

Natural Sciences Minor

Overview

Modeled after the existing Natural Sciences bachelor's degree programs, the **Minor in Natural Sciences** is available to students from both the College of Science and Technology (CST) and other colleges. For students outside of CST who have previously taken a small number of CST classes either for their major or to gain exposure to one or more of the natural science disciplines, this minor offers opportunities to explore further and gain a natural science credential. For CST students switching programs to another college, the Natural Sciences minor allows them to document completed science coursework.
