

Italian Studies BA

Overview

Apart from being the number one study abroad destination among university students, Italy's importance in the corporate world and its complimentary pairing with humanities studies make Italian the fourth most studied foreign language in the United States.

Temple University students have two options for taking a degree in Italian, offered through the Department of French, German, Italian and Slavic: a traditional Bachelor of Arts in Italian that focuses on learning Italian language through the advanced level, or a **Bachelor of Arts in Italian Studies** that focuses on learning Italian language through the intermediate level and includes more major electives in Italian culture but taught in English or Italian. Both majors are interdisciplinary programs of study that, in addition to being built on requirements of language proficiency and core knowledge of Italian literary history, places strong emphasis on cultural, global and national identity studies. An additional learning goal for students of Italian is to demonstrate understanding and appreciation of cultural perspectives and practices in the Italian-speaking world. The program's methodology is based on a communicative approach coupled with technology-based student engagement practice to enhance the students' language retention, level of competency, and proficiency, as well as to provide a window into Italian culture. The transferable communication and critical thinking skills acquired by the program prove invaluable to employers of liberal arts graduates.

Students who major in Italian Studies are seeking a combination of the language acquisition skills developed through the intermediate level Italian along with their interest in Italian culture and history. Many courses are offered that are related to Italian culture, but the courses are conducted in English and wouldn't normally fulfill the requirements of the traditional Italian major. Courses in Classical Culture, Art History and History may be combined with the Italian language courses for this major.
