

Biology with Teaching, B.S.

Learn more about the Bachelor of Science in Biology with Teaching (<https://www.temple.edu/academics/degree-programs/biology-with-teaching-major-st-bitc-bs>).

The B.S. with Teaching in Biology is part of Temple's innovative "TUteach" secondary education teacher-training program. The B.S. with Teaching provides broad training in Biology, and prepares students for a career in secondary school teaching. The education courses in the B.S. with Teaching include supervised teaching in school district classrooms and emphasize inquiry-based approaches to learning. Students in the B.S. with Teaching degree program become *eligible* for a Pennsylvania teacher certification when they complete all the requirements for the degree that include theoretical and practical courses in education specifically designed for science and mathematics majors. In order to be *recommended* for Pennsylvania teacher certification, students must graduate with:

1. a B.S. with Teaching degree
2. meet GPA and testing requirements of the state of Pennsylvania.

Students will be scheduled once each semester to meet with the TUteach advisor to insure that students have knowledge of academic programming, internships opportunities, and testing options that include test preparation. The state of Pennsylvania has specific candidacy requirements. The TUteach advisor will also help the students complete and submit the candidacy documents. All students joining the program in their freshman year must complete the PAPA examination or acquire the PAPA waiver within their first 72 credits. Transfer students, from within Temple and those from other institutions, will build a tailored program with the academic and testing benchmarks structured for efficient degree completion with the TUteach advisor. Finally, students are encouraged to complete the appropriate PRAXIS II examination prior to student teaching.

Summary of Requirements for the Degree

1. University Requirements (124 total s.h.)

- MATH 0701 (4 s.h.) and/or ENG 0701 (4 s.h.), if required by placement testing.
- All Temple students must take a minimum of two writing-intensive courses at Temple as part of their major. Following is a list of courses that can be used to satisfy the writing-intensive requirement:

Code	Title	Credit Hours
BIOL 2296	Genetics (S)	
BIOL 3096	Cell Structure and Function (F)	
BIOL 3396	Scientific Writing for Biology: The Art of Communicating	
PHIL 2196	Perspectives on Science and Mathematics	
SECE 3796	Differentiated Literacy Instruction in the Disciplines, 7-12	

- Students must complete the General Education (GenEd) requirements.
 - See the General Education (<http://bulletin.temple.edu/undergraduate/general-education>) section of the *Undergraduate Bulletin* for the GenEd curriculum.
 - Students who complete TUteach majors typically receive a waiver for 1 Human Behavior (GB), 2 Science & Technology (GS) and 1 Quantitative Literacy (GQ) GenEd courses.
 - Students must satisfy general Temple University residency requirements (<http://bulletin.temple.edu/undergraduate/academic-policies/academic-residency-requirements>).
2. College Requirements
- 90 credits within the College of Science & Technology (CST) or the College of Liberal Arts (CLA).
 - 45 Upper Level (2000+) credits within the College of Science & Technology (CST) or the College of Liberal Arts (CLA).

3. Major Requirements for Bachelor of Science (91-94 s.h.)¹

At least 9 courses required for the major must be completed at Temple. At least 5 Biology courses and 3 Education courses must be completed at Temple. Though not required, students are strongly encouraged to increase training and field work experience by enrolling in SCTC 1385, SCTC 2385, or SCTC 2389. Students will also benefit from directed laboratory projects offered through SCTC 3185. These courses are offered every semester.

¹ The certification requirements need to meet Pennsylvania Department of Education standards and are subject to change. All students are strongly recommended to check with the TUteach Advisor in the College of Science and Technology, to affirm the requirements that pertain to their specific major. In addition, students should check the *Undergraduate Bulletin* web site for the most current information about these programs or the TUteach web site (<http://cst.temple.edu/academics/accelerated-programs/tuteach>). It is also recommended that all students meet with an advisor before enrolling in classes specific to these majors and leading to certification as a teacher. This is to assure that a candidate's intended program of study will be compatible with the new requirements.

² See course descriptions for exceptions.

³ All students are required to take a minimum of one credit.

Note: A grade of C or higher in CHEM 1031 and CHEM 1032 is required to take BIOL 1111 and BIOL 2112. A grade of C or higher in BIOL 1111 and BIOL 2112 is required to take upper-level Biology courses, and a C- or higher is required unless otherwise specified in all other courses for the major, including course prerequisites. BIOL 3091 is not available for major credit.

Calculation of Major GPA

Courses listed under the major requirements for the degree will be included in the calculation of the major GPA. Courses that could not apply toward the major as an elective or required course would not be counted in the calculation of the major GPA. This would include BIOL 1011, for example.

Distinction in Major

To graduate with a Distinction in Biology with Teaching, students must meet the following requirements:

1. Achieve a 3.50 GPA or better for the aggregate of courses required for the B.S. in Biology with Teaching.
2. Achieve a 3.20 GPA or better in the Biology coursework.
3. Achieve a 3.90 GPA in the following courses:

Code	Title	Credit Hours
SCES 2189 or SCTC 3485	Classroom Interactions Science and Mathematics in the Classroom	3
SCES 4189 or SCTC 4485	Project-Based Instruction Integrating STEM Practice in Diverse Teaching Environments	3
EDUC 4802	TUteach Apprentice Teaching Seminar	1
EDUC 4388	TUteach Apprentice Teaching	6

4. Write a final research paper either in a topic combining both major content and pedagogy or a topic focused on research in Biology. They must present their research for evaluation and present at a departmental research poster session before graduation. Consult the undergraduate TUteach advisor for more details.
