| CIS 2004  | Sci+Tech Scholars Seminar  

Only students in the Sci+Tech Scholars program may take the 1-credit CIS 2004 course each semester for three semesters and substitute the 3 combined credits for one of the required electives. Sci+Tech Scholars students would then need to choose two additional electives from the list to complete the three electives requirement.

Total Credit Hours: 19-20

A 3000-level CIS course may replace one of the courses above with faculty advisor approval. CS majors who want an IS&T minor must take CIS 2109, CIS 3309 and a 3000-level IS&T course distinct from the CS courses (selected with IS&T faculty advisor). If a student has taken CIS 4331, that student may not take CIS 2109 and will need to see the faculty advisor for a replacement course.
