.
Interdisciplinary Study: The program encourages interdisciplinary coursework.
Ranking: Over the years, the program has been consistently ranked among the very best by all evaluating agencies.
Accreditation: The American Psychological Association has accredited the Clinical Psychology area of specialization. Other area emphases do not undergo accreditation.
Areas of Specialization: The four areas of specialization include:
• Clinical Psychology
• Cognition and Neuroscience
• Developmental Psychology
• Social Psychology

Job Prospects: The program is dedicated to producing well-trained psychologists with the Ph.D. who work in academic and applied settings.

Licensure: The field of Clinical Psychology requires licensure for its practice.

Non-Matriculated Student Policy: The permission of the instructor is required for non-matriculated students to take Ph.D. courses. The exception is 8000-level courses, which are not open to non-matriculated students.

Financing Opportunities: Both Teaching and Research Assistantships carry a stipend, full tuition remission (up to 12 credits per term depending on year and specialization), and health insurance benefits. The principal duties of a Teaching Assistant (TA) include assisting faculty members in classroom (field and observatory) instruction, conducting tutorials and discussion sections, and grading quizzes. A Research Assistant (RA) is expected to devote 20 hours per week on average to research obligations. An RA is assigned to a faculty member or principal investigator who is working on a specific research project. The appropriate subjects are determined by consultation between the student and the student's research and academic advisors.

Admission Requirements and Deadlines

Application Deadline:

Fall: December 1

Applications are not evaluated until after the deadline has passed.

All applicants to the Psychology Ph.D. program begin the application process by completing the Temple University online application. This generates the applicant’s unique TUid number.

• Applicants for the Clinical Psychology specialization next create or log in to their Interfolio account by visiting https://www.cla.temple.edu/interfolio/psychology-phd. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:
  a. Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
  b. Official electronic transcripts must be sent directly by the issuing institution to PsychologyAdmissions@temple.edu. The Department of Psychology will not accept electronic transcripts from any applicant. Alternately, official paper transcripts may be mailed to:

  Vanessa Allen-Smith, Graduate Coordinator
  Temple University College of Liberal Arts
  Dept. of Psychology
  1701 N. 13th Street, 653 Weiss Hall (265-67)
  Philadelphia, PA 19122-6085

• Applicants to the specializations in Cognition and Neuroscience, Developmental Psychology, or Social Psychology next apply via the Centralized Application Service for Graduate Psychology (PSYCAS), which is accessed at https://psychcas.liaisoncas.com/. Instructions for submission of test scores and transcripts are found on the PSYCAS portal.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with the applicant’s academic competence. Referees for applicants to the Clinical Psychology specialization submit their recommendations at https://www.cla.temple.edu/interfolio/psychology-phd. Referees for applicants to the specializations in Cognition and Neuroscience, Developmental Psychology, or Social Psychology submit their recommendations through https://psychcas.liaisoncas.com/.

Coursework Required for Admission Consideration: Applicants to the doctoral program must hold a B.A. or B.S. degree and must have completed at least four 3-credit courses in Psychology, including one laboratory course. A Statistics course is also required, and a Natural Sciences laboratory course is recommended.

Master's Degree in Discipline/Related Discipline: A master's degree is not required.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree in Psychology is strongly recommended. Depending on the area of interest, a bachelor's in a Biology-related discipline may be appropriate.

Statement of Goals: In approximately 500 to 1,000 words, state your interest in Temple’s program, your research goals, your future career goals, and your academic and research achievements.

Standardized Test Scores:

GRE: Required. Minimum scores are 153 verbal, 151 quantitative, and 304 total GRE.

GRE Subject Exam in Psychology: Strongly recommended.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

• TOEFL iBT: 105
• IELTS Academic: 7.0
• PTE Academic: 72

Advanced Standing: A student enrolled in the Psychology Ph.D. program may, after satisfactory completion of the initial term, and with the approval of the Director of Graduate Studies in Psychology, transfer as many as 9 credits of coursework taken elsewhere. To be so approved, the courses must be deemed appropriate to stand as part of the student's training in the Ph.D. program, and the student must have received a grade of 'B' or higher in the course(s). Final approval of advanced standing credits is given by the Office of the Dean, College of Liberal Arts, on recommendation of the Director of Graduate Studies in Psychology. The maximum number of advanced standing credits awarded is 9.

Program Requirements

1 To complete this requirement, students opt to take PSY 8032 Structural Equation Modeling and PSY 8033 Hierarchical Linear Modeling in lieu of elective or seminar courses required for the Psychology Ph.D. With the permission of the Graduate Director, an advanced statistics course may be selected instead of PSY 8033.
In addition, students are required to demonstrate the ability to teach statistics. This is done by serving as the: (a) primary instructor for an undergraduate-level statistics course, such as Introductory Statistics; (b) instructor of a recitation section for undergraduate statistics; or (c) teaching assistant for a statistics course at the graduate level. Alternately, students may present a cumulative total of 9 to 12 hours of workshop material on statistics in multiple workshops on the same or different statistical topics for the Department of Psychology. At least three hours should be didactic, with the remaining hours in consulting. Students prepare a plan to address these hours. Note that serving as a grader for a statistics course is insufficient for satisfying the teaching requirement for this concentration.

**Internship:** An internship is required for the Clinical Psychology area of specialization.

**Culminating Events:**

**Preliminary Examination:**
The purpose of the preliminary examination is to demonstrate critical and interpretive knowledge in a specialized area of Psychology. The exam should be modeled after published literature reviews in the field and evaluated by the criteria applied to reviews that are submitted for publication to scholarly journals. The examination evaluates the student's ability to apply specific research foci to anticipated problems in Psychology. The student must demonstrate a high level of oral and written competency in reviewing, synthesizing, and evaluating an important topic in the field of Psychology.

The preliminary examination is generally completed by the end of the third year of study. The subject areas are determined, in advance, by the student and the Doctoral Advisory Committee. The Doctoral Advisory Committee must include at least three Graduate Faculty members from Temple's Psychology Department. The committee may be expanded to include other Temple Presidential faculty (from inside or outside the Department) and/or doctorally prepared experts from outside the University, provided that a majority of the members of the committee are members of Temple's Graduate Faculty. The Doctoral Advisory Committee evaluates the examination. Each member votes to pass or fail the student. In order to pass, a majority of the committee members must agree that the exam has been satisfactorily completed. The examination is defended orally following an evaluation of the written document.

Students who are preparing to write their preliminary examinations should confirm a time and date with the Chair of the Doctoral Advisory Committee and notify all members of their training program.

**Proposal:**
The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. The proposal should consist of the following:

1. the context and background surrounding a particular research problem;
2. an exhaustive survey and review of literature related to the problem; and
3. a detailed methodological plan for investigating the problem.

The Doctoral Advisory Committee evaluates and approves the proposal or requests modifications by the student.

**Dissertation:**
The doctoral dissertation is an original empirical study that makes a significant contribution to the field of Psychology. It should expand the existing knowledge and demonstrate both the student's grasp of research methods and a mastery of her/his primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standards of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field of Psychology; and be prepared for publication in a professional journal.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense, including the student's ability to express verbally her/his research question, methodological approach, primary findings, and implications. The Dissertation Examining Committee consists of the Doctoral Advisory Committee plus at least three additional doctorally prepared individuals. The majority of the individuals on the Committee must be members of the Temple University Graduate Faculty. The Dissertation Examining Committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

If a student needs to change a member of either the Doctoral Advisory Committee or the Dissertation Examining Committee, the new member must be approved by the Departmental Chair and registered with the department's Graduate Secretary and the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Graduate Secretary at least 15 days before the defense is to be scheduled. The Graduate Secretary arranges the time, date, and room within two working days, and forwards to the student the appropriate forms.

After the Graduate Secretary has arranged the time, date, and room for the defense, the student must send to the Graduate School a completed ‘Announcement of Dissertation Defense’ form, found in TUportal under the Tools tab within “University Forms,” at least 10 working days before the defense. The Department posts announcements of the defense, and the Graduate School lists the defense on its website.

**Contacts**

**Program Web Address:**

Public Policy, M.P.P.

COLLEGE OF LIBERAL ARTS

About the Program
The Master of Public Policy (M.P.P.) degree provides training for individuals who seek careers in the public sector or in private and non-profit organizations that work on a continuous basis with government agencies. The M.P.P. curriculum is designed to provide students with the technical and analytical skills to be able to develop and assess proposed public policies and evaluate the effectiveness of programs and activities that governments at the federal, state, and local levels undertake. The M.P.P. also develops students' appreciation for the political and institutional contexts in which issues reach the policy agenda and policies are formulated, adopted, implemented, and evaluated.

Time Limit for Degree Completion: 3 years; part-time students may apply for extensions, if needed

Campus Location: Center City

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 5:00 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: Courses are taken in Political Science, Economics, Geography and Urban Studies, and other disciplines as needed. Students may also pursue the M.P.P. as a dual degree with the Master of Public Health (M.P.H.). Applicants for the dual degree must apply to each program separately and should consult the M.P.P. website for further details.

Areas of Specialization: Students can focus on public policy analysis or public management and use their electives to specialize in a specific policy area.

Job Prospects: Students in the M.P.P. program plan to seek entry-level jobs in government agencies as civil servants or in private and non-profit organizations that work with federal, state, and local governments, or may already have experience in government, private, or non-profit organizations and seek training and credentials to further develop their careers.

Non-Matriculated Student Policy: Prior to applying for admission, students sometimes want to take courses as non-degree students. Students are permitted to take up to 9 credits on a non-matriculated basis. If admitted to the program, students may have that coursework, with a grade of "B" or better, apply toward the M.P.P. degree. Individuals who wish to take courses as non-matriculated students must first obtain the approval of the Director of the M.P.P. program to determine if the individual stands a reasonable chance for admission to the program. Next, the prospective student must visit the Office of Continuing Studies with transcripts from all institutions attended, including the one that conferred the undergraduate degree, to be enrolled in the coursework.

Financing Opportunities: M.P.P. students are not eligible for departmental assistantships, but may apply for a limited number of partial scholarships available from the program.

Admission Requirements and Deadlines

Application Deadline:
Fall:
• March 1 – Application Deadline
• June 15 – Late Application Deadline

Spring:
• November 1 – Application Deadline
• December 6 – Late Application Deadline

Applications are processed as they are received. Late applications may be considered for admission.

APPLY ONLINE to this graduate program to begin the application process and receive your TUid number.
Next, visit https://www.cla.temple.edu/interfolio/public-policy-mpp to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

- Scores for the TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
- Official electronic transcripts must be sent to mpp@temple.edu or the originals mailed to:

  M.P.P. Assistant Director  
  Temple University Master of Public Policy Program  
  1114 W. Polett Walk, 848 Anderson Hall (022-02)  
  Philadelphia, PA 19122-6090

Letters of Reference:  
Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with academic competence. For applicants with extensive administrative experience, two of the letters may come from supervisors or colleagues in the agency or organization where the applicant has been employed.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree is required.

Statement of Goals: Approximately 500 to 1,000 words include your interest in Temple's program, your future career goals, and your academic and work experience.

Standardized Test Scores:  
Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 100
- IELTS Academic: 7.0
- PTE Academic: 68

Resume: Current resume required.

Transfer Credit: Graduate coursework in public policy or public administration may be transferred from outside the University, provided that the credits were obtained no more than five years prior to the student’s matriculation at Temple; the grades are ‘B’ or better; and the course(s) for transfer are equivalent to those in Temple’s curriculum. The maximum number of credits a student may transfer is 6.

Culminating Events:

Seminar Paper:  
The Policy Analysis Project, completed in PLCY 8127, is undertaken in the student's last term in the M.P.P. program. Students produce an original, full-length policy analysis for a client. Students attend a weekly seminar to report on their progress at each stage in the development of their policy analysis, receive feedback from other seminar participants, and provide advice to other students in the seminar.

Religion, M.A.  
COLLEGE OF LIBERAL ARTS
About the Program

The Department of Religion at Temple University offers a 30-credit master’s program. For those seeking to qualify for the Ph.D. program at Temple University or other leading universities, it offers intensive training in research methods and in special fields of concentration in religion studies. (Note: Admission to the Temple Ph.D. program requires a separate application and the completion of qualifying examinations not required for the M.A. degree.) For those who plan to teach religious studies in community colleges or high schools, it provides advanced training in methods of research and in-depth study of the world’s major religious traditions. For those in various forms of religious ministry, it offers post-graduate training and exposure to the newest research methods and developments for use in understanding their own or other religious and cultural traditions. For those who wish to bring cultural and cross-cultural analytical tools to professions such as business, government, journalism, medicine, and social work, it provides additional training in research methods and graduate-level study in the major world religious and cultural traditions. For qualified persons in the general public, it allows the opportunity to acquire competence in the study of religions, values, and cultures broadly defined, and in areas of special interest to the student.

Time Limit for Degree Completion: 3 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Areas of Specialization: The M.A. program offers two concentrations, each of which allows students to choose between the Thesis Option and the Portfolio Option:

- Religion, Values and Global Cultures, which is built around our Foundations seminars in the world’s religious traditions and advanced seminars that permit further study in various Western and Asian religious and values traditions. Courses in the other track may be taken if they draw on materials from one of these religious traditions.
- Religion, Values and Public Life, which is built around our Foundations seminars in the historical, philosophical, and social-science methods of study in the field of Religion, together with advanced seminars in various areas of the interaction of religion and values in public life, such as interfaith dialogue, race/gender/sexuality and religion, religion and ethics, and religion and the political process. Students taking courses in this concentration may also take courses on related topics in world religions.

Upon entering the program, students choose their area of concentration. While admission requirements and procedures are identical, requirements for the degree vary.

Job Prospects: The master’s degree at Temple University is viewed as an enhancement of knowledge about religion for those already employed in various professional capacities or as the foundation for pursuit of a Ph.D. degree.

Non-Matriculated Student Policy: Non-matriculated students may complete three graduate courses before being admitted into the degree program. Credit toward a subsequent degree program at Temple University is limited to 9 credits.

Financing Opportunities: University Fellowships, Graduate Assistantships, and Academic Internships are ordinarily reserved for Ph.D. students.

Admission Requirements and Deadlines

Application Deadline:

Fall: January 15

Applications are evaluated together after the deadline.

APPLY ONLINE to this graduate program to begin the application process and receive your TUID number.

Next, visit https://www.cla.temple.edu/interfolio/religion-ma to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

- Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
- Official electronic transcripts must be sent to relgrad@temple.edu or the originals mailed to:

  Jemina Quarles, Graduate Coordinator
  Temple University College of Liberal Arts
  Dept. of Religion
  1114 W. Polett Walk, 614 Anderson Hall (022-28)
  Philadelphia, PA 19122-6090

Letters of Reference:

Number Required: 3

From Whom: Recommendations should be obtained from former instructors or academic persons who know the applicant best.

Coursework Required for Admission Consideration: Applicants are invited to consult with the Graduate Director regarding specific academic preparation.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree is required; a degree earned in a Liberal Arts discipline is preferred. Applicants with no Liberal Arts background should consult with the Graduate Director.

Statement of Goals: In 2 to 3 pages, describe your background and specific interests and reasons for pursuing an M.A. in Religion, demonstrating knowledge of the scope and limits of the Department of Religion’s offerings and outlook.

Standardized Test Scores:

GRE: Required. Combined scores in the range of 308 to 340 on the verbal and quantitative sections are expected. The verbal score is weighed more heavily than the quantitative.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 100
- IELTS Academic: 7.0
- PTE Academic: 68
Resume: Current resume required.

Writing Sample: The writing sample should demonstrate your ability to research and write a scholarly paper. The paper should be no more than 10 pages in length and fully referenced according to a professional, scholarly style manual. It should be in the field of Religious Studies or a closely related area.

Transfer Credit: Courses taken at an accredited institution that are compatible with the offerings at Temple’s Department of Religion and graded ‘B’ or better are eligible for transfer credit. The maximum number of credits a student may transfer is 6.

Test Waivers: The GRE is waived for international students whose native language is not English, but the minimum TOEFL must be achieved and reported.

¹ Students can take 3 to 6 credits of coursework outside the Department of Religion in a cognate field at Temple University.

Language Examination: Reading knowledge of a language relevant to the area of focus is required. However, at the discretion of the student’s supervisory committee, this requirement can be waived for those who are planning to do graduate work that does not require foreign language proficiency.

Culminating Events: No later than upon completion of her/his first 18 credits of coursework in either the Religion, Values and Global Cultures concentration or the Religion, Values and Public Life concentration, the student must choose either the thesis or portfolio option:

- The Thesis Option is recommended for, but not limited to, students intending to apply to a doctoral program or planning to teach at the college level. Six credits must be taken in a 3-credit Independent Study that prepares the student to register the following term for a 3-credit M.A. thesis project under the direction of a thesis advisor. Reading knowledge of a language relevant to the thesis topic and oral defense of the thesis are required.
- The Portfolio Option is recommended for students to augment their primary area of experience and professional training in fields other than Religion.

Upon choosing an option, the student then selects an advisor for the final project who has primary responsibility for supervising the student’s work for the remainder of the program and is the primary reader of the thesis or portfolio. This choice must be approved by the Graduate Studies Committee.

Thesis:

For the Thesis Option, a thesis is required.

Note that for the Portfolio Option, successful completion of coursework is required to earn the degree.

Religion, Ph.D.
COLLEGE OF LIBERAL ARTS

About the Program
The Temple University Department of Religion began shortly after the Supreme Court declared that the study of religion (not to be confused with its practice) in state-supported public education was commended. Temple’s department broke from the ’seminary model’ of traditional fields, such as church history and theology, and instead committed to the multi-traditional and multi-disciplinary study of global religious traditions. This
gives our program an outstanding breadth and cross-cultural diversity. We have a long history of attracting students from all over the world, and our graduates now work in universities not just in North America, but also in places such as Germany, Japan, Korea, and Malaysia.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main, Center City

**Full-Time/Part-Time Status:** Most graduate courses are offered during the day at the Main Campus, with an increasing number of courses offered at TUCN in the evening. The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** Students are given a broad, interdisciplinary introduction to Religion in Unit I study and take courses in other departments and institutions in Unit II study. For details, see the Program Requirements.

**Affiliation(s):** Graduate student exchange agreements exist with the University of Pennsylvania’s Department of Religious Studies, the Reconstructionist Rabbinical College, the Eastern Baptist Theological Seminary, and the Lutheran Theological Seminary in Philadelphia. In addition, a coordinated M.A./Ph.D. program in Islamic-Christian Relations is conducted with Hartford Theological Seminary and a Graduate Certificate in Women's Studies is offered in cooperation with Temple’s Women's Studies Program.

**Areas of Specialization:** The Department of Religion offers graduate programs leading to the M.A. and Ph.D. degrees. Students are introduced to the major methods of study in Religion, with stress on the critical analysis of religions by the methods of the humanities and the social sciences, including textual and historical analysis, philosophical and hermeneutical studies, and social and cultural analysis. The program thus ensures that a well-rounded course of study is achieved. The two basic concentrations are:

1. Global Religious Traditions, with emphasis in Asian Philosophy/Religious Thought, Biblical Studies, and Islam; and
2. Religion and Society.

**Job Prospects:** The kind of education we offer has enabled our graduates to find jobs in a very competitive job market. For example, some of our graduates in the area of Bible study were hired explicitly because they had received some instruction in Islam and could serve as a resource about that tradition. Breadth and diversity constitute one of the strengths of our program, and we continue to offer coursework in global religious traditions and the roles of religions in society and culture so as to maintain this strength. Graduates of our doctoral program are employed in colleges and universities in North America, Europe, Africa, and Asia. The most common positions are as faculty in religion studies, although some are administrators in educational governmental administrations and academic administrations.

**Non-Matriculated Student Policy:** Persons not enrolled in a degree program may register for courses as non-matriculated students. Transcripts of undergraduate work should indicate some background in Religion Studies and a GPA sufficient to maintain graduate work, normally 3.5 or above. Non-matriculated students may register for courses after an interview with the Director of Graduate Religion Studies, at which time they should present academic transcripts. Credit earned toward a subsequent degree program at Temple University is limited to 9 credits.

**Financing Opportunities:** Teaching Assistants teach sections independently in the Department of Religion.

**Admission Requirements and Deadlines**

**Application Deadline:**

- Fall: January 15

Applications are evaluated together after the deadline.

**APPLY ONLINE to this graduate program to begin the application process and receive your TUid number.**

Next, visit https://www.cla.temple.edu/interfolio/religion-phd to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

- Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
- Official electronic transcripts must be sent to relgrad@temple.edu or the originals mailed to:

  Jemina Quarles, Graduate Coordinator
  Temple University College of Liberal Arts
  Dept. of Religion
  1114 W. Polett Walk, 614 Anderson Hall (022-28)
  Philadelphia, PA 19122-6090

**Letters of Reference:**

*Number Required:* 3

*From Whom:* Recommendations should be obtained from former faculty who know the applicant best.

**Coursework Required for Admission Consideration:** It is suggested that applicants have taken at least 18 credits of Religion coursework.

**Master’s Degree in Discipline/Related Discipline:** A master’s degree is not required.

**Bachelor’s Degree in Discipline/Related Discipline:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

**Statement of Goals:** In 2 to 3 pages, address your background that prepares you for graduate studies in Religion, including your previous successes in academic study and research in the field; your area of interest within the field of Religion and how that interest coincides with offerings in Temple’s Department of Religion; and your teaching and research goals and how you foresee study at Temple furthering those goals.

**Standardized Test Scores:**

- GRE: Required. Scores of 160 on the verbal section and 144 on the quantitative section are preferred.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:
Resume: Current resume required.

Writing Sample: The writing sample should demonstrate your ability to research and write a scholarly paper. The paper should be no more than 10 pages in length and fully referenced according to a professional, scholarly style manual. It should be in the field of Religious Studies or a closely related area.

Advanced Standing: With the approval of the Director of Graduate Studies, students who have earned graduate credits from another institution can transfer up to 24 credits (eight courses) toward the coursework required for the Ph.D. The courses must not be more than five years old at the time of the student's matriculation and a grade of "B" or higher must have been earned. These transfer credits are counted toward Unit II requirements. For clarification of unit requirements, see the Program Requirements.

Appropriate foundation coursework taken outside Temple University may also be considered for transfer to fulfill the foundation requirements for Unit I. In this event, however, the student must take elective coursework at Temple to fulfill the required 24 credits for Unit I. To qualify for transfer as a foundations course, a grade of "A-" or better must have been earned.

The Ph.D. program is divided into three sequential units of study:

1. **Unit I** encompasses the first 24 credits of courses, including all the required foundation courses, and satisfaction of a first foreign language requirement. These courses are intended to provide a firm and broad academic base across the field of Religious Studies. The foundation courses must include 12 credits of courses in the basic thought, practices, and history of three particular religious traditions and 3 credits in an introductory methodology course. The remaining 9 credits consist of advanced or specialized courses chosen by the student for the benefit of her/his program after consultation with the advisor.

2. **Unit II** includes the remaining courses and second language competency to complete the required specialization in preparation for the preliminary examinations and the dissertation proposal. These include 24 credits of further advanced or specialized courses and 6 credits taken outside of the department for a total of 30 credits.

3. **Unit III** entails the writing and defense of the dissertation. The student registers for 6 credits of dissertation research, usually one credit per term.

Language Examination: Competence in all languages necessary to perform graduate-level scholarly research in the student's area of concentration must be demonstrated. Reading knowledge of a minimum of two foreign languages is required.

Culminating Events:

**Preliminary Examination:**
The purpose of the preliminary examination is to demonstrate critical and interpretive knowledge in specialized areas of Religion. Students are examined in all areas of scholarship and research necessary for their area of study. They must have demonstrated reading knowledge of at least a second foreign language, the first having been examined in Unit I. They prepare a dissertation proposal and an outline of their areas of examinations. The preliminary examination is taken at the end of Unit II.

Members of the student's dissertation committee individually write examination questions. Sometimes faculty are included as 'examiners' who will not serve on the Dissertation Committee. Students arrange with their Dissertation Committee when the exams are to be taken. Normally exams are done within the Department of Religion, using a computer under supervised conditions. All examiners and members of the Dissertation Committee must agree that the student has demonstrated competence in the relevant areas of study, and that the student is capable of completing the dissertation proposed.

The written exams serve as the basis for the oral preliminary examination. All faculty for whom exams were written participate in the oral preliminary exam.

**Dissertation Proposal:**
The proposal demonstrates the student's knowledge of the current research in the field on her/his particular problem of interest. Students should show methodological awareness and state the uniqueness of the proposed research with regard to the ongoing body of scholarly literature.

**Dissertation:**
The dissertation is to demonstrate original and significant contributions to the study of Religion. It should make use of primary texts and demonstrate reading knowledge of appropriate original languages.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense. This committee is comprised of the Doctoral Advisory Committee and at least one additional Graduate Faculty member from outside the Department of Religion. The Outside Examiner should be identified no later than the beginning of the term in which the student will defend the dissertation. The Dissertation Examining Committee evaluates the student's written thesis in making an original scholarly contribution to the field and her/his ability to defend and discuss orally the contents of the thesis.

If a student needs to change a member of a Committee, the new member must be approved by the Department's Graduate Studies Committee and registered with the Graduate Secretary and the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Graduate Secretary at least 30 days before the defense is
to occur. The Graduate Secretary arranges the time, date, and room, and forwards to the student the appropriate forms. After the Graduate Secretary has arranged the time, date, and room for the defense, the student must send to the Graduate School a completed ‘Announcement of Dissertation Defense’ form, found in TUportal under the Tools tab within “University Forms,” at least 10 days before the defense. The department posts flyers announcing the defense.

Sociology, M.A.
COLLEGE OF LIBERAL ARTS

About the Program
The graduate program in Sociology is devoted to the training of research scholars and educators in the discipline. Students have a variety of career goals, ranging from academic research and teaching to research and administration in private or public agencies. The master’s program provides advanced training in sociological theory, statistics, and research methods. The program’s main areas of graduate teaching and research are Gender and Sexuality, Immigration and Globalization, Medical Sociology, Race and Ethnicity, and Urban Sociology.

Time Limit for Degree Completion: 3 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The program encourages students to participate in seminars in other social sciences, including Anthropology, Criminal Justice, Geography and Urban Studies, History, Political Science, Psychology, Urban Education, and Women’s Studies.

Affiliation(s): The program is affiliated with the American Sociological Association (ASA).

Areas of Specialization: The main areas of graduate teaching and research are:
- Gender and Sexuality
- Immigration and Globalization
- Medical Sociology
- Race and Ethnicity
- Urban Sociology

Job Prospects: Graduates of the M.A. program are typically employed as applied researchers and administrators in private and public agencies.

Non-Matriculated Student Policy: Students with a bachelor’s degree may take graduate courses in Sociology without enrolling in a Temple University graduate program. A limit of 9 credits of graduate coursework taken prior to admission will be accepted toward a Sociology degree. Non-matriculated students should consult with the Graduate Chair before selecting their coursework if they plan to apply for the degree program.

Financing Opportunities: The Sociology Department does not offer funding opportunities for students enrolled in the M.A. program.

Admission Requirements and Deadlines
Application Deadline:
Fall: March 1

APPLY ONLINE to this graduate program to begin the application process and receive your TUid number.

Next, visit https://www.cla.temple.edu/interfolio/sociology-ma to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:
- Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
- Official electronic transcripts must be sent to socadmis@temple.edu or the originals mailed to:

  Pamela Smallwood, Graduate Coordinator
  Temple University College of Liberal Arts
Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with academic competence, wherever possible.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree is required.

Statement of Goals: Approximately 500 to 1,000 words include your interest in Temple's program; your research goals; your future career goals; and your academic and research achievements.

Standardized Test Scores:
GRE: Required.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 100
- IELTS Academic: 7.0
- PTE Academic: 68

Writing Sample: The writing sample should demonstrate your ability to conduct research and write a scholarly paper. The paper may be on any topic. It must be fully referenced according to a professional and scholarly style.

Resume: Current personal resume or curriculum vitae required.

Transfer Credit: Graduate coursework in Sociology may be transferred from outside the university, provided that the credits were obtained no more than five years prior to the student’s matriculation at Temple and the grades are ‘B’ or better. The maximum number of credits a student may transfer is 6.

Electives:

Of the four elective courses, two must relate to the preliminary examination. Other electives may include:

- An Independent Study course (SOC 9382): With the consent of the Graduate Chair and the instructor, students may take one Independent Study course, which is an intensive program of study within a specific area of Sociology. Students who wish to take an Independent Study course must submit to the Graduate Chair at the beginning of the term a ‘Department Independent Study Request’ form describing the readings and/or research they propose to undertake. The form must be signed by both the participating faculty member and the Graduate Chair. A final statement on the work completed must be filed with the Graduate Chair at the end of the term. A letter grade is given for this course.
- Outside courses: With the approval of the Graduate Chair, students may take one course outside the Sociology Department.

Culminating Events: This program has no culminating events beyond successful completion of coursework. The master's degree in Sociology is awarded to any candidate who earns a cumulative grade point average of 3.0 or better in the master's degree curriculum. Apply for graduation in Self Service Banner by accessing TUPortal. Note the deadline for submitting the graduation application on the Graduate School’s calendar (p. 10).

Sociology, Ph.D.
COLLEGE OF LIBERAL ARTS

About the Program
The graduate program in Sociology is devoted to the training of research scholars and educators in the discipline. Students have a variety of career goals, ranging from academic research and teaching to research and administration in private or public agencies. The doctoral program provides advanced training in sociological theory, statistics, and research methods. The program's main areas of graduate teaching and research are Gender and Sexuality, Immigration and Globalization, Medical Sociology, Race and Ethnicity, and Urban Sociology.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Full-time study is preferred, but part-time enrollment can be considered on a case-by-case basis.

Interdisciplinary Study: The program encourages students to participate in seminars in other social sciences, including Anthropology, Criminal Justice, Geography and Urban Studies, History, Political Science, Psychology, Urban Education, and Women's Studies.

Affiliation(s): The program is affiliated with the American Sociological Association (ASA).

Areas of Specialization: The main areas of graduate teaching and research are:
- Gender and Sexuality
- Immigration and Globalization
- Medical Sociology
- Race and Ethnicity
- Urban Sociology

Job Prospects: Graduates of the Ph.D. program are typically employed as either teaching-research scholars in an academic setting or as applied researchers and administrators in private and public agencies.

Non-Matriculated Student Policy: Students with a bachelor's degree may take graduate courses in Sociology without enrolling in a Temple University graduate program. A limit of 9 credits of graduate coursework taken prior to admission will be accepted toward a Sociology degree. Non-matriculated students should consult with the Graduate Chair before selecting their coursework if they plan to apply for the degree program.

Financing Opportunities: The Sociology Department and Temple University support full-time students during the academic year through Teaching Assistantships, part-time teaching, and University Fellowships. Initial funding is contingent on the recommendation of the Admissions Committee; continued funding is based on faculty assessment at the annual graduate student review. Funded students are typically offered a five-year funding package. Additional support for dissertation research is available through fellowships competitively awarded by the university and from outside sources.

Admission Requirements and Deadlines
Application Deadline:
Fall: December 15

Applications are evaluated together after the deadline has passed.

APPLY ONLINE to this graduate program to begin the application process and receive your TUid number.

Next, visit https://www.cla.temple.edu/interfolio/sociology-phd to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:
- Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
- Official electronic transcripts must be sent to socadmis@temple.edu or the originals mailed to:
  Pamela Smallwood, Graduate Coordinator
  Temple University College of Liberal Arts
  Dept. of Sociology
  1115 W. Polett Walk, 710 Gladfelter Hall (025-23)
  Philadelphia, PA 19122-6089

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with academic competence, wherever possible.

Master's Degree in Discipline/Related Discipline: A master's degree is not required.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree in Sociology, Criminal Justice, Economics, History, Political Science, Psychology, or Urban Studies is required, although a degree in other disciplines can be considered.

Statement of Goals: Approximately 500 to 1,000 words include your interest in Temple's program; your research goals; your future career goals; and your academic and research achievements.

Standardized Test Scores:
GRE: Required.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:
- TOEFL iBT: 100
- IELTS Academic: 7.0
- PTE Academic: 68

Writing Sample: The writing sample should demonstrate your ability to conduct research and write a scholarly paper. The paper should be on a
sociological topic. It must be fully referenced according to a professional and scholarly style.

Resume: Current personal resume or curriculum vitae required.

Transfer Credit: Graduate coursework in Sociology may be transferred from outside the university, provided that the credits were obtained no more than five years prior to the student's matriculation at Temple and the grades are 'B' or better. The maximum number of credits a student may transfer is 12, if the credits earned did not result in the completion of an M.A. degree.

Advanced Standing: For students entering the Ph.D. program who have received an M.A. degree elsewhere, up to 19 credits may be applied to the doctoral program, provided the courses are relevant to the department's required courses. These credits must have been obtained no more than five years prior to the student's matriculation at Temple and the grades must be 'B' or better. The Graduate Chair decides which courses students may transfer. As a general rule, students with transferred credits should expect that they will have to complete much of the required coursework in residence and are, further, expected to take two courses from Temple faculty in their area of focus before taking the Ph.D. Preliminary Exam in their field.

Total Credit Hours 52

1 Of the eight elective courses, two must relate to the preliminary examination. Other electives may include:
- Independent Study courses (SOC 9382): With the consent of the Graduate Chair and the instructor, students may take two Independent Study courses, which are intensive programs of study within a specific area of Sociology. Students who wish to take these courses must submit to the Graduate Chair at the beginning of the term a 'Department Independent Study Request' form describing the readings and/or research they propose to undertake. The form must be signed by both the participating faculty member and the Graduate Chair. A final statement on the work completed must be filed with the Graduate Chair at the end of the term. Letter grades are given for these courses.
- Outside courses: With the approval of the Graduate Chair, students may take two courses outside the Sociology Department.

2 In lieu of SOC 9998, an additional credit may be taken in either SOC 9994 or SOC 9999.

Culminating Events:

Pre-Candidacy Evaluation:
The Sociology Department evaluates doctoral students at the end of their second year using the grade point average (GPA) as a main criterion for advancement to doctoral-level coursework. A student with a GPA below 3.4 is ordinarily not allowed to continue in the doctoral program. However, the student can petition the Graduate Committee for re-consideration. After a petition is submitted, the Graduate Chair requires a written evaluation from each faculty member in the department with whom the student has taken a course. The student is permitted to continue in the Ph.D. program if at least five faculty members write in support of the petition. Those not allowed to continue can graduate with an M.A. upon completion of the requirements.

Preliminary Examination:
After completing the required coursework, doctoral students are expected to take a preliminary examination in the Spring term of their third year. The preliminary examination consists of two parts: the written area examination, and the proposal paper. Based on the written area exam grade and the evaluation of the proposal paper, the Graduate Chair assigns an overall “pass” or “fail” to each student for the preliminary examination. Students are notified of the results at the end of the term. Students need a “pass” on the written exam and an “acceptable” evaluation on the proposal paper to successfully complete the preliminary examination. Those who do well on one part but fail the other may retake the part they failed. Those who fail both the area exam and the proposal paper are allowed to retake both parts. Students who fail on their second attempt at either the written area exam or the proposal paper are not allowed to continue in the Ph.D. program but are eligible to receive a master’s degree.

Written Area Exam: Prior to taking the preliminary examination, students must complete two or more graduate-level courses related to that examination area offered by the faculty within the department. When doctoral students complete the required coursework, they must then take the preliminary examination in one of the broad examination areas identified by the Sociology Department as consistent with its mission and self-defined areas of strength: Gender and Sexuality, Immigration and Globalization, Medical Sociology, Race and Ethnicity, and Urban Sociology. However, students may request to take the exam in another area under the following conditions:

1. the student has taken at least two graduate-level courses in the Sociology Department in the requested area, one of which may be an independent study course;
2. two faculty members are willing to sponsor the exam; and
3. the Graduate Chair approves.

No later than the second Monday in September prior to the Spring term when the preliminary examination will be taken, students must fill out the 'Department Preliminary Examination Application' form and indicate the selected area for the exam. The Department Chair appoints two faculty members and a tiebreaker to form area-specific Prelim Committees charged with grading the exams.

The written area examination consists of four questions, and students must select and answer two of those questions. Students are given one week to complete the preliminary exam. Students receive the questions on an announced Monday in March or April, and the answers are due a week later. The Prelim Committee members have two weeks to evaluate the exam, assigning a grade of "Pass" or "Fail" to each question along with their comments. A total of at least three "Pass" grades from the two graders is needed for a student to pass the exam. When the graders both agree to fail a question (even if they pass the other question), the student has failed the preliminary exam. The tiebreaker should be used either when:

1. one grader passes both answers and the other grader fails both answers; or
2. when one grader passes the first answer and fails the second, while the other grader fails the first answer and passes the second.

If the tiebreaker fails to break the tie (i.e., three fails and three passes), the student fails the exam. Grades with comments are submitted to the Graduate Chair.

If the student fails the written area exam, s/he may retake the exam. At the beginning of the following Fall term, three faculty members (including a tiebreaker) in the preliminary area are appointed by the Department Chair to form a Prelim Committee. The committee submits four questions to the Graduate Chair by October 15. The student receives the questions the Monday of the week before Thanksgiving week and the exam is due on the Monday of Thanksgiving week. The committee has two weeks to grade the exam.

Proposal Paper: In the Spring term of the preliminary examination, students are also required to take a three-credit proposal seminar course (SOC 9994 Preliminary Examination Preparation). They must receive a passing grade on the written paper for the course in order to pass the preliminary examination.

The proposal paper is the main assignment of the proposal seminar. Every student selects a faculty member with expertise in her/his research area to serve as a proposal reader. On the official last day of classes, students submit their proposal paper to the instructor and the reader. The paper should demonstrate mastery of the existing body of literature on the proposed topic and the ability to formulate important scholarly research problems, as well as the appropriate methods to investigate them. It should not exceed 20 pages and should have no fewer than 12 pages. The evaluation of the proposal paper focuses on the student’s potential for writing a passable dissertation. Evidence of such potential includes the ability to synthesize the relevant literature; conceptualize a researchable problem; and propose a feasible research design. The instructor and the reader have a week to grade the papers. Each must submit a detailed, descriptive evaluation of the paper to the Graduate Chair, indicating whether it is "acceptable" or "unacceptable." If the instructor and the reader disagree on the evaluation of the paper, a third department member with expertise in the area is appointed by the Graduate Chair to provide a determining evaluation. The main goal of the paper evaluation is to assess the student's ability to write a dissertation.

If the student fails the proposal paper, s/he may rewrite the paper. The Graduate Chair appoints a faculty mentor with expertise in the research topic to work with the student on the rewriting of the paper; the mentor also serves as a grader. The Graduate Chair appoints another faculty member to serve as a second grader. If a tie occurs between the two graders, the Graduate Chair finds a third grader to break the tie.

The rewritten paper is due the first Monday in December. The appointed faculty members evaluate the paper and report to the Graduate Chair in two weeks whether the paper is "acceptable" or "unacceptable." Students are notified of the results by December 15.

Doctoral Advisory Committee:
Following the preliminary examination, the student selects the Chair of her/his Doctoral Advisory Committee. The remaining two or more members of the committee are selected by the student in consultation with the Chair. The majority of the committee members must be from the Sociology Department. Other members may include faculty from other departments within Temple University or from other universities; doctoral-level expert advisors from outside university settings may also be considered as members.

To establish the Doctoral Advisory Committee, the student must submit a 'Sociology Department Doctoral Advisory Committee' form to the department's Graduate Coordinator. To include committee members who are not members of the Temple Graduate Faculty on a Doctoral Advisory Committee, the Chair must request approval by submitting the 'Nomination for Service on Doctoral Committee' form, found in TPortal under the Tools tab within "University Forms," and the proposed committee member's current curriculum vitae to the Graduate School. If a change is made in the composition of the Doctoral Advisory Committee, the change must be approved by the Chair of the committee; if the change involves the Chair of the committee, the Graduate Chair should be informed beforehand and the original Chair of the committee must be notified. The change must also be noted on the original 'Sociology Department Doctoral Advisory Committee' form and signed by both the Chair of the committee and the Graduate Chair.

The Doctoral Advisory Committee meets at least once a year to review the candidate's progress and offer advice to the candidate.

Dissertation Proposal:
The dissertation proposal is a brief statement of the dissertation research. It should contain a review of the literature; a statement of the research problem; and a comprehensive description of the research strategy to be employed.

A digital copy of the proposal is made available to faculty at least two weeks prior to the oral defense of the proposal. All department faculty and graduate students are invited to attend the presentation of the dissertation proposal. Normally, proposal defenses are held during the academic year. All members of the committee must be present at the proposal defense.

The dissertation proposal is accepted only when members of the dissertation committee vote unanimously to accept it. An approved dissertation proposal along with the 'Dissertation Proposal Transmittal for Elevation to Candidacy' form, found in TPortal under the Tools tab within "University Forms," must be filed with the Graduate School. After
defending the dissertation proposal, a student is formally advanced to Ph.D. candidacy.

If a change is made in the composition of the Doctoral Advisory Committee after the approval of the proposal, the change must be approved by the Chair of the committee and the Dean of the College. The change must be noted on the ‘Request for Change in Dissertation Committee’ form, found in TUportal under the ‘University Forms,’ and filed with the Graduate School prior to posting the final dissertation defense.

**Dissertation Defense/Ph.D. Final Examination:**
The dissertation is defended orally. Any discrepancy between the final version of the dissertation and the dissertation proposal should be explained and defended. A digital copy of the dissertation is made available to faculty at least two weeks before the dissertation defense. An abstract of the dissertation, not exceeding ten pages, must be given to all faculty members ten days before the defense.

The Dissertation Examining Committee is formed to evaluate the quality of the dissertation and conduct the oral defense. The committee includes the Doctoral Advisory Committee and at least one outside examiner. If the outside examiner is not a member of the Temple Graduate Faculty, the Chair of the Doctoral Advisory Committee must request approval by submitting the ‘Nomination for Service on Doctoral Committee’ form, found in TUportal under the ‘University Forms,’ and the outside examiner’s current curriculum vitae to the Graduate School at least four weeks in advance of the scheduled defense. Approval must be received prior to posting the oral defense. The Chair of the Dissertation Examining Committee must be a member of the Graduate Faculty, but may not be the Chair of the candidate’s Doctoral Advisory Committee. This person, responsible for coordinating and conducting the defense, must be identified when the defense is posted. All dissertation oral defense examinations are publicly announced by the Sociology Department in writing at least ten days in advance of the examination. The written announcement must be sent to all members of the Dissertation Examining Committee, all graduate faculty in the candidate’s department, and the Graduate School. It must also be posted in the College. All dissertation examinations are open to the entire academic community.

Normally, the dissertation defense is held during the regular academic year. A dissertation defense passed after the Graduate School deadline in the Spring does not qualify the student for a May degree. A summer defense may be scheduled only if all members of the committee agree. The entire dissertation committee must attend the defense. If one or more committee members fail to attend the defense, the Departmental Chair cannot sign the form certifying the defense. All faculty members and students are invited to participate in the dissertation defense.

The dissertation committee must vote unanimously that the student has passed the Ph.D. Final Examination. Each member of the dissertation committee indicates her/his assessment of the examination and signs her/his name to the ‘Final Examination Report for Doctoral Candidates’ form, found in TUportal under the ‘University Forms.’ If the Chair of the Sociology Department agrees that the dissertation meets departmental standards, s/he signifies her/his approval by signing for the department as well on the ‘Final Examination Report for Doctoral Candidates’ form. The completed form is submitted to the Dean’s Office of the College of Liberal Arts.

Information regarding the required format of the dissertation is available in the Graduate School’s *Dissertation and Thesis Handbook*, found at https://grad.temple.edu/resources/dissertation-thesis-handbook. A processing fee must be paid to the Temple University Bursar as shown on the ‘Dissertation/Thesis Processing Fee’ form, found in TUportal under the ‘University Forms.’ Fees may also be required when filing the dissertation electronically, within 30 days of the dissertation defense, at https://www.etdadmin.com/cgi-bin/school?siteId=171. The student should heed the instructions found on the ‘Final Checklist of Dissertation Materials,’ identified as Appendix M1 in the Graduate School’s *Dissertation and Thesis Handbook*. Note that the signature page bearing original ink signatures constitutes the only item required to be submitted in hard copy to the Graduate School.

Students must apply to graduate, through the Sociology Department, by the deadline date announced in the graduate catalog each year. The deadline is usually three or four months before graduation. Applications may be obtained from the department’s Graduate Coordinator or online. Upon completion of the doctoral program, the student is required to submit a bound copy of her/his dissertation to the Sociology Department, as well as a regular hard copy to the Chair of the Dissertation Examining Committee.

About the Program

The graduate program in Spanish integrates the established fields of Literature and Linguistics. At the M.A. level, the program develops advanced Spanish-language skills for diverse careers and trains students in the exercise of research and pedagogical skills necessary for the pursuit of the Ph.D.

Time Limit for Degree Completion: 3 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Study Abroad: Students may apply one approved non-Temple graduate course done in a Spanish-speaking country toward fulfillment of the M.A. requirements in Spanish. Opportunities for graduate study abroad through Temple programs are available occasionally.

Areas of Specialization: Areas of specialization include:
- Spanish Peninsular Literature
- Spanish American Literature
- Hispanic Linguistics

Job Prospects: Graduates of the M.A. program in Spanish typically find employment in secondary education, in business and government, and in social and medical services.

Non-Matriculated Student Policy: Non-matriculated students may take up to three courses with approval of the department or Graduate Chair.

Financing Opportunities: Teaching Assistants typically teach basic and intermediate Spanish or specialized language-skills courses. Assistantships carry a stipend and tuition remission. Candidates for Teaching Assistantships should express their interest and special needs in an addendum to the personal statement of the application to the graduate program.

Admission Requirements and Deadlines

Application Deadline:
- Fall: January 15
- Spring: September 30

Applications are evaluated as they arrive, with attention paid to deadlines.

APPLY ONLINE to this graduate program to begin the application process and receive your TUid number.

Next, visit https://www.cla.temple.edu/interfolio/spanish-ma to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:
- Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.
- Official electronic transcripts must be sent to spangrad@temple.edu or the originals mailed to:
  Annette Vega, Graduate Coordinator
  Temple University College of Liberal Arts
  Spanish Graduate Program
  1114 W. Polett Walk, 428 Anderson Hall (022-34)
  Philadelphia, PA 19122-6090

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members with personal knowledge of the applicant's academic achievements.

Coursework Required for Admission Consideration: An undergraduate major in Spanish or its coursework equivalent is required for entrance into the M.A. program.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree, preferably in Spanish, is required for admission.

Statement of Goals: Approximately 2 to 3 pages include your interest in Temple's Spanish program, future career goals, research goals, academic achievements, and any related experience. Applicants interested in Teaching Assistantships, fellowships, or other financial support may describe special needs in an addendum to their personal statement.

Standardized Test Scores:
GRE: Typical scores range from 153 to 166 in verbal reasoning and 144 to 155 in quantitative reasoning. Applicants from Spanish-speaking countries may present EXADEP scores instead.

International applicants are required to provide scores from one of the following tests: Test of English as a Foreign Language (TOEFL®), the International English Language Testing System (IELTS™), or the Pearson Test of English Academic (PTE Academic™).

Resume: Current resume required.

Writing Sample: A paper or journal article written in Spanish is required.

Transfer Credit: One course (3 credits) undertaken while the student is enrolled in Temple’s Spanish M.A. program may be transferred from a program in a Spanish-speaking country. The course must be a graduate course, and it must be approved by the Graduate Advisor. The maximum number of credits a student may transfer is 3.

Program Requirements

1. Student may take a maximum of 12 credits.
2. Student must take a minimum of 18 credits.

**Language Examination:** Students must pass a written reading-comprehension examination in a foreign language other than Spanish. Examinations are usually taken in the Romance languages or German. Other languages may be accepted with approval.

**Culminating Events:**

**Comprehensive Examination:**
The purpose of the comprehensive examination is to evaluate the breadth and depth of students’ knowledge of the discipline. Students must write a four-hour written comprehensive examination based on a reading list from three course fields within the department: Spanish Peninsular Literature, Spanish American Literature, and Hispanic Linguistics. The examination is taken after the student fulfills the 30-credit course requirement and passes the reading-comprehension exam in a language other than Spanish or English.

All examinations must include representation from each of three course fields: Spanish Peninsular Literature, Spanish American Literature, and Hispanic Linguistics. Graduate Faculty from each of the three fields write the questions and evaluate responses on a scale of ‘A’ to ‘F.’ Each answer is then evaluated by a second reader. To be evaluated as passing, a grade of ‘B-’ or higher must be achieved in response to each examination question. Evaluators look for an understanding of core concepts; the application of principles of critical analysis to texts from the reading list for the M.A. examination; and the ability to write expository prose.

Comprehensive examinations are administered once a term. They are scheduled by the Graduate Chair, with whom students must register. The M.A. examination is given over a period of one week and is proctored by the Graduate Chair or an Administrative Assistant.

**Spanish, Ph.D.**

COLLEGE OF LIBERAL ARTS

**About the Program**
The graduate program in Spanish integrates the established fields of Literature and Linguistics. At the Ph.D. level, the program provides opportunities for advanced study and research in Spanish Peninsular Literature, Spanish American Literature, and Hispanic Linguistics as it trains scholars for careers in higher education.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Areas of Specialization:** Areas of specialization include:
- Spanish Peninsular Literature
- Spanish American Literature
- Hispanic Linguistics
Job Prospects: The department has an excellent record of placing graduates as full-time faculty in public and private universities.

Non-Matriculated Student Policy: Non-matriculated students may take up to three courses with approval of the department or Graduate Chair.

Financing Opportunities: Teaching Assistants typically teach basic and intermediate Spanish or conversation, composition, and reading courses. Assistantships carry a stipend and tuition remission. Candidates for Teaching Assistantships should express their interest and special needs in an addendum to the personal statement of the application to the graduate program.

**Admission Requirements and Deadlines**

**Application Deadline:**

- **Fall:** January 15
- **Spring:** September 30

Applications are evaluated as they arrive, with attention paid to deadlines. APPLY ONLINE to this graduate program to begin the application process and receive your TUid number.

Next, visit https://www.cla.temple.edu/interfolio/spanish-phd to create or log in to your Interfolio account. Complete the supplemental program application and upload scanned copies of all supporting documents to your account, with these exceptions:

- **Scores for the GRE and TOEFL, if applicable, must be reported directly by ETS to institution code 2906.**
- **Official electronic transcripts must be sent to spangrad@temple.edu or the originals mailed to:**
  Annette Vega, Graduate Coordinator
  Temple University College of Liberal Arts
  Spanish Graduate Program
  1114 W. Polett Walk, 428 Anderson Hall (022-34)
  Philadelphia, PA 19122-6090

**Letters of Reference:**

- **Number Required:** 3

  **From Whom:** Letters of recommendation should be obtained from college/university faculty members with personal knowledge of the applicant's academic and scholarly achievements.

**Master's Degree in Discipline/Related Discipline:** A master's degree in Spanish with an emphasis in Literature and/or Linguistics is required.

**Bachelor's Degree in Discipline/Related Discipline:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

**Statement of Goals:** Approximately 2 to 3 pages include your interest in Temple's Spanish program, future career goals, research goals, academic achievements, and any related experience. Applicants interested in Teaching Assistantships, fellowships, or other financial support may describe special needs in an addendum to their personal statement.

**Standardized Test Scores:**

GRE: Required. Typical GRE scores range from 153 to 166 in verbal reasoning and 144 to 155 in quantitative reasoning. Applicants from Spanish-speaking countries may present EXADEP scores instead. International applicants are required to provide scores from one of the following tests: Test of English as a Foreign Language (TOEFL®), the International English Language Testing System (IELTS™), or the Pearson Test of English Academic (PTE Academic™).

**Resume:** Current resume required.

**Writing Sample:** A paper or journal article in Spanish is required as a writing sample.

**Advanced Standing:** Students are awarded advanced standing based on a review of transcripts and descriptions of previous graduate coursework in Spanish Literature or Spanish Linguistics. The maximum number of advanced standing credits awarded is 30.

**Program Requirements**

**General Program Requirements:**

- **Number of Credits Required Beyond the Master's:** 24
- **Number of Credits Required Beyond the Baccalaureate:** 54

**Required Courses:**

**Total Credit Hours:** 54

1 All electives are Spanish courses taken at the 5000- and 8000-levels.

**Language Examination:** Students must pass written reading-comprehension examinations in two foreign languages other than Spanish. Examinations are usually taken in the Romance languages or German. Other languages may be accepted with approval.

**Culminating Events:**

**Preliminary Examination:**

The purpose of the written preliminary examination is to demonstrate critical and interpretive knowledge in two specific areas of Hispanic Studies chosen by the doctoral student and approved by the faculty. The doctoral student may customize the reading lists for the examination in accordance with research interests. The written examination lasts 10 hours. The preliminary examination should be completed no more than one term after the student completes the coursework component of the program.

Examination areas are drawn from the three fields of study within the department: Spanish Peninsular Literature, Spanish American Literature, and Hispanic Linguistics. Graduate Faculty members specializing in the subject areas selected for the examination write the questions for the preliminary examination and evaluate the examination. Each member
grades examination answers on a scale of ‘A’ to ‘F.’ A grade of ‘B-' or higher must be achieved in response to each question. The evaluators look for breadth and depth of understanding of specific research areas; the critical application of knowledge in response to specific exam questions; and an ability to write in a clear and concise manner using appropriate terminology.

The preliminary examination is given over a period of two weeks. Students who are preparing to write their preliminary examinations must meet with the Graduate Chair to register and confirm.

Proposal:
The dissertation proposal demonstrates the student’s knowledge and ability to conduct the proposed research. The proposal typically consists of the presentation of the context and background surrounding a particular research question or problem; a survey and review of pertinent literature; and a detailed methodological plan for carrying out the proposed research. The proposal should be completed and approved by the student’s Doctoral Advisory Committee no more than one year after the student completes coursework.

Dissertation:
The doctoral dissertation is an original empirical or theoretical study that makes a significant contribution to the field of Hispanic Studies. It should expand existing knowledge and demonstrate the student’s mastery of research methods and of her/his primary area of research. The dissertation should be rigorously investigated, uphold the ethics and standards of the field, and demonstrate an understanding of the relationship between the primary area of research and the broader field of Hispanic Studies.

The Doctoral Advisory Committee is formed to oversee the student’s dissertation research and is comprised of three Graduate Faculty members. One is the Committee Chair, who has responsibility for directly overseeing and guiding the student’s progress, coordinating the responses of the Committee members, and informing the student of her/his academic progress.

The Dissertation Examining Committee is comprised of the Doctoral Advisory Committee and at least one additional examiner from outside the Department of Spanish and Portuguese. The outside examiner should be identified no later than the beginning of the term in which the student plans to defend the dissertation. The Dissertation Examining Committee evaluates the student's dissertation and public oral examination, including the student's ability to express verbally her/his research question, methodological approach, primary findings, and implications. The Committee votes to pass or fail the dissertation and the defense at the conclusion of the public oral defense.

If a student needs to change a member of a Committee, the new member must be approved by the department’s Graduate Committee and registered with the Graduate Secretary and the Graduate School.

Students who are preparing to defend their dissertation must confirm a time and date with their Doctoral Advisory Committee Chair at least one month before the defense is to be held. After the Chair has arranged the time, date, and room for the defense, a completed ‘Announcement of Dissertation Defense’ form, found in TUportal under the Tools tab within “University Forms,” must be delivered to the Graduate School by the student at least 10 days before the defense. The department posts flyers announcing the defense.
Students in the program learn practical skills such as geospatial crime analysis and crime reduction evaluation through time series analysis, as well as develop a conceptual understanding of analytical strategies across the crime prevention domain. Graduating students are versed in the skill set designated by the International Association of Crime Analysts’ (IACA) Certified Law Enforcement Analyst Program (CLEA). Upon completion of the certificate program, future and current crime analysts are better equipped to undertake complex crime and offender analysis; describe the scientific method and its application to crime analysis; and appraise and apply the latest research in evidence-based policing, especially in relation to crime, harm, and disorder in the community. They also demonstrate a broad range of GIS data management skills.

Time Limit for Certificate Completion: 2 years

Students undertaking coursework for the graduate certificate can decide to continue with the M.A. program in Criminal Justice. They can either:

- Complete the certificate, and transfer 6 credits in to the M.A., or
- Forgo the graduate certificate, and transfer all completed credits (up to 12) into the M.A. program.

Note that students who undertake both the graduate certificate in Crime Science and the graduate certificate in Police Leadership are only able to complete seven of eight required classes for the pair because the certificates share CJ 5001 Evidence-Based Policing. Those students are then required to take one class from the department’s existing graduate program.

Campus Location: Main, with CJ 5001 Evidence-Based Policing offered at the Philadelphia Police Department Police Academy in Northeast Philadelphia

Full-Time/Part-Time Status: The graduate certificate is completed on a part-time basis. Students take one course per academic term over 16 months: Fall, Spring, Summer, and Fall. Classes are held in the evening to accommodate working professionals.

Job Prospects: The certificate program is chiefly available to individuals who are currently employed in a role that requires relevant professional experience. Examples include those working in a police department or as a loss prevention leader with a private firm.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

Admission Requirements and Deadlines

Application Deadline:
Fall: Admission is offered as part of a cohort for the Fall term.

Letters of Reference:
Number Required: 2

From Whom: Letters of recommendation should be obtained from evaluators, typically college/university faculty or an immediate work supervisor, who can provide insight into the applicant’s aptitude for graduate study.

Bachelor’s Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. An undergraduate GPA of 3.0 — or 2.5 with at least two years of relevant professional experience — is required.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a Crime Science certificate and your professional experience in the field.

Standardized Test Scores:
Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 88
- IELTS Academic: 6.5
- PTE Academic: 60

Proficiency in the use of spoken and written English is required. Students whose first language is not English need to meet the University’s English language requirement.

Resume: Current resume required.

Graduate Certificate: Gender, Sexuality and Women's Studies

COLLEGE OF LIBERAL ARTS

About the Certificate

Students in the Gender, Sexuality and Women's Studies (GSWS) graduate certificate program acquire and develop methodological and theoretical expertise in the interdisciplinary field of Gender, Sexuality, and Women's Studies. The certificate can be pursued by graduate students already enrolled in a Temple University graduate degree program. They complete the certificate requirement while simultaneously fulfilling the graduate requirements for their degree-granting department.

The GSWS graduate certificate program can also be undertaken as a freestanding certificate by persons who are not enrolled in a Temple University graduate degree program. In addition, students who are not enrolled in a Temple graduate degree program but are enrolled in a graduate degree program at another university must apply for the GSWS graduate certificate by completing an external application form.

All students complete the same course requirements to earn the certificate. And all certificate students join and benefit from a community of graduate students and faculty committed to the study of gender and sexuality in a wide range of disciplines.

Time Limit for Completion of Certificate Coursework: 3 years

Temple graduate students typically take GSWS 8001 Feminist and Queer Studies and GSWS 9991 Research Seminar in their first year of graduate study. Each year, GSWS 8001 is offered in the Fall term and GSWS 9991 is offered in the Spring term. Students may take GSWS 9991 in the Spring term of their first year and GSWS 8001 in the Fall term of their second year, as well as their graduate-level GSWS-related electives during the first two years of their degree program, but exceptions can be made for taking one of the courses in the third year. Certificate students who are not enrolled in a Temple University graduate degree program may take the required coursework in any order they wish within a 3-year period.

Campus Location: Main

Full-Time/Part-Time Status: The graduate certificate is completed on a part-time basis. Students undertaking the GSWS graduate certificate while enrolled in a graduate degree program at Temple complete the certificate while fulfilling the requirements for their graduate degree program.

Job Prospects: The GSWS graduate certificate is a credential that enhances students' prospects in today's highly competitive academic job market by signaling a demonstrated interest in and commitment to diversity and inclusion. Students are able to apply the expertise gained in the certificate program to their scholarly research and teaching interests. Many colleges and universities are looking for job candidates who can both teach mainstream courses in academic departments as well as teach courses that focus on gender and/or sexuality within those departments. All of these factors make the certificate both intellectually enriching and practically useful.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

Admission Requirements and Deadlines

Application Deadline:

Fall and Spring: Applications must be submitted by the end of the add/drop period.

