This course introduces you to basic concepts in financial accounting and managerial accounting. Financial accounting involves gathering information, summarizing it, and creating reports about an organization’s financial activities, financial performance, and financial position. Groups outside of the organization such as investors and lenders analyze this information to make decisions such as whether to invest in or make a loan to the organization. Managerial accounting involves analyzing and communicating financial information to managers, who use the information to make decisions within the organization. Specifically, the course will provide you with an understanding of (1) the nature of the accounting function, (2) gathering, analyzing, and reporting information, and (3) how the information in accounting reports is used by various decision makers in their resource allocation decisions.

Repeatability: This course may not be repeated for additional credits.

Pre-requisites: Minimum grade of C- in (any MATH course numbered 0701 to 0702, 'Y' in STA1, 'Y' in STA2, MATH 1011, MATH 1021, SCTC 1021, STAT 1001 (may be taken concurrently), 'Y' in STT2, any course with attribute "QA", any course with attribute "QB", any course with attribute "GQ", 'Y' in ST1A, or 'Y' in ST2A)
ACCT 2501. Survey of Accounting. 3 Credit Hours.
This is an introductory course that will introduce students to the fundamental concepts of financial accounting and managerial accounting. Financial accounting information is produced, in accordance with generally accepted accounting principles (GAAP). It reports the results of operations to external users (suppliers, customers, investors, regulatory agencies, etc.). Managerial accounting information is produced, in response to specific management needs. It does not follow GAAP. Managerial accounting reports the results of operations of an entity consistent with the needs of internal users (managers, supervisors, etc.). The first half of this course focuses on the accounting cycle, the structure of the financial statements, and profitability analysis. The second half of the course focuses on decision making based on accounting data. Tools for analysis and the ability to apply those tools to various data sets will be developed. NOTE: There is no expectation that students should possess prior accounting knowledge.

College Restrictions: May not be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

Repeatability: This course may not be repeated for additional credits.
