

Dental 3+4 Program

Overview

The seven-year Bachelor of Arts in either the Biology or Chemistry major and Doctor of Dental Medicine is a combined program between the College of Science and Technology and the Temple University Kornberg School of Dentistry.

The program is designed for high-achieving students. Students must apply through the Office of Pre-Professional Health Advising.

Students must meet the admissions requirements for early admission to the Temple University Kornberg School of Dentistry. The 3+4 option is only with Temple University Kornberg School of Dentistry. If interested in applying to other schools, students will need to follow a 4+4 option.

Guidelines for Completion of the Bachelor of Arts Degree in the College of Science & Technology

- College of Science and Technology students may count up to 33 equivalent credit hours from the first year at the School of Dentistry as equivalents of upper-level or overall total credits within the College of Science and Technology (CST), the College of Liberal Arts (CLA), and/or the College of Engineering (ENG).
- Appropriate course sequences for either the Biology or Chemistry major offered by the College of Science and Technology will be available in the Center for Academic Advising and Professional Development (Tuttleman Learning Center, Suite 111) or Pre-Professional Health Advising (Mitten Hall, Suite 110) and will be shared with prospective and current students.

Academic Plan

Individual academic plans will vary based on previous course work, AP credits, performance on University placement assessments, and the specific undergraduate major. Students who qualify for the 3+4 program will develop an individual academic plan with their CST Academic Advisor and Pre-Professional Health Advisor during their first year at the University.

Students can reference the specific timeline of prerequisite coursework for the Dental School through the Office of Pre-Professional Health Advising.