Students currently enrolled in a graduate degree program at Temple University apply on the GSWS graduate certificate internal application webpage. Questions should be directed to Heath Fogg Davis, GSWS Program Director, at hfd@temple.edu.

Students not currently enrolled at Temple apply via an external application form. Please contact Stephanie Morawski, GSWS Program Administrator, at morawski@temple.edu for access to the external application form.

Bachelor's Degree in Discipline/Related Discipline: Applicants already admitted to a graduate degree program at Temple University have demonstrated that they possess the required bachelor's degree. Applicants not currently enrolled in a Temple University graduate degree program and applicants enrolled in a graduate degree program at another university must submit official transcripts for all coursework taken since high school, whether or not a degree was earned from the institution(s). Evidence of the award of a baccalaureate degree from an accredited university with an undergraduate GPA of at least 3.0 on a 4.0 scale must be shown.

Additional Requirements for Students Not Currently Enrolled in a Graduate Degree Program at Temple University:

- Two letters of recommendation from persons in a position to evaluate the applicant's academic ability and accomplishments
- A personal statement of no more than 250 words indicating interests, plans, and objectives within the field of Gender, Sexuality, and Women's Studies

Certificate Requirements

Number of Credits Required to Complete the Certificate: 12

Required Courses:
A research requirement must be fulfilled to earn the GSWS graduate certificate:

- Students currently enrolled in a graduate degree program at Temple fulfill this requirement by writing a thesis or dissertation that considers gender and/or sexuality in some way. The entirety of the student’s thesis or dissertation might be focused on gender and/or sexuality, or these themes may be central to a single chapter or section.
- Students not enrolled in a Temple University graduate degree program write a research paper as part of their coursework in GSWS 9991 Research Seminar that considers gender and/or sexuality in some way.

### Graduate Certificate: Geographic Information Systems

**About the Certificate**

The 21st century is increasingly defined by the incorporation of spatial technologies into everyday life. Geographic information has become one of the linchpins of the Information Age, whether through the proliferation of the civilian global positioning system, mobile and fixed platforms for reporting locational information, or, most crucially, the increasing interest in computational and analytical tools focused on this information (i.e., Geographic Information Systems [GIS]). While geographic information is increasingly integrated into the fabric of everyday life, this explosion in interest in GIS is fueling demand for well-trained professional practitioners. Our courses introduce students to a variety of cutting-edge spatial analysis technology and mapping software.

GIS is a rapidly growing field with applications across the social sciences, sciences, and professional fields. Because applications of GIS are pervasive across many fields and industries, the U.S. Department of Labor estimates that the geospatial technology market is growing at an annual rate of 35 percent. The Department of Geography and Urban Studies faculty have expertise in a range of GIS applications, including
urban, health, environment, business, location analysis, geovisualization, and remote sensing.

The certificate complements our Professional Science Master’s in GIS and may serve as a gateway into the program. Students in the certificate program pursue a curriculum that provides training in GIS that also complements graduate programs offered in the College of Education, College of Liberal Arts, College of Public Health, College of Science and Technology, Fox School of Business and Management, and the School of Media and Communication.

**Time Limit for Certificate Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis.

**Job Prospects:** Training in GIS prepares individuals to take on advanced research positions in technology-based companies, governmental agencies, and non-profit organizations. The array of electives for the certificate allows students to specialize in the areas of their professional or academic interests.

**Non-Matriculated Student Policy:** Courses are available to non-matriculated graduate students with approval from the Graduate Chair or Assistant Director. Non-matriculated students may take up to 9 credits prior to matriculation. If accepted into the program, these credits may be applied toward the certificate. Please contact psmgis@temple.edu for more information about registering as a non-matriculated student.

### Admission Requirements and Deadlines

**Application Deadline:**
*Fall and Spring:* Admission is on a rolling basis. Interested students should contact psmgis@temple.edu for permission to enroll in coursework. Students are processed by the Office of Continuing Studies.

**Bachelor’s Degree in Discipline/Related Discipline:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

### Certificate Requirements

**Number of Credits Required to Complete the Certificate:** 12

**Required Courses:**

Graduate Certificate: Neuroscience

COLLEGE OF LIBERAL ARTS

About the Certificate

The graduate certificate in Neuroscience was established in the College of Liberal Arts in 2008 to impart training to graduate students who are interested in developing an in-depth understanding of neuroscience and pursuing research in this area. Students are required to fulfill the following requirements as a part of this certificate program:

1. Must currently be a matriculating graduate student in good standing in a Temple University Ph.D. program.
2. Must meet all obligations of the student's participating department.
3. Must include one member of the Neuroscience program on her/his dissertation committee.
4. Must enroll in NSCI 9381 Readings in Neuroscience, which requires attending and participating in the seminars/journal clubs of the Neuroscience program, for three academic terms of 1 credit each.
5. Must enroll in two courses in each of the following Neuroscience specialization areas:
   - Behavioral/Cognitive/Systems Neuroscience
   - Cellular/Molecular Neuroscience

Upon successful completion of all departmental and Neuroscience program requirements, students receive a Ph.D. degree in the discipline represented by their department with a certificate in Neuroscience. Doctoral students enrolled in the Departments of Biology and Psychology can be awarded this specialization in Neuroscience.

Campus Location: Main

Full-Time/Part-Time Status: The graduate certificate can be completed only on a full-time basis.

Non-Matriculated Student Policy: Students can take up to 9 credits on a non-matriculated basis. When they complete 9 credits, they must declare their intention to complete the graduate certificate in Neuroscience by completing and submitting the "Non-Degree Seeking Student Request to Exceed 9 Credits of Graduate Coursework for Certificate Program," found in TUportal under the Tools tab within "University Forms."

Admission Requirements and Deadlines

Bachelor's Degree in Discipline/Related Discipline: Applicants already admitted to a graduate degree program at Temple University have demonstrated that they possess the required bachelor's degree.

Certificate Requirements

Number of Credits Required to Complete the Certificate: 15

Required Courses:

<table>
<thead>

</tr>
</tbody>
</table>

1 Of the four Neuroscience courses required in the specialization areas, three 3-credit courses are mandatory. One course may, however, be taken from the 2-credit courses offered by the Lewis Katz School of Medicine, which ensures that students have a wider breadth of course selection in the certificate program. When a student selects a 2-credit course, s/he is limited to taking one such course and, to achieve the 15 credits required to earn the certificate, must take an additional academic term of NSCI 9381 Readings in Neuroscience (1 s.h.).

Graduate Certificate: Police Leadership

COLLEGE OF LIBERAL ARTS
About the Certificate

The graduate certificate in Police Leadership is designed to provide police practitioners with a thorough understanding of the leadership challenges that face police command staff in an operational environment. Students in the program undertake a field of study designed to equip police leaders with a skill set tuned to 21st-century policing. Courses explore decision-making styles and individual leadership characteristics; evidence-based policing and decision-making in the context of operational command and community crime reduction; ethical governance and workplace management; and an executive seminar involving organizational leaders from within and outside of policing. Upon completion of the certificate program, policing practitioners are better equipped to consume research evidence; describe best practice in leadership roles across complex work environments, especially in relation to crime, harm, and disorder in the community; and develop their own leadership traits.

Time Limit for Certificate Completion: 2 years

Students undertaking coursework for the graduate certificate can decide to continue with the M.A. program in Criminal Justice. They can either:

- Complete the certificate, and transfer 6 credits in to the M.A., or
- Forgo the graduate certificate, and transfer all completed credits (up to 12) into the M.A. program.

Note that students who undertake both the graduate certificate in Police Leadership and the graduate certificate in Crime Science are only able to complete seven of eight required classes for the pair because the certificates share CJ 5001 Evidence-Based Policing. Those students are then required to take one class from the department’s existing graduate program.

Campus Location: Main, with CJ 5001 Evidence-Based Policing offered at the Philadelphia Police Department Police Academy in Northeast Philadelphia

Full-Time/Part-Time Status: The graduate certificate is completed on a part-time basis. Students take one course per academic term over 16 months: Fall, Spring, Summer, and Fall. Classes are held in the evening to accommodate working professionals.

Job Prospects: The certificate program is chiefly available to individuals who are currently employed in a role that requires relevant professional experience. Examples include those working in a police department or as a loss prevention leader with a private firm.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

Admission Requirements and Deadlines

Application Deadline:  
Fall: Admission is offered as part of a cohort for the Fall term.

Letters of Reference:  
Number Required: 2

From Whom: Letters of recommendation should be obtained from evaluators, typically college/university faculty or an immediate work supervisor, who can provide insight into the applicant’s aptitude for graduate study.

Bachelor’s Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. An undergraduate GPA of 3.0 — or 2.5 with at least two years of relevant professional experience — is required.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking a Police Leadership certificate and your professional experience in the field.

Standardized Test Scores: 
Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 88
- IELTS Academic: 6.5
- PTE Academic: 60

Proficiency in the use of spoken and written English is required. Students whose first language is not English need to meet the University’s English language requirement.

Resume: Current resume required.

Admissions Information:

Dept. of Criminal Justice  
512 Gladfelter Hall  
1115 W. Polett Walk
Graduate Certificate: Spanish for Health Professions

About the Certificate

The online graduate certificate in Spanish for Health Professions prepares professionals in healthcare fields to engage in culturally sensitive, knowledgeable Spanish communication with the Latinx and Spanish-speaking community in healthcare settings. This exclusively online certificate offers maximum flexibility in recognition of the unique time and geographical constraints of the working professional. The coursework allows students to:

- hone and improve their oral, aural, reading, and writing skills in Spanish;
- appreciate, recognize, and comprehend the varieties of language used by the target population;
- engage in the practice of the techniques of interpretation and translation between Spanish and English; and
- learn to recognize their own linguistic capacities and how to harness them.

Cultural competency is developed as students examine the diversity of the Latinx population in the United States, discussing cultural norms, concerns, and expectations around healthcare. Students also acquire an overview of the most prominent health issues in the community to enable them to engage with patients on these topics.

As the coursework is completed predominantly in Spanish, both a theoretical and a practical grasp of the issues and the language are attained by completion of the certificate. Once completed, graduates are better able to meet the needs of a healthcare system that demands culturally competent, bilingual individuals be able to serve a diverse set of patients in a variety of healthcare settings.

Time Limit for Certificate Completion: 2 years

Campus Location: Online, with virtual synchronous sessions held in the evenings to accommodate working professionals

Full-Time/Part-Time Status: The graduate certificate is completed on a part-time basis. Students may take one course per academic term over 24 months.

Job Prospects: The certificate program is designed for those either working in the healthcare professions or with the background to do so. Completion of the certificate advances an employee's professional training, adding value to their agency and their salary.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

Admission Requirements and Deadlines

Application Deadline:
Summer: Admission is rolling. Students may begin when SPAN 5601 is offered.

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of a baccalaureate degree at Temple University with a GPA of 2.5 or better.

Statement of Goals: In 500 to 1,000 words, outline your interest in seeking the certificate in Spanish for Health Professions.

Resume: Current resume required.

Language Requirement: All applicants must demonstrate proficiency equivalent to completion of SPAN 1003 at Temple University through the placement exam, AP credits, previous coursework, or Spanish advising placement.

Lew Klein College of Media and Communication

The Lew Klein College of Media and Communication (KCMC) at Temple University is one of the most prominent of its kind in the nation. Combining a history of success with an eye on the constantly shifting horizon, Klein College offers one of the most advanced and diverse programs for learning and networking in the communications field.

With a superb faculty, diverse student body, and location in the nation’s fourth-largest media market, KCMC is one of the most exciting places in the world to study the role and many facets of communication in public life. Possessing an array of experience and expertise, KCMC faculty range from world-renowned scholars to Pulitzer Prize-winning practitioners. All are dedicated to teaching and ensuring that our school is a powerful force for innovation, diversity, and social justice. We foster curiosity in our students and encourage their willingness to begin with tough questions and challenge themselves and each other in pursuing truth. Our students graduate with the confidence to communicate effectively across cultures.

Klein College students learn by doing. Classrooms provide hands-on training using industry-standard technology. All KCMC facilities are uniquely outfitted for the teaching, research, and production of all disciplines of communications study. Annenberg Hall is home to:

- A 75-seat film and video screening room
- Broadcast and film production areas
- Electronic news writing and editing rooms
- Journalism and photography labs
- Multimedia labs
- Video and film editing areas
- Three fully-equipped studios for educational use, including videography, television direction, and broadcast performance

At Temple University Center City, the Multimedia Urban Reporting Lab (MURL) is a newsroom that features wireless networking, digital recorders, access to the AP wire, and video equipment.

Since the founding of the Department of Journalism in 1927, the structure and curriculum of the communications program have been evolving to meet the demands and expectations of a changing media landscape. Key events include:

- In 1967, the School of Communications and Theater was formed by combining the Department of Journalism and the Department of Radio, Television and Film.
- Also in 1967, the first graduate degree was offered in an M.F.A. in Theater, which was followed four years later by an M.F.A. in Film and Video.
- In 2010, TUTV, Temple’s digital cable channel, was launched within the city of Philadelphia on Comcast and Verizon, as well as online at https://templetv.net/.
- In 2012, the school was renamed the School of Media and Communication when a University realignment of schools and colleges moved the Department of Film and Media Arts and Department of Theater to a new Center for the Arts.

In March 2017, in celebration of the school’s 50th anniversary, an official renaming made it the Lew Klein College of Media and Communication. The name change honors broadcasting pioneer Lew Klein. Klein began teaching TV courses at Temple University in 1952, while he also worked as an executive at WFIL-TV (now WPVI) in Philadelphia. In the ensuing 65 years, he helped launch the careers of hundreds of professionals, including NBC Today co-anchor Matt Lauer; CBS Evening News Executive Producer Steve Capus, SMC ’86; comedian Bob Saget, SMC ’78; and the late host and producer Dick Clark. In addition to serving as executive producer of American Bandstand and producing legendary Philadelphia-area programs, such as Captain Noah and His Magical Ark, Klein played an instrumental role in launching Channel 6’s Action News format as program director of the station in 1970. He also spent 15 years producing Philadelphia Phillies telecasts and was president of Gateway Communications, which owned four TV stations in the East. Throughout his momentous career, Klein taught as a part-time adjunct professor at Temple.

Larry Stains, Associate Professor (Teaching/Instructional), Department of Journalism, Lew Klein College of Media and Communication; M.J., Columbia University.

Edward J. Trayes, Professor, Department of Journalism, Lew Klein College of Media and Communication; Ph.D., University of Iowa.

Karen M. Turner, Associate Professor, Department of Journalism, Lew Klein College of Media and Communication; J.D., Northwestern University School of Law.

Elizabeth Leebron Tutelman, Professor, Department of Media Studies and Production, Lew Klein College of Media and Communication; Ph.D., Northwestern University.
About the Program

The M.S. in Communication for Development and Social Change is a 30-credit program designed to be completed in one year, with 18 credits of required core coursework, 9 credits in a specialization, and 3 credits of capstone field experience. The curriculum provides a comprehensive overview of management and communication theories and their implications for communication management; research methods tailored to media and development communication issues; and the design, implementation, and evaluation of development communication projects.

Time Limit for Degree Completion: 4 years, although the program is designed to be completed in one year

Campus Location: Main, Center City

Full-Time/Part-Time Status: The program requires full-time enrollment.

Interdisciplinary Study: The program is designed to be interdisciplinary in nature.

Areas of Specialization: Areas of specialization include:

- Community Development
- Conflict, Peace and Human Rights
- Media Development and Advocacy
- Policy, Planning and Governance
- Public Health
- Sustainability and the Environment

Students may also design their own specialization.

Job Prospects: The program prepares graduates as development communication specialists who can help raise public understanding, build consensus, and generate change by effectively using the range of communication alternatives available, whether by facilitating processes of dialogue among stakeholders or through media campaigns, for governmental and non-governmental institutions.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits before submitting an application.

Financing Opportunities: Given that the program is designed to be completed in one year of full-time study, the Lew Klein College of Media and Communication does not offer graduate assistantships for those in the Communication for Development and Social Change master’s program.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1

Applications are processed on a continual basis.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2

From Whom: Letters of recommendation should be obtained from evaluators who are able to provide insight into the applicant’s potential for professional achievement and aptitude for graduate study.

Bachelor’s Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the baccalaureate degree at Temple University.

Statement of Goals: Include your special interests within the discipline and expectations for the program.

Standardized Test Scores:

GRE: Required. Scores at or above the 65th percentile are expected.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 105
- IELTS Academic: 7.0
- PTE Academic: 72

Resume: Current resume or curriculum vitae is required.

Writing Sample: Submission of writing or research samples is optional.

Program Requirements

General Program Requirements:

Number of Credits Required Beyond the Baccalaureate: 30

Required Courses:
### Communication Management, M.S.

#### About the Program

The Master of Science in Communication Management is a professionally oriented program focused on deep exploration of communication principles and practices. It features coursework in key areas such as audience analysis, communication strategies for emerging media, organizational communication, and research and data synthesis. Emphasizing strategic communication in the workplace and public communication, this program prepares entry-level and mid-career professionals to engage in effective communication campaigns as well as handle conflict and crisis management.

The program is offered completely online through an exciting combination of webinar and teleseminar courses. This combination allows students to learn through both online interaction with faculty as well as through learning resources that they may individually access at their convenience.

#### Time Limit for Degree Completion:

4 years

#### Campus Location:

Online

#### Full-Time/Part-Time Status:

The online program, which can be completed on a full-time or part-time basis, is designed to be completed in one year. All courses are offered for seven weeks in synchronous or asynchronous formats, can be taken in any order, and have no prerequisites.

#### Areas of Specialization:

Optional concentrations are offered in:

- Conflict Management and Dispute Resolution
- Strategic Communication and Cross-Cultural Leadership

#### Job Prospects:

Graduates of the M.S. in Communication Management program have gained the effective executive skills to manage different organizational demands such as crisis management, cross-cultural conflict, employee dispute resolution, leading diverse teams, and responsible decision making in both corporate and non-corporate institutions. They are prepared to serve in corporate and nonprofit organizations, public and government relations, and public and political advocacy.

### Culminating Events:

#### Capstone Course:

The hybrid capstone course, GDC 8089 Field Experience, takes the form of an internship, special project, or service learning experience. It is offered in the Summer term.

Capstone Course

CMGT 8109 Final Project 1

Total Credit Hours 31

Culminating Events:

Capstone Project:

CMGT 8109 constitutes the final project in Communication Management. It requires students to solve a critical communication problem (structural and/or procedural) affecting an organization's ability to communicate efficiently or effectively at internal and/or external levels. The 20-minute video-recorded presentation allows students during their final academic term to reflect on and summarize relevant concepts, practices, and readings from their entire course of study.

Journalism, M.J.

LEW KLEIN COLLEGE OF MEDIA AND COMMUNICATION

About the Program

Temple’s one-year Master of Journalism program directly engages with the rich and diverse communities of Philadelphia. Coursework and reporting projects focus on the problems and opportunities of urban life. Hands-on multimedia work is combined with the study of journalism’s evolving roles and practices. Students learn by experiencing what it is like to work in today’s ever-changing media environment. In recognition of the exciting evolution underway in the news industry, the program is designed to help current and aspiring journalists develop into engaged and innovative professionals.

The program benefits greatly from its location at Temple University in the fourth-largest media market in the United States, one ripe with innovation. Philadelphia is full of journalistic initiatives, including startups and nonprofits that are rethinking metropolitan, niche, and ethnic media. The city’s daily newspapers are owned by a nonprofit organization, an experiment many hope will represent a path to sustainability for news organizations around the country. Students interact with journalists and innovators from these organizations. The program takes advantage of rich reporting opportunities in the Philadelphia area, a city with a vibrant culture, a highly diverse population, and significant challenges common to other cities, including crime, development controversies, economic inequity, educational equity, and race relations. Because these issues are ongoing, they are sometimes underreported in the city’s mainstream news media. The Urban Reporting Lab and the capstone reporting project provide opportunities for M.J. students to tackle such problems in innovative ways as they pursue their graduate education and seek to make a difference.

The one-year, 30-credit program is designed to provide rigorous training as a cohort experience, encouraging students to work together and learn from one another as well as Master of Journalism faculty, local journalists, and other innovators. This process begins with an immersive training experience before the first academic term and ends with a capstone project in the summer term in which students do independent reporting work with the goal of producing a journalistic masterwork.

Time Limit for Degree Completion: 4 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program is expected to be completed on a full-time basis.

Areas of Specialization: Coursework is demanding and prepares students to work as professional journalists in the media of their choice. Specialized training is available in broadcast journalism, community journalism, entrepreneurial journalism, investigative reporting, podcasting, and various forms of digital journalism. Students develop a specialization through an elective course and a self-guided capstone project.

Job Prospects: The program is dedicated to training professional practitioners in journalism and media careers. Former students have also found success as freelancers and entrepreneurs.

Non-Matriculated Student Policy: Non-matriculated students are encouraged to begin with introductory and required courses. If accepted to the program, those courses may be applied toward the degree program, provided grade requirements have been met. Consistent with Graduate School regulations, students are permitted to take up to 9 credits before deciding whether to apply formally to the program.

Financing Opportunities: The program offers limited scholarships for outstanding applicants.

Admission Requirements and Deadlines

Application Deadline:
Fall: February 15

Applications are accepted after this date but cannot be guaranteed full scholarship consideration.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2

From Whom: Letters of recommendation should be obtained from college/university faculty members, professional supervisors, or others familiar with the applicant’s academic and professional competence. At least one letter should be from an academic reference.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree is required for admission. Applicants with undergraduate degrees in fields other than journalism and communication are welcome provided they can demonstrate sufficient interest in and proficiency with journalistic communication and practice.

Statement of Goals: In approximately 1,000 words, explain:

- your interest in journalism and your view of its place in society,
- your career goals in journalism, and
- your interests, experiences, and the academic or professional achievements you bring to the program.

This statement is used to assess “fit,” or how you will benefit from our program and what you will contribute to our learning community. Toward this end, please review the descriptions of our program, curriculum, and faculty, and incorporate this content into your statement. The strongest statement integrates your answers to the above prompts into a coherent essay.

Standardized Test Scores:

GRE: Optional. Scores submitted are preferred to be at least 65% on the verbal section with a writing score of at least 3.5. If you elect to not submit GRE scores, a writing sample is required.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 105
- IELTS Academic: 7.0
- PTE Academic: 72

Resume: Current resume required.

Writing Sample: Strongly encouraged, but required if not submitting GRE scores. Published journalistic works (e.g., in professional outlets or college media) are preferred as a writing sample. You may also submit a
formal academic paper from your undergraduate studies that represents your best writing. In this case, please indicate on a cover sheet when, for what course, and at which institution the paper was produced.

Transfer Credit: Graduate credits from an accredited institution may be transferred into the M.J. program, subject to approval of the Master of Journalism committee. Requests to transfer credits must be submitted during the first term of matriculation so that the student’s future curriculum can be planned. The maximum number of credits a student may transfer is 6.

Media and Communication, Ph.D.

LEW KLEIN COLLEGE OF MEDIA AND COMMUNICATION

About the Program

The Ph.D. in Media and Communication offers a comprehensive curriculum in communication theory and research designed to provide advanced students with the breadth and depth of knowledge needed to make significant contributions in the academic and professional field of mediated communication and, generally, communication.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Although the degree program can be completed on a full- or part-time basis, the Media and Communication doctoral program requires that students be “in residence” (registered for at least 9 credits) for two consecutive terms (excluding Summer sessions) in their first year of study.

Interdisciplinary Study: The Media and Communication Ph.D. program encourages interdisciplinary coursework, research, and interactions among faculty and students with interests in business, political science, psychology, sociology, and other fields. Students also may complete a limited amount of production coursework in audio, video, film, and/or journalism.

Study Abroad: Media and Communication doctoral students can take advantage of Temple’s London program, which offers a unique opportunity to study British media. Other international study opportunities include programs in Rome and Japan.

Areas of Specialization: Faculty members specialize and offer substantial coursework in diverse areas related to communication, including communication history, gender studies, international communication, media institutions, new media, political communication, psychological processing of media, and social change.

Job Prospects: The Media and Communication Ph.D. program is designed to prepare graduates for work as professors in colleges and universities around the world. Graduates also hold a variety of positions
in the communication and other commercial industries as well as in non-profit organizations.

Non-Matriculated Student Policy: Non-matriculated students are restricted to taking MMC 9001 Communication Theory I and MMC 9002 Researching Communication I. These courses may only be taken with the permission of the instructor. If the student is admitted to the program, these courses may be applied toward the degree.

Financing Opportunities: Teaching Assistantships carry a stipend and full tuition remission of up to 9 credits per term. The principal duties of a Teaching Assistant include aiding faculty members in classroom and laboratory instruction; preparing material for presentation and demonstration; conducting tutorials and discussion sections; and grading quizzes and exams. The program makes offers of assistantships on or before March 15. April 5 is the final date to accept or decline the offer.

Admission Requirements and Deadlines

Application Deadline:

Fall: December 15

All applications are evaluated together after the deadline date. APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from evaluators, particularly college/university faculty, who can provide insight into your abilities and talents, as well as comment on your aptitude for graduate study.

Master's Degree in Discipline/Related Discipline: A master's degree in Communication, Media Studies, or the Humanities or Social Sciences is required.

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the baccalaureate degree at Temple University.

Statement of Goals: Approximately 500 to 1,000 words should include your specific interest in Temple's program; your research goals; your future career goals; and your academic and research achievements.

Standardized Test Scores:

GRE: Required. Applicants should have attained a total GRE score in the range of 65% to 80% on the verbal and quantitative sections.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 96
- IELTS Academic: 7.0
- PTE Academic: 65

Resume: Current resume required.

Writing Sample: Submit a formal academic paper that represents your best academic writing.

Advanced Research Methods Course 1 3

Electives 2 21

Research Courses 3 6

MMC 9994 Preliminary Examination Preparation
MMC 9998 Pre-Dissertation Research
MMC 9999 Dissertation Research

Total Credit Hours 48

1 All students are required to take at least one advanced research methods course in Media and Communication. Beyond the first course, these advanced courses can be taken as electives. Students are encouraged to take additional advanced courses under the guidance of their program advisor.

2 Elective credits may be taken in the Lew Klein College of Media and Communication, with up to 6 credits of electives taken within other schools and colleges at Temple University.

3 The six credits must include at least two credits of MMC 9999, which requires an approved dissertation proposal.

Culminating Events:

Preliminary Examinations:

Under the direction of an approved faculty committee, the Ph.D. student must satisfactorily complete written and oral examinations prior to achieving formal Ph.D. candidacy. Areas of examination and the constituency of the committee are tailored to the individual student. The subject areas are determined, in advance, by the student and her/his Doctoral Advisory Committee (DAC). The examinations consist of essay questions in three areas written by the members of the student's DAC. The exams are designed to demonstrate the student's critical and interpretive knowledge of specialized areas of media and communication. The exams evaluate the student's ability to apply specific research foci to related issues in the discipline.

The preliminary examinations should be taken no more than one term after the student completes the coursework component of the program. Students who are preparing to write their preliminary examinations should confirm a date and time with the chair of their DAC and register this information with the graduate secretary. The student and chair receive confirmation of the date, time, and, where applicable, room and proctor for the examinations. The examinations are defended orally approximately three weeks after they are written. They must be completed before the student defends her/his dissertation proposal.
The DAC evaluates the examinations. The student must answer every question in order to be evaluated. The evaluators look for breadth and depth of understanding of specific research areas; a critical application of that knowledge to specific media and communication issues; and an ability to write technical prose in a manner consistent with media and communication research. Each committee member votes to pass or fail the student. In order to pass, a majority of the committee members must agree that the exams have been satisfactorily completed.

Proposal:
With the guidance of her/his academic advisor, who is a member of the Media and Communication faculty, and at least two other committee members, the student proposes, conducts, and creates a written report of an original, theoretically motivated research project. The proposal should consist of the context and background surrounding a particular research problem; identification of the theoretical and, if relevant, practical importance of the problem; an exhaustive survey and review of literature related to the problem; and a detailed methodological plan for investigating the problem. The proposal should be completed and approved no more than one term after the student completes coursework. It cannot be defended before the preliminary examinations are taken. Upon approval, a timeline for completing the investigation and writing process is established.

Dissertation:
The doctoral dissertation is an original empirical study that makes a significant contribution to the field of media and communication. It should expand the existing knowledge and demonstrate the student’s knowledge of both research methods and her/his primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standards of the communication field; demonstrate an understanding of the relationship between the primary area of interest and the broader field of media and communication; and be prepared for publication in a professional journal.

The DAC oversees the student’s dissertation research and is comprised of at least three graduate faculty members. Two members, including the chair, must be from the Media and Communication program. Committee compositions must be approved by the Media and Communication faculty. The chair is responsible for overseeing and guiding the student’s progress, coordinating the responses of the DAC members, and informing the student of her/his academic progress.

The Dissertation Examining Committee (DEC) evaluates the student’s dissertation and oral defense. This committee is composed of the DAC and at least one additional graduate faculty member from outside the Media and Communication program. The outside examiner should be identified no later than the beginning of the term in which the student will defend the dissertation. The DEC evaluates the student’s ability to express verbally her/his research question, methodological approach, primary findings, and implications. DEC members vote to pass or fail the dissertation and the defense at the conclusion of the public presentation.

If a student needs to change a member of a committee, the new member must be approved by the program’s faculty and registered with the graduate secretary and the Graduate School.

Students who are preparing to defend their dissertation should confirm a date and time with their DEC members and register with the graduate secretary at least 15 days before the defense. The graduate secretary arranges the date, time, and room within two working days and forwards to the student the appropriate forms. After the graduate secretary has made the appropriate arrangements for the defense, the student must send a completed ‘Announcement of Dissertation Defense’ form, found in TUportal under the Tools tab within “University Forms,” to the Graduate School at least 10 days before the defense. The Media and Communication program announces the defense via e-mail.

Media Studies and Production, M.A.

LEW KLEIN COLLEGE OF MEDIA AND COMMUNICATION

About the Program
The master’s program in Media Studies and Production provides graduate students with both scholarly and professional training. Many students concentrate wholly on the department’s scholarly curriculum as excellent preparation for doctoral training. Others desire professional media training. This may involve preparation for a number of career options, including corporate communication, marketing and research, mass media and new media production, media management, and media publicity and advertising.

Time Limit for Degree Completion: 5 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: Departmental courses must constitute a minimum of 19 of the 36 credits required to graduate. Provided
this requirement is met, students are free to take courses in other departments and pursue an interdisciplinary focus.

Affiliation(s): Department faculty members and students regularly present research at established communications associations, such as the Association for Education in Journalism and Mass Communication (AEJMC), Association of Internet Researchers (AoIR), Broadcast Education Association (BEA), Eastern Communication Association (ECA), International Communication Association (ICA), and National Communication Association (NCA).

Study Abroad: Students can register for the Summer program at Temple London.

Areas of Specialization: The program offers two concentrations:

1. Communication Scholarship, which covers the history, economics, law, regulation, and policy pertaining to broadcast, cable, and new technology industries in both national and international contexts; social processes such as the psychology, sociology, cultural study, and politics of both media and communications technology, particularly in terms of their impact on everyday life; and the analysis of the behavior and management of communications systems, particularly in terms of the media and telecommunication industries and institutions.

2. Media Production and Business, which covers TV, radio, computer, and multimedia production; corporate communications; media management, marketing, and research; and media publicity and advertising.

Job Prospects: Graduates find positions in academia, private media, and nonprofit or government/public service.

Non-Matriculated Student Policy: Non-matriculated students are encouraged to begin with introductory and required courses. If accepted to the program, those courses may be applied toward the degree program, provided grade requirements have been met. Consistent with Graduate School regulations, students are permitted to take up to 9 credits before deciding whether to apply formally to the program.

Financing Opportunities: Funding is currently unavailable.

Admission Requirements and Deadlines

Application Deadline:

Fall: February 15

Applications are processed through the deadline.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2

From Whom: Letters of recommendation should be obtained from college/university faculty, professional supervisors, or others familiar with the applicant's academic or professional competence. At least one letter should be from an academic reference.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree in Communication, Media Studies, or the Humanities or Social Sciences is required.

Statement of Goals: In approximately 1,000 words, explain:

- How the M.A. in Media Studies and Production will advance your research goals, career goals, and intellectual objectives; and
- Your interests, experiences, and academic or research achievements that you will bring to the program.

This statement will be used to assess your institutional fit, i.e., how you will benefit from our program and what you will contribute to our learning community. Toward this end, please review the descriptions of our program, curriculum, and faculty, and incorporate this content into your statement. The strongest statement will integrate your answers to the above prompts into a coherent essay.

Standardized Test Scores:

GRE: Optional. Scores that are submitted are preferred to be at least 60% verbal and at least 25% quantitative. A writing score of at least 3.5 is recommended.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 100
- IELTS Academic: 7.0
- PTE Academic: 68

Resume: Current professional resume or CV required.

Writing Sample/Production Portfolio: If you elect to not submit GRE scores, you are required to submit one of the options below so that your readiness and ability/potential to engage rigorously with graduate-level work can be assessed:

1. A formal academic paper from your undergraduate work that represents your best academic writing. Please include a cover sheet on which you indicate:
   a. your name,
   b. the institution where you took the course for which the paper was produced,
   c. the course number and title of the course for which the paper was written,
   d. the professor for whom you wrote the paper, and
   e. the term in which you took the course.

2. Professional writing samples that you produced in a professional capacity, such as published news articles or press releases. Please include a cover sheet indicating in what publication and on what date the material was published.

3. A production portfolio that includes professionally or academically produced video, audio, or web material. Please indicate your role in the production, where the material was produced, and the date.

Transfer Credit: Up to 8 credits of graduate coursework may be transferred into the master's program, subject to the approval of the department’s Graduate Faculty. To request the transfer of credits, a student must complete and submit a 'Request for Transfer of Graduate Credit' form, found in TUPortal under the Tools tab within “University Forms,” to the Lew Klein College of Media and Communication's Graduate Office during the first term of matriculation so that her/his future curriculum can be properly planned. Additional details on credit transfer are available in the M.A. manual. The maximum number of credits a student may transfer is 8.

Master's Thesis or Project:

Students can elect to complete a thesis or master's project.

**Comprehensive Examinations:**

Upon completion of all or most coursework and all other requirements, the student who elects not to complete a thesis or master's project must take comprehensive examinations. The comprehensive examinations are a set of written tests on several subjects, that may, if necessary, be followed by oral discussions. As the student nears coursework completion, s/he should discuss with the advisor the constitution of the Comprehensive Examination Committee and the topics of the examinations. During this period, the student is also advised to check with prospective faculty members concerning their willingness and ability to serve as members on the committee. This should be done sometime during the student's third term of study. The comprehensive exams are taken during the final term of study.

The examinations cover the discipline of media and communication, not the precise coursework taken by a given student. The student is examined in three areas that s/he determines in conjunction with her/his committee. Each area is represented by the question(s) of one committee member. The questioner in each examination area may be understood to be the lead or main reader for that area. The three areas are chosen Communication Behavior, Communication History, Communication Institutions, Communication Message Systems, Communication Research Methodology, Communication Theory, and an optional area.

The form of the examinations is determined by the student and the Comprehensive Examination Committee. Each of the three examinations can be taken either in office or at home, either with or without the use of notes and/or books, and for a period of a few hours to a week. In all cases, the written portion of the examination must be completed within a 14-day period. In-office examinations may not exceed four hours.

The student must answer every question on the examination in order to be evaluated. Evaluators look for an understanding of core concepts, application of relevant materials, informed responses, and careful writing. Additional standards may be applied by individual faculty members. All members of the Comprehensive Examination Committee evaluate each answer and convey their assessments to the committee chair within three weeks of receiving the examinations. First, each content area is graded on a pass/fail basis. To pass in a given area, the majority of committee members (i.e., no fewer than two) must accept the answer(s). Included in this majority approval must be that of the area examiner (i.e., the lead reader). Second, to pass the comprehensive examinations, the Comprehensive Examination Committee must also determine that the overall written (and oral, if required) performance across all questions and areas is adequate. Thus, it is possible that a student may discharge each area just passably but have such a weak overall performance that s/he fails the comprehensive examinations.

The examinations are scheduled by the student and her/his committee members. The student must complete all of the examinations within the 90 days following the approval of the student’s Comprehensive Examination Committee; if 90 days elapse from the approval-of-committee date without completion, the process must be started again from the beginning. Examinations may be scheduled any time during the regular academic term, either Fall or Spring.

Graduate Certificate: Conflict Management and Dispute Resolution
LEW KLEIN COLLEGE OF MEDIA AND COMMUNICATION

About the Certificate
The graduate certificate in Conflict Management and Dispute Resolution is designed for those interested in developing their skills to manage organizational demands for crisis management and resolution of employee disputes. The online format offers students flexibility in accessing resources, submitting assignments, and communicating online to accommodate demanding job constraints and challenging personal responsibilities.

Time Limit for Certificate Completion: 2 years
Campus Location: Online
Full-Time/Part-Time Status: The graduate certificate can be completed on a part-time basis. All courses are offered for seven weeks in synchronous or asynchronous formats, can be taken in any order, and have no prerequisites.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits before submitting an application.

Admission Requirements and Deadlines
Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Graduate Certificate: Cultural Analytics
LEW KLEIN COLLEGE OF MEDIA AND COMMUNICATION

About the Certificate
The graduate certificate in Cultural Analytics at Temple University is an interdisciplinary effort by faculty members in the Tyler School of Art and Architecture, College of Education, College of Liberal Arts, Lew Klein College of Media and Communication, Center for the Performing and Cinematic Arts, and College of Science and Technology, as well
as librarians in Temple University Libraries and its Digital Scholarship Center. This certificate program trains students in humanistic and non-scientific fields how to use computational methods to analyze cultural objects.

' Cultural Analytics' refers to the analysis of cultural objects assisted by computer technology and quantitative methods. Sometimes called 'digital humanities,' the field developed in response to the digitization of books, paintings, archival materials, and museum objects, making it possible to analyze cultural objects using methods more familiar to computer scientists and statisticians than to humanists or qualitative social scientists.

Much of modern culture originates in digital form. Digital versions of traditional humanistic materials — books, films, paintings, sculptures, and artifacts — are readily available for study. Graduate students who work with digital materials benefit from specialized training in managing and manipulating their materials so that they can take full advantage of the digital format. Students are prepared for advanced research in their discipline by allowing them to specialize in the specific skills that are most relevant to their research. Participants are encouraged to work within one of the following focal areas:

- Basic programming
- Data visualization
- Mapping and geographic information systems
- Research design and analysis
- Social media research
- Statistics
- Text encoding and analysis
- Virtual environments

The certificate program in Cultural Analytics facilitates work on a dissertation, thesis, or culminating event by offering training in these technical skills along with the conceptual background needed to understand the opportunities and obstacles each method brings with it.

**Time Limit for Certificate Completion:** 3 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis.

**Non-Matriculated Student Policy:** Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program. When they complete 9 credits, they must declare their intention to complete the graduate certificate in Cultural Analytics by completing and submitting the "Non-Degree Seeking Student Request to Exceed 9 Credits of Graduate Coursework for Certificate Program," found in TUportal under the Tools tab within "University Forms."

**Admission Requirements and Deadlines**

*Fall and Spring* admissions are on a rolling basis.

To enroll in a given academic term, current students must apply no later than the add/drop deadline for that term. Students currently enrolled in a graduate degree program at Temple University must submit a personal statement of no more than 250 words and complete the Internal Application Form.

Applications not currently enrolled at Temple are welcome, and applications are due August 1 for enrollment in the Fall term. Complete the External Application Form.

**Bachelor’s Degree in Discipline/Related Discipline:** Applicants already admitted to a graduate degree program at Temple University have demonstrated that they possess the required bachelor’s degree. Applicants not currently enrolled in a Temple University graduate degree program and applicants enrolled in a graduate degree program at another university must submit official transcripts for all coursework taken since high school, whether or not a degree was earned from the institution(s). Evidence of the award of a baccalaureate degree from an accredited university with an undergraduate GPA of at least 3.0 on a 4.0 scale must be shown.

**Additional Requirements for Students Not Currently Enrolled in a Graduate Degree Program at Temple University:**

- Two letters of recommendation from persons in a position to evaluate the applicant's academic ability and accomplishments.
- A personal statement of no more than 250 words indicating interests, plans, and objectives within the field of Cultural Analytics.

**Certificate Requirements**

Number of Credits Required to Complete the Certificate: 9 for matriculated students; 10 for non-matriculated students

Graduate Certificate: Strategic Communication and Cross-Cultural Leadership

LEW KLEIN COLLEGE OF MEDIA AND COMMUNICATION

About the Certificate

The graduate certificate in Strategic Communication and Cross-Cultural Leadership is designed for those interested in developing their skills to manage organizational demands for dealing with cross-cultural conflict, leading diverse teams, and making responsible decisions. The online format offers students flexibility in accessing resources, submitting assignments, and communicating online to accommodate demanding job constraints and challenging personal responsibilities.

Time Limit for Certificate Completion: 2 years

Campus Location: Online

Full-Time/Part-Time Status: The graduate certificate can be completed on a part-time basis. All courses are offered for seven weeks in synchronous or asynchronous formats, can be taken in any order, and have no prerequisites.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits before submitting an application.

Admission Requirements and Deadlines

Bachelor’s Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

Certificate Requirements

Number of Credits Required to Complete the Certificate: 12

Lewis Katz School of Medicine

Lewis Katz School of Medicine (LKSOM) at Temple University, located on the Health Sciences Center campus, is dedicated to excellence in education, research, and patient care achieved by faculty, staff, and students who represent the diversity of society. LKSOM takes pride in the excellence of its teaching, research, and service programs by:

- providing education that is patient-centered, instilling in learners the school’s ethic of human service and lifelong learning;
- engaging in research that advances and integrates basic and clinical science; and
- administering patient care with compassion and understanding, utilizing contemporary knowledge and techniques.

Located in the historic city of Philadelphia where American medicine has its roots, LKSOM has been known for its faculty’s uncommon interest in and concern for students and its commitment to the highest quality of care for all people. On November 1, 2007, the Medical School broke ground on a new home. At a cost of $160 million, the Medical Education and Research Building is the largest capital improvement project in the history of Temple University. The 11-story, 480,000-square-foot glass and brick structure opened in May 2009 and has proven to be a highly functional site for both education and research.

On September 16, 1901, Russell H. Conwell, founder of Temple University, opened a medical school, lit by gaslight, for the “common man.” The faculty consisted of 27 lecturers, demonstrators, and instructors. Medical practitioners taught classes at College Hall, next to the Baptist Temple, on present-day Main Campus. Samaritan Hospital, two miles up Broad Street, was the site of clinical instruction. Anatomical dissections on cadavers, which were delivered in pickle barrels, were performed in a hayloft. According to admissions materials, “matriculates of academic or scientific colleges, or graduates of reputable high schools of the first grade, or a normal school established by State authority, of both sexes, are admitted to the first year class without examination.” In the inaugural class, 31 students began the five-year program that day jobs; 
- 15 required textbooks;
- total tuition and fees of a modest $635; and
- a curriculum requiring 700 hours of work each year.

From such modest beginnings, LKSOM has emerged as a school of national reputation. Nationally ranked by U.S. News & World Report, the Lewis Katz School of Medicine at Temple University prepares students for a rewarding career in medical practice or research. The combined energy created by our enthusiastic faculty, state-of-the-art technology, and soaring new facilities makes Temple one of the most exciting places to study medicine today.

Graduate Faculty

Mary E. Abood, Professor, Department of Center for Substance Abuse Research, Lewis Katz School of Medicine; Ph.D., University of California San Francisco.

Raghibir S. Athwal, Professor, Department of Fels Institute for Cancer Research, Lewis Katz School of Medicine; Ph.D., University of Missouri.

Michael V. Autieri, Professor, Department of Cardiovascular Research Center, Lewis Katz School of Medicine; Ph.D., Hahnemann University.

S. Ausim Azizi, Professor (Clinician Scholar), Department of Neurology, Lewis Katz School of Medicine; M.D., Southwestern Medical School.

Mary F. Barbe, Professor, Department of Anatomy and Cell Biology, Lewis Katz School of Medicine; Ph.D., Wake Forest University.

Richard H. G. Baxter, Assistant Professor, Department of Medical Genetics and Molecular Biochemistry, Lewis Katz School of Medicine; Ph.D., University of Chicago.

Mark M. Black, Professor, Department of Anatomy and Cell Biology, Lewis Katz School of Medicine; Ph.D., Case Western Reserve University.

Tricia Helen Burdo, Associate Professor, Department of Neuroscience, Lewis Katz School of Medicine; Ph.D., Penn State College of Medicine.

Bettina A. Buttaro, Associate Professor, Department of Microbiology and Immunology, Lewis Katz School of Medicine; Ph.D., University of Minnesota.

Roberto Caricchio, Associate Professor (Research), Department of Microbiology and Immunology, Lewis Katz School of Medicine; M.D., Catholic University of Sacred Heart.

Marion M. Chan, Associate Professor, Department of Microbiology and Immunology, Lewis Katz School of Medicine; Ph.D., Cornell University Medical College.

Xiongwen Chen, Assistant Professor, Department of Cardiovascular Research Center, Lewis Katz School of Medicine; Ph.D., Temple University.

Joseph Y. Cheung, Professor, Department of Medicine, Lewis Katz School of Medicine; M.D., Duke University.

Parkson Lee-Gau Chong, Professor, Department of Medical Genetics and Molecular Biochemistry, Lewis Katz School of Medicine; Ph.D., University of Illinois at Urbana-Champaign.

Philip L. Cohen, Professor, Department of Microbiology and Immunology, Lewis Katz School of Medicine; M.D., Yale University.

Judith Daniels, Associate Professor, Department of Anatomy and Cell Biology, Lewis Katz School of Medicine; Ph.D., University of North Carolina at Chapel Hill.

Konstantinos Drosatos, Assistant Professor, Department of Pharmacology, Lewis Katz School of Medicine; Ph.D., Boston University.
Nahum J. Duker, Professor, Department of Pathology and Laboratory Medicine, Lewis Katz School of Medicine; M.D., University of Illinois College of Medicine.

Satoru Eguchi, Professor, Department of Cardiovascular Research Center, Lewis Katz School of Medicine; M.D., Tohoku University School of Medicine.

Toby K. Eisenstein, Professor, Department of Center for Substance Abuse Research, Lewis Katz School of Medicine; Ph.D., Bryn Mawr College.

John W. Elrod, Assistant Professor, Department of Center for Translational Medicine, Lewis Katz School of Medicine; Ph.D., Albert Einstein College of Medicine.

Nora Engel, Associate Professor, Department of Fels Institute for Cancer Research, Lewis Katz School of Medicine; Ph.D., University of Buenos Aires.

Arthur M. Feldman, Professor, Department of Physiology, Lewis Katz School of Medicine; M.D., Louisiana State University.

Tracy Lee Fischer-Smith, Assistant Professor, Department of Neuroscience, Lewis Katz School of Medicine; Ph.D., Temple University.

Gianluca Gallo, Associate Professor, Department of Shriners Hospitals Pediatric Research Center, Lewis Katz School of Medicine; Ph.D., University of Illinois.

Stefania Gallucci, Associate Professor, Department of Microbiology and Immunology, Lewis Katz School of Medicine; M.D., Università Cattolica del Sacro Cuore.

Ana M. Gamero, Assistant Professor, Department of Medical Genetics and Molecular Biochemistry, Lewis Katz School of Medicine; Ph.D., University of South Florida.

Glenn Stephen Gerhard, Professor, Department of Medical Genetics and Molecular Biochemistry, Lewis Katz School of Medicine; M.D., The Pennsylvania State University.

Kathleen M. Giangiacomo, Associate Professor, Department of Medical Genetics and Molecular Biochemistry, Lewis Katz School of Medicine; Ph.D., University of Pennsylvania.

Lawrence E. Goldfinger, Assistant Professor, Department of Sol Sherry Thrombosis Research Center, Lewis Katz School of Medicine; Ph.D., Northwestern University Medical School.

Jennifer C. Gordon, Associate Professor, Department of Neuroscience, Lewis Katz School of Medicine; Ph.D., MCP Hahnemann University School of Medicine.

Xavier Graña, Associate Professor, Department of Fels Institute for Cancer Research, Lewis Katz School of Medicine; Ph.D., University of Barcelona.

Dale S. Haines, Associate Professor, Department of Fels Institute for Cancer Research, Lewis Katz School of Medicine; Ph.D., Hahnemann University.

Wen-Zhe Ho, Professor, Department of Pathology and Laboratory Medicine, Lewis Katz School of Medicine; M.D., Wuhan University School of Medicine.

Barbara Hoffman, Professor, Department of Fels Institute for Cancer Research, Lewis Katz School of Medicine; Ph.D., University of Michigan.

Steven R. Houser, Professor, Department of Cardiovascular Research Center, Lewis Katz School of Medicine; Ph.D., Temple University.

Wenhui Hu, Associate Professor, Department of Pathology and Laboratory Medicine, Lewis Katz School of Medicine; Ph.D., Peking Union Medical College and Chinese Academy of Medical Science.

Yang Hu, Assistant Professor, Department of Shriners Hospitals Pediatric Research Center, Lewis Katz School of Medicine; M.D., Beijing Medical University.

Jian Huang, Assistant Professor, Department of Pathology and Laboratory Medicine, Lewis Katz School of Medicine; M.D., Peking University Health Sciences Center.

Jean-Pierre Issa, Professor, Department of Fels Institute for Cancer Research, Lewis Katz School of Medicine; M.D., The American University of Beirut.

Liselotte E. Jensen, Assistant Professor, Department of Microbiology and Immunology, Lewis Katz School of Medicine; Ph.D., University of Aarhus.

Nora L. Jones, Assistant Professor (Research Center), Department of Center for Bioethics, Urban Health and Policy, Lewis Katz School of Medicine; Ph.D., Temple University.

Shin Hyeok Kang, Assistant Professor, Department of Anatomy and Cell Biology, Lewis Katz School of Medicine; Ph.D., Johns Hopkins University School of Medicine.

Kamel Khalili, Professor, Department of Neuroscience, Lewis Katz School of Medicine; Ph.D., University of Pennsylvania School of Medicine.

Mohsin Khan, Assistant Professor, Department of Physiology, Lewis Katz School of Medicine; Ph.D., University of the Punjab.

Laurie Kilpatrick, Associate Professor, Department of Center for Inflammation, Translational and Clinical Lung Research, Lewis Katz School of Medicine; Ph.D., University of Pennsylvania.

Seonhee Kim, Assistant Professor, Department of Shriners Hospitals Pediatric Research Center, Lewis Katz School of Medicine; Ph.D., Rutgers University.

Lynn Kirby, Associate Professor, Department of Center for Substance Abuse Research, Lewis Katz School of Medicine; Ph.D., University of Pennsylvania.

Raj Kishore, Professor, Department of Pharmacology, Lewis Katz School of Medicine; Ph.D., Lucknow University.

Walter J. Koch, Professor, Department of Center for Translational Medicine, Lewis Katz School of Medicine; Ph.D., University of Cincinnati College of Medicine.

Beata Kosmider, Associate Professor, Department of Physiology, Lewis Katz School of Medicine; Ph.D., University of Lodz.

Barbara Krynska, Assistant Professor (Research), Department of Shriners Hospitals Pediatric Research Center, Lewis Katz School of Medicine; Ph.D., Medical University of Silesia.
Satya P. Kunapuli, Professor, Department of Physiology, Lewis Katz School of Medicine; Ph.D., Indian Institute of Science.

T. Dianne Langford, Associate Professor, Department of Neuroscience, Lewis Katz School of Medicine; Ph.D., University of Alabama.

Shuxin Li, Assistant Professor, Department of Anatomy and Cell Biology, Lewis Katz School of Medicine; M.D., Henan Medical University.

Dan A. Liebermann, Professor, Department of Fels Institute for Cancer Research, Lewis Katz School of Medicine; Ph.D., Weizmann Institute.

Lee-Yuan Liu-Chen, Professor, Department of Center for Substance Abuse Research, Lewis Katz School of Medicine; Ph.D., Massachusetts Institute of Technology.

John S. Martin, Associate Professor, Department of Physiology, Lewis Katz School of Medicine; Ph.D., Thomas Jefferson University.

Sadia Mohsin, Assistant Professor, Department of Physiology, Lewis Katz School of Medicine; Ph.D., University of the Punjab.

Marc Monestier, Professor, Department of Microbiology and Immunology, Lewis Katz School of Medicine; M.D., University of Lyon.

John W. Muschamp, Assistant Professor, Department of Pharmacology, Lewis Katz School of Medicine; Ph.D., Florida State University.

Henry P. Parkman, Professor, Department of Medicine, Lewis Katz School of Medicine; M.D., Case Western Reserve University.

Helen E. Pearson, Associate Professor, Department of Anatomy and Cell Biology, Lewis Katz School of Medicine; Ph.D., Medical College of Pennsylvania.

Yuri Persidsky, Professor, Department of Pathology and Laboratory Medicine, Lewis Katz School of Medicine; M.D., Kiev State Medical Institute.

Stephen H. Pilder, Associate Professor, Department of Anatomy and Cell Biology, Lewis Katz School of Medicine; Ph.D., Princeton University.

Richard Pomerantz, Assistant Professor, Department of Fels Institute for Cancer Research, Lewis Katz School of Medicine; Ph.D., State University of New York Downstate Medical Center.

Steven N. Popoff, Professor, Department of Anatomy and Cell Biology, Lewis Katz School of Medicine; Ph.D., Loyola University.

Domenico Praticò, Professor, Department of Center for Translational Medicine, Lewis Katz School of Medicine; M.D., University of Roma, La Sapienza Medical School.

Xuebin Qin, Associate Professor, Department of Neuroscience, Lewis Katz School of Medicine; M.D., Wannan Medical College.

Servio Ramirez, Associate Professor (Research), Department of Pathology and Laboratory Medicine, Lewis Katz School of Medicine; Ph.D., University of Rochester School of Medicine and Dentistry.

A. Koneti Rao, Professor, Department of Pathology and Laboratory Medicine, Lewis Katz School of Medicine; M.D., All India Institute of Medical Sciences.

Scott M. Rawls, Associate Professor, Department of Center for Substance Abuse Research, Lewis Katz School of Medicine; Ph.D., East Carolina University School of Medicine.

Victor Rizzo, Professor, Department of Cardiovascular Research Center, Lewis Katz School of Medicine; Ph.D., University of Medicine and Dentistry of New Jersey, New Jersey Medical School.

Pamela C. Roehm, Associate Professor (Clinician Scholar), Department of Otolaryngology/Head and Neck Surgery, Lewis Katz School of Medicine; M.D., Johns Hopkins University School of Medicine.

Thomas J. Rogers, Professor, Department of Pharmacology, Lewis Katz School of Medicine; Ph.D., University of Wisconsin-Madison.

Brad S. Rothenberg, Associate Professor, Department of Medical Genetics and Molecular Biochemistry, Lewis Katz School of Medicine; Ph.D., University of Florida.

Michael R. Ruggieri, Associate Professor, Department of Anatomy and Cell Biology, Lewis Katz School of Medicine; Ph.D., University of Pennsylvania.

Abdel Karim Sabri, Associate Professor, Department of Physiology, Lewis Katz School of Medicine; Ph.D., Rene Descartes University.

Mahmut Safak, Associate Professor, Department of Neuroscience, Lewis Katz School of Medicine; Ph.D., Thomas Jefferson University.

Umadevi Sajjan, Associate Professor, Department of Physiology, Lewis Katz School of Medicine; Ph.D., University of Mysore.

Carmen Sapienza, Professor, Department of Fels Institute for Cancer Research, Lewis Katz School of Medicine; Ph.D., Dalhousie University.

Bassel E. Sawaya, Professor, Department of Fels Institute for Cancer Research, Lewis Katz School of Medicine; Ph.D., Rene Descartes University.

Rosario Scalia, Professor, Department of Physiology, Lewis Katz School of Medicine; M.D., University of Catania.

Michael Selzer, Professor, Department of Shriners Hospitals Pediatric Research Center, Lewis Katz School of Medicine; M.D./Ph.D., New York University.

Scott K. Shore, Associate Professor, Department of Fels Institute for Cancer Research, Lewis Katz School of Medicine; Ph.D., Drexel University.

Stephanie E. Sullivan, Assistant Professor, Department of Anatomy and Cell Biology, Lewis Katz School of Medicine; Ph.D., Vanderbilt University.

Michael A. Sirover, Professor, Department of Pharmacology, Lewis Katz School of Medicine; Ph.D., State University of New York Stony Brook.

Tomasz Skorski, Professor, Department of Microbiology and Immunology, Lewis Katz School of Medicine; M.D., Medical Academy of Warsaw.

George Smith, Professor, Department of Shriners Hospitals Pediatric Research Center, Lewis Katz School of Medicine; Ph.D., Case Western Reserve University.
Jonathan Soboloff, Associate Professor, Department of Medical Genetics and Molecular Biochemistry, Lewis Katz School of Medicine; Ph.D., University of Ottawa.

Young-Jin Son, Associate Professor, Department of Shriners Hospitals Pediatric Research Center, Lewis Katz School of Medicine; Ph.D., University of Texas at Austin.

Dianne R. Soprano, Professor, Department of Medical Genetics and Molecular Biochemistry, Lewis Katz School of Medicine; Ph.D., Rutgers University.

Vincent Tam, Assistant Professor, Department of Microbiology and Immunology, Lewis Katz School of Medicine; Ph.D., Harvard Medical School.

Italo Tempera, Assistant Professor, Department of Fels Institute for Cancer Research, Lewis Katz School of Medicine; Ph.D., Sapienza University of Rome.

Gareth Thomas, Assistant Professor, Department of Anatomy and Cell Biology, Lewis Katz School of Medicine; Ph.D., Dundee University.

Ying Tian, Assistant Professor, Department of Pharmacology, Lewis Katz School of Medicine; Ph.D., Temple University.

Douglas G. Tilley, Assistant Professor, Department of Center for Translational Medicine, Lewis Katz School of Medicine; Ph.D., Queen's University.

Alexander Y. Tsygankov, Associate Professor, Department of Microbiology and Immunology, Lewis Katz School of Medicine; Ph.D., Bach Institute of Biochemistry, Moscow.

Ronald F. Tuma, Professor, Department of Center for Substance Abuse Research, Lewis Katz School of Medicine; Ph.D., Temple University.

Çagla Tükel, Assistant Professor, Department of Microbiology and Immunology, Lewis Katz School of Medicine; Ph.D., Ankara University.

Ellen M. Unterwald, Professor, Department of Center for Substance Abuse Research, Lewis Katz School of Medicine; Ph.D., Boston University School of Medicine.

Hong Wang, Professor, Department of Center for Metabolic Disease Research, Lewis Katz School of Medicine; Ph.D., University of Montreal.

Sara Jane Ward, Assistant Professor (Research Center), Department of Center for Substance Abuse Research, Lewis Katz School of Medicine; Ph.D., Wake Forest University.

Kelly A. Whelan, Assistant Professor, Department of Pathology and Laboratory Medicine, Lewis Katz School of Medicine; Ph.D., Drexel University.

Martyn K. White, Assistant Professor (Research Center), Department of Neuroscience, Lewis Katz School of Medicine; Ph.D., University of Oxford.

Marla R. Wolffson, Professor, Department of Center for Inflammation, Translational and Clinical Lung Research, Lewis Katz School of Medicine; Ph.D., Temple University.

Hassen Wollebo, Assistant Professor, Department of Neuroscience, Lewis Katz School of Medicine; Ph.D., Humboldt University.

Weidong Xiao, Professor, Department of Microbiology and Immunology, Lewis Katz School of Medicine; Ph.D., University of North Carolina at Chapel Hill.

Ling Yang, Assistant Professor, Department of Medical Genetics and Molecular Biochemistry, Lewis Katz School of Medicine; Ph.D., Chinese Academy of Sciences.

Xiao-Feng Yang, Professor, Department of Cardiovascular Research Center, Lewis Katz School of Medicine; Ph.D., University of Montreal.

