

Chemistry, B.S./M.S.

The +1 Bachelor of Science and Master of Science in Chemistry is an accelerated program within the College of Science and Technology. This program allows a talented student to obtain a master's degree in one additional year after completion of a bachelor's degree. A chemistry major may apply for the program prior to the junior or senior year. Interested students should contact their advisor for details about the application process and required approvals. For more information, see the following program pages: Chemistry B.S. and Chemistry M.S.
