

Reverse Transfer

Students who are one or two courses short of completing the requirements for an Associate degree approved for GenEd/Core-to-GenEd from a partner community college are eligible for Conditional GenEd (limited reverse transfer). Students will need approval from their community college to complete their Associate degree using one or two courses from their first semester roster at Temple University.

For more information, see the Conditional GenEd/Core-To-GenEd (Protocols) form at <https://undergradstudies.temple.edu/advising/forms>.