Jun Yu, Assistant Professor, Department of Physiology, Lewis Katz School of Medicine; M.D., Yale University School of Medicine.

M. Raza Zaidi, Assistant Professor, Department of Fels Institute for Cancer Research, Lewis Katz School of Medicine; Ph.D., Rutgers University, Robert Wood Johnson Medical School.

Yi Zhang, Associate Professor, Department of Fels Institute for Cancer Research, Lewis Katz School of Medicine; M.D., University of Tokyo School of Medicine.

Biomedical Sciences, M.S.

LEWIS KATZ SCHOOL OF MEDICINE

About the Program

The M.S. program is aimed at broad interdisciplinary training in the major areas of Biomedical Sciences. The goal is to train students in the theory and practice of Biomedical Sciences for eventual service in research and teaching. Students are instructed in diverse laboratory techniques through a series of lecture and laboratory courses, and provided with a program of experimental research for thesis students under the guidance of a faculty member. Two options are available:

- Thesis Track, with a transcripted concentration in the area of thesis research. Five areas of concentration or clusters are available: Cancer Biology and Genetics, Infectious Disease and Immunity, Molecular and Cellular Biosciences, Neuroscience, and Organ Systems and Translational Medicine. Students complete and defend a master's thesis under the supervision of a faculty member.
- Non-Thesis Track, which is in General Biomedical Sciences. Students complete didactic coursework in each of the five cluster areas.

Time Limit for Degree Completion: 3 years

Campus Location: Health Sciences. With the permission of the student’s Advisory Committee, elective courses not offered on the Health Sciences Campus may be taken at other campuses.

Full-Time/Part-Time Status: The M.S. degree program is designed as a full-time day program of study to be completed in 20 to 24 months.

Interdisciplinary Study: The graduate program in Biomedical Sciences is interdisciplinary and emphasizes translational research. Students have the opportunity to work with faculty in disease-based research centers in the Lewis Katz School of Medicine, including the Center for Inflammation, Translational and Clinical Lung Research; Center for Metabolic Disease Research; Center for Neurovirology; Center for Substance Abuse Research; Center for Translational Research; Comprehensive NeuroAIDS Center; Fels Institute for Cancer Research and Molecular Biology; Independence Blue Cross Cardiovascular...
Research Center; Shriners Hospitals Pediatric Research Center; Sol Sherry Thrombosis Research Center; and Temple Autoimmunity Center.

**Ranking:** The 2019 U.S. News and World Report ranked Temple University’s Lewis Katz School of Medicine number 60 in Research and among the Best Medical Schools.

**Areas of Specialization:** This interdisciplinary Biomedical Sciences graduate program offers five areas of concentration for students who plan to earn the M.S. with a thesis:

- Cancer Biology and Genetics
- Infectious Disease and Immunity
- Molecular and Cellular Biosciences
- Neuroscience
- Organ Systems and Translational Medicine

**Job Prospects:** This well-balanced program has been designed to be individually tailored to meet the interests and needs of each student and to fully prepare each student for a Biomedical Sciences career in academia, industry, and government. The graduate program is designed to provide training in the theory and practice of Biomedical Sciences for eventual placement in research and teaching positions.

**Non-Matriculated Student Policy:** Non-matriculated students may enroll in some courses with permission from the course instructor and approval from the Office of Graduate Studies at the Lewis Katz School of Medicine.

**Financing Opportunities:** Students may visit the Student Financial Services website for financial aid information.

## Admission Requirements and Deadlines

**Pre-Application Deadline for International Applicants Only:**

All international applicants who have not earned a degree in the United States or from an institution where English is the sole language of instruction are required to complete a Pre-Application for approval before applying. The Pre-Application is found on the Biomedical Sciences website at https://medicine.temple.edu/education/biomedical-sciences-graduate-program/admissions/pre-application-international-applicants and must be submitted electronically by October 31.

**Application Deadline:**

**Fall:** February 15

All applicants to the M.S. program must apply via BioMedical’s Centralized Application Service (BioMedCAS). The system can be accessed at https://biomedicas.liaisoncas.com/. Applicants should check their application status on the BioMedCAS portal often and inquire directly of BioMedCAS about receipt of materials.

**Letters of Reference:**

**Number Required:** 3

**From Whom:** Letters of recommendation should be obtained from faculty and supervisors of research experiences.

**Coursework Required for Admission Consideration:** Applicants should have undergraduate training in the life sciences such as Biology, Biochemistry, Cell Biology, or Molecular Biology and Genetics. Students are also expected to have training in Chemistry and Mathematics.

**Bachelor’s Degree in Discipline/Related Discipline:** A baccalaureate degree in the Biological or Chemical Sciences is required.

**Statement of Goals:** Approximately 500 to 1,000 words include your interest in Temple's Biomedical Sciences graduate program; your research interests and past experiences; your future career goals; and your academic and research achievements.

**Standardized Test Scores:**

- GRE: Optional. Students are not required to submit standardized scores, including GRE or MCAT scores, to supplement their application.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Transfer Credit:** Graduate credits from an accredited institution may be transferred into the M.S. program in Biomedical Sciences. The completed courses must be equivalent in content to coursework offered at Temple, and the grades earned must be a ‘B’ or better in order to transfer credits. The Associate Dean reviews the syllabus from the completed course(s) to determine equivalency and makes the recommendation to accept the credits for transfer.

## Program Requirements

**General Program Requirements:**

**Number of Credits Required Beyond the Baccalaureate:** 30 Thesis Track or 36 Non-Thesis Track

**Required Courses:**

**Transfer Credit:** Graduate credits from an accredited institution may be transferred into the M.S. program in Biomedical Sciences. The completed courses must be equivalent in content to coursework offered at Temple, and the grades earned must be a ‘B’ or better in order to transfer credits. The Associate Dean reviews the syllabus from the completed course(s) to determine equivalency and makes the recommendation to accept the credits for transfer.

## Program Requirements

**General Program Requirements:**

**Number of Credits Required Beyond the Baccalaureate:** 30 Thesis Track or 36 Non-Thesis Track

**Required Courses:**

### Thesis Track

Schools and Colleges  657
Bioinformatics has no culminating event. Students may elect to obtain research experience within a laboratory.

Culminating Events:

Thesis:
For the Thesis Track, the thesis must be based on an original research project. It should demonstrate the student's familiarity with laboratory techniques related to the research project and the ability to evaluate critically the literature in the student's chosen area. The student submits the thesis in complete form not less than 14 days prior to the date of the final examination. The thesis must have been read and approved by the thesis advisor prior to distribution. The student should confirm a time and date for the thesis defense with the Final Examination Committee.

The final examination consists of a defense of the student's thesis to demonstrate competence within the field of the thesis and closely related areas. The student's Advisory Committee votes to pass or fail the thesis and the defense at the conclusion of the presentation. If the student must make revisions, those changes must be approved as arranged by the Committee.

Note that the Non-Thesis Track has no culminating event. Students may elect to obtain research experience within a laboratory.

Biomedical Sciences, Ph.D.

LEWIS KATZ SCHOOL OF MEDICINE

About the Program
The Ph.D. program is aimed at broad interdisciplinary and translational training in Biomedical Sciences and provides in-depth training in one of five areas of concentration. All students participate in an interdisciplinary first-year experience and then select an area of concentration from among Cancer Biology and Genetics, Infectious Disease and Immunity, Molecular and Cellular Biosciences, Neuroscience, and Organ Systems and Translational Medicine. The curriculum provides students with an interdisciplinary approach to research training, providing new pathways for learning and discovery. The Ph.D. program is intended to educate premier biomedical scientists who will be tomorrow’s leaders in research, education, and government.

Time Limit for Degree Completion: 7 years

Campus Location: Health Sciences. With the permission of the student’s Research Advisory Committee, elective courses not offered on the Health Sciences Campus may be taken at other campuses.

Full-Time/Part-Time Status: The Ph.D. degree program is designed as a full-time day program of study.

Interdisciplinary Study: The graduate program in Biomedical Sciences is interdisciplinary and emphasizes translational research. Students have the opportunity to work with faculty in disease-based research centers at the Lewis Katz School of Medicine, including the Center for Inflammation, Translational and Clinical Lung Research; Center for Metabolic Disease Research; Center for Neuropathology; Center for Substance Abuse Research; Center for Translational Research; Comprehensive NeuroAIDS Center; Fels Institute for Cancer Research and Molecular Biology; Independence Blue Cross Cardiovascular
Research Center; Shriners Hospitals Pediatric Research Center; Sol Sherry Thrombosis Research Center; and Temple Autoimmunity Center.

**Ranking:** The 2019 *U.S. News and World Report* ranked Temple University's Lewis Katz School of Medicine number 60 in Research and among the Best Medical Schools.

**Areas of Specialization:** This interdisciplinary Biomedical Sciences graduate program offers five areas of concentration for students who plan to earn the Ph.D.:

- Cancer Biology and Genetics
- Infectious Disease and Immunity
- Molecular and Cellular Biosciences
- Neuroscience
- Organ Systems and Translational Medicine

**Job Prospects:** This well-balanced program has been designed to be individually tailored to meet the interests and needs of each student and to fully prepare each student for a Biomedical Sciences career in academia, industry, and government. The graduate program is designed to provide training in the theory and practice of Biomedical Sciences for eventual placement in research and teaching positions.

**Non-Matriculated Student Policy:** Non-matriculated students may enroll in some courses with permission from the course instructor and approval from the Office of Graduate Studies at the Lewis Katz School of Medicine.

**Admission Requirements and Deadlines**

**Pre-Application Deadline for International Applicants Only:**

All international applicants who have not earned a degree in the United States or from an institution where English is the sole language of instruction are required to complete a Pre-Application for approval before applying. The Pre-Application is found on the Biomedical Sciences website at https://medicine.temple.edu/education/biomedical-sciences-graduate-program/admissions/pre-application-international-applicants and must be submitted electronically by October 31.

**Application Deadline:**

*Fall:* February 15

All applicants to the Ph.D. program must apply via BioMedical’s Centralized Application Service (BioMedCAS). The system can be accessed at https://biomedcas.liaisoncas.com/. Applicants should check their application status on the BioMedCAS portal often and inquire directly of BioMedCAS about receipt of materials.

**Letters of Reference:**

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from faculty and supervisors of research experiences.

**Coursework Required for Admission Consideration:** Applicants should have undergraduate training in the life sciences such as Biology, Biochemistry, Cell Biology, or Molecular Biology and Genetics. Students are also expected to have training in Chemistry and Mathematics.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree in the Biological or Chemical Sciences is required.

**Statement of Goals:** Approximately 500 to 1,000 words include your interest in Temple's Biomedical Sciences graduate program; your research interests and past experiences; your future career goals; and your academic and research achievements.

**Standardized Test Scores:**

- **GRE:** Optional. Students are not required to submit standardized scores, including GRE or MCAT scores, to supplement their application.

- **PTE Academic:** 53

**Advanced Standing:** Students who enter the Ph.D. program in Biomedical Sciences may be considered for advanced standing, based on the successful completion of graduate-level courses in the Biological Sciences or Chemistry. The completed courses must be equivalent in content to coursework offered at Temple, and the grades earned must be a 'B' or better in order to transfer credits. The Associate Dean reviews the syllabus from the completed course(s) to determine equivalency and makes the recommendation to accept the credits for Advanced Standing.

**Program Requirements**

**General Program Requirements:**

*Number of Credits Required Beyond the Baccalaureate:* 37

**Required Courses:**

**Ranking:** The 2019 *U.S. News and World Report* ranked Temple's 659 among the Best Medical Schools and Colleges.
The Ph.D. degree in Biomedical Sciences is a research degree. Research training begins with three research rotations in the first year of the graduate program and continues with the selection of an area of concentration and a Dissertation Research Advisor, who is a member of the Graduate Faculty from within the selected area of concentration. The areas of concentration include Cancer Biology and Genetics, Infectious Disease and Immunity, Molecular and Cellular Biosciences, Neuroscience, and Organ Systems and Translational Medicine.

Under the direction of the Dissertation Research Advisor, the student develops an original research project. Dissertation research involves meaningful, critical thinking and the execution of ideas in the laboratory through the use of the scientific method. Dissertation research conducted by the student should be an original contribution to scientific knowledge. The quality of the student's Ph.D. dissertation research should be equivalent to that found in reputable biomedical sciences journals.

Upon selection of an area of concentration and a Dissertation Research Advisor, a Research Advisory Committee is formed for each student. This Committee is responsible for the review of the student's research and academic progress twice yearly. It determines whether the content of the student's research is sufficient for the Ph.D. dissertation.

The student submits the dissertation in complete form not less than 14 days prior to the date of the final examination. The dissertation must have been read and approved by the Dissertation Research Advisor prior to distribution. After the student has arranged the time, date, and room for the dissertation defense, the 'Announcement of Dissertation Defense' form, found in TPortal under the Tools tab within “University Forms,” is completed and forwarded to the Graduate School on Main Campus and to the Office of Graduate Studies on the Health Sciences Campus at least 10 working days before the defense. Announcements of the defense are posted and emailed to all members of the cluster/area of concentration.

The Final Examination Committee evaluates the student's dissertation and demonstration of competence within the field of the dissertation and related areas. This Committee consists of five faculty members, including the Dissertation Research Advisor, Research Advisory Committee, and one additional faculty member from another cluster. The Committee evaluates the quality of the dissertation research and the student's ability to express, both in writing and orally, her/his research question, methodological approach, primary findings, and implications. The Committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation and private question/answer period.

Physician Assistant, M.M.S.
LEWIS KATZ SCHOOL OF MEDICINE

About the Program
The Master of Medical Science (M.M.S.) program is designed to train outstanding Physician Assistants who enhance patient care in our North Philadelphia community and beyond. Graduates of the program will be recognized as leaders, educators, and innovators in the delivery of high-quality healthcare that is accessible, affordable, compassionate, and respectful of cultural diversity.

The Physician Assistant program facilitates delivery of an innovative curriculum for medical students that meets the accreditation standards for inter-professional education set by the Liaison Committee on Medical Education (LCME). The program is designed to prepare students to provide patient-centered care in practice settings under the supervision of and in collaboration with physicians and inter-professional teams. The curriculum satisfies all of the Accreditation Review Commission on Education for the Physician Assistant (ARC-PA) standards and provides instruction in all areas tested by the National Commission on Certification of Physician Assistants (NCCPA) licensing examination. The goals of the program are to:

- Admit highly qualified students representing diverse backgrounds.
- Prepare compassionate and highly trained physician assistants to become leaders in healthcare.
- Train physician assistants to develop and use an evidence-based approach in the delivery of the highest quality patient-centered healthcare.
- Develop the skills needed as effective lifelong learners.
- Cultivate collaborative patient care through integrated inter-professional training experiences.
- Foster high individual and professional ethical standards.
- Promote cultural awareness in the provision of care to a diverse society.

Time Limit for Degree Completion: 3 years
Campus Location: Health Sciences

Full-Time/Part-Time Status: The curriculum is designed to be completed in approximately 26 months. Students begin in early June of the first year and complete their studies 26 months later at the end of the 12-week summer session, around July 30, to receive an August diploma.

Interdisciplinary Study: The Physician Assistant program is part of inter-professional education at the Lewis Katz School of Medicine. Inter-professional education is a collaborative exercise that involves students from the School of Medicine as well as from Temple University’s College of Public Health, Maurice H. Kornberg School of Dentistry, School of Pharmacy, and School of Podiatric Medicine.

Ranking: The 2014 U.S. News and World Report ranked Temple University’s School of Medicine number 54 in Research and among the Best Medical Schools.

Job Prospects: A critical need for Physician Assistants to work as part of a medical team providing access to quality healthcare has resulted from a looming critical shortage of physicians and an increase in the number of Americans covered through the Affordable Care Act (ACA) of 2010. Job prospects for graduates of the M.M.S. program are excellent.

Non-Matriculated Student Policy: Non-matriculated students may enroll in some courses with permission from the course instructor and approval from the Office of Graduate Studies at the Lewis Katz School of Medicine.

Financing Opportunities: Limited financial support is available for M.M.S. students.

Admission Requirements and Deadlines
Application Deadline:

Summer I: January 15

All applicants to the M.M.S. program must apply via the Centralized Application Service for Physician Assistants (CASPA). The system can be accessed at https://caspa.liaisoncas.com/. A supplemental application is also required to be submitted directly to Temple University at https://www.temple.edu/apply/common/appcheck.asp. Submission of the supplemental application generates the applicant’s TUid number. The CASPA application will not be considered without the assigned TUid.

All applications must be submitted, completed, and verified by CASPA no later than January 15. As this is a self-managed process, applicants are expected to monitor the status, including submission and receipt, of all application materials through the CASPA applicant portal. As CASPA processing may take up to six weeks, we strongly recommend that all application materials be received by CASPA by December 1.

Applications are processed throughout the year as they are received. Thus, it is in the applicant’s best interest to apply early to this highly competitive degree program. Deadline extensions for incomplete applications are not available.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation are to be submitted electronically at https://caspa.liaisoncas.com/. They should include one letter each from:

- a professor with whom the applicant has completed science coursework;
- a physician, physician assistant (preferred, but not required), or nurse practitioner; and
• an individual of the applicant’s choosing, but one who possesses a personal, supervisory knowledge of the applicant.

Coursework Required for Admission Consideration: Prerequisite coursework, with the required number of credits, includes:

- General Biology I and II (with lab): 8
- General Chemistry I and II (with lab): 8
- Organic Chemistry (with lab): 4
- Biochemistry: 3
- Human Anatomy*: 4
- Human Physiology*: 3
- Medical Terminology: 2
- Psychology: 3
- Statistics: 2
- Two or more of the following: Cell Biology, Genetics, Immunology, Microbiology, Molecular Biology: 6

* Combined Human Anatomy/Physiology may substitute with a total of 8 required credits.

All science and math prerequisite coursework must be completed within 10 years prior to June enrollment. All prerequisite coursework must be completed prior to enrollment with a grade of at least a “C” or 2.0 on a 4.0 scale.

To identify coursework that fulfills the program’s prerequisite requirements, applicants are required to complete the “Program Materials: Prerequisites” section of the CASPA application.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree from a regionally accredited college or university in the United States or Canada is required.

Statement of Goals: Approximately 500 to 1,000 words include your interest in Temple's Physician Assistant graduate program; your research interests and past experiences; your future career goals; and your academic and research achievements.

Standardized Test Scores:
GRE or MCAT: Required.

Scores must be reported for a test taken within three years of matriculation. Applicants with GRE scores must contact ETS to request release of GRE scores through CASPA. The relevant code for the Physician Assistant program is 1746. MCAT scores are automatically transmitted to CASPA when the applicant’s AMCAS ID number is provided.

Interview: Candidates must have strong interpersonal skills, including the ability to listen and be culturally sensitive to another’s point of view. The PA Program Admissions Committee gives strong consideration to students who:

- have demonstrated exceptional service to others (e.g., military/police/fire service, Peace Corps, Teach for America);
- are educationally/environmentally disadvantaged; or
- hail from groups underrepresented in medicine.

Applicants are notified of their selection for interview by email. In addition to two personal interviews, the interview day includes a Clinical Skills Center Activity (MMI) and a brief essay at the time of interview.

Resume: Current resume or CV required.

Citizenship: Due to limitations on U.S. government-subsidized financing for medical education, Temple University only considers applications from U.S. citizens or non-citizens who have permanent resident or refugee/asylee status with the U.S. Immigration and Naturalization Service (INS). Applicants with permanent resident or refugee/asylee status need to provide a copy of official INS documentation when completing the CASPA application.

Healthcare/Patient Contact Experience: To be considered for an interview, 400 hours of clearly documented volunteer or paid direct hands-on patient contact experience or witnessing care firsthand are required. These hours are strongly recommended to include a minimum of 100 hours working with or shadowing an M.D., D.O., and/or Physician Assistant and 200 hours of relevant healthcare experience.

Community/Volunteer Service: Applicants are recommended to have a minimum 50 hours of community service activities, not including those performed in high school. All types of community service and volunteer activities are considered.

Clearances: Upon acceptance, students must complete a Child Abuse History Clearance and a Criminal Background Check. Any academic infraction, license infraction, felony, or misdemeanor after the date of the original CASPA application submission must be reported to the M.M.S. program within 10 business days of the occurrence.

Program Requirements

General Program Requirements:
Number of Credits Required to Earn the Degree: 117, divided into a preclinical curriculum of 69 credits over 14 months and a clinical curriculum of 48 credits over 12 months

The technical standards for the Lewis Katz School of Medicine at Temple University have been established in accordance with the American Medical Association, the Accreditation Review Commission on Education for the Physician Assistant (ARC-PA), the American Academy of Physician Assistants (AAPA), the National Commission on Certification of Physician Assistants (NCCPA), and the Physician Assistant Education Association (PAEA). The technical standards are consistent with the technical standards set forth by the Accreditation Council for Graduate Medical Education (ACGME).

The candidate for successful completion of the Physician Assistant Program must be able to perform the following skills:

1. **Observation:** Observe demonstrations and experiments in the basic sciences, including but not limited to physiologic and pharmacologic demonstrations, microbiologic cultures, and microscopic studies of microorganisms and tissues in normal and pathologic states; observe a patient accurately at a distance and close at hand, necessitating the functional use of vision, which is enhanced by the functional use of the sense of smell.

2. **Communication:** Speak to, hear, and observe patients in order to elicit both verbal and nonverbal information; communicate effectively and sensitively with and about patients; communicate effectively and efficiently in oral and written form with the patient, the patient’s family, and all members of the healthcare team, including referral sources such as agencies and other physicians. Speech, reading, and writing are essential.

3. **Motor:** Exhibit sufficient motor function to carry out basic laboratory techniques and to elicit information from patients by palpation, auscultation, percussion, and other diagnostic maneuvers; perform anatomical dissections and use a microscope; perform basic laboratory tests (e.g., urinalysis, gram stain, preparation of a blood smear), diagnostic procedures (e.g., proctoscopy, paracentesis); perform/read EKGs and read X-rays; execute motor movements reasonably required to provide general care and emergency treatment to patients (e.g., cardiopulmonary resuscitation, administration of intravenous medication, application of pressure to stop bleeding, opening obstructed airways, suturing simple wounds, and performing simple, general gynecologic procedures). Coordination of both gross and fine muscular movements, equilibrium, and functional use of the senses of touch and vision are essential.

4. **Intellectual, i.e., Conceptual, Integrative, and Quantitative Abilities:** Possess abilities to measure, calculate, reason, analyze, and synthesize, which are required when engaging in problem solving, the critical skill demanded of physician assistants; comprehend three-dimensional relationships and understand the spatial relationships of structures.

5. **Behavioral and Social Attributes:** Possess the physical and emotional health required for full utilization of intellectual abilities, exercise of good judgment, prompt completion of all responsibilities attendant to the diagnosis and care of patients, and development of mature, sensitive, and effective relationships with patients; adapt to changing environments, display flexibility, and learn to function in the face of uncertainties inherent in the clinical problems of many patients. Compassion, integrity, concern for others, interpersonal skills, interest, and motivation are all personal qualities assessed during the admission and education process.

### Technical Standards:

#### Observation
- Observe demonstrations and experiments in the basic sciences.
- Observe a patient accurately at a distance and close at hand.

#### Communication
- Communicate effectively and efficiently.
- Communicate with the patient, the patient’s family, and healthcare team.

#### Motor
- Exhibit sufficient motor function.
- Perform basic laboratory tests.
- Execute motor movements.

#### Intellectual
- Measure, calculate, reason, analyze, and synthesize.

#### Behavioral and Social
- Possess personal qualities.
- Adapt to changing environments.

---

**Culminating Events:**

*Technical Standards:

The technical standards for the Lewis Katz School of Medicine at Temple University Physician Assistant Program have been established to ensure that students have the ability to demonstrate academic mastery and competence when performing clinical skills and the ability to communicate clinical information. These technical standards are intended to ensure that each student has the academic and physical ability to acquire competencies, as defined by the Accreditation Review Commission on Education for the Physician Assistant (ARC-PA), the American Academy of Physician Assistants (AAPA), the National Commission on Certification of Physician Assistants (NCCPA), and the Physician Assistant Education Association (PAEA). The technical standards are consistent with the technical standards set forth by the Accreditation Council for Graduate Medical Education (ACGME).*
The faculty of Temple University’s Physician Assistant Program recognizes its responsibility to present candidates for the Physician Assistant degree who have the knowledge, attitudes, and skills to function in a broad variety of clinical situations and to render a broad spectrum of patient care.

Urban Bioethics, M.A.
LEWIS KATZ SCHOOL OF MEDICINE

About the Program

Urban Bioethics is a new and growing field that points a critical lens on the extreme inequalities of health and access to medical, legal, and other resources that leave many urban dwellers and communities distinctly disadvantaged, disenfranchised, and vulnerable. With its abundance of academic medical centers, Philadelphia should be one of the healthiest cities in the nation—yet health disparities persist in the city at levels surpassing national averages. Health status is especially troubling in North Philadelphia, where a disproportionately high number of residents suffer from preventable and treatable health conditions—and many battle chronic illnesses without health insurance. The interdisciplinary membership of Temple University’s Center for Bioethics, Urban Health, and Policy (CBUHP) includes community residents, faculty, students, and staff representing numerous schools within Temple University and the Temple University Health System, all working to improve health status for vulnerable urban populations and to position Temple University as a nationally recognized expert in the field of urban health and bioethics.

CBUHP is committed to defining and addressing the ethical challenges of urban health care, public health status, and policy. The M.A. in Urban Bioethics, offered through CBUHP, trains students in the ethics and values of health, health care delivery, and health law and policy underlying the urban context of density, diversity, and inequalities. Coursework is practical, methodological, and theoretical. The degree is designed for Temple graduate students and area professionals who face, or will soon face, the complexities and disparities of urban health, and want specialized training in the ethics, values, and politics of health care in our increasingly multi-dimensionally diverse society.

Time Limit for Degree Completion: 4 years

Campus Location: Health Sciences

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The degree is designed for Temple graduate students and area professionals who face, or will soon face, the complexities and disparities of urban health, and want specialized training in the ethics, values, and politics of health care in our increasingly multidimensionally diverse society. Dual-degree students can take advantage of the inherent interdisciplinary nature of a dual degree, while stand-alone M.A. students must take 15 credits of coursework from outside the Lewis Katz School of Medicine. Four dual-degree programs are currently offered:

- M.D./M.A. in Urban Bioethics within the Lewis Katz School of Medicine at Temple University
- D.P.T. in Physical Therapy/M.A. in Urban Bioethics with the Temple University College of Public Health
- M.A. in Philosophy/M.A. in Urban Bioethics with the Temple University College of Liberal Arts
- Ph.D. in Philosophy/M.A. in Urban Bioethics with the Temple University College of Liberal Arts

Job Prospects: Students graduating with the M.A. in Urban Bioethics have the practical skills, including grant writing experience, and theoretical and methodological training to advance in their existing careers and compete more competitively for residencies, job placements, or other advanced graduate training programs.

Non-Matriculated Student Policy: Non-matriculated students may register for courses after an interview with the Director, at which time they should present academic transcripts. Credit toward a subsequent degree program at Temple University is limited to 9 credits, unless the student enrolls in the Urban Bioethics graduate certificate program. All 14 credits required to complete the certificate are applicable to the Urban Bioethics M.A.

Financing Opportunities: Limited support is available for M.A. students concurrently enrolled in the M.D. program at Temple University.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1
Summer: March 15

Late applications may be considered for admission, even as late as up to two weeks prior to the term’s start date.
Dual-degree applicants should note that application deadlines for companion programs may be earlier than the deadlines for the Urban Bioethics, M.A. Please visit the companion program's description in the Graduate Bulletin for details.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**
- Number Required: 2-3

Students applying to the Urban Bioethics M.A. program must submit 3 letters of reference and original transcripts from all post-high school institutions attended. However, students already matriculated into a graduate program at Temple University who are applying for a dual degree may:

- upon permission of their recommenders and their home school, use their home school letters of recommendation for the Urban Bioethics M.A. application; and
- ask the Urban Bioethics program administrators to request a transcript from the home school.

**From Whom:** Letters of recommendation should be obtained from college/university faculty members familiar with your academic performance and/or from professional supervisors familiar with your professional experience, accomplishments, and potential for success in a graduate program.

**Bachelor's Degree in Discipline/Related Discipline:** While a baccalaureate degree is required for admission to the M.A. program, the major studied for the undergraduate degree is not specified.

**Statement of Goals:** Two to three double-spaced pages should address how you see the M.A. in Urban Bioethics as integral to your current educational goals and current/future career development.

**Standardized Test Scores:**
- GRE: Required for applicants graduating from traditional undergraduate programs. Applicants for the dual degree and those already holding an advanced degree are not required to submit GRE scores. Other applicants should contact the Director of Education or the Program Coordinator for clarification about their need to submit GRE scores as part of the application.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Program Requirements**

**General Program Requirements:**
- Number of Credits Required Beyond the Baccalaureate: 32

**Culminating Events:**

**Thesis:**
The thesis should make a novel contribution to the field. Toward this end, the student conducts an original research project, empirical or non-empirical, and produces a publishable paper. The research is undertaken with guidance from an approved thesis advisor from the Lewis Katz School of Medicine; the Center for Bioethics, Urban Health, and Policy; or a dual-degree student's home department.

School of Pharmacy

Located on Temple University’s bustling Health Sciences Center campus, the School of Pharmacy strives to bridge the gaps between drug discovery, preclinical basic research, and translation medicine. We are positioned to continue to provide leadership in our educational mission, while also pursuing innovative research. In conjunction with both of these efforts, we train future researchers in pharmaceutical sciences, drug discovery and development, and basic preclinical and translational research.

In recent years, the School of Pharmacy has enjoyed tremendous growth in our research enterprise. We have established several centers of excellence for scientific study across a wide range of disciplines. The Temple University Drug Discovery Initiative, launched in 2010, has resulted in a substantial expansion of our research facilities and an increase in the number of talented and accomplished researchers joining our faculty and staff.

Efforts by the faculty and research staff of the School of Pharmacy are focused on multidisciplinary approaches to complex scientific problems associated with a number of important disease states. Funding for our research has been generously provided by several foundations, federal and state-funded grants, contract research programs, and Temple University research awards. Members of our faculty have been recognized by outside scientific organizations with numerous honors, awards, and invited lectureships.

The School of Pharmacy offers students the ideal combination of a high-quality education, dedicated faculty, active research programs, and a supportive atmosphere enlivened by diversity and community service.

Programs

Degree Programs and Select Certificates

- Global Clinical and Pharmacovigilance Regulations, M.S. (p. 667)
- Pharmaceutical and Regulatory Sciences, M.S. (p. 668)
- Pharmaceutical Sciences/Medicinal Chemistry, M.S. (p. 668)
- Pharmaceutical Sciences/Pharmaceutics, M.S. (p. 670)
- Pharmaceutical Sciences/Pharmacodynamics, M.S. (p. 672)
- Pharmaceutical Sciences/Medicinal Chemistry, Ph.D. (p. 674)
- Pharmaceutical Sciences/Pharmaceutics, Ph.D. (p. 676)
- Pharmaceutical Sciences/Pharmacodynamics, Ph.D. (p. 678)
- Pharmaceutical Sciences/Regulatory Affairs and Quality Assurance, Ph.D. (p. 680)
- Regulatory Affairs and Quality Assurance, M.S. (p. 683)
- Graduate Certificate: Advanced Regulatory Affairs and Quality Assurance (p. 685)
- Graduate Certificate: Biopharmaceutical Manufacturing and Regulatory Affairs (p. 686)
- Graduate Certificate: Food Regulatory Affairs and Quality Assurance (p. 687)
- Graduate Certificate: Pharmaceutical Labeling, Advertising and Promotions (p. 688)
- Graduate Certificate: Pharmaceutical Manufacturing: Process Development and Analysis (p. 689)
- Graduate Certificate: Sterile Process Manufacturing (p. 690)
- Graduate Certificate: Validation Sciences (p. 691)

Certificates

- Basic Pharmaceutical Development
- Biosimilars and Generic Drugs
- Clinical Trial Management
- Drug Development
- Global Pharmacovigilance/Benefit-Risk Management
- Good Manufacturing Practices for the 21st Century
- Medical Device
- Pharmaceutics

Post-Master’s Certificates

- Biosimilars and Generic Drugs
- Clinical Trial Management
- Global Pharmacovigilance/Benefit-Risk Management
- Good Manufacturing Practices for the 21st Century
- Medical Device

Graduate Faculty

Magid Abou-Gharbia, Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., University of Pennsylvania.

Carlos Barrero, Assistant Professor, Department of Pharmaceutical Sciences, School of Pharmacy; M.D., Universidad de Caldas.

Benjamin E. Blass, Assistant Professor (Research), Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., University of Rochester.

Michael R. Borenstein, Associate Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., Temple University.

Daniel J. Canney, Associate Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., Temple University.

Wayne E. Childers, Associate Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., University of Georgia.

A. Reza Fassihi, Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., Brighton University.

Marc A. Ilies, Associate Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., University of Bucharest.

Marlene A. Jacobson, Associate Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., University of Delaware.

Kenneth R. Korzekwa, Associate Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., University of Washington.

David B. Lebo, Associate Professor (Teaching/Instructional), Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D.

Salim Merali, Associate Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., City University of New York.

Ellen A. Walker, Assistant Professor (Research), Department of Pharmaceutical Sciences, School of Pharmacy; M.D., Universidad del Norte.

Oscar Perez-Leal, Assistant Professor (Research), Department of Pharmaceutical Sciences, School of Pharmacy; M.D., Universidad del Norte.

Ellen A. Walker, Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Dr.Ph., University of Toronto.

Ho-Lun Wong, Associate Professor, Department of Pharmaceutical Sciences, School of Pharmacy; Ph.D., University of Toronto.

Global Clinical and Pharmacovigilance Regulations, M.S.

SCHOOL OF PHARMACY

About the Program

The M.S. in Global Clinical and Pharmacovigilance Regulations addresses the career needs of individuals involved in domestic and global clinical trials and pharmacovigilance activities within the pharmaceutical industry, including managing and assisting in clinical trials, supervising record keeping of clinical trials, reviewing safety data of clinical trials or post-marketing reports of healthcare products, and other related activities. In recent years, pharmacovigilance activities have been conducted alongside clinical trials to determine the benefits and risk factors of products both under development and on the market. Pharmacovigilance, or drug safety, relates to the myriad of activities the pharmaceutical and related industries use in monitoring, assessing, and compiling the benefits and risks involved with their products. Whereas pharmacovigilance studies used to be undertaken once products were already on the market, the latest trend is to conduct these studies with ‘first in human’ studies, which are generally done on healthy volunteer subjects to ascertain how a new product affects an individual without the known disease state. Clinical trials are highly regulated research studies of pharmaceutical and related products, treatment options, or medical devices in human beings. Their goal is to find new or better ways to prevent, detect, diagnose, or treat disease or disease states. In order to accomplish this, clinical trials must rigorously follow certain protocols, study designs, and data collection and monitoring methods defined by regulatory authorities.

The M.S. in Global Clinical and Pharmacovigilance Regulations degree program is primarily designed for Pharm.D. students who already possess extensive experience in clinical settings, but would benefit from specific knowledge of domestic and global regulations to be more marketable for careers in the pharmaceutical industry. This M.S. degree combining clinical practices with global pharmacovigilance empowers Pharm.D. graduates with knowledge of:

• the need for pharmacovigilance and clinical regulations;
• the evolution of global pharmacovigilance and clinical regulations;
• domestic and international pharmacovigilance and clinical requirements and regulations for healthcare products;
• differences in regulations between product types and regions;
• current utilization of pharmacovigilance data throughout the lifespan of all products;
• the ability to contextualize and interpret safety data; and
• the paramount importance of data collection, statistics, and data mining in the industry.

Time Limit for Degree Completion: 5 years

Campus Location: Fort Washington on evenings and weekends; also entirely online

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The program fosters interdisciplinary study with the pharmaceutical sciences and technology.

Job Prospects: The program prepares graduates for positions in the global marketplace related to drug safety and human clinical trials.

Non-Matriculated Student Policy: Non-matriculated students are able to take up to 9 credits before formal application must be made to the program.

Financing Opportunities: Master’s-level students are generally not considered for financial support.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1; December 15 international
Spring: November 1; September 1 international
Summer I: March 1; January 15 international

Applications are processed throughout the year. Late applications may be considered for admission. However, the entire application packet must be received by the Graduate Studies Office before it is reviewed by the Admissions Committee. Applicants are responsible for making sure that all materials have been received.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with academic competence.

Coursework Required for Admission Consideration: It is expected that applicants are Pharm.D. students or graduates.

Bachelor’s Degree in Discipline/Related Discipline: A B.S. degree in Biochemistry, Biology, Chemistry, Physics, or a health-related discipline is required.

Applicants who earned a degree at a non-U.S. institution must submit an equivalency evaluation of their transcript(s) through a third-party provider, either World Education Services (WES) or Educational Credential Evaluators (ECE).

Statement of Goals: Describe your experience in the pharmaceutical or related industries, indicating how the Global Clinical and Pharmacovigilance Regulations M.S. program will help you achieve your career objectives.

Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:
TOEFL iBT: 85
IELTS Academic: 6.5
PTE Academic: 58

Resume: Current resume required.

Transfer Credit: Temple University Pharm.D. students may apply a maximum of 15 credits toward this M.S. degree. The following courses are applicable:

- an Ethics course (2 s.h.)
- PS P254 Biostatistics/Medical Literature Evaluation (2 s.h.)
- PS P312 Adverse Drug Reactions: An Organ Systems Approach (2 s.h.)
- PS P313 Clinical Pharmacokinetics (3 s.h.)
- QARA 5459 Drug Development (3 s.h.)
- QARA 5536 Good Clinical Practices (3 s.h.)
- QARA 5537 Clinical Trial Management (3 s.h.)

Students in and graduates of Pharm.D. programs at other accredited schools of pharmacy may apply for transfer credits. Such requests are decided on a case-by-case basis. A maximum of 6 transfer credits are permitted for this group of prospective students.

Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Baccalaureate: 30

Required Courses:

Pharmaceutical and Regulatory Sciences, M.S.

Pharmaceutical Sciences/Medicinal Chemistry, M.S.
positions in the pharmaceutical industry, government agencies, and faculty positions in schools of pharmacy.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Health Sciences Center, Main

Some courses may be offered at the Fort Washington campus. Research must be carried out at the Health Sciences Center campus under the supervision of an advisor who is a member of the Graduate Faculty.

**Full-Time/Part-Time Status:** Full-time status is recommended due to the nature of ongoing research.

**Interdisciplinary Study:** The program encourages interdisciplinary coursework, research, and collaborations among faculty and students with interests in Biochemistry, Molecular Modeling, Organic Chemistry, and Pharmacology.

**Areas of Specialization:** The focus is Medicinal and Pharmaceutical Chemistry, including design and synthesis of ligands for nicotinic receptors and ligands for retinoic acid receptors, novel anticonvulsants, and the development of analytical methodologies.

**Job Prospects:** The program is primarily concentrated to provide research scientists for the pharmaceutical industry, government agencies, and faculty positions in schools of pharmacy.

**Non-Matriculated Student Policy:** Non-matriculated students are able to take up to 9 credits before formal application must be made to the program.

**Financing Opportunities:** Master's-level students are generally not considered for financial support. Financial support in the form of University fellowships, teaching assistantships, and research assistantships is generally available to Ph.D. candidates only. Only under rare circumstances are M.S. students considered for support.

## Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* December 15

All applications are evaluated together after the deadline.

**APPLY ONLINE** to this graduate program.

**Letters of Reference:**

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members familiar with the applicant's academic competence and professionals in a supervisory position.

**Coursework Required for Admission Consideration:** It is recommended that applicants complete the courses (or their equivalent as determined by the School of Pharmacy) taken in obtaining a B.S. in Chemistry, preferably Organic Chemistry, before entering the program.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree in Biochemistry, Chemistry (preferably Organic Chemistry), or Pharmacy is required.

Applicants who earned a degree at a non-U.S. institution must submit an equivalency evaluation of their transcript(s) through a third-party provider, either World Education Services (WES) or Educational Credential Evaluators (ECE).

**Statement of Goals:** In approximately 500 to 1,000 words, state your specific interest in Temple’s program, your research goals, your future career goals, and your academic and research achievements.

**Standardized Test Scores:**

*GRE:* Required. Scores should be in the 65th percentile or above.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 85
- IELTS Academic: 6.5
- PTE Academic: 58

**Resume:** Submission of a current resume is encouraged.

**Transfer Credit:** With approval, courses specific to Medicinal Chemistry or Organic Chemistry may be transferred into the program. Applicants must present supporting documentation (syllabus, course description, and/or transcript) for transfer consideration at the time of application. The maximum number of credits a student may transfer into the M.S. program is 6.

## Program Requirements

**General Program Requirements:**

*Number of Credits Required Beyond the Baccalaureate:* 36

### Core Courses

- PS 8002: Pharmaceutical Analysis (3 credits)
- PS 8051: Seminar in Pharm Science (1 credit)
- PS 8121: Department of Pharmaceutical Sciences Seminar Series (1 credit)
- PS 8127: Pharmacokinetics (3 credits)
- PS 8128: Principles in Drug Discovery (3 credits)
- PS 8129: Bioethics in Research (2 credits)
- PS 8403: Advanced Pharmacogenomics (2 credits)
- PS P151: Medicinal Chemistry I (4 credits)
- QARA 5451: Statistical Quality Control (3 credits)

### Concentration-Specific Courses

- PS 8009: Advanced Medicinal Chemistry I (3 credits)
- PS 8011: Advanced Medicinal Chemistry II (3 credits)

### Electives

- PS 9996: Master's Research (6 credits)

**Total Credit Hours:** 36
Culminating Events:

Thesis:
The M.S. thesis is an original, theoretical, and/or empirical study that contributes to the field of Medicinal/Pharmaceutical Chemistry. It should expand existing knowledge and demonstrate the student's knowledge of research methods and a mastery of her/his primary area of interest. The thesis should be rigorously investigated; uphold the ethics and standards of the pharmaceutical sciences; demonstrate an understanding of the relationship between the primary area of interest and the broader field of medicinal chemistry; and be prepared for publication in a professional journal.

Students who are preparing to defend their thesis should confirm a time and date with their advisor and register with the Administrative Assistant at least 15 days before the defense is to be scheduled. The Administrative Assistant arranges the time, date, and room within two working days and forwards to the student the appropriate forms. Once approved, the public announcement of the defense is posted.

The Thesis Examining Committee evaluates the student's ability to express verbally her/his research question, methodological approach, primary findings, and implications. This committee is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be members of the Graduate Faculty of the School of Pharmacy. The Thesis Examining Committee votes to pass or fail the thesis and the defense at the conclusion of the public presentation.

Pharmaceutical Sciences/Pharmaceutics, M.S.

SCHOOL OF PHARMACY

About the Program

The School of Pharmacy offers a graduate program leading to the M.S., with a choice of Thesis or Non-Thesis Option, and the Ph.D. in Pharmaceutical Sciences with a concentration in Pharmaceutics. The program is designed to prepare students for positions in the pharmaceutical industry, government agencies, and faculty positions in schools of pharmacy.

Time Limit for Degree Completion: 5 years

Campus Location: Health Sciences Center, Fort Washington

Students in the Thesis Option take a majority of required and elective courses at the Health Sciences Center and Fort Washington campuses. Some courses may be offered at Main campus. Research must be carried out at the Health Sciences Center campus under the supervision of an advisor who is a member of the Graduate Faculty.

Students in the Non-Thesis Option take a majority of required and elective courses at Fort Washington. Some courses may be offered at the Health Sciences Center campus.

Full-Time/Part-Time Status: The program is considered full-time for those in the Thesis Option and part-time for those in the Non-Thesis Option. Part-time students can complete the program through classes offered during evenings and weekends primarily at the Fort Washington campus.

Interdisciplinary Study: The program encourages interdisciplinary coursework, research, and collaborations among faculty and students with interests in Biochemistry, Molecular Modeling, Organic Chemistry, and Pharmacology.

Areas of Specialization: Faculty members specialize and offer graduate coursework in controlled release dosage forms, drug metabolism, encapsulation, mechanisms of drug action, pharmaceutical analysis, pharmacokinetics, and solid dosage forms.

Job Prospects: Graduates generally find employment in the pharmaceutical industry, government agencies, or academia.

Non-Matriculated Student Policy: Non-matriculated students are able to take up to 9 credits before formal application must be made to the program.

Financing Opportunities: Master's-level students are generally not considered for financial support. Financial support in the form of University fellowships, teaching assistantships, and research assistantships is generally available to Ph.D. candidates only. Only under rare circumstances are M.S. students in the Thesis Option considered for support; students enrolled in the Non-Thesis Option are ineligible for financial support because their program is part-time.

Admission Requirements and Deadlines

Application Deadline:
**Schools and Colleges**

**Fall:** December 15

All applications are evaluated together after the deadline.

**APPLY ONLINE** to this graduate program.

**Letters of Reference:**

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members familiar with the applicant’s academic competence and professionals in a supervisory position.

**Coursework Required for Admission Consideration:** It is recommended that applicants should have completed a minimum of two years of General Chemistry, including Organic Chemistry; one Analytical Chemistry course; and Mathematics, including at least Introductory Calculus. A course in Physical Chemistry is also advisable.

**Bachelor’s Degree in Discipline/Related Discipline:** A baccalaureate degree in Pharmacy, Biology, Biochemistry, Chemistry, Engineering, or a related discipline is required.

Applicants who earned a degree at a non-U.S. institution must submit an equivalency evaluation of their transcript(s) through a third-party provider, either World Education Services (WES) or Educational Credential Evaluators (ECE).

**Statement of Goals:** In approximately 500 to 1,000 words, state your specific interest in Temple’s program, your research goals, your future career goals, and your academic and research achievements.

**Standardized Test Scores:**

GRE: Required for the **Thesis Option**. Scores should be in the 65th percentile or above. Note that the GRE is not required for the **Non-Thesis Option**.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL IBT: 85
- IELTS Academic: 6.5
- PTE Academic: 58

**Resume:** Submission of a current resume is encouraged for those in the **Thesis Option**. It is required for those in the **Non-Thesis Option**.

**Transfer Credit:** With approval, courses specific to the field of Pharmaceutics may be transferred into the program. Applicants must present supporting documentation (syllabus, course description, and/or transcript) for transfer consideration at the time of application. The maximum number of credits a student may transfer into the M.S. program is 6.

## Program Requirements

**General Program Requirements:**

*Number of Credits Required Beyond the Baccalaureate:* 36

**Required Courses:**

Total Credit Hours  36

Culminating Events:
Thesis:
For the Thesis Option, the M.S. thesis is the culminating event. The thesis is an original, theoretical, and/or empirical study that contributes to the field of Pharmaceutics. It should expand existing knowledge and demonstrate the student's knowledge of research methods and a mastery of her/his primary area of interest. The thesis should be rigorously investigated; uphold the ethics and standards of the Pharmaceutics field; demonstrate an understanding of the relationship between the primary area of interest and the broader field of Pharmaceutics; and be prepared for publication in a professional journal.

Students who are preparing to defend their thesis should confirm a time and date with their advisor and register with the Administrative Assistant at least 15 days before the defense is to be scheduled. The Administrative Assistant arranges the time, date, and room within two working days and forwards to the student the appropriate forms. Once approved, the public announcement of the defense is posted.

The Thesis Examining Committee evaluates the student's ability to express verbally her/his research question, methodological approach, primary findings, and implications. This committee is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be members of the Graduate Faculty of the School of Pharmacy. The Thesis Examining Committee votes to pass or fail the thesis and the defense at the conclusion of the public presentation.

The Non-Thesis Option has no culminating events.

Pharmaceutical Sciences/Pharmacodynamics, M.S.

SCHOOL OF PHARMACY

About the Program
The School of Pharmacy offers a graduate program leading to the M.S. and to the Ph.D. in Pharmaceutical Sciences with a concentration in Pharmacodynamics. The program is designed to prepare students for positions in the pharmaceutical industry, government agencies, and faculty positions in departments engaged in biomedical research.

Time Limit for Degree Completion: 5 years

Campus Location: Health Sciences Center, Main

Some courses may be offered at the Fort Washington campus. Research must be carried out at the Health Sciences Center campus under the supervision of an advisor who is a member of the Graduate Faculty.

Full-Time/Part-Time Status: Full-time status is recommended due to the nature of ongoing research.

Interdisciplinary Study: The program encourages interdisciplinary coursework, research, and collaborations among faculty and students with interests in Biochemistry, Molecular Modeling, Organic Chemistry, and Pharmacology.

Areas of Specialization: The Pharmacodynamics concentration involves the study of integrated drug transport and mechanism of drug action research.

Job Prospects: Graduates generally accept employment offers shortly before or after defending their thesis. Job opportunities for graduates include positions as postdoctoral researchers, scientists in the pharmaceutical industry, and faculty members in a variety of departments involved in biomedical research.

Non-Matriculated Student Policy: Non-matriculated students are able to take up to 9 credits before formal application must be made to the program.

Financing Opportunities: Master's-level students are generally not considered for financial support. Financial support in the form of University fellowships, teaching assistantships, and research assistantships is generally available to Ph.D. candidates only. Only under rare circumstances are M.S. students considered for support.

Admission Requirements and Deadlines

Application Deadline:
Fall: December 15

All applications are evaluated together after the deadline.

APPLY ONLINE to this graduate program.
Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with the applicant’s academic competence and professionals in a supervisory position.

Coursework Required for Admission Consideration: It is recommended that applicants complete the courses (or their equivalent as determined by the School of Pharmacy) taken in obtaining a B.S. degree in Biochemistry, Biology, Pharmacology, Pharmacy, or Psychology.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree in Biochemistry, Biology, Molecular Biology, Pharmacology, Pharmacy, or Psychology is required.

Applicants who earned a degree at a non-U.S. institution must submit an equivalency evaluation of their transcript(s) through a third-party provider, either World Education Services (WES) or Educational Credential Evaluators (ECE).

Statement of Goals: In approximately 500 to 1,000 words, state your specific interest in Temple’s program, your research goals, your future career goals, and your academic and research achievements.

Standardized Test Scores: 
GRE: Required. Scores should be in the 65th percentile or above.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

• TOEFL iBT: 85
• IELTS Academic: 6.5
• PTE Academic: 58

SCHOOL OF PHARMACY

About the Program

The School of Pharmacy offers a graduate program leading to the M.S. and to the Ph.D. in Pharmaceutical Sciences with a concentration in Medicinal Chemistry. The program is designed to prepare students for positions in the pharmaceutical industry, government agencies, and faculty positions in schools of pharmacy.

Time Limit for Degree Completion: 7 years

Campus Location: Health Sciences Center, Main

Some courses may be offered at the Fort Washington campus. Research must be carried out at the Health Sciences Center campus under the supervision of an advisor who is a member of the Graduate Faculty.

Full-Time/Part-Time Status: Full-time status is recommended due to the nature of ongoing research.

Interdisciplinary Study: The program encourages interdisciplinary coursework, research, and collaborations among faculty and students with interests in Biochemistry, Molecular Modeling, Organic Chemistry, and Pharmacology.

Areas of Specialization: The focus is Medicinal and Pharmaceutical Chemistry, including design and synthesis of ligands for cholinergic receptors and ligands for retinoic acid receptors, novel anticonvulsants, and the development of analytical methodologies.

Job Prospects: The program is primarily concentrated to provide research scientists for the pharmaceutical industry, government agencies, and faculty positions in schools of pharmacy.

Non-Matriculated Student Policy: Non-matriculated students are able to take up to 9 credits before formal application must be made to the program.

Financing Opportunities: Support options include University fellowships, teaching assistantships, and research assistantships. Recipients are determined on a competitive basis during the admission process and receive a stipend and full tuition remission (up to 9 credits per term).

The principal duties of a Teaching Assistant (TA) include assisting faculty members in laboratory instruction, preparing apparatus or materials for Pharm.D. students, conducting recitations, grading quizzes and reports, and proctoring exams. TAs are expected to work 20 hours per week.

A Research Assistant (RA) is expected to spend 20 hours per week engaged in research and is assigned to a specific faculty member. The research subjects are determined by consultation between the student and her/his research advisor.

Applications should include a statement of previous teaching and/or research experience, areas of interest, and future goals; official transcripts; and a curriculum vitae. The department attempts to make offers of assistantships on or before May 1. June 1 is the final date for acceptance or declination of department offers. Applications should be directed to:

Temple University School of Pharmacy
3307 North Broad Street, Suite 528
Philadelphia, PA 19140

Admission Requirements and Deadlines

1 Electives should be taken primarily in Chemistry, although courses in Pharmacology and Computer and Information Science are also permissible.

Culminating Events:

Preliminary Examination:
The purpose of the preliminary examination is to demonstrate critical and interpretive knowledge in specialized areas of the discipline. The examination evaluates the student's ability to apply specific research foci to anticipated practical problems in the field. Students who accumulate 40 didactic credits are eligible to take the exam.

The preliminary exam consists of two sections. The first is a written section consisting of questions from the student's Doctoral Advisory Committee (DAC). Each member of the DAC submits a question and then judges the quality of the student's answer based on criteria such as accuracy, thoroughness, and originality. They then share that score and find a context and background surrounding a particular research problem; an exhaustive survey and review of literature related to the problem; and a detailed methodological plan for investigating the problem.

The proposal should be completed and approved no more than one year after completing the preliminary exam. Upon approval, a doctoral student is promoted to a Ph.D. candidate, and a timeline for completing the investigation and writing process are established.

Dissertation:
The doctoral dissertation is an original, theoretical, and/or empirical study that makes a significant contribution to the field. It should expand existing knowledge and demonstrate the student's knowledge of research methods and a mastery of her/his primary area of interest. The dissertation should be rigorously investigated; uphold the ethics and standards of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field; and be prepared for publication in a professional journal.

The Dissertation Examining Committee (DEC) is formed to oversee the student’s doctoral research. It is charged with evaluating the student's dissertation and oral defense, including the student's ability to express verbally her/his research question, methodological approach, primary findings, and implications. The DEC, which includes the members of the DAC, is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be from the School of Pharmacy. The Chair is responsible for overseeing and guiding the student's progress, coordinating the responses of the Committee members, and informing the student of her/his academic progress. At least one additional Graduate Faculty member from outside the School of Pharmacy must be included on the DEC. This outside examiner should be identified no later than the beginning of the academic term in which the student will defend the dissertation. The DEC members vote to pass or fail the dissertation and the defense at the conclusion of the public presentation.

Committee compositions must be approved by the departmental graduate committee. If a student needs to change a member of a committee, the new member must be approved by the departmental graduate committee and by the Graduate School. The changes must be documented with the Administrative Assistant and the Graduate School using the ‘Request for Change in Dissertation Committee’ form, found in TUportal under the Tools tab within “University Forms.”

Students who are preparing to defend their dissertation should confirm a time and date with their DEC and register with the Office of Graduate Studies at least 15 days before the defense is to be scheduled. The Office of Graduate Studies arranges the time, date, and room and forwards to the student the appropriate forms. After the Administrative Assistant has made the arrangements, the student must send the Graduate School a completed “Announcement of Dissertation Defense” form, found in TUportal under the Tools tab within “University Forms.”
at least 10 days before the defense date. The department posts announcements for the defense.

SCHOOL OF PHARMACY

**About the Program**

The School of Pharmacy offers graduate program leading to the M.S. and to the Ph.D. in Pharmaceutical Sciences with a concentration in Pharmaceutics. The program is designed to prepare students for positions in the pharmaceutical industry, government agencies, and faculty positions in schools of pharmacy.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Health Sciences Center, Fort Washington

Some courses may be offered at Main campus. Research must be carried out at the Health Sciences Center campus under the supervision of an advisor who is a member of the Graduate Faculty.

**Full-Time/Part-Time Status:** The Ph.D. program is considered full-time. A minimum residency of one year is required during which the student must work full-time in a laboratory at the School of Pharmacy under the direction of a faculty member in the department.

**Interdisciplinary Study:** The program encourages interdisciplinary coursework, research, and collaborations among faculty and students with interests in Biochemistry, Molecular Modeling, Organic Chemistry, and Pharmacology.

**Areas of Specialization:** Faculty members specialize and offer graduate coursework in controlled release dosage forms, drug metabolism, encapsulation, mechanisms of drug action, pharmaceutical analysis, pharmacokinetics, and solid dosage forms.

**Job Prospects:** The program is primarily concentrated to provide research scientists for the pharmaceutical industry, government agencies, and faculty positions in schools of pharmacy.

**Non-Matriculated Student Policy:** Non-matriculated students are able to take up to 9 credits before formal application must be made to the program.

**Financing Opportunities:** Support options include University fellowships, teaching assistantships, and research assistantships. Recipients are determined on a competitive basis during the admission process and receive a stipend and full tuition remission (up to 9 credits per term).

The principal duties of a Teaching Assistant (TA) include assisting faculty members in laboratory instruction, preparing apparatus or materials for Pharm.D. students, conducting recitations, grading quizzes and reports, and proctoring exams. TAs are expected to work 20 hours per week.

A Research Assistant (RA) is expected to spend 20 hours per week engaged in research and is assigned to a specific faculty member. The research subjects are determined by consultation between the student and her/his research advisor.

Applications should include a statement of previous teaching and/or research experience, areas of interest, and future goals; official transcripts; and a curriculum vitae. The department attempts to make offers of assistantships on or before May 1. June 1 is the final date for acceptance or declination of department offers. Applications should be directed to:

**Admission Requirements and Deadlines**

**Application Deadline:**  
Fall: December 15

All applications are evaluated together after the deadline.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

**Number Required:** 3

**From Whom:** Letters of recommendation should be obtained from college/university faculty members familiar with the applicant’s academic competence and professionals in a supervisory position.
Coursework Required for Admission Consideration: Before entering the program, it is recommended that applicants complete courses (or their equivalent as determined by the School of Pharmacy) in Mathematics, at least through differential equations, and Physical Chemistry.

Master’s Degree in Discipline/Related Discipline: A master’s degree is not required.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree in Pharmacy, Biology, Biochemistry, Chemistry, Engineering, or a related discipline is required.

Applicants who earned a degree at a non-U.S. institution must submit an equivalency evaluation of their transcript(s) through a third-party provider, either World Education Services (WES) or Educational Credential Evaluators (ECE).

Statement of Goals: In approximately 500 to 1,000 words, state your specific interest in Temple’s program, your research goals, your future career goals, and your academic and research achievements.

Standardized Test Scores:
GRE: Required. Scores should be in the 65th percentile or above.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

• TOEFL iBT: 85
• IELTS Academic: 6.5
• PTE Academic: 58

Resume: Submission of a current resume is encouraged.

Culminating Events:
Preliminary Examination:
The purpose of the preliminary examination is to demonstrate critical and interpretive knowledge in specialized areas of the discipline. The examination evaluates the student’s ability to apply specific research foci to anticipated practical problems in the field. Students who accumulate 40 didactic credits are eligible to take the exam.

The preliminary exam consists of two sections. The first is a written section consisting of questions from the student’s Doctoral Advisory Committee (DAC). Each member of the DAC submits a question and then judges the quality of the student’s answer based on criteria such as accuracy, thoroughness, and originality. They then share that score and their rationale for it with the other members of the DAC. The evaluators look for a breadth and depth of understanding of concepts in the areas being tested; application of that knowledge; and the ability to write technical prose in a manner consistent with scientists in the field. The second section of the preliminary exam includes the preparation of a research proposal approved by the DAC and a 30-minute oral summary of the proposal followed by an oral defense of the proposal.

Students who are preparing to take their preliminary examination should confirm a time and date with the Director of Graduate Studies and register with the Administrative Assistant in the Office of Graduate Studies. The student and Director receive confirmation of the time, date, room, and proctor for the examination.

Dissertation Proposal:
The dissertation proposal demonstrates the student’s knowledge of and ability to conduct the proposed research. The proposal should consist of:

• the context and background surrounding a particular research problem;
• an exhaustive survey and review of literature related to the problem; and
• a detailed methodological plan for investigating the problem.

The proposal should be completed and approved no more than one year after completing the preliminary exam. Upon approval, a doctoral student is promoted to a Ph.D. candidate, and a timeline for completing the investigation and writing process are established.

