The Bachelor of Music in Music Therapy/Jazz is designed to prepare students for entry-level clinical positions in music therapy. It is a four and a half year degree program, including post-academic clinical training. The Music Therapy clinical training continues one semester past the Second Semester of the Senior Year.

Licensure/Certification

Board Certification as a Music Therapist demonstrates that you have completed comprehensive competency testing based on your education and clinical training and that you have met an objective standard that ensures you are prepared to practice music therapy. Certification is required to practice as a music therapist in the following states: California, Connecticut, Georgia, Nevada, New Jersey, New York, North Dakota, Oklahoma, Oregon, Rhode Island, Utah, Virginia, and Wisconsin. The Certification Board of Music Therapists administers an examination that students must pass in order to become certified. Temple University's Bachelor of Music in Music Therapy and Master of Music in Music Therapy programs, both accredited by the American Music Therapy Association (AMTA), meet the educational requirements to sit for the certification examination. Students must also complete a clinical internship following graduation before sitting for the certification examination.

Summary of Requirements

The Bachelor of Music in Music Therapy/Jazz is conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 130 credits. This major requires a concentration; the available concentrations are Bassoon, Cello, Clarinet, Double Bass, Euphonium, Flute, French Horn, Guitar, Oboe, Percussion, Piano, Saxophone, Trombone, Trumpet, Tuba, Viola, Violin, and Voice.

University Requirements

- All students are required to complete the university's General Education (GenEd) curriculum.
- All students must take a minimum of two writing-intensive courses. The specific writing-intensive courses for the major are MUST 3196, MUST 3696, and MUED 4696.

Clinical Training

A total of 1200 hours of supervised clinical training is required prior to graduation.

Students must be continually enrolled in MUED 4685 Music Therapy Clinical Internship for a total of 1000 hours. A student beginning an internship in Year 4 Spring will also need to register for this in the Year 4 Summer session and possibly Year 5 Fall; credits can be distributed across semesters differently but must total 6.

Music Therapy Grades

Grades below C in any music therapy course may not be applied toward degree requirements in music therapy. All students are permitted to repeat a course one time. Students who need to repeat a course a second time must obtain the approval of the dean/designee of their home school or college and be registered with assistance. Except as permitted by this policy, no students may repeat a course a third time.

Students who have exhausted course attempts for course(s) required for their major will be required to change majors.

Program Requirements

Code	Title	Credit Hours
General Education courses		32
Music Theory		
MUST 1711	Theory I	4
