Tuttleman Counseling Services (TCS) provides mental health services to Temple's student population. Our mission is to provide culturally sensitive mental health services that support the psychological health of the diverse community of Temple students and thereby their academic success. Students are dealing with a variety of major life issues as they pursue their education. These include identity formation, relationships, affiliation, and career choices. In addition, some students come to us with prior mental health histories and medication needs.

TCS provides individual and group counseling services, and psychiatric services for students with medication needs. Psychoeducational drop-in groups, therapeutic yoga, mindfulness meditation, and the Resiliency Resource Center are resources at TCS that many students are offered and can be accessed multiple times per week. Couples counseling and occasionally family consultation are available as well at the student’s request. This foundation provides students with support and guidance for a wide variety of problems, from adjustment issues and transitory difficulties to more serious psychological problems and even severe mental illness. Whenever possible, we seek to help students avoid or reduce self-harm that may stem from making poor choices. TCS provides services in the following areas:

**Psychological Services:** Psychological Services is staffed by licensed psychologists who provide brief individual, couple, and group counseling, as well as referral, consultation, and educational workshops. Some common issues that are addressed, either individually or in groups, include:

- relationship problems
- stress, depression, anxiety
- eating disorders
- loss and/or grief
- procrastination
- shyness
- academic performance
- career decisions
- family problems
- sexuality and sexually transmitted diseases
- gay, lesbian, bisexual, and transgender issues
- racism
- sexism
- vocational counseling

The Psychological Services staff will also assist students in locating resources and other services available on campus or in the city that are specific to their needs.

**Psychiatric Services:** Psychiatric Services is committed to caring for the mental health needs of Temple University students by providing psychiatric evaluations, medication consultations, and short-term individual psychotherapy. The psychiatrist also responds to referrals from other TCS units and serves as a liaison to the Health Sciences Center. Students are seen by appointment, except in emergency situations when immediate care is required.

**CASA (Campus Alcohol and Substance Awareness):** The Campus Alcohol and Substance Awareness (CASA) program is a comprehensive program focusing on all aspects of alcohol and other drug use and abuse. The CASA program is staffed by counselors who work with students individually and in groups.

If a student is unable to be seen during our regular operating hours, we ask that they indicate this on registration paperwork and their Initial Assessment appointment may then be scheduled accordingly. After an initial assessment, students are seen by appointment except in emergency situations when immediate care is required. Services are free and confidential for all registered students. Please call 215-204-7276 for more information.