Dissertation:
The doctoral dissertation is an original, theoretical, and/or empirical study that makes a significant contribution to the field. It should expand existing knowledge and demonstrate the student’s knowledge of research methods and a mastery of her/his primary area of interest. The dissertation should be rigorously investigated; uphold the ethics and standards of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field; and be prepared for publication in a professional journal.

The Dissertation Examining Committee (DEC) is formed to oversee the student’s doctoral research. It is charged with evaluating the student’s dissertation and oral defense, including the student’s ability to express verbally her/his research question, methodological approach, primary findings, and implications. The DEC, which includes the members of the DAC, is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be from the School of Pharmacy. The Chair is responsible for overseeing and guiding the student’s progress,
coordinating the responses of the Committee members, and informing the student of her/his academic progress. At least one additional Graduate Faculty member from outside the School of Pharmacy must be included on the DEC. This outside examiner should be identified no later than the beginning of the academic term in which the student will defend the dissertation. The DEC members vote to pass or fail the dissertation and the defense at the conclusion of the public presentation.

Committee compositions must be approved by the departmental graduate committee. If a student needs to change a member of a committee, the new member must be approved by the departmental graduate committee and by the Graduate School. The changes must be documented with the Administrative Assistant and the Graduate School using the ‘Request for Change in Dissertation Committee’ form, found in TUportal under the Tools tab within “University Forms.”

Students who are preparing to defend their dissertation should confirm a time and date with their DEC and register with the Office of Graduate Studies at least 15 days before the defense is to be scheduled. The Office of Graduate Studies arranges the time, date, and room and forwards to the student the appropriate forms. After the Administrative Assistant has made the arrangements, the student must send the Graduate School a completed ‘Announcement of Dissertation Defense’ form, found in TUportal under the Tools tab within “University Forms,” at least 10 days before the defense date. The department posts announcements for the defense.

Full-Time/Part-Time Status: Full-time status is recommended due to the nature of ongoing research.

Interdisciplinary Study: The program encourages interdisciplinary coursework, research, and collaborations among faculty and students with interests in Biochemistry, Molecular Modeling, Organic Chemistry, and Pharmacology.

Areas of Specialization: The Pharmacodynamics concentration involves the study of integrated drug transport and mechanism of drug action research.

Job Prospects: Graduates generally accept employment offers shortly before or after defending their dissertation. Job opportunities for graduates include positions as postdoctoral researchers, scientists in the pharmaceutical industry, and faculty members in a variety of departments involved in biomedical research.

Non-Matriculated Student Policy: Non-matriculated students are able to take up to 9 credits before formal application must be made to the program.

Financing Opportunities: Support options include University fellowships, teaching assistantships, and research assistantships. Recipients are determined on a competitive basis during the admission process and receive a stipend and full tuition remission (up to 9 credits per term).

The principal duties of a Teaching Assistant (TA) include assisting faculty members in laboratory instruction, preparing apparatus or materials for Pharm.D. students, conducting recitations, grading quizzes and reports, and proctoring exams. TAs are expected to work 20 hours per week.

A Research Assistant (RA) is expected to spend 20 hours per week engaged in research and is assigned to a specific faculty member. The research subjects are determined by consultation between the student and her/his research advisor.

Applications should include a statement of previous teaching and/ or research experience, areas of interest, and future goals; official transcripts; and a curriculum vitae. The department attempts to make offers of assistantships on or before May 1. June 1 is the final date for

Pharmaceutical Sciences/ Pharmacodynamics, Ph.D.

SCHOOL OF PHARMACY

About the Program

The School of Pharmacy offers a graduate program leading to the M.S. and to the Ph.D. in Pharmaceutical Sciences with a concentration in Pharmacodynamics. The program is designed to prepare students for positions in the pharmaceutical industry, government agencies, and faculty positions in various departments performing biomedical research.

Time Limit for Degree Completion: 7 years

Campus Location: Health Sciences Center, Main

Some courses may be offered at the Fort Washington campus. Research must be carried out at the Health Sciences Center campus under the supervision of an advisor who is a member of the Graduate Faculty.

Pharmacodynamics, Ph.D.

The Pharmacodynamics concentration involves the study of integrated drug transport and mechanism of drug action research.

Areas of Specialization: The Pharmacodynamics concentration involves the study of integrated drug transport and mechanism of drug action and Pharmacology.

Admission Requirements and Deadlines

Application Deadline:

Fall: December 15

All applications are evaluated together after the deadline.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from
college/university faculty members familiar with the applicant’s academic
competence and professionals in a supervisory position.

Coursework Required for Admission Consideration: It is
recommended that applicants complete the courses (or their equivalent
as determined by the School of Pharmacy) taken in obtaining a
B.S. degree in Biochemistry, Biology, Pharmacology, Pharmacy, or
Psychology.

Master’s Degree in Discipline/Related Discipline: A master’s degree is
not required.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate
degree in Biochemistry, Biology, Pharmacology, Pharmacy, or
Psychology is required.

Applicants who earned a degree at a non-U.S. institution must submit an
equivalency evaluation of their transcript(s) through a third-party provider,
either World Education Services (WES) or Educational Credential
Evaluators (ECE).

Statement of Goals: In approximately 500 to 1,000 words, state your
specific interest in Temple’s program, your research goals, your future
career goals, and your academic and research achievements.

Standardized Test Scores:

GRE: Required. Scores should be in the 65th percentile or above.

Applicants who earned their baccalaureate degree from an institution
where the language of instruction was other than English, with the
exception of those who subsequently earned a master’s degree at a U.S.
institution, must report scores for a standardized test of English that meet
these minimums:

- TOEFL IBT: 85
- IELTS Academic: 6.5
- PTE Academic: 58

Resume: Submission of a current resume is encouraged.

Pharmaceutical Sciences/Regulatory Affairs and Quality Assurance, Ph.D.

School of Pharmacy

About the Program

The School of Pharmacy offers a graduate program leading to the Ph.D. in Pharmaceutical Sciences with a concentration in Regulatory Affairs and Quality Assurance (RAQA). Emphasis is placed on combining scientific principles and methodology with regulatory and quality practices to streamline the discovery, manufacturing, safety profiling, and post-approval processes. The program applies academic research methods to current industry regulatory issues, enabling candidates to pursue a dissertation that helps to define and resolve regulatory or quality problems with data research and scientific methodology. The goal of each dissertation is to present new and thoughtful answers to industry questions and problems that result in cost savings, safer and/or more effective products, better safety profiles, and other benefits for patients and manufacturers.

The RAQA concentration is designed for professionals who have a minimum of 15 years of relevant work experience, including supervisory responsibilities, in pharmaceutical and related sciences and/or regulation in such areas as analytical methods, clinical and pharmacovigilance supervision, corporate drug development or manufacturing science, quality practices, validation implementation, and other pertinent industry practices that draw heavily on regulatory policy and quality assurance. Work experience must be applicable to the topic candidates plan to investigate for their dissertation.

Selection is highly competitive as a very limited number of candidates is accepted each year. Successful candidates are expected to have:

· a master’s degree or the equivalent in a pharmaceutical, science, medical, engineering, or related field;
· a minimum of 15 years of work experience in the field related to their Ph.D. dissertation;
· current work experience that can be applied to the regulatory/quality topic to be investigated for their Ph.D. dissertation;
• the ability to work both independently and as part of a team, displaying recognizable initiative;
• a willingness to pursue original, independent research, utilizing a multidisciplinary approach to problem solving;
• strong communication skills, both verbal and written, including the ability to write academic research papers containing original thought and cogent arguments;
• basic knowledge of data analysis, having completed at least one course in statistical methods; and
• the ability to accept constructive criticism and welcome feedback provided by the Dissertation Advisor and Dissertation Advisory Committee.

Time Limit for Degree Completion: 7 years

Campus Location: Health Sciences Center, Fort Washington

Courses may also be offered at Main campus. Research must be carried out, however, at the Health Sciences Center campus under the supervision of an advisor who is a member of the Graduate Faculty.

Full-Time/Part-Time Status: The degree is completed on a part-time basis in 2 to 5 years. Successful candidates are expected to pursue the Ph.D. program at least two terms every academic year (Fall, Spring, or Summer) until the dissertation is completed. Typically, students pursue the Ph.D. every Fall and Spring term, but a Summer term may be substituted. Note that a minimum of one credit each Fall and Spring term is required to maintain the candidate’s active student status.

Job Prospects: Job opportunities include positions as postdoctoral researchers, scientists in the pharmaceutical industry, and faculty members.

Non-Matriculated Student Policy: Non-matriculated students are ineligible for participation in the program.

Admission Requirements and Deadlines

Application Deadline:
Fall: December 15

All applications are evaluated together after the deadline. Selection is highly competitive. A very limited number of candidates is accepted each year.

APPLY ONLINE to this graduate program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with the applicant’s academic competence and/or professionals in a supervisory position.

Master’s Degree in Discipline/Related Discipline: A master’s degree or equivalent is required in a pharmaceutical, science, medical, engineering, or related field. Course credits achieved in the master’s degree may be applied toward the Ph.D. program’s credit requirements.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree is required.

Applicants who earned a degree at a non-U.S. institution must submit an equivalency evaluation of their transcript(s) through a third-party provider, either World Education Services (WES) or Educational Credential Evaluators (ECE).

Statement of Goals: In approximately 500 to 1,000 words, state your specific interest in Temple’s program, your research goals, your future career goals, and your academic and research achievements.

Standardized Test Scores:
Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

• TOEFL iBT: 85
• IELTS Academic: 6.5
• PTE Academic: 58

Resume: Submission of a current resume is encouraged.

Other Requirement: It is recommended that applicants provide a commitment statement from their employer indicating that the employer supports the individual’s involvement in the RAQA Ph.D. program.

Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Baccalaureate: 40

Required Courses:

| Code   | Title                                                                 | Credit Hours |
|--------|                                                                      |              |

| PS 9999| Dissertation Research (2 terms)                                     | 2            |
|        | Total Credit Hours                                                  | 40           |

1 The School of Pharmacy accepts up to 30 credits. The decision of the School on the number of credits accepted is final.
2 A minimum of one 3-credit graduate-level course is to be completed. This coursework is related to decision analysis, quantitative methods, research design, scientific decision making, statistics and probability for data analysis, and the like.
3 The number of credits accepted toward the Ph.D. and the number required for completion of the Ph.D. are determined by the Dissertation Advisor and the Graduate Committee of the School of Pharmacy. It may be determined that additional coursework is required to prepare the student to write the dissertation. The course grid below lists approved course options.

1 Other coursework in Regulatory Affairs and Quality Assurance may also be assigned by the Dissertation Advisor.
2 QARA 5478 High Purity Water Systems is a third choice.
3 PS 5501 Development of Sterile Products is another option.
4 QARA 5505 Global Regulation of Medical Devices is also approved.
5 QARA 5591 Global Regulatory Affairs can also be selected.
6 QARA 5650 may only be taken with departmental approval.

### Other Requirement:
Formal evaluation of each Ph.D. student’s progress occurs at the end of the first year and each year thereafter to ensure that the quality of work will result in a fully approved dissertation project. Failure to conduct a reasonable amount of research or writing could result in suspension or dismissal from the program. The following is a typical dissertation schedule:

**Year 1:**
- Assess dissertation proposal topic, including candidate’s knowledge span to determine strengths and deficiencies
- Determine additional coursework required, if any
- Review candidate’s past work and publications as they pertain to the Ph.D. dissertation
- Select final dissertation topic and possible research protocol
- Outline dissertation proposal, research protocol, and introductory chapter by Year 1’s end
- Meet with research advisor as required and recommended

**Years 2-4:**
- Pursue research activities to depict quantitative, qualitative, and policy analysis methods, including literature review and annotated bibliography
- Prepare dissertation introduction, discussion, and conclusion

**Final Year:**
- Prepare dissertation material for one or more publications
- Defend dissertation as required by the School of Pharmacy

### Culminating Events:

#### Dissertation Proposal:
The dissertation proposal demonstrates the student’s knowledge of and ability to conduct the proposed research. The proposal should consist of:
- the context and background surrounding a particular research problem;
- an exhaustive survey and review of literature related to the problem;
- an exhaustive survey and review of literature related to the problem;
- a detailed methodological plan for investigating the problem.

Upon approval of the dissertation proposal, the doctoral student is promoted to a Ph.D. candidate, and a timeline for completing the investigation and writing process are established.

#### Dissertation:
The doctoral dissertation is an original, theoretical, and/or empirical study that makes a significant contribution to the field. It should expand existing knowledge and demonstrate the student’s knowledge of research methods and a mastery of her/his primary area of interest. The dissertation should be rigorously investigated; uphold the ethics and standards of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field; and be prepared for publication in a professional journal. It is expected that the dissertation will consist of an appropriate mix of quantitative and qualitative research methodology and be suitable for publication.

The Dissertation Examining Committee (DEC) is formed to oversee the student’s doctoral research. It is charged with evaluating the student’s
dissertation and oral defense, including the student's ability to express verbally her/his research question, methodological approach, primary findings, and implications. The DEC, which includes the members of the DAC, is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be from the School of Pharmacy. The Chair is responsible for overseeing and guiding the student's progress, coordinating the responses of the Committee members, and informing the student of her/his academic progress. At least one additional Graduate Faculty member from outside the School of Pharmacy must be included on the DEC. This outside examiner should be identified no later than the beginning of the academic term in which the student will defend the dissertation. The DEC members vote to pass or fail the dissertation and the defense at the conclusion of the public presentation.

Committee compositions must be approved by the departmental graduate committee. If a student needs to change a member of a committee, the new member must be approved by the departmental graduate committee and by the Graduate School. The changes must be documented with the Administrative Assistant and the Graduate School using the 'Request for Change in Dissertation Committee' form, found in TUportal under the Tools tab within "University Forms."

Students who are preparing to defend their dissertation should confirm a time and date with their DEC and register with the Office of Graduate Studies at least 15 days before the defense is to be scheduled. The Office of Graduate Studies arranges the time, date, and room and forwards to the student the appropriate forms. After the Administrative Assistant has made the arrangements, the student must send the Graduate School a completed 'Announcement of Dissertation Defense' form, found in TUportal under the Tools tab within "University Forms," at least 10 days before the defense date. The department posts announcements for the defense.

Regulatory Affairs and Quality Assurance, M.S.

SCHOOL OF PHARMACY

About the Program

Since its establishment in 1968, Temple's Regulatory Affairs and Quality Assurance program has played a significant role in training pharmaceutical company personnel in regulations and quality principles and practices. Its courses meet the career requirements of professionals in the pharmaceutical and related industries. The program provides students with a broad knowledge of the industry, fostering their professional development and preparing them for supervisory and managerial positions.

Time Limit for Degree Completion: 5 years

Campus Location: Fort Washington

The M.S. is offered in its entirety on evenings and weekends at Fort Washington.

Full-Time/Part-Time Status: Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: The program fosters interdisciplinary study with the pharmaceutical sciences and technology.

Affiliation(s): Each year the program sponsors a major conference with the pharmaceutical industry and the U.S. FDA, focusing on current regulatory and quality issues.

Ranking: Temple's master's degree in Regulatory Affairs and Quality Assurance is widely recognized as the oldest, most comprehensive, and most respected academic program of its type in the world.

Areas of Specialization: This is a non-thesis M.S. program. Faculty members are specialists in many areas, such as auditing; clinical trial management and operations; global regulation; IND/NDA submissions; manufacturing; pharmaceutical, food, and device law; pharmaceutical labeling and advertising; quality assurance; regulatory affairs; and validation.

Job Prospects: Students find positions in all areas of the pharmaceutical industry, including big Pharmaceutical Research and Manufacturers of America (PhRMA) and generic companies, biotechnology, clinical research organizations, and medical devices and packaging. Employment is also found with government agencies, including the FDA, and healthcare providers.

Non-Matriculated Student Policy: Students may complete a maximum of 9 credits before they must formally apply for admission. Before taking any electives, new students are strongly encouraged to take courses: QARA 5459 Drug Development and QARA 5592 Food and Drug Law.
Financing Opportunities: Students in the Regulatory Affairs and Quality Assurance program are generally working professionals. Therefore, funding for assistantships and academic internships is limited.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1; December 15 international
Spring: November 1; September 1 international
Summer I: March 1; January 15 international

Applications are processed throughout the year. Late applications may be considered for admission. However, the entire application packet must be received by the Regulatory Affairs and Quality Assurance Graduate Studies Office before it is reviewed by the Admissions Committee. Applicants are responsible for making sure that all materials have been received.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2

From Whom: One letter should be obtained from the candidate’s direct supervisor, indicating that the supervisor is aware of and supports the candidate’s involvement in Temple’s Regulatory Affairs and Quality Assurance graduate program.

Bachelor’s Degree in Discipline/Related Discipline: A B.S. degree in Biochemistry, Biology, Chemistry, Physics, or a health-related discipline is required.

Applicants who earned a degree at a non-U.S. institution must submit an equivalency evaluation of their transcript(s) through a third-party provider, either World Education Services (WES) or Educational Credential Evaluators (ECE).

Statement of Goals: Describe your experience in the pharmaceutical or related industries, indicating how the Regulatory Affairs and Quality Assurance M.S. program will help you achieve your career objectives.

Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 85
- IELTS Academic: 6.5
- PTE Academic: 58

Resume: Current resume required.

Transfer Credit: Students may transfer a maximum of 6 credits into the M.S. program. These credits must be similar or identical to courses offered in Temple’s Regulatory Affairs and Quality Assurance program. In addition, the student must request the transfer credits at the time of application to the M.S. program, providing copies of course syllabi. The maximum number of credits a student may transfer is 6.

Graduate Certificate: Advanced Regulatory Affairs and Quality Assurance

SCHOOL OF PHARMACY

About the Certificate

The post-master's certificate in Advanced Regulatory Affairs and Quality Assurance is designed to allow individuals holding a master's degree in Regulatory Affairs and Quality Assurance to pursue advanced coursework from a broad array of topics and receive formal recognition for their work. The certificate program is also open to those holding an advanced degree in the sciences who have worked extensively in the pharmaceutical industry and seek a cadre of advanced courses in Regulatory Affairs or Quality Assurance to be compliant with FDA regulations on training records.

Admission Requirements and Deadlines

Application Deadline:
Fall and Spring admissions are on a rolling basis. Interested students should contact the School of Pharmacy for permission to enroll in coursework.

Master’s Degree in Discipline/Related Discipline: Applicants completing the program to earn a post-master’s certificate must hold a master’s degree in Regulatory Affairs and Quality Assurance from Temple University or a peer institution. An advanced degree in the sciences is also accepted.

Bachelor’s Degree in Discipline/Related Discipline: Applicants completing the program to earn a graduate certificate must hold a B.S. degree in Biochemistry, Biology, Chemistry, Physics, or a health-related discipline.

Other: Applicants who did not earn their master's degree from Temple University's School of Pharmacy must formally apply to the certificate program. They must provide proof of their advanced degree, including a transcript and documentation of the titles and descriptions of previous RA/QA courses taken. A summary of their industry experience in the form of a CV or resume is also required.

Certificate Requirements

Number of Credits Required to Complete the Certificate: 12-15, depending on the institution from which and/or the subject in which the master's degree was earned

Required Courses:

Graduate Certificate:
Biopharmaceutical Manufacturing and Regulatory Affairs

SCHOOL OF PHARMACY

About the Certificate

The graduate certificate in Biopharmaceutical Manufacturing and Regulatory Affairs is intended to enable Regulatory Affairs and Quality Assurance (RAQA) students to receive formal recognition for studying the highly specialized, rapidly growing field of pharmaceutical biotechnology, which includes the manufacturing techniques and applicable regulations used in the development and production of biotechnology products. The first biopharmaceutical product, namely, recombinant human insulin, was approved in 1982. Since then, products derived through biotechnology have provided advances in medicine that include therapeutic monoclonal antibodies, cancer vaccines, cytokines, antisense technology, interference RNA, and growth factors. The regulatory framework required for the approval of biotechnology-derived products (or biologics) is lengthy, rigorous, and highly complicated. This certificate delves into the complex regulations governing the development, manufacturing, and distribution of such products.

Through completion of the certificate, whether post-baccalaureate or post-master's, students understand the following:

• the pharmaceutical science behind the discovery of biotechnology products, including biologics, biosimilars, and biopharmaceuticals;
• the requirements for sourcing and testing materials used in the production of biotechnology products;
• the technologies and unique considerations associated with the manufacturing and distribution of biotechnology products;
• the applicable regulations involved with biotechnology products; and

Total Credit Hours 12-15

1 Students who earned their M.S. in Regulatory Affairs and Quality Assurance from Temple University's School of Pharmacy are permitted to select any four 3-credit courses not previously completed as part of their M.S. curriculum. Those who earned a master's degree in Regulatory Affairs and Quality Assurance from a peer institution, as well as those holding an advanced degree in the sciences, are required to take five 3-credit courses.
• the processes used to sterilize biotechnology products, including regulatory requirements for thermal, gaseous, radiation, filtration, and aseptic processing.

Time Limit for Certificate Completion: 3 years

Campus Location: Fort Washington

Full-Time/Part-Time Status: The graduate certificate may be completed on a part-time basis.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

Admission Requirements and Deadlines

Application Deadline:
Fall and Spring admissions are on a rolling basis. Interested students should contact the School of Pharmacy for permission to enroll in coursework.

Master’s Degree in Discipline/Related Discipline: Applicants completing the program to earn a post-master’s certificate must hold a master’s degree in a Pharmacy-related field.

Bachelor’s Degree in Discipline/Related Discipline: Applicants completing the program to earn a post-baccalaureate certificate must hold a B.S. degree in Biochemistry, Biology, Chemistry, Physics, or a health-related discipline.

fluent in knowing where to find the latest FDA regulatory changes in
the food industry so they can respond quickly to new regulatory and
quality trends and developments.

**Time Limit for Certificate Completion:** 2 years

**Campus Location:** Fort Washington

**Full-Time/Part-Time Status:** The graduate certificate may be completed
on a part-time basis.

**Job Prospects:** Those completing the certificate gain the knowledge
and skills to prepare them to address the laws and regulations set forth
in FSMA. Graduates are at an advantage when pursuing an FDA career
in food inspection or employment with food manufacturers. They are also
prepared to work with the medical foods of the RAQA industry, such as
baby formula, dietary supplements, nutraceuticals, and vitamins.

**Non-Matriculated Student Policy:** The graduate certificate program
may be completed on a non-matriculated basis.

**Admission Requirements and Deadlines**

**Application Deadline:**
Fall and Spring admissions are on a rolling basis. Interested students
should contact the School of Pharmacy for permission to enroll in
coursework.

**Master’s Degree in Discipline/Related Discipline:** Applicants
completing the program to earn a post-master’s certificate must hold a
master’s degree in a Pharmacy-related field.

**Bachelor’s Degree in Discipline/Related Discipline:** Applicants
completing the program to earn a post-baccalaureate certificate must
hold a B.S. degree in Biochemistry, Biology, Chemistry, Physics, or a
health-related discipline.

**Certificate Requirements**

**Number of Credits Required to Complete the Certificate:** 9

**Graduate Certificate:**
Pharmaceutical Labeling,
Advertising and Promotions

**SCHOOL OF PHARMACY**

**About the Certificate**

The graduate certificate in Pharmaceutical Labeling, Advertising and
Promotions is intended to produce well-qualified experts with knowledge
of the U.S. and global regulations governing the labeling, advertising,
and promotions of pharmaceuticals and related products. Coursework
addresses the complexity of the PI (Package Insert), showing how it must
delineate every aspect of the product, from its dosage form to its unique
storage requirements and dosage information. Topics include how the PI
must be incorporated into print and internet advertising and promotions
for products and also the requirements for television ads. Differences in
the regulations in key world markets are also discussed.

The Pharmaceutical Labeling, Advertising and Promotions certificate is
offered at both the post-baccalaureate and post-master’s levels.

**Time Limit for Certificate Completion:** 4 years

**Campus Location:** Fort Washington and online

**Full-Time/Part-Time Status:** The graduate certificate may be completed
on a part-time basis.

**Non-Matriculated Student Policy:** Non-matriculated students may take
up to 9 credits of coursework before applying to the post-baccalaureate
certificate program. The post-master’s certificate cannot be taken on a
non-matriculated basis.

**Admission Requirements and Deadlines**

**Application Deadline:**
Fall and Spring admissions are on a rolling basis.

APPLY HERE to the post-baccalaureate certificate program.

APPLY HERE to the post-master’s certificate program.

**Master’s Degree in Discipline/Related Discipline:** Applicants
completing the program to earn a post-master’s certificate must hold a
master’s degree in Regulatory Affairs and Quality Assurance.

**Bachelor’s Degree in Discipline/Related Discipline:** Applicants
completing the program to earn a post-baccalaureate certificate must
hold a B.S. degree in Biochemistry, Biology, Chemistry, Physics, or a health-related discipline.

Other: Applicants who did not earn their master's degree from Temple University's School of Pharmacy must have sufficient industry experience and familiarity with the basic tenets of regulatory affairs and quality assurance to pursue the post-master's certificate. As part of the application, these applicants must include:

- a letter of request to the Assistant Dean of Regulatory Affairs and Quality Assurance indicating the courses to be pursued and citing the applicant's industry experience;
- a copy of their resume; and
- a photocopy of their final transcript from the institution where the master's or doctoral degree was earned.

Certificate Requirements

Number of Credits Required to Complete the Certificate: 12-15, depending on the origin of the master's degree

Required Courses:

Select course(s) from the following:  
1. QARA 5507 Regulation of Non-Prescription Healthcare Products
2. QARA 5532 Global Labeling Regulation: Principles and Practices
3. QARA 5535 Advanced Topics in Labeling Development
4. QARA 5594 Regulation of Dietary Supplements and Functional Foods

Total Credit Hours: 12-15

1. If QARA 5592 was not taken as part of the student's master's program, it is required for the post-master's certificate program as it is a prerequisite for QARA 5533.

2. Students in the post-baccalaureate certificate program take one elective to fulfill 12 credits. Graduates who earned their M.S. in Regulatory Affairs and Quality Assurance at Temple University are expected to have taken QARA 5592 as part of the M.S. program and, therefore, take two electives to complete 12 credits. Graduates who earned an advanced degree at a peer institution are required to take two electives in addition to QARA 5592 to complete 15 credits to earn the certificate.

Department Information:
Regulatory Affairs and Quality Assurance Graduate Program
425 Commerce Drive, Suite 175
Graduate Certificate: Sterile Process Manufacturing

SCHOOL OF PHARMACY

About the Certificate

The graduate certificate in Sterile Process Manufacturing is intended to enable Regulatory Affairs and Quality Assurance (RAQA) students to receive formal recognition for studying the techniques and applicable regulations used in the development and manufacture of sterile products. Sterile products include a wide range of commonly used products, such as intradermal (ID), intramuscular (IM), intravenous (IV), and subcutaneous (SC) products, vaccines, and products administered directly into different parts of the body, such as arteries (intra-arterial), bones (intrasternal), heart (intracardiac), or the spinal canal (intrathecal). Sterile products must be manufactured using aseptic (or free from contamination) methods wherein the drug substance, excipients, and vehicle (e.g., saline or water for injection) are combined in a container, such as a syringe. Generally, the final dosage form cannot be sterilized at the end of the manufacturing process, since the drug substance would become degraded. Therefore, sterility must be ensured during the manufacturing process by utilizing sterile filtration, microbial controls, and facility design, all of which must follow regulatory guidelines.

Through completion of the certificate, whether post-baccalaureate or post-master's, students understand the following:

• routes and types of administration of sterile products;
• regulations, processes, and unique considerations involved with sterile parenteral products;
• manufacturing and facility requirements for the design and production of sterile products;
• validation and compliance specifications for sterile products;
• methods used for sterilization, including regulatory requirements for thermal, gaseous, radiation, filtration, and aseptic processing.

Time Limit for Certificate Completion: 3 years

Campus Location: Fort Washington

Full-Time/Part-Time Status: The graduate certificate may be completed on a part-time basis.

Non-Matriculated Student Policy: Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

**Total Credit Hours**

15

1. Students are expected to take QARA 5474 as their first course. However, students with educational or professional experience in validation science may begin the certificate program with an elective, although all required courses must be completed to earn the certificate.

2. QARA 5650 should focus on current development and regulatory practices in validation science.

Regulatory Affairs and Quality Assurance Graduate Program
425 Commerce Drive, Suite 175
College of Public Health

The College of Public Health is a global leader in the discovery, dissemination, and integration of health-related research and practice. We prepare future generations of professionals through an intellectual environment that incorporates interdisciplinary collaboration, critical thinking, and innovation to instill a commitment to ethical practice and lifelong learning. Exemplary research, teaching, and service are informed by our engagement with professional and community, regional, national, and global partners.

The College of Public Health engages in exciting, innovative research and supports talented, committed researchers. Investigations focus on medical interventions, social and behavioral inquiries, and animal and basic science. Inquiries are frequently interdisciplinary, crossing departmental and collegial lines, and draw on resources from across the University. The college’s research mission entails

- increasing faculty productivity in grants and published research;
- encouraging faculty to seek research funds creatively, from such non-governmental sources as corporations and foundations;
- promoting collaborative research;
- developing a research infrastructure supported by best practices and outstanding staff;
- creating students’ awareness of faculty research and opportunities for research assistantships;
- providing research opportunities for students; and
- ensuring sufficient support to train faculty, students, administrators, and staff in the uses of new technologies.

The College of Public Health is also committed to excellence in fieldwork and clinical education. We believe that academic preparation must be complemented with a well-designed and mentored real-world experience that transforms classroom and laboratory learning into a dynamic, field-based demonstration of professional attitudes, skills, and abilities. Our students benefit from the college’s location in a metropolitan area filled with diverse and highly regarded health care, human services, and other non-medical agencies promoting health of individuals and communities. Our network of partnering agencies includes top-rated hospitals and rehabilitation centers, wellness clinics, state and federal government agencies, public and private schools, community health and human services agencies, research centers, and private practice offices. Field clinical education can also begin on campus at clinics and research centers operated by departments in the College of Public Health, through placements with intercollegiate athletics, and at Temple University Hospital.

As noted, graduate students in many of the College of Public Health’s degree programs engage in required clinical/field education experiences at facilities both on and off the University’s campuses. Many of these placements may require the student to have personal health insurance. Additionally, many require a criminal background check, Act 33/34 clearances, and perhaps a drug screen. Failure to maintain personal health insurance or the results of background clearances may limit and potentially eliminate placement options for students. This, in turn, can result in an inability to meet graduation requirements. The college cannot ensure clinical field placements if a student fails to meet the requirements or maintain health insurance. Additionally, conviction of a misdemeanor, felony, or felonious or illegal act may prevent a student from becoming credentialed and/or licensed to practice in certain professions. Applicants are encouraged to review the requirements for the particular program in which they are interested, as well as the licensure/credentialing rules in the state(s) in which they are interested in working to review their eligibility.

In Fall 2015, the College of Public Health introduced a common College Core course requirement for all incoming graduate students. The course, HRPR 5001 Current and Emerging Issues in Public Health and Health Professions, is completely online and designed such that students can complete the modules at their own pace over the course of their degree program. Tuition is not charged for the course since it carries no credit. However, it is a required pass/fail course, and students will not be eligible for graduation unless the course is completed. The course requires graduate students to complete a set of six learning modules that address core elements of health, including guiding principles, practices, and guidelines. Students then have the option to select an additional six modules from a menu of modules currently in 12 number while new modules are being developed. Each module includes a video presentation, PowerPoint slides, additional resources, and a short quiz. A minimum grade of 80% on each module is required to pass the course. Program directors and faculty advisors work closely with students to explain the modules, discuss appropriate timing for their completion, and monitor progress towards completion before graduation.

Ultimately, our diverse population of students and highly recognized faculty seek to enhance the quality of life for all.

• Clinical Health Leader
• Health Information Privacy and Security
• Healthcare Data Analytics
• School Nurse

Graduate Faculty

William Aaronson, Associate Professor, Department of Health Services Administration and Policy, College of Public Health; Ph.D., Temple University.

Rebecca Aper, Assistant Professor, Department of Communication Sciences and Disorders, College of Public Health; Ph.D., University of Iowa.

Sarah Bauerle Bass, Associate Professor, Department of Social and Behavioral Sciences, College of Public Health; Ph.D., Temple University.

Lisa Bedore, Professor, Department of Communication Sciences and Disorders, College of Public Health; Ph.D., Purdue University.

Katherine Bevans, Associate Professor, Department of Health and Rehabilitation Sciences, College of Public Health; Ph.D., Tulane University.

Donna Coffman, Assistant Professor, Department of Epidemiology and Biostatistics, College of Public Health; Ph.D., University of North Carolina at Chapel Hill.

Bradley N. Collins, Professor, Department of Social and Behavioral Sciences, College of Public Health; Ph.D., University of North Carolina at Binghamton.

Susan B. Dickey, Associate Professor, Department of Nursing, College of Public Health; Ph.D., University of Pennsylvania.

Jeffrey N. Draine, Professor, Department of Social Work, College of Public Health; Ph.D., University of Pennsylvania.

Levent Dumenci, Professor, Department of Epidemiology and Biostatistics, College of Public Health; Ph.D., Iowa State University.

Karin Eyrich-Garg, Associate Professor, Department of Social Work, College of Public Health; Ph.D., Washington University in St. Louis.

Jay S. Fagan, Professor, Department of Social Work, College of Public Health; Ph.D., Columbia University.

Jennifer Orlet Fisher, Professor, Department of Social and Behavioral Sciences, College of Public Health; Ph.D., The Pennsylvania State University.

Heather M. Gardiner, Associate Professor, Department of Social and Behavioral Sciences, College of Public Health; Ph.D., State University of New York at Buffalo.

Chantelle Hart, Associate Professor, Department of Social and Behavioral Sciences, College of Public Health; Ph.D., Case Western Reserve University.

Shivayogi V. Hiremath, Assistant Professor, Department of Health and Rehabilitation Sciences, College of Public Health; Ph.D., University of Pittsburgh.

Irene L. Hollin, Assistant Professor, Department of Health Services Administration and Policy, College of Public Health; Ph.D., Johns Hopkins University.

Cheryl A. Hyde, Associate Professor, Department of Social Work, College of Public Health; Ph.D., University of Michigan.

Jennifer K. Ibrahim, Associate Professor, Department of Health Services Administration and Policy, College of Public Health; Ph.D., University of California Berkeley.

Resa M. Jones, Associate Professor, Department of Epidemiology and Biostatistics, College of Public Health; Ph.D., University of Minnesota.

Emily Keshner, Professor, Department of Health and Rehabilitation Sciences, College of Public Health; Ed.D., Columbia University.

Julia Kobulsky, Assistant Professor, Department of Social Work, College of Public Health; Ph.D., Case Western Reserve University.

Rena A. Krakow, Associate Professor, Department of Communication Sciences and Disorders, College of Public Health; Ph.D., Yale University.

Martha Y. Kubik, Professor, Department of Nursing, College of Public Health; Ph.D., University of Minnesota.

Stephen J. Lepore, Professor, Department of Social and Behavioral Sciences, College of Public Health; Ph.D., University of California Irvine.

Edwin Maas, Associate Professor, Department of Communication Sciences and Disorders, College of Public Health; Ph.D., San Diego State University.

Nadine Martin, Professor, Department of Communication Sciences and Disorders, College of Public Health; Ph.D., Temple University.

Omar Martinez, Assistant Professor, Department of Social Work, College of Public Health; J.D., Indiana University.

Philip McCallion, Professor, Department of Social Work, College of Public Health; Ph.D., University at Albany, State University of New York.

Bryan P. McCormick, Professor, Department of Health and Rehabilitation Sciences, College of Public Health; Ph.D., Clemson University.

Heather Murphy, Assistant Professor, Department of Epidemiology and Biostatistics, College of Public Health; Ph.D., University of Guelph.

Bernie Sue Newman, Associate Professor, Department of Social Work, College of Public Health; Ph.D., University of Pittsburgh.

Joon Young Park, Associate Professor, Department of Kinesiology, College of Public Health; Ph.D., University of Maryland College Park.
About the Program

The Master of Public Health in Applied Biostatistics is a unique and newly developed degree in response to the growing need for master's-trained professionals with expertise in advanced biostatistical methods. The program is designed to train professionals in the field of public health who have a clear understanding of and expertise in the use, statistical application, and interpretation of large and complex data sets; of the critical importance of valid study designs and analytic methods; and of the application of hypothesis-based development and statistical programming and testing. Students complete their studies with an understanding of the fundamental critical thinking skills and statistical/programming competencies necessary for public health practice and Applied Biostatistics in accordance with Council on Education for Public Health (CEPH) standards. Applied Biostatistics courses address topics such as database coding and development; environmental surveillance; multivariate biostatistics, including the use of regression models and multifactorial analysis; research design; and risk assessment and statistical analysis in human disease. Students in the Applied Biostatistics program are trained in the M.P.H. core competencies while gaining skills to use and apply multiple statistical program packages, including SPSS, SAS, STATA, and R; develop appropriate study designs based on appropriate research questions; and interpret and present study results to various audiences. Thus, the M.P.H. in Applied Biostatistics at Temple University is particularly poised to foster interdisciplinary research and train students to work in an interdisciplinary environment.

Time Limit for Degree Completion: 4 years

Campus Location: Main. Some required and elective courses are offered at satellite campuses and through online courses, but the full M.P.H. program is currently available only at Main Campus.

Full-Time/Part-Time Status: Students can complete the degree program through evening classes and online courses. Full-time students usually complete the program within two academic years. Part-time students usually take three to four years to complete their degree.

Interdisciplinary Study: Interdisciplinary M.P.H. coursework, research, and interactions are encouraged to give students as broad a perspective as possible to excel in the complex, diverse, and dynamic state of public health. Through associations with the Center for Obesity Research and Education, Center for Women's Health, and others, students have access to over 100 faculty at Temple University and additional regional scholars who are actively involved in programs, research, and teaching in public health. Further, as with the other four M.P.H. degree programs offered by the College of Public Health, the M.P.H. in Applied Biostatistics can be undertaken as part of these nine dual M.P.H. degree programs:

- D.M.D./M.P.H. with Temple University's Kornberg School of Dentistry
- D.O./M.P.H. with the Philadelphia College of Osteopathic Medicine
For more information, visit https://cph.temple.edu/mph/dual-degrees.

Accreditation: The M.P.H. is fully accredited by the Council on Education for Public Health (CEPH). Achieving accreditation in 1985, Temple’s M.P.H. program is one of the longest established accredited M.P.H. programs in community health in the country.

Areas of Specialization: The M.P.H. degree program is offered in five specialty fields of study:

- Applied Biostatistics (APBIO)
- Environmental Health (EH)
- Epidemiology (EPI)
- Health Policy and Management (HPM)
- Social and Behavioral Sciences (SBS)

In addition, a certificate in Global Health is available to all students in the M.P.H. program. Students are able to complete this transcripted concentration by utilizing their three elective courses for Global Health classes.

Job Prospects: Graduates with an M.P.H. in Applied Biostatistics are employed in research institutions, such as universities and medical centers; at government agencies at the federal level, such as the Centers for Disease Control and Prevention, as well as local and state governments; and in private industry, including pharmaceutical firms, in positions such as research associates and statisticians.

Licensure: Students who complete an M.P.H. at Temple University are eligible to sit for the Certification in Public Health (CPH) exam and the Certified Health Education Specialist (CHES) exam. For information regarding credentialing in public health, see https://www.nchec.org/.

Non-Matriculated Student Policy: Non-matriculated students are required to speak with an advisor before registering for classes and to obtain the permission of the professor. If accepted to the program, a maximum of three courses may be applied toward the degree program. Exceptions to this policy relate to formal certificate programs.

Financing Opportunities: The Graduate School awards fellowships on a competitive basis only to students with outstanding academic records who are admitted to Temple University for the Fall term. Applicants who wish to be considered for fellowships must apply no later than January 26 for consideration for the Fall term. The department's Admissions Committee nominates outstanding students for these awards, but the Graduate Board's Fellowship Committee makes all award decisions.

Limited Teaching and Research Assistantships are available in the College of Public Health. The Graduate School website details the types of graduate student support. Assistantships are awarded on a term or annual basis. Students whose Fall applications are complete prior to or at the application deadline are reviewed for eligibility for Teaching Assistant (TA) positions. TAs are required to work 20 hours per week in any combination of teaching assignments made by the department and must meet the English Language Proficiency standards set by the University and the College. Students who hold Teaching or Research Assistantships are not permitted to hold other employment without the written prior approval of their advisor, the Director of Graduate Programs, and the Graduate School. To be considered for a Teaching or Research Assistantship, complete an application form that is sent to students upon admission to the M.P.H. program. The completed application must be returned to publichealth@temple.edu to be considered.

The College of Public Health has a limited number of scholarship opportunities available for M.P.H. students. Available scholarships are listed at https://cph.temple.edu/admissions/scholarships. Students may also be eligible for financial support through the Office of Student Financial Services.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1

All applicants to the M.P.H. program must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://sophas.liaisoncas.com/.

Applicants should check their application status on the SOPHAS portal often and inquire directly of SOPHAS about receipt of materials. For other questions, please contact the CPH Office of Admissions at cph@temple.edu or 215-204-5200.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation, which are completed electronically through the SOPHAS system, should be obtained from college/university faculty members familiar with academic competence. If the applicant has been out of school for a long time, please ensure that letters are from professional colleagues and that they address academic abilities, such as writing and research.

Coursework Required for Admission Consideration: Applicants’ files are reviewed for undergraduate coursework in mathematics and/or statistics, social science, and writing.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree is required.
Statement of Goals: In 500 to 1,000 words, address the following questions:

- What are your interests in Public Health, and why are you planning to pursue an M.P.H. in Applied Biostatistics?
- What are your future career goals, and what have you done either academically or professionally to guide your interest in Public Health?
- Are there any exceptional circumstances related to previous academic performance that you would like the Admissions Committee to consider?

Standardized Test Scores:
GRE: Required. While the program takes a portfolio approach to admissions, standardized tests provide important insight into quantitative and verbal abilities. Minimum scores are 153 on the verbal section and 144 on the quantitative section.

Standardized tests considered in lieu of the GRE include DAT, GMAT, MCAT, OAT, and PCAT. The LSAT, which is also considered for some M.P.H. specialties, is not accepted when applying for Applied Biostatistics or Epidemiology.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Clearances: The M.P.H. programs require students to complete clinical/field education experiences at facilities both on and off Temple University’s campuses. These placements may require criminal background checks, Act 33/34 clearances, and perhaps a drug screen. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his inability to meet graduation requirements.

Resume: Current resume or CV required.

Transfer Credit: Graduate credits from an M.P.H. program accredited by the Council on Education for Public Health (CEPH) may be transferred into the M.P.H. The credits must be equivalent to coursework offered at Temple, and the grade must be a ‘B’ or better in order to transfer. The M.P.H. advisor approves the transfer of credits based on a review of course materials provided by the student. The maximum number of credits a student may transfer is 9.

Test Waivers: Graduates with a terminal degree from a U.S. medical school, foreign-trained physicians who have obtained licensure to practice in the United States, and those with Ph.D.’s may have the GRE requirement waived.

Total Credit Hours 42

Internship: An internship is required as part of a student’s M.P.H. fieldwork.

Culminating Events:

Fieldwork Practicum: M.P.H. fieldwork requires a student to synthesize and integrate the knowledge acquired in coursework and other learning experiences and to apply theory and principles in a situation that approximates some aspect of professional practice through an internship or practicum experience with a public health agency or under the supervision of a faculty preceptor. The M.P.H. fieldwork experience serves as the culminating event as required by the Council on Education for Public Health (CEPH), the accrediting body of all U.S. schools of public health, for completion of the Master of Public Health degree. In addition, this culminating experience provides the student with the opportunity to develop expertise in a topic area and to contribute original and independent observations to a body of knowledge.

For the culminating experience to fulfill the requirements of EPBI 9289 and EPBI 9389, M.P.H. in Applied Biostatistics students are expected to complete a fieldwork experience, which enables them to:

- Describe the roles biostatistics serves in the discipline of public health.
- Apply basic statistical methods for summarizing public health data and for inference.
• Interpret and present results from the application of basic statistical techniques.
• Distinguish among the different measurement scales and, based on these distinctions, recognize the implications for selection of appropriate statistical methods.
• Apply descriptive techniques commonly used to summarize public health data.
• Recognize concepts of probability, random variation, and commonly used statistical probability distributions.
• Apply common statistical methods for inference, including estimation, confidence intervals, and hypothesis testing.
• Use appropriate statistical software and make proper interpretations based on the output.
• Be trained in a variety of common statistical programs and languages.
• Gain hands-on experience working with existing databases while being mentored on a culminating project.
• Incorporate public health practices when conducting and interpreting analytic results.
• Describe preferred methodological alternatives to commonly used statistical methods.
• Develop written and oral presentations based on statistical analyses for both public health professionals and educated lay audiences.
• Apply basic informatics techniques with vital statistics and public health records in the description of public health characteristics and in public health research and evaluation.

A final paper is the required deliverable for the M.P.H. fieldwork requirement. Students must demonstrate their proficiency and the application of theory and principles in the paper and demonstrate mastery of the required competencies during the oral defense. The evaluation of the M.P.H. fieldwork practicum experience, therefore, is integrated into the culminating experience requirement.

Athletic Training, M.S.A.T.
COLLEGE OF PUBLIC HEALTH

Learn more about the Master of Science in Athletic Training.

About the Program
The Master of Science in Athletic Training (M.S.A.T.) degree is accredited by the Commission on the Accreditation of Athletic Training and prepares students to become certified athletic trainers who are at the forefront of clinical practice and education. This degree program, first offered in Summer 2016, was designed in response to the decision by the Commission on Accreditation of Athletic Training Education (CAATE), the Board of Certification, and the National Athletic Trainers’ Association to transition to an entry-level master’s degree as a requirement for certification eligibility. These groups all recognize the increasing scope of practice for athletic trainers. Individuals who are already certified athletic trainers should consider Temple's Master of Science in Kinesiology with a concentration in Athletic Training.

Temple University established the professional M.S.A.T. degree as it phased out the B.S.A.T. As a leader in the education of future and current certified athletic trainers for more than 30 years, Temple secures this position by implementing a program ahead of the curve: the master's degree will not be required until 2022. Temple's geographical location, access to quality field experiences, alumni network, cutting-edge healthcare research, and dedicated faculty provide a unique and competitive educational experience.

Students graduating from the M.S.A.T. program are able to:
- clinically apply the foundational behaviors of professional practice;
- demonstrate knowledge and competency within the content areas of athletic training, as defined by the National Athletic Trainers’ Association;
- serve as leaders and advocates to enhance clinical and patient outcomes;
- practice with cultural competence and professional integrity;
- advance the athletic training profession;
- effectively communicate with peer healthcare professionals, patients, and athletic program administrators; and
- apply evidence-based decision making to clinical practice to increase patient outcomes and satisfaction.

Time Limit for Degree Completion: 5 years
Campus Location: Main
Full-Time/Part-Time Status: Students are expected to complete their two years of coursework on a full-time basis.
Interdisciplinary Study: Interdisciplinary study is available within the department and through other departments in the University.

Ranking: While rankings of individual programs and the department are not conducted in the profession, the programs at Temple University have excellent reputations.

Accreditation: The M.S.A.T. degree program is accredited by the Commission on Accreditation of Athletic Training Education (CAATE).

Areas of Specialization: The Athletic Training Practice Domains, as identified by the Board of Certification, encompass five main areas:

1. Injury/illness prevention and wellness promotion
2. Examination, assessment, and diagnosis
3. Immediate and emergency care
4. Therapeutic intervention
5. Healthcare administration and professional responsibility

As a result of the uniqueness of Temple University’s College of Public Health and its research areas, areas of distinctiveness also include:

- Advanced concussion education
- Evidence-based practice components

Job Prospects: Graduates are prepared to work as entry-level clinical certified athletic trainers in various traditional settings (e.g., high schools, universities, clinics, hospitals); to apply for advanced research-based education (e.g., Ph.D.) or clinical education (e.g., D.A.T.); or to practice in an emerging area (e.g., dance, military).

Licensure: Graduates of the M.S.A.T. degree program are eligible to take the Board of Certification examination to become a certified athletic trainer. For more information on the certification process, see https://www.bocatc.org/. For more information about state regulatory processes, see https://members.nata.org/gov/state/regulatory-boards/map.cfm.

Non-Matriculated Student Policy: Non-matriculated students are welcome to take classes in the department, assuming they have the requisite knowledge to be successful in the coursework.

Financing Opportunities: For information on financial aid, contact the Office of Student Financial Services at sfs@temple.edu or 215-204-2244.

Admission Requirements and Deadlines

Application Deadline:

Summer II: June 1

All applicants to the M.S.A.T. program must apply via the Athletic Training Centralized Application Service (ATCAS). The system can be accessed at https://atcas.liaisoncas.com/.

Letters of Reference:
Number Required: 2

From Whom: Letters of recommendation should be obtained from evaluators, typically college/university faculty or an immediate work supervisor, who can provide insight into the applicant’s aptitude for graduate study. These should be submitted at https://atcas.liaisoncas.com/.

Coursework Required for Admission Consideration: Required coursework includes:

- Biology
- Chemistry
- Exercise Physiology
- General or Sport Psychology
- Human Anatomy and Physiology (8 credits)
- Nutrition
- Physics
- Statistics

Prerequisites are not required to have been taken while an undergraduate. The courses may be completed at a local community college or any accredited institution of higher education. Prerequisites may be in progress at the time of the initial application, but must be completed and verified on one’s ATCAS application by June 1 of the year for which application is made. Questions regarding prerequisite work should be directed to the Program Director.

Bachelor’s Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of a baccalaureate degree.

Statement of Goals: A statement of one to two pages should be clearly written and well thought out. It should be submitted at https://atcas.liaisoncas.com/.

Standardized Test Scores:

GRE: Not required, but recommended. These scores must be sent directly to ATCAS.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Clearances: The Athletic Training M.S.A.T. program requires students to complete clinical/field education experiences at facilities both on and off Temple University’s campuses. These placements require students to have a physical exam, immunizations with titers, and a PPD test. Many placements also require criminal background checks, Act 33/34 clearances, and perhaps a drug screen. Students may also be required to maintain personal health insurance. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his ability to meet graduation requirements. The College cannot ensure clinical field placements if the individual fails to meet the requirements or maintain health insurance. Additionally, conviction of a misdemeanor, felony, or felonious or illegal act may prevent the student from becoming certified to practice athletic training.

Resume: A current resume that includes the applicant’s undergraduate GPA and relevant clinical and research experiences is required to be submitted at https://atcas.liaisoncas.com/.

Interview: Selected applicants are invited to interview via video chat at a mutually convenient time for the faculty interviewer(s) and the applicant.
Schools and Colleges

Other: Students must submit the following items in preparation for the Fall practicum courses after admission to the program but prior to August 1:

- Emergency Cardiac Care Certification
- FBI Fingerprint Check
- PA Criminal Background Check
- PA Department of Public Welfare Child Abuse Clearance
- Proof of Physical Examination, including blood titers/boosters where applicable
- PPD Skin Test for Tuberculosis Exposure

Transfer Credit: At the discretion of the Program Director, relevant graduate courses taken at other accredited universities may be considered for transfer credit to the student's program. The maximum number of credits a student may transfer is 6.

1 This common College Core course is required of all incoming graduate students in the College of Public Health. It is available completely online and designed such that students can complete the modules at their own pace over the course of their degree program.

Culminating Events:
Fieldwork Practica:
Students in the M.S.A.T. program are assigned by the program to a clinical education site and preceptor (i.e., a certified athletic trainer or other healthcare professional who has successfully completed preceptor training offered by program faculty) each Fall and Spring academic term. Affiliation agreements with 32 clinical education sites and 60 approved clinical preceptors are in place.

Athletic Training, D.A.T.

COLLEGE OF PUBLIC HEALTH

Learn more about the Doctor of Athletic Training.

About the Program
The Doctor of Athletic Training (D.A.T.) program is offered online by the Department of Health and Rehabilitation Sciences in the College of Public Health at Temple University, which has been a leader in athletic training education for more than 30 years. Temple is one of only four
uni... the entry-level degree within the next four to six years.

Offering the D.A.T. online increases student access to a unique and innovative world-class graduate education. The combination of outstanding faculty, administrative support, and online instructional resources allows Temple University to provide an excellent didactic and clinical education to an ever-growing market of students seeking quality graduate education. Students seek advising and complete/update advising contracts with the Program Director. Faculty work closely with students to select courses, develop an evidence-based project question, and complete the capstone project.

The D.A.T. is designed to enhance clinical decision making by allowing the practicing certified athletic trainer to utilize evidence-based techniques, including the identification and interpretation of current literature to improve patient outcomes. Through the clinical education components, the program enhances interdisciplinary and inter-professional relationships to mimic real-world healthcare delivery experiences.

Delivering the program exclusively online allows a greater audience to be reached and collaboration with people from diverse backgrounds and with varied experiences to occur.

The D.A.T. is geared toward advancing clinical knowledge of currently practicing certified athletic trainers. It targets those interested in the clinical application and education of advanced athletic training concepts and practice, not original research. For individuals interested in athletic training research, Temple University offers a Ph.D. in Kinesiology with a concentration in Athletic Training. The Ph.D. degree is research-based and trains professionals to be independent investigators who may go on for post-doctoral training.

Time Limit for Degree Completion: 5 years

Campus Location: Online

Full-Time/Part-Time Status: While not recommended, the degree program can be completed on a part-time basis. This must be approved by the Program Director.

Ranking: While rankings of individual programs and the department are not conducted in the profession, the programs at Temple University have excellent reputations.

Job Prospects: As of 2015, the U.S. Bureau of Labor Statistics projects a 19% growth in athletic training until 2025, which is above the standard workforce demand rate of 11%.

Licensure: Applicants for and graduates of the D.A.T. program must be certified athletic trainers. This program does not allow for students to take the Board of Certification exam. Applicants interested in becoming a certified athletic trainer should consider Temple’s accredited Master of Science in Athletic Training (M.S.A.T.) program.

Non-Matriculated Student Policy: D.A.T. coursework is available only to matriculated students.

Financing Opportunities: Clinical graduate externships may be available for graduate students who are certified athletic trainers.

Admission Requirements and Deadlines

Application Deadline:
Fall: July 1

All applicants to the D.A.T. program must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://sophas.liaisoncas.com/.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from evaluators, typically college/university faculty or an immediate work supervisor, who can provide insight into the applicant’s aptitude for graduate study. These should be submitted at https://sophas.liaisoncas.com/.

Coursework Required for Admission Consideration: All applicants must be certified athletic trainers via the procedures specified by the Board of Certification.

Master’s Degree in Discipline/Related Discipline: A master’s degree is required.

Bachelor’s Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of a baccalaureate degree.

Statement of Goals: A statement of one to two pages should be clearly written and well thought out. It should be submitted at https://sophas.liaisoncas.com/.

Standardized Test Scores:
GRE: Required, except for those persons who have been practicing clinically as an athletic trainer for five years or more.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:
- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: A current resume that includes the applicant’s GPA and relevant clinical and research experiences is required to be submitted at https://sophas.liaisoncas.com/.

Interview: Selected applicants are invited to interview via video chat at a mutually convenient time for the faculty interviewer(s) and the applicant.

[^1]: This common College Core course is required of all incoming graduate students in the College of Public Health. It is available completely online and designed such that students can complete the modules at their own pace over the course of their degree program.

### Culminating Events:

**Capstone Project:**
Students are assigned a faculty advisor to guide the Capstone Project, which must be grounded in evidence-based practice. The doctoral capstone is developed over a series of academic terms. Outcomes from the Capstone Project are expected to be incorporated into clinical practice.

### Clinical Research and Translational Medicine, M.S.

**COLLEGE OF PUBLIC HEALTH**

### About the Program

This program is not accepting applications for the 2019-2020 academic year.

### Communication Sciences and Disorders, Ph.D.

**COLLEGE OF PUBLIC HEALTH**

Learn more about the Doctor of Philosophy in Communication Sciences and Disorders.

### About the Program

The Ph.D. program in Communication Sciences and Disorders seeks to bring students to a level of education at which they may participate as scholars in the discipline. It is the program's objective to provide doctoral students with a base of information sufficiently broad that they understand the range of their discipline, yet deep enough in a chosen area of specialization to enable them to comfortably assume positions of leadership. The program emphasizes education in specific methods of research, appropriate to the student's area of specialization, reaching a level at which the graduate will be able to make original and valuable contributions to the knowledge of the field. A final objective is to infuse students with the spirit of scientific inquiry and wisdom in the methods and philosophy of science to place their own contributions, and the contributions of others, in a proper perspective with regard to theoretical and philosophical positions and trends. It is anticipated that graduates will contribute to the discipline as leaders and exemplars in the areas of teaching, research, administration, and clinical services.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.
Interdisciplinary Study: Students often take elective coursework outside the department in disciplines such as biostatistics, education, and psychology.

Affiliation(s): Cooperative efforts have been established with Temple University Hospital and Lewis Katz School of Medicine, the Camden School District, MossRehab, and the School District of Philadelphia.

Areas of Specialization: Areas of concentration are Speech-Language Pathology with emphases in adult language disorders, child language and literacy development and disorders, and motor speech.

Job Prospects: Graduates are prepared for careers in universities and research institutions.

Non-Matriculated Student Policy: Departmental permission is required for registration in graduate classes. A maximum of 9 credits earned as a non-matriculated student may be applied toward the degree.

Financing Opportunities: Research and Teaching Assistantships may be available. Contact the Department of Communication Sciences and Disorders to inquire.

Admission Requirements and Deadlines

Application Deadline:

Fall: January 5

All applicants to the Ph.D. program in Communication Sciences and Disorders must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://sophas.liaisoncas.com/.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from professors, employers, or colleagues who are able to evaluate the applicant's research potential. One letter must be from a previous professor, advisor, or research supervisor.

Coursework Required for Admission Consideration: Applicants must demonstrate coursework taken in statistics and probability.

Master's Degree in Discipline/Related Discipline: A master's degree is not required.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree in Communication Disorders, Education, Linguistics, or Psychology is required.

Statement of Goals: Approximately 500 to 1,000 words address your background, your academic and professional goals, and the fit of your interests with the program.

Standardized Test Scores:

GRE: Required. Scores on the verbal and quantitative sections are expected to fall at or above the 50th percentile.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: Current resume required.

Writing Sample: A writing sample that is expository in nature, e.g., a chapter of a thesis, a convention paper, and/or a paper from senior undergraduate or master's level coursework, should be submitted.

Advanced Standing: The student's advisor recommends advanced standing to the department based on a review of prior coursework and experience. The maximum number of advanced standing credits awarded is 30.

Total Credit Hours: 45

1 Other courses may meet this requirement if approved by the mentor, Ph.D. Program Director, and department chair.

2 Alternate elective courses must be approved by the Ph.D. Program Director.
Students enrolled in CSCD 9999 must take a minimum of 3 credits after approval of the proposal and be enrolled for at least 3 credits each term until the dissertation is defended and filed with the Graduate School.

Culminating Events:

Preliminary Examination:
The preliminary examination is undertaken when the student has completed all other requirements for advancement to candidacy, but no later than the end of the third year of study. Specifically, students are expected to have produced at least two publishable manuscripts and completed all coursework prior to registering for the exam. Students should have successfully presented the first-year project and second-year evaluation.

The examination itself includes a written examination and an oral defense. The written examination consists of three to five questions developed by the student’s committee and approved by the program director and department chair. Students have two weeks to complete the written examination. At least one question addresses methodology and the other two are on distinct but related topics close to the student’s area of research. Upon submission of the written examination, the student orally defends the written responses in a meeting of graduate faculty. At a minimum, the student’s committee, the program director, and department chair are present. The student must pass the preliminary examination in no more than two attempts. The Doctoral Advisory Committee evaluates the exam on a pass/fail basis. All judgments are by committee consensus.

Proposal:
The preliminary examination prepares students to write a data-driven dissertation proposal, which is a prospectus with literature review and proposed methodology. When the student has successfully defended the preliminary examination and submitted an approved prospectus, the student has ascended to doctoral candidacy.

Dissertation:
The dissertation is an original study that makes a significant and publishable contribution to the field. It should demonstrate a thorough knowledge of the theoretical and empirical literature in the area of investigation. It should also be of sound and rigorous methodology. Original research of quality appropriate for publication in a first-tier national journal is expected.

Graduate School guidelines for announcing the defense are followed. Notice is given through postings, email, and listserv announcements. The defense lasts two hours.

Environmental Health, M.P.H.

COLLEGE OF PUBLIC HEALTH

Learn more about the Master of Public Health in Environmental Health.

About the Program

Environmental factors and sustainable development are major determinants of health in individuals and communities. Proper environmental management is key to protecting public health and avoiding most preventable illnesses caused by environmental factors. The environment influences our health in many ways, including exposure to physical, chemical, and biological risk factors, as well as associated changes in our behavior. The Master of Public Health in Environmental Health is a terminal professional degree that prepares students for practice-oriented careers in environmental health and management, with an emphasis on examining environmental factors and policies that affect the public’s health and sustainable environments of communities.

Time Limit for Degree Completion: 4 years

Campus Location: Main. Some required and elective courses are offered at satellite campuses and through online courses, but the full M.P.H. program is currently available only at Main Campus.

Full-Time/Part-Time Status: Students can complete the degree program through evening classes and online courses. Full-time students usually complete the program within two academic years. Part-time students usually take three to four years to complete their degree.

Interdisciplinary Study: Interdisciplinary M.P.H. coursework, research, and interactions are encouraged to give students as broad a perspective as possible to excel in the complex, diverse, and dynamic state of public health. Through associations with the Center for Obesity Research and Education, Center for Women’s Health, and others, students have access to over 100 faculty at Temple University and additional regional scholars who are actively involved in programs, research, and teaching in public health. Further, as with the other four M.P.H. degree programs offered by the College of Public Health, the M.P.H. in Environmental Health can be undertaken as part of these nine dual M.P.H. degree programs:
• D.M.D./M.P.H. with Temple University’s Kornberg School of Dentistry
• D.O./M.P.H. with the Philadelphia College of Osteopathic Medicine
• D.P.M./M.P.H. with the Temple University School of Podiatric Medicine
• J.D./M.P.H. with Temple University’s Beasley School of Law
• M.D./M.P.H. with the Lewis Katz School of Medicine at Temple University
• M.H.A./M.P.H. with Temple University’s Fox School of Business and Management
• M.P.P./M.P.H. with Temple University’s College of Liberal Arts
• M.S. Health Informatics/M.P.H. within the Temple University College of Public Health
• M.S.W./M.P.H. with the Temple University School of Social Work

For more information, visit https://cph.temple.edu/mph/dual-degrees.

Affiliation(s): Locally, the program has long-standing research affiliations with The Food Trust, Fox Chase Cancer Center, Health Federation of Philadelphia, Philadelphia Department of Public Health, Public Health Management Corporation (PHMC), School District of Philadelphia, Temple University Health System, and numerous other community health agencies. These partnerships allow us to offer students a wide range of fieldwork opportunities to translate skills learned in the classroom to actual practice in the community.

Study Abroad: Short-term intensive study abroad courses are offered as part of the M.P.H. program of study. These courses are offered during the Summer and are open to both undergraduate and graduate students.

Accreditation: The M.P.H. is fully accredited by the Council on Education for Public Health (CEPH). Achieving accreditation in 1985, Temple’s M.P.H. program is one of the longest established accredited M.P.H. programs in community health in the country.

Areas of Specialization: The M.P.H. degree program is offered in five specialty fields of study:

• Applied Biostatistics (APBIO)
• Environmental Health (EH)
• Epidemiology (EPI)
• Health Policy and Management (HPM)
• Social and Behavioral Sciences (SBS)

In addition, certificates in Clinical Health Services Research, Global Health, and Public Health Law Research are available to all students in the M.P.H. program. Students are able to complete these transcripted certificates by utilizing their elective courses for the required certificate classes.

Job Prospects: Graduates with an M.P.H. in Environmental Health have positions in a wide range of health-related settings, including clinics, community-based organizations, health maintenance organizations, hospitals, schools, state and local public health departments, voluntary health agencies, and work sites. Graduates are employed as adjunct faculty, consultants, environmental health specialists, evaluation specialists, infection control coordinators, marketing specialists, prevention specialists, project directors, research directors, and senior health educators. Virtually all students are placed within three to six months of graduation.

Licensure: Students who complete an M.P.H. at Temple University are eligible to sit for the Certification in Public Health (CPH) exam and the Certified Health Education Specialist (CHES) exam. For information regarding credentialing in public health, see https://www.nchec.org/.

Non-Matriculated Student Policy: Non-matriculated students are required to speak with an advisor before registering for classes and to obtain the permission of the professor. If accepted to the program, a maximum of three courses may be applied toward the degree program. Exceptions to this policy relate to formal certificate programs.

Financing Opportunities: The Graduate School awards fellowships on a competitive basis only to students with outstanding academic records who are admitted to Temple University for the Fall term. Applicants who wish to be considered for fellowships must apply no later than January 26 for consideration for the Fall term. The department’s Admissions Committee nominates outstanding students for these awards, and the Graduate Board’s Fellowship Committee makes all award decisions.

Limited Teaching and Research Assistantships are available in the College of Public Health. The Graduate School website details the types of graduate student support. Assistantships are awarded on a term or annual basis. Students whose Fall applications are complete prior to or at the application deadline are reviewed for eligibility for Teaching Assistant (TA) positions. TAs are required to work 20 hours per week in any combination of teaching assignments made by the department and must meet the English Language Proficiency standards set by the University and the College. Students who hold Teaching or Research Assistantships are not permitted to hold other employment without the written prior approval of their advisor, the Director of Graduate Programs, and the Graduate School. To be considered for a Teaching or Research Assistantship, complete an application form that is sent to students upon admission to the M.P.H. program.

The College of Public Health has a limited number of scholarship opportunities available for M.P.H. students. Students may also be eligible for financial support through the Office of Student Financial Services.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1

All applicants to the M.P.H. program must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://sophas.liaisoncas.com/.

Applicants should check their application status on the SOPHAS portal often and inquire directly of SOPHAS about receipt of materials. For other questions, please contact the CPH Office of Admissions at cph@temple.edu or 215-204-5200.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation, which are completed electronically through the SOPHAS system, should be obtained from college/university faculty members familiar with academic competence. If the applicant has been out of school for a long time, please ensure that letters are from professional colleagues and that they address academic abilities, such as writing and research.
Coursework Required for Admission Consideration: Applicants’ files are reviewed for undergraduate coursework in mathematics and/or statistics, social science, and writing.

Bachelor’s Degree in Discipline/Related Discipline: A baccalaureate degree is required.

Statement of Goals: In 500 to 1,000 words, address the following items:

• What are your interests in Public Health, and why are you planning to pursue an M.P.H. in Environmental Health?
• What are your future career goals, and what have you done either academically or professionally to guide your interest in Public Health?
• Are there any exceptional circumstances related to previous academic performance that you would like the Admissions Committee to consider?

Standardized Test Scores:
GRE: Required. While the program takes a portfolio approach to admissions, standardized tests provide important insight into quantitative and verbal abilities. Minimum scores are 153 on the verbal section and 144 on the quantitative section.

Standardized tests considered in lieu of the GRE include DAT, GMAT, MCAT, OAT, and PCAT. The LSAT, which is also considered for some M.P.H. specialties, is not accepted when applying for Applied Biostatistics or Epidemiology.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

• TOEFL iBT: 79
• IELTS Academic: 6.5
• PTE Academic: 53

Clearances: The M.P.H. programs require students to complete clinical/field education experiences at facilities both on and off Temple University’s campuses. These placements may require criminal background checks, Act 33/34 clearances, and perhaps a drug screen. Placements may also require the student to maintain personal health insurance. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his inability to meet graduation requirements.

Resume: Current resume or CV required.

Transfer Credit: Graduate credits from an M.P.H. program accredited by the Council on Education for Public Health (CEPH) may be transferred into the M.P.H. The credits must be equivalent to coursework offered at Temple, and the grade must be a ’B’ or better in order to transfer. The M.P.H. advisor approves the transfer of credits based on a review of course materials provided by the student. The maximum number of credits a student may transfer is 9.

Test Waivers: Graduates with a terminal degree from a U.S. medical school, foreign-trained physicians who have obtained licensure to practice in the United States, and those with Ph.D.’s may have the GRE requirement waived.

M.P.H. Fieldwork Experience
ENVH 9289 MPH Fieldwork I 3
ENVH 9389 MPH Fieldwork II 3
Total Credit Hours 42

1 Courses not taken to fulfill the Environmental Health Elective above may be selected to fulfill one or both of these general electives.

Internship: An internship is required as part of a student's M.P.H. fieldwork.

Culminating Events:
Fieldwork Practicum:
M.P.H. fieldwork requires a student to synthesize and integrate the knowledge acquired in coursework and other learning experiences and to apply theory and principles in a situation that approximates some aspect of professional practice through an internship or practicum experience with a public health agency or under the supervision of a faculty preceptor. The M.P.H. fieldwork experience serves as the culminating event as required by the Council on Education for Public Health (CEPH), the accrediting body of all U.S. schools of public health, for completion of the Master of Public Health degree. In addition, this culminating experience provides the student with the opportunity to develop expertise in a topic area and to contribute original and independent observations to a body of knowledge.

Environmental Health, M.S.
COLLEGE OF PUBLIC HEALTH

About the Program
This program is not accepting applications for the 2019-2020 academic year.

Epidemiology, M.P.H.
COLLEGE OF PUBLIC HEALTH

Learn more about the Master of Public Health in Epidemiology.

About the Program
The Master of Public Health in Epidemiology is a professional degree program for those students who desire to receive fundamental and applied training in the public health sciences with a focus on epidemiological study design, disease surveillance methods, bioethics of population-based research, and core biostatistical methods. This practice-oriented program prepares students to successfully work in public health and applied epidemiology agencies, including conducting disease surveillance within government public health agencies; directing community demonstration and clinical trials research; and evaluating and running screening programs and other preventative health services in the broad areas of public health practice and health policy. The program is grounded in the core M.P.H. competencies and disciplines of public health with an emphasis in epidemiologic techniques. It covers the application of epidemiological research methods with an emphasis on developing research and methodological skills and critically evaluating current epidemiological studies.

The Department of Epidemiology and Biostatistics also offers a small research-intensive M.S. in Epidemiology, which is a research-oriented degree intended for students who desire to learn the advanced concepts and methods of epidemiology and apply those concepts to a unique population-based study through the completion of a master's-level thesis project.

Time Limit for Degree Completion: 4 years

Campus Location: Main. Some required and elective courses are offered at satellite campuses and through online courses, but the full M.P.H. program is currently available only at Main Campus.

Full-Time/Part-Time Status: Students can complete the degree program through evening classes and online courses. Full-time students usually complete the program within two academic years. Part-time students usually take three to four years to complete their degree.

Interdisciplinary Study: Interdisciplinary M.P.H. coursework, research, and interactions are encouraged to give students as broad a perspective as possible to excel in the complex, diverse, and dynamic state of public health. Through associations with the Center for Obesity Research and Education, Center for Women's Health, and others, students have access
to over 100 faculty at Temple University and additional regional scholars who are actively involved in programs, research, and teaching in public health. Further, as with the other four M.P.H. degree programs offered by the College of Public Health, the M.P.H. in Epidemiology can be undertaken as part of these nine dual M.P.H. degree programs:

- D.M.D./M.P.H. with Temple University's Kornberg School of Dentistry
- D.O./M.P.H. with the Philadelphia College of Osteopathic Medicine
- D.P.M./M.P.H. with the Temple University School of Podiatric Medicine
- J.D./M.P.H. with Temple University's Beasley School of Law
- M.D./M.P.H. with the Lewis Katz School of Medicine at Temple University
- M.H.A./M.P.H. with Temple University's Fox School of Business and Management
- M.P.P./M.P.H. with Temple University's College of Liberal Arts
- M.S. Health Informatics/M.P.H. within the Temple University College of Public Health
- M.S.W./M.P.H. with the Temple University School of Social Work

For more information, visit https://cph.temple.edu/mph/dual-degrees.

**Affiliation(s):** Locally, the program has long-standing research affiliations with The Food Trust, Fox Chase Cancer Center, Health Federation of Philadelphia, Philadelphia Department of Public Health, Public Health Management Corporation (PHMC), School District of Philadelphia, Temple University Health System, and numerous other community health agencies.

**Study Abroad:** Short-term intensive study abroad courses are offered as part of the M.P.H. program of study. These courses are offered during the Summer and are open to both undergraduate and graduate students.

**Accreditation:** The M.P.H. is fully accredited by the Council on Education for Public Health (CEPH). Achieving accreditation in 1985, Temple’s M.P.H. program is one of the longest established accredited M.P.H. programs in community health in the country.

**Areas of Specialization:** The M.P.H. degree program is offered in five specialty fields of study:

- Applied Biostatistics (APBIO)
- Environmental Health (EH)
- Epidemiology (EPI)
- Health Policy and Management (HPM)
- Social and Behavioral Sciences (SBS)

In addition, a certificate in Global Health is available to all students in the M.P.H. program. Many students in the Epidemiology M.P.H. program complete this transcripted Global Health concentration by utilizing their three elective courses for Global Health classes.

**Job Prospects:** Graduates with an M.P.H. in Epidemiology have positions in a wide range of health-related settings, including state and local public health departments, community-based organizations, voluntary health agencies, health maintenance organizations, pharmaceutical companies, hospitals, clinics, schools, and public health-related work sites. Graduates are employed as HIV/AIDS coordinators, infection control coordinators, project directors, program evaluation specialists, research directors, prevention specialists, environmental health specialists, protocol directors, senior health educators, and consultants. Virtually all students are placed within three to six months of graduation.

**Licensure:** Students who complete an M.P.H. at Temple University are eligible to sit for the Certification in Public Health (CPH) exam and the Certified Health Education Specialist (CHES) exam. For information regarding credentialing in public health, see https://www.nchec.org/.

**Non-Matriculated Student Policy:** Non-matriculated students are required to speak with an advisor before registering for classes and to obtain the permission of the professor. If accepted to the program, a maximum of three courses may be applied toward the degree program. Exceptions to this policy relate to formal certificate programs.

**Financing Opportunities:** The Graduate School awards fellowships on a competitive basis only to students with outstanding academic records who are admitted to Temple University for the Fall term. Applicants who wish to be considered for fellowships must apply no later than January 26 for consideration for the Fall term. The Admissions Committee of the Department of Epidemiology and Biostatistics nominates outstanding students for these awards, but the Graduate Board's Fellowship Committee makes all award decisions.

Limited Teaching and Research Assistantships are available in the College of Public Health. The Graduate School website details the types of graduate student support. Assistantships are awarded on a term or annual basis. Students whose Fall applications are complete prior to or at the application deadline are reviewed for eligibility for Teaching Assistant (TA) positions. TAs are required to work 20 hours per week in any combination of teaching assignments made by the department and must meet the English Language Proficiency standards set by the University and the College. Students who hold Teaching or Research Assistantships are not permitted to hold other employment without the written prior approval of their advisor, the Director of Graduate Programs, and the Graduate School. To be considered for a Teaching or Research Assistantship, complete an application form that is sent to students upon admission to the M.P.H. program. The completed application must be returned to publichealth@temple.edu to be considered.

The College of Public Health has a limited number of scholarship opportunities available for M.P.H. students. Available scholarships are listed at https://cph.temple.edu/admissions/scholarships. Students may also be eligible for financial support through the Office of Student Financial Services.

**Admission Requirements and Deadlines**

**Application Deadline:**

**Fall:** March 1
**Spring:** November 1

All applicants to the M.P.H. program must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://sophas.liaisoncas.com/.

Applicants should check their application status on the SOPHAS portal often and inquire directly of SOPHAS about receipt of materials. For other questions, please contact the CPH Office of Admissions at cph@temple.edu or 215-204-5200.

**Letters of Reference:**
**Number Required:** 3
Letters of recommendation, which are completed electronically through the SOPHAS system, should be obtained from college/university faculty members familiar with academic competence. If the applicant has been out of school for a long time, please ensure that letters are from professional colleagues and that they address academic abilities, such as writing and research.

Coursework Required for Admission Consideration: Applicants’ files are reviewed for undergraduate coursework in mathematics and/or statistics, social science, and writing.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree is required.

Statement of Goals: In 500 to 1,000 words, address the following questions:

• What are your interests in Public Health, and why are you planning to pursue an M.P.H. in Epidemiology?
• What are your future career goals, and what have you done either academically or professionally to guide your interest in Public Health?
• Are there any exceptional circumstances related to previous academic performance that you would like the Admissions Committee to consider?

Standardized Test Scores:
GRE: Required. While the program takes a portfolio approach to admissions, standardized tests provide important insight into quantitative and verbal abilities. Minimum scores are 153 on the verbal section and 144 on the quantitative section.

Standardized tests considered in lieu of the GRE include DAT, GMAT, MCAT, OAT, and PCAT. The LSAT, which is also considered for some M.P.H. specialties, is not accepted when applying for Applied Biostatistics or Epidemiology.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

• TOEFL iBT: 79
• IELTS Academic: 6.5
• PTE Academic: 53

Clearances: The M.P.H. programs require students to complete clinical/field education experiences at facilities both on and off Temple University’s campuses. These placements may require criminal background checks, Act 33/34 clearances, and perhaps a drug screen. Placements may also require the student to maintain personal health insurance. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his inability to meet graduation requirements.

Resume: Current resume or CV required.

Transfer Credit: Graduate credits from an M.P.H. program accredited by the Council on Education for Public Health (CEPH) may be transferred into the M.P.H. The credits must be equivalent to coursework offered at Temple, and the grade must be a ‘B’ or better in order to transfer. The M.P.H. advisor approves the transfer of credits based on a review of course materials provided by the student. The maximum number of credits a student may transfer is 9.

Test Waivers: Graduates with a terminal degree from a U.S. medical school, foreign-trained physicians who have obtained licensure to practice in the United States, and those with Ph.D.’s may have the GRE requirement waived.

Internship: An internship is required as part of a student's M.P.H. fieldwork.

Culminating Events:
Fieldwork Practicum:
M.P.H. fieldwork requires a student to synthesize and integrate the knowledge acquired in coursework and other learning experiences and to apply theory and principles in a situation that approximates some aspect of professional practice through an internship or practicum experience with a public health agency or under the supervision of a faculty preceptor. The M.P.H. fieldwork experience serves as the culminating event as required by the Council on Education for Public Health (CEPH), the accrediting body of all U.S. schools of public health, for completion of the Master of Public Health degree. In addition, this culminating experience provides the student with the opportunity to develop expertise in a topic area and to contribute original and independent observations to a body of knowledge.

For the culminating experience to fulfill the requirements of EPBI 9289 and EPBI 9389, M.P.H. in Epidemiology students are expected to complete a fieldwork experience, which enables them to:

• Identify key sources of data for epidemiological purposes.
• Identify the principles and limitations of public health screening programs.
• Describe a public health problem in terms of magnitude, person, time, and place.
• Explain the importance of epidemiology for informing scientific, ethical, economic, and political discussion of health issues.
• Comprehend basic ethical and legal principles pertaining to the collection, maintenance, use, and dissemination of epidemiologic data.
• Apply the basic terminology and definitions of epidemiology.
• Calculate basic epidemiologic measures.
• Communicate epidemiologic information to lay and professional audiences.
• Draw appropriate inferences from epidemiologic data.
• Evaluate the strengths and limitations of epidemiologic reports.
• Apply basic statistical methods for summarizing public health data and for inference.
• Apply descriptive techniques commonly used to summarize public health data.
• Recognize concepts of probability, random variation, and commonly used statistical probability distributions.
• Distinguish the pros and cons of existing, national, publicly available data sets and surveys.
• Disseminate information through press releases, poster formats, and peer-reviewed manuscripts.

A final paper is the required deliverable for the M.P.H. fieldwork requirement. Students must demonstrate their proficiency and the application of theory and principles in the paper and demonstrate mastery of the required competencies during the oral defense. The evaluation of the M.P.H. fieldwork practicum experience, therefore, is integrated into the culminating experience requirement.

Epidemiology, M.S.

COLLEGE OF PUBLIC HEALTH

About the Program

Learn more about the Master of Science in Epidemiology.

About the Program

The conduct of epidemiologic research involves the study of the distribution of disease and/or injury in human populations. The M.S. in Epidemiology degree is designed specifically for students interested in in-depth training and knowledge of the research techniques appropriate to conducting epidemiologic studies in a particular concentration of health research. Master’s-level epidemiologists work in applied settings conducting disease surveillance and outbreak investigations or in research settings developing and evaluating research hypotheses generated to understand the effects of behavioral, biological, environmental, and social factors on human health. Since epidemiology is the principal science underlying disease prevention and control programs, this training is also a basic component for other degree and training programs in public health and preventative medicine.
Admission Requirements and Deadlines

Application Deadline:

Fall: March 1

All applicants to the M.S. in Epidemiology program must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://sophas.liaisoncas.com/.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from college/university faculty members familiar with the applicant's academic competence and, if appropriate, research supervisors or mentors.

Coursework Required for Admission Consideration: Proficiency in statistical programming and a minimum of 6 credits of undergraduate quantitative and/or analytical methods (statistics, research design, etc.) are required.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree is required.

Statement of Goals: Approximately 500 to 1,000 words include your interest in the M.S. in Epidemiology program, your research area of interest, research goals and experience, current quantitative skills, future career goals, and academic and research achievements.

Standardized Test Scores:

GRE: Required. Minimum scores should be 153 on the verbal section and 144 on the quantitative section.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: Current resume or curriculum vitae required.

Interview: An interview may be required.

Test Waivers: Postdoctoral applicants who hold a terminal degree from an accredited institution may request a waiver of the GRE.

Program Requirements

Research Course
- EPBI 9996 Masters Res in Pub Hlth (2 terms) 6

Total Credit Hours 36

1 Course may be selected as an elective or as an advanced quantitative methods course, but not in both categories.
2 EPBI 5002 Biostatistics is highly recommended.

Culminating Events:

Thesis:
The master's thesis documents the student's independent research and demonstrates mastery of her/his primary area of interest. Thesis research is conducted under the direct supervision of an academic advisor. The specific topic for research should be of current interest in the professional community. After a research topic is selected, the student performs preliminary background research. A thesis proposal is then submitted describing the plan for further steps toward completion of the proposed research. The student may continue the research only after the proposal is approved by the committee. Presentation of methods and study results is conducted upon completion of the thesis.

Epidemiology, Ph.D.

COLLEGE OF PUBLIC HEALTH

Learn more about the Doctor of Philosophy in Epidemiology.

About the Program

The dynamic and quantitatively oriented doctoral program in Epidemiology provides advanced training in epidemiologic and biologic methods. The program develops strong academic researchers in the field of Epidemiology with a clear understanding of the patterns, causes, and effects of diseases in the population who are well-prepared to design, implement, analyze, and interpret research studies investigating key epidemiologic questions with the ultimate goal of improving overall population health. Working closely with faculty in the Department of Epidemiology and Biostatistics, students gain expertise in collecting data, designing instruments and research protocols, directing and conducting sophisticated and multilevel statistical analyses, interpreting data, and communicating research findings to both lay and professional audiences. All students in the Epidemiology Ph.D. program complete common core public health course requirements, which include foundational courses in Biostatistics, Epidemiology, grantsmanship, and research design. Beyond these core courses, students master specialized courses in advanced epidemiologic and biostatistical methods and engage in research.
and scholarly productivity with faculty members in the Department of Epidemiology and Biostatistics and throughout the College.

In addition to in-depth, didactic training in epidemiologic and quantitative concepts and methods, the Ph.D. in Epidemiology program aims to foster in students the development of a public health professional identity and values. Professional development exercises are infused in didactic courses and available in other program-sponsored activities (e.g., conference attendance, departmental colloquia and brown-bag presentations, journal clubs, and professional development workshops). Doctoral trainees in Epidemiology are encouraged to take advantage of these professional development opportunities offered at various public health centers and laboratories throughout the College of Public Health and Temple University. Ph.D. in Epidemiology students work closely with faculty mentors throughout the program and particularly during the dissertation phase on formalizing grant-writing skills, teaching in higher education, and writing papers for publications to prepare students as the next generation of academic researchers.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time study is preferred.

**Interdisciplinary Study:** Students are encouraged to develop a program of research that is interdisciplinary in nature, involving coursework and research across departments, schools, and colleges that is quantitative and methodologic in focus. Research in affiliated units is encouraged.

**Affiliation(s):** A number of centers and laboratories exist within the Department of Epidemiology and Biostatistics, the College of Public Health, and Temple University that are designed to study, develop, and evaluate interventions aimed at resolving significant public health problems (e.g., ethnic and racial disparities in cancer, inadequate disaster preparedness, maternal and child health, obesity, tobacco exposure, and violence). These centers and labs offer opportunities for research placements for doctoral students to assist students in developing research and papers for publication and presentation at conferences; provide professional socialization; help students meet and work with faculty to define dissertation projects using existing funded research studies; and may provide some funding in the form of Research Assistantships.

Specific centers and labs include the Health Behavior Research Clinic, the Maternal and Child Health Wellness Laboratory, the Risk Communication Laboratory, and the Social and Behavioral Health Intervention Laboratory. Faculty and doctoral students also are involved in research with affiliates in the Department of Nursing, Fox Chase Cancer Center, the Fox School of Business and Management, the Institute on Aging, the Institute on Disabilities, the School of Media and Communication, the School of Medicine, and the School of Podiatric Medicine. Additional research opportunities at Temple University include the Institute for Survey Research, the Social Science Data Library, and the Office of Institutional Research and Assessment.

**Job Prospects:** Graduates of the Ph.D. in Epidemiology program are prepared to become empirical quantitative researchers in academic units, non-profit organizations, government agencies, or the private sector, including pharmaceutical companies or health systems. Graduates are well trained to identify the etiology of major public health issues; conduct and analyze survey, surveillance, longitudinal, case-control, and experimental data using comprehensive and complex statistical techniques; and develop their own methodologically rigorous research studies.

**Non-Matriculated Student Policy:** Non-matriculated students may take Ph.D. courses only with the permission of the instructor. Further, 8000-level courses are not open to non-matriculated students. Completion of coursework does not ensure admission into the program.

**Financing Opportunities:** Full-time Ph.D. students generally receive financial support through a combination of fellowships and assistantships. Research Assistants (RAs) perform supervised research activities. Teaching Assistants (TAs) may be assigned to assist in the teaching of courses, including grading examinations and papers or teaching laboratory sections. Some RAs independently teach undergraduate courses. TAs and RAs provide 20 hours of service per week. Both assistantships carry a stipend and typically tuition remission for up to 9 credits per term. Applications for assistantships are available from the Department of Epidemiology and Biostatistics and must be submitted by January 10 for the following Fall term. The RA/TA application requires a statement of previous teaching and/or research experience, areas of interest, and future goals; unofficial copies of transcripts; and a curriculum vitae. The department makes offers of assistantships following admission to the program.

**Admission Requirements and Deadlines**

**Application Deadline:**

**Fall:** January 2

All applicants to the Ph.D. in Epidemiology program must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://sophas.liaisoncas.com/.

All application materials must be received by the deadline in order to be reviewed by the Ph.D. Admissions Committee. Admission is competitive, and students are admitted only once a year. Applications are evaluated together after the deadline has passed. Applications that are completed after the deadline are held for review the following year. An important component of the admissions decision is the fit between the applicant's goals, experiences, and interests and the expertise of the faculty in the Ph.D. program.

**Letters of Reference:**

**Number Required:** 3

**From Whom:** Letters of recommendation should be obtained from evaluators who can provide insight into the applicant's academic abilities and talents, as well as comment on the applicant’s aptitude for doctoral-level study and research. Recommendations from college/university faculty members are preferred.

**Coursework Required for Admission Consideration:** Applicants are expected to have completed coursework in Statistics, Research Methods, Epidemiology, and Data Analysis. Courses in Natural, Social, or Behavioral Sciences related to health are desirable.

**Master's Degree in Discipline/Related Discipline:** Nearly all students admitted to the Ph.D. in Epidemiology program have a master's degree. Although a master's degree specifically in epidemiology is not required, preference is given to applicants who have a background in epidemiology, statistics, and the health sciences, including behavioral medicine, environmental health, medicine, or a public health discipline.
Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree is required, although it need not be in public health. Preference is given to applicants who have a background in epidemiology, statistics, and the health sciences, including behavioral medicine, environmental health, medicine, or a public health discipline.

Statement of Goals: In no more than 750 words,
- describe important academic and research achievements and interests, and
- specify how your research interests relate to your ultimate career goals in the field of Epidemiology and to ongoing work by faculty members affiliated with the Ph.D. in Epidemiology program.

The match between faculty and student interests is important in the admissions decision. Be sure to articulate clearly the linkages among your training goals, the expertise of our faculty, and the training emphasis of the Ph.D. program. For a description of faculty interests, visit the Epidemiology and Biostatistics Faculty webpage.

Standardized Test Scores:
GRE: Required. The median score of recently admitted applicants is 153 on the verbal section and 144 on the quantitative section.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:
- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: Current resume required.

Writing Sample: Scholarly articles, technical reports, or academic professional papers are preferred in which the applicant is the first author. Unless it is a published work, the writing sample should be no more than 10 pages.

Advanced Standing: A student enrolled in the Ph.D. in Epidemiology program may apply for advanced standing credits for graduate coursework graded ‘B’ or better from an accredited institution. Credits for courses taken as part of a master’s degree are considered; credits for thesis work, fieldwork, clinical practice, or directed projects/readings cannot be used for advanced standing credit. To be approved for advanced standing, the courses must be deemed appropriate as part of the student’s training in the Ph.D. program. For the maximum number of advanced standing credits awarded, consult the program’s Senior Graduate Advisor.

Total Credit Hours 45

1 This common College Core course is required of all incoming graduate students in the College of Public Health. It is available completely online and designed such that students can complete the modules at their own pace over the course of their degree program.

2 Sample topics for EPBI 5500 include Data Analysis for Computer Packages and Molecular Epidemiology.

3 Students enrolled in EPBI 9998 must take 2 credits each term until the dissertation proposal is approved and filed with the Graduate School.
Students enrolled in EPBI 9999 must take a minimum of 3 credits after approval of the proposal and be enrolled for at least 1 credit each term until the dissertation is defended and filed with the Graduate School.

Culminating Events:
Area Paper:
Prior to sitting for the preliminary examinations, students must write a published or publishable paper in their chosen area. The purpose of the paper requirement is to demonstrate critical and interpretive knowledge in epidemiology, as well as a high proficiency in written communication and a capacity to contribute to generalizable knowledge in the field. The paper can be written in one of a variety of formats, including a systematic review, an empirical paper, or a theoretical piece relevant to the field. The student must be the lead or sole author.

The Director of Graduate Studies determines if the published paper meets the writing requirement. If a student is not submitting a first-authored, peer-reviewed, and published (or in press) article, two faculty reviewers review the paper to assess whether it is of publishable quality. The second reader may not be the student’s advisor. The review is similar to a peer review of a journal article and evaluated as either passing or failing the writing requirement. Students who fail the paper requirement are allowed to submit a revision. The evaluators set a reasonable timeline for doing so, usually within one term.

A student cannot advance to the preliminary examinations without passing the paper requirement. Failure to satisfactorily complete the area paper requirement within the specified time frame can result in dismissal from the Ph.D. program. Students who are entering the Ph.D. program and have already published a peer-reviewed paper related to epidemiology can request to waive this requirement by completing a waiver application and submitting it along with the published document to the Director of Graduate Studies.

Preliminary Examinations (EPBI 9994):
In the term prior to taking the preliminary examinations, students should review their progress with their faculty advisor. To register for EPBI 9994, students must also meet with the Director of Graduate Studies, who can best explain the scope of and process involved in taking the preliminary examinations. The Director of Graduate Studies is charged with reviewing ‘Advising Form 1,’ which describes the student’s program plan, and, in consultation with the Senior Graduate Advisor, reviewing Banner records to determine the student’s eligibility. The Director of Graduate Studies then provides authorization to enroll eligible students for the preliminary examinations. When their eligibility has been confirmed, students must contact the Academic Coordinator and request to be registered for the exam course in the subsequent academic term with the Director of Graduate Studies or faculty advisor.

All students are required to take the preliminary examinations after completion of coursework but prior to registering for EPBI 9998 and defending the dissertation research proposal. Offered in the Fall or Spring term as needed, the preliminary examinations cover the core components of students’ training in epidemiology and biostatistics, as well as the specific area of concentration. The examinations consist of the following components:

- Two separate in-class examinations reflect knowledge of both advanced epidemiological methods and advanced biostatistical techniques.
- One take-home written research examination involves responding to a request for proposal (RFP) and generating an innovative, fully described study design. The RFP is within the student’s research expertise and preapproved by the faculty advisor.
- An oral examination on any and all areas covered in the three examinations and the student’s content concentration is taken before a panel of three faculty members.

The complete process takes approximately seven weeks from the time that the student takes the first examination till s/he completes the oral exam. A typical timeline for the exam process follows:

- Week 1: Six-hour in-class exam I
- Week 2: Six-hour in-class exam II
- Weeks 3-4: Take-home exam with one week to complete. The exact dates for receiving the take-home exam and returning it must be determined by the student and clearly communicated to the Director of Graduate Studies in writing via email. The Director of Graduate Studies is responsible for sending out the exam on the established date, and the student is responsible for returning it via email to the Director. The student must return the exam by the predetermined date.
- Weeks 4-6: Faculty grade all written exams
- Week 7: Oral exam

On occasion, a student chooses to complete a course after or concurrent with taking the preliminary examinations. The student’s faculty advisor and the Director of Graduate Studies must approve such an exception in advance and in writing.

The Director of Graduate Studies coordinates the grading of the preliminary examinations and is responsible for coordinating the scheduling of the oral exam. A committee of departmental faculty members reviews and scores the examinations and evaluates each student’s performance in the oral exam.

Dissertation Proposal (EPBI 9998):
After passing the preliminary examinations, students may enroll in EPBI 9998. Students must be enrolled for 2 credits of EPBI 9998 each term until they file their dissertation proposal with the Graduate School.

All students must form a Doctoral Advisory Committee (DAC) with the approval of the Director of Graduate Studies. The DAC is composed of at least three Graduate Faculty members: two members, including the Chair, must be from the Ph.D. program faculty of the Department of Epidemiology and Biostatistics. The DAC Chair must be approved as Doctoral Graduate Faculty by the Dean of the College of Public Health and by the Graduate School. The chair is responsible for overseeing and guiding the student’s progress; coordinating the responses of the committee members; and informing the student and the Director of Graduate Studies annually of the student’s academic progress. A fourth, external reader is also required at the time of the final dissertation defense. This person must be a member of the Graduate Faculty at Temple or approved by the Dean of the College to take part in the final dissertation examination. This fourth member is not required to be present at the defense of the proposal.

To fulfill the requirements of EPBI 9998, students must submit a dissertation proposal, successfully defend it orally before their committee, apply for IRB approval for the proposed research, and submit the proposal to the Graduate School. Students have a maximum of one year from the time of completing their preliminary examinations to develop and defend their dissertation proposal. Thus, students may enroll in EPBI 9998 for only two terms without permission. Students needing more time may, with the support of their advisor, formally petition the
Director of Graduate Studies for an extension, although an extension is not guaranteed. Failure to meet these requirements can result in dismissal from the program.

Dissertation (EPBI 9999):
The doctoral dissertation is an original theory-based research study that makes a significant contribution to the fields of public health and epidemiology. It should expand existing knowledge and demonstrate the student’s mastery of research design methods and advanced statistical techniques, particularly within the field of epidemiology. The research should be rigorous, while upholding the ethics and standards of the field. It is expected that the study will result in publication and presentation to professional audiences.

To fulfill the dissertation requirement, students must prepare and orally defend the final dissertation in a public meeting. Students should present their plans for publishing their dissertation as part of their defense. Students must be enrolled continuously for at least 3 credits of dissertation research until their dissertation is successfully defended. The Graduate School requires a minimum of 6 credits for the dissertation experience. Students must be enrolled in the term that they graduate.

The Dissertation Examining Committee (DEC) consists of the DAC plus at least one additional external reviewer. The external reviewer must be doctorally prepared. If this person is not a member of the Temple University Graduate Faculty, s/he must be approved by the Director of Graduate Studies, the Dean of the College, and the Graduate School to take part in the final dissertation examination. The DEC evaluates the student’s written dissertation and oral defense, including the student’s ability to articulate orally the research question; methodological approach; primary findings; interpretation of the findings; and implications for theory, research, and practice. The DEC votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

If a student needs to change a member of a committee, the new member must be approved by the Director of Graduate Studies and registered with the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their DEC and work with the Department of Epidemiology and Biostatistics’s administrative assistant to secure a room. This should be done at least one month in advance of the proposed date. The administrative assistant arranges the time, date, and room within two working days. After the time, date, and room are secured, the student must send to the Graduate School a completed ‘Announcement of Dissertation Defense’ form, found in TUportal under the Tools tab within “University Forms.” This must be submitted at least 10 working days before the defense. The department posts flyers announcing the defense, and the Graduate School lists the defense on its website.

Health Informatics, M.S.

COLLEGE OF PUBLIC HEALTH

Learn more about the Master of Science in Health Informatics.

About the Program
Health Informatics is the intersection of healthcare, information science, and computer science. The M.S. in Health Informatics (MSHI) is an innovative, interdisciplinary, applied graduate degree program that addresses the intersection of healthcare and information technology to develop efficient systems, processes, and uses of health data across the continuum of healthcare delivery to improve patient care and advance individual and population health outcomes. The MSHI is focused on the resources, devices, and methods to optimize healthcare delivery. The program helps students develop the competencies and acquire the practical tools to succeed in today’s digital healthcare environment. Current students include physicians, nurses, therapists, data analysts, and information technology and allied health professionals. The degree is also well suited for individuals with no prior healthcare or information technology experience.

The MSHI is available in two delivery options:

- The on-campus format is designed for professional students with evening courses delivered at Temple University City Center (TUCC). Students may enroll full-time or part-time. Students enrolled in the on-campus program may participate in online courses, if dictated by scheduling conflicts or changes in personal circumstances, such as extensive work travel one semester. The on-campus program allows for greater flexibility in selecting program concentrations and exposure to various on-campus transdisciplinary courses.
- The online format is designed for individuals outside the metro Philadelphia region or who travel extensively for professional reasons. Course formats include a mix of asynchronous and synchronous courses with synchronous sessions meeting via online conferencing tools. The program is offered across 7-week terms.
Students enroll in one course per term and complete two courses in the length of a traditional semester. A differential tuition rate is extended to students completing the program online, thereby precluding enrollment in on-campus classes.

Applicants to the MSHI program must choose between the on-campus and online formats when applying and upon acceptance to the program.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Temple University Center City (TUCC) for on-campus study or entirely online

**Full-Time/Part-Time Status:** Full-time or part-time study is available for the on-campus format and part-time for the online format.

**Interdisciplinary Study:** The degree program is interdisciplinary in nature with a focus on inquiry, insight, and innovation. The program builds an awareness of both clinical and technical challenges in the field.

**Accreditation:** The curriculum meets the curricular requirements of the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM), which is the accrediting body of the American Health Information Management Association (AHIMA).

**Areas of Concentration:** The MSHI offers three areas of concentration for on-campus study:

- Cybersecurity for Healthcare Professionals
- Healthcare Data Analytics
- Population Health Management

Concentrations are limited in availability when completing the degree through the online format.

**Job Prospects:** Graduates of the program obtain positions in a variety of healthcare institutions or vendor settings in a wide range of positions such as project manager, electronic health record system implementation specialist, and health data analyst. A number of external organizations, including AHIMA, the American Medical Informatics Association (AMIA), and the Healthcare Information and Management Systems Society (HIMSS), conduct annual surveys of job prospects.

**Non-Matriculated Student Policy:** Students seeking a GRE waiver should consider taking classes on a non-matriculated basis. Non-matriculated students may take a maximum of 9 graduate-level credits. Upon completion of the credits, a student's academic performance is reviewed and a GRE waiver may be granted.

**Transfer Credit:** Graduate-level credits earned at another accredited institution may be evaluated during the application process. The maximum number of graduate credits a student may transfer is 6.

**Financing Opportunities:** Students in the MSHI program are generally working professionals. Therefore, funding for assistantships and academic internships is limited.

### Admission Requirements and Deadlines

**Application Deadline:**
- **Fall:** March 1
- **Spring:** November 1

The application process requires submission through the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://sophas.liaisoncas.com/.

**Letters of Reference:**
- **Number Required:** 3
- **From Whom:** Recommendations should be obtained from faculty and/or professionals familiar with the applicant's academic competence and/or professional work experience.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree or its equivalent, as recognized by Temple University, from an accredited post-secondary institution is required.

For applicants who completed their degree outside of the United States, a World Education Services (WES) course-by-course transcript evaluation is required. This can be requested and submitted through SOPHAS.

**Statement of Goals:** Demonstrate your professional writing ability as you demonstrate your interest in obtaining the degree. Submissions should address the impact of informatics in the field of health and healthcare as well as discuss the impact a graduate degree has on one's career.

**Standardized Test Scores:**
- **GRE:** Required. Quantitative and verbal scores should be in the 50th percentile or above. Official GRE scores should be sent to SOPHAS using code 0151. A student may seek a GRE waiver by demonstrating academic proficiency through the completion of three courses in the program on a non-matriculated basis.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- **TOEFL iBT:** 79 (sent officially to SOPHAS using the SOPHAS-specific TOEFL code of 5688)
- **IELTS Academic:** 6.5
- **PTE Academic:** 53

**Resume:** Current resume required.

### Health Policy and Health Services Research, Ph.D.

COLLEGE OF PUBLIC HEALTH

Learn more about the Doctor of Philosophy in Health Policy and Health Services Research.

### About the Program

The Ph.D. program in Health Policy and Health Services Research is administered by the Department of Health Services Administration and Policy. This program is unique in that it provides students with an opportunity to develop mixed methods research to investigate health policy and its impact on population health, access to care, and reduction in health disparities. The program trains students in the use of qualitative and quantitative research methods using primary data collection and secondary data sets to research the development, implementation, and impact of health policy initiatives. The Ph.D. program in Health Policy and Health Services Research emphasizes health services, economics, and outcomes research as well as healthcare administration and leadership in investigating health disparities, public health interventions, and clinical outcomes as the basis to inform health policy. The program trains students to develop, evaluate, and implement health policy at multiple levels (local, state, national, global) and in both private and public institutional settings. Students in the program work closely with faculty members to explore key public health issues such as improving the quality and outcomes of healthcare services; examining healthcare costs; addressing health disparities; and developing policy initiatives targeting areas of population health, including aging, chronic disease, mental health, risk behaviors, substance use, and violence/injury prevention. The Ph.D. program:

- provides training and experiences that support interdisciplinary learning;
- promotes critical and theory-based problem-solving skills to address public health problems; and
- fosters the development of public health professional values and ethics.

All students in the Health Policy and Health Services Research Ph.D. program complete common core course requirements that include foundational courses in Bioethics, Biostatistics, Epidemiology, Health Behavior, Health Policy, and History of Public Health, and are introduced to critical public health research methods and statistical techniques. Beyond these core courses, students take specialized courses in their
chosen subdiscipline and engage in research and scholarly productivity with faculty members. In addition to in-depth didactic training in cross-disciplinary concepts and methods, the Ph.D. program aims to foster the development of public health professional identities and values in its students. Professional development exercises include conference attendance, departmental colloquia and brown-bag presentations, journal clubs, and professional development workshops. Doctoral trainees are also encouraged to take advantage of professional development opportunities offered by the College of Public Health and Temple University broadly, including special workshops and seminars on grant writing, methods, and teaching. Finally, students learn by working closely with faculty on research and writing papers for publications.

The student experience at Temple University is unique in that opportunities are available to improve community health and reduce public health disparities in one of the largest urban settings in the United States. Many doctoral students collaborate with community-based and healthcare-delivery organizations in Philadelphia while they conduct research projects for their dissertations. The in-person format of the Health Policy and Health Services Research Ph.D. program allows students to work closely with faculty and peers to collaborate on research studies, meet potential mentors and collaborators, develop collegial bonds, and prepare for a future health policy career.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time study is required unless permission is received from the Director of the Ph.D. program.

**Interdisciplinary Study:** Students are encouraged to develop programs of study that are interdisciplinary in nature, involving coursework across departments, schools, and colleges. Research in affiliated units is encouraged.

**Affiliation(s):** A number of centers and programs exist within the College of Public Health, Temple University, and the Temple University Health System that are designed to study, develop, and evaluate interventions aimed at resolving significant public health problems (e.g., addiction, chronic disease care, ethnic and racial disparities in cancer, obesity, tobacco exposure, and violence). These offer opportunities for research placements for doctoral students; assist students in developing papers for publication and presentation at conferences; provide professional socialization; help students define dissertation projects using existing funded studies; and may provide some funding in the form of Research Assistantships.

Faculty and doctoral students also are involved in research with affiliates in the Fox Chase Cancer Center, the Fox School of Business and Management, the Institute on Aging, the Institute on Disabilities, the Lew Klein College of Media and Communication, the Lewis Katz School of Medicine, the Public Health Law Research Program, the School of Podiatric Medicine, and Temple University Health System.

**Accreditation:** The Health Policy and Health Services Research Ph.D. program is fully accredited by the Council on Education for Public Health (CEPH).

**Job Prospects:** Graduates of the Ph.D. program are prepared to become faculty members or researchers in colleges and universities or to hold research and policy-related positions in a wide range of organizations, including health foundations, health systems, pharmaceutical companies, and public health departments.

**Financing Opportunities:** Full-time Ph.D. students generally receive financial support through fellowships or assistantships.

**University-Wide Fellowships:**
University-wide fellowships provide a stipend and tuition for two years of study. The College of Public Health provides assistantships to cover two additional years of study. The Department of Health Services Administration and Policy nominates outstanding applicants for consideration for the following fellowship opportunities:

- Presidential Fellowships are the most prestigious awards. Competition is reserved for only the most outstanding candidates.
- University Fellowships are awarded to outstanding incoming graduate students. These awards are intended to support students who demonstrate outstanding potential for success in their chosen fields.

**College of Public Health Graduate Assistantships:**
Graduate assistantships sponsored by the College of Public Health include the following:

- Research Assistants (RAs) perform supervised research activities. Research assistantships are frequently supported by faculty grant funding, and it is anticipated the RAs will work with faculty members on new and continuing grant proposals and develop both research and grant-writing competencies.
- Teaching Assistants (TAs) may be assigned to assist in the teaching of courses, with activities that include grading examinations/papers or teaching laboratory sections. Some TAs independently teach undergraduate courses. The purpose, however, is to develop competencies in current pedagogies that prepare students for academic teaching careers.

RAs and TAs provide 20 hours of service per week. Both assistantships carry a stipend and typically tuition remission for up to 9 credits per term. Consideration for admission with an assistantship requires a description of research and teaching experience; statement of research and teaching goals; and identification of areas of interest, including identification of potential faculty mentors and articulation of career goals consistent with the mission and purpose of the Health Policy and Health Services Research Ph.D. program. Offers of admission are generally accompanied by a fellowship or assistantship offer. Students with full funding from another source (e.g., government funding) are given full consideration in the admission process. Self-funding is highly discouraged.

Information regarding funding opportunities at Temple can be found on the Graduate School’s website.

**Admission Requirements and Deadlines**

**Application Deadline:**

- **Fall:** January 2

All applicants to the Health Policy and Health Services Research Ph.D. program must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://sophas.liaisoncas.com/.

All application materials must be received by the deadline in order to be reviewed by the Ph.D. Admissions Committee. Admission is competitive, and students are admitted only once a year. Applications are evaluated
together after the deadline has passed. Applications that are completed after the deadline are held for review the following year. An important component of the admissions decision is the fit between the applicant's goals, experiences, and interests and the expertise of the faculty in the Ph.D. program.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from evaluators who can provide insight into the applicant's academic abilities and talents, as well as comment on the applicant's aptitude for doctoral-level study and research. Recommendations from college/university faculty members are preferred.

Coursework Required for Admission Consideration: Applicants are expected to have completed coursework in the natural, social, or behavioral sciences related to health. A course in statistics and in research methods are also desirable. The following prerequisites, which do not count toward the Ph.D., must also be satisfied, either through an M.P.H. degree or course equivalency:

<table>

Master's Degree in Discipline/Related Discipline: Nearly all students admitted to the program have a master's degree. Although a master's degree specifically in Public Health is not required, preference is given to applicants who have a background in the health sciences, including behavioral medicine, environmental health, epidemiology, health communication, health psychology, medicine, or a public health discipline.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree is required, although it need not be in Public Health. Preference is given to applicants who have a background in the health sciences, including behavioral medicine, environmental health, epidemiology, health communication, health psychology, medicine, or a public health discipline.

Statement of Goals: In no more than 750 words:
- identify Health Policy and Health Services Research (HP) as the program for which you wish to be considered and why;
- describe important academic and research achievements and interests; and
- specify how your research interests relate to your ultimate career goals and to ongoing work by faculty members affiliated with the Health Policy and Health Services Research Ph.D. program.

The match between faculty and student interests is important in the admissions decision. Be sure to articulate clearly the linkages among your training goals, the expertise of our faculty, and the training emphasis of the Ph.D. program. For a description of faculty interests, visit the Health Services Administration and Policy Faculty webpage.

Standardized Test Scores:
GRE: Required. The median score of recently admitted applicants is 156 verbal and 149 quantitative.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:
- TOEFL IBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: Current CV required.

Writing Sample: Scholarly articles, technical reports, or academic professional papers are desirable. Unless it is a published work, the writing sample should be no more than 10 pages.

Advanced Standing: A student enrolled in the Health Policy and Health Services Research Ph.D. program may apply for advanced standing credits for graduate coursework graded ‘B’ or better from an accredited institution. Credits for courses taken as part of a master's degree are considered; credits for thesis, fieldwork, clinical practice, or directed projects/readings cannot be used for advanced standing credit. To be approved for advanced standing, the courses must be deemed appropriate as part of the student’s training in the Health Policy and Health Services Research Ph.D. program. The maximum number of advanced standing credits awarded is 30.

Program Requirements

Total Number of Credits Required: 45 (some of which may be in the form of Advanced Standing credit, as determined after matriculation)

Select electives in Health Policy Theory:
- HPM 5016 | Public Health Advocacy
- HPM 5105
- HPM 5500 | Seminar in Current Issues in Public Health
- POLS 8103 | Legislative Behavior

Select electives in Research Methods:
- EP BI 8201 | Structural Equation Modeling

Schools and Colleges  719
The Graduate School requires that students complete a minimum of 6 credits, including HPM 9994, HPM 9998, and HPM 9999. Of the 6 credits, at least 2 credits must be earned at the dissertation phase in HPM 9999.

Culminating Events:

Area Paper:
Prior to completing the Health Policy and Health Services Research Comprehensive Examination, students must write a published or publishable paper in their chosen area. The purpose of the paper requirement is to demonstrate critical and interpretive knowledge in specialized areas of one’s chosen program, as well as a high proficiency in written communication and a capacity to contribute to generalizable knowledge in the field. The paper can be written in one of a variety of formats, including a systematic review, an empirical paper, or a theoretical piece relevant to the field. The student must be the lead or sole author.

The Director of Graduate Studies determines if the paper meets the writing requirement. The review is similar to a peer review of a journal article and evaluated as either passing or failing the writing requirement. Students who fail the paper requirement are allowed to submit a revision. The evaluators set a reasonable timeline for doing so, usually within one term.

A student cannot advance to the Health Policy and Health Services Research Comprehensive Examination without passing the paper requirement. Failure to satisfactorily complete the area paper requirement within the specified time frame can result in dismissal from the Ph.D. program. Students who are entering the Ph.D. program and have already published a peer-reviewed paper related to their programmatic subdiscipline can request to waive this requirement by completing a waiver application and submitting it along with the published document to the Director of Graduate Studies.

Oral Presentation:
Prior to advancing to the Health Policy and Health Services Research Comprehensive Examination, an oral presentation of 30 to 45 minutes is also required. This presentation can focus on the student’s area paper, research experiences, or grant proposal developed in EPBI 8212 Grantsmanship in Health Research. The topic for the oral presentation must be approved by the Director of Graduate Studies prior to scheduling the presentation. The Director of Graduate Studies assists in scheduling the time and location for the oral presentation, which is open to College of Public Health students and faculty. Faculty provide comments about the study after the presentation. The Director of Graduate Studies determines if the oral presentation meets the oral communication requirement. Students who fail the oral presentation requirement are allowed an additional opportunity to demonstrate their oral communication skills in a public oral presentation.

Article Critique:
A third requirement prior to advancing to the Health Policy and Health Services Research Comprehensive Examination is the student’s prepared critique of a published article selected by the Director of Graduate Studies. Questions to be addressed by the critique are provided to the student. This critique is limited to two single-spaced pages with one-inch margins in a font sized at least 11 point. The critique is then reviewed by the Director of Graduate Studies, who decides whether it is approved, rejected, or approved pending revisions.

Health Policy Comprehensive Examination:
After completing the area paper, oral presentation, and article critique requirements, all students are required to successfully complete the Health Policy and Health Services Research Comprehensive Exam prior to defending their dissertation research proposal. The exam should be taken within one term of completing all coursework. The student must register for 1 credit of HPM 9994 Preliminary Examinations in the term in which the examination is taken. To register for HPM 9994, the student must have completed all coursework or be enrolled in final courses in the term in which the examination is taken. The examination cannot be taken until all Incomplete and/or ‘NR’ grades are removed and the area paper, oral presentation, and article critique requirements have been satisfied. Students are required to meet with their advisor and the Director of Graduate Studies before the beginning of the term in which they plan to take the examination to establish eligibility. Special authorization is required to register for HPM 9994.

The Health Policy and Health Services Research Comprehensive Examination is based on a topic chosen by the student and approved by the Director of Graduate Studies. This topic will likely be related to the student’s proposed dissertation topic, and the exam will provide background information for the dissertation. For the examination, the student composes a concise review paper that is no more than six single-spaced pages with one-inch margins in a font sized at least 11 point and addresses the following items:

- Prevalence of the health condition or behavior today and historical trends
- Environmental and social factors impacting the specific topic
- Policy interventions to address the topic
- Systems-level interventions to address the topic
- Existing evidence base to support interventions
- The challenges of translating research into practice

To prepare for the examination, the student meets with her/his advisor and the Director of Graduate Studies to review her/his paper. The role of the advisor is to:

- ensure that the student understands the nature of the exams;
- work with the student to ensure that s/he is adequately prepared for the comprehensive examination; and
• maintain regular communication with the student regarding the comprehensive exam.

The Director of Graduate Studies provides all of the basic information regarding the comprehensive examination. The advisor is a second line of information and is a safeguard to ensure that each student is on track to successfully complete the exam.

**Dissertation Proposal (HPM 9998):**
After passing the Health Policy and Health Services Research Comprehensive Examination, students may enroll in HPM 9998. Students must be enrolled for 1 credit of HPM 9998 each term until they file their dissertation proposal with the Graduate School.

All students must form a Doctoral Advisory Committee (DAC) with the approval of the Director of Graduate Studies. The DAC is composed of at least three Graduate Faculty members: two members, including the chair, must be from the Ph.D. program faculty of the relevant department. The DAC Chair must be approved as Doctoral Graduate Faculty by the Dean of the College of Public Health and by the Graduate School. The Chair is responsible for overseeing and guiding the student's progress; coordinating the responses of the Committee members; and informing the student and the Director of Graduate Studies annually of the student's academic progress.

To fulfill the requirements of HPM 9998, students must submit a dissertation proposal, successfully defend it orally before their Committee, apply for IRB approval for the proposed research, and submit the proposal to the Graduate School. Students have a maximum of one year from the time of completing their Health Policy and Health Services Research Comprehensive Examination to develop and defend their dissertation proposal. Thus, students may enroll in HPM 9998 for only two terms without permission. Students needing more time may, with the support of their advisor, formally petition the Director of Graduate Studies for an extension, although an extension is not guaranteed. Failure to meet these requirements can result in dismissal from the program.

Once the proposal is defended, the student is elevated to candidacy and eligible to register for dissertation credits.

**Dissertation (HPM 9999):**
The doctoral dissertation is an original theory-based research study that makes a significant contribution to the field of Public Health. It should expand existing knowledge and demonstrate the student's mastery of theory and research methods, particularly within a concentration or specialty area. The research should be rigorous, while upholding the ethics and standards of the field. It is expected that the study will result in publication and presentation to professional audiences.

To fulfill the dissertation requirement, students must prepare and orally defend the final dissertation in a public meeting. Students should present their plans for publishing their dissertation as part of their defense. Students must be enrolled continuously in HPM 9999 until their dissertation is successfully defended. The Graduate School requires a minimum of 2 credits of HPM 9999. Students must be enrolled in the term that they graduate.

The Dissertation Examining Committee (DEC) consists of the DAC plus at least one additional external reviewer. The external reviewer must be doctorally prepared. If this person is not a member of the Temple University Graduate Faculty, s/he must be approved by the Director of Graduate Studies, the Dean of the College, and the Graduate School to take part in the final dissertation examination. The DEC evaluates the student’s written dissertation and oral defense, including the student’s ability to articulate orally the research question; methodological approach; primary findings; interpretation of the findings; and implications for theory, research, and practice. The DEC votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

If a student needs to change a member of a committee, the new member must be approved by the Director of Graduate Studies and registered with the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their DEC and work with their department’s administrative assistant to secure a room. This should be done at least one month in advance of the proposed date. The administrative assistant arranges the time, date, and room within two working days. After the time, date, and room are secured, the student must send to the Graduate School a completed ‘Announcement of Dissertation Defense’ form, found in TUportal under the Tools tab within “University Forms.” This must be submitted at least 10 working days before the defense. The department posts flyers announcing the defense, and the Graduate School lists the defense on its website.

COLLEGE OF PUBLIC HEALTH
Learn more about the Master of Public Health in Health Policy and Management.

About the Program

The Master of Public Health in Health Policy and Management (MPH-HPM) is a terminal, professional degree designed to develop professionals in the field of public health and health services delivery who have a clear understanding of the health policy and management of health-related programs, as well as the Triple Aim of managing health of population, improving the patient experience, and reducing systems cost. The MPH-HPM offers optional concentrations in Health Leadership and in Health Policy.

Time Limit for Degree Completion: 4 years

Campus Location: Main for the on-campus M.P.H. program; Online

Full-Time/Part-Time Status: Students can complete the degree program through evening classes and online courses. Full-time students usually complete the program within two academic years. Part-time students usually take three to four years to complete their degree.

Interdisciplinary Study: Interdisciplinary MPH-HPM coursework, research, and interactions are encouraged to give students as broad a perspective as possible to excel in the complex, diverse, and dynamic state of public health. Through associations with the Center for Obesity Research and Education and others, students have access to dozens of faculty at Temple University and additional regional scholars who are actively involved in programs, research, and teaching in public health. Further, as with the other four M.P.H. degree programs offered by the College of Public Health, the M.P.H. in Health Policy and Management can be undertaken as part of these nine dual M.P.H. degree programs:

- D.M.D./M.P.H. with Temple University’s Kornberg School of Dentistry
- D.O./M.P.H. with the Philadelphia College of Osteopathic Medicine
- D.P.M./M.P.H. with the Temple University School of Podiatric Medicine
- J.D./M.P.H. with Temple University’s Beasley School of Law
- M.D./M.P.H. with the Lewis Katz School of Medicine at Temple University
- M.H.A./M.P.H. with Temple University’s Fox School of Business and Management
- M.P.P./M.P.H. with Temple University’s College of Liberal Arts
- M.S. Health Informatics/M.P.H. within the Temple University College of Public Health
- M.S.W./M.P.H. with the Temple University School of Social Work

For more information, visit https://cph.temple.edu/mph/dual-degrees.

Affiliation(s): Locally, the program has long-standing research affiliations with The Food Trust, Fox Chase Cancer Center, Health Federation of Philadelphia, Philadelphia Department of Public Health, Public Health Management Corporation (PHMC), School District of Philadelphia, Temple University Health System, and numerous other community health agencies.

Study Abroad: Short-term intensive study abroad courses are offered as part of the M.P.H. program of study. These courses are offered during the Summer and are open to both undergraduate and graduate students.

Accreditation: The M.P.H. is fully accredited by the Council on Education for Public Health (CEPH). Achieving accreditation in 1985, Temple’s M.P.H. program is one of the longest established accredited programs in community health in the country.

Areas of Specialization: The MPH-HPM offers two concentrations that reflect market needs and expectations in the related areas of health leadership and health policy. Fieldwork in health leadership or in health policy is required as the integrative experience for the program.

Health Leadership: Students who select the concentration in Health Leadership complete four required courses that best fulfill the following competencies with the goal of achieving the Triple Aim:

- Identify and analyze the effects of leadership management styles on organizational performance to ensure a positive patient experience and improve population health.
- Describe financial management and budgeting processes designed to improve financial performance.
- Understand the contribution of information technologies to effective organizational management and improvement of population health.

Health Policy: Students in the Health Policy concentration select courses from a course menu. Only one course constitutes a required course in the concentration: HPM 8014 Comparative Health Policy. Students develop competencies specific to this concentration as follows:

- Health Policy Analysis and Development
- Identification of Population Health Needs and Policy Responses

In addition, a certificate in Global Health is available to all students in the M.P.H. program. Students are able to complete this transcripted concentration by utilizing three elective courses in the general MPH-HPM program for Global Health classes.

Job Prospects: Graduates with an MPH-HPM hold positions in a wide range of health-related settings, including state and local public health departments, federally qualified health centers, hospitals and health systems, community-based organizations, voluntary health agencies, health insurers, clinics, schools, and work sites. Graduates are prepared to assume leadership positions in a variety of health services and public health organizations. Alumni are employed as environmental health specialists, evaluation specialists, healthcare administrators, HIV/AIDS coordinators, infection control coordinators, marketing specialists, prevention specialists, project directors, research directors, senior health educators, and consultants. Virtually all full-time students are placed within three to six months of graduation.

Licensure: Students who complete an M.P.H. at Temple University are eligible to sit for the Certification in Public Health (CPH) exam and the Certified Health Education Specialist (CHES) exam. For information regarding credentialing in public health, see https://www.nchec.org/. Graduates also become eligible for certification and advancement in a number of health professional associations such as the American College of Healthcare Executives.

Non-Matriculated Student Policy: Non-matriculated students are required to speak with an advisor before registering for classes and to obtain the permission of the professor. If accepted to the program, a maximum of three courses may be applied toward the degree program. Exceptions to this policy relate to formal certificate programs.
Financing Opportunities: The College of Public Health and the Department of Health Services Administration and Policy offer a limited number of tuition scholarships to highly qualified applicants.

Limited Teaching Assistantships are available in the College of Public Health. The Graduate School website details the types of graduate student support. Assistantships are awarded on a term or annual basis. The College of Public Health has a limited number of scholarship opportunities available for M.P.H. students. Available scholarships are listed at https://cph.temple.edu/admissions/scholarships. Students may also be eligible for financial support through the Office of Student Financial Services.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1

All applicants to the M.P.H. program must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://sophas.liaisoncas.com/.

Applicants should check their application status on the SOPHAS portal often and inquire directly of SOPHAS about receipt of materials. For other questions, please contact the CPH Office of Admissions at cph@temple.edu or 215-204-5200.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation, which are completed electronically through the SOPHAS system, should be obtained from college/university faculty members familiar with academic competence. If the applicant has been out of school for a long time, please ensure that letters are from professional colleagues and that they address academic abilities, such as writing and research.

Coursework Required for Admission Consideration: Applicants' files are reviewed under graduate coursework in mathematics and/or statistics, social science, and writing.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree is required.

Statement of Goals: In 500 to 1,000 words, address the following questions:

• What are your interests in Health Policy and Management, and why are you planning to pursue an M.P.H.?
• What are your future career goals, and what have you done either academically or professionally to guide your interest in Health Policy and Management?
• What is your leadership philosophy? How effective are you at working on interdisciplinary teams?
• Are there any exceptional circumstances related to previous academic performance that you would like the Admissions Committee to consider?

Standardized Test Scores:
GRE: Required. While the program takes a portfolio approach to admissions, standardized tests provide important insight into quantitative and verbal abilities. Minimum scores are 153 on the verbal section and 144 on the quantitative section.

Standardized tests considered in lieu of the GRE include DAT, GMAT, MCAT, OAT, and PCAT. The LSAT, which is also considered for some M.P.H. specialties, is not accepted when applying for Applied Biostatistics or Epidemiology.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

• TOEFL iBT: 79
• IELTS Academic: 6.5
• PTE Academic: 53

Clearances: The M.P.H. programs require students to complete clinical/field education experiences at facilities both on and off Temple University's campuses. These placements may require criminal background checks, Act 33/34 clearances, and perhaps a drug screen. Placements may also require the student to maintain personal health insurance. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his inability to meet graduation requirements.

Resume: Current resume or CV required.

Transfer Credit: Graduate credits from an M.P.H. program accredited by the Council on Education for Public Health (CEPH) may be transferred into the M.P.H. The credits must be equivalent to coursework offered at Temple, and the grade must be a 'B' or better in order to transfer. The M.P.H. advisor approves the transfer of credits based on a review of course materials provided by the student. The maximum number of credits a student may transfer is 9.

Test Waivers: Graduates with a terminal degree from a U.S. medical school, foreign-trained physicians who have obtained licensure to practice in the United States, and those with a Ph.D. or with an excellent undergraduate record and 7 to 10 years or more of public health or healthcare professional experience may have the GRE requirement waived.

**Internship:** An internship is required as part of a student’s M.P.H. fieldwork. Part-time fieldwork experiences are available for full-time employees.

**Culminating Events:**

*Fieldwork Practicum:*
M.P.H. fieldwork requires a student to synthesize and integrate the knowledge acquired in coursework and other learning experiences and to apply theory and principles in a situation that approximates some aspect of professional practice through an internship or practicum experience with a public health agency, health services organization, or under the supervision of a faculty preceptor. The M.P.H. fieldwork experience serves as the culminating event as required by the Council on Education for Public Health (CEPH), the accrediting body of all U.S. schools of public health, for completion of the Master of Public Health degree. In addition, this culminating experience provides the student with the opportunity to develop expertise in a topic area and to contribute original and independent observations to a body of knowledge.

For the culminating experience to fulfill the requirements of HPM 9289 and HPM 9389, M.P.H. in Health Policy and Management students are expected to complete a fieldwork experience, which enables them to:

- Apply knowledge and methods in planning, leading, organizing, administering, and evaluating systems, programs, and policies to address health problems that impact populations in the context of the multilevel structures (global, national, state, local, community, agency, organization, group, team, dyad).
- Create and communicate a shared vision for a changing future.
- Champion solutions to organizational and community challenges.
- Energize commitment to goals.
- Demonstrate ethical choices, values, and professional practices implicit in public health decisions.
- Consider the effect of choices on community stewardship, equity, social justice, and accountability.
- Commit to personal and institutional development.
- Recognize system-level properties that result from dynamic interactions among human and social systems and how they affect the relationships among individuals, groups, organizations, communities, and environments.
- Monitor and evaluate the performance of organizations and/or policies that address health problems/issues.
- Use the understanding of the policymaking and policy implementation processes to achieve improvements in the health status of populations.
- Describe the attributes of leadership in public health.

A final paper is the required deliverable for the M.P.H. fieldwork requirement. Students must demonstrate their proficiency and the application of theory and principles in the paper and demonstrate mastery of the required competencies during the oral defense. The evaluation of the M.P.H. fieldwork practicum experience, therefore, is integrated into the culminating experience requirement.

Kinesiology/Athletic Training, M.S.

COLLEGE OF PUBLIC HEALTH

Learn more about the Master of Science in Kinesiology.

About the Program

The mission of the post-professional graduate Athletic Training program offered by the Temple University Department of Kinesiology is to expand the applied and experiential knowledge and skills of certified athletic trainers, expand the athletic training body of knowledge, and disseminate new knowledge in the discipline. This program does not allow students to take the Board of Certification exam. Applicants interested in becoming a certified athletic trainer should consider the Master of Science in Athletic Training (M.S.A.T.) degree program.

Time Limit for Degree Completion: 4 years

Campus Location: Main, with at least one course (KINS 8349 Cadaver Anatomy) offered at the Health Sciences Center or School of Podiatric Medicine campus

Full-Time/Part-Time Status: Students are expected to complete their two years of coursework on a full-time basis.

Interdisciplinary Study: Interdisciplinary study is available within the Department of Kinesiology and through other departments in the University.

Ranking: While rankings of individual programs and the department are not conducted in the profession, the programs at Temple University have excellent reputations. The M.S. program was first accredited in 1988.

Accreditation: The post-professional graduate Athletic Training program at Temple University is accredited by the Commission on Accreditation of Athletic Training Education (CAATE).

Areas of Specialization: The Athletic Training concentration in Kinesiology promotes three areas of distinctiveness: athletic training
leadership, brain injury, and evidence-based medicine (EBM) research. These areas are based on program faculty expertise and available facilities.

**Job Prospects:** Job and advanced degree opportunities are posted on the program’s Canvas page and forwarded to students when received by program faculty. All recent graduates of the M.S. program are working in various clinical settings or seeking advanced degrees.

**Licensure:** All students working as certified athletic trainers in the Commonwealth of Pennsylvania need to be licensed by the state. For more information about licensure, see [here](https://www.pals.pa.gov/)

**Non-Matriculated Student Policy:** Non-matriculated students are welcome to take classes in the Department of Kinesiology, assuming they have the requisite knowledge to be successful in the coursework.

**Financing Opportunities:** Assistantship duties include, but are not limited to, working clinically in a high school setting; teaching activity courses in a variety of movement forms and sports; teaching laboratory sections of undergraduate courses such as Biomechanics or Human Anatomy and Physiology; and serving as a research assistant in a research laboratory.

**Admission Requirements and Deadlines**

**Application Deadline:**

**Fall:** March 1

All applicants to the M.S. in Kinesiology with a concentration in Athletic Training must apply via the Athletic Training Centralized Application Service (ATCAS). The system can be accessed at [https://atcas.liaisoncas.com/](https://atcas.liaisoncas.com/). Applications are processed throughout the year as they are received. Admission to this M.S. program is a rolling process such that, beginning in the Fall, applications are reviewed and offers of admission are extended, continuing until the cohort is filled. Thus, it is in the applicant's best interest to apply early.

**Letters of Reference:**

**Number Required:** 2

**From Whom:** Applicants must submit two professional reference letters. Typically, referees are college/university faculty or immediate work supervisor who can provide insight into the applicant's abilities and talents, as well as comment on her/his aptitude for graduate study.

**Bachelor's Degree in Discipline/Related Discipline:** The post-professional graduate Athletic Training program at Temple University is a CAATE-accredited graduate program that is designed to accommodate both BOC-certified athletic trainers and BOC “certification eligible” athletic trainers (i.e., those who graduated from an accredited undergraduate athletic training program). All applicants must present credentials that are the equivalent of the athletic training professional/entry-level degree.

**Statement of Goals:** A statement of one to two pages should be clearly written.

**Standardized Test Scores:**

GRE/MAT: Required. Scores of 150 each are preferred on the verbal and quantitative sections. Occasionally, students with lower totals are accepted if undergraduate work and/or other life experiences suggest a high degree of probability of success in the graduate program. These scores must be reported directly through ATCAS.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Clearances:** The Athletic Training M.S. concentration in Kinesiology requires students to complete clinical/field education experiences at facilities both on and off Temple University's campuses. Students are expected to have current PA certification to practice and are required to have immunization records, a physical exam, criminal background checks, and Act 33/34 clearances. Students may also be required to maintain personal health insurance and have a drug screen. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his ability to meet graduation requirements. The College cannot ensure clinical field placements if the individual fails to meet the requirements or maintain health insurance.

**Interview:** An interview is scheduled at a mutually convenient time between the faculty interviewer(s) and the applicant. Master's applicants interview by telephone or video chat.

**Resume:** Current resume required.

**Transfer Credit:** Relevant graduate courses taken at other accredited universities may be considered for transfer credit to the student's program. The maximum number of credits a student may transfer is 6.

**Program Requirements**

**General Program Requirements:**

**Number of Credits Required Beyond the Baccalaureate:** 36

**Required Courses:**

**Total Credit Hours**: 36

1. One credit of KINS 8300 is taken each of the four academic terms of the program.
2. Students have a choice in how to fulfill 4 of the required 36 credits needed to complete the degree program. They may choose to take 4 credits of KINS 9882 Independent Research under the mentorship of an athletic training faculty member. This cannot be related to the student's master's research project and must be approved by the program director. Alternately, they may register for 1 credit of KINS 9882 and a 3-credit elective.

**Culminating Events:**

**Master's Research Project:**
The master's research project is a mentored research experience that results in an oral and written defense of results. Taken for 3 credits, KINS 9995 Master's Research in Kinesiology is designed to allow students to create and defend an independent research project that may be published and/or presented at the local, state, and/or national level. Evaluation of the project is by a two-person committee as pass/fail.

**Kinesiology/Integrative Exercise Physiology, M.S.**

**COLLEGE OF PUBLIC HEALTH**

Learn more about the Master of Science in Kinesiology.

**About the Program**

Integrative exercise physiology is a subdiscipline of human physiology that focuses on cardiovascular, metabolic, and neuromuscular responses and adaptations to physical activity. Researchers in the field examine how these body systems coordinate to achieve human movement, and how the movement stimulates the body's adaptive processes in these systems.

The Master of Science in Kinesiology with a concentration in Integrative Exercise Physiology trains students in pragmatic understandings of the field of exercise physiology, including in clinical, sport, and research settings. Students learn to develop and implement research-informed training programs and exercise prescriptions in order to promote and improve physical fitness and health in individuals. A strong foundation in biomedical research prepares future researchers and trains future health professionals to employ evidence-based practices in their work. It is these strengths that set Temple University's Integrative Exercise Physiology program apart:

- Renowned faculty, who are internationally recognized experts in their fields.
- Strong research activity, which ensures that graduates of the program are optimally prepared for future research-based academic training and careers in healthcare industries.
- A dynamic urban environment, which provides students with a wide range of opportunities for internships and practical experience in top-tier healthcare systems and rehabilitation centers across the Philadelphia region.
- An interdisciplinary approach to learning, which engages students with faculty and scholars across many disciplines, including athletic training, nursing, physical therapy, and public health, as well as facilitates inter-professional collaboration.

**Time Limit for Degree Completion:** 4 years, but students typically complete the program in 2 years.

**Campus Location:** Main, with classes occasionally offered at Fort Washington. Electives are also offered at the Center City, Ambler, and Health Sciences Center campuses.

**Full-Time/Part-Time Status:** Students are strongly encouraged to complete coursework on a full-time basis.

**Interdisciplinary Study:** Interdisciplinary study is available within the Department of Kinesiology and through other departments in the University.

**Areas of Specialization:** This degree is offered by the Department of Kinesiology in Temple University's College of Public Health. Faculty research emphases within the department include:

- adaptation of tissues to stress and overuse;
- biomarkers associated with sub-concussive cerebrovascular injury;
- exercise addiction;
• human balance and locomotion;
• molecular and cellular mechanisms of cardiovascular and muscle adaptation to exercise;
• neural mechanisms of muscle coordination in human upper extremities;
• sensorimotor, perceptual, and psychological influences on human movement control; and
• sport-related concussion.

Job Prospects: Many graduates of the program apply to research-intensive doctoral programs, such as the Ph.D. in Kinesiology with a concentration in Integrative Exercise Physiology, and ultimately become exercise scientists and clinical researchers. Students interested in clinical practice can pursue careers as clinical exercise physiologists who conduct assessments of patients' cardiovascular, pulmonary, and skeletal muscle systems. Exercise physiologists may work in hospitals and rehabilitation centers as part of a healthcare team, with their work contributing to the identification of disease. Graduates can also pursue roles as personal trainers who work with clients to ensure that they exercise in the most effective and safe ways.

Non-Matriculated Student Policy: Non-matriculated students are welcome to take classes in the Department of Kinesiology, assuming they have the requisite knowledge to be successful in the coursework.

Financing Opportunities: Assistantship duties include, but are not limited to, teaching activity courses in a variety of movement forms and sports; teaching laboratory sections of undergraduate courses such as Biomechanics, Human Anatomy and Physiology, and Physiology of Exercise; serving as a research assistant in a research laboratory; or acting as an administrative assistant to a department administrator.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1

All applicants to the M.S. in Kinesiology with a concentration in Integrative Exercise Physiology must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://sophas.liaisoncas.com/.

Letters of Reference:

Number Required: 3

From Whom: Letters should be obtained from college/university faculty or an immediate work supervisor who can provide insight into your abilities and talents, as well as comment on your aptitude for graduate study.

Coursework Required for Admission Consideration: An academic background in biological sciences, exercise science, kinesiology, or physical education is preferred.

Bachelor's Degree in Discipline/Related Discipline: All applicants must have a bachelor's degree with a minimum cumulative GPA of 3.0.

Statement of Goals: A statement of one to two pages should be clearly written.

Standardized Test Scores:

GRE/MAT: Required. A minimum score of 300 combined on the verbal and quantitative sections of the GRE is preferred. Official GRE scores should be sent to SOPHAS using code 0151.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79 (send officially to SOPHAS using the SOPHAS-specific TOEFL code of 5688)
- IELTS Academic: 6.5
- PTE Academic: 53

Clearances: Students in the Integrative Exercise Physiology M.S. concentration in Kinesiology have the option to complete clinical/field education experiences at facilities both on and off Temple University’s campuses. These placements may require criminal background checks, Act 33/34 clearances, and perhaps a drug screen. Many may also require students to have personal health insurance. Not meeting these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his inability to meet graduation requirements. The College cannot ensure clinical field placements if the individual fails to meet the requirements or maintain health insurance. Additionally, conviction of a misdemeanor, felony, or felonious or illegal act may prevent the individual from becoming credentialed and/or licensed to practice.

Interview: An interview may be required.

Resume: Current resume required.

Transfer Credit: Relevant graduate courses taken at other accredited universities may be considered for transfer credit to the student’s program. The maximum number of credits a student may transfer is 6.

Total Credit Hours: 30

Electives may be taken to tailor graduate coursework to the interests and skills of the student. Approval of the faculty advisor is required to select an elective course.

Students choose from among three options to complete the degree: a thesis, a master's research project, or a clinical practicum. Each option requires the completion of 6 credits, as explained in the section below.

Culminating Events:

**Thesis Option:**
The thesis is designed to demonstrate the student's ability to collect data and present results in a scholarly manner. KINS 9995 Master's Research in Kinesiology is taken for 3 credits, as is KINS 9996 Master's Thesis in Kinesiology. Students schedule a defense with their three-person committee after the thesis advisor has approved the thesis as ready for defense. Overall evaluation is pass/fail, with recommendations for improvements of the thesis offered as a result of faculty review and discussion at the thesis defense.

**Master's Research Project Option:**
The master's research project option is a mentored research experience that may result in a publication or a summary document of the research experience. Taken for 3 credits, KINS 9995 Master's Research in Kinesiology is designed to offer flexibility for students who wish to be actively involved with research, but do not want to engage in research at the level expected for a thesis. Evaluation of the project is by a two-person committee as pass/fail. To earn the 3 other required credits, students in the master's research project option take an additional elective.

**Clinical Practicum Option:**
KINS 9785 Internship in Kinesiology is a 300-hour (6 credits) supervised applied experience. The clinical practicum offers students the opportunity to engage in more applied work. Evaluation of the experience is by the major professor, based on a submitted portfolio of materials completed during the experience.

Kinesiology/Psychology of Movement, M.S.

COLLEGE OF PUBLIC HEALTH

About the Program

This program is not accepting applications for the 2019-2020 academic year.

Kinesiology/Athletic Training, Ph.D.

COLLEGE OF PUBLIC HEALTH

About the Program

In the research-intensive Ph.D. program in Kinesiology with a concentration in Athletic Training, students conduct original scientific inquiry and contribute new knowledge to the disciplines of athletic training and sports medicine. The program is designed for certified athletic trainers who want to use advanced biomedical research methods to evaluate accepted clinical practice and enhance the proficiency of sports injury prevention, treatment, and rehabilitation in physically active populations. Students collaborate with internationally renowned faculty members on innovative research that examines sport-related concussion and sub-concussive head impact. Many students develop their own research agendas in this area. The program's research strengths also include tissue adaptation to stress and overuse, sensorimotor control systems, and sports policy development, among other areas.

These strengths set Temple University's Athletic Training program apart:

- Our unique research-based doctoral program is one of the only programs of its kind in the nation, giving certified athletic trainers unparalleled opportunities to engage in intellectually rigorous research under the guidance and mentorship of expert faculty members.
- Flexibility in shaping one's research interests is made possible through a wide range of elective courses that integrates multiple fields of research. Faculty have expertise in athletic training, physical therapy, public health, and more.
- Preparation for a successful academic career is fostered through mastery of biostatistical and kinesiology research methods, as well as grantsmanship experience that includes identifying funding sources, preparing grant applications, and navigating the application process.
While pursuing the Ph.D., students can also enroll in the Teaching in Higher Education certificate program, offered by Temple University’s Center for the Advancement of Teaching.

**Time Limit for Degree Completion:** 7 years, but students can complete the program in 4 years.

**Campus Location:** Main, with electives also offered at the Health Sciences Center campus.

**Full-Time/Part-Time Status:** Full-time study is required.

**Interdisciplinary Study:** Interdisciplinary study is available within the Department of Kinesiology and through other departments in the University.

**Ranking:** While rankings of individual programs and the department are not conducted in the profession, the programs at Temple University have excellent reputations.

**Areas of Specialization:** This degree is offered by the Department of Kinesiology at Temple’s College of Public Health. Faculty research emphases within the department include:

- adaptation of tissues to stress and overuse;
- biomarkers associated with sub-concussive cerebrovascular injury;
- exercise addiction;
- human balance and locomotion;
- molecular and cellular mechanisms of cardiovascular adaptation to exercise;
- neural mechanisms of muscle coordination in human upper extremities;
- sensorimotor, perceptual, and psychological influences on human movement control;
- sport-related concussion and mild traumatic brain injury;
- shoulder injury research, particularly in professional baseball; and
- policy development in sport.

**Job Prospects:** This Ph.D. program prepares students for research and teaching careers at institutions of higher education and research, including Carnegie I institutions, as well as advanced clinical roles in athletic training and sports medicine. Under the guidance of faculty mentors, students hone a research agenda; prepare publications and present research at national and regional conferences; and develop grantsmanship expertise. These experiences position our doctoral students to be competitive candidates for academic and research careers.

**Non-Matriculated Student Policy:** Non-matriculated students are permitted to take up to 9 credits in the department, provided they have the requisite knowledge to be successful in the coursework.

**Financing Opportunities:** The Department of Kinesiology offers all accepted doctoral students a competitive level of support, including tuition, stipend, and health insurance, for four years. Graduate assistantships sponsored by the College of Public Health include:

- Research assistantships: RAs perform supervised research activities and work with faculty on grant proposals and ongoing research. Through these experiences, students develop both research and grant-writing competencies.
- Teaching assistantships: TAs assist in teaching courses, including grading exams and papers or teaching lab sections. TAs learn current pedagogies that prepare them for academic teaching. They can also receive certification in higher education instruction.

Highly qualified candidates are nominated for university fellowships.

**Admission Requirements and Deadlines**

**Application Deadline:**

- Fall: March 1

All applicants to the Ph.D. in Kinesiology with a concentration in Athletic Training must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://sophas.liaisoncas.com/. Applications are processed throughout the year as they are received. Admission to this Ph.D. program is a rolling process such that, beginning in the Fall, applications are reviewed and offers of admission are extended, continuing until the cohort is filled. Thus, it is in the applicant’s best interest to apply early.

**Letters of Reference: Number Required:** 3

**From Whom:** Letters should be obtained from college/university faculty or an immediate work supervisor who can provide insight into your abilities and talents, as well as comment on your aptitude for graduate study.

**Coursework Required for Admission Consideration:** All applicants must be certified athletic trainers via the procedures specified by the Board of Certification.

**Master’s Degree in Discipline/Related Discipline:** Most applicants have a master’s degree in biological sciences, exercise science, kinesiology, medicine, physical therapy, physiology, or a related field.

**Bachelor’s Degree in Discipline/Related Discipline:** All applicants must have a bachelor’s degree with a minimum cumulative GPA of 3.25 on a 4.0 scale.

**Statement of Goals:** A statement of one to two pages should be clearly written.

**Standardized Test Scores:**

- GRE/MAT: Required. The GRE score must total a minimum of 300 combined on the verbal and quantitative sections. Official GRE scores should be sent to SOPHAS using code 0151.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79 (send officially to SOPHAS using the SOPHAS-specific TOEFL code of 5688)
- IELTS Academic: 6.5
- PTE Academic: 53

**Interview:** An interview may be required.

**Resume:** Current resume required.

**Writing Sample:** This required paper/article should be no more than 15 pages in length. The topic should be relevant to kinesiology, but is otherwise flexible.
Advanced Standing: Students who enter the doctoral program with the master's degree may receive advanced standing toward the Ph.D. degree. The maximum number of advanced standing credits awarded is 9.

Electives: 15

Select courses from the following to complete a minimum of 15 credits:
- EPSY 5529 Tests and Measurements
- EPSY 8827 Experimental Design
- KINS 5202 Biomechanical Skeletal Tissue
- KINS 5311 Physiology of Exercise
- KINS 5312 Exercise and Nutrient Metabolism
- KINS 5313 Exercise and Aging
- KINS 8343 Orthopedics in Athletic Training/Sports Medicine
- KINS 8344 Rehabilitation Methods and Techniques for Sports-Related Injuries
- KINS 9201 Cardiovascular Exercise Physiology
- KINS 9203 Appl Ex Physio-Neuromuscular
- KINS 9204 Cellular Adapt to Exer
- KINS 9401 Psychological Bases of Motor Behavior
- KINS 9402 Psychology of Human Motivation and Development
- KINS 9882 Independent Research
- MEDS 5003 Fundamentals of Biochem
- MEDS 5006 Microbio and Immunology
- MEDS 8004 Macromolecules
- PSY 8041 Factor Analysis and Scaling
- Other KINS electives or graduate courses in other departments 1

Research Courses:

- KINS 9999 Doctoral Dissertation in Kinesiology 3
- Total Credit Hours 45

1 Electives may be taken to tailor graduate coursework to the interests and skills of the student. Approval of two graduate faculty members is required to select an elective course.

Culminating Events:

Preliminary Examination:
All Ph.D. candidates in Kinesiology must complete the preliminary examination, which includes two requirements:

1. successful completion of a set of four questions that examine the doctoral student's competency in her/his subdiscipline, and
2. submission of a research article of publishable quality, as first author, to a refereed journal.

Note that a literature review does not fulfill the second requirement.

Proposal:
The dissertation proposal encompasses the first part of the dissertation: introduction, review of literature, and methodology. It is a substantive document that spells out clearly the rationale for the research, reviews the literature, and precisely identifies the methodology to be used in answering the research problem. The proposal is reviewed and approved by the Doctoral Advisory Committee (DAC), which is composed of three Graduate Faculty members. Two of the DAC members, including the chair, must be Graduate Faculty in the student’s degree program.

Dissertation:
The dissertation represents an original research study that provides a substantive contribution to the literature and is worthy of publication. As such, it is a rigorous examination of a research problem that requires extensive investigation, using quantitative and/or qualitative methodology. The Dissertation Examining Committee (DEC) must include the chair and all members of the DAC and two additional readers, one of whom must be from outside the Department of Kinesiology and not previously involved with the dissertation writing or DAC. The defense is scheduled at the mutual convenience of the student and the members of the DEC. Notice is provided to the College of Public Health, which completes the necessary paperwork to announce the defense date, time, and location. The DEC reviews and discusses the defense. Overall evaluation of pass/fail with recommendations for improvements of the dissertation result.

Kinesiology/Integrative Exercise Physiology, Ph.D.

COLLEGE OF PUBLIC HEALTH

Learn more about the Doctor of Philosophy in Kinesiology.

About the Program

The research-intensive Ph.D. program in Kinesiology with a concentration in Integrative Exercise Physiology trains students to conduct intellectually rigorous biomedical research on physiological responses to exercise and physical activity, specifically at the molecular and cellular levels. Students collaborate with internationally renowned faculty members on research that examines:

- the molecular links between specific types of exercise interventions and disease prevention;
- the precise mechanisms by which exercise promotes whole-body health; and
- the pathogenic processes underpinning cardiovascular, neuromuscular, and metabolic disorders associated with physical activity.

These strengths set Temple University's Integrative Exercise Physiology program apart:

- Exceptional faculty are recognized experts in translational exercise biology, muscle physiology, sensorimotor control systems, and strength and conditioning.
- Top-tier research facilities with state-of-the-art kinesiology and biomedical science research technology ensure students become competitive candidates for postdoctoral training and future research careers.
- Interdisciplinary collaboration provides students with opportunities to establish unique research agendas that integrate expertise from multiple fields of research, such as athletic training, physical therapy, public health, and more.
- Preparation for a successful academic career is fostered through grantsmanship experience that includes identifying funding sources, preparing grant applications, and navigating the application process. While pursuing the Ph.D., students can also enroll in the Teaching in Higher Education certificate program, offered by Temple University’s Center for the Advancement of Teaching.

Time Limit for Degree Completion: 7 years, but students entering with a master’s degree can complete the program in 3 to 4 years.

Campus Location: Main, with classes occasionally offered at Fort Washington. Electives are also offered at the Center City, Ambler, and Health Sciences Center campuses.

Full-Time/Part-Time Status: Full-time study is required.

Interdisciplinary Study: Interdisciplinary study is available within the Department of Kinesiology and through other departments in the University.

Areas of Specialization: This degree is offered by the Department of Kinesiology in Temple University’s College of Public Health. Faculty research emphases within the department include:

- adaptation of tissues to stress and overuse;
- biomarkers associated with sub-concussive cerebrovascular injury;
- exercise addiction;
- human balance and locomotion;
- molecular and cellular mechanisms of cardiovascular adaptation to exercise;
- neural mechanisms of muscle coordination in human upper extremities;
- sensorimotor, perceptual, and psychological influences on human movement control; and
- sport-related concussion.

Job Prospects: The Ph.D. program prepares students for research and teaching careers at institutions of higher education, including Carnegie institutions, as well as in relevant healthcare industries. Under the guidance of faculty mentors, student hone a research agenda; prepare publications and present research at national and regional conferences; and develop grantsmanship expertise. These experiences position our doctoral students to be competitive candidates for postdoctoral training pathways or biomedical scientist job opportunities, which are standard precursors to academic and research careers.

Non-Matriculated Student Policy: Non-matriculated students are welcome to take classes in the department, assuming they have the requisite knowledge to be successful in the coursework.

Financing Opportunities: The Department of Kinesiology offers all accepted doctoral students a competitive level of support, including tuition, stipend, and health insurance, for four years. Graduate assistantships sponsored by the College of Public Health include:

- Research assistantships: RAs perform supervised research activities and work with faculty on grant proposals and ongoing research. Through these experiences, students develop both research and grant-writing competencies.
- Teaching assistantships: TAs assist in teaching courses, including grading exams and papers or teaching lab sections. TAs learn current
pedagogies that prepare them for academic teaching. They can also receive certification in higher education instruction.

Highly qualified candidates are nominated for presidential or university fellowships.

## Admission Requirements and Deadlines

### Application Deadline:

**Fall:** March 1

All applicants to the Ph.D. in Kinesiology with a concentration in Integrative Exercise Physiology must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at [https://sophas.liaisoncas.com/](https://sophas.liaisoncas.com/).

### Letters of Reference:

**Number Required:** 3

**From Whom:** Letters should be obtained from college/university faculty or an immediate work supervisor who can provide insight into your abilities and talents, as well as comment on your aptitude for graduate study.

### Coursework Required for Admission Consideration:

It is preferred that applicants have completed laboratory courses in biology, chemistry, human anatomy and physiology, and physics.

### Master's Degree in Discipline/Related Discipline:

Most applicants have a master's degree in biological sciences, exercise science, kinesiology, medicine, physical therapy, physiology, or a related field.

### Bachelor's Degree in Discipline/Related Discipline:

All applicants must have a bachelor's degree with a minimum cumulative GPA of 3.25 on a 4.0 scale.

### Statement of Goals:

A statement of one to two pages should be clearly written.

### Standardized Test Scores:

**GRE/MAT:** Required. The GRE score must total a minimum of 300 combined on the verbal and quantitative sections. Official GRE scores should be sent to SOPHAS using code 0151.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- **TOEFL iBT:** 79 (send officially to SOPHAS using the SOPHAS-specific TOEFL code of 5688)
- **IELTS Academic:** 6.5
- **PTE Academic:** 53

### Interview:

An interview may be required.

### Resume:

Current resume required.

### Writing Sample:

This required paper/article should be no more than 15 pages in length. The topic should be relevant to kinesiology, but is otherwise flexible.

### Advanced Standing:

Students who enter the doctoral program with the master's degree may receive advanced standing toward the Ph.D. degree. The maximum number of advanced standing credits awarded is 9.

## Program Requirements

### General Program Requirements:

**Number of Credits Required to Earn the Degree:** 45

Kinesiology/Psychology of Movement, Ph.D.

COLLEGE OF PUBLIC HEALTH

About the Program
This program is not accepting applications for the 2019-2020 academic year.

Neuromotor Science, M.S.

COLLEGE OF PUBLIC HEALTH

About the Program
Learn more about the Master of Science in Neuromotor Science.
Kinesiology, Occupational Therapy, Physical Therapy, Rehabilitation Science, and the like, preparing them to:

• advance the science and understanding of neuromotor processes, including assessment and evaluation of movement, neuromotor function and integration, and its impact on movement on health, functioning, and disability; and
• contribute to the development of interventions to improve human movement, particularly posture and locomotor control and function across the lifespan.

Time Limit for Degree Completion: 5 years

Campus Location: Main, Health Sciences Center

Full-Time/Part-Time Status: While full-time study is encouraged at the master's level, this research-focused degree program can be completed in 2 years with full-time study (9 credits per term) or 3 to 4 years if enrolled part-time.

MS NMS students are initially advised by the Program Director during admission and in the first term if an academic advisor has not been identified. Within two terms of matriculation, students are assigned an academic advisor from the core program faculty — or an available Graduate Faculty member with expertise in the student's cognate area, as approved by the Program Director. Students develop an 'Individualized Development Plan of Graduate Studies,' which is reviewed with their advisor every term, and by the NMS Program Director and/or the Program Advisory Committee on an annual basis.

Interdisciplinary Study: Students may use their elective coursework to pursue interdisciplinary study throughout the University. The MS NMS program participates in the interdisciplinary program in Neuroscience at Temple University.

Areas of Specialization: All students complete the same core course requirements, but may focus their elective coursework and research experiences on preparing them for future work in areas related to their specific interests.

Job Prospects: Graduates from the MS NMS degree program are prepared for employment in clinical research, as faculty in professional programs, or in industry positions. In addition, the M.S. degree provides a strong foundation for students to continue their studies at the Ph.D. level.

Non-Matriculated Student Policy: Non-matriculated students may enroll in up to three graduate courses with permission from the NMS Program Director.

Financing Opportunities: Assistantship packages consisting of a stipend, tuition remission, and subsidized health benefits are available. Admission to the MS NMS program does not, however, guarantee financial support. Research and Teaching Assistantships are highly competitive, with awards varying based on faculty-funded areas of research and the teaching needs of the College. Please contact the NMS Program Director for additional information.

Admission Requirements and Deadlines

Application Deadline:
Fall: March 1
Spring: November 1

All applicants to the M.S. in Neuromotor Science program must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://sophas.liaisoncas.com/.

Letters of Reference:
Number Required: 3

From Whom: Letters of recommendation should be obtained from individuals who can speak to the applicant's potential for graduate study. At least one should be from a faculty member who is familiar with the applicant’s academic abilities.

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of a baccalaureate degree at Temple University.

For applicants who completed their degree outside of the United States, a World Education Services (WES) course-by-course transcript evaluation is required. This can be requested and submitted through SOPHAS.

Statement of Goals: A one-page statement articulates why you want to enroll in the MS NMS program at Temple. State your career goals and research interests.

Standardized Test Scores:
GRE: Required. Scores from a test taken within the last 5 years must be at or above the 50th percentile in the verbal and quantitative components, with a score of 4 or higher on the writing component. Official scores should be sent directly to SOPHAS using code 0151.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79 (send officially to SOPHAS using the SOPHAS-specific TOEFL code of 5688)
- IELTS Academic: 6.5
- PTE Academic: 53

Interview: Students may be invited to interview with the program faculty. An interview may take place in person or through technology if costs prohibit travel to Temple.

Resume: Current resume or CV required.

Neuromotor Science, Ph.D.

COLLEGE OF PUBLIC HEALTH

Learn more about the Doctor of Philosophy in Neuromotor Science.

About the Program
The study of human movement, both as an outcome of health and functioning and as a means to understand the mechanisms underlying neuromotor system integration and behavior, is foundational to many health professions. The skills needed to be successful in fields of related study require fluency across the disciplines of engineering, movement science, neuroscience, and rehabilitation. The need exists for rigorously trained scientists with interdisciplinary training in neuromechanics, neurobiology, and biomechanics of the sensorimotor system, and the impact of health conditions, disease, and disability on human movement. Our Neuromotor Science (NMS) program trains scientists to advance the science of neuromotor control and biomechanics of human posture and movement in individuals across the lifespan and spectrum of health and disability levels. The Ph.D. in Neuromotor Science (PhD NMS) program is designed for individuals in the fields of Engineering, Exercise Science, Kinesiology, Occupational Therapy, Physical Therapy, Rehabilitation Science, and the like, preparing them to:

• advance the science and understanding of neuromotor processes, including assessment and evaluation of movement, neuromotor function and integration, and its impact on movement on health, functioning, and disability, and
• contribute to the development of interventions to improve human movement, particularly posture and locomotor control and function across the lifespan.

Time Limit for Degree Completion: 7 years

Campus Location: Main, Health Sciences Center

Full-Time/Part-Time Status: Full-time study is expected. This research-focused doctoral degree program requires 4 to 7 years of full-time study post-baccalaureate or 2 to 3 years of full-time study after completion of the M.S. in Neuromotor Science degree.

PhD NMS students are initially advised by the Program Director during admission and in the first term if an academic advisor has not been identified. Within two terms of matriculation, students are assigned an academic advisor from the core program faculty — or an available Graduate Faculty member with expertise in the student’s cognate area, as approved by the Program Director. Students develop an ‘Individualized Development Plan of Graduate Studies,’ which is reviewed with their advisor every term, and by the NMS Program Director and/or the Program Advisory Committee on an annual basis.

Interdisciplinary Study: Students may use their elective coursework to pursue interdisciplinary study throughout the University. The PhD NMS program participates in the interdisciplinary program in Neuroscience at Temple University.

Areas of Specialization: All students complete the same core course requirements, but may focus their elective coursework and research experiences on preparing them for future work in areas related to their specific interests.

Job Prospects: Graduates of the PhD NMS degree program are prepared for research or teaching/research positions at Carnegie Research I institutions. They are also prepared for employment as faculty members in other academic settings, in clinical research settings, or in industry positions.

Non-Matriculated Student Policy: Non-matriculated students may enroll in up to three graduate courses with permission from the NMS Program Director.

Financing Opportunities: Assistantship packages consisting of a stipend, tuition remission, and subsidized health benefits are available. Admission to the PhD NMS program does not, however, guarantee financial support. Research and Teaching Assistantships are highly
competitive, with awards varying based on faculty-funded areas of research and the teaching needs of the College. Please contact the NMS Program Director for additional information.

Admission Requirements and Deadlines

Application Deadline:

Fall: January 5
Spring: November 1

All applicants to the Ph.D. in Neuromotor Science program must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://sophas.liaisoncas.com/. Applications received after the stated deadlines will be reviewed as space and funding allow.

Letters of Reference:

From Whom: Letters of recommendation should be obtained from individuals who can speak to the applicant’s potential for graduate study. At least one should be from a faculty member who is familiar with the applicant’s academic abilities.

Master’s Degree in Discipline/Related Discipline: A master’s degree is not required.

Bachelor’s Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of a baccalaureate degree at Temple University.

For applicants who completed their degree outside of the United States, a World Education Services (WES) course-by-course transcript evaluation is required. This can be requested and submitted through SOPHAS.

Statement of Goals: A one-page statement articulates why you want to enroll in the PhD NMS program at Temple. State your career goals and research interests.

Standardized Test Scores:

GRE: Required. Scores from a test taken within the last 5 years must be at or above the 50th percentile in the verbal and quantitative components, with a score of 4 or higher on the writing component. Official scores should be sent directly to SOPHAS using code 0151.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

Total Credit Hours 45

1 Each student serves as a Teaching Assistant for one academic term during the degree program. If the student selects the Teaching in Higher Education Seminar as one of the required electives, s/he can then use the Teaching Practicum to complete the Teaching in Higher Education certificate.

2 Electives are chosen from existing 5000, 8000, or higher level courses to provide a cognate area based on the student’s interest in, for example, engineering, kinesiology, neuroscience, psychology, public health, rehabilitation science, or teaching in higher education. The Program Director and faculty advise on and approve the selection of electives.

Culminating Events:

In addition to completing the required coursework, students are expected to complete an area paper, a preliminary written and oral examination, and a dissertation research proposal prepared in the form of a grant proposal. Students are also expected to write and submit an abstract for their research and present that research at a scientific or professional meeting. The dissertation must include a publishable article.

Area Paper:

Prior to the preliminary examination, students must write a paper of publishable quality in their chosen area. Students could enroll in an elective course, a laboratory rotation, or independent study to complete this paper. The paper can be a report of research completed with a faculty member, a systematic review of literature related to the projected area of dissertation work, or a representation of theoretical work. In each instance, the student is expected to be the lead or sole author. Students are encouraged to select and submit the paper for peer review to an appropriate journal, but the publishable quality of the paper will be determined by faculty members with sufficient background in the area to judge the quality of the work. Students who have published a peer-
reviewed paper in a journal as lead author prior to entry into the doctoral program can request a waiver of this requirement.

**Preliminary Examination (NMS 9994):**
All students must pass a preliminary examination prior to defending their dissertation research proposal. This qualifying examination consists of assessment of both didactic knowledge and research skills in neuromotor science. The didactic knowledge portion of the exam consists of a written examination followed by an oral examination of core concepts taught within the core neuromotor science courses. The research skill portion of the exam consists of skills acquired in a research lab presented in a lab practicum format.

**Dissertation Proposal and Defense (NMS 9998):**
In conjunction with the academic advisor and with the approval of the Program Director, each student is expected to identify a Doctoral Advisory Committee. The committee shall be comprised of at least three members. Two of the members shall be from within the Department of Health and Rehabilitation Sciences, and at least one shall be from outside the department. At least two of the three members must hold full Graduate Faculty status.

Students are required to prepare and submit a dissertation proposal and successfully defend it orally in front of their committee. As appropriate, they must obtain IRB approval for their proposed research and submit a copy of the dissertation proposal to the Graduate School. Students are expected to have developed and defended their dissertation proposal within one year of successfully completing their preliminary examination.

Any student who does not adhere to this timeline must petition the Program Advisory Committee for an exception to this requirement. Extensions are not guaranteed. If a student does not receive an extension, her/his case will be considered at the time of the Annual Review of Progress toward the degree. Failure to pass NMS 9998 within one year can result in dismissal from the program.

**Dissertation Research (NMS 9999):**
Students are required to complete and orally defend their dissertation research. Students must be enrolled continuously in NMS 9999 until their dissertation is successfully defended. The Graduate School requires at least 6 credit hours of dissertation coursework. Students must be enrolled in the term that they graduate.

The dissertation must be successfully defended in a public oral defense as determined by the student's Dissertation Examining Committee. This committee evaluates the student's ability to express verbally her/his research question, methodological approach, primary findings, and implications. The Dissertation Examining Committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

Students who are preparing to defend their dissertation must confirm a time and date for the oral defense with their Dissertation Examining Committee at least 15 days before the desired defense date. After the student and department have arranged the time, date, and room for the defense, the student must provide the official announcement to the Graduate School at least two weeks before the defense.

**Nursing, D.N.P.**
COLLEGE OF PUBLIC HEALTH

Learn more about the Doctor of Nursing Practice.

**About the Program**
Graduate nursing education strongly reflects the values and goals of Nursing and the broad mission of Temple University. The D.N.P. program prepares graduates to provide primary care for individuals, families, and communities grounded in evidence-based practice and research. Embedded in the program is the social context of health systems, health policy, and health economics and their impact on the individual, family, and community. Students are prepared to provide direct primary care to individuals across diverse settings and indirect administration of systems of care, as well as to participate in the development and implementation of health policy. The D.N.P. program expands students’ scope of practice while maintaining a clinical primary care focus. Through integration of the educator, clinician, and research roles, faculty work with D.N.P. students to cultivate the value of evidence-based clinical practice and its potential impact on individuals, groups, and communities.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Health Sciences Center

**Full-Time/Part-Time Status:** Classes are offered between 8:00 a.m. and 7:30 p.m. on Wednesdays throughout the year. Summer courses are included as a part of the curriculum. Full-time enrollment in the program is preferred.

**Accreditation:** The baccalaureate degree in nursing and Doctor of Nursing Practice degree at Temple University are accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington, DC 20036, 202-887-6791.
Areas of Specialization: Two concentrations are offered in the post-baccalaureate option: Adult-Gerontology Primary Care and Family-Individual Across the Lifespan. A post-master’s option is available for those who hold an earned master’s degree in nursing.

Job Prospects: Graduates of the program are employed in a variety of diverse settings, including both outpatient settings affiliated with hospitals and outpatient primary care clinics.

Licensure: Professional Nurse Licensure (R.N.) is required in Pennsylvania and either New Jersey or Delaware for post-B.S.N. applicants. R.N. licensure is also required of post-master’s applicants. For more information about licensure, see https://www.ncsbn.org/contact-bon.htm.

Non-Matriculated Student Policy: Non-matriculated students can take a total of 6 graduate credits prior to matriculation, although they must submit a complete application before registering for their second course. Only the following courses may be taken while a non-matriculated student:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

<td>Biostatistics</td>
<td>3</td>
</tr>
<tr>
<td>NURS 5501</td>
<td>Theories for Advanced Practice Nursing of Families and Individuals</td>
<td>3</td>
</tr>
</tbody>
</table>

Financing Opportunities: Funds are available to matriculated students. Students are required to complete a scholarship application annually to be eligible for funding.

**Admission Requirements and Deadlines**

**Application Deadline:**

*Fall: March 1*

All applicants to the D.N.P. in Nursing program must apply via the Centralized Application Service for Nursing Programs (NursingCAS). The system can be accessed at https://www.nursingcas.org/.

**Letters of Reference:**

*Number Required: 2*

*From Whom:* Letters of recommendation should assess the applicant’s ability to work independently, academic and scholarly performance, analytical thinking and aptitude for advanced study, commitment to urban health, communication skills, and professional contributions. Authors should indicate how long they have known the applicant and in what capacity.

**Coursework Required for Admission Consideration:** Two admission options are offered for the D.N.P. program:

- Direct entry from the B.S.N. – Post-baccalaureate applicants choose between two concentrations: Adult-Gerontology Primary Care and Family-Individual Across the Lifespan. Candidates who apply for post-B.S.N. entry must have earned a baccalaureate degree in Nursing with a GPA of 3.0.
- Post-Master’s – Applicants to the post-master’s D.N.P. program must have an earned master’s in Nursing and are required to complete a total of 1,000 clinical practicum hours. Students admitted beginning Fall 2018 may apply up to 500 hours earned during their master’s program toward the 1,000-hours requirement. Hours required for national certification may also be applied. Evaluation and verification of hours is required prior to formal admission to the program.

**Bachelor’s Degree in Discipline/Related Discipline:** All applicants must present credentials that are the equivalent of a baccalaureate degree at Temple University. Official transcripts for all undergraduate and graduate institutions attended must be submitted.

For applicants who completed their degree outside of the United States, a World Education Services (WES) course-by-course transcript evaluation is required.

**Statement of Goals:** A 500- to 1,000-word statement of purpose articulates your background, academic and professional goals, and how your interests relate to the D.N.P. program at Temple.

**Standardized Test Scores:**

*GRE/MAT:* Required for those who enter post-B.S.N, but waived for those who enter post-master’s. Scores are expected to be at or above the 50th percentile. Official GRE scores should be sent directly to NursingCAS using code 4033. To qualify for a waiver of the GRE or MAT requirement, the applicant must have:

- an undergraduate GPA of 3.5 or greater,
- a cumulative GPA of 3.5 in three graduate core courses if the undergraduate GPA is less than or equal to 3.49, or
- a graduate degree in another discipline.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79 (send officially to NursingCAS using the NursingCAS-specific TOEFL code of B506)
- IELTS Academic: 6.5
- PTE Academic: 53

**Clearances:** The Nursing D.N.P. program requires students to complete clinical/field education experiences at facilities both on and off Temple University’s campuses. These placements require criminal background checks, including Pennsylvania state criminal background check for employment, Pennsylvania state child abuse clearance, FBI fingerprinting clearance, and drug screen. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his inability to meet admission/graduation requirements. Additionally, conviction of a misdemeanor, felony, or felonious or illegal act may prevent the individual from becoming credentialed and/or obtaining Advanced Practice Nursing approval. Students also need a physical examination, proof of required immunizations, annual influenza vaccines, vaccination, Quantiferon testing, CPR certification, and personal health insurance. Students who do not comply with the required health and immunization requirements will not be permitted to attend clinical and may be dismissed from the Nursing program.

**Interview:** An interview conducted by the Nursing Graduate Faculty may be scheduled only when all required materials have been submitted by the applicant.

**Resume:** Current professional resume required.

**Transfer Credit:** Up to 6 graduate credits from an accredited institution may be transferred into the D.N.P. program. A transferred course must
be equivalent to coursework offered at Temple, and the grade must be a 'B' or better to transfer. The decision is made by the Director of Graduate Programs in conjunction with the appropriate faculty member.

**Other:** Copies of the applicant's current nursing licenses must be provided with the application.

### Program Requirements

**General Program Requirements:**

*Number of Credits Required to Earn the Degree:* 68 for the post-baccalaureate concentrations in Adult-Gerontology Primary Care or Family-Individual Across the Lifespan; 37 for students entering post-master’s

**Required Courses:**

1. Completion of HRPR 8960 Innovation, Technology and Teaching in Higher Education (3 s.h.) and HRPR 8985 Teaching in Higher Education: Health Professions (3 s.h.) earn the student the 6-credit graduate certificate in Teaching in Higher Education, which prepares graduates of the D.N.P. program to teach at the college level.

2. A total of 1,000 clinical hours is required to complete the degree. Hours are divided across five courses as shown.

3. NURS 9677 Primary Care of the Elderly II Theory is taken for the concentration in Adult-Gerontology Primary Care (AGPC), while NURS 9777 Primary Care of Children and Youth Theory is taken for the concentration in Family-Individual Across the Lifespan (FIAL).

4. NURS 9687 Primary Care of the Elderly II Practicum is taken for the concentration in Adult-Gerontology Primary Care (AGPC), while NURS 9787 Primary Care of Children and Youth Practicum is taken for the concentration in Family-Individual Across the Lifespan (FIAL).

Interdisciplinary Study: Community and fieldwork experiences offer information about state licensure, see https://www.aota.org/Advocacy-licensure.aspx. Additionally, practitioners must abide by specific requirements as determined by individual states. For more information about state licensure, see https://www.aota.org/Advocacy-licensure.aspx.

Time Limit for Degree Completion: 2.5 years

Campus Location: Contact the Academic Coordinator at otadmissions@temple.edu for information.

Full-Time/Part-Time Status: Full-time study is required.

Interdisciplinary Study: Community and fieldwork experiences offer students the opportunity to interact, communicate, and collaborate with clients, families, and other disciplines.

Affiliation(s): Local, regional, and national community and fieldwork affiliations are available.

Ranking: In the 2017 edition of U.S. News and World Report, Temple University's Occupational Therapy program is ranked 32.

Accreditation: The M.O.T. program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE®):

Accreditation Council for Occupational Therapy Education (ACOTE®): American Occupational Therapy Association, Inc.
4720 Montgomery Lane, Suite 200
Bethesda, MD 20814-3449
Voice: 301-652-2682
Fax: 301-652-1417
E-mail: accred@aota.org

Areas of Specialization: The Temple University Occupational Therapy program prepares graduates to be entry-level practitioners in any area of service delivery.

Job Prospects: As of 2016, the U.S. Bureau of Labor Statistics projects a 24% growth in occupational therapy until 2022, much higher than average for all jobs.

Licensure: Graduates of the M.O.T. program are eligible to take the National Board for Certification in Occupational Therapy (NBCOT) examination leading to the designation Occupational Therapist, Registered (OTR). Additionally, practitioners must abide by specific licensure requirements as determined by individual states. For more information about state licensure, see https://www.aota.org/Advocacy-Policy/State-Policy/Licensure.aspx.

Non-Matriculated Student Policy: M.O.T. coursework is available only to full-time matriculated students.

Financing Opportunities: Financial aid is available to students. For information, please contact the Office of Student Financial Services at sfs@temple.edu or 215-204-2244.

Admission Requirements and Deadlines

Application Deadline:

Summer II: February 1

All applicants to the M.O.T. program must apply via the Occupational Therapist Centralized Application Service (OTCAS). The system can be accessed at https://otcas.liaisoncas.com/ . Applications are processed throughout the year as they are received. Admission to the M.O.T. program is a rolling process such that, beginning in the Fall, applications are reviewed and offers of admission are extended, continuing until the cohort is filled. Thus, it is in the applicant's best interest to apply early to this highly competitive degree program.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from evaluators, typically college/university faculty or an immediate work supervisor, who can provide insight into the applicant's aptitude for graduate study. These letters are to be submitted electronically at https://otcas.liaisoncas.com/.

Coursework Required for Admission Consideration: Required coursework includes:

- Introduction to Psychology
- Introduction to Sociology or Cultural Anthropology (1000-level course, not a 2000- or 3000-level course)
- Anatomy with lab and Physiology (1000-level course, which can be taken separately or as a combined sequence (e.g., Anatomy and Physiology I with Anatomy lab, or Anatomy and Physiology II). The lab must include human muscular and skeletal anatomy.
- Developmental Psychology or Lifespan Development, which must include a lifespan perspective of development. Two developmental psychology courses in two different life phases are accepted (either child/youth and adult/older adult).
- Abnormal Psychology or Psychopathology
- Statistics, Biostatistics, or Research Methods

Without exception, grades earned in prerequisite courses must be a 'B-' or better for consideration in an application. Prerequisites are not required to have been taken while an undergraduate. The courses may be completed at a local community college or any accredited institution of higher education. AP or CLEP courses are not accepted for prerequisites, except for Introduction to Psychology with a score of 4 or higher. Science courses must be four credits. Prerequisites may be in progress at the time of the initial application, but must be completed and verified on one's OTCAS application by February 1 of the year for which application is made.

Bachelor's Degree in Discipline/Related Discipline: Without exception, the February 1 deadline for OTCAS transcript and course verification must be met. If you have questions regarding transcript and course verification, contact OTCAS directly. A baccalaureate degree in any discipline is acceptable for applying to Temple University's Occupational Therapy program as long as the required prerequisites...
are successfully completed with a grade of 'B-' or better. No particular undergraduate program of study is required for occupational therapy.

**Statement of Goals:** The education and practice of occupational therapists demand a great deal of mental flexibility, creativity, teamwork, and service to others. The personal statement, which is submitted at https://otcas.liaisoncas.com/, should reflect your capacity to engage in the rigorous demands of professional graduate occupational therapy education and practice.

**Standardized Test Scores:**
MAT or GRE: Scores are expected in the top 50th percentile.
Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 100
- IELTS Academic: 7.0
- PTE Academic: 68

**Clearances:** The Occupational Therapy M.O.T. program requires students to complete clinical/field education experiences at facilities both on and off Temple University’s campuses. These placements require a physical examination, immunization records, criminal background checks, Act 33/34 clearances, DHS fingerprinting, Healthcare Provider CPR certification, proof of personal health insurance, an annual influenza vaccine, and perhaps a drug screen. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his inability to meet graduation requirements. Additionally, conviction of a misdemeanor, felony, or felonious or illegal act may prevent the individual from becoming credentialed and/or licensed to practice occupational therapy.

**Culminating Events:**

**Intensive Fieldwork Practicum:**
Students may be required to travel up to 90 minutes from their place of residence to a Level I or II clinical site.
Level I: Students participate in a variety of Level I fieldwork experiences that are largely local. However, opportunities do exist for international Level I field experiences.

Level II: Two 12-week supervised full-time fieldwork experiences are required for degree completion. Level II fieldwork must be completed within 24 months of successful completion of all academic courses. Students are assigned to Level II fieldwork either locally or in another state. No international Level II fieldwork experiences are available.

Occupational Therapy, O.T.D.

COLLEGE OF PUBLIC HEALTH

Learn more about the Clinical Doctorate in Occupational Therapy.

About the Program

The Clinical Doctorate in Occupational Therapy (O.T.D.) is a post-professional non-research-based doctorate in occupational therapy. It establishes advanced clinical expertise and leadership in the practice of occupational therapy. The objectives of the program are to create:

- Occupational therapists who use, promote, and advance client-centered and evidenced-based practices.
- Broad thinkers who see occupational therapy’s role as promoting a person’s participation in society in consideration of societal needs, policy, and trends.
- Inspired scholarly thinkers who can bring clinically relevant and fresh perspectives to a situation.
- Innovators and leaders who can enact individual action and social reform to foster productive and meaningful living.

The O.T.D. program is offered in a flexible-distance education format with two to three on-campus sessions per year. Students are required to attend the on-campus sessions to launch and wrap up the coursework. Orientation, advisement, and introductions to faculty are also provided during on-campus sessions.

Time Limit for Degree Completion: 4 years, but the average student can complete the program in 2 to 3 years

Campus Location: Online, with on-campus experiences taking place at Temple University's Main Campus

Full-Time/Part-Time Status: The degree program must be completed on a full-time basis.

Affiliation(s): Students complete field studies and capstones in various settings depending on the nature of the study, as determined by the faculty advisor and student.

Ranking: In the 2017 edition of U.S. News and World Report, Temple University's Occupational Therapy program is ranked 32.

Accreditation: Temple University is accredited by the Middle States Commission on Higher Education, which is an institutional accrediting agency recognized by the U.S. Secretary of Education and the Council for Higher Education Accreditation.

Job Prospects: As of 2016, the U.S. Bureau of Labor Statistics projects a 24% growth in occupational therapy until 2022, much higher than average for all jobs.

Licensure: Applicants of the O.T.D. program must be certified and licensed occupational therapists.

Non-Matriculated Student Policy: O.T.D. coursework is available only to matriculated students.

Financing Opportunities: Financial aid is available to students. For information on financial aid, please contact the Office of Student Financial Services at 215-707-2667.

Admission Requirements and Deadlines

Application Deadline:
Fall: July 1

To apply for the O.T.D. program, the applicant must be a licensed Occupational Therapist.

All applicants apply via the Occupational Therapist Centralized Application Service (OTCAS). The system can be accessed at https://otcas.liaisoncas.com/. All application materials listed below are required to be sent directly to OTCAS:

1. Official academic transcripts are required from all undergraduate and graduate institutions attended.
2. Two professional/academic letters of recommendation are required.
3. A statement of goals is required and must be a minimum of one page in length. This personal statement reflects your capacity to engage in rigorous graduate education and practice and should inform on your capacity for mental flexibility, creativity, teamwork,
contribution to a learning environment, and service to others. Your statement must include a reflection of your alignment with Temple’s Occupational Therapy mission, philosophy, and values. In addition, you must identify an area of interest you might pursue in clinical doctorate studies and describe a current OT faculty member’s scholarly areas and capacity to advise in your area of interest. Submit the personal statement as part of the online application; a formatted copy may also be sent via e-mail to otadmissions@temple.edu.

4. A professional writing sample is required, which may include either a previously published article or an academic paper from previous coursework. If you do not have a professional writing sample, you may write a brief professional paper, one to two pages in length, based on a clinical question provided to you by the O.T.D. program.

5. A current resume is required.

6. A copy of your current state OT license must be submitted.

7. Standardized test scores:
   - GRE scores are required only if the applicant’s cumulative GPA for the master’s degree is below 3.0. Scores in the 50th percentile or higher are preferred on the verbal and quantitative sections. Submit GRE scores to Temple University OTCAS using code 1239.
   - For applicants whose native language is not English, TOEFL scores must be reported. The acceptable minimum is 79 iBT or 550 PBT.

Questions about the application process should be directed to Occupational Therapy Admissions at otadmissions@temple.edu or 215-204-7213. International students are advised to first visit https://grad.temple.edu/admissions/international-applicants for general information about applying to Temple University.

**Post-Baccalaureate Certificate in Occupational Therapy:** Students with a Bachelor in Science in Occupational Therapy (B.S.O.T.) are eligible to apply to the O.T.D. program following successful completion of an 8-credit Post-Baccalaureate Certificate in Occupational Therapy, as well as a Statistics or Biostatistics course prior to admission. Four courses are required to earn the Post-Baccalaureate Certificate in Occupational Therapy and are offered in a hybrid format of online and in-person classes:

Total Credit Hours: 8

Additional information on the Post-Baccalaureate Certificate in Occupational Therapy is available by contacting Occupational Therapy Admissions at otadmissions@temple.edu.

**Bachelor’s Degree in Discipline/Related Discipline:** All applicants must have earned a baccalaureate degree.

**Clearances:** The Occupational Therapy program requires students to complete clinical/field education experiences at facilities both on and off Temple University’s campus. These placements require criminal background checks, Act 33/34 clearances, and perhaps a drug screen. The results of these requirements may limit and potentially eliminate placement options for the student, which can, in turn, result in an inability to meet graduation requirements. Additionally, conviction of a misdemeanor, felony, or felonious or illegal act may prevent the student from becoming credentialed and/or licensed to practice occupational therapy.

1 This common College Core course is required of all incoming graduate students in the College of Public Health. It is available completely online and designed such that students can complete the modules at their own pace over the course of their degree program.

2 Consult with your faculty advisor when choosing electives.

3 If not completed by the Fall term of Year 2, the third elective is taken in the Spring term of Year 2.
It is recommended that students complete the O.T.D. program by taking two courses and an elective per term. In this format, students can complete the degree program over five terms and within two years. Students develop a professional development plan at the beginning of the program to guide them through the curriculum.

Culminating Events:

Capstone Project:
Students are assigned a faculty advisor to guide the capstone experience over a series of academic terms: OTHR 8902 Capstone Project Inquiry, OTHR 8903 Capstone Project Proposal, OTHR 8904 Capstone Project Implementation, and OTHR 8905 Capstone Project. Outcomes from the Capstone Project are expected to be disseminated through presentations or publications and/or to be incorporated into clinical practice. An on-campus Capstone Presentation Day is scheduled in the final Spring term.

Physical Therapy, D.P.T.

COLLEGE OF PUBLIC HEALTH

Learn more about the Doctor of Physical Therapy.

About the Program

Physical therapy is a healthcare profession with a purpose to promote human health and function by applying evidence to identify, assess, remediate, or prevent human movement dysfunction. Physical therapists are concerned with the physical well-being of their clients and patients, and recognize the need to understand and respond to the sociocultural beliefs of the person and family receiving physical therapy services. They accept full responsibility for the patients or clients in their care and for the development of their profession.

The mission of the Doctor of Physical Therapy program is twofold:

• Provide the opportunity for individuals from diverse cultural backgrounds to enter the physical therapy profession.
• Prepare physical therapy practitioners to meet the health care needs of society.

Time Limit for Degree Completion: 5 years

Campus Location: Main

Full-Time/Part-Time Status: All required courses in the Doctor of Physical Therapy program are offered weekdays on a full-time basis.

Accreditation: The D.P.T. program is accredited by the Commission on Accreditation of Physical Therapy Education (CAPTE) through 2025.

Job Prospects: Graduates with the D.P.T. degree are poised to meet the demand for physical therapy services for an increasing diverse population in acute care centers, independent outpatient orthopedic clinics, rehabilitation centers and clinics, skilled care facilities, and sports medicine clinics.

Licensure: For more information about state licensure, see https://www.fsbpt.org/Free-Resources/Licensing-Authorities-Contact-Information.

Non-Matriculated Student Policy: Only matriculated students may enroll in D.P.T. coursework.

Financing Opportunities: Contact the Doctor of Physical Therapy program for information.

Admission Requirements and Deadlines

Application Deadline:

Summer I:
• July 5 - Application Cycle Opens
• November 1 - Application Cycle Ends

All applicants to the D.P.T. program must apply via the Physical Therapy Centralized Application System (PTCAS). The system can be accessed at https://ptcas.liaisoncas.com/. It is recommended that the PTCAS application be completed by early October so PTCAS has ample time to fully verify the application, which must be done prior to review by Temple University.

Letters of Reference:
Number Required: 2

From Whom: Letters of recommendation should be obtained from individuals who can judge the applicant's ability to succeed in a professional graduate program in Physical Therapy. Individuals typically positioned to provide such assessment include university faculty members, physical therapy clinicians, and employers. One reference must be from a physical therapist who can provide perspective on your ability as a student and future physical therapist. The second letter of reference must be from an academic professor who can provide an assessment of your ability to succeed with the academic rigor of a doctoral-level program. Notify the references to expect an online reference form from PTCAS once you begin the application process.

Coursework Required for Admission Consideration: Applicants must complete 10 prerequisite courses totaling 37 credits with a minimum
cumulative GPA of 3.0 and no grades below a ‘C’ (2.0). An applicant is permitted to apply with 6 of the 10 required prerequisite courses completed. If outstanding coursework exists, the admitted student must provide proof that s/he earned sufficient grades in all courses upon completion. Pass/fail for prerequisite courses is not acceptable. Laboratories for science-based courses should not be online, but rather in-person traditional laboratories. Online lecture components are acceptable.

Master’s Degree in Discipline/Related Discipline: A master’s degree is required.

Bachelor’s Degree in Discipline/Related Discipline: All applicants must possess a completed baccalaureate degree in any discipline with a minimum GPA of 3.0 on a 4.0 scale or be designated as matriculating in an internal articulation agreement (i.e., Temple 3+3 applicant) between approved undergraduate departments at Temple University and the Doctor of Physical Therapy program.

Statement of Goals: Three essay opportunities are presented within the PTCAS application for the applicant to respond to program and profession-specific questions.

Standardized Test Scores:
GRE: Required. Scores from the test taken within the last 5 years should be in the 50th percentile on at least two of the three test sections (verbal, quantitative, and analytical). It is recommended that applicants have a GRE score for all three sections that are at or near the averages for admitted students.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Clearances: The Physical Therapy D.P.T. program requires students to complete clinical/field education experiences at facilities both on and off Temple University’s campuses. These placements require criminal background checks, Act 33/34 clearances, and perhaps a drug screen. Placements also require the student to maintain personal health insurance. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his inability to meet graduation requirements. Additionally, conviction of a misdemeanor, felony, or felonious or illegal act may prevent the individual from becoming credentialed and/or licensed to practice physical therapy.

Physical Therapy Observation Hours/Experience: In the interview process, applicants are expected to demonstrate physical therapy professional experience/knowledge either through unpaid volunteerism or a paid clinical position. It is recommended that an applicant seek out service and leadership opportunities and have completed observation/volunteer hours in a variety of physical therapy settings. No minimum number of hours is required, but it is recommended that applicants consider a sufficient number of hours to ensure they have an understanding of that area of the profession.

Interview: Qualified applicants are invited to interview with faculty and students of the D.P.T. program. Virtual interviews are available when travel costs are prohibitive.

Program Requirements

Courses are taken for 12 weeks, spanning the Summer I and II terms.  
2 PHTH 9185 is taken for 12 weeks, spanning the Summer I term ending Year 2 and the Summer II term beginning Year 3.  
3 Six weeks of clinical education (PHTH 9285) follows ten weeks of the coursework identified above.  
4 Begun in the Fall term of Year 3, PHTH 9285 extends into the Spring term for six additional weeks.  
5 Immediately following conclusion of PHTH 9285 Clinical Experience 2, PHTH 9385 is taken for the remaining 12 weeks of the Spring term.

6 This common College Core course is required of all incoming graduate students in the College of Public Health. It is available completely online and designed such that students can complete the modules at their own pace over the course of their degree program.

Culminating Events:
Clinical Experiences:
Three full-time clinical experiences are required over the course of the degree program. Additionally, beginning in the Fall term of Year 1 and throughout Year 2, five part-time clinical experiences allow students to practice and apply current didactic skills with a variety of patient populations.

The full-time clinical experiences include:

- PHTH 9185 Clinical Experience 1, taken for 8 credits over 12 weeks in the Summer term between Years 2 and 3.
- PHTH 9285 Clinical Experience 2, taken for 8 credits over 12 weeks beginning in the Fall term of Year 3 and extending into the Spring term of that same academic year.
- PHTH 9385 Clinical Experience 3, taken for 8 credits over 12 weeks immediately following completion of PHTH 9285 Clinical Experience 2.

Practice Project and Comprehensive Patient Evaluation:
Several didactic and psychomotor assessments are offered throughout the curriculum to ensure student preparedness and clinical readiness. In the Fall term of Year 3, each student participates in a mentored evidence-based practice project and completes a comprehensive practical evaluation.

Recreational Therapy, M.S.

COLLEGE OF PUBLIC HEALTH

Learn more about the Master of Science in Recreational Therapy.

About the Program

The 36-credit online M.S. in Recreational Therapy is designed for individuals who want to advance their knowledge and skills related to evidence-based practice within healthcare and human services. The curriculum teaches from a conceptual model of health promotion and rehabilitation and maintains a lifespan perspective in three core areas: health, disability, and leisure. The primary focus of academic and clinical preparation is on training recreational therapists to use play, recreation, and leisure to achieve and maintain goals related to health promotion, rehabilitation, and full participation in an active, meaningful life. Specialization coursework can be used to meet advanced certification.

The faculty utilize contemporary educational and learning technologies to impart the most current cutting-edge practitioner and leadership skills central to today’s healthcare and human service provision. This is done while maintaining the timeless concepts of health, recreation, and leisure as that is what drives the human spirit. The online M.S. in Recreational Therapy program is designed for those who strive to be leaders in recreational therapy and share a drive to improve the lives of others while harnessing the value inherent in, and benefits derived from, recreational activities.

Time Limit for Degree Completion: 4 years

Campus Location: Online, with a combination of asynchronous components (discussion boards and other assignments completed by students on their own time) and synchronous components (web conference–based live class discussions, chat rooms, and video meetings)

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis.

Interdisciplinary Study: Interdisciplinary study is encouraged and may be geared toward the student’s personal interests (e.g., counseling, exercise science, or special education). The diversity of departments and programs in the College of Public Health presents abundant opportunities for cross-disciplinary learning.

Affiliation(s): Numerous healthcare and human service agencies in Philadelphia and the surrounding Delaware Valley region cooperate with the Department of Health and Rehabilitation Sciences and offer opportunities for student training and research. These include nationally recognized rehabilitation facilities such as Children’s Hospital of Philadelphia, Magee Rehabilitation Hospital, MossRehab, the Princeton Medical Center, Shriners Hospital, the Temple University Hospital and Health System, and the Variety Club Camp and Developmental Center.

Additionally, graduate students are encouraged and supported to complete internships/clinical practicums in an extensive network of agencies cultivated by the program over the years. These include placements across the country, including California, Colorado, Florida, Georgia, Illinois, Montana, and Virginia.

Ranking: The faculty and the program are nationally recognized for excellence and have received numerous national and state awards for their contributions. Graduates of the program consistently perform well on the national credentialing examination for certified recreational therapists.

Accreditation: The academic program meets or exceeds all current curriculum standards issued by the National Council for Therapeutic Recreation Certification (NCTRC) and other professional organizations.

Areas of Specialization: Faculty members specialize and offer learning opportunities in adapted sport and inclusive recreation, behavioral health, disability studies, geriatrics, health promotion and rehabilitation, pediatrics, and physical rehabilitation.

Job Prospects: Graduates of the program are highly sought for advanced clinical/management positions in adult day programs, assisted living facilities, community settings providing specialized services to individuals with disabilities, hospitals, nursing homes, and pediatric facilities. Graduates who use the degree to enter this field are also highly sought after to begin practicing as recreational therapists.

Certification: Professional recognition is granted by NCTRC to individuals who apply and meet established standards for certification, including education, experience, and continuing professional development. The Certified Therapeutic Recreation Specialist (CTRS) credential is offered to qualified individuals when they meet the agency’s stringent standards. For more information, see https://www.nctrc.org/.

Non-Matriculated Student Policy: Students are allowed to take up to 9 credits of graduate coursework before matriculation. Selection of courses must be made in conjunction with the Graduate Program Director in the Department of Health and Rehabilitation Sciences.

Financing Opportunities: Limited funding opportunities are sometimes available in the form of teaching or research assistantships or externships:

- Assistants are expected to devote up to 20 hours per week to teaching or research obligations. Availability depends on courses offered or whether faculty have externally funded research grants. Assignments vary depending on the nature of the grant. Assistantships carry a stipend and partial or full tuition remission.

- Graduate Externships are available through other divisions of the university. For example, Temple University’s Campus Recreation office hires externs to conduct student recreation events, and the Institute on Disabilities hires externs to assist with various projects. Externs do not receive tuition remission. Externship positions are handled directly by the units offering them.

Applying for a position as a Teaching or Research Assistant or Graduate Extern is done online and involves outlining relevant qualifications and experience. Students are notified as opportunities become available.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1
Spring: November 1
All applicants to the M.S. in Recreational Therapy program must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://sophas.liaisoncas.com/.

Letters of Reference:
Number Required: 3

From Whom: One letter of recommendation should be written by a faculty member who can comment on your academic ability. The others can be from professional references who can speak to your work-related competencies.

Coursework Required for Admission Consideration: If admitted, students lacking NCTRC national credentialing are required to take leveling and supportive undergraduate courses in addition to the M.S. degree requirements.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree from an accredited institution is required. All undergraduate majors are considered. A GPA of 3.0 or higher on a 4.0 scale is required, but applicants with a GPA below 3.0 may be considered for admission based on scores at or above the 65th percentile on the Graduate Record Exam (GRE) or Miller Analogy Test (MAT) or a GPA of 3.25 in 9 credits of graduate-level coursework.

Statement of Goals: In 500 to 1,000 words, describe your background, interests, accomplishments, and career goals. Specifically, explain why your interests and goals make you a good fit for a career in Recreational Therapy. Include any experience you have working with individuals with disabilities and/or in the recreation field, if applicable. Focus on producing a clear, well-written document as the master's program emphasizes scholarly writing.

Standardized Test Scores:
GRE or MAT: Required. Official scores should be sent directly to SOPHAS using code 0151. The GRE may be waived for students who have a cumulative GPA of 3.25 or above. This is reviewed on a case-by-case basis, and the applicant should contact the CPH Office of Admissions to discuss further.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

• TOEFL iBT: 79 (send officially to SOPHAS using the SOPHAS-specific TOEFL code of 5688)
• IELTS Academic: 6.5
• PTE Academic: 53

Clearances: The Recreational Therapy M.S. program requires students to complete clinical/field education experiences at various facilities. These placements require criminal background checks, Act 33/34 clearances, and perhaps a drug screen. Placements may also require the student to maintain personal health insurance and/or to submit proof of a physical and immunization records. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his inability to meet graduation requirements. Additionally, conviction of a misdemeanor, felony, or felonious or illegal act may prevent the individual from becoming credentialed and/or licensed to practice in the field of therapeutic recreation.

Resume: Current professional resume required.

Transfer Credit: Graduate credits from an accredited institution are considered for transfer into the M.S. in Recreational Therapy degree program. Such courses are reviewed by the M.S. Program Coordinator to determine whether they are equivalent to coursework offered at Temple and fulfill any degree requirements. The grade must be a ‘B’ or better in order to transfer. The maximum number of credits that may be transferred into the M.S. program is 6. These credits must have been earned within five years of applying to the program.

Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Baccalaureate:

• 36 for those who hold NCTRC national certification (see Course Sequence A).
• 36 plus 6 credits of Recreational Therapy-specific leveling coursework for those without NCTRC national certification (see Course Sequence B). Note that other supportive coursework may be required to sit for the national credentialing examination for therapeutic recreation specialist certification. Specialization electives can be used to meet advanced certification from NCTRC after one year of full-time employment as a recreational therapist.

Required Courses:

Total Credit Hours 36

1. This common College Core course is required of all incoming graduate students in the College of Public Health. It is available completely online and designed such that students can complete the modules at their own pace over the course of their degree program.

2. Depending on one's undergraduate major, some requirements may have already been completed. These credits do not count toward the M.S. credit totals, but are needed in order to be eligible to sit for the NCTRC certification exam (see [https://www.nctrc.org/](https://www.nctrc.org/)). The M.S. Program Coordinator reviews official transcript(s) and identifies any coursework needed. Any uncompleted requirements may be taken at an institution other than Temple University, with approval of the M.S. Program Coordinator. All required leveling/supportive undergraduate coursework must be completed by the time the student has accrued 15 credits in the M.S. program at Temple University.

3. RCTH 5787 Recreational Therapy Practicum is a 600-hour field placement experience under the supervision of a full-time Certified Therapeutic Recreation Specialist (CTRS) at an approved agency site. The student works with a faculty advisor in the selection of a site for this experience. RCTH 5787 is designed to meet NCTRC internship requirements for eligibility to sit for the NCTRC certification exam.

### Culminating Events
Successful completion of coursework constitutes the culminating event.

Social and Behavioral Sciences, M.P.H.

COLLEGE OF PUBLIC HEALTH

Learn more about the Master of Public Health in Social and Behavioral Sciences.

About the Program

The Department of Social and Behavioral Sciences offers the Master of Public Health in Social and Behavioral Sciences (MPH-SBS). The M.P.H. in Social and Behavioral Sciences is a terminal, professional degree that prepares students to design, implement, and evaluate interventions directed toward identified public health problems in communities. This program aims to prepare public health practitioners to identify and assess the needs of populations; plan, implement, and evaluate programs to address those needs; and ensure that the needs of diverse populations are met to improve their overall health status. The program has a strong focus on addressing the behavioral, social, and cultural factors related to individual and population health and health disparities over the life course, as well as the social and behavioral aspects of community health, health communication, program implementation and evaluation, and health education. Research and practice in this area contribute to the development, administration, and evaluation of programs in public health, which promote and sustain healthy lives for individuals and communities.

Applicants to the M.P.H. in Social and Behavioral Sciences can choose between our on-campus or our online program, both of which adhere to the same competency-based curriculum and content. However, the delivery formats differ, as described below:

1. The on-campus format is designed for students who prefer live interaction with instructors and fellow students; access to campus activities; and the opportunity to choose local Philadelphia fieldwork placements with the assistance of our fieldwork coordinator. Students can enroll full-time or part-time. While some courses may be offered online or in hybrid formats, most of the coursework is delivered in person over a full 16-week academic term during evening hours. For more information about the on-campus M.P.H. program, please contact Annemarie Szambelak, Assistant Director of Admissions, at 215-204-9117.

2. The online format is designed for working professionals interested in a part-time program. Courses are structured to include asynchronous assignments plus a once-a-week synchronous class meeting via Zoom. Students in the online program take seven-week courses during the beginning of their program, then move to 16-week courses as they enter their final year. A fieldwork coordinator works with students to find appropriate placement in their preferred geographic location. For more information about the online M.P.H. program, please contact Dr. Anne Frankel, Online Program Coordinator, at anne.frankel@temple.edu or 215-204-9117.

Time Limit for Degree Completion: 4 years

Campus Location: Main for the on-campus M.P.H. program; Online

Full-Time/Part-Time Status: Full-time students usually complete the program within two academic years. Part-time students usually take three to four years to complete their degree. Online M.P.H. students can complete the program in three years.

Interdisciplinary Study: Interdisciplinary M.P.H. coursework, research, and interactions with students and faculty in other departments are encouraged to give students as broad a perspective as possible to excel in the diverse, dynamic, and multidisciplinary field of public health. Through associations with research laboratories in the Department of Social and Behavioral Sciences, such as the the Center for Obesity Research and Education, the Health Behavior and Research Clinic, the Health Disparities Research Lab, the Risk Communication Laboratory, and the Social and Behavioral Health Interventions Laboratory, as well as other laboratories throughout the College, students have access to dozens of faculty at Temple University and additional regional scholars who are actively involved in programs, research, and teaching in public health. Further, as with the other four M.P.H. degree programs offered by the College of Public Health, the M.P.H. in Social and Behavioral Sciences can be undertaken as part of nine dual M.P.H. degree programs. Eight on-campus dual M.P.H. degree programs are currently offered:

• D.M.D./M.P.H. with Temple University’s Kornberg School of Dentistry
• D.O./M.P.H. with the Philadelphia College of Osteopathic Medicine
• D.P.M./M.P.H. with the Temple University School of Podiatric Medicine
• J.D./M.P.H. with Temple University’s Beasley School of Law
• M.D./M.P.H. with the Lewis Katz School of Medicine at Temple University
• M.H.A./M.P.H. with Temple University’s Fox School of Business and Management
• M.P.P./M.P.H. with Temple University’s College of Liberal Arts
• M.S. Health Informatics/M.P.H. within the Temple University College of Public Health

The ninth dual degree program is offered both online and on campus: the M.S.W./M.P.H. with the Temple University School of Social Work.

For more information, visit https://cph.temple.edu/mph/dual-degrees or contact Annemarie Szambelak, Assistant Director of Admissions, at annemarie@temple.edu.

Affiliation(s): The MPH-SBS maintains dozens of affiliation agreements with community partners with wide ranging public health focus relevant to public health professionals studying and applying social and behavioral interventions to address public and community health priorities. On-campus M.P.H. students choose community agency fieldwork placement from this array of options throughout Philadelphia. For example, the program has long-standing research and fieldwork affiliations with The Food Trust, Fox Chase Cancer Center, the Health Federation of Philadelphia, the Maternity Care Coalition, NORTH, Inc. (managers of the Philadelphia WIC program), the Philadelphia Department of Public Health, the Public Health Management Corporation (PHMC) and...
The M.P.H. degree program is offered in five specialty fields of study:

- Applied Biostatistics (APBIO)
- Environmental Health (EH)
- Epidemiology (EPI)
- Health Policy and Management (HPM)
- Social and Behavioral Sciences (SBS)

Job Prospects: Graduates with an M.P.H. in Social and Behavioral Sciences have gained employment in a wide range of health-related settings, including state and local public health departments, community-based organizations, voluntary health agencies, health maintenance organizations, hospitals, clinics, schools, and work sites. Graduates are employed as health educators and counselors, evaluation specialists, marketing specialists, prevention specialists, project directors, research and community health program managers, HIV/AIDS coordinators, infection control coordinators, adjunct faculty, and consultants. Virtually all students are placed within three to six months of graduation.

Licensure: Students who complete an M.P.H. at Temple University may be eligible to sit for the Certification in Public Health (CPH) exam and the Certified Health Education Specialist (CHES) exam. For information regarding credentialing in public health, see https://www.nchec.org/.

Non-Matriculated Student Policy: Non-matriculated students are required to speak with an advisor and to obtain permission from the professor before registering for classes, whether the coursework is taken in the on-campus or online format. If accepted to the program, a maximum of three courses may be applied toward the degree program. Exceptions to this policy relate to formal certificate programs.

Financing Opportunities: In both the Fall and Spring terms, the College of Public Health and Department of Social and Behavioral Sciences award a limited number of partial scholarships on a competitive basis to students with an outstanding academic record. No separate application is needed for these awards as outstanding applicants are automatically considered following submission of their application. For more information, contact Annemarie Szambelak, Assistant Director of Admissions, at 215-204-5200 or annemarie@temple.edu.

In the College of Public Health, a limited number of Research Assistantships (RA) are available to on-campus M.P.H. students, while Teaching Assistantships (TA) are available to both on-campus and online M.P.H. students. Both RA and TA positions are assigned on a competitive basis among students who academically excel. The Graduate School website details the types of graduate student support. Assistantships are awarded on a term or annual basis. Students whose Fall applications are complete prior to or at the application deadline are reviewed for eligibility for TA positions. TAs may work up to 20 hours per week in any combination of teaching assignments made by the department and must meet the English Language Proficiency standards set by the University and the College. Students who hold Teaching or Research Assistantships are not permitted to hold other employment without the written prior approval of their advisor, the Director of Graduate Studies, and the Graduate School. To be considered for a RA or TA position, complete an application form that is sent to students upon admission to the M.P.H. program. For more information, contact Annemarie Szambelak, Assistant Director of Admissions, at 215-204-5200 or annemarie@temple.edu.

The College of Public Health has a limited number of scholarship opportunities available for M.P.H. students. Available scholarships are listed at https://cph.temple.edu/admissions/scholarships. Students may also be eligible for financial support through the Office of Student Financial Services.
• What are your interests in Public Health, and why are you planning to pursue an M.P.H. in Social and Behavioral Sciences?
• What are your future career goals, and what have you done either academically or professionally to guide your interest in Public Health and to begin preparation toward your career goals?
• Are there any exceptional circumstances related to previous academic performance that you would like the Admissions Committee to consider?

Standardized Test Scores:
GRE: Required. While the program takes a portfolio approach to admissions, standardized tests provide important insight into quantitative and verbal abilities. Minimum scores around the 50th percentile on the verbal and quantitative sections are preferred.

Applicants who have a minimum GPA of 3.00 on undergraduate mathematics or statistics courses and have an undergraduate cumulative GPA of at least 3.25 may request that their GRE scores be waived from consideration in their application portfolio. To request a waiver or if you have other questions, contact Annemarie Szambelak, Assistant Director of Admissions, at 215-204-5200 or annemarie@temple.edu.

Standardized tests considered in lieu of the GRE include DAT, GMAT, LSAT, MCAT, OAT, and PCAT.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:
• TOEFL iBT: 79
• IELTS Academic: 6.5
• PTE Academic: 53

Clearances: The M.P.H. programs require students to complete clinical/field education experiences at facilities both on and off Temple University’s campuses. These placements may require criminal background checks, Act 33/34 clearances, and perhaps a drug screen. The results of these requirements may limit and potentially eliminate placement options, which can, in turn, result in the student’s inability to meet graduation requirements.

Resume: Current resume required.

Transfer Credit: Graduate credits earned through other M.P.H. programs accredited by the Council on Education for Public Health (CEPH) may be transferred into Temple’s M.P.H. in Social and Behavioral Sciences program. The credits must be equivalent to coursework offered at Temple, and the grade must be a ‘B’ or better in order to transfer. The Director of Graduate Studies approves the transfer of credits based on a review of course materials provided by the student. The maximum number of credits a student may transfer is 9.

Test Waivers: Graduates with a terminal degree from a U.S. medical school, foreign-trained physicians who have obtained licensure to practice in the United States, and those with Ph.D.’s may have the GRE requirement waived.

### Internship
An internship is required as part of a student’s M.P.H. fieldwork.

### Culminating Events

**Fieldwork Practicum:**
The M.P.H. fieldwork practicum is the capstone experience of the M.P.H. educational program and takes place over two terms during the student’s final year in the program. The fieldwork practicum requires a student to synthesize and integrate the knowledge acquired in coursework and other learning experiences and to apply theory and principles in a placement that approximates some aspect of professional practice. The internship or practicum experience occurs in a public health agency or under the supervision of a faculty preceptor and in conjunction with two semester courses (SBS 9289 and SBS 9389) taught by department faculty. The M.P.H. fieldwork experience is required by the Council on Education for Public Health (CEPH), the accrediting body of all U.S. schools of public health, for completion of the M.P.H. degree. In addition, this culminating experience provides the student with the opportunity to develop expertise in a topic area and to contribute original and independent observations to a body of knowledge.

For the culminating experience to fulfill the requirements of SBS 9289 and SBS 9389, M.P.H. in Social and Behavioral Sciences students are expected to complete a fieldwork experience, which enables them to:

- Explain the contributions of social and behavioral sciences to public health.
- Describe health problems, including their social, cultural, environmental, and behavioral causes.
- Ensure that social and behavioral science theories and concepts are used in planning and evaluating public health programs.
- Use behavioral science and health promotion methods in planning/evaluating public health programs.
- Apply ethical principles to public health program planning, implementation, and evaluation.
- Identify multiple targets and levels of intervention for social and behavioral science programs and/or policies, including individual, family, network, organizational, community, policy, physical environment, and culture.

A final paper is the required deliverable for the M.P.H. fieldwork requirement. Students must demonstrate their proficiency and the application of theory and principles in the paper and demonstrate mastery of the required competencies during the oral defense. The evaluation of the M.P.H. fieldwork practicum experience, therefore, is integrated into the culminating experience requirement.

### Contacts

**Program Web Address:**
Social and Behavioral Sciences, Ph.D.

COLLEGE OF PUBLIC HEALTH

Learn more about the Doctor of Philosophy in Social and Behavioral Sciences.

About the Program

The Department of Social and Behavioral Sciences administers the Ph.D. in Social and Behavioral Sciences (SBS). This program provides advanced training in theory, methods, and research related to social and behavioral influences on population health that prepares students for advanced research and scholarship. The program provides experiences that support interdisciplinary learning; promote critical and theory-based problem-solving skills to address public health threats; and foster the development of professional values and ethics. Heavy emphasis is placed on scientific foundations, research methods, and statistics as well as hands-on research experience. Coursework and experiential learning emphasize the dynamic interaction of individual difference characteristics, social circumstances, and situational factors influencing health-promoting and health-damaging behavior and behavior change. Required research courses, structured research experiences each academic term, colloquium presentations, and coursework in teaching and grant writing expand students' knowledge and application of research methods and analytic techniques while facilitating professional development and scholarship. Students choose advanced training opportunities in concentration electives with close consultation from a faculty mentor to ensure proper breadth and depth of training in students' emerging areas of expertise. A publishable first-authored paper is required prior to sitting for the preliminary examinations to further facilitate students' focus on scholarship.

Throughout enrollment in the program, students are expected to actively participate in scholarly activities and develop their own line of independent research that will contribute to their area of interest within the social and behavioral sciences. Many opportunities lie in the Department of Social and Behavioral Sciences for research mentorship with internationally renowned faculty affiliated with dynamic research laboratories and centers, including the Center for Obesity Research and Education, the Health Behavior and Research Clinic, the Health Disparities Research Laboratory, the Risk Communication Laboratory, and the Social and Behavioral Health Interventions Laboratory, as well as the Dean’s Research Group. Collectively, centers and labs in the Department of Social and Behavioral Sciences develop, test, and evaluate interventions aimed at resolving significant public health problems in high-risk and vulnerable populations. Examples of research content areas in which department faculty are actively involved include cancer control (e.g., smoking cessation); cancer prevention and decision making (e.g., early detection and screening); cancer survivorship (e.g., online and live support groups); ethnic and racial disparities in cancer; health systems research; obesity; and violence. Research mentors in these labs offer opportunities for research placements and developing papers for publication and presentation at conferences; provide professional socialization; help define dissertation projects using existing funded studies; and may provide some funding in the form of Research Assistantships. Students in the PhD-SBS program also are expected to participate in ongoing professional development opportunities, such as the monthly SBS graduate student seminar series, as well as journal clubs, colloquia, and brown-bag research presentations.

Time Limit for Degree Completion: 7 years

Campus Location: Main

Full-Time/Part-Time Status: Full-time study is preferred.

Interdisciplinary Study: Students are encouraged to develop programs of study that are interdisciplinary in nature, involving coursework or scholarly activities across departments, schools, and colleges.

Affiliation(s): Students are expected to work in close collaboration with their faculty research mentor in the Department of Social and Behavioral Sciences. In addition, students can consider collaborative research projects across affiliated units within the College of Public Health in coordination with their developing line of research and with approval of their research mentor and the Program Director. A list of active research centers can be found on the College of Public Health website at https://cph.temple.edu/departments-research/research-centers. Faculty and doctoral students also are involved in research with affiliates across the university, including the Fox Chase Cancer Center, the Fox School of Business and Management, the Institute on Aging, the Institute on Disabilities, the Lewis Katz School of Medicine, the Lew Klein College of Media and Communication, and the School of Podiatric Medicine. Additional research opportunities at Temple University include the Institute for Survey Research, the Office of Institutional Research and Assessment, and the Social Science Data Library.

Job Prospects: Students in the program develop public health content expertise and skills in research, scholarship, teaching, and grant writing. Therefore, graduates of the PhD-SBS program are prepared to become faculty members or researchers in colleges and universities or to hold research-related positions in a wide range of organizations, such as agencies promoting community and public health, consulting firms,
foundations, healthcare systems, nonprofits, and research centers. Graduates are employed in health systems, hospitals and clinics, public health departments, public health and other healthcare and human service agencies, and universities.

Non-Matriculated Student Policy: Doctoral coursework is open only to students enrolled in the program.

Financing Opportunities: Full-time Ph.D. students generally receive financial support through fellowships or assistantships.

University-Wide Fellowships: University-wide fellowships provide a stipend and tuition for two years of study. The College of Public Health provides assistantships to cover two additional years of study. The Department of Social and Behavioral Sciences nominates outstanding applicants for consideration for the following fellowship opportunities:

- Presidential Fellowships are the most prestigious awards. Competition is reserved for only the most outstanding candidates.
- University Fellowships are awarded to outstanding incoming graduate students. These awards are intended to support students who demonstrate outstanding potential for success in their chosen fields.

College of Public Health Graduate Assistantships: Graduate assistantships sponsored by the College of Public Health include the following:

- Research Assistants (RAs) perform supervised research activities. Research assistantships are frequently supported by faculty grant funding, and it is anticipated the RAs will work with faculty members on new and continuing grant proposals and develop both research and grant-writing competencies.
- Teaching Assistants (TAs) support faculty in the teaching of courses, with activities that include grading examinations/papers or teaching occasional lecture sections. One purpose of a TA opportunity is to develop competencies in current pedagogies that prepare students for academic teaching careers.

TAs and RAs provide 20 hours of service per week. Both assistantships carry a stipend and typically tuition remission for up to 9 credits per term. Consideration for admission with an assistantship requires a description of research and teaching experience; a statement of research and teaching goals; and identification of areas of interest, including identification of potential faculty mentors and articulation of career goals consistent with the mission and purpose of the PhD-SBS program. Offers of admission are generally accompanied by a fellowship or assistantship offer. Students with full funding from another source (e.g., government funding) are given full consideration in the admission process. Self-funding through external employment is highly discouraged as it can impede progress in the program. The Graduate School website details the types of graduate student support.

Admission Requirements and Deadlines

Application Deadline:

Fall: January 2

Admission into the Ph.D. program is highly competitive. Not only must applicants display an exemplary academic record and potential for scholarship, but their research interests and area of emerging expertise must match those of Graduate Faculty who are available to take a new student. All applicants to the PhD-SBS program must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://sophas.liaisoncas.com/.

All application materials must be received by the deadline in order to be reviewed by the Ph.D. Admissions Committee. Admission is competitive, and students are admitted only once a year. Applications are evaluated together after the deadline has passed. Applications that are completed after the deadline are held for review the following year. An important component of the admissions decision is the fit between the applicant's goals, experiences, and interests and the expertise of the faculty in the Ph.D. program who are designated as ‘Graduate Faculty’ and available to mentor an incoming student.

Letters of Reference:

Number Required: 3

From Whom: Letters of recommendation should be obtained from evaluators who can provide insight into the applicant's academic and research experiences and talents, as well as comment on the applicant's aptitude for doctoral-level study and research. Recommendations from college/university faculty members are preferred.

Coursework Required for Admission Consideration: Applicants are expected to have completed coursework in the natural, social, or behavioral sciences related to health. Coursework in statistics and research methods is desirable. The following prerequisites, which do not count toward the Ph.D., must also be satisfied, either through an M.P.H. degree or course equivalency:

Master's Degree in Discipline/Related Discipline: Nearly all students admitted to the program have a master's degree. Although a master's degree specifically in Public Health is not required, preference is given to applicants who have a background in the health sciences, including behavioral medicine, environmental health, epidemiology, health communication, health psychology, medicine, or a public health discipline.

Bachelor's Degree in Discipline/Related Discipline: A baccalaureate degree is required, although it need not be in Public Health. Preference is given to applicants who have a background in the health sciences, including behavioral medicine, environmental health, epidemiology, health communication, health psychology, medicine, or a public health discipline.

Statement of Goals: In no more than 750 words:

- identify the Social and Behavioral Sciences doctorate as the program for which you wish to be considered and why;
- describe important academic and research achievements and interests; and
- specify how your research interests relate to your ultimate career goals and to ongoing work by faculty members affiliated with the PhD-SBS program.
The match between faculty and student interests is important in the admissions decision. Be sure to articulate clearly the linkages among your training goals, the expertise of our faculty, and the training emphasis of the Ph.D. program. For a description of faculty interests and active research, visit the Social and Behavioral Sciences Faculty webpage.

**Standardized Test Scores:**
GRE: Required. The median score of recently admitted applicants is above the 50th percentile on the verbal and quantitative subscales.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current CV required.

**Writing Sample:** Scholarly articles, technical reports, or academic papers are preferred. Unless it is a published work (e.g., a book chapter or peer-reviewed journal article), the writing sample should be no more than 10 pages.

**Advanced Standing:** A student enrolled in the PhD-SBS program may apply for advanced standing credits for graduate coursework graded ‘B’ or better from an accredited institution. Credits for courses taken as part of a master’s degree are considered; credits for thesis, fieldwork, clinical practice, or directed projects/readings cannot be used for advanced standing credit. To be approved for advanced standing, the courses must be deemed appropriate as part of the student’s training in the PhD-SBS program. The maximum number of advanced standing credits awarded is 9.

**Program Requirements**

**General Program Requirements:**

**Total Number of Credits Required:** 45 (some of which may be in the form of Advanced Standing credit, as determined after matriculation)

**Required Courses:**

**Social and Behavioral Sciences Core Courses**

- SBS 8005 Health Promotion in Vulnerable Populations 3
- SBS 8009 Health Psychology 3
- SBS 8105 Health Communication 3
- SBS 8111 Public Health Program Planning 3

**Research and Statistics Courses**

- EPBI 8012 Multivariable Biostatistics 1 3
- EPBI 8201 Structural Equation Modeling 1 3
- EPBI 8212 Grantsmanship in Health Research 3
- HRPR 5999 Research Experience in Health Professions 2 0
- SBS 8001 Research Methods in Public Health 3

**Electives** 15

Select five from the following:

- HRPR 5002 Leadership in Crises and Conflict Management
- CMGT 8106 Communication Theory for Professionals
- EPBI 5003 Spatial Analysis in Public Health
- EPBI 8011 Social Epidemiology
- EPBI 8208 Data Management and Analysis
- GDC 8002 Communication for Social Change Project Design
- GDC 8003 Research Approaches in Communication, Development and Social Change
- HPM 5007 Principles of Emergency Management
- HPM 5014 Leadership and Management in Non-Profit Organizations
- MSP 8254 Public Information Media Campaigns
- SBS 5105 Maternal and Child Health
- SBS 8002 Research Seminar in Public Health
- SBS 8006 Addictions and Dependencies
- SBS 8018 Obesity: From Genes to Junk Food
- SBS 9083 Readings and Conference in Public Health

**Research Courses** 6

- SBS 9994 Preliminary Examinations
- SBS 9998 Dissertation Proposal Research
- SBS 9999 Dissertation Research

**Total Credit Hours** 45

1. Students may select an alternate advanced statistics course with the approval of the faculty mentor.
2. Students discuss gaps in their training or areas for scholarship development with their faculty mentor prior to completing the first four academic terms in the program. Based on this planning, students engage in a project with a research mentor, as approved by the Director of Graduate Studies.
3. Students select electives with advisement from a faculty mentor or the program director. With approval, other electives may be taken.
4. If selected, SBS 9083 must be taken for 3 credits.
5. The Graduate School requires that students complete a minimum of 6 credits that include SBS 9994, SBS 9998, and SBS 9999. Of the 6 credits, at least 2 credits must be earned in the dissertation phase (SBS 9999).

**Culminating Events:**

**Area Paper:**

Prior to sitting for the preliminary examinations, students must have successfully published or written a publishable paper in their chosen area of research interest. The purpose of the paper requirement is to demonstrate critical and interpretive knowledge in specialized areas of one’s chosen program, as well as a high proficiency in written communication and a capacity to contribute to generalizable knowledge in the field. The student must be the lead or sole author. For students who enter the program without already having published a first-authored, peer-reviewed article, they typically initiate efforts toward this requirement during their first term of residency.

A student cannot advance to the preliminary examinations without passing the paper requirement. Failure to satisfactorily complete the area paper requirement within the specified time frame can result in dismissal from the Ph.D. program. Students who are entering the Ph.D.
program and have already published a peer-reviewed paper related to their programmatic subdiscipline can request to waive this requirement by completing a waiver application and submitting it along with the published document to the Director of Graduate Studies.

**Preliminary Examinations (SBS 9994):**

Students typically take their preliminary examinations during their third year of residency in the program, after completing the paper requirement. All students are required to take the preliminary examinations prior to completing and defending their dissertation research proposal. The preliminary examinations are designed to test fundamental core competencies of the students’ training. The exams should be taken within one term of completing all coursework. The student must register for 1 credit of SBS 9994 in the term in which the examinations are taken. To register for SBS 9994, the student must have completed all coursework or be enrolled in final courses in the term in which the examinations are taken. The examinations cannot be taken until all incomplete and/or ‘NR’ grades are removed and the area paper requirement has been satisfied. Students are required to meet with their mentor and Director of Graduate Studies before the beginning of the term in which they plan to take the examinations to establish eligibility. Special authorization is required to register.

The preliminary examinations consist of the following components:

- A comprehensive one-week take-home written examination, with an emphasis on the student’s concentration, about the scientific foundations as well as social and behavioral sciences underpinnings of public health; and
- A methods exam, which is a four-hour in-class examination on research methods and statistics.

Students who fail these exams may have one opportunity to take the examinations again. A second failure results in automatic dismissal from the Ph.D. program.

**Dissertation Proposal (SBS 9998):**

After passing the preliminary examinations, students may enroll in SBS 9998. Students must be enrolled for 1 credit of SBS 9998 each term until they file their dissertation proposal with the Graduate School.

All students must form a Doctoral Advisory Committee (DAC) with the approval of the Director of Graduate Studies. The DAC is composed of at least three Graduate Faculty members: two members, including the chair, must be from the Ph.D. program faculty of the Department of Social and Behavioral Sciences. The DAC Chair must be approved as Doctoral Graduate Faculty by the Dean of the College of Public Health and by the Graduate School. The chair is responsible for overseeing and guiding the student’s progress; coordinating the responses of the Committee members; and informing the student and the Director of Graduate Studies annually of the student’s academic progress. A fourth, external reader is also required at the time of the final dissertation defense. This person must be a member of the Graduate Faculty at Temple or approved by the Dean of the College to take part in the final dissertation examination. This fourth member is not required to be present at the defense of the proposal.

To fulfill the requirements of SBS 9998, students must submit a dissertation proposal, successfully defend it orally before their Committee, apply for IRB approval for the proposed research, and submit the proposal to the Graduate School. Students have a maximum of one year from the time of completing their preliminary examinations to develop and defend their dissertation proposal. Thus, students may enroll in SBS 9998 for only two terms without permission. Students needing more time may, with the support of their mentor, formally petition the Director of Graduate Studies for an extension, although an extension is not guaranteed. Failure to meet these requirements can result in dismissal from the program.

**Dissertation (SBS 9999):**

The doctoral dissertation is an original theory-based research study that makes a significant contribution to the field of Public Health. It should expand existing knowledge and demonstrate the student’s mastery of theory and research methods, particularly within a concentration or specialty area. The research should be rigorous, while upholding the ethics and standards of the field. Students are expected to submit their dissertation study for publication and presentation to professional audiences.

To fulfill the dissertation requirement, students must prepare and orally defend the final dissertation in a public meeting. Students should present their plans for publishing their dissertation as part of their defense. Students must be enrolled continuously for at least 3 credits of dissertation research until their dissertation is successfully defended. The Graduate School requires a minimum of 2 credits of SBS 9999. Students must be enrolled in the course in the term that they graduate.

The Dissertation Examining Committee (DEC) consists of the DAC plus at least one additional external reviewer. The external reviewer must be doctorally prepared. If this person is not a member of the Temple University Graduate Faculty, s/he must be approved by the Director of Graduate Studies, the Dean of the College, and the Graduate School to take part in the final dissertation examination. The DEC evaluates the student’s written dissertation and oral defense, including the student’s ability to articulate orally the research question; methodological approach; primary findings; interpretation of the findings; and implications for theory, research, and practice. The DEC votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

If a student needs to change a member of a committee, the new member must be approved by the Director of Graduate Studies and registered with the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their DEC and work with their department’s administrative assistant to secure a room. This should be done at least one month in advance of the proposed date. The Administrative Assistant arranges the time, date, and room within two working days. After the time, date, and room are secured, the student must send to the Graduate School a completed ‘Announcement of Dissertation Defense’ form, found in TUportal under the Tools tab within “University Forms.” This must be submitted at least 10 working days before the defense. The Department of Social and Behavioral Sciences posts flyers announcing the defense, and the Graduate School lists the defense on its website.

Speech, Language and Hearing Science, M.A.

COLLEGE OF PUBLIC HEALTH

Learn more about the Master of Arts in Speech, Language and Hearing Science.

About the Program

The M.A. program in Speech, Language and Hearing Science (MA-SLH) is committed to the education of high-quality clinical professionals able to deal creatively with the broadest possible range of populations, settings, and speech-language-swallowing disorders. The program provides students with a rich variety of supervised clinical experiences at its own Temple University Speech-Language-Hearing Center (TUSLHC) on Main campus and at more than 80 field affiliate settings throughout the Delaware Valley. In addition, the Department of Communication Sciences and Disorders maintains strong connections with faculty members and practitioners at Temple University Hospital, the Lewis Katz School of Medicine at Temple University, and other departments in the College of Public Health. Graduates of the program have consistently gone on to significant careers throughout the United States and abroad. Opportunities exist for pursuing research interests under faculty guidance through independent study courses or the writing of a master’s thesis.

Time Limit for Degree Completion: 2 years (six terms, including required enrollment in two summer sessions) with a bachelor’s degree in Communication Sciences and Disorders; 3 years (eight or nine terms, including required enrollment in two or three summer sessions) without a bachelor’s degree in Communication Sciences and Disorders.

Campus Location: Main

Full-Time/Part-Time Status: Students complete the degree program through full-time enrollment.

Interdisciplinary Study: The faculty itself is interdisciplinary with representation from Audiology, Cognitive and Neuropsychology, Linguistics, Speech Motor Control, and Speech-Language Pathology. A colloquium series and series of grand rounds presentations include speakers from outside the Department of Communication Sciences and Disorders and the university.

Affiliation(s): The program has research affiliations with the Temple University Hospital and Lewis Katz School of Medicine; the American Institute for Voice and Ear Research; MossRehab; New York University; The Pennsylvania State University; University of California, Irvine; University of North Carolina; and University of South Florida. The tri-state area around Philadelphia offers a culturally diverse setting with urban, suburban, and even rural areas, affording a variety of opportunities for students to engage in clinical practice in over 80 affiliated clinical sites that include schools, acute care and rehabilitation hospitals, skilled nursing facilities, private practice, and early intervention agencies.

Ranking: The program is ranked 29th nationally among approximately 250 ASHA-certified programs.

Accreditation: The Master of Arts in Speech, Language and Hearing Science (MA-SLH) education program at Temple University is accredited by the Council on Academic Accreditation in Audiology and Speech Language Pathology (CAA) of the American Speech-Language-Hearing Association, 2200 Research Boulevard #310, Rockville, Maryland 20850, 800-498-2071 or 301-296-5700.

Areas of Specialization: Students completing the master’s program are generalists with expertise in a wide variety of disorders and population types. Courses and supervised diagnostic and therapeutic experiences involve both children and adults, and encompass a range of disorders, including dysfluency, dysphagia, hearing disorders, language disorders, motor speech disorders, phonological disorders, and voice disorders. Faculty conduct supervised research in such areas as phonological, syntactic, and pragmatic development and language disorders in monolingual and bilingual children, adult aphasia, voice disorders, communication in aging individuals, and speech physiology.

Job Prospects: Graduates are employed in hospitals, rehabilitation centers, schools, private practices, and universities. The placement rate for graduates seeking employment in the field is 100%.

Licensure: To complete the process for the Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP) from the Council for Clinical Certification (CFCC) of the American Speech-Language-Hearing Association, graduates must pass the national Praxis® examination in Speech-Language Pathology and the Praxis II® Fundamental Subjects: Content Knowledge examination. Additional state-mandated requirements may apply for graduates employed in the public schools in states other than Pennsylvania. Each state has its own licensing procedures in addition to those of the CCC-SLP.

Non-Matriculated Student Policy: Non-matriculated students must have departmental permission to enroll in graduate courses. No more than 9 credits of graduate coursework taken as a non-matriculated student may be counted toward the degree. In order to enroll in courses as a non-matriculated student, individuals must supply the Department of Communication Sciences and Disorders with an official transcript from their undergraduate institution and syllabi from the courses that satisfy
the prerequisite requirements for the graduate-level courses the student is requesting to take. A grade of 'B-' or better must have been attained in the prerequisite classes, and an overall undergraduate GPA greater than 3.0 must have been earned. If these requirements are met, non-matriculated students, with the department's permission, are permitted to take up to three of the following four courses:

**Financing Opportunities:** For information on financial aid, please contact the Office of Student Financial Services.

## Admission Requirements and Deadlines

### Application Deadline:

**Fall:** February 1

All applicants to the M.A. program in Speech, Language and Hearing Science must apply via the Communication Sciences and Disorders Centralized Application Service (CSDCAS). The system can be accessed at [https://csdcas.liaisoncas.com/](https://csdcas.liaisoncas.com/).

### Letters of Reference:

**Number Required:** 3

**From Whom:** Recommendations should be obtained from teachers, clinical supervisors, or others who can speak to the applicant's academic or clinical abilities and personal integrity. Two of the recommendations must be professional/academic in nature.

### Coursework Required for Admission Consideration:

Prerequisites to graduate study, which may be taken during the first year of graduate study if not completed previously, include the following courses or equivalent subject knowledge:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSCD 2201</td>

<td>3</td>
</tr>
</tbody>
</table>

**Total Credit Hours:** 32

### Bachelor's Degree in Discipline/Related Discipline:

All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

### Statement of Goals:

One writing sample is required. It should address your goals and the prompts outlined on the CSDCAS application.

### Standardized Test Scores:

**GRE:** Required. Scores on the verbal and quantitative sections are expected to fall at or above the 50th percentile.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

### Clearances:

The Speech, Language and Hearing Science M.A. program requires students to complete clinical/field education experiences at facilities both on and off Temple University's campuses. These placements require criminal background checks, Act 33/34 clearances (for working with children and vulnerable populations), and often a drug screen and CPR certification. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his inability to meet graduation requirements. Additionally, conviction of a misdemeanor, felony, or felonious or illegal act may prevent the student from becoming credentialed and/or licensed to practice as a Speech Language Pathologist.

### Transfer Credit:

On the recommendation of the student’s advisor, the Department of Communication Sciences and Disorders may accept transfer of graduate credits from an accredited institution. Grades must be ‘B’ or better. The maximum number of credits a student may transfer is 6.

## Program Requirements

### General Program Requirements:

**Number of Total Credits Required Beyond the Baccalaureate:** 54-59, including 39 credits of academic coursework and 15-20 credits of clinical coursework

### Required Courses:

1. This common College Core course is required of all incoming graduate students in the College of Public Health. It is available completely online and designed such that students can complete the modules at their own pace over the course of their degree program.

2. Students who elect to complete a thesis should select CSCD 9996 Thesis Seminar as their elective.

3. Students enroll in 15 to 20 credits of clinical practicum to complete at least 375 clock hours of a supervised clinical experience to acquire the requisite skills in the evaluation and treatment of speech, language, and swallowing disorders. Credits are earned in CSCD 8147 Basic Practicum in Audiology, CSCD 8187 Basic Practicum in Diagnostic Processes, CSCD 8287 Basic Practicum in Therapy Processes, CSCD 9187 Advanced Practicum in Voice, CSCD 9287 Advanced Practicum in Fluency, CSCD 9387 Advanced Field Practicum in Speech Language Pathology - Child, CSCD 9487 Advanced Field Practicum in Speech Language Pathology - Adult, and CSCD 9587 Advanced Practicum in Aphasia.

| Term Credit Hours | 4 |

| Total Credit Hours: | 59 |

1. This course outline constitutes a sample. Individual student programs may vary depending on prerequisite coursework and the type and amount of clinical practicum hours.

2. Students typically enroll in CSCD 8187 and CSCD 8287 over multiple academic terms in Year 1.

3. This common College Core course is required of all incoming graduate students in the College of Public Health. It is available completely online and designed such that students can complete the modules at their own pace over the course of their degree program.

4. Students who elect to complete a thesis should select CSCD 9996 Thesis Seminar as their elective.

**Standards of Scholarship:** A graduate student in the M.A. program is expected to perform in accordance with the standards of scholarship of the Temple University Graduate School and of the Department of Communication Sciences and Disorders, including the following:

1. At the time of graduation, the student must have a grade point average of at least 3.0 (equivalent at Temple to the grade of 'B').

2. The student's grades will be averaged after the student has completed 15 graduate credits. Unless her/his average is 'B' or better, the student will have one additional term to achieve a total grade average of 'B' or better. Any time from the end of that term forward that her/his total grade average falls below a 'B', s/he will be dropped from the program.
3. A student who receives more than two grades below 'B-' or more than one grade of 'F' is dismissed for failure to maintain satisfactory grades. Although grades of 'C+, 'C,' and 'C-' carry academic credit, receipt of such grades indicates that the student is performing at a substandard level. Additionally, ASHA hours are not accumulated in Clinical Courses (Practicum) with earned grades below a 'B-.'

4. A student may not graduate without completing all coursework and thus removing any outstanding grades of 'I' (incomplete).

5. An M.A. student in the program may apply no more than 6 graduate credits earned at another institution toward the degree.

6. Grades in prerequisite courses taken at Temple or elsewhere, while matriculated in the graduate program, will be counted in determining whether a student has satisfied standards of scholarship described in 1-4 above, but prerequisite credits will not count toward the number of credits required for the master’s degree.

Culminating Events:
Students choose between two options: completion of the comprehensive examination or preparation and defense of a master’s thesis.

Comprehensive Examination:
The purpose of the comprehensive examination is to demonstrate the application of accumulated knowledge to the basic science and clinical domains. It is typically taken in the final term of study.

Master’s Thesis:
The thesis option is intended to provide an opportunity for students interested in research to conduct a study of greater scope and rigor than is generally possible in the context of a one-term seminar or independent study. Students electing the thesis option enroll for up to 3 credits of CSCD 9996 Thesis Seminar, typically in the Spring of Year 2.

The thesis involves descriptive and/or experimental research and is supervised by a faculty member selected by the student. Students develop a prospectus (i.e., proposal of research to be conducted) in conjunction with their M.A. committee, which consists of the thesis advisor and two other faculty members. A final presentation is given orally to a symposium of faculty and students. The thesis document is submitted to the Graduate School in accordance with its guidelines.

Graduate Certificate: Clinical Health Services Research

COLLEGE OF PUBLIC HEALTH

Learn more about the graduate certificate in Clinical Health Services Research.

About the Certificate

The Clinical Health Services Research (HSR) certificate is a 12-credit graduate certificate designed to provide a foundation for clinicians and other healthcare professionals in this multidisciplinary field that studies how social factors, financing systems, organizational structures and processes, health technologies, and personal behaviors affect access to healthcare, quality of care, and costs. Knowledge of health services research allows healthcare professionals to develop both better understandings of population-based outcomes and skills to participate in population-based research. The certificate program gives students a grounding in health services research, including study design, methods, and interpretation of results. Successful completion of the Clinical HSR certificate program will enable graduates to:

• illustrate understanding of health services research theory and concepts by comparing alternative models for population health issues;
• formulate innovative and important health service research questions informed by systematic reviews of the literature, stakeholder needs, and relevant theoretical and conceptual models;
• select appropriate study designs to address specific health services research questions;
• develop expertise in collecting primary health and healthcare data and in assembling secondary data from existing sources;
• use appropriate analytical methods to assess associations between variables; and
• apply knowledge of the structures, performance, quality, policy, and context of health and healthcare to formulate solutions for health policy problems.

Time Limit for Certificate Completion: 2 years

Campus Location: Main, with certain courses also offered at Temple University Center City (TUCC)

Full-Time/Part-Time Status: The graduate certificate may be completed on a part-time basis.

Non-Matriculated Student Policy: The certificate program is open to non-matriculated graduate students. Courses taken in the certificate program count toward the M.S. in Clinical Research and Translational Medicine if the student enters the program.

Admission Requirements and Deadlines

Application Deadline:
Fall, Spring, and Summer admissions are on a rolling basis. Interested students should contact the College of Public Health for permission to enroll in coursework.

Apply at https://sophasexpress liaisoncas com/.

For questions, please contact the CPH Office of Admissions at cph@temple.edu or 215-204-5200.

Bachelor’s Degree in Discipline/Related Discipline: Applicants must hold a baccalaureate degree. Official transcripts must be submitted for all postsecondary institutions attended.

Graduate Certificate: Global Health

COLLEGE OF PUBLIC HEALTH

Learn more about the graduate certificate in Global Health.

About the Certificate

In the College of Public Health’s graduate certificate in Global Health, students develop the core skills and theoretical foundations they need to address complex public health issues that are prevalent in both high income and low- and middle-income countries, including access to basic preventive care; emergency disaster relief; maternal and child health; and water, sanitation, and hygiene. Courses in the program provide a global health perspective on the student’s existing area of graduate study.

This certificate is open to all students who are currently completing graduate degrees across Temple University, as well as non-matriculated students. The certificate is also open to medical students at the Lewis Katz School of Medicine who are completing their residency. Completion of the certificate provides a foundation for careers in public health; health services; immigrant/refugee health within domestic and international organizations, such as the United Nations; government agencies and non-governmental organizations; and research and academic institutions.

Time Limit for Certificate Completion: 2 years

Campus Location: Main, with some elective courses offered at Temple University’s Health Sciences Center campus

Full-Time/Part-Time Status: The graduate certificate may be completed on a part-time basis.

Non-Matriculated Student Policy: The certificate program is open to non-matriculated graduate students, but students working toward the certificate are not eligible for financial aid.

Admission Requirements and Deadlines

Application Deadline:
Admission is on a rolling basis. Students who are currently enrolled in a graduate program at Temple University are welcome to apply to the graduate certificate program in Global Health. Students who are not actively enrolled in a degree program at Temple may also apply but should note that enrollment in the certificate does not qualify for financial aid. Interested applicants should contact cph@temple.edu for more information on how to apply.

Bachelor’s Degree in Discipline/Related Discipline: Applicants must hold a baccalaureate degree. Non-matriculated students are required to present transcripts from all institutions previously attended.

Certificate Requirements

Number of Credits Required to Complete the Certificate: 12

Required Courses:
## Public Health Core Course
- **SBS 5001** Fundamentals of Public Health - 3 credit hours

## Global Health Core Course
- 3 credit hours
- Select one of the following:
  - **ENVH 5013** Global Environmental Health
  - **SBS 5008**

## Global Health Electives
- 6 credit hours
- Select two of the following:
  - **CTRP 5251** Sustainable Food Systems Planning
  - **EPBI 8011** Social Epidemiology
  - **EPBI 8206** Infectious Disease Epidemiology
  - **EPBI 8209** Epidemiology of HIV/AIDS
  - **GUS 5021** International Urbanization
  - **GUS 8031** Critical Issues in Globalization, Sustainability, and Social Justice
  - **HPM 5107** Forced Migration and Refugee Health
  - **HPM 5202** Man-Made Disasters: Radiological, Chemical and Biological Terrorism
  - **HPM 8014** Comparative Health Policy
  - **NURS 5558** Local and Global Perspectives in Population Health
  - **POLS 8304** International Organizations
  - **SBS 5105** Maternal and Child Health
  - **SOC 9311** Immigration and Inequality
  - **SSWG 8823** Psychodynamics of Race, Class and Culture
  - **SSWG 8831** Social Transformation
  - **UBTH 5189** Urban Bioethics Field Study 1
- Or select one of the following:
  - **HPM 5005** International Health Studies Abroad
  - Or SBS 5005 International Health Studies Abroad

Total Credit Hours: 12

---

1. This course is open only to medical students and medical residents.
2. This course for overseas experience is approved on a case-by-case basis. Students enroll in the course offered by the department in which they are enrolled. This requirement can also be filled by an approved Master of Public Health fieldwork placement that is done overseas.

**Graduate Certificate: Health Informatics**

**College of Public Health**

Learn more about the graduate certificate in Health Informatics.

**About the Certificate**

The Health Informatics (HI) certificate is a 12-credit graduate certificate designed to provide students with the skills and competencies needed to embark on or advance a career in health informatics. The certificate program provides hands-on skills taught by industry leaders. The program is designed to expand students’ understanding of privacy and security requirements, the role of standards and data exchange, and fundamentals associated with managing health IT. In addition, approximately 50 hours of training and assignments are conducted in an educational EHR setting, providing the student with hands-on skills. All courses are taught at the graduate level and certificate courses count toward the M.S. in Health Informatics if the student continues in the program.

**Time Limit for Certificate Completion:** 2 years

**Campus Location:** Online

**Full-Time/Part-Time Status:** The graduate certificate may be completed on a part-time basis.

**Non-Matriculated Student Policy:** The certificate program is not open to non-matriculated graduate students. Courses taken in the certificate program count toward the M.S. in Health Informatics if the student continues in the program.

**Admission Requirements and Deadlines**

**Application Deadline:**
Fall and Spring admissions are on a rolling basis. Apply at [https://sophasexpress liaisoncas com/](https://sophasexpress.liaisoncas.com/).

**Bachelor’s Degree in Discipline/Related Discipline:** Applicants must hold a baccalaureate degree, having earned a cumulative GPA of 3.0 on a 4.0 scale, from an accredited college or university. Transcripts from
all postsecondary institutions attended must be uploaded at SOPHAS Express.

**Standardized Test Scores:**
Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Graduate Certificate: Health Outcomes and Measurement Science**

**COLLEGE OF PUBLIC HEALTH**

Learn more about the graduate certificate in Health Outcomes and Measurement Science.

**About the Certificate**

The Health Outcomes and Measurement Science (HOMS) graduate certificate is an interdisciplinary 12-credit certificate program offered as an online program. Students are encouraged to take classes together in groups, which facilitates career networking and enhances the learning environment as colleagues and classmates collaborate with those from different disciplines and organizations. The certificate program is designed for clinical practitioners and researchers as well as industry-outcomes specialists who are interested in integrating evidence-based health outcomes into their clinical practice, work, or research, including athletic trainers, counselors, health services researchers, nurses, occupational therapists, pastoral counselors, physical therapists, physicians, psychiatrists, psychologists, recreational therapists, and social workers.

Students who complete the certificate gain an improved understanding of health models; survey methods; and the development, application, and interpretation of person-centered health outcomes within clinical and research applications to advance their practice and research. Successful completion of the HOMS graduate certificate enables graduates to:

- Describe models of health and their use as a basis for outcome measure development in health applications;
- Apply modern approaches, including mixed methods, in the development of person-centered health outcome measures; and
- Interpret and understand the psychometric properties of person-reported health outcome measures.

**Time Limit for Certificate Completion:** 2 years

**Campus Location:** Online

**Full-Time/Part-Time Status:** The graduate certificate may be completed on a part-time basis, but all courses should be finished within a two-year period.

**Non-Matriculated Student Policy:** The certificate program is open to non-matriculated graduate students.

**Admission Requirements and Deadlines**

**Application Deadline:**
Fall and Spring admissions are on a rolling basis.

The admissions process for this graduate certificate depends on the applicant’s student status. If you are not currently a matriculated graduate student at Temple University, first submit the inquiry form found at https://cphadmissions.temple.edu/inquiryform. Then, complete Temple’s online graduate certificate application.

Students who are currently matriculated as a Temple University graduate student can complete the inquiry form and provide transcripts.
Letters of Reference:
Number Required: 2

From Whom: Recommendations are required to be submitted on the professional Reference Report for Graduate Study form from individuals who have observed and can evaluate your leadership competencies and abilities. Evaluators should be those whom you know in a professional capacity such as faculty member, supervisor, colleague, co-worker in another department who interacts with you in a professional capacity, or the like. At least one recommendation should be from an academic who can evaluate your ability to complete graduate coursework.

Bachelor’s Degree in Discipline/Related Discipline: Applicants must hold a baccalaureate degree. Official transcripts must be submitted for all postsecondary institutions attended.

Standardized Test Scores:
Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Resume: Current CV required.

Graduate Certificate: Public Health Law Research

COLLEGE OF PUBLIC HEALTH

Learn more about the graduate certificate in Public Health Law Research.

About the Certificate

The field of Public Health Law Research is defined as the scientific study of the effects of laws and legal practices on health. The graduate certificate in Public Health Law Research is a 12-credit experience intended to give students a grounding in public health law with a specific focus on empirical evaluation of policies and laws. In order to advance health through policy initiatives, it is important that there be sound evidence on which to act. Students who complete the certificate program are able to demonstrate the integration of behavioral and organizational theory with a law or policy; describe the mechanism behind a law or policy; and systematically evaluate the law or policy at the level of individual provisions, rather than just a holistic view. The culminating experience for the certificate is an independent project to evaluate a law or policy of the student’s choice and communicate the findings.

The transcripted post-baccalaureate certificate in Public Health Law Research is offered in a fully online format to both graduate students at Temple University and those outside Temple who are interested in the field. The certificate is a collaborative effort of the College of Public Health and the Beasley School of Law at Temple University.

Time Limit for Certificate Completion: 2 years

Campus Location: Online

Full-Time/Part-Time Status: The graduate certificate may be completed on a part-time basis.
Non-Matriculated Student Policy: The certificate program is not open to non-matriculated graduate students.

Admission Requirements and Deadlines

Application Deadline:
*Fall, Spring, and Summer* admissions are on a rolling basis. Interested students should contact the College of Public Health for permission to enroll in coursework.

All applicants to the Public Health Law Research certificate must apply via the Centralized Application Service for Public Health (SOPHAS). The system can be accessed at https://sophas.liaisoncas.com/.

Applicants should check their application status on the SOPHAS portal often and inquire directly of SOPHAS about receipt of materials. For other questions, please contact the CPH Office of Admissions at cph@temple.edu or 215-204-5200.

Bachelor's Degree in Discipline/Related Discipline: Applicants must hold a baccalaureate degree.

College of Public Health / School of Social Work

The School of Social Work is an integral part of Temple University's College of Public Health, which is home to various professions that seek to heal and bolster human capacities. The School of Social Work fulfills its mission of building social and economic justice to improve quality of life through teaching, research, and service.

Established at Temple University more than 40 years ago, the School of Social Work prepares its graduates to tackle such diverse issues as child welfare, community capacity building, elder abuse, health services, HIV/AIDS, homelessness, hospice services, juvenile justice, mental health, organizational diversity, poverty, substance abuse, teen pregnancy, and violence against women. The School utilizes:

• education to affect social change;
• research and scholarship to advance knowledge and generate evidence-based strategies to resolve problems;
• public research to aid the dissemination of knowledge and evidence-based strategies; and
• continued responsiveness to meet the changing needs of constituents through collaborations and partnerships with communities, agencies, and organizations.

The Master of Social Work (M.S.W.) degree program is offered today with full-time, part-time, and online options. In addition, a dual-degree program lets M.S.W. students concurrently earn their Master of Public Health (M.P.H.) degree.

• Graduate Certificate: Military Counseling (p. 774)

Graduate Faculty

For information on Graduate Faculty in the School of Social Work, please refer to the College of Public Health's Graduate Faculty page.

Social Work, M.S.W.

COLLEGE OF PUBLIC HEALTH
SCHOOL OF SOCIAL WORK

Learn more about the Master of Social Work.

About the Program

The School of Social Work is dedicated to the pursuit of societal transformations that eliminate social, political, and economic injustices for poor and oppressed populations and advance the quality of life for all through:

• Education emphasizing the discovery of knowledge, use of critical inquiry, and application of professional ethics to effect social change among social workers in front-line, supervisory, managerial, and leadership positions.
• Research and scholarship that advances applied knowledge and generates evidence-based strategies to resolve problems between people and their social environments at the local, state, national, and global levels.
• Public service that aids in the dissemination of knowledge and evidence-based strategies.
• Collaborations and partnerships with communities, agencies, and organizations in response to the needs of constituents.

Flexible programming is offered for the M.S.W. and includes:

Regular Standing — Applicants with a bachelor's degree may apply for the 60-credit M.S.W. degree, which has been accredited by the Council on Social Work Education (CSWE):

• Full-time students pursue a degree (15 credits per term) for 2 years, excluding summers. Admission for full-time study is in the Fall term only.
• Part-time students pursue their degree (6 then 9 credits per term) over a 3-year period, including summers. Admission for part-time study is in the Fall and Spring terms.

Advanced Standing — Applicants must have earned a B.S.W. degree within the last 5 years from a CSWE-accredited school of social work and be selected for advanced standing status:

• Full-time students begin in Summer I and finish in 12 months, taking 15 credits per term for two terms. Admission is in the Summer term only.
• Part-time students begin in Summer I and finish in 18 months, taking 6 or 9 credits in their first Fall, Spring, Summer, and final Fall terms. Admission is in the Summer term only.

Students who are accepted for advanced standing are awarded 25.5 credits as a result and complete 34.5 credits to earn the 60-credit M.S.W. degree accredited by CSWE.

Time Limit for Degree Completion: 5 years

Campus Location: Main (full- and part-time), Center City (part-time), and online (part-time). Most courses are offered in an in-person format for campus-based students; however, to increase choice, some courses are offered only in an online format. Students based at the Center City campus take Saturday courses in the Fall and Spring; in Summer, they take weeknight courses online or at Main campus. Center City and online students have limited concentration, specialization, and elective choices.

Full-Time/Part-Time Status: Course times are structured so as to offer a broad range of flexible options for students, many of whom are employed while engaged in their program of study at Temple. Students who are employed full-time are strongly advised to pursue the part-time program.

Interdisciplinary Study: The College of Public Health offers a dual master's degree in Social Work and Public Health. The M.S.W. can be undertaken with any of these M.P.H. programs:

• Applied Biostatistics
• Environmental Health [not currently accepting applications]
• Epidemiology
• Health Policy and Management
• Social and Behavioral Sciences

Interested applicants apply separately to each program. For more information, visit https://cph.temple.edu/mph/dual-degrees.
Study Abroad: Students are permitted to complete up to 6 credits in elective courses abroad. They should consult with their advisor about the timing of degree requirements.

Ranking: For 2018, according to U.S. News & World Report, Temple University's M.S.W. program ranks 59 out of 220 accredited schools of social work.

Accreditation: The M.S.W. degree program is accredited by the Council on Social Work Education (CSWE).

Areas of Specialization: Faculty are engaged in a number of research and service projects pertaining to child welfare, family and community violence, gender identity and sexual orientation, HIV/AIDS, homelessness, involvement of fathers in families, mental and physical health, obesity, older adults, people with disabilities, poverty, social capital development, and substance abuse.

Job Prospects: Graduates of the M.S.W. program find employment in public and private social service agencies, as well as in profit and non-profit organizations. Their work encompasses a broad range of responsibilities, including community organizing, counseling, management, program design and implementation, supervision, and training. Graduates are also employed in many different fields of practice, such as adoption support, aging, child protection, developmental disabilities, employment-based social work, HIV/AIDS, hospice care, medical social work, mental health counseling, school social work, and substance abuse.

Licensure: States vary in their requirements for a license to practice social work. Many also offer different levels of licensing. Graduates should contact their local chapter of the National Association of Social Workers (NASW) for information on the specific requirements for licensing in their state. For more information about state licensure, see https://www.aswb.org/licensees/about-licensing-and-regulation/social-work-regulation/.

Non-Matriculated Student Policy: Students must apply for the M.S.W. and be offered a non-matriculated student option. This option is for students who are ultimately seeking the M.S.W. but do not fully meet the admissions requirements.

Financing Opportunities: The School of Social Work awards some aid each year to assist meritorious applicants and continuing students in meeting the cost of their educational program. Awards include partial scholarships, government training grants, and stipends provided by local public and voluntary agencies. Awards are made on the basis of academic merit and the overall promise shown by an applicant for contributing to the School and to the profession. Additional considerations include interest in particular areas of practice for which special funding is available; service in the military, AmeriCorps, AmeriCorps VISTA, or the Peace Corps; and the School’s commitment to maintaining diversity in the student body. Some awards are granted at program admission, while others are designed to support our advanced year, continuing students.

Most awards made by the School of Social Work ordinarily meet only part of the student's total educational expenses. All students are, therefore, expected to make use of available family and other resources as well as federal grant, loan, and work-study assistance to help meet the cost of their education. Temple University's Office of Student Financial Services provides assistance with the federal grant/loan/work-study application process.

Admission Requirements and Deadlines

Application Deadline:

Fall Regular Admission:
- January 15 – Priority Deadline for Scholarship Consideration
- May 1 – Final Application Deadline

Spring Regular Admission: November 1

Summer Advanced Standing Admission:
- January 15 – Priority Deadline for Scholarship Consideration
- April 1 – Final Application Deadline

All applicants to the M.S.W. program must apply via the Social Work Centralized Application Service (SocialWorkCAS) at https://socialworkcas.liaisoncas.com/.

Applicants who desire to be considered for School of Social Work scholarships must submit their application by the stated deadlines. Applications are processed as they are completed up to the deadline date. Admission to Temple's M.S.W. program is competitive, so applicants are advised to apply early and to ensure that all supporting documents are received by the SocialWorkCAS system before the deadline.

Letters of Reference:
Number Required: 3, with submission made at https://socialworkcas.liaisoncas.com

From Whom: For regular entry, letters of recommendation should be obtained from faculty and professionals familiar with the applicant's academic competence and/or professional work experience. Applicants who have graduated from college within the last five years should submit at least one reference from a professor or an official of the degree-granting institution. Those with employment experience in the social services or a related field should submit at least one reference from a supervisor or administrator at their place of employment.

If seeking advanced standing, applicants should obtain three references, one of which should be prepared by the B.S.W. Program Director, Senior Practice Seminar Course Instructor, Field Instructor, or Field Coordinator. The letter should indicate the applicant’s readiness for advanced standing.

Coursework Required for Admission Consideration: Social Work education draws heavily from the rich and broad foundation provided by a liberal arts curriculum. All applicants are expected to have completed an undergraduate course of study reflecting this liberal arts foundation.

Bachelor's Degree in Discipline/Related Discipline: All applicants must present credentials that are the equivalent of an accredited baccalaureate degree. The minimum acceptable undergraduate GPA for regular entry applicants is 3.0 on a 4.0 scale or 3.5 in the last 2 years of study (i.e., 60 credits of the bachelor's degree). In addition, an applicant who has completed at least 9 credits of graduate coursework with a cumulative GPA of 3.25 may be considered for admission.

A bachelor's degree in Social Work (B.S.W.) is not required except for advanced standing applicants. Applicants for advanced standing must have achieved an undergraduate GPA of 3.25 in all undergraduate coursework and at least 3.25 in their junior/senior years. For detailed
Students who have completed their foundation year at another graduate school of social work may also be eligible to transfer in their foundation year credits if they meet the criteria.

Program Requirements

General Program Requirements:
Number of Credits Required Beyond the Baccalaureate: 60, including 30 in foundation coursework and 30 in advanced-level study

Required Courses:
Students are exposed to multiple methods of intervention through foundation coursework. The courses are generalist in nature, allowing students to become familiar with the breadth of social work. Courses cover content in human behavior and the social environment, research, social welfare policy, and social work practice.

Students then select from a range of advanced-level coursework that allows them to examine in greater depth a practice modality (or concentration) and a field of practice (or specialization). Each concentration requires two practice courses, an advanced field placement, and one research course. Two concentrations are offered:

- Clinical Practice
- Macro Practice

Students also take coursework relevant to their chosen specialization. Each specialization requires a policy course and a human behavior and social environment course. Two major areas of specialization are currently offered because they are of critical importance in Social Work practice:

- Children and Families
- Health and Mental Health

Students may also propose an individualized option for a specialization by working with their advisor to design a coherent plan of study that includes the two types of advanced courses required for a specialization. In some cases, students may need to complete courses outside of the discipline of Social Work. As part of an individualized specialization plan, former students have taken courses in Criminal Justice, Geography and Urban Studies, and Gender, Sexuality, and Women's Studies. Not all courses are available in an online format.

Advanced Courses

Required Test Scores:
Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

Clearances: The Social Work M.S.W. program requires students to complete clinical/field education experiences at facilities both on and off Temple University’s campuses. These placements require criminal background checks, Act 33/34 clearances, and perhaps a drug screen. Placements may also require the student to maintain personal health insurance. The results of these requirements may limit and potentially eliminate placement options for the student, thus resulting in her/his/their inability to meet graduation requirements. Additionally, conviction of a misdemeanor, felony, or felonious or illegal act may prevent the student from becoming credentialed and/or licensed to practice social work.

Resume: Current professional resume required.

Advanced Standing: Applicants from a B.S.W. program accredited by the Council on Social Work Education (CSWE) may be eligible for advanced standing. This enables students, after a required summer ‘bridge’ course that begins in June, to start the second year of study at the advanced curriculum level in their area of specialization. To be considered for advanced standing, students must, in addition to meeting minimum requirements, have:

- earned the B.S.W. no more than five years prior to applying;
- achieved an overall undergraduate GPA of 3.25, in addition to a 3.25 GPA in their junior and senior years; and
- received no more than one ‘C’ grade in Social Work courses; that is, all other Social Work grades must be ‘B’ or better.

Applicants for advanced standing must also submit:

- Three references, preferably one from the Senior Practice Seminar Course Instructor, one from the applicant’s Field Instructor for the senior practicum, and the third from the B.S.W. Program Director or another academic source.
- A copy of the Field Instructor’s evaluation form from the undergraduate placement.

Students may also propose an individualized option for a specialization by working with their advisor to design a coherent plan of study that includes the two types of advanced courses required for a specialization. In some cases, students may need to complete courses outside of the discipline of Social Work. As part of an individualized specialization plan, former students have taken courses in Criminal Justice, Geography and Urban Studies, and Gender, Sexuality, and Women’s Studies. Not all courses are available in an online format.
### Integrative Seminar (Specialization Practice)

- **SSWG 8116** Grassroots Mobilization: In the US and Internationally

**Electives** 4 6

**Field Practica**

- **SSWG 8187** Advanced Field Practicum I
- **SSWG 8188** Advanced Field Practicum II

**Total Credit Hours** 60

---

1. During the first week of the term of their initial entry into the M.S.W. program, all incoming regular entry students have the opportunity to complete a test-out exam for the following courses: SSWG 5001, SSWG 5002, SSWG 5003, SSWG 5005, and SSWG 5006. Students who earn a score of 80% or higher on a test-out exam are not required to complete the associated required course, but are required to successfully complete 3 credits of electives in place of each required course. That is to say, all regular entry M.S.W. students are required to successfully complete 60 credits of coursework, even if they test out of any required course(s), to earn the degree.

2. This common College Core course is required of all incoming graduate students in the College of Public Health. It is available completely online and designed such that students can complete the modules at their own pace over the course of their degree program.

3. Unless transfer credits fulfill them, 30 credits of advanced-level courses are required. A portion of these 30 credits are earned in the advanced field practicum experiences described under ‘Internship’ below.

4. With advance review and approval from the M.S.W. Program Director, students may take electives outside of the School of Social Work and/or independent study courses to fulfill the electives requirement.

**Internship:** Two internships are required in the form of a field practicum, which is an essential part of Social Work studies and is deliberately linked in an integral way with classroom learning. The practicum occurs concurrently with Social Work practice courses or can be taken as a block placement in the Summer sessions. (At this time, block placements are available only to campus-based students, not online students.) In order to ensure a quality learning experience for students, the Office of Field Education is responsible for arranging and overseeing field practica. Students employed in social service settings may undertake their practica at their place of employment, but field placement activities must be substantially different than job duties. Because of accreditation and M.S.W. curriculum requirements, students must have appropriate learning experiences and supervision; therefore, they should plan on allocating at least one full day during the regular work week to the practica.

The first field practicum, taken as part of the foundation curriculum, focuses on developing proficiency in generalist practice/basic Social Work skills. This includes learning to engage and assess a range of clients, including individuals, families, groups, organizations, and communities. Students learn to identify issues, needs, resources, and strengths. They also acquire skills in planning, communication, supervision, and consultation as well as intervention, cultural competence, evidence-based practice, and evaluation. This two-term practicum requires a minimum of 450 hours (usually 2.5 days per week).

With the second field practicum, taken as part of the advanced curriculum, students develop expertise in their chosen specialization and concentration. This practicum allows for in-depth development of skills and application of theory and concepts, exploration of ethical challenges, and continued cultural competency. This two-term practicum requires a minimum of 600 hours (usually three days per week).

Graduate Certificate: Military Counseling

COLLEGE OF PUBLIC HEALTH
SCHOOL OF SOCIAL WORK

Learn more about the graduate certificate in Military Counseling.

About the Certificate

The post-master's certificate in Military Counseling is designed to help practitioners meet the public health challenge that exists as a result of U.S. service members returning to their communities and facing a number of issues following deployment, such as the effects of trauma, post-traumatic stress disorder (PTSD) and traumatic brain injury (TBI), family relationship strain, substance abuse, mental health issues, and readjustment difficulties. The certificate allows practitioners to improve their clinical versatility and skills by providing students with the theory, skills, and knowledge necessary for clinical practice with military service members, veterans, and families. Clinical practice with the military, not unlike other facets of clinical practice, must keep in mind the unique culture of the individual within the context of their unique environment and history.

Learning modules for the certificate program include military culture, the signature (invisible) wounds of contemporary conflicts, the military family, military children, female warriors and veterans, military health care, and contemporary community response. Students learn to:

• Describe military culture, including guard and reserve branches of the military;
• Enumerate issues unique to the military family, military health, and mental health care;
• Refine critical thinking about the interface among military culture, military policy, developmental issues, human biology/neuroscience, and social work and human service practice at the micro and macro levels so students can analyze the interacting aspects of a practice issue in order to consider them in making practice decisions;
• Distinguish among sources of knowledge to synthesize and apply appropriate evidence needed to do an assessment, create an intervention plan, design a program/delivery system, or develop policy for various military subpopulations;
• Develop skills needed to provide prevention, treatment, and rehabilitative services to service members, veterans, their families, and their communities;
• Develop specialized advanced clinical practice skills applicable to individuals, families, and groups within the military population; and
• Identify ways to develop and implement programs, policies, and procedures to improve the quality of life for service members, veterans, their families, and their communities.

Time Limit for Certificate Completion: 2 years

Campus Location: Online

Full-Time/Part-Time Status: The graduate certificate may be completed on a part-time basis.

Job Prospects: The certificate program develops in practitioners, such as social workers, counselors, pastoral counselors, psychiatrists, and psychologists, a practice specialization with military populations within U.S. Department of Defense (DOD) and U.S. Department of Veterans Affairs (VA) settings and/or the larger community. Graduates attain the knowledge and skills necessary to practice with all branches of armed forces at the DOD and with veterans of all eras and their families in VA and non-VA settings.

Non-Matriculated Student Policy: The certificate program is not open to non-matriculated graduate students.

Admission Requirements and Deadlines

Application Deadline:
Fall and Spring admissions are on a rolling basis. Interested students need to apply for admission to the certificate program. To submit an application, forward a statement of interest, three letters of reference, and graduate transcript(s) to the School of Social Work.

Master's Degree in Discipline/Related Discipline: Applicants must hold a master's or doctoral degree from an accredited university in a related field of study, including but not limited to social work, counseling, pastoral counseling, psychiatry, or psychology.

Bachelor's Degree in Discipline/Related Discipline: Applicants must hold a baccalaureate degree.

Certificate Requirements

Number of Credits or CEUs Required to Complete the Certificate: 12 credits or 140 CEUs

Required Courses in Sequence:

<table>

or SWMC 0007

Elective selected from these courses: [3](#)

SSWG 8811  Alcohol and Substance Abuse  
or SWMC 0011 (35 CEUs)

SSWG 8814  Loss and Grief  
or SWMC 0014 (35 CEUs)

SSWG 8824  Assessment and the DSM  
or SWMC 0024 (35 CEUs)

SSWG 9817  Clinical Military Practice and the Invisible Wounds of War [4](#)  
or SWMC 0017 (35 CEUs)

Total Credit Hours [1](#)

Courses may be taken for graduate credit or for continuing education (non-credit) units. Before enrolling in their first course, students must decide if they are taking coursework for credit or non-credit. They are then required to complete all coursework similarly for credit or non-credit; switching from one option to the other is not permitted. Registration for credit-bearing courses is managed through Banner. All courses earn 3 credits. Registration for non-credit courses is managed through the Destiny One platform. Each course affords 35 CEUs (non-credit) for licensed social workers (LSW, LCSW, LCSW-C) or licensed professional counselors (LPC). CEUs earned in Temple University’s Military Counseling certificate program can also be used toward the Military Service Members, Veterans, and Their Families — Clinical Social Worker (MVF-CSW) credential offered by the National Association of Social Workers. While CEU certificates are issued at the conclusion of each course, a separate certificate is issued upon completion of the certificate program.

College of Science and Technology

With more than 4,000 students, the College of Science and Technology (CST) is one of Temple University’s fastest growing schools. Students work side-by-side with experienced faculty researchers in the laboratory, field, and classroom. Since 2007, external funding for advanced research has more than doubled, creating new opportunities for CST’s more than 200 world-class faculty members. Excellence begins with faculty members who inspire and challenge every student.

CST’s efforts to advance the quality of research, education, and engagement with the world are greatly enhanced by its state-of-the-art Science Education and Research Center (SERC). As of Fall 2014, SERC is home to advanced laboratories and classrooms designed to attract talented students and scholars and foster interdisciplinary research. It is one of the most advanced facilities of its kind on the East Coast.

A cornerstone of CST’s graduate programs is research with a focus on advancing knowledge and finding solutions to today’s toughest challenges. This real-world, hands-on approach is ideal for preparing students for careers in academia and industry — or as entrepreneurs in the computer, science, and technological fields. Students work closely with world-class researchers to understand the science, hone their investigation skills, and ask pertinent and important questions. Professors create an environment that encourages inquiry and rewards hard work.

Programs

Degree Programs and Certificates

• Bioinformatics, P.S.M. (p. 779)
• Bioinformatics, Ph.D. (p. 781)
• Bioinnovation, P.S.M. (p. 784)
• Biology, M.A. (p. 786)
• Biology, M.S. (p. 788)
• Biology, Ph.D. (p. 790)
• Biotechnology, P.S.M. (p. 792)
• Chemistry, M.S. (p. 794)
• Chemistry, Ph.D. (p. 796)
• Computational Data Science, M.S. (p. 798)
• Computer and Information Science, Ph.D. (p. 800)
• Computer Science, M.S. (p. 803)
• Cyber Defense and Information Assurance, P.S.M. (p. 805)
• Forensic Chemistry, P.S.M. (p. 807)
• Geology, M.S. (p. 808)
• Geoscience, Ph.D. (p. 809)
• High-Performance Computing for Scientific Applications, P.S.M. (p. 811)
• Information Science and Technology, M.S. (p. 813)
• Mathematics, M.S. (p. 815)
• Mathematics, Ph.D. (p. 817)
• Physics, M.S. (p. 820)
• Physics, Ph.D. (p. 821)
• Scientific Writing, P.S.M. (p. 823)
• Graduate Certificate: Bioinformatics (p. 825)
• Graduate Certificate: Biotechnology (p. 827)
• Graduate Certificate: Computer Science (p. 828)
• Graduate Certificate: Computer Science Instruction (p. 829)
• Graduate Certificate: Information Science and Technology (p. 830)
• Graduate Certificate: Scientific Writing (p. 831)

Graduate Faculty

Shohreh Amini, Professor, Department of Biology, College of Science and Technology; Ph.D., University of Pennsylvania.

Rodrigo B. Andrade, Professor, Department of Chemistry, College of Science and Technology; Ph.D., Massachusetts Institute of Technology.

Darius Balciunas, Associate Professor, Department of Biology, College of Science and Technology; Ph.D., Uppsala University.

Jocelyn Behm, Assistant Professor, Department of Biology, College of Science and Technology; Ph.D., University of Wisconsin-Madison.

Richard Beigel, Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., Stanford University.

Shiferaw S. Berhanu, Professor, Department of Mathematics, College of Science and Technology; Ph.D., Rutgers University.

Eric U. Borguet, Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of Pennsylvania.

Ilya V. Buynevich, Associate Professor, Department of Earth and Environmental Science, College of Science and Technology; Ph.D., Boston University.

Vincenzo Carnevale, Assistant Professor (Research), Department of Biology, College of Science and Technology; Ph.D., International School for Advanced Studies, Trieste.

Steven M. Chemtob, Assistant Professor, Department of Earth and Environmental Science, College of Science and Technology; Ph.D., California Institute of Technology.

Ke Chen, Associate Professor (Research), Department of Physics, College of Science and Technology; Ph.D., Chinese Academy of Sciences.

Martha Constantinou, Assistant Professor, Department of Physics, College of Science and Technology; Ph.D., University of Pennsylvania.

Erik Cordes, Professor, Department of Biology, College of Science and Technology; Ph.D., The Pennsylvania State University.

Hai-Lung Dai, Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of California Berkeley.

Boris A. Datskovsky, Professor, Department of Mathematics, College of Science and Technology; Ph.D., Harvard University.

Alexandra Krull Davatzes, Associate Professor, Department of Earth and Environmental Science, College of Science and Technology; Ph.D., Stanford University.

Nicholas Davatzes, Associate Professor, Department of Earth and Environmental Science, College of Science and Technology; Ph.D., Stanford University.
Graham Dobereiner, Associate Professor, Department of Chemistry, College of Science and Technology; Ph.D., Yale University.

Vasily Dolgushev, Professor, Department of Mathematics, College of Science and Technology; Ph.D., Massachusetts Institute of Technology.

Eduard Dragut, Associate Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., University of Illinois at Chicago.

Xiaojiang Du, Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., University of Maryland College Park.

Ananias A. Escalante, Professor, Department of Biology, College of Science and Technology; Ph.D., University of California Irvine.

Mark A. Feitelson, Professor, Department of Biology, College of Science and Technology; Ph.D., University of California Los Angeles.

Amy Freestone, Associate Professor, Department of Biology, College of Science and Technology; Ph.D., University of California Davis.

David Futer, Associate Professor, Department of Mathematics, College of Science and Technology; Ph.D., Stanford University.

Edward T. Gwiazdski, Associate Professor, Department of Physics, College of Science and Technology; Ph.D., Boston University.

Antonio Giordano, Professor, Department of Biology, College of Science and Technology; Ph.D., University of Trieste.

Yury Grabovsky, Professor, Department of Mathematics, College of Science and Technology; Ph.D., New York University.

David E. Grandstaff, Professor, Department of Earth and Environmental Science, College of Science and Technology; Ph.D., Princeton University.

Alexander Gray, Assistant Professor, Department of Physics, College of Science and Technology; Ph.D., Lawrence Berkeley National Laboratory and University of California, Davis.

Yuhong Guo, Associate Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., University of Alberta.

Cristian E. Gutiérrez, Professor, Department of Mathematics, College of Science and Technology; Ph.D., University of Buenos Aires.

Raymond Habas, Professor, Department of Biology, College of Science and Technology; Ph.D., State University of New York Stony Brook.

Xubin He, Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., University of Rhode Island.

Stephen Blair Hedges, Professor, Department of Biology, College of Science and Technology; Ph.D., University of Maryland.

Matthew Richard Helmus, Assistant Professor, Department of Biology, College of Science and Technology; Ph.D., University of Wisconsin-Madison.

Emanuel B. Hey, Professor, Department of Biology, College of Science and Technology; Ph.D., State University of New York Stony Brook.

S. Tonia Hsieh, Associate Professor, Department of Biology, College of Science and Technology; Ph.D., Harvard University.

Maria Iavarone, Professor, Department of Physics, College of Science and Technology; Ph.D., University of Napoli Federico II.

Mihaela Ignatova, Assistant Professor, Department of Mathematics, College of Science and Technology; Ph.D., University of Southern California.

Susan A. Jansen-Varnum, Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of Missouri-St. Louis.

Bo Ji, Associate Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., The Ohio State University.

Krishna Kant, Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., University of Texas at Dallas.

Bojeong Kim, Assistant Professor, Department of Earth and Environmental Science, College of Science and Technology; Ph.D., Cornell University.

Isaac Klapper, Professor, Department of Mathematics, College of Science and Technology; Ph.D., New York University Courant Institute of Mathematical Sciences.

Michael L. Klein, Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of Bristol.

James F. Korsh, Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., University of Pennsylvania.

Rob J. Kulathinal, Assistant Professor, Department of Biology, College of Science and Technology; Ph.D., McMaster University.

Sudhir Kumar, Professor, Department of Biology, College of Science and Technology; Ph.D., The Pennsylvania State University.

Eugene Kwatny, Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., Drexel University.

Paul S. LaFollette Jr., Associate Professor, Department of Computer and Information Sciences, College of Science and Technology; M.D., Temple University.

Longin Jan Latecki, Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., University of Hamburg.

Edward S. Letzter, Professor, Department of Mathematics, College of Science and Technology; Ph.D., University of Washington.

Robert J. Levis, Professor, Department of Chemistry, College of Science and Technology; Ph.D., The Pennsylvania State University.

Ronald M. Levy, Professor, Department of Chemistry, College of Science and Technology; Ph.D., Harvard University.

David A. Liberles, Associate Professor, Department of Biology, College of Science and Technology; Ph.D., California Institute of Technology.
Chyanlong Lin, Associate Professor, Department of Physics, College of Science and Technology; Ph.D., Temple University.

Martin W. Lorenz, Professor, Department of Mathematics, College of Science and Technology; Ph.D., Universität Giessen.

A. Marjatta Lyra, Professor, Department of Physics, College of Science and Technology; Ph.D., University of Stockholm.

Carol M. Manhart, Assistant Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of Colorado Boulder.

C. Jeffrey Martoff, Professor, Department of Physics, College of Science and Technology; Ph.D., University of California Berkeley.

Spiridoula Matsika, Professor, Department of Chemistry, College of Science and Technology; Ph.D., The Ohio State University.

Gerardo A. Mendoza, Professor, Department of Mathematics, College of Science and Technology; Ph.D., Massachusetts Institute of Technology.

Andreas Metz, Associate Professor, Department of Physics, College of Science and Technology; Ph.D., Institut Für Kernphysik Universität Mainz.

Zein-Eddine Meziani, Professor, Department of Physics, College of Science and Technology; Ph.D., Université de Paris XI.

Irina Mitrea, Professor, Department of Mathematics, College of Science and Technology; Ph.D., University of Minnesota.

Anna Moore, Assistant Professor, Department of Biology, College of Science and Technology; Ph.D., UCONN Health Center.

Atsuhiro Muto, Assistant Professor, Department of Earth and Environmental Science, College of Science and Technology; Ph.D., University of Colorado.

James Napolitano, Professor, Department of Physics, College of Science and Technology; Ph.D., Stanford University.

Allen W. Nicholson, Professor, Department of Biology, College of Science and Technology; Ph.D., University of Pennsylvania.

John T. Nosek, Professor Emeritus, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., Temple University.

Jonathan Nyquist, Professor, Department of Earth and Environmental Science, College of Science and Technology; Ph.D., University of Wisconsin.

Zoran Obradovic, Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., The Pennsylvania State University.

Karen B. Palter, Associate Professor, Department of Biology, College of Science and Technology; Ph.D., Princeton University.

Susan Patterson, Professor, Department of Biology, College of Science and Technology; Ph.D., University of Washington.

Jamie Payton, Associate Professor, Department of Computer and Information Sciences, College of Science and Technology; D.Sc., Washington University.

John P. Perdew, Professor, Department of Physics, College of Science and Technology; Ph.D., Cornell University.

Sergei L. Kosakovsky Pond, Professor, Department of Biology, College of Science and Technology; Ph.D., University of Arizona.

Sean Gillian Queisser, Associate Professor, Department of Mathematics, College of Science and Technology; Ph.D., Ruprecht-Karls University of Heidelberg.

Sujith Ravi, Assistant Professor, Department of Earth and Environmental Science, College of Science and Technology; Ph.D., University of Virginia.

Brian Rider, Professor, Department of Mathematics, College of Science and Technology; Ph.D., New York University Courant Institute of Mathematical Sciences.

Peter S. Riseborough, Professor, Department of Physics, College of Science and Technology; Ph.D., Imperial College London.

Igor Rivin, Professor, Department of Mathematics, College of Science and Technology; Ph.D., Princeton University.

Adrienn Ruzsinszky Perdew, Associate Professor, Department of Physics, College of Science and Technology; Ph.D., Budapest University of Technology and Economics.

Robert W. Sanders, Professor, Department of Biology, College of Science and Technology; Ph.D., University of Georgia.

Christian E. Schafmeister, Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of California San Francisco.

Joshua G. Schraiber, Assistant Professor, Department of Biology, College of Science and Technology; Ph.D., University of California Berkeley.

Benjamin Seibold, Associate Professor, Department of Mathematics, College of Science and Technology; Ph.D., University of Kaiserslautern.

Brent Sewall, Assistant Professor, Department of Biology, College of Science and Technology; Ph.D., University of California Davis.

Joel B. Sheffield, Professor, Department of Biology, College of Science and Technology; Ph.D., University of Chicago.

Yuan Justin Shi, Associate Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., University of Pennsylvania.

Scott M. Sieburth, Professor, Department of Chemistry, College of Science and Technology; Ph.D., Harvard University.

Richard Souvenir, Associate Professor, Department of Computer and Information Sciences, College of Science and Technology; D.Sc., Washington University.

Francis C. Spano, Professor, Department of Chemistry, College of Science and Technology; Ph.D., Princeton University.

Nikolaos Sparveris, Assistant Professor, Department of Physics, College of Science and Technology; Ph.D., University of Athens.

Rachel Spigler, Assistant Professor, Department of Biology, College of Science and Technology; Ph.D., University of Georgia.
Robert J. Stanley, Professor, Department of Chemistry, College of Science and Technology; Ph.D., The Pennsylvania State University.

Matthew Stover, Associate Professor, Department of Mathematics, College of Science and Technology; Ph.D., University of Texas at Austin.

Daniel R. Strongin, Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of California Berkeley.

Yugang Sun, Associate Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of Science and Technology of China.

Bernd Surrow, Professor, Department of Physics, College of Science and Technology; Ph.D., University of Hamburg.

Daniel B. Szyld, Professor, Department of Mathematics, College of Science and Technology; Ph.D., New York University.

Chiu Chiang Tan, Associate Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., College of William and Mary.

Rongjia Tao, Professor, Department of Physics, College of Science and Technology; Ph.D., Columbia University.

Samuel J. Taylor, Assistant Professor, Department of Mathematics, College of Science and Technology; Ph.D., University of Texas at Austin.

Dennis O. Terry Jr., Associate Professor, Department of Earth and Environmental Science, College of Science and Technology; Ph.D., University of Nebraska.

Laura Toran, Professor, Department of Earth and Environmental Science, College of Science and Technology; Ph.D., University of Wisconsin.

Darius H. Torchinsky, Assistant Professor, Department of Physics, College of Science and Technology; Ph.D., Massachusetts Institute of Technology.

Allison Tumarkin-Deratzian, Associate Professor (Teaching/Instructional), Department of Earth and Environmental Science, College of Science and Technology; Ph.D., University of Pennsylvania.

Ann M. Valentine, Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of Pennsylvania.

Vincent Voelz, Associate Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of California San Francisco.

Slobodan Vucetic, Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., Washington State University.

Anduo Wang, Assistant Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., University of Pennsylvania.

Pei Wang, Associate Professor (Teaching/Instructional), Department of Computer and Information Sciences, College of Science and Technology; Ph.D., Indiana University.

Rongsheng Wang, Associate Professor, Department of Chemistry, College of Science and Technology; Ph.D., Washington University in St. Louis.

Richard B. Waring, Associate Professor, Department of Biology, College of Science and Technology; Ph.D., Essex University.

Bradford B. Wayland, Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of Illinois.

Sarah Elizabeth Wengrynuk, Assistant Professor, Department of Chemistry, College of Science and Technology; Ph.D., Stanford University.

Katherine A. Willets, Associate Professor, Department of Chemistry, College of Science and Technology; Ph.D., Duke University.

Jie Wu, Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., Florida Atlantic University.

Xifan Wu, Assistant Professor, Department of Mathematics, College of Science and Technology; Ph.D., Rutgers University.

Stephanie L. Wunder, Professor, Department of Chemistry, College of Science and Technology; Ph.D., University of Massachusetts.

Xiaoxing Xi, Professor, Department of Physics, College of Science and Technology; Ph.D., Peking University and Institute of Physics.

Qimin Yan, Assistant Professor, Department of Physics, College of Science and Technology; Ph.D., University of California Santa Barbara.

Wei-Shih Yang, Professor, Department of Mathematics, College of Science and Technology; Ph.D., Cornell University.

Atilla Yilmaz, Associate Professor, Department of Mathematics, College of Science and Technology; Ph.D., New York University.

Tan Yuen, Associate Professor, Department of Physics, College of Science and Technology; Ph.D., Temple University.

Michael J. Zdilla, Associate Professor, Department of Chemistry, College of Science and Technology; Ph.D., Princeton University.

Kai Zhang, Associate Professor, Department of Computer and Information Sciences, College of Science and Technology; Ph.D., Hong Kong University of Science and Technology.

Bioinformatics, P.S.M.

COLLEGE OF SCIENCE AND TECHNOLOGY

Learn more about the Professional Science Master’s in Bioinformatics.

About the Program

Bioinformatics is the science that happens when computers are joined with the latest discoveries in genomics, biochemistry, and biophysics. It is a rapidly growing field that brings together elements of biology, chemistry, computer science, physics, and statistics. The Bioinformatics degree at Temple University, a leader in the field, is a two-year Professional Science Master’s (P.S.M.) degree that features:

• an interdisciplinary approach involving scientists from across Temple University;
• classes taught by esteemed tenure and tenure-track faculty as well as by our industry and government partners;
• hands-on training in professional and management skills;
• partnerships with industry and government leaders, including a diverse and active External Advisory Board;
• access to real-world independent research projects; and
• an applied focus on responsibility and ethics in research and policy.

Time Limit for Degree Completion: 2 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Most of the classes are offered in the evenings or on weekends to enable full-time working professionals to be enrolled in the program. International students are required to register as full-time students.

Interdisciplinary Study: Students in the Temple University Bioinformatics master’s degree program benefit from an advanced curriculum developed by leading Temple faculty in the Departments of Biology, Chemistry, and Computer and Information Sciences. The program has been designed to provide students with extensive skills in computer programming as well as deep knowledge in genomics and structural biology. All three areas are required in this challenging and exciting field. Because the degree is a Professional Science Master’s, the program also offers:

• professional skills through courses in professional development;
• a research internship in a biotech company or other research center; and
• connections to key employers in the Philadelphia area.

Accreditation: Temple University is fully accredited by the Middle States Commission on Higher Education.

Areas of Specialization: The degree program designed by some of the top scientists in the areas of genomics, evolutionary medicine, and structural bioinformatics allows students to specialize in Genetics/Genomics, Structural Bioinformatics, or Computational Bioinformatics as part of the capstone research and choice of electives. Students are trained to analyze genomic and proteomic data generated from large-scale sequencing and related efforts that form the foundation of personalized medicine.

Job Prospects: Official job placement is not offered, but Bioinformatics is an area of rapid job growth and has become an essential part of healthcare research and the biotechnology and pharmaceutical industries. Graduates of P.S.M. programs are in high demand, which underscores the P.S.M. as an attractive career path for those who do not wish to become academic researchers or pursue a doctorate.

Non-Matriculated Student Policy: Non-matriculated students may enroll in a total of three courses (9 credits) with permission of the instructor and the Biology Department.

Financing Opportunities: Financial assistance in the form of Research or Teaching Assistantships is not offered at this time.

Admission Requirements and Deadlines

Application Deadline:

Fall: March 1; December 15 international

Applications are processed on a continual basis. Ordinarily, the applicant is informed of an admissions decision within four to six weeks of receipt of all supporting application documents. Late applications may be considered for admission.

APPLY ONLINE to this graduate program.

Letters of Reference:

Number Required: 2

From Whom: Letters should be obtained from college/university faculty or faculty who are familiar with the applicant's competency. If the applicant has an established career in a related field, the applicant’s immediate supervisor should provide one of the letters.

Coursework Required for Admission Consideration: Applicants should have a strong background in one or more STEM fields: Science, Technology, Engineering, and Mathematics.

Bachelor’s Degree in Discipline/Related Discipline: The Bioinformatics P.S.M. program has been designed for recent graduates and professionals who have a bachelor's degree or equivalent in a STEM field.

Statement of Goals: In approximately 500 to 1,000 words, specify your interest in the Bioinformatics P.S.M. program, your career goals, and your academic and professional achievements.

Standardized Test Scores:

GRE: Required. A combined minimum score of 305 on the quantitative and verbal reasoning sections of the new test is expected.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

• TOEFL iBT: 90
• IELTS Academic: 6.5
• PTE Academic: 61

Interview: An in-person or SKYPE interview is required.

Transfer Credit: Graduate credits from an accredited institution may be transferred into the Bioinformatics P.S.M. program. The credits must be equivalent to coursework offered by the Biology Department at Temple University. A grade of ‘B’ or better must have been earned for the credits to transfer. The P.S.M. in Bioinformatics Steering Committee makes recommendations to the Department Chair for transferring credit on an individual basis. The maximum number of credits a student may transfer is 6.

Total Credit Hours: 30

1. BIOL 9995 is taken for a total of three credits over two terms, as shown in the Plan of Study Grid below.

2. Students choose elective courses within any one of the three departmental foundations for the program, i.e., Biology, Chemistry, or Computer and Information Sciences.

### Culminating Events:

**Capstone Project:**
BIOL 9995 Capstone Project constitutes a culminating event of the Bioinformatics P.S.M. and requires the submission of a written project and oral presentation of the results. Capstone research may be completed in any laboratory at Temple University at the invitation of the Principal Investigator (PI) or through an internship/co-op/full-time job in the field of Bioinformatics in industry, the healthcare system, or a government agency. Since all P.S.M. in Bioinformatics classes are offered in the evening, students can avail themselves of these opportunities during the day. The process of locating internships is facilitated by the P.S.M. in Bioinformatics program based on the specific research and career interests of the individual student.

COLLEGE OF SCIENCE AND TECHNOLOGY

Learn more about the Doctor of Philosophy in Bioinformatics.

### About the Program

Bioinformatics is a field of study that lies primarily at the intersection of the biological and computational sciences and includes significant elements of biochemistry, mathematics, and statistics. The shared theme of this broad discipline is the application of sophisticated computing tools to address problems in biomedical research.
technologies to address questions on typically massive amounts of biological data.

The Ph.D. in Bioinformatics offers students rigorous advanced training in this expanding field. Broad preparation is offered in major research areas in bioinformatics through formal courses in core subject areas. Students are prepared for careers in industry, government, and academia.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time study is required.

**Interdisciplinary Study:** The program itself is explicitly interdisciplinary, as students are expected to develop specialized knowledge in one or more areas of the life sciences, as well as develop expertise in computational approaches to analyzing large amounts of data. While the program is administered through the Department of Biology, faculty from several departments in the College of Science and Technology teach coursework. Thus, a student’s primary advisor may come from a department other than Biology.

**Areas of Specialization:** Students focus on one of four main areas of concentration:

- Biological Data Analysis
- Evolutionary Genomics
- Evolutionary Medicine
- Structural Bioinformatics

**Job Prospects:** This program produces well-trained bioinformaticians who can be employed across a broad range of informatics fields, including the health professions, pharmaceutical and biotechnology, governmental agencies, as well as academia.

**Non-Matriculated Student Policy:** Non-matriculated students may enroll in a total of three courses (9 credits) with permission of the instructor and the department.

**Financing Opportunities:** Temple University offers a limited number of fellowships to support outstanding students in the doctoral program. Fellowships typically provide support, including a stipend and tuition, for two years.

Additional support is available in the form of Teaching and Research Assistantships. The principal duties of a Teaching Assistant include assisting faculty in the classroom; offering field and laboratory instruction; preparing materials for demonstration; conducting tutorials and laboratory sessions; and grading labs, quizzes, and tests. Attendance at weekly laboratory preparation sessions is required. The duties of a Research Assistant vary depending on the faculty member or principal investigator who is directing a specific research project. The appropriate project(s) are determined by consultation between the student and the student’s academic and research advisors. Research Assistants are expected to devote 20 hours per week to research obligations. Both Teaching and Research Assistantships typically provide a nine-month academic-year stipend and full tuition remission (up to 9 credits per term), but are generally awarded on a per term basis. Summer stipends are also available. Assistantships are awarded competitively.

**Admission Requirements and Deadlines**

**Application Deadline:**

- Fall: January 5; November 15 international
- Spring: October 15; August 1 international

To be considered for a University fellowship, applications must be complete and on file by January 5.

Matriculation in the Fall is highly recommended. Late applications may be considered for admission.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

**Number Required:** 3

**From Whom:** Letters of recommendation should be obtained from college/university faculty whose research and teaching are in relevant areas, and who are familiar with the applicant’s academic and/or research or computational abilities. Letters should be sent to cstgrad@temple.edu.

**Coursework Required for Admission Consideration:** Applicants should have a solid background in Biology or Biochemistry, and have had significant experience in computer programming. Alternatively, a student may have a solid background in computer science and significant exposure to the life sciences, particularly genomics or structural biochemistry. Other backgrounds are considered if the applicant has broad experience across two or more STEM fields.

**Master’s Degree in Discipline/Related Discipline:** A master’s degree is not required.

**Bachelor’s Degree in Discipline/Related Discipline:** A baccalaureate degree in a STEM field is required.

**Statement of Goals:** Approximately 500 to 1,000 words include your interest in Temple's program, your computational background, your research goals, and your academic and research achievements.

**Standardized Test Scores:**

**GRE:** Required, with combined minimum score of 305 on the quantitative and verbal reasoning sections.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL IBT: 90
- IELTS Academic: 6.5
- PTE Academic: 61

**Transfer Credit:** Graduate credits from an accredited institution may be transferred into the Bioinformatics program. The credits must be equivalent to coursework offered by the College of Science and Technology at Temple University. A grade of ‘B’ or better must have been earned for the credits to transfer. The Bioinformatics Steering Committee makes recommendations to the Biology Department Chair for transferring credits on an individual basis. The maximum number of credits a student may transfer is 6.

**Advanced Standing:** A student who has completed a master’s degree at another institution may apply for advanced standing. Students are awarded varying numbers of credit of advanced standing. This differs from transfer credit in that the number of credits awarded is recorded on the transcript without specific information about the courses transferred.
The effect of having advanced standing is to reduce the total number of credits the student is required to take at Temple University.

**Program Requirements**

**General Program Requirements:**
*Number of Credits Required Beyond the Baccalaureate:* 36

**Required Courses:**

**Concentration Courses** 12

**Biological Data Analysis**
- BIOL 5466 Contemporary Biology
- CIS 5523 Knowledge Discovery and Data Mining

Two electives selected from the following:
- CIS 5002 Database Design & Programming
- CIS 5011 Programming and Data Structure
- CIS 5516 Principles of Data Management
- CIS 5526 Machine Learning

**Evolutionary Genomics**
- BIOL 5509 Computational Genomics
- BIOL graduate course in Population Genetics

Two electives selected from the following:
- BIOL 5112 Fundamentals of Genomic Evolutionary Medicine
- BIOL 5128 Genomics and Infectious Disease Dynamics
- BIOL 5241 Genomics and Evolutionary Biology of Parasites and Other Dependent Species

**Evolutionary Medicine**
- BIOL 5112 Fundamentals of Genomic Evolutionary Medicine
- BIOL 5128 Genomics and Infectious Disease Dynamics
- BIOL 5241 Genomics and Evolutionary Biology of Parasites and Other Dependent Species
- BIOL 5509 Computational Genomics

**Structural Bioinformatics**
- BIOL 5411 Structural Bioinformatics I
- CHEM 5412 Structural Bioinformatics II

Two electives selected from the following:
- BIOL 5112 Fundamentals of Genomic Evolutionary Medicine
- BIOL 5509 Computational Genomics
- CHEM 5102 Data Analysis and Evidence
- CHEM 5302 Statistical Thermodynamics

**Research Courses** 12
- BIOL 9994 Preliminary Examination Preparation
- BIOL 9998 Pre-Dissertation Research / Elevation to Candidacy

**Additional Requirements:**

All graduate-level courses must be passed with a 'B-' or better.

All Ph.D. candidates must have experience teaching at Temple University. A minimum teaching requirement of one term may be satisfied by serving as a Teaching Assistant in a Bioinformatics-affiliated department.

Attendance at scheduled departmental colloquia is required.

**Culminating Events:**

**Preliminary Examination:**
The student independently prepares a written proposal and submits it to the Graduate Committee by April 1 of the student's fourth term. The proposal should follow the general format of a postdoctoral proposal to a federal granting agency (e.g., NIH). It should include background surrounding a particular research problem, including literature related to the problem, and a detailed methodological plan for investigating the problem. The sections of the written proposal should include Title; Abstract (not to exceed 300 words); Specific Aims; Background and Significance; Preliminary Data; Experimental Design (including Rationale, Specific Methods, Interpretation of Possible Results, and Pitfalls and Alternative Strategies); and References. The preliminary exam proposal should be 15 to 20 pages in length. The research advisor is not to make direct contributions.

The Area Committee has two weeks in which to review the written proposal, and the student is allowed only one re-write. If the proposal is not accepted after the first re-write, the student is considered to have failed the exam. If the written proposal is accepted, an oral examination is scheduled through the Graduate Secretary and held within two weeks. The oral examination tests the student's understanding of the background and substance of the research proposal and her/his understanding of the area of specialization in which the research is embedded.

The preliminary examination is administered by the Preliminary Examination Committee. The student’s primary research advisor is allowed to attend but must remain silent unless called upon by the Committee for clarification or advice. A minimum of three examiners serve on the Preliminary Examination Committee. The full exam, both written and oral, is graded by the Preliminary Examination Committee, and one of the following grades is assigned: Pass or Fail. The evaluators look for a breadth and depth of understanding of specific research areas, a critical application of that knowledge to specific biological phenomena, and an ability to write a proposal in a manner consistent with scientists in the student's specialization. The student is notified of the grade the day the exam is taken. A passing grade requires a 2/3 majority of the Preliminary Examination Committee. If a student receives a grade of Fail, s/he may retake the exam one additional time. Examinations that are to be retaken must be completed before October 1 of the following academic year.

**Dissertation:**
The doctoral dissertation is an original bioinformatics study that demonstrates the student's knowledge of research methods and mastery of her/his primary area of research.

The Doctoral Advisory Committee includes a minimum of four members: three from the list of CST faculty affiliated with the Bioinformatics Ph.D. program, including the advisor, and one from outside the College of
Science and Technology. Departmental/affiliated faculty members must be Graduate Faculty or equivalent research faculty and are chosen by the student and advisor. The Doctoral Advisory Committee is to be formed within 2 to 3 months after successful completion of the preliminary examination, with the exception of the outside member who may be chosen just prior to the dissertation defense. The student may petition the Biology Department Graduate Committee to change an advisor or committee member.

The Doctoral Examination is to consist of a formal departmental colloquium open to the public, but conducted by the Doctoral Advisory Committee. The student then meets with the Dissertation Examining Committee after the colloquium for the dissertation defense. The penultimate version of the dissertation must be approved by the Doctoral Advisory Committee at least two weeks before the Graduate School deadline for submission of final copies.

The scheduling of the dissertation defense is to be arranged by the dissertation advisor. The Graduate School must be notified at least ten working days in advance. Announcements of the dissertation defense are posted around the Biology Department and the host department as well as advertised via e-mail or listserv.

Bioinnovation, P.S.M.

COLLEGE OF SCIENCE AND TECHNOLOGY

Learn more about the Professional Science Master's in Bioinnovation.

About the Program

Bioinnovation entails identification, commercialization, and dissemination of novel biological technologies, concepts, and models. The primary objective of the Professional Science Master's (P.S.M.) program in Bioinnovation is to develop a portfolio of knowledge and experience that allows individuals with a background in science, business, communication, law, and policy and regulation to pursue careers in such fast-growing fields as bioinformation, the environment, global health, pharmaceuticals and biotechnology, technology transfer, and trade. The program offers:

- extensive biotechnology and biomedical background to challenge and complement traditional thinking and applications;
- review of the translational nature of biodiscoveries through classroom instruction and direct interaction with different bioindustry professionals, including scientists, lawyers, journalists, and others; and
- development of team and matrix work routines and effective communication skills.

The Bioinnovation P.S.M. program draws on the strengths of Temple faculty in the College of Science and Technology and the Fox School of Business and Management. Program development and implementation are executed by the P.S.M. in Bioinnovation Steering Committee, which partners with Internal and External Advisory Board members and the Temple University Graduate School.

Time Limit for Degree Completion: 2 years

Campus Location: Main

Full-Time/Part-Time Status: The degree program can be completed on a full- or part-time basis. Most of the classes are offered in the evenings or on weekends to enable full-time working professionals to be enrolled in the program. International students are required to register as full-time students.

Interdisciplinary Study: The two-year program consists of a series of multi- and interdisciplinary core courses related to application of systems biology; dissemination of biodiscoveries; epigenetic and genetic applications in drug design and drug response; ethics, regulation, and policy; feasibility assessment of innovative business ideas; innovation in biomodels and concepts; management and marketing for technologists; and research and commercialization of biomarkers and biotargets. Many of the courses are writing intensive and also provide students with opportunities to sharpen their oral presentation skills. All student research projects are developed with the cooperation of Temple faculty and members of our External Advisory Board under the guidance of the P.S.M. in Bioinnovation Steering Committee.

Accreditation: Temple University is fully accredited by the Middle States Commission on Higher Education.

Areas of Specialization: Three areas of concentration are offered:

- Bioinnovation in Environment and Society
- Current Topics in Bioinnovation
- Implementation of Biodiscoveries in Health and Other Industries

Job Prospects: Official job placement is not offered, but prospects are good. The program is designed to help recent graduates obtain relevant employment as well as accelerate career advancement and/or allow career shift of currently employed professionals. Graduates of P.S.M.
programs are in high demand, which underscores the P.S.M. as an attractive career path for those who do not wish to become academic researchers or pursue a doctorate.

**Non-Matriculated Student Policy:** Non-matriculated students may enroll in a total of three courses (9 credits) with permission of the instructor and the Biology Department.

**Financing Opportunities:** Financial assistance in the form of Research or Teaching Assistantships is not offered at this time.

**Admission Requirements and Deadlines**

**Application Deadline:**

- **Fall:** March 1; December 15 international
- **Spring:** October 30

Applications are processed on a continual basis. Ordinarily, the applicant is informed of an admissions decision within four to six weeks of receipt of all supporting application documents. Late applications may be considered for admission.
